NEW YORK HAS \$25,000,000 IN NEW THEATRES

But Housing Situation Is Getting More Acute — 650 Play Houses Now in Metropolitan.

New York, July 27.—Millions are being spent for new playhouses to insure New Yorkers ample amusement this winter, although flat builders cannot get loans for housing the masses of the metropolitan district.

This was revealed today when a survey was made of the rush of theatre constructions, which disclosed that \$25,000,000 worth of new amusement houses were under way.

Many of the new playhouses are being put out of doors and are being erected in places where there is a shortage of housing.

The theatre builders assert that the immense sums pouring into places of amusement are justified as the new construction guarantees them a profitable return on the investment.

Although there are 500 running theatres in the greater city and 650 in the entire metropolitan district, eight new theatres costing more than \$12,000,000 are planned in Long Acre-Times Square district, three in Greenwich Village, four large houses and a score of smaller theatres in the Bronx, three in Washington Heights and five in Brooklyn.

There are now 113 theatres operating in Brooklyn.

BATHURST IS WATCHING US

That Town Also Wants Campaign for a Big Hotel.

(Bathurst Northern Light) The campaign now in progress in the city of St. John, having for its object the securing of the funds necessary to build a large and modern hotel in that city, is being watched with keen interest by Bathurst.

From the information being supplied while the campaign is going on, it would seem that conditions in Bathurst are very similar to those now existing in Bathurst, and it is a fair inference that the success of the project there will encourage some of our prominent men to promptly proceed on a like campaign here.

As things are now, the hotel accommodation in Bathurst is entirely insufficient to meet the ever increasing demand, and the progress of the town is being seriously retarded by this condition of affairs.

A plan for the erection of a large and modern hotel in Bathurst is being suggested by several progressive citizens at different times, but for different reasons has never reached the point where practical steps have been taken to bring the plan to fruition.

Bathurst is losing heavily each year by visitors, and the time seems opportune for the introduction of definite action along the lines now under way in St. John.

Sydney Extends Canada's Welcome To Members Of Imperial Press Conference

Party Landed at Steel City This Morning

Tour of Steel Mills Is Followed by Civic Luncheon — Many Telegrams of Welcome — A Delightful Trip Reported.

Sydney, N. S., July 27.—At least one newspaper woman nearly a hundred men and publishers, and the ladies of their families were given a royal welcome to Canada as representatives of the newspapers of the British Empire when they landed in Sydney this morning from the S. S. Victorian.

A number of the ladies are remaining on board and will await the main party at Quebec city, where they will disembark.

The party landed under a cloudless sky at the pier of the Dominion Iron and Steel Corporation here, having left the Victorian in mid-stream and crossed the harbor in launch.

The delegates went at once to the plant of the Steel Corporation, for a tour of the mills. Three hundred people sat down to a luncheon given by the city of Sydney to the visitors, at which Viscount Buxton, president of the conference, responded to the speech of welcome.

A tour of sight-seeing around the north and south coast awaits the party. Telegrams of welcome continue to pour in this morning and practically every community is represented in the expressions of welcome and friendly interest in the conference, the second of its kind, the first having been held in 1899 in London, Eng.

Had Fine Trip. Sydney, N. S., July 27.—The long broad belt of deep blue water, with its background of rich woodland and its undulating landscape, was indeed a sight to arouse enthusiasm. The delegates reported a delightful rest and refreshment on every hand of a keen eagerness to land and become acquainted with Canada and its people.

Lord Buxton, hale, hearty and as genial as ever, was the first to meet the delegates and cordially responded to the hearty welcome extended to him and his colleagues by the honorary secretary of the conference, Mr. J. H. Gray.

As Hiram Sees It

"Look-a-here!" said Mr. Hiram Hornbush to the Times reporter, "I hadn't heard you talk about that there some end playground for quite a spell. All fixed up now—ain't it? Kids bevin' a great time—'spose."

"I'm glad you mentioned it," said the reporter. "Nothing has been done. But I have hopes. I have a date there this evening at seven with a number of ladies and the following gay young blades:—Potter, Frank Olive, Charlie Lingley, Dave Puddington, Frank Wink, and a few old fellows to prevent these youngsters from working themselves to death. We are going to make one more effort to get that order made, and a running track, and a jumping pit—and a few other things. We really don't care if you don't care, but that queer expression. Rome wasn't built in a day, and it has taken the south end people of the south end as far as we are now. Oh, we're in deadly earnest. We mean to finish that playground 'til it takes another generation of whole-hearted, self-denying, slab-sided, red-footed, parrot-toed, lantern-jawed—"

"Hold on there," said Hiram, "you're gittin' sort mixed up. What you was sayin' was that the good Christian people of the south end had been readin' in the Good Book that by their fruits ye shall know 'em, and they'll be here this tonight. Aint that it?"

"If you have time to run down this evening," said the reporter, "you may like to see the new playground. Bring your shovel."

ELECTION CENTRE OF INTEREST IN N. S. TODAY

Campaign Closed Quietly Last Night — One Hundred Candidates for Forty-Three Seats.

Halifax, N. S., July 27.—(Canadian Press)—The electors of Nova Scotia are deciding today whether Premier George H. Murray, victor in every provincial election campaign in Nova Scotia since 1896 is to be given another lease of power, with a clear Liberal majority in the next house of assembly, or whether the province is to be afforded the opportunity of trying out the group form of government.

Altogether one hundred candidates are in the field for the returns of the presiding officers. Of these forty are Liberals, thirty Conservatives, fourteen Farmers, eleven Labor, two Labor-Farmers, one Soldier and one Independent. The Liberals have full tickets in sixteen of the constituencies and a single candidate in another. The Conservatives have full tickets in twelve constituencies and a single candidate in three. The Farmers are represented in ten constituencies and Labor in six.

Forty-three seats are to be filled. As a result of the last election in the summer of 1916 the Liberal forces headed by Premier Murray, elected thirty-one members and the Conservatives twelve, which represented a considerable change from the previous election. There have been no actual by-elections. Hon. H. H. Winkler, upon being named commissioner of highways, was unopposed in Kings and no attempt was made to fill the seven vacancies which have developed because of the death or resignation of the members involved, since the election of the last house.

The campaign which was brought to a close last night was chiefly remarkable for the lack of interest it aroused among the general public.

MERGER OF PULP INTERESTS IS RUMORED

Northcliffe Interests Said to Be Negotiating Purchase of Large Quebec Plant.

Quebec, July 27.—The Quebec Telegraph stated yesterday: "Many rumors are current relative to the merging of several of the largest pulp and paper manufacturing companies. The names of several of the biggest companies on the St. Maurice River, as well as that of Price Bros. of Quebec, has been mentioned in connection with the merger of interests. Nothing definite has been divulged to warrant the truth of these rumors. However there is reason to believe that the Northcliffe interests are negotiating for the purchase or have completed the details of one of our largest pulp and paper manufacturing concerns on the North Shore. The details, it is expected, will be finally arranged upon the arrival of the Imperial delegates who will be here shortly.

RAILWAYMEN IN CANADA TO GET THE INCREASES

Scale Granted to American Men Will Be Applied to Grand Trunk Employees Within Fortnight — Settlement Soon in C. N. R. Negotiations.

Ottawa, July 27.—(Canadian Press)—The Journal today publishes the following:—The schedule of wage increases granted to United States railwaymen will be applied to the Grand Trunk system throughout Canada within the next two weeks, according to information from high officials of the company given to representatives of the men's brotherhoods, following the announcement of the award of the United States labor board in Chicago last week.

An Early Settlement. Winnipeg, July 27.—"Prospects for an early settlement of the negotiations between the Canadian National Railways and the Canadian Brotherhood of Railway Employees look bright," declared H. P. Lawrence, general chairman of the Western Lines grievance committee, yesterday.

Mr. Lawrence, H. Minchin, Calgary; R. Dykes, Saskatoon, and other members of the committee arrived here Saturday from the east. More than 12,000 men will be affected by the new schedule.

THEIR ERRAND WAS OF THE "WILD GOOSE" VARIETY

The astonishment, peace and quiet of the suburban colony of Pandemic was rather rudely disturbed last night when it was noted that four of her daughters had been swooped down upon and gathered into a large touring car and borne away on the wings of the night.

The piteous moon looked stolidly down upon a hillside, peaceful rural stage-setting and registered mileposts at the antics of the excited populace. The shades of night had fallen but a short time since when a phantom car rushed along the road and came to an abrupt stop. Just previous to its arrival a number of girls had been seen on the road and after it had resumed its course, the girls were nowhere to be seen. There were, therefore, that they had been kidnapped—abducted. Immediately the scene was transformed into one of fierce action. A dash was made for the nearest telephone and city police headquarters were communicated with. Two detectives boarded the "Misery Charlie" that had been the scene of so many wild joy-rides and casting all thoughts of danger aside rushed madly to the rescue. Upon arrival they put their informants through a grilling cross-examination and girded themselves for the battle. In the meantime the innocent cause of all the excitement, the four young maidens, returned to the bosom of their several families, thus cruelly dashing the hopes of those ambitious ones who had had visions of a hot chase, a sharp conflict and a thrilling rescue. Somebody is always taking the joy out of life.

Toronto Printers Ask for Conference with Publishers on Wage Scale.

Toronto, July 27.—With a view to obtaining an increase in pay the printers employed on the Toronto newspapers recently asked the publishers for a conference to discuss the question, but were told it could not be granted till next week.

A mass meeting of about 800 printers was held yesterday, when it was decided to present the publishers with a list of demands for a conference. It is understood that the publishers forty-eight hours to decide on further procedure. The scale of wages set some time ago was \$27 a week for day work and \$29.50 for night work. By degrees this has been advanced in the form of bonuses until at present the pay is \$36 a week for day work and \$38.50 for night work. So far the printers have not made public the amount of increased pay they think they should receive.

Time Up Today But Trucks Not Yet Arrived at Paris.

London, July 27.—The Turkish delegates will sign the peace treaty today owing to their inability to reach Paris in time. A rather apologetic note from the Constantinople government to the British foreign office yesterday said that traffic interruptions, which probably were the result of military operations, precluded the delegates arriving within the time limit, given Turkey by the Allies to sign the treaty, which expires today.

LIQUOR RETURNS IN B. C. SHOW DECREASE

Victoria, B. C., July 28.—The effect of the amendments to the British Columbia prohibition act have had upon the sale of liquor at various official vending stores is reflected in returns for the month of June given out by the prohibition commissioner, which shows a decided drop.

During the month sales in Vancouver amounted to \$12,257, as compared with \$14,222 for the preceding month. In Victoria liquor to the value of \$8,248 was sold by the vendor in honoring medical prescriptions, as against \$26,705 in May. Similar results are shown in other towns and cities of the province.

HUGE SLAB OF SILVER ON WAY TO TORONTO

Nothing So Big and Rich Has Come Out of North Country Since the Early Days of Cobalt—Runs Seven Thousand Ounces to Ton in Silver.

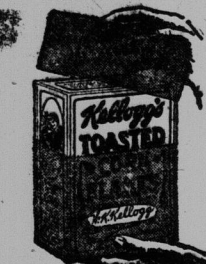

Cobalt, Ont., July 27.—On Friday morning there was unloaded at the Elk Lake Station a slab of silver from the Miller Lake-O'Brien that filled a wagon. This slab is forty-two inches wide and runs 7,000 ounces to the ton in silver. It is going to the Royal Museum at Toronto. Nothing so gloriously big and rich in the way of silver has come out of the North country since the early days of Cobalt. As news of its fillets through the country, people with interest in Gowganda are enthusing to fever heat. This week the Northern Miner, Cobalt, had extremely reliable information to the effect that the Miller Lake-O'Brien had made a very rich strike on the 460-foot level. It is presumed that this rich slab is from the new find, but O'Brien officials, following their well known policy of reticence, refused to affirm the report. Likewise, they do not deny it. The Northern Miner's information comes from sources that have never been mistaken in the past, and that have a good acquaintance with what is going on at the Miller Lake-O'Brien.

The figures of width and value of the slab of silver did receive official confirmation from an O'Brien official, however. The big piece of vein matter was loaded on a freight car at Elk Lake Friday morning and should pass through Cobalt Saturday. The ore is almost one-quarter silver. If it be true that the new vein is three and a half feet wide and one-quarter silver, then a great renaissance of interest in Gowganda is certain.

and other ecclesiastics. Funeral looking carriages drawn by black horses conveyed the cardinals to and from the functions at St. Peter's or to their visits to the Pontiff in the Vatican palace. Now several of the cardinals, including the English cardinal, Gasquet, have motor cars which convey them everywhere. Not so long ago the attendants in Elizabethan ruff and doublet and sword who marshal the spectators to their places in the great Vatican functions, did not allow the use of opera glasses to watch the wondrous scene. At the canonization of Joan of Arc a body of photographers were permitted to be present who took a film of the whole ceremony, so that when these picturesque historic processions no more occur, this reproduction will recall it.

VERY LARGE CROWDS SEE IMPERIAL'S SHOW

"My Lady's Garter" is British Story of High Order—The Yacht Races a Good Feature — Mixed Programme Pleases.

With actual movies of the second and third races in the international series—one of them showing the Shamrock in her clean-cut victory—a splendid British story of feature quality, St. John included in the news of the Fox Weekly and those funny Topics of the Day, not to mention Burton Holmes' traveltalks entitled "Strasbourg Re-deemed", the Imperial attracted many yesterday and purveyed a truly entrancing two hours of edifying enjoyment. It would be a severe critic who could not be pleased with the programme complete. The pictures of St. John showed the crash in the railway depot when the roof caved in on top of a train.

"My Lady's Garter", the leading picture, is a fiction by the late Jacques Futelle that breathes the very air of London and things English, even back to its historical scenes when King Edward III accidentally instituted the Order of the Garter in picking up the stocking fastener of the Countess of Salisbury during the royal dance. Maurice Tourneur, that master director and highly intelligent historian and litterateur, built up the pictorial recital with some upon scene of most infinite historical detail and modern fact. The British Museum where many of the priceless jewels of history are stored, glimpses of the inner offices of famous Scotland Yard, headquarters for Britain's police experts and delightful coun-

try vistas and estates, water scenes and the luxury of the elite of English citizenship, all were shown in all fidelity impressing the watcher as artistic things always do. The fiction is woven around the theft of the original Garter from the British Museum. The historical pictures are introduced through the lecture or guide who pilots sightseers through the Museum—what is known to the picturing profession as a "wax-tite". A noted thief known as "The Hawk" is accused of the crime and all the brains of British and American detective circles are employed to run him down. Then a love tangle is created in which this "Hawk" fellow is a handsome suitor. Tangle follows tangle, but everything ends all right. Not, however, before the watcher is raced around England a lot and treated to a feast of good acting by stunning people. Today and tomorrow the same excellent bill of fare will be on at the Keith house. It is really top bad that so many good things happen in the summer time when a large proportion of the regular patrons of the house are in their country abodes but for all this the attendance yesterday was unusually large. The fact that "My Lady's Garter" is booked for three days, makes it possible for many to see it who otherwise could not make their plans coincide. On Wednesday the Imperial's miscellaneous seals will be changed, presenting the Canadian Pictorial and Kinograms magazine. Thursday Sir Gilbert Parker's well-known Canadian story, "The Light of Way" will be the Imperial's feature. Bert Lyell playing the leading role. This is a Metro superfeature. Patsy Arbuckle will appear in the same bill in his funniest of all comedies entitled "The Garage."

BOY IN CHAINS FIFTEEN HOURS

Mother and Brother of Indianapolis Lad Accused by Neighbors.

Indianapolis, July 27.—Andy Deuser, 12 years old, is in the detention home at his own request, and his mother, Mrs. Rose Deuser, and brother, Louis, twenty, face court charges as a result of a charge by neighbors that the young boy had been chained to a post in a barn and made to stand there for more than fifteen hours.

According to the charges, Louis Deuser chained Andy to the post in the afternoon and he was so confined until boy friends released him the following morning by filing the chain links. The lad was secured so well that he could not lie down, it was said. Louis Deuser, according to the police, said he chained his brother, as punishment for running away. It was said Mrs. Deuser gave her son only a crust of bread for breakfast after he had been exposed all night and did not release him. Andy stayed away from home after being released by his friends until the police took a hand. He asked not to be taken home, according to the police. Louis Deuser is charged with assault and battery, and Mrs. Deuser has been instructed to appear in the juvenile court on the charge of child neglect.

of Buffalo, is complying with the terms of the policy. Thurman died in action overseas. The facts in the case came out when Mrs. Mitchell sought to have Knipflow state guard in the armory here. She said Thurman was much attached to the horse and having near relatives who would suffer through his death, he decided to provide for the animal's care in case he did not return. The surplus above the cost of the horse's keep goes to Mrs. Mitchell. The accused said he had three boarders, but the fourth was a lunatic and he had kept him from mere charity. He said he had never sold any liquor and the liquor found was used for religious purposes. The case was postponed until Thursday afternoon. W. M. Ryan conducted the prosecution and E. S. Ritchie appeared for the defence. A case against Chester Myles, charged with stealing a ride on the train and also with the theft of \$166 from a man on the train was also resumed. The accused said he had not paid any fare from Campbellton as he had the permission of the sleeping car conductor to stay in the car. The case was postponed. E. S. Ritchie appeared for the defence. THE VOICE OF AUSTRALIA.

The premier of Australia has declared Archbishop Mannix does not voice the sentiments of Australia. An Australian writing to the New York Times says—
"I wish to emphasize the fact that Archbishop Mannix is not an Australian, nor does he in any capacity, officially or unofficially, represent that country. I think it is opportune to bring before your minds the fact that Australia is a self-governing commonwealth, free to make and enforce her own laws, and it was not found necessary during the progress of the World War to enforce censure on her people, but, on the contrary, they were proud of the opportunity to display their patriotism to their mother country, and how they acquitted themselves of this responsibility is now a matter of history. Australia is known throughout the world for its democracy, its freedom of religion and the co-ordination of its people. All this has been made possible under the protecting hand of British justice and fair play. Every Australian is filled with pride to be considered a member of a nation which stands for these two great principles, and should the occasion arise Australia would be just as willing to take her place beside the mother country as she did during the last great war."

ACERAGE IN CROPS.

The last Ottawa Bulletin of Agricultural Statistics enables us to make interesting comparison of the estimated acreage under different crops in the maritime provinces. As given the figures are:—

	N.B.	N.S.	P.E.I.
Spring wheat	30,800	27,500	176,300
Oats	508,200	105,200	174,800
Barley	9,800	13,500	5,600
Rye	800	1,000	400
Wheat	4,200	1,800	400
Mixed grains	5,200	8,600	19,700
Hay and Clover	778,300	671,000	237,900
Potatoes	76,900	61,400	38,800

It is also interesting to compare the acreage in Ontario and Quebec, as follows:—

	Ontario	Quebec
Spring wheat	343,100	246,000
Oats	2,754,000	2,220,000
Barley	222,200	222,200
Rye	128,000	32,800
Wheat	119,600	79,200
Mixed grains	628,900	109,200
Hay and Clover	3,403,000	4,342,400
Alfalfa	139,500	27,900
Potatoes	147,800	318,600

The western provinces have a smaller acreage in potatoes this year than last, the figures being—Manitoba, 39,900 acres; Saskatchewan, 65,500 acres; Alberta, 41,700 acres, and British Columbia, 11,200 acres. The wheat acreage of the prairie provinces is—Manitoba, 2,563,000 acres; Saskatchewan, 4,222,900 acres; Alberta, 3,516,400 acres. Manitoba has 1,884,200 acres in oats; Saskatchewan, 4,034,500 acres, and Alberta, 2,758,000 acres. Saskatchewan also leads in acreage in barley and rye, and is thus the banner grain province.

A Washington despatch says—"The cost of food in New York city for the fiscal year ended June 30 averaged an increase of 17 per cent. over the prices which prevailed during the fiscal year ended June 30, 1919. Since 1918 the food cost in New York city has increased 114 per cent. The greatest increase has been for potatoes, which since 1918, have advanced 618 per cent. Sugar is second with an advance of 485 per cent. The highest percentage of increase in food-stuffs is in Detroit, where the prices have jumped 189 per cent. In Chicago, Cleveland, Pittsburgh, Baltimore, Kansas City, Milwaukee, Minneapolis, Indianapolis, Omaha and other cities the increase has been greater than in New York."

The members of the Imperial Press Conference have arrived in Canada. A cordial welcome awaits them everywhere. The unity of the Empire will be demonstrated by the heartiness of the greeting extended. They come at a season which will enable them to see the country at its best, and what they see will be communicated to the readers of British newspapers, spreading more widely the message Canada desires to send to thirty men and women seeking homes in a new land. The visitors need no information regarding the spirit of the Canadian people. The war revealed that spirit, and the visitors cannot but feel themselves at home anywhere in the Dominion.

Premier Lloyd George has announced that Archbishop Mannix, who told a New York audience he recognized only the flag of the Irish republic, will not be permitted to land in England. The premier has also denied the report that the government is opening negotiations with the Sinn Féin. He has also announced that the Irish government bill will be pressed through parliament. The tenaciousness of the situation is in no sense relieved except that a semblance of order appears to have been restored in Belfast.

Lloyd George said yesterday: "I am very hopeful of peace." Usually the hopes of the prime minister are fairly well founded. Russia and Poland appear to be nearer an understanding that would terminate hostilities.

The Toronto Telegram is evidently not convinced that harbor commission made Premier Meighen enthusiastic over Montreal harbor. It says—"Canada is notified that the country's premier, Rt. Hon. Arthur Meighen, viewed Montreal harbor and pronounced the outlook delightful. All the horizons of Montreal harbor were delightful in the sight of Mr. Meighen and could only be improved by Hon. W. L. M. King, Ernest Lapointe, M. P., Jacques Bureau, M. P., and other oppositionists were over their heads in the depths thereof."

If Villa surrenders, as now seems probable, the Mexican situation will be improved. President Huerta appears to be laboring for the real good of his country. His task is the greater because of past misgovernment, and the ambition of the countless generals, and the mental attitude of the people toward all governments.

The Brandon Chamber of Commerce has sent out a questionnaire to learn whether the citizens favor one campaign a year to raise funds for all benevolent purposes, instead of the frequent drives for the benefit of this or that institution. This matter has been urged in St. John several times without any result.

This is election day in Nova Scotia. There will be unusual interest in the results as an indication of the extent to which the farmers' movement has made itself felt in that province. Ottawa is especially interested in Colechester, where Hon. P. B. McCurdy must shortly contest a by-election.

New Brunswick last year produced for sale 40,000 barrels of apples while Nova Scotia produced 1,000,000 barrels. And yet New Brunswick can raise, as good apples as Nova Scotia. Why is there still so great a difference in the production?

The army of harvesters will soon be going west again, and some will doubtless remain. The lure of the west is still one cause of the slow growth of population in the eastern provinces.

Halifax will breathe more freely at the announcement that there will be no sympathetic strike in behalf of the marine workers. The latter, however, remain out.

The welcome sight of men at work on Prince William street preparatory to laying a new surface greeted the citizens this morning. The work cannot be completed too soon.

The weather indications at Sandy Hook early today suggested another drifting match instead of a yacht race, but conditions may improve.

This is the kind of weather the haymaker has been looking for. With a light crop he needs to house it in good condition.

ASYLUM INMATE KILLED IN BATTLE WITH GUARDS

Three Attendants Wounded When Two Insane Patients Attack Them with Knives.

Bridgewater, Mass., July 27.—One inmate of the Bridgewater State Farm was killed and three attendants were severely wounded with knives during an outbreak by inmates of the violent ward, Lloyd Kingdom, a negro inmate, who was shot and killed by officers.

Edwin Kingsley, George Gardner and Fred Bowles, the attendants who were slashed, were in a serious condition tonight with body wounds. Antonio DiSera, who was associated with Kingdom in the outbreak, was captured unharmed.

The trouble occurred when thirty inmates of the violent ward were being let into the yard by Kingsley and Gardner. All but Kingsley and DiSera had gone out, when two turned upon the attendants and slashed them with knives. Bowles came to the assistance of Kingsley and Gardner and in turn was slashed.

Kingdom and DiSera fled upstairs to a ward room where they were surrounded by hospital attendants and prison officers. In a few minutes they made a dash for the stairs. They refused to halt and it was then that Kingdom was shot.

Kingdom was serving a seven years sentence for breaking and entering. He was committed here from the state prison at Charlestown. His sentence would have expired next November. DiSera is serving a life sentence for murder.

Mexican Oil Situation. Mexico City, July 26.—Attorney M. G. Villiers, of the Transcontinental Company, and Rodolfo Montes, of the Eagle Company, a British-owned corporation, have been named by the foreign oil interests as a committee on publicity as a result of the recent flood of statements on Mexican petroleum legislation situation from government sources.

The oil question again is exciting much attention, although it generally is believed here that final action on what the foreign oil interests charge was Carranza's confiscatory measures will be left by the present day government to the administration which will be elected September 6.

AFTER CONVENTIONS

Historic now the great inventions, at which our fagorn statesmen raved; both parties reek of those intentions with which the Hades' streets are paved. Both parties frown on those abuses which make our lives one long ordeal, and both would cook the sinful gooses of profiteers who gouge and steal. I listened to the keynote speeches, applauded when the stunts were done; "of all the pebbles on our beaches," I mused, "these stunts take the bun." I'm glad our woes will soon be over, all finished on election day; oh, then we'll wade around in clover, and raise our glad hurroo, hurroo! Both parties give their sacred promise to cure all evils they can reach; for one I am no doubting, bawling and erasing, might think its aspect no disgrace, to then I drink two brimming beakers of tangle-foot (a home-made brew); I reward their gifted keynote speakers and know just what they plan to do. Dominion Happenings of Other Days

FORT WILLIAM

The tourists who pass up the Great Lakes of Canada every summer find a city of beauty and great business interests at the head of the lakes. It is the city of Fort William, visited annually by thousands. At the place where the first description of the description given of the same section 100 years ago, a French fur trader, given the first description of Fort William that is in existence. In 1810 he left New York in the employ of the Astor Fur Company and after rounding the cape came to the Pacific coast in search of skins. On his return journey he crossed the Rocky Mountains, floated down the Saskatchewan, crossed Lake Winnipeg and passed homeward by way of Lake Superior in 1814. He says that Fort William was built in 1805, when the Northwest and the X. Y. companies united, and that it was named in honor of Hon. William McGillivray, then head of the federal cabinet, the provincial lieutenant-governors and premiers, presidents of boards of trade and mayors, Sir Arthur Currie, Sir Lomer Gouin, President Beatty of the C. P. R., and scores of prominent men throughout the Dominion, joined in extending welcome to the delegates and appreciation of the significance of the Imperial Press Conference. Hon. Arthur Meighen, prime minister of Canada, on behalf of the government of Canada, said:—

"I cordially welcome the delegates to the Imperial Press Conference to this Dominion. I invite you to make during your visit an investigation of Canadian resources and conditions as complete as the time at your disposal will permit, and I assure you a hospitable greeting and a warm appreciation of the high purpose you have in mind from the people of Canada. The stage of information which you will acquire of this country and which through your people will learn in other parts of the empire cannot fail to be of great advantage to all."

Hon. C. J. Doherty, minister of justice; Hon. Sir James Lough, Hon. F. E. Blundell of the federal cabinet; Sir Chas. Fitzpatrick, Hon. L. A. Taschereau, Sir Lomer Gouin of Quebec; Hon. Bernard and the members of British Columbia, and Hon. T. C. Norris, Manitoba, were among the senders of good wishes for the success of the conference. The delegates landed from Sydney North Sydney, Sydney Mines, and Glace Bay signalled the first formal meeting of the town, the civic luncheon in Sydney. Lord Bunsen as chairman of the conference, acknowledged the mayor's speech of welcome.

Messages of welcome continued to arrive during the forenoon. Reply From Party.

Halifax, N. S., July 27.—In response to a message of welcome from the editor of the Morning Chronicle, despatched by wireless to the steamer Victorian, the following radio was received last night from Sir Edmund Head, president of the Empire Press Union:—
Radio via North Sydney.
In November, 1918, he was ordered to Russia to assist in the reorganization of the railways on the Murmansk front. Following the occupation of the north Russian front, Colonel Stibbard was appointed to the railway advisory staff for south Russia, and he held the appointment of officer commanding railways in Ekatorinodar and also for the whole of Crimea.

For his services on railway work during the war Colonel Stibbard was awarded the D. S. O., the Russian orders of St. Stanislaus and St. Anne, while he was also twice mentioned in despatches. He was a passenger on the Carpathia when this vessel was torpedoed by the Germans and through this experience he lost all his credentials referring to his work in France.

INTERESTING CASE IN MONCTON. J. J. Bourgeois is plaintiff and W. S. Smith defendant in a case which is occupying the court in Moncton nowadays as to whether the plaintiff, who has leased property from the defendant, should or should not pay the taxes. He did so under protest this year and is now attempting to get his money back.

Pride in the Appearance of the Auto Is a Social and Business Asset

A dirty, dusty, dingy motor car is apt to reflect a careless and slipshod driver. No man of ambition and standing in his community wants to create such an impression.

You realize that dust, grime and grease are fatal to the costly finish, which the car had when it was first out of the salesroom. But you cannot afford to risk an ordinary soap. One application of such a soap may ruin the finish for all time—leaving the surface pale, dull and smoky. But the purpose of

EXCELO AUTO SOAP

is to clean cars. It is made from pure vegetable oils and contains no alkali. Quickly removes grease, stains and dirt leaving the surface on which it is applied lustrous and bright. Guaranteed absolutely harmless.

Movement to Discontinuance War. Sydney, Australia, June 25.—The New South Wales branch of the Federated Seaman's Union, voted lately that in the future all of its members shall withdraw from military and naval activities. T. Walsh, secretary of the Union, says: "This is, we hope, the first step to a general refusal by transportation workers and ultimately all labor-unions to countenance war." Walsh is a non-chalant of Mrs. Pankhurst, the English "Suffragette" leader.

RECENT WEDDINGS

London-Wood. A quiet wedding took place in Zion church yesterday afternoon at 4.45 when Rev. Samuel Howard united in marriage Miss Muriel Wood and Robert London of Fairville. They were unattended. After the ceremony Mr. and Mrs. London left for Fredericton and on their return will make their home in Fairville. They were the recipients of a large number of beautiful and useful gifts.

Hoyt-Fairweather. Miss Nora S. Fairweather, daughter of Mr. and Mrs. Arthur Fairweather, Lower Norton, was united in marriage yesterday morning at the Church of the Ascension to Harold Hammond Hoyt, son of Mr. and Mrs. James E. Hoyt of the same place. Rev. Thomas P. Parker performed the ceremony and conducted Holy Communion. Norman Fairweather played the wedding march and Messrs. Jack Hoyt and Carl Seely were ushers. The bride was a popular member of the teaching staff of the Waterbury school in this city. The groom is employed in Moncton with T. Eaton & Co.

RECENT DEATHS

Major General Sir David Mercer, K. C. B., has died on his fifty-sixth birthday, in London (Eng.), from heart disease. He was a resident of Moncton for sixteen years when he came with his family to this city from county Tyrone, Ireland. Mr. Mercer was a native of County Tyrone, Ireland, four sons and three daughters. The sons are William of Moncton; Livingston, St. John's; and Charles, Liverpool, all living at home. The daughters are Mrs. W. E. Galloway, North Street, City; Mrs. E. Galloway, North Street, City; and Mrs. E. Galloway, North Street, City. The late Mr. Mercer was an active member of central Methodist church.

Moncton, N.B., July 26.—The death of James Bingham, one of Moncton's oldest and most respected residents, occurred about noon yesterday. He had been in failing health for the last year. He was seventy-five years of age and had been a resident of Moncton for sixteen years when he came with his family to this city from county Tyrone, Ireland. Mr. Bingham was a native of County Tyrone, Ireland, four sons and three daughters. The sons are William of Moncton; Livingston, St. John's; and Charles, Liverpool, all living at home. The daughters are Mrs. W. E. Galloway, North Street, City; Mrs. E. Galloway, North Street, City; and Mrs. E. Galloway, North Street, City. The late Mr. Bingham was an active member of central Methodist church.

SOME SNAPSHOTS ON THE EFFECT OF PROHIBITION

"Thank God for prohibition! It has given me a chance to go to high school, and Johnnie is going to high school. Say, if you'd told me this a year ago, I'd have said it was a dream!" This was Mrs. D.'s answer to the inquiries of a visitor of the Boston Provident Association, who had known and helped her off and on for years. The reply is characteristic of many.

"Eight children I've had, but no baby carriage have I ever pushed till this one came. It was my back that carried 'em all, but the carriage Jack got me with the money that didn't go over the bar. Mr. B. but let me live. I vote for prohibition? Well, I guess," said Mrs. Jack to one of the nurses of the District Nursing Association, a public health professional and the courts all discussion of the legal questions involved in the passage of the eighteenth amendment, but they, nevertheless, have some very definite and well-founded opinions regarding the social and economic burdens imposed by intemperance, and the lightening of those burdens resulting from prohibition. It is for this reason, therefore, that they consider it important to assemble the facts and view them such publicly as they deserve.

At the close of the year 1917 the Boston Provident Association has a study covering eight years that 1,400 out of a total of 7,778 dependent families showed intemperance as a factor in their trouble. Eighteen per cent of all to whom \$27,000 had to be given in relief. In the 1,400 families with intemperance, 5,925 children were growing up under conditions of neglect and abuse to which the term home is not applicable. Note the difference under prohibition; only eight such cases out of 465 family applications since July 1, 1919. The figures of the Associated Charities of Boston show a drop since 1917 from 27 per cent to 2 per cent in the last six months.

LOCAL NEWS

The combined motor lawn mower and roller, ordered by the department of public works, several weeks ago, arrived yesterday and probably will be given a work-out today, weather permitting. The machine is driven by a gasoline engine and can be worked independently as a roller or a cutter, cutting a thirty-inch swath. Control is worked through two hand levers, and the driver walks behind the machine, somewhat after the fashion of a man ploughing. Experts in the department are praising the equipment, which is considered a particularly good purchase at the price, \$600.

Rev. Edward J. Hand, rector of St. John's Episcopal church, Bangor (Me.), and formerly rector of St. James' church, this city, went to Deer Island yesterday, where he and his family will occupy a cottage until September 1. He was accompanied by Mrs. Hand and their daughters, Kathleen, Mary and Jane.

Between sixty and seventy members of the Young People's Society of the Ludlow street Baptist church held a very enjoyable picnic at Bay Shore last evening. The picnic was in honor of the group that secured the most new members. The winning group was led by Mrs. Frank Groves, to whom a book was presented by the society, while each member of her group received a balloon. During the evening refreshments were served.

Only ten crates of strawberries were down to the city yesterday from up the river. The steamer Champlain brought the ten crates, and the berries sold for thirty cents a box. The Majestic, Champlain and Hampton each brought down about 100 bushels of potatoes, which sold from \$3 to \$3.50 a bushel. Ten crates of raspberries brought down by the Hampton sold for twenty-three cents a box. About forty-five bushels of peas brought in by the boats sold for \$2.20 a bushel.

The agents of the Massachusetts Society for the Prevention of Cruelty to Children from all over the state are of the opinion that child-neglect cases arising from drunkenness are cut down to a third, possibly a fifth of those found last year, and many families whose children have been removed by court order have so improved their habits that their children are being returned to them.

State Commissioner of Probation Herbert C. Parsons shows that arrests for drunkenness in the state for January and February, 1920, have been 2,134 compared with 18,579 in the same months, 1919. Other crime offences have also notably decreased in number, such

MADE IN CANADA

STRENUOUS LIFE AT Y. M. C. A. CAMP

Older Boys, Who Return Today From Chipman, Have Had Long and Busy Days, But Have Enjoyed Every Minute.

The Y. M. C. A. camp for older boys, known as the New Brunswick Tuxis boys training camp, which opened at Chipman on July 14 will close today. A. M. Gregg, the camp director, who was obliged to leave the camp yesterday in order to attend the maritime Sunday school camp at Sackville, was in the city yesterday and brought glowing accounts of the success of the camp at Chipman. He said it was the most representative older boys camp yet held in the province as representatives of fourteen different places were there, some boys coming from as far as Edmundston. The leadership was all that could be desired, the leaders being Rev. R. Taylor McKim, of St. John, now in charge; Rev. A. S. Bishop of Fairville; Rev. G. W. Tilley of Hillsboro; Rev. W. C. Machum, Maritime Baptist Sunday school secretary; George Sinclair, physical director of the Moncton Y. M. C. A., and H. A. Morton of the St. John Y. M. C. A. The boys entered into the programme with great enthusiasm and perhaps the climax of the whole camp was reached in the Forward Step service held on Sunday evening when a large number of the boys signified their desire for greater service in the world that they might make their lives count for the very highest. On another Sunday night two of the boys presented the Tuxis programme at the Presbyterian church in Chipman. The boys, Jack Angeline of Hampton and Francis Wetmore of St. John, conducted the programme excellently. In doing so they made history, for it was the first time boys had ever taken charge of a service in this way in New Brunswick. The regular programme for each day at camp was as follows: 6:45 a.m. morning watch for leaders; 7:00 rising while; 7:02 to 7:40 setting-up drill and morning dip; 7:45 breakfast, followed by chapel service, presided over by one of the boys with talk by one of the leaders on helpful subjects; 8:30, special class for leaders and course in teacher training for all boys over seventeen who were going to take Sunday school classes in their individual churches; 9 to 10, Bible study period, for which boys were divided in tribes, Trojans led by Mr. McKim; Minnes, by Mr. Bishop; Mohawks, by Mr. Machum; Chippewas, by Mr. Sinclair; course of study, "Think on these things"; 9:40 to 10:00, Tribal peace council with discussion by boys of such matters as camp problems, Tuxis work at home, fall conference recommendations, for the general convention; 10:00 to 10:25 general council; 10:30, divide for classes as juniors and seniors to consider life's outlook, call to the ministry, to Y. M. C. A. secretaryship, to be Christian laymen, successful business men, community responsibility and a boys reading; 11 to 11:30, group games; 11:30, swim; 12:30, dinner. Each afternoon was devoted to athletic and aquatic meets, treasure hunts, paper chases or general hikes through the woods. Each evening after supper there was a double header baseball game in which each tribe played one of the other tribes. Keen competition and high interest marked the games. At 8:15 a camp fire programme commenced and each night a different programme was planned. Some of the most successful camp fire events were the formal reception of new members to the tribe of Wagesseguis, a mock trial, a mock parliament, stump night, story telling night, and a night of a talk about the stars.

INSANE MURDERERS HEADED THIS WAY

Two of Those Who Have Escaped From Maine Institutions Believed to be Working Towards New Brunswick.

Lots of lunatics are running around loose in eastern Maine and a general warning has been sent to the authorities. Ralph Peters of Bowdoinham, one of the five who recently escaped from the state hospital for the insane at Augusta, and was recaptured at Belfast on Sunday, says that two of the party, James Clabby and Peter Vallis, when they left him were working their way eastward and intended to get into New Brunswick by automobile or boat. Both fugitives are murderers. Sheriff Fernandes, of Bangor, has been notified that a motor car was stolen in Belfast on Saturday night and it is thought that the escaped insane convicts took it. Peters said the men were armed. Vallis was convicted of shooting and killing Policeman McIntosh of Portland and Station Agent Winslow. A man who escaped with a doctor's automobile from the Bangor state hospital for the insane a few days ago still is missing. The patient, Benjamin Rayson, escaped through a subterranean passage, the existence of which was unknown to the officials. The car was found abandoned near Rockland. There is much uneasiness in the country districts. Another man, Perley Bickford, of Searsport, a violent man, made his getaway from the same institution on Sunday, but was captured later. Bickford is a wild man, and his action being noticed he was found hiding behind a bush. One man was shot and killed in an attempt of insane criminals to escape from the Bridgewater institution.

ROOSEVELT ON CANADIAN SOIL

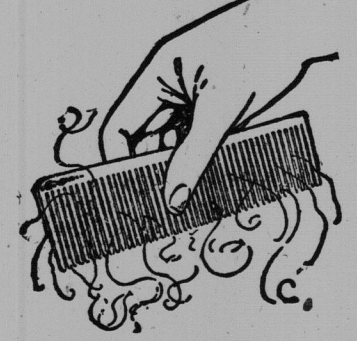

Hon. Franklin D. Roosevelt, Democratic candidate for the vice-presidency of the United States, who arrived on New Brunswick soil during the night of Sunday, yesterday announced at his summer home on Campobello that he had just resigned as assistant secretary of the navy and that the resignation would become effective on August 4. Hon. Mr. Roosevelt has not been on Campobello for three years because of the strenuous life at Washington brought about by the world war, although he had been a visitor there every year before 1917 since boyhood. The candidate

said that he had a fast run from Boston, which port he left Sunday morning on the torpedo boat destroyer Hatfield. She arrived off his summer residence on Sunday night, a launch from the warship landing him on the island. The destroyer made twenty-five knots an hour. It was his fourth trip in a destroyer down east, he said, the first having been made twenty-three years ago. "While on the island," he added, "I expect to enjoy cliff walks, rifle and target practice and hope to find some time later to build another toy sailboat for my sons. So far as I know at the present time, I will speak in Maine, where there will be an election in September. I will leave Campobello again next Friday for Portland, and then will go to New York, and be in Washington on Monday. My health is excellent and it is a great pleasure to arrive back to join my family and many friends." Plans were made yesterday for a big reception to Mr. Roosevelt, on Wednesday or Thursday by the people of eastern Maine points and of Campobello, most of whom have known him since boyhood. Roscoe C. Emery, Republican candidate for senator, and whose wife is a St. John woman, is heading the Maine end of the demonstration, and in addition to the usual crowd there will be several Indians holding official positions in the Passamaquoddy tribe on the St. Croix.

MUTT AND JEFF—IT'S LUCKY FOR JEFF THAT MUTT READS THE PAPERS By "BUD" FISHER

THE ARMY OF THE FUTURE

By Mr. Austin Hopkinson, M.P., who served as a Private in the 1st Royal Dragoons during the War.

Ex-soldiers are far too ready to think that they have "done their bit" and that when they leave the Army no further duty lies upon them. Against this spirit I have protested to the best of my ability, for it is to the men who have been through the mill that the Empire looks for help to a better future.

Now of all the problems that of Army reform is the one whose solution is most clearly a matter of duty for us. The old Army was a marvellous fighting force, but the Army of the future must be better still, and we can make it so.

As for the latter, the military authorities have for some time past adopted a most enlightened policy, and there is little doubt that, if backed by the pressure of public opinion, they are quite prepared to go much further still in the direction of making the pay and other conditions of a soldier's life as attractive as possible.

Civil education will shortly include compulsory training in continuation schools up to a much later age than hitherto. The boy whose parents cannot afford to keep him unless he earns money for the family will go from elementary school to the workshop, continuing his education up to the age of eighteen by classes held in working hours.

When once this system is in full swing and experience has improved it till it works smoothly and effectively, the rich man's son also will come in, and we shall have a mighty instrument for smashing the class barrier for ever.

The ranks of the Army will supply its officers, for those who desire to win commissions will take up those literary and historical studies which fit a man for command, while those who intend to return to their trade will naturally prefer to study technical subjects.

Organization, liberal expenditure, and hard work, can do much to make into a reality this Army of my dreams, but it will be a lifeless corpse unless we ex-soldiers can make our brotherhood so loved and respected that every father and mother in the land will hope to see

These Blouses were late arrivals, otherwise it would be impossible to sell them at this price.

New York's latest features in Blouses — White Voile with colored Organdie, and really the effect spells "chic." Very simple in design, yet so smartly cut.

In any number of becoming styles. They are little affairs in "slip-on" fashion, square front neck, and smartly

banded in Organdie of any dainty shade you wish. Others are gay with tucks, pearl buttons and clever stitchings.

The Organdie trimmings are in pink, rose, yellow, mauve, sand, navy and pale blue.

We would suggest seeing these Blouses in the morning when the choice is at its best.
