ASTONISHING TESTIMONY IN INSURANCE INQUIRY

Two Members of Richard A. McCurdy's
Family Received \$2,600,000 in Com-
missions—A Campaign Contribution—Big
Salary Paid to Young Mr. McCurdy.

NEW YORK, Oct. 5.—That the astounding total of \$2,600,000 has been paid as commissions by the Mutual Life Insurance Company to two members of the family of Richard A. McCurdy, president of the company, and the promise of District Attorney Jerome that the insurance scandal certainly will be submitted later to an extraordinary grand jury, were the sensational developments in the insurance situation today.

It was brought out by testimony before the legislative insurance committee that Robert H. McCurdy, son of Richard A. McCurdy, has received as commissions on foreign business \$1,153,829, and on domestic business \$461,832, and that Lewis A. Thebaud, son-in-law of Richard A. McCurdy, had received an aggregate of \$920,113 in commissions from the company. It was also brought out that Robert H. McCurdy expected last year's income this year would be about \$110,000.

A CAMPAIGN CONTRIBUTION.

Previous to this testimony, W. F. Thummler, an attorney of the Mutual Life Insurance Co., testified that he had paid to the chairman of the republican congressional campaign committee the sum of \$2,500 in cash as a campaign contribution.

Mr. Jerome, in announcing in court that the scandal will be submitted to an extraordinary grand jury, said the inquiry by the legislative committee had shown "greater moral obliquity and moral obtuseness on the part of persons important in the business world than did the shocking revelations in regard to the Equitable Life."

PAID BIG SALARIES.

W. F. Thummler, the attorney who was associated with Judge Andrew Hamilton in looking after legislation for the New York Life, the Equitable Life, and the Mutual Life Insurance Companies in the so-called legislative pool that was expended last week, testified before the committee that he is now employed as an attorney for the Mutual Life Insurance Co. Mr. Thummler said that he personally placed in the hands of the chairman of the republican congressional campaign committee \$2,500 in cash, which had been given the witness for that purpose by Vice President Robert A. Granville of the Mutual Life Insurance Co. Mr. Thummler denied paying any money to any legislator for the purpose of influencing legislation, or to any other person for that purpose.

A GREAT PLAY BY A GREAT STAR.

The dramatic opening at the Opera House for three days and Wednesday matinee of next week opening Monday night, will be the splendid drama, "The Two Sisters," which Denman Thompson, author and star of "The Old Homestead," gives to the public as a companion play to "The Old Homestead," in gratitude to the success of the last named play so many years ago and as a means of further benefitting the patronage of all the theatre and natural plays. An exchange says: "There never has been seen in any city a cleaner, more perfect performance than that of 'The Two Sisters.' There is no effort to produce sensation of any kind in this place, but simply to portray life as it is in a way that shall seem natural and realistic."

principally confined to the supervision of the agency system of the Mutual in this country and abroad. Like Mr. McCurdy, he was a member of the foreign business of his company. His salary, he said, was \$20,000. He had a typewritten statement of his career, which he asked permission to read. This detailed his various commissions, contracts and commissions. There were a number of reductions in the commissions, which, he said, were made at his own request, owing to the unforeseen success of the foreign business. This foreign business was insured because of the success attained by the New York Life Insurance Co. and the Equitable Life Insurance Society.

FOREIGN BUSINESS.

Mr. McCurdy started this foreign business in 1886, and assumed the management of the foreign business in 1903 at a salary of \$20,000. The most startling part of Mr. McCurdy's testimony was made just before recess, when he submitted a statement of his profits, or the revenue from the contracts, on the foreign business of the company. From 1886 to 1892, while he was a member of the firm of C. Raymond & Co., the metropolitan agents of the Mutual Life Insurance Co., his profits were \$209,123. Under his contract with the firm he paid one-half, or 104,561, to Mr. Raymond, and from 1893, when he left the firm, down to August 31, 1904, his commissions were \$1,029,247, making a total personal revenue from the foreign business from 1886 to 1904 of \$1,238,808.

During the period of his connection with the firm of C. H. Raymond & Co., Mr. McCurdy, according to his testimony, was receiving his share of the profits on the business of the Mutual Life Insurance Company, written by his firm as the metropolitan agents. This sum Mr. McCurdy was unable to give any estimate upon, and later he said that the firm's profits were called, it was brought out that these profits to Mr. McCurdy amounted to \$44,183 net, or after his share of the expenses of the firm's profits had been deducted. This made a total of \$1,194,625 that Mr. McCurdy received in commissions.

In 1893, when Mr. McCurdy retired from the firm of C. H. Raymond & Co., he was succeeded by Louis A. Thebaud, a son-in-law of President Richard A. McCurdy of the Mutual Life Insurance Co. He was practically under the same contract as Robert McCurdy, and from 1893 down to 1904 he received in commissions on first premiums and renewals the sum of \$920,113. All these amounts were in addition to salaries paid Mr. McCurdy and Mr. Thebaud.

Charles H. Raymond, who was called to the stand to supply the figures of profits that McCurdy was unable to produce, occupied the stand for the rest of the day. He was examined as to the scope and territory of his business and the amount of commissions he received from the Mutual Life Insurance Company, as well as the amount his firm paid as sub agents in commissions on first premiums and renewals was closely inquired into. Mr. Raymond's examination was not finished when the committee adjourned for the day.

FOUND AFTER MANY YEARS.

RUTLAND, Vt., Oct. 5.—Miss Grace Page, who disappeared from her home in Barre, Vt., seven years ago, after a slight estrangement with her mother, returned yesterday. Her whereabouts were unknown to her family or friends until Salvation Army workers found her in a destitute condition in London, England, a short time ago. Members of the Salvation Army searched for a long time for Miss Page, receiving money each year from her Vermont relatives. Miss Page was ill when found and was unwilling to return home at first. She refused to tell her family of her experiences while away, except that she did domestic work in London.

PRESBYTERIAN SYNOD.

Campbell Will Case May Be Reopened—
Decrease in Interest in Young
Peoples' Societies

SYDNEY, N. S., Oct. 5.—The Synod opened at ten o'clock this morning with the usual devotional exercises. Rev. Dr. Pollock delivered an interesting address on the condition of the Church of Scotland.

The following were named as the visitors to the Ladies' College for the ensuing year: Rev. Edwin Smith, D. D., R. D. Miller, D. D., Rev. Anderson Rogers, Rev. D. K. Grant, J. B. Calkin. It was stated by Principal P. W. Deane that there was no special report this year by the committee on public education.

The Synod resumed its session at 2.30 p. m. A resolution was moved to sell the Presbyterian Church at Art. that, against which a claim was held by the McCaskill estate. To this an amendment was moved to the effect that the claim should be referred to a committee of inquiry to report to the next meeting of the Synod.

Rev. Dr. Laing of St. John reported for the young people's societies. There are 178 societies, 6,049 members and 1,717 communicants. The amount given was \$4,217. There has been an increase in the number of societies, membership and contributions. The guild has attracted many of the young people because it presents greater opportunities. The Campbell will case was then introduced. In this matter the General Assembly decided some time ago against the claim made on behalf of Capt. George Campbell's widow, and the object of the present movement on behalf of Mrs. Campbell's friends is to petition the General Assembly to reopen the case.

At this point the Synod adjourned for the afternoon. The session reopened in the evening at 7.30. A resolution was passed expressing sympathy for Dr. Laing, whose conduct in the case was regretfully noted.

Dr. Smith of Sydney reported on behalf of the Sabbath schools. On account of the success attending the summer schools it was decided to continue the report on temperance was presented by Rev. H. R. Grant. The report was that the temperance cause was making progress in legislation except in Prince Edward Island. Nevertheless the sentiment of the Synod was expressed in a resolution in favor of suppressing the traffic. In the last few years there had been a decline in the number of societies and a decline in the number of members.

EFFIE PRIME MAY BE LOCATED

DIGBY, N. S., Oct. 5.—Charles Prime, of Presport, has as yet no knowledge of the whereabouts of his wife whose clothes were found on the shore at the entrance to St. John harbor some few weeks ago. Mrs. William Perry, of Presport, formerly Cadet McPherson, of the Salvation Army, has recently received a letter from her sister, Mrs. Alfred Brunt, of Halifax, who says a strange woman giving the name of Nora Sadler and familiar with every person in Presport, where she claims she formerly resided, has been at her home for four nights seeking aid.

The name of Sadler is unknown in Presport and it is thought the woman is the missing Effie Prime. Mrs. Prime was a great Bible student, and for some time taught a class in the Presport Baptist Sunday school. After some stories got in circulation concerning her past career in the city of St. John she was somewhat turned down in the little quiet town of Presport, where people are noted for the stern way in which they live, and it is feared that this has borne heavily on her mind, and that she has become mentally deranged.

IF YOU HAVE A GOOD JOB STAY HOME.

John O. Pineo, a Nova Scotian who has been living in Southern Alberta for about a year, does not strongly encourage the young men of the maritime provinces who have good positions to throw them up to follow the lure of the west. Mr. Pineo says that while the chances are undoubtedly better in the west for the progressive sections of the maritime provinces, Mr. Pineo makes his home at Crossfield, a small town situated about thirty miles north of Calgary. When he pitched his tent there about four years ago there was not a house in sight. At the present time it is a thriving village. The district thereabouts was for many years regarded as entirely unfit for agriculture owing to the fact that for a long time there was no rain, except a little in the month of June. It has been found, however, that the country is well adapted for mixed farming, and Mr. Pineo has been visiting relatives in Nova Scotia for the last few weeks and is now on his way to his western home.

The announcement made some months ago of the sale of the interests of the N. B. Petroleum Co., Ltd., to the English company, has been in possession of no definite information concerning the matter will be anxiously awaited by the shareholders.

The Sun has been authoritatively informed that the English parties have never completed the purchase of the N. B. Petroleum Co., have been proceeding to the development of their oil areas.

TIDAL WATER POWER.

In connection with the recently re-
vived interest in the possibilities of
tidal and river water power here it is
interesting to note the rapid progress
of the work of engineers in this
direction in Great Britain.

Driven by the prospects of cheaper
coal in the near future and the scarcity
of fresh water power experts in many
industrial lines are closely studying
the possibilities of utilizing the enormous
energy displayed daily by the rising
and falling tides and already a few
schemes are in existence, the plan gen-
erally adopted being to impound the
rising tide and force it to run through
water wheels on the ebb.

An improvement on this is discussed
in a recent article in the Engineering
Review describing the proposed de-
velopment of the tidal flow at Chichester
harbour. This harbor is 7,200 acres in
area, the entrance being less than a
mile in extent. The proposal is to
build a huge dam across the mouth,
and also to divide the harbor into two
sections, a high and a low water basin.
The rising tide fills the high basin full.
The top third of this is emptied through
the turbines into the low-water basin,
which it fills up to one-third of the
height of the tide. This in turn is
emptied out to sea at low water. By
this means a constant power is obtain-
ed, although at first sight it appears
to be a waste not using the incoming
and outgoing water. It is expected to
obtain in this manner an average of
8,000 horse power a day.

Other and more ambitious schemes
involved the harnessing of Menai
strait, where 15,000 horse power per
day is available and in the Bristol
Channel where, by damming the mouth
of the Severn it is expected that electric
energy to the enormous amount of
250,000 horse power could be obtained.
That such projects are feasible in
England is encouraging to those who
are cherishing similar schemes for St.
John, where the rise and fall of tide is
greater than at any of the available
English harbors. It seems impossible
that some feasible plan cannot be de-
vised for utilizing the tremendous
power daily going to waste within
reach of our hands.

DANGEROUS ENTERTAINMENT.

This morning's papers report that
the autumn Carnival committee is at-
tempting to secure the presence here
during carnival week of the two men
known as Diavolo and Leondo, who
have recently been risking their lives
for the entertainment of the sensation
loving public at Halifax, Fredericton
and elsewhere.

Statistics show that the birth rate
among French-Canadians is still much
higher than the average birth rate in
Canada. At one time this was offset
by greater mortality among French-
Canadian infants, but it is to be hoped
that the progress of medical science will
remove this check upon increase. Of
course, increase in population means
increase in votes and political power,
and this is a fair and commendable
means of gaining power. The French-
Canadian is marching eastward into
New England and New Brunswick, and
westward into Ontario, and this pro-
gress is largely due to the cheerful
obedience to the scriptural command.
—Toronto News.

Saskatchewan and Alberta having
been provided with autonomy and be-
ing full-fledged as provinces, attention
is being paid to the minor "frills."
Armorial bearings are being provided,
which is quite proper. The Victoria, B.
C. Colonist suggests as an appropriate
motto for the selected device a quotation
from the writings of a famous
Italian church dignitary, well known
to many of our readers, named Buar-
retti: "Mi data creta per celo,"
which freely translated means "We
get chalk for cheese."

Few features in the Saturday Star
have proved more interesting than the
"Sensational" written weekly by
"Thaddeus." One of his best and one
particularly timely will appear tomor-
row. The subject is "Church Extrava-
gance."

THE SLOW CENSUS.

Volumes three of the reports of the
Dominion census of 1901 has just ap-
peared. The statements contained in
it are made up from the information
gathered by the census enumerators in
the early spring of 1901, four and a
half years ago. The tardy appearance
of this volume, which is not yet the
last of the series, is a sufficient com-
ment on the slowness of the minister of
agriculture that he would reform the
art of census taking in Canada. Mr.
Fisher charged that the census of 1891,
taken by Dr. George Johnson, was a
costly production. He also said that
the late government was too long com-
pleting the work, and that it contained
many errors. Now we are partly
able to compare the work of Dr. John-
son with that of his successors. The
census of 1901 has been much more
thorough than any previous census
taken in Canada. Since then the cost
has gone on increasing. Lastly, there
is no manner of doubt that the census
of 1901 is the least accurate of the four
Dominion censuses.—Sun.

THE LAND OF USED TO BE.

(James Whitcomb Riley.)
Beyond the purple, hazy trees,
Of summer's utmost boundaries,
Beyond the sands, beyond the seas,
Beyond the range of eyes like these,
And only in the reach of the
Emaptured gaze of memory,
There lies that land long lost to me,
The Land of Used to Be.

A land enchanted, such as awning
In golden seas when struts cling
Along the dripping cliffs, and sung
To Jason in that mystic tongue
That daunt men with its melody,
Oh such a land with such a sea,
Kissing its shore eternally,
Is the Fair Used to Be.

A land where music ever glides
The air with bells of singing birds,
And sows all sounds with such sweet
words
That even in the lowing herds
A meaning lives so sweet to me;
Lost laughter ripples happily
From lips that brimmed over with all
the life
Of Rare Old Used to Be.

O land of love and dreamy thoughts,
And shining fields and shady spots,
Of cool, greenest, grassy plots
Embossed with gold and silver spots,
And all the blooms that cunningly
Lift their faces up to me,
Out of the past; I live in thee
The lips of Used to Be.

I love ye all, and with wet eyes
Turned glimmering to the skies,
My blessings like your perfumes rise,
Till over my soul a silence lies
Greater than any of the available
Sweeter than any melody,
Of its sweet echo, yes, all three,
My dreams of Used to Be.

ONLY ONE DAY.

Irish Guards Band will Be Here Only
October 1st.

Fred F. Suckling of Toronto, one of
the firm of L. Suckling & Co., who is
in charge of the Irish Guards band
was in the city yesterday. There is
such a demand for the band from all
parts of Canada that it has been de-
cided to cancel one of the concerts in
St. John. The band will be here for
matinee and evening concerts on Mon-
day, October 1st, and will play in the
Victoria Rink. Mr. Suckling says
that the tour so far has been the most
successful of any such undertaking
ever carried out in Canada. In every
city visited the people have simply
gone wild over the music and he
thinks that if the whole four concerts
were given in St. John the hall would
be crowded at every entertainment.
But the people here must now take
advantage of the one day's opportu-
nity offered them. The advertisement
giving particulars of the concerts
appears elsewhere in this paper.

MATRIMONY.

(Detroit News.)

What is marriage?
Marriage is an institution for the
blind.
When a man thinks seriously of mar-
riage what happens?
He remains single.
Should a man marry a girl for her
money?
No. But he should not let her be-
come an old maid just because she's
rich.
When a girl refers to a "bad court-
ship" what does she mean?
She means that the man got away.
It is an engagement as good as mar-
riage?
It's better.
Why does a bride wear a veil?
So that she may conceal her satisfac-
tion.
When a man says he can manage his
wife what does he mean?
He means he can make her do any-
thing she wants to.

Unlike most of the members of the
diplomatic and consular service of the
Celestial empire who came to this
country, Sir Chentung Liang-Cheng,
the Chinese minister in Washington,
clings to the dress of his native land.
This is unusual, for generally the Chi-
nese and Japanese of the better class
quickly adopt American dress when
they come to live in this country. But
even more remarkable is the fact that
the son of the Chinese minister also
continues to be clothed in the oriental
style.

A CLEVER GAME.

A richly dressed woman of middle
age stopped in her carriage before the
door of Dr. Lorcux, celebrated alienist
of Paris. She sent in her card and
awaited him in his study. She told
him that in her carriage is her son, a
young man who had become deranged
through overwork in the Praga Uni-
versity and talked of nothing but
money and jewels, believing, in his
hallucination, that he possessed untold
wealth. She then sent in the young
man and departed in the carriage. The
alienist then interviewed his patient,
as follows:
"Have a seat, my young friend," said
the doctor. "How do you like to read
magazines?" he asked.
"Oh, I like them all right," replied
the young fellow, "but I have no time."
"Why not?" said the doctor. "I am
going to let you have some very beau-
tiful ones."
"I thank you very much, sir," replied
the young man, "but I am in a hurry,
and I wish you would give me the
hundred thousand francs and let me
go back to my jewels."
"The doctor smiled."
"Let me see your tongue," he said.
"The young man looked at him in as-
tonishment."
"My tongue?" he asked. "What has
my tongue to do with the money you
have to give me?"
"Oh," replied the doctor calmly. "We
will attend to the money in due time."
"Enough!" cried the young man,
"you are making fun of me. Give me
the money and let me go!"
"Surely," said the alienist. "I will
give you the money—to-morrow morn-
ing." The doctor pressed a button, and
two servants appeared.
"Take the patient to No. 56," he or-
dered.
The unfortunate youth became fran-
tic, and the doctor ordered his assis-
tants to use the straight-jacket, which
was done.
Next day the alienist, after reading
some important letters, commenced to
peruse his favorite fables. He had
hardly begun when the paper fell from
his hand.
The article which the famous alienist
had just read was as follows:
"Yesterday afternoon a well-dressed
woman, describing herself as the Count-
ess Chamourka, purchased from Le-
fèvre Bros., the well-known firm of
Boulevard des Italiens, several valu-
able jewels, the price of which aggre-
gated 100,000 francs. The woman de-
clared she did not have enough money
with her to pay for the purchases, and
asked a member of the firm to send a
clerk with her to her house, in Chau-
see d'Antin, where her husband would
pay the bill."
"M. Lefevre sent one of his confiden-
tial clerks with her. They drove to-
gether in the woman's carriage. The
clerk had not returned and nothing
has been heard of the woman."

CLINGING LIKE A FLY TO THE SURFACE

of the Flatiron building in New York,
John Garrick, a steepjack, walked
down the side of the tall building from
the 20th story to the street and up
again several times Thursday, while
thousands below stood trembling at
the daring feat. Women fainted from
the strain on their nerves; men turned
white, while Garrick, as unconcerned
as though he were strolling along
Broadway, was rapidly ascending and
descending, stopping to pose for his
photograph, waving salutations to a
reporter, clinging all the while to the
sheer wall with his fingers and toes in
the inch and a quarter-deep grooves
that indent its surface. And all to
earn a \$3 bet. Garrick did not touch
a window sill, save to leave or enter a
window. His hair-curling perfor-
mance is unequalled in daring in the an-
nals of steepjack work.

Thursday, in New York city, little
John Heideknecht was carrying home
a siphon of seltzer. He tripped, the
bottle exploded, the glass pierced his
jugular vein and he died before the
ambulance arrived.

ahead of him. "He is popular with ev-

No one was to be seen when he made
his appearance; but, within the build-

wall, and pressed it.

The effect was electric in every sense

LIFE IN NEW YORK.

Gotham's simple life is simply hurry up. Every second counts.

New York is not so much a city in a hurry. Everything that is done is done as though life depended upon the doing.

Here are some reasons or causes for the Gothams rushing to keep ahead.

Every forty seconds an immigrant arrives.

Every six minutes a child is born.

Every seven minutes there is a funeral.

Every thirteen minutes a pair get married.

Every forty-two minutes a new business starts up.

Every forty-eight minutes a building catches fire.

Every forty-eight minutes a ship leaves the harbor.

Every fifty-one minutes a new building is erected.

Every fifty-five seconds a passenger train arrives from some point outside the city limits.

Every one and three-quarter hours some one is killed by accident.

Every seven hours some one falls in business.

Every eight hours an attempt to kill some one is made.

Every eight and one-half hours some one is murdered.

Every two days some one is murdered.

WHERE LUTHER FIRST PREACHED.

It has been decided by the citizens of Coburg to offer a large sum to the Grand Duke Ernest as a wedding gift, the money to be used for the restoration of the Lutheran church on the walls of Coburg Castle. It was in this small church that Martin Luther, who resided in the fortress, preached his first sermon, now just 375 years ago, and it was there that the great reformer composed the famous Protestant hymn, "A Mighty Fortress is Our God," which was afterwards incorporated by Meyerbeer in "The Hugenots."

DAVE PUTZ GETTING BETTER.

NEW YORK, Oct. 5.—Dave Putz, centre fielder on the New York American League base ball team, who has been in the Washington Heights Hospital for the past few days as a result of injuries received in a recent game with Cleveland, will be able to leave that institution within a few days. Putz's leg was fractured, and he will be obliged to keep it in splints for six weeks after he leaves the hospital.

steamer, and to transport this vast amount of cereal from the west to the shipping point required 125 cars. The Anglian will also have a large general cargo, including several hundred head of cattle.

The steamer Hilda, owned by Capt. Niven and under charter carrying coal for the Cumberland Railway and Coal Co., was seized and taken over by the mortgagees on Monday, and is continuing her contract under possession for the benefit of the mortgagees.

The owner in the meantime had had himself entered as captain and forbade the ship's clearance. The collector of customs was between the two fires, but upon instructions from Ottawa, he cleared the ship in the name of the captain recognized by the mortgagees, and proceeded for Portland on Tuesday—Parrabro Leader.

At Cape Formidine, bark Maria, Capt. G. Wilson, cargo 78,000 superficial feet, Geo. McKean shipper, bound for Queenstown, G.B., cleared the 29th ult.

Sch. V. B. Roberts, Capt. V. B. Roberts, arrived in port on the 29th ult. with 112 tons mousing sand and coal for Amherst foundry.

A THREATENED SUIT.

"I notice," said the determined young woman, "that you don't care to sit alone in the parlor here with me any more."

"Oh, I don't know!" replied the lover, who was growing cold.

"Well, I just want to remark that you'll either have your courting in here or your hearing in court."

Are you now convinced that Red Rose Tea "Is Good Tea?"

I HAVE made an honest effort to convince you that Red Rose Tea is good tea.

I have shown you in these talks that Red Rose Tea combines the good qualities of rich, strong Northern Indian tea with the delicate fragrance of Ceylon Tea.

That by this combination of two good teas, Red Rose Tea is better than either—with a "rich fruity flavor" exclusively its own.

I have told you why it is always uniform in flavor and strength, of its selection at the gardens, how it is tested and blended—I have tried to tell you all about Red Rose Tea and why it is good tea.

I want you to try Red Rose Tea because I want you for a permanent customer. I know if you once try it you will use only Red Rose Tea.

The price of half a pound of Red Rose Tea is small—that small investment may show you how much tea value, tea quality and flavor you have missed. Is it not worth trying?

FREE SAMPLE—We will send a large sample of Red Rose Tea by post, free, if you will write and tell us the price tea you are now using, and whether black or green.

At Brooklyn-First game: Brooklyn, 11; Boston, 5. Second game: Brooklyn, 7; Boston, 1 (seven innings, called by agreement).

A PLAYER STABBED HIS FRIEND. DES MOINES, October 4.-Charles Dexter, catcher for the Des Moines Western League ball team, last evening stabbed First Baseman H. Q. Bateman, of the Milwaukee American Association team.

Bateman's condition is serious and he is not expected to live.

The men quarrelled over a payment of a cab bill, and Dexter drew a long knife blade and slashed Bateman across the breast, the blade cutting into the lung.

Dexter is widely known as a ball player and was one of the youngest players to enter the National League, being signed with Baltimore at the age of sixteen. After several years with Baltimore he went to Louisville as manager. Bateman's home is at Melrose, Texas, and Dexter had been friends for many years.

Dexter was arrested.

"Tip" O'Neill played left field this season with the team that Bateman held down the first sack.

FOOTBALL.

R. A. Dickie, of Halifax, late of Edinburgh and Dalhousie football teams, has been secured by the U. N. B. as football coach. Mr. Dickie was captain of the Dalhousie team in 1904.

NEPTUNE FOOTBALL PRACTICE.

Arrangements have been made for a turnout of the Neptune football players this afternoon at 3.30 o'clock on the Victoria grounds. A full line-up of the entire team is urgently requested, as this is the last practice before the game with Carleton. Anyone who is interested in football will also be given the glad hand if he attends the practice.

THE RING.

LITTLEJOHN WANTS ANOTHER CHANCE.

Dan Littlejohn is still anxious to meet Beth McLeod, as he believes that he can get a decision over him. He does not consider the two previous defeats which he sustained at McLeod's hands satisfactory evidence that he can do it again. Dan says he is tired of boxing at catch weights, and wants to meet McLeod at the welter weight.

Dan says he can be found at James Lane's on Union street, whenever McLeod is willing to arrange the details of the match. He would like the bout pulled off during carnival week.

Littlejohn is also ready to meet Beany or Snelling, the Quebec welter weights, and would give or take two pounds.

BARCLAY CONNELLY AND MCLEOD.

Billy Critch of Augusta, Me., is anxious to arrange a bout between Beth McLeod and Barclay Connelly. Connelly meets Arthur Cole at Augusta, and after this he over, Critch would like to have Connelly take on McLeod.

NEW MARKET RACES FOR JOCKEY CLUB STAKES.

LONDON, Oct. 5.-The race for the Jockey Club stakes (of \$50,000) for three years old and upward, one mile and three-quarters, was run at Newmarket today, and was won by St. Amant. Polyneus was second, and Mondamin was third. Six horses started.

M. Blanc's crack horse, Guvernay, was specially set for the race to avenge his defeat in the Derby of 1904, by Leopold de Rothschild's St. Amant, but he was not even placed. St. Amant went to pieces after his victory at Epsom, and until today had not been seen on a race course this season. He was not considered to have a chance in today's race, for which Guvernay started a hot favorite at 11 to 8 on.

Other betting was 100 to 7 against St. Amant, 50 to 2 against Polyneus, and 20 to 1 against Mondamin.

A high wind prevented the ascent of the flying machine, so that the track events and the horse show were the attractive features. In the trotting, the contest in the 2.19 pace between Frank S. and Ginger proved the most exciting and the two horses divided first and second money, the third heat in the race being a dead heat.

BANK ABSORPTION.

What Halifax Chronicle Has to Say About Recent New Brunswick Deal.

The report of the purchase of the Bank of New Brunswick by the Bank of Montreal, has served to call attention to the fact that although new chartered banks are coming into existence in Canada from time to time, the larger banks are absorbing the smaller ones so rapidly that the number of chartered banks is actually less today than it was nine years ago. In 1896 there were thirty-eight chartered banks doing business in Canada; now there are only thirty-three.

On the other hand, the liberal record has been maintained in the splendid increase in banking business. Although there are five less separate banking institutions, the paid-up capital has increased since 1896 from \$12,196,238 to \$32,107,104, and the "rest" from \$25,468,790 to \$57,029,468. So that while the number of banks has decreased about fifteen per cent, or one-seventh, the capital, both stock and "rest," has increased fifty-eight per cent. The policy of the two large banks has been, indeed, to strengthen themselves by amalgamations and by spreading out their reserves. The smaller chartered banks have, most of them, also steadily added to their reserve accounts and put themselves in a position to weather a financial gale should such weathering at any time be necessary.

The banks that have gone out of existence since 1896 include the Banque du Peuple, the Banque Ville Marie, and the Bank of Yarmouth, all of which failed; the Jacques Cartier Bank which has changed its name to the Banque Provinciale du Canada; the Bank of British Columbia, and the Halifax Banking Company, both of which were absorbed by the Canadian Bank of Commerce; and the People's Bank of Halifax, and the Exchange Bank of Yarmouth, which were absorbed by the Bank of Montreal, other small chartered banks which have been merged or gone out of existence include the Commercial Bank of Windsor, which was absorbed by the Union Bank of Halifax, and the Summerside Bank, Prince Edward Island.-Halifax Chronicle.

The wars on the football field will probably hereafter be waged more fiercely than ever. In the struggles between the Neptunes and Beavers.

EMPIRE SOCIAL.

Unique Y. M. A. Entertainment at Portland Street Methodist Church Last Night Was a 'Spendid' Success.

The Y. M. C. A. Fair of Nations may be a great show when it comes on but in the opinion of those who saw the entertainment last evening of the Y. M. A. of the Portland Methodist Church, the Y. M. C. A. affair will have to be pretty good to equal the Empire Social last evening. The entertainment which will be given again tonight is for the benefit of the Y. M. A., who were ably assisted by the young ladies of the church.

The entertainment took place in the school room and in the new Y. M. A. gymnasium. The latter was turned into a regular logging camp, and for the occasion was a mass of spruce. The scene was so well represented that a visitor could easily imagine that he was in the heart of the forest. Inside the camp Stanley Williams with a force of eight young men were kept busy serving baked beans.

The Motherland and each of the colonies were represented and inside of each of the booths, goods were offered for sale.

England, Scotland and Ireland were represented by a triangular booth where Cecil Broome took the part of John Bull, David Stratton of the Scot. Mrs. T. A. Armour and Miss Carrie McConnell were in the English booth, and Miss Bertha Maxwell and Miss Myrtle Sinclair in the Scotch. The Irish booth was of the best and Herman Thorne, as the Irish washer-woman caused roars of laughter. R. C. Thomas was also in this booth.

In the Canadian booth, ice-cream was sold. Those in charge were Mr. George McConnell, Miss Beattie Wiley and Miss City Maxwell appeared in the costume of Hindoos. In this booth, lemonade was sold. The B. W. I. booth was a pretty one and consisted of three arches of lilacs. Those in charge were George Vincent, Fred Smaller, the Misses Hastings and Miss Eagles.

The South African booth dispensed peanuts. In this booth were Harry Pratt, George Crosby, Miss Bertha Crosby and Miss Clara Leach.

The Australian booth, in yellow and white, representing a sheep raising farm in the bush, all manner of candy was sold. Those in charge were Allan Lingley, Thomas Pyle, Miss Beattie Eagles and Miss Fannie Davidson. India was represented by a moose, in white. Mr. and Mrs. Arthur McConnell, George McConnell, Miss Beattie Wiley and Miss City Maxwell appeared in the costume of Hindoos. In this booth, lemonade was sold. The B. W. I. booth was a pretty one and consisted of three arches of lilacs. Those in charge were George Vincent, Fred Smaller, the Misses Hastings and Miss Eagles.

WEST END MARRIED

COUPLE SEPARATE.

R. W. Peterson, Who Went West a Year Ago, Charges His Wife, Formerly Miss Goslin, With Desertion.

There was inserted in last evening's Star another notice quite similar to that of Wm. Lemmon when he stated that his wife had left his bed and board. This was inserted, by R. W. Peterson, Nelson, B. C., through friends here.

Mr. and Mrs. Peterson are both natives of Carleton and are very well known in the West End. Mrs. Peterson before her marriage was Miss Gosline, daughter of Policeman Gosline. Peterson has an aunt still living in that part of the city.

The young couple have been married for some years but last year left for the west taking up their residence at Nelson, B. C. Their married life, however, does not seem to have been a happy one judging from results as the public notice states his wife, Myrtle Beulah Peterson, having left him without cause he will no longer be responsible for any debts incurred by her.

Mrs. Peterson's relations here when seen by the Star said that such a notice was of very little effect as no one would ever allow any bills to run up in his name anyway. They said that she had always lived a very wild life and that he had never succeeded in paying half the debts he owed himself. When asked if Mrs. Peterson had come to this city they said that she had not, but that she was still in the west. They have written to her, however, and she is expected in St. John before long.

JAMES BRENNAN SWEARS CHIEF ASSAULTED HIM.

Witness Describe Lively Altercation in the Chamberlain's Office—Mr. Brennan Used Some Sharp Language

At the police court this morning Herbert Nash, who only recently got out of jail, was fined \$8 for lying drunk on Prince William street. The magistrate promised him a sentence of six months if brought before the court again.

There was quite an audience to hear the case of James Brennan vs. Chief of Chamberlain's Office—Mr. Brennan. Brennan took the stand and testified that on Saturday afternoon last he was in the chamberlain's office, in the City Building between 12 and one o'clock, to pay his taxes. The chief asked him if he was going to pay taxes and if he wished to pay said he would have to get in line with others. Witness told the chief that he knew he did not pay any taxes. Another man came in and was given a place ahead of witness by the chief. Witness then went in the place he had previously held, and was ejected by the chief. Witness told the chief not to monkey with him. The chamberlain then called for order, and witness asked the chamberlain how he got the chief sober enough to come there.

Frank Spittal was sworn and corroborated Brennan's statement, saying that the chief caught hold of Brennan by the two shoulders.

Brennan asked for more time to obtain witnesses, and the case was adjourned until Wednesday morning at 10 o'clock.

CHINESE LAUNDRY FIRE

An alarm was sounded from Box 231, about eight o'clock this morning for a fire in the laundry conducted by Hong Poon on Wall street. The fire caught in a rear room from the stove and in a short time the room was in flames. The firemen responded quickly and both the chemical and hose wagons were put to use. The fire was not extinguished until after considerable damage had been done.

The building is owned by Joshua Cohen and is insured for one thousand dollars. The damage will amount to a couple of hundred dollars, as the apartment is constantly and ably gutted. Hong Poon's loss is not very heavy and the Celestial is uninsured.

The building was also occupied by John Hamilton, who had a confectionary store and the upper section was occupied by Fred Trifis as a dwelling. The goods of these occupants were slightly damaged by smoke.
