

THE FINAL WARNING IS SENT TO PRES. HUERTA

Must Apologize for Arrest of Marines or Put Up With Consequences.

MEXICAN PRESIDENT THINKS U. S. BLUFFING.

President Wilson Ready for Pacific Blockade Unless Mexico Comes to Time Without Delay.

Norfolk, Va., April 15.—Bound to Mexico to force Huerta to salute the American flag, nine American warships steamed out of Hampton Roads at noon today. They are the battleships Arkansas, New Hampshire, Vermont, New Jersey, the dispatch boat Yankton, the colliers Lebanon and the naval tugs Patuxent, Sonoma and Patapeco. Each carries a full supply of ammunition and provisions enough to last three weeks. Prior to the departure of the ships from Hampton Roads the officers and many enlisted men went ashore at Old Point to bid good bye to relatives. There were many touching scenes enacted on the government pier.

The battleship Louisiana, assigned for duty in Mexican waters, failed to make her departure tonight from New York and for a third time a new hour of starting was set. At noon tomorrow, if the remnants of her wandering crew ashore are back on board by that hour the vessel is expected to sail southward.

When the Louisiana was provisioned today two score or more bags of onions were included in the food taken aboard. A sailor's explanation of this was: "The navy department has substituted onions for grog."

Washington, April 15.—With a majority of the ships of the American navy under orders today to proceed at once to the Atlantic and Pacific coasts of Mexico, the United States government gave General Huerta final warning that unless a salute was fired to the United States flag within a reasonable time, the United States would regard the rights and dignity of the United States' serious events which would result in the arrest of the American bluejackets at Tampico was a fit subject for arbitration at the Hague and that he would appoint a commission to investigate the incident. President Wilson, in an emphatic reply through the charge O'Shaughnessy, is understood to have told General Huerta that the time for delay and evasion had passed and that the American government would no longer tolerate such insults to the flag and questions of national honor are not subjects for arbitration.

Huerta Thinks It Bluff.

All information, official and otherwise, that reached Washington from Mexico City, tonight, indicates that Huerta was unconvinced that the United States was in earnest and thought the Washington government was bluffing.

Some anti-American demonstrations at Vera Cruz and other points were reported. Developments of the day here showed that a determined and forceful policy had been defined by the president which would be backed up by Congress and enforced if necessary by the army and navy.

While expressing earnest hope for peace the President unequivocally told members of the Senate and House committees on foreign affairs that the offense of the de facto government at Mexico City to the dignity of the United States could no longer be tolerated, and that unless Huerta complied with the American demands the seizure of customs houses at Tampico and Vera Cruz, and even the declaration of a Pacific blockade shutting off commercial intercourse with the United States would be fully justified by precedents in international law.

It was established that no aggressive act, such as the landing of marines or the shelling of any towns, or the seizure of any ports would be undertaken without authorization from Congress after President Wilson had personally delivered a message on the subject. The practically unanimous approval which republicans and democrats gave alike the administration's initial steps made it apparent, however, that should Rear Admiral Hedges find it necessary to act vigorously in an emergency Congress would back up the American navy without hesitation.

Given Warning.

After orders had been issued today for a naval demonstration on the Pacific coast of Mexico, as well as on the Atlantic, General Huerta was advised that the most powerful fleet in the world was being sent to the Pacific coast, ready to enforce to the extreme the American policy.

Upon General Huerta depends the next developments, he has practically a week to decide the questions, for the warships will not reach Mexican waters for several days.

A STATUE OF QUEEN VICTORIA IN WASHINGTON

Sum Set Apart for Purpose by Peace Centennial Committee—Million Dollars for Memorials.

New York, April 15.—Memorials marking the centennial of peace between this country and Great Britain in 1915 at an aggregate cost of \$1,000,000 were tentatively approved today by a sub-committee of the American centenary organization meeting in this city. The organization finance committee must yet ratify the appropriations and conditional contracts made.

Sums of \$25,000 to \$75,000 each were set apart for statues of Lincoln in London, Francis Parkman, the historian in Ottawa, Ont., and Queen Victoria in Washington, D. C.

Free educational trips abroad for newspapermen of all countries are to be instituted with the proceeds of one of the funds available for the committee use, it was announced. Ignorance of foreign countries causes writing which engenders friction while foreign travel for newspapermen would promote peace, in the opinion of the committee. To writers of poems, hymns and essays extolling peace and the centenary celebration, \$10,000 in prizes will be distributed.

A gift of \$10,000 was voted to the City of Ghent, Belgium, where the treaty of 1815 was signed. The Washington homestead in England, Sulgrave Manor, will have its name changed to Washington Manor, and an institute is to be established there to further peace through lectures of representatives of foreign countries. At all capitals, beginning with Berlin, travel and essays extolling peace and the centenary celebration of the world will be erected at a cost not yet specified. Money also will be set aside to cheer schools and synagogues, and schools taking part in the peace celebration.

CARRY DISEASE THROUGH THE PANAMA CANAL

Harvard Medical Expert Fears Tropical Diseases May Be More Easily Introduced Through Opening of Canal.

Boston, April 15.—Fear that the opening of the Panama Canal may be followed by a world-wide redistribution of yellow fever and cholera, which will threaten very great commercial loss, was expressed today by Dr. Richard P. Strong, head of the Harvard Medical School of Tropical Medicine. Dr. Strong was formerly at the head of the government biological laboratory in the Philippines, and later became prominent through his work in combating the bubonic plague in Manchuria. Last year he headed the Harvard medical school expedition to Peru, where an extensive study of tropical diseases was made.

One of the most interesting and not improbable changes in the distribution of tropical diseases is that the west coast of South America, particularly Guayaquil, may send yellow fever to India and receive Asiatic cholera by way of exchange," he said.

BURGLAR ON HUNGER STRIKE

Buffalo, N. Y., April 15.—Sam Miller, the alleged burglar, who has been on a hunger-strike at the Erie county jail the past ten days, was taken to a hospital today in a serious condition. Miller has been forcibly fed by a tube through the nostrils since his arrest. He refused to talk and for days laid on his cot motionless.

Government Ready to Go Ahead But He Could Not Be Persuaded.

OPPOSITION NOT SO SURE OF THEIR GROUND.

Realize Seriousness of Charges and Don't Seem So Sure that They Have the Goods to Go Ahead.

Special to The Standard. Fredericton, April 15.—Mr. Dugal and those responsible for the charges recently made against Premier Fleming showed tonight by their conduct in the legislature that the charges were not substantiated by facts. Mr. Dugal, when he introduced the motion calling for the investigation, evidently did not fully realize the seriousness of the statements made by him, but it was plainly seen tonight that the charges were made solely with the idea of creating sentiment against the government.

Members of the government announced that they were ready to go on with the debate tonight, but Mr. Dugal began to spar for time, and when the government consented to have the matter laid over till tomorrow the leader of the opposition asked that the debate be postponed until Friday. The government endeavored to have the matter considered before that time, but Mr. Dugal could not be persuaded to agree to this and it was finally decided to continue the debate on Friday.

It was plainly evident that the opposition has weakened in its stand, and there was evidence of panic among opposition followers. F. B. Carvell, M. P. was in the House, but he seemed ill at ease and was evidently convinced that the charges were without substantial foundation.

There is a general feeling in Fredericton that the charges have been made solely for political purposes and that Mr. Dugal did not quite comprehend the seriousness of his assertions when he stood up in the house and accused a member of the government with wrong-doing.

It is generally believed that the charges are without foundation and that the bottom will drop out of the whole case within the next few days. The government is prepared to have the matter lifted to the bottom and every opportunity will be given the opposition to prove the charge made by Mr. Dugal.

THE FEDERALS HEAVENED ON BY REBELS

Returning After Defeat at San Pedro are Caught Between Two Forces of the Enemy.

Chihuahua, April 15.—The federals defeated at San Pedro de Las Colonias are being pounded to pieces between two forces of rebels, according to a telegram received today by General Carranza from General Villa.

Villa received aid from a totally unexpected quarter, supposed at the time the telegram was filed to be the forces of General Pablo Gonzalez, commander of the department of the east, who has been operating in the state of Tlalisco, of which Tampico is the principal seaport, and Nuevo Leon, of which Monterey is the largest city.

The retreating federals, loaded on trains and said to number 18,000, found the track torn up twenty miles east of San Pedro, according to federal prisoners who brought word also that they had been attacked by a strange force, which came from the east.

Claim Huerta Brought Trouble on Himself

London Papers Comment on His Policy in Regard to Mexico—His High Moral Purposes Landed Him in Great Difficulties and Embarrassments.

London, April 16.—Most London morning papers in their editorial comment on the Mexican situation display sympathy with President Wilson in the difficulties which have arisen with Mexico who at the same time contending those difficulties were largely brought about by his realistic policy. Much curiosity is expressed over the intentions of the United States when the occupation of Tampico would have much practical effect and that the blockade of the Vera Cruz would be the only measure that would deal a serious blow to the Huerta regime.

The Daily Telegraph cannot believe that President Wilson intends to put into effect a resolute military intervention, and sees no hope of putting an end to "the anarchy which has resulted from the Wilson policy of moral intervention."

Debate on the Budget Resumed Yesterday

Special to The Standard. Ottawa, April 15.—W. F. Carroll, the Liberal member for South Cape Breton, was the joke of parliament today. He tried to show the house why it was necessary to give him to be a protectionist in his own constituency but a free trader elsewhere. Oliver Wilcox of North Essex, a farmer, who followed him caused a good deal of merriment at Mr. Carroll's expense. Carroll, he pointed out, would protect the chief industries but would refuse protection to the farmer. Mr. Wilcox is an Ontario farmer, Mr. Carroll observed shrewdly would protect the chief industries but would refuse protection to the farmer.

BUSINESS DULL ON BOTH LONDON AND PARIS EXCHANGES

Anxiously Await Something Definite Concerning Progress of Brazilian Affairs—Canadian Pacific Up to 206 1/2.

London, April 15.—There was no increase in the general business on the stock exchange today, and the tendency in nearly all of the markets was distinctly dull.

The Paris bourse was again dull, both Paris and London anxiously awaiting more definite news as to the progress of Brazilian affairs, although the impression still prevails that matters in that direction are improving.

Consols were dull under the combined influence of the Mexican trouble, the continental gold demand, harder money and new issue arrangements. Colonial scrips were easy, a decline of 1/4 took place in Canadian governments to 1 1/2 per cent.

Montreal's new issue failed to achieve the honor of immediate oversubscription. Home Ralls fell slightly in sympathy with consols.

Canadian Pacific opened at 205, recovered to 206 1/2 but experienced a slight reaction late in the day. Mexican Ralls, National Railway Railway Mexico and Brazil 5 per cent bonds all dropped. Brazilian Traction light and Power common participated the prevailing dullness.

NO TRUTH IN REPORT. New York, April 15.—When the steamer Niagara arrived here today from Havre her officers reiterated details of reports that she had been in trouble during her voyage. On April 13th a messenger from London said the steamer had sprung a leak and was making for the Azores.

work to the mysterious reinforcement learning that his new ally was in position to retreat, if not cut off, further retreat to the east; General Villa took personal command of his own troops with the intention, if possible, of administering the final blow, which would eliminate the enemy in the north.

HOUSE RESUMED THE SESSIONS LAST EVENING

Little of Interest and Routine Only Business of the Sitting.

DUGAL'S QUESTION BOX NOT EMPTY YET.

Carvell on Deck, Large Crowd in Galleries, but Nothing Unusual Developed During the Evening.

Fredericton, N. B., April 15.—There was nothing of interest in the legislature tonight, although F. B. Carvell, the dark lantern gentleman, who is currently believed to be the man behind the charges against the Premier, which have started the province, occupied a seat on one of the big plunk benches in the legislative chamber and appeared to be waiting for something which did not materialize. The galleries were crowded and there was much disappointment evident upon the faces of the spectators when the motion to adjourn was passed about 10:30. The train from St. John was late and it was 9:30 before the house opened.

Mr. Dugal started the ball with sets of enquiries, the first relating to W. H. Berry and the second to the master of government officials travelling on railway passes and then charging their fares up to the government.

Mr. Dugal's second question asked if the officials of the government used railway passes and then charged their fares to the government.

Mr. Murray answered this query with a laconic no.

Hon. Mr. Murray introduced a bill to incorporate the New Brunswick Agricultural Societies Limited, which on the ground of urgency, was read a second time.

Hon. Mr. Clarke introduced a bill to amend the New Brunswick Joint Stock act, which gives power to the Lieutenant-Governor in council to change the name of any company which, on the ground of urgency, was read a second time.

The house went into committee with Dr. Bourque in the chair and agreed to the bill to authorize the trustees of St. James' church, Newcastle, to sell certain land, to provide for the superannuation of John L. Marsh, Esq., peon master of the City of Fredericton and to authorize the City of St. John to enter into an agreement with Messrs. McAvity & Sons respecting rates and taxes, each with amendments.

The house adjourned at 10:40 o'clock.

NEW ALLAN LINERS WON'T GO TO MONTREAL

Owing to Shallow Water the Alsatian and Calgarian Will Make Quebec Summer Port.

Montreal, April 15.—It was definitely stated today, owing to the shallow water between here and Quebec, the two new Allan liners, Calgarian and Alsatian, would use Quebec as their terminal port instead of Montreal, which is the home port of the rest of the Allan fleet. The two boats will use berth No. 2 on the embankment at Quebec.

It has been stated by various ministers of marine that the government aims eventually to secure a 35 foot channel up to Montreal, and it is apparent that until this is achieved the larger vessels, drawing 30 feet, will have to stop at Quebec.

The first of the new liners to arrive up the river this season will be the Calgarian, which is due at Quebec on May 24th, while the Alsatian will arrive May 22nd.

Tries to Create Impression that Federal Govt. Will Not Bear Cost of Valley Ry. Bridges

SCANDAL BRIGADE LINED UP AT F'CTON.

Last Night's Incident Evidence of Desperate Case of Carvell and His Associates.

Special to The Standard. Fredericton, April 15.—Look out for another Telegraph scare in reference to the Valley Railway. F. B. Carvell and his associates are busy, in company with E. S. Carter he came to Fredericton tonight and the result of his presence was soon apparent when telegrams were circulated about the house by Carvell, Liberal Organizer Veniot and Messrs. Stewart and Swim, the two "independent" members from Northumberland, to the effect that the federal government in the House of Commons in reply to an enquiry by Mr. H. R. Emmerson, of Westmorland, had stated that the matter of additional assistance about that originally promised for the big bridges on the St. John Valley Railway was "under consideration."

The idea of Mr. Carvell and his co-conspirators seemed to be to get the impression abroad that the federal government will not increase its assistance for the bridges to the entire amount of their cost, about \$3,000,000. The provincial authorities, however, have the assurance from the federal government, that the \$3,000,000 will be granted, and until the permissive more definite announcement than that given at Ottawa today could naturally be expected. This incident serves one purpose, however, and that is to illustrate very plainly the desperate case of Carvell and his associates.

RIGHT OF WAY FOR EXTENSION TO PORT NELSON

Federal Government Preparing to Give Ontario Right of Way for Temiskaming and N. Ontario Railway.

Ottawa, April 15.—The federal government is preparing to give Ontario a right of way for the extension of the Temiskaming and Northern Ontario Railway to Port Nelson on Hudson Bay. Hon. Dr. Roche, minister of the interior, has given notice of a resolution in the Commons providing for the transfer to the Province of Ontario of crown lands now controlled by the federal government in the Province of Manitoba, where such lands are required to make provision for the extension of the Ontario government railway to Port Nelson. The resolution provides that the government in council may make the transfer subject to such conditions and reservations as may be prescribed.

HALIFAX SENDS A BOOST FOR THAT PORT

After Mail Contract, and Sends Montreal Board of Trade List of Advantages of N. S. Port.

Montreal, April 15.—The council of the Montreal Board of Trade at its meeting today considered a communication from the Board of Trade of Halifax pointing out the advantages of that port as the Canadian port for the winter mail service. The figures given went to show that between Liverpool and Montreal the mails save from four to seven and a half hours, as compared with the time taken via St. John. It was decided to inform the Halifax board that the council had repeatedly urged upon the government the improvement of Canadian winter mail service in order that merchants, not only in Montreal, but throughout Canada, might have the advantage of the fastest possible mail connection with Great Britain.

TWO MILLS IN WORK BEGINS OPERATIONS

Fraser Ltd. and Victoria Mills Started Sawing this Week— Expect to Cut Ten Mill- ions—Court of Appeals in Session.

Special to The Standard
Fredericton, April 15.—The Court of Appeals this afternoon concluded the hearing of the argument in Ross vs. Hanson, a five-judge trespass case. The court took the matter in deliberation.

Fraser's Ltd. mill and Victoria mill started sawing this week. They will cut upwards of 10,000,000. Two single machines will be run during the summer.

Albert G. Kitchin, C. D. Richardson, C. H. Coldwell and Mrs. Hobens L. Kitchin of this city and W. R. Hayes of St. John are applying in the Royal Gazette this week for incorporation as the Eastern Canada Realities Limited with an authorized capitalization of \$24,000 and head office at Fredericton.

The liabilities of Duncan Robinson, merchant of Marysville, who assigned to Sheriff Howe this week are placed at about \$1,264 with the assets at practically nothing. John Gibson and John Shephard took place at Christ church cathedral this morning. Mr. Chas. E. Harris of this city was united in marriage to Miss Florence N. Shephard, daughter of Mr. and Mrs. Wealey Shephard of Kowalek, Rev. Dean Schofield performed the ceremony. They will spend a short time at the home of the bride's sister at Burt's corner and will later reside in this city.

Provincial President E. C. Barry of this city, Vice-President A. H. Francis of Sydney, and Provincial Secretary W. P. Hayden of Halifax, were here and addressed the local division of the Ancient Order of Hibernians, as well as the recently formed Women's Auxiliary in this city.

WANT PROHIBITION THROUGHOUT STATES

Advocates Present Arguments in Favor of Law Against the Manufacture and Sale of Alcoholic Liquors in Every State.

Washington, April 15.—Prohibition advocates today presented to the house judiciary committee arguments in support of a constitutional amendment to enforce prohibition throughout the United States. They urge the committee to report to the house the resolution of Representative Hobson of Alabama providing for the submission to the states for ratification of a constitutional amendment directed against the sale or manufacture for beverage purposes.

For three hours men and women representing states all over the east presented their arguments and told the progress of the prohibition fight. Tomorrow they will appear before the sub-committee of the senate judiciary committee in charge of the prohibition resolutions.

BUT ENGLAND GETS ALL THE BIG ORDERS

Captures Shipping Orders of World Despite Advantages Which Herr Ballin Claims Germany Possesses.

Montreal, April 15.—A Berlin cable quotes Herr Ballin, director-general of the Hamburg-American Steamship Company, as saying that "our ship-building prices are cheaper, our delivery times are more reliable than those of British shipyards, and the quality of our workmanship is in every respect on a par with Great Britain's best."

But he denounces the fact that England, despite Germany's before-mentioned advantages "with minor exceptions, invariably capture the shipping orders of the whole world."

Herr Ballin alleges that in the consequence of the deplorable labor conditions, a leading English dockyard is only reluctantly commit themselves to definite delivery dates. Herr Ballin adds: "We seem to forget that our expanding industries require an eternally widening market. Our great opportunities in foreign markets are all the time more gravely imperilled. I will not even speak of things now taking place in the near east, but no two opinions can any longer prevail about the fact that we have already been thrown out of the most important districts there, even if we succeeded in rescuing the remnants."

Easter Musical Service
Tonight in Centenary church a grand Easter musical service will be given by the Methodist church choir of the city, assisted by the choirs of Brookville and Hampton churches, besides several Easter anthems to be sung by the combined choirs, there will be solos by some of the city's best singers. Free public are invited. Silver collection.

MEMORIAL TO STRATHCONA IN WESTMINSTER

Circular to Canadian Resi- dents in England Favors the Idea — Premier Asquith Heads the Committee.

London, April 15.—A memorial window and tablet to the late Lord Strathcona in Westminster Abbey is a proposal being made by a strong industrial committee which during the past three months has been considering the question. The appeal is now made by circular to the Canadian residents in Britain, together with others associated with the Dominion to contribute to the project.

There is a feeling that such a memorial in the Abbey, where the funeral service was held on January 26, would be both suitable and appropriate, says the circular, which adds that the committee has reason to believe that such an offer would be welcomed by the dean and chapter.

The project of the memorial is in the hands of a general committee headed by Premier Asquith, Lord Chancellor Haldane, the Duke of Argyll, Earl of Aberdeen, Earl Grey, Right Hon. Lewis Vernon Harcourt, Sir Charles Tupper and Bonar Law members of the Canadian colony here and the executive committee of which J. G. Colmer and G. C. Cassels are treasurers.

THE GOBLER SIXTON MINING COMPANY HELD MEETING YESTERDAY

Agree to Transfer Portion of Stock to New York Firm When Mills are Erected.

Woodstock, N. B., April 15.—The shareholders and members of the Gobbler Sixton Mining Company met this afternoon with Jas. S. McManus in the chair. The directors were given authority to transfer six-tenths of the stock to Shepherd Eaty and partners of New York just as soon as that firm erect their mills on the property, the estimated cost to be in the neighborhood of half a million dollars.

In the event that company failing to live up to the agreement, the directors have power to open negotiations with any other company.

Jas. R. Brown, the single tax expert of St. John, addressed a largely attended meeting of the Board of Trade tonight, President E. W. Jarvis in the chair.

Hon. H. J. Connell and Miss A. G. Connell left today for New York. It is rumored that Dr. T. W. Griffin will follow up to the agreement, the director and the charming Miss Connell will become man and wife, the ceremony to take place in New York.

Jullius Nielsen and Mrs. Smith were united in marriage at the Salvation Army Barracks tonight.

IS THE FIRST TIME IN FOUR HUNDRED YEARS

New Catholic Titular Bishop of Whelbeck an Englishman Made Abbot of Norbertine Order.

London, April 15.—The new Catholic titular Bishop of Whelbeck, Right Rev. J. G. Saxon, was enthroned as abbot of the Order of White Canons, or Norbertines, at Manchester on Tuesday. The occasion was of special interest from the fact that this is the first time in four hundred years that an Englishman has been made an abbot of the order. Sir Saxon is also the first English bishop to join the order since the reformation. The new abbot-bishop has just completed the silver jubilee of his work in Manchester.

New York, April 15.—Sir Lionel Carden arrived here today on the steamship Olympic. He declined to discuss the Mexican situation or to tell of his immediate plans. He is on his way to Mexico City and it is said that he may travel overland to Galveston and there be met by a British cruiser.

Sir Lionel was only recently the British minister to Mexico. His present return to that country is only temporary before proceeding to Brazil.

DODD'S KIDNEY PILLS
FOR THE CURE OF
RHEUMATISM, GRAVEL, NEURALGIA,

SCALDS, AND ALL AFFECTIONS OF THE
KIDNEYS AND URINARY ORGANS.

END OF SESSION MAY BE SOONER THAN EXPECTED

Parliament to Hold Morning Sessions—Some of Legisla- tion Scheduled for Present Session May Be Held Over.

Ottawa, April 15.—A sign of the beginning of the end of the present session of parliament is given by a notice of motion by Acting Premier Foster for morning sittings of the Commons beginning on Monday next. The house will meet from eleven o'clock until one with an adjournment until three o'clock for the balance of the session.

It is probable that with a view to bringing the session to a close as early as possible some of the government legislation which it was intended to put through this session will be left over until next session. If it is found that the redistribution bill is likely to cause a long debate, the final passage of the bill together with the providing for the increase in senatorial representation from the west may be deferred until next session.

The consolidation of the railway act which is also likely to take considerable time may likewise be deferred. The principal business remaining to be done of a controversial nature is the C.N.R. aid proposals and the passing of supply. The present indications are that prorogation will not be reached before the beginning of June.

MEDIGOS CHARGED WITH CRUELTY TO DOGS

Members of Faculty of Uni- versity of Pennsylvania Under Indictments for Cruelty After Vivisection on Canines.

Philadelphia, April 15.—Advocates and opponents of vivisections many of whom are medical men and society women crowded the court room today to hear the testimony of six members of the faculty medical school of the University of Pennsylvania who are charged with cruelty to dogs after vivisection had been performed.

Those under indictment are Doctors J. E. Sweet, Alfred N. Richards, Allen J. Smith, Richard Mills Pearce, Alton Englebert Taylor, and Edward T. Reichert.

Dr. Sweet was the only one placed on trial today. He pleaded not guilty. He had charge of the housing of animals.

The prosecution of the medical men was brought by the women's society for the prevention of cruelty to animals. Counsel for the society said that the prosecution is not necessary, as an attempt to deliver a blow at vivisection but was brought as a means of preventing unnecessary cruelty to animals.

IF CATARRH KEEPS YOU HAWKING

USE 'CATARRHOZONE'—THE QUICKEST CURE

Nothing Known So Sure
For Throat Weakness,
Bronchial Trouble, &c.

No doctor attempts today to cure a catarrh of the throat or bronchitis except by the inhalation method. Stomach dosing has been discarded because useless medicine so taken affects the seat of catarrh.

The advanced physician recognizes that only air can be sent to the lungs and bronchial tubes. Fill this air with healing medicaments and you solve the problem. No combination of anti-septics is so successful as Catarrhozone.

It contains the richest pine-balsam and the greatest healers known. One breath of Catarrhozone instantly circulates over the area that is afflicted with catarrh. Relief is instant—suffering stops at once—germs are destroyed—every taint of disease is removed. Think it over seriously. Here is a remedy that clears the throat, relieves hoarseness, coughing and bad breath. Irritating phlegm is cleared out, inflamed bronchial tubes are healed, throat and voice are strengthened.

Catarrhozone is pleasant and certain. You breathe Catarrhozone—do not take it. Large \$1.00 size is guaranteed—smaller size 50c, and trial size 25c, at all dealers everywhere.

RAILWAY ACT BILL MAY BE HELD OVER

Intention of Government is to Prorogue by Beginning of June at the Latest.

London, April 16.—Commenting on the fact that Canadian Pacific showed a rise of 3-8 on the day, the financial editor of the Standard says the recovery was largely due to the fact that the market was taking a more favorable view regarding the effect of the recent decision on freight rates. It is argued that supporting the three transcontinental railways were to lose \$3,000,000 per annum in gross revenue from this change, and estimating working expenses at seventy per cent, it would mean a total loss of not more than \$9,000,000 per annum.

If two thirds of this loss were to fall on the Canadian Pacific it would mean only some \$6,000,000 or about \$500,000 a month, which is not an important matter for a company with so large a revenue as the Canadian Pacific.

There is a good deal of legislation yet to be dealt with, and it is positive that rather than lengthen out the session unduly, some of it may be stood over until next session which will open in the late fall. A good deal will depend on the time the redistribution bill will take. If the debate is prolonged the final passage of the consolidated railway act may be set over as well as the bills to provide for increased senatorial representation for the Western provinces.

It is the intention of the government to get through, if possible, by May 24, so that prorogation may be expected at latest by the beginning of June.

SEVENTY FIVE THOUSAND VOTES WILL HAVE TO BE RECOUNTED

Judicial Recount of Votes for Contrellship in Montreal Granted by Chief Justice Davidson.

Montreal, April 15.—A judicial recount of all the votes cast for contrellship will be made following a ruling in his opinion, turned out to be a futile one, as far as the changing of the general result was concerned. But there was only one course open to the court that was to grant the petition presented.

The recount will commence Friday morning. There are upwards of 75 ballot boxes to be opened and examined. During the time the recount is going on the whole city administration will be tied up to the great inconvenience of this city.

C.P.R. STOCK ADVANCE ON LONDON MARKET

London, April 16.—Commenting on the fact that Canadian Pacific showed a rise of 3-8 on the day, the financial editor of the Standard says the recovery was largely due to the fact that the market was taking a more favorable view regarding the effect of the recent decision on freight rates.

UNIDENTIFIED THREE MASTED SCHOONER STRUCK ON JERSEY COAST—NOT KNOWN HOW MANY ABOARD.

Seabright, N. J., April 15.—In the heavy gale which blew along the coast tonight an unidentified three-masted schooner struck near here and was carried a mile down the coast to Gallies, where she stuck fast, flashing signals of distress and exploding rockets. West End, North Long Branch, and Monmouth Beach stations sent life saving crews. Tremendous combers and a seventy mile an hour wind, however, made it too perilous for boats to be sent out.

A breeches buoy was rigged out and after many futile attempts the life savers succeeded in getting a line across the schooner's bow.

At a late hour the identity of the vessel and the number of persons on board had not been learned. The rescuers were planning to send one of their number in the breeches buoy out to the ship.

MATE OVERBOARD, HAS A NARROW ESCAPE

Farrabro, April 15.—Osborne Forbes, mate of the little schooner Emily had a narrow escape from drowning this morning. The vessel was under sail off Five Islands in a stiff breeze when Forbes went to the rail to draw a bucket of water, and when the bucket filled the sudden jerk drew him overboard. Captain Antle saw him in the water and immediately jumped into the boat nearly upsetting, but he finally succeeded in getting Forbes into the boat and back to the schooner.

Pain in Top of Head Was Almost Constant

Two Doctors Recommended Surgical Operation as Only Hope—Wonderful Results From Dr. Chase's Nerve Food.

Headache is sometimes described as the cry of the brain for more blood. One thing certain, headaches is the usual accompaniment of exhaustion and disappears when the depleted nerve cells are restored by such treatment as Dr. Chase's Nerve Food.

What this treatment actually does is to increase the red corpuscles in the blood, or, in other words, make the blood rich in nourishing and building-up qualities.

For this reason the cures effected are both thorough and lasting. The relief you get from headache powders and tablets is only temporary, and is obtained at enormous expense to the nervous system. Again and again the headaches return until your nervous system is worn out and helpless of mind and body results.

WESSEL IS MORE IN HEAVY SALE

Washington, April 15.—Unless there is an overnight change in the attitude of witnesses in the New Haven Railroad investigation who refused to tell the Inter-State Commerce Commission about the operations of the Bill and Saturday, to which millions of dollars worth of New Haven securities are alleged to have been illegally diverted, proceedings under the criminal statutes will be instituted here tomorrow by the government to compel them to testify. This was announced tonight by Joseph W. Folk, chief counsel of the Inter-State Commissioners' Commission.

ST. JOHN TO FIGURE IN BOXING MEET

Boston, April 15.—Four national champions and many sectional title holders were among the 131 amateur boxers who had entered the national championships, to be held here Friday and Saturday, when the entry list closed tonight.

William Barrett, of New York, national 155 pound champion, was among the quartet of last year's winners to try for further honors. New York has a number of other entries, including several metropolitan champions. Toronto and St. John, N. B., will be represented.

Manager Birmingham will probably play center field for the Cleveland Americans this year. He was unable to play most of last season.

A WONDERFUL CURE OF AN ABSCESS BY Burdock Blood Bitters.

Mr. A. W. Dryden, Amherst, N.S., writes: "I am going to tell you what Burdock Blood Bitters has done for me. I had an abscess in my cheek bone. I took him to a doctor in St. John, N.B., and he lanced it, and told me it would keep it squeezed out. It did not seem to get any better, so my wife took him back. The Doctor told her to take him home and it would soon get better. It would gather and break, and it went on that way until he was over four years old."

"He lost four pieces of bone out of where it was lanced, and two pieces came from his mouth, he has lost all of his cheek bone, and his eye was drawn down. I took him to doctors in St. John, Moncton, and Amherst, and all wanted me to let him go under an operation. He was so small I told them that if he was going to die he might as well die as he was, so I went to the doctor and I declined to have the operation done. I told them I was going to try Burdock Blood Bitters, as I had heard my mother talk so much about it. I got a bottle, and when it was about half gone noticed it was doing good, and before many days the sore stopped running, and healed up, and the abscess has never broken out again. This happened nearly six years ago, so you can see I have faith in Burdock Blood Bitters, and I can say with all my heart that it is the best blood medicine in the world."

'Great Activity in Anticipation of Opening of Streams and Rivers - Big Demand for Men.

Heartland, N. B., April 14.—There is considerable activity these days among those who follow lumbering for a living. Men are coming in from all parts of the county and being eagerly snapped up and sent forward on the drives in anticipation of the opening of the streams and rivers.

Citizen Suggests Change in Plans for School Building - In Advocates Two Story Building.

A citizen in close touch with school affairs recently told The Standard that he felt the school trustees were taking a step in the right direction when they decided to send a committee to other places to see what was being done in the way of supplying new school buildings and the mode of construction used.

THICK, GLOSSY HAIR FREE FROM DANDRUFF

Girls! Beautify your hair! Make it soft, fluffy and luxuriant.

Try as you will, after an application of Danderuff, you cannot find a single trace of dandruff or falling hair and your scalp will not itch, but what you will please your most, will be after a few weeks use, when you see new hair, fine and downy at first—yes—but really new hair—growing all over the scalp.

IN THE COURTS

CIRCUIT COURT.

In the circuit court yesterday morning, George Dixon, Walter Currie, Gilbert Lauchner, Jr., and Ernest Bushman, convicted of assault upon Frank E. McHugh, with intent to do bodily harm, were sentenced by Mr. Justice McKeown each to four months in jail, commencing from the 15th instant, the day on which they were convicted. J. A. Barry in behalf of Dixon, and L. A. Conlon in behalf of Bushman asked for the leniency of the court.

PROBATE COURT.

In the Probate Court yesterday in the matter of the estate of Henrietta Burpee, widow of Hon. Isaac Burpee, there was return of a citation to pass the accounts of John Bell Carruthers, of Kingston, Ont., and George K. Mead, of New York, executors, and sons-in-law of the deceased. The accounts were found entirely correct. The estate has been fully administered. The executors waived their right to any commission. The accounts were passed and allowed. J. Roy Campbell, K. C., is proctor.

DELEGATES FROM THIS CITY - MEETING WILL BE HELD IN SPRINGFIELD, MASS. - INSTRUCTIVE ADDRESSES.

Interest among those associated with kindergarten work in the city is attached to the twenty-first annual International Kindergarten Convention which will be held in Springfield, Mass., from April 29th to April 25th and this morning the following ladies will attend the convention which promises to be one of the most important of its kind yet held: Miss Hazel Seely, Miss L. Estey, Miss Edith Stevens, Miss Morgan, Miss Manka and Miss Annie Batzley. It is likely that Mrs. F. E. Holman will also attend the convention with the local delegation, and Mrs. W. C. Matthews will leave for the convention on Friday.

WILL U. S. ANNEX CANADA?

Uncle Sam has about as much chance to do so as a cheap acid corn salve has of curing a corn. Nothing gives such satisfaction as Putnam's Corn Extractor, which cures painlessly in twenty-four hours. Use only "Putnam's," 25c. at all dealers.

Tells of Indians.

Last evening in Centenary school room under the auspices of the Women's Missionary Society a lecture was given by Rev. W. H. Barraclough on the Indians of the Pacific coast. The subject was "Among the Siwash Indians" and the speaker dwelt at considerable length with the history of missions during the past fifty years. He gave as well a great deal of information concerning these various tribes, their customs, beliefs, mode of living, etc., and displayed by illustrations as well as words their physical characteristics, their habits, and their everyday life. The lecture was particularly interesting, being told from the personal standpoint and filled with stories of the speaker's own experiences.

James McKenna Here.

James McKenna, of the C. P. R. passenger department, arrived in the city yesterday afternoon in company with a party of sixteen passengers from Montreal, who embarked on the steamship "Victorian," which sailed for Liverpool last night, leaving in his wake a trail of trip to St. John for many months and although he has not grown any taller, he is just as genial. He was expected to arrive in the evening receiving the glad hand.

City Council.

A meeting of the city commissioners has been called for this afternoon. It is expected that the common clerk will report the results of the recent civic elections. Other matters of a routine nature are to come before the commissioners.

SIWASH WINS THE SUBJECT OF LECTURE

The Siwash Indians was the subject of an illustrated address delivered by Rev. W. H. Barraclough before members of the Women's Missionary Society of Centenary church in the church school room last evening. At the opening of his lecture Mr. Barraclough referred to the appeal that is being made in the city on behalf of the Siwash Indians and urged that all possible be done for these people.

OBITUARY.

The funeral of the late Robert Clark took place at Chatham on Saturday April 11th, the service by the Rev. J. T. McNeil being very largely attended.

PERSONAL.

The Montreal train last evening carried the following members to Fredericton: L. P. D. Tilley, M. L. A., J. R. M. Baxter, M. L. A., C. E. Lockhart, M. L. A., Philip Graman, M. L. A., H. V. Dickson, M. L. A., A. A. Melanson, M. L. A., O. S. Humphrey, M. L. A., Frank Black, M. L. A., Dr. O. B. Price, M. L. A., went to Fredericton on Tuesday.

PREVENT USING OF FRENCH IN SCHOOLS

Interesting Case before Chief Justice, at Spring Assizes, at Cornwall, Ont.

Cornwall, Ont., April 15.—At the spring assizes which concluded here today before Sir Glenholme Falconbridge, chief justice, an interesting case concerning the introduction of the French language in a school in Glangary county occupied the attention of the court. Donald D. McDonald and other English speaking ratepayers of separate school section No. 14, Green Valley, took action against Mederic Poirrier, Emerle Outinet and John Menard, trustees, and Leontine Seneca to restrain the trustees from employing Miss Seneca on the ground that she was not a properly qualified teacher and that she had been illegally engaged, also to restrain the trustees from using the rates of the section to pay Miss Seneca's salary and to prohibit the defendants from using or allowing the use of French, as the language of instruction or communication in the schools.

ST. JOHN, N. B., THURSDAY, APRIL 16, 1914.

THE DOMINION SESSION.

Parliament resumed yesterday after the Easter recess but there is nothing to indicate that the Opposition found, in the holidays, sufficient time to bring together the different wings of the party on the question of tariff. It is generally conceded in Ottawa that the Liberals were prepared to move a free food amendment to the budget speech but that the bold declaration of the Finance Minister caused them to recast their plan of campaign, or else to withhold it until they had opportunity to give it closer scrutiny. Hon. Mr. White was quite definite in his determination not to reduce food duties, and to make no changes in the tariff that would favor of an approach to free trade. He threw down the gauntlet to the Opposition by his plain statement that the Government was prepared to meet the opposing party on the free trade question at any time and argue the matter out before the people. This was not what Sir Wilfrid had been led to expect by his free trade friends. Some of the Opposition members, and especially Dr. Michael Clark of Red Deer, a gentleman of much influence on the Liberal side of the House, still cling to the idea that the people of Canada will support free trade legislation, and there is no doubt that if Dr. Clark were in the seat occupied by Sir Wilfrid it would be one of the first planks in his platform. Others of the Liberals, however, are not so sure of their ground and are loath to follow Dr. Clark's lead in the matter. This may add some significance to the fact that in the debate so far the Liberals have not advanced any policy, that Mr. A. K. Maclean, the Opposition's fiscal expert, who was put up to answer the Finance Minister pitched his speech in a protesting note and did not attempt to advance any remedy for the conditions of which he complained. The Liberals are sparing for time, divided themselves on the question of trade policy they cannot meet the challenge of the Finance Minister. It is doubtful if the Easter recess has tended to improve their lot and consequently, while there may be an amendment to the budget speech, asking for a measure of reduction in some of the duties, it is most unlikely that the Liberals will make any noticeable fight on the question. A divided party, torn and shattered by the scandal of the N. T. R. deal, outgeneraled by the Government at every turn, quarrelling among themselves on matters of policy their dearest wish now is for a speedy adjournment and a long rest in which to gather their forces for the struggle of next year.

BRITAIN'S DRINK BILL.

Although there is a general impression that the sentiment in favor of total abstinence has experienced wonderful growth during the past ten years, it is a peculiar fact that the drink bill of the British people for the year 1913 shows a great increase over the amount expended in 1912. The United Kingdom Alliance Temperance Organization calls attention to the bill and the huge total of the total amount expended on alcoholic liquors in 1913 was nearly £167,000,000, or \$335,000,000, more than \$25,000,000 above the 1912 figure. The average expenditure works out at about \$13 per head. Since 1909 the per capita expenditure on drink has been increased by nearly 2 1/2%, or 8 1/2% cents. The British papers generally contend that this does not mean that the nation is growing less temperate; it simply means a period of sustained prosperity. "Heavy drinking and good trade," says the Daily Mail, "go together. It sounds, and is, appalling enough that we are spending on drink a sum equal to four-fifths of the entire national revenue; that a working class family should be estimated to waste nearly one-sixth of its income on liquor and that the annual expenditure, if we omit total abstainers and children under 15, should work out at all but 2 1/2 (25%) per head; but it is an improvement on what has gone before. Macaulay reckons that in 1688 the English people consumed ninety gallons of alcohol per head. They now only drink a little over twenty-eight. In 1750 there was one public house to every six homes and to every forty-seven people. Now there is but one public house to every seventy homes and 330 people. "Drunkness, too, besides having virtually died out as a social accomplishment, has steadily diminished among all classes." The Daily News suggests that the heavier drinking by women accounts to some extent for the increased expenditure; but it points out that prosecutions for drunkenness per 1,000 population are only 57 for England, as against 195 for Scotland and 145 for Ireland. Of course it must be considered that

like every other article of trade and commerce the price of alcoholic liquors, and beer, has risen far above the figures of former days, so when it is pointed out that there has been a great increase in the amount of money spent for liquors, it does not follow solely that the whole of the increase is accounted for by greater consumption. People who use liquor pay more for it today than they did years ago and even though the actual number of gallons consumed should be no greater than in other years, it would be found that there would be a very considerable increase in the gross cost. To say that the increase in the consumption of liquor is an index of prosperity is an argument that will be very seriously combated. Taking the case of this city as a basis of argument, and despite the statements of well intentioned reformers, who claim that we are not progressing as greatly as we should in the ways of temperance and morality, it will probably be generally agreed that the quantity of liquor consumed in St. John today is much less than was the case say fifteen years ago. There has been a decrease in the number of licenses and a general improvement in the conditions surrounding the traffic. Restrictive laws are now in force which tend to reduce the quantity of liquor consumed. Yet there will be few rash enough to say that the city is not more prosperous today than fifteen years ago, when there were more open saloons working longer hours and selling more liquor. This is one case where the prosperity of the community is not gauged by the increased liquor consumption and, doubtless, every city in Canada will offer similar evidence. It is recognized that in Britain conditions are different, but at the same time there is good ground for disputing the claim advanced by the London Daily Mail.

THE CONGO

The Congo country seems about to enter upon a period of very great progress. The Belgian Minister of the Colonies stated last week in the Chamber of Deputies that he believed the great future product of the country will be oil, and not rubber, as has heretofore been the case. But these two commodities are not its only potential sources of wealth. Coal has been found, and also what are described as "gold deposits of great importance." What seem to be extensive deposits of tin have been discovered, and are now being examined. The Congo State, to which these observations apply, is a very extensive region in Central Africa reaching from five degrees south latitude to nearly fifteen degrees. It touches the Atlantic at the mouth of the Congo River, where it has a coastline of only twenty miles, and extends more than halfway across the continent, or to the shores of Lake Tanganyika, Lake Kwa and the Albert Nyanza. It has an area of more than 300,000 square miles. In the course of three months the German railway from the east coast of Africa will reach Lake Tanganyika, and thus render all eastern Congo readily accessible. A railway is now under construction from Katanga to Bukana on Lake Tanganyika and will be completed next year. This connects at the Rhodesian frontier with the railway to the cape, and will form part of the Cape-to-Cairo project, of which there remains more than 1,200 miles to be taken in hand. The Congo authorities contemplate building other lines, which will reduce this gap, although the several lines will have to be connected and conformed into a single system. The great dream of Cecil Rhodes is, however, now within measurable distance of realization, although it would be premature to fix, even approximately, a date for the completion of the through line. In regard to the Congo as an area for colonization, it may be said that while a very considerable part of it is not fitted to be a home for Europeans, the higher levels are, and with the development of mining and oil production, it is very probable that there will be a large influx of people from the north. The London Daily Mail is authority for the statement that the center of Free Trade England, and the Metropolis of the world is "seriously concerned over the steadily increasing cost of living." Several instances are given, such as new-laid eggs at 72 cents a dozen, advanced rents, and six and seven cents a pound added to the price of meat. This leads the Hamilton Spectator to remark:—"The condition is sought to be ameliorated by the statements that similar complaints come from France, Germany, New York, and even Toronto. But Great Britain in its distress, cannot resort to relief by abolishing the duty on agricultural implements, or to free wheat, a fallacious remedy that many of Canada's eager to get-rich-quick wheat miners are clamoring for."

Diary of Events

HISTORIC DAYS IN CANADA

John Winslow, the colonial soldier who was in charge of the removal of the Acadians, died in Hingham, Mass., 140 years ago today. He was born in Plymouth, Mass., in 1702. His great-grandfather, Edward Winslow, was a Mayflower emigrant and governor of Plymouth Colony, and his grandfather, Josiah Winslow, was the first New England born governor and general-in-chief of the colonial military forces. John Winslow was captain of the Boston company in the expedition against Cuba, and later in life was a major-general in the expeditions against the French and chief justice of the court of common pleas for Plymouth county, but his fame rests principally upon the part he played in that dramatic and pathetic exodus of the Acadians immortalized by Longfellow. When Col. Lawrence, governor of Nova Scotia, decided in 1755 that the rebellious Acadians must, choose between British allegiance and foreign exile, the Acadians chose the latter. John Winslow was then commander-in-chief of all the British forces in North America, and to him Col. Lawrence appointed a force to alter the transportation of the Acadians. Col. Winslow was placed in command of the New England troops dispatched to Nova Scotia and supervised the tragic operation of separating a people from the soil on which they had been born. The arrangements, made with secrecy and sternness, were suddenly put into execution and thoroughly and rapidly carried to conclusion. Within a few months, in that historic summer of 1755, Col. Winslow and his men dispatched over 6,000 Acadians from Annapolis, Chignecto, Minas and other Acadian places in the British possessions to the south, and a few to England and the West Indies. Such a sudden exodus was naturally accompanied by much of hardship and suffering, but Col. Winslow and his men were as kindly as circumstances would permit, and made every effort to prevent the separation of families.

THE HUMAN PROCESSION

GEN. JACOB COXEY, LEADER OF HOBO "ARMY" IS 60 TODAY.

"Gen. Jacob Seehler Coxe, who attained world-wide notoriety twenty years ago by organizing an "army" of the unemployed to march on Washington and demand work, and who is now prominent in the hobo movement, was born in Pennsylvania sixty years ago today. The "general" himself is far from being in the financial straits of a "hobo" as he is supposed to possess considerable wealth. For several years past little has been heard of the famous agitator, but in February last he announced that he would celebrate his sixtieth birthday by inaugurating another "On to Washington" army of the unemployed. Since then he has visited many cities, usually directing the work of organization from headquarters established in the highest-priced hotels. "Gen. Coxe" was reared in poverty, and at thirteen began work in a rolling mill. At twenty-seven he was the owner of a flourishing sandstone quarry at Massillon, O., which city he has since made his home. Some years later he became a horse-breeder on a large scale, first at Lexington, Ky., where he purchased a large stock farm, and later at Massillon. Politically Coxe was originally a Greenbacker, and became a Populist and a leader in that party. Religiously, he has described himself as a "Christian theosophist." It was during the widespread financial depression incident to the panic of 1893 that Coxe first became an international agitator. The American Federation of Labor had recommended that work be provided for the millions of unemployed men in the United States by the issue of \$500,000,000 in bonds by the federal government, to be expended in the construction of good roads. Coxe became the staunch advocate of this scheme for relieving the situation and providing jobs for the hungry, and it was for the purpose of bringing this plan prominent before the public that he organized the "Commonwealth army" for its "On to Washington" march. The main division of the "army" left Mass on March 25, 1894, with less than a hundred men. "The boys," as Coxe called his followers, made the trip "on the hoof," but the "general" rode in a phaeton. The vehicle is still in existence, and Coxe has promised to use it again, but the horse that drew the leader of the "army" is dead. The march of the Coxeites, as they were called, aroused some interest in the plan which was designed to foster, but the attitude of the general public was largely that of derision. When Coxe made his entry into Washington on April day a score of years ago, his army had increased to 326 men. They paraded the streets of the capital, where they were cheered in turn by the big crowd of Washingtonians assembled to see the "army" of which they had heard so much. Coxe had planned to make a speech from the steps of the Capitol, but in attempting to do so he committed a grievous violation of the law by stepping on the grass. Coxe's lieutenant, Carl Browne, were immediately arrested and hauled to court. There they were charged with illegal possession of the Capitol grass. The evidence against them was so overwhelming that they were forced to confess guilt, and both Coxe and Browne were imprisoned for twenty days. During that period their "army" melted away, and, although other "armies" started from various sections of the country, the movement came to nothing. "Gen. Coxe" declares that there are more jobless men in the United States now than ever before. Unless something is done, he foresees a critical period ahead for the United States, with capital and labor engaged in a civil war that will make the "late unpleasantness" between North and South seem but a trivial affair by comparison.

FIRST THINGS

TACKS

The first machine for the manufacture of tacks was the invention of Thomas Blanchard, who died in Boston half a century ago today. He was born at Sutton, Mass., in 1788, and as a youth showed great inventive and constructive talents. Besides the tack-making machine and other inventions of merit, he made the first lathe for

Little Benny's Note Book

BY LEE PAPE.
I herd a good wun yesterday, beeing jest a kwestshin and no anser, and I tried it awn pop wen he cam in, saying, Pop, will you anser a kwestshin.
To the best of my debility, in the words of the hippercondriack, sed pop.
Well, ware dux yure lap go wen you stand up, I sed.
Ha, ha, ha, you littel cut up, sed pop, have you sprung that awn yure mothr yet.
No sir, I sed, and pop sed, Then kum up stares and we will spring it awn her in a body. Wich we went up and ma was in her rooff playing solertaire with a pack of caris, and pop sed, Benny, I gess we will haft to refer that kwestshin to yure mothr, Im a littel rusty awn my fizzeology, but no dowt she can anser it.
Wats awl that about fizzeology, sed me, for goodniss sakes dont ask me anything about fizzeology, when I was a garl I coodent bare to look at those orrdil pictures of peopl without there akna awn. Benny's fizzeology book is in the sitting room if you want to find out anything, now if I can get anuthr ace this thing awt to kum out awl rike, if nuthing happens to this king.
But it is not mutch of a kwestshin, sed pop, its moar a kwestshin of experients than edukashin, I dowt if its even in the book, the kwestshin is, Ware dux yure lap go to wen you stand up.
Im sure I dont no, go look in the fizzeology, I told you, sed ma, O deer, if I only get anuthr ace now.
But its a verry simpll kwestshin, sed pop, I dont even bleeve you herd wat it was, did you, kum up, sed pop, I dont care wat it is, look in the fizzeology, cant you see Im playing solertaire, O deer, this thing izent going to kum out, I no it.
Ill repeat the kwestshin, sed Pop, ware dux yure lap go to wen you stand up.
And I repeat, go look in the fizzeology, sed ma, if this think kums out rong it will be yure fawit, I told you I hate fizzeology.
Benny, its no use, sed pop, we mite as well ask her ware her sents of hewmer gos to wen a joak heaves in site.
O goody, heers an ace, sed ma.
Well look out for the joaker, it mite make you laff, sed pop. And he opened his paple and startid to read it and I went out to see if any of the fellos was eround.
turning gun-stocks, and while employed in the United States army at Springfield, Mass., he invented the device for mortising all parts of the gun into its stock. The tack-making machine, Blanchard's greatest invention, has since been greatly improved. The industry in America is largely confined to the cities and towns of southeastern Massachusetts, which not only supplies the domestic demand but exports large quantities to Europe, Canada and South America. Sheets of Bessemer steel are cut into strips and then fed into the tack-making machine.

MOTHERS WILL YOU RISK IT?

Your child—or some member of your family—has a bad sore, cut or ulcer, or eczema. Whatever you put on that sore place will get into the blood as surely as if it were swallowed into the stomach. Now what are you going to use?
Many ointments are not antiseptic.—Zam-Buk is.
Many ointments cause pain.—Zam-Buk kills pain.
Most ointments contain mineral poisons.—Zam-Buk does not.
Most ointments have as a basis animal oils and fats.—Zam-Buk is purely herbal.
Most ointments suitable for adults are unsuitable for children.—Zam-Buk is suitable alike for babes or adults.
Most ointments, if not used up, go bad.—Zam-Buk retains its power for years. Economical.
The deeper you look into it the more clearly you see the foolishness of taking risks. Don't you think your children should have the best? Zam-Buk is the standard by which ointments are to-day judged. Some dealers will tell you they have something "just as good as Zam-Buk." Why spend money on imitations of Zam-Buk when you can get real Zam-Buk? Take no risks. Try Zam-Buk for cuts, burns, eczema, piles, scalp sores, eruptions and all skin diseases and injuries. See name on box before buying. All druggists and stores sell at 50c. or post-free from Zam-Buk Co., Toronto, for price.

CIVIC ELECTION IN SACKVILLE TUESDAY

Two Full Tickets in Field and Lively Contest Expected—Takes Up Farming in Westmorland.

Special to The Standard—Sackville, N. B., April 15.—An important property transfer was executed today, when John K. Frost, Notting shire, England, took possession of W. Colpitt's Farm, Westmorland Point. The farm consists of about 120 acres of marsh land and over 100 acres of upland with house, barns and outbuildings. Mr. Frost purposes making extensive improvements in his recently acquired property. He has with him a number of farm hands who will assist him in his work. New settlers are valuable additions to the population of the county of Westmorland.

Civic elections take place Tuesday next, with nominations four days earlier. There are two full tickets in the field and a lively finish is anticipated. Each ticket has announced its platform, which vary somewhat. It is rumored that nomination day will see some new men in the field.

Manager Robinson of the Brooklyn Nationals is trying out a young catcher named Wheat. He is a brother of the outfielder by that name.

There now is only one instance where the umpire now figures in a thrown ball play. This is covered in section 4 of rule 55, which reads: "If the person or clothing of an umpire, while stationed back of the bat, interferes with the catcher in an attempt to throw the base runner shall return to his base without liability to be put out."

Under the old rules coaches could address remarks only to the base runners, but this year the coach may talk to the batsman. The first sentence of rule 58 now reads: "A coacher may address words of advice or encouragement to the base runners or to the batsman."

On balls thrown into wire screens there is a definite rule. Last year the umpire came up in which a ball was hit to the shortstop when there were men on second and third bases. In trying to head off the first runner at the home plate the shortstop threw over the catcher's head and the ball lodged in the wire netting which protects the grand stand patrons. The catcher shook the netting and the ball got free, the catcher throwing it to the

UMPIRE'S RULES EXPLAIN WHY RUNNERS HAD TO STOP WORK FROM THE PAIN

THE DEBATE ON BUDGET IS RESUMED

Had to Stop Work From the Pain

Suffered Ten Years Until "Fruit-a-tives" Cured Him

St. Thomas, Ont., May 22nd, 1913.

"I was troubled for ten years with the most distressing Constipation and indigestion of the worst form. No one could have been worse with these troubles than I was for this long time.

The pain from indigestion was so severe that many times I have had to stop work and lie down until the acute spasms passed away.

I took a lot of medicine—in fact, I guess I look about everything that was advertised—and gave them all a fair test—but got no relief. About a year ago, however, I was advised to try "Fruit-a-tives" I am mighty glad I did so for they seem to be made exactly for me.

They gave results in a very short time and I am now free from these diseases and enjoying perfect health. My wife also used "Fruit-a-tives" and we both think they are the best medicine ever made.

Z. J. EDGEWORTH.

carried through an extreme. Having regard to the best interests of the country.

"The Liberals are past grand masters in the art of putting up false gods before the people," declared the member for Essex. They were also the embodiment of inconsistency. Here was Mr. Carroll boasting about the growth of Sydney from a population of 4,000 in 1897 to 20,000 at present, all due to the progress of the steel industry under the protective policy. But outside of his own local sphere the honorable member would give no protection. To the farmer he would deny the benefits of the policy which had brought about the prosperity of the great industry of his own country of Cape Breton. Was not that a narrow view?

Mr. Wilcox went on to point out that the Liberal party had been wrong on every question bearing upon the development of the country. He quoted from the speech of Liberal leaders that they regretted their own opposition to the C. P. R., while Mr. Fielding in office had declared, after years of free trade propaganda, that to remove the protection from Canadian manufactured goods would mean that the manufacturers of this country would have to close their doors.

"I do not wish to be harsh," added the member for Essex, "but it does seem to me to be a curious and opposite policy of the Liberal party to have been in hot air and at the same time shaking hands with them under the table. But the people are getting on to it," (laughter.)

Mr. Wilcox said that the Conservative party had consistently followed the policy laid down by Sir John Macdonald and in 1911 had fought the battle for fiscal independence. There had been a wonderful amount of crying "wolf, wolf, where no wolf was." In point of fact Mr. Wilcox said and cited figures in support of his contention that the Liberal party had acquired 1,500 acres of land in North Windsor and noted the fact that the United States Steel Corporation had acquired 1,500 acres of land in Canada for the purpose of erecting a \$20,000,000 steel plant. The decision of the United States Steel Corporation to establish a plant in Canada was due to the Canadian protective tariff which was the work of Conservative statesmen.

Resuming after eight o'clock Mr. Wilcox quoted the declaration made by Sir John Macdonald 47 years ago in favor of protection for the laborer of Canada, and contrasted with that declaration the course of the Liberal party. Until a few years ago, he said, the Liberal party had been a protectionist for fifteen years. Now he had gone back to free trade.

"A Cobdenite was born in power I will die, but when in power I will be a protectionist," that said the member for North Essex, was the policy of the Liberal leader.

Hon. Rodolphe Lemieux, who followed, said the door had been banged, barred and closed on the consumers. The farmers had received a cold shoulder. The budget might well be described by the historical saying: "It is worse than a crime, it is a blunder." The budget might well be described by the historical saying: "It is worse than a crime, it is a blunder."

Mr. Lemieux said that today the people of the west wanted an increase in the British preference. Mr. Ames professed to be a great imperialist. Would he as an imperialist ask his party to increase this preference?

Touching briefly on the naval question, Mr. Lemieux said it was gratifying to know that the position taken by Sir Wilfrid Laurier at the Imperial Conference of 1911 was the position which is today being adhered by the government of the day.

Mr. Armstrong moved the adjournment of the debate which will be continued tomorrow. The house then adjourned shortly before midnight.

Good Minstrel Show.
To a good house in St. Malch's hall last night a minstrel show under the auspices of the Young Men's Society of St. Joseph's was well presented. The entertainment was well gotten up reflecting much credit on those in charge. It was carried through cleverly showing the result of careful training.

EMPIRE AS A WHOLE FAVORS HOME RULE

Manchester Guardian Says Colonies are All for Granting it to Ireland as They Found it a Success.

London, April 16.—"One of the strongest imperial reasons for setting up Irish Home Rule," says the Manchester Guardian, "is that the empire as a whole strongly wishes us to set it up. The Canadian parliament has five times over passed resolutions in sympathy with the Irish request for home rule. The Australian senate and house of representatives have both petitioned the crown in the same sense. Every colonial premier who attended the last imperial conference was in favor of Home Rule for Ireland. The colonies and their statesmen are naturally for home rule because they have tried it. Here and there you may find a leading colonial politician who, being perhaps of Orange descent, is against home rule." This remarkable statement by this radical organ is a reply to Sir Edward Carson's reminder to his volunteers.

An extraordinary feeling of suspense now marks the political atmosphere. The Pall Mall Gazette, while pressing for a general election before the bill receives its final sanction, admits that the opposition have gone as far as they can possibly go, and further even than many expected.

The budget will probably be introduced at the end of the month.

MUST KEEP THE SECRET FROM OTHER NATIONS

Injunction Restraining Construction of Torpedo Used by U. S. Navy is Made Permanent.

Washington, April 15.—A temporary injunction granted by Judge Veeder in the United States district court of New York, restraining the E. W. Bliss Company from revealing to other nations the construction of the Bliss-Leavitt torpedo used by the United States navy, has been rendered permanent.

The Bliss Company was about to demonstrate the operation and construction of this torpedo, which is the finest weapon of the kind in the world, to the Whitehead Torpedo company of Vienna, Austria, when checked by temporary injunctions sought by the navy department.

PUGILIST DIES FROM HIS INJURIES

Billings, Mont., April 15.—Kid Fortney of Indianapolis, was injured here last night in a prize fight with Roy Coughill of Cody, Wyo., and died today.

He was knocked down in the seventh round and his head struck the floor. From then until he died he was unconscious. Coughill is being held on order of the coroner. An inquest will be held tomorrow.

ALL THE LATEST NEWS FROM THE ATHLETIC WORLD

LIPTON SAYS SHAMROCK A CUP-LIFTER

London, April 15.—That there is no chance of Lipton's Shamrock IV, not being ready for the international yacht races in September, was the declaration today of the cup-seeking yacht owner. His statement, and one that troubles were holding up the work of the boat and that the challenger might not be built in time for the contest.

HALIFAX ON LEAGUE MATTERS

The Halifax baseball promoters have held several meetings regarding the proposed formation of the Maritime League, and placing a team in it, but are not favorable to granting the concessions asked for by Moncton and the Pictou county owners. Halifax has looked over the situation from all points and unless Moncton and New Glasgow see their way clear to offer Halifax a counter proposition for instance, such as agreeing to take a guarantee of say fifty or seventy-five dollars and allowing Halifax to have their own rate receipts nothing can be done. Halifax would thus stand by the written agreement made by Moncton and New Glasgow at the league meeting held recently at the latter place, namely Halifax, when they visit those two towns to receive no compensation at all.

GOOD ROLLING IN BOWLING TOURNAMENT YESTERDAY

The bowling tournament for the Brunswick-Balke-Collender trophy commenced on Black's alleys yesterday morning and continued until late last night, and a large crowd of bowling fans witnessed the games. The excitement was keen among both players and spectators and each good play was loudly applauded. The teams in the tournament are St. Croix, Woodstock, Sussex, St. Stephen, Victoria and Blacks.

BIG LEAGUE RESULTS YESTERDAY

AMERICAN LEAGUE Boston, 2; Washington, 1. Boston, April 15.—Notwithstanding extremely cold weather for baseball, Washington and Boston played a fast game today, the locals winning two to one. A thermometer in the grandstand registered five degrees above freezing. Score: Washington, 10000000—1 4 0; Boston, 01000100—2 6 2.

At Detroit—Detroit-St. Louis, rain. At New York—New York-Philadelphia, rain. NATIONAL LEAGUE Pittsburgh, 5; St. Louis, 1. St. Louis, April 15.—The Pittsburgh Nationals by timely hitting and the local clubs error, turned the tables today and won scores: Pittsburgh, 01000001—5 9 1; St. Louis, 10000000—1 6 1.

At Brooklyn—Brooklyn-Boston, postponed, rain. At Philadelphia—Philadelphia-New York, rain. At Cincinnati—Cincinnati-Chicago, rain. FEDERAL LEAGUE Postponements: Pittsburgh—Pittsburgh-Brooklyn, rain. Baltimore—Baltimore-Buffalo, rain. Only two Federal games scheduled.

ENGLISH RUNNERS ARRIVE

New York, April 15.—Arnold N. S. Jackson, England's great mile runner, and three other representatives of Oxford University, arrived here today on the Olympic to prepare for the international relay race, which is to take place under the auspices of the University of Pennsylvania at Philadelphia a week from next Saturday. Norman B. Tabor, formerly of Brown University, a Rhodes scholar at Oxford, is a member of the English team, but he arrived here some days ago.

ST. JOHN ATHLETIC TEAM FOR THE CHAMPIONSHIPS

A track team from the St. John Athletic Club will be sent to the Maritime Championships in Charlottetown in August. If present plans of the club go through, an enthusiastic meeting of the members was held last evening in the rooms over the Victoria Bowling Academy, and plans for the summer activities were discussed. Ernest Sterling, the president, brought up the matter of having a track team, and he pointed out that at the present time there were many good track men in the city who only needed slight encouragement. Mr. Sterling said that about ten good men could be secured, and it was decided to have training start as soon as the weather would permit. The present will arrange for training quarters.

Among the men available for the track team are Ernie Sterling, who is well known to local sport followers; Alfred Brooks, a former U. N. B. star and a good man in the high jump, broad and 220 yards dash; and Chambers, who has represented St. John in several meets and has proved a first class performer. The scheme was favored, and it is likely that a company formed exclusively of members of the St. John Athletic Club will be formed.

It will be sixty-two years, come tomorrow, since one of the most distinguished of American citizens, Adrian Constantine Anson, first saw the light of day at Marshalltown, Ia. Forty of those annals were spent by Anson in baseball, beginning with a "kid" nine and continuing as player, manager and in other capacities in the big league. During his palmy days as manager of the Chicago club, he was popularly known as "Cap" Anson, and he was undoubtedly the greatest pitcher baseball has ever produced.

ACTORS WITH BOLD CHALLENGE

A member of the Thompson-Wood Company acting officially for the company, informed The Standard last evening that they had organized a baseball team, and that they were prepared to meet any amateur team in the city, the proceeds of the game to be contributed towards charitable purposes. If in playing ball the Thespians are as skilled as they apparently are in toppling down the pins the members of this staff would hesitate in handing out a challenge. But when the

VIOLATED SUNDAY BALL LAW. New York, April 15.—"Jake" Daubert, captain and first baseman of the Brooklyn National League Club, must answer to a charge of violating the Sunday baseball law in Brooklyn for his appearance at the hearing. Daubert is part owner of a semi-professional team which played the Brooklyn National second team last Sunday.

SALEM, N. H., April 15.—Rockingham Park, a race track and fair ground here, was sold at auction today for \$100,000. Frank M. Andrew, of Lawrence, Mass., assignee of a mortgage of \$100,000 on the property, was the purchaser. Ira Plank, brother of Pitcher E. W. Plank of the Athletics, is coaching the Gettysburg College nine this spring. George Wilson, who is trying for first base on the Boston Americans, is a teacher of mathematics in a high school during the winter months.

Governor Schuchman East Africa against Setting Time for Emancipation Would Ruin Plantation Owners and Provocation Among Negroes

Berlin, April 15.—A brief survey for the colonies, that its immediate abolition lead to native ratings, is by the Governor of German East Africa, Dr. Schuchman. In response to a resolution passed by the Reichstag, calling for the termination of slavery by January 1, 1906, Dr. Schuchman has reported that about 185,000 slaves in the East African colonies are at present—many of them in wars as late as 1906 and others are being imported from Portuguese East African colonies.

The governor predicts that practically all will have ceased without further restrictions. By a general law passed in 1906, the number of slaves born after 1906 is to be reduced to 100,000. In addition many owners are to be given the right to sell their slaves to the government at least 50 percent of their value.

The governor's views are in the States sixty years ago. He says the negro by no means free of personal liberty as a slave. The slave is a decidedly inferior race, and the labor light, that they are given each week to cultivate the land. By a general law, the destitute upon emancipation are to be given a plot of land, and a longer able to work, would be destitute upon emancipation.

In discussion of the Budget Committee of the Reichstag, the attitude of the government behind which, they are the self-interest of the owners, seeking to cheapen labor. Advertisements in newspapers, offering to sell slaves were read by the Reichstag. He declared that the labor favoring and even promoting trade, and a Clerical leader that German planters offer to get the laborers to plantations. Dr. Solf, Secretary for the Colonies, admitted that he had been interested in the pulley resulting in native plantations and that the native population is at best steadily shrinking in contact with the white man.

W. R. Davidson of the Texas league predicts that his circuit will have the closest race in history as all the teams appear to be very evenly matched.

Governor Defends Slavery for Colonies

Governor Schuch, of German East Africa, Reports Against Setting Fixed Time for Emancipation—Would Ruin Plantation Owners and Provoke Rebellion Among Natives.

Berlin, April 15.—A brief, declaring slavery for the colonies, that its immediate abolition would lead to native riots, is handed in by the Governor of German East Africa, Dr. Schuch, in response to a resolution passed by the Reichstag last year, calling for the termination of household slavery by January 1, 1920. Dr. Schuch has reported that there are about 185,000 slaves in the colony at present—many of them captives in wars as late as 1905 and 1906 who are being imported even today from Portuguese East Africa and British Cape Colony. But the number is steadily growing.

A law passed five years ago liberates all children from household slaves born after 1906; deaths are further reducing the number of slaves; many are able to buy their liberty from sums ranging from \$2 to \$15 and in addition many owners are voluntarily giving their slaves freedom.

The governor predicts that slavery practically will have ceased to exist without further restrictive measures by 1920 and pleads against setting any fixed date for a general emancipation, which he declares would ruin many plantation owners and provoke rebellion among the native farmers and cost the government at least \$2,000,000 to indemnify owners for the loss of their property.

The governor uses arguments that had a familiar ring in the United States sixty years ago. He says that the negro by no means feels the lack of personal liberty as a hardship, that the slavery is a decidedly patriarchal character, that the labor exacted is light, that they are given certain days each week to cultivate their own little garden. By a general emancipation of the aged slave who are now fed and sheltered by their owners when no longer able to work, would be thrown destitute upon the world.

In discussion of the report in the Budget Committee of the Reichstag the Socialists and Clericals sharply criticized the attitude of the government behind which, they averred, was the self-interest of the plantation owners, seeking a cheap supply of labor. Advertisements from colonial newspapers, offering to sell or buy slaves were read by the Socialists, who declared that the government was favoring and even promoting the slave trade, and a Clerical leader alleged that German planters organize regularly to resist the abolition of their plantations. Dr. Schuch, Secretary of State for the Colonies, admitted that the law has been interpreted to justify compulsory recruiting of native labor for plantations and that grave infringements of the law had been committed by native soldiers with the knowledge and consent of their white officers.

The native population of Africa is at least steadily shrinking under contact with the white man. It has been thought that under the influence of white civilization, the cessation of the continual tribal wars and the introduction of scientific medical methods the negro population in Africa would grow rapidly. Dieters, Herzmann, Professor at the Oriental Seminary of the Berlin University, declares on the contrary that the depopulation is steady and rapid. He says that at the time of a Catholic missionary, Father van der Burt, who after 22 years work in German East Africa found that the native population at that time had decreased a third if not a half. Infant death rates from 47 to 80 per cent, and a surprising low birth rate are factors which missionaries observed in Togo, the Cameroons and other African colonies as well as German East Africa.

EASTER MEETINGS IN THE CHURCHES

Kingston, April 13.—The best attended Easter meeting for many years was held in the Sunday school rooms of Trinity church, Kingston, on Monday, April 13th. The pastor, Rev. C. Gordon Lawrence, presided. The parish church was well represented. There were also five from Long Beach, two from Whitehead and several from Clifton.

The financial report showed that the voluntary contributions for the year amounted to \$2,258.65 of which \$827.48 was spent in repair and improvement of buildings.

It was decided to observe the 125th anniversary of the erection of the Kingston church on June 24th by a fitting celebration and festival.

The election of officers resulted in: Wardens—R. H. Foster, Lt.-Col. O. W. Wetmore, Robert MacFarland, M. W. Flewelling, E. A. Flewelling, L. T. Crawford, Geo. W. Bruce, F. B. Graham, F. B. Seiler, W. P. Gitzky, A. D. Northrup, F. S. Northrup, A. J. Brice, Frank Padlock.

Representatives to Synod—Lt.-Col. O. W. Wetmore, E. A. Flewelling, Chas. R. Peters.

Wardens—R. H. Foster, F. B. Graham, Frank Roden.

AROUND THE CITY

Will Improve Street
The Public Works Department of the city plan making improvements to St. John street on the West Side this spring. There is a good deal of traffic on this street, and it is proposed to lay tar macadam over the portions of the street most in use.

Don Federico
The Norton Griffiths Co. dredge Don Federico, which has been removing material in the rear of the new breakwater in Courtenay Bay for the past month, had a machinery breakdown yesterday and was docked at Reid's Point wharf for repairs.

Repairing Wide Walk
The Street Department of the city is building up the sidewalk on Union street, West Side, extending to the immigration building. The sidewalk will be raised several inches above its present level, and covered with asphalt, and better arrangements for the draining of Union street at this section will be made.

Prize Winners
There was a meeting of the Westfield Outing Association in the Board of Trade rooms last evening at 8 o'clock. A drawing was made by A. E. Massie, won the handsome travelling bag. F. W. Bilzard won a travelling set, and W. B. Howard won a Thermos bottle. The members of the association were present in force, and plans for the season were discussed.

Annual Donation Party
Saint Martin's church held their annual donation party at the parsonage after a pleasant evening the friends departed leaving the pastor (Rev. W. A. Snelling) and wife the richer by a total of eighty dollars (\$80) in cash. Several weeks ago the ladies of the church made Mrs. Snelling a present of \$28 in cash.

Ring Found
Any suspicion that might have remained in the minds of any as to the guilt of Myrtle Chodorow, who was cleared by the grand jury of the charge of stealing a diamond ring from Mrs. H. M. Stanbury, will now be swept entirely away, for it was learned yesterday that the ring had been found by Mrs. Stanbury in a drawer in her bureau a few days ago.

Street Work
Men from the city public works department have again been set to work cleaning up the city streets. Before the recent snow fall the streets had been placed in fairly good condition, but the snow made conditions very nearly as bad as before. With a few fine days it is expected to have the streets in much cleaner condition. In Main street chisels will be placed on the stretch of roadway between Mill street and Portland, in order to make it passable until plans can be completed for the placing of a permanent pavement in that section.

Ledge Not Large
A. W. Gregory of the Dominion Department of Public Works has been making borings with a view to determine the extent of the rock found in the harbor channel. Mr. Gregory stated last evening that the ledge of rock was not as large as it was thought it would be, and that it could be removed without much difficulty. Mr. Valliquette, an engineer of the public works department at Ottawa, is expected in the city today to make an inspection of the harbor works in progress.

A Big Drive
Charles Boyle, of New River Station, who was in the city yesterday, says that Charles Giles has recently erected a hotel for sportsmen about three miles from New River Station. It has accommodation for about 25 people and already there are several New York people staying there. Mr. Boyle, on Monday next, will take charge of the drive on New River for Messrs. Stinson, Cutler and Co. They have a cut of about five million feet that will be brought down the river. Mr. Boyle has driven logs on the river for about 10 years.

The Conrad S.
The owner of the stranded schooner Conrad S arrived in the city yesterday morning and paid a visit to the wreck. He says the schooner is in a very bad condition. A few men visited the wreck yesterday to look the situation over for the purpose of seeing what chance there was for removing the cargo, and all gave up the idea of tendering. There has so far been no person who has made an offer to attempt to float the schooner. Yesterday there was hardly four feet of water about the schooner at high tide and the outlook for the removal of the vessel or the cargo is not very bright. Something definite regarding the schooner and cargo may be arrived at today.

Maritime Dredging Co. To Complete Contract About December First

Assembling Up-to-date Plant and Definite Programme of Work Laid Out—Barring Accidents, will Finish One Wharf by August First — Rushing Crib Work.

The Maritime Dredging Company plan on completing their contract for the construction of new wharves on the west side by the first of December of this year. The company already has a force of 300 men at work, and throughout the summer they will employ a total of over 400 men.

A definite programme of work has been laid out, and every effort will be made to keep up this schedule. Barring accidents or unforeseen contingencies, what is known as the Connelly wharf will be completed with the necessary filling in by the first of August, thus allowing time for the erection of freight sheds before the season winter navigation opens. Unless the company meet with unforeseen difficulties it will have the other pier lower down completed, thus making provision for four new berths on the west side.

The work of building the concrete tops on the cribs sunk by Mr. Connelly will be started in about two weeks. Elaborate arrangements have been made so as to permit this work to be carried on without regard to weather conditions. Mr. Connelly had a floating concrete plant, and as it could not be operated in any kind of rough weather, he made slow progress. Besides his floating plant was small compared with that being installed now. This new plant will, if worked to its full capacity, lay 500 cubic yards of concrete a day. The company plans on laying an average of 300 cubic yards a day. At this rate they would lay 30 lineal feet of concrete wharf top a day, and would be able to complete the face of the Connelly wharf in about 5 weeks.

A trestle, now nearing completion, is being built along and behind the cribs on which the concrete superstructure is to be placed. On this trestle tracks will be laid to carry cars of gravel, sand and cement into position.

Washing Plant
All the gravel used in making the concrete has to be washed to free it from loam, and for this purpose a large washing plant is being erected and will be ready for work in about a week. This plant has a washing capacity of 500 cubic yards of gravel a day. A clam shell bucket on a long derrick will lift the gravel into a hopper, from which it runs through a screening apparatus and then into a large tank where it is washed by means of a powerful pump. From the tank the cleaned gravel is discharged into cars and then run out on the trestle. A little locomotive has been secured to handle the cars used in carrying material for the concrete mixer.

On its present contract the company will have to lay a total of 34,000 cubic yards of concrete, including the tops for the bulkhead sections as well as for the cribs of the pier south of the Connelly wharf.

Three Dredges at Work
Three dredges are now employed digging out the sites of the cribs for the new pier. A wide trench is dredged to a depth of four feet below the bottom of the basins, and this is filled

EXPECT A GOOD DRIVE

Best Season for Five Years, Says Robert Connelly, of Pejabscot Lumber Company.

"In my opinion we are going to have the best stream driving season that we have had for five years," said Robert Y. Connelly, manager of the Pejabscot Lumber Company, who was at the Royal yesterday. "At the head waters of the Salmon River there are about three feet of snow and ice, and that cannot melt without giving us plenty of water to get our drives. Fine warm weather will be welcomed any time now by lumbermen on the Bay Shore."

Speaking of the work of his company during the winter, Mr. Connelly said they had every reason to be satisfied with the season's operations, having cut about 14,000,000 of timber. His company, he said, would cut seven or eight million feet of deals this year, as they could not export pulp wood to advantage. In addition to the logs cut for deal and lumber making purposes his company has cut this winter about 10,000 cords of pulp wood.

PROFIT-SHARING SALE OF SPRING AND SUMMER CLOTHING AND FURNISHINGS COMMENCES TOMORROW MORNING.

Starting tomorrow we inaugurate the biggest and most wonderful sale of clothing and furnishings ever attempted by this store. A timely sale and a genuine one. A sale that with its marvellous money saving bargains will gladden many a heart and brighten many a home. No male member of the family need go without, for the prices are going to be really remarkable for their lowness, and a little money turned loose in this store will work wonders, no matter where you place it.

We Will Share Our Profit with You!
Thousands of dollars worth of desirable goods, bought by us at a great bargain from a Quebec concern that was badly in need of money, are now in the store, and will go on sale at profit sharing prices. Watch for large advertisements in evening papers to-day. Henderson & Hunt, 17-19 Charlotte street.

BELIEVE IN MARITIME PROVINCES

Think this is a Wonderful Country, says R. M. Rive — The Prospects for Future very Bright.

"In Montreal everybody I talked with seemed to think that the Maritime Provinces must be a wonderful country," said R. M. Rive of Jardine & Rive, who returned yesterday from a visit to the Canadian metropolis. "The business men there, manufacturers and wholesale dealers, are of the opinion that the conditions in the Maritime Provinces are good and that the prospects for the future are of the brightest, and I was told that the disposition among manufacturers, bankers and financial men in Montreal was to extend every possible facility to merchants or other business men in the Maritime Provinces who wished to enlarge their business."

FORTY SETTLERS WERE PLACED IN PROVINCE

Busy Times in Office of Superintendent of Immigration—All Secured Excellent Positions.

There were busy times at the office of the Superintendent of Immigration yesterday when a party of about forty new settlers for the province arrived and had to be looked after. Included in the party were a number of men with families, the remainder were made up of single men coming out with the intention of working on farms, and domestic servants, together with about half a dozen boys from Mr. Cossar's farm in Scotland.

Some of the party were sent to Westmorland county and others to Carleton county; all were placed in positions. The group of Cossar boys who have had some training on Mr. Cossar's farm in Scotland, were sent to farmers in Kings county and other places.

More new settlers will arrive on the Royal Edward and the Lake Manitoba.

Watering Carts.
The first watering carts of the season made their appearance in King street on Tuesday afternoon. Up to the present the weather has been too cold for the watering carts, but yesterday and Tuesday they were used although some ice formed about them during the colder part of the day.

Receives Watch and Chain.
Captain A. W. Burns of the government steamer Lansdowne received a letter from the Royal Mail Steam Packet Co. of London informing him that he had been awarded a watch and chain for his services in connection with the rescue of the passengers and crew of the steamer Cobsequid, which was wrecked recently on Trinity Ledges off the southern coasts of Nova Scotia.

Spellbinding Imperial Feature
Emil Zola's tremendous story, "Germinal," is being produced at the Imperial. Yesterday afternoon and evening it held watchers spellbound with the power of its dramatic heights. It is a labor story—a story of oppression, rebellion, anarchy, love and disaster. It is not exactly a picture-play suited to childish eyes, rather it is a strong food for grown-up reflection. It will be shown again this afternoon and tonight. The orchestra has a strikingly appropriate bill of music to accompany the five reels eliciting from the pictures the fullest dramatic strength. Tomorrow and Saturday the third chapter of the "Adventures of Kathlyn" entitled, "The Temple of the Lion" will be shown. In this instalment Kathlyn narrowly escapes becoming the human sacrifice of some fanatical East Indians in quest of food for the fire of their idols.

A Great Bargain
At F. A. Dykenman & Co's store for those who are fond of good fashion reading matter. For a short time they are going to offer the Designer, a high class fashion magazine, published by the Standard Fashion Co., New York, for thirty-six cents a year. The regular price of this magazine is ten cents a copy, or delivered by mail \$1.00 a year. They will take your subscription for twelve months; you pay them thirty-six cents, and call each month at their store for the magazine until your subscription expires. Of course somebody is losing a lot of money in this transaction, but they are doing this in order that they might bring to your attention the high standard of his magazine, and incidentally, patterns which they may sell from being illustrated in this magazine. But whether you even buy a pattern or not during the year you ought to take advantage of this extraordinary offer.

A Wonderful Wedding.
Tom Thum's Wedding will be presented in St. Stephen's church Sunday school room tonight. Miss Olivia Murray, Mrs. Christie, Mr. Gibson and other members of the Norton Griffiths staff will assist in the entertainment. Admission 25 cents.
