MASKED BANDITS HOLD UP MOTOR CARRYING SILK

Robbers Escaped With Booty Worth \$20,000—Bound Truckmen to Trees.

PASSING CYCLIST KILLED BY THEM

Refused to Stop and Bandits Feared He Would Spread Alarm.

Newton, N. J., June 19.—One man was killed and two others kept bound to a tree for several hours in the mountains in a daring hold-up today by six masked men, who succeeded in getting away with an automobile truckload of silk valued at \$20,000.

The hold-up occurred at Cat Swamp, seven miles from here. The rash shot and killed was Charles Kostka, aged 35, an engineer of Andover.

It was passing the scene of the hold-up on his motorcycle. The highwaymen, not wanting him to spread the alarm, ordered him to stop.

That's So, Too. Why do they never speak of the June underwear?—Portland Evening Express.

Why should they?—Boston Globe.

We'll Say You Could. "I wonder if you could," said the wise guy.

"Could what?" asked the cheerful idiot.

"Say that abrad-headed barber who tries to sell hair-cream has a poor head for business."

Fido's Tip. The man getting his hair cut noticed that the barber's dog, which was lying on the floor beside the chair, had his eyes fixed on his master at work.

"Nice dog that," said the customer.

"He is, sir."

"He seems very fond of watching you cut hair."

"It ain't that, sir," explained the barber. "You see, sometimes I make a mistake and snip off a little bit of a customer's ear."

### A PAGE OF NEWS ABOUT THE MARITIME

#### REV. G. M. YOUNG GOES BACK TO FREDERICTON FOR FIFTH YEAR IN CONFERENCE'S FINAL DRAFT

Memorial Service for Those Who Died During Year Was Held at Sackville Yesterday Afternoon—Financial Secretary of the Methodists Addresses Gathering—Tribute Paid to Administrator of Contingent Fund for Thirteen Years' Service.

Moncton, N. B., June 19.—The station committee of the New Brunswick and P. E. I. Methodist Conference in session at Sackville on Friday evening made several changes in the station schedule. They are: Dr. Chown, Florenceville; G. A. Ross, Hampton; J. B. Gough, Hillsboro; Samuel Howard, Murray Harbor; Dr. L. H. Jewett, St. James, Charlotte County; C. W. Kelstead, York; P. E. I. Thomas Marshall, St. Andrews; Henry Penna, Supernumerary supply at Caraquet; Dr. R. W. Weddall, Supernumerary supply at Shediac. After a prolonged debate it was decided by a large majority to return Rev. G. M. Young to Fredericton for the fifth year.

Rev. S. W. Deane, secretary of the financial department of the church, Toronto, addressed the conference. The report of the contingent fund was read by Rev. Thomas Hicks. A resolution was passed thanking Mr. Hicks for his very good services rendered for thirteen years as secretary, treasurer and administrator of this fund.

At Saturday morning's session an address was made by Rev. S. W. Holmes on "The equipment for the task." The report on the state of the work was read by Rev. J. A. Ives and accepted. The report of the parsonage aid fund was read by Rev. J. A. Ives and accepted.

A memorial service was held this afternoon in the conference church at 4 o'clock.

Two Ordained. The conference service held in the Methodist Church Sunday morning was of special interest when two young men, Mr. C. W. Kierstead and Dr. E. F. Fryer, who have finished the course of study set by the church were ordained. The service of ordination was conducted by General Superintendent Chown, assisted by President Ross, secretary of the conference, Rev. E. E. Styles and Revs. H. B. Clarke, W. M. Ryan, R. W. Weddall, D. D., and H. E. Thom.

Economics and Industrial. The economics item in the report of the committee on evangelism and social service is as follows:

"Economics and industrial." The present world situation in regard to economics and industry has been given great consideration by this conference. The serious condition of world markets overstocked manufacturers, money tightness and price tumbling have produced serious unemployment in our industrial centers and thrust upon our business concerns a difficult and perplexing task. Employers and employees alike have the church's deepest sympathy and united prayer and we express the hope that a way may be found for the best solution of the confronting problems of these anxious times.

We have learned with great gladness of self-sacrificing plans of many employers to keep their industries running even at the present loss so as to keep their employees at work and also that many employees are co-operating in the same spirit. We urge patience, kindness and conciliation upon all parties at this time. We believe that the golden rule must become the universal rule of life. We believe that in these times the only solution of our industrial problems will be found in the application of the Gospel of Jesus Christ to all the relations of life.

We believe that the coming of the kingdom of brotherhood is at hand. We believe as a church that we are called to earnestly declare His Gospel to lovingly apply these principles and Every time we see a man doing a lot of strutting we remember what happens to the turkey.

Chop enough cold boiled potatoes to make two cups. Add half a chopped onion, half a chopped green pepper, one whole sweet red pimiento. Moisten with a little milk and fry on both sides in a little butter. Season with pepper and salt.

Casserole of Fruit. Pare and slice two apples. Add a cup of pitted prunes, a quarter of a cup of raisins, tablespoon of currants and half a cup of dried apricots that have been soaked two hours. Sprinkle with sugar and bake tender in a casserole. Cover with the water in which the apricots have been soaked. Add more water if necessary. The fruit should be rather dry.

Wipe the chops dry and then rub in a little butter that has been blended with a bit of chopped parsley and half a teaspoon of lemon juice. Rub on both sides and broil over a quick fire. Spread with the same mixture of butter and parsley.

Rhubarb Dumping. Prepare the rhubarb as you would for sauce. You should have a quart at least of the sauce. When boiling add a dumping mixture. Cover and boil hard for ten or twelve minutes and don't raise the cover while boiling. The dumping should be smaller than when serving with a stew. Serve with cream and sugar.

Use Purity Flour for all your baking—bread, pies, cakes, biscuits, cookies—whatever you bake. When you ask for flour insist on getting

**PURITY FLOUR**  
"More Bread and Better Bread"

to render assistance where possible in their application.  
Help Employment. We recommended that each of our official boards make plans in its own community to secure co-operation with municipal, provincial and federal programmes for finding employment and directing relief for the unemployed therein; that our people be advised not to participate in speculative investments in mines, oil, grain or other commodities; that the provincial legislature be urged to enact legislation in behalf of women's allowance, old age insurance and other social measures intended to relieve distress or prevent injustice; and that we call upon our membership to offer earnest daily prayers that God will favor the efforts of his children to establish among men the universal kingdom of brotherly love, industrial peace, and national goodwill.

We have learned with pleasure that very extensive investigation of the constructive possibilities of moving pictures, including their effect upon the moral welfare of our people is being conducted by the department. We believe that the official censor of moving pictures should recognize their educational value for right and wrong and therefore suggest greater care in censorship of the serial picture; that the display poster shall receive very careful censorship and that the rules governing theatres shall insist that these places while open to the public shall never be in darkness; children shall be admitted only with parental presence or written consent, and that a woman attendant shall always be present as chaperone with young women and children.

The Rev. Dr. T. Albert Moore, general secretary of evangelism was the evening preacher.

Snake Adopts Mouse. New York, June 19.—A white mouse, placed in the cage with a South American box constrictor as food has been adopted by the snake, according to Edwin A. Osborne, owner of the unusual family. The mouse has made a nest of straw in the coils of the box, and Mr. Osborne declares the most amicable relations exist between the two.

The snake recently crushed to death a large rat in twenty-four seconds. The reptile refused to eat the rat, however.

FOR A CHANGE TRY. Vegetable Mash. Chop enough cold boiled potatoes to make two cups. Add half a chopped onion, half a chopped green pepper, one whole sweet red pimiento. Moisten with a little milk and fry on both sides in a little butter. Season with pepper and salt.

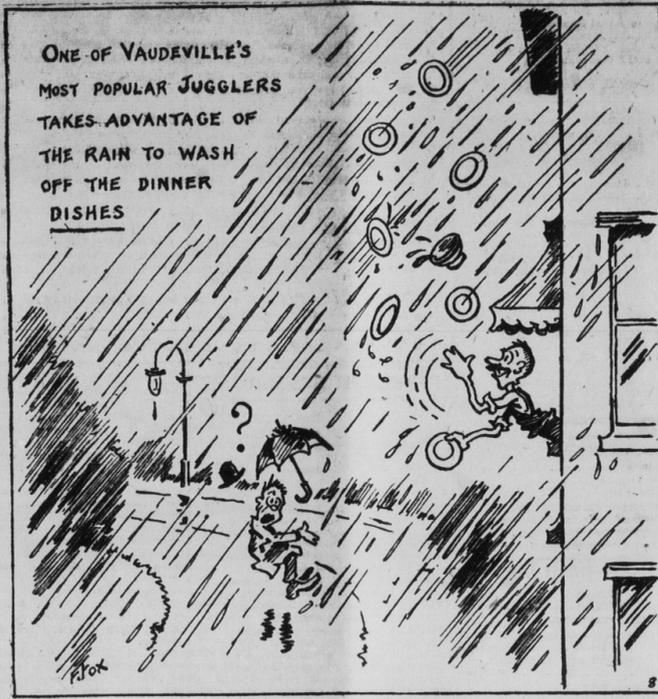

Casserole of Fruit. Pare and slice two apples. Add a cup of pitted prunes, a quarter of a cup of raisins, tablespoon of currants and half a cup of dried apricots that have been soaked two hours. Sprinkle with sugar and bake tender in a casserole. Cover with the water in which the apricots have been soaked. Add more water if necessary. The fruit should be rather dry.

Wipe the chops dry and then rub in a little butter that has been blended with a bit of chopped parsley and half a teaspoon of lemon juice. Rub on both sides and broil over a quick fire. Spread with the same mixture of butter and parsley.

Rhubarb Dumping. Prepare the rhubarb as you would for sauce. You should have a quart at least of the sauce. When boiling add a dumping mixture. Cover and boil hard for ten or twelve minutes and don't raise the cover while boiling. The dumping should be smaller than when serving with a stew. Serve with cream and sugar.

Use Purity Flour for all your baking—bread, pies, cakes, biscuits, cookies—whatever you bake. When you ask for flour insist on getting

**PURITY FLOUR**

His Wife being away at the time.

#### Obituary

Alfred Haines. Fredericton, N. B., June 19.—Alfred Haines, who was known all over New Brunswick as a bridge builder, and who had also had contracts for some of the most important buildings in this city and district, died last night at Devon. He was eighty-one years old.

#### PILES

Do not suffer another day with itching, bleeding, or protruding piles. No surgical operation required. Dr. Chase's Ointment will relieve you at once and afford lasting benefit. 50c a box at dealers or Edmonson, Baker & Co., Limited, Toronto. Sample box free if you mention this paper and enclose 2c. stamp to pay postage.

#### HEALS INFLAMED NOSTRILS, STOPS CATARRHAL DISCHARGE, RELIEVES COLD QUICKLY

You'll be pleasantly surprised at the quick action Catarrhoxone has upon Catarrhal conditions in the nose or throat. It is so soothing, so agreeable to use, so safe and reliable that thousands praise it and use it every day. No nasty medicine to take—you just breathe in the balsamic vapor, the healing essences of Catarrhoxone and feel better at once. Catarrhoxone is breathed through the inhaler into every air cell in the lungs, into every air passage in the throat and nostrils. No matter where the cold or Catarrh is, Catarrhoxone will reach it. You can keep free from coughs, colds, bronchitis and the like by using Catarrhoxone. Two months' treatment, One Dollar; small size, 50c. Dealers everywhere, or the Catarrhoxone Co., Montreal.

#### SENT UP FOR TRIAL

Bristol, June 19.—George Elliott, charged with a serious crime was before stipendiary magistrate L. A. Noble and was sent up for trial. The evidence of the little girl and others was taken. Bail was asked for the accused and \$10,000 was the amount stipulated by Magistrate Noble.

#### TWO AIRMEN KILLED

Troy, N. Y., June 19.—Don Campbell, an aviator of Albany, and one unidentified man was killed while on other unidentified man is in a local hospital as the result of their plane dropping into the Hudson River just below the Federal dam late this afternoon.

#### Hopewell Hill

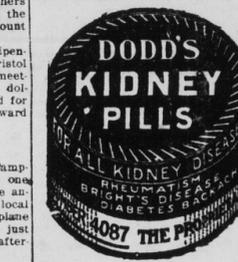

Hopewell Hill, June 19.—The farmers held their monthly meeting at Albert in Oulton Hall, on Wednesday afternoon. The meeting was not largely attended. They have not been able to get the required stock subscribed to start a co-operative store. The Ladies' Sewing Circle in connection with the Baptist Church held their weekly meeting at the home of Mrs. William McEwan. This is a large society and always well attended. The Circle have made a beautiful quilt which will be given to the Red Cross Society. Refreshments were served at the close of the session. The Ladies of the Methodist Aid are also making a quilt which they will give to the Red Cross Society. One article was asked for from each society in the county to assist in keeping the supply replenished. Commissioner Harvey S. Wright begins work on the dyke on the great marsh near the Hopewell Hill Station. About forty rods of new dyke will have to be put up. This will give employment to a large number of men.

#### MOTHER WAS FRIGHTENED.

The quick action of a citizen perhaps saved a child from death in front of city hall Saturday morning. The baby was in a carriage on the sidewalk while its mother was in the building. The child was held in a strap across its chest. In leaning forward against the strap the youngster caused its respiration to stop and it became unconscious. A man passing by noted that the child was hanging over the strap apparently lifeless, and he straightened the tiny body up. In a few seconds the child resumed breathing, but not before the mother was given a decided scare.

#### KILLED UNDER COAL FALL.

New Waterford, N. S., June 19.—Frank Mackenzie, 26, a returned soldier, was fatally injured by a fall of coal in Number 16 colliery here Saturday noon, dying in the hospital five hours later. The body was shipped to the family home at Glencoe, Inverness County for interment.

#### What Dessert Today?

Let our expert make it. Perfectly pure and palate pleasing, each freezing yields three hundred dishes—refreshingly cool and delightfully wholesome.

You will be happy in your selection of ice cream for dessert if its goodness is guaranteed.

Safety first demands that you associate these two ideas together—ICE CREAM and PURITY. You do this when you couple together the ideas of ICE CREAM and Purity Carbonated Ice Cream. Made in the Super-pure way.

Healthy, Delicious, Satisfying.

**THE PURITY ICE CREAM CO. LIMITED**  
Its Carbonated Stanley Street Phone Main 4234 St. John, N. B.

#### Three Men In Boat Reach Yarmouth

Yarmouth Man's Skull Fractured When Cart is Hit by a Street Car.

Yarmouth, June 19.—Three men in a boat, T. W. Scott, Joseph Maloney and James Campbell, of Pictou, N. S., who are on their way to Panama in a sixteen foot skiff, arrived in Yarmouth on Saturday afternoon from Cheboque Point, N. S., which was their last port of call. The expedition set out from Pictou, May 11. It continues on Tuesday.

#### Skull is Fractured.

Edmund Earl, sixty-five years of age, lies in the Yarmouth Hospital in a critical condition tonight as the result of an accident on the Main street of the town on Saturday. Earl's skull was fractured when he was thrown from his cart as a tram car struck a rear wheel and his horse started suddenly.

#### DOGS KILL SHEEP

Woodstock, N. B., June 19.—Leo McKee of this place has had thirty-five sheep killed by dogs recently.

ST. JOHN, N. B. MONDAY, JUNE 20, 1921

### THE HARBOR QUESTION.

The Globe and the Times are conducting an entertaining discussion regarding the advantages or disadvantages of harbor commission as proposed for St. John, which might be more valuable if it contained less bitterness and more definite information. Their arguments will tend to clarify the situation, but in considering them the people of St. John should bear in mind the circumstances which prompt these various representations. The Globe for instance has for some time been a consistent exponent of the doctrine of blue ruin. Everything is going to smash unless St. John stops spending money. There is not a ray of hope in sight and unless we get a firm grip on anything that is offered us which may tend to relieve the burden, the future will be black indeed. On the other hand the few hundred dollars rental now paid to the City for privileges on the West Side might under Harbor Commission be increased to a few thousand dollars annually, much to the regret of one of the owners of the Times. And those same gentlemen who, according to popular belief, are deeply interested in the Courtney Bay enterprise might find the conduct of that development under commission rule less remunerative than it at present appears to be.

### THE SENATE'S FALSE ECONOMY.

It was seemingly a mistaken sense of economy that led the members of the Senate to kill the measure that proposed to create a Research Institute for Canada. The result will be that very important preparations for the development of many Canadian industries will be postponed for at least a year. A lack of real understanding of the advantages of the proposal appears to have been at the root of the rejection and the heads of those industries that are vitally interested should see to it that the real merits of such an Institute are made clear to the members of both legislative bodies at Ottawa before the next session. The Institute called for an expenditure of about \$1,000,000 by the Government on the construction of quarters and the equipment for research work in various lines of industry. This would include pulp and paper, textile, mining and any others, where experts appointed and paid by associated mills in any industry would seek to improve methods of production and generally keep the Canadian mills in line with any discoveries made in other countries, or develop themselves along independent lines. In this way Canadian industries might hope to compete on equal terms in production as well as maintain the highest quality, and thus enable themselves the better to compete with other countries for world trade. The beneficial effects on production for home use is obvious. Altogether, such an Institute should prove of great value in helping Canadian industries to meet the keen competition at home or abroad that is certain to arise as soon as trade conditions reach a more stable basis. The campaign for the success of such a measure next session should start at once.

### THE TREK OF THE MENNONITES.

The Mennonites of Southern Saskatchewan have finally disposed of their holdings in an American syndicate and are preparing to trek north, apparently to Mexico. They have sold 106,000 acres of the best land in Saskatchewan for a sum from \$4,500,000 to \$5,000,000. Included in the sale are their homes, 2,000 horses, 3,500 head of cattle, 49 threshing outfits, their entire farm machinery and equipment, vehicles, etc. Of the land 66,000 acres are under cultivation and 50,000 acres were seeded this spring. The American syndicate proposed to replace the Mennonites with American farmers from the Central and Western States. It is the largest migration of people on this continent, since the Mormons moved bodily into Utah. The Mennonites, Mennonites, who were the original settlers, are not included in this movement, but may join the trek later.

### WHAT OTHERS SAY

**Noticed Abroad.**  
 The sun never sets on the British Empire's troubles.—Columbus (Ohio) Citizen.

**"Most Momentous."**  
 The overwhelming vote in favor of church union (4 to 1) registered at the general assembly of Presbyterians in Toronto yesterday is the most momentous religious event of recent times.—Hamilton Spectator.

**Observation, Not Argument.**  
 When asked by one of the census enumerators if she were married, a Port Arthur woman, resident of the section where most of the foreign born reside, and mother of four children, answered:  
 "No, but the man I live with is better to me than a husband. He lets me keep boarders and I make plenty of money."  
 And it is more than a possibility that many other women in this and other countries would receive better treatment from "her man" if she were not bound to him by the legal constituting marriage. Self-interest and possession is in many cases not

### A BIT OF VERSE

**THE NATURE LOVER.**  
 The country roads are beautiful!  
 O'er hollow, hill and vale,  
 I love to fly of afternoons  
 Alone the gypsy trail.  
 The leafage gay on every side,  
 At every break and turn  
 Are like the laughing sun,  
 This wealth of flower and fern.

### IN THE EDITOR'S MAIL

June 18, 1921.  
 To the Editor of The Standard,  
 Sir,—I was pleased to read an article in your paper this morning regarding the milk situation in this city signed, "A Reader," who appears to view the situation as one of vital importance. It is through expressions of this kind, Mr. Editor, that conditions are shown and beneficial improvements are made. That the milk problem is a serious one in all cities, cannot be denied, for it has become one of national as well as of civic importance. In practically all civilized countries, why? Because of the over-increasing death rate previous to the adoption and enforcement of laws made by not only civic, but federal authorities, which laws, governing production, treatment and deliveries are becoming more stringent and more rigidly enforced each year, since it has been shown what a tremendous decrease in infant mortality has been effected.

### THE LAUGH LINE

**Just Send the Holes.**  
 You don't need to send your button holes away to have them made. Just bring your material to Hubbard's Piano House and we'll do the rest.  
 —Advt. in Corning, N. Y., Observer.

**Well, They Broke Something.**  
 And the lawyers succeed in breaking the will.  
 "No, only the heirs contesting it."  
 Both in the Same Class.  
 The Yarnmouth yep says some men are liars and others say they are not superstitious.

**The Daily Don't.**  
 Don't argue with a fool—someone may overtake the argument and be unable to tell which is the fool.

**Little 'T' For Today.**  
 Why do people always count the elephants in a circus parade?

**It's All in Where You Stand.**  
 So, Portland sage says in life's circus some people always play a spot where the band is playing, when the parade passes by.

**Going Down.**  
 "I had an unusual experience in a big office building today."  
 "Do tell."  
 "I was on the top floor and when I wanted to go down I had to wait for the elevator only a minute and a half."

**Society Foot-Note.**  
 Several of the young people attended the foot washing at Needmore Sunday and report a fine time.  
 —Frontiers, Tean, Countain.

**Slapping Her Sex.**  
 That Gotham girl says is the trouble with the girls who gossip is not that they tell everything they know, but that they tell a lot they don't know.

**How Do You Stand?**  
 You are a good man, and as true,  
 You are a thinker and the real;  
 But wouldn't you fall short if you  
 Were measured by the Golden Rule  
 —Cincinnati Enquirer.

**And if a fellow were to smoke**  
 You on the left cheek, brother,  
 Would you then turn around the right  
 And let him punch the other?

**A Strange Taste.**  
 "There's something queer about this lemonade," said the customer as he sampled the amber-colored contents of the tall glass at the circus stand in the menagerie tent.  
 "What's the matter with it?" growled the man in the apron.  
 "I thought," said the customer, smacking his lips, "I detected a slight flavor of lemon in it."

**Then He Remembered.**  
 Mr. Johnson met Mrs. Lovejoy carrying her pet dog, and he said, "Good morning, Mrs. Lovejoy," said the friend. "What brings you out so early this morning?"  
 "Oh, I've just been to the photographer's with my pet dog Dido and we had our portraits taken together. Beauty and the beast, you know, Mr. Johnson"—with a saucy little laugh.  
 "And what a little beauty he is, to be sure," replied Johnson, inadvertently, as he tenderly stroked Dido's head and pulled his ears.

### CONDUCTIVE TO PROPER APPRECIATION

of the part of husband. The woman who can "ap and leave" whenever conditions become unbearable would seem to have much the advantage of the woman who is "died for life" and pursuing the idea further, it might be found that the same thing would apply to some men.

Please Note—This is not an argument against marriage. It is merely an observation.—Port Arthur News-Chronicle.

# Benny's Note Book

BY LEE PAPE

This afternoon ma was in her room imbroidering imbrodery, and I stood there looking at her, and after a while I sed, G, that looks all rite, ma, wats it going to be wen its done?  
 Wat do you want, you didnt come in heer to find out wat I was imbroidering sed ma.  
 Which I didnt, and I sed, Well can I have money for the movies this afternoon?  
 Dont you ever think of anything but the movies? sed ma.  
 Not saying I couident, and pritty soon I sed, Well can I, ma?  
 Go out and play, it will do you match more good, sed ma.  
 Still not saying I couident, and I sed, Well gosh, G, ma, I dont want to be did eny good. And I kept on standing there looking at her imbroidering, thinking, G, I know wat, Ill tell her a grate compliment and then the next time I ask her she'll say yes.  
 And I sed, G ma, you certeny are looking as though you was feeling grate lately.  
 Thank you, sed ma, and I sed, I aint the only one thinks so, either, I got a trade last for you, ma.  
 Yes! Reely? Wat is it? sed ma, and I sed, You know those 2 ladies was heer yesterday, well wen you went to anser the fone the one with the blue dress sed to the one with the red hat, My Pawlon is certeny getting stout, izent she?  
 Wy, the ignorant cat, Ill never speak to her agin, sue every body bin saying how slender Ive bin looking heer lately, jest wat till I get hold of her, Ill tell her a thing or 2, sed ma, mad as a whip.  
 My thinking, Gosh, that must of bin a heck of a compliment.  
 Which it mast of and wen I asked her agin about money for the movies she sed No, so suddin there wasent eny doubt about it.

## Children Cry for Fletcher's CASTORIA

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specially prepared for babies. A baby's medicine is even more essential for babies. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

### What is CASTORIA?

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrup. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulence, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Comfort—The Mother's Friend.

THE CENTURY COMPANY, NEW YORK CITY

### Trade With Canada To Right Exchange

Chicago Firm Place Big Insurance Policy on Life of President in Canada Life.

Messrs. Peabody Houghteling & Company, of Chicago, in making application the other day to the Canada Life Assurance Company for a \$750,000 policy on the life of Alexander Smith, president of that firm, were prompted largely by the desire to start a general movement among American business men having large interests in Canada to right the exchange situation. In the interests both of the United States and Canada, the more promptly Canadian money be brought back to a parity, the better for all business, and in the opinion of Messrs. Peabody, Houghteling & Co., no better way can be found than "Trading With Canada." It is a great measure due to Mr. Alexander Smith's initiative that this movement is starting and the thanks of American firms doing a business of many millions with Canada, as well as the Canadian people generally, are due him. This policy, which takes the entire capacity of all available applied for and issued through the Chicago office of the Canadian Life Assurance Company, Charles F. Bullen and John H. Bullen, agents.

### SATURDAY'S MARKETS.

A small consignment of wild strawberries appeared in the market Saturday morning and were sold at 60 cents a box before 10 o'clock. This is very early for wild berries but it is expected that there will be a few boxes for sale in the market every morning. The native cultivated berries sold at 50 cents a box. There were some nice looking turkeys in the market, selling at 60 cents a pound.

The prevailing prices for other commodities were as follows: Beef, 20-25

### Weddings

Sinclair-Phillips

An event of much interest took place at the home of Mr. Burden Phillips, of Rustাগর, on Wednesday June 15, at 4 o'clock, when his daughter, Jennie Elizabeth, was united in marriage to Barker Harold Sinclair, also of Rustাগর. The ceremony was performed by Rev. A. E. Kochaly in the presence of a large number of relatives and friends, after which a sumptuous supper was served. Miss Violet Stanicka, of North Devon, acted as bridesmaid. Walter, the brother of the groom acted in the capacity of best man. Mr. and Mrs. Sinclair will reside at Rustাগর. Mrs. David Geraud played the wedding march.

### Harris-Wood

A very pretty wedding was solemnized at the United George street Baptist parsonage Wednesday afternoon June 15, when Rev. Z. L. Fash united in marriage Miss Jennie Lloyd, only daughter of Mr. and Mrs. Chas. Wood, of French Lake, and Mr. Tyler Eberberth Harris, only son of Mr. and Mrs. Sherman B. Harris, of Rooth, N. B. The bride wore a travelling suit of navy blue serge with hat to match and was married in the same corner that her mother was married in by the late Rev. Dr. Joseph McLeod. After the ceremony the bridal party motored to Fredericton Junction, en route to Rooth, where they were met by their friends and given a hearty send-off. The evening was spent in dancing and music.

cents a lb.; Mutton, 20-30 cents; pork, 25-35 cents; veal, 12-20 cents; lamb, 30-40 cents; chickens, \$2.50 to \$3.50 a pair; fowl, 50 cents a pair; butter, 20-35 cents; eggs, 35-40 cents; bacon, 50 cents; parsnips, 50 cents a peck; carrots, 15 cents a bunch; beets, 15 cents a bunch; lettuce, 10 cents; radishes, 10 cents a bunch and cabbage, 10 cents a pound.

### O'Callaghan Sailed From United States

Came in as a Stowaway Sailor and is Supposed to Have Gone Same Way.

Washington, June 19.—"Satisfactory proof" that Daniel O'Callaghan, Lord Mayor of Cork, has left the United States has been furnished the Department of Labor by Michael Francis Doyle, attorney for O'Callaghan. It was announced yesterday at the Department of Labor. "The department is satisfied that O'Callaghan complied in every way with the ruling of the department that he leave the United States within a specified time," assistant secretary Hanning said. The time limit set was June 6.

O'Callaghan came to the United States as a stowaway, without a passport. He was classified a seaman by the Department of Labor and ordered to ship as such.

Mr. Manfred Brown, of Boston is visiting his parents. Mr. and Mrs. James Brown, at their summer residence in Drury Cove.

### Funerals

The funeral of Henry Cronin was held Saturday morning from his late residence, 322 Rockland road, to Holy Trinity church for requiem high mass by Rev. Raymond McCarthy, who also recited prayers at the grave. Interment was in the new Catholic cemetery. Many floral offerings and spiritual bouquets were received from friends and relatives.

The funeral of John Waddington was held Saturday afternoon from his late residence, 40 Wentworth street, to Fernhill, Rev. G. A. Kahring conducting the service.

LIMITED

## The Comfort Costs You Nothing

Usually you pay for comfort and style. But not in Goodyear Cord Tires. The comfort from resiliency of these fine tires is a bonus. On the basis of mileage alone they cost less to use. The saving in car-depreciation, the saving in gasoline, the easier riding, are all clear profit to you. Ask any motorist who uses Goodyear Cords if you want to know what real comfort is. Look over the cars which have been run thou-

sands of miles on Goodyear Cords and note their good mechanical condition. Inquire regarding Goodyear Cord Tire mileage for economy's sake. Note the tremendous increase in sales of these tires—because they cost less to use. Certainly truck-owners are not much influenced by comfort or looks in buying tires. But Goodyear Cords dominate the pneumatic truck tire field. That's because both truck and tires cost less in the end.

All-Weather Tread Tires Are All-Wheel Tires  
Over 4,000 Goodyear Dealers in Canada.

### Obituary

Mrs. Annie E. Barnes.

Mrs. Annie E. Barnes passed away on Sunday afternoon at the residence of her daughter, Mrs. W. L. Hunter, 51 Sydney street. She was the widow of the late George F. Barnes and daughter of the late James and Mary Wilson.

Two sons, Walter S. and Allan E. of Barnes and Co., St. John, and Mr. and Louise of this city, and Mrs. A. LeBaron Weeks of Detroit, and twelve grandchildren survive her also three brothers and one sister.

The funeral will take place on Tuesday at 2:30 from 51 Sydney street.

Mrs. Sarah O'Leary.

Fredericton, N. B., June 19.—Mrs. Sarah O'Leary, died Saturday at the home of her son, John O'Leary, of Rustাগর. She was aged eighty-five years, and had been ill for some time. Four sons, two daughters, six grand children and twenty-two great grand children survive. The funeral took place today.

Andrew A. Welsh.

Montreal, June 19.—The death occurred at Gananogue, this morning, after a short illness of Andrew Archibald Welsh, proprietor of the Gananogue Inn. Mr. Welsh was born in Carbonar, New-Foundland, 88 years ago and was a son of the late Daniel Hastie Welsh, who was a representative in the Maritime Provinces of the Gault Brothers, of Montreal. Mr. Welsh opened the Gananogue Inn at Gananogue about 15 years ago, which he had operated since, spending his winters in Florida.

Mrs. Wm. McMonagle.

Windsor, N. S., June 19.—Much regret is felt in this community at the death of Mrs. William McMonagle, which occurred here after a lingering illness of several months following a paralytic stroke. Funeral services were held at St. John's Roman Catholic church. There are left to mourn besides the husband, five daughters and three sons. Mrs. B. H. Gilbert (Dr.), of Providence, R. I.; Mrs. John F. White, of Buffalo, N. Y.; Mrs. C. Foster, of Halifax; Mrs. John Berry and Miss Evelyn, residing at home; the sons are: Wm. Emmet, barrister at Grand Falls; Harold, electrical engineer, Eyabrow, Sask., and Cecil with the public works department of Windsor.

Samuel Beck.

The death of Samuel Beck, of Coal Mines, occurred at his home on June 12, 1921, aged 88 years. He was born at Hillsboro, Albert county, in 1832, and moved to this community when young and resided here the rest of his life. He married Miss Elizabeth Lamb, of Latimer Creek, sixty-three years ago, and with whom he lived in unbroken harmony until just recently when she passed away. He was a great sufferer for the past eight months, but was tenderly cared for by his daughter and son-in-law, Mr. and Mrs. W. McVicar, until he passed away. A consistent member of the Second Grand Lake Baptist church, he took an interest in all things pertaining to the upbuilding of his fellowmen. He leaves to mourn five daughters, Mrs. W. J. Craig and Mrs. Gertrude Craig, of Chipman; Mrs. H. F. Taylor, of Alma, Wash.; Mrs. A. C. Fair, of La Grand, Oregon, and Mrs. W. M. Mc-

J. CLARK & SON, LIMITED 71 Germain Street

NOT POSSIBLE. When a lady was "burning up the road" on the boulevard was overtaken by a traffic officer and motioned to stop, she indignantly asked: "What do you want with me?" "What are you running forty miles an hour," answered the officer. "Forty miles an hour? Why, officer, I haven't been out an-hour," said the lady. "Go ahead," said the officer. "That is a new one on me."

## A BACHELOR GIRL REFLECTIONS OF

By HELEN ROWLAND

Copyright, 1921, by The Wheeler Newspaper Syndicate.

In love-making, the more art, the less heart—and alas, no woman knows which to choose!

Flattery is a habit-forming drug. The more a girl gets of it at twenty, the bigger doses she can swallow at thirty, forty—yes, and seventy!

Every man feels sure that he would adore a helpless, little clinging-vine—if she would only LET GO, occasionally.

A man can forgive a woman for making a fool, a pack-horse, or a slave of him—for anything on earth except making a fool of herself over him, so that it is possible for him to go on idealizing her.

An unhappy marriage is the poison-gas which chokes out all a man's ambitions; but it is more often the morphia of a perfectly happy marriage which deadens all a woman's aspirations.

No girl is going to bother her head over the Einstein Discovery in this weather, so long as she can work out a "theory of relativity" that will make the powder stick to her nose.

Perhaps that clergyman is right when he declares that "if there were no vamps, there would be no divorcees"; but dear me, what credit would a poor man get for being a devoted husband, with nothing to "resist"!

When a woman is especially sweet and tender, it is a sign that she is trying to ease her conscience, for something; but it is man's way of justifying himself for a defection in to pick a quarrel with a woman—and then go out and persuade himself that he is "misunderstood."

Sometimes, a woman doesn't know whether to feel flattered or insulted, when her husband declares fervently that he would never marry again, if she should die.

Of course, you can always tell a honeymoon couple. But, why TELL them? They'll find out all the bitter truths about marriage, soon enough!

## Physician Explains Who Should Take Nuxated Iron

Practical Advice on How To Help Build Up Great Strength, Energy and Endurance

"Lack of iron in the blood not only makes a man a physical and mental weakling, nervous, irritable, easily fatigued, but it utterly robs him of that virile force, that stamina and strength which are so necessary to success and power in every walk of life," says Dr. James Francis Sullivan, formerly physician of Bellevue Hospital (Outdoor Dept.), New York, and the Westchester County Hospital. "It may also transform a beautiful, sweet-tempered woman into one who is cross, nervous and irritable. I have strongly emphasized the great necessity of physicians making blood examinations of their weak, anemic, run-down patients. Thousands of persons go on year after year suffering from physical weakness and a highly nervous condition due to lack of sufficient iron in their red blood corpuscles without ever realizing the real cause of their trouble. Without iron in your blood your food merely passes through the body something like corn through a mill with rollers so wide apart that the mill can't grind.

"For want of iron you may be an old man at thirty, dull of intellect, poor in memory, nervous, irritable and 'all run down,' while at 50 or 60 you win plenty of iron in your blood you may still be young in feeling, full of life, energetic, nervous, irritable, easily fatigued, but it utterly robs him of that virile force, that stamina and strength which are so necessary to success and power in every walk of life," says Dr. James Francis Sullivan, formerly physician of Bellevue Hospital (Outdoor Dept.), New York, and the Westchester County Hospital. "It may also transform a beautiful, sweet-tempered woman into one who is cross, nervous and irritable. I have strongly emphasized the great necessity of physicians making blood examinations of their weak, anemic, run-down patients. Thousands of persons go on year after year suffering from physical weakness and a highly nervous condition due to lack of sufficient iron in their red blood corpuscles without ever realizing the real cause of their trouble. Without iron in your blood your food merely passes through the body something like corn through a mill with rollers so wide apart that the mill can't grind.

Over 4,000,000 people annually are using Nuxated Iron. It quickly helps make rich red blood, revitalizes worn-out exhausted nerves and gives increased strength and energy. Your money will be refunded by the manufacturer if it does not produce satisfactory results.

For sale by all druggists.

## NUXATED IRON ENRICHES THE BLOOD—GIVES YOU NEW STRENGTH AND ENERGY

## MESOPOTAMIA GOES TO NEW ARAB STATE

Churchill Announces Policy of Restoring Old Glory and Culture of the Race.

BAGDAD WILL BE CHOSEN AS CAPITAL

Palestine a Grave Problem—With Arabs Alarmed Jews Will Get Full Control.

London, June 19.—Great Britain's new policy of replacing the existing provisional native government of Mesopotamia by the creation of an Arab state, which should be built up around Bagdad and revive the old glory and culture of the Arab race, was announced in the House of Commons today by Winston Spencer Churchill, Colonial Secretary.

Mr. Churchill declared that this was a clear policy definitely chosen and agreed to within the whole Arabian peninsula, and he indicated the belief that Emir Faisal, son of the King of Hedjaz, would be elected head of the new state. Faisal has already left Mecca for Mesopotamia.

Mr. Churchill's speech dealt with middle Eastern affairs and his visit to Cairo. He contended that a policy of appeasement and friendship alone was compatible with the British pledges and if accepted by the Arab people it was the best possible solution that could be reached.

India Not Concerned.

There were no primary or directly strategic interests concerning India to justify British retention of Mesopotamia, Mr. Churchill continued. India could better be defended on its strategic obligations, by creating a government which would be a friend of Great Britain and might also be a friend of France. An Arab army to reduce its burdens, while discharging its obligations to the defence of the new state.

New October he hoped to reduce the British occupying army to twelve battalions, and when the new state was created to withdraw all the British forces and enter into treaty relations with the new state.

## SHORT CHANGE ARTISTS HAVE A NEW STUNT

\$10 Roll of "Quarters" Had Only Two Genuine Silver Coins.

## TWO ARRESTED BY THE POLICE

Gathered Them in on St. Catherine Street—Identified by Swindled Firm.

Montreal, June 19.—What is claimed to be a new variant of the "short change" scheme frequently attempted of which merchants are the victims was introduced yesterday afternoon in the downtown district, and soon after the matter had been reported to the Detective Bureau two men were arrested in St. Catherine street west, charged with being operators of a novel plan to obtain money easily.

The victim was the Italian Warehouse of C. P. Macklauer, 211 St. James street, and the individuals alleged to have performed the trick are Jean Heaudry and Alphonse Daoust, neither of whom offered an address to adorn the police blotter.

## Silver For Bills.

During the afternoon a telephone call to the cashier at Macklauer's was followed by a query, reporting to come from a neighboring tobacconist's asking if the grocery could handle some silver, the voice from the telephone stating that the tobacconist shop was rather "long" on silver. Receiving the reply that silver would be acceptable, the conversation terminated.

Soon afterwards a man entered the shop and proceeding to the cashier's desk handed a roll, supposedly of \$10 in quarters and contained in a carton stamped by a local bank. Notes were pressed his hand and walked out.

"On opening the roll of 'silver' it was found that there was a genuine twenty-cent piece on each end of the roll and a piece of the same size, same alloy, covered with tinfol immediately beneath each silver piece. The remaining pieces in the roll were of brass, but all of the same size. An employee of the Macklauer shop went immediately to the nearby cigar store, only to find that no employee of the latter had been sent out to investigate. It was said, however, that a man used the public telephone in the booth for some time.

## Effected Quick Arrest.

The matter was then reported to the Detective Bureau and two members of the staff were sent out to investigate. They obtained a good description of the two men, one of whom was known to the telephoning in the tobacconist's and the other who had collected the money in Macklauer's. The report was immediately sent to the Bureau, from where it was transmitted to all police stations.

It was 4:05 p. m. when the first report was sent to the Bureau, and according to Chief Lepage, it was 4:30 o'clock when Detectives O'Donnell, Gorman and Isale Savard reported that they had picked up the two men of the description on St. Catherine street west near Bleury.

Both prisoners were brought to the Bureau and to the tobacconist's where Chief Lepage stated they were identified positively as the two men concerned in the affair. The prisoners were then brought back to the Bureau and were searched. Chief Lepage stated that there were found in their pockets rolls similar to the one presented at Macklauer's. Heaudry said that he was 39 years of age, and Daoust stated that he was 32 years old.

## The Joyous Road.

Life's no dream—no ebbide,  
But better smile than weep;  
We'll keep time to the fiddle  
And dance the stars to sleep!  
Light the world adoring  
And thank God for the light,  
And when the sun says "Morning,"  
We'll follow him tonight.

—Atlanta Constitution.

The first time a man succeeds in kissing a clever girl she looks at him in a way that makes him wish he had got busy sooner.

## WHITE COLLAR MEN JOIN THE JOBLESS ARMY

High Class Executives and Office Employees Among Those Affected.

## MANY WILLING TO ACCEPT LESS MONEY

Slackening of Industrial Energy Hits Workers in All Lines of Endeavor.

New York, June 18.—The ranks of the army of unemployed are being recruited now by highly skilled as well as unskilled industrial workers. The present business depression is laying off in increasing numbers also all grades of office employees from the higher salaried specialists and executives to the secretarial and clerical forces.

Dr. David F. Flynn, who is in charge of the New York city office of the State Industrial Commission, 124 East Twenty-eighth street, said yesterday he had noted increasingly within the last few months the same conditions as those commented upon by H. M. Coolbaugh, superintendent of the Pennsylvania State Employment Bureau in Philadelphia, who said:

## Important Men Hit.

"The depression of the last six months, as reflected in the men applying at this office, show that it has affected men in all walks of life. The salaried executive and office employee is affected as well as the skilled and the common laborer."

"The failure of general contracting to open up this spring," said Dr. Flynn, "has thrown out of profitable employment many engineers and other high grade men. Office forces, too, are being depleted rather than recruited, which is a natural consequence of the slackening of the industrial engine all along the line. Unfortunately this particular condition in its influence upon the fortunes of the more highly skilled employees is not likely to show improvement in 1921, at least before next autumn."

Miss Henrietta Rothstein, superintendent of the women's department of the local office of the State Industrial Commission, said:

"Unemployment among all grades of women office workers has been growing for the last nine months. During the last two or three months the number of applications for employment which come to us for positions of this kind has doubled as compared with a like period of last year, whereas a number of available jobs for this increasing army of applicants has been cut down 10 per cent. This is true of persons who are qualified to rank as office managers. It is true of women to fill skilled secretarial posts, as well as of the less highly accomplished clerks, stenographers and others."

## HEADRESSES FOR EVENING WEAR

London, June 19.—Now that evening headresses repeat some detail of the gown the well dressed woman finds it necessary to have one for each toilette. Fortunately, the prettiest are not always the most costly. Turbans entirely covering the hair are less worn, garlands of leaves being the most popular ornament. The leaves are sometimes composed of small colored feathers, or they may be of so unseasonably a variety as holy or mistletoe.

Very becoming are the Roman wreaths of gray-green eucalyptus leaves, meeting to form a high point in front and tied at the back with narrow gold ribbon.

## Drop Over Ears.

Flowers, feathers and berries are arranged to drop over the ears. Green and gold grapes and bunches of currants appear at the sides of coronets of wired metal lace; powdered glass, jet cabochons, coral plaques and dangling strings of gilded and colored wooden beads are other novel trimmings. Flower wreaths made of wired and colored leather are bright and attractive.

Young girls remain faithful to the narrow garland of flowers. A pretty arrangement is to roll the hair over the ears and encircle each shining coil with a ring of tiny white flowers. Wide silk scarves are tied tightly round the head for day-time tennis and golf wear. Also for the out-of-doors girl are the gaily colored silk handkerchiefs which, when put over the hair and their ends twisted and knotted, make becoming little turbans.

## Another reason why there are so many marriageable women who never get married is because there are so many men who are not worth marrying.

## Boat Club Meet Held At Rothesay

Rowing, Canoe and Swimming Events Proved Interesting Programme Saturday

The Rothesay Boat Club held excellent series of sports to open season on Saturday afternoon which there was some very competition. There were some standing events, such as the canoe singles, the tilting match, the crab race. In these events the contestants were upset, lost their chances, and in the match Parks, whose pilot fell off the canoe won the match single handed. The crab race caused much excitement when one racer upset his canoe and pulled several other canoes into the water. The winners of fourteen events were as follows: Senior Rowing, Double—Stuart Burton. Junior Rowing, Double—Burton and Ross. Senior Canoe Race—Black Brownish. Junior Canoe Race—Green Gordon. Senior Canoe, Single—George Iton. Junior Canoe, Single—Barbara Midgents. Swimming Race—K. Black Senior Swimming Race—Gordon. Junior Swimming Race—Robert Tilting Match—Parks. Crab Race—Parks. Junior Girls Rowing Race—K. Black and the Lambard.

At the close of the races the club house. The judges for the day were W. S. Allison, J. D. Purdy, Chas. Scott, Walter Doo acted as honoree and Elmer Poodington started.

In the evening the opening of the season was held in the club, and the many members the day a great success.

## West Side League Standings To Date

In the West End League series St. George and Carleton team not play their postponed game Friday.

On Tuesday the Portlands a Roses will play. If St. George their remaining two games finish of this series and St. George unfortunate to lose there will be change in the standing. The standings follow:

St. George	7	1
Carleton	5	3
Portlands	3	4
Carletons	3	4
The five leading bowlers follow:		
R. Merryweather, St. George	100	
C. Moore, Portlands	95	
Mosher, St. George	90	
W. Murphy, St. George	85	

The pitchers' contest follows:

Murphy, St. George	100
Daley, St. George	95
Logan, Portlands	90
Matthews, Carleton	85

## Tied His Own World Record

Staggfield, Chicago, June 17.—Thomas of Dartmouth, tied world's record of 0.14 25 in the 120 yard high hurdles final national collegiate athletic association track and field meet here yesterday. Thomson stumbled just before first hurdle but made up the loss.

## Held Scoreless Sixty-One Minutes

Vancouver, B. C., June 18.—being held scoreless sixty-one minutes by the Scottish footballers yesterday from Vancouver all-stars (two six thousand saw the game played during a heavy rain.

## Vagabond Won The Yacht Race

### R. K. Y. C. Held Arbitrary Handicap Saturday From Millidgeville to Westfield

The Royal Kennebecs Club held their Arbitrary Handicap Race on Saturday with the Vagabond as the scratch boat which won, arriving at Westfield wharf at 5.34. The course was from Millidgeville to Westfield wharf, being about eight miles. The yachts starting at 5.05, finished in the following order: Vagabond, Louvina, Wanderer, Rena, Scout, Pei Yuen, The Canada and the Anzac did not finish. The weather conditions were not all that could be desired, the wind being rather light. The judges at Millidgeville were J. Fraser Gregory and H. McL. Langley; at Westfield, H. J. Gunn and W. H. C. MacKay. The club intends holding a regular regatta on the first of July with boat races of 12 descriptions.

## Dempsey's Manager Talks On Referee

### Threatens to Call Off Bout Rather Than Submit to Dictation of Commission.

Atlantic City, N. J., June 19.—Jack Kearns, manager of Jack Dempsey, last night threatened to call off the champion fight with Georges Carpentier at Jersey City, July 2, rather than submit to the direction of the New Jersey Boxing Commission over the referee situation. Kearns declared that he had no objection to the selection of a referee holding a New Jersey license, but that he would insist on having a voice in the selection. He asserted that he would be willing to have the names of every referee licensed in the state thrown into a hat and allow himself, Dempsey and Carpentier, to draw for the third man in the ring.

## Gaston Vidal Gives Decision

### Under Secretary of State for Physical Culture Looks for Bitter Battle.

Paris, June 19.—The Carpentier-Dempsey fight in the opinion of Gaston Vidal continued. "But so is Car for physical culture and sports, will develop into the bitterest battle ever staged between heavyweights. French newspapers, which were belittling Dempsey's record and professing to believe that the fight would be a walk-over for Carpentier, he said, were rendering their champion poor service. "There is no doubt that Dempsey is one of the greatest fighting machines ever seen in the prize ring," M. Vidal continued. "But so is Carpentier. And without prejudice to

## Fair Vale Won From Western Union

### Return Game of Ball Proved Disastrous to Visitors from the City on Saturday.

The Fair Vale ball team on Saturday motored to the ball field in Bathurst to again cross bats with the Western Union team. Two weeks ago this team gave the Fair Vale boys a slight trouncing and no doubt had come fully prepared on Saturday to add another to their list of victories. The Fair Vale boys, on the other hand, had felt they were quite capable of turning the defeat of a couple weeks ago to one of victory, and with that purpose in view were well keyed up for the occasion. The game was started at 3 o'clock with the Fair Vale boys at the bat. The boys started off well but their muscles had not got limbered up enough so they had to content themselves with but two runs. In the first of the third of the Fair Vales it was easily seen that the boys were beginning to limber up, and while they had some fun striking the ball, the sharp holding of their opponents kept them down to but one run. The Western Union boys came in for their half of the third, and through banging the ball and some bad errors made by Fair Vale players tallied up four more runs, making the score 10 to 3. By this time the fans from Fair Vale were feeling a little down in the mouth because it looked very much like another defeat. But they did not show their discouragement, and when the Fair Vale boys came to the bat for the first half of the fourth the bat for the first half of the fourth was plainly seen they had weighed well and found their opponent's pitcher, and as each member came to the bat they had no trouble in banging the ball. In this inning three runs were added to their score. In the fifth, sixth and seventh innings eight more runs were added to the score making the grand total 14 to 10 in favor of Fair Vale, and on account of

## Westfield Club Golf Tournament

### President vs. Vice-President Saturday and Former Won by Score of 18 to 7.

Much interest was shown in the first golf tournament of the season, which took place at the Westfield Club on Saturday afternoon. There were between forty and fifty players. The match was President vs. Vice-President, sides being tossed for. The President's side was the winner with a score of 18 to 7. The prize was a dinner at the Corner House Tea Room where an excellent meal was enjoyed. The Westfield Club has many players who are showing great improvement over last year's play. The club is a young organization with amateur players and a better knowledge of the game is being displayed by many of the members who are enthusiastic.

## St. John Team Won Cricket Match

### Militia Team Was Defeated on Barrack Green Saturday by Score of 68 to 43.

The St. John Cricket Club played one inning against the militia Saturday afternoon on the Barrack Green and won by a score of 68 to 43. Three of the batting team fielded for the militia team and the afternoon proved most interesting. The scores follow:

Militia Team	First Score	Runs
Loese, cgt. Wines, bowled by Stegman	1	1

## First Polo Match Won By Americans

### Great Britain Lost at Hurlingham Field by Score of Eleven to Four.

Hurlingham Polo Field, London, June 19.—The United States won the first of the polo matches for the international trophy, played here Saturday, defeating Great Britain by the score of 11 to 4. The overwhelming defeat of the British team came as a distinct surprise to the thousands who witnessed the match. The challengers swept the defenders off their feet from the start and acquired a lead which was never overcome. The Americans, individually and as a team, outrode their opponents.

## Charles Paddock Broke World Record

### Pasadena, Cal., June 19—Charles Paddock broke the world's record for the 90 and 110 yards runs and tied the record for 100 yards and the record for 100 yards at trouta held here yesterday for the National A. A. U. championship meet, according to the official timing. He made 90 yards in 8.4 seconds; 100 yards in 9.3 and 110 yards in 10.14.

Toronto, June 19.—George S. Lyon, the veteran golfer of the Lambton Club, won the amateur championship of the Toronto and district golf association at the Scarborough Club on Saturday when he played a consistent game throughout the two rounds. Mr. Lyon made the morning round in 75, a 39 going out and a par 36 on the way home, and in the afternoon he duplicated the scores.

Declined Five and a Half Points on Very Large Offerings.

## MEXICAN PETROLEUM RALLIES SLIGHTLY

Baldwin and Int. Harvester Under Heavy Pressure and So Go Lower.

New York, June 18.—Selling of rails of high and low degree featured today's brief but active stock market. Canadian Pacific was weakest, with a net loss of 5 1/2 points on unusually large offerings. Other transcontinental Grangers and coalers were carried down by the movement, as well as some Eastern trunk lines. New Haven, however, recovered part of its extreme decline.

Leaders of the recent reaction in the industrial and special divisions were relatively steady. Mexican Petroleum rallied moderately on additional reports from Washington concerning oil production in Mexico.

### MONTREAL PRODUCE

Montreal, June 18.—Oats, Canadian Western, No. 2, 60c to 61c; No. 3, 55c to 56c.

"I didn't see you in town yesterday," said Winks. "No," replied Blinks. "I had a room that needed papering and painting and I thought I'd stay at home and do it myself. But can't stop to talk—I'm in a hurry."

"Well, I've got to take my business suit to the cleaners and I must stop at Blank's and order a new carpet and then look up some painters and paperhangers—to get them to put the finishing touches on that room, you know."

Mr. Multikids—I tell you, old fellow, it does a man like you good to get out among his married friends, surrounded by their children. Gives him kindlier thoughts and all that sort of thing, don't you think?"

## Steel of Canada Led The Market

Price Remained Firm at 49—Dom. Steel Fell Half a Point in Poor Trade.

Montreal, June 18.—One or two issues supplied the bulk of the turnover and the remainder of the list was more or less neglected in trading on the local stock exchange Saturday. The largest turnover was in Steel of Canada, where there was at least as much buying as selling with the price unchanged at 49 at the close; Dominion Steel was almost entirely neglected only one board lot changing hands at a net loss of 1/2 point.

## New Riordon Broke Sharply On Unlisted Market Last Week

Breweries Struck a Slump, Falling Five Points—Bond Market Somewhat Easier.

Montreal, June 18.—New Riordon Common broke sharply this week, selling at 1 and closing 1 1/2 bid, offered at 2. The Preferred sold down from 24 to 14 1/2, and closed offered at 17, no bid. North American Pulp was dull around last week's figures—1 1/2 to 4, and Dreyden was unchanged at 14 1/2 to 15. Mattagan Common lost half a point, and is now offered at 17 1/2 with no bid in the market, and the Preferred is unchanged. Whalen Common lost half a point, and is now offered at 9 1/2, says Balfour, White and Company.

Breweries Down.  
Cuban-Canadian Sugar Preferred sold at 14, and is now offered at 14 1/2 with no bid in the market, and the Common sold at 4 and is now offered there—a loss of a point for the week. Laurentide Power was easier around 67 to 68, and Canadian Car Notes again changed hands at 77 1/2. Argonaut Gold is offered at 35 cents with no buyers in the market, and Cosgrave Breweries is 10 bid, offered at 11. Frontenac Breweries lost 5 points selling down from 65 to 60, and closed offered at 60 with no bid. Loews Metropolitan Common advanced half a point to 4 1/2 bid, and Loews Ottawa Common lost a quarter of a point, selling at 3 3/4. Winnipeg Electric Preferred is offered at 76 with no bid, and Western Grocers Preferred sold at 63, closing 62 1/2 bid, none offered. Ames Holden Tire Common lost half a point at 50, and Famous Players Preferred lost 3 points selling at 77, and closing offered at 80 no bid. Black Lake Preferred and Common remained unchanged, and Canadian Westinghouse Common declined from 106 to 104, and sold at the latter figure, closing 103 to 105. Hollinger was weaker, selling down to 37, and closing 37,00 to 37,14. Cockshutt Plow Preferred remains unchanged. Imperial Oil is quoted 97 1/2 to 100 1/2, and sold at par. National Brick Common which has been inactive for some time is now 6 bid offered at 10.

## Bond Market Easier.

Montreal City & District Bank sold at 167, and closed 165 to 168; Sterling Bank, which was offered at 112 with no bid in the market, is now 109 bid still offered at 112. The Unlisted Bond Market has been rather easier this week, although there is a continued strong demand for short term bonds payable in New York. The general weakness in the New York Bond Market noticeably affected such issues as Government of Newfoundland 4 1/2% 1934 which are quoted 92 to 93—a point or two off from the recent issue price. The

## Wheat Market

Winnipeg, June 18.—The firmness on the local wheat market at the opening, due to possible crop damage in the United States' wheat belt, disappeared as the morning went on and prices relapsed to levels that showed very little change on the day. Trading was very light and local today. The close was 1 1/2 to 1 3/4 cents lower. Cash wheat demand continued good early in the session, and the premiums advanced two cents, attributed largely to the scarcity of offerings. When the demand was satisfied, the premiums dropped back again to around yesterday's close. All grades of oats and certain grades of barley are in demand, but offerings are light. Considerable business in oats is being worked from day to day for export.

Wheat—July, 1.70; October, 1.35 1/2 bid.  
Oats—July, 46%; October, 45 1/2% offered.  
Cash prices:—Wheat, No. 1 Northern, 1.84; No. 2 Northern, 1.85; No. 3 Northern, 1.77; No. 4, 1.67; track Manitoba, Saskatchewan and Alberta, 1.75.  
Oats, No. 2, c.w., 47%; No. 3, c.w., 43%; extra No. 1 feed, 43 1/2%; No. 1 feed, 41%; No. 2 feed, 40%; track, 36 1/2%.

CHICAGO  
Chicago, June 18.—Close: September, 1.23 1/2.  
Wheat—July, 1.29 1/2; September, 1.23 1/2.  
Corn—July, 63 1/2; September, 64 1/2.  
Oats—July, 38 1/2; September, 39 1/2.  
Pork—July, 17.60; September, 17.80.  
Lard—July, 9.92; September, 10.25.

other Government of Newfoundland issues were weaker, and there was very little activity in Industrial Bonds. There was a good demand for Montreal Tram & Power's 1924, City of Outremont's 1922, City of Verdun's 1923, Province of Ontario's 1923, and Province of Alberta's 1922, with very little change in prices.

## BAR SILVER

London, June 18.—Bar silver, 35 1/4 d. per ounce; bar gold, 108s. 3d. Money, 4 per cent.

## For International Trade

CANADA'S imports in the fiscal year of 1919-20 amounted to \$1,064,516,169 and its exports to \$1,286,658,709, a total trade of \$2,351,174,878. In financing the many transactions that go to make up such a volume of business, banking experience and resources are of paramount importance.

The Bank of Montreal has been assisting the merchants of Canada in import and export trade for over 100 years. It has built up an international banking organization that offers exceptional facilities to those doing business with outside countries.

The Manager of any Branch of this Bank will be glad to have you discuss banking facilities with him or you may consult on any problem connected with international trade direct with the Foreign Department at the Head Office in Montreal, where complete statistical and other information is kept on file.

Canadian firms engaged in Foreign Trade who contemplate sending representatives to Great Britain, France, South Africa, India, Australasia, China, Japan, or the West Indies, will find it to their advantage to communicate with the Foreign Department at the Head Office in Montreal.

**AGRETTE FARMS ARE NOW COMMON IN EAST INDIA**

Osprey Feathers Can Now Had Without Cruelty to the Birds.

**FISHER-FOLK HAVE DOMESTICATED BIRDS**

Moult Four Times Each Year—Covered Plumage Secured Without Pain.

Calcutta, June 18.—The controversy as to whether the beautiful down of the smaller, more commonly known as the "osprey" feather can be placed on the world's market without cruelty to the birds has received a fresh impetus from an article published by a Karachi newspaper. In the old days large quantities of this beautiful plumage were exported from India and they accounted for the important position occupied by feathers in the Indian exports down to the nineteenth century.

The osprey feather, however, obtained chiefly in Bengal and derived by robbing the bird of its down, is a cruel and wasteful practice. The mass of down which is plucked from the bird is sold to the milliners and the rest is thrown away.

In 1902 the new Indian Customs Act prohibited the taking by land out of British India of skins, feathers of all birds other than domestic except (a) feathers of triches, (b) skins and feathers of birds of prey, and (c) skins and feathers of birds of prey, and the sale of native of natural history. From that date the foreign trade in the plumage, although large, has been almost entirely cut off, and the trade in the osprey feather has been practically eliminated.

Successfully Domesticated.

For long it has been known that the successful efforts have been made, particularly in India, to domesticate the smaller agrette, and as long ago as 1914 an article contributed to several scientific journals in India and America—among them Scientific American—described the progress made.

Fresh inquiries have again been made this year in Sind and claims, on which is evidently a scientific authority, that at 100 agrette farms now exist in Sind area alone. The farms are usually speaking, not migratory, but the cruellest attendant of the transference of the birds from place to another—cruelty to the birds—is the necessity of blinding the birds to prevent them from returning to their native haunts and being eliminated. Where a single bird is blighted, the rest of the flock and water is permanent and remains permanent.

Well Housed and Treated.

"The farmers" are the flocks of the inland waters of the province of Sind are well treated. The birds are well housed in well-ventilated structures well looked after and well fed. 1,000 birds personally seen by the collector of the P. & O. (a senior official in the Civil Service) no case of blindness or mutilation was discovered, space allotted to each bird on an average of 20 to 30 cubic feet. They are in the open and are accessible to the sun and wind, and are not crowded together. The necessity of blinding the birds to prevent their return to their native haunts is in regular process.

Moult Four Times Yearly.

With regard to the astonishing assertion that the smaller agrette moults no less than four times a year, the reports now summarized are anonymous in declaring this to be a positive fact. The two summer moults, only give a very ill turn of the famous plumage.

As regards the pain often taken to be attended on plucking the birds, the collector of the P. & O. who is also a keen ornithologist, the abstraction of the plumage from now practiced occasions no more inconvenience than is caused by the plucking of a human head.

**FACTS ABOUT MAN.**

There are 627 muscles in the human body.

A man's brain contains a billion cells.

A man's brain is twice as large as that of any animal.

A man is generally heavier than a horse.

A man's heart weighs about a pound.

Man is the only animal which tris open downward.

Normal man's pulse beats 72 times a minute, woman's 80 and 120.

The average man paces 30 to 105 paces to the minute.

Man's voice is produced by the united action of 44 muscles.

Man's bones are in three long, in the arms and legs, in the shoulder blades, and short in the wrist.

The cubic content of an average man's skull is 94 inches; of the average, 82 inches; of the gorilla, 52 inches.

Good Comebacks.

"How do you feel?" I heard "To the old shoes he's thrown." "And the old shoes said with a good grace, I feel all well."

"How do you feel?" I heard "To an old skirt she's thrown." "And back to her comes the skirt." "Oh, why did you cut me?"

ALBRETTE FARMS ARE NOW COMMON IN EAST INDIA

Osprey Feathers Can Now be Had Without Cruelty to the Birds.

FISHER-FOLK HAVE DOMESTICATED BIRDS

Moult Four Times Each Year—Coveted Plumes Secured Without Pain.

Calcutta, June 19.—The controversy as to whether the beautiful dorsal plumes of the smaller albatross, commonly known as the "osprey feather," can be placed on the world's markets without cruelty to the birds has just received a fresh impetus from an article published by a Karachi newspaper. In the old days large quantities of this beautiful plumage were exported from India and they largely accounted for the important position occupied by feathers in the list of Indian exports down to the middle nineties.

The osprey feather, however, was obtained chiefly in Bengal and Madras by revolting cruelty which implied the massacre and slow extinction of one of the fairest of God's creatures.

In 1902 the new Indian Customs Act prohibited the taking by sea or land out of British India of skins and feathers of all birds other than domestic species (a) feathers of ostriches, (b) skins and feathers exported bona fide as specimens illustrative of natural history. From that date the foreign trade in the albatross plume, although large, has been illicit and has been achieved solely by evading the customs officers.

Successfully Domesticated.

For long it has been known in India that successful efforts have been made, particularly in Sind, to domesticate the smaller albatross, and as long ago as 1914 an article contributed to several scientific journals in India and America—among them the Scientific American—described the progress made.

Fresh inquiries have again been made this year in Sind and it is claimed, on what is evidently official and scientific authority, that at least 100 albatross farms now exist in the Sindh area alone. The farms are, generally speaking, of the migratory and hence the cruelties attendant on the transference of the birds from one place to another—cruelties due largely to the necessities of temporary blinding the birds to prevent them harming themselves and one another are eliminated. Where a supply of fish and water is permanent the farm remains permanent.

Well Housed and Treated.

"The farmers are the fisher-folk of the inland waters of the province. The birds are well treated. They are described as being comfortably housed in well-ventilated structures, well looked after and well fed. Among 1,700 birds personally seen in the Pakar (a senior official in the India Civil Service) no case of blinding or ill treatment was discovered. The space allotted to each bird on a farm is 20 to 40 cubic feet. The cages are in the open and are accessible to air and light. The necessity of decoy birds has disappeared, now that breeding is in regular process.

With regard to the astonishing assertion that the smaller albatross moult no less than a year, the reports now summarized are unanimous in declaring this to be a positive fact. The two summer moults, however, only give a very light return of the famous plumage. As regards the pain once thought to attend on plucking, it is asserted on the authority of an officer, who is also a keen ornithologist, that the abstraction of the plumes at the right season and in the humane fashion now practiced occasions the bird no more inconvenience than is occasioned by the plucking of a hair from the human head.

FACTS ABOUT MAN.

There are 627 muscles in a man's body.

A man's brain contains a half million cells.

Man's brain is twice as large as that of any animal.

A man is generally heaviest in his fortieth year.

A man's heart weighs about half a pound.

Man is the only animal whose nose trills open downward.

Normal man's pulse beats about 70 to the minute, woman's 80 and infant's 120.

The average man paces 30 inches, 108 paces to the minute.

Man's voice is produced by the united action of 44 muscles.

Man's bones are in three shapes; long, in the arms and legs; flat, the shoulder blades, and short and irregular, in the wrist.

The cubic content of enlightened man's skull is 82 inches; of the gorilla, 58 inches.

Good Comebacks.

"How do you feel?" I heard him say To the old shrew he's thrown away. And the old shrew said with a pout: "My goodness, I feel all worn out!"

"How do you feel?" I heard her say To an old skirt she's thrown away. And back to her comes the retort: "Oh, why did you cut me so short?"

ABILITY OF GERMANY TO PAY MENACE

In Order to Get Cash She Must Undermine Trade of Great Britain.

DIFFERENT METHOD OF COLLECTING BEST Should Have Been Required to Pay in Raw Materials Needed by Other Nations.

London, June 19.—Reginald McKenna, former Chancellor of the Exchequer and chairman of the London Joint City and Midland Bank, made an address on "International Debts" here tonight.

Before the war, he said, the United States was probably the principal debtor nation. She was now a great manufacturing nation, but the fact that in the past she incurred heavy external obligations was no exception to the rule that borrowing countries were primarily exporters of food and raw materials. As she developed her manufacturing, she reduced her borrowing abroad until before the war she had probably ceased to borrow on balance.

Debts between nations, created by war, bore no resemblance to the earlier obligations that had been incurred between nations. These had not arisen out of normal trade relations, and had not been accompanied by any development of productive power of the debtor.

Must Export Goods. Discussing the debt, Mr. McKenna said that although Germany had paid her foreign creditors \$160,000,000 a year as a minimum, and \$400,000,000 a year as a maximum. She could only pay by the sale of goods abroad or by rendering service to foreigners through shipping, banking and insurance. If she paid by visible exports, she must sell abroad to the value of nearly \$200,000,000, and take for internal consumption only \$60,000,000, which was hardly conceivable in view of the need to import raw materials.

To enable Germany to meet her final liability of close to \$400,000,000 her exports must amount to not less than \$1,200,000,000. German foreign trade could not be expanded to such a point, and so large an exportable surplus could not be maintained unless wages were kept extremely low by comparison with competing countries.

There would have to be a rigid cutting down of the standard of living among the working classes. Would German working classes consent? The answer must be that they would.

Before the war Germany was Britain's greatest competitor. Cost in Germany would be below British. The effect on German shipping was obvious. Ships would be built and manned on the German basis of cost, but freights and passengers would be on the international level. An export duty of 26 per cent would, in fact, constitute a bonus of a preference of 28 per cent in favor of German shipping. The same thing would be true of banking and insurance.

If Germany could get her trade goods, he went on, it is probable that by the third year her industry would be running with such energy and volume as would enable her to meet the demands on her. The whole interest of the German Government would be centred on paying.

For the industrial magnate of cheap labor and larger output. His rate of profit might be reduced, but the huge volume of production would give him a big return. The burden of the debt would be borne mainly by German workmen, whose real wages would never be allowed to rise.

Would Meet Demands. "The conclusion to which I am driven," said Mr. McKenna, "is that if Germany is able to meet her obligations, she will be doing so gravely to impair our own international trade."

According to his view there was a way to make Germany pay and to contribute to the prosperity of this country. Nothing stood in the way of Germany being required to send to this and other countries, each according to its requirements, such articles as coal, timber and potash. German labor would have been drawn

THE CARELESS SMOKER. (Apologies to Kipling.) A fool there was and his pipe he lit (Even as you and I) On a forest trail where the leaves were lit To become ablaze from the smallest bit Of spark—and the fool he furnished The day was windy and dry. The forest was burned to its very roots Even beneath the ground. With the flowers, the birds and the poor dumb brutes, Old hoary oaks, and the tender shoots Which might have made logs but for such galeots Allowed to wander around. The lumber jack has now possessed on, His pay day come no more, And the scorching oaks have bent the camp at dawn Where the cook's tin pan woke the men of brew; But the mill is silent, the trees are gone, The soil and the forest floor. A deadly sight are those hills of rocks Which once were beds of green; No hope for the human, no food for the flocks. The floods must be held by expensive locks And the harbor is silted to the docks. The ships no more are seen. But the fool smokes on in the forest still, Leaves camp-fires burning, too, While the patient public pays the bills And the nation's wealth is destroyed. If the law doesn't get him, Old Satan will When his smoking days are through! —Harris A. Heywood.

THE WEATHER

Toronto, June 19.—A disturbance over the arrival of a New England low pressure system...

AROUND THE CITY

Mr. and Mrs. J. M. Cody are rejoicing over the arrival of their daughter, Jean, born to them at the General Public Hospital Saturday.

FOUR DRUNKS

Two drunks and one protectionist formed the inscription on the police register for Saturday. Two more drunks were totaled up on the Sabbath.

SLIP TO BE DREGDED

An application was made to the city Saturday morning by the Colwell Fuel Co. to have the slip in front of their coal shed in West St. John dredged.

ALL MET HERE

There are forty heads of departments connected with the Sells-Floto Circus. For the first time since the circus took to the road the heads of all departments gathered in the city yesterday.

STRUCK BY CYCLIST

Some little excitement was caused when a motorcyclist struck a man at the corner of Wentworth and Leinster streets on Saturday and knocked him to the ground.

RENFORTH SHOWS CLASS

A very enjoyable dance was held in the club house at Renforth on Saturday night which was well attended despite the weather.

WILL MOVE THIS WEEK

The offices of the department of water and sewerage will be moved from city hall to the water building in Carleton street this week.

VITAL STATISTICS

Eleven deaths were recorded in the city during the week ending Saturday from the following causes: Senility, pyelitis, furunculosis, bronchitis, whooping cough, cerebral hemorrhage, cerebral softening, ptosis, pulmonary acute atrophy of the liver, post partum and anti-partum hemorrhage.

Route of Parade For Circus Today

Course Mapped Out by Officials Longest Ever Traversed in the City.

Commissioner of Public Safety, Thornton, and Chief of Police Smith, together with Manager Serrell of the circus, have sanctioned the following route which the parade will traverse.

When passing around King Square to Sydney street, motion pictures of the parade will be taken.

Warning Given

In order to avoid any possibility of automobile accidents during the parade, all drivers are requested not to park any automobiles or horse-drawn vehicles along the parade route.

Felix Quinlan In Brookville Court

Charged With Removing a Stake Between Father's and Uncle's Farms.

Following the dismissal of the first hearing of the case, information was laid, and Felix Quinlan, of Willow Grove, was brought before Magistrate Adams of Brookville, on Friday last, on the charge of removing a stake from the lines between his father, Edward Quinlan, and his Uncle, Grattan Quinlan's farms.

G. G. Murdoch, crown land surveyor, testified to having run a line between the two properties last July at the request of the complainant. The stake, which was removed, was one of those set out by him at the time.

Grattan Quinlan stated he had run the stake placed in position on or May 18 heard Felix Quinlan tell his younger brother to remove the stake, and saw him do so. His wife and brother corroborated his evidence. Daniel Mullin, K. C., appeared for the complainant and G. Earl Logan for the accused.

Rothesay-St. John In Scouting Game

Representative Scouts from Local Troops Had Contest With Consolidated School.

On Saturday afternoon thirty-nine representative Scouts chosen from the eighteen local troops in St. John, engaged in one of Sir Robert Baden-Powell's scouting games called "Tails" with a number of scouts belonging to the second Rothesay (Consolidated School) Troop.

The St. John Scouts were taken out to Riverside by train and despatched from there by District Commissioner Guy D. Short, with orders to get to the Consolidated School without losing their "Tails." The "Tails" were the scout neckerchiefs tucked in the back of their belts.

The Rothesay Scouts were in hiding throughout the countryside between Riverside and the school, waiting to capture as many "Tails" as they could.

The St. John Scouts lost about 30 "Tails" out of the 39 which started out.

The Scouts had supper on the beach after the game and did not seem to mind the weeping heavens—at least not the rumblerers were heard.

Delivery Teams In Serious Mix-Up

Wagons Smashed, Horses Thrown to Pavement and One Person Injured.

There was a mix-up among delivery teams on Charlotte street, Saturday forenoon, which resulted in damage to wagons, a scattering of laundry bundles and injury to horses and persons. A wheel of the delivery wagon of Jacobson Bros. caught in a frog of the street railway track on the west side of the street.

The horse attached to the wagon began to plunge and the driver lost control of him. The horse started on the run down Charlotte street. It crashed into the delivery outfit of the Vall Laundry, standing in front of the laundry, upsetting it and bowling the horse to the sidewalk.

In the crash, Mr. Maurice Everett, who was with the driver on the Jacobson wagon, was thrown to the pavement receiving very severe and painful injuries. Dr. Malcolm was summoned to attend Mr. Everett after which he was able to be moved to his home. The horse which was on the pavement by the collision was slightly cut, and the wagons smashed to a considerable extent.

Detachment Left For Petawawa

Five Officers and 45 Men Headed by Regimental Band Made Good Appearance.

On Saturday night on the 8.15 train a firing detachment consisting of five officers and forty-five men entrained at the depot, bound for Petawawa, where they will spend three days under canvas. The regimental band played the boys to the train, and it rather seemed like old times to see the boys going away.

Major G. A. Gamblin, M.C., is in command, with Captain E. M. Slager as adjutant. The Regimental Sergeant-Major will accompany the draft. The other officers are Lieut. H. F. Morrissey and Lieut. E. Puddington. Monday, Tuesday and Wednesday will be spent in camp and the men are expected to arrive back in the city next Friday.

A detachment from the Fourth Siege Battery will leave for Petawawa next Saturday under the command of Major J. F. Macdonald, also spending a three-day period in camp and arriving home Friday of the following week.

Request From England For Spar

J. A. Likely Asked to Supply Douglas Fir Spar for the King's Yacht.

A remarkable request has come from England by cable to J. A. Likely. This is to supply a spar of Douglas fir 165 feet long and 25 inches in diameter for the King's yacht.

There are no such spars in this country, but inquiries have been sent to British Columbia to see if one can be located. The cost of transporting such a piece of lumber across the continent would be more than the wood is worth, but every effort will be made to fill the order.

Refuse To Accept Any Reduction

Maintenance of Way Workers for C. P. R. Held Meeting Yesterday Afternoon.

An absolute refusal to accept any reduction in their present rate of pay which might be attempted by the C. P. R. was determined on at a meeting of the St. John, Fredericton Junction and McAdam Junction locals of the Canadian Brotherhood of Maintenance of Way Workers at a banquet and meeting held at the LaTour Apartments yesterday afternoon.

Over ninety-four members of these three locals were in attendance at the Fairville lodge, local 184, acted as hosts to the visiting locals. The Canadian vice-president of the union, W. V. Turnbull, and the assistant general chairman, J. J. O'Grady, both of Montreal, were honorary guests, and delivered addresses on the question of the stand to be maintained by railway workers when the expected reduction in pay is introduced by the C. P. R. in July.

A general discussion followed the introduction of the subject, and the united opinion was expressed that the present wage was low enough, and that any further reduction should not be accepted.

S. Burns, of McAdam Junction occupied the chair, and at the conclusion of the meeting a hearty vote of thanks was moved by W. F. Chesneau, seconded by J. Clinton, and unanimously extended to the management of the LaTour for the excellent meal served, and the special attention, paid in the way of services, and the artistic decorations of the banquet room.

West End Break On Friday Night

A tobacco and fruit store at the head of No. 5 shed, W. E. owned by E. Christensen, was broken into Friday night and a quantity of cigars stolen. Although there was some money in the till, the thieves left it untouched. The store caters to the wants of the water port men and has not been open for a week.

Referendum Taken On October 17th

Rev. W. D. Wilson in Main Street Baptist Church Makes An Announcement.

At the request of the N. B. Temperance Alliance, Rev. W. D. Wilson last evening at Main Street Baptist church asked for the co-operation and interest of that congregation in the coming referendum. Mr. Wilson stated that he understood the referendum will be taken October 17, and urged all who believed in the cause of temperance to do their best at that date.

The Subject

The subject announced for the sermon was The Constructive Power of the Church and Destructive Power of the Liquor Trade. Speaking from the text: "The Thief Cometh Not but for to Steal, and to Kill and to Destroy; I am come that They Might Have Life and That They Might Have It More Abundantly." John 10:10, the preacher pointed out that there are always two forces at work in the world which would build up and that which would tear down. Jesus is the greatest constructive power the world has ever seen.

Men and women joined together in groups all over the world are through the power of Jesus' message, teaching people to walk steadily and to live clean, honest, sober lives. All over the world this message is giving an inspiration of new hope, Sundays and others auxiliaries of the church are leading young people to God's City. As members of the church, all should rejoice in its constructive power.

Two Tragedies

On the contrary, the liquor business is trying to discount all the good accomplished by the church. Mr. Wilson told in detail of two tragedies which occurred recently in Fredericton, a man left to suffer under an overturned motor and a young man who had succumbed to temptation and is now in prison. You may say such people are weak-minded, the speaker said, but when you light a fire and there is a baby in the room, do you not put up a fender? What contribution are you making to keep people sober? Referring to the leading influence of the liquor business, Mr. Wilson instanced the case of a prominent St. John man who was known to have approached a politician asking that his license be renewed and offering to pool profits on the business for the next campaign fund. It might not be true, but he understood, Mr. Wilson stated, that at the time he was in a ward not far from Main Street Baptist church a bill for \$70 for booze had been sent to the politician.

Every man and woman are asked to do their utmost to eliminate such things. It matters not whether it is your own boy or others, the judgment will be passed as you are. It is "did it not." Only the Grace of God can save.

The argument, "put the business in the hands of respectable men," was shown to have failed in the case of the United States, where Secretary Hughes was forced to write all embassies regarding the dangers of the liquor traffic.

Co-operation

Without the co-operation of church members, the victory will never be won. At the referendum, which it is understood will take place October 17th, the question will be asked "Shall the importation of liquor into the Province of New Brunswick be forbidden?" Knowing the splendid work done by this church at the last referendum, the speaker asked for further support.

In mentioning the men who wished to do business in St. John, he was forced to leave Montreal, Mr. Wilson said they based their right to trade on the British North American Act and he wished to inquire if that act was not just as valid in the Province of Quebec as in New Brunswick?

Spoke for Alliance

The N. B. Temperance Alliance had asked him to come to the Main Street Baptist church to speak upon this subject and ask all to enroll as members of the Alliance. This is in order to be able to reply to the government when asked, "Who are in favor of Temperance?" Officials often remarked, "Churches are in favor of Temperance, but who are the individuals?" A politician had said he could do more with a bottle of rum than with a five dollar bill. How much can laws be enforced when people have such an outlook as that? Sending to Ottawa and Fredericton men who have the fear of God in their hearts and are ready to do the Master's will. We have some such men, but too few.

Crowds Visited The Sells-Floto City

Pitched Tents on East End Grounds Yesterday Where Many Visitors Gathered.

Sells-Floto Circus arrived in town Sunday morning, coming from Fredericton, after one of the most satisfactory runs, according to the transportation manager, that the outfit has ever enjoyed. The trip being made without a hitch, the first section getting into this city one hour and fifteen minutes ahead of contract time. Colonel Warner, head of the transportation department of the circus, expressed himself as well pleased over the manner in which the railway company did their work.

Arriving at three o'clock yesterday morning, the work of transferring the paraphernalia to the East End grounds, where the tented city is established, was at once begun. The work was carried on quietly and with little disturbance to people in the neighborhood. At nine o'clock all but the "big top" were in position, the cages in their places in the menagerie tent and the horses being groomed.

Attractive Outfit

The Sells-Floto show is the largest that has visited this city in many years. Thirty-five full sized "circus cars" are required to transport it. These cars, in their color of white and black lettering and their general appearance, give some idea of what might be expected in the way of cleanliness and attractiveness of the show today.

The crowds that flocked to the grounds yesterday were impressed by the order and decorum of the workers. There was a notable absence of the rough element, usually seen with a circus crowd, and all the attendants were gentlemanly and courteous in answering the hundred and one questions fired at them by visitors.

Sells-Floto has one hundred and seventy draft horses, and they are superb specimens of horse flesh. Their draft horses are beauties, all sleek, fat and clean, while the ring horses are fascinating even to those who are not in the city. Judges of good horse flesh were enthusiastic yesterday in their praises of the horses with the show. The trappings, also, are in keeping with the horses, and all are as dazzling in their appearance.

Graduation Frocks Frilly and Youthful

Graduation Day marks a milestone in the life of every girl fortunate enough to win the coveted diploma. Every girl should have the dress she wants to wear for that most important day—She can find the very one she wants here.

There are Georgette Crepes fashioned with beguiling overskirts and trimmed with frills of narrow lace; others trimmed with fluted frills and edged with narrow ivory satin ribbon; Voiles in plain material or with embroidered spots.

The long waisted style so much in demand at present is showing among this fine assortment of new Graduation Frocks and is bound to find favor with the girl who likes the newest thing. (Costume Dept.—2nd Floor)

Cases Dealt With In Police Court

William J. Merritt Fined \$20 for Breaking Windows—Fred Pierce, Jr. Surrendered

A fine of \$20 with the option of two months in jail, was struck against William J. Merritt, on the charge of breaking windows in a house on Sheffield street, when he was brought before the court Saturday morning. One drunk was before the court and paid \$8.50 for his single drink. He told Magistrate Ritchie that his Honor tacked on \$8 as a sales tax. Fred Pierce, Jr. surrendered himself to the police on a warrant had been issued for his arrest on the charge of assaulting Arthur L. Morrill.

Truant Officer McManan had one juvenile delinquent in court for "hitting" and four other youngsters reported for playing ball on Winter street, and his company. They were all severely reprimanded and allowed to go after promising to do better.

Mr. Wilson appealed to all present as members of the Temperance Alliance, and at the close of the service a number signed as being in favor of prohibition. Rev. R. O. Morse conducted the service.
