THE GOLD 7-30 LOAN. A profitable and secure Investment

THE Northern Pacific Railroad Companyoffers to the public an investment security which combines the ready negotiability, the convenience, and the high credit of a first-class Raiload Bond, with the solidity and safety of a Real Estate Mortgage on Land worth at least twice the amount loaned.

Troffic. As efficially reported, the gross earnings of the present Pacific Railroad (Union and Central) for 1871, the second year of through business, (December earnings estimated) reach Seventeen Millions and a Quarter. Of this, 65 per cent. is from Local business, and, it is stated, fully 55 per cent., or nearly Nine and a Half Millions, are net over operating expenses.

An equal traffic on the Northern Pacific Road will pay a dividend of more than 9½ per cent. on its total cost. With its great and unquestioned advantages in distance, grades, climate and tri-

assured of a vast and profitable business from the outset, with a large increase for the future.

The Value of Land Grants. The average price at which the transverse landing Lord transfer of the first supply, a FULL STOCK will be kept constantly on hand, at at which the twenty-six leading Land-grant. Railroads have thus far sold heir lands, is \$7.04 per acre—the highest average of any grant being \$13.98, and the lowest \$3.07. With few exceptions tion, the average selling price has steadily in-creased from year to year. The lands of the Northern Pacific Road are admitted, by all who have seen them, to be better and more salable than those of most other grants, but, sold at the general average of \$7.04 per acre, they will yield nore than \$161,000 per mile of road-more than three times the possible cost of construction and equipment; or, at the lowest average of any grant (\$3 07), they will produce more than \$70, 000 per mile. These facts regarding Pacific Railroad earning, and the market value of Railroad Lands, as shown by actual sales to settlers, show the three-fold security of Northern Pacific R ilroad Bonds.

Construction. The road is now completed across Minnesota, (2.5 miles); work is progressing westward through Dakota, and 65 miles are under construction on the Pacific coast. In cluding purchased lines, the Northern Pacific Company now has under its management 578 miles of finished track. Contracts are let for the construction of 635 miles more, to be finished before the close of 1872. The 7-30 Gold Bonds. The first mortgage bonds of this company, which, after full investi gation, we strongly recommend as a reliable and unusually profitable investment, and which now stand among the solid and favorite securities of the country, have the following leading features:

1. They are exempt from United States tax: the Principal and Interest are payable in goldthe principal in 30 years, and the interest semi-annually at the rate of 73 10 per cent. per

annum, Denominations, from \$100 to \$.0,900. Present selling price-par and accrued intere in United States currency at pres nt rate of gold (109) these bonds yield 8 per cent gold Brown's Tracheal Drops. 2. The bonds are a first and only Mertgag on the Road, its Equipments and Earnings, and also on a Laud Grant which on the completion

of the Road will average 23,000 acres to each mile of track, 3. They are at all times receivable at 10 per cent, premium (1.10), in payment or exchange for the Company's Land at market pricesprovision which practically gives the holder the ower of foreclosure at will.

4. The proceeds of all sales of Land are re quired to be devoted by the Trustees of the bondholders, (Messrs. Jay Cooke and J. Edgar Thompson), as a Sinking Fund to the purchase and cancellation of the first mortgage bonds, or

temporarily to the payments of interest thereon f necescary. Exchanging 5 20s. In view of the ability and fixed policy of the Government to call in its 5-20s and substitute a low-interest bond,—\$140.000,000 having been called in for cancellation since September 1st—many holders of 5-20s are exchanging them for Northern Pacifics, thus adding to their principal the presen premium on Government Bonds, and increasin heir yearly interest income nearly one third, All marketable stocks and bonds will b

pense to the investor. JAY COOKE & CO. PHILADELPHIA, NEW YORK, AND WASHINGTO Fixancial Agents Northern Pucific Railroad.
