Historical Sketch.

Acadia College was founded by the N. S. Education Society in 1838. In the following year application was made to the N. S. House of Assembly for a Charter of Incorporation with the title: "The Trustees, Governors and Fellows of the Queen's College." An Act creating such a corporation with the powers of a University was passed in 1840. At the next meeting of the Legislature, this Act was amended by changing the name to Acadia College.

In 1851 the power of appointing the Governors of the College was transferred from the N. S. Education Society to the Baptist Convention of the Maritime Provinces. The developments of succeeding years made it necessary that various amendments to the original Charter should be obtained. In order to avoid confusion and bring the Act of Incorporation into more complete harmony with existing conditions, a general revision and consolidation of the different Acts relating to the College was proposed by the Board of Governors. The Report of the Committee of the Board, having been adopted by the Governors, was referred to the Convention. That body at its meeting in Yarmouth, in August, 1891, after suggesting some modifications, approved the Report and instructed the Governors to apply to the Parliament of Nova Scotia for the necessary legislation. Accordingly a bill embodying the proposed alterations was passed by the two Houses at the Session of 1891, and received the signature of the Lieutenant Governor on the 19th of May in the same year. A copy of the Revised Charter is appended.

Courses of Instruction.

COURSES OF STUDY FOR THE DEGREE OF BACHELOR OF ARTS.

The subjects of the Undergraduate Course form a system of prescribed and elective study. The subjects of the first two years have been selected mainly for their disciplinary value, and, with the exception that a choice is offered between Greek and French, are strictly prescribed. In the last two years the element of personal choice is more freely introduced, the prescribed studies occupying in the Junior year six of the fifteen hours of instruction each week, and in the Senior year four of the thirteen hours.

In addition to the regular class instruction Honor Courses have been arranged for the advantage of students who may be able to do more than the ordinary assignments of their classes. These are open to the election of any undergraduate, provided he maintains first-class standing in the studies of the Curriculum. The value of the work performed in these studies will be determined by examinations, and Honor Certificates of the first or second class will be given according to the results of these examinations.

Students cannot be admitted to the Honor courses if regular examinations are overdue. Any undergraduate, even though not having first-class standing, may, by vote of the Faculty, be permitted to give special attention to a particular study. Such student, and also one whose standing may have required his discontinuance of Honor studies, shall be entitled to a certificate of the work done.

The studies of the College are arranged with reference to the wants of students who intend to take the full course. Provision is also made to accommodate all who may wish to study for a shorter period in any department, if, after examination, they are found to be prepared to work with the regular classes. General students, on leaving the College, can have certificates of proficiency according to their attainments.

Examinations and Standing.

At the end of each Session all the Classes will be examined on the studies of the Session. These examinations will be conducted for the most part by written papers; but oral examinations will be introduced at the discretion of the Faculty. The results of these examinations will be combined with the record of the daily exercises to determine the standing of the student. An average of seventy-five per cent. of the maximum must be made to admit a student to first-class standing.

In order to maintain standing, a student must make 45 per cent. in each subject taken, both in term work and examinations. Absence from class appointments will affect the student's standing.

At the close of each Session the standing of each student will be reported to his parent or guardian, if desired.

Course of Study for the Degree of M. A.

The Degree of Master of Arts will be granted according to the following regulations passed by the Senate at its meeting in June, 1892 :

1. That the M. A. degree be given only after the candidate has passed a satisfactory test in a prescribed course of study.
2. That such course of study be equivalent to a full year's course of advanced study; *i. e.*, something more in quantity and higher in quality than the requirements of the Senior year.
3. That the assignments be arranged so as to secure a large acquaintance with some one subject, rather than a slight acquaintance with several.
4. That the manner of testing be, by written examinations, by the presentation of a thesis on some assigned subject, and by the preparation of a critique or review of some author included in the course selected.
5. That the thesis and critique be placed in the hands of the President on or before the first day of April, and the returns from the last examinations be in his hands before the tenth day of May, of the year in which the Degree is to be conferred.

A full Course is required for this Degree ; but the applicant is at liberty to choose any two half Courses.

Acadia Athenæum.—The object of this Society is the improvement of the students in debate and public speaking. The laws and regulations of the Society are subject to the approval of the Faculty. Besides its weekly meetings arrangements are made for a course of Public Lectures during each College year. The Society has under its control a Reading Room furnished with a selection of newspapers, provincial and foreign, and other periodicals.

College Young Men's Christian Association.—A branch of this Society has been formed and is in a flourishing condition. At present there are about ninety members. Addresses are delivered monthly before this Society, by clergymen invited for the purpose.

Acadia Missionary Society.—This Society holds public monthly meetings. Its aim is to cultivate interest in Missionary work, and especially to gain information respecting Christian Missions in foreign lands.

The Propylæum is a Society composed of the young ladies in the Arts course. The meetings are held on Friday afternoon. The exercises consist of studies and discussions on assigned topics. Occasional public entertainments of a social and literary character are given by the Society.

A large and convenient campus gives abundant opportunities for Athletic Games in the spring and autumn. There is also on the University grounds a large and well-equipped Gymnasium. From the first of November to the first of April, the students have regular gymnastic drill under the Director of the

Gymnasium. Experience has shown that this practice is highly conducive to the health of the student. In May of each year a public field day is held under the auspices of the ACADIA AMATEUR ATHLETIC ASSOCIATION.

Prayer Meetings, conducted by the students, are regularly held on Lord's Day morning and on Wednesday evening throughout the College year. These religious meetings have been maintained ever since the founding of the College.

Special classes are formed for the study of the Bible on the Sabbath and at other times. All students are required to be present at morning prayers, and also to attend public worship regularly on the Sabbath. Parents and guardians are requested to give instructions as to the place of worship which they wish the students under their care to attend. Religious services are held every Sabbath in the village in connection with the Baptists, Church of England, Methodists, and Presbyterians.

Special rules concerning conduct and good order will be announced from time to time, as circumstances may require. It is assumed that students are in attendance for the purpose of intellectual and moral improvement, and that they will readily comply with all regulations that, in the judgement of the Faculty, are helpful in the accomplishment of this object. Inattention to study, or misbehaviour of any kind, will subject the offender to reproof or suspension, at the discretion of the Faculty.

Aids.

I.—SCHOLARSHIPS IN THE ENDOWMENT FUND.

1.

The Governors hold a few Scholarships, which can be assigned to needy and deserving students subject to the following regulation :

“ The Scholarships owned by the University shall not be granted for a longer period than one year, and only on a written application to the Scholarship Committee, through the President, before the 5th of November in each year.”

2.

A certificate from a Scholarship-holder, accompanied by satisfactory evidence that such Scholarship-holder is legally qualified to grant the use of the Scholarship, may be presented to the President, to be forwarded to the Committee on Scholarships; and if such certificate is satisfactory, the student presenting the same will be credited with the proper sum on account of the Scholarship. All certificates from Scholarship-holders granting to students the privileges of Scholarships, must be in the hands of the President of the University before the 5th of November of each year.

II.—THE DEWOLFE SCHOLARSHIPS.

There are five of these Scholarships,—one of the value of \$25.00 a year, two of \$30.00, one of \$40.00, and one of \$50.00. The nomination to these Scholarships will be determined by the Senate, according to the class-standing, needs and general conduct of applicants.

III.—MINISTERIAL EDUCATION FUND.

Students who have the Christian Ministry in view, and are approved by the churches of which they are members, may, in case assistance is needed, receive an annual appropriation from the Board of Ministerial Education.

The aim of this Association is not only to bind together in kindly feeling and mutual interest all who have studied at Acadia, but also to render more certain the untiring devotion of all Alumni to the interests of the University. All graduates and former students of the University are cordially invited to become members and to aid in promoting the objects of the Association. The membership fee is one dollar per annum.

The deep interest which the members of the Association feel in the welfare of the University has of late assumed practical form in a scheme for the support and endowment of a Chair in the University. This Chair is known as the "Alumni Chair of Physics," and is filled by Professor F. R. Haley.

To further the purposes of the Association, two branch Societies have lately been formed, one in Halifax, N. S., and the other in New England, with its headquarters at Boston, Mass.

The rapidly increasing number of graduates from Acadia ought to be an ever enlarging source of support and strength to the University. It is growing more and more evident that the future well-being of Acadia must largely depend upon the efforts and generosity of her sons. Her ability to meet the growing demands of the times must be very nearly commensurate with the willingness of her sons to place at her disposal the means needed to insure such necessary advancement.

Provision is made for three courses of study:—The Classical, the Literary and the Musical. A diploma bearing the seal of the University will be awarded to students completing any one of these courses. The Seminary Building is situated on elevated ground and in view of the varied and attractive natural scenery of the valley of Grand Pré

It is the purpose of the Governors to make the educational advantages of the School equal to the best in the Maritime Provinces.
