PREFACE.

The Publishers of this work, after several years experience in publishing Provincial Directories, find that the support we have received in the past would not compensate for the larger Directories. To meet the wants required by the public for such works, the publishers have commenced a series of smaller Directories by taking such Counties with business centres that will pay and meet the large outlay of obtaining information from country districts. We now place before the public the second edition, comprising Westmorland and Albert Counties. Although there is no perfection guaranteed, still we hope the public will find the work as complete as such works can be produced. The publishers have, in every instance, instructed their agents to obtain reliable information.

To those who have given information or supported in any way this work, the publishers return their sincere thanks.

MURDOCH LAVASH, Tonsorial Artist, MAIN STREET, MONCTON, N. B.

Mr. Lavash, whose place of business is in the centre of the town, is the leading tonsorial artist, and his establishment is patronized by all the best people of the place. Strangers visiting Moncton will find Mr. Lavash and his assistants on hand at all reasonable hours, and they may depend upon receiving the utmost courtesy at their hands. It is a real pleasure to be "shaved" by such skilful artists, and to undergo the Shampooing process at this establishment is simply delightful. Charges moderate.

The attention of the friends of female education is invited to the Mount Allison Ladies' Academy with a confidence proportioned to the successful history it has already achieved. As an additional warrant for claiming public patronage, reference may be made to the improvements and enlargements recently made in connection with the Academic edifice. These comprise a handsome and capacious wing and an additional story to the entire structure. This increase of facility will greatly aid the Faculty in their effort to promote the comfort and progress of their pupils.

The department of Music is under the charge of a gentleman of the very highest rank in his profession, aided by accomplished teachers. It is provided with an admirable suite of rooms adapted to the Conservatory system. Superior new pianofortes both for instruction and practice are furnished at the beginning of each school-year.

All departments of instruction will be maintained in the very highest state of efficiency, and no pains will be spared to prove worthy of the public confidence and favor so generously and continually expressed.

Catalogues containing full information supplied on application. Students admitted at any time, when there are vacancies.

Registered Letters.

Letters intended to be registered when addressed to places in CANADA must be prepaid by stamp 2 cents each; to the United States, 5 cents each in addition to the postage rate. For NEW-FOUNDLAND, Registered Letters, 2 cents; other articles 5 cents in addition to the postage.

All letters for Registration should be posted 15 minutes before the hour of closing the ordinary Mails, and 30 minutes before closing of the English Mails.

Registered Letters for the United States are despatched by morning Mail only.

No letter will be accepted at this office for Registration addressed either to initials or what may appear a fictitious name, and any such Registered Letter received from another office or deposited in the Letter Box for Registration, will be at once sent to the Dead Letter Office for disposal.

Registered Letter Stamps of the denomination of 2 and 5 cents may be obtained at the usual places.

Registration is applicable to Letters and Parcels, whether they contain articles of value or not. Registration is not an absolute guarantee against the miscarriage or loss of a letter; but a registered letter can be traced when one unregistered cannot, and the posting and delivery or non-delivery can be proven. A registered letter is thus secured against many of the casualties which from incorrect address, forgetfulness of the receiver, or other error, may affect an unregistered letter. "Moreover, the safety of an unregistered letter is dependent on the integrity of a post office clerk during the whole time it remains in his custody, frequently for hours and even days; whilst a registered letter will almost invariably have to be acknowledged at the moment of its passing into an officer's hands, and cannot therefore be suppressed without leaving him individually accountable for its disposal." "If the consequences were limited to the mere risk of the loss of the money so sent, the senders of money in unregistered letters might reasonably urge, that if they chose to encounter the risk, they should be free to do so; but higher considerations are involved in the question, and the chance of loss to the

careless remitter is really but the smallest part of the evil associated with the practice." The attentive perusal of the above remarks by those who are in the habit of sending money by mail in unregistered letters is strongly recommended, and is further suggested that letters containing money should invariably be secured with wax, and not by the usual method, by mucilage, or self-sealing envelope.
