UNITED STATES AND MEXICO TO WAR SHORTLY

Feared in London and Paris That a Conflict Is Imminent-President Wilson Has Called a Conference of the Foreign Relattions Committee For Tonight.

[Canadian Press.] Washington, Aug. 9 .- President Wilson will meet the entire foreign relations committee at the White House tonight for a conference on the Mexican situation. The entire membership of ten Democrats and seven Republicans vas asked to be present.

FEAR A CONFLICT. [Canadian Press.]

London, Aug. 9 .- All the newspapers this morning display the utmost interest in the situation between the United States and Mexico. Grave fear is expressed of an armed conflict, and universal comment is made on the probability that President Wilson's pacific administration, with Bryan, the world's peace idvocate, at the head of the cabinet, will be forced into war.

The general view is President Wilson's obstinate determination to force Lind will cause an anti-American outbreak in Mexico with results which will inflame the American people beyond control and compel war in spite of Wilson's principles. FRANCE FEARS WAR.

[Canadian Press] Paris, Aug. 9.—All the news dispatches from Washington, published in France, describe a rupture between the United States and Mexico as being probably close at hand. Comment on the situation is sparse. It recognizes the difficult responsibilities of the United States, and suggests that the peace policies of President Wilson and Secretary of State Bryan are likely to disappear in the presence of realities. Govt. Seeking a Camp Site.

The Toronto Globe this morning has the following in regard to the Government purchase of ground in Elgin County for military training purposes, as announced in Friday night's Advertiser:

"The Militia Department is negotiating for a large area in Western Ontario as a camp site and training ground for the militia to replace the present restricted camps at Niagara-on-the-Lake and London. It is the intention of the minister to secure an area of several square miles where tactical operations and field manoeuvres can be adequately carried on with large bodies of troops. Similar areas have already been secured near Fredericton, in New Brunswick, for the Maritime Provinces' miltia, at Sewell, in, Manitoba, for the troops of the prairie provinces, and at Sydney, Vancouver Island, for the British Columbia militia. In addition there is also the big training ground at Petawawa.

It is understood that the site in view for the new Western Ontario camp is in the vicinity of Union, in Yarmouth Township, Elgir County, a few miles south of St. Thomas. The negotiations are, of course, leing kept very quiet so as not to cause a jump in price before all the necessary options have been secured. Other sites are also in

Pay and allowances have been granted for the manoeuvres the same as at camp, and as it is the first time that artillery in the first division has taken part in operations extending over several days, and as the mimic warfare is to be carried out as nearly as posible under service conditions, It is exected that the outing will be full of the realism of the operations.

Guns Will Bivouac.

The guns will probably leave London

some time on Tuesday, Aug. 26, bivouac that night on the road, and join their respective forces early the following morning. Each force will carry its own blankets and rations, and will bivouac at night wherever it happens to be. It is not known definitely just what escort will be provided for the guns. Artillery, owing to its inability to defend itself, is usually protected by other arms, and it is likely that the commander of each force will allot some cavalry or infantry for this work.

The battery is having a parade for which are planned to take place in the drill each Tuesday and Thursday evening until Aug. 26, and all who desire to go out for the manoeuvres must attend these drills. Uniform and equipment will be issued and the guns will be fitted up in marching order, with complete equipment, just as on active

Old Talbot Property Has Been Subdivided and Will Be Called City View Heights.

Surveyors have been busy in several parts of East London, and as a right back to Oxford street and result three, and possibly four, new subdivisions will be thrown on the sion has already been opened by Mr. George Reavely. It has been designated City View Heights, and consists of the old William Talbot estate, on the west side of Hale street, about a block and a half south of Dundas. The estate has been surveyed into 72 lots, and a 66-foot roadway has been surveyed through the subdivision from Hale street, to Highbury avenue. The majority of the lots face upon this new street, upon which grading operations will be commenced shortly. A number of the new lots have already been disposed of at a price of from \$8 to \$9 a foot.

LONDON, SATURDAY, AUG. 9.

SENATOR GRONNA'S IGNOR-ANCE.

Senator Gronna, of North Dakota, gives the present rulers of this country credit for too much common sense.

The tariff bill now on the anvil in the United States Senate imposes 10 cents a bushel on wheat and 45 cents a barrel on flour coming from countries which tax American wheat and flour, but remits the duties against circle the British Empire, thus antici- was a relationship by marriage becountries which levy no tax on these products. Senator Gronna protests against this provision:

"If it is pretended that by its means the United States farmers' market for wheat will be extended. is a mere pretence and nothing

"It does not affect them. "Why, then, should the fact that we are willing to remove our duties on these products be any incentive to them to remove theirs? On the other hand, countries, which have wheat they wish to export in any considerable quantity to this country - and this consideration applies especially to Canada have no market for our wheat; they will, no doubt, very willingly remove their duties in return for our admission of their wheat free

of account, Senator Gronna's argument is logical enough. His mistake is in assuming that the Canadian Government will be ruled by ordinary business considerations. He hasn't learned that the wheat-growers' interests are not among the Big Interests which control legislation at Ottawa.

Vacation Days For Royal Kiddles In Hot Weather

Because of the warm weather Queen Helena of Italy and the four royal children hastened their departure from Rome for San Rossore on the seacoast near Pisa, where they will spend a month before going to their Alpine summer residence of Sant' Anna di

San Rossore the royal childre lead the real simple life, and they are practically in the open air from morning till night. The Queen had a small village built for them near the sea. It consists of four wooden houses in the fifteenth century style of architecture, with a well and a

The four houses have been assigned to a child each and the stable is used for their nets Princess Volanda has a cow, Mafalda a goat and Giovanna a pair of doves, while the Crown Prince has a donkey.

The houses, which consist of a dining-room, a bedroom and a kitchen, as well as their plain furniture, have been designed by the Queen. Attached to each house is a garden, which the chil

dren must cultivate. The Queen wants her children to learn how to keep house, cook, wash and attend to ordinary household duties and to grow as democratic as possible, and this explains the novel system provided for their summer

Household Hints

One of the best ways to keep the eyes clear and healthy is to give them a bath night and morning in a salt solution, using a level teaspoonful of salt

If a book gets grease spots on its leaves, they can be removed by dipping a camelshair brush in rectified spirits of turpentine and moistening the spot. When the latter is dry, moisten it with spirits of wine and the turpentine will disappear.

If the sink pipe to the drain gets clogged and boiling water with washing soda has no effect, try syringing the hole in the sink with a good garden syringe. The force of the water will clean the pipe.

One way of lessening housekeeping cares in summer is to do away with window curtains and use only shades. It saves both washing and trouble when sudden storms come and cur-

tains are apt to be soaked. Delightful scent bags or pillows may be made with any dry, fragrant leaves of flowers-geranium leaves, rose pet-

More Than 200 Nags Are Suffering From Fever at Kalamazoo don has the reputation of having several good teams, and it is likely that

Kalamazoo, Mich., Aug. 8.—Secretary V. M. Engleman, of the Kalamazoo Kalamazoo, Mich., Aug. 8.—Secretary W. M. Engleman, of the Kalamazoo County Recreation Association, under whose auspices the Grand Circuit meeting in this city is being held, stated this morning that there are 226 racehorses at the park suffering from fever, leaving only about 80 out of all the stables that

are able to race.

The indisposition of the horses first came noticeable in Grand Rapids and became noticeable in Grand Rapids and the disease, which seems to be contag-lous, has continued to spread during the present week. While none of the horses are dangerously ill, the epidemic is de-plored because it interferes with the racing of the horses even after they have recovered, for several days.

A Championship Ball Game in London in 1876

Leture loaned by Hamilton's Book Store, An international baseball match between the Tecumseh Club, of London, and the Mutuals, of Chicago. The game was a professional one, and was played on the diamond on the old Fair Grounds at the corner of Central avenue and Richmond street, on July 15, 1876. No gloves were used in those days, and the spectators instead of sitting and watching the game, stood about the field.

Wisconsin Pilcher To Join Team Monday Morning

Manager Deneau has at last been from him this morning, saying that successful in landing a pitcher for the he would start for London as soon as London team. The man is named transportation was sent to him. Boldt, and he comes from Meriden, result that a ticket was "wired" Wis., where he has made a good record. Boldt is a right-hander, and is said to be there with all kinds of stuff. Manager Deneau received a telegram morning.

Owing to the inclement weather the manufacturers' athletic meeting, to have been held in Queen's Park this afternoon, was postponed indefinitely. The modified Marathon race will be run off, however, as most of the contestants are in

BEMIS' FINGER SPLIT.

In the game at Providence yesterday Catcher Harry Bemis had a finger split and will be out of the game for perhaps a couple of weeks. Last night President McCaffery arranged with the Peterboro Canadian League club for the loan of Catcher Irving Trout, who is the property of the Toronto club. Trout will join the Leafs at once.

Another Woman Recovers. Auburn, N. Y .- "I suffered from nervousness for ten years, and had such organic pains that sometimes I would lie in bed four days at a time, could not eat or sleep and did not want anyone to talk to me or bother me at all. Sometimes I would suffer for seven hours at a time. Different doctors did the best they could for me until four months ago I began giving Lydia E. Pinkham's Vegetable Compound a trial and now I am in good health."--Mrs. WILLIAM H. GILL, No. 15 Pleasant Street, Auburn, New York.

NEW YORK, Aug. 9.—The market during the first hour receded in a leisurely manner, on a relatively light volume of sales, but towards the close hardened somewhat, though fluctuations as a whole were meaningless and failed to denote any particular trend. The decrease in unfilled orders of the Steel Corporation wa sabout in keeping with expectations, and exerted no particular influence. The persistent strength of the market during the past week has greatly encouraged the persistent strength of the market during the past week has greatly encouraged the element committed of the side of advancing prices, but still the lack of an aggressive outside inquiry is now being commented upon as it is realized that shorts have been the mainstay of the current movement, and that a new class of buyers will be most essential to the success of a further rise. That Bull in the Country

Violet and Pansy had been sent down to a country farm to get some roses into their cheeks. Their father over the root of a tree and fell flat and mother were to follow them soon. The two little girls were very anxious to show how well they could keep house by themselves. They coaxed the farmer's wife to let them go to the village alone, and make their purchases before their parents arrived.

Violet made out a long list of all the things she thought her mother would want: soap, candles, matches, salt, and, as papa had a sweet tooth, To overcome your watch troubles a large bag of sugar; but perhaps this was not all for papa, though the little girl said so.

The children got safely to the vil-

where the farmer kept a big bull. The bull was feeding quietly and took no notice of them until they were half-way across the field. Then their red frocks caught his eye, and he came toward them - first slowly, and then in a quick trot. The children by this time were running as fast as they could. Just as they were getting up to the stile, Pansy tripped on her face. The bull was only a few yards off,

and was just going to rush at her and toss her in the air. Violet, forgetting everything but the danger her little sister was in, turned and threw the whole contents of her basket at his head. When the bull felt the great bag of sugar burst in his face lowed by the candles, which hit him on the nose, and the salt, which got into his eyes, and made them smart, he was so taken back that he stood stockstill for a whole second. "The body was examined by Dr. Gilman the acting coroner's physician, and under his direction it was removed to the morgue."

Two people, among the millions who read that piece of news, were deeply interested in it. One of the two was Rice in a spare hour between breakfast and luncheon he read a newspaper. First he shook his head regretfully over the Nargansett item; but his thin, shrewd face grew bewildered when he reached the suggested solution of the Atlantic City mystery.

But the Narragansett Pier incident did not end with a woman's simple request for a meeting, "owing to the extraordinary event" that had taken place that day, and a man's curt refusal to see, or, indeed, to acknowledge anything remarkable in an action that he would have performed "for any child in like circumstances." The excuse for a scrawl, "owing to an accident," was in itself an insult. It seemed to put her completely out of his life.

Next morning the Sunday newspaper glowed with the romance of it all. "Society Sensation"—"Divorced Husband's Gallantry"—"Glaude G. Waverton Rescues His Own Child from Drowning"—the headlines blazed like comets over the land.

In the same journals, often on the same page, appeared that which dealt with another story of the sea—a story with a very different ending. It read:

Then Rice was more surprised than ever. "The address, Mr. Claude," he ever. "The address, Mr. Claude," he ever. "The address, Mr. Claude," he allower. "The Rosery, Absecon New Jersey—where Mrs. Delamar lives!"

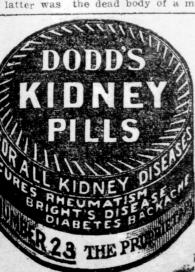

Waverton threw the newspaper on a table with a gesture of disdain. "Now if you had told me Mrs. Delamar was found in that cutter, you would have done me a real good turn," he said.

Rice could make neither head nor taid the remark, unless what he half suspected was true—that Claude Waverton was heartly tired of Mrs. Delamar, and she had brought into his life. But, in that case, why were Mrs. Waverton's timeled waver

Citizens Are Giving Every Encouragement to Special

Committee.

[Special to The Advertiser.] Ingersoll, Aug. 9.—The movement to rovide first-class hotel accommodation here is meeting with every success. The action of the committee in endeavoring to organize a joint stock company is being very favorably com-mented upon, and from the interest that is being displayed on all sides i s confidently expected that a solution of the present difficulty will soon be eached.

The businesslike way in which th ommittee has faced the situation, now that the specified time has elapsed be-fore beginning their work, has done much to strengthen feeling in the temerance cause.

The feeling has existed for some ime that the committee should ac n an endeavor to better the accommoation, but as was announced during he campaign preceding the passage of the bylaw, nothing of a definite nature was undertaken until three months had elapsed, during which the hotelkeepers had an opportunity to continue as formerly without the bar.

There seems to be a general willingless to assist the movement, and it is expected that sufficient funds will soon have been raised to put the project on sound financial basis.

Thousands of Men Required—This Year's Harvest Promises To Be the Largest in the History of Canada.

According to present indications the heat crop of 1913 will be the greatever harvested in Manitoba Saskatchewan or Alberta, thus requiring the farm laborers of the east to assist in harvesting the world's greatest bread basket.

The Governments of the respective provinces state that many thousand men will be required for this year's harvest. These will have to be principally recruited from Ontario, and the prosperity of Canada depends on securng labor promptly. The Canadian Pacific, on which company will fall practically the entire task of transporting the men to the West, is already making special arrangements for this year Excursions from points in Ontario to Manitoba, Saskatchewan and Alberta will be run and special trains operated, making the trip in about thirty-six nours and avoiding any change of cars or transfers. This will be a day shorter than any other route. Dates, rates and conditions will be announced in a few days, M. G. Murphy, district passenger agent Canadian Pacific Rail-

Would Not Attend Social Functions Because of Her Hair.

There are many women in this world. handsome in features, perfect in form. graceful of movement and brilliant of mind, who keep in the background just because they have thin, colorless and lustreless hair. In Paris they understand things

about the hair that we do not know in this country. It was a Parisian, Dr. Sangerbond, who discovered that thin hair and dandruff are caused by a microbe. It is Parisian Sage that proves Dr

Sangerbond's theory to be correct, for it is rigidly guaranteed to kill the dandruff germ and cure dandruff, falling hair and itching scalp in two weeks or money back Parisian Sage is a delightfully pleas-

ant hair dressing and invigorator; it is not sticky or greasy. It should be used freely in spring and summer as it keeps the scalp clean and cool and free Parisian Sage comes in large, 50-cent

bottles, and is for sale by all druggists everywhere on the money-back plan. "The Girl with the Auburn Hair" is on every package. Made in Canada by The R. T. Booth Company, Limited, Fort Erie, Ont.

THIS FINE OLD GENTLEMAN ANSWERED 187 LETTERS IN REGARD TO "FRUIT-A-TIVES"

People in All Parts of Canada Wanted to Know More About These Wonder ful Tablets Made From Fruit Juices-

"I heartily recommend "Fruit-a-tives" to all who suffer from Constipation and the painful consequences—Piles. I am now over 74 years old and suffered for over 26 years with Constipation and Piles, I tried all kinds of remedies, saw the doctors and took their medicines but nothing cured me. About four years ago I tried "Fruit-a-tives"—found they were doing me good. Then I procured an additional supply and was much gratified at the wonderful good they did After taking four boxes I felt well-my bowels were regular and the Piles had disappeared.

My wife was troubled for three years with Asthma, and Eczema on the hands, which made her hands almost useless. The doctor gave her several ointments to use, none of which had any effect. He also advised her to use rubber gloves (she wore out three pairs). I persuaded her as a last resort, to try "Fruit-a-tives." The effect was marvellous. Her hands are cured and the Asthma has also left her. We both attribute our present good health to "Fruit-a-tives."

N. JOUBERT, Grande Ligne, P. Q.

Whether it was the fine, honest, straightforward face that inspired confidence or the simple language, which rang true as a silver bell, that made so many people think over this letter, is hard to say, But the fact remains that one hundred and eighty-seven persons have written Mr. Joubert to inquire more fully about "Fruit.a-tives." And this delightful old gentleman who is now 74 years old—happy in his release from pain—grateful for his cure—took the time to answer every inquiry. Take his advice and try

FORTY THOUSAND MEN REQUIRED

Laborers' Excursions-This Year's Wheat Crop Will Be the Largest in THE HISTORY OF CANADA.

The wheat crop of 1913 will be the greatest ever harvested in Manitoba. Saskatchewan and Alberta, thus requiring the farm laborers of the East to recruit and assist in harvesting the world's greatest bread basket.

The governments of the respective provinces state that forty thousand men will be required for this year's harvest. These will have to be principally recruited from Ontario, and the Martain, Schoonmaker, 11:30; England, 2 a.m. Friday; Alex. Heating a Home Properly is Something More Than Raising the Temperature. The air must be pure as well as warm. The health of your family demands it. An odor of gas is not only unpleasant but is a menace to the health. Fine coal dust floating in the air is just as bad.

The HECLA Furnace is absolutely gas and dust proof. The Joints, which in other Furnaces are made with bolts and cement, are fused in the HECLA. This process welds the cast-iron and steel into a solid onepiece construction.

I Expansion and a reaction cannot spread the fused joint. Even after joints in the HECLA will be found perfectly tight. The fumes from the gire cannot find an opening. The air in the living rooms is always pure and healthful,

Apple Dealers in Western Canada. The success of apple growing as an industry depends to a great extent on the securing of a good market. It is no uncommon occurrence almost every fall for great quantities of apples to lie about nder the trees to rot or to be fed to logs because no good market is accessible. While the fruit is thus going to waste there are thousands of householders, more especially in the Prairie Provinces that are longing for fresh fruit of a sort that can be stored and drawn apon during the winter months. The difficulty of the one class is to reach buyers for the fruit and of the other to find suply at a moderate price. To bridge he gulf that separates these two classes, and thereby do both an invaluable serice, the dairy and cold storage comnissioner has issued a list of the whole ale and retail apple dealers in Manitoba Saskatchewan Alberta and sections New Ontario whose addresses were avail-These, which number about 275 dealers and firms, with few exceptions, are said to be in a position to buy at east one carload of fruit. This infornation is given in circular No. 8, of the dairy and cold storage branch, copies of which may be secured free from the publications branch of the department of agriculture, at Ottawa

London Is Lowest of All. According to figures on file in the office of General Manager Glaubitz, of ers. the water commission, London is charged a smaller rate for the use of water hydrants for fire purposes than any other city in the Province. The tabulations of the G. M. show the following table:

London \$15 00 St. Catharines 20 00 Toronto 30 00

 St. Thomas

 Brantford 40 00

Building Will Be High Building permits for August, 1913, will equal those of the corresponding month in 1912, according to Building Inspector A. M. Piper. There is approximately \$20,000 represented in the permits already issued this month, and prospects that the \$116,696 record set for last August will at least be equaled, if not surpossed, are bright. Some large permits are expected this month. Permits for the construction of the new pure milk company plant on Dundas street, near Adelaide, and other factories are also expected to swell the aggregate for the month.

Rival Smellers.

Prayers are being daily offered at the city hall that if Superintendent W. C. Dodd, of the water commission, receives the second-hand auto he has asked for, it will not smell as badly as the mayor's pet smell factory—the side of the car, but it is hardly likely on by the city engineer's department is already a rival for the smelling championship of the city, now being held by the incinerator, and the city officials want more entries in the

smelling field. Strong for Pavement. Sentiment in the council and out of It for the construction of a permanent pavement on Waterloo street south to Victoria Hospital, is growing stronger. The advantage of having a smooth road for the benefit of patients being transferred to the hospital is one that commends itself to doc-tors and humanitarians while the general "good roads" sentiment is one that finds an echo in the feelings of

Name Ex-City Hall Reporter. Carl H. Stubig, a former London newspaperman who "covered" the city hall for some time, has been nominated on the Republican ticket for mayor of Sandusky, Ohio. The primary elections in Sandusky will be on Sept. 2, and the friends of the former city hall scribe are expecting to see him go on the election ballot. Municipal experience gained around the city hall of London, Ont., should prove valuable if the aspiring newspaperman ever attains the mayoralty of his home city

Now that the Real Estate Owners' Association has taken up the labelling of city owned automobiles to prevent "joy riding" by officials on Sundays, evenings and holidays, it is to be expected

that something will be done to paint the department names on the sides of the said cars. The question has been before the "city fathers" since the first cars were purchased, and now that the ears have grown in number, it is likethat the city's monaker will be inscribed on the sides thereof. Following out the sign painting on the gar bage carts there is a possibility that the "signs" would occupy the entire incinerator, over which the Sup, is the that the letters will be as big as those Grand High Chief, Street oil being put which adorn the sides of the auxiliaries to the smell factory.

> Dog Owners Troublesome. Dog owners, who have neglected to pay their taxes are causing worry and work for License Inspector J. W. Mc-Callum and his department these days. Already a long list of delinquent dog owners have had to settle in court for he privilege of keeping a bow-wow on their premises, and several hundred more are scheduled to receive a summons to court unless they come across with the necessary license fee and get their little tag.

The London Real Estate Owners Association last night passed the following resolution:

Resolved, that whereas, the expendi-

tures in connection with our school systems has now reached enormous annual proportions, and in view of the facts as set forth in the public press, that the school board as a divided house in relation to the administration, both in relation to sections of the teaching staff, and the expenses - and whereas, comparisons with other cities have shown the costs William. On the arrival of steamers at Toronto and in our own city published returns showing that a higher per centage is obtained from the system of the separate schools-where expense is said to prevail—that this association view with alarm the situa tion, as now pictured by Trustee Di Shaw, and in view of all the condition that now surround the problem, thi association believes the best and only satisfactory solution will be to have an immediate and thorough investigation into the whole subject, so that the taxpaying public may have all facts in order to place the responsibil ity where it properly belongs.

Resolved, that this association leves all the civic autos should be designated by signs for each respect tive department. And that all those rehicles should be used for legitimate ivic business, instead of furnishing leasure outfits for the officials, and their friends on Sunday afternoons.
