Winnipeg, Oct. 10.—Mr. Justice Haggart this morning gave judgment that the warrants committing the four Winnipeg newspapermen to jail for contempt of court should be quashed and applicants discharged from custody. He ruled that Commissioner Galt in sending Edward Beck, B. R. W. Deacon, Stanley Beck and Knox Magee to jail exceeded his powers.

A Commissioner's Powers. Mr. Justice Haggart said he had heard the original application with regret but what he had learned subsequently had more than justified him in hearing it. BY HENRY WOOD.

(Special Cable to The Advertiser.)

With the French Armies on the Somme Front, Oct. 10-Despite the almost constant rain of the past ten days the Allies have methodically and uninterrupt edly continued their northeastward rush, until they have finally captured the dominating points of Sailly Sailliesle on the crest of the ridge, over which runs the Bapaume-Peronne road.

CAMPAIGN ALL WINTER. With the advent of the autumn rainy season the French are employing vast armies of men constructing permanent corduroy and macadam roads. These will permit the continuation of operations both fall and winter, and will not permit the Germans to take advantage of a winter full to re-entrench and re-fortify THE FINAL DASH.

From a point beyond Combles we saw the final dash of French and British infantry that drove the Germans from positions about Sailly. The German gunners were throwing up a solid wall of barrage fire along the tine miles' front, extending from Morval to Bouchavesne to prevent the impending attack. When the barrage reached its greatest intensity the view was entirely cut off by a curtain of bursting shells, flames, smoke and clouds of earth and dust shooting skyward. It was to see slightest detail of the attack which the officer had brought us to see.

CAN'T STOP ALLIES. Yet through the solid sheet of shell fire French and British infantry dashed with such irresistible spirit that, although the attack was merely intended to occupy some trenches facing Sailly, the troops dashed on extending their lines 1,200 yards northeast of Morval, Peronne-Bapaume road to within 200 yards of Sailly, and also position

HYGIENIC SERVICE-The combination of the self-reducing straps with the several elastic features, assures a high degree of physical support with complete hygienic safety, and the massaging effect of these features promotes the general health by removing excess fat and inducing normal circulation.

Style 322—An excellent model for the "average full figure," made with the Nemo lasticurve back, which insures flexibility and ease in any position, and the self-reducing straps, which reduce and support the abdomen. The gentle friction between the straps and the body of the wearer gradually drives away excess flesh, and the figure becomes permanently

Style 326—A similar model, but with longer skirt and lower bust; made of white coutil: Style 318-Model for short, full figures, with heavy abdomen and large back; semi-elastic incurve back confines and reduces hips and back; white coutil; sizes 22 to 30. Price

Style 319-Same construction as No. 318, but proportioned for stout figures of medium height; white coutil; sizes 22 to 30. Price...... \$4.00 pair Style 506-Model for the stout figure of medium height with full hips and back; two semielastic gores in each side in front and semi-elastic bands at back, make the skirt perfectly pliable and easy; this model produces extreme reduction of the figure below the waistline

Style 555-"Nemo Wonderlift Corset" for full figures; the hygienic features, which also produce a decided reduction of the figure, are all on the inside of the corset, so that even with the sheerest dress a perfectly smooth effect is attained; made of fine white coutil; sizes

BANQUET ATTRACTS ATTENTION FROM OUTSIDE PAPERS

Many Out-of-Town Reporters Coming Tomorrow.

SCORE OF APPLICATIONS

All Arrangements for Big Fed. eration Dinner Are Now Completed.

Outside interest in the big Ontario Federation of Liberal Clubs' banquet, to be held here on Wednesday evening, is indicated by the number of applications for press table reservations. More than a score of applications from outside papers have already been received, and in some instances provision has been made for further accommodation with gallery seats for representatives of out-

of-town papers. All the Toronto and Hamilton papers will be represented, some of them with as many as four men, and other papers farther afield are sending staff men to cover the banquet. 13:135160 the famous discoverer, used the crude essences of roots and herbs to cure a skin disease which

broke out amongst his crew. his descendant, Mr. J. Cartier of 2912 Clarke St., Montreal, has been cured of eczema by essences of

roots and herbs. These, however, instead of being crude as used by his ancestor, were prepared for modern use and put up in the form of Zam-Buk. Mr. Cartier, who is Justice of the Peace and Assistant Clerk of the Circuit Court of Montreal, says there is nothing that can compare with Zam-Buk for the treatment of skin diseases.

"Allow me to express to you my gratitude for the benefit I have derived from the use of Zam-Buk. It is the best remedy obtainable for eczema. I alweys keep it in the house as our family doctor; its healing and curative power is immense. I have no objection to your publishing my letter, as I wish everyone to know the high quality of Zam-Buk."

Following is his letter:-

The reason for Zam-Buk's superiority is easily explainable. Zam-Buk is composed exclusively of vegetable extracts and herbal essences, with none of the animal fats or poisonous mineral drugs found in ordinary ointments. Zam-Buk is thus so refined that

its power of penetration is extraordinary. This power of penetration, together with its germ-killing properties, makes it possible for Zam-Buk to reach and destroy all the germs in the underlying tissues, which is where skin diseases have their roots. This is the secret of curing skin troubles, and is why ordinary ointments, that are made up of coarse ingredients, which never get beneath the surface skin, are incapable of effecting permanent cures.

Having destroyed the germs and thoroughi cleansed the diseased parts, the healing essence of Zam-Buk promote new growth. This new tissue gradually builds itself up to the surface skin, and a complete and permanent cure is the result.

Zam-Buk is best, not only for eczema, but also for ringworm, ulcers, abscesses, running sores, old wounds, blood-poisoning, boils, piles. burns, scalds, cuts and all skin injuries. All druggists or Zam-Buk Co., Toronto, 50c. box,

[Canadian Press.]

Paris, Oct. 10 .- The torpedoing of allied steamships off American ports by German submarine forces is regarded as the most important war news of the day. Under the headings of "blackmail" and "defiance," the morning newspapers print in prominent position every scrap of news obtainable, accompanied by plentiful comment. Challenge to U. S.
The general sentiment of the press is

that Germany is challenging the United States with a conviction that the challenge will not be taken up and that neutrals must see today that they acted unwisely in not "nipping this submarine warfare on commerce in the bud." Th newspapers express the opinion that the submarine campaign off the American coast is the last touch to a situation which is becoming impossible owing t the sinking of Scandinavian and other neutral ships. Pennant Winners Battle for More Than Two Hours Through a One-Run Tie, When Pinch-Hitter and Pinch-Runner Score the Tally That Counts - Spectators Entranced by Deeds of Amazing Skill,

BOSTON, Oct. 9 .- Tearing world series records and traditions to shreds, Boston Americans defeated the Brooklyn Nationals by a score of 2 to 1 the championship and was decided only after a struggle that surpassed in situations any ever evolved in the fertile mind of a baseball fiction writer.

For, more than two hours the teams, pennant winners in their respective cagues, battled with almost superhuman skill and courage through a one-run six inches outside the foul line. Johnleagues, battled with almost superhuman skill and courage through a one-land tie. Then, with the stage set as though for the thrilling climax, a pinch-hitter and a pinch-runner won victory for the Red Sox just as twilight threw its Janvrin. Johnston's spikes tore Janvrin.

Win Hall of Fame.

While Gainer's hit, coming as it did at the climax of a remarkable game, has earned him a place in the "Hall of Fame" reserved for baseball players, there were others whose play showed the heights to which a player can rise when occasions like that of this afternoon demanded. "Hy" Myers, already a hero with his home run in the opening inning, robbed Hooper of an extra base hit in the sixth inning, with a running catch, in which he picked the ball off the grass top and finished with a complete somersault. Great praise all on the grass top and finished with a complete somersault. Great praise ell also to Pitchers Ruth and Smith, who swung through fourteen innings of the closest kind of play with a steadiess of service and pitching judgment eldom equalled.

The bout developed into a real scrap after the half-way mark had been reached, and had the boys been wielding four-ounce gloves, instead of eight-ounce pillows, there would probably have been a knockout. Brennan landed several blows in the different rounds that would have made "Fish" swim toward the bottom of the sea had lighter gloves been used.

Although both boys used their elbows, Fisher got in the most swaps, and was hissed several times by the crowd. He was the shorter of the lads, and looked to be smaller than he was by adopting the crouching attitue. He had a bagful of ring tricks, which, of course, looked pretty, but did not get him anything. He did not have the reach that Brennan possessed, and therefore did very little of the leading.

Brennan's Fine Work.

Brennan put up a good, manly exhibition, and fought fairly all the way through. He apparently did not know what a crouch was, for he waded into Mr. Fisher every trip, with his head up, and had that individual skipping out of the tight corners on many occasions. In the first round the boys merely felt each other out, exchanging a few love-taps to the jaw in the final stages of the round. The corowd applauded heartily.

In the second round Brennan landed some good body punches, after which Fisher threw him to his knees. Frankie came back, rushing the Syracuse hope to the ropes, landing to the face.

They Warm Up.

The third round was faster. The boys were warming up to the evening's work. Brennan did most of the leading, and haymaking punches were exchanged. Fisher started out strong in the fourth, and got away with some clever ducking. Frankie rushed him to the fourth, and got away with some clever ducking. The American Contraito Ida Gardner A Singer With a With the Majestic Since Her Return to This Country, Miss Gardner's Career Has Been One Continued Success.

Thomas A. Edison Wants You To Hear This Test

Friday Evening, October 13, St. Peter's Parish Hall, London

Music's re-creation! A reproduction of the human voice from the phonograph which the ear cannot distinguish from the living voice! Has Mr. Edison accomplished this miracle, at last? Come-hear this

astonishing test—and judge. Miss Ida Gardner, the popular concert contralto will be in London at Mr. Edison's request to offer you the only evidence by which you can really judge. She will sing side by side with Mr. Edison's recreation of her voice! See if you can tell, without watching the motion of Miss Gardner's lips, which is the living voice and which the re-creation.

What Is Your Judgment?

Mr. Edison insists upon this unique and daring test. For it tells more than the most vivid words can express. Its convincing frankness sweeps away all doubt. Mr. Edison wants your true judgment of his new musical art. He wants the judgment of every music lover. Has he re-created music? Has he eliminated all mechanical blemish? Has he preserved the living tones in all their reality?

He puts the original and his re-creation before you -side by side. He hides nothing. Asks no allowances. He dares to make the vital test that no one else but he has ever ventured. And he asks you to

Many famous artists have made these "Tone Tests." Read what the papers say:

"Impossible to distinguish between the singer's living voice and its recrea tion by the instrument that bears the stamp of Edison's genius." Boston Herald, Nov. 9, 1915.

The ear could not tell when it was listening to the phonograph alone. Only the eye could discover the truth by noting when the singer's mouth was open or closed. N. Y. Evening Mall, May 3, 1916.

"It was virtually impossible to distinguish between the real voice and the recreated voice of the singer." Philadelphia Evening Telegram, April

"Christine Miller herself and Christine Miller on the Edison sang side by side. The two voices were so identical that when one or the other stopped it was impossible to detect it in the audience."
