In thoughtful grace Of the dying face Is the glory of nature seen ; And the Autumn leaf, In its glory brief, Has more than its boasted green:
'Tis the highest lesson of earth's cold clime, And the soul must soar with a flight sublime, Afar from the mists and tears of time, To know what its beckonings mean.

Tis the time of hope When the buds first ope To the south wind's quickening kiss, And the teeming plain, With its waving grain, Has a burden of healthy bliss But a higher and holier hope may rise From the fading leaf, as it smiles and dies More dear than life to the truly wise Is the scene of a death like this.

## A Lament on the Death of Sir John Inglis, K. C. B.

BY M. E. H. Bear him to his resting-place, With a slow and solemn pace, With the muffled drum's low best, With the music sadly sweet: On his bier the sword and plum Seem strange trophies for the tomb. And the cannon's deep-mouthed roar,

Wake him from his sleep no more.

Warrior rest, thy labour done, Warrior rest, the field is won Hero on the battle-plain, Many a laurel thou didst gain ; Scenes of carnage, scenes of strife. Marked thy strange eventful life,-But, to-day, the heart recalls Thee, 'mid Lucknow's fated walls Lucknow! with that name shall be Twined thy deathless memory: When by savage hordes sore prest Sorrow deepened in each breast. Helpless wives and children there. Claiming still thy guardian care,-While the pestilence stalked wide, Dealing death on every side, Still thy brave and loval heart Scorned to act the coward's part : Never yielding to the foe, Though each day some friend laid low. Patient in each long delay, While hope flickered-died away Till, at length, deliverance came, And the rescued blest thy name

Proud Acadia claimed her son Boasted of her honors won,-Fondly noped, in years to be, He his native land should see : All his boyhood's haunts retrace, Gaze in each familiar face. While his country gladly gave Welcome to her hero brave

But ah, never, never more, Stall he tread our rock-bound shore : All his wanderings are done, All his victories are won; Care and sorrow, toil and pain. Now exchanged for endless gain,-Heaven has claimed him for her guest-Leave the warrior to his rest. Halifax, Oct. 20.

## Morrisonianism.

Some few years since, several Presbyterian Ministers in Scotland, who renounced the Cal vinian theory of a limited atonement, entered upon their course of Evangelism under circum stances which gave much promise of spiritua good to Scotland. The excitement connected with their secession from Calvinism—the novelty of their teaching in presenting the doctrines of free salvation, and their fervid zeal for the him to all who knew him ; so loving and obedient conversion of souls awakened the attention of lumbering hundreds—so that converts were gaters, so obliging to all. There is but too great reason to believe that, in escaping from the dogmas of Calvinism, they have run into the opposite extreme of Pelagianism. Their views with regard to the Holy Spirit's operatious upon the human heart, and also in reference to man's natural ability to comply with Gospel requirements, seem to us at variance with the doctrines of grace, as taught very distinctly in Holy Writ. Evangelical Arminianism maintains the doc-

trine of man's total apostasy—the corruption of man's whole nature—but equally holds that the the faith that saves in a mere act of the undergracious power necessary in order to gospel obe- standing; and that, consequently man has na dience has been procured by the all-sufficient merits of Christ —that man's salvation is wholly put in the lecture on the proposition—"The of grace—meritoriously through Christ alone, doctrine that man is unable to believe the Gospel of grace-meritoriously through Christ alone, efficaciously by the mighty energy of the Holy when he hears it is incorrect, and proves a stun Spirit, conditionally and instrumentally in the exercise of repentance towards God, and faith in adduced in support of this are exceedingly plauour Lord Jesus Christ, in the use of that power before referred to as entrusted to man, by which he is capacitated as a moral agent to accept of to believe what God has said? "With the heart man believeth unto anconverted men are called to repentance, and righteousness." We certainly have power to that God commandeth all men everywhere to give credence to what God says-our under repent. And so also, when they speak of man, dead in sin, as being utterly incapacitated to make any movement towards goodness, that he evil, we cannot of ourselves exercise it, and do must remain in utter moral separation from Deity until. irresistibly, and without any movement whatever on his part, he is brought into spiritual being, thereby losing sight of man's be brought to trust for mercy in the God whose altered position as an object of redeeming love, justice condemns him. case, for had they been faithful to their mission in proclaiming evangelical truth in general, in ection with their explicit testimony in faour of free salvation, they would doubtless have been greatly honoured of God, and rendered instrumental in accomplishing a great work in Scotland and elsewhere.

A great truth is that taught the Corinthian Church by the Apostle Paul, "No man can say that Jesus is the Lord, but by the Holy Ghost," a truth beautifully paraphrased by Chas.

That Jesus is the Lord, Unless Thou take the veil away, And breathe the living word Then, only then, we feel Our interest in His blood. And cry, with joy unspeakable, 'Thou art my Lord, my God!

We have been led to this train of thought h n article of some merit which appeared in cent number of the Methodist Recorder, head ed New Theology, bearing upon Morrison views of doctrine, and which we append. We remember hearing Gavazzi once, speaking

of the changes in the government of nations, powerfully illustrate his point by the simile of spring pressed down to the earth by some heavy weight. If that weight be removed, the spring will not only regain its erect position, but be forced by its elasticity to strike the ground on the other side. History abounds with illustrations of this principle. The religious rigour of Cromwell's day was succeeded by the unbridled cence of the reign of the School of Charles. France leaped from democracy to imperialist We have a new illustration of this principle i the case of a sect which has risen in Scotland and whose peculiar views in some quarters appear to be making progress. Scotland has been long known as the stronghold of British Calvinism. The peculiar tenets of the German Reformer appear to have taken hold of the popula mind, and we meet with perhaps more ultra-Calvinism in Scotland than in England. This has been the case for years; but there are not wanting signs of a reaction. We speak now of ruished who hold views the very antipodes of Calvinism. In man's salvation, the followers of Calvin attribute everything to the sovereignty of God; Morrisonianism nearly all to human action. Morrisonianism that he can do all things. The truth lies between the two. But there is danger on either hand : and to be safe we must be ever on our guard. The sect alluded to, though small, s distinguished by the zeal by which its tenets are spread. Great use is made of the press, and ts publications are widely scattered abroad. The error contained in these books is all the more langerous because mixed with truth, and placed before the reader in a somewhat attractive form. Some of their books have run through many editions in a comparatively short time. We have before us now a little manual of directions to seekers of salvation, entitled "The Way of Life made Plain: being Twelve Lectures on Important Propositions, by John Kirk." The opening chapter discusses the universality of redemption, and brings out with great clearness the truth that Jesus died for all. On the same subjemuch that is excellent is said in succeed chapters. But, on the other points, there is evident opposition between the teaching of "The Way of Life" and that of the Word of God. Repentance is spoken of as a mere change of godly sorrow, which worketh repentance salvation not to be repented of," is an emotion far from desirable. "Up to the moment at which you see eternal life for you in Christ Jesus, all your sorrow for sin is selfish, godless, and soul-ruining, working death." ("Way of Life," p. 51.) This is in strange contrast to the teachin of Peter, who exhorts awakened men-m whose minds were changed, and who were asking

What must we do?-to repent, that they might receive the Holy Ghost. Another and more serious error in this new theology, is the view that tural powers of belief. We find this view plainly bling-block to the unbeliever." The argument sible. We can believe the word of a good man without assistance; why should we need help saving faith only an act of the understanding But throughout the Scriptures the faith that brings salvation is described as a work of the standing can do that; but saving faith being moral act, and our hearts naturally altogeth therefore actually need "help to believe." The natural effect of penitence is despair; and it is only by Divine power that a convicted sinner can necessity for faith shown, he is constrained to belief!" It follows hence that it is not improper

To the Editor of the Provincial Weslevan

DEAR SIR,-We left your readers last week by the River St. John. It is our design now to conduct them to the end of the journey, a description of which was our chief object in commencing these letters.

The Circuit now known upon our " Minutes as Jacksonville, takes its name from a scattered this locality we now directed our journey. From we had scarcely one dull meeting. The meet evidences which met us by the way, we deemed have already heard, as worthy of a visit. Forty-five years ago there was but one house in Woodstock. It now numbers 3000 inhabitants. Thirty years ago, Father McNutt (we hope he will pardon this introduction of his name to the public) was considered rather Quixotic for attempting to introduce Methodism above the borders of Fredericton. He formed the nucleus of what is now five Circuits, worked by six regular ministers; and these have already given several vouths of promise to our ministerial ranks. With a rapid advancement of agriculture and intelligence in this most fertile country

The surrounding country had been jubilant ew months ago over the completion of the St Andrews Railway. This fact we rememberedby it we profited. Taking suitable conveyance we overtook the down train. One locomotive. one passenger car, and—to form a respectable listinction between these-one luggage-car formed the travelling cortege. The first half of our journey was tediously slow; but a larger engine came to the rescue. Looking out into the dreary night, we could only distinguish an ccasional tree flitting past like some airy phanom, to indicate the increased ratio of our advancement. It was evident, however, from the wicked tugging of that powerful engine, that we were performing no sluggish work. The wild thing seemed to have gone mad. Sparks of fire flew from the rails, as joints and wheels clattered in most deafening confusion, only interrupted by an occasional fierce scream from the engineer's whistle. We could have patted that old loconotive with thankful palm as it puffed its closing half-mile toward the St. Andrew's station, coughing and heaving like an exhausted war-horse.

"The Railroad Hotel" said a gratuitous ad viser to us " is a tip-top affair." Thither we of ourse bent our weary steps; but alas for our expectations! Our host, who for whistling proensities was a very Jack Falstaff, failed to inuse his cheerful spirit into the surrounding circle. Fire and guests and tea-table frowned most gloomily. Was it Dr. Johnson who wrote the em on the joys and comforts of " mine Inn P He certainly never wrote it in our Inn.

St. Andrews, as we perceived in the morning from a slight elevation, is a city in embryo. It is laid out in squares—the streets wide and reguiar. The appearance is that of a number of illages in immediate proximity, arranged with some regard to system. When properly filled up, the city must number among the prettiest in the Provinces. Our garrulous host was in the midst of his six reasons for the present backwardness of the place : but the impatience of his hearers arrested the declamation.

We were on board the Queen -a dashing little river steamer-by 9 o'clock, en route for Eastport, Maine. In her early life Mrs. Owen provided herse with a small, neatly bound blank-book, which she designed as an autographic album, in connection with the record of religious or friendly sentiments. This volume now lies before me. On its pages I find the autographs of some of the most illustrious names of Methodism-

and I propose in this article to review this book, and to add whatever reflections of a biographical or historical nature its perusal may suggest.

On the first page of this memento is a scriptural quotation from the conclusion of the 72d Psalm, in the handwriting of Rev. Robert Newton, D. D., who has been justly estimated by Dr. Stevens to be "the most effectively popular preacher of Methodism since the days of Whitefield." The record was made on May 10, 1826. during Dr. Newton's second term at Liverpool. and while attending a missionary meeting held that year in Bristol-a work in which he ardently engaged, and for which he was deservedly and videly distinguished. Appended to the date, and also written by him, is the following explanatory sentence: "Nearly noon of night after the Missionary Meeting." After a half-century of ardent and successful labor, and after having four times been elected to occupy the place of John Wesley as President of the British Conference, he was ultimately released from toil on the 30th of April, 1854.

I turn'd me from the crowd, and sought the place Where rest the Fathers of the living race; Howe'er, whilst they were living, they might roam, Their wanderings over, here they find their home; They and their Fathers rest. But, Where are they, The souls who tenanted this breathless clay? Once breathing dust, whose records here I see, Who erst inspired you, whither did they flee In that expected, yet that dreaded day, When Death his summons issued;—Where are they? I ask in vain—of all beneath who lie, Not one can to my anxious search reply. I look above—I ask—Oh, where are they? The voice of Truth replies: Go thou thy way—"Thy end approaches, and thy heaving breast, With all who lie beneath shall rest.
They lived—they died—were wept—and unforgot;—

GOLD NEWS .- The accounts from the mining districts continue decidedly encouraging. 409 tons of quartz have been raised at Sherbrooke. 219 of which have been crushed and yielded 515 ounces of gold. This amongst 216 men at work gives \$45 per month for each man. But many of these were engaged in prospecting, sinking shafts, &c., so the average amongst actual miners is much greater. We learn that 12 ounces of gold were brought us from the South Lead at Tangier on Monday, and on Tuesday 30

ounces from Sherbrooke.

The Sun states that the Oriental Company at who fell in South Africa, and who was himself a 43 ounces pure gold from the McKay lead which were sold in this city at \$19 75 per ounce

About one o'clock half a dozen officers came to the door and asked to have some coffee made for them, offering to pay liberally for it in Confederate scrip. After concluding a treaty with them on behalf of the colored servants, coffee was promised them, and they then asked for a little bread with it. Mrs. Goodwin placed Charley beside the farmer, who began carving a round of beef, putting some slices on every one's plate. Now Charlie had been taught that it was right to ask a blessing before eating the food which a gracious God provides, and sometimes, when his father was beent from home, his mother taught him to repeat a short prayer which she had learned when a girl. When Charlie saw that farmer Goodwin forgot this duty, he touched his arm gently, and

'May I ask a blessing, Mr. Goodwin?' The farmer dropped his knife and fork and bowed his head, while the boy reverently folded his hands and closed his eyes, repeating the sim-

That Dr. Ayer's medicines are entitled to public confidence and are of real virtue, our own experience teaches, at least so far as his Sarsaparilla is concerned, and in his case we are disposed to judge all by one. My little boy had for two years a running. loathsome and spreading sore on his face which finally covered almost the whole of it; eyelids so swollen he was almost blind. A skillful physician gave him Calomel, Rhubarb, Dovers Powders, all without benefit. Lunar Caustic even was applied which turned the mass of corruption a jet black but all without benefit. Lunar Caustic even was appli which turned the mass of corruption a jet black b of tracts, the instruction of the young, or visiting the sick.

which turned the mass of corruption a jet black but did not prevent the sore bursting out a fresh. Finally he became so bad that for two weeks he was not premitted to lie down or put his hands to his face, to prevent his irritating it and everybody through the must die. Ager's Sarsaparilla was used and with happy effect; two bottles cured the sore completely. He is now healthy and his face is free from scar; as fair and smooth as any childs. After making this statement we need not assure our readers that we hold Dr. Ayers Sarsaparilla in high
