

What Society is doing. We do not need to borrow our trouble from tomorrow. We'll find enough to worry us before we're through to-day.

We do not need to ponder on what we left back yonder. Back yonder on the blotted page that tells of yesterday.

We should recall the gladness and not bring up the sadness. But let the sorrow that we thought were ours on yesterday.

To-day will have its fretting, but let us go forgetting, and let us walk along the way.

SUNDAY SCHOOL LESSON

LESSON FOR AUGUST 18

SOME ACTIVITIES OF THE PRIMITIVE CHURCH.

LESSON TEXT—Acts 2:42-47; 4:32-35; 6:1-6.

GOLDEN TEXT—Enter into his gates with thanksgiving, and into his courts with praise: be thankful unto him and bless his name.—Psalm 104.

DEVOTIONAL READING—Psalm 132:1-4.

ADDITIONAL MATERIAL—Mark 16:7; Acts 19:33; 1 Corinthians 12:12-28; Ephesians 4:1-16.

1. The Church Worshipping (Acts 2:42-47).

As the result of Peter's preaching at Pentecost about three thousand persons confessed Christ in baptism. That conversion was genuine is evidenced by the fact that they devoted themselves to the apostles' doctrine (v. 42).

Continuance and steadfastness are infallible proofs of the genuineness of one's conversion. They not only were steadfast, but they kept themselves in the school of Christ—came regularly to the meetings to be instructed by the apostles. Christians cannot grow unless they feed upon God's word. Trashy novels and story papers will not make Christians grow. The "sincere milk of the word" is essential to growth (1 Peter 2:2).

2. Kept themselves in the fellowship of the apostles (v. 42).

This doubtless means that they attached themselves to the church and sought the friendship of Christian people. Christian growth is helped by association with Christian people, not by isolation from them, who expect sanctification in seclusion will be doomed to disappointment.

3. They went regularly to the communion table (v. 42).

In the "breaking of bread" they symbolically fed upon Christ. True worshippers will not neglect this means of grace.

4. They went regularly to the prayer meeting (v. 42).

Prayer is the very breath of soul growth. It is as necessary to spiritual life as breathing is to physical life. The result of such life is:

(1) Wholesome unity (v. 43). (2) A powerful ministry (v. 43). Many wonders and signs were done by the apostles. (3) Mutual ministry (v. 44-45). Those who give themselves to Christ are large-hearted and generous, giving of their substance to help the poor and needy. (4) A constant worship (v. 46). One who worships (v. 46). (5) Gracious influence among the people (v. 47). (7) A perpetual growth (v. 47). Where such genuineness is manifest there will be growth. The Lord added to the church daily—there was a continuous revival.

The Church Witnessing (Acts 4:31-35).

Notes the characteristics of a witnessing church:

1. A praying church (v. 31).

For every want and every need they betook themselves to God in prayer.

2. A united church (v. 32).

They were of one heart and one soul, united in the one body to the one head by the holy spirit.

3. A charitable and generous church (v. 32).

They held nothing back from those who had need.

4. Its membership possessed unblemished characters; great grace was upon them all.

5. The Church Overcoming Difficulties (Acts 6:1-6).

Out of the beautiful fellowship of this early church grew a peculiar difficulty. Among the Greek Jews there came a feeling that partiality had been shown in the distribution of funds. The difficulty was recognized at once and properly dealt with. The apostles refused to allow this to divert their ministry, so they proceeded with the initial organization in the church, the appointment of deacons. We have here set forth the qualifications of those who are to look after the business end of the church.

1. Good report (v. 3).

It is highly important that even the business affairs of the church should be in the hands of honest men. The church cannot afford to appoint men of doubtful reputation to do such work.

2. Full of the holy spirit (v. 3).

The temporalities of the church should only be entrusted to spirit-filled men.

3. Full of wisdom (v. 3).

The highest wisdom is required in the handling of the business side of church life, and this should be done by men other than ministers. Ministers should give themselves to prayer and preaching.

Bible and Education.

Men cannot be well educated without the Bible. It ought, therefore, to hold the chief place of learning throughout Christian lands, and I do not know of a higher service that could be rendered to this republic than the bringing about of this desirable result.—E. Nett.

If you enjoyed "Margaret's Career" and "The Wives," by the same author, even more. It starts to-day.

DANGER LURKS IN EVERY ONE OF US

We Are As Full of Deadly Poisons As A Germ Laboratory.

AUTO-INTOXICATION OR SELF-POISONING

'FRUIT-A-LIVES' Absolutely Prevents This Dangerous Condition.

The chief cause of poor health is our neglect of the bowels. Waste matter, instead of passing from the lower intestine regularly every day, is allowed to remain there, generating poisons which are absorbed by the blood.

In other words, a person who is habitually constipated, is poisoning himself. We know now that Auto-intoxication, due to non-action of the bowels, is directly responsible for various Kidney and Bladder Troubles; that it upsets the Stomach, causes Indigestion, Loss of Appetite and sleeplessness; that chronic Rheumatism, Gout, Pain in the Back, are relieved as soon as the bowels become regular; and that Pimples, Rashes, Eczema and other Skin Affections disappear when 'Fruit-a-lives' are taken to correct Constipation.

'Fruit-a-lives' will protect you against Auto-intoxication because this wonderful fruit medicine acts directly on all the eliminating organs. 50c. a box, 6 for \$2.50, trial size 25c. At all Dealers or sent on receipt of price by Fruit-a-lives Limited, Ottawa.

County Council Meets Next Week—News From Simcoe

Simcoe, Aug. 17.—(From Our Own Correspondent)—In response to a circular sent out early in the week from the office of the secretary of the County Patriotic Association, at the request of the business manager of the Ontario branch of the Navy League, some thirty prominent citizens met at the county building here yesterday to hear Mr. King of Toronto, and to discuss the question of Norfolk's contribution to the British Navy Bulwark of Freedom.

Mr. King stated that the 20,000 merchant marines of the summer of 1914 were increased to 100,000 on the outbreak of war and now numbered 300,000, though 15,000 serving in the auxiliary fleet have lost their lives. These men face all the dangers of the sea with meagre defensive weapons and up to the present the home government has made no pension allowance for them or contribution to their dependents. For this and for the maintenance of coastal hospitals and for the fostering of the marine spirit in some of Canada's youth by placing training boats on the lakes water was required. This was the war aspect of the league's work. The United States has recently opened its eyes to the fact that for decades the nation has dwelt in safety under the protection of Britain's fleet, and now acknowledges that this fleet has made it possible for the republic to engage in war with the Hun.

The Peace Aspect. Merchant marine development will continue in days of peace and it is well to be astute now. The Educational Aspect. At present a school text book calculated to let the young Canadians know what the Empire's fleet is in strength, its influence, and in protection and development of commerce is under way, and has the sanction of the Educational Department of Ontario, and will inform young and old as to the power of the Empire's marine.

League Wants a Million. The speaker said that the League's program called for a million dollars and Ontario's allotment would require 50 cents per capita of population in Norfolk, or about \$13,000. He thought that not too much in view of the fact that rural Ontario found a market for produce through the fleet of the Empire.

Senator McCall Leads. His Honor Judge Boles threw the meeting open and Senator McCall was the first to rise. He endorsed the movement and would assist in any way he could. He thought \$13,000 too much for Norfolk, but dwelt on the necessity of alluring some of Canada's sons to marine life.

Col. Atkinson and others followed and the meeting got down to ways and means. House to House Canvass Unpopular. The two methods of contribution supported by many speakers were: (1) Straight grant of County Council.

(2) Grants from councils of minor municipalities, on the basis of equalized assessment. The latter method met with most favor, but how to set the question before the municipalities brought out some debate. Finally it was decided that the Council be requested to call on the municipalities for a special session and either make a grant or pass the matter down to the minor municipalities.

The sum which found most favor was \$7,115, which is half a million the dollar, equalized assessment, and this figure out for the various municipalities thus:

For Wider Publicity. It was strongly advised during the discussion, that when such topics of county wide interest are brought before the public, the entire county press should be used to elicit support, by laying the matter from its inception before the entire electorate simultaneously. This is money area to get the erroneous idea that every project begins in Simcoe, while the origin is from outside the county.

The gathering yesterday was quite representative, although only four or five county councillors were present. We noticed in the meeting from outside points, Editor Harding of the Port Rowan News, Hon. J. H. Duck, Joseph Criddle, R. Criddle, John Cose, A. G. Duncombe, D. W. White, Ed. Blakely, R. Wallace, T. HE WANTED TO BE LOCKED UP. And Nearly Got His Wish—Family Quarrel in Simcoe Court

(From our own Correspondent). Simcoe, Aug. 17.—"Look me up or I'll shoot that woman," said Chas. Phillips, of Bonny Heath Farm to Magistrate Booth, about to leave the court room after the magistrate had disposed of a case of assault preferred by him against his daughter-in-law.

The sitting was the outcome of a fracas between the couple, resulting from incompatibility in a household containing two families, father and son-in-law living together, having all in common, even to the daily newspaper, and dividing profits. And both of the principals in the action were with difficulty kept down to proper ethics. The final ejaculation was only one of the brain storm type of which Crown Attorney Booth opined were quite common about Bonny Heath.

Reports of a heavy pack of salmon published late last week cannot be confirmed, and there is no reason to believe statements published in the Canadian Grocer will be in fact from the facts in this connection. The amount available for domestic use may be curtailed to comparatively small amounts should the Dominion government commandeer a proportionate amount to that taken by the United States government.

Licenses for the import of prunes and peaches are being granted by the authorities at Ottawa, though it is indicated that orders are being cut down to some extent where purchases appear to be too heavy. Distribution on an equitable basis is being aimed at by the Food Board, and supplies for Canada may be expected to work out on this condition.

Montreal—Markets are firm for the most part. Some lines of canned goods are still selling on the old basis, and in view of the outlook for fruits, such favorable quotations on old pack goods are available.

Molasses promises to hold with a steady price basis, and some think higher prices will be named as time goes on. The new salmon prices just out have shown considerable advance. At the new prices it is expected there will be a good sale for prunes. Corn will be steady light, while the promise is that tomatoes will be a good yield.

Trading markets still are strong, with tea quiet from a retail standpoint, but with a heavy buying movement. Few changes are registered for the week, devilled crabs, lobster paste and raw sugar crystals, with a 10c advance for Canada Sugar Refiner's sugar being the only revisions.

Toronto—Cereals as applied to corn products show an advance during the week. Cornmeal is up from 15 to 40c per 98-lb bag, and white corn flour from 20 to 22c for similar quantity. Corn is reported very scarce, and hard to get, and of very poor quality.

High prices continue to rule on fresh fruits and vegetables. Blueberries and black currants are higher, while deciduous fruits from California show no declines as yet. Tomatoes took a sharp advance, and supplies during the week are comparatively light, but are fairly high, but freer offerings in another week or two will tend to lower prices.

A distinct improvement in the demand for tea is reported. Indications are that stocks are pretty well cleared up in jobbers' hands, and reorders are now in order. Good supplies are available, though fine teas will show a scarcity until new crop arrives.

Opening prices on jams as a whole have been withdrawn, and new quotations available in some sources point to further sharp advances in both strawberry and raspberry. The government requirements may absorb a large percentage of this season's pack seems possible.

Sugar shows no easier feeling. Supplies are scarce, and it is thought to become more so. An advance of 10c in Redpath sugar has been recorded, while the freight differential now being worked out will mean higher landing costs to the retailer.

Winnipeg—The trade here all expect that licenses will be issued to importers of prunes and peaches—at least they are advised to that effect by the Board of Ottawa. The report that no prunes or peaches would be allowed into this market caused a temporary flurry which had the effect of upsetting calculations materially. However, in spite of the turn in events, it is thought there will be a shortage of prunes, as there is only 65 per cent of last year's crop, and seventy million pounds have been commandeered by the government.

The apricot market jumped two cents following the report that the government had commandeered prunes and peaches. New evaporated apple prices have been named and are about on a level with present prices, and it is pretty well understood by everybody in the trade that the tea market is very firm, and that some of the well-known tea packages are likely to advance before very long. Brokers state that it is merely a question of time when this will take place.

They seem to agree that tea is a good buy at today's price. Brokers state that there is not likely to be much change in the rice situation until the new crop reaches Vancouver.

early next year. Jobbers in Winnipeg are pretty well stocked up on rapeseed, and as there is no change in the primary market there is not likely to be much change in the price to the retailer.

One of the large sugar refiners is off the market in Manitoba. The tendency for sugar seems to be upwards, and that seems to be the feeling among the trade. Sugar in Winnipeg is going out as fast as it can be gotten.

### LANDED SAFELY

Mr. and Mrs. O. Myers have received a cable from their son, Pte. Earl Myers, announcing his safe arrival in England.

### THREE TRIPS

The motor ambulance made three trips yesterday removing patients from various parts of the city to the hospital.

### FEW APPLICATIONS.

Very few applications have been received by the civic fuel depot for coal as yet. Not more than a hundred citizens, at the outside, have yet placed their orders.

### PARIS CASUALTIES.

The names of two Paris men appear in this morning's official casualty list. Pte. Walter Bradbury has died of wounds, and Pte. Fred Hodder is wounded.

### TO TAKE ACTION.

The city clerk has received a communication from the Accident Insurance Co., notifying the city that action will be taken immediately in regard to the claim of damages preferred by Arthur Harp.

### THE MARKETS.

Green corn was in evidence on the market this morning, and met with a ready sale. Early apples were also in demand. Cucumbers and other vegetables were also on sale.

### SAVING COPPER.

No more striking example of the importance of conservation could be given than that contained in a report of the imperial commission board. In making the turnings on the copper bands of shells produced in Canada for the British ministry of munitions a large quantity of copper scrap is accumulated. This is refined and cast into ingots. Up to date 10,000 tons of copper has thus been reclaimed, representing a value of approximately \$5,000,000.

Steel scrap is also being continuously recovered in large quantities. The present annual value of which is approximately \$5,000,000.

### PRICES STILL RISING.

Upward movements in wholesale and retail food prices were again recorded by the Labor Department during July. In wholesale prices the increases were chiefly in dairy products, fresh and canned vegetables, textiles and lumber. There were decreases in fodder, live stock and eggs. Retail prices increased in meats, eggs and potatoes, with slight decreases in milk and dairy butter. Coal, wood and coal oil and rent showed slight increases.

The index number of wholesale prices for July reached 234 as compared with 230.6 for June and 242.6 for July, 1917. The cost of a weekly supply of food at the middle of July averaged 13 in some sixty cities, as compared with 12.77 for June and 11.62 for July 1917.

### ON LEAVE.

Pte. Fred Wagg of the mounted section of the Canadian Engineers is home on leave for a few days before leaving for overseas.

### COUNCIL MEETING.

The coming meeting of the City Fathers that has been postponed so often on account of not having the toll road question ready, will be held on Monday, August 26th.

### BIG MARKET.

There was an exceptionally large market this morning and those who turned out received good value and variety for their money. There was an abundance of corn, which sold for about half that asked last Saturday.

### WOMAN SENTENCED.

A Brantford woman, twice ordered out of town here, was sentenced to six months in the Mercer Reformatory when she appeared on a charge of vagrancy in Preston yesterday. Her child was turned over to the Children's Aid Society.

### HIT BY VICE.

While carrying a heavy vice, John Doan, an employe of the Pratt and Letchworth Co., last night fell over a box, the vice falling upon his back, which it cut badly. Although his back was badly cut and strained, the unfortunate man was able to continue work after a short rest.

### PRESENTATION.

The Staff of The Expositor today presented Miss G. I. Connell with a handsome gold pin set with pearls, on the occasion of her departure from the office. Miss Connell leaves shortly for Toronto, where she will commence nursing, training at St. Michael's hospital.

### MAPLE LEAF CLUB.

The Maple Leaf Club of Bessie Place met at the home of Mr. and Mrs. Wallis. The members spent an enjoyable time on the lawn and in the house, where light refreshments were served. The gathering was kept in the best of good humor by the ready wit of the host. Before departing a vote of thanks was tendered to Mr. and Mrs. Wallis for the enjoyable evening spent by all.

### WOOL SITUATION UNCHANGED.

By Courier Leased Wire. Boston, Aug. 16.—The Commercial Bulletin to-morrow will say: The domestic wool situation is unchanged, except for the announcement of the Government that the fall clip of mohair is to be requisitioned. It is expected that the manufacturers will have representation in the future on the valuations committees. Supply of civilian fabrics are reported sufficient for a year following the canvass of the Government, but the supplies of raw material for civilian work are likely to be very limited for some months to come.

### TAKE STRIKE VOTE.

By Courier Leased Wire. Winnipeg, Aug. 16.—At the regular meeting of the Trades and Labor Council last night resolution was unanimously adopted calling upon all affiliated locals to immediately take a strike vote and on the vote being ascertained and providing that it is in favor of a strike, a date will be set, and an ultimatum served upon the provincial government demanding the withdrawal of the injunction issued by the Manitoba court, otherwise all organized labor will cease work.

Mr. and Mrs. J. W. Pearce and Miss Ada Rounds have left for a two months' trip to the West, where they will visit Mr. and Mrs. G. Pearce in Winnipeg, and Mrs. Garmen in Saskatoon.

### MADE CONCESSIONS.

By Courier Leased Wire. London, Aug. 17.—Germany has made concessions to Austria on the Polish question in consequence of the strong stand taken by Emperor Charles and the Austro-Hungarian Government, according to information received by the correspondent of The Daily Mail at The Hague to which The Mail gives much prominence.

Worth Over \$600 an Acre. Nowhere are allotment prospects so bright as in London is the opinion of Mr. Gerald W. Butcher, superintendent of the Yassau Land Cultivation Society, whose plot holders last year raised \$60,000 worth of crops on 500 acres of land.

Neatness, method and systematic cultivation are the chief characteristics of the new allotments in London, he says, and they compare very favorably with the older allotments outside London and in the provinces. In the London district, said Mr. Butcher, the society gives preference to people with large families and to discharged soldiers who want to cultivate a bit of kitchen garden. Mr. Butcher estimates that allotment holders throughout Britain will this year produce £15,000,000 worth of food.

Walking Is Safer. Kiddies' express wagons, roller skates, roller coasters, pushmobs and all other such vehicles of joyous childhood are now banned from the sidewalks of Hamilton.

## PEOPLE OF WESTERN SIBERIA NEED GUNS AND AMMUNITION

### Entente Considering Means of Dispatching Weapons to New-Found Allies

### MOVEMENT SPREADING

By Courier Leased Wire. Washington, Aug. 17.—The pressing needs for arms and ammunition by the people of western Siberia who have arrayed themselves against the forces of German and Austrian prisoners and the German influenced Bolsheviks is being considered in the Allied capitals, according to information received here to-day. The answer of the Allied nations to this appeal has not been disclosed, but it can be stated on high authority that the United States government is anxious to be of whatever possible assistance.

The people of western Siberia, with the aid of the Czech-Slovaks, proclaimed their independence on July 14th. They are reported to have thousands of well trained and local troops who only need equipment to begin active resistance to the Germans. The people have never accepted the surrender to Germany under the Brest-Litovsk treaty, and have refused to permit the Bolsheviks to strip from this district millions of tons of supplies that are stored there. Most important of all, however, are the mines of the Ural Mountains, that the government of western Siberia control. These mines produce more than ninety per cent of the platinum of the world. There is also gold and copper and other materials much needed in the conduct of the war. In another part of the country are extensive coal mines, the operation of which, as is known, is being consistently maintained by the government.

Propagandists at Work. Amsterdam, Aug. 17.—Sixty propagandists belonging to labor organizations supporting the Bolshevik regime, have left Moscow for the front, where the Bolsheviks are fighting the Czech-Slovaks, according to a Moscow telegram by way of Berlin. The object of the propagandists is to stimulate the military spirit of the Soviet troops in their campaign. Addressing the delegates in a farewell speech, says the message, the state of which is given, Premier Lenin urged them to the utmost efforts to raise the spirits and morale of the troops to the highest level and thus bring a swift suppression of the Czech-Slovak movement. "You must imbue them with the consciousness of the danger and the need of every honorable man supporting the Soviet Republic," Lenin is quoted as saying.

ARTISTIC INCLINATIONS  
In a child, Ruth had evinced a love of the beautiful—in surroundings, in clothes her taste was sought by her when making any changes in a colonial house or its furnishings. Her house still remained much as it was, but with a veranda on the side, and a sleeping porch, but about the only changes. But the house had been altered, redecorated and furnished, until now it was the most luxurious home in the city. Mrs. Clayborne had given a free hand in the renovation of the house, and these rooms were the result of her taste. Ruth had studied the work of the best decorators, and had wisely enough to take from them what was adapted to the old architecture; these ideas she combined with her own, and the result had been really a most artistic and luxurious home for herself and her family. She loved to the rich stuffs of which the dresses were fashioned—the tapestries, the silks and laces which she allowed to order. Her own room was a tiny sitting room, bedroom and bath were done in palest rose and white. The rugs had great sprawling designs of wild roses woven in the draperies were of rose and blue silk and lace, with the bed to match. The furniture was of the best, the desk of rose-wood, the bureau all appropriate to a young girl, yet not too many—as would have the case with many girls who allowed to have whatever they pleased. The other rooms, too, were artistically and appropriately furnished. But in both her own and her private apartments, she had her ideas of beauty of color and material full sway. # HAMILTON HAMMERED SEMI-PRO'S

New League Team Won Last Night's Game by Score of 10-3.

LOCALS OUTPLAYED Visitors Put Up a Superior Brand of Ball Throughout the Game

Patsy Donovan's orphans, benevolently adopted by the ambitious city of Hamilton, may be tall-enders in the New League, but when they blew into Brantford last night they demonstrated that however many classes of baseball ability there may be in that organization, they are all more than a little above the brand which is served up here. In an eight inning encounter the visitors defeated the semi-pro team 10-3, hitting and scoring practically at will throughout the entire game. This, too, after having played Buffalo in the afternoon, and having made the trip here by auto afterward. Their superiority was never in doubt after the opening of the game; the locals put up a good brand of ball, as they have always done, but they were simply outclassed by the ex-Syracuse men. The team which took the field was not the regular club, either, for it boasted three pitchers on the roster, all of whom languidly disposed themselves in the box for a few innings.

The visitors picked their first run off a Christmas tree in the first inning, when Ray's fly to right centre bounced off Kaufman's glove and dropped over the fence. They contented themselves with going slow until the fourth, when Eckstein and Bernhardt each got a two-bagger out of his system, notching another hit. Brantford scored in the fourth when Sears started after Mitchell and Kaufman had walked.

Hamilton really commenced to show speed in the sixth. Weaver led off with a triple. Alchelle singled and Turner hit for two bases. Carroll followed with another single, and when the dust had subsided, Mitchell's three-bagger and Kaufman's infield out added another for Brantford.

Danny Burke started the avalanche which netted Hamilton five runs in the eighth. With one out, he booted Shear's grounder; Ray doubled, Carroll took one of Allen's fast ones in the shoulder blade, Page, Eckstein and Weaver singled; net result, five runs, and one goat, the property of Brantford sent-ones. Murphy, a Buffalo lad, imported for the occasion, who played first for the locals, lifted the ball over the fence in the eighth, scoring the third and last run for the home team.

**Notes on the Game.**  
It was the fastest played encounter of the season. The Hamilton orphans certainly have lots of pep and to spare. The fans did considerable peeping at the delay in starting the game. Claimed that the visitors were joy-riding round the city. But who could blame 'em, if it was their first visit to this metropolis? Murphy, a Buffalo lad, was on the initial sack for the locals, and was onto the game every minute. He lifted the ball over centre field fence in the eighth inning. And they did it with three pitchers in the line-up, too.

Ray, the first man to bat, drove out a high fly that went over the fence when it bounced off Kaufman's glove.

The visitors wore a uniform of white with the American flag and the Union Jack on either sleeve. Carroll made two sensational running catches in the second, grabbing down fouls which Mitchell and Sears lifted away to the left of the

park. The stands gave him the hand he deserved.

Umpire Pfrman, who accompanied the visitors, showed lots of pep throughout, and did his best to keep the game moving, hurrying up the players at every opportunity.

Eckstein stretched a single into a two-bagger in the fourth, making a dandy slide to second, and Bernhardt followed with one that was almost as good.

Turner walked on his first two appearances at bat. On the third he smashed out a two-base hit.

The Hamilton team kicked at a good many of Pfrman's decisions—generally as a matter of principle rather than for any other reason.

Bernhardt had a nice slow ball on which several of the semi-pro's hit, but he worked it once too often when he fed it to Mitchell in the sixth. Mitch nicked it for three bases.

"What's the matter with that one?" demanded Carroll when Pfrman called a ball on Sumnerhayes in the seventh. "It's too good," retorted the ump.

Joe Allen pitched very good ball, although not quite good enough for a victory.

## WILL BE NEW LAND AFTER THE WAR

Lloyd George Foresees Reaction of Peace Upon the Nation

London, Aug. 17.—(Correspondence of the Associated Press)—"There is a new land confronting us," said Premier Lloyd George in a recent speech. "What manner of country it will be," he continued, "will depend on how the war goes, and how things go after the war."

"I am more confident to-day than I have ever been, and for reasons that would not be relevant for me to enter on at the moment; but one of the latest reasons is the impression made on me by the American troops I saw in France. They are superb in material and in training, and in the way they have borne themselves in the trying conditions of battles they have fought. I found a great spirit of confidence which strengthens our conviction of victory."

"The war has upset everything, and when it is over the falling back into normal conditions will be another disturbance. There will be a great social and economic disturbance."

"There are two alternatives. One is that the war will have sobered the millions who have passed through the fires whether in France or in the anxieties at home. Their vision will have been broadened, their sympathy deepened, their outlook and purpose made clearer, firmer and more exalted. There are millions who have been in daily contact with death, walking hourly over its trap doors. They have come into contact with very terrible realities. That is one view."

"The other is that there are millions who for these years have endured privations, discomfort, weariness, as well as pain and terror, and who have made up their minds to have a good time for the rest of their lives when it is over. That is a very dangerous frame of mind for a nation to be in."

THE QUEEN IN MOURNING ATTIRE. This Picture shows Queen Mary in a dress quite different from those she usually wears when the camera men are about. The photo was taken as she was leaving the Russian chapel in Welbeck street, London, after a memorial service for the late Czar Nicholas of Russia.

**PRINCE TO VISIT MONTREAL.**  
By Courier Leased Wire  
Montreal, Aug. 17.—Word was received here that Prince Arthur of Connaught would pay a brief visit to Montreal informally. His Royal Highness will arrive here on Wednesday evening from Ottawa and will stay over Thursday. The only function held to mark his visit will be a dinner at a private house on Dorchester street on Wednesday evening with golf to follow on Thursday. The Prince will stay at the Ritz-Carlton.

**SAWYER-MASSEY CO. FINED.**  
By Courier Leased Wire  
Hamilton, Ont., Aug. 17.—The Sawyer-Massey Company was fined \$50 to-day for failing to report to the registrar under the Military Service Act that J. Rosham, an employe had left the company's employ. It was an oversight, and in view of this the minimum fine was imposed.

**QUEBEC STORM SWEEP.**  
By Courier Leased Wire  
Quebec, Aug. 17.—The heavy squall that struck the entire Quebec district this week played havoc with the crops in the Bellechasse region. In a number of parishes the crops are almost a total loss. A number of barns and houses were also damaged.

## "THE PAINTED MADONNA"

Stella Dean (Sonia Markova) is in love with John Radon (William Lampe) but Radon betrays her confidence and she flees from her home in Pleasantville leaving a note of confession for her mother. The mother dies of a broken heart.

In Pleasantville before this occurrence there was an artist, Milton Taylor (Sibbey Masso). One day Stella draws a daisy long-legs on his canvas. He catches her at it and falls in love with her.

He is heartbroken after Stella leaves. He goes to New York. Stella is there too, with a musical show. She is under the name of Claire Leone. She has entered on the wildest dissipation. The artist needs a model for a picture. He gets Claire but does not recognize her until he has finished his picture of the Madonna and child.

When Claire sees it she is in a rage. It brings back her disgrace. She flees and sets out to a betrayed girl.

The artist in his disappointment goes from bad to worse until finally he is compelled to return to Pleasantville for reparation. There he finds Stella at prayer in a church. He watches her come out. She sees Radon taking another girl into an abandoned cabin as he did her years before. She rescues the girl, apprehends Radon and falls fainting into the arms of the artist. This picture will be seen at the Rex Monday, Tuesday and Wednesday.

## "SELVISH YATES"

That innocence is invariably its own protector and that selfishness as a characteristic is bound to react upon itself, are truisms amply illustrated in "Selvish Yates."

The picture is a story of a girl who is so selfish that she is finally driven to a life of crime. It is a story of a girl who is so selfish that she is finally driven to a life of crime. It is a story of a girl who is so selfish that she is finally driven to a life of crime.

## "A BACHELOR'S CHILDREN"

Florence Deshon, one of Vitaphone's youngest and most attractive stars, makes her picture appearance with Harry Morey in "A Bachelor's Children," which will be the attraction at the Rex Theatre on Thursday, Friday and Saturday. Miss Deshon plays the role of the girl who was raised in affluence, but who is reduced to poverty and is the sole support of two younger sisters. She learns that the millions possessed by a young bachelor rightfully belonged to her father, now dead. The bachelor also learns of the fraud practiced years ago by his uncle, and seeks to convey his fortune back to the girl. She learns to love him and refuses to accept the riches. In time, he learns her reason for her refusal and when he offers love with his millions, she accepts both. Harry Morey, former star, is the young millionaire, and in the supporting cast are Alice Terry, Denton Vane, William Shea, and Jessie Stevens.

## "HOW COULD YOU, JEAN?"

Mary Pickford is surrounded by an exceptionally capable cast in an exceptionally capable cast in "How Could You, Jean?" her new Vitaphone production, which is designed as a comedy drama with the appeal of the comedy. Spottiswoode Aitken, who played in many early Vitaphone productions, including "The Birth of a Nation," in which he was Dr. Cameron, and Herbert Standish, who has appeared in dozens of Paramount and Artercraft photoplays, have excellent parts and Casson Johnson plays the leading juvenile role.

## "A FAMOUS COLLECTION"

For what a London paper describes as the paltry sum of £100 Tom Moore, Dorothy Dalton, Ethel Clayton, Shirley Mason, Constantine Talmadge, Griffith, DeMille, Rex Beach and Superfeature productions. The above list represents practically all the big stars and features that stand foremost on the stage and screen, giving the Brantford public a program of such popular plays and movies as could be seen in the leading houses of Toronto, New York or any place on earth.

HARRY MOREY in Vitaphone Blue Ribbon Feature "A BACHELOR'S CHILDREN" AT THE REX THURSDAY, FRIDAY AND SATURDAY.

trated in "Selvish Yates," the new film vehicle of William S. Hart, the Thomas H. Ince-Artercraft star, which has just been released. The picture was directed by Mr. Hart himself, under the supervision of Thomas H. Ince, and it is said to be one of the most effective in the Hart repertoire of western portrayals. It will be seen at the Brant Monday, Tuesday and Wednesday.

In this picture Mr. Hart is seen as an utterly selfish, brutal dive keeper, whose spiritual nature is reformed through the agency of an innocent and confiding girl who drops out of nowhere into the circle in which Yates reigns as king, and who inspires love in his heart. Jane Novak, as Mary Adams, is the heroine whose sweetness and innocence not only saves her from a tragic fate but overcomes the egotism and the selfish selfishness of Yates himself.

## "BIG PICTURES COMING"

Extraordinary attractions from the movie world are promised for the coming season at the Brant and Rex Theatres, Mr. Moore having just closed contracts for the pick of the greatest programs on the market, including Artercraft, Paramount, Goldwyn, Selma and Super Features, featuring the following popular stars and productions: Mary Pickford, Douglas Fairbanks, Fred Stone, Elsie Ferguson, Enrico Caruso, Marguerite Clark, W. S. Hart, Billie Burke, Gertrude Ederly, Pauline Frederick, John Barrymore, Norma Talmadge, Charles Ray, Lina Cavalieri, Wallace Reid, Clara Kimball Young, Bryant Washburn, Dorothy Gish, and others.

## MUSIC IN THE HOME

One of the interesting examples of successful musical work among boys and girls is that at the Jewish Orphan's Home in New York, there are at present over 1,800 children in the institution, a visit by the home found in the bandroom a band of some eighty boys between the ages of ten and sixteen rehearsing every day. Every boy shows a desire to play and to sing, and the band study music is eligible to join the band. The boys are provided with good silver-plated and reed instruments. Every day one hour is devoted to both practices, besides the lessons and instruction in sight reading, theory and harmony. The regular band consists of forty instruments, with forty more in the reserve band held in readiness to fill any vacancy that may arise.

The band has an extensive repertoire of popular, military and classical selections. In addition to the brass band there is the organ and a variety of sixty boys playing the violin, viola and drum. Some of the boys belong to both these organizations. The band is not permitted to take any professional engagements outside the institution, though it often assists in patriotic and charitable affairs. A good many of the graduates of this orphan's home follow the musical profession and quite a number of them are playing now in the country's military bands.

Another fine feature of this institution is the orchestra of fifty instruments, made up of twenty-five boys and twenty-five girls. In addition to this there is a Glee Club, one hundred voices which is used in providing bright and entertaining for the inmates. Also a choir of twenty-five girls and the same number of boys, which chorus practices on Saturdays and holidays in the synagogue of the home. Every Friday night a concert is given for the children by professional talent.

## "GERMAN VIOLIN SCHOOL POOR"

Many schools of violin making grew up in most of the large cities of Europe, but the combination of sense of beauty of tone, of form and of color, which is abundant in Italy, was wanting. The French had form and produced fine copies, but their varnish was poor, and no original design arose. Fine violins with great originality were made in England, but few are to be found with the original labels, and they now flourish as "Italians."

The poorest school was the German. These inert violins have a more or less sharply defined ridge on each side of the bridge, are clearly descended from a square box. Their instruments, flat under the bridge with a sharp descent on each side. The sound holes are short and ugly and the tone so weak and thin no artist will use them. While old instruments of other schools are steadily appreciating in value, the Stainer value is decreasing, and the same is true of the other German makers. Violins

with reasonable care last for centuries, and the little sensitive vibrating structure sings to us today with much the same voice as it did to our ancestors. The church music in use in England complete form the national collection of services and anthems was printed in 1841, and embraced the best of the church music in use in England up to within a few years of the Commonwealth; and a century or so ago is a perfect copy of the work was known to exist, the least mutilated set being that consisting of eight vocal parts—then in Herford Cathedral. In 1862 the sacred Harmonie Society acquired by purchase another set containing also eight voices, including the two mislabeled volumes from the Herford collection. The volumes contain works by Tallis, Byrd, Gibbons, Giles, Farrant, Christopher Tye, and other rare musical treasures. It is understood that an effort will be made to purchase the work and restore it to the cathedral library.

## "WOUNDED CANADIAN IN NO HURRY TO LEAVE HOSPITAL"

"Having Wonderful Time" C. A. going, implores Lance Corporal Moor, who in his comfortable quarters in hospital does not forget the discomforts of the boys still in the trenches.

"Just think of coming out of the front line after a hard trip, wet, tired and hungry, never having a hot meal, and right up near the front you find the 'Y' with steaming hot tea and a smoke waiting. I don't know what we would do without them. I think if people really knew what the 'Ys' are doing, they would give more."

The writer concludes with the prophecy that the war will end this year, and Germany cannot spare troops from the western front to help her ally.

"Dinner time is the excuse for an abrupt ending to an interesting letter, and the last sentence is the cheerful prediction that 'the Peace Bell will be ringing before the year is out.'"

## "SINN FEINERS MAKE TROUBLE FOR SELVES"

Scorn to Apply for Permission to Hold Their Gatherings

Dublin, Aug. 17.—Many meetings and athletic events have been prevented by the resentment evoked by the government proclamations declaring dangerous the Sinn Fein organization and other associations allied to it in purpose or in leadership, and by orders requiring the promoters of all meetings, processions and demonstrations to apply to the police for permission to hold them. These orders apply to everybody, whether members of the proclaimed organizations or not.

The bodies aimed at for the most part scorn the idea of acknowledging government jurisdiction in any form and refuse to apply for permits. The Gaelic League assemblies for have been a very attractive feature of Irish life in the rural districts, and have in many instances been prevented in cases where the local law officers of the organization refused to apply for permits. This provokes vigorous protests, and the cry that the Government is pursuing a Prussian policy of suppressing the ancient language of the people.

## IN THE WORLD OF LABOR

A Retail Clerks' Union has been formed in Phoenix, Ariz., with a membership of 200.

Bollemakers' Union, No. 193, of Baltimore, Md., has raised wages from 50 to 70 cents an hour.

The Massachusetts State Constitutional Convention has voted to submit to the people whether cities and towns shall have the power to build homes.

In Scranton, Pa., the drug clerks have organized and are chartered by the Retail Clerks' International Protective Association. An agreement covering working conditions will be presented to the employers.

By putting the United States destroyer Ward in commission 70 days after her keel was laid, the San Francisco Mare Island Navy yard has smashed all world's records. Before the war from 20 to 24 months was required to complete this type of vessel.

While monopolists may run amuck on land, Superior Court Judge Benedict, of Brooklyn, N.Y., has ruled that they can't fence in the ocean and force the public to pay them to take a swim. This decision was made in the case of a bathing establishment at Coney Island.

During June \$8,243,429 was lent to farmers of the United States by the Federal land banks. On July 1 the total amount of mortgage loans placed since the establishment of these banks was \$109,517,308. The Spokane district leads with \$17,000,555.

The Order of Railroad Telegraphers will soon hit the 60,000 membership mark. Last month the increase amounted to 1,753; this has been the average made every month during the past year, and it is steadily growing larger. The O.R.T. is a comer.

The membership of the Amalgamated Meat Cutters' and Butcher Workmen of America has jumped from 8,500 in August of last year to 70,000. Last year the union's treasury contained \$846, with numerous liabilities. Cash on hand to-day totals 50,000 with all debts paid. The union has established the eight hour day, raised wages and improved working conditions during the past year because of its wonderful growth that forced meat packers to accept arbitration.

The long strike against the Nudols Packing Company, of Pueblo, Col., has ended by both sides accepting a decision by the State Industrial Commission. The ten hour day is reduced to nine hours until next December, when eight hours will be the rule. The ten hour wages will continue, but wages of women will be increased 25 cents a day until next December, when an additional 25 cents will be paid. The award includes time and one quarter for the first two hours of overtime, and one half for overtime above two hours, and double time for Sunday and holiday work.

The Central States Co-operative Society, with headquarters in Springfield, Ill., has issued a call for a Consumers' Co-operative Con-

vention to be held in that city, starting Sept. 24 next. One of the purposes of the meeting will be to start a campaign of education among workers. These co-operators say that their movement—which is officered by trade unionists—will increase the strength of the trade union movement in the exact proportion to which the co-operative movement is established, and that in just the same degree as it is established will it mean added strength to the workers in fighting for better wages, shorter hours and safer and more healthful conditions. Every bona-fide Consumers' Rochdale Co-operative Society of 100 members or less will be entitled to send one delegate to this convention.

The U. S. Bureau of Labor Statistics reports that the retail price of food for the United States in May, 1918, increased 63 per cent. over May, 1915. Every article increased 38 per cent. or over. The smallest increase was in potatoes, 38 per cent. Three articles increased 100 per cent. or more. Between May 15, 1918, and May 15th, 1917, food as a whole increased 5 per cent. Seven of the 25 articles recorded showed a decline. Potatoes declined 64 per cent.; onions 35 per cent.; flour 24 per cent.; sugar 9 per cent.; beans 7 per cent.; cheese 1 per cent.; and coffee, less than 1 per cent. Ten articles show an increase of 20 per cent. or more. Plate holding beef increased 32 per cent., round meat 30 per cent., hens 29 per cent., milk 26 per cent., and pork chops 20 per cent.

The U. S. War Department announces that it is against its policy to accept the offer of many well-intentioned individuals to take crippled soldiers into their service as watchmen, messengers, and in positions similar to them in character. "From the time a wounded soldier is taken to the field hospital," it is stated, "he is encouraged to understand the seriousness of his wounds will not render him worthless for any business or other useful work. The work of instructing him both physically and mentally is carried on simultaneously. At the present time there are many soldiers in army hospitals in this country who have been crippled. In many cases these men are receiving the preliminary training which will be finished by civil boards authorized to continue the work begun by the surgeon general. It is hoped that business men in general will accept these trained men on an equal footing with men who have not been crippled. These men will receive a training which will make them competent in the trade or profession which they elect to follow."

**Labor Platform**  
The object of the Independent Labor Party of Ontario is to promote the political, economic and social interests of people who live by their labor, mental or manual, as distinguished from those who live by profit upon the labor of others.

By Courier Leased Wire

Ottawa, Aug. 16.—His Royal Highness Prince Arthur of Connaught arrived in the capital at half-past eight o'clock this morning and was met officially by members of the military and Governor-General's staff. He proceeded direct to Government House, where he will remain while in Ottawa. An official dinner party has been arranged by His Excellency for this evening and to-morrow afternoon, a small and informal dinner party will be held at Rideau Hall in honor of the Royal guest. To-morrow morning at ten o'clock Prince Arthur will visit Rockcliffe Camp and the headquarters staff of the Militia Department will entertain at luncheon at the Country Club in honor of His Royal Highness.

**MINES ON AUSTRALIAN COAST.**  
By Courier Leased Wire

Sydney, N.S.W., Aug. 12.—The finding of additional enemy mines along the Australian coast is announced. Two enemy mines were reported found and destroyed off North Cape, the northern extremity of New Zealand on June 15 last. The supposition is that these and other mines found in Australian waters were laid by a German commerce raider.

**STRIKE ENDS.**  
By Courier Leased Wire

Montevideo, Aug. 16.—The general strike, which has been in progress here for several days, ended last night. The tramway and dock workers, however, continue on strike. Thirteen Russians, said to have been implicated in the manufacture and throwing of bombs, were arrested yesterday.

### THE FIRST LINE OF DEFENSE

Pure blood is the body's first line of defence against disease. Strong, healthy blood neutralizes the poisons of invading germs, or destroys the germs themselves. That is why many people exposed to disease do not contract it. Those whose blood is weak and watery and therefore lacking in defensive power are most liable to infection. Everybody may observe that healthy, red-blooded people are less liable to colds and the grippe, than pale, bloodless people. It is the bloodless people who tire easily, who are short of breath at slight exertion, who have poor appetites, and who wake up in the morning as tired as when they went to bed. While women and girls chiefly suffer from bloodlessness, the trouble also affects both boys and men. It simply affects girls and women to a greater extent because there is a greater demand upon their blood supply.

To renew and build up the blood there is no remedy can equal Dr. Williams' Pink Pills. They tone up the entire system, make the blood rich and red, feed and strengthen starving nerves, increase the appetite, put color in the cheeks, give refreshing sleep and drive away that unnatural tired feeling. Plenty of sunlight and wholesome food will do the rest.

You can get Dr. Williams' Pink Pills through any dealer in medicine, or by mail at 50 cents a box or six boxes for \$2.50, from The Dr. Williams' Medicine Co., Brockville, Ont.

### HOME RULE FOR MANY AUSTRIAN STATES

**League of Autonomous Nations Will Deal With Home Affairs**

London, Aug. 16.—A plan has been adopted for formation of a league of Austro-Hungarian states to be autonomous in dealing with home affairs, according to a Vienna dispatch quoting the Czech radical organ in the Austrian capital to that effect.

The Exchange Telegraph correspondent at Copenhagen transmits this dispatch as printed in the Berlin Vossische Zeitung. The quotation from the Czech organ reads:

"It is learned from reliable sources that Premier Husarek has reached an understanding with prominent representatives of all Austrian parties for complete revision of the Austrian constitution. It is planned to form a number of states that shall have home rule, including the German, Czech, Polish and South Slavonian states. These with Hungary will form a league of Austro-Hungarian states.

**H. C. OF L. RIOTS IN CHINA.**  
By Courier Leased Wire

Tokio, Aug. 12.—(By the Associated Press).—Ten policemen have been wounded seriously and many rioters injured in a riot at Nagoya over the high cost of rice. Fifty persons have been arrested at Nagoya and three hundred men and women at Osaka.

Industrial disturbances continue elsewhere. This police have succeeded in prohibiting meetings in Tokio.

The price of rice has doubled twice in the past year, due largely to a corner in the market.

**TO REPRESS JUGO-SLAVS.**  
By Courier Leased Wire

Washington, Aug. 16.—Information from Swiss sources, transmitted in an official Rome despatch to-day, says the Austrian Government, yielding to Magyar pressure, has decided to take the most severe measure in an effort to repress the Jugoslav movement.

**Europe's Hungry Millions.**  
A more detailed account of a recent speech under the title "Peace without Plenty," by Sir Wm. Goode, K.B.E., Liaison Officer of the British Ministry of Food with the Canada

Board, has been received. Sir William pointed out that the deductions were made by those, including himself, who had access to all the necessary secret data bearing on food supplies available, or likely to be available, to the Allies.

He said that Germany, Austria-Hungary, Bulgaria and Turkey with a population of 130,000,000, are, and workers, Sweden and Norway are also very short of food. Russia, owing to internal disintegration, can no longer be regarded by friend or enemy as a food exporting country.

"Leaving Russia out of consideration, there are therefore about 200 million people in Europe who are getting even less food per day than the people of Great Britain are getting under the existence scheme of compulsory rationing."

### Y.W.C.A. PLEDGES U. S. COMRADESHIP

**Sends Message to the Allied Women's Mass Meeting in Paris**

Washington, Aug. 16.—Comradeship of American women is pledged in a cablegram sent to-day to the Allied women's mass meeting at Paris by headquarters of the Y. W. C. A. war work council. The national war work council of the Y. W. C. A. of America sends allied women's mass meeting in Paris sympathetic greeting, the message says. "To-day we stand united in a common purpose to win a righteous war and to bind the wounds inflicted by war."

"Inspired and strengthened by your example, we pledge you a comradeship of loyal service in all your work. The meeting at Paris is attended by prominent women of England, France and America and will continue until August 18. Similar meetings are being held this month in India, China, Japan, Australia, Canada and South America countries.

### “BOTTLE” BABIES

**“Good Enough for Babies,” is Our Standard---It Should be Yours Too**

MOTHER INSTINCT says “baby” must have the best. Health, growth, contentment depend upon it.

Isn't it a wise plan to get milk you are sure about—milk that is richer, more nourishing, safe?

You know that Hygienic Dairy milk comes from the finest farms. You know that it is richer in cream. You know that we insist on scrupulously sanitary handling.

Most important of all you know that it is made safe by scientific pasteurization—in our up-to-date dairy. That it is bottled—delivered in a modern sanitary way.

And you know that every bottle is thoroughly sterilized before filling. We are the only dairy in Brantford taking this extra and vital precaution.

So Hygienic Dairy milk is “good enough for babies”—safe, sweet, pure.

And you know it is “whole” milk. Nothing is taken from it. It is not separated.

This is the milk your baby should have. It is baby's right.

And it is the milk your family should have—it is better than ordinary milk, yet costs no more.

**ST. GEORGE NEWS**  
(From Our Own Correspondent)  
At the Union service in the Presbyterian church on Sunday August 11th, 1918, do gratefully acknowledge the hand of God in the successes which have attended the Allied arms of the past week, and recognize that God in answer to prayer, has given us victories on a much larger scale than has hitherto been recorded in the annals of this terrific conflict, and as an expression of our deep sense of gratitude to Almighty God, and our earnest prayer for still further successes, which will hasten the end of this tragedy of the ages, we rise as a united congregation, and with bowed heads, and thankful hearts and uplifted hands, sing:  
O God our help in ages past,  
Our hope for years to come,  
Our shelter from the stormy blast,  
And our eternal home.  
Under the shadow of Thy wings,  
Thy saints shall dwell secure,  
Secure is Thine arm alone,  
And our defence is sure.

**AUSTRALIAN WAR LOAN**  
By Courier Leased Wire  
Melbourne, Australia, Aug. 17.—(Canadian Press dispatch from Reuters Limited)—The prospectus of the new Commonwealth War Loan of 40,000,000 sterling has been issued. The interest is subject to Commonwealth taxation, but not to state income tax.  
Subscriptions to the French Red Cross fund total 22,000 pounds. It is officially reported that the total amount of the war loan for the year totals 5,333,000 gallons, which is an increase of over eighty per cent. over the previous season and easily records for the state of South Australia.

**CATARRH LEADS TO CONSUMPTION**  
Catarrh is as much a blood disease as scrofula or rheumatism. It may be relieved, but it cannot be removed by simply local treatment. It breaks down the general health, weakens the lung tissues, and leads to consumption.  
Hood's Sarsaparilla is so successful in the treatment of catarrh that it is known as the best remedy for this disease. It purifies the blood. Ask your druggist for it.

**BIG SHIPPING PROGRAM**  
Indications that the Canadian Pacific is planning a strong shipping program is shown by the appointment of G. M. Bosworth, shown in upper picture, as chairman of the Canadian Pacific Ocean Service, he having resigned the position of vice-president in charge of traffic to devote his whole time to the shipping interests of the Canadian Pacific. He is succeeded by Wm. R. McInnis, in the lower picture, who formerly was the freight traffic manager, who has been identified with the Canadian Pacific since 1885.

## THE WAY OF THE AIR

### Behind The German Lines

By Lieut. F. J. Sleath.  
The two English airmen were ten miles behind the German lines when their engine gave out. It had been threatening serious trouble ever since the threatening moment in which a big shrapnel splinter had nearly knocked it off its bearings. The wonder was that they were still in the air.  
They had been sent on a mission from which none of their comrades expected them to return, the type mission which has to be "accomplished at all costs," and they had accomplished it, and were returning, when a sign of some curious activity going on below brought them down from their safe altitude to make closer investigation. It was here that they were caught by the German anti-aircraft barrage, the most furious barrage that either pilot or observer had ever seen. It did not take them long to realize the importance of what they had discovered. The knowledge of its value to headquarters had made the pilot coax his engine onward in an effort to make a home long after it showed a tendency to part company with the machine. But now it had solved the problem for him by refusing to work any longer. There was nothing for it but to descend.

The pilot's face showed the chagrin as he turned round to the observer. "We have got to get home somehow," he said, "I am going down there."  
He pointed to a dark green mass in front of them, a large forest which they were fast approaching. The surrounding country was moorland; the gentle slopes of which would have given the pilot a landing place. The plane could hardly be concealed there, especially when they set it on fire. Only in the forest could a secure hiding place be found, from which they could steal away towards the distant land under cover of the darkness. Open spaces were found to exist among the trees, where skilful plotting would bring the aeroplane to rest despite the prying eyes. But would they find such a landing place in time. If they did not, a crash among the top foliage, a sickening lurch as the machine cartwheeled over, and the snap of their containing belts, and the desperate venture which he knew the importance of the issue at stake, and he coolly nodded his acquiescence. He was willing to run every hazard to follow out to the end of the desperate venture which he knew his companion was planning.

In a little clearing in the heart of the forest the pilot brought the machine to earth. He had only just scrambled in a lower branch catching one wing had flung the aeroplane over on the other. But a gentle slope had taken them forward, bringing the machine level on its undercarriage, and sliding them into a mass of undergrowth which the aeroplane dissolved into fragments. Both wings swung backwards and collapsed. The engine toppled forward and dived from their cockpit, looking round them in bewilderment, with queer memories running through their minds of the instructional class and the dummy aeroplane from which they had learned the rudiments of flying.

"It saves us the necessity of burning the machine," said the pilot, looking round at the tangle of withes and fallers which completely covered them in. "Gives us a better chance of getting away without discovery."  
The observer silently assented. He was the junior of the two by several years, and he had flown long enough with his companion to realize that the latter could be trusted implicitly, quite apart from his seniority. The pilot earnestly studied a map of the district. The observer did not interrupt him with any curious questions. He was content to wait until the plan was unfolded, and his opinion asked. "It will be dark in an hour," the pilot said at length. "The news about those batteries must not be kept from the staff a minute longer than necessary, which means that we must find a quicker way home than walking."

## EVERYBODY NEEDS PURE, RICH BLOOD

Pure blood enables the stomach, liver and other digestive organs to do their work properly. Without it they are sluggish, there is loss of appetite, sometimes faintness, a deranged state of the intestines, and, in general, all the symptoms of dyspepsia.  
Pure blood is required by every organ of the body for the proper functioning of its function. Hood's Sarsaparilla makes pure blood, and this is why it is so successful in the treatment of so many diseases and ailments. Its acts directly on the blood, ridding it of scrofulous and other humors. It is a peculiar combination of blood-purifying, nerve-toning, strength-giving substances. Get it today.

A searchlight suddenly flashes out behind them. Above the roar of the engine comes the faint rattle of a machine gun in action. The pilot dips the plane behind the shelter of the hangars, and hugs the darkened earth until out of range. Far ahead the night sparkle of the trenches is lighting the heavens. Soon it is beneath them.  
A few minutes after the start of their flight, the British pilot and observer are giving their news to a wondering squadron commander, as coolly as though they had just returned from an ordinary patrol, and in their own, instead of in an enemy machine.

Dyspepsia, Indigestion or Catarrh of the Stomach

DR. BANTA'S  
Dyspepsia  
50c Tablets per Box 50c per Box

WILL CURE YOU

Dyspepsia is an advanced stage of indigestion, arising from the stomach refusing to perform its normal functions. Digestion consists in the changing of foods from an insoluble form, so that they may pass through the walls of the alimentary canal and become part of the blood. The stomach keeps the food in almost constant motion for a considerable time to accomplish this purpose, and should this organ not be kept in good condition, indigestion results, to be followed in due course, if not relieved, by dyspepsia. You can keep the stomach performing its functions, and even relieve and cure dyspepsia if you get a Box at 50c from

### GREEN CORN IN BRITAIN.

Large Quantities of Seed Imported for Planting Last Spring.

One thing the British can be thankful for in the years after the war will be the fact that because of it they learned to plant, or eat, "roastin' ears." That direction for planting or eating sugar corn should be observed by anybody seems to the average Canadian, especially rural-born middle westerners, that while it is not "Maize or Sweet Corn." - Large quantities of the seeds of quickly maturing types of this American food crop have been imported during the spring, and many will be giving it a trial. As soon as all danger of frost is past the seeds, after being soaked overnight, can be planted like dwarf beans, and they will soon appear. Most of the varieties are of so sturdy a character that they need little or no support. The cobs are often ready in the early sorts before July is out, and may be cooked whole, or the young cobs scraped off and served up like beans. The plants should not stand closer than a foot apart, according to the variety, the robust sorts extending to three feet apart each way. Those who cannot eat the cobs may give them to the poultry or other live stock with advantage.

Millionaire's Bequests.  
Second Lieut. P. Wernher, the young millionaire, who whilst attached to the Welsh Guards was killed in France in September, 1916, made a number of bequests under his will. Recently the Court of Appeal decided that although only 18 years of age he had power of appointment over £1,000,000, left in trust for him by his father, the late Sir Julius Wernher. His bequests now come into force. They include:  
£50,000 for such charitable institutions in the United Kingdom as the executor may select.  
£5,000 to the City Mission.  
£5,000 to the colonel in command of the Welsh Guards, to be used for the relief of those in the regiment between April 1 and December 31 of the current year, who are in distress.  
£5,000 to Gen. Sir H. L. Smith-Dorrien.  
£5,000 to Lt.-Col. the Hon. W. A. W. Lawson.  
£500 to Brig.-Gen. Sir Charles W. King.  
£1,000 to his late nurse, Elizabeth C. Thompson.  
The residue of the property he left to his brother, Major Harold Augustus Wernher, or should he be dead, to his mother, Dame Alice Wernher.

War Money Flowing In.  
A hopeful view of national finance was taken by Mr. Bonar Law in his speech on the second reading of the Finance bill in the British House of Commons.  
Mr. McKenna, commenting on the situation, had said that by some means or another the Chancellor of the Exchequer would have to raise, between April 1 and December 31 of the current year, 2,250 millions. He had already had to borrow to the extent of 1,257 millions. It was quite obvious that during the next nine months this short-cut borrowing could not be very much increased. It was a serious outlook.  
The Chancellor of the Exchequer said that the position at this moment did not cause him any anxiety. Loan term borrowing had now been going on for rather less than eight months. Comparing it with the 1,000 millions raised by loan in January last year, he had actually raised - apart from War Savings Certificates, which showed the most satisfactory increase of all - up to April 1 the sum of 719 millions sterling.

CROTHERS BACK FROM WEST
