

WOMEN'S INSTITUTE OF DELTA REVIEWS YEAR'S ACTIVITIES

Mrs. T. J. Frye is Elected President for the Ensuing Year.

MISS BRYSON WILL SPEAK
Mothers' Day is Remembered in Methodist Church of Greenbush.

Delta, May 16.—The Delta Women's Institute met on the 10th at the home of Mrs. A. Slack, with eleven present. The Government delegate, Miss Bertha Bryson, who is to be here on June 5, asked that a subject be chosen from the list. The subject chosen was "Home Nursing and First Aid." The Junior Institute was invited to attend this meeting and furnish musical numbers. A sum of money which had been collected for a beneficial purpose was voted to assist a member with a sick child. No cleanup day will be observed this year. Two sick members are to be remembered with flowers. The financial statement for the year was given, showing receipts of \$329.49 and expenses of \$250.58, leaving a balance of \$78.91. The June meeting will be held on Saturday, June 16, and will be a flower show for children. Prizes will be given for the best bouquet of wild flowers, and also for the largest variety. Lunch will be served the children. The election of officers resulted as follows:

President, Mrs. T. J. Frye; 1st vice-president, Mrs. M. Kilborn; 2nd vice-president, Mrs. A. Slack; secretary-treasurer, Mrs. W. J. Morris; district directors, Mrs. J. W. Russell and Mrs. (Rev.) Jackson; directors, Mrs. Ed. Barlow, Mrs. H. Howard, Mrs. W. J. Birch, Mrs. C. E. Frye.

Miss Lavenia Hough is spending a few days with her sister, Miss T. Hough.

Mrs. W. A. Bell underwent a successful operation at St. Vincent de Paul hospital, Brockville on Sunday last.

Miss Leita Guerdon, Brockville, spent the week-end with her parents.

Mrs. Francis, Brockville, spent a few days with her daughter, Mrs. O. Gardiner.

Mrs. M. J. Whaley has gone to reside with her daughter, Mrs. A. Orr, New Dublin.

A. B. Clarke, of the Bank of Montreal staff, is spending two weeks' holiday at his home in Montford.

George Snider has purchased the mill shed and intends starting a blacksmith shop there.

Jim Wright is very ill with pneumonia.

Mrs. J. Horton is slightly improved the last few days.

LANSDOWNE

Lansdowne, May 16.—The senior and junior Women's Institutes had a splendid meeting in the town hall last night. Miss Bertha Bryson, a government delegate, gave an excellent address and dealt mainly with the Institute and its possibilities and the work accomplished by this organization. An interesting statement made by Miss Bryson was the fact that the Belgian government had sent a man to this country recently to report on what he considered was doing the best work for the country, and his answer was "the Women's Institutes." After the address a short programme was given, in the course of which Mrs. M. Steacy and Mrs. J. Donovan gave vocal solos, and Miss Anna Shaw played a piano solo, which were enjoyed very much by all. After the meeting a social half hour was spent and refreshments were served. Miss Bryson during her stay here is the guest of Mrs. Shaw. She went to Rockport this afternoon to address a meeting.

Mrs. John Darling left on Monday to visit her sister, Mrs. Lanigan, of Victoria, B.C. She expects to be gone six months.

Owing to the bad weather on Friday night, there was a very small attendance at the play in the town hall presented by a company of young people from Pittsburg.

Arthur Halliday and Leslie Latimer have moved to Bowmanville.

Mrs. A. Dowsley, of Brockville, was a recent visitor in the village for a few days.

FRANKVILLE BOY FALLS ON KNIFE AND HURTS THIGH

No Serious Result Expected in Case of Harold Bryan.

NEWS OF THE DISTRICT
Recent Rainfalls Are Much Appreciated Throughout This Section.

Frankville, May 20th.—Mr. Harold Bryan, son of William Bryan, fell on a small jack-knife which he was using on Sunday and one of the blades penetrated his thigh. Dr. W. E. Throop dressed the wound and no serious results are expected.

Mr. and Mrs. Glenn G. Leverette, Smith's Falls, Mr. and Mrs. D. D. Leverette, and daughter, Brockville; Mr. and Mrs. Kenneth Burch and son, John, Alexandria Bay, N. Y., and H. Benj. Leverette, Brockville, were recent visitors with their parents, Mr. and Mrs. G. M. Leverette.

Farmers have a large share of their spring seeding completed.

G. M. Leverette spent last week at Alexandria Bay, N. Y., visiting his daughter, Mrs. K. A. Burch, and returned home on Sunday.

Rev. Mr. and Mrs. Townsend and daughter are spending this week in Ottawa.

John Cauley has leased his farm to Walter Dutton. Mr. Cauley is not enjoying the best of health.

ELGIN

Elgin, May 16.—Mrs. C. E. Johnson, Delta, spent the week-end at her home here.

Mrs. (Rev.) Teskey and children, of Oxford Mills, were guests at J. R. Dargavel's in honor of his birthday.

Miss I. Fahey, Toronto, is spending her holidays with her parents.

Miss Grant is assisting as clerk at J. R. Dargavel's.

George F. Warren goes to Portland on Sunday evening to conduct service in the Methodist church.

Rev. W. Keough was in Brockville this week attending the district meeting.

Miss Ida Pennock, Brockville, is a guest at F. Munro's.

Mr. and Mrs. Shepler held an auction sale of their household effects this week and will leave for the former's home in Indiana.

Banking by Mail

MANY and varied are the types of men who conduct their banking with The Standard through the post. Busy men who live far away from any bank find that our plan of banking by mail saves them making special trips to town, and is satisfactory in every way and quite simple. We pay interest at current rates on such accounts. Write or call for full particulars.

THE STANDARD BANK OF CANADA

TOTAL ASSETS OVER EIGHTY THREE-MILLIONS
Athens Branch W. A. Johnson, Manager

TOLEDO

Toledo, May 17.—Mrs. Will Riley is entertaining her sisters, the Misses Marion and Glenna Kinch, of Kinch's Settlement.

Harold Bellamy, of Kemptville Agricultural College farm, spent the week-end at his home here.

H. N. Stinson is ill at present. Dr. Bourns, of Frankville, in attendance.

Mr. and Mrs. M. Weatherhead and family were Hard Island and Athens visitors on Sunday.

Mrs. H. Coad is visiting her brother, H. N. Stinson, and Mrs. Stinson.

The funeral of Mrs. Margaret McCrum, of Toledo, was held on Tuesday afternoon from her late residence, to the church, where Rev. Mr. Townsend, B.A., E.D., conducted the service, after which the remains of one of Toledo's most highly esteemed citizens was laid to rest in the cemetery on the hill. The pallbearers were Joseph Carr, Egerton Stratton, James Gray, William Bell, William Hall and W. H. Seymour. Beautiful flowers were mute evidence of sorrow on the part of relative and friends. Among those from a distance who were present at the funeral were Mrs. Will Stratton, of Blenheim, Ont., a sister of the deceased; Mrs. Jim Sexton, of Strathroy, Ont.; Miss Rena Coad, of Brockville; Mr. and Mrs. Will Stratton, of Kars.

The concert given in Toledo Town Hall on Tuesday evening by a company from Jasper and vicinity was much appreciated by the fairly large crowd present. The different numbers carried out their parts well and an additional attraction for the evening was the singing and banjo playing by a negro minstrel who was prevailed on to join the company for the evening.

Maynard

Maynard, May 15.—The Ladies' Aid held its annual meeting in the basement of the church on May 10 at 2 o'clock for the election of officers for the ensuing year. Mrs. Fred Horton was re-elected president; Mrs. Carman Hough, vice-president; Mrs. A. E. Carson, secretary-treasurer; and Mrs. John Spero, organist. The organization is again taking up the \$1 investment plan with a view to completely wiping out the light debt.

Mothers' Day was observed in the Methodist church, the service being in keeping with the day.

Mr. Pillar, of Prescott, was the guest of A. E. Carson for a few days last week.

Mr. Pinkerton, of Elgin, called in this section last week.

Caleb Young, who has been spending the winter months with his son, William Young, in New York state, has returned to his home at Maynard.

Mrs. Clinton Keeler, of Ogdensburg, was the guest of Mr. and Mrs. F. A. Robinson for a few days last week.

A Conservative meeting was held in Toledo on Wednesday night to appoint delegates to attend the convention to be held in Brockville.

John Stinson has returned to Ottawa after spending a few days with his parents here.

Walter Hanton, of Jasper, made a business trip through here on Tuesday.

Mr. and Mrs. James L. Heffernan and little daughter, of Crosby, were Sunday visitors at their respective parental homes here.

Miss M. J. Duncan is renewing old acquaintances here.

Miss Ursula McNamee is visiting her sister, Mrs. J. L. Heffernan, and Mr. Heffernan, of Crosby.

LYNDHURST

Lyndhurst, May 15.—Mrs. Wallace Simes and daughter, of Regina, are guests of Mrs. Colib Johnston.

Mr. and Mrs. Deb Danby have moved into Mrs. M. Dobbs' house for the summer.

William Webster has purchased the R. G. Beerman property on Main street.

All are pleased to learn that Mrs. T. McConnell is recovering nicely from her recent serious illness.

Mrs. Jesse Halliday spent Sunday with her mother, Mrs. Wiltsie.

V. Landon had the misfortune to lose a valuable horse one day recently.

The farmers are well along with their seeding.

Bryce Wiltsie spent Sunday with his mother, Mrs. M. Wiltsie.

The entertainment given in St. Luke's hall last week was much enjoyed by the young people.

William Cook, of Dulcemaine, spent Sunday with his cousin, Mr. and Mrs. James Danby.

Johnston Reid is busy unloading a carload of flour and feed for the Farmers' Club.

Winfield Sterry is doing the carpenter work on William Charlton's new house.

Mrs. Gordon Leadbeater spent a day recently with her parents, Mr. and Mrs. Calib Johnston.

Here and There

48,000,000 bushels of grain awaited the opening of navigation at Port William and Port Arthur this spring.

Flood conditions in New Brunswick and Maine this spring were the worst since 1887.

Damage to Canadian Pacific property in Western Canada by floods this spring amounted to approximately \$200,000.

Calgary is the leading telephone city on the continent with one instrument to every 4.10 persons. The phones in this city are automatic.

The per capita debt of Canada is approximately \$165, as compared with \$230 for the United States, \$750 for Great Britain, \$350 for France and \$250 for Australia.

Canadian Pacific steamers "Marloch" and "Metagama" docked at St. John with over 600 Hebridean immigrants to Red Deer, Alberta, and various parts of Ontario.

The 1923 camp of the Alpine Club of Canada will be pitched in Larch Valley, near Moraine Lake, nine miles from Lake Louise in the Canadian Pacific Rockies.

Travelling 572 knots in twenty-four hours, an average of over 23 to 24 knots per hour, the Canadian Pacific liner "Empress of Canada" recently established a record for commercial vessels on the Pacific.

The last link in the great 6,500 mile scenic tour through Western Canada and the United States will be thrown open to traffic on June 30th when the Banff-Windermere Motor Highway will be officially opened.

A car of timothy and grass seed arrived in Vancouver via Canada Pacific Railway from Toronto ten days after an order had been wired to the Ontario Capital. This constitutes a record in service.

In architectural style the new Basilica at St. Anne de Beaupre will be a combination of the Roman and the Gothic. The steeples in front will be 225 feet high and including those in the chapels the new Basilica will contain twenty-six altars.

The honor of running the first ship into Montreal harbor from the ocean fell this year to Captain Edmund Aikman, commander of the Canadian Pacific steamer "Bolingbroke," a freighter. The "Montrose" of the same line was the first vessel to carry trans-Atlantic passengers into the port in 1923.

The number of strikes and lock-outs in Canada during 1922 was 85. The number of working men involved in the strikes was 41,050 and the number of working days lost 1,975,276. Approximately fifty per cent of the time lost was in connection with the strikes of the coal miners in Alberta and British Columbia which lasted from April till the end of August.

Topping the grain shipments from St. John of the 1921-22 winter season by almost four million bushels and establishing a record for the port for volume in a single shipment for one vessel, the 1922-23 grain business through the Canadian Pacific elevators up to May 1st totalled 15,249,261 bushels. The single shipments' record was made on an all-wheat cargo of 359,793 bushels.

REV. MR. HURFORD'S REMOVAL IS FELT IN NORTH AUGUSTA

Rector of St. Peter's Church Preaches His Closing Sermon.

NEWS OF THE DISTRICT

Funeral of Lambert Coates, Victim of Accident, Conducted at North Augusta.

North Augusta, May 21.—The congregation of St. Peter's church sincerely regrets the removal of the Rev. R. F. D. Hurford, B. D., who has had charge of the parish for about five years. He is an able preacher of the Word and his last sermon on Sunday, night surpassed, if possible, any previous effort of his. The text was, "We Preach Christ Crucified." Though the night was very wet, a large congregation was present. He and Mrs. Hurford are moving to Tara this week.

The Ladies Guild of St. Peter's Church met on Friday night at John Warren's to say good bye to Mrs. Hurford, who has been an untiring worker in the organization. During the social evening Mrs. Hurford was presented with an address, accompanied with a purse, for which a suitable reply was made.

There will be no service next Sunday in St. Peter's parish, but a new rector is expected shortly.

Miss Bryson, of Toronto, addressed a meeting of the ladies in the Institute rooms on Thursday night.

Miss Dorothy Chapman, of Ottawa, spent the week-end at her father's G. W. Chapman's.

S. J. B. Whaley is confined to the house by illness.

Miss Evelyn Bissell arrived home on Sunday morning from Toronto and Elora, where she has been for several months.

Roy King and Frank Bolton are conducting a meat business here and are doing a good trade. They are delivering meat to the surrounding country.

The recent heavy rains have retarded seeding and it will, be almost impossible to get in low land for a grain crop.

The funeral of John McBratney, who died very suddenly on Friday morning, took place on Sunday at 2 p.m. at the family residence, and interment was made at Manhard cemetery.

A very sad funeral took place on Monday when the remains of Lambert Coates, who was kicked in the face three weeks ago by a colt, and died in St. Vincent de Paul hospital, were laid to rest in the Anglican cemetery here. The solemn service was conducted by Rev. R. P. D. Hurford.

GREENBUSH

Greenbush, May 16.—Jane Hewitt was taken suddenly ill and rushed to the Brockville General hospital on Sunday.

Mrs. W. J. Gardiner, Smiths Falls, is spending a few days with her daughter, Mrs. M. Johnston.

George Marshall had the misfortune to lose a horse one day this week.

C. H. Connell made a business trip to Brockville on Monday last.

Mother's Day was remembered in the services on Sunday. The address of the minister, Rev. D. D. Elliott, was on that subject.

George Olds spent Sunday at the home of Morris Lovern.

Mr. and Mrs. W. G. Kennedy spent Sunday with friends in Greenbush.

ELGIN

Elgin, May 15.—The recent rainfall has been much appreciated and all Nature looks much improved.

Jack Fahey was successfully operated upon for appendicitis recently at the Hotel Dieu, Kingston. His many friends wish him a speedy recovery.

Rev. W. F. Crawford delivered a very interesting and instructive address in M. E. Church on Sunday morning last, speaking in the interests of the Bible Society. The evening service was conducted by the pastor, Rev. W. T. Keough, who gave a very appropriate discourse on "Mothers' Day and All That It Stands For."

Mrs. G. F. Warren is indisposed with rheumatism.

Mr. and Mrs. R. Morden and Mr. and Mrs. P. Halladay have left for their respective cottages at Jones' Falls.

Mr. and Mrs. W. J. Darlington, Smith's Falls, were calling on friends here last week.

The Epworth League held a social evening last Thursday when an unusually large crowd was present. The programme embraced a very interesting letter from Miss Parker, missionary to East Africa, readings and solos. The various contests were much enjoyed as were the refreshments which followed.

MARTIN-SENOUR 100% PURE PAINT & VARNISHES

MARBLE-ITE

The Hard-Drying, Long-Wearing Floor Finish

"100% PURE" PAINT

The paint for wear and weather.

SENOUR'S FLOOR PAINT

It wears and wears.

"VARNOLEUM"

beautifies and preserves Oil Cloth and Linoleum.

"WOOD-LAC" STAIN

Improves the new—renews the old.

"NEU-TONE"

The sanitary, washable Flat Oil Paint for Interior Decoration.

Nothing adds so much to the beauty of a home as floors that are properly cared for; on the other hand, floors that are not protected are unpleasant to look at, are hard to keep clean, and become injured through wear. Don't neglect your floors, beautify them and save them. Save the surface and you save all.

MARBLE-ITE Floor Finish is the perfect treatment for floors of all kinds. It is the one floor finish that has a money-back guarantee attached to every can.

In 24 hours MARBLE-ITE dries hard with a beautiful finish that will not show heel marks. It has a high gloss, yet is tough enough to stand any amount of wear without injury. It can be washed with soap and water and it will not mar nor scratch white.

We invite you to call and discuss this method of beautifying and protecting your floors. We can give you full details regarding this or any other painting or varnishing problem. We have a complete stock of MARTIN-SENOUR Paints and Varnishes. For every purpose—For every surface.

CHAPTER XLIV.—(Cont'd.)

Conal sank back against Deirdre's arm with a gasp of pain. She put the spirit to his lips.

"If only I'd choked—the life out of him, I could die easy. But the mare boited—I couldn't get her back to him. The lying cur! The bargain was made—I thought I'd got him—that he'd've made over his last penny to me. Someone kept me talking outside the Bull—it was that kid minds his horses—saying that Ginger'd gone lame—and the next thing was a shot from the creek and McNab scuttling among the trees. Paugh!" he moved impatiently. "Why didn't I do for him while I had the chance?"

Superhuman strength animated him for a moment he struggled up, his swart face stiffening, his eyes flashing.

"I can! I'm alive yet—I can, Deirdre."

He swayed and she caught him, breaking the shock of his fall backwards. Blood welled from the open wound; the wet pads had staunching the flow for a moment. Steve brought more water. She dipped fresh linen and rags in it and bound them into place. Conal lay heavy and still.

She bent over him; her eyes turned questioning to Steve.

She lifted Conal's head on to her knees. The silence was unbroken.

"Conal," she whispered as though she were calling him, "Conal!"

"That you, Deirdre?" he asked huskily, but he did not open his eyes.

"If—if you could—kiss me—it's so hard to go—feeling you near—and that you don't care for me at all. If only I hadn't failed you—this time! If only—But it was because of you I didn't want to—kill him—unless—unless it was necessary. It seemed all right—the other way—you won't think badly of me, Deirdre?"

"No, no, Conal dear, but don't try to talk now."

"I've been hard on you—Deirdre—But you won't think ill of me. It's the way men are made—and I didn't understand how it was with you—and

Deve—not till that night in the hut. If I hadn't brought trouble between you—you might forgive me."

"Conal, Conal," Deirdre sobbed, the tears streaming over her face. "You're dear to me, yourself—dear in your own way. Haven't you always been—and I haven't been good to you—always. My heart's breaking to hear you talk like this."

She bent over and kissed him.

Conal opened his eyes. The mellow light of serene happiness had drifted into them. They rested on her face as though they were loath to leave it. His long fingers were knotted about her hands.

"I'm happier than ever I was in my life, Deirdre, darling," he whispered. She had to stoop over him to catch the words on his lips, so faint and hoarsely uttered they were, as though the thoughts left him without his lips having power to form them. "Never expected to put my head on your knees—hold your hand—like this. It would never have happened, if I'd lived, so it's good to die. You'll look after Ginger—ginger for pluck—dear old devil—never've got here—but for her. And Sally—good old Sally—not a cattle mong' like her—countryside."

The ghost of a smile flitted over his lips.

"If only—"

Recollection of McNab came, banishing the peaceful happiness from his face. His eyes glazed. There was a momentary struggle for breath and he fell back fighting for life. Then, on a long sigh, he was still.

Deirdre tried the brandy again. She called him. She felt for his heart. His head was very heavy on her knees. She stared down on the finely chiseled features, so still, upraised before her. Her tears rained over them. The quiet was unbroken but for Steve's crying like a child.

Then Sally, lying crouched against the door of the hut, lifted her voice in a long, mournful howl that told the shrouded hills and all the creatures of them that the soul of her master, Long Conal—Conal, the Fighter—had passed on.

CHAPTER XLV.

Deirdre knew that McNab would not come near Steve's while the dead body of Conal lay there. In the morning, she saddled the chestnut and rode into Wirreeford.

"It was you shot Conal and I'm going to let all the countryside know it," she said, facing McNab in the reeking parlor of the Black Bull.

"And who do you think will believe you?" McNab sidled up to her, his eyes kindling.

"Everybody who knows you."

"And they'll say to you: 'How do you know?' 'What proof have you got, Deirdre?' Nobody'll want to go agen Thad McNab lest they're sure—and nobody'll want to be gettin' up and givin' evidence agenst McNab lest they're sure they're comin' out on the right side of the business."

"Proof? there's proof enough!"

Deirdre's voice rang clear, though her heart was beginning to quail. She knew that what he said was true. She had come with the idea of using Conal's death as a weapon against McNab; but it had suddenly become useless in her hands.

"Now look here, my dear, it's no use bein' nasty," McNab said. "You know and I know, there's no man in the Wirree would go agenst me less he was pretty sure of getting somebody stronger than himself to back him. Well, is he going to get anybody? That's the question."

Deirdre thought of M'Laughlin, sodden with drink and as much McNab's creature as any other man in the Wirree.

McNab chuckled, though there was a nervous edge to his voice.

"There's Sergeant M'Laughlin, of course, he's police officer for the district. You can tell him your story if you like. But he's a hard-headed man, M'Laughlin. He'll want proofs. And then don't forget I've still the trump card up me sleeve."

Her immobility maddened him.

"See here, Deirdre," he said, shaking with rage, "I've been patient with you till now, and I'm not a patient man. You may not've liked the ways of my love-makin', but they're my ways. Either you take my terms or you leave them. And if you send any more jackanapes to me you'll find them served as was Conal."

"Maybe you're waitin' and hopin' young Davey'll come overland," he rasped on, "to—to help you. Don't let him get in my way again, Deirdre. Don't let him. If he gets in my way, he'll have to get out of it."

"Or you will have to get out of his way!"

Deirdre's eyes flashed into his. She saw the mean, cunning soul in them. She knew that it would be Davey who would get out, that there was no fighting McNab. Davey would die as Conal had died, of a shot in the dark, or a death-dealing stab in the back.

McNab realized that she had measured his chances against Davey Cameron. Davey's chances against him, in that moment, for all her proud look.

"There's a boat just in the Port—takin' on some cattle—brought news from Melbourne," he said. "Davey's acquitted. So is the Schoolmaster. Jury didn't find there was evidence enough to convict. They'll be coming along by the Albatross. She's due in a couple of days. Cameron's man, brought word. If you don't marry me—if you're not Mrs. McNab before that boat gets in—it can take your father and Steve along with it. It goes right on to Hobart Town after calling here."

Deirdre stumbled out of the room. McNab did not follow her. He knew that she would not fight any more.

He watched her swing into her sad-

NURSES

The Toronto Hospital for Incurables, in affiliation with Bellevue and Allied Hospitals, New York City, offers a three years' Course of Training to young women, having the required education and desirous of becoming nurses. This Hospital has adopted the eight-hour system. The pupils receive uniforms of the School, a monthly allowance and travelling expenses to and from New York. For further information apply to the Superintendent.

de and ride out along the flat, dun-colored road to the hills. Mrs. Mary Ann, driving a string of snow-white geese along the green ledges of the wayside, called to her, but Deirdre did not, past the cottage that the Schoolmaster and she had lived in, past the out-croppings of gorse beginning to bud goldenly on the edge of the plains.

And McNab chuckled softly, rubbing his hands together.

CHAPTER XLVI.

The Albatross was in. Just before midday, carts and carry-alls had clattered along the road to the Port. Deirdre, riding down from the hills at dawn, had seen the schooner on the dim shining screen of sea and sky. There was no wind, and like a great white bird she hovered outside the bar, waiting for the wind and tide to carry her into the quiet waters of the inlet.

It was not until midday that a breeze sprang up, sending white, curled breakers high over the bar, and the Albatross on the crest of them came sailing into the harbor. She rode, furling her sails, to the log-wood wharf on its further side. A crowd had gathered to meet her, and it was early afternoon before the vehicles began to rattle back along the road to the hills and Wirreeford. Deirdre stood at the window of McNab's parlor, behind the curtains that had been hung up in her honor, watching them.

She saw none of the curious looks and gestures that went her way, the pitiful glances that covered her. For the news of the Port that morning beat any the boat had brought. Those who saw the dim white face of the girl at the window, and her shadowy eyes, knew that she was Thad McNab's wife. They knew that McNab had driven Deirdre Farrell into the Port before any of them were astir and that a clergyman had married them in the church there.

"Why did she do it? What could have made her," they asked each other.

"It wasn't for love of his beautiful face, be sure," snarled Salt Watson. "It's hard on the Schoolmaster. He'll not know of it yet," somebody else said.

Deirdre neither heard nor saw them. She was watching for Davey and Dan to pass. She had seen Mrs. Ross and Jessie go by to the Port in Cameron's double-seated buggy. She thought they would ride together to the hills in that, Davey and her father.

If they knew, they would stop at the Black Bull; if no one had told them they would go on, she had decided. They would wonder why she was not on the wharf when the boat got in, to meet them. But McNab would not have that. He would not lose sight of her. Besides she did not want to meet the eyes of the men and women who would be there, and hear what they had to say.

She was cut off from the world as she stood at the window of McNab's house. Her mind was too utterly weary to reason further. As she watched and waited a sense of bleak desolation closed in on her. Her eyes ached for sight of the Schoolmaster's form against the clear sky, although she knew she would hardly see it above the buggy and among other people.

She asked herself what he would do when he found that she was not waiting for him at Steve's—what he would think when he found the letter that was lying for him there.

Steve would have to read it for him. It would break his heart, the letter that she had wept and prayed over; but it was better that his heart should break than that he should go to the Island again. And Steve, poor old Steve, would die in peace some day and be put to rest where they had put Conal. A magistrate—assisted in a fashion by M'Laughlin and a jury—had duly investigated and found that his tragic death was an impenetrable mystery. An "open verdict," they called the finding.

(To be continued.)

So Often Does.
"How can I be sure I love him?"
"Well, dear, a glance at his bank book might help you to decide."

Minard's Liniment for Coughs & Colds
Adjustable.

An ornamental metal dish holder has been invented that can be adjusted to fit almost any round or oval cooking utensil.

Understanding is the first great need in all human relations.

About the House

A Pretty Style for Spring.
Knitted sports suits promise to be popular in the Dominion for spring and summer wear, partly because they are youthful and informal. The girl in the picture wears a white costume brightened with a conventional block design.

About the House

SHORT CUTS TO BEAUTY.

Here's a quick salt rub to the rescue of your winter skin. Ten chances to one it's been deadened and dulled by long days indoors and too much rich food. And this month, with the garden, the eggs hatching, and summer sewing to do, one hardly has a minute for complicated treatments.

Take a handful of table salt and rub it over your face and neck. Don't skimp at the corners of the nose, the ends of the mouth, or where the hair-line meets the forehead. Blackheads and a shine always choose those places. When the salt is absorbed, rinse it off in warm water. If you like your toilet articles all prepared, you can buy, in an attractive box, a special face salt that contains other wholesome ingredients and may wake up your skin a little quicker.

The salt rub is especially good for the thick, oily, sallow skin. If yours is thin and dry and irritates easily, substitute finely ground corn meal. After a treatment your skin should feel satin smooth to the fingers and look firm and rosy.

Another quick beautifier is the two-soap method. Here are just two cakes of soap—one flesh-colored, the other creamy-white. Whether your skin is oily, dry, oily and dry together, old, young, or fading, the lather of these two soaps can be varied in quantity to

Santa Fe Summer Excursions

also to Grand Canyon National Park Arizona and New Mexico Rockies

Ed Harvey meals all the way

Phone: Main 6447

fit your needs. First you wash with the antiseptic flesh-colored soap, then you rinse it off and wash with the nourishing and protecting creamy-white cake. It takes only half a minute longer than washing the one-soap way, but when you're through with your washing you're through with your beauty treatments, for with these you won't need a whole boxful of other preparations.

When I was a little girl my mother always made me take sulphur and molasses in the spring. This was supposed to tone up the system and relieve the skin of winter blotches. But nowadays we take our spring sulphur in more pleasant forms. Internally we substitute plenty of water and spring greens. Externally we use a sulphur soap and a cream.

For the hair that needs spring toning-up there is a sulphur tonic as clear as crystal and as fragrant as a pine forest. This takes away the dandruff and leaves the hair fluffy and pretty, but not so soft that you "can't do a thing with it." It's useful for the woman who ought to massage her scalp every night and doesn't.

The English language contains about twenty thousand words which are of French origin.

Minard's Liniment for Corns and Warts

After Every Meal WRIGLEY'S

Chew your food well, then use WRIGLEY'S to aid digestion.

It also keeps the teeth clean, breath sweet, appetite keen.

The Great Canadian Sweetmeat

Such deformities as bow-legs and knock-knees are becoming much less frequent owing to the spread of knowledge of hygiene among parents.

Free—A Short Story of Absorbing Interest

HAVE you read "A Financial Courtship"? It's the fascinating romance of two charming women and their legal adviser. The sisters through the death of their father, found themselves face to face with an acute financial problem without knowing anything about the ways of investments.

Through it all there runs a romantic interest, and one finds himself (or herself) actually "living the story" as they read.

It's the kind of story you and your family will enjoy reading on a winter's evening—particularly if you are ever faced with the problem of investing an inheritance.

If you would like a copy of "A Financial Courtship," send us your name and address and we will forward one to you free of charge. Please mention the name of this paper as a matter of record.

Before you invest, consult us.

SMART'S MOWERS

The Mower that's Guaranteed

The materials from which Smart's Mowers are made the way they are made guarantee durable and satisfactory service. The keenest cutter your money can buy. Ask for a Smart's Mower by name. JAMES SMART PLANT, BROCKVILLE, ONT.

Farm Crop Queries

CONDUCTED BY PROF. HENRY G. BELL

The object of this department is to place at the service of our farm readers the advice of an acknowledged authority on all subjects pertaining to soils and crops. Address all questions to Professor Henry G. Bell, in care of The Willson Publishing Company, Limited, Toronto, and answers will appear in this column in the order in which they are received. When writing kindly mention this paper. As space is limited it is advisable where immediate reply is necessary that a stamped and addressed envelope be enclosed with the question, when the answer will be mailed direct.

H. W.—I have three acres of black loam soil which I want to seed to alfalfa with oats this spring. I cut hay from this field, the next season it was used for hog pasture. Then it was well manured twice and drilled to corn with fertilizer, 250 pounds per acre of sixteen per cent. phosphoric acid. Have again manured it this winter. Will I gain by sowing fertilizer with the lime, and is the common lime the best to use?

Answer—Do not sow fertilizer with lime. If you mix these two you will injure the fertilizer materially and will not get as good results from it as you should. The lime reacts on the fertilizer turning the soluble plant food back into a form in which it is insoluble. Apply lime any time now, spreading it broadcast on top of the ground. When the ground is sufficiently dry to work apply the fertilizer and work it in carefully by disking and harrowing.

Ground limestone is one of the very good forms provided you do not have to haul it very far. If you are far distant from the source of supply it may pay you to buy ground burnt lime, since 56 pounds of the latter material is equal in strength to 100 pounds of ground limestone.

R. R.—I would like to get some information on sweet clover. When is the best time to sow it and how much to put to the acre? I have a field that is sandy and sowed it to sweet clover last July. Some of it came up but not very thick on the ground. I sowed five quarts to the acre. Will it winter-kill very much? Do you think it will come on better this spring, as I sowed it when awful dry?

Answer—The best time to sow sweet clover is in the spring with some grain crop such as barley, wheat or oats. As a rule from 12 to 15 pounds per acre should be sown. If the ground is of a heavy clay nature and the drainage is none too good, there is a danger of the heaving of soil in the spring, killing the clover stand. However, since your soil is sandy I see no reason why this should operate, unless for some reason water is held back on the field. Remember that sweet clover is a biennial, that is it lasts only two years. You can increase your chance of a good stand by putting on about 1,000 pounds of lime per acre, any time before spring opens and at the time you are sowing the grain and sweet clover apply

about 250 pounds of fertilizer analyzing 2-12-2. This will feed tender plants and give them a vigorous start.

J. B.—Can you please tell me the per cent. of fertilizer to make? I intend to buy my ammonia, phosphate and potash separate. What would be the best analysis for making the potash and ammonia as strong as possible for celery?

Answer—For a celery fertilizer you would do best to have one analyzing about 4 per cent. nitrogen, 8 per cent. phosphoric acid, 6 per cent. potash. To compound this material you would have to make a mixture about as follows: nitrate of soda 133 pounds, sulphate of ammonia 111 pounds, tankage 572 pounds, acid phosphate 1,000 pounds, potash 240 pounds. This will total a few pounds over 2,000 but will give you the analysis that I have recommended.

G. W. D.—Would you kindly tell me if buying pigs that weigh forty pounds each at \$5 apiece, and feeding the following feed: Chopped wheat screenings at \$30 per ton, shorts at \$30 per ton, middlings at \$35 per ton, feed flour at \$40 per ton, oil cake at \$60 per ton, chopped oats and barley at \$35 per ton, would be a paying proposition and what amounts of the foregoing feeds along with water would make a satisfactory ration for growing and also for fattening pigs?

Answer—It is rather difficult to give a definite answer since there are so many variable factors that may upset the accuracy of the same, but we may be able to give you some help by referring to two publications of comparatively recent date.

At Missouri Experiment Station by feeding hogs through self-feeders they began with an initial weight of 77.4 pounds per hog and within sixty days had a final weight of 178.9 pounds. During this time the pen was fed 1,015 pounds of grain. Feed consisted of corn 17.5 pounds, shorts 5.6 pounds, tankage 1 pound.

Ohio College of Agriculture Extension bulletins recommends for pigs such as you mentioned a ration of 50 pounds corn, 35 pounds ground barley, 15 pounds tankage. The wheat and the barley combined will to some extent substitute for the corn. I note you have left out of consideration the feeding of animal-protein source such as tankage. Modern pig feeding shows this to be highly profitable, hence I would advise you to include it in your consideration.

The Dairy

Some things are so simple and so practical that the poultryman who find them out smile—and maybe keep quiet. One of these is judging the egg-laying ability of a hen by the size of her crop. Have you ever tried it? If you have not, the experiment will be an eye opener.

I have used this plan for the past two years and find it absolutely dependable. It is only a few moments' work for me to step into a house in the evening, after the birds are on the roosts, and run my hand gently but quickly under the rows of crops. All the hens with crops as large as an average-sized egg are earning their way. The others are loafers. Surprising as it may seem, in the same hen there is little variation in the size of the crop from day to day, except in molting time, when the crop is much smaller.

As the hens with small crops are found, I move them to coops for the daylight culling tests the following morning, or to pens with trap nests. The hens with large crops need no further attention, aside from supplying their usual needs.

In Case the Eggs Get Chilled.

If everything progresses smoothly, a sitting hen will usually return to her nest in the course of fifteen or twenty minutes, but occasionally she forgets, or by some mishap she is prevented from doing so, and remains away for an hour or more. In instances like this a good many believe that the hatch is lost. I am not able to say just how long the germ in an egg will live after it becomes cold, it will depend on how long the egg has been set, and the vitality of the germ, but life will exist much longer than many would suppose possible. Last year in April, a neighbor, by oversight, shut a sitting hen off her nest at night; she had been sitting about two weeks. The eggs were from pure-bred stock, had cost quite a little, and he naturally was anxious about them. When the accident was discovered in the morning the eggs were thoroughly cold and probably had been for ten hours or more, but they were at once placed under the hen, which in the course of time brought out eight apparently strong chicks. They did not hatch until the twenty-second day, due to the chilling, but they were an active

lot of chicks and every one of them was raised.

A few years ago, in turning the eggs in an incubator, I neglected to close the door of the egg chamber, and did not discover it until nearly night. This was in March and the weather quite cold, but I got better than a sixty per cent. hatch of the fertile eggs. These chicks were not quite as strong as usual, but they did fairly well. For sitting hens it is best to have a separate room for this special purpose, and then sometimes a nest of eggs will become exposed by one or more of the setters going on with other hens. A sitting hen should be off the nest for fifteen minutes every day, when not severely cold, but if she is off for several hours I should proceed with the eggs just the same, although the result might be quite different from these two instances mentioned above.—V. M.

Hogs

I always had trouble with scours and thumps in young pigs until last spring, when I weaned 93 pigs from 13 sows with no setbacks from either cause. If I can pull the pigs through past weaning time I don't worry much thereafter.

Scours result from indigestion. I fed my sows no tankage, because feed too rich in protein will cause the pigs to scour. Middlings and oil meal made up my slop feed, and I never used more than a double handful of oil meal at a feed. A sudden change from sweet to sour milk will cause trouble. I kept the pens clean, changed the bedding often, and didn't allow the pigs to chill.

I kept the pigs from getting thumps by avoiding high feeding and by seeing that the pigs got exercise.

These ideas may seem simple, but they have the endorsement of old-time hog raisers. I know that I would not have had so many 200-pound porkers in the cornfield last September and October if I hadn't attended carefully to the little pigs' feed and exercise in March and April.

At such a time as this it is all important to lower the cost of producing farm products, and no field of agriculture offers greater opportunity in this line than does the production of live stock.

The Sunday School Lesson

APRIL 22

Moses, Liberator and Lawgiver. Lesson IV.: Exod 2: 1 to 19; 25; 32: 1 to 33; 23; Deut. 34: 1-18. Golden Text—Fear ye not, stand still, and see the salvation of the Lord.—Exod. 14: 13.

LESSON FOREWORD—Moses may be described as the founder of the Israelite nation. Only a gigantic personality could have achieved what he achieved. He found the children of Israel in Egypt reduced to slavery, broken and spiritless. He succeeded in inspiring them to confidence in Jehovah, in the sure hope that he would deliver these slaves of the escape from Egypt, with all its exigencies and dangers, required the leadership of a man of consummate ability and that leadership Moses, through divine grace, was able to provide. In to-day's lesson we catch a glimpse of him in one of the critical moments of the Exodus.

I. Encouraged, 10, 13, 14.

V. 10. Pharaoh; the official title of the kings of Egypt. All the kings of Egypt were called Pharaoh. Rameses II or his son, Merneptah, have usually been regarded the Pharaoh of the Exodus, but it is difficult to identify with certainty which Pharaoh is meant.

The Egyptians marched after them. Israel had escaped out of Goshen, the marshy lands, northeast of the Nile delta, and had reached a point near the present Suez, when an Egyptian army suddenly appeared in their rear. The Egyptians naturally would not wish to lose the valuable slave service which Israel rendered in the Egyptian building operations. They were sore afraid. With the Red Sea, and possibly strong frontier fortifications in front, and the well disciplined, well equipped Egyptian army in the rear, escape seemed impossible.

V. 13. Moses himself did not flinch. His faith and courage were equal to the most critical situations. "Stand still," in the sense of "remaining stationary" but of "continuing firm." The Israelites were not to lose their courage nor to be seized with panic. The salvation of the Lord; the deliverance wrought by the Lord. In the earlier portions of the Old Testament, the term "salvation" usually alludes to physical deliverance or material well-being.

V. 14. The Lord shall fight. In that age it was believed that each god was obliged to fight the battles of his people. His fortunes were bound up with the fortunes of his people. In their defeat he was defeated, and in their victory he was victorious. Moses believed, however, that Jehovah would be more than a match for the Egyptians, even though they were one of the great military powers of antiquity.

II. Directed, 15-18.

V. 16. Thy rod. Moses' rod was originally given him by Jehovah, Exod. 4: 17. As he was a shepherd at the time of his call, the rod may have been that ordinarily used by shepherds. It was a club about 2½ feet long, with a large knob at one end, into which were driven large-headed nails. This was used as a weapon against robbers and wild animals. According to the stories told in Exodus, Moses worked miracles. Elisha used a staff to do wonders. The sea, The Red Sea, or as the Hebrews called it, "the Sea of Weeds" corresponds with the modern Gulf of Suez, opposite a place called Migdol (v. 9) where the Egyptians probably had fortifications to defend their borders against nomadic invaders.

V. 17. Harden the hearts of the Egyptians. The Hebrews, with their strong sense of the sovereignty of God, referred to things done by man to the direct operation of God. Thus when the Egyptians were emboldened to enter the sea in pursuit of the Israelites, their action was regarded as a part of God's plan for Israel's deliverance. God hardened the hearts of the Egyptians only because they had first hardened themselves. Get me honor upon Pharaoh; by overthrowing him. A race of helpless slaves were to be victorious over the powerful Egyptians and the Egyptians themselves would ascribe the victory to Israel's God.

III. Delivered, 19-22.

V. 19. Up to this juncture, the angel of God and the pillar of cloud had gone in front of the Israelites, but now they moved to the rear.

V. 20. Between the camp of Egypt and the camp of Israel. The cloud served as a wall of separation between the two armies. It is difficult to interpret the Hebrew text at this point, but we may suppose that the dark side of the cloud was turned to the Egyptians and prevented them from seeing what they were doing while the light side turned towards Israel and showed them the way even in the night.

V. 21. It is represented here that a strong wind drove back the waters in such a way as to permit the Israelites to pass through the sea. The miraculous element would then be that God should send the wind at the opportune moment. Geographers maintain that near the Suez the water is shallow and that a strong wind, blowing in the right direction, might lay bare the channel and permit a passage. In modern times Arab tribes have been known to cross the sea under these circumstances. But as Driver says, "the fact of the Israelites' passage of the Red Sea can be questioned only by an extreme and baseless scepticism."

APPLICATION.

The story of Moses and his amazing achievements is so replete with religious teaching that the difficulty is one of selection. The following lessons, however, are of paramount importance.

1. Let us have reverence for the little child,—no one can foresee the vast enterprises that God will ask the young child to carry through for the forwarding of the race. One cannot calculate the influence of a child. The attention of Christian people is being directed persistently in the direction of child preservation and education. Professor Ellwood, writing as a Christian sociologist, declares that "child welfare is the central problem of civilization, and social science shows that it is impossible of solution without a normal family life."

2. Leadership and far-reaching public service do not come by chance, but are the result of patience, discipline, education and the training of the years. One hears of untrained evangelists doing much good. It happens that way occasionally, but it is well to remember that one of Jesus' main ideas was to educate and train the disciples to carry on his work after his death. On the whole, the work of the Christian church will be best carried on by highly trained men and women.

3. The greatness of a leader lies in the clarity of his vision and in his devotion to the cause so that no temptation of the world divides his heart for a moment. Moses set at naught the riches, the high offices that might have been his had he simply acquiesced in the bondage of his people, and the ease that a prince of Egypt might have,—these he tossed to one side as refuse.

4. Moses brought the world "eternal gain" because he led it into a new thought of God, and taught men that while human oppression was a cruel thing, freedom is useless without obedience to divine law. We need to learn this lesson to-day. Of what avail is it to throw off the yoke of Nicholas, and take on the yoke of Lenin without spiritual sanctions?

I Keep My Tile in Order.

My drain tile are about the best investment I ever made, and I want them to work. So every year I try to check up their performance during April. With the frost coming out and the rains coming down, I find it easier then to locate obstructions, clean out clogged tile, fix broken places, and see that the outlets are working properly. A few hours' time walking over the farm after an April rain pays me well, for a drain left out of order usually means a few bushels off the crop yield somewhere.—M. H.

Giving.

I prayed for great things—gave the small.
I prayed; no answer to my call.
I prayed that I might give great things.
My prayer was heard. On airy wings
There came to me from God's own hand
My heart's supply, my soul's demand.
—Margaret Olive Jordan.

The following of carefully planned rotations will tend to standardize production and, therefore, prices.

Irrigated Farms in Southern Alberta

In the Famous Vanhull Districts
Bow River Irrigation Project
An especially good location for mixed farming and dairying. Splendid opportunity for young men now living in districts where good land cannot be bought at reasonable prices.
THIS IS NOT PIONEERING. The first 10,000 acres are fully settled and another 10,000 acres now ready for settlement; maximum distance from railroad, seven miles. Good roads, telephones and schools. Easy payments, extending over 18 years.

H. E. Bywater, Editor and Proprietor

Here and There

Canada's export trade grew \$174,000,000 in the first eleven months of the fiscal year ending March 31st.

A recent and popular Canadian Pacific appointment is that of Mr. Walter Maughan to Steamship Passenger Manager. The appointment includes management of the company's passenger business on both the Atlantic and Pacific oceans.

Fire insurance companies found 1922 the most disastrous year for more than 20. The ratio of losses to premiums was 68.64 per cent. British companies suffered most severely, their losses to premiums being 148 per cent, mainly due to the Northern Ontario fire.

A gold rush is in full swing and it is expected to bring about the development of more mining camps in the counties of Temiskaming and Abitibi. Gold was discovered in these two counties early in 1922, and a rush of prospectors began in March of that year. In October, 250 claims were staked, comprising 50,000 acres of land, and to date about 90,000 acres have been staked.

In the last fiscal year, Canada imported 1,363,000 pounds of butter from the United States, 297,000 pounds from Australia and 2,254,000 pounds from New Zealand. The total exports of Canadian butter were 8,430,000 pounds.

It is announced that the running schedule of the Trans-Canada Limited, which will operate between Montreal, Toronto and Vancouver, commencing May 29th, has been cut down one hour. Considering the all steel equipment and luxurious appointments and its regular daily on time performance, this is the finest long distance train in the world.

Bungalow camps, such as are operated in the Canadian Rockies, are to be built in the French River, Nipigon Bay and Lake of the Woods districts of Ontario by the Canadian Pacific Railway. Low cost of construction and maintenance will enable the company to offer lower rates than standard hotels. The first three will be ready for occupation by July 1st.

According to a recent rearrangement of ports of call in the Orient, the Canadian Pacific Steamships Limited, by omitting Manila as a port of call between Shanghai and Hong Kong, will bring the latter port four days nearer to Canada, the United States and Europe. This makes possible a through service from London, England, via Canadian Pacific Atlantic Expresses to Quebec and rail to Vancouver and via Canadian Pacific Expresses to Hong Kong under 28 days.

During the year 1922 the Canadian Pacific Railway handled a total of 8,435,825 pieces of baggage as compared with 8,732,674 for the previous year. Of this amount 5,175,203 pieces were passengers' baggage which compared with 5,436,455 for the previous twelve months. 9,697 bicycles were handled, 19,936 dogs travelled as baggage and 23,988 baby carriages were moved. There was also a considerable increase in the movement of milk. In 1922, the Company moved 1,623,707 cans as against 1,614,791 in 1921; and it is remarkable that most of this increase was in the three provinces, Manitoba, Saskatchewan and Alberta, which is an apparent indication of the further development of mixed farming in those provinces.

One of the best examples of a town "growing up over night" is that of Climax, the end of steel on the Consul-Assiniboia branch of the Canadian Pacific Railway. All that there was on the quarter section on February 19th, the day on which the site of the new town was finally settled, was a homesteader's shack and a small barn. When the steel was laid in Climax on March 15th there was a restaurant, one rooming house, over a score of dwellings, two blacksmith's shops, a drug store, gents' furnishing store, a big general store, pool room and barber shop. The new town is situated in four large flat warehouses in which nearly 100,000 bushels of grain were stored, and a butcher shop. The new town is situated in Lone Tree R.M. number 18, about 80 miles south of Shaunavon.

Here and There

The Swiss Government has appropriated 600,000 francs for the purpose of assisting the emigration of unemployed workers, especially as farmers to Canada.

Saskatchewan now stands first in the world in regard to the number of rural telephones per capita, with a telephone for every nine of the population.

The Canadian Pacific Railway has a survey party in the Rouyn goldfield, plotting a route in case it should be decided to push further northward the line now being built from Mattawa to Quinze.

Construction work on a 39 mile extension of the Acme-Empress line running from Drumheller to the Bull Pond will be commenced this year according to statement made by D. C. Coleman, vice-president of the Canadian Pacific Railway.

Organization of the Okanagan fruit growers into a co-operative association has now been accomplished. Among the main difficulties which faced the co-operative advocates was the raising of adequate credit to finance the whole scheme. This has been overcome.

The United States bought Canadian produce during February to the value of \$26,719,205 in comparison with \$20,116,356, Canada's exports to the United States in 1922. Exports of Canadian produce to the United Kingdom were \$17,874,260 in February 1923, and \$15,316,265 in February 1922.

Canadian exports of whiskey for the year ending March 31st, 1923, amounted to 339,181 gallons valued at \$2,698,377; for the previous year the quantity exported was 192,910 gallons valued at \$882,729. Ale and beer exported during the past year amounted to 1,454,629 gallons, while for the previous twelve months the amount was only 421,960 gallons.

Making Canada Europe's best and quickest road to the Orient means much to this country and the Canadian Pacific Railway, in rearranging its route from England or France to Japan so as to reduce the journey by four days, has made the route more than ever a serious competition of travel via the Suez Canal. About 10,000 miles in 21 days is better than even Jules Verne thought of.

A silver tag attached to the dorsal fin of a salmon before its release after the eggs have been removed at the Dominion Government hatcheries is one of the methods resorted to by the Fisheries Department for tracing the life history of the fish. A reward of \$1 is paid by the Department for the return of silver tags that are being attached to Atlantic salmon, together with scales from the side of the fish, and particulars regarding their length, weight and place of capture.

NOTICE—No copy for "The Reporter" will be accepted later than Wednesday (noon)

THE ONTARIO ELECTION ACT

Electoral District of Brockville.

NOTICE OF SITTINGS OF REVISING OFFICERS.

TAKE NOTICE that Sittings of the Revising Officers for the purpose of hearing complaints or appeals will conform to the Voters' Lists to be used at the election of a member of the Assembly pending for the Electoral District of Brockville will be held at the following times and places, namely:

At the Chancery Chambers in the Court House in the Town of Brockville for the East and South Wards of said Town, Judge Dowse, Revising Officer, George K. Dewey, his clerk, whose address is Victoria Building, Brockville.

At the Chancery Chambers in the Court House in the Town of Brockville for the West, North and Centre Wards of the said Town, Judge Reynolds, Revising Officer, George K. Dewey his Clerk, whose address is Victoria Building, Brockville.

Such Sittings to commence on FRIDAY, THE FIRST DAY OF JUNE, 1923, at two o'clock in the afternoon, and will continue until nine o'clock p.m. of the 2nd June, or until the appeals have been disposed of. Last day for filing appeals 29th MAY, 1923.

At the Court House in the Town of Brockville for the Township of Elizabethtown on FRIDAY, THE 1st DAY OF JUNE, 1923, and that Judge Reynolds will be the Revising Officer and his Clerk will be J. S. Webster, whose address is Bellamy's, and such sittings will commence at one o'clock in the forenoon and will continue until twelve o'clock noon or until the appeals have been disposed of.

Last day for filing appeals 29th MAY, 1923.

At the Township Town Hall in the Village of Athens for the Township of Bear of Yonge and Essex on WEDNESDAY, THE 23rd DAY OF MAY, 1923, and that M. M. Brown, Esq., will be the Revising Officer and his Clerk will be R. E. Cornell, whose address is Athens, and such sittings will commence at one o'clock in the afternoon and continue until four o'clock or until the appeals have been disposed of.

Last day for filing appeals 19th MAY, 1923.

At the Village Town Hall in the Village of Athens for said Village on WEDNESDAY, THE 23rd DAY OF MAY, 1923, and that M. M. Brown, Esq., will be the Revising Officer and his Clerk will be J. M. Edgar, whose address is Toledo, and that such sittings will commence at three o'clock in the afternoon and continue until four o'clock or until the appeals have been disposed of.

Last day for filing appeals 22nd MAY, 1923.

At the Township Town Hall, Lombardy, for the Township of Elmley South on TUESDAY, THE 29th DAY OF MAY, 1923, and that A. Baker, Esq., will be Revising Officer and his Clerk will be A. E. Wood, whose address is Lombardy, and that such sittings will commence at three o'clock in the afternoon and continue until four o'clock or until the appeals have been disposed of.

Last day for filing appeals 26th MAY, 1923.

All persons are called upon to examine the Voters' List in order to ascertain that their names are correctly entered.

AND FURTHER take notice that any voter who desires to complain that his name or the name of any person entitled to be entered on the same list has been omitted from the same or that the names of any persons who are not entitled to be voters have been entered thereon may, before the day hereinbefore mentioned as the last day for filing appeals apply, complain or appeal to have his name or the name of any other person entered on or removed from the list.

AND FURTHER take notice that such appeals must be by notice in writing in the prescribed form signed by the complainant in duplicate and given to the Clerk of the Revising Officer or left for him at his address as stated above. There must be separate appeals for each polling sub-division.

DATED this 11th day of May, 1923.

J. K. DOWSLEY, Chairman of the Election Board for the United Counties of Leeds and Grenville.

Well Drilling!
THIRTY YEARS EXPERIENCE

I have the latest style drilling machines, which are capable of doing good work—also handled by men of experience.
I Guarantee Water—I am willing to send one of my drills in your district for three orders. I expect when you see the results others will take advantage and have their wells drilled also. My terms are very reasonable. Write me and I will go up and make arrangements with you. I have drilled over two thousand wells.

FIRST TRANSCONTINENTAL TRAIN

Canadian Pacific engine 374, which drew the first train into Vancouver, B.C., 35 years ago.

THIRTY-FIVE years ago the first Canadian Pacific Railway transcontinental passenger train steamed into Vancouver, and the steel link of 3,000 miles binding ocean to ocean in Canada was at last complete. Quaint to modern eyes looks old locomotive No. 374, which drew this first Atlantic Express. It burnt cordwood, and with its big smokestack, its generous display of polished brasswork, which shone like gold; its array of flags and floral decorations, made an imposing spectacle. Coal burning engines had drawn the train over the eastern and prairie sections of the line. President E. W. Beatty of today was a small boy at school in Toronto, when old No. 374, with old Peter Righter at the throttle and George Taylor poking logs of resinous Rocky Mountain spruce into the fire-box; Brakeman J. Madigan and Baggage-master J. Kavanaugh and Conductor Barnhart in charge of the train, snorted her way down the forbidding defiles of the Fraser, and along the densely wooded shores of the Burrard Inlet, pulled up at the terminus with a hissing of the old air brakes amid the blare of brass bands and shouts of acclaim from the assembled citizens of Vancouver. That day, a memorable one in the history of Canada, will always be one of Vancouver's most important anniversaries. In 1887, the journey from Montreal to Vancouver, which now takes but four days, consumed a full week.

"Queen's weather ushered in the day long looked for by the Vancouverites—the blending of the Occident and the Orient," states a despatch sent that day from the Coast. "When the train reached Vancouver carrying the officers of the road and your special correspondent, it was greeted with ringing cheers in every direction. Steamers floated on the breeze across the track at different points, while the ships and boats in the harbor were resplendent with variegated colors. At the railway wharf it seemed as if all Vancouver had congregated, and a mighty shout went up as the train thundered into the station under a double archway of fir.

"There were many eastern travellers who proudly boasted that they were the first to come through from Montreal. The Vancouver City band struck up "See the conquering hero comes" in good time, as Mayor McLean mounted the platform and proposed three cheers for the Canadian Pacific Railway and its popular local manager, Mr. Abbott, who made a grateful acknowledgment. The mayor then read a complimentary address to Mr. Abbott, who replied in pleasant and suitable terms and made an appropriate reference to the able assistance which he had received from William Downie, assistant superintendent; W. H. Armstrong, superintendent of construction, and C. E. Brown, general freight agent."

Valuable Farm For Sale

IN FINEST LOCATION

Farm for sale, situated on the main highway on the St. Lawrence, about 2½ miles east of Brockville, consists of two houses, two barns, silo, ice house, milk house, equipped with boiler, washer and sterilizer. This farm is suitable for dairying, fruit growing or market gardening.
Two hundred McIntosh apple trees in their third year.
Plenty of wood in rear of farm to last a lifetime.
Great quarry of blue limestone for building purposes.
Twenty-eight head pure-bred Holstein cattle. These are extra choice.
Two team horses; three broad sows.
Farm is equipped with all new implements within the last three years, consisting of wagons, sleighs, harnesses and all kinds of farm implements.
Also a first-class milk delivery equipment and route will sell with farm if desired.
The above is on a money-making basis for a good live man who can give his whole attention.
Has first-class well and never failing springs.
Possession can be had at once.
Also some very choice building river lots, for sale. Apply to

Send For These Tested Bread Recipes

FOR housewives who want to know all about Quaker Flour, we have compiled a folder of home-made bread recipes. They were furnished by enthusiastic users of Quaker Flour and each has been thoroughly tested by our Master Baker. These recipes make bread-making easy in the home. A postcard addressed to us will bring you a copy, without charge. There is no uncertainty about the way Quaker Flour will bake, because every bag is uniform in quality. It is tested hourly in the milling process.

Each acre of corn grown in Ohio costs on an average 46.26 hours of labor.

Canada is now second on the list as an exporting land, the per capita being \$100.63 per annum.

A new station is being built by the Canadian Pacific Railway at Fredericton at a cost of \$50,000.

Half a million Canadians look to the forests each day for their meals and lodging, and more than 100,000 Canadian workmen are engaged in converting forest products into one form or another.

The large party of Hebrideans who were brought to Canada on the Canadian Pacific Steamships "Metagama" and "Marloch" have gone to Red Deer, Alta., where they will form an agricultural colony.

Seven hundred farmers and farm laborers arrived in Canada recently on the Canadian Pacific steamer "Montcalm." These colonists are proceeding to Ontario and western points where they will take up farm work.

The project of a ship canal across Scotland from the Clyde to the Firth of Forth was brought to the fore again at a recent meeting of the Mid-Scotland Ship Canal Association, and there is a possibility of something being started in this connection in the near future.

A single pair of potato bugs would, without check, increase to 60,000,000 in one season; the hop aphid, developing thirteen generations in a single year would, if unchecked to the end of the twelfth generation, have multiplied to ten sextillions.

Canadian air pilots flew 294,449 miles carrying 9,153 passengers and 77,850 pounds of freight in 1922, according to a report of the Canadian Air Board, Saskatchewan pilots led in the Dominion, carrying 3,622 passengers, Manitoba pilots carried 1,622 people, and British Columbia pilots 1,122.

A company has been formed in London to exploit sunken treasure in Navarino Bay, off the west coast of Greece. The promoters state that there is a matter of \$45,000,000 in bullion and other forms still at the bottom of the Bay, where it was sunk with the united fleets of Egypt and Turkey by the united British, French and Russian fleets in 1827.

Last summer 4,000 forest fires cleared away at least ten times as many trees as were cut down for lumber, pulp and paper, and all other industrial purposes. A very large percentage of the fires were caused by careless campers and sportsmen who "thought it would die out" or cast away a lighted match or cigarette end.

Improvement of camping facilities at Banff for automobile tourists is now being made. The Mount Rundle camp site is being improved and enlarged, and will be equipped with all modern appliances. It is expected that as a result of the opening of the Banff-Windermere road this year, the tourist traffic through Banff will be the heaviest ever recorded.

Here and There

Fort William—E. G. Noble, first aid instructor on the Canadian Pacific railway, who for the past seven years has been instructor on the eastern divisions, is in the city preparing to take charge of the whole of the western divisions, from Fort William to Vancouver, and to organize first aid classes among the employees of the railway company and instruct them in the emergency treatment of accidents.

St. John, N.B.—The Canadian Pacific Railway has to Jan. 6th shipped more than two million bushels of grain more than during the corresponding period last year. This season's shipments have already totalled 4,987,164 bushels as compared with 2,658,582 bushels on the same date last season. The outlook is for a continued heavy movement.

London, England—Shareholders of the Canadian Pacific Railway here have been officially informed that a measure of relief is to be granted them from the British income tax for the fiscal years 1919 and 1920 in respect of the company's payment of the Canadian income tax. This is the first official word on the subject of Canadian Pacific shares. By the Finance Act of 1920, however, all British subjects resident in overseas Dominions were granted for 1920, in some cases for 1919, and in the future, the right of reclaiming the British income tax as though actually resident in Britain. This affected Canadians deriving income from within the British income tax had been deducted. It is estimated that the amount saved by Canadians so situated, if they did not neglect to file their claims under the Act, would be over \$1,000,000.

Golden, B.C.—That the provincial government will commence work on the Golden-Leanchoil road early in the spring, is announced by J. A. Buckham, M.L.A. A survey will be made as soon as possible and the work will be done by contract. The cost is estimated at \$234,000. That portion of the road to be constructed by the Parks branch of the Dominion Government will also be got under way this year, it is stated.

The completion of this road will create a large amount of tourist traffic through Golden, and will also afford a loop whereby local cars may travel to Calgary and points in Alberta, and return over the newly completed Banff-Windermere road to Golden, passing some of the most magnificent mountain scenery on the continent.

Ottawa—The "Ottawa Evening Journal" has the following editorial which is good reading for automobile drivers all over the country:

This is the season of the year when statistics begin to appear. Among them will be those dealing with automobile accidents, and it will probably be found that the railway level crossing is still the most favored location for traffic mishaps of varying degrees of seriousness. This time of the year may also be a favorable one for considering the matter of accidents at railway crossings, especially in this locality. Ottawa has a number of railway crossings, although not more than the average Canadian city. Automobile accidents frequently happen at these crossings, and they are usually caused through negligence on the part of car drivers. An obligation to use reasonable care rests upon all users of the highway, whether they walk, drive a wagon or drive a motor car. Most people do exercise that care, the more cautious ones even being wise enough to stop, look and listen. But there are others who do not. Official records of accidents at the railway crossings in Ottawa prove this beyond doubt. There are actually on record cases where men have driven their cars into trains at a standstill on a crossing.

Here is an illuminating case. On December 18th an engine was going towards Bank street on the railway tracks with four cars and a crew. When approaching Booth street crossing, the whistle was sounded and the bell was rung automatically. A motor car, to quote the official report, "coming at about 30 miles an hour attempted to cross in front of the engine. Brakeman Little, who was riding on the front footboard, gave the engineer the signal to stop and he applied the brakes in emergency. The automobile stopped right in the middle of the crossing and the engine came up against it and pushed it a few inches, leaving a small scratch on the car. The driver would not give his name, but drove off, remarking, "Oh, to hell with it." That is not all. Automobile accidents have happened on city crossings which are protected by watchmen or in other ways. From November 9 to 27, 1922, on the crossings at Booth (corner Britannia), Queen and Main streets, there were ten instances, four of which were on one way, of local car drivers disregarding stop signals or getting on to the tracks with the gates down. To most persons this sort of recklessness is almost incomprehensible, and seems to warrant the most drastic reprisal measure: A driver who disregards a watchman's signal deserves the strongest condemnation. To prevent accidents, it is essential that motor-drivers should co-operate with the railway officials. The great majority may be depended upon to do this. And the drawing of attention to the foregoing facts may induce the minority to think a little more deeply on the subject.

CHEESE FACTORIES OPEN.

The cheese factories of the district have practically all opened for the season after an unusually late spring. So far the flow of milk has been very small.

Here and There

An addition to the Canadian Pacific Montreal-Toronto train service is a nightly train each way, making six trains every night between the two cities. The increase was found necessary on account of the heavy tourist traffic to Montreal from the West.

The opinion of Hon. T. D. Pattullo, Minister of Lands of British Columbia, is that "Canada can absorb at least 300,000 people annually, and this number can come on indefinitely. There is no limit to the requirements of the country. As many as we can get are wanted.

Nova Scotia is endeavoring to arrange an "old home" month during July or August of 1923, and it is expected that many from distant parts of Canada and the United States will visit the towns of their origin during the festival period set apart.

Incomparable Lake Louise has achieved new fame. The makers of the Gray-Dort car have put out a model in a new color which they term "Lake Louise Blue." It is of a lovely green-blue, and if it has caught anything of the glorious gleam of Canada's most beautiful mountain lake it should be a popular color for other than motor cars.

Big Bill, the last surviving buffalo at the Pinaford Park Zoo, St. Thomas, was recently shot. The animal had been suffering for some time from the same malady which carried off his mate a few months ago. Big Bill was said to have been the finest specimen of Buffalo east of the Government Park at Wainwright, Saskatchewan.

Albert Steedwell, Canadian Pacific Railway engineer at Fort William, has an alreade dog that is a wolf killer. Mr. Steedwell has a farm at Upsala, and while visiting the farm the dog routed out a brush wolf and chased it. During the subsequent battle one could hardly tell which was dog and which was wolf. Mr. Steedwell went to the assistance of his pet and together they finished the wolf.

T. W. McKenzie, Canadian Pacific Railway agent at Rosemary, Alberta, has received letters patent on a device for the purpose of locking automobiles. It is so constructed that when the switch is thrown off the car is automatically locked, thereby eliminating the possible chance of an owner leaving his car unprotected. The device cannot be operated nor the car started by an unauthorized person without causing an alarm.

The number of persons killed or injured while trespassing on railroad tracks was 50 per cent less in 1922 than the average of the preceding fifteen years. The figures are 5,300 for nine months of 1922 compared with 10,736, the average for the previous year, according to an announcement made by the Safety Section of the American Railroad Association. This reduction in casualties is claimed to be due to the improved policing by the roads and to success of the Safety First movement.

SAFETY Versus HIGH INTEREST

Many a man has lost his hard-earned savings because of the fatal lure of high interest. A safe general rule to remember is—the higher the interest, the greater the risk.

Athens Branch: W. D. THOMAS, Manager.

FROM HARD TIMES TO CANADA.

Do the pipers lament? Migrants aboard the tender of the **WHEN** the Canadian Pacific steamships "Marloch" and "Metagama" last docked at St. John, Canada gained to the extent of over six hundred able-bodied and industrious farmers, farm workers and women from the Hebrides. Forced by the loss of their fishing trade through the war and German competition, and by general hard times to leave their thatched homes, these people have come to a land of promise and have been welcomed as the most valuable immigrants in years. Under the leadership of Rev. Alexander J. Gillies and Rev. John MacMillan, they have gone to the Red Deer district of Alberta and to various parts of Ontario, where they will engage in agriculture. Most of them are from the island of South Uist, Benbecular and Barra. Here their families worked small farms of from ten to twenty acres and kept a stock of from two to eight cattle and ten sheep on common pasturage. In the spring they gathered seaweed for fertilizer, planted oats, barley, rye and potatoes, and when this was done took to the sea, some to engage in fishing, which brought but small monetary return, and others to join the merchant marine. In the fall those who were near returned home, harvested the small crop and thatched their houses. But there was not work for all. It was of no use to fish when there was no market and one man could do the work of the farm which produced but little. The wolf was at every door, almost, and the emigration officer received more applications for information and later assistance than he could comfortably handle. These people having arrived and received welcome have already buckled down to work. Their losses at home have gone to Red Deer where they will build their own church and school, and in addition to English they will retain their own native Gaelic tongue. The remainder of the immigrants have been split up as hired men in various parts of Ontario. Over four hundred were passengers on the "Marloch," the rest on the "Metagama."

Dominion News in Brief

Invermere, B.C.—Lionel Barrymore, and an all-star cast, under the personal supervision of E. H. Griffith, are at present in this district producing a new film based on Arthur Stringer's novel, "Snow Blind." The film is being made for Famous Players, and later will be released through some 7,000 theatres in Canada and the United States. It is of interest to note that during the past few years several large film producing companies have been using the magnificent scenery of the Canadian Rockies for exterior scenes, while the interior views are being taken in the East or California.

Calgary, Alta.—Considerable branch line construction will be made in Western Canada this year by the Canadian Pacific Railway, according to D. C. Coleman, Vice-President of Western Lines. Mr. Coleman states that it is proposed to complete the Lanigan northerly branch from the present terminal at Naicam to Melfort. Work will be undertaken on the Cutknife-Whiteford Lake line, which will be carried to the crossing of the Battle River this season. The first two sections of the Milden-Empress line, 59 miles in all; the first two sections of the Leader southerly line, 50 miles, and the first section of the Wymark-Archive line, 25 miles, will be completed. Mr. Coleman stated it was also intended to build from Drumheller south to the Bull Pound, a distance of thirty-nine miles. Work is now proceeding on the first two sections of the Consul-Assiniboia branch.

Regina, Sask.—Saskatchewan now stands first in the world in regard to the number of rural telephones per capita, with a telephone for every nine of the population. It is estimated that the Saskatchewan Government has \$11,000,000 invested in urban telephones with 81,800 subscribers, while rural companies in the province have invested \$15,000 with 58,000 subscribers.

Port Arthur, Ont.—Local marine men are looking forward to a busy season of navigation. There is considerable grain in store ready to move out and a large quantity of freight to come here from the East. The fleet on the Great Lakes will be augmented by 41 new vessels, the majority of which are now building for Canadian companies in Great Britain.

Quebec, Que.—It is reported that a gold rush is in full swing, which may bring about the development of more mining camps in the counties of Temiskaming and Abitibi, just east of the Ontario boundary. Gold was discovered in these two counties early in 1922, and a rush of prospectors began in March of that year. In October, 1922, 250 claims were staked, comprising about 50,000 acres of land, and this, with other claims staked earlier in the year, and since October last, would bring the total number of acres up to about 90,000.

Halifax, N.S.—Upwards of two hundred boys, most of them between the ages of twelve and fifteen, on their way to farms in the Canadian West, landed here recently. These boys were brought out under the auspices of various societies interested in child welfare work.

THE ROYAL FAMILY IN A VILLAGE SETTING

The Yorkshire village of Goldsborough was the scene of a royal family party when the King's grandson, Princess Mary's son, was christened in the village church. The tiny church held only the tenants and villagers, but thousands of visitors watched the party on its walk from Goldsborough Hall to the church. The picture shows Princess Mary and the King, followed by the nurse and baby, the Vicar of Goldsborough, and the Archbishop of York preceded by his Chaplain. Above Queen Mary, in a merry mood, who led the procession with her son-in-law, Viscount Lascelles.

it up into line with the rails within a day and to replace the shattered concrete with timber supports.

Although such acts of sabotage are officially disavowed on the German side, there is unofficial exultation when they are announced, and it is becoming more and more obvious that there is an official sabotage organization plentifully supplied with high explosives and directed by a staff of German engineers in selecting strategic points for destruction.

SCOURING MOUNTAINS IN SEARCH OF VALERA

Six Columns of Free State Troops Search Tipperary for Rebel Leader.

A despatch from Dublin says:—Six columns of Free State troops under General Prout are scouring the mountains in Tipperary for Eamonn de Valera, Dan Breen and other Republican adherents who escaped the National troops when Liam Lynch was fatally wounded and captured. This operation is the best organized effort yet made to capture de Valera.

The area in which the troops are operating is very mountainous, and little information regarding their movements is trickling through. Thomas Keating, one of the Southern irregular leaders, died on Thursday from his wounds in the Dungan Hospital. Keating, with a party of irregulars, was surprised by troops operating at Coolnasnear, near Dungan, County Waterford. The irregulars refused to surrender and were fired upon, Keating receiving a mortal wound. He was one of the most active of the Southern irregulars.

Considerable discussion took place in Dail Eireann Thursday over the position of the Free State army, the contention having been raised in some quarters that the military branch is not sufficiently under civil control. President Cosgrave arose and declared that General Mulcahy, Minister of Defence, had his entire confidence and that there was no intention of disturbing him in his direction of military affairs.

SCOTLAND YARD RAIDS IRISH HOMES

Active Propaganda Work in London Halted by Detectives.

A despatch from London says:—Another secret raid upon persons suspected of plotting in behalf of the Irish Republican cause was made in London Saturday morning, according to the Daily Express. The paper mentions Greenwich, Woolwich and Bermondsey as the districts where the police operated.

Scotland Yard detectives went in automobiles to the various districts and swooped suddenly on numerous houses. The occupants were taken completely by surprise; many of them were abed. Important documents referring to the activities of the workers for the Irish rebels are said to have been discovered in the search, which occupied some hours, but the Express does not state whether there were any arrests.

Since the round-up of March 10-11, the paper adds, it has become known that a considerable number of men, women and girls, belonging to the Irish revolutionary party, were continuing active propaganda work in London. This led to exhaustive inquiries and Saturday's raids.

CANADA PUTS STOP TO SILK SMUGGLING

Vigilant Officials Stamp Out Illicit Traffic Along the Niagara Frontier.

A despatch from Bridgeburg says:—Collector of Customs and Excise Frank T. Pattison believes that the backbone of the silk-smuggling industry has now been broken. With additional preventive measures that have been taken, it is his belief and the belief of other officials that silk smuggling has been practically stamped out along the Niagara border—a far different condition from that which existed two years, or even a year ago at this time.

Officers stationed at this frontier port have been active and on the job 24 hours a day for some weeks in efforts to secure the upper hand of the smuggling combine.

Cigarettes are about the only problem left with which border Customs officials have to cope. This later traffic is likewise being cut down to a minimum although it is difficult entirely to stamp it out.

The frontier port of Bridgeburg has come through, with honors, a difficult task in stopping the activities of the silk smugglers, and it is now predicted that the textile trade, struck several bad blows through successful coups by the rivermen who were handling the smuggling, will now revive considerably. It will be impossible totally to check silk smuggling, but at the same time it is believed it is now as closely confined as it is possible to keep it.

The Queen of Holland, Queen Wilhelmina of Holland, who was crowned twenty-five years ago. She has been invited to visit New York next year to join in the celebration of the three hundredth anniversary of the founding of Dutch colonies in the New World.

Apples, pears, beans, poultry, oysters, frozen meat, bacon, flour, and bars for copper-making helped to make up the 10,000-ton miscellaneous cargo of an Atlantic liner which recently reached Liverpool from New York.

The number of forest rangers engaged in the work of forest control, with the object of preventing fires in the vicinity of the borders of Quebec and Ontario, will be tripled during the coming season, according to a statement made by the Provincial Minister of Lands and Forests. It is anticipated that a similar protection will be afforded the forests on the Quebec-Maine line.

DISSOLUTION OF ONTARIO PARLIAMENT WITH ELECTIONS LAST WEEK IN JUNE

A despatch from Toronto says:—The fifteenth Legislature of Ontario is to be dissolved on or about May 4, and the Provincial general election will follow in the last week of June.

This announcement was made by Premier Drury to the Legislature when the House met on Thursday afternoon. It followed a busy morning of conferences with the Ministers and a meeting of the Cabinet in Council. The sensational episodes of the overnight sitting had left the atmosphere at Queen's Park tense with expectancy, and many rumors of "developments" were afloat.

It was evident from the moment when Ministers and members started to arrive at the Buildings that all parties and groups took for granted the imminence of an appeal to the people. Pre-election preparations got under way openly. Group conferences took place at various party headquarters. A full attendance of members and crowded, curious galleries greet-

ed Mr. Speaker when he took the chair at the formal opening of the House. The Premier did not leave any doubt as to the procedure upon which the Government had determined. Immediately following his announcement of pending dissolution he introduced in blank three electoral bill—redistributive, proportional representation and the single transferable vote system in single-member ridings. Those bills are to be first dealt with by a committee consisting of 11 Government members, 5 Liberals, 5 Conservatives and 1 Independent, with the Speaker as Chairman.

Canada led the world in 1922 in the export of raw furs to the United States. The total fur catch for that year was over 4,000,000 pelts, valued at \$16,000,000. While the general price of raw furs shows a downward trend, the total catch shows a remarkable increase.

Nearly four thousand persons designated as farmers, ranchers and fruit growers in Canada were registered as shareholders in Canadian chartered banks in 1922, according to a report tabled in the House of Commons. By provinces, these shareholders were distributed as follows: Alberta, 216; British Columbia, 93; Manitoba, 830; New Brunswick, 65; Nova Scotia, 245; Ontario, 1,188; Prince Edward Island, 38; Quebec, 465; and Saskatchewan, 747.

Guide Chief in Canada Lady Olive Baden-Powell, wife of the founder of the Boy Scout and Girl Guide movements, who is in Canada with her husband, and is being greeted by the Guides in all parts of the country.

ALBERTA COAL OF SUPERIOR QUALITY

Anthracite Delivered in Ontario at About Seventeen Dollars Per Ton.

A despatch from Ottawa says:—"You would need several adding machines to estimate the amount of anthracite in the hard coal areas of Alberta," Joseph Errington, discoverer of the Alberta fields, told the Commons Committee on Canada's Fuel Supply Thursday afternoon. The Hoppe field, he estimated, extended about 85 miles north and south and 30 miles east and west. Replying to E. J. Garland (Bow River), he agreed that the coal might run 100,000,000 tons, but it would be foolish, in his opinion, to attempt to estimate the amount.

Coal in the Alberta hard coal area was equal to any mined anywhere in the world. There was also a great deal of coal which was suitable for coking. Transportation, however, was the great problem.

He estimated that coal from the anthracite areas could be placed in Toronto at about \$16 or \$17 a ton. There would be additional charges for retailing. The coal was superior to Pennsylvania anthracite now being delivered to Canadian points.

Mining conditions in the Alberta field were superior to those in the Pennsylvania field, and the coal itself was clean and did not deteriorate. The public would not need further education in using Alberta coal. If the field was developed it would also provide a profitable tonnage for the Canadian National Railways.

King and Queen Speak to Children on Empire Day

A despatch from Ottawa says:—Their Majesties the King and Queen are to address messages to the children in the elementary schools of the Empire on May 24, and have arranged to have these recorded for gramophone reproduction, so that the children may hear the messages in their Majesties' own voices.

Heads N.C.E. Mr. Vincent Massey, of Toronto, who is keenly interested in many branches of educational work, has been elected president of the National Council of Education, at the convention in Toronto.

HIGH EXPLOSIVES WRECK RY. BRIDGE

Germans Counteracting French Progress in Ruhr by Acts of Sabotage.

A despatch from Buer, Germany, says:—The ire of the Germans is counteracting French progress in seizing coke in the Ruhr, by destroying waterways and railways through which coke might be moved into France.

A charge of high explosive blew the steel rockers from under one end of a railway bridge here Wednesday morning and shattered the concrete supports sufficiently to let the bridge down about two feet. It was only because part of the charge failed to explode that the concrete supports were not further destroyed and the bridge completely unseated.

HEALTH EDUCATION

BY DR. J. J. MIDDLETON
 Provincial Board of Health, Ontario

Dr. Middleton will be glad to answer questions on Public Health matters through this column. Address him at Spadina House, Spadina Crescent, Toronto.

Unusual interest seems to be taken at the present time in the question of "Shingles." Several inquiries have come in recently and one of the correspondents states that there are a few people suffering from that disease in his locality. I cannot think that the occurrence of these cases is anything more than a coincidence, for although "shingles" is on outside appearance a disease of the skin it is really a nervous derangement.

The eruption may appear almost anywhere, but the nerves supplying the ribs, lower part of the back, and above the eyes, are especially liable to suffer.

What the cause is one cannot always say with certainty, for there are times when the disease breaks out without any apparent reason. There are, however, certain conditions which predispose or pave the way for shingles, among which are tuberculosis, the internal use of arsenic, cold and debility. Pregnant women seem especially liable to contract this disease. When there is no "apparent" cause the appearance of the vesicles may indicate various organic affections of the nervous system, such as general paralysis of the insane, tabes dorsalis, meningitis, etc.

The principal early symptoms are shivering, slight fever, and pain in the region corresponding to the distribution of the nerve root involved. The disease is most common in persons under twenty-five years of age, but elderly people suffer most from the pain. The eruption is unilateral in distribution, which means that it affects only one side, and is often accompanied and followed by severe neuralgic pain. I do not put any confidence in the statement that there is no hope for the patient should the eruption encircle the body, because shingles is a "one-sided" disease. The eruption appears after a varying interval, but generally after a few days. Redness of the skin usually precedes the vesicles. The eruption corresponds to the distribution of the nerve supplied by certain nerves. Sometimes the vesicles lead to ulcers, in which case scars remain. In other

CORNS

Lift Off with Fingers

Doesn't hurt a bit! Drop a little "Freezone" on an aching corn, instantly that corn stops hurting, then shortly you lift it right off with fingers. Truly! Your druggist sells a tiny bottle of "Freezone" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation.

 73 West Adelaide St., Toronto, Canada

Haunted Glamis Castle.

"What a delightfully dreadful place!" exclaimed Queen Victoria when she visited Glamis Castle, the seat of the Earl of Strathmore and Kinghorne, whose daughter is engaged to the Duke of York. Her late Majesty insisted on the minutest detail of the various apparitions and hauntings that "go with the castle," as the auctioneers say, and tolled up to the chamber where Malcolm, King of Scotland, was supposed to have been murdered. Her Majesty was much impressed by what she heard, and there is an amusing story to the effect that King Edward (who at the time was quite young) was ordered to write out an account of the supernatural history of Glamis. Eventually after many tears he produced a blotted paper with a few incoherent fragments of alleged history.

The queer tales told of the "monster who cannot die" alleged to be living in a dungeon and kept alive by the blood of the title and his heir is a story handed down from the tenth century. Its origin is a mystery. Queen Victoria showed curiosity about it, but received only "courtly and diplomatic evasions."

Time and I.

Time and I a compact made:
 He should give me years suffering
 For the deed that I essayed,
 Holding it beyond all pricing.
 Faith, he kept his promise, too.
 Years have passed to Helix Elysian,
 But the deed that I would do
 Still is but a dreamer's vision.
 Tell me, Time, for Hope's at stake,
 How may I atonement make?

Time one moment paused to hear
 Words I whispered to him;
 Shook his head, as it were queer
 That a mortal knew him.
 "List," he said, "the Future's yours,
 But the Past is dead and buried.
 To-day success insures
 Sloth is oblivion ferried."
 Time and I new compact made:
 To-day is mine—I'm not afraid.
 —A. J. Waterhouse in "Success."

Worshipping Letter-Boxes.

The Post Office in India is regarded with wonder and awe by the more ignorant natives. In some outlying districts, in fact, the natives actually worship letter-boxes.

A story is told of a man who put his letter in the box and then shouted the address to which it was to go through the slit. He imagined that a god was sitting inside!

Another took off his boots, bowed very low, and went through all kinds of religious rites both before and after posting his letter. Before departing he laid some coins on the ground before the box as an offering to the god inside.

A GOOD MEDICINE FOR THE SPRINGTIME

Do Not Use Harsh Purgatives—
 A Tonic is All You Need.

Not sick—but not feeling quite well. This is the way most people feel in the spring. Easily tired, appetite fickle, sometimes headaches and a feeling of depression. Pimples or eruptions may appear on the skin, or there may be twinges of rheumatism or neuralgia. Any of these indicate that the blood is out of order—that the indoor life of winter has left its mark upon you and may easily develop into more serious trouble.

Do not dose yourself with purgatives, as many people do, in the hope that you can put your blood right. Purgatives gallop through the system and weaken the body, and give strength. Any doctor will tell you this is true. What you need in the spring is a tonic that will enrich the blood and build up the nerves. Dr. Williams' Pink Pills do this speedily and surely. Every dose of this medicine helps to enrich the blood, which clears the skin, strengthens the appetite and makes tired, depressed men, women and children active and strong. Miss S. L. McEachron, Nairn, N.B., says: "I have been in the habit of taking Dr. Williams' Pink Pills in the spring and they keep me in the best of health. I think it is entirely due to the use of these pills that I always have such good health."

Sold by all medicine dealers or by mail at 50c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

France to Bar Trained Animals.

Following the example of Great Britain, France also is seriously considering the question of prohibiting the exhibition of trained animals on the stage.

Recently French authorities have been making extensive inquiries as to how performing animals are trained. It is understood that this training falls little short of torture. It is believed that efforts will be made to eliminate performing animals from all French films. The first step in this direction has been taken by the French Society for the Prevention of Cruelty to Animals by an appeal to film makers not to employ animals in the future. The members of the society have agreed to leave any theatre or motion picture house where performing animals are shown.

MONEY ORDERS.

Send a Dominion Express Money Order. Five Dollars costs three cents.

Tilting Cab Roof.

A cab roof which is forward has been invented. It allows for motor trucks to permit them to enter low doors.

Starting in life as a newsboy selling papers on the steps of Parliament House, Mr. Stewart has just been appointed Minister of Works and Railways to the Australian Commonwealth.

Childhood Indigestion

Nothing is more common in childhood than indigestion. Nothing is more dangerous to proper growth, more weakening to the constitution or more likely to pave the way to dangerous disease. Few of the children of the minor ill of childhood have their root in indigestion. There is no medicine for little ones to equal Baby's Own Tablets in relieving this trouble. They have proved of benefit in thousands of homes.

Dr. Jos. LaNette, concerning them Mrs. Que., writes: "My baby was a great sufferer from indigestion, but the Tablets soon set her right and now I would not be without them." Baby's Own Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Banana as Food.

Most fruits are valuable to man because of the medicinal properties of their juices and for their delicate flavors. But from a point of view of food there is nothing, or next to nothing, in them.

Strawberries, for instance, or peaches or pears, are of little use except to quench the thirst. The one great exception is the banana. The great traveller, Humboldt, once said that an acre of bananas will give as much food as 44 acres of potatoes. This is decidedly an exaggeration, yet, acre for acre, a crop of bananas does give more human food than any other plant or vegetable known to man.

The average yield of a plantation of bananas on good land is 235 bunches to the acre each year. You can put the weight of a bunch at 52 pounds, which makes the crop 14,796 pounds to the acre. This would be enough to feed a man for about three and one-half years.

An acre of potatoes will yield, on an average, 82 bushels, sufficient to feed a person for 18 months; or less than half the time that an acre of bananas would feed him.

But, then, the potato crop requires a lot of work. Each year the ground must be prepared, ploughed and fertilized, the seed sown, kept free of weeds, and finally the crop dug and housed. In the case of the bananas all this trouble is saved, for new "stools" keep growing up from the old stools, and there is nothing to do but keep the weeds down with a scythe and cut the fruit when ripe.

No wonder, then, that bananas are, weight for weight, the cheapest food for man, and that life runs easily in countries where the banana will grow. And that, mind you, is a belt nearly 3,000 miles wide all round the thickest girth of our planet.

Lost 30 Pounds Then Gained 35

Veteran Real Estate Broker of Toronto Tells of Remarkable Restoration by Tanlac.

James Burns, 20 St. Albans Street, is still another man of prominence in Toronto to speak out in behalf of Tanlac. Mr. Burns is now seventy-three years of age, but says:

"No one takes me for seventy-three now, and I feel every bit as active as I did forty years ago.

"Before taking Tanlac my weight fell off from one hundred and sixty to one hundred and thirty pounds, and I had begun to feel the hand of 'Old Father Time' laying heavily on me. I seldom ate more than one meal a day and that caused me hours of misery. Nights I would pace the floor too nervous to sleep, and many days I felt too worn-out to dress and go out anywhere.

"I don't believe I could have ever pulled up to where I am now if it hadn't been for Tanlac. It has restored my health completely and built me up to one hundred and sixty-five pounds. Tanlac is the best investment I ever made."

Tanlac is for sale by all good druggists. Over 35 million bottles sold.

Cuticura Heals Face Disfigured With Itchy Eczema

"Eczema broke out in watery pimples on my face and head. Later my cheeks and head became so bad that they were covered with large scales. The itching and burning were so severe that I could not sleep at night. My face was badly disfigured. My hair became dry and lifeless and fell out so that I had to have it cut close to my scalp.

"A friend advised me to try Cuticura Soap and Ointment so I purchased some, and after using two cakes of Cuticura Soap and two boxes of Cuticura Ointment I was healed." (Signed) Mrs. Elmer King, Box 278, Jackson St., Oxford, Nova Scotia.

Make Cuticura Soap, Ointment and Talcum your daily toilet preparations. Sample Book Free by Mail. Address: "Cuticura, Ltd., 154 St. Nicholas St., Toronto, Ont." Cuticura Soap, Ointment and Talcum 25c. Make Cuticura Soap always without water.

Sloans

Stops Backaches at once—so comforting

A tiring day on your feet. Stooping, lifting, running up and downstairs—does your back feel tied in painful knots? Apply Sloan's to those aching, tired muscles. That warm, penetrating glow brings immediate relief. Almost before you realize it the pain and stiffness are gone.

Wherever congestion causes pain—use Sloan's. Sloan's is protection against pain. All druggists carry it.

Made in Canada

Sloan's Liniment—kills pain!

THEY TELL THEIR NEIGHBORS

Women Tell Each Other How They
 Were Helped by Lydia E. Pinkham's Vegetable Compound

Woodbridge, Ont.—"I took Lydia E. Pinkham's Vegetable Compound for female troubles. I would have headaches, backaches, pains between my shoulders and under my shoulder-blades and dragging down feelings on each side. I was sometimes unable to do my work and felt very badly. My mother-in-law told me about the Vegetable Compound and I got some right away. It has done me more good than any other medicine I ever took and I recommend it to my neighbors. You are quite welcome to use this letter as a testimonial if you think it will help some poor sufferer."—Mrs. EDGAR SIMMONS, R. R. 2, Woodbridge, Ont.

In nearly every neighborhood in every town and city in this country there are women who have been helped by Lydia E. Pinkham's Vegetable Compound in the treatment of ailments peculiar to their sex, and they take pleasure in passing the good word along to other women. Therefore, if you are troubled in this way, why not give Lydia E. Pinkham's Vegetable Compound a fair trial.

This famous remedy, the medicinal ingredients of which are derived from roots and herbs, has for forty years proved its value in such cases. Women everywhere bear willing testimony to the wonderful virtue of Lydia E. Pinkham's Vegetable Compound.

Mr. William Avery Guild, a well known and esteemed resident of Mallorytown and vicinity all his life, died early this morning at the family residence, after an illness of several months, in his 77th year.

Miss Mary Lyons of the Bank of Montreal is having two weeks vacation and is spending them with relatives in Toronto where she will be when her cousin, Lyons McMacken, graduates from the Dental College.

The many Athens friends of Lieut.-Col. Andrew W. Gray were pleased to learn that he will again be the Conservative Standard-bearer for Leeds, having secured the Convention at Delta, on Tuesday. His election is almost a certainty as the riding is strongly Conservative. He had a very able rival in the person of C.W. Johnston of Lyndhurst, but he succeeded in carrying the convention by a large majority.

Wednesday morning at 9 o'clock a very pleasing event took place in St. Edward's church, Westport. It was the marriage of Mrs. Frances Whelan, daughter of Mrs. M.A. Whelan, and the late John Whelan, and Mr. Thomas Ryan, Cornwall, formerly of Brantford. The marriage was solemnized by Rev. Father Walter Whelan, curate at St. Michael's church, Belleville, brother of the bride. Miss Gertrude Ryan, Brantford, was bridesmaid and Mr. James Whelan was best man. Nuptial mass was celebrated.

DR. CLARK CLAIMS HE WILL REDEEM BROCKVILLE RIDING

DR. CLARK of Brockville will carry the Conservative standard in the coming Provincial Election in June, having been given the nomination at Brockville on Saturday, defeating his two opponents—Mr. A. E. Donovan of Toronto and Mr. Andrew Ferguson of Young on the first ballot.

Mr. Donovan, was the representative for this riding for some 16 years, losing out with the downfall of the Hearst Government in 1918. His defeat at the Brockville convention was largely due to living outside the riding and the desire of the county town to have a Brockville representative. Mr. Donovan who is an exceptionally able platform speaker and debater, will be greatly missed throughout the Brockville riding, as he always kept in touch with the electors and was very generous when assistance was required. Whatever may have been his faults, he was true to his party and always played his part with magnanimity and nobleness, and was certainly entitled to the most profound consideration. But for some reason the Brockville convention broke away from the established custom of allowing political orations and adhered to the constitution by limiting the time to five minutes. Many would like to have heard Mr. Donovan as well as his opponents in the convention, but there was probably a good reason why the change was made.

When the chairman announced that Dr. Clark had secured the convention, Mr. Donovan proved himself every inch a man by accepting the will of the majority. He pledged his support to the nominee and spoke in the highest terms of his personal character. Mr. Donovan expressed the belief that Dr. Clark would carry the constituency by a large majority and that the Hon. G. Howard Ferguson would be returned to power.

It may interest our readers to know that while living at Kemptonville, Dr. Clark was a schoolmate of the Conservative leader, whose leadership was commended in a resolution adopted at the convention with hearty applause.

Mr. Joseph Thompson of Athens, who moved the resolution at the Conservative Convention condemning the extravagance and incompetence of the Drury government, was unanimously elected to succeed H. A. Stewart as President of the Provincial Association.

From September 1 to March 31 inclusive, the Canadian Pacific Railway has transported to Vancouver 7,884 cars of grain, representing 11,668,328 bushels. Last year during the same period the movement amounted to 2,802 cars or 3,967,632 bushels. From the beginning of the crop season 13,571,320 bushels had been exported from Vancouver, of which 11,128,620 went to the United Kingdom, 2,242,300 to the Orient and 200,400 to South America. Last year during the same period export amounted to 5,000,000 bushels.

With a view to developing tourist resorts along its line in Central and Western Ontario, the Canadian Pacific Railway will erect Bungalow Camps after the style of those successfully operated in the Rockies. The first three will be built in the Nipigon, French River and Lake of the Woods districts, and should be ready for occupation by July 1st. The low cost of construction and maintenance will make it possible to charge much lower rates than the standard hotel, and the camps will prove a boon to those of moderate means who desire to spend a week or more or less in the outdoors.

Speaking at Fergus, last week, the Hon. Mr. Raney predicted that either Mr. Drury or Mr. Ferguson, would be the next Premier. After that remark he'll hardly be in a position to leave his calling card with Wellington Hay, the Liberal leader. This, no doubt, is the reason why the "Farmer's Sun" is devoting so much attention to Mr. Ferguson and ignoring Mr. Hay.

After a brief illness, Mrs. Delia Wiltse, wife of the late Anson Wiltse, passed to rest on April 8th, 1923, at the advanced age of 85 years, at the home of her son, J. W. Wiltse, Lacombe, Alta. She leaves to mourn her loss one son and one daughter, also a sister, Mrs. Darwin Wilson, of Athens. The deceased was formerly a resident of this village, leaving for the west over a quarter of a century ago.

"The King of the Philippines"—a screamingly-funny comedy in three acts will be presented in the Town Hall, Delta, on Friday, June 1st at 8 p. m., by the Dramatic Society of St. John's Church (Anglican) Lansdowne. This play was presented twice in Lansdowne to capacity houses and once in Athens, meeting with great success. Under the auspices of St. Paul's Church, Delta. Admission 35c.

At the annual meeting of the Canadian Pacific Railway, President E. W. Beatty pointed out that prospects for the immigration into Canada of the class of colonist urgently needed to develop the country's natural resources were much brighter than they had been in the past two or three years, and an increased traffic from Great Britain and Northern Europe was indicated by the largely increased western movement on the company's ships during the past four months of this year.

The officers and teachers of High Park Ave. Methodist Sunday School spent a very pleasant evening on Thursday last, the event being the annual election of officers and teachers. The Superintendent, Mr. T. S. Kendrick presided and 100 of the staff sat down to a supper provided by the Ladies' Aid. The reports from the officers and teachers were most encouraging. The school numbers 1559, the largest attending 1025. The school subscribed \$1171.91 for missions besides supporting general expenses. The Superintendent, Mr. T. S. Kendrick, was unanimously re-elected—Toronto Star.

The first crop report of the season issued by the Bank of Montreal, has come to hand. The general report for the Dominion as a whole is: Season two weeks late except in British Columbia where it is earlier than usual. Conditions generally favorable in the Prairie Provinces where seeding will be general in a few days. Slightly smaller wheat acreage expected and larger acreage coarse grains. Seeding has just begun in Ontario. Not yet started in Quebec or Maritime Provinces. Fall wheat wintered well.

PROPOSED NEW BASILICA STE. ANNE DE BEAUPRE

THE PROPOSED NEW BASILICA AT STE. ANNE DE BEAUPRE. INSERT IS THE OLD BASILICA PRIOR TO THE CONFLAGRATION.

WHEN the historic Shrine and Basilica at Ste. Anne de Beaufre was burned to the ground last year, together with the monastery and the novitiate of the Redemptorist Fathers, the clergy did not waste any more time than was necessary in lamenting their loss, but set about at once to construct a temporary shrine and to lay plans for a larger and newer church. After a great deal of discussion it was decided that the old church had become too small for the demands and that the exigencies called for greater accommodation. It was therefore decided to demolish the old walls, and to build a church proportionate to the needs of the future as far as they can be foreseen. The plans of the magnificent structure shown above were decided upon. The new Basilica which has been designed to give the edifice an appearance compatible with its use will not conform to the architectural style of any one period but will be a combination of Roman and Gothic. An idea as to its generous proportions can be gained from the following figures: Length over all 312 feet; interior length, 260 feet; length of choir, 65 feet; width of nave, 134 feet; width of transept, 186 feet; height of grand nave, 85 feet; superficial area 42,000 square feet. There will be twenty-six altars, twelve of which will be in the crypt Chapels, and the lighting of the interior will play a large part in the scheme of decoration of the church and will be a telling factor in providing a beautiful place for the hundreds of thousands of pilgrims who journey each year to the famous shrine.

A Big Crowd

Our Great Anniversary Sale opened last Saturday with a big rush. Our store was crowded all day with people taking advantage of the great bargains—for everybody knows that we always do as we advertise.

Sale will continue all this week. This will give everybody an opportunity to buy all they can in Men's and Boys' Clothing and Furnishings to lay in a good supply for the summer and Save Money.
