ling Matches.

The C. L. B. Armoury was filled with a large number of men, young and old, last night, to witness the series of wrestling matches advertised to be pulled off there. There was great enthusiasm, and at 9.15 the first out was started between Marshall. the local lightweight champion, and Mr. Horwill, Gymnasium Instructor of the training ship Calypso. This

was an excellent display of the art of wrestling, both men showing that they were well acquainted with it, and receiving much applause as the fought the game with varying success. In this bout Marshall proved the winner, putting Horwill to the mat with a scissors hold and half nelson, in 1 minutes 55 seconds, amidst great applause. After the first fall Horwill left the ring as one of his ears be came injured in the fray. Mr. Marshall received a gold medal awarded by Young Olson. Mr. E. J. Goodland

The first exhibition of the famous apanese style of wrestling, jiu jitsu, given in this country was witnessed between Young Olson and Mr. Daines, of H. M. S. Brilliant. Both men as they appeared in the ring were introduced by Mr. R. Dowden who briefly explained the rules of the game. The men were soon at it and gave a fine exhibition of this type of wrestling. Olson was by far the heavier man o the pair, but his agile opponent made up in skill what he lacked in weight, and fully 13 minutes transpired before Olson secured a lock on Daines. Th next lock was also secured by the proficient Olson who got a short arm lock in 12 minutes, and the balance of the half hour went on without eithe securing a lock.

Catch-as-Catch-Can was the mod for the second round when Olson showed his perfect mastery of the art by putting Daines down in just two

The balance of 28 minutes was d voted to another excellent exhibition of jiu jitsu, Olson again proving vice or with two locks in 3 and 4 minutes espectively.

Taken all round the exhibition was nighly creditable to the participants. Corporal Bord, of the, Brilliant, was referee in the latter part of the game

The Premier's Political Campaign.

We wonder whether the speech of the Premier at the opening of the Agricultural Exhibition at St. George's will be published in verbatin form and afterwards circulated in pamphlet form as a campaign document, as was done with the speech ports.-oct16,tf. delivered at the Burin Exhibition. We should have taken no exception to the Premier's speech at that exhibition had it been confined to the matter of Agriculture, treated from an administrative standpoint, but when it ranged over the whole field of partisan politics and treated of Agriculture from a partisan standpoint, and embodied a financial dope on the branch railway policy, on which we have commented in our last two issues, we pro tested. Nay more, we objected to Agricultural Exhibitions being used for party purposes, and especially objected to the circulation in such a speech of that issue of false sugges- spring. tion and flat misrepresentation, which we quote again to expose the as tounding dishonesty of it:-

"By a successful loan of four million dollars at three and a half per cent. which I raised last year in London, at ninety-seven and a half, the highest rate ever obtained by the Colony before, we have been able to build all these railway branches, and pay the interest on them out of our regular revenue, and after all this we still have a surplus left, which we have given back to the people in the shape of all the public utilities which I have named.'

We have already pointed out that the Premier made no mention of the branch from Stephenville Crossing to Port au Port at Burin, but that Sir Edward is pledged to i is evidenced by an article which ap-Rotterdam. peared in the Western Star last year. In reference to the Branch Railway policy, the Western Star

"This step in the fulfilment of wise and progressive policy will b hailed with pleasure by the people on the north side of Bay St. George, who have been promised a branch line from Stephenville Crossing to Por au Port, (a distance of about twent miles) which will open up for settlement and cultivation a large belt of excellent agricultural land. At the same time it will place within easy reach of the settlers on the most distant parts of the peninsula of Port au Port a direct and rapid means of transportation for their products whether of the sea or of the land, and thus develop the resources of the long neglected section of the West Coast. When Sir Edward Morris was in this district in September last, a Star representative had the pleasure of an interview with him, and in speaking of Bay St. George generally he said: "What would be the making of this Laxative Bromo Quinine country (north side of Bay St. George) | Cures a Coldin One Day, Grip in 2 Days would be a small branch railway from Stephenville Crossing to Port au Port. It would be fed by all the settlements between Cape St. George and Stephenville Crossing and ter

That this enlightened view of the best, surest and if it might be said the only possible agency in the development of all the natural the district is also held by our esteemed representative, Mr. Downey, may be best proven by his 1908 mani-

A branch line of railway to Port political platform, and coupled with the promise of a bonus for land clearing was a potent factor in his election at Bay St. George."

Although a verbatim report of the Premier's speech has not yet been published, sufficient has been published to show that the Premier made political speech there, and there is nothing left for us to do but to consider it as part of the political campaign which Sir Edward has been carrying on for some time.'

As for Mr. Downey, the financial statements already tabled in the House of Assembly show that he is making a big bonanza out of his connection with the Agricultural and other policies of the Government. But period will be put to the bonanza he and other Picnickers are getting out of the Picnic Party when the electors get a chance of saying the

"Citizen" is Called an Assassin.

Some months ago an application was made by a Solicitor on behalf of capabilities of this large portion of the "People's Paper," the "Evening the owner for permission to repair one Telegram," every day. You will be of the houses on Casey Street. It apfrom the others. Permission to repair was not granted, but the Secretary was directed to visit the place and re port. At the meeting which took place on Friday, the 13th inst., a plan drawn up in the City Engineer's Office was tabled. The plan sets forth a scheme of street widening, to effect which certain purchases would have to be made at a cost of \$1,380 and certain lands exchanged. Councillor well with the fish these days, getting Ryan proposed and Councillor Channing seconded a motion to give the

> Councillor Mullaly said that the Se cretary had been authorized to inquire but not to fix a price on the land; and now that he had found out from the plan one of the Councillors was interested in the property he onsidered it highly desirable that a isinterested party should be apointed. Further, the Mayor had not een the plan and the matter should ot be proceeded with in his absence. Yesterday the letter signed "Citizen" appeared in the Evening Telegram. ointing out that Councillor Martin was interested in the property.

Secretary authority to carry out the

scheme.

At the Council meeting last night Councillor Ryan denounced the writer of the letter as an assassin, and charged Councillor Mullaly with being the writer of it. Coucillor Mullaly repudiated the charge and declared that he was not the author of it: that he had not seen it, and knew nothing of it. In another part of this issue will be found a letter from Councillor Mullaly denying any connection with the writing of the letter, which we corroborate. Turning again to the neeting, we find that Councillor Martin expressed the opinion that the writing of the letter was the work of an assassin and said he had been threatened with "hounding one" by such a person as the writer was. Councillor Mullaly reiterated that he vas a party to appointing the Secetary to enquire, but not to put a value on the property. The Mayor had not seen the plan and still a proposition was made at the previous neeting to finalize it in his absence. seemed as though the deal had been pre-arranged from the fact that neither the mover nor seconder had noved from their seats to examine the plans before making their motion. rue. Councillor Channing was not here to speak for himself as he had left the meeting before the discussion was introduced. Boat Got Leaky.

The Healey's were coming in from Blackhead a few days ago with a boat load of fish, 14 quintals dry; when the punt sprang a leak and commenced to sink. They bailed the water as fast as they could but could not keep against it. They then signalled a tug that was out that way and she went to their assistance and towed the boat to safety, to Bennett's wharf where the fish was taken out, spread and dried.

zine, The Month," published by Long mans, Green & Co., of London, contains a most interesting and exhaust ive article from the pen of Rev. E. F urran, of Pouch Cove, Nfld. The writer shows a wonderful familiarity with the life of the great Hungarian ianist and must have lost no possible portunity to glean details of his emarkable career. Father Curran is not carried away so much by admiration for the man's great genius that he willing to be blind to his faults. He does not, like most writers on Franz List, condone his lapses from irtue, on the contrary he shows him p as he finds him in the records s far available. Father Curran writes in a pleasing and graceful style, and t is easy to understand why some o the leading magazines of the world gives his contributions such a promia ent place. In the Magnificat Magazine for last month there is an excellent article from his pen on "Bigotry in English Literature," in which the Rev. Pastor of Pouch Cove shows up the absurdities of the great Char les Dickens' "Pictures From Italy which he says is a volume containing some of the most offensive passages and grossly false statements possible for a man to write.

News Will be **Bad for Manchus**

Special Evening Telegram. PEKIN, To-Day.

It is apparent that the Imperia Government knew the result of the battle at Hankow between the force and the rebels for more than 24 hour before it became public here. Report of the rebel victory gradually leak ed out. The success of the revolution has been considered here to hinge up on the result of the first encounter as it moral effect would be far-reaching in China, as probably nowhere else would be the case. When fugitive Imperialists reach the main army which is mobilized near Sin Yang Chow, news of the repulse, it is be lieved, will utterly demoralize the troops. While on the other hand, the news as it goes along the Yang Tse River will result in further important adhesions to the rebel cause.

Editor Evening Telegram.

'Dear Sir,-I notice in this morning issue of the Daily News an item refe ring to a hot discussion at last night meeting of the City Council in refer ence to a proposal to take some land for street widening purposes. I commenting upon this incident th reporter of the Daily News grows funny and suggests that a proto grapher be employed so that the pic-tures may be reproduced for the moving picture show. Now, Mr. Editor it is only a short while ago, durin the last session of the House of As sembly, when an opportunity was af forded for the services of a photo grapher, and that was when the Pramier of this country, Sir E. P. Morris, from his place in the Assembl used the most scurrilous language to wards the respected member for th East End, John Dwyer, Esq. Sir E P. on that occasion lost his temper and in language disgraceful to him self, the Assembly and the position he occupies, called our respected readvised him to plant his head for cabbage. Of course this sort of thin in the eyes of the Daily News was very funny, but when Councillor: Mullaly or Ryan lose their temper a a meeting of the Council and use what is considered to be unseeml language, the Daily News scribes roll up their eyes in holy horror, and like the Pharisee of old exclaims "Thank God they are not like the res of men!"
