NO 48

ROYAL BAKING POWDER

ABSOLUTELY PURE

Insures the most delicious and healthful food

By the use of Royal Baking Powder a great many more articles of food may be readily made at home, all healthful, delicious, and economical, adding much variety and attractiveness to the menu.

The "Royal Baker and Pastry Cook," containing five hundred practical receipts for all kinds of baking and cookery, free. Address Royal Baking Powder Co., New York.

Clarence.

March 9.

Albert Banks intends erecting a fine barn this summer 48 x 55.

The W. M. A. S. met with Mrs. Averd Jackson today.

A "Sack Social" at Mrs. Witham's on Wednesday evening.

R. B. Fish's mill-yard is well filled with logs.

Lorenzo Elliott intends making an addition to his barn this spring.

Atwood Banks, and family intend going to Massachusetts in April.

Councillor Freeman Fitch made a business trip to Annapolis on Thursday.

The J. C. Morse store has been taken down and moved to Port George.

Miss Attie Minard was the guest of Mr. and Mrs. F. W. Ward over Sunday.

Miss Patterson went to Aylesford on Friday to attend the funeral of her grandmother.

Marshall and Bishop's spraying and sawing outfit arrived on Monday and is now ready to work.

Mrs. M. C. Marshall who has been laid aside the past two weeks, we are glad to report is convalescing.

Roy Witham moved his sawing outfit to Lawrence town on Friday where he is reducing the size of the wood-piles.

Mr. and Mrs. C. H. Jackson and Mr. and Mrs. F. N. Banks have recently entertained large parties of friends.

P. O. Inspector McLeod was looking over Rural Route No. 1 this week. We understand that it is to be extended to the Karakule Farm.

West Williamston

March 9.

J. R. Nelly of Kingston, visited his father, W. E. Illsley on Monday.

Miss Louisa Woodward entertained friends very pleasantly last Wednesday evening.

Miss Goldie Nixon of Margareville, is the guest of Mr. and Mrs. Otto Nixon.

Miss Louisa Nixon spent the week end with her teacher, Miss Vivian Phinney at Lawrence town.

Mr. and Mrs. Magee of Greenwood, were recent visitors at the home of Mr. and Mrs. D. M. Charlton.

Mrs. Oliver DeLancey received the sad intelligence on Saturday of the death of her niece, Miss Hazel Gibson of Dalhousie.

Ever Hopeful Division is still flourishing. About fifty members were present last Wednesday evening. Also members from Nelson Division, Lawrence town, were present. A very pleasing programme and an excellent treat was enjoyed by all present.

Paradise

March 9.

Lloyd Dixon went to Sinsbury, Conn., last week.

Mr. J. C. Morse is visiting his sons at Lynn, Mass., and Sinsbury, Conn.

Sergeant R. L. Graham of Halifax, spent last week in Paradise, giving instruction in military drill.

The Literary Club will meet at the parsonage on Monday evening, March 16th. Subject for entertainment for the evening, "Ireland."

Mrs. B. Starratt and Mrs. C. Logan spent Sunday at Lawrence town with Mrs. Starratt's sister, Mrs. Bancroft, returning home on Monday.

At a public meeting held in Longley's Hall on Monday evening, March 9th, under the auspices of the Literary Club, Mr. William Whyward, a member of the Lawrence town Literary Club, read a paper showing that Nova Scotia had produced a larger number of famous men than any other Province of the Dominion. A hearty vote of thanks was tendered Mr. Whyward by the audience. Remarks were made by Dr. Hall of Lawrence town, Rev. A. M. McNinch and G. L. Pearson. The music consisted of selections by the male quartette, a duet by H. W. Longley and Ewart Morse and a solo by Ewart Morse.

Granville Ferry

March 8.

Hon. S. W. W. Pickup returned to Halifax on Monday.

Miss Helen Pickup is visiting friends in Montreal.

Miss Alice Gilliat of Boston, is the guest of her parents, Mr. and Mrs. Austin Gilliat.

The Mission Band wish to thank all those who so kindly helped to make their tea a success.

The stork called at the home of Mr. and Mrs. LeRoy Schaffer, Wednesday, March 5th, and left a baby girl. They have decided to keep this little visitor. Congratulations.

The measuring social and handkerchief sale, which was held by the B. B. Mission Band, Friday, March 6, proved to be a great success. The sum of \$35.00 was realized for missions.

Wonderful Hair

Clean and free from dandruff and possessing all the radiance of perfect hair. This is just what Sagine means to those who suffer with itching scalp, dandruff, coarse, dry or common looking hair. Sagine is new life to faded unattractive hair. Sagine feeds the hair roots with the necessary food for promoting a healthy growth. Sagine is the daintiest tonic you could wish for. It is not a dye and is not sticky or greasy. A large shaker-top bottle costs only 50c. and Mr. W. A. Warren gives his personal guarantee to refund the money if you are not entirely satisfied. Be sure to go to W. A. Warren's drug store, as other stores cannot supply you.

Ottawa Letter from the Pen of H. W. Messinger

Mr. Editor:—

I thought it possible that a line from one of your constant readers might not come amiss. I have been reminded by friends in Nova Scotia that they are ever much pleased to see a communication from time to time in your much prized paper from me. It reminded them that although far removed from the land of my birth, it was not forgotten by me, and I am sure from the fact that I am living so far away, that distance lends enchantment to the scene, and that I was still interested in my native country. I can truthfully say there never was a time in my life when Nova Scotia loomed larger in my admiration than she does today, and I have always been an optimist in regard to her future. It is pleasing to notice that new industries are springing up from time to time, and it seems a new hope and life has taken possession of your people generally, and I hope the day is not far distant when the Maritime Provinces will be to this Great Dominion of ours what the New England States are to the United States. You have the resources, the brain and brawn, and I verily believe that an awakening has set in among the people down by the sea that will soon be carried with great swiftness. Nova Scotia today should have a population of at least a million instead of a paltry five hundred thousand, and it really seems too bad that now under the new redistribution bill five members will be lost to the Maritime Provinces. At the time of the Confederation you had twenty-one members, now you will only have sixteen. I verily hope that when the next decennial redistribution takes place you will be in a much better position numerically and will not lose but gain a member.

I might mention something of the growth of Ottawa. When I came here in 1901 we had about 50,000 population, now we have grown to 100,000, and the city is still growing very fast. It has not only grown numerically but great improvements in street building and lighting. Ottawa is said to be the best lighted city in Canada and special care is taken in regard to sanitation. We have had some trouble over the water question, but it looks now as if that perplexing question was about to be wiped off the slate by going to the mountains for our supply of water. It will be quite an expensive undertaking, costing about \$8,000,000, but it will be money well invested. We had expert engineers from England and they pronounce the thirty-one mile lake the best in the world. At present our supply is from the Ottawa river, but since the typhoid epidemic a few years ago there are not many uses for drinking purposes. Ottawa has some of the most beautiful buildings on the continent, and have been constructed at great expense. Probably the finest hotel on the continent is the Chateau Laurier, erected at a cost of \$2,500,000. It is thoroughly modern in every particular, and the modernity of all large deputations, banquets, etc. Opposite it is the beautiful new central station, another gem in architectural design, probably for aesthetic style and finish it rivals anything in Canada. Both these buildings were erected by the Grand Trunk Railway. Ottawa is fast becoming the Washington of the North. Our parks and driveways are unexcelled upon the continent. The Victoria Museum is another beautiful structure which cost \$5,000,000, erected by the late government. But I must not trespass too much upon your valuable space. Ottawa a few weeks ago was visited by quite a heavy earthquake and, although no severe damage was done, it caused every building in the city to shake quite perceptibly, so much so that dishes and pictures were thrown upon the floor, and some of the more timid

fainted. We all hope there will not be a recurrence of these earth tremors again soon.

Parliament is closing along very quietly this year, no signs so far of the great storms that characterized the session of last year, that probably will go down in history as the most strenuous since Confederation. But Parliaments are like powder magazines,—it only requires a spark sometimes to arouse the fighting element of the debating politicians. It certainly makes entertainment for the citizens of the city when those storms do break out.

The winter of 1914 will be memorable for the greatest amount of cold days we have any record of. During the months of January and February there were fifty-six days when the thermometer registered from zero to thirty-six below, but during all that time we had no bad storms, and, for the most part, we had bright sunshine, which helped to dispel the effects of Jack Frost. Trusting you will consider this worth publishing.

I remain, Sincerely,
H. W. M.

CANADA AT THE PANAMA-PACIFIC EXPOSITION.

The final plans for the Canadian pavilion at the Panama-Pacific exposition were accepted on January 21, and the work of construction has already been begun under the supervision of Colonel William Hutchinson of Ottawa, the Canadian Exhibition Commissioner, who arrived in San Francisco a few weeks ago and has been joined by George Freeman the London architect, who is the designer of the building, and his staff. The Canadian pavilion will be one of the handsomest among the buildings representative of foreign nations and states. It will cost approximately \$300,000 and will be the largest exhibition building ever erected by the Canadian government. It will be 340 feet long, 240 feet wide and 50 feet high. The whole sum expended upon the building and its contents will amount to \$600,000 or more. Some of the exhibits are already on their way and others will follow in due course. It is said that while the exhibit will cover all agricultural, manufacturing and educational interests, great emphasis is being laid upon the importance of the Canadian live stock exhibit, and the aim is to make this the greatest live stock exhibit ever held at any exposition. Neither the promoters of the exhibition nor the people of California have abandoned the hope that the government of Great Britain may yet be induced to take part in the great show. During his recent visit to the Pacific Coast, Sir Robert Balfour was conducted over the exposition grounds, and shown the almost incredible progress of the various exhibit palaces, the electrical models showing methods of illumination, plans of grounds, etc. Sir Robert expressed his conviction of the importance and inevitable success of the exposition, and cherished the hope that Great Britain would participate in it. He gave the assurance that the declaration of the British government had not been due to any unfriendly feeling, but wholly to a question whether British manufacturers could be induced to send a truly representative exhibit. Early last year the British Board of Trade sent out a representative to look over the situation. On his return he reported prospects favorable for a successful exhibit on a large scale, and that on that score no chances would be taken in deciding to participate. The Board of Trade canvassed to see who would send exhibits. From the results a fear arose that Great Britain might not be represented in a creditable manner unless the government came to aid with a large contribution. Money was scarce and taxes already high and the government could not see its way clear to accept the invitation to participate. Sir Robert expressed himself as believing that, now the people and interests of Britain have been impressed with the commercial and social significance of the exhibit, a more favorable determination of the matter may be reached.—Presbyterian Witness.

Nova Scotia Under Redistribution

Digby and Yarmouth Counties Are to be United. Antigonish and Guysboro Also to be Made one. Richmond Will be Added to South Cape Breton.

Ottawa, March 5.—The redistribution map with regard to Nova Scotia was completed today when the government gave official notice to the opposition of the character of its proposals affecting that province.

It is intended to merge the counties of Digby and Yarmouth in the west part of the province, and Antigonish and Guysboro in the east end.

Richmond county will be added to South Cape Breton, but this will not affect the representation of the island as the united constituency will return two members which with Inverness and Cape Breton, North Victoria will still give Cape Breton Island the four members to which it is entitled on the basis of population. The population of both of the united counties of Antigonish and Guysboro and Cape Breton South and Richmond will be Roman Catholic by a considerable majority. It would appear in consecutive that either W. F. Carroll or G. H. Kye, M. P.'s, would retire from the latter constituency, as doubtless the pact would be to run a Protestant and a Catholic for the two seats and both of the gentlemen belong to the latter faith.

The wiping out of Digby affects Clarence Jameson, M. P., but it is understood that he is desirous of retiring from politics at the end of the parliamentary term.

The New Brunswick map, as well as those of Quebec and Ontario, are not yet finally completed, but in the main will be of the character indicated previously.

A Better Remedy than Nasty Salts

Few people like to take physic, especially salts, because they are so disagreeable to take and because of the griping and pains they cause. Rexall Orderlies enable you to take less physic, and all without griping, purging or excessive looseness. Salts and harsh physics usually give only temporary relief and often leave the bowels worse off than before.

Rexall Orderlies move the bowels promptly, and soothe, tone and strengthen the intestinal muscles, leaving them healthy and regular in action. They taste like candy, and the movement they cause is as easy and natural as though your bowels were in perfect health and you never had to take any physic at all. We have so much faith in Rexall Orderlies that we urge you to try them with the understanding that, if they do not satisfy you in every way, all you have to do to get your money back is to tell us. We honestly believe them to be the best bowel remedy made. In vest pocket tin boxes; 10c., 25c., 50c.

You can buy Rexall Orderlies only at The Rexall Stores, and in this town only of us—W. A. Warren, Bridgetown.

The above marks show the average on about six weeks' work in geometry, algebra and arithmetic. Provided we have space in the Monitor, the next marks will be an average on the English and History of the year.

W. E. BANKS, Principal

Legislation and the Liquor Traffic

One Prohibitory Law for the Province—The Government to Undertake Responsibility for Enforcement—The Licenses Act Favors the New-Perpetuates an Evil Business.

Nine-tenths of the people of this Province are under prohibitory and one-tenth under license legislation. Nine-tenths in the rest of the Province.

I. PROHIBITION.

Prohibitory legislation is in the form of the Scott Act and the Nova Scotia Temperance Act. The Scott Act is law in ten counties, the Nova Scotia Temperance Act throughout the other eight, with the exception of Halifax City, which is under the Liquor License Act.

There is a movement to repeal the Scott Act, and the Liquor License Act, and thus bring the whole Province under the Nova Scotia Temperance Act. Temperance workers greatly appreciate the action of the government in having placed this act on the statutes in 1910, and improving it by amendments in 1911, 1912 and 1913. It is a much more effective form of prohibition than the Scott Act, and if properly enforced can be used to suppress the traffic within the Province.

It is expected that in about one year the Temperance Act will be operative over the entire Province. It is further hoped that the Government will assume the responsibility for its enforcement in municipalities where because of the apathy of citizens or the perfidy of officials it is, or would be, unenforced.

II. LICENSE.

The Liquor License Act, which is now restricted in its operation to the City of Halifax, ought to be wiped off the statutes. First, it protects and perpetuates an evil business. "All experience in every Anglo-Saxon country," says the editor of the Toronto Globe, "goes to prove the barroom to be the chief tempter and teacher of the drinking habit, and the most effective agent of drunkenness. Drunkenness destroys the drinker and is a curse to the community. As the barroom is maintained only for drinkers and possible drinkers, as only drinkers ever become drunkards, and as drunkards are an economic burden and a social menace, the barroom is condemned out of its own existence, and its existence ought to be made a crime under the law."

Second, the Liquor License Act ought to be wiped off the statutes of this Province because it is unjust in its provisions—it discriminates in favor of a very small proportion of the ratepayers of Halifax and empowers them to establish this evil business in the Province.

HOW LICENSES ARE GRANTED.

To obtain a license, hotel or shop, the applicant must secure the signatures of three-fifths of the ratepayers in a section or sub-division of the ward. A wholesale license is granted on the requisition of a majority of the ratepayers in a section. A brewer's license may be granted by the

council without a requisition of ratepayers.

RETAIL LICENSES

It is well to note that the forty-six retail licenses in the City of Halifax are not obtained on the requisition of three-fifths of the whole number of ratepayers in the City, nor on the requisition of three-fifths of the ratepayers in each of the six wards, but on the requisition of three-fifths of the ratepayers in a particular section.

The number of ratepayers in the City is about 7,000. There are six wards, sub-divided into thirty-eight sections. Licenses are granted in twenty sections. In these twenty sections there are 1796 ratepayers. It requires 1077 of these to establish the forty-six licensed barrooms of the City.

That is, out of 7,000 ratepayers in the City of Halifax, 1077 can establish in the City and in this Province, the liquor business.

H. R. GRANT,
Gen. Secty. N. S. T. Alliance.

February 21, 1914.

Quarterly Session of S. of T.

Annapolis County District Division met in quarterly session on Feb. 26, with Nictaux Division. Thirty-two delegates were present, representing the different Divisions in the County, who reported the resuscitation of dormant Divisions and renewed interest being taken in the principals for which the good old Order stands.

The Grand Division was ably represented by Bro. H. L. Wallace of Murray Division, Halifax, who, on being introduced, gave the session an interesting resume of the work of the Order throughout the Province.

After laying plans for aggressive work for ensuing quarter, the meeting adjourned to meet in evening session, which consisted of able addresses by Rev. Norman Ritney and Bro. H. L. Wallace. Short addresses were made by Bro. C. F. Armstrong and others, interspersed with music, readings and dialogues. A very profitable session was closed with the National Anthem.—COM.

FIXES WEIGHT FOR PARCEL POST.

Eleven Pounds Limit Has Been Put Into Effect.

Ottawa, Mch. 5.—The eleven pound limit of weight for the Canadian parcel post was put into effect today.

Thus the restriction to six pounds for each packet accepted for transmission by parcel post during the months of February, March and April, has been removed. The order that has gone forth from the Post Office Department also eliminates the additional fee of five cents to be prepaid by postage stamps on each parcel mailed for local delivery in places where the letter carried system is in operation. The insurance of packets does not become operative until the first of May as at first set forth, and in the meantime packets of the parcel post may merely be registered.

LAWRENCETOWN DRUG STORE

Lawrencetown

Mr. and Mrs. A. W. Beals of Wisconsin, are visiting Mrs. Israel Daniels. This is the first visit in twenty-five years. They will find many changes in the personnel of the place.

The school has secured the services of Miss Robb to give lessons in vocal music. A class has also been formed to be instructed in French by Mr. Henson of Granville.

At the Lawrencetown Literary Club a lively time was stirred up by the bringing in of the following resolution: "Resolved that the high cost of living is due to the incompetent buying of the women." That the proposer of this resolution lives to tell the tale is due to the proverbial forbearance of women. Next meeting of the Club will be held at R. J. Messenger's on Wednesday, 11th.

The social held on Friday evening was a success as evidenced by the following program. About one hundred young (?) folks attended.

Address by Rev. H. G. Mellick. Duett—Misses Vivian and Muriel Phinney.

Violin and organ duet by Leonard Mellick and Donald Messenger. Recitation—Jean Messenger.

Reading—Mrs. J. Stoddart. Solo—Pearl Balcom.

Duett by Misses Rita and Muriel Phinney.

Address—W. C. MacPherson. Chorus.

Conundrums

After which a lunch was served.

On Sunday morning the Baptist Sunday School observed Temperance Sunday as a whole. Music, papers, readings and addresses made an impressive service. Special mention should be made of the papers prepared by Mrs. R. Shaffer and Dr. L. R. Morse.

Sometimes one is honored in his own country. Among those are Prof. Avard Longley Bishop, now of Yale University, but formerly of South Williamston. When he was seventeen years of age he obtained a Grade B license at the Lawrencetown High School. After teaching four and a half years he entered Acadia College, and graduated B. A. in 1901. He gave special attention, under Prof. J. F. Turts, to economics and history, in which subjects he took honors both in junior and senior years. He was a good debater and was the first winner of the "Kere-Boyce Tupper gold medal" for public speaking in a contest open to the college. In 1902 Prof. Bishop entered the senior class of Yale University, and got his B. A. in 1905. Securing a good sized fellowship he was enabled to remain at Yale where he received M. A. in 1906 and Ph. D. in 1908. While studying he was given the opportunity to teach and in 1904 was appointed instructor in commercial geography at Yale. This was a comparatively new subject, but so well did he conduct his work that he was promoted to the rank of Assistant Professor in 1908. In 1911 he was transferred to the Sheffield Scientific School of Yale with the title of Assistant Professor of Geography and Commerce, and a few weeks ago was advanced to the rank of full professor of geography and commerce, and a member of the governing board of the Sheffield Scientific School of Yale University. Beside many contributions to Scientific journals, he is the joint author of a college text book on Physical Commercial Geography. Another young professor writes about the recent promotion said, "He is a fine fellow and deserves it. We are proud of him." What makes it of unusual interest is the fact that few are made full professors before being forty years of age, and Prof. Bishop is short of that, being born in 1875, and also that he is the first Nova Scotian and probably the first Canadian to be made Professor at Yale University.

Presentation of Park to the Town of Lawrencetown

The people of Lawrencetown have long felt the need of a suitable place to hold the annual Farmers' Picnic, for lawn parties, for private teas, and for a resting place in the heat of summer.

Resting to the south of the village between hills in the bosom of the Annapolis River is Hall's Island, so-called.

The island consists of two acres more or less, of beautiful park land bordered with shrubbery and covered by a number of stately oaks, elms, beeches, willows and other trees. The beautiful setting of the park, of river orchard, foliage trees and hills reminds one at once of some rare old English scenery.

This island has recently been purchased by Samuel E. Bancroft, Esq., and will be presented to the town for a park on Saturday evening, March 14, 1914, at 7.30.

The event is one that is unique in our history and therefore the public is cordially invited to attend.

The following is a tentative program in Phinney's Hall:—

N. H. Phinney, M. P. P., Chairman Selection of Music by Band. Address by the Chairman.

Formal Presentation of Park to the town by S. E. Bancroft, Esq. Music by Orchestra.

Resolution of Acceptance and Appreciation proposed by Dr. Morse seconded by Kenneth Whitman, Esq.

National Anthem by Band.

PORT GEORGE

March 9.

The Ladies' Union Thimble Club will meet at Mrs. Guilford Weaver's, Wednesday afternoon, March 18th.

The S. S. Ruby L. made her first trip of the season March 4th from Margarettville to St. John, calling at points along the coast.

The young people of this place are planning on having a concert in the near future for the benefit of the new hall. We wish them success.

Mr. F. R. Elliott has made an improvement to his store property by a new platform and steps, which helps the looks of the place very much.

Mr. Roscoe Quinlan, Miss Susie Quinlan and Mrs. Munroe, who have been visiting their sister, Mrs. Burch, left Saturday for their respective homes in Massachusetts.

The funeral of the late Mr. Harding Weaver was held at his home here on Tuesday afternoon at one o'clock, the services being conducted by Rev. S. S. Poole of Middleton. The hymns sung were, "Shall we gather at the River?" "Meet me there," and "Gathering Home One by One." Rev. Mr. Poole read from First Thessalonians, 5th chapter, basing his remarks on the 10th verse. At the close of the service the remains were taken to Victoriavale for burial. The pall bearers were Mr. Ira Parker, Mr. Elmore Parker, Mr. Will Clark and Mr. Deibert Craig.

The deceased was a member of the Baptist church, was eighty years of age. He leaves a sorrowing widow who is eighty-five years old, to mourn the sad loss of a kind, loving husband. Also an adopted daughter and four grandchildren, who kindly cared for him through his recent illness. Much sympathy is felt for the bereaved family.

Minard's Liniment Cures Burns, etc.

Good Fruit

The most successful fruit growers of the Annapolis Valley have for years followed the practise of applying Muriate of Potash mixed with Basic Slag and Bone Meal, or other Phosphatic fertilizer, to their orchards, depending on a crop of clover to supply the necessary Nitrogen and Humus.

There is no doubt that the adoption of this local system is directly responsible to the remarkable color and quality of Nova Scotia apples, which features have gained for them so many awards and established their enviable reputation in the markets of Britain.

We can supply you with all high grade fertilizer materials, Potash, Nitrate of Soda, Acid Phosphate, Basic Slag, etc. at lowest prices. You can mix these yourself at home and save 25 to 40 per cent in fertilizer cost. Call and see us.

Green Apple Aphids Control

(Written Especially for the Co-operative News by Prof. W. H. Brittain, Provincial Entomologist)

Chief among the injurious insects with which the fruit grower has to contend are several species of aphid or plant lice. Their control is rendered difficult by several factors. Being sucking insects, they are provided with long beaks, or by means of which they pierce the skin of the leaf and suck up the juices from within. For this reason they cannot be killed by stomach poisons, as biting insects are, but we must apply some preparation that will kill them by contact. All insects breathe through tiny openings in the sides of their bodies, and it is the object of contact sprays to plug up these openings, or to enclose the insect in a film, so that they are unable to breathe and therefore perish. Some contact insecticides do their work by means of the caustic action which they exert upon the bodies of the insects.

Another factor that makes aphids such formidable foes of the farmer is that they multiply so rapidly. They breed continually throughout the season, only ceasing with the approach of cold weather. If it were not for the fact that aphids are preyed upon by lady bird beetles and other insects, and are extremely susceptible to certain weather conditions, their control would be infinitely more difficult than it is now. Again, aphids have the faculty of causing a curling up of the leaves upon which they feed, which makes it almost impossible for them to be reached by spray mixtures.

The most numerous and destructive aphid infesting apple orchards in Nova Scotia is the green apple aphid. Their small shiny black eggs may be seen, during the winter months, upon the apple twigs. They hatch in early spring and by the time the buds have burst have usually all emerged. They cluster around the opening buds and work down between the unfolding leaves, feeding on the juice. As the leaves open out the plant lice cluster on their undersides and eventually will cause them to become very badly curled, if measures are not taken to prevent them.

Some of the aphids that are produced throughout summer develop wings and fly to other trees where they establish colonies of their own. At the approach of cold weather sexual forms are produced, the females of which lay their eggs upon the twigs and the life cycle is complete. Bearing the foregoing facts in mind we can next approach the problem of control more intelligently. In doing so, three things must be considered, first, the efficiency of spray to be used, second, its cost, and thirdly its ability to mix with sprays for biting insects and for fungous diseases. This last is a very important point, for by combining various sprays, one operation can frequently be made do the work of two or even of three.

Many sprays that are effective against the aphids cannot be used in this way, and others must be discarded on account of their high cost. Black Leaf 40, a preparation of nicotine sulphate, manufactured by the Kentucky Tobacco Product Co., of Louisville, Ky., which is now being handled by the United Fruit Companies, Limited, is becoming popular as a spray for aphids and other sucking insects. Applied at the right time it is one of the most effective aphid sprays now used and

has the additional advantage of mixing well with the lime sulphur wash and with Lead Arsenate. It is also reasonably cheap, costing about one cent for a gallon of the diluted spray. For green aphid it is used at the rate of one pint to one hundred gallons of water, or lime-sulphur as desired. When used without the lime sulphur, the addition of two pounds of soap will increase the efficiency of the spray, but soap must never be added to any mixture containing lime sulphur.

The time to spray for aphids coincides with the time to spray for apple scab, and the Black Leaf 40 can therefore be used to best advantage in combination with the regular scab spray of lime sulphur. The grower should go carefully over his orchard when the leaf buds are unfolding and determine whether aphids are present. This can be done by any one with a very little practice. If they are hatching in large numbers it will be advisable to spray at this time. Use a good pressure and plenty of material making certain that every insect is touched by the spray. The next and probably most important spray is just before the blossoms open and when the tips of the blossom petals are showing pink. Thus two applications or even one of them are sometimes sufficient, but if necessary another application may be given just after the petals have fallen.

A tobacco decoction equally as effective as the foregoing manufactured article can be made at home from tobacco waste, which can be purchased from cigar or tobacco factories at a small cost. It is made as follows:—

Refuse tobacco 2 lbs.
Water 5 gals.

Boil the tobacco in part of the water for a half-hour; add water to make five gallons. As the cost of this mixture is very little less than that of Black Leaf 40, most people will prefer to use the latter.

Other preparations used for aphids are whale oil soaps of different makes. These are easily prepared and fairly effective, but cannot be used with lime sulphur and cost from one and one-half to three cents per gallon.

Kerosene emulsion is another spray which has been in use for many years for different kinds of sucking insects. It is made as follows:—

Soap 1/2 lbs.
Kerosene 2 gals.
Water 1 gal.

Dissolve soap in hot water, add oil and churn until a creamy emulsion is produced. Use one gallon of this solution to ten gallons of spray. Kerosene emulsion made in this way costs about two cents per gallon. It cannot be added to lime-sulphur and unless very carefully prepared is apt to burn the foliage. Owing to greater killing powers it is often preferred for the woolly and black species of aphid.

Whatever spray is used, however, it must be remembered that every insect must be covered and the spray applied before the aphids have had time to curl the leaves.

W. H. BRITTAIN.

MARCONI COMPANY NOW OFFERS
FOUR CENTS A WORD RATE
TO BRITAIN.

The ideal formed by the Hon. J. Henniker Heaton, a former postmaster-general of Great Britain, of a "penny a word cable" between Canada and Great Britain, has now been approached very closely by the reforms instituted by the Marconi Company in their Trans-Atlantic service, and which come into effect today. It will now be possible to send cable letters of twelve words for sixty cents with a further charge of four cents for each additional word, and week-end letters of twenty-four words for one dollar, with a further charge of four cents for each additional word. The rate per word is thus reduced to an average of four and one-half cents a word for the night letters and four cents for the week-end letters.

The original rate of the Marconi Company was fifteen cents a word, and five years after its establishment in Canada the rate was reduced for a deferred service to 7 1/2 cents. The negotiations for the present reductions have been going on for some considerable time, but administrative difficulties stood in the way.

Another Mystery

Strange Horse and Carriage Found in the Woods Near the Bay Road.

Word reached Digby yesterday morning that a strange horse and carriage had been discovered in the woods on the east side of the Bay Road, a short distance west of the cross roads, some five miles from Digby.

Chief of Police Bowles and a Courier representative immediately commenced an investigation. They found that the horse had been killed with an axe while in the harness. He was found covered with two quilts and a horse blanket. In the buggy was a pail, containing two bags, in which were oats and meal. On the ground, in front of the forward wheel was a bag of hay. At the horse's head was an old fashioned axe. Considerable blood was on the snow in the vicinity of the team. Nearby was a small lard pail containing a quantity of tea, which had been steeped over an open fire. In the carriage was a small can containing a paper bag of tea. One of the bags of feed contained a lumbermen's large safety pin.

The horse was evidently quite a valuable one, weighing in the vicinity of 1100, and appeared to have been in a good condition, when he met his cowardly death blow.

When the team entered the woods it evidently came from the westward, and after the cruel deed had been done the occupants of the team evidently started toward Digby.

Near the team were tracks made by a woman with fairly new rubbers, who also wore gaiters. The man probably wore rubber boots. There were also moccasin tracks, but the chief of police and the Courier representative were not the first people there after the occupants had departed.

It is thought that the team was left at an early hour yesterday morning, probably just daylight and not later than ten o'clock.

Two strange men were seen walking towards Digby, passing by the cross roads about eight o'clock. On return to Digby yesterday we learned that two young men answering the description were seen loitering about the railway station before the departure of the east bound express.

Chief of Police Bowles has the axe in his possession.

If any team has been stolen or is missing from any stable in this vicinity the Courier will be pleased to receive information by wire immediately.

All sorts of theories and strange stories are in circulation this morning, many of which point toward foul play, but no sufficient evidence has yet come forward to warrant an arrest.

To steal a hot stove is something of a feat, and yet this is the charge laid against Patrick Fownes, of Montreal, who was arrested Friday night and charged with taking a lighted stove from the office of the St. Maurice Sand Company, at the sand and gravel dock, No. 1 basin. Fownes is also accused of stealing a chair at the same time, which makes the feat somewhat more difficult.

Joe Howe's Father

Surrounding Halifax as an aura is an atmosphere of the associations of days gone by romantic as it is interesting. And the one chief link binding the Garrison City of Here and Now with an illustrious past is the good, old Halifax Recorder, still printed "blanket-sheet" style and scorning the services of the modern type-setting machine, though published daily as a newsworthy journal. Here is a very fair sample of its musings:

"Quite a land of liberty was old Chebucto, Halifax, but the rowdies could hardly help having a wholesome respect for, at least, one of the magistrates, who was able to exercise his power after the following fashion: One Sunday afternoon when John Howe, Esq., father of the famous Joseph Howe, was wending his way homeward, Bible under his arm, his son, Joseph, trotting by his side, he came upon two men fighting out their little differences. The old gentleman sternly commanded them to desist, but very naturally they paused long enough to answer him with abusive words. 'Hold my Bible, Joe,' said his father, and taking them by the head, and swinging them to and fro, as if they were a couple of newspaper boys, he bumped their heads together for a few minutes; then, with a lunge from the left shoulder, followed by another from the right, he sent them staggering off till brought up by the ground some twenty or thirty feet apart. 'Now desist,' calmly remarked the valiant magistrate to the prostrate scamps, 'let this be a lesson to you not to break the Sabbath in future,' and snugly replacing his Bible under his arm, he and young Joseph resumed their walk homewards."—Busy East.

EMIGRATION IS FALLING OFF.

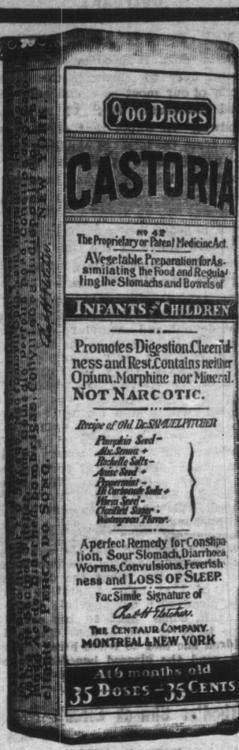

The Cunard and White Star Line Have Cancelled Trips.

(Morning Chronicle)

According to a recent despatch from London, there has been such a falling off in the emigration traffic that the Cunard and White Star Lines have been obliged to cancel trips. Inquiry made at S. Cunard & Company's office, the Halifax agents of the Cunard Line, elicited the information that the Halifax call of the big liner Franconia scheduled for March had been cancelled owing evidently to lack of emigration.

The sailing of the White Star liner Megantic, February 28, from Liverpool, has also been cancelled, according to the London despatch, owing to the same lack of passengers. This time last year there was a tremendous rush of Canadian travel.

The effect of Lloyd George's Land Bill is to keep the agricultural laborer on the soil in Great Britain and this is militating against emigration, is one view. In the industrial world in Europe business is better than it has been, so that the attraction of Canada is not so strong as formerly. There will probably be a big drop in the number of newcomers into Canada.

WEDNESDAY, MARCH 11, 1914.

—The Defence of Canada, in the
Light of Canadian History, is the
title of a pamphlet, the first in the
"International Good Will" series, the
contents of which are well worthy the
careful consideration of every Cana-
dian. It will be our aim in this paper
to present, as concisely as possible,
an outline of the arguments. The
pamphlet itself can be procured
for ten cents from J. M. Dent & Sons
Limited, Toronto.

When Lord Monck was Governor
General of Canada the Duke of New-
castle who at the time was Colonial
Secretary, began a correspondence,
the object of which was to influence
the Canadian people to devise "some
new form of taxation, apart from
custom duties" for the purpose of
building up a military power in Brit-
ish America. The Duke suggested
that money might be taken from the
"Consolidated Fund," over which the
people had no direct control, and
thus, the military question would be
removed from the contingencies of
party politics. Circumstances arose
about this time, such as the Trent
Affair, and the threatened Fenian in-
vasion, to create friction between the
two countries, and this was urged as
a reason why Canada should adopt a
strong military policy. In 1865, four
Commissioners were appointed to
visit Great Britain and confer with
the Imperial Government upon mili-
tary affairs. These Commissioners
were John A. McDonald, George
Etienne Cartier, George Brown and
Alex. T. Galt. They took the position
that "while fully recognizing the
necessity, and while prepared to pro-
vide such a system of defence as
would restore confidence in our future
at home and abroad, the best ulti-
mate defence for British America was
to be found in the increase of her
population as speedily as possible,
and the husbanding of our resources
to that end; and without thinking it
as alright, we venture to suggest
that by enabling us to throw open
the North West Territory to free
settlement, and by aiding us in en-
larging our canals and prosecuting
internal production works, and by
promoting an extensive plan of em-
igration from Europe, into the un-
settled portions of our domain, per-
manent security will be more quickly
and economically achieved than by
any other means."

The Commissioners added that
Canada had lately increased her an-
nual military expenditure from
\$300,000 to \$1,000,000, and was still
willing to expend the latter amount,
but that the suggestion of the Duke
of Newcastle was distasteful to the
people, who were opposed to compul-
sory service, and that it would create
a military machinery "at variance
with the habits and genius of the
Canadian people, and entailing an
expenditure far in excess of the sum
which the legislature and the people
have declared themselves ready to
provide." It will be evident from the
personnel of this Commission
that; this matter was not looked
upon, from a party stand point, but,
regarded as the deliberate conviction
of the Canadian people in general.
As the writer observes, "It was a
time of provocation towards Cana-
da, but can we now doubt that Cana-
da's amity toward her neighbors
and its influence in the peace which
reigns between the British and Amer-
ican peoples today?"

The fact is that for a century peace
has reigned between Canada and her
neighbors and not a soldier or
arsenal is needed along the border of
more than three thousand miles.
But this peaceful policy is in dan-
ger of being completely superceded.
The expenditure for military pur-
poses is increasing by leaps and
bounds during the last twenty years,
and in a much larger ratio than the
population, as may be seen by the

following diagram taken from the
pamphlet.

POPULATION	
1894.—5,000,000.	
1914.—9,900,000.	
PERMANENT FORCE	
1894.—1,000	
1914.—3,200.	
ANNUAL COST OF PERMANENT FORCE	
1894.—\$235,000.	
1914.—2,300,000.	
PENSIONS	
1894.—\$25,000.	
1914.—104,000.	
TOTAL MILITARY EXPENDITURE	
1894.—\$1,284,000.	
1914.—18,792,000, as in estimates for 1914.	

While the population during the
last twenty years has increased in
the proportion of three to five, the
military expenditure has increased in
the proportion of one to fifteen.

We believe, with the writer of this
pamphlet, that the great body of the
Canadian people are quite satisfied
with the policy recommended by
those able Commissioners in 1865,
which has been productive of such
good results, rather than that which
threatens to swallow up large sums
of money, so much needed for the
material, mental and moral uplifting
of our heterogeneous population, and
which if expended for such a purpose
would enable Canada to continue the
example she has shown to countries
bristling and heavily burdened with
the implements of warfare.

Moreover, Great Britain cannot
divest herself of some responsibility
for the increase of military expendi-
ture in Europe. At the last Hague
Conference, two-thirds of the nations
represented were favorable to the ex-
emption from seizure, in time of war
of all private shipping. Great Brit-
ain refused her consent, and the mat-
ter was laid over to the next Hague
Conference. Had she given her con-
sent the necessity which she today
feels for the continually increasing
expenditure upon armaments would
have been greatly lessened, and other
nations would have enjoyed a similar
benefit.

Birthday Anniversary Observed

On Friday evening, Feb. 27, a num-
ber of friends and relatives gathered
at the home of Mr. Willett Eason at
Mt. Rose, the occasion being the ob-
servance of his eighty-sixth birthday.
A collation was served at eight
o'clock, and the festivities continued
until a late hour. Mrs. O. L. Phil-
brick of Boston, and Mrs. C. A. Star-
rett, daughters of Mr. Eason, ob-
sisted the host in receiving the guests.
Years have dealt lightly with Mr.
Eason and his wonderful intellectual
qualities and genial manner has won
for him the love and respect of all
who have had the pleasure of meeting
him. All present hoped to have the
pleasure of many more birthday
observances.

Beware of False Marking of Apples

The Census and Statistics Monthly
for January says that since the Oc-
tober number, convictions have been
secured for false marking of apples
of twenty persons or firms in Nova
Scotia, forty-six in Ontario, and one
in British Columbia.

Three firms in Alberta and one in
British Columbia were also fined for
selling imported fruit, which was not
marked as required by the Inspection
and Sale Act.

The names of all these persons and
firms are given. None of them belong
to Annapolis County.

Woman Killed With Sledge Hammer

Mrs. Margaret Brown, a widow,
aged fifty years, was murderously at-
tacked with a sledge hammer in her
home, 26 Bliby Street, Halifax, Mon-
day morning, and died of her injuries
at the Victoria General Hospital. The
woman's skull was frightfully
crushed, but despite the terrible in-
juries she lived about fifteen hours
after being attacked. James Murphy,
a young man from New Glasgow, was
arrested by the police, and will have
to face a charge of murder. Family
troubles are alleged to be the cause
of the crime. Murphy is said to have
been married to a daughter of the
dead woman.

DO YOU KEEP BEES?

A firm in London, England, wishes
to be put in communication with per-
sons in Nova Scotia who produce
honey. This English firm has be-
come interested in Nova Scotia
through the exhibit at Selfridge's de-
partmental store, London, prepared
by the Department of Industries and
Immigration, Halifax. All bee-
keepers in Nova Scotia who would
like to extend their honey trade
should send in their names and ad-
dresses immediately to Mr. Arthur S.
Barnstead, Secretary on Industries
and Immigration, Halifax.

OBITUARY

MRS. CHURCHILL GOODWIN.

Again does it become our most
painful duty to chronicle the death
of one of our most esteemed and be-
loved residents, Mrs. Churchill L.
Goodwin, to whom that silent mes-
sage from the land of shadows came
in the twilight hours of Friday
morning. Her health had been fail-
ing for some time, and her passing
away was not unexpected. She was
young in years, being scarcely thirty-
two years of age at the time of her
death. Her maiden name, before her
marriage was Miss Verena Burrell
of Clementsport. She was a consistent
member of the Baptist church, a
most devout and exemplary christian
lady. In the homes of the sick and
dying she was ever a ministering
angel, always there to lessen the
pains of the suffering and soothe the
pangs of the dying. She was a most
devoted wife and a loving mother,
and most richly endowed with those
christian virtues which give that
beautiful and lasting charm to all
womanhood. Her funeral took place
on Sunday afternoon. The Rev.
Gordon C. Warren of Bridgetown, of-
ficiated. She was laid to rest beside
her husband's parents in the Walle-
ville cemetery. She leaves behind a
sorrowing husband and three young
children,—one daughter and two sons.
Who knows but what the deathless
spirit of that beloved mother may
often plead with her heavenly Father
to again come back to her earthly
home to hover and be near the little
children she had to leave here? May
God send the blessed benediction of
Heaven unto them who mourn.

Methodist Church Circuit Notes

BRIDGETOWN.

Week evening services at 7.30
o'clock as follows:— Wednesday,
Prayer and Praise; Friday, Epworth
League. The subject of Friday even-
ing will be Temperance. Next Sunday
the congregation of this church will
unite with the congregation of the
Presbyterian church for both the
morning and evening services. The
morning service will be held in the
Presbyterian church and the evening
service in this church. Rev. J. F.
Dustan will preach at both services.
Sunday School as usual at 10 a.m.
See advertising columns for an-
nouncement of St. Patrick's Day ex-
ercises next Tuesday. The lecture
room of the church upon that occa-
sion will be converted into a verita-
ble scene of beauty and brightness.

GRANVILLE

Regular service here next Sunday
at 3 p.m. A committee from the
Quarterly Official Board will attend
this meeting and lay before the con-
gregation the manifested need of ad-
ditional ministerial supply for the
coming year.

BENTVILLE.

Service here next Sunday at 11 a.m.
Annual missionary offerings were
handed in for the first time on Sun-
day last, and the givings already in-
dicate the usual earnest missionary
interest of this church. The ensuing
Sundays will add to the generous
amount already in hand.

Church Notes—Parish of St. James

BRIDGETOWN

The services and meetings for the
coming week will be as already out-
lined.

Today (Wednesday) 4 p.m.

Friday, (Children's service) 4 p.m.
(Adults welcome)

Friday Adult Bible Class, 7.30 p.m.

Sunday—Services at the usual hour

Subject of sermons—Morning, "The
Christian Science of Prayer" Even-
ing, "Some Pertinent Teaching of
Jesus Christ."

Monday—Lantern lecture 7.30 p.m.

Tomorrow (Thursday) at noon,
sewing meeting at the Rectory 2.30
to 5.

ST. MARY'S, BELLEISLE.

Sunday—Service at 3 p.m.

Tuesday—Lantern Lecture in the
Belleisle Hall at 7.30 p.m.

The Bridgetown Baptist Church

The regular prayer meeting will be
held on Wednesday evening.

On Friday evening the B. Y. P. U.
intend holding a social at the home
of Mrs. D. G. Harlow. The young
people of the church and congrega-
tion are cordially invited to be
present.

Sunday services: Bible School at 10
a.m.; public worship at 11 a.m. and
at 7 p.m. and at Centree at 3 p.m.

At morning worship the sixth ser-
mon in the series on the Beatitudes
will be given. Subject: "The Vision
of the Pure-Hearted."

Shipbuilding is remarkably brisk at
Lunenburg and the orders are piling
in thick and fast. The impetus given
his industry by the call for vessels
to engage in the fresh fishing busi-
ness, caused by the transfer of Amer-
ican firms to the Nova Scotian ports
is inducing the builders to get an ex-
tra hustle on. Smith & Rhuland, the
reliable builders there, whose vessels
have made names for themselves
wherever sailed, have just laid the
keels for two new schooners and have
orders booked ahead for nearly a
year.

**HOW TO SECURE BEST
RESULTS FROM FERTILIZERS**

Basic Slag, in itself is not
a complete fertilizer, as it
only supplies Phosphoric
Acid and Lime. In order
to derive the full benefit
from the Slag, Potash (and
in some cases Nitrogen)
must be used with it, since
the same underlying prin-
ciple demands for plants
as well as for animals a
"balanced ration."

In Great Britain the ben-
eficial effects from a com-
bination of Basis Slag and
Potash are so well known
that the term "Slag and
Potash" is one with which
every farmer is familiar.

Old Country experience
with these materials has
been amply confirmed by
numerous experiments con-
ducted in the Maritime
Provinces.

We can supply you with
all high grade fertilizer
materials, Potash, Nitrate
of Soda, Acid Phosphate,
Basic Slag, etc., at lowest
prices. You can mix these
yourself at home, and save
25 to 40 per cent in fertiliz-
er cost. Call and see us.

LOCAL AND SPECIAL

At a meeting of the Middleton School Board last week W. F. Parsons was chosen chairman for the year.

William Franklin Spurr of Deep Brook, has been appointed a Justice of the Peace in and for the County of Annapolis.

Our advertising columns announce an interesting event to take place in the lecture room of the Methodist church next Tuesday.

MacKenzie, Crowe & Co. have resumed work in both the tannery and larrigan factory with a larger staff than they have employed for several months past.

March came in like a lion, though this section of the country escaped the severe storm which caused serious loss and inconvenience through the Eastern States.

Peery's Peerless Players were greeted by full houses at Primrose Theatre last Wednesday and Thursday evenings. The general opinion of those who heard the plays is that the performances were above the general theatrical shows that come this way.

We beg to acknowledge receipt of a very neat and attractive post card folder from one of our oldest subscribers, A. W. Stone, who is at present living in Charlton, Mass. Mr. Stone is a very ardent Mason, and the folder is a picture of the beautiful Masonic Home which was dedicated May 25, 1911.

The heroism displayed by Capt. Inch in the Volturino disaster was fittingly recognized by the citizens of Halifax last week when the gallant captain was presented with an address and handsome silver cup in the city hall in the presence of Lt.-Gov. MacGregor, Mayor Bligh and other civic naval and military officials.

On Tuesday, March 24th, our local talent will present "The Country Minister" in the Court House. It is a comedy drama in five acts by Arthur Lewis Tubbs. A very sympathetic piece of strong dramatic interest. Reserve that date and enjoy a good evening and at the same time help the cemetery fund.

A report was in circulation about town yesterday that a site for the new post office had been decided upon. We do not give the report credence, and cannot believe a site will be decided upon without giving the citizens of the town a voice in the matter after the government engineer has given a report of the sites available and most suitable for the building.

The administration building in connection with the Vermont Industrial School at Vergennes, Vt., of which Mr. Nathaniel Barsa, a former Melvern Square boy, is superintendent, was recently burned to the ground. Mr. Barsa was away at the time the fire broke out, but was hastily summoned back to the institution, where the problem of housing 130 boys, made homeless by the fire, confronted him.

Decision was given yesterday by the full bench of the Supreme Court at Halifax in the case of Starratt vs. the D.A.R., the Court dismissing the appeal with costs. This case was given a second trial at the Supreme Court here last June, the Jury giving a verdict at that time for Mr. Starratt. The D. A. R. appealed from the decision to the Supreme Court en banc, and the appeal is now dismissed as stated above.

Sergt. Graham, instructor from the Royal School of Instruction, Halifax, is conducting classes in military training for officers, non-commissioned and men of the 6th regiment, in Bridgetown this week, from the 9th to the 14th. The large apple warehouses next the D. A. R. station has been secured, where the drill is held, and all those interested are requested to attend. Classes begin at 7.30 sharp.

The steamer Prince George now in the service between Yarmouth and Boston has recently had a complete overhauling. Her boilers have been rebuilt and her engines thoroughly repaired. Fifty-five new, airy and commodious staterooms have been added on the main and boat decks, which accommodate 150 more passengers. These rooms have been fitted with the latest designs in plumbing, heating and ventilation, and are among the best on the ship.

We learn from the Manitoba Free Press of a recent date that Mr. and Mrs. N. A. Cleveland celebrated their golden wedding anniversary on March 2nd. Mr. Cleveland was born in Bridgetown and will doubtless be remembered by some of our older residents. He married a Miss Archibald of Great Village. The Free Press says, "They have a comfortable home on Beverly street (Winnipeg) and are well provided for for the remainder of their days."

The Fort Collins Express of January 23rd makes the following reference to one of our Annapolis County boys who has been "climbing up" in the mercantile world since his departure from his native Province: "J. F. Foster, manager of the State Mercantile Company, announced Tuesday that plans are now being drawn for the improvement of that already large store, that will make it not only one of the most complete mercantile establishments to be found in Northern Colorado, but in all of the West. Estimates of the cost of the proposed improvements at this time are \$12,000, though it is possible that it will go to an even greater sum before they have been completed."

LOCAL AND SPECIAL

For Sale—One Horse. Also one set of double harnesses.
OTTO SAUNDERS, Clarence.

On Tuesday of last week thirteen black foxes arrived in Yarmouth from far-off, Alaska and were forwarded to a fox ranch at Argyle Sound.

The number of automobiles owned in Nova Scotia at the end of 1913 was 1495, an increase of 534 over the number at the end of the previous fiscal year.

So far this season 3,708,507 bushels of grain have been shipped from St. John to Europe, forty-nine ships having taken the grain beside general cargoes.

Olive Branch Division has invited the sister Paradise Division to a visit on Monday evening next, the 16th inst. The visit will be enlivened by a debate. Subject: "The pen is mightier than the sword."

Toronto Globe:—If the United States were suddenly to be deprived of the services of the Canadian graduate nurses in the hospitals of that country the result would be startling. Many of them would have to close their doors temporarily.

Two very interesting spelling matches have recently been taken part in by Upper Granville and Centrelea schools. Granville was completely victorious in the first with a score of 7-0, but through lack of time the last one had to be left unfinished, standing with a score of 5-2, again in favor of Granville, with all indications of their final success.

Ex-Alderman W. E. Hebb, Esq., of Halifax, and manager for Nova Scotia of the Fidelity and Casualty Company of New York, one of the largest accident and health companies in America, was in town last week looking after the interests of the big company. After writing up considerable business he appointed Mr. A. W. Kinney agent for Annapolis County.

Mr. Wallace A. Richardson, who for the past year and more has been manager and editor of the Western Chronicle, Kentville, was elected Mayor of Sydney, C. B., on Tuesday, March 3rd. Mr. Jas. Connell, brother of our townsman, Mr. Forrest Connell, has been successfully conducting the affairs of the Chronicle for the past two weeks or more, during Mr. Richardson's absence in Sydney.

PERSONAL PARAGRAPHS

Miss Mary Phalen returned on Monday from Boston.

Miss Florence Lee is attending the millinery openings in St. John.

Miss Marion Dearness is attending the millinery openings in St. John.

Mrs. J. P. Cunningham is visiting with friends in Annapolis Royal this week.

Mrs. J. W. Peters and little Margaret are visiting among relatives in St. John.

Mr. Kenneth Dodge has been confined to his home the past week or more through illness.

Crown Prosecutor John Irvin is attending the County Court now in session at Annapolis Royal.

Mr. Avar L. Beeler is spending a week in Boston and is expected to return on Saturday, March 21st.

Miss Alice McMillan of Annapolis Royal, spent a few days in town, the guest of her aunt, Mrs. Beckwith.

Miss Louise Ruggles returned last week from Halifax, where she has been studying music for the past two months.

Mr. Frank Marshall, after an absence of several years, is visiting his brother, Mr. Atherton Marshall, in Clarence.

Mr. W. V. Jones has so far recovered from his recent illness as to be able to resume his duties at the D.A.R. station today.

Mrs. Ephraim Ramey and little granddaughter Marjorie Wade left on Saturday for a two months' visit in Boston and vicinity.

Mr. John Brown of Lawrenceport, was in town the early part of this week, the guest of his brother, Postmaster A. D. Brown.

Jos. Allen, of the firm of A. W. Allen & Son, Middleton, was in town on Monday in the interests of the Middleton Wool & Fur Company.

Mr. and Mrs. L. R. Baker of Red Deer, Alberta, are visiting friends in town and in Clarence. Mrs. Baker was formerly Miss Nettie Dodge of Clarence.

Mrs. Harry Ruggles left for Montreal on Monday, and expects to return on Saturday accompanied by her son LeMoine, whose health we are pleased to learn is somewhat improved.

Rev. B. J. Porter left Bridgetown on Monday to join Rev. Dr. Hearst at Sambro, Halifax County, in a series of special evangelistic services. Mr. Porter expects to be absent about ten days.

Protect Your Children

The cold, changeable weather is very prone to bring on colds and coughs. In spite of care the little folks get wet and chilled. Our special Emulsion of Cod Liver Oil, prepared for us by Parke, Davis & Co., keeps the little systems built up and able to throw off the ill effects of these experiences—it is easy to take too, the children like the taste of it. Put up in the regular \$1.00 size, and our price is only .75c It's cheap insurance—try it.

Young Ladies Play Basket Ball

Playing a snappy game, the Sheep defeated the Foxes at basket ball, score 13-11, in Foster's Hall, Monday night. A fair sized crowd witnessed the game. The field throwing of both teams was exceedingly good. Miss Louise Ruggles of the Sheep and Miss Josie Kinney of the Black Foxes, did the scoring. The centre throwing of Stella Gill was exceptionally good. The teams on the whole played well together and combined nicely. It was a well deserved victory for the winning team.

The line-up was as follows:—
Karakule Sheep, Black Foxes.
Attack
Louise Ruggles, Constance Lloyd, Nora Anderson, Josie Kinney, Centre.
Stella Gill, Doris Neily, Defence
Gertrude Hartnett, Dodo Lloyd, Hortense Griffin, Flossie Troop

BRIDGETOWN

ANNOUNCEMENT

TO THE PUBLIC:— We have decided that on the 16th of March, 1914, we will commence A STRICTLY CASH BUSINESS.

In many ways we regret to make this change, as custom has established the credit system and it has gone to such an extreme that in some instances it is thought to be almost impossible to do business without the furnishing of the extra capital for the convenience of our customers.

The keenness of competition to-day created through the high cost of living and increased expenses of business, and the fact that other large houses are adopting the cash system in order to enable them to retail goods at lower prices, forces us to this decision.

Under the credit system you are not only supporting your own family, but assisting to support those who are not willing to be self supporting, in addition to helping pay the book-keeping and interest on money at present tied up in unpaid accounts, etc. While under the cash system we will be able to keep a larger and more modern assortment of goods in stock AT PRICES THAT WILL APPEAL TO YOU.

We trust that you may see your way clear to still continue your business with us, in any case do not withdraw your patronage without first giving us a few months' trial. We will take all kinds of produce as cash, balancing each transaction as it occurs.

Again thanking you for many favors you have shown us in the past few months and assuring you that we will endeavor to fill all your orders under the new system to the very best of your ability. We are
Yours Very Truly

CLARKE BROS. BEAR RIVER

MARITIME TELEGRAPH AND TELEPHONE COMPANY

At the annual meeting of the Maritime Telegraph and Telephone Company, at Halifax on Tuesday, the old directors were re-elected with S. M. Brookfield president. The company's receipts amounted to \$590,837, and the expenditure to \$479,330, leaving a net revenue of \$111,507. After payment of \$4,723 in dividends, including that of January, there is a surplus of \$106,784. This with the balance from last year of \$11,378, makes a total balance surplus of \$118,162. The authorized bonds amount to \$1,500,000, of which \$319,400 are in the treasury. The shareholders passed a resolution authorizing the directors to issue a part of the whole of these treasury bonds at such rate as may seem best. The balance sheet shows assets of \$4,061,137, of which \$585,522 is reserve for replacement and contingent.

BOSTON HAS A FISH FAMINE.

According to the Boston Herald prospects of a fish famine loom at T. wharf with the Lenten season in sight. Schooners are not mopping their "salt," according to the fishermen. Since February opened, gales have seriously interfered with operations of the off-shore fleet and shore craft have had too much dodging in to harbor to fill their holds with paying fares.

Cod and haddock are soaring into the trout class with continuance of heavy weather—at least, prices paid by wholesalers at the fish pier stamp the common variety of sea food as a luxury. The freezers have been called on to help out till storage concerns complain that the stock is dwindling rapidly.

From one schooner comes the report that several of the crew paid for doctors' services practically their entire earnings for a ten days' experience at sea that sowed seeds of pneumonia.

Clammers are complaining that the cold snap has covered flats with ice so as to put a stop to digging. The ice spears swell the note of discontent with complaint that the ice holes are frozen up and the mud won't yield to jabbing.

Lobstermen rustily collect remnants of traps from the beaches and vow they will do no more baiting till the weather gets settled. Thousands of dollars in gear has been destroyed within the past ten days and valuable power doles owned by fishermen have been wrecked.

Minard's Liniment relieves Neuralgia

DOCTOR COMMENCES RADIUM CURE FOR THE BLIND.

New York, Feb. 12.—Dr. John Ege, of Reading, Pa., whose marvellous urea by radium were reported three weeks ago, arrived in this city yesterday and treated without any charge twenty patients who suffer from blindness. Before returning to his home last night Dr. Ege expressed the belief that the sight of twenty per cent of blind people can be restored through the use of radium. There were seventy-five eighty persons appeared at Dr. Ege's free clinic at the Hotel Arlington, in West Twenty-Fifth street, and of these he chose twenty of the more "hopeful" cases.

Dr. Ege brought with him nine tubes of radium, of from 20,000 to 2,000,000 degrees of activity to the milligram. After an examination of the patients he chose twenty persons who can still distinguish between day and night. In some cases as much as five milligrams of pure radium was applied. Others were told to first visit an oculist for a thorough examination before taking the radium treatment.

"With the supply of radium I have said Dr. Ege, "it will not be possible for me to treat other cases until I have disposed of the twenty patients who were given the first treatment today. I have arranged for these men, women and children to visit me in Reading and I will continue the use of the radium so long as there is the slightest hope of restoring their sight. I want to say that I will not accept one cent of payment from any of these patients."

Minard's Liniment Cures Dandruff.

Bear River

Born to Mr. and Mrs. Willard Marshall, March 1, a son.

Mr. Daniel Owen, of Owen & Owen, was in town on Saturday.

Friendship Lodge I. O. O. F. will confer the first degree on five candidates this Thursday night.

There arrived at the home of Reginald Berry on Sunday, the 8th, a little stranger girl for a visit of indefinite length.

Rupert D. Harris had a very delicate operation performed at the hospital in Halifax on Thursday. We are pleased to know that he is doing well.

Wm. Alcorn made from two cows, during the months of January and February, 171 lbs. butter and one of these has given milk for fifteen months. Next!

Miss H. E. Wade returned from St. John on Wednesday where she had been selecting her stock of spring millinery, which will arrive via S. S. Bear River.

S. S. Bear River has succeeded in breaking through the ice with the loss of three blades from her propeller, which has already been replaced with a new one. She steamed for St. John on Tuesday morning.

Miss Annie K. Spence of Orkney, Scotland, and Jesse P. Jefferson were united in matrimony at the parsonage by Rev. A. Daniel on Thursday, 5th inst. Mrs. Jefferson will be "at home" to friends on Wednesday and Thursday afternoons, 18th and 19th inst.

The sad news was received here last week of the death at Halifax of Miss Irene Purdy, at the home of her sister, Mrs. Horton Phinney. She and her twin sister were spending the winter with Mrs. Phinney. She leaves to mourn their loss her mother Mrs. Ella Purdy, who was in Boston at the time of her death, and brothers, Rev. Charles and William, residing in New York; also three sisters, Mrs. H. Phinney, Halifax; Miss Grace, Boston, and her twin sister, Olive, at present in Halifax. The interment took place in Halifax.

DEEP BROOK

March 9.

A good meeting of the Mission Band last Sunday.

Mrs. Sherman is spending a few days with relatives in Bear River.

Fred Rice, who spent the past two months with his mother, Mrs. F. W. Rice, left last week for British Columbia, where he is employed at railway construction.

The Woman's Mission Aid Society held their monthly meeting on the afternoon of Tuesday, 3rd, with the President, Mrs. J. D. Spurr, and began the study of The King's Business.

At the Dorcas Society meeting held at the home of Mrs. Robert Spurr last Wednesday, plans were matured for the supper and entertainment to be given on Thursday evening, March 12th.

Rev. J. S. McFadden is preaching a series of sermons on "The Church," which are well spoken of. Next Sunday, March 15th, special collection for Home Missions at the Baptist church. Service at seven o'clock in the evening.

Mr. and Mrs. George Spurr have sold out their interests here and are leaving this week for Yarmouth County, where they expect to make their home. Last Thursday evening they were given a surprise party when they received words and tokens of appreciation. A beautiful wool shawl was presented to Mrs. Spurr by the Dorcas Society, of which she has been a useful and valued member. Our best wishes attend them.

CLEMENTSVALE

March 9.

Miss Vera Eaton spent a very pleasant week end with friends at Bear River.

Mrs. Harris Long of Deep Brook, is with her aged parents, Mr. and Mrs. W. D. Long, who are both in failing health.

Mr. T. A. Sanford and Mrs. Prior Sanford left on Saturday for their homes in Alleton and Somerville, after spending two weeks among relatives here.

Our energetic teacher held a pie sale in the school house, Tuesday to raise funds for school purposes. The sum of \$8.50 was realized, and a general good time enjoyed by all.

A number of young people from here and Bear River East enjoyed a sleigh ride to Lequille last Friday evening and were hospitably entertained at the home of Mr. and Mrs. Arthur Spurr.

ANNAPOLIS ROYAL

March 9.

Mrs. J. P. Edwards has returned from Boston.

Miss Beatrice Harris of Bear River, is visiting Miss M. Beeler.

Miss Edna Taylor, recently the guest of Judge and Mrs. Savary, has returned to Halifax.

The milliners, Miss Chisholm and Miss Milbury are attending the millinery openings in Boston and New York.

The longest and strongest cold snap of many winters has been broken by a long thaw, demoralizing the sleighing and bringing with it a spring-like atmosphere.

Mrs. E. McClafferty left for Boston a few days since to enter a hospital for medical treatment, and also to visit her sisters, Mrs. Edward Flint and Miss Christie Ritchie.

Miss Mary How, daughter of Rev. H. How, and Miss Lillian Fortier left last week for Montreal, where they will enter upon training for professional nursing at the Royal Victoria Hospital.

Mr. and Mrs. F. C. Whitman accompanied by their daughter Edith, left on Thursday last on a trip to the Pacific Coast. They will visit their daughters, Mrs. F. C. Harris at Vancouver and Mrs. Sydney Wilcox at Winnipeg.

The first train to run into the new C. P. R. passenger station was the freight and accommodation of Saturday night. The new station is a distinct acquisition to the town, both from an architectural point of view and as a convenience. It is of brick construction with granite trimmings and in plan and equipment is in every detail up to modern requirements. The ground has been nicely graded off and a convenient walk and flight of steps leads to St. George street. The grounds are to be planted for garden effect in the spring and a further improvement is anticipated in the removal of the wooden overhead bridge on St. George street, which is to be replaced by one of steel construction.

PORT WADE

March 9.

Mr. Samuel Reed, wife and child of Halifax, are visiting at the homes of John D. Apt and others.

Mrs. Ralph Hayden went last Wednesday to the Provincial Sanatorium, accompanied by Mrs. James Snow, who returned on Saturday. Mrs. Hayden expects to stay three months for treatment at the institution.

We are hoping to see the brass buttons shining on the coat of the Commissioner this coming summer, as there will no doubt be a lot of repair work on the wharf here. A number of us are expecting a chance for work with Mr. Connors, and no doubt our anticipations will be fully realized.

HYMENEAL

RONEY—MORGAN.

The marriage of Mr. Frank Eugene Roney of Granville Ferry, and Miss Lizais Belle Morgan, daughter of Mr. George Morgan, formerly of Bear River, was celebrated on Wednesday evening, 25th inst at 8.30 o'clock. The ceremony was performed by Rev. J. H. Davis, being witnessed by immediate relatives and friends. The wedding march was played by little Miss Marion Roney.

The bride looked charming in a gown of brown. Miss Isa M., sister of the groom, acted as bridesmaid, while Mr. C. A. Chisholm did honors for the groom.

The gathering was a happy one and was interspersed through the evening with music, sacred and patriotic songs, and general conversation, when, after an excellent and dainty collation, the happy guests departed for their homes.

The bride was the recipient of many valuable and useful gifts.

MRS. TEDFORD'S BEQUESTS.

The estate of the late Mrs. H. G. Tedford of Yarmouth is estimated at \$125,000. Among the bequests are \$20,000 for Acadia College; McGill University, \$5,000; Foreign Missions, \$15,000; Orphanage, Halifax, \$500; Y. M. C. A., Yarmouth, \$2,000; Library, Yarmouth, \$500; Yarmouth mission, \$500; Second Baptist church, Yarmouth, \$1,000; School for the Blind, Halifax and Deaf and Dumb School, Halifax, \$500, each.

Most people would be benefited by the occasional use of Na-Dru-Co Laxatives Gently, thoroughly, and without discomfort, they free the system of the waste which poisons the blood and lowers the vitality. 25c. a box, at your Druggist's. National Drug and Chemical Co. of Canada, Limited. 176

FRUITS

Grape Fruit, Oranges, Lemons, Grapes and Tamerands

GRAPE FRUIT

If wanted for breakfast, should be prepared over night in the following manner:—

Cut the fruit in halves, crosswise, and with seissors or sharp knife, snip all around the inner circumference where the pulp joins the skin, this cuts through the membrane that radiates from the centre core, next snip around the core, then holding the core between the seissor blades, twist around smartly and lift out, fill the space thus left with sugar and let set over night. This will be found a very delicious and wholesome breakfast dish.

Keep a bottle of Kendall's handy, 75c. for 85. Our look "Treatise on the Horse" free at druggists or Dr. S. J. KENDALL CO., Eastbury Falls, Vt.

VITALITY REGAINED KIDNEYS CURED

Health Restored By "Fruit-a-lives"

HAGERSVILLE, ONT., Aug. 26th, 1913.
"About two years ago, I found my health in a very bad state. My kidneys and liver were not doing their work, and I became all run-down. I felt the need of some good remedy, and having seen 'Fruit-a-lives' advertised, I decided to try them.

Their effect, I found more than satisfactory. Their action was mild and the results all that could have been expected. My liver and kidneys resumed their normal action after I had taken upwards of a dozen boxes, and I regained my old time vitality. Today, I am as well as ever, the best health I have ever enjoyed, and I unhesitatingly give you this testimonial for publication if you wish."

B. A. KELLY.
In hundreds of letters received by the Fruit-a-lives Company, the same expression is used "Fruit-a-lives is the best kidney remedy in the world". At any rate, these tablets have proved the best to the hundreds of men and women who have been cured by taking them. 50c a box, 6 for \$2.50, trial size, 25c. At all dealers or sent on receipt of price by Fruit-a-lives Limited, Ottawa.

DAIRY MATTERS.

Within the next few weeks several hundred cheese factories will be opening, hundreds of farmers will be preparing to milk thousands of freshly calved cows. Logically this beginning of a new season is the time to commence keeping records of production of the cows separately. Just a knowledge of the total yield of milk from the whole herd may give the owner an idea of the average yield per cow, but that does not give quite enough information. There may be a thousand pounds of milk difference in the total yield of two cows for the season, which would be unnoticeable in the small difference in the appearance of their two milk pails daily. Often the difference is far more than a thousand pounds, yet all cows are lumped together, good, poor and medium, all alike, when taking merely an average.

Since keeping records of individual production, many a dairyman has increased the average of his herd by fifteen hundred, and two thousand pounds of milk or more, because he has been able to detect the poor, unprofitable cows that masquerade as real dairy cows. On application to the Dairy Division, Ottawa, milk records forms and instructions are supplied free. Write today, and begin the new season right, with the object of keeping none but profitable cows.

C. F. W.
Dominion Dept. of Agriculture.

Be a friend to yourself. Cherish your ideal, compassionate your own heart. Deal tenderly with your aspirations, be patient with your shortcomings. You can learn to love your neighbor as yourself only by being kind to your own best.—Amy Ruth Wenzel.

French wine growers have made arrangements so that henceforth they will be informed by wireless of the approach of a storm twenty-four hours in advance in order that they may prepare to protect their crops.

Apple Varieties

Useful Notes for the Man Who Intends to Plant Next Spring.

In the long winter evenings is the time to bring into use the most important of all farm implements,—that which is covered by the farmer's hat. If next year's work is planned now, things will go much more smoothly when the time comes to carry one's plans into action. The farmer who is proud of his orchard will see that the necessary pruning is done before spring comes. He who wants to be proud of it will see to that, but he will also be planning alterations. For him the following notes on apple varieties may come in useful.

The Ribston is a continual bearer, and bears early in life quite heavily. The fruit carries well, will stand rough handling, but the apples do not grow free from disease, and it is not a high priced apple. It is, however, considered to be one of the best paying varieties here in Nova Scotia.

The Gravenstein, also one of the best varieties, does not carry well, is subject to fungus diseases, but on the other hand it bears well, and is very desirable in the market. The Cox's Orange is one of the best flavored apples grown and until recently, the highest priced apple in the English market. Its drawbacks are that the tree is a shy bearer, requires to be well fertilized, and has a delicate growth.

WHEN A TREE PAYS.

Among the old varieties, in my opinion, and I find it is held by many other orchardists, we must place the King, which has to be well fed, and the old Baldwin as the best paying varieties, after they come into bearing. This reluctance on their part to work constitutes their great drawback. By grafting the former on to the stock of a good bearer, one will often get the tree into abundant bearing early. These two apples have been bringing top prices for some time.

The age at which a tree will enter into profitable bearing depends also largely on the care it has received. Since transplanting Northern Spies, by being well cared for, and pruned very little during their growing period, have come into bearing at eight years, although fifteen years is the time generally given them, I would say that the ages that five or six of the best varieties take to come into profitable fruiting are as follows:—Baldwin, ten years; Spy, twelve years; Ribston, six years; King, twelve years; Gravenstein, five to seven years; Wagener, Cox's Orange, etc., five years.

Taking into consideration all the desirable points, I have not much hesitation in claiming for the Baldwin the highest place. The tree is easily pruned, sprayed and cared for. It has a reasonably sound and vigorous growth, is a good bearer, has a good reputation on the market, and is a fine carrier.

WHAT A TREE IS WORTH.

In my own experience, the Baldwin has given the best ten-year results. The question of what a tree will do, must depend largely on the age and bearing surface of the tree. I have Baldwin that averaged in the last decade, six barrels to the tree, and others that would only average two,

and still be full. A twenty-five year old tree should give an average yearly crop of four barrels, and this is a good record. Of the four barrels per tree three at least should pick which would give \$6.75 per tree, which is \$2.25 per packed barrel. I consider this, though to be above the average, but we are speaking now of the best paying varieties.

The King on its own stock is a shy bearer, but when it is grafted on the Talman Sweet, which is a prolific species, it becomes a very good bearer. I have two trees so grafted which average me three barrels to the tree.

From practical experience, I find this one of the hardest questions to answer, in the whole range of problems of commercial orcharding. During the last year, I asked twenty different men, men who ought to know most about it, and I got a list of some fifty varieties. Almost every orchardist has some pet varieties, and we all differ. Last spring I planted almost 1,000 trees, and these were chiefly Stark and Baldwin for standards, and Wagener and Cox's Orange for fillers. These early bearing ones are planted in order to make the land produce something soon.

In planting out a wholly new orchard, I would select a range of varieties covering the whole year from September to May, so as to have picking, packing, etc., extend over as long a period as possible, and so avoid a congestion of labor in any one period. In this part of Canada I would plant the following varieties: for September, Gravenstein, Duchess and Wealthy; for October, Ribston, King and Blenheim Orange; for November to March, the Baldwin, Wagener, Cox's Orange, Stark and McIntosh Red. I would not plant out more than eight varieties, for a commercial orchard, for the principal reason that a few sorts will sell better, be less trouble to pack, can be sold in larger quantities at one time, and will attract buyers more readily than small lots of many varieties.

We Have Faith in this Stomach Remedy

A woman customer said to us the other day, "Say, you ought to tell everyone in town about Rexall Dyspepsia Tablets. I would myself if I could." That set us to thinking. So many people have used them, and have so enthusiastically sounded their praises both to us and their friends, that we had an idea you all knew about them. But, in the chance that some of you suffer from indigestion, heartburn, dyspepsia, or some other stomach complaint, don't know about them—we are writing this.

They contain Bismuth and Pepsin, two of the greatest digestive aids known to medical science. They soothe and comfort the stomach, promote the secretion of gastric juice, help to quickly digest the food and convert it into rich, red blood, and improve the action of the bowels. We believe them to be the best remedy made for indigestion and dyspepsia. We certainly wouldn't offer them to you entirely at our risk unless we felt sure they would do you a lot of good. If Rexall Dyspepsia Tablets do not relieve your indigestion, check the heartburn and make it possible for you to eat what you like whenever you like, come back and get your money.

Sold only at the more than 7,000 Rexall Stores, and in this town only at our store. Three sizes, 25c., 50c. and \$1.00.

COURAGEOUS LIFE BEST

"I wouldn't abate in the slightest my ambition to get on in the world and to win the highest success. What I am anxious to emphasize, however, is that after you have realized your ambition, whatever it is, or even if you have failed in it and have only led a humdrum life, the greatest, and I might say, the only real, lasting pleasure you will have after living a generation will be the thought of the good work you have tried to do for your family, for your community, and your fellow man. The most precious legacy you will leave to your children will be a high character, tested and proved by an honest, useful, courageous life."

CAT SILENCED BELL ON HIS NECK.
Held it Quiet With One Paw and Crept on Other Three in Hunting for Squirrels.

New York, February 27.—Commodore Nutt, pet cat of Major Cannon, of the quartermaster's department at Governors' Island, was deported Friday by military order for making the squirrels on the island his favorite diet. He was canny in his mode of attack. He would roll a peanut near the squirrels and then lie in wait for a victim.

He was caught in the act, and reported to headquarters. Major Cannon was notified that Commodore Nutt must leave the island or else be provided with a bell. Thenceforth the tricky pet went about the island tinkling as he went. But the squirrels continued to die and a watch was set upon the commodore.

He was seen Thursday by a sentry creeping toward a chattering little animal. He was creeping on three feet. His left forefoot clutched the bell at his neck. When that bell tinkled it sounded the death knell of another squirrel. That settled the tenure of baby's lease of life on Governor's Island today, and cast into the outer darkness. He joined the great army of unemployed cats in New York City.

MAGIC BAKING LABEL

THERE IS NO ROYAL ROAD TO SUCCESS.

Ex-President Taft gives Some Sound Advice on this Subject that Should be well Pondered.

In addressing the members of the graduating class of a business college recently, ex-President Taft said:

"There is no royal road to the prizes of life, and we cannot be legislated into them. No statute can be conceived which will furnish a vicarious method of casting the penalty for our moral defects and weakness of character on to some one else. In going out into life bear in mind that kindly as many people are, generous as they may be in helping you and in giving you encouragement, the only certain means of winning what you desire for the making yourself useful to those whose benefit and welfare you work affects."

"If you are in independent business it is the good work you do for those who patronize you that will make them permanent customers and will enlarge your business. If you are an employer, it is the value of the service to him that is going to secure you good wages and promotion. It is your fidelity in the interest of your employer and your enthusiasm in making your work tell in his behalf that is going to make him think it is in his interest to hold you in his employ, and to increase your compensation and your responsibilities."

DISCONTENT MEANS FAILURE.

"If on the other hand, attuning yourself to the general chorus of discontent and unrest and hostility to the successful, you are constantly complaining that you are not getting enough, if you give him the impression that you are too big for the work you are doing, and that it has not your attention and your faithful application and interest, and the work itself does not show enthusiastic energy in his behalf that he would like to see, then you are not going to make a success."

"The opportunity for success is just as great now as it ever has been. It is in loyalty and fidelity and intelligence and industry to the discharge of the task that he has assumed. Ask the head of any great establishment what is his chief difficulty and he will tell you in finding lieutenants whose loyalty and fidelity, discretion and attention to duty can be depended upon, whether he is absent or present."

COMMONPLACE, BUT REAL, SUCCESS.

"Don't make a mistake as to what is real success in life. All the glories are not gold. Look around you, and tell me if you don't know many that have attained success in every worldly way, with whom you would not exchange your lot, humble as it may be. We cannot all be merchant princes, or captains of industry, or leaders of the great professions, or presidents, supreme justices, or successful statesmen. Neither ability nor circumstance may make it possible."

"But every man and woman of you can do well his daily task. Every one can be loyal to the service he is in. Every one can be industrious. Every one can be honest, fair, and generous to his fellow man. Every one can help some one else in affliction. Every one can love his wife and family, and bring up his children with clean, moral minds and proper standards."

Dr. C. Alphonso Smith of the University of Virginia, in a recent after-dinner speech, told the following story:—

"A Creole friend of mine was giving French lessons to an Englishman, who in turn taught him English. After a lesson one day the Englishman said: 'Come round to see me some time and talk English with me. That's the way to learn it.' 'I will come via much plaisir,' responded the Creole, 'but I have so fear sat I eockroach upon your time.' 'You mean 'henroach,' corrected the Englishman. 'Ah, yes, I always get so genders wrong.'"

A young man who had just been engaged as commercial traveller by a Montreal firm was warned that the great fault of his predecessor had been want of tact. The young man started out and to the surprise of his employers orders began to come in at a quite unprecedented rate.

The climatic came when a big order was sent in from a firm with whom the wholesale house had had a bitter quarrel, ending in a total stoppage of business.

The traveller's employers sent for him on his return and asked him on his return and asked him how he had managed that particular miracle. 'I used tact, sir,' was the reply, 'as you warned me to. When I got to Mr. B.'s shop, he came up to me and asked me what firm I represented. Remembering the circumstances, I handed him my card and said, 'Why, these miserable idiots!'"

Joker's Corner

Mischa Elman tells a story of his youth. He was playing at a reception given by a Russian prince, and played Beethoven's "Kreutzer" Sonata, which has several long and impressive rests in it. During one of these rests a motherly old lady leaned forward, patted him on the shoulder, and said:—"Play something you know, dear."

Inspector—"Now, children, what do we mean when we say 'on an average'?"

Johnny Tuckham—"Please sir average is a thing that a hen lays on."

Inspector—"I don't understand, Johnny; please explain to us what you mean."

Johnny Tuckham—"Please, sir, the teacher says that a hen lays one egg a day on an average."

Mrs. Smith was an ardent worker in the cause of the prevention of cruelty to animals, and when Mrs. Brown came to tea, told her a pathetic tale of a coster's donkey that she had rescued from a cruel master the day before.

The visitor was very interested, and when she rose to go, said:—"I am so glad you have told me all those fascinating things about animals, dear Mrs. Smith. I shall never see a donkey again without thinking of you."

When in England, Governor Foss, of Massachusetts, had luncheon with a prominent Englishman noted for boasting of his ancestry, so runs the story. Taking a coin from his pocket the Englishman said: "My great-great-grandfather was made a lord by the king whose picture you see on this shilling."

"Indeed," replied the governor, smiling, as he produced another coin. My great-great-grandfather was made an angel by the Indian whose picture you see on this cent."

GOING TO THE DICKENS.

"The gout, sir," replied Mr. Weller, "the gout is a complaint as arises from too much ease and comfort. If ever you're attacked with the gout, sir, just you marry a widdler as has got a good loud voice, with a decent notion of usin' it, and you'll never have the gout again. It's a capital prescription, sir. I takes it regular, and I can warrant it to drive away any illness as is caused by too much jollity."

NO MINOR CRIME.

"Arrest my hired man! I think he is heading for Orangeville!" This message shocked the ears of Chief Marshall in the small hours of a morning recently. It was a long distance call from Shelburne, and it was the voice of an excited woman.

"What has he done?" queried the chief, who had a mental flash that a safe had been rifled.

But it was even worse than the trained mind of the chief could have imagined. "He has run off with a basket of eggs!" came the hysterical reply.

Dr. C. Alphonso Smith of the University of Virginia, in a recent after-dinner speech, told the following story:—

"A Creole friend of mine was giving French lessons to an Englishman, who in turn taught him English. After a lesson one day the Englishman said: 'Come round to see me some time and talk English with me. That's the way to learn it.' 'I will come via much plaisir,' responded the Creole, 'but I have so fear sat I eockroach upon your time.' 'You mean 'henroach,' corrected the Englishman. 'Ah, yes, I always get so genders wrong.'"

THE DOCTOR SAID "I CAN'T HELP YOU"

Suffered 10 Months with Kidney Complaint. Gin Pills Cured.

Dunvegan, Inverness Co. I am perfectly cured of Kidney complaint after using Gin Pills. Six hours after taking the first Pill I obtained relief, and now after three months I feel as well as ever.

I suffered ten months and the Physician attending me advised me to go to the Victoria Hospital at Halifax, as he could do nothing more for me. I may add that I used a great deal of medicine, and strictly followed my physician's directions regarding diet, etc., but without avail, until providentially I learned of your most excellent remedy. I am recommending Gin Pills.

A PROPOSED NEGRO KINGDOM.

Peculiar interest attaches to the proposal of Chief Sam, an Oklahoma negro, to establish a negro kingdom on the Gold Coast of Africa. The matter has got so far that the British Government has requested the State Department at Washington to inquire into the proposal, and a Washington despatch adds that "the British officials have suggested that Chief Sam might find the Gold Coast unsuitable for their Kingdom."

The latter sentence is hardly to be wondered at. The British Government has quite enough on its hands in connection with the colored races of Africa without doing anything to encourage the wholesale immigration into the country of the huge negro population of America. On the other hand, whatever may be the result of the investigation made at the request of the British Government, it may be taken for granted that our neighbors will hesitate to do anything which will prevent the emigration of negroes, because the negro problem is a most menacing one. In the Southern States the negroes are crowding out the whites. In every part of the South the acreage owned by negroes has increased during the past decade while the white farm acreage has decreased, and it is now gaining on the white farm acreage by a million and a half acres a year.

So serious has this become that a strong agitation is now going on for land segregation between the races, on the following plan:

"That wherever the greater part of the land acreage in any given district that may be laid off is owned by one race, a majority of the voters in such a district may say, if they wish, that in future no land shall be sold to a person of a different race—provided such action is approved or allowed (as being justified by considerations of the peace, protection and social life of the community) by a reviewing judge or board of county commissioners."

The excuse for such a plan is that wherever negroes crowd into white neighborhoods, the tendency is for white people to move away and for land values to be reduced. Under such circumstances Uncle Sam could hardly be expected to do otherwise than look with a kindly eye on the emigration of negroes to the promised land of a negro kingdom.—Herald and Telegraph.

SHILOH

quickly, soothes, cures colds, and heals the throat and lungs. 12c. per bottle.

PROFESSIONAL FIT THROWER.

Professional poverty is a paying pursuit in London, and the strolling police know it. You may have noticed the lady who buries her head in her hands and howls on the steps of a west end restaurant. She is desolate and is in a fit. We run to her rescue, call the police. And when the lady has procured brandy and sundry contributions from the sympathetic public the constable explains that this is the lady who has nine a day. "And here's your cuffs, lady," says the constable, for the lady is careful to take off her clean cuffs before having her fit.—London Globe.

Chicago doctor commend the narrow skirt because it is hygienic, artistic and comfortable. In addition to that it develops the Indian walk.

Biliousness

is certainly one of the most disagreeable ailments which flesh is heir to. Coated tongue—bitter taste in the mouth—nausea—dizziness—these combine to make life a burden. The cause is a disordered liver—the cure Dr. Morse's Indian Root Pills. They go straight to the root of the trouble, put the liver right, cleanse the stomach and bowels, clear the tongue and take away the bitter taste from the mouth. At the first sign of biliousness take

Dr. Morse's Indian Root Pills

DOMINION ATLANTIC RY. "LAND OF EVANGELINE ROUTE"

On and after Nov. 3rd, 1913, train service of this railway is as follows:
Express for Yarmouth.....11.54 a.m.
Express for Halifax.....2.02 p.m.
Accom. for Halifax.....7.59 a.m.
Accom. for Yarmouth.....5.50 p.m.

Midland Division

Trains of the Midland Division leave Windsor daily (except Sunday) for Truro at 7.05 a.m., 5.10 p.m., and 7.55 a.m., and from Truro at 6.40 a.m., 2.30 p.m., and 12.50 noon, connecting at Truro with trains of the Intercolonial Railway, and at Windsor with express trains to and from Halifax and Yarmouth.
 Buffet Parlor Car service on Mall Express trains between Halifax and Yarmouth.

St. JOHN and DIGBY

DAILY SERVICE (Sunday Excepted)
Canadian Pacific Steamship leaves St. John 7.00 a.m., arrives Digby 2.00 p.m., arrives in St. John about 5.30 p.m., connecting at St. John with Canadian Pacific trains for Montreal and the West.

Boston Service

Steamers of the Boston & Yarmouth S. S. Company sail from Yarmouth for Boston after arrival of Express train from Halifax and Truro, Wednesday and Saturday.
P. GIFFKINS,
General Manager,
Kentville.

England and Nova Scotia Service

The Furness Line ships perform a regular twelve months in the year service between Halifax, St. John's, Nfld., Liverpool and London.

Our high type freight ships are the fastest in the Canadian service, each having limited accommodation for a few passengers.

The S. S. "Digby" is a splendid passenger boat. The saloon accommodation is all that one could desire, in so far as comfort and convenience is concerned.

First class to Liverpool is \$60.00. This ship calls at St. John's Nfld., and this port the fare is \$18.00.

SMOKE DERBY PLUG TOBACCO

The red, white and blue jockey cap—on every plug—is the tag which tells the quality of the new DERBY Smoking Tobacco.

A plug which always gives you a fresh, cool smoke.

A tobacco which is distinctively mild, yet satisfying in the pipe. 10c—all dealers.

News to most women!

Oven-tested flour is for sale. Instead of buying ordinary flour you can buy flour whose baking ability has been proven in an oven:

A ten pound sample is taken from each shipment of wheat at the mill. This is ground into flour. The flour is baked into bread.

If this flour bakes into bread high in quality and large in quantity we keep the whole shipment of wheat and grind it. Otherwise we sell it.

More bread and better bread from this flour is a certainty!

"More Bread and Better Bread" and "Better Pastry Too" 523

Upper Granville

March 9.

Apples from Granville warehouse have been moved forward for shipment.

Mr. Wheeler and family, who have been domiciled on the farm purchased by Mr. George Wheeler, son of the above, are removing to Clarence on the farm belonging to Mr. Atherton Marshall, and will reside there during the coming year.

Mr. George Wheeler will move shortly into his home vacated by his parents.

The funeral obsequies of the late Edgar P. Fellows were held at his residence on the 5th inst and were very largely attended.

The floral tributes were well chosen and beautiful. The brief service of prayer and praise was befitting the sad and solemn occasion, breathing solace and benediction to the sorrowing, with timely words of warning to all.

Those who have been bound in ties of close friendship to the one who has so suddenly and unexpectedly passed on to the great beyond, can best appreciate his many sterling qualities as a fond and dutiful son, devoted husband and father and genial host.

His home life portrayed his buoyant temperament, and his ever-cheery words will long be remembered as a daily thanksgiving and tonic to the down hearted. To the bereaved wife and daughters and more especially to the one far distant, sisters and all who mourn his loss, the heartfelt sympathy of the community goes out. The lesson to be learned for all is the oft repeated—Memento Mori, prepare for the change.

West Paradise

March 9.

Miss Ina Durling is visiting friends and relatives at Aylesford.

The weather at time of writing is quite spring like and the roads are, too.

Miss Lottie Saunders is visiting her mother, Mrs. J. W. Saunders, for a few days.

Our boys who have been with the Davison Lumber Company during the winter are all home again.

Mrs. Newman Daniels entertained a large party of the young folks on Friday evening last. A good time was the verdict of all present.

Quite a number of the boys of this place attended the Military Class at Paradise last week, conducted by Serge Graham of Halifax. They report the instructor a fine fellow, and wish he would remain longer.

"Mat fever" is again raging in this generally healthy locality, and it seems to be very contagious, especially among the females. Several have been reported as "dying," but up to date there has been no deaths.

St. Croix Cove

March 9.

Miss Sadie Hall arrived home tonight from Lynn.

Mrs. John Charlton and Mr. D. M. Hall, Port Lorne, visited relatives here today.

Mr. and Mrs. Minard Brinton welcomed a daughter last Tuesday. Congratulations.

Praying service, Sunday, 22nd, 11 a.m. Conference Saturday afternoon previous.

The thaw of last week suspended sledding, but fortunately our citizens had their year's wood in readiness for the saw.

Granville Centre

March 2.

Miss Longmire of Hillsburn, spent the week end with Miss Annie Calnek. Mrs. E. P. Gilliatt is visiting her daughter, Miss Helen in Nictaux.

Miss Ruth Gilliatt, who has spent several weeks with relatives in Kings County, has returned home.

Miss Ina Roney, who has been spending two weeks at her home here, returned this week to her work in Annapolis.

Misses Leta Eaton and Holland, teachers at Victoria Beach, spent Sunday at the former's home, Mr. E. C. Eaton's.

Mr. Alfred Wade has been quite sick at the home of his brother, Mr. J. W. Wade. He with Mrs. Wade, expect to leave for their home in Karsnipeg this week.

The W.M.A.S. meeting for the month of March will be held at the home of Mrs. Frank P. Bent, Belleisle, Thursday afternoon, March 12. If not fine Thursday, Friday, 13th.

The young people gave Mr. and Mrs. J. Norman Wade a surprise party at their home, Thursday evening, Feb. 26. About thirty-five were present, and an enjoyable evening spent.

One of our enterprising young farmers Mr. William S. Fraser, has recently "taken unto himself a wife." Mrs. Fraser, formerly Miss Beatrice Gilliatt, comes back to the home where she was born, and which she left at three years of age.

Mr. Fraser has had the old house thoroughly remodelled inside and out, until now he has a handsome and most up-to-date residence. The work was done by Mr. George A. Withers, and reflects great credit upon him as a workman. Mr. and Mrs. Fraser's many friends extend congratulations and best wishes for their future happiness.

Belleisle

March 3.

Miss Campbell of Parkers Cove, is visiting Miss Rhoda Bent.

Mrs. Frank Hogan is spending the winter with her son Frank at Needham, Mass.

Miss Margaret Troop is visiting relatives and friends at Granville Ferry.

We are sorry to report Mrs. Lawrence Willet seriously indisposed at the time of writing.

The big thaw and freshet on Monday wiped out all the beautiful sleighing along the Valley.

Harry G. Parker and Alfred C. Willet attended the District Division at Nictaux Falls on Thursday the 26th inst.

Mr. and Mrs. William E. Bent entertained on Saturday evening the 28th, it being in honor of Mr. Bent's birthday.

Mr. and Mrs. Charles Hogan were "at home" to their friends from Bridgetown on Thursday and Friday evenings.

Mr. and Mrs. Vernon Amberman of Granville Ferry, and Mr. and Mrs. John Robblee of Karsdale, were guests during the week end of Mr. and Mrs. Archie T. Troop.

The last fruit at the warehouse went away on Monday, 2nd inst, and a carload of pulpwood loaded by A. W. D. Parker went from the siding on Friday, the 28th ult.

INGLISVILLE

March 9.

Mr. John Naugler visited his parents over Sunday at Dalhousie.

Mr. and Mrs. Ambrose Whitman welcomed a son, Thursday, March 5.

Mr. Avard Leonard and daughter Irma visited her parents at Kingston recently.

Mr. and Mrs. Stanley Cross of Nictaux South, visited their parents, Mr. and Mrs. Wm. McGill recently.

Mr. A. Taylor has sold his place at Bridgetown, and is making extensive improvements on his place here, adding the telephone and a bathroom.

Mr. McLeod of Halifax, has been here in connection with the rural mail system trying to find out the minds of the people. The old saying was verified, "Many men of many minds."

The W.M.A.S. met at Mrs. Sydney Bayers' last Thursday. As the office of president has been vacant by the death of Mrs. Edgar Bartheaux, the matter of electing a new president was considered. Mrs. Bartheaux was made a Life Member a year ago and it can be truly said "She hath done what she could."

Port Lorne

March 9.

Mr. John Graves went to Halifax on Saturday.

S. S. Ruby L. arrived from St. John this morning.

Mrs. Charles Cropley is on the sick list at time of writing.

Mr. Wm. Green arrived home on Wednesday from Eatonville.

The post office in this place is now in charge of Mr. Patterson Foster.

A surprise party was given Mrs. Arod Grant a short time ago, and was greatly enjoyed by all.

MINARD'S LINIMENT CO., Ltd. Gentlemen—Theodore Dorais, a customer of mine, was completely cured of rheumatism after five years of suffering, by the judicious use of MINARD'S LINIMENT.

The above facts can be verified by writing to him, to the Parish Priest or any of his neighbors.

A. COTE,

St. Isadore, Que., 12 May, '98.

Shall We Send You a Copy of the FIVE ROSES Cook Book FREE?

BEAUTIFULLY printed in two colors, large readable type, expressly made for it, 7 inches wide by 10 inches deep, THE FIVE ROSES cook book contains 144 pages of tried and true recipes. Inexpensive recipes calling for nothing that cannot be obtained at the town or village store. Every recipe tested by the FIVE ROSES expert so that there is no possible waste of material or disappointment.

No cook book was ever printed with such a sturdy binding, such an attractive cover. No cook book will wear as well as this

Five Roses Cook Book

IN THIS newest of cook books you will find all the latest and most successful recipes of the finest cooks in Canada, the very cream of over 20,000 contributions. Recipes for the making of Buns, Biscuits, all kinds of Bread, Cake, Candy, Cookies, Crackers, Croquettes, Crullers, Doughnuts, Dumplings, Fritters, Gems, Ginger-bread, Griddle Cakes, Icings, Muffins, Pancakes, Pastry, Patties, Pies, Puddings, Puffs, Rolls, Rusks, Sandwiches, Sauces, Scones, Snaps, Tarts, etc. etc.

From the making of Bread to Charlotte Russe, you have a choice of many recipes—all selected, all tested—alternate recipes with and without eggs. There is one kind of Bread described that can be made in two hours—think of it!

The FIVE ROSES cook book cost the publishers almost \$20,000, and over one year's time to prepare, but YOU can have it for ten cents (stamps or silver), as long as the supply lasts. Send us the coupon below duly filled, enclose the 10 cents for postage, and the FIVE ROSES cook book is yours. Address your envelope
