CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 36 pages } \$1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS

Vol. XI. TORONTO, MONTREAL AND WINNIPEG, SEPTEMBER 7, 1904 No. 32

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co. of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING MONTREAL

310 McINTYRE BLOCK, WINNIPEG.

21 GREAT ST. HELEN'S, LONDON, E. C.

The Weekly Lumberman - Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian lumber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Weekly Lumberman - A 32-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, financial sketches and portraits of leading businessmen, etc. Its special articles on technical and mechanical subjects are especially valuable.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Montserrat type; it thus makes one inch. Advertisements must be received not later than 4 o'clock p. m. on Tuesday to insure insertion in the current week's issue.

WANTED

SITUATION WITH LUMBER COMPANY. S as chief clerk or bookkeeper of woods operations, by an all-round man, Ontario Culler, good stock keeper, temperate and not afraid to work. Address Box 160 CANADA LUMBERMAN, Toronto

FOR SALE

Large Tract of Timber

In Central Ontario

THE PROPERTY OF

THE CANADIAN LAND AND IMMIGRATION CO., OF HALIBURTON (LIMITED)

This company has a large tract of well timbered land about 125 miles northeast of Toronto. There are large quantities of Cedar, Hemlock, Spruce Balsam, Basswood, Cherry, Birch, Maple also considerable Pine, Elm and Ash on this tract. It is well served by two railroads. The Company are prepared to sell this timber in blocks ranging from 5,000 to 10,000 acres, or more if desired.

There are several good mill sites on the property. This would be a good opportunity for parties who are at present cut out and looking for a new location.

Maps and plans and further particulars can be had by applying to

W. H. LOCKHART GORDON,
Managing Director,
157 Bay Street, Toronto

FOR SALE - 42 ACRES HEAVILY TIMBERED, Elm, Ash, Blue Oak and Basswood. C. C. HUSACK, Hastings, Ont.

SMOKE STACK WANTED, 10 OR 20 FEET of 24 inch stack, new or second hand, must be in first class condition, also small Lath Machine. Box 80, Providence Bay, Ont.

FOR SALE.

Timber Limit in Canadian North-West

TEN MILLION FEET OF FIRST CLASS Spruce Timber in Manitoba close to rail way and farming community. A snap. Address Box 164, CANADA LUMBERMAN, WINNIPEG, MAN.

To Box Shook Manufacturers

A LONDON (ENGLAND) FIRM HAVING an extensive connection with users of large quantities of Spruce and Pine Shooks, wishes to hear from Canadian or American factories able to supply same in regular liners to Liverpool, Manchester, Glasgow, etc. Cash payments. Apply "Box Shook," care CANADA LUMBERMAN, Toronto, Ont.

CURRENT TRADE CONDITIONS.

ONTARIO.

There has been some gain in the volume of business during the past week, buying by wholesale and retail dealers being responsible for more activity. Orders for stocking up purposes are expected to be more in evidence during the next few weeks. White pine prices are not likely to recede further, and there is a probability of some advance at least on such grades as are meeting with most favor. From the standpoint of the manufacturer, conditions are satisfactory. Unsold stocks at the mills are larger than one year ago, but there is a feeling of confidence that the demand will eventually absorb the supply, whether the lumber on hand is marketed this year or next year. Mill owners will conduct their logging operations this winter with a view to restricting the production of lumber next season, and mills that are being operated day and night this year will be stocked for day runs only next season.

There is promise of a fairly brisk fall trade in hardwoods. Buyers are showing more interest and are willing to take stock whenever the slightest inducement is offered. Manufacturers generally are adhering to the prices which have ruled for the past month, and, unless general business conditions take an unfavorable turn, hardwood prices are not likely to decline. Birch is still active and there is considerable call for plain oak.

QUEBEC AND NEW BRUNSWICK

Some orders are being booked for spruce lumber for shipment to the Eastern

States, but British trade is exceptionally quiet and sales made for that market usually represent a loss to the shippers, as the manufacturer's profit has been entirely wiped out by the decline. It is not expected that much improvement will take place this year, although with a reduced log production better things may be expected next spring. Cedar shingles are still weak, there being a tendency to shade prices below \$3.20 for the best brands for Boston delivery.

MANITOBA AND BRITISH COLUMBIA.

The wheat crop of the North-West is now estimated at 44,000,000 bushels, a shrinkage of 30 per cent. from the first estimate, and somewhat smaller than last year's production. The buying power of the farmer, however, will be almost as great, for the price of wheat is considerably higher than one year ago. The demand for lumber is a little quiet and prices still irregular. The Victoria branch of the British Columbia Lumber and Shingle Manufacturers' Association have given notice of a reduction of 10 per cent. in the price of all rough lumber, lath and shingles for delivery in Victoria and district. The general tendency of prices, however, is not downward, for it is learned that some of the largest manufacturers refuse to give concessions to buyers and are looking for an advance in prices at an early date. No improvement in the shingle situation can be reported. One or two small manufacturers are said to be finding difficulty in meeting their obligations.

UNITED STATES.

At the semi-annual meeting of the Mississippi Valley Lumbermen's Association held at Minneapolis, Minn., on August 30th, it was decided to make no change in the official price list adopted on June 15th. The secretary reported that there is a decrease in the percentage of dimension being sawed this season as compared with last year; that production at the head of the lakes will be 30 per cent. less than a year ago; that wholesale stocks in the hands of eastern lake jobbers are about half what they were last year; and that retail stocks everywhere are lighter than they have been for several seasons. These conditions are peculiar to white

pine, but reflect in a measure the general lumber market. Yellow pine and Pacific Coast lumber have strengthened and have recovered part of the decline which took place earlier in the year. The demand from yard dealers is expanding and orders are usually accompanied by a request for immediate shipment. Manufacturers are holding prices firmly, but some wholesalers are making concessions in order to encourage the demand. Hardwoods are showing more activity and it is believed that the volume of business for August compared favorably with the corresponding month for last year. The demand for birch, elm and maple continues good.

GREAT BRITAIN.

After weighing the different reports that come to hand from Great Britain, the conclusion is reached that there has been some improvement in market conditions during the past week. Business is still far from satisfactory, but more orders are being placed at sellers' figures than previously. Many importers, having bought but a small proportion of their requirements and having relied upon large consignments to be secured almost at their own figures, are discovering that less lumber is offering than they anticipated, and they are therefore showing more disposition to buy than for some time past. First and second quality white pine is almost certain to remain firm, and there is not likely to be such heavy shipments of thirds and fourths as to affect the market perceptibly. The most substantial improvement, however, has been in spruce. Prices are said to have advanced fully five shillings per standard as compared with two weeks ago. The wise policy of the Canadian shippers in refraining from sending goods forward at an unfavorable time is no doubt largely responsible for the improvement. Two cargoes of St. John deals are reported to have been sold recently at £6 2s 6d per standard c. i. f. Liverpool.

TO HOLDERS OF BIRCH LIMITS.

Can you cut Birch into Squares, etc. We can also take birch cut on the sweep with a jigger or small band saw. Large quantities required. Write in first instance to "Finance," care CANADA LUMBERMAN.

STOCKS AND PRICES.

The city of Winnipeg will award a contract this week for the supply of from 400,000 to 1,000,000 feet of lumber.

Curry & Thrasher, of Ferguson Falls, Ont., are preparing to commence operations on their timber limit near Deux Rivieres, Ont.

Vigars & Company, of Port Arthur, Ont., have just finished cutting 1,000,000 feet of cedar, which will be shipped to the Peterboro Canoe Company, Peterboro, Ont.

E. H. Heaps & Company, of Cedar Cove, B. C., recently purchased 500,000 feet of spruce logs from the Port Renfrew Lumber Company. The logs were towed from Renfrew to Vancouver, a distance of 140 miles.

At a recent auction sale held by A. F. & D. Mackay, Liverpool, Eng., 27 birch logs, 8 to 22 feet long, 14 to 22 inches, sold at 14d per cubic foot. Spruce deals from Hopewell Cape, N. B., brought £7 12 6d for 3 x 11 inch, £7 5s for 3 x 9 inch, and 26 for 3 x 7 inch. Spruce scantlings brought £5 17s 6d for 3 x 6 inch, 9 feet and up, and £5 5s for 2 1/2 x 4 inch. Spruce boards sold at from £5 12s 6d to £5 15s.

The Scott Lumber Company, of Fredricton, N. B., last week cleared a tramp steamer from St. John to Bristol, Eng., with a cargo of 1,800,000 feet of spruce deals. This makes the third cargo forwarded by them to Great Britain this season. This firm were recently notified that the schooner Romeo, bound for New Rochelle, N. Y., with a cargo of lumber loaded by them, lost her deck-load in the Bay of Fundy. The cargo was insured.

We are informed by the Montreal Lumber Company, Limited, that they have been given an order for all the lumber to be used in the construction of the plant now being erected at St. John's, Que., by James Stewart & Company, of New York, for the Singer Manufacturing Company. The approximate quantity is 1,500,000 feet, representing a value of nearly \$40,000. When we consider that the buildings are practically fireproof construction and that the lumber is required only for floors and roofing, some idea may be obtained of the extent of the proposed buildings.

BRITISH COLUMBIA LETTER.

(Correspondence of the CANADA LUMBERMAN)

VANCOUVER, B.C., August 29th, 1904. — If the Finance Minister would come to the Pacific coast, and observe the condition of the lumber industry, the same as Hon. Mr. Prefontaine did the fishing industry, and take as decisive step to place it on a better footing, it would be the only proper thing to do. "I came out to see for myself," said Mr. Prefontaine, and as the result of what he saw he took immediate action which will result in benefit to the salmon fishing industry. Ministers who live three thousand miles away from the scene of the British Columbia lumber industry cannot understand the conditions under which it labors, and if Hon. Mr. Prefontaine saw for himself he would not be slow in taking some action to preserve Canada for the Canadians.

The Railway Commission may bring some relief. The sessions open here this morning, and before they are all over the lumbermen are going to appear before it, and ask if they cannot have better rates on lumber, seeing that the Government will not assist them with an equitable adjustment of the tariff. The rate for cedar to points east of the western boundary of Manitoba is fifty cents, and the millmen

wish a reduction to 40 cents. The C.P.R. denies this concession on the ground that it is competitive territory with the American roads. Thus British Columbian lumbermen are prevented from shipping cedar into Manitoba. Everything seems to help the United States as against Canada. Mr. H. W. D. Miller, manager of the transportation department of the Canadian Manufacturers' Association, is in the city, and has also visited Victoria. He is collecting information bearing on the rates for lumber shipped to eastern parts of Canada by millmen of the Pacific coast, and this will be presented to the Railway Commission. On Saturday Mr. Miller conferred with the freight rates committee of the Board of Trade and the lumbermen. He pronounced the discrimination against coast mills as unjustifiable and unwarrantable.

Considerable rain fell yesterday and loggers particularly and millmen generally are wishing it was sufficient to check if not extinguish the fires which have been doing so much damage among the timber

during the past month. This is the second rain since the first part of June, and during the last month and a half thousands of dollars' worth of timber has been destroyed, besides a number of logging camps. The fires have not been confined to any particular section, but ranged from the timber limits in Alberta to the coast, and on Vancouver island. The whole province has been enveloped in smoke for weeks past, just like a heavy fog.

There is some talk of the stiffening of the price of lumber, but millmen say they cannot see how it will be done. It is now getting on toward the end of the season, and when the demand begins to slacken is hardly the time for prices to go up. Besides there is product in the yards which has been piling up since the slump last spring, and Americans in Washington state have not yet got rid of all their surplus cut. It may stiffen on the Sound, since the export of rough lumber into the Canadian market has preserved the market in the United States from demoraliza-

tion, to the detriment of Canadian interests. There is a report that capitalists of Duluth, Minn., have secured 40,000 acres of timber limits on the Duncan river in the Kootenay and will erect a mill of 150,000 feet daily capacity at Procter, near Nelson.

NEW BRUNSWICK LETTER.

(Correspondence of the CANADA LUMBERMAN)
St. JOHN, N.B., August 31st, 1904.
The lumber trade in this vicinity is rather more dull than it was during July. The output has not decreased but shipments are somewhat lighter and demand has shown no increased activity. Some large contracts which were held over from last year have now been completed and shipped and many of the wharves are beginning to show greatly increased stocks. It is a well-known fact that many of the manufacturers are expecting an early shut-down, and the probabilities are that New Brunswick will see a duller Autumn in the lumber business than has been the case for many years.

The Rat Portage Lumber Co., Ltd.

Manufacturers of 55555 **White and Red Pine Lumber, Lath, Shingles, Sash, Doors, Turned and Band Saw Work**

Dealers in **CEDAR POSTS, POLES and TAMARAC PILING**

Mills at RAT PORTAGE and RAINY RIVER, Ontario, WINNIPEG, Manitoba, and VANCOUVER, British Columbia. Head Office: RAT PORTAGE, Ontario

Our Vancouver Mill cuts High-Grade Cedar, Fir, Spruce and Red Cedar Shingles. Correspondence solicited at all four points.

Owing to extremely low water in the St. John River the local manufacturers have had great difficulty in keeping their mills in cut, and the result will be that most of them will winter many millions of feet. As a result of these conditions, it is

very improbable that logs will exceed in price the low figures of last spring and the chances are that there will be less cut on the headwaters of the St. John, by 25 per cent., than was the case last winter. During the last two months there have

been several large cargoes shipped from this port to Australia. The Australian market will take only dry lumber, consisting of three qualities, first, second and third merchantable (no fourths), and of an average second, that is, as much first as

third and vice-versa. The usual sizes are 6s, 8s, 7s, 9s, and 11s and wider, but the general run of shipments contain very few narrows, consisting chiefly of nine inch and up. The price of a consignment such as this at Melbourne Wharf would be

Also Yellow Pine Finish and Timber.

ROBERT STEWART LIMITED, GUELPH,

Sole Canadian Representative for The Southern Cypress Lumber Selling Co.

New Orleans, La.

from 29 10s. to 29 15s. per standard. Of course, the price is dependent greatly upon the quality of the lumber and the quality of manufacture, and varies accordingly. The above figures apply to lumber of good manufacture and quality. Freight rates are being freely quoted at

from 52 1/2s to 57 1/2s to Melbourne wharf. Nearly all shipments are made by sailers. Insurance rates range from 2 1/2 per cent. to 3 1/2 per cent., depending largely upon the condition of the ship. Compared to last year the shipments to Australia from the Atlantic Coast have

been larger than for years past, owing chiefly to the depression that governs the home markets. Of late there has been no important change in price. Compared with 1903 the conditions are slightly more favorable this year to the sailor. It is felt in lumber circles here that the

market will be firmer in the near future. The demand for the right article is very brisk and trade seems to be unaffected by the dulness of the British market.

The planing mill of Fraser, Hamilton & Cox, Ottawa, Ont., was damaged by fire recently to the extent of \$3,000.
