FRONTIER DOLLAR PAID

SAYS N. Y. LIFE SHOULD SHOW A VOUCHER

McCall, Hamilton and Perkins Held Accountable For, and May Be Asked to Refund Thousands of Dollars—Names Are Connected With Unauthorized Transactions.

New York, Feb. 8.—The report of the special investigating committee of the New York Life Insurance Company, which was appointed by the trustees to investigate the company's affairs, was made to-day and was adopted unanimously by the trustees. It condemned the former management of the company, and recommended various reforms.

As to Hamilton. The committee states in beginning its report that it has made with the loyal and efficient aid of the company's officers a thorough and exhaustive examination of the records of Andrew Hamilton, the legislative agent, with the company and of all payments of money to him.

Cannot Be Ignored. It is a fact, the report continues, that measures of legislation are proposed every year in various states, which, if enacted, would be injurious and oppressive to life insurance companies and their policyholders.

Should Know Why. The expenditures of the company on this account should not be authorized or receipted for on a different method from that of its other expenditures.

Monthly Report. The recommendations of that report provide for a full and adequate voucher for all such expenditures and the publicity of a monthly report there-to to the board, and an annual report to the superintendent of insurance.

Imperial Army Reserve. The committee further recommends that payments from branch offices should be confined to the salaries of the branch officers, and that the charge and conduct of all action of the company regarding legislation be committed to the law department as one of its functions.

C.P.R.'S STOCK INCREASE A TWENTY-MILLION ISSUE

Directors Will Ask That Amount of Ordinary Share Capital be Raised to \$150,000,000—Special Issue at Once if Approved.

Montreal, Feb. 8.—This afternoon Sir Thomas Shaughnessy made the following statement to the press: "The Official Gazette of Saturday will contain a notice of a special meeting of the shareholders of the Canadian Pacific Railway Company to be held at the head office of the company in Montreal, March 19, for the purpose of considering and acting upon the recommendations of the directors that the ordinary share capital of the company be increased from the present authorized amount of one hundred and ten million dollars, of which the amount of one hundred and one million four hundred thousand dollars has already been issued, to one hundred and fifty million dollars.

Refiners Have Monopoly Charge Before Commission. Sugar Importers Present a Case—Duties on Coal and Fruits are Discussed. Ottawa, Feb. 8.—(Special.)—Before the tariff commission to-day, Robert Anderson of Montreal, representing Robert Cooks & Co., sugar importers, also of Montreal, said the refiners enjoyed a complete monopoly. He gave figures to show that a greater revenue could be obtained for the government, without increasing the price to the consumer. Adding the dumping duty to the general and there was a protection of 70 per cent, on refined sugar, and the government gets practically no revenue. There was only 1-2 per cent, of the total imported in 1905. This would not have come on but the refiners wanted it. The refiners also took all the British preference, which was extended to the West Indies.

Provincial Reciprocity. Urged for Arrangement of Succession Duties. An effort is being made by the provincial treasurer to secure with the other provinces a reciprocal arrangement for allowance in succession duties. The solicitor of the treasury department has been instructed to correspond with the other provinces. Under existing conditions when a person dies owning property in two provinces the estate is doubly taxed for succession duties. A reciprocal arrangement would be of great advantage to all the provinces as a lot of trouble is caused under the present laws. Uniformity in the laws regarding succession duties is also greatly to be desired. All the old provinces have succession duties, but there is no common basis. If a common test of liability could be arranged much of the dissatisfaction which now exists could be done away with. This is a matter which will be taken up when the other details of reciprocal allowances have been arranged.

MILLIONAIRE POLICYHOLDER

The Capital Value of Money Handed to Insurance Directors is Fabulous.

Last year Canadian policyholders paid in premiums \$21,000,000

Total amount of insurance was \$23,000,000

Of \$21,000,000 the amount paid for speculative "profits" was \$2,000,000

If the total premiums capitalized were worth \$23,000,000 the amount paid for profits is worth, capitalized on an insurance basis, \$125,000,000

This is to say, the savings of the people paid to insurance companies represent a capital value of \$125,000,000 as tangible and as sound as the capital of any company in the world.

No individual Canadian owns anything like that amount of money. If he did he would be a Croesus and the most powerful man in the Dominion.

The policyholder in the aggregate, therefore, is a multi-millionaire. He has put up the security for \$23,000,000, \$125,000,000 of which he has about as much control over as a child has over his pocket money.

Here are two important declarations, which show how the policyholder has allowed himself to be treated.

"A GRAVE INJUSTICE." Mr. R. Macaulay, the president and managing director of the Sun Life, said in 1901: "The insurance legislation of 1899 was conceived as a measure to protect the policyholder and a grave injustice to policyholders upon whom should be the odium of securing the collection of premiums."

"The Canada leads in the adoption of a system that diverts to perhaps \$4,134,375 away from policyholders, which by a more equitable method, would be their share of the profits."

There is likely to be new legislation. The millionaire policyholder should act like the rich man he is, and see that neither he nor Mr. Macaulay has cause to complain that parliament has passed laws inflicting grave injustice on him to the enrichment of shareholders.

WHAT SORT OF POLICY IS YOURS? Thousands of Insurers Are Deceived as to the Kind of Policy They Own.

Several correspondents ask The World to make clear the difference between "ordinary life twenty-year-accumulation" policies; twenty-payment life policies; and twenty-year endowment policies.

They say that in Canada thousands of policyholders who pay 20 years of premiums and believe that they have twenty-year endowment policies, they having been so misled by the representations of agents who have preached to them the doctrine set forth in an agent's manual that "life insurance is in reality the most wonderful and beneficial institution of an age filled with wonders."

Life twenty-year accumulation policy means that the premiums are payable so long as you live, and that at the end of twenty years, or before, and apply the amount computed as profits to the future reduction of the premium, which you must continue to pay until you depart this life.

Any company which shall violate any of these provisions of this section shall forfeit to the province the sum of five hundred dollars for each violation, to be recovered by the attorney-general by appropriate action in any court of competent jurisdiction.

COMPANIES' PROPOSED LEGISLATION Here is the rough draft of suggested legislation-subject to its being put in legal form-which the insurance companies chiefs presented to Attorney-General on Tuesday.

REBATING. No life insurance company doing business in this province, nor any officer or agent of such company, shall make or permit any distinction or discrimination in favor of individuals between insurance of the same class and amount, or the payment of premiums, or the charges for policies of life or endowment insurance, or in the dividend or other benefits payable thereon, or in the amount of the proceeds of the contracts it makes, nor shall any such company or any agent or officer of such company, or any person acting in concert with any of them, or any special favor of advantage in the dividends or other benefits to accrue thereon, or give or make any valuable consideration or inducement not specified in the policy contract of assurance.

Any company which shall violate any of these provisions of this section shall forfeit to the province the sum of five hundred dollars for each violation, to be recovered by the attorney-general by appropriate action in any court of competent jurisdiction.

And that a copy of this section of the act be printed in each application of policy issued.

DR. REAUME MAKES DENIAL IN FISHERIES SQUABBLE Says People Who Write Letters Should Be Responsible for Their Words-Inquiry Goes On.

Out of sixty letters alleged to have been missing from files in connection with the fisheries investigation at the parliament buildings all have been found but sixteen, according to a statement produced by Mr. Helmuth on behalf of Mr. Bastedo at the opening of the proceedings before Commissioner Judd yesterday.

Mr. Bastedo swore positively that he had neither removed nor ordered the removal of any papers from the official file nor had he been in any way partisan in his administration of the affairs of the department.

Some licenses have been refused because there were too many in the locality, but the applicants had been told where they could get licenses by moving to those places. Police had nothing to do with it. It was concession of fishermen at some points.

"What is your policy now with regard to consulting members of the present government or defeated Conservative candidates regarding licenses?" asked Mr. Helmuth.

"I do not know," replied Mr. Bastedo. "I have received letters from the Hon. Mr. Pardee and sent them to Mr. Hanna's present member."

"How about Mr. Conner's demands?" "I showed his letter to Mr. Litchford, the minister, and he instructed me to reply without the matter going before council."

Mr. Bastedo said that the recommendations of local overseers for licenses were carried out. He did not know of any instance where a fisherman had lost his license because of correspondence.

It was shown by correspondence that Bastedo had refused to cut off fishing licenses where overseers had demanded their heads because they had worked against Liberal candidates.

Consulted Hon. Dr. Reaume. Mr. Bastedo admitted that he had received letters directed to him from several pieces of letters which had political references.

"On one occasion I spoke to Dr. Reaume about a superscription which I considered improper and suggested that it be removed," said Mr. Bastedo. "He did not object and I removed it."

"Did he assent?" queried Mr. Judd. "I don't say that he assented," replied Mr. Bastedo. "I took it that he had no objection."

This letter was from John N. McNamara of North Bay, pointing out that licenses were issued just before the last election. It was signed "John N. McNamara, president of the Conservative Association." Mr. Bastedo cut the title off the letter. He did not think this was a proper thing to do on the public file.

### REVIVAL REPORTS SURPLUS FINANCIAL STATEMENT GIVEN

Sum of \$1000 Will Be Given to General Hospital Fund—Remuneration of Evangelists.

The general committee that undertook the recent mission conducted by Dr. Torrey and Mr. Alexander, had luncheon together at McConkey's yesterday as the guests of Chester D. Massey, a member of the committee. Dr. N. W. Hoyle, chairman of the committee, presented and submitted a brief report, and Joseph H. Shennett, the treasurer, presented a detailed report showing: The total amount of collections at the meetings as \$7310. Adding a few subscriptions and receipts from other sources, the total revenue was \$7890. The disbursements were for rent of hall and other building and small honorariums to employees, \$2472; office expenses, including salaries of office secretaries, telegrams, postage, etc. \$656. The amount paid Dr. Torrey and his associates, including outlays incidental to their entertainment, was \$2860. Out of this amount, remuneration of associates and assistants must be made, so that the net gift to Dr. Torrey and Mr. Alexander is much less than the above amount. The outlay for printing, advertising, etc., was \$598; miscellaneous expenditures, \$253, leaving

a balance of \$3960 on hand. By unanimous resolution of the committee the balance of \$960, supplemented by the members of the committee, up to \$1000, will be handed over to the treasurer of the prospective new City General Hospital. Brief addresses were listened to from Chester D. Massey, vice-chairman, and also from the secretaries and chairmen of the different committees. By resolution unanimously adopted, a message was sent to the different newspapers of the city expressing appreciation of the splendid aid given by means of accurate, sympathetic and full reports of the different meetings. In the judgment of the members of the general committee over 80 of whom were present at this meeting, the mission of Dr. Torrey and Mr. Alexander met and surpassed the highest expectations of all. The spirit of thankfulness was evident with all present because of the great gain that had come to the life of the churches in this city, and through the country by reason of the great mission just closed.

### RIVER FLOODS A CITY.

Inhabitants of Campos, Near Rio Janeiro, in Bad Plight. Rio Janeiro, Feb. 8.—The Parahiba do Sul has broken its banks and inundated the lower parts of the City of Campos, 140 miles northeast of Rio Janeiro, to the depth of 12 feet in some places. Many houses have collapsed, widespread damage has been done, and communication with Campos is impeded. The work of rescuing the inundated inhabitants of the city is most difficult.

### More Terrible Than War!

More terrible than war, famine or pestilence is that awful destroyer, that hydra-headed monster, Consumption, that annually sweeps away more of earth's inhabitants than any other single disease known to the human race. "It is only a cold, a trifling cough," say the careless, as the irritation upon the delicate mucous membrane causes them to hack away with an irritable tickling of the throat. When the irritation settles on the mucous surface of the throat, a cough is the result. To prevent Bronchitis or Consumption of the Lungs, do not neglect a cough however slight, as the irritation spreading throughout the delicate lining of the sensitive air passages soon leads to fatal results. If on the first appearance of a cough or cold you would take a few doses of

Dr. Wood's Norway Pine Syrup contains all the life-giving properties of the pine trees of Norway, and for Asthma, Croup, Whooping Cough and all Throat and Lung affections it is a specific. Be sure when you ask for Dr. Wood's Norway Pine Syrup to get it. Don't be lugged into taking something else. Price 25 cts. Miss Lena Johnston, Toledo, Ohio, writes: "I have used Dr. Wood's Norway Pine Syrup for throat troubles and taking numerous other remedies, and must say that nothing can take the place of it. I would not be without a bottle of it in the house."

### DRIFTED 800 MILES.

Boatswain Picked up on Alaska Coast Tells of Hardships. Seattle, Wash., Feb. 8.—A tale of drifting 800 miles at the mercy of the sea, covering a period of more than 30 days, is told by Neo Quoi, Chinese boatswain, rescued from the wrecked steamer Maritchan, in False Bay, on the Alaskan coast. The Maritchan encountered her first difficulty about 400 miles off Cape Flat, when she suddenly sprang a leak. Work on the pumps was interrupted by fogging and for days the boat drifted, while the crew worked night and day with hand buckets to keep the ship afloat. From December 25 to January 26 this work was kept up, and the crew of 20 men were soon able to use the upper boilers. Small headway was made and the awnings were sewed together into a large sail. This gave almost enough headway for steering room, but not sufficient to keep the boat from striking Chatham Straights in a north-westerly direction. Thirty-nine members of the crew succeeded in making the shore where they lay for four days almost perishing in the cold, finally being rescued by the Georgia, and taken to Jenau. From there the refugees were taken to this city, where they were not allowed to land. Last night they left for Port Townsend on the steamer Dodo.

### CAN TAX THE DIVIDEND.

Ottawa Man Loses His Test Case on Assessment. Judge Teetzel handed out a decision yesterday which settles the question as to whether the incomes derived from street railway dividends are taxable. He holds that Charles Goodwin of the City of Ottawa must pay taxes on \$2994, income derived from stock in this Ottawa Street Railway. The plaintiff claimed that the clause in the contract between the railway and the corporation, rendering the income of the street railway exempt for 20 years, also exempted him. Justice Teetzel's judgment reads in part: "There is not a word in the contract evidencing any intention to exempt from taxation moneys paid by the company out of its surplus revenue to holders of shares in the company by way of dividends on their stock. It is the income of the company earned from the working of the said railway that is exempt."

### WANTS \$25,000 FOR LABEL.

P. S. McKergow Must However, First Reply to Questions. Percival S. McKergow of Montreal will have to answer the questions put to him while being examined for discovery in connection with his libel suit against W. H. Constable, Brockville, and J. A. McCullough of Ottawa. This was the gist of a judgment handed out yesterday by the master-in-chambers. Constable subscribed to some stock in the Dominion Roller Screen Co. Later, McKergow induced his solicitor, W. E. Buell of Brockville, to write to McCullough, who had made an examination of the assets of the company, as follows: "I am forced to come to the definite conclusion that he was induced to take stock in the company by reason of a false financial statement having been furnished him by President F. A. Mansell and Secretary Treasurer E. McKergow, and he proposes to take criminal proceedings as well as civil to cancel the subscription of the stock and the return of his money."

### WANTS TO LEARN THINGS.

Superintendent of Agricultural Societies Leaves for States. H. B. Cowan, superintendent of agricultural societies of the province left last night for a trip thru the eastern and northern states in connection with the pending legislation by the Ontario government in regard to agricultural societies. Mr. Cowan will meet the officers connected with agricultural societies work in the different states and gain information of value in connection with the proposed new act for Ontario. Among the points upon which he will glean information will be the amounts given by the various states to agricultural colleges, the basis upon which these grants are distributed, the restrictions governing the expenditure of money by agricultural societies, etc. Most of the states distribute the aid on radically different lines and Mr. Cowan will judge which works out the best.

### THE COMING MOTOR SHOW.

Keen Interest is Being Manifested by Canadian Manufacturers. Preparations for the coming automobile and motor boat show are progressing rapidly. The following official announcement will appear in The Canadian Motor, which is now going to press. Much of the same kind of success that made the two New York automobile shows last month the greatest events of the kind ever held in America has attended the efforts of the committee, which is organizing the coming Canadian Automobile and Motor Boat show to be held in the Granite Rink, Toronto, from March 31 to April 7. The members of this committee are: G. H. Gooderham, chairman; M. A. Kennedy, H. H. Love, William Mansell and E. M. Wilcox, managers. Arrangements have been completed to bring exhibits of 1906 automobile models to Toronto, sufficient to fill the entire space devoted to automobiles. The cars to be shown comprise about thirty different makes, Canadian, American and foreign. As they are the leading cars on the market, the public will thus have an excellent opportunity of viewing the best productions of the automotive genius in the automobile field. In addition the committee have arranged with many of the American accessory manufacturers to bring exhibits shown at the New York shows to Toronto. The accessory part of the show promises to be thoroughly representative. Some of the exhibits to be shown are, for example, one exhibit of French accessories have never been seen in Canada.

The most gratifying feature about the preparations for the show so far has been the keen interest taken in it by Canadian firms. Canadian accessory dealers will nearly all have exhibits. Motor boats and small engines, too, will be quite prominent, certain firms having taken large space in order to show their latest models. A special feature will be a 31-foot speed boat shown by a Toronto firm. The Granite Rink, in which the show will be held, consists of two buildings, the curling rink and the skating rink, with a total floor space of 24,000 square feet. The curling rink at the rear, which is the larger of the two, will contain the automobile exhibits. The other building, thru which the public pass from the main entrance on Church street, will contain the motor boats and accessories.

Following the practice at the New York shows, the committee decided at a recent meeting to carry out a uniform scheme of decorations in each building, and will also provide uniform signs to exhibitors at its own cost. No pains will be spared to secure the most attractive effect. As in New York, there will be a grand opening on Saturday afternoon, Northcote and Queen, next Sunday night, five or six concerts of the Torrey-Alexander mission will tell their experience.

Torrey-Alexander Converts. At the West Queen-street Mission, Northcote and Queen, next Sunday night, five or six converts of the Torrey-Alexander mission will tell their experience.

### CIVIL AND CRIMINAL SUITS.

Can Both Be Entered for Same Occurrence?—Issue Raised. Was the Dominion government acting beyond its power in enacting that civil suits can be started for the same fact for which criminal proceedings have been entered? This was the point which was argued yesterday by W. A. Henderson of the firm of Robinson & Godfrey in behalf of Charles Goodman. Goodman was placed under arrest for receiving goods stolen from the firm of Monypenny Bros. They entered civil suit against him to recover the amount lost in addition to the expenses they were put to in recovering a large quantity of the merchandise. The master gave judgment for the goods lost and reserved decision on the question of the expenses. In doing so, however, he quoted as an authority the amendment passed by the Dominion government in 1903, permitting both actions to be entered. Mr. Henderson claimed that this was over-riding the British North America Act, and was ultra vires because of that fact. John Cartwright, deputy attorney-general, replied in a short argument, after which the master reserved judgment.

G. T. R. Expedition to Renew Don Valley Struggle Stopped. Honors are even in the fight in the Don Valley between the G.T.R. and the James Bay Railway for the right of way. In reply to the injunction granted by Justice Teetzel on behalf of the G.T.R. on Wednesday afternoon, the James Bay secured another yesterday morning, restraining the G.T.R. from interfering with the tracks laid down Tuesday. The injunction was granted just in the nick of time to prevent an expedition starting from the Union Station to tear up the rails and replace the ones torn up by the men of the new line. The James Bay Railway are also given permission to file affidavits before the granting of a permanent injunction is issued on Feb. 12.

### "The Greatest of These."

A charity concert in aid of a widow in unfortunate circumstances was given under the auspices of the Young Men's Class of Dovercourt-road Baptist Sunday School in West Y.M.C.A. Hall last evening. The Sunday school orchestra, assisted by Mae Dickenson, Elsie McConkey, George Fox, Geo. F. Smiley, Alex. Tulloch and Harvey Jenner provided an excellent program.

REPEAL THE SALARY GRAB  
GRANGE JOINS IN DEMAND

Would Also Abolish Senate—Deputation Waits on the Premier.

The Dominion Grange yesterday recommended a number of drastic reforms to both the Dominion and provincial governments and waited upon Premier Whitney. Incidentally they declared for the abolition of the senate.

Henry Priest, W. L. Smith, J. Lethbridge, Jabel Robinson and W. F. Fisher were among the speakers who addressed the premier. Mr. Whitney indicated that their request for the better regulation of automobiles would receive thorough attention, but that no change would be made in the bill as drafted regarding the county councils. Careful attention was promised to the recommendation that the government retain complete control of the rates to be charged by electrical companies for power.

Other recommendations were to the effect that all taxes arising from railways be proportioned on the basis of 15 per cent. for the municipality and 15 per cent. for the government; and that a reform be instituted in the matter of collecting for personal injuries from municipalities.

At the morning session the Grange put itself upon record as advocating the repeal of the salary grab, the regulation of express rates by the railway commission; a trial service of free rural delivery; the carriage of larger parcels as post express and legislation that would prevent discrimination by Canadian carriers against Canadian passenger traffic.

At the afternoon session the following officers were elected: John G. Lethbridge, master; Mr. Sutherland, overseer; James Falls, treasurer; W. F. Fisher, secretary; W. J. Goodfellow, chaplain; W. L. Smith, lecturer; A. J. Carruthers, steward; W. A. Peer, assistant steward; Joseph Todd, gatekeeper; Mrs. Morcom, Flora; Miss Rowe, Ceres; Miss Philip, Pomona; Mrs. Collins, assistant lady steward; Messrs. W. F. Fisher and Jabel Robinson, executive; Thomas Sawyer and D. C. Lauer, auditors.

GOOD BALANCE IN TREASURY

Baltimore, Md., Feb. 8.—At the second day's session of the annual convention of the Woman's National Suffrage Association, the report of the treasurer was read by Mrs. Harriet Taylor Upton, of which the following is an abstract: Receipts, including last year's balance, \$48,333; disbursements, \$16,664; balance, \$31,669. The five states standing at the head in point of membership are: New York, Massachusetts, California, Nebraska and Iowa.

A new association, The College Woman's Equal Suffrage League, was admitted to membership.

PREACHER ATTEMPTS SUICIDE  
ARRESTED ON SERIOUS CHARGE

Chicago, Feb. 8.—Rev. Justin G. Wolfe, pastor of the First Congregational Church of Waukegan, Ill., who was arrested yesterday for postoffice inspectors for sending obscene letters thru the mails, attempted to commit suicide to-day by throwing himself in front of a train on the Chicago & Northwestern Railway.

He was struck by the engine and was hurled many feet to one side of the track.

SONGS HOSTILE TO U. S.  
SUNG BY MORMON PEOPLE

Washington, Feb. 8.—When the hearing in the case against Senator Smoot of Utah was resumed, Prof. Walter M. Wolfe was subjected to a severe cross-examination by Mr. Worthington, counsel for the senator. A number of songs alleged to have been hostile to the government of the United States, were put into the record, and Wolfe said these songs were sung frequently.

EMPLOYERS WON'T YIELD  
TO AVERT THREATENED STRIKE

New York, Feb. 8.—At a conference of the Allied Iron Trades, held yesterday to consider if any steps should be taken to avert the threatened strike of all building trades unions in support of the expelled housemiths, it was decided that there would be no compromise or yielding on the part of the employers.

# A SHOE SALE

INTRODUCING THE NEW

## SLATER \$4.00 SHOE

THE SALE THAT'S NOT A SALE—AND YET 'TIS A SALE

GET a Slater man's shoe at 50c. less than its present price—that is a thing you never heard of. Just turn over a few of your memory pages, and try to recollect one case wherein the Slater shoe has been the feature of a fire sale, water sale or any kind of a sale. You can't recall one lonely case.

The Slater is now fifty years old, and during that half century has stood as solid as the Rock of Gibraltar, for Standard Quality and Standard Price, and at the end of another half century, it will still be heard shouting, "Standard Quality and Standard Price."

We are offering you to-day a lot of Slater men's shoes at 50c. less than their present price, but we're not cutting the price. We're offering you an honest bargain—a chance to save 50c. on a pair of the best men's shoes that ever came out of a shoe factory, but we're not cutting the price. We'll explain. The cost of every single solitary piece of material used in making shoes has advanced from 3 to 300 per cent during the past year.

Here are a few convincing examples:

Shellac	300 per cent.	Sole leather	25 per cent.
Wax finishing	40 per cent.	Counter	25 per cent.
Blacking	25 per cent.	Heels and Toe piece leather	25 per cent.
Dressings	25 per cent.	Inner Soles	25 per cent.
Upper leather	20 per cent.		

What does this mean? It means that the present cost of making the \$3.50 shoe of one year ago quality is 50c. per pair higher. We could, but won't, bore you with details. No shoe manufacturer to-day, whatever may be his experience and genius, can give the \$3.50 quality of one year ago and reap therefrom one red copper cent of profit. He can make a \$3.50 shoe, but at present he can't make the \$3.50 shoe of one year ago quality; sell it at \$3.50, and make one cent of profit. What then must he do? He must do one or the other of the two things.

If he wishes to continue the popular \$3.50 price, and make a profit, he's got to break faith with the public; he's got to deceive the public; he's got to lower the quality of his shoes 50c's worth, and make the public think he's giving them the \$3.50 quality of one year ago. He can cut the quality easily. By using sheep skin and other inferior leathers in the uppers, he can save 25c.; by using shoddy counters, cheap welts, canvass or shoddy toe stiffening, shoddy heels, cheap insoles, worthless thread and patent filling for the soles and heels, he can save another 25c.; and when skilled hands have put this cheap stuff together and have cunningly bathed it in black paint and polish veneer, you'll never know, till old Doctor Wear shouts the truth.

On the other hand, if the manufacturer wishes to keep the public's faith and confidence, if he wishes to be honest and sincere, if he wishes to give the public the \$3.50 quality of a year ago, he must add 50c. to the retail price to cover the advanced cost of raw material.

The Slater Shoe Co. has been on the honest side of the shoe fence for fifty years, and it's not going to switch at this fork in the road. It's going to keep the confidence of the hundreds of thousands of Slater patrons. It's not going to cut 50c. from the vital strain points (the only points that can be cut), and thereby reduce wear strength 100 per cent. It's going to add the 50c.; it's going to raise its \$3.50 shoe for men to \$4.00; it's going to keep the quality just where it has kept it for 50 years; it's going to continue giving you the Standard Slater \$3.50 shoe of one year ago quality, but that shoe is going to cost you \$4.00 henceforth, because no living shoe maker can make it for one paltry penny less.

Now, Mr. Wearer, don't get deceived; don't allow the skillful advertisements of crafty shoe manufacturers to persuade you that they haven't changed quality or price; that this advance in Canada is a thing exclusively "Slater", and that the Slater Shoe Co. is merely striving to boost its price to rake in more profit. The necessity of an advance in shoe prices has been heralded throughout the length, breadth and thickness of the land. Here are a few examples:—

Foot Wear Fashion, one of the leading Boston shoe organs, says in regard to the advanced price of raw material:

"The shoe manufacturer must skin the shoe, raise the price or loose money."

The Montreal Gazette says:  
"Boots and shoes advance. Quebec manufacturers announce increases on all lines."

Most shoe manufacturers are not tenderfeet—don't you think it. Many of them fear to come out frankly and flatfootedly, and stand tearlessly on the firing-line for a \$4.00 shoe. They fear heavy loss in patronage should they raise the price. So instead of advertising one price—\$3.50, as of old, they're now foxily advertising two prices—\$3.50 and \$4.00. The \$3.50 shoe is supposed to be the \$3.50 quality of a year ago, but they don't say so; and the \$4.00 shoe is alluringly paraded before the public as a "Custom Grade", "Bench-made", "Gilt Edge", etc. shoe. Now, Mr. Wearer, don't get "taken in". That \$3.50 shoe is the \$3.00 quality of one year ago, and that \$4.00 shoe, with the high-sounding appellation, is the \$3.50 quality of one year ago. If you don't think so, try a few pair, and old Doctor Wear will out with the truth.

The Slater Shoe Co. has deferred its advance for more than a year, hoping materials would recede to the old normal prices, but instead they've soared higher and higher, and profits have dropped lower and lower, until necessity has forced the tacking on of the fifty.

Now, Mr. Wearer, let's get down to the vital point of this advertisement. The \$3.50 quality of a year ago is from now on to cost \$4.00. No matter how the shoes are branded—Slaters, or otherwise—no matter how nice the paint and polish veneer may look, no matter how much hot air the maker and retailer may deliver you, you've got to pay \$4.00 for the \$3.50 quality of one year ago, and don't you forget it.

We've a large number of Slaters, bought under the old price-conditions, and branded, on the linings and soles, \$3.50. These shoes are left over from our last fall stock. You can readily see that we should get rid of them immediately. If we continue them in stock with our new \$4.00 shoes, we'll be selling some Slaters at \$3.50, and some at \$4.00. This would immediately excite distrust, and shake confidence. It would convey the impression that the Slater is not a standard-price shoe, as claimed in its advertisements; and that we're not a standard-price store. It would break down the standing and reputation of the Slater shoe, as the shoe of Standard Quality and Standard Price—a reputation which the Slater Shoe Co. has spent fifty years, and hundreds of thousands of dollars, to establish. You probably never realised the full meaning and value of a reputation for Standard Quality and Standard Price. If not, just ask yourself why you buy Slater shoes, and you'll find yourself answering:

"Because they keep up their quality to the highest standard, and there's no danger of a retailer sticking me on the price, as he must sell at the price prescribed, advertised, and branded on the sole by the Slater Shoe Co."

If we should shake confidence in the Slater Standard-Quality Standard-Price policy, we'd almost be unable to sell a single Slater Shoe within so short a period as thirty days, and you can rest assured we're not going to do it, and we couldn't if we wanted to, as our contract with the Slater Shoe Co. is iron-clad against price-cutting.

We're going to clear out these \$3.50 Slaters immediately, by heavy advertising, but not by price-cutting. Far be it. We're offering you to-day the unusual chance, and the last chance, to save 50c. on a pair of Slater shoes. There'll never be another such chance unless the price is raised again. We dislike to shout the favourite expression of the cheap sale-stores' visible "Last Chance", "Positively Last Appearance", etc., but if you'll reflect just a moment, you'll realise that we're actually offering you an unusual chance, and in all probability a last chance, to save 50c. on a pair of Slater men's shoes.

Neither are we fond of such phrases as "Come early and avoid the rush", but we are advertising heavily, and anticipate that the normal sizes and popular shapes will be sold quickly.

P.S.—Please understand that in every particular—style, fit and wear—these \$3.50 shoes are precisely the same shoes we'll soon be selling at \$4.00. They were made during the past year at practically no profit to the Slater Shoe Co. They're not ancient, nor remnants, nor worthless stock, but what we have left of our last fall stock, and we can fit you in almost any style, shape and size.

P.S. again.—A man who wears one pair of shoes constantly will always have slouchy-looking shoes. Keep one pair on your feet, and a few pairs on shoe trees; switch from feet to trees daily, and you'll have more handsome extremities.

69 LOADS AT CITY YARDS MANY BUYERS, LIGHT RUN

As Result Prices Went Up a Notch—(More Milch Cows Are Wanted.)

Receipts of live stock since Tuesday, as reported by the railways, were 69 car loads, composed of 1002 cattle, 200 hogs, 483 sheep and 76 calves.

The fat cattle generally were a plain lot, a limited number of good to choice, well-bred animals, but the majority were of average quality...

Choice butchers' cattle were scarce and more would have found ready sale. Prices ranged as follows: Choice picked lots, good loads of good, at \$4.10 to \$4.70; medium, at \$3.50 to \$4.00; common, at \$2.50 to \$3.75.

Receipts were not large and readily taken by the several buyers. Western Duroc hogs the bulk and quotes prices as follows:

TELEPHONES CITY TOWN GOVERNMENT

Legislation Committee Passes Resolutions—Oddfellows Ask Grant—Paving Companies' Petitions

That the Dominion parliament be memorialized by the city to take over the telephone business in the Dominion of Canada and operate the same, and also that the Ontario government be requested to urge this policy upon the Dominion government.

This was the resolution brought before the legislative assembly and reception committee yesterday afternoon, and unanimously adopted. Aid. Harrison, the mover, asserted that the city had lost nearly a million dollars in the past three years through the failure to come to terms with the Bell over giving an exclusive franchise.

The city solicitor, who had been asked to report on what steps the municipalities were taking to get telephone service, said that from information received from Winnipeg no legislation was proposed for the appropriation of telephone Co., but that the government had limited an intention of asking legislation for the operation of a telephone system. It had been pointed out by the Bell operated under a Dominion franchise, the company's operation could not be interfered with by the province. Mr. Chisholm stated that the attorney-general of Manitoba had promised to forward a draft of the bill as soon as ready for submission to the Manitoba house.

Mr. Noble didn't carry out his promise to appear before the committee with a request that legislation be sought for power to take over the telephone system. Dr. E. J. Barrick, who was on hand, said he had been asked to report on what steps the municipalities were taking to get telephone service.

W. S. Johnston, deputy grand master of the Grand Lodge of Ontario, stated that nearly 15,000 subordinate lodges throughout America would be delegates, and that, in all, from 15,000 to 20,000 Ontario were expected. Oddfellows in Ontario were to have a large representation.

Exemption on income assessment of \$500, with a number of lodges that \$100 above this mark was approved. Aid. Church wanted the limit to be \$100 in the interests of wage earners.

Roblin warns judges. Will Do More Than Cast Aspersions Before He Is Tried.

Winnipeg, Feb. 8.—The feature of the session of the legislature yesterday was the threat of Premier Roblin against the judges, arising out of the election trials. He was called to order by the speaker for his reflections on the judiciary. When twitted about casting aspersions on them the premier said: "I will do more than that before I am done with them. I am not afraid of the judges, because I don't strike any man's name off a list of duty and their protection." The attorney-general also said he believed we need better judges.

LOST—ONE DOLLARY FINE FISHERMAN LOOKING FOR IT

Was Once Situated in Detroit River, But Time Has Obliterated Landmarks.

Detroit, Feb. 8.—Green H. Gauthier of Windsor is on trial in Judge Mansel's court here for alleged illegal fishing in American waters about eight miles below Detroit, and is anxious that the present case against him should go to the supreme court for final determination of the boundary line between the United States and Canada.

Judging by the expert testimony given by members of the United States Survey Corps, the boundary line is a hazy subject in official circles. The map of the Treaty of Ghent, made in 1816, and amended in 1820, have been put in evidence, but experts say that the old landmarks of that time are now lost or obliterated.
