27TH YEAR

## A BIG INDUSTRY AT CITY'S GATE

### Mackenzie and Mann Would Locate on Ashbridge's Marsh.

## A MATTER OF TERMS

### Establishment of Smelter Would Populate Riverdale District.

At the board of trade banquet to Messrs. Mackenzie and Mann some time ago nothing in the proceedings made a more decided impression than the announcement that these gentlemen intended to establish smelting works and blast furnaces in connection with the Toronto terminus of the Canadian Northern Railway.

In considering the future development of the Riverdale section and east of the Don in general it was not surprising to find that this statement was being taken up largely in the future of the city's interest.

It is a question whether or not favorable terms can be obtained for the city at the present time as Beavis and Brown offered in 1889. But it must be settled whether the city is to purchase a dog-in-the-manger policy or another twenty years, letting the marsh lie in its present swampy uselessness, or whether by terms with some company or by the city itself the marsh should be made available for use.

Setting aside for the moment the arguments that point to the east end as the best situation for a great manufacturing district, and the Ashbridge's Bay lands which are regarded as the ideal point for concentrating industries, the interest of the city in relation to the development of the marsh should be kept in view.

It is stated that the Canadian Northern authorities and the city hall people are equally satisfied on this subject, that the general manager of the railway company is to develop the great iron deposits at Moose Mountain near the northern end of the line. Every municipality with any pretensions to manufacturing facilities has been making offers for the establishment of a smelting plant in this connection. The World has heard of one place with a standing offer of 100 acres to be devoted to the purpose.

Should Give and Take. It has always hitherto been a cardinal principle in Toronto civics never to do anything for nothing. Any favor might make a dollar. Toronto has not hitherto offered anything to manufacturers beyond the natural advantages to be found.

If past precedents are to be regarded Toronto will probably not be offered any very glittering return for a proposal. At the same time, unless Toronto will expect to get something more than a merely nominal return, and the city will not be deterred from favoring any proposal to alienate the marsh property entirely. It is only prudent to anticipate such a proposal. At the same time, unless Toronto has an alternative plan for the reclaiming of the marsh, it will be absolute folly to postpone the development of this section of the city for another twenty years—perhaps even for longer. There is a tide in the affairs of men which, neglected, all the future is strangled in shadow. When Montreal and the Quebec interests are making such efforts to strand Toronto in a backwater, the city should not afford to ignore the broad current of events.

Wanted: A Business Manager. If the city had a continuous business administration or by delegating its powers, could obtain a responsible, continuous business management, then the city might take hold of Ashbridge's Bay and develop it, not for the benefit of one railway merely, but of all, and of navigation interests as well. We are told that capital is too shy to venture to make it likely that a company could be organized which would do this for the mutual benefit of itself and the city.

As between handing the marsh over to a railway company, and having the city

## 30,000 Longshoremen Out Ocean Liners Are Crippled

### Neither Side Will Give in—Ships Cannot Unload Freight and Business is Going to Other Ports.

NEW YORK, May 10.—The resident heads of the steamship companies included in the international mercantile mariners at this port, assumed the aggressive to-day toward the striking longshoremen. After a conference they served notice upon the strikers that unless they returned to work within a week, their places would be permanently filled by other men.

At the meeting the steamship men reaffirmed the determination not to yield to the demand for higher wages. The following were made public: "The compensation that has hitherto been paid to the longshoremen is a fair wage for the work done, and the longshoremen are agreed that it is impossible to advance it."

"Men have been for several years past and are now paid 30 cents an hour during the day and 45 cents an hour for overtime. On the piers of the great majority of times the average laborer can earn \$19 without overtime, and on many piers, with overtime, from \$25 to \$35 a week."

"It is the consensus of opinion that the lines have been most unreasonably treated by the laboring men, as never before, to their knowledge, has any general strike been declared where labor has not previously divulged their dissatisfaction and asked for consideration of their claims."

Gustave H. Schmal, general manager of the North German Lloyd Company, took occasion again to-day to deny that there was a possibility that the trans-Atlantic lines would compromise with the strikers.

In the face of these statements, Patrick Connor, president of the Longshoremen's Union and Protective Association, predicted complete victory by the strikers within 24 hours.

Twelve big liners are due here within the next 48 hours, and several ocean-going steamships are scheduled to depart for the coast. President Connor declared the lines would be powerless to cope with such a congestion.

## MAY QUIT WEDNESDAY IF DEMANDS NOT GRANTED

### Mass Meeting in Temple Adjourns Without Decision—Cooperation Co. Submits.

The plumbers will definitely decide whether to strike or not at a meeting to be held in the Labor Temple on Tuesday next at 8 p.m.

A mass meeting of the Journeyman plumbers was held in Labor Temple last night, and after a stormy session decided to adjourn until Wednesday morning at 9 a.m.

John Armstrong, secretary of the provincial bureau of labor, addressed the plumbers at the Labor Temple, and urged that efforts be made to reach an agreement with the bosses, and proffered all the assistance in his power to assist in bringing the parties together. The men received his remarks in an appreciative fashion.

The executive committee discussed applications for permits to work, and decided to call the men's meeting at 8 p.m. on Tuesday instead.

Over 400 men gathered at the Temple to take part in the meeting, but the assembly hall being engaged by the South Toronto Liberals, they had to use one of the smaller rooms, and 175 men were unable to gain admission.

The meeting was very enthusiastic and inclined to be turbulent towards the lines. Mr. Richardson, one of the executive, defended the action of the men's union in requiring an entrance fee of \$50. Mr. Richardson said that the fee was not a hardship or imposition as stated. Non-union men were only getting 20 to 25 cents per hour, the union men were getting 30 cents per hour, and the union collected the \$50 at the rate of \$5 per week out of the extra money the man was earning, and did not insist on payment when the man was out of work.

## BUENOS AYRES PEOPLE SWINDLE TORONTO FIRMS

### Consignment of Pianos Held for Payment Reveals Nature of Conspiracy.

A huge swindle on Canadian manufacturers, perpetrated by a Buenos Ayres firm, came to light yesterday, when G. M. Murray, secretary of the C. M. A., informed one of his committee of certain negotiations that had been made to him.

Least summer a Toronto firm received an order from a concern doing business in Buenos Ayres for a large consignment of pianos to be shipped immediately. A draft for 80 days on the Buenos office in Spain was enclosed.

The association was asked for a receipt for the pianos, and in the meantime the bankers sent on the draft, which was accepted.

The pianos were shipped. At the termination of the draft of the Canadian shipper that the firm had not received the money, and that the Spanish bankers informed the foreign port awaiting developments.

On arrival of the consignment an indignant letter was immediately sent to Toronto, telling the firm that there would be no further business deals of any kind with the Buenos office.

A week ago Mr. Murray received an enquiry from another, this time a foreign concern which had sent in a large rush order. Mr. Murray referred to his files and found that the firm was the identical one who were working last year, but that the names were changed.

The World Mr. Murray pointed out that in the piano deal last year the draft was drawn in the same name for the home office in Spain.

"At the meeting this afternoon," he said, "I told my secretary and several of the members informed me that they had already in fact, during the past week or so, shipped large quantities of pianos, and did not think that had orders from them."

Mr. Murray thinks that the swindle is general.

## BRICK MEN ARE ALARMED BY SPRING'S TARDINESS

### Frost Will Do Great Damage to New Output—Slight Snowfall Yesterday.

Yesterday's drop in temperature and light snow fall, are probably the final outbreak of an exceedingly ill-behaved winter.

The Weather Observer in Queen's Park thinks there may be some spring weather before Sunday.

During the night the mercury was due to drop below 32. A clear night would mean considerable damage to the crops, which are now in the ground at Oshawa was covered with snow. This was corroborated by the weather man, who said half an inch fell on May 9. The lowest temperature on May 10, 1885, was 38, at 6 a.m. and 10 p.m. There was a drizzling rain all day.

There are but two occasions within the last fifty years when snow has fallen in the neighborhood of Toronto at a later period than the current date. On May 16, 1884, a light coating fell, covering the ground to a depth of 1-10 inch. A still later period is recorded when, on June 3 and 4, 1859, a light snowstorm occurred, being however, immediately followed by fine warm weather.

## SPAIN REJOICES FOR ALFONSO JR.

### Royal Birth at Madrid Attended by Picturesque Incidents

## BOY IS A BLONDE

### Arrival at Noon Unexpected, But People Soon Apprised

MADRID, May 10.—Queen Victoria, gave birth to-day to a son, who becomes heir to the throne of Spain.

The child is described as being a robust blonde, and as having his mother's complexion. The queen and the child are both doing well.

The hurried departure of royal messengers from the palace at 10 o'clock this morning to summon the courtiers and the members of the diplomatic corps was the first public indication that the royal birth was imminent.

The usual gathering outside the palace courtyard was soon swelled by immense throngs of the excited populace, who watched with continual stream of brilliantly uniformed personages driving up to the royal residence, and tried to identify the individuals.

The crowd awaited in breathless suspense until nearly 1 o'clock, when the roar of the first cannon shot signified that the accouchement was over. The reports were counted until the number signified that Spain had an heir to the throne. Then enthusiasm broke loose.

National Holiday. The queen was the first to kiss the baby, and she was followed by the two grandmothers, Princess Beatrice of Saxe-Coburg and Maria Christina, the dowager queen of Spain.

Decrees were issued to-night ordering a national holiday throughout Spain for Saturday, Sunday and Monday.

The cabinet met this afternoon, drew up and afterwards presented to King Alfonso for his signature a decree transferring the title of her prescriptive from Prince Charles of Bourbon to the newborn prince.

It has been decided that the baptism shall take place on Tuesday at noon. In view of circumstances it is desired that the baby be named Alfonso, in honor of his grandfather, who was the name of the king's father.

The press of Spain without reservation rejoices in the birth of the little prince.

King Alfonso, in honor of the event, decreed the pardon of thousands of prisoners to-day, including eight persons who were condemned to suffer the guillotine.

The press of Spain without reservation rejoices in the birth of the little prince.

Almost immediately after the birth had been announced, a Te Deum was chanted in the chapel of the palace, and the Holy Sacrament had remained exposed through the accouchement of the queen.

In accordance with tradition, the king will soon confer various decorations on the grandees of Spain, and the commander of the palace guard, who were on duty at the time of the birth.

The haberdashers, who are gazed at the door of the queen's bed-chamber when the child was born, will also be decorated, and in addition will receive the piece of gold known as the onza, which will also be presented to all the other haberdashers on duty at the palace.

The birth of the royal babe has been awaited with eager interest throughout Spain. This was intensified early this morning when the first word came from the palace that the accouchement of the queen was imminent.

The news spread like wildfire, and crowds flocked to the great plaza fronting the royal palace. The happy event had taken the capital somewhat by surprise, for only yesterday evening the queen had taken her customary drive.

At 8 o'clock the King canceled the meeting of the council of ministers, which was to have considered current state affairs. By 10 o'clock the high functionaries of the state and capital, with many ambassadors and ministers, in their court costumes, had reached the palace. At noon this assemblage of the nobility and power of Spain was grouped in the royal apartments set aside for official ceremonies.

Please the People. The birth of the babe occurred at 12:45 p.m. The announcement was immediately conveyed to the waiting officials and crowds outside the palace.

DOMINION BREWERY COMPANY LIMITED.

MANUFACTURERS OF THE CELEBRATED

WHITE LABEL ALE

Ask for and see that our brand is on every cork.

The Neat Man

Always has a freshly pressed suit to fall back upon, when the "kinks" come in the suit he wears.

BURGUNDY

Ripened slowly, vinted from grapes chosen as one might choose jewels.

SAUTERNE

Make Sauterne cup with S & S Sauterne, and know how imitatively delicious this queer and exquisite French vintage can be.

CLARET

Dyspeptics would be fewer, digestions stronger, if more dinners were graced by such a wine as this tonic S & S Claret.

THE NEW POSTAL CONVENTION. Mr. Lemieux deserves congratulation for standing firmly by the revised postal agreement between Canada and the United States, and particularly because he declined to sanction the forwarding of United States periodicals by freight or express for mailing in Canada at domestic postal rates.

WHY IS IT? The defenders of the railways in the United States are protesting that the present popular attitude towards public rights and corporate aggression is something abnormal and to be attributed to the work of the agitator. They contrast the present with the happy past, when nothing was too good for the railways.

JUSTIFICATION CAN BE FOUND for assisting the cheating distribution of United States periodicals at the expense of the Canadian public, and in competition with Canadian publications. If United States publishers attach enough importance to their Dominion circulation, they can do so as many United States manufacturers have done—establish plants in Canada and add to the number of Canadian industries.

ULSTER AND THE IRISH BILL. In determining the ultimate fate of the Irish council bill introduced in behalf of the British government by Mr. Augustus Birrell, much will depend on the attitude of Ulster. How important that is can be seen from the special provisions securing a certain number of nominative members and leaving extensive veto power in the hands of the lord lieutenant and the government.

THE BRITISH GOVERNMENT AND THE CONFERENCE. Sir Henry Campbell-Bannerman's expression of thankfulness that Mr. Balfour had at last been brought into line on the question of a colonial preference might have been accepted as sincere, but for his petulant addendum that the opposition leader might have refrained from eclipsing on the penton form until the guests of the nation had returned home.

TO CURE STIFF NECK. When the cords of the neck become stiff and sore, nothing brings such instant relief as Nervine. Every drop is just full of pain-destroying power. Its action is almost magical. Nervine penetrates through the pores of the skin, removes the stiffness on one application. My neck was so stiff I could not turn my head to the right. I had it rubbed with Nervine and it disappeared. I do not know any other ointment you can depend on for colds. Nervine has been the "liment of Canada." Sold everywhere in large quantities.

Kingdom and the king's dominions beyond the seas would be beneficial for the empire. In this they merely reaffirmed the resolution passed by the conference of 1902, but this time it will appear with peculiar emphasis to the British public.

Even the most bigoted free trader must admit that a conference of the imperial states is within its rights in discussing and resolving upon any proposal touching their inter-relationships present and future. Preferential trade is undoubtedly, by that nature, and the position of the United Kingdom in regard to it is no way different from that of any other of the imperial states when confronted with a proposition opposite to its prevailing policy.

No one questions the right of the present British government to maintain a strictly free trade attitude—indeed nothing else was expected from it. The battle of preferential trade must be fought out in the United Kingdom independently and on its own merits. But for the formation of a really informed public opinion it is necessary that the views of the other states in the imperial partnership be made known, and all the more so because during the campaign preceding the last British general election they formed the subject of acrimonious controversy.

A Platform For Greater Toronto

- (1) Take into the city all the Township of York, south of St. Clair Avenue. This to include Toronto Junction, North Toronto, East Toronto. (2) Complete the national railway from Toronto to Hudson Bay at the earliest date. (3) Centre the administration of the railway transportation of Ontario in Toronto, not Montreal. (4) Public ownership applied to the distribution of electrical energy for Toronto and all Ontario.

[The World will be glad to receive suggestions as to other planks for the development of Toronto and the province.]

writ of summons be cancelled, and that all moneys in court, in credit of this action be paid out to plaintiff's solicitor. The plaintiff is to pay defendants \$205.50, less the taxed costs of proceedings.

Failed to Deliver Stock. Ferguson & Dixon of North Bay have entered an action against Moses Leff, solicitor of Sturgeon Falls for damages for non-delivery of 900 shares of the capital stock of The Beaver Silver-Cobalt Mining Company.

Mary Burns is suing the James Bay Railway Company to recover \$412.75, payable under an agreement whereby she agreed to sell to the company certain lands in the Township of York.

Stratford People Interested. Frederick B. Deacon brought an action against The Kemp Manure-Spreaders Company for a declaration that an order for the winding-up of the company, granted by the county judge of jurisdiction, and was obtained by fraud, collusion and concealment of facts, and requesting the county judge to set aside the order.

The action brought by J. D. Watkins in his own behalf, and on behalf of certain shareholders of the Ontario Electric Railway Company, for a declaration that a certain alleged fraudulent conveyance has now on consent been dismissed.

London Accident Recalled. On Sept. 13 last, Maud Amelia Hinesley, wife of George Hinesley, London, Ont., tripped and fell, and was run down and killed by a car of the London Street Railway Company.

Spain Rejoices. The formal announcement of the sex of the royal infant was made by the Camarera mayor, or mistress of the court, to Premier Maura, who communicated the news to the king and queen. The news was greeted with the greatest enthusiasm, which swelled into a spontaneous cheer, as King Alfonso himself hurriedly accompanied the Camarera mayor carrying a huge silver tray, upon which was lying the newly-born royal babe, covered with delicate lace garments.

Queen Will Be Nursed. The queen insists that she will herself nurse the child, despite the opposition of the courtly etiquette to such a departure from custom, as she desires to ensure its good health.

People Joyful. The scenes in the streets outside were almost beyond description. Business had been suspended for hours. An immense multitude gathered about the palace, and the royal standard, red and gold fluttered to the peak of the flagstaff on the Punta de Diamante, a great shout of joy went up.

Britisher Pleased. LONDON, May 10.—The birth of an heir to the Spanish throne was received with unfeigned satisfaction by King Edward and all the royal family here, who received the first news thru a newspaper agency.

Roosevelt Congratulates. WASHINGTON, May 10.—President Roosevelt sent King Alfonso the following message to-day: "I congratulate your majesty and the Spanish nation on the birth of an heir to the throne of Spain."

Judge's Wife Goes Away. BROCKVILLE, Ont., May 9.—(Special)—Much surprise has been occasioned in West Carleton by the sudden disappearance of Mrs. Martha, wife of Police Justice Rockwood. About the same time Roger Montgomery, a machinist of the village, suddenly took his departure.

Consents to Divorce. A. Y. Haest brought an action against J. W. Thompson over a certain stock transaction. Now he has consented that the action be dismissed without costs. An order was granted accordingly.

Settlement Arrived At. An agreement of settlement has been come to in the action brought by Joseph St. Clair Montgomery against James Franklin Arnold and George Arnold. It has been agreed that the agreement for sale mentioned in the

HARTLEY DEWART NAMED BY S. TORONTO LIBERALS

Convention Divided on Wisdom of Putting Candidate in Field at This Time.

South Toronto Liberals held an enthusiastic convention last night at the Labor Temple, and nominated Hartley H. Dewart as candidate for the next Dominion election.

Hon. William Paterson, minister of customs, was present and addressed the convention.

Senator Jeffrey was well received on taking the chair.

W. E. J. Lee inquired as to how the delegates were selected, and Dr. McMahon explained that the chairman of each of the nineteen polling sub-divisions was instructed to call his executive and appoint ten representatives from his sub-division.

Mr. Lee protested that this was against the spirit and letter of the association's constitution, and resolved itself into a selection of a candidate by a small number of the association. Mr. Lee accordingly moved that, instead of adjourning for two months, and meeting again on the 15th inst., the motion was carried.

Edward Fielag agreed with the suggestion, and the motion was carried. The meeting did not seem to favor this view, and the chairman called for a vote on the proposition.

Mr. Lee moved that the convention be adjourned until the 15th inst., and the motion was carried.

MOYER'S RECORD MAY CAUSE BAD IMPRESSION

Supposed to Have Served Term for Burglary—Federation Denies Story—New Jurors.

CHICAGO, May 10.—The Journal to-day prints an exclusive story alleging the arrest of Charles H. Moyer, president of the Western Federation of Miners, in Chicago, in 1885, for burglary. According to the story in the Journal, he was subsequently sentenced to Joliet Penitentiary, where he served from February, 1886, to January, 1887. The official record of the Joliet prison in the case is said to be as follows:

Name, Charles H. Moyer; number, 1455; sentenced from Cook County, February 4, 1886; age, 20 years; terms, one year, for burglary; height, 5 feet 8 inches; weight, 156 pounds; complexion, medium dark; color of eyes, blue; color of hair, dark brown; occupation, farm hand, from Iowa; discharged, January 4, 1887.

The official record of the Joliet Penitentiary declared that during the date mentioned a man bearing the name of Charles H. Moyer was an inmate of the prison. The records of the Chicago police department show six arrests against Moyer, his initials being given as C. H. M. in each case, four for robbery, one for attempted robbery and one for carrying concealed weapons. John Keating, a partner of the prisoner, was made by Patrolman (now Sergeant) John Hartnett.

John Keating said to-day that he remembered the arrest, and gave some of the details.

John Keating died while a convict in the Joliet Penitentiary, and one of his brothers, Charles Keating, said to-day:

We always knew that Charles H. Moyer, president of the Western Federation of Miners, was the man who was sentenced to the Joliet Penitentiary with my sister, and I have often heard my folks speak of him. After Moyer got out of the penitentiary he came to Denver. I have often heard Charles Moyer had been made head of the miners' federation."

The Journal also prints a story, which is substantially as follows: Frank S. Moyer, chief of police of Boone for four years and now a candidate for the position of mayor of Boone, Iowa, is the brother of Charles H. Moyer. He said to-day:

I heard that Charles got into trouble in Chicago once and was arrested, probably the least said about it the better. I know that Charles went to Denver. I have often heard Charles speak of Sam Williams, but I never saw Williams myself."

It appears that after the arrest of Moyer the Pinkerton detective agency became aware that a man named Charles H. Moyer had been in the penitentiary at Joliet. Mr. Moyer set at work at once to collect evidence as to the identity of the convict, and Charles H. Moyer for introducing it at the trial of the president of the Western Federation of Miners in a certain contingency. No evidence on the subject can be introduced, except an attempt is made to show good character. If this be done at the trial of Moyer, witnesses will be on hand before it is too late to such the manager of the Western Federation of Miners is Charles H. Moyer who served a term in the Joliet Penitentiary for burglary. If Moyer was at work in the Black Hills in 1885, and can produce proof of this, the jury will have before them the facts of the Western Federation of Miners.

Story Denied. DENVER, Colo., May 10.—The story that Charles H. Moyer, president of the Western Federation of Miners, served a term in the Joliet Penitentiary for burglary, is discredited at the federation headquarters in this city.

E. E. Mahoney, vice-president and acting president, said he had no recollection of Moyer's entire career, but was positive that the man who served a term in the Joliet Penitentiary was not the man who is now president of the Western Federation of Miners.

BOISE, Idaho, May 10.—Sheriff Hodgins started out to-day to summon a special venire of 100 men, ordered yesterday by District Judge Woods, under the regular term panel was exhausted in an act to secure a jury to try William D. Girls' Ready-to-Wear FASHIONABLE DRESSES, \$4.50 to \$8

We've improved so much in the making and in the styles of Girls' Dresses that mothers cannot possibly find it economical now nor desirable to bring dressmakers in to do the making. Take our new Gingham dresses, for instance; they bear the earmarks of New York's smartest styles. The materials are exclusive and the making is better done than any you can get at home, while the prices are reasonable enough to let you buy three dresses where formerly you'd have been content with two. See these lovely dresses in our White-wear section. Ages four to twelve years. Prices \$4.50 to \$8.00—2nd floor.

WOMEN'S SPUN SILK VESTS Women's Ribbed Cream Spun Silk Vests with low neck and short sleeves; Cream Spun Silk Rib Vests with no sleeves, lace yokes and shoulder straps. Also particularly fine line of White Lisle Thread Vests with no sleeves, lace yokes and shoulder straps. All the best Swiss manufacture, regular 60c, 75c and 85c each. All grouped together for sale on Monday, at \$5.00.

WOMEN'S HIGH GRADE OXFORD TIES, \$2.95 A fine lot of Women's High Grade Oxford Tie Show, in patent 444, patent coll, violet and white. Some that we have just received from the manufacturer and passed into stock and representing what we regard as one of our best purchases of the season. Light hand-turn and Godoyac welt sales, with Cuban and military holes; the very newest and most popular summer styles being made by one of the best American manufacturers. All sizes, regular \$3.75 to \$5.00 a pair. Monday \$2.95.

A granite quarry running south from near the foot of Cherry-street would provide wharfage on the plan prepared by Mr. Doome, but the commissioner suggests setting this back 50 feet from the city's front line, and building slips, which would afford much more dock accommodation. The park area, including 180 acres, About 400 acres, partly reclaimed, partly marsh and water, remain for the purposes of commerce. Should the smelting project be entertained, and such an immense industry grow up on the marsh site as has been the case in Chicago and elsewhere, the hinterland presents the best possible conditions for the settlement of a working-class population.

Seven Feet of Snow. LARAMIE, Wyo., May 10.—For twenty-four days a snowstorm has raged in the Southern Wyoming mountains, and snow is seven feet deep on a level. Since April 15 the sun has not shown a moment. The temperature has been between zero and ten degrees below during that time.

Heavy Storm at Woodstock. WOODSTOCK, Ont., May 10.—(Special.)—Woodstock was today visited by a snow storm and several inches fell. The storm set in at an early hour, this morning and at 6 o'clock it was still snowing. At times the fall was very heavy and the day looked more like one of December than May 10th. The last big snow storm that occurred in this time was during the month of May in 1875.

Three Inches at London. LONDON, May 10.—Three inches of snow fell here today. It was wet and heavy and fell all thru the day.

Close Call for Life How It Happened

Strange Experience of Well-Known Forest-Citizen Vouched for by Popular Minister and Local Druggist

(From Forest Free Press.) FOREST, May 1st, 1907.—The following facts, vouched for by Rev. C. E. Burrell, Baptist minister, and Ralph E. Scott, the well-known and popular local druggist, is evidence that even when physicians have abandoned hope people should not give up and say "die."

Mr. J. A. Galbraith is a prominent member of my church, respected by his neighbors and very highly respected throughout the entire community. His case has attracted very considerable attention. It was a pitiable case indeed; in the prime of life and with the brightest of prospects to be suddenly cast down in the midst of it all. Visiting him after his illness had pronounced his case hopeless and indeed set the date for his death, which would likely pass away, and observing pretty closely his condition, it occurred to me that Psyche, which I had used in my own family with wonderful results might benefit him. I strongly recommended it to him and he began its use. The result was very wonderful. Almost immediately he began to improve and soon was able to get up again. He appeared to be in the old health and was able to take up once again his old duties on his large farm, and to perform them with the same energy and comfort. The improvement was permanent and he is to-day apparently just as well as ever. He says that the reason for his recovery, under God, is Psyche. C. E. BURRELL, Minister.

The average girl about to marry makes the mistake of thinking many of the men honest and his character, and almost invariably she is attracted by the qualities that dazzle her rather than by those on which she must depend for her future happiness. This subject is dealt with in "A Millionaire's Revenge," which will be presented for the first time in this city at the Majestic Theatre next week, opening the engagement with a matinee on Monday. The story is of intense interest and teaches a great moral lesson of the fatal gift of beauty in young women and unlimited wealth in young men.

actors of the crusty, stern and narrow-gauged father, Lechlan Campbell, and the tipping, but far-sighted "Posty," are both unusual and exceptionally artistic. During the week-end usual matinees will be given on Wednesday and Saturday.

At the Princess Theatre on Monday evening Henry B. Harris will present for the first time in Toronto Charles Klein's late play, "The Lion and the Mouse," which a few weeks ago concluded its remarkable run of more than six hundred consecutive performances at the Lyceum Theatre, New York. Among the prominent people in this notable cast are Grace

Elliston, Oliver Doud-Bryon, Ida Darling, William Lewers, Marion Pollock Johnson, Fraser Coulter, Reginald Carrington, E. J. Eberle, Walter Allen, Gertrude Barrett, Charles Squires, W. H. McDonald, and Julia Fanchett. The local engagement is for one week with special matinees on Wednesday and Saturday.

The story in brief is of the ruin and disgrace of an honest, upright judge of the supreme court, who has defeated certain illegal money-making schemes of the king of finance, John Burckett Ryder. Judge Rosemore's daughter, the cause of her father's misfortune, has been enjoying herself in Europe. Jefferson Ryder, son and heir of the multi-millionaire, has been Siry's companion on shipboard, has proposed marriage to her, but is rejected by her on finding that his father is the cause of her father's ruin. She determines to prove her father's guiltless of the charges against him and eventually succeeds.

Week after next the Princess attraction will be "The Walls of Jericho," a drama of striking human interest dealing with life as it really exists and one that touches the heart. There are any amount of excellent songs to be found in the ranks of the "Kentucky Belles," an exceptionally entertaining burlesque troupe that is booked for an engagement at the Star next week. With an opening satire on wealthy American girls in search of titled foreigners for husbands called "Society" with the scenes laid in Paris and a closing part entitled, "Murphy's Mistakes," a second edition of the adventures of Patrick Murphy an Americanized Irishman, who depends on his wit to thwart his rivals, and an incomparable array of novel vaudeville acts, the "Kentucky Belles" is a show to tickle the most blasphemous amusement seeker.

RECEPTION TO COL. HENDERSON Thirty-Fourth Regiment, "Ontario" Honor Commanding Officer. BEAVERTON, May 10.—(Special.)—Capt. Birchard, Lieut. Cameron and the non-commissioned officers and men of G Company, 34th Regiment, tendered their new commanding officer, Lieut. Col. A. G. Henderson, a magnificent reception on his visit to-night to deliver an address in aid of the public library. The local militia joined hands with the library board, and the result was, not only a crowded hall, but a most delightful entertainment. The feature of the program was the address of Col. Henderson. He dealt with the "Soldiers of the King" in a manner that called forth the greatest enthusiasm. "Army Avkings, Scotty (Mintie), Fatsy" and Jack Cannon were generally dealt with. The ground from Waterloo to Paardeberg was covered. An interesting event was the presentation of a long-service medal to the officer commanding the local company, Capt. James Birchard. Major Charles Patterson, late paymaster of the 34th Regiment, occupied the chair.

Elephant Catching in India. In the May Windsor appears a finely illustrated article entitled "The Elephant Catchers," in which the writer thus prefaces his scene: It is growing chilly, for it is December—elephant season. The stirring night breeze lifts the odor of unclean tobacco and cooking dall from many kettles along the banks, where every red flame flickers on strange faces and surbans and shining torques. On the least malarious hillside there are tents lit with yellow light. The sahibs are there—elephant catchers, an art in India. Outside the tent-flaps sit the dozen fierce, bearded, Mohammedan riflemen in gigantic turbans and curled-up fannels of cloth. Among the tent-roofs are the Bengal body-servants, guarding tin clothes boxes, gun cases, string beads, blankets. When they would have put them to rights, the great Petersen Sahib drove them out, that he might talk with Nur Ali, the Mohammedan Jewadar—the overseer. All the caravan of the elephants today; Nur Ali has been across the river and in the jungle beyond with the trackers. Perhaps he has seen the wild herd there. Oh, Imman Bakh! Cease cooking; the sahibs will have no thought of ducks and curry till the jackals go to bed. Inside, Nur Ali, tall, brown, all beard and turban and white-looped robes, tells his tale. Sittin' on Charvay, the Englishman listen. In the corner squats the master tracker—keen, frowsy little man, who can leave strange stories from wet leaves and bent twigs. Nur Ali says in Urdu, "We have found the wild herd in the forest, but three miles hence, as the trackers said—also, sahibs, fifty and one in all—25 elephants of,

which seven are tuskless and koomerish—kings of tuskless—and 18 muck-nas, without tusks, and meergas, third-rate. Twenty-four, the elephants there are also, and but two calves. The herd does not wander far, and good men watch. To-morrow, in truth, the game may begin, Allah! Whittensaving the sahib's pleasure."

## HOUSING IN THE WARD VITAL PHASE OF PROBLEM

Dr. Sheard Will Make Report on Conditions as They Are for Guidance of Committee.

The second conference on the civic housing problem, held last night, led to a decision being reached to have a report from Dr. Sheard on exact conditions of congestion in St. John's Ward, before proceeding further. Some interesting views were advanced during the discussion. The meeting was presided over by Controller Hocken as chairman.

The organizations and those representing them were: Young Men's Municipal Club, W. S. B. Armstrong; "Hocks" Council of Women, Mrs. Torrington; Association of Property Owning Workmen, R. P. Hall; Architectural Eighteen Club, A. H. Chapman; Builders' Exchange, Thomas Self; Board of Trade, James Ryrie; Architects' Association, J. Wilson Gray; Building Trades Council, J. W. Bruce; Young Men's Zion Club, A. P. Lewis; Toronto City Mission, Rev. Robt. Hall; Manufacturers' Association, Thomas Roden; Toronto District Labor Council, R. Thompson; Single Tax Association, Julian Sale; Canadian Progress Association, W. B. Hamilton.

Thomas Roden, in outlining the plan of the Manufacturers' Association, for building 250 houses each year for four years, at a cost to the purchaser of \$100 each, payable in 12 yearly installments, asked that the city lend aid. He suggested that the association be allowed to purchase tax sale lands cheaply from the city, that the city architect's department assist in preparing plans, that no charge be made for permits, and that the charges for drainage, etc., be reduced. He asserted that the city's charge for the last named item was double that which a private company would charge. The houses were designed for workmen earning from \$2.25 to \$3 a day, and it wasn't intended that the profit should exceed 5 per cent, while the actual calculation was on a 4 per cent basis. A small surplus would have to be paid by annually to provide for contingencies. The T. Eaton Co., he said, was one of the largest supporters.

Problem's Three Phases. J. W. Gray of the Architects' Association, thought the problem presented three phases. There was the mechanical, whose circumstances would be dealt with by the city; the individual who, while wanting to live in the city, didn't wish to purchase a home, and the workman who has the desire and ability to do purchase.

Mr. Gray dwelt upon the success of the tenement system introduced into Edinburgh by Sir Robert Finlay. Provision was made for apartments of two rooms and upwards, and the buildings, which were four or five stories high, had a courtyard, excellent sanitation and household conveniences were supplied. Co-operative building societies were formed, the cost of erecting houses worked between \$1000 and \$2000, but there was a disposition among people to prefer the property of their own, well ventilated flats. When tenements became unfit for human habitation the municipality had them eliminated.

Mr. Roden indulged in some vigorous criticism of the condition of many houses in the "Ward," the situation being termed disgraceful.

"We should have a district, and, after contemplating it, cut it down," he declared. Mr. Roden thought that contractors in New York or Chicago had both been willing to co-operate in erecting proper dwellings in their district.

Mr. Self, speaking as a single taxpayer, thought the solution of the question lay in a readjustment of land values.

Controller Hocken's suggestion that Dr. Sheard should report on the number of occupants in houses in the congested district bounded by Yonge-street, Queen-street, University-avenue and the harbor, was met with approval. Further discussion, Mr. Armstrong, of the Young Men's Municipal Club, gave the view that one important phase of the housing question in St. John's Ward to do with the transient lodger. The city, he thought, might look after these birds of passage.

Fleming the Persistent. Manager Fleming of the street railway is nothing if not persistent in seeking to get the curved rail privileges. Again, yesterday, he was a visitor at the city hall morning and afternoon, but found the board of control too busy, so he spent two hours in the afternoon waiting for an opportunity. When he finally saw the mayor his worship informed Mr. Fleming that the matter would have to stand over for a day or two.

Island Improvement. The island committee yesterday decided to recommend that the city pay \$2500 to break the lease held by Chas. H. Sprouts on property on the west side of Chippewa-avenue, south of the R.C.Y.C. holdings on Centre Island. The property in question takes in about 2-1/4 acres, and consists mainly of water lots, less than an acre being land. The purchase is in line with the city's policy of island improvement, and the acquisition will place the city in possession of a stretch of land from the ferry dock at Centre Island to Chippewa-avenue. It was agreed that the sand pump should be used for two weeks in the rear of the R.C.Y.C. property. A decision was reached yesterday from Dr. W. C. Heagle of \$5 towards the Longboat education fund brings the total to \$60, outside of the city's gift of \$200.

The Parkdale Canoe Club is seeking to sell the city 66 feet of land on the lake shore adjacent to Meyer's restaurant for \$3250 and to lease from the city 100 feet at \$1 per foot per annum.

## BELL TELEPHONE OFFERS UXBIDGE INDUCEMENTS

Uxbridge and Scott Independent Line is Meeting With Opposition in the Town.

UXBRIDGE, May 10.—Affairs are warming up in the town over the telephone fight that is just on. The Bell Company are seeking to get an exclusive franchise and are offering some inducements in order to effect a settlement. In some towns these offers of the Bell have been closed with towns like Whitby have found themselves in the lurch afterwards. It is remarkable in the case of this county town that not a councillor who signed away Whitby's rights returned to the board. And at present Uxbridge is face to face with the question. Some time ago Doctors Bascom and Forrest erected a private line into the township, as many other doctors have done in other places, being the pioneers of the rural telephone. In course of time the Bell people took this line over and changed the switchboard. They entered into an agreement with the Bell to allow the public to use this phone so long as no other doctor could be called up over the line. Thus the curious coincidence of another doctor having a Bell phone in his house, being unable to use certain parts of the line.

Uxbridge and Scott Line. At this juncture the Uxbridge and Scott Telephone Company formed and asked permission to enter the town. This made the Bell people move some so that they are pressing the town for an exclusive franchise. But it is not the wish of the town people that this monopoly be given such a control, and a petition, bearing the following names, was presented to the council, asking that they do not grant any exclusive franchise to any company in the town of Uxbridge. These men constitute the leading business section, and it is said all are willing to sign. They are: J. A. Richards, W. H. Keenan, W. H. Brownson, L. Hutchison, E. J. Breen, David A. Cheryne, James Alexander, John Wilson, J. H. Chinn, McGowan Bros., R. J. Moore, E. Shilley, D. Campbell, William Low, T. F. Thompson, Alex. Graham, A. E. Miller, H. H. Bishop, Joseph Wardman, F. H. ## EXHIBITION PRIZE LIST EASIER FOR REFERENCE

In Horse Section Canadian Breeder Put on Fair Footing With Importer.

The prize list of the Canadian National Exhibition of Toronto is just out. Many changes are made, making it more convenient for reference by exhibitors. The regulations are changed, so that all animals exhibited in the five stock sections must be registered in the Canadian Herd Book registers.

In the horse section the Canadian breeder is put on a fair footing with the importer. The directors have endeavored in every way to protect and encourage Canadian-bred horses. The prizes in the breeding classes of the horse section have been increased over \$800. Several new classes have been added, especially the one for strings of ten horses, which is expected to be one of the features of this year's exhibit. In the event of a tie in the next jumping classes the prize list remains the same as last year, including the King Edward Hotel Cup, which is awarded to the best horse in the runabout class.

In the speed division the prizes have been increased by \$1000. A new class has been added, providing for horses that are not fast enough for the "free-for-all," but that are too speedy for the "B" classes. The conditions are the same.

In the cattle section A. T. Gordon of Combsborough, Spotswood, has accepted to judge the showings, which is the largest class in this section. The prizes in the Herefords and the Holsteins have been considerably increased.

The general arrangement through the prize list this year is alphabetical, so that it is easier to find the prize made easy. The aggregate amount of the prizes is \$30,000, not including the \$3000 given in the speed department. This is the largest amount ever given in prize list on the American Continent.

## SCOT IMMIGRANTS COMPLAIN

Were Promised \$2 Per Day and Only Get \$1.50.

OTTAWA, May 10.—(Special.)—Scottish immigrants who arrived in the city to-day are furious as what they declare to be a misrepresentation on the part of the Canadian immigration officials in Scotland. They say that they were advertised for to work on railway construction in Canada at \$2 a day, but when they arrived they found that the C. P. F. was only paying \$1.50 a day. They claim that they can make more than that in Scotland and refused to work on the railway. They say they are looking for temporary work until they discover the best place to make for.

## IS EARTH A SPHERE?

A. V. Smith Takes Contrary View at Engineers' Club.

"Is the Earth a Planet?" was the subject of discussion at the Engineers' Club.

The speaker was A. V. Smith, and he endeavored to disprove the long-accepted theory that the earth is spherical in shape. He reviewed the usually accepted proofs and argued against them. He said that C. E. Smith, the president, occupied the chair.

## THE BURGLAR AND THE GIRL.

Held Her on His Knees While Companions Looted House.

NEW YORK, May 10.—Miss Sadie Serotta was dreaming in her parents' house, No. 50 Canal-street, Woodhaven, Queens' Borough at 2 o'clock in the morning. Miss Sadie, who is 15, opened her big black eyes to see a burglar carrying her as if she were a baby, walked to the nearest chair, seated himself and put her on his knees.

"Now, don't make a noise," whispered the man at the bed. "We are not going to hurt you. We only want to know where your dad keeps his money."

Miss Sadie, thoroly awake, her fine eyes staring, opened her mouth to shriek.

"If you do"—the burglar thrust a pistol-muzzle in her face. His companions tiptoosed to the door. "I'll take care of you," said Miss Sadie's burglar, lifting her from bed. Only the threatening pistol held Miss Sadie from screaming. The burglar, carrying her as if she were a baby, walked to the nearest chair, seated himself and put her on his knees.

The rascal's companions went thru most of the house, gathered money, checked jewelry and silverware, finally entering the room where Charles Colen, a druggist, Miss Sadie's cousin, her father's guest, was sleeping. One held a dagger at Colen's throat; the other took a belt and suspenders from Colen's trousers, tied his ankles with the suspenders, bound his arms to his sides with the belt, gagged him and filled his pockets. But the gag was not fast. Colen found his voice and yelled.

Wants Sale of Liquor Prohibited in Construction Camps.

There is a restriction imposed by the Dominion government which prohibits the sale of liquor within 20 miles of the Grand Trunk Pacific's railway construction work.

As rumors are afloat that the Provincial and Dominion governments might arrange to rescind this restriction and permit the sale of liquor therein, Rev. Dr. Chown has written a letter of protest to the Dominion authorities, saying that the public interest and the interest of morality can be better served by retaining prohibition in these limits.

**Dr. KOHR'S RESTORINE**  
New Century—the most wonderful Medicine of the age. It is astounding the Medical World. 10,000 cases cured in one month in Paris. The National Medical Board has recommended this Restorine for use in the Insane Asylums where, as it is well known, a majority of the inmates are victims of loss of vitality in its most terrible form. In Europe the remedy is endorsed by all governments and is noted as a Specific in the great standing armies of both France and Germany. Stops losses in from seven to ten days so that they never return. Drains entirely clean after a few days' treatment. The skin becomes clean, the eyes bright. Confidence returns, step elastic, bowels regular, headaches disappear. No more weak memory, the mind becomes bright and active. A Food for Brain and Blood. A permanent cure no matter how chronic the case. Just send us to-day your name and address plainly written and a 5 days' treatment of Restorine will be sent FREE in plain sealed package. Do not hesitate a moment. We will treat you with success and with honest confidence.

This is a condition (or disease) in which doctors give many names, but which few of them really understand. It is simply weakness—a breakdown, as it were, of the vital forces that sustain the system. No matter what may be its cause (for they are almost numberless), its symptoms are such that it is, more prominent being sleeplessness, sense of prostration or weakness, depression of spirits and want of energy for all the ordinary affairs of life. Now, what is the cause of this? It is a lack of vitality. It is a lack of the vital force that is essential to throw off these morbid feelings, and experience proves that as night succeeds the day this may be more certainly effected by a course of

## WAS A HALF-TIME WIFE OF TWO MEN EVERY DAY

Real Husband Long Fooled, But When She's Called Mrs. Steiner He Learns Truth.

NEW YORK, May 10.—Holding that a woman could not be the lawful wife of her husband one-half of the twenty-four hours while she posed as the wife of another for the remainder of the day, Justice Dowling granted a divorce to Julius Kobas from Anna Kobas. The decision that divided the Kobas was handed down on the third anniversary of their wedding day.

After their marriage the Kobas went to live at 220 East 14th-street. They were happy for a year. Kobas, who is the treasurer of a downtown business firm, regarded his wife as a model of devotion because she never cared to go out much at night and seemed perfectly content to stay at home in his company. Mrs. Kobas prepared such tempting meals for him that he formed the habit of going home to his luncheon.

One evening last autumn Kobas took his wife to dine in a Broadway restaurant. In came Mrs. Henry Kraus of 192 Lexington-avenue. Kobas did not know Mrs. Kraus, but she rushed up to his wife and exclaimed rapturously: "Why, how do you do, Mrs. Steiner?" Kobas looked at his wife, who dropped her eyes in a confused fashion. Kobas engaged Mrs. Kraus in conversation and learned things.

Mr. and Mrs. Kraus testified at the trial that Mrs. Kobas rented a room from them in No. 1082 Lexington-street on April 1, 1907. For six months after that, they said, she lived in the room in the daytime as the wife of Robert Steiner, who worked nights and consequently had much leisure by day. About 11 o'clock every day the Krauses said Mrs. Kobas would go away, returning early in the afternoon. This explained why Kobas's luncheons were always punctually prepared. Mrs. Steiner would leave the room again about 4:30 in the afternoon to become

## THE BROWN-TAILED MOTH.

Insect Discovered in the Maritime Provinces.

HALIFAX, N. S., May 10.—(Special.)—The brown-tail moth, a pest that has caused millions of dollars' damage to orchards, ornamental trees and forests in New England, has made its appearance in Nova Scotia and specimens have recently been found in the fruit belt of the Annapolis Valley. One found in Woodville, King's County, was sent to Ottawa, where in the department laboratory it was identified as the brown-tail moth. Specimens have also been found in Digby County.

Agricultural authorities are doing all that they can to meet the emergency and stamp out the pest ere it does any damage.

## TORONTO BARBERS' EXAMPLE

OTTAWA, May 10.—(Special.)—All the Toronto barbers have raised the price of shaves to cents each, the Ottawa tonsorial artists will not follow this example. This experiment has been tried before in Ottawa, but it was not successful then, and will not be repeated.

## THE EFFECT OF ELECTRICITY ON DISEASE

### No Longer a Matter of Doubt.

Every day brings fresh proof of the value of electricity as a remedy for human ills. Cases which only a few years ago were considered incurable are now treated with the utmost success. Patients who have been trying medicines until they made a drug-shop of their stomachs suddenly realize that the old system is wrong. They have been dosing their poor stomachs with poisonous materials until the entire organic system has rebelled against it. It is suicidal to continue such practices. Electricity is the remedy which should be used in all cases. Thousands owe their recovery to it.

Prof. O. S. Fowler, in his work on the treatment of nervous diseases, says: "Sufferers little realize how far they are restorable—yet they seek relief in the wrong directions, for medicine cannot cure this class of disease, but, on the contrary, they almost universally prove it to be a drug-shop of their stomachs. These cases that a dose of ipecac or jalap is no more adapted to reach these cases than a dose of ipecac or jalap is to reach a mother's grief for the loss of her darling babe, for the disease being largely local, the restoratives must be applied directly to those prostrated parts; and since electricity is undoubtedly the instrumentality of all life, it necessarily follows that this element constitutes Nature's one most potent remedy in these diseases when rightly applied.

Every scientist who has devoted any time to the study of electricity is enthusiastic in its curative powers. It cures because it supplies the necessary life element. The cure is pleasant, being accomplished at night while the patient sleeps.

## Dr. McLaughlin's Electric Belt

Is peculiarly adapted to nearly all general ailments. It is, without doubt, the most successful treatment known to-day.

All forms of weakness are cured by it. Electricity takes the place of exercise. It cannot resist it. Nervousness, Neurasthenia, Insomnia, Paralysis, Hysteria, Locomotor Ataxia and Epilepsy yield to it in a surprising manner. It has no equal as a cure for Rheumatism, Sciatica, Lumbago, Gout and Backache. Its success in Dyspepsia, Constipation, Diarrhoea, Liver and Kidney troubles is brilliant. Many other complaints are being cured by it, and women find it just as satisfactory and effective as men.

"This is to certify that your Belt completely cured me of Weak Back."—W. G. ARNELL, Poplar, Ont.

"I take pleasure in telling you that your Belt has been a stimulant to me. I would not be without it."—E. N. BEAULIEU, St. Therese de Blainville.

Any man who is suffering from any weakness, let him come to me and I will cure him, and if he will give me evidence of his honesty and good faith by offering me reasonable security he may use the Belt at his risk and

## THORNHILL.

THORNHILL, May 10.—A. R. Hall is greatly improving his residence by the addition of a fine large veranda, etc. R. S. Thompson, who has been ill for so long, is gradually improving, the not out of bed yet.

The milk producers are having a meeting every few days to discuss matters re the prices, and are determined to hold out for their rights.

Mr. Simpson is remodelling his residence, recently purchased from Mr. Thompson. This will be one of the finest on Yonge-street when completed.

The Mineral Spring residence is being renovated, and will be opened for the accommodation of tourists this season.

Lindsay, Francis & Co. are arranging to increase the size of their store to about twice its present capacity.

The demand for houses still increases, the several have been renovated and are being put on the market. The demand cannot be met. This is good proof of the desirability of this village as a place to reside.

## BALMY BEACH.

BALMY BEACH, May 10.—The Balmy Beach baseball team will play the H. & A. Saunders' team tomorrow afternoon on the home grounds. The match will be a practice one.

There was a conference at the clubhouse last night between representatives of the several sporting and athletic departments and the park commissioners, with the result that some arrangement acceptable to all will likely be arrived at in the near future.

G. B. Waite is absent on a business trip to Winnipeg.

The convention will be presided over by Mr. Thomas Griffith, president of the association.

## AURORA.

AURORA, May 10.—Seth Lloyd had the end of one of his fingers cut off by other day while working in Phillips' mill.

T. N. Brodie has been appointed chief of the Aurora fire brigade.

Rev. A. Bedford, pastor of Aurora Methodist Church, will conduct the services in Highwood Hall on Sunday.

Dr. W. H. Stevenson and W. H. Richardson are in the neighborhood of Bolger Lake, with the object of buying a block of land for summer resort purposes.

A large force of men have been engaged this week in putting in the 45-foot poles for the transmission of electricity thru the three feed wires to furnish power to the Lake Simcoe branch.

Rev. A. P. Bruce will preach educational sermons in the Methodist Church here on Sunday, morning and evening.

## DOUGLAS WOODS.

The reference in Thursday's World to the disappearance of Douglas Woods has given rise to considerable speculation, and many conjectures are rife as to the cause of his long absence. Woods was never a resident of Chester, but the family have been living here for some time, and Mrs. Woods, who is the support of a small family, is held in the highest esteem by the neighbors. Information regarding his whereabouts is being sought by Mrs. Woods or Rev. Mr. Vipond.

## RICHMOND HILL.

RICHMOND HILL, May 10.—Rev. Mr. Brown, ex-moderator of the Toronto Methodist Church, will be completing his held last evening. Every point on the circuit reported advance. Financially well up, an increase in membership, and conference demands all ahead of previous record.

Our new Henry reports great progress. New industries are coming our way.

It is expected that the extensive decorations in the schoolroom of the Methodist Church will be completed early next week. The contractors say that when they have completed the main auditorium there will not be a finer effect to be seen anywhere.

Great sympathy has been felt in our two townships, Markham and Vaughan, with the milk producers. As we here are buyers, rather than sellers, our local

Mr. Kennedy has bought the farm of John McVie, to the tract of the village, securing possession in a year's time. The general ex-merchant will be heartily welcomed in a hamlet.

## MINICO.

MINICO, May 10.—The loss by fire yesterday afternoon of a house owned by Mr. Finetum, on the Lake Shore, coupled with the fact that no means were at hand to fight the fire, has served to arouse a feeling favorable to incorporation as a village, and the establishment of some system of fire protection. All that could be done yesterday was to allow the fire to burn itself out. The contents were nearly all saved.

## Town of North Toronto

### Court of Revision Re Sidewalk on Roper Avenue.

Take notice that the municipal council of the Corporation of the Town of North Toronto intends to construct a tar, gravel and plank sidewalk (4 feet in width), upon and along the northerly side of Roper-avenue, from the westerly limit of Yonge-street, westerly to the line of the westerly limit of lot No. 21, according to plan M53, a distance of 1876 feet, 10 inches, more or less.

And intends to assess the final cost (or a portion of the final cost) thereof upon the real property to be immediately benefited thereby fronting or abutting upon the northerly side of said avenue, within the said prescribed limits, and that a statement showing the lands liable to and proposed to be specially assessed for the said improvement, and the names of the owners thereof, so far as they can be ascertained from the last revised assessment roll and otherwise, is now filed in the office of the clerk of the municipality and is open for inspection during office hours.

The estimated cost of said sidewalk is \$860, of which the cost for cartage is to be paid out of the general funds of the municipality.

A court of revision will be held on Monday, the 27th day of May, 1907, at the hour of 8 o'clock p.m., in the Town Hall (Edginton), for the purpose of hearing complaints against the proposed assessment on the accuracy of the frontage measurements in or any other complaint which the persons interested may desire to make and which is by law cognizable by the court.

William J. Douglas, Town Clerk.  
Dated May 11, 1907.

THE CASE FOR THE FARMER.

Dr. Sisley Makes a Splendid Argument for the Agriculturist.

Dr. Sisley of Agincourt, medical health officer for Scarborough, writes The World: The farmer is a much abused and badly misrepresented man. Toronto's medical health officer during the late struggle between the milk producers and retailers has been the chief offender leaving no stone unturned whereby he could abuse and misrepresent the farmer. Many stories have been circulated thru the press about intimidation and obstruction on the part of the farmers, which were absolutely untrue, and were concocted for no other reason than to belittle the cause of the farmers. The farmer is the backbone of our country and when an unjustifiable attack is made on him the whole nation stands to lose by it. Agriculture

CHILDHOOD AILMENTS.

The mother who keeps Baby's Own Tablets in the home has a feeling of security that her child's health is safe. These Tablets cure such ailments as colic, indigestion, constipation, diarrhoea and simple fevers. They break up colds, destroy worms, make teething painless and give the child healthy, natural sleep. And the mother has the guarantee of a government analyst, that the Tablets are absolutely safe. Mrs. Robert Watson, Combermere, Ont., says: "I find Baby's Own Tablets just the medicine needed to keep children healthy." Sold by all medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

SOLDIERS MASSACRE WOMEN AND CHILDREN

Guatemalan Authorities Accused of Terrible Outrages—Two Americans Are in Jail.

NEW ORLEANS, La., May 10.—Despatches from Puerto Cortes, Honduras, yesterday, say: Americans arriving here report that the Guatemalan government is committing unspeakable outrages. Even women and children are not being spared. A family of ten was massacred by soldiers near Guatemala City by order of the government when Jos Olivera, a wealthy planter, incurred the wrath of the government on account of his political activity. When the soldiers went to arrest him he showed fight and they shot him to death. Every member of his family was then slain. Abilio Credere, one of Cabrera's political opponents, near Livingston, was shot to a pile in the middle of a hill of poisonous ants. His clothing was stripped from his body and the soldiers danced around his writhing form as the insects stung him to death. The refugees report that two Americans, C. L. Lullien of Little Rock, Ark., and Marshall S. Adams of Cincinnati, Ohio, are in jail in Guatemala City charged with alleged complicity in a conspiracy to assassinate President Cabrera.

WANTED TO SEE TORONTO.

Youth Takes Daring Ride on Cow-catcher of Engine.

HAMILTON, May 10.—Clinging to the front of an engine, and traveling thru the night at 40 miles an hour, Otto Hill, a 12-year-old St. Catharines boy, had a thrilling ride last night. He ran away from home, intending to see the sights of Toronto, and when the midnight express pulled into the St. Catharines station he clambered up on the cow-catcher, and wedged himself underneath the boiler of the big locomotive.

In this perilous position he came to Hamilton, and would have gone thru to Toronto had not a G.P.S. detective spotted him. The lad was dressed in his father's full dress coat, which went below his knees; a vest which reached to his knees, and his mother's overalls. The detective kept him at the station here, and this morning took him to his home for breakfast, after eating which the runaway had slipped out. The police are now looking for him.

CONVERSION OF TAILORS.

Adopting the Semi-Ready Tailoring System in the Towns of Canada.

The supremacy of the Semi-ready tailoring system has compelled the recognition of the best sartorial experts in all the towns of Canada. There are over 100 Semi-ready stores, and the majority are conducted by former merchant tailors. Since the beginning of the year there have been 212 applications for Semi-ready agencies received at the head offices of the company in Montreal. Of these some 23 were granted, and in the list of exclusive agencies placed since Jan. 1st there are the names of 15 merchant tailors. These are: Mr. Annprior—P. F. Dagenais. Cardinal—A. F. Morris. Grayson—J. E. Johnson. Dauphin, Man.—J. A. Ball. Coleman, Alberta—F. Thompson. Danville, Que.—J. A. Min. Brighton—W. N. Davidson. Gananoque—Sydney Adams. Inouais—W. E. Bowen. Manville—E. Berard. Huntsville—E. Flaxman & Son. Cranbrook, B.C.—John Leask. Vernon, B.C.—Logie & Meekensie. Copper Cliff, Ont.—John McBeth. Maxville—A. J. McDougall. Camrose, B. C.—H. G. Vickery. Cobalt—J. A. A. A. St. Andrew's East—Thos. Raymond.

THE CANADIAN CLUB BANQUET IN NEW YORK

NEW YORK, May 10.—Unusual preparations are being made for the forthcoming banquet of the Canadian Club of New York at the Hotel Astor, May 14. An interesting feature of the event is that the Canadian Clubs from St. John, N.B., to Victoria, B.C., will send their presidents. Each president in turn will be called upon to introduce one of the speakers. This occasion is looked upon in New York as possessing considerable international importance.

FOUND DEAD IN BED

BRAMPTON, May 10.—Mrs. Mary Murdoch was found dead in bed at her residence on Main-street south this morning. At half-past seven this morning Mr. Charles Calvert, the caretaker of St. Paul's Church, who lives across the way, went for the morning's supply of milk, but being unable to make anybody hear, went for assistance, and the door of the house was broken in by the neighbors, who investigated and found her dead.

Used Strenuous Measures.

WELLAND, May 10.—Last night Magistrate Burger heard evidence against the Hungarian, Steven Laucic, who is charged with attempting to get patriots working at the steel works to strike, at the point of a revolver. The case was adjourned until Monday.

Life Underwriters Meet.

MONTREAL, May 10.—The executive of the Life Underwriters' Association of Canada finished its business at 2 o'clock this afternoon. A committee was appointed to report on the proposals for new insurance legislation, which will be laid before parliament next session. Mr. A. H. Vipond of Montreal presided and Mr. W. S. Milne of Toronto acted as secretary. It was reported that by the organization of Saskatchewan, which was completed last week, the establishment of branches of the association in all the provinces of Canada was completed.

Supremacy of the 'Made in Canada' Shoe

THERE were \$36,833,766 worth of shoes made and sold last year in Canada. Of this some \$6,000,000 was paid in wages to Canadian operatives. This is an increase of nearly ten millions of dollars in five years.

We exported nearly \$200,000, and we imported about \$900,000 worth of shoes the same year. Two-thirds of our imports came from the United States, where the makers claim they cannot compete with Canada unless they get hides duty free as we have them.

Ten years ago a St. John dealer told the people of St. John of 'the passing of the American shoe.' They had not in mind the increase in duty against the American shoe, but rather emphasized the fact that the American people were calling louder for a shoe as good as the Slater shoe.

But there was a slight increase in the importations of American shoes before the increased duty shut them out. Why? The exclusive contract plan of the Slater Shoe Company, giving to one store in each shopping district the sole right of selling Slater Shoes for Men and Women, was the real cause of the increase.

A dealer who was shut out from the Slater shoe agency had to get some shoes that would look as well—and he would conceive the idea that people would pay the extra dollar levied for duty if he attached the magic word 'imported.'

Except the Slater Shoe no shoe has a better appearance than the United States make, and the rush-thru-the-day American wearers are satisfied with shorter service than Canadians if the shoe but fit their critical eyes. An Englishman wants Wear and Comfort first of all to fit his critical feet.

The Canadian demands all—wear, comfort and good style—wants the THREE for the price of ONE—and he gets them. He never buys a pair of English shoes because they are ugly and clumsy. He seldom buys a second pair of American shoes because their life is too limited for his idea of value. The Canadian weather conditions are not considered by the United States maker.

Aside from all this the Canadian wearer of American shoes pays 30 cents duty on each dollar's worth of American shoes. On a \$5 American shoe he pays \$1.50 duty, and he pays both profit and duty on

- 1—All materials in the shoe. 2—All American labor in it. 3—American rents, taxes and clerk hire. 4—American freights and warehousing. 5—American manufacturer's profit. 6—American wholesaler's profit. 7—American travellers' commissions and expenses.

A United States shoe costing the Canadian wearer \$5 (duty paid) must therefore have about \$1 leather value taken out of it in order to sell at the same price as a Slater Shoe.

As an American manufacturer said to President Roosevelt, "We will either have to skin the shoes or raise our price if you don't help us." Roosevelt didn't help. Of shoes imported into Canada the whole purchase price goes forever out of the country—with the exception of the dollar which you pay in duty.

Dissect the \$900,000 worth of imported shoes which come into Canada:

Table with 2 columns: Item, Value. Includes Import customs duties (\$270,000), American profits and commissions (180,000), American labor (160,000), Actual leather value in shoes (290,000).

When the retailer's profit is added these shoes cost their Canadian wearers \$1,260,000—or more than four times the value of the materials in them.

Do you wonder now why the Slater Shoe at \$4 gives you better service as well as pleases your most critical eye? We sought to emphasize these facts a year ago when the President of the Slater Shoe Company held against any increase in the tariff on American shoes. He advised the Government then that no foreign shoe could successfully invade the Canadian shoe market; that no American shoe could stand the test with an equally well-made Canadian shoe, and that the fault of the existing importations lay with the manufacturers, who would not do as the Slater Shoe Company had done.

The Slater Shoe factory is equipped with the most modern Goodyear welt machinery, with lasts and styles designed by the most expert craftsmen. The Slater Shoe Company gathered a staff of workmen who were specialists. Every shoe made for Men and Women is thus a highly specialized product. They do not stop there.

Some dealers wanted to sell the Slater \$4 Shoe for \$5. "It looks like the best \$5 shoe," they said. That would defeat the purpose of the Slater Shoe Company. So the selling price was stamped on the shoe, and every Slater Shoe Store had to sell the shoe at the price established by the manufacturers and marked on the shoe. That price allows a fair profit to the dealer and a fair value to the shoe wearer. It protects the consumer.

A fixed price—inflexible and unalterable—plain to be seen by every one who handles the shoe. That is another Slater idea. Then in the Slater Shoe are all the desirable shapes seen in the American shoe, all the widths and half sizes, coupling with the sterling quality of British wear and comfort, all the style and finish of the United States makers.

The profit on a Slater shoe is small. But the faith and good judgment of the people have made the sales large. Never was there in Canada a shoe factory so busy, nor one whose business has so grown by leaps and bounds. Five times in ten years has the company had to enlarge its premises, and each enlargement was at the time considered sufficient for years to come. The sixth enlargement is necessary to-day.

We want you to see these shoes, to compare them for yourself with your highest ideals of style and foot comfort. Whether you ever bought a dollar's worth of Slater Shoes or not, you will be welcome in the Slater Shoe Store. The new spring styles we're proud of. Never were such fine shoes made before. The prices—For Ladies, \$4, \$4.50 and \$5. For Gentlemen, \$4 to \$6.

**MORE TIMBER RANGERS TO GUARD NORTH FOREST**

Territory Extends From North Bay to Junction of T. & N. O. and G. T. P.

There has been a large increase in the number of fire rangers appointed to patrol the forests of Northern Ontario this year and the territory kept under surveillance has also been considerably extended because the tourist travel is stretching out further year after year.

Last year two parties were considered sufficient but this year it was decided that much greater precautions must be taken on account of the rush of prospectors into the northern country.

**CANADA'S PREMIER ENDORSES Cobalt Silver and Gold Districts of Northern Ontario.**

From the Chicago British and Canadian American editorial in issue of May 10, 1907.

**WONDERFUL COBALT.**

The London Financial News on Saturday said: "When Sir Wilfrid Laurier spoke of Cobalt to be fabulously rich, it may be taken as a certainty he was not talking through his hat. The richness of the region did not really need his endorsement, but it is welcome because it will help British capital in its search for investment fields. Cobalt is drifting into American hands. Undoubtedly the public testimony of the Canadian Treasurer is a mine of the vast wealth which the Cobalt district has developed. It will give confidence to British investors, and the diversion of a vast amount of speculative funds seeking employment from fields of comparative uncertainty to that in Ontario, which offers guarantees of stability, that are nowhere else to be found in the world. Ontario, whose mining regulations make it practically impossible to secure a mining discovery, cannot fail to profit by this timely utterance. There is, however, abundant capital flowing into Ontario on the same account from the United States, and notably from Chicago, where companies developing Cobalt holdings have been successfully capitalized through the use of the columns of this paper. These investments have proven so remunerative, through the rapid increment of stock values, that they are being looked to with active interest by investors, who, having been made fully acquainted with the splendidly devised regulations of the Ontario government for the supervision of mining operations, are impressed by the care taken to minimize any speculative risk, by making it practically impossible to keep the world without a solid basis of value to guarantee results from development. And there is no question that the profitable experience of Chicago people who have already put their money into Cobalt enterprises will lead to much larger investments in the future, so strong is the confidence that has been inspired in the Ontario El Dorado, which is a definite reality, and not a field of dreams inviting the pursuit of alluring but unsubstantial and unproductive rainbows.

The same paper prints the following:

**A COBALT OPPORTUNITY**

A Cobalt Company with Large Holdings and Low Capitalization.

"The Cobalt Certainty Silver Mines Ltd., incorporated under the laws of Ontario, owning 300 acres and controlled by 20,000,000, is on account of its large holdings and low capitalization, going to be a leader in this sphere. Investors would well investigate the proposition. Every officer and director is a resident of Cobalt Ont. Full particulars can be obtained from Cass Bros., First National Bank Building, Chicago, Ill."

There is an active demand for Cobalt Certainty Silver Mines Ltd. stock both in Canada and the United States at the present price of thirty cents per share. This stock is advancing steadily, and is expected to par and should sell well above par within three months.

**COBALT OPPORTUNITY**

We are organizing a syndicate to operate a proven property, located in the centre of the rich silver-bearing area. Syndicate shares \$250 each, payable in cash or instalments. Only a limited number of shares for sale. Each syndicate share entitles holder to 2500 shares in Company to be incorporated.

This is a full-time opportunity to get in on the ground floor. The opportunity that seldom knocks at the door a second time. For full particulars address

**WILLS & COMPANY BROKERS WEEKLY BULLETIN**

TORONTO, May 11, 1907. Cobalt stocks have been quiet all week, but not at all surprised if nothing is done until the next dividend. We would regard it as a perfectly proper proceeding in view of the methods they are adopting in their development. It would make the stock more liquid if the dividend were paid now and held up until it was on a reasonable basis. We think it is very safe to expect this.

Mekley-Darragh will also very likely have their dividend. As a matter of fact, they should not have paid the first one, but as their mine is very rich it will ultimately pay good dividends. Their development work is not sufficiently advanced as yet to warrant it.

Foster—A complete report will be issued to the stockholders of this company within the next week or ten days. It will be of such nature as to let the stockholders know precisely where they are at, and what their mine is worth. We think it will cause a considerably better feeling, as this report will be gotten up by authorities that can be absolutely relied upon. A complete monthly report will also be given to the public.

Amalgamated has had quite a drop, owing to the releasing of some 200,000 shares from pool. The cut-out is now in 70 feet, with about 20 feet of drift; along the No. 3 vein. The showing is improving. We are not holding our own.

Cleveland—A wonderful strike is again reported on this property. According to the statement made by the company, they are also making a surplus sufficient to pay expenses of the mine for their power plant. Lawson—Further litigation is still being fought on this stock.

Silver Queen and Tritheway—Have been reported on this property. According to the statement made by the company, they are also making a surplus sufficient to pay expenses of the mine for their power plant. Lawson—Further litigation is still being fought on this stock.

Temagami—Has been in very good demand, with very little stock offered. It is certainly wonderful.

North Cobalt—The strike on this property is looking very good. Here is one of the curious conditions of the camp. This is an actual shipping mine and while there is very little stock to be had it can be picked up around 35c to 45c per share. We think this is the cheapest stock in the district. There is no other mine with this capitalization and showing selling at any price.

"Our good thing did not come off." It will take time to get the mine working. Peterson Lake has been extremely weak owing to large offerings. No particular reason assigned. Conlang has been weak, regardless of the dividend just declared. Yours very truly, WILLS & COMPANY.

An Investment Which Will Stand THE STRICTEST INVESTIGATION

We Wish You, "MR. INVESTOR," to Investigate

It consists of 971 acres of valuable mining lands right in the very heart of the rich Cobalt district, and surrounded by some of the most famous mining properties, whose owners and stockholders have become immensely rich. The properties have a larger acreage than the great Nipissing properties, while mining engineers and mining experts have reported that "with proper and systematic development, these properties are bound to yield ores in marvelous abundance," and in all probability will rival any of the famous mines in this great mining camp. The first issue of 500,000 shares of treasury stock was placed on the market less than a month ago at 12 1/2 cents a share.

Already over 400,000 Shares of the Stock have been taken up, and less than 100,000 remain. The Price Will Positively Advance to 15 cents on June 1st.

We do not desire to over-estimate the great possibilities that are bound to follow systematic development of these magnificent mining properties—but when we tell you that numbers of the most practical mining men, business men, professional men and shrewd investors are putting their money in this stock, with every confidence of big returns, you will not wonder that we emphasize the remarkable opportunity it offers to investors. The company is capitalized for \$3,500,000. No personal liability. Par value of shares \$1.00. Each fully paid and non-assessable.

The Balance of Treasury Shares are Open to Investors at 12 1/2 cents a Share until June the First, when Stock will Positively Advance to 15 cents.

The best days are still to come for Cobalt mining interests. Those who get in early will achieve, and make tremendous profits from their investments. Give this proposition the most careful investigation. Write to the undersigned for prospectus and map which will give you full details as to the personnel of the company; location of claim and famous mines which surround them. Or better still, wire orders at our expense, and make sure of stock, as we are likely to close books almost any time. We reserve the right to accept or decline purchases of treasury stock at 12 1/2 cents any time before June 1st.

**BUY "GOLD MINT" MINING COMPANY'S STOCK.**

100,000 Shares Won't Last Long. Buy Now. Subscription at 10 Cents Closes May 15th. \$1,000 Buys 10,000 Shares. Par Value \$10,000. \$100 Buys 1,000 Shares, Fully Paid; \$50 Buys 500 Shares; \$25 Buys 250 Shares; \$10 Buys 100 Shares; \$5 Buys 50 Shares.

THE WAY TO MAKE MONEY IN MINES IS:

BUY SHARES in a new property well located. DON'T wait until the first profit has gone to others. BUY a stock at the low points.

LARDER LAKE is a new gold field, untried till now. Ore running into hundreds of thousands of dollars per ton has been uncovered here.

COBALTS have been sidetracked in the mad rush to get holdings around the first discoveries at Larder Lake.

THE GOLD MINT PROPERTY IS ONE OF THE FIRST.

Mr. H. Dreany, who is a well-known practical mining man, left on Thursday to examine the property and arrange for the placing of the necessary plant and machinery on the ground to open up the mines at the earliest moment.

All the claims of the "GOLD MINT CO." carry veins of quartz with free gold in them. Another chance like this is not likely to occur in a lifetime. We do not fix the value of the stock of the "Gold Mint" at 10 cents per share, but make a ground-floor offer to get in with us and develop the property. The Right of Way mine at Cobalt was put on the market at 15 cents per share, and is now selling at \$5.00 per share. The Temiskaming and Hudson's Bay shares sold at 25 cents, and after paying a dividend of 4,500 per cent. in two years are selling for \$190.00 per share hard to get.

We are making another offer. Now is your chance again. We believe it is worth Five Dollars per share, and will sell there before another year.

As the stock is being taken rapidly, the subscription list will close on Wednesday, May 15. Send in your order now and we will do what we can for you.

OFFER We offer the balance of 100,000 shares GOLD MINT stock at TEN CENTS PER SHARE, as long as it lasts, and advise its purchase on location, formation and general natural advantages. Make checks, money orders payable to DREANY & COMPANY, 701-2-3 Traders Bank, Toronto, Canada.

LONDON.—The output of gold at the Rand in April officially announced, 637,010 fine ounces, against 538,407 fine ounces in March, and 439,243 fine ounces in April, last year.

Atchafalca rights.—Holders of common and preferred stock of record at the close of business May 10, 1907, may subscribe at par, and interest, for an amount of ten shares, or 5 per cent. of the total number of shares of the company, equal to 12 per cent. of their respective holdings.

Joseph says: London irregular. Traders will be less demonstrative. If it were not for the sell which in this country yields produce that is worth from six to seven billions annually, there would be some reason for apprehension, but prosperity prevails. Harbinger's plans are comprehensive. Eventually both U. P. and S. P. will sell very high. Each may be bought and held for the results. Reading is being nosed by the First National Bank interests. Buy conservatively. There is a big short interest in Inverhore. The preferred stock is very heavy. Speculators buy Atchafalca on drives. Average long New York Central.

Charles Head & Co. to R. R. Bonnard.—Standard high-grade issues on weakness, with the protection of a stop order on this read. Irregularity and reactionary operations are likely temporary, but the majority of the late afternoon selling yesterday seems to us to have been speculative. In U. P. toward 140, supporting orders are reported. Reading shows some technical weakness, the usual 110 support having apparently been overwhelmed. The 93 support for A. C. P. is still intact, according to our reports. Atchafalca has been well held on the ex-dividend proposition, but may sag moderately today. Supporting orders are reported around 92. B. R. T. is fluctuating between 67 and 68. There will be heavy investment in Great Northern, preferred on any further weakness. Hill supporting orders are noted on a scale down toward 130. Financial News.

LONDON, May 10.—Commodities fell 7-10 this morning, but by lunch time they had recovered to 8 1/2-10. The depression was due mainly to the troubles in India, but equally to the prospective issue of the Transvaal loan of \$25,000,000, guaranteed

by the British Government, and other gilt-edged issues, including the Irish loan of \$25,000,000 and the Cape Colony and Jamaica loans.

The conservative opinion in New York is that good security is being offered, but the mass of undigested securities, ready on the market, with more to come, will, of course, militate against any great volume in prices of investments until the process of digesting is more nearly completed.

NEW YORK, May 10.—It was stated this morning at the offices of the Union Pacific Railroad Company that of the increase of \$100,000,000 of the common capital stock of the company recommended by the board of directors, \$12,875,143 will be reserved to issue only in converting the \$70,000,000 of convertible bonds. The balance of \$87,124,857, as well as any amount not required for the conversion of the bonds, must under the law, in the first instance, be used to pay the stockholders, and no such offer is now in issue.

The plan of the conversion of the bonds into common stock at 75 per share. The Tennessee Coal and Iron Company has booked the largest single stock order ever taken by any rail concern. This is the statement made to-day by the directors of the company.

MINNEAPOLIS, May 10.—Maintaining the Minneapolis Street Railway Company has no vested rights in the franchise, and any user of the city streets, employed by any user of the city streets, ceased with the expiration of the franchise, and that in adding by the city to the franchise, the city is not bound to pay for the franchise, and that the franchise, as it existed in 1873, expired at that time, and since that time the city has secured the extension of its franchise, as alleged in the bill of complaint.

The city also refuses to recognize the company's existence as a corporation enjoying the franchise rights, holding that it is unauthorized to exercise any ordinance enacted by the city council.

PENNY-A-MILE TO-DAY FOR RAILWAY BOARD

Overhead Bridge May Be Erected at Sunnyside — Applications for More Tracks.

The Dominion railway commission yesterday put in a busy day and set the G.T.R. penny-a-mile case for hearing at 11 o'clock this morning.

Several matters of local interest were presented, including an application for additional tracks across Brock, West Lodge, Lansdowne, Wallace and Boyce, avenue and Dundas, Bloor and Maude streets.

The city applied for an order requiring the G.T.R. to stop all street crossings at Sunnyside during the summer months.

There was also an application for an order requiring trains to stop at the Yonge-street crossing. This was opposed, and testimony was offered to prove that a train of sixty empty cars, if stopped east of Yonge-street, would block nine streets and fourteen private crossings.

It was virtually decided that an overhead bridge should be erected at the Sunnyside crossing, but the city may be called upon to pay part of the cost.

WESTERN MINE WORKERS VICTIMS OF CONSPIRACY

Socialists Discuss Trial of Haywood and Associates for Murder of Governor.

The wrongs which the average workman has to endure from his employer was the chief topic last night at a mass meeting of workmen, which was assembled to enlighten the public on the labor situation in Colorado and Idaho.

The Colorado situation was dealt with by F. Martin. He insisted that Moyer, Haywood and Pettibone, the three members of the Western Federation of Miners, who are on trial for the murder of Governor Steiensen, were the victims of capitalistic influence. Evidence had been adduced time and again to show that the charges were the outcome of a conspiracy of the mine owners and that any murders that had been committed were chargeable to the mine owners, yet such were the conditions of government that innocent men might have to suffer for the guilty.

Mr. Martin warned his hearers against improvements in machinery, which, he said, generally meant that the operator had to manage two machines instead of one.

He spoke also in denunciation of child labor, which, he declared, had achieved such shocking proportions in the cotton mills of the continent that often a baby would be found operating a machine with one hand and nursing a doll with the other. There were over 2,000,000 children in the factories of the United States. In Canada he did not know the number, because the government was wise enough not to publish statistics.

Robert Roadhouse of Newcastle, Pa., also spoke, largely along the lines of Mr. Martin's address, and Mr. S. Brown then addressed the audience in Yiddish, many of these present not being able to speak or understand English.

ONTARIO GOVERNMENT JOINS CITY IN APPEAL

Will Go to Privy Council to Upset Judgment in Level Crossings Case.

The Ontario government has notified the city that it will be a party in the appeal to the privy council against the judgment of the court of appeal in the level crossings case.

The old railway committee added the city with the cost of the protection of Dufferin, Bloor and Bathurst crossings. The total bill was placed at \$4000, but the city disputed the validity of the committee's order.

When the case was before the court of appeal the provincial government declined to be made a party to it, but afterwards they decided that it also affected their interests. The constitutional question as to whether the railway committee had the right to make the order has not been argued.

INJURED BY STREET CAR. James Wallace Suffering From Concussion of the Brain.

James Wallace, 45 years of age, 130 Manning-avenue, narrowly escaped death in a street car accident on West Queen-street at 6.15 o'clock last night.

Wallace was riding his bicycle west on the north track, immediately west of Tereslay-street, when he was overtaken by Queen-street car No. 1035, driven by Motorman Elythe. He attempted to turn north into the roadway, but the car struck the rear wheel. Wallace was thrown to the pavement.

He sustained a scalp wound 2 inches in length, and, when picked up, was bleeding profusely from his right ear. He was carried into a nearby drug-store, and Dr. E. H. Adams, soon called.

Dr. Adams said that there was a possibility of a fracture at the base of the skull in which case the man's condition would be precarious. Wallace is a carpenter employed with the T. Eaton Company.

Tiredness Comes in the Spring

What are You Doing to Overcome It?

The cold of winter exhausts vitality and exposes everyone to disease. Spring is sure to bring tiredness and languor that will not go.

Spring sickness doesn't cure itself—the cause is in the blood, and that cause must be remedied. It is easily done with Ferrozone, a marvelous remedy that purifies the blood and expels those humors and poisons that depress and weaken.

Just think of it—Ferrozone uplifts the entire nervous system, renews the blood, makes it rich and re-activates the sort of aid that's needed in throwing off weakness and spring languor.

Tens of thousands enjoy the advantages of renewed health through ferrozone;—if you'll only use it, you'll surely grow strong, too; Its beneficial action is noticed even in a week;—if it goes right to work, removes the cause of the trouble and then quickly makes a cure.

For those who sleep poorly and have nervous apprehensions, Ferrozone is a boon; it is a specialist in such cases. Where there is restlessness, poor appetite and languor Ferrozone makes the patient feel like new in a few days.

In tiredness, nerve exhaustion, spring fever and dizziness, the power of Ferrozone is known from coast to coast and universally used with grand results.

Let Ferrozone build you up, let it win you back to robust health,—it will do so quickly if you give it the chance. Sold by all dealers, 50c. per box, six boxes for \$2.50. Remember the name Ferrozone.

TO IMPROVE QUALITY OF STEEL RAIL PRODUCT

The Many Recent Accidents Induce Manufacturers and Railway Men to Investigate.

NEW YORK, May 10.—An important step has been taken by manufacturers of steel rails, and the railway companies, which make such extensive use of this commodity, to bring about an improvement in the steel rail product, thus giving better security to the public against accidents, and providing a higher grade article for the railroads.

This movement results from recent criticisms made by railroad experts concerning the life and general durability of steel rails. It has been maintained that breakage has been more frequent of recent months and that there is a gradual deterioration in the product. Whether this is due to the inferior quality of the iron used, to the processes of manufacture, or the immense strain of roughing tonnage is an open question.

With a view to reconciling all the divergent views, a committee of experts has now been appointed, both the railroads and the manufacturers of steel rails being represented on the committee. Judge Eibert H. Gary, chairman of the United States Steel Corporation, and in view a committee of experts, appointed by the American Railway Association are in consultation with a committee of experts representing the manufacturers. Every suggestion for the improvement of present conditions will be given careful consideration, and it is believed the manufacturers and railway managers will agree upon a standard of excellence that should not be questioned.

Judge Gary added that enquiries for steel rails for delivery in 1908 were coming in gradually. Two western railroads had already taken orders, and the demand for steel rails is generally accepted in the business world as a barometer of the industrial situation and of railroad development. For the present, however, Judge Gary does not consider the figures sufficiently important to permit an accurate gauge of the steel industry for 1908.
