

Woman's World...

That Miss Jones has already made a reputation for herself as a pianist of unusual merit was evidenced by the very large audience which her first recital of the season attracted to St. George's Hall on Saturday night.

Devoted to the Interests of our Women Readers.

Promoters of schemes for building large homes for self-supporting women, though having little doubt as to their financial success, are divided between the apartment house and the woman's hotel plan.

Five Clothing Snaps for Tuesday.

To take clothing from such a superior stock as we have and sell it at reduced prices when the regular prices are so very reasonable may seem to you a strange proceeding. But never mind that. If you become a buyer from any of these lots for Tuesday you'll be big money in pocket :-

- Men's Waterproof Coats, with 24-inch cape, dark English tweeds, saw-stitch seams and stitched edges, rubber-faced bottoms, ventilated under arms, sizes 36 to 46, regular price \$6.00 and \$8.00. On sale Tuesday 3.95
Men's Overcoats, medium heavy weight, single-breasted, fly front, Chesterfield style, in Oxford grey vicuna cloth, choice linings and good interlinings, extra well made, sizes 36 to 44, regular price \$8.00. On sale Tuesday 5.00
49 Men's Suits, single-breasted saques, in broken lots and sizes of all-wool tweeds, neat patterns and colors, stitched edges, twilled Italian cloth linings, sizes 36 to 44, regular price \$10.00. On sale Tuesday 6.00
25 only Boys' Brownie Suits, in all-wool shepherd plaid tweeds, small checked pattern, deep collar of dark fawn Venetian cloth, trimmed with ten rows of braid, pearl buttons, vest to match, good linings and trimmings, sizes 21 to 26, regular price \$4.00. On sale Tuesday 2.50
350 pairs Boys' Knee Pants, lined throughout with strong cotton, grey and brown Canadian tweeds, hip pockets, sizes 20 to 30 waist, regular price 39c and 50c a pair. Tuesday for 29

Five Good Linen and Cotton Bargains.

Every item that is called a bargain in our store news today is worthy of the name. Among the many we tell you of for Tuesday's selling, these five in Linens and Cottons are-by no means the least important :-

- Our 10c Crash Towelling for 6c. 3,000 yards Bleached and Three-quarter Bleached Crash Towelling, with fancy blue and red borders, fast colors; also plain without border, used for roller or kitchen towels, fine, medium and heavy makes, guaranteed pure linen, Irish and Scotch makes, superior quality and finish, the widths are 18, 19 and 20 inches, our regular price 10c yard. Tuesday 6c
Our \$1.00 Table Napkins for 73c Dozen. 100 dozen Fine Bleached Irish Damask Table Napkins, assorted in fine and medium makes, floral, scroll and conventional patterns, sizes 12 1/2 x 17 1/2 or 23 inches square, our regular price \$1.00 dozen. Tuesday at 73c
50c and 60c Table Covers for 29c. Art Table Covers, consisting of denim, plain cloth, villa cloth, etc., with fringe all around, embroidered in assorted designs, with cord and braid, size 34 x 34; laundry bags, made of art denims, cottonettes, etc., in striped and floral patterns, finished with cord and tassels, assorted colors, size 18 x 27; also Fine Art Sateen Cushion Slips, ready to use, 4-inch double full, assorted colors and new designs, size 20 x 20 inch, our regular 50c and 60c each. Tuesday at 29c

23c White Sheeting for 17c Yard. Heavy Bleached Plain Sheeting, linen finish, soft pure make, 2 1/4 yards wide, regular price 23c yard. Tuesday 17c

A Big Bargain in Ladies' New Winter Jackets.

This offering ought to set you thinking about your new Winter Jacket. The price for Tuesday would suggest a Clearance Sale at the end of the Winter season instead of the beginning. No fault of the Jackets that we make this reduction. The qualities and styles are in keeping with all the garments we show in our Cloak Department, and you know how they compare with what you see around town. But here are the facts for Tuesday:

- 336 Ladies' New Winter Jackets, made of fine German Eskimo beaver cloth, colors fawn, black and navy, sizes 32 to 42. Every garment lined throughout, and finished with large pearl buttons. These Jackets have been selling at \$6.50, \$7.50, \$8.00 and \$10.00 each. On Tuesday, you can choose from the lot for 5.00

Flannelette This item speaks for itself. Whatever you do, don't miss it on Tuesday :-

Ladies' Night Gowns, made of heavy English Flannelette, of fancy stripe patterns, it has a Mother Hubbard yoke and a sailor collar, this collar has a frill of flannelette and there is a double frill down the front as well, sizes are 44 to 60 in length. Your choice. Tuesday while they last. 45

A Clearance in Because these White Shirts. White Shirts have been slightly soiled in handling, we mark them for quick clearance on Tuesday morning at thirty-three cents. They were as high as 75c a piece.

7 dozen Men's Fine White Unlaundered Shirts, with open backs, reinforced fronts and continuous facings. The seams are double stitched, the bosom is lined, so are the cuffs or bands, the sizes are 14 to 18 collar. Your choice. Tuesday while they last. 33

About On many occasions Dispensing we have emphasized the fact that our dispensing is done by fully qualified chemists and that every prescription is thoroughly checked before given to the customer. As for quality of Drugs used, we do not claim any superiority over other chemists, as all are governed by the same standard, viz., the British Pharmacopoeia. All our Pharmaceuticals and Chemicals are kept up to that standard. Anything short of that would not meet the requirements of the physician who prescribes by that standard and calculates results accordingly. We have this advantage, that buying as we do in such large quantities direct from the source of production enables us to buy at a much smaller cost, and this saving is turned over to you.

Men's Heavy Underwear. You can rely on us if you want to get the best in Underwear. If any garment we sell you does not prove satisfactory we'll cheerfully refund your money :-

- Men's Fine Arctic Underwear, heavy fleeces lined, overlocked seams, double ribbed cuffs and ankles, all sizes, each 50
Men's Fine Arctic Underwear, wool fleeces lined, overlocked seams, heavy weight, soft and comfortable, sizes 24 to 44, each 75
Men's Extra Fine Arctic Underwear, shirts and drawers, heavy wool fleeces lined, silk trimmings, medium weight, all sizes 1.00
Scotch Wool Underwear, shirts and drawers, double-breasted, saaten facings, ribbed cuffs and skirt, soft finish 39
Scotch Wool Underwear, shirts and drawers, double-breasted, ribbed skirt and cuffs, saaten facings 50
Scotch Wool Underwear, shirts and drawers, double breast and back, drawers double back, saaten 75
Scotch Wool Underwear, imported, heavy winter fashioned, ribbed cuffs and ankles, spliced elbows, knees and seat, all sizes 1.00
Scotch Wool Underwear, shirts and drawers, 16 gauge, "Turnbull's" full facings, saaten facings, ribbed cuffs and ankles, natural shades, pure wool, all sizes 1.25
Scotch Wool Underwear, shirts and drawers, "Turnbull's" 14 gauge, extra heavy weight, full facings, extra spliced seat, mutton facings, unsrinkable all sizes 1.50

Our \$7.50 Dress Skirts Tuesday for \$3.50.

On Tuesday morning at eight o'clock we will place on sale one hundred and eight elegant Dress Skirts for ladies. These Skirts are made of stylish all-wool homespun tweeds and fancy check tweeds, in light and dark shades. They come in the latest habit back style with stitching down the front, and trimmed with large covered buttons; the lining is good percaleine; the binding is velvet; sizes run from 40 to 43 inch lengths. These Skirts were made to sell at \$7.50 each, and have never been offered by us for less money. The entire lot will be on sale on Tuesday morning at Three Dollars and Fifty Cents each. This is without a doubt the best Skirt Bargain we've offered this season.

Our Curtain Sale is Important.

You cannot fully realize its importance until you see the Curtains we are offering. Nearly three thousand pairs—all new in the department this month—selling at one-fourth to one-third less than we usually ask for equal quality and goodness. It shows our determination to reduce the size of Curtain stock. It means bigger money's worth in Curtains than you have heard of for a good long time. This morning we commence selling :-

- 600 pairs Nottingham Lace Curtains, 64 inches wide, 3 1/2 yards long, white and ecru, taped edges, floral designs, regular price 75c pair, for 50
600 pairs Nottingham Lace Curtains, 48 to 64 inches wide, 3 1/2 yards long, white and ecru, Culbert edge, scroll and floral patterns, regular selling price \$1 pair, for 75
560 pairs Nottingham Lace Curtains, 64 to 90 inches wide, 3 1/2 yards long, rich designs, in single and double borders, white and ivory, regular price \$1.25 to \$1.50 pair, for 1.00
400 pairs Nottingham Lace Curtains, 64 inches wide, 3 1/2 yards long, white and ivory, in a varied assortment of new designs, Culbert edges, regular price \$1.50 to \$1.75 pair, for 1.25
200 pairs Nottingham and Scotch Lace Curtains, taped and Culbert edges, white and ivory, in fancy scroll and floral patterns, 64 inches wide, regular price \$1.75 to \$2.00 pair, for 1.50

No matter how far away from Toronto you may be living, you can take advantage of these prices. Write to our Mail Order Department and tell them your wishes. You'll be surprised how promptly and satisfactorily your request will be attended to.

Fancy Chinaware. This is about some new arrivals that are now being shown for the first time. Each piece is handsomely decorated and finished with gold lines. The assortment includes :-

- Cups and Saucers, Pin Trays and Sugar and Cream Sets, at each 10

54-inch New York Homespun Plaids, in the newest and most stylish colors and very latest effects, at 1.25
54-inch Cheviot Homespun Suitings, in leading colors of greys, browns, greens and dark plum, correct weights for tailor-made gowns, at 75
52-inch Heavy All-wool Homespun Suitings, in small invisible check pattern, will make a very stylish durable suit, at 85
52-inch Victoria Broadcloths, in full range of all leading colors, unspottable finish, at 1.25
Latest patterns in Dress Robes, exclusive patterns, confined to our trade, no two alike, in black and colors, ranging in price from 25.00 to 75.00

About Footwear. Shoe Department is always sure to prove interesting reading, but when it hints of economy, as is represented by these items, it adds much to the interest:

- Misses' Up-to-date Buttoned and Laced Boots, all styles and newest shapes, made for exhibition purposes, sizes 13 and 1 1/2, regular price \$1.50 to \$1.75, Tuesday 1.00
Ladies' Fine Extra Choice Buttoned or Laced Boots, new goods, latest designs, with kid top, McKay sewn, the prettiest and one of the best fitting boots made in Canada, sizes 2 1/2 to 7, usual retail at \$3. Tuesday 2.00

THE TORONTO WORLD. ONE CENT MORNING PAPER. No. 88 YONGE STREET, TORONTO. Daily World, \$3 per year. Telephone 294. B. Sayers, Agent. London, England, Office, F. W. Large, Agent, 145 Fleet-street, London, E.C.

GRANT THE CONCESSION, BUT ON TERMS.

On March 31, 1891, the City Council adopted a report of the Street Railway Committee, empowering the Metropolitan Railway Company to use electricity on that part of Yonge-street between the C.P.R. and the city limits, a distance of 1,200 feet. The concession was granted upon the City Solicitor receiving an agreement under seal from the Metropolitan Railway Company, to the effect that on their receiving, at any time, 24 hours' notice from the City Engineer, they will give up their rights and stop running their cars by electricity. That agreement, we understand, is still in force. The best way to deal with the Metropolitan's application for making a connection with the C.P.R. is to give the former 24 hours' notice to discontinue using its electric cars, as we know that the interests of the city should just how matters stand, and what the rights of the various parties interested are. If the city gives the company this notice and compels the company to live up to it, the situation will present quite a different aspect from that which it now assumes. As things are at present, the Railway Committee appears to assume jurisdiction. That it has no jurisdiction would be evident if the company was compelled to use horse cars instead of electric cars and electric locomotives. The first thing necessary to a satisfactory solution of this problem is for the Council to give the company 24 hours' notice to discontinue using its electric cars. Then we shall realize what the privilege of using electricity on this 1,200 feet of Yonge-street is worth to the company, and what the city should receive in compensation for it. If the city is master of the situation, as it appears to be, it should take this opportunity to secure certain concessions from the company. In the first place, arrangements should be made whereby the fare will be secured to and from Mount Pleasant Cemetery. This should be a sine qua non of any agreement. In the second place, the city should insist on a reduction in rates. The Metropolitan Railway charges as much as three cents a mile, if not more, along some parts of the road. The city should insist on a maximum of two cents. It is as much in the interests of Toronto as of upper Yonge-street that the rates should be brought down to a reasonable basis. Then there is the question of parcels and freight generally. The city should insist that the interests of the company and the city are parallel, but we believe the interests of both parties will be best served under an arrangement guaranteeing reasonable terms to the public.

THE LUNCH-COUNTER SEATS IN CABS.

With the advent of the cold season traffic on the street railway is increasing, especially on rainy days, when the bicycle cannot be used. The company, however, is getting ready for the rush. Mr. Keating has had several cars fitted up with lunch counter seats. The lunch-counter seat is a device whereby a saucer-shaped seat automatically comes into position above the lap of the passenger. If the latter is less than forty inches around the waist line the automatic seat will clear him, but if he or she is of greater girth the seat will fringe on the waist with more or less discomfort. Similarly your knees must not be higher than twenty-six inches off the floor, otherwise the seat will press down on them and compel you to throw your legs forward into the aisle. The passenger who comes within these limitations can be packed away all right, provided he is not nervous or fidgety. But, if he is nervous or fidgety, he will not fare well. One has only three inches of space to move his head. If he exceeds that limit he runs his nose into the back of the seat, and the passenger who is sitting in his or her lap, if he gets the best results from the new device passengers should keep their arms and hands perfectly at rest. They should not carry parcels at all, and papers should be placed in pockets before entering the car. For the guidance of passengers, printed rules will be placed in the cars as fast as they are fitted up with the new lap seats. Mr. Keating and Engineer Rust are now coming to an agreement on certain points of etiquette, which, when settled, will be placed among the printed regulations. For instance, they are in a quandary whether a lady should occupy the lap seat over a gentleman's knees, or vice versa. It is debatable, indeed, whether etiquette and decency will permit either of these combinations. We shall know in due time, however, when Mr. Keating and the City Engineer have settled the details.

TORONTO-PARRY SOUND TRAIN SERVICE.

The railways have again changed their time tables between Toronto and Parry Sound, with the result that it now takes 24 hours longer to travel between the two places than previously. Mail matter that used to arrive in Parry Sound Monday at 8 p.m. does not reach its destination

This new home treatment for the Liquor and Drug habits is recognized and endorsed by physicians as being perfectly safe, purely vegetable, and absolutely free from narcotics of any kind, and the only physical cure known which is certain to remove the craving for alcohol, morphine and other drugs without leaving any injurious Lacerated Boots, new goods, latest designs, with kid top, McKay sewn, the prettiest and one of the best fitting boots made in Canada, sizes 2 1/2 to 7, usual retail at \$3. Tuesday 2.00

FAULTLESS The faultless shirt front, collar and cuffs is an evidence of perfect workmanship. The work of the Swiss Laundry defies competition in this or any other city on the continent and is a clear-cut argument in our favor. We are here to serve you in the best possible manner; all we ask is a trial. SWISS STEAM LAUNDRY, (ALLEN MANUFACTURING CO.) Phones 1260 and 1150 103, 105 and 107 Simcoe St.

HILL AFTER THE C.P.R. Has Contracted for Two Immense Steamships to Run to the Orient. Minneapolis, Minn., Oct. 28.—A Duluth special to The Journal says that J. J. Hill, has contracted in England for the construction of two immense steamships for the trans-Pacific trade between Seattle and Japan. It is stated that a Clyde firm has the contract, and that the ships will be 46 feet longer than the new Oceanic of the Atlantic. Each will be 750 feet long, and carry 20,000 tons burden. They cannot be in service until late in 1901. Reports also state that these two are but the first of a large fleet.

GERMANY'S NEW NAVY. Instead of One Ship Germans Will Build Three a Year Till 1916. Berlin, Oct. 28.—Late to-day it was learned from an absolutely reliable source that Prince Hohenlohe had agreed to the following new navy program, and that the Government, the Emperor consenting, will present the program to the Reichstag between 1901 and 1903. Instead of one vessel, three will be built annually until 1916. From 1901 and 1903, instead of one vessel, three vessels a new squadron will be formed and also reserve squadrons in place of the Siegfried class. The number of cruisers in foreign waters will be increased by six vessels.

MAYFLOWER IN COLLISION. Was Bound From Hamburg for Montreal and She is Now in London. London, Oct. 28.—British steamer Mayflower, Capt. Owens, from Hamburg, lost her way and was bound for London in collision with the steamer Breton and the British steamer Benedict, last reported at Penarth, October 19. The Mayflower had her bows and the Breton her stern damaged. The Benedict's injuries were slight.

TORONTO MAN'S ILLNESS. John Granger Was Laid Up With Rheumatism in Kingston. Kingston, Oct. 28.—John Granger of Toronto has returned home after being confined to the Hotel Dieu Hospital for eleven weeks. He came here at the time of his bicycle meet in August to spend a day or two, but was taken ill with rheumatism. He is an engineer in a Toronto institution, and his situation has been retained for him.

IMPERIAL COPPER COMPANY

Important Proposition in the Parry Sound District Being Placed on the Market.

250,000 SHARES OFFERED AT 10c.

Capital Stock \$5,000,000 in 51 Shares-Reliable Local Men Are Backing the Enterprise.

The Imperial Copper Company of Parry Sound, Limited, no personal liability, is being placed on the market to-day. The capital stock is \$5,000,000, in shares of \$1 each, fully paid up and non-assessable. Two hundred and fifty thousand shares are now offered at 10c a share and will doubtless be over-subscribed.

Hereafter the history of Canadian mining has been that Americans have secured all the best properties, to afterwards, in many instances, sell them to Canadians at enormous profits. To some extent this applies to the Parry Sound district, where the great McGowan mine has passed into the hands of St. Paul capitalists, although within the last couple of years it was offered in Toronto at \$7000.

But several of the best properties have been purchased by the Imperial, and thus Canadians have a chance to own at least a large portion of the best property without paying fortunes to American speculators.

Right at Our Doors. If Parry Sound is to become a great mining camp it behooves the people of Ontario, and especially of Toronto, to control its ownership. Lying right at our doors, the property of the camp rightfully belongs to us, and ownership of the mines would ensure it.

In excess of all other countries, it is believed that many of the greatest fortunes of the world have been made in copper mining, and it is no other time in its history has copper mining been so profitable as it is now—and, so far as development has gone, Parry Sound gives promise of fabulous wealth in copper.

The Imperial, as shown by its advertisement appearing in these columns to-day, has a close connection with the company which owns the McGowan, insuring the success of one of the most important of the district.

A Reliable Director. The Imperial's director properties are phenomenally rich in copper ore of almost unlimited extent, and its directorate contains the names of some of the most prominent and most reliable men, who have visited the camp and believe in the future of Parry Sound. The directorate, in fact, is a home company, the properties being within a few hours' journey of Toronto, and it is stated that any shareholder can easily inspect them, and the home directors and officers of the company being well known as able business men.

The president is one of the most successful mining men in America, and he believes in no other copper mines in the world surpass the possibilities of those of Parry Sound. Everything indicates that the Imperial should be the special property of Canadians. The location of the stock is in the hands of St. F. McLaughlin, 10 King street east, Toronto, who is a director of the company.

HILLSIDE A BONANZA

One Body is Sixty-Six Feet Wide. Values Are Good and Things.

Republic Miner, Oct. 21: There is a chance of a big surprise in camp one of these days if things continue to go as they are now going on the Hillside. The showing of quartz out here is simply overwhelming. Nothing quite so extensive in the way of a vein has before been seen in the camp.

In Good Company. The Hillside property is on the west side of Granite Creek, near the Mountain Lion. The exact relation between it and the Mountain Lion has not yet been demonstrated, but that they are simply one and the same seems quite probable. The vein on each is very large and is apparently very regular in downward extension. The vein on the Mountain Lion show it to have a regular 300 feet long. Values are the highest ever chitue yet developed in this camp, and perhaps one of the longest ever found in a gold mine.

Work on the Hillside is under the direction of James F. Harvey, former manager of the Republic, and is now proceeding with a good deal of energy. A surface cut was first run across the vein for 60 feet without striking the foot. This cut was then run in the loose wash and gravel running on the vein, and for the entire 60 feet there is a floor of solid quartz running from \$1.50 to \$4.50. These values are remarkable when the extent of the ore body and the fact that the assays were all made from surface quartz are taken into consideration.

New Tunnel Started. The showing in the open cut was so fine that a tunnel was started down the hill side. This tunnel has been driven nearly 100 feet and will soon strike the ledge 50 feet below the surface. This tunnel will go in and out through the ore to the foot wall. How wide the ore body will be is only a matter of time. Values are very high, and the fact that the tunnel is being driven 60 feet wide, this being proven by the surface cut above. Values are very high, and the fact that the tunnel is being driven 60 feet wide, this being proven by the surface cut above. Values are very high, and the fact that the tunnel is being driven 60 feet wide, this being proven by the surface cut above.

VAN ANDA MINES.

Management Perfectly Satisfied That the Mines are Being Developed as a Permanent Enterprise.

Mitchell, Wallace & Co., in answer to numerous inquiries concerning the Van Anda mines, submit the following, published as an editorial in The Coast Miner, under date of Oct. 24, 1909. The management is perfectly satisfied that the Van Anda mines and smelter constitute a permanent business enterprise. This being the case, the general policy is to make permanent improvements which will in future reduce the expenses of handling ores and other materials, and build up an enterprise which will pay dividends permanently. It would be an easy matter, beginning with the present time, to pay dividends to shareholders, but it would be a detriment to their interest rather than a benefit, for by so doing it would be impossible to make the permanent improvements, and the open cut has been made for 45 feet which will put the mines far enough ahead in development to ensure the permanent working of the smelter at least for the present one. The mines are young, and the smelter was erected for the future history; therefore, in order to keep the plant running, and at the same time develop its various properties to their full extent, it will be large reserves of ore, it not only requires the working of the mines in an ordinary way but the opening up of new properties belonging to the company, and the general installation of labor-saving devices, all of which, for the next few months, will require a large cash outlay.

The present output of the smelter is several thousand dollars per day, while the actual expenses in mining, smelting and handling will consume about half of this amount. The remainder is being utilized as already stated.

Beginning on Jan. 1 matters will have reached a point where a sinking fund will be established for the paying off of the debenture bonds (if advanced). When these are disposed of the shareholders will begin to participate in the profits. The outlook of the company to-day is much more satisfactory, as is also its condition, than at any time in its history.

THE PARRY SOUND DISTRICT

dition, than at any time in its history. The Copper Queen is down nearly 400 feet, the strike at the 353-foot level exposing a much larger body and a much higher grade of ore than the mine has ever produced. From this particular property the smelter is now receiving about 2000 tons per day vertically, double compared with the rate of at least one thousand feet. At every ninety feet a level will be run, making new stopes and new reserves.

At the Cornell, although the production there was delayed about two weeks because of the breaking off of a side-hill, this rendering the big open cut inaccessible, the new tunnel has capped this large ore body at a lower level, and is now producing some of the first-class ore within a month. At the No. 2 workings of the Cornell, the water being somewhat troublesome, and the present horse wheel being very slow and unsatisfactory, the working, although in first-class ore, will be suspended until about Jan. 1, when steam hoist will be installed at that point.

The security promise is being a producing mine within a reasonable time. It is being worked at three different points, all on the same vein, the two extending into something over 700 feet apart. The shaft is down sixty feet, in good copper ore at the No. 1 opening where cross-cuts are starting to determine the width of the vein. From this particular point not only is the ore being produced, but also some rich smelting gold ore. At Security No. 2 working the big open cut about 100 feet wide and 100 feet deep has produced the flux required at the smelter in the form of a heavy magnetic iron ore carrying some copper and gold. This cut is being continued towards the No. 1 workings, which are on higher ground, and which give a good face of ore, about twelve to fifteen feet, affording cheap and quick production. The No. 3 workings are in the solid white iron, carrying some gold but little copper.

Little Hillie is producing very little now, because of the working shaft being sunk there to a depth of 120 feet. The vein dips toward the salt water, the mouth being not over 100 feet from high water mark. It is from the granite walls, and may be considered a very promising prospect. A shipment of 50 tons of ore from the Hillie, containing a return of 15 per cent. of copper, which is very well above the quality of the ore on the Campbell, Rocky Ridge, Treat and various other of the company's prospects, and the Hillie is being worked in order to decide where to do the permanent work.

At the smelter everything is running smoothly, and the sampling facilities are now complete, the bins are installed, and the track and the system from the various coast piles and flux sources to the smelter for complete and satisfactory working. It is hoped that the other coast properties, combined, can make as good an output as the Van Anda properties, and that it will be necessary to double the capacity of the smelting plant, thus reducing the cost of smelting, the present force being sufficient to operate twice as large a furnace, and enable the Van Anda Company, as well as the other coast properties, to enjoy a lower smelting charge.

In addition to the present work, which, by the way, is already one of the best on the coast, another is in course of construction. A building about 40 feet long and 10 feet wide, and containing the general supplies, and the proper equipment for the work, is being erected on the west side of the camp, and will be ready for use during the wet season.

The sawmill and shingle mill have more than they can do to supply the demand for lumber for new buildings, and those coming to Van Anda to engage in various lines of business.

The company has purchased a tug 90 feet long, with which to tow the coke to the smelter, custom ore to the smelter, general freight for the work, and for the New York market, logs to the mill, and lumber for the coast properties, and is a definite announcement is made with regard to dividends. It is hoped that the other coast properties, combined, can make as good an output as the Van Anda properties, and that it will be necessary to double the capacity of the smelting plant, thus reducing the cost of smelting, the present force being sufficient to operate twice as large a furnace, and enable the Van Anda Company, as well as the other coast properties, to enjoy a lower smelting charge.

Republic Notes. E. Garty Parker writes: "The recent cutting of the Republic ledge at the No. 4 level has attracted the attention of the stockists. The ledge is 27 feet wide, and is 200 tons during the coming year, and is much larger one in years to come."

Republic Notes. E. Garty Parker writes: "The recent cutting of the Republic ledge at the No. 4 level has attracted the attention of the stockists. The ledge is 27 feet wide, and is 200 tons during the coming year, and is much larger one in years to come."

Mitchell, Wallace & Co.'s Review. The issue of new Hammond Reef Consolidated scrip is expected soon. A good deal of interest is taken in this property, and when the new scrip appears we anticipate a lively market for the stock. Gold and silver are having a good time, and their efforts to cover is the principal reason for the advance. Some squires have been made for Toronto and Western. We are informed that the mine can ship 10,000 tons at a good profit. This property is destined to be one of the great mines of the west for Morrison. This goes to show that a movement in this stock may be expected. The Silver Lead has been built, and Ramblor Cariboo has reached such a high figure that investors are being attracted to buy. A definite announcement is made with regard to dividends. It is hoped that the other coast properties, combined, can make as good an output as the Van Anda properties, and that it will be necessary to double the capacity of the smelting plant, thus reducing the cost of smelting, the present force being sufficient to operate twice as large a furnace, and enable the Van Anda Company, as well as the other coast properties, to enjoy a lower smelting charge.

THE IMPERIAL COPPER COMPANY - OF - PARRY SOUND, LIMITED.

No Personal Liability. CAPITAL, \$5,000,000, in 5,000,000 Shares of \$1.00 Each. Fully Paid Up and Non-Assessable. 2,000,000 Shares in the Treasury.

PRESIDENT—FRANK JOHNSON, ESQ., St. Paul, Minn., President Johnson Nickel Mining Co., President Parry Sound Copper Co. (Owners of the great McGowan Mine). VICE-PRESIDENT—ALD. JOHN HALLAM, ESQ., Toronto, Ont., Director Ontario Bank. DIRECTORS—ARCHIBALD CAMPBELL, ESQ., M.P., Toronto Junction, Ont., President Equity Fire Insurance Co. ROBERT FORBES, ESQ., Parry Sound, Ont., Vice-President and General Manager Parry Sound Copper Co. J. F. McLAUGHLIN, ESQ., Toronto, Ont., Mining Broker. RICHARD A. DONALD, ESQ., Toronto, Ont., Managing Director Pure Gold Manufacturing Co. JOHN L. COFFEE, ESQ., Toronto, Ont., of Messrs. L. Coffee & Co., Grain Exporters. SECRETARY-TREASURER—ARCHIBALD HUTCHISON. MANAGER—ROBERT FORBES. BANKERS—BANK OF MONTREAL.

The Imperial Properties consist of nine carefully selected Copper Claims in the Parry Sound District, the home of the great McGowan Mine, all very rich in Chalcopyrite, Bornite, and Chalcocite, the highest grades of Copper Ore.

The Imperial management is under a Board of Directors, specially strong in point of business ability, integrity, and mining knowledge. The richest Mines in the world are Copper Mines, and the Directors of the Imperial feel justified in stating that in their opinion there is a reasonable prospect of some of its properties turning out as rich as the richest of them. 250,000 shares of stock are now offered for sale by subscription at 10c per share, fully paid up and non-assessable. The Subscription Books will be opened at 10 a.m. on Wednesday, November 1st next, at No. 10 King St. East, Toronto, and closed at 3 p.m. on Monday, November the 8th next.

Stock will be allotted by the Directors in the order in which subscriptions are received. Subscribers will please send accepted Cheques, payable to the order of the Imperial Copper Company of Parry Sound (Limited), and addressed to Archibald Hutchison, Esq., Secretary-Treasurer, No. 10 King St. East, Toronto, Ont. For Prospectus and full particulars address

J. F. McLaughlin, Official Broker, 10 KING ST. EAST, TORONTO, ONT.

Van Anda. The Imperial Copper Company.

been made for Toronto and Western. We are informed that the mine can ship 10,000 tons at a good profit. This property is destined to be one of the great mines of the west for Morrison. This goes to show that a movement in this stock may be expected. The Silver Lead has been built, and Ramblor Cariboo has reached such a high figure that investors are being attracted to buy. A definite announcement is made with regard to dividends. It is hoped that the other coast properties, combined, can make as good an output as the Van Anda properties, and that it will be necessary to double the capacity of the smelting plant, thus reducing the cost of smelting, the present force being sufficient to operate twice as large a furnace, and enable the Van Anda Company, as well as the other coast properties, to enjoy a lower smelting charge.

Waterloo will prove a paying mine. We are instrumental in introducing this property to the Ontario investors. A low figure, and those who bought the stock have a very nice profit. We do not think that the time has yet come to get this stock, because we think it will go much higher. The Boundary is a very rich property, and we believe this property to be one of exceptional merit. The management have recently made arrangements to ship a large tonnage of ore to the Trail smelter. We are informed that the mine can ship 10,000 tons at a good profit. This property is destined to be one of the great mines of the west for Morrison. This goes to show that a movement in this stock may be expected. The Silver Lead has been built, and Ramblor Cariboo has reached such a high figure that investors are being attracted to buy. A definite announcement is made with regard to dividends. It is hoped that the other coast properties, combined, can make as good an output as the Van Anda properties, and that it will be necessary to double the capacity of the smelting plant, thus reducing the cost of smelting, the present force being sufficient to operate twice as large a furnace, and enable the Van Anda Company, as well as the other coast properties, to enjoy a lower smelting charge.

Specials in Ladies' Ready-to-Wear Hats

We have earned the reputation—and rightly too—for having the widest range and best variety of the most original and characteristic designs in Ladies' Ready-to-wear Hats in the city. It could hardly be otherwise, as we control the sale here of everything new that's fashioned by the celebrated Youmans of New York. Up to date this season we have imported just 2,700 of the most stylish hats that ever "crossed the line." Four weeks ago a 10 case shipment went astray in transit and did not come to light again until within the last three or four days, and while every one of them is correct in style, it is just that many too many hats to have on our tables just now, and on this lot we are going to be satisfied with the invoice cost of them—less the duty—to clear them out. The sale starts on Monday morning—our window display will give you a better idea of the kinds and styles. Take the elevator to the hat department.

MARKETS ARE WEAK

Trading in Chicago on Saturday Was Mostly Professional.

Liverpool Cables Were Lower and Continental Markets Were Also Weaker - Provisions Strong and Higher - Corn is Easy - Latest Commercial News.

Saturday Afternoon, Oct. 28. In Chicago to-day wheat ranged from 73 1/2c to 75c. December sold at 70 1/2c and as low as 69 1/2c, finally closing at 70c.

Corn receipts at Chicago to-day: Wheat 87,000 bushels, 250,000 bushels. Closing prices of December wheat at the leading centres to-day were: Chicago 70c, New York 70c, Detroit 72 1/2c, Toledo 72c, Minneapolis 69 1/2c, Duluth 67 1/2c, Milwaukee (cash) 69 1/2c.

GRAIN AND PRODUCE. Flour—Ontario patents in bags, \$3.65 to \$3.75; straight reds, \$3.50 to \$3.60; premium patents, \$4.00; Manitoba bakers, \$3.70, all on track at Toronto.

Wheat—Ontario, red and white, 65 1/2c to 67c north and west; No. 1 Manitoba hard, 70c, Toronto, and No. 1 Northern at 70c.

Oats—White oats quoted at 20c west. Barley—Quoted at 42c for No. 2 west; feed barley, 35c to 36c.

Rye—Quoted at 52c to 53c north and west. Bran—City mills sell bran at \$13 and shorts at \$16, in car lots, f.o.b., Toronto.

Backwash—Firm, 48c north and 50c west. Corn—Canadian, 56c west and American, 60c on track here.

Onions—Quoted at \$3.40 by the bag, and \$3.50 by the barrel, on track at Toronto, in car lots.

Pears—At 57c north and west, for immediate shipment.

ST. LAWRENCE MARKET. Owing to wet weather, receipts of farm produce were light on Saturday, only two loads of grain, a few lots of dressed hogs, with fair quantities of butter, eggs and poultry.

Barley—Two loads sold at 45c to 46c per bushel. Dressed Hogs—Prices easy at \$5 to \$5.50 per cwt.

Butter—Deliveries fair, selling at 20c to 25c per lb., the latter price only for choice dairy lots to special customers, the bulk going at 22c to 23c.

Eggs—Prices light at 25c per dozen, the latter price being for strictly new laid. Poultry—Prices were steady but firm for all choice, well-selected varieties.

At inferior quality was inclined to go at lower prices. Chickens, 40c to 80c per pair; ducks, 40c to 80c per pair; turkeys, 12c to 14c per lb.

For some time past the turkeys have been too few, and the species that is allotted to farmers for the display of their wares, and while this was an usual case on Saturday, yet a jewelry pedlar was allowed to put down a large sack of turkeys on which he had a goodly profit in the midst of the crowd.

This portion of the market has grown rapidly during the past year, and the facilities afforded to the farmers, it promises to become one of the most important features.

Wheat, white, bush, \$0.70 to \$0.72; red, bush, \$0.68 to \$0.70; rye, bush, \$0.68; corn, bush, \$0.40 to \$0.42; peas, bush, \$0.35; beans, bush, \$0.30; clover, bush, \$0.25; timothy, bush, \$0.20.

Hay, per ton, \$11.00 to \$13.00; straw, sheaf, per ton, \$9.00 to \$10.00; straw, loose, per ton, \$4.00 to \$5.00.

Butter, lb. rolls, \$0.20 to \$0.25; eggs, new laid, \$0.20 to \$0.25; chickens, per lb., \$0.40 to \$0.50; turkeys, per lb., \$0.12 to \$0.14; ducks, per lb., \$0.07 to \$0.08; geese, per lb., \$0.07 to \$0.08.

Price list revised daily by James Hallam & Sons, No. 111 East Front-st., Toronto: Hides, No. 1 green, \$0.40 to \$0.50; No. 2 green, \$0.35 to \$0.45; No. 3 green, \$0.30 to \$0.40; No. 4 green, \$0.25 to \$0.35; No. 5 green, \$0.20 to \$0.30; No. 6 green, \$0.15 to \$0.25; No. 7 green, \$0.10 to \$0.20; No. 8 green, \$0.05 to \$0.15; No. 9 green, \$0.05 to \$0.15; No. 10 green, \$0.05 to \$0.15.

Chicago Cattle Market. Chicago, Oct. 28.—Receipts of cattle and sheep to-day were so slim that business in both markets was practically nonexistent.

Chicago Hogs Market. Chicago, Oct. 28.—Receipts of hogs to-day were 1,042,000 bushels, against 1,038,000 last year.

Chicago Sheep Market. Chicago, Oct. 28.—Receipts of sheep to-day were 1,042,000 bushels, against 1,038,000 last year.

Chicago Poultry Market. Chicago, Oct. 28.—Receipts of poultry to-day were 1,042,000 bushels, against 1,038,000 last year.
