

**Overheard at the Union Station**

One day last week as the G. T. R. train for the west was about to pull out a lady leaned from the car window and said to another lady who was seeing her off: "Be sure and go to Oak Hall for that suit for Mr. ———. I don't like those department store clothes, and you can depend upon what you get from Oak Hall."

Straus show which way the wind blows—and it certainly is pleasing to know that OUR MAKE clothing has TRIED and TRUE friends all over the country. This is the last week of our Determination Sale—7.50, 8.50 and 10.00 Men's Tweed Suits selling for 5.00, sizes 36 to 44, all odds and ends—no two alike—but the best value you have ever seen in Toronto.

**MICHIGAN MAKES PROGRESS**

Continued From Page 1.

Increase of population calls for a proportionate reduction in rates. The State law requires any state report of earnings, rates, expenditures for equipment and other vital questions touching the operation of the railroad to be filed annually with the State Railroad Commissioner. This officer in turn lays these reports before the legislature, and the press gets them before the people. It is commonly said that there is not a railroad in Michigan that is not an unwelcome neighbor. There is not a three-cent fare collectible in the lower Michigan peninsula. In that part of the State where the fare is a slightly increased rate is permitted, but this is hardly germane to the case, since there is no analogy between the northern Michigan peninsula and Ontario. Here is a condition that commends itself to the railroad magnates of all Canada.

The chief manager of the Grand Trunk, Mr. Hays, was for many years a powerful factor in the policy of the State. He is known through the State as "Hays of Washburn fame." This is the same Washburn that is doing business in all parts of the State, two cents a mile, and over 250 miles of Canadian territory at three cents a mile.

The railroads of the lower peninsula under the leadership of the Grand Rapids & Indiana railroad, made a hot assault upon Michigan's Railroad Act of the 1902 session of the legislature with the hope of permitting their branch lines in this section of Michigan to charge three cents a mile, but the legislature was a unit in opposition to the idea, it is an unwelcome political law through Michigan that candidates for State legislative honors shall be sound to the core in the question of a steady reduction in railroad tariffs. They stand for anything but corporation domination in Michigan. To this they are hostile, and their political affiliations.

Altogether, the history of railroad legislation in Michigan makes very interesting reading for Canadians, who contemplate with ill-concealed impatience the gouging of their territory by the same roads which make a satisfactory profit of the least tariff on this side of the border.

G. C. Porter.

**"SUMMER FOOD"**

Has Other Advantages.

Many people have tried the food Grape-Nuts simply with the idea of avoiding the trouble of cooking food in the hot months.

All of these have found something besides the ready cooked food lies, for Grape-Nuts is a scientific food that tones up and restores a sick stomach as well as repairs the waste tissue in brain and nerve centers.

For two years I had been a sufferer from catarrh of the stomach, due to improper food and to indigestion. I had tried nearly every preparation of food, but without success until six months ago my wife purchased a box of Grape-Nuts, thinking it would be a desirable cereal for the summer months.

"We soon made a discovery, we were enchanted with the delightful flavor of the food, and, my surprise, began to get well. My breakfast now consists of a little fruit, four teaspoonfuls of Grape-Nuts, a cup of Postum, which I prefer to coffee, Graham bread or toast, and two boiled eggs. I never suffer the least distress after eating this, and my health is perfect and general health fine. Grape-Nuts is a wonderful preparation. It was only a little time after starting on it that I was able to both feel younger, more vigorous, and in all ways stronger. This has been my experience."

"P.S.—The addition of a little salt in place of sugar seems to me to improve the food. Grape-Nuts is sold by Postum Co., Battle Creek, Mich.

Send for particulars by mail of extension of time on the \$7.50 coffee cost for 75¢ money price.

**MOST FIGHT FOR DAY WORK**

**Master Bakers of Hamilton Decide Not to Meet Request of the Men.**

**MEN WILL GET THEIR JOBS BACK**

Augusta-Street Residents Up in Arms Against Striptease of H.C. & L.R. Railway.

Hamilton, July 27.—The journeymen bakers have lost in their fight for day work. The Executive of the master bakers decided tonight not to meet the men on the Augusta-Street, Toronto, organizer of the union, has been in the city trying to arrange matters. Most of the men, however, will get their positions back on the terms that prevailed before the strike.

Residents of Augusta-street, and that district, are up in arms against the proposal to use Augusta-street for the Hamilton, Caledonia & Lake Erie Electric Railway. They met in the Board of Trade rooms this evening, and passed a strong resolution, calling upon the City Council to preserve the rights of the citizens. They voted \$200 to fight the proposal. They think the Street Railway Company's tracks should be used.

**Lively Council Meeting.**

The Council proceedings were continued to-night by a passage at arms between several of the aldermen. It was the result of a resolution by Ald. Sweeney and Stewart that Alderman Birrell and McLeod be added to the Bay Front Improvement Committee. Now it so happens that this particular committee is composed of four liberals and three Conservatives, and it at once struck Ald. Pindley that the resolution was a scheme to give the Tories control of it. He charged point blank that the Conservatives had been in caucus and were carrying out the behests of the party. Ald. Stewart denied it, and Ald. Birrell gave Ald. Pindley the lie direct. The resolution was finally withdrawn.

The Central Committee was given \$2000 and the \$1000 now in the hands of the Reception Committee was allocated.

**T.M.A. GIVEN RECEPTION.**

Visiting Delegates Were Royally Entertained Last Evening.

Sho's Theatre awoke from its summer sleep last night, when the Grand Lodge of the Theatrical Mechanical Association received a royal reception by the local delegates, who were chiefly Americans, and all jolly good fellows, including the ladies. The guests occupied the rows of seats in front and filled the boxes, the balconies, were the names of the various delegations, composing the lodge, printed on large cards, and interspersed with the Anglo-Saxon flags grouped. The theatre was filled early, and the speeches of welcome were made by the chairman, Mr. Newman, and Ald. J. J. Ward, chairman of the Reception Committee of the City Council.

Mr. Newman explained the charitable and benevolent objects of the order, and connected an impression current in any way with the theatrical profession were three or four members of the order, whether actors or others. Ald. Ward touched the racial sympathies of the American delegates, and his reference to causes and evidences of common good feeling between the Canadian and American people. After a most interesting speech from the Grand President, John B. Smith of Chicago, rather too brief, perhaps, the speaking was continued by Mr. Williams, one of the founders of the order, and a particularly witty man.

The musical program was a genuine treat. The talent was all local and professional and more than adequate to the occasion. Miss Lily Lorrell, leading lady in Burger's "Sign of the Cross" Company, gave on holiday at her Toronto home, departed for the United States, and a dainty new song and a Galesha favorite in costume. Miss Margaret Dockray, also a local talent, sang "The Bohemian Girl" and "Caravan" respectively. Messrs. Burton and Horwell combined to give some good new illustrated songs. Prof. Smolley surprised himself in a Scherzo on the piano, and a solo on the violin, and in Messrs. Arnot and Jones. Frank Clegg, with his wonderful voice, and a recitation on the xylophone, was equally enjoyable. The orchestra gave an idyll, "The Forge in the Forest," and other selections, which were new and good.

This morning the T.M.A. will meet in convention at the Temple Building, where it will receive the delegates en masse on the City Hall steps. In the afternoon the delegates will attend the baseball match between Toronto and Buffalo at Danforth. In the evening there will be a moonlight trip on the "Chippewa" for the crowd.

**LEGAL POINT ADJUSTED.**

**France Inquiry, Relating to Christian Science, Again Postponed.**

The inquest into the death of five-year-old Hilda Frazee was resumed last night to determine whether or not she came to her death through neglect to supply proper medical aid, and whether the doctor who attended her, Dr. Frazee, was guilty of manslaughter. The Christian Science was reported to her parents instead of to the police, and the coroner's jury was called to pass on the case.

Dr. Carvell related how he had been called to the Frazee home on the Sunday afternoon following the child's death. On day previous the child had been taken to the hospital, but she was not recovered. He had been called to her home on the Sunday afternoon, and he had been called to her home on the Sunday afternoon, and he had been called to her home on the Sunday afternoon.

**SYMPATHY FOR MRS. MCKEE.**

**Windsor People Will Petition Home Government for Pardon.**

Windsor, July 27.—The sympathy of the people of Windsor is stirred up over the sufferings of Mrs. Ellen McKee, the ex-post mistress of Tubbermore, Ireland, who emigrated during the famine to this country. The suffering and expatriation during the two days and one night spent in the marshes, following her desperate flight to escape from the county jail at Sandwich, has touched the hearts of the Windsor people. A proposed petition to the Home Government for a pardon for the woman was suggested, but later it was abandoned as a similar offer had been made to the Home Government. The Rev. J. C. Tomlin of St. Andrew's Presbyterian Church and others are now trying to get a largely signed petition, and intend to try for her pardon on the doctor's statement of Mrs. McKee's ill-health.

**Death of Edward Hargrave.**

The death of Edward Hargrave, of Bright's disease, occurred at his residence, 471 Bathurst-street, early this morning. He was a G.T.R. conductor, and had been 20 years in the employ of that railway. A member of the A.O.U.W. and of the Order of Railway Conductors, he leaves a wife and seven children, and a large family of grandchildren to mourn his loss. He was born at Exinton, 40 years ago.

The Toronto World

No. 83 YONGE STREET, TORONTO.

Daily World, in advance, \$3 per year. Sunday World, in advance, \$2 per year.

The World can be had at the following news stands: Windsor Hotel, Montreal; St. Lawrence Hotel, Montreal; Peacock & Jones, Buffalo; Western News Co., Detroit; Mich. St. Denis Hotel, New York; P.O. News Co., 217 Dearborn-st., Chicago; John McDonald, Winnipeg, Man.; T. A. McIntosh, Winnipeg, Man.; McKay & Scoullon, N. Westminster, B.C.; Raymond & Doherty, St. John, N.B.

ADVERTISING RATE.

15 cents per line with discount on advance orders of 20 or more insertions, or for orders of 100 or more lines to be used within a year.

THE ONLY THING UNCLE SAM KNOWS.

The World has a knack, as all our readers know, of telling them what is likely to happen, long before our rivals have any knowledge of the subject.

The way to meet the United States either in reciprocity negotiations or in an invasion of our markets by their goods is a tariff wall like their own.

Now is a good time to let your representative in Ottawa know that you'd like to travel for two cents a mile!

THE RE-DISTRIBUTION.

Complaint being made that the re-distribution is injurious to the Conservative party, a Liberal contemporary ferociously remarks that 'the Tories don't like their own medicine.'

OVERCROWDED CARS AGAIN.

There is no excuse for the crowded state of the East King-street cars at this time. It is not due, as the railway officials sometimes say, to the congestion of traffic at 6 o'clock.

TRINITY AND FEDERATION.

The Rev. Dr. Langtry takes an exceedingly gloomy view of the proposed federation of Trinity University with Toronto. It is easy to understand and sympathize with the doctor's view.

TWO CENTS A MILE.

The World's correspondent in Michigan, Mr. Porter, shows that the two-cent a mile passenger rate prevails on the three largest systems in the state, the Wabash, the Grand Trunk and the Michigan Central.

the boundary line into this province. There is no reason for this distinction; Michigan has very similar conditions to those which prevail in Ontario.

These railways in Michigan pay heavy taxes to the State as well-they have hardly any taxation in Ontario.

But somebody says: "Look at the excursion rates you get in Canada. There is a sufficient answer to this."

Reasonable regular rates all the time are better than extortionate rates most of the time with low price excursion tickets once in a while.

The World has set out to see that the people of Canada travel as cheaply and as well as the people of the States of New York and Michigan.

THE CATTLE TRADE.

The carefully compiled returns issued by the British Board of Trade for the first six months of this year set forth clearly the changing conditions of the live stock trade.

RAILWAY PROBLEM.

Exchange: Every one remembers the old schoolboy puzzle of the train in opposite directions on a single-track might pass by means of a switch, which was shorter than either train.

LONGS TO VOTE.

Editor World: Please convey thanks and good wishes to Mr. Maclean, M.P., for his never-failing support of the people's rights against the railroads.

a Presbyterian, a Baptist, a Congregational, and half a dozen other universities, each trying to teach everything, and each with its little medical school and school of practical science.

Instead of this plan of dissipation of energy and resources, we propose one of concentration, and it applies not only to the teaching of science but to the teaching of morals and religion.

We are free to admit that there is a lack of practical religion, in politics as well as in business. But what does this prove? Not that the forces of scientific education should be divided; but that the forces of religion should be concentrated.

A certain dissipation of moral and religious energy, thru denominational divisions, we must expect, at least for some time. But why should we add to this necessary evil the unnecessary evil of the Church of England trying to teach, not only religion, but medicine and mathematics?

THE CATTLE TRADE.

The carefully compiled returns issued by the British Board of Trade for the first six months of this year set forth clearly the changing conditions of the live stock trade.

RAILWAY PROBLEM.

Exchange: Every one remembers the old schoolboy puzzle of the train in opposite directions on a single-track might pass by means of a switch, which was shorter than either train.

The Toronto Daily Star Will Have a More Complete List

T. EATON CO. LIMITED

190 YONGE ST., TORONTO

GOOD WATER STOPS TYPHOID

Low Prevalence of Fever Good Index to Waterworks and Sewerage System Development.

CONTAGIOUS DISEASES STATISTICS

Report of Provincial Board of Health Presents Interesting Figures and Comment.

The twenty-first annual report of the Provincial Board of Health, just issued, notes a particularly high state of the general health of the province in the matter of contagious diseases. It is remarked that the low prevalence of typhoid fever, which is so closely associated with the larger municipal works of our towns and cities, has been a good index of the steady development of waterworks systems and of sewerage systems through the province.

Smallpox Death Rate Low.

Among contagious diseases, in the case of smallpox, the rate of mortality is remarkably low, being 0.44 per cent. Scarlat fever, on the other hand, which has been considered the most fatal, shows a mortality of 8.5 per cent. for 1902. Diphtheria shows a mortality of 15.3 per cent. In typhoid the rate is 15.1 per cent.

RIFLE SHOOTING.

Editor World: I am quite in sympathy with two propositions contained in an article in a recent issue of your paper in the militia. I assert and have done so for many years that every boy should be able to properly handle a rifle, and the most important part of this is in knowing how to shoot. It is a great mistake to think that the real object of a soldier is to shoot well.

LOCAL BREWRIES

Our celebrated Lehigh Valley Coal reduced to \$5.00 a ton. Pea coal \$3.50. P. Burns & Co., Tel. Main 131.

PAY OF POSTMASTERS

Editor World: I am glad to see that the Postmaster-General has had the compassion to consider the petitions of the interests of the postmaster in country towns are paid by commission on the work they perform. In the first place, the postmaster is the one who provides a fine, light and valuable building, heat it through, light it and furnish his own caretaker, and in the second place, the Postoffice Department has allowed about \$245 per annum.

EDITORIAL

It is generally thought by the people that the clerks in the postoffice are paid by the department. Clerks in town office are paid by the department of a single cent from any source, save that of the postmaster's pocket. A number of years ago, a very important branch, involving a great amount of care and attention, was added to the ever increasing duties of the postmaster in the handling of all customs parcels, all of which have to be numbered and entered before delivery to the customs officer. The rate of pay for this duty is \$2.00 per parcel, to be again delivered, or if not called for, carefully entered in the books of the Postoffice Department. Now, for all this work the postmaster has never received any remuneration whatever.

EDITORIAL

Editor World: I have read with great gratification a Canadian youth representative's interview in the Hudson Bay route. If parts are open on Hudson or James Bay all winter, even until January or February, and Hudson Straits can be navigated, certainly there should be no fear of retarding the Northwest thru lack of outlet. Double-tracking the C.P. E. railway is a matter of some importance. Many gentlemen go to camp under the name of hunting, but in reality increased pay should receive more attention at the hands of the government than they have at present.

EDITORIAL

Editor World: I am quite in sympathy with two propositions contained in an article in a recent issue of your paper in the militia. I assert and have done so for many years that every boy should be able to properly handle a rifle, and the most important part of this is in knowing how to shoot. It is a great mistake to think that the real object of a soldier is to shoot well.

**IN New York you'll find to-day just the ladies' hats we're selling—made by the same Fifth-Avenue hatters—for high-class trade. A point we try to carry out to the letter in our business is to handle only tailor-made hats—not millinery creations—and we flatter ourselves that we succeed every time. To see our hats is to get pointers on what is proper in Gotham—Ladies' Walking Hats, \$3 to \$12; Sailors, \$1 to \$5.**

Canadian peaches, basket	0 50 to 0 60
California peaches, crate	1 00 to 1 25
Tomatoes, Mississippi, 1 00	1 25 to 1 50
Canadian peaches, basket	0 40 to 0 50

**The Pear Blight**

Speaking of the prospects of the pear crop, Major Jas. Shephard of Queenston and yesterday that of the reasons of the poor outlook in some districts. He said, however, that there was very little scope in his district, round Queenston, but that the "big blight" was doing damage to the apples and pines. As to tomatoes, in which Major Shephard said he and his neighbors were very much interested, there

were good prospects of the usual crop, but they would be scarce until previous years.

**Leading Wheat Markets.**

Following are the closing quotations at important wheat centres to-day:	
New York	
Sept. 1903	83 1/2
Chicago	80 1/2
London	80 1/2
Duluth, N. D., 87	87
Chicago Markets.
