BODIES WEDGED TOGETHER
AND CROWBARS NEEDED
IN WORK OF RECOVERY

Dead in the Boyertown Holocaust
Number 167 - Awful Scenes
When Oil and Gas Explosions
Fanned Fury of Flames.

RAISING OF THE CURTAIN
BROUGHT ON CALAMITY

BOYERTOWN, Pa., Jan. 14.—When
nightfall put a stop to the work of re-

covering the dead from the ruins of the

Rhodessa Opera House, where last

night's holocaust occurred, the official

roll of victims numbered 167. In several

cases whole families are wiped out.

The Pennsylvania and Reading Rail-

way sent two carloads of laborers and

carpenters to assist in the work of re-

moving the bodies.

Whether or more bodies are buried

beneath the ruins cannot be positive-

ly stated, but it is the belief of those

who had charge of the gruesome work,

that all the dead have been removed,

and that the total list of victims will

not go above 170. The ratio of women

and girls to men and boys is about nine

to one. The work of identification will

not be begun until to-morrow, as most

of the bodies are lying in a confused

state at the four improvised morgues.

When the flames were extinguished

and rescuers entered the building a

horrible sight met their gaze. Bodies

were piled in one solid mass six feet

high on the second floor, and a limited

number of bodies were piled on the

ground. Crowbars had to be used gently

to separate the victims. As each victim

was taken from the pile, a number tag

was attached and the body placed

on boards, after which it was taken

to one of the morgues. The bodies

were marked with different stories, as

to the exact cause of the panic and fire,

and there were several rumors of ar-

rests, but the borough officers and Cor-

oner Strasser to-night denied that any

action whatever had been taken. The

corner said that his one thought was

to get out all the bodies before a sleet

or snow storm should set in and hamper

the work.

The Rhodessa Opera House was located

on the second floor of a three-story

brick building. The first floor was oc-

cupied by a National Amusement Com-

pany building, and the third floor was

used for lodgerooms. The entertainment

hall was a large room about 50 feet wide

and 70 feet long. It was about sixty

feet from the front of the building and

had a narrow exit in the rear

which was used for the stage. Fire

started in the rear of the building

and spread to the front of the building

and the back of the building.

The light was caused by H. W. Fisher

of Carlisle, Pa., and he says a rubber

tube slipped from one of the tanks.

There was absolutely no panic up to

this time, and nothing probably would

have happened if one or more of the

performers had not been shouting and

not been curious to learn what was causing

the noise. Who he or they were was

probably never known. The slight com-

motion in the audience, one of the per-

formers raised the curtain from the floor.

The light of the curtains and the slight

commotion, was a tin tank, perhaps 8

feet long, 3 inches wide and 3 inches

high. It contained coal oil and a

HOUSE CALLED TO GATHER FEB. 5.

Legislature to Open on a Wednesday—Long and Busy Session is Anticipated This Sitting.

The fourth session of the eleventh

Legislature of the Province of Ontario

will assemble on Wednesday, Feb. 5,

at 10 o'clock in the afternoon.

Usually the house meets on Thurs-

day, which would have decided the 6th

as the date, as the World announced

some weeks ago, but the cabinet yester-

day adopted Wednesday, with the view,

it is thought, of disposing of the address

in the morning. Last year there was

considerable delay in getting to busi-

ness, and this year the accounts and

estimates are in such shape that very

assiduous work will be necessary to

have them quite ready, but it is antici-

ated that no delay will occur on this

score.

The session is likely to be a prolonged

one, as it is expected to be the last be-

fore dissolution, which is generally look-

ed for in June.

The redistribution bill, which will

arouse the debating instinct of every

man in the legislature on one side

or the other to plead to be redistributed

or against it, will occupy weeks. It is

quite safe to say that the government

will not get on with the bill until the

matter. Even in Toronto, to which

eight members are granted by general

consent, the split in the Conservative

party makes the election of several Lib-

erals so probable the reactionary ele-

ment hesitates about the plunge. The

vote is already polled out, and the

moderate measure in any case.

The hydro-electric power commission

will occupy some attention, and as the

bill is already passed, the question

of the re-enforcement of the author-

ity of the railway and municipal

boards is being looked for.

In educational matters there will be

some tinkering, and the new school-book

series will be launched. The university

bill is already passed, and the question

of the re-enforcement of the author-

ity of the railway and municipal

boards is being looked for.

OLD MAN ONTARIO: Excuse me, Judge, but would you mind throwin' down that top rail there?

RELENTLESSLY PROVING INSANITY OF THAW

Jerome Fights Hard With Technical Objections to Bar the Evidence.

NEW YORK, Jan. 14.—The attor-

neys of Harry K. Thaw at his trial to-

day began relentlessly to build up the

case of legal insanity which they have

interposed in his behalf as a defence

for the killing of Stanford White. The

two principal witnesses of the day

were Prof. Charles H. Koehler of Win-

ona, Minn., who acted as instructor to

Thaw in the Wooster, Ohio, University,

in 1888, and Mrs. Amy Grosseto of San

Mateo, California, who attended Thaw

as a trained nurse at Monte Carlo in

1892. They both told of the young

man's eccentricities and declared that

his manner always was irrational.

Dr. John T. Deenan of Kittington,

Pa., one of the Thaw family physicians,

declared that no railway operated by

insane members of Thaw's family

has the right to run on public streets

without the consent of the city.

District Attorney Jerome, by unex-

pectedly invoking the sacred privileges

of the testimony as to unsoundness of

mind in the Thaw family, but the call-

ing of the witnesses and the questions

asked by the court to answer, led the

jury to the desired impression upon

the verdict.

Mr. Jerome explained that the law

compelled him to object to such tes-

timony without an express waiver from

the patients. Even the nurse who at-

tended Thaw was not allowed to testify

until Thaw personally had made a

waiver of the confidential privilege in

open court.

Charles Koehler of Winona, Minn.,

who was a teacher at Wooster Uni-

versity, Wooster, Ohio, in 1886, when

Thaw was a student there, took the

stand and was asked to tell his im-

pressions of Thaw as a boy of 16 or

17 years of age.

"Harry Thaw always had a nervous

deglut and walked jerkily," he said.

"His eyes were striking, his com-

plexion sallow. His manner in the

class room was abstracted and indif-

ferent. His eyes usually had a fixed,

staring gaze. There was never any

warmth in his eyes—no illumination."

Mr. Koehler said he set down many

of Thaw's eccentricities in a diary,

which was destroyed ten years ago.

Thaw's mind always worked slowly,

and he had great difficulty in follow-

ing any demonstration—his manner

was irrational.

Thaw looked annoyed when the wit-

ness said he had used the defendant

as the example of the son of a rich

AN ACTION FOR SLANDER GUN CLUB TOURNAMENT

Col. Gibson Promises That Hamilton's Interests Will Be Protected in Radial Bill.

HAMILTON, Jan. 14.—(Special.)—The action of Samuel Weaver, the deposed superintendent of parks, against George Wild, parks commissioner, for alleged slander, was started in the Municipal Court today. Three witnesses were examined, and the case adjourned. Many witnesses have been subpoenaed by both sides of the case, including all the members of the parks board, the employees of the board and many prominent citizens.

SALE OF CANCELLED ORDERS

TRUNKS, BAGS, SUIT CASES at HALF PRICE

It will pay you to think a little ahead, and provide for your summer traveling needs from this special sale. The fact is, we are "right up against it." The cancellation of a large order from one of our Northwest dealers has made us cramped for room in the factory, and it is imperative that we move the goods at once. If prices ever did the work, these should, for they are, in many cases, less than wholesale.

Of Interest to Women

Madame Kalich Coming.

Of the performance given at the Garrick Theatre of "Marta of the Lowlands" by Madame Kalich, the St. Louis Post Dispatch says: "Women in the audience sobbed at the heartbreaking appeal of the tender moments, under the supreme emotion of Kalich's voice and face, and more than a few men wiped away willing tears from their eyes. There was no false note to mar the perfect naturalness of speech and feeling. It was nature's voice at all times—player supremely gifted to sound her ultimate emotional utterances. And it was with his recognition of the compelling truth that the audience claimed Kalich's portrayal of Marta in many respects the greatest character interpretation presented here within the recollection of its generation." Toronto will have an opportunity of seeing this wonderful artist shortly.

Personal.

Catherine Proctor, the Toronto actress, and not Cecilia Loftus, is to be the leading woman in Paul Armstrong's new play, "Society and the Bulldog," which opens at Daly's in New York, Saturday, Jan. 18. The cast will include William Farnum, Eliza Proctor, Otis William Mack, Alfred Hickman and other well-known artists.

Mrs. Harry Rylie will not receive this month. Mrs. Ernest A. Wilkinson and Mrs. C. H. Ashley will receive together at the residence of the former, 320 Crawford-street, to-day.

Mrs. Archie Langmuir will receive on Tuesday, Jan. 21 and 22, and on the last two Tuesdays in each month following.

R. S. Melville will give the address of the afternoon on "British Diplomacy," at to-day's regular meeting of the Chamberlain Chapter of the Daughters of the Empire.

Rev. J. B. Silcox, formerly pastor of Bond-street Congregational Church, and Mrs. Silcox, will leave on Thursday, to spend a week in Montreal, and next week sail from New York on a six months' trip to the Holy Land, Egypt and the British Isles. This is a gift from a member of the Winnipeg church, of which Mr. Silcox was pastor before coming to Toronto.

Luther T. Townsend, D.D., of Boston, is at present the guest of Mr. J. W. Frawley, Queen's Park.

Prof. Ira M. Price, Ph.D., LL.D., of Chicago University, is the guest of Mr. R. Kilgour, Queen's Park.

Prof. Charles R. Erdman of Princeton is staying with Rev. Elmore Harris, D.D., 35 Walmer-road.

5976—Smart Mode for Little Maid. A slight variation of the popular over-dress is shown in this pretty design for a little girl's frock. The sleeve caps, cut in one piece, with the body of the over-biouse, render the mode very becoming, giving the broad shoulder effect so fashionable just now. Another pretty feature is the deep box-pleat that is laid in the front of the waist and skirt in panel effect. Large fabric-covered buttons afford stylish decoration. The under-biouse may be made with full length or elbow sleeves. Old rose challs would make up charmingly, but other materials, such as henrietta, batiste, linen and gingham, are all suggested for the making. For a child of 8 years 5 yards of 28-inch material will be required. Girl's dress, No. 5976—Sizes for 6, 8, 10 and 12 years. A pattern of the accompanying illustration will be mailed to any address on receipt of 10 cents in silver or stamps.

Kaufman of Detroit. Rabbi Groh of Toronto performed the ceremony, which was conducted ac- cording to the Jewish ritual, with much pomp and circumstance. This was the first Jewish wedding ever witnessed in Galt.

Make Money by Your Lost Piano. The several hundred people who lost their pianos in the big storage ware- house fire the other day are asked to see the wonderful line of bargain pianos that the old firm of Heintzman & Co., Limited, have in their warehouses, 115-117 King-street west, Toronto, at the present time. Your fire loss will not be a loss, but possibly profit, at the prices at which pianos may be bought.

FRUIT GROWERS MEET.

Annual Reports Presented—H. S. Peart New President.

The annual meeting of the Ontario Fruit Growers' Association was held in the office of the secretary at the Parli- ment Buildings yesterday.

The treasurer's report showed a bal- ance on hand of \$1076. The Fruit, Flower and Honey Show this year has been able to show a surplus, but the deficit of the preceding year was only wiped out after each society had united to defray this. Thus the show will have a clear sheet for 1908.

The review of the fruit situation of the past year showed that considerable loss instead of a profitable co-operation of fruitmen resulted from the lack of organized connection of all the horticul- tural societies, and from a failure of the directors to understand their duties thoroly.

The bad packing of fruit and the care- less handling of the express companies makes for big losses to Ontario fruit- men. The exhibit of Ontario at London this past year cast poor reflections up- on the fruit here, all due to the poor shipping facilities employed.

Representatives to Michigan, Quebec and New York societies were appointed, it being felt that a closer relationship would be better all round.

The election of officers resulted in H. S. Peart of Burlington being chosen as president, H. Jones of Millland retir- ing; E. D. Smith of Winona, vice-presi- dent, and P. W. Hodgetts, secretary- treasurer.

Would Carry More Nets. Fishermen from the ports of Lake Huron, Georgian Bay and Sault Ste. Marie, waited on Hon. Dr. Reaume yesterday to request an increase in the legal quantity of nets that may be car- ried by a fishing vessel. At present 24,000 yards of nets is the legal limit.

MR. WALKER ON CANADIAN MONETARY CONDITIONS

Among the annual conditions that are eagerly looked for as reliable indices of Canada's monetary conditions, that of the Bank of Commerce, the second largest financial institution in the Dominion, naturally takes prominent place.

The deposits bearing interest amounted at the closing of the year's accounts to \$68,089,788.15, and those not bearing interest to \$20,951,271.85.

ACTION DISCONTINUED.

Plaintiff discontinues against Co-Defendant.

In the action of Paine v. Bain and the Atteaux Dye Stuff & Chemical Co., and Otto Palm, on application, the plaintiff was given leave to discontinue the action against the Atteaux Dye Stuff & Chemical Co., and Otto Palm, and ordered to pay their costs.

Doctors Have Raised Fees

"Yes, sir," remarked a prominent physician, "they have, and I don't think it's right in these hard times."

"As a protest, I give this valuable prescription (which has shared honors) to all sufferers from La Grippe, Colds, Coughs, Bronchitis, Whooping Cough, and other Lung Diseases, free of charge."

DEAR TOBACCO—CHEAP LEAF.

Those who use them know that cigars and smoking and chewing tobaccos are dearer now than ever before.

The growers of tobacco leaf, whether in the United States or Canada, know that the prices paid for leaf tobacco were never so low as they are for the recent crop.

Last week in our parliament at Ottawa the grievances of the Canadian growers were aired on the lines of low prices and unfair inland revenue regulations.

Tobacco users ought to get cheaper tobacco or the growers ought to get better prices for their crop.

THE CANADIAN BANK OF COMMERCE.

Second in standing and importance among Dominion banking institutions, the Canadian Bank of Commerce, whose forty-first annual general meeting of shareholders was held yesterday, at all times commands close public attention.

The proceedings were this year of unusual interest on account of existing monetary conditions, and the date of closing the accounts, Nov. 30, did not permit the full effect of the crisis to be made manifest.

Notwithstanding the difficulties that attended the administration of banking institutions in general, both at a time when the country stood in the shadow of an approaching money stringency, and later, when suffering from its effects, the administration of the Bank of Commerce continued to be marked by the high standard of efficiency hitherto associated with its management.

The net profits earned were the most satisfactory in the history of the bank, amounting as they did to \$1,249,847.

After payment of the 8 per cent. dividend, providing for the annual subsidy of \$30,000 given to the pension fund and writing \$200,000 of the bank premises account, there remained a balance of \$675,912.10, which was carried forward to the credit of profit and loss.

The deposits bearing interest amounted at the closing of the year's accounts to \$68,089,788.15, and those not bearing interest to \$20,951,271.85.

Of readily available assets there are \$25,745,444.48.

During the year new branches were opened at Creston, Mission City and the street abase and threw herself into a snowbank, thereby saving her life.

She was badly burned about the hands and face.

Doctors Have Raised Fees

"Yes, sir," remarked a prominent physician, "they have, and I don't think it's right in these hard times."

"As a protest, I give this valuable prescription (which has shared honors) to all sufferers from La Grippe, Colds, Coughs, Bronchitis, Whooping Cough, and other Lung Diseases, free of charge."

partial list, but not as good as that of the thirty-four countries were contiguous to France. He quoted from ministerial speeches to show that the intention was to exchange our intermediate tariff for the minimum tariff of France, so as not to impair the British preference. We were giving entry to this country to increase the balance of trade against us.

Hon. L. P. Broderick moved the adjournment of the debate.

Mr. Foster's next remark was that the government supporters had indulged in considerable self-glorification over the promulgation of the treaty when not one had the slightest idea of its effect. There was not the slightest difference between the content of the negotiations carried on by two Canadian plenipotentiaries in 1897, and those carried on by Sir Chas. Tupper in France in 1893.

Mr. Foster claimed that the intermediate tariff had rather militated against negotiation. As to actual result of negotiations, he showed there were 152 items in schedule A which were allowed into France under certain conditions of these twenty-two were not minimum items at all.

When Canadian goods got into France they would have to compete with thirty-two countries which already got their goods in under full minimum tariff, while thirty other nations had a

partial list, but not as good as that of the thirty-four countries were contiguous to France. He quoted from ministerial speeches to show that the intention was to exchange our intermediate tariff for the minimum tariff of France, so as not to impair the British preference. We were giving entry to this country to increase the balance of trade against us.

Hon. L. P. Broderick moved the adjournment of the debate.

Mr. Foster's next remark was that the government supporters had indulged in considerable self-glorification over the promulgation of the treaty when not one had the slightest idea of its effect. There was not the slightest difference between the content of the negotiations carried on by two Canadian plenipotentiaries in 1897, and those carried on by Sir Chas. Tupper in France in 1893.

Mr. Foster claimed that the intermediate tariff had rather militated against negotiation. As to actual result of negotiations, he showed there were 152 items in schedule A which were allowed into France under certain conditions of these twenty-two were not minimum items at all.

When Canadian goods got into France they would have to compete with thirty-two countries which already got their goods in under full minimum tariff, while thirty other nations had a

A GENERAL BANKING BUSINESS TRANSACTED

NEW YORK STOCKS STRONG CANADIANS ARE INACTIVE

Further Rallies Occur in Some Wall St. Issues—Profit Taking at Toronto Market.

World Office, Tuesday Evening, Jan. 14. The Toronto Stock Exchange was inactive to-day, and also the list of issues dealt in was quite voluminous, local transactions were small, as many of the orders were only for broken lots. The attractiveness of the New York list is against active speculation in the local market, even if money could be procured to assist it. Much of to-day's selling in the prominent specialties came from those with profit-taking, but the absorption was steady and only in a few instances were re-operations necessary by the liquidation of the success of the Dominion Steel Co. in its second year against the Coal in was not a factor here, but at Montreal, the steel shares rose in the spasmodic activity, decline in the earnings of the Niagara Navigation Company was thought to be responsible for the fall of Wall-street.

Who Should Open Accounts With Us

Parents on behalf of their children, to accumulate during their minority, and to teach them the habit of saving. We have a large number of accounts of this nature, some in the parents' names and others in the names of the children themselves. Our painstaking and courteous officers render every assistance and afford every facility. Nothing can be more important in the education of a child than to have a savings account.

Charles Head & Co. to R. R. Bondard: A speculative contest of some proportions was waged on the stock exchange to-day, but with a great deal of irregularity, pervaded the dealings, with frequent changes in the market, and, in general, there was no appearance of weakness at any time and a steady absorption of stocks was in process through the session, with the result that the majority of the list closed at net advances on the day's trading. Manipulation again proved to be a large factor in the dealings, but there was an evident willingness upon the part of powerful interests to accumulate stocks and frequent attempts on the part of bear traders to force a reaction were unsuccessful for this reason: Union Pacific, New York Central, Pennsylvania, Reading and Atchafalaya, prominent in the railroad list, the Hill issues were rather neglected, also maintaining a good undertone. In the industrial list, U. S. Steel issues were again strong, but within narrow limits. The Copper and Metal stocks were in good demand and there was renewed enquiry for the Equipment stocks, New York Air Brake being a prominent feature. There was no news of importance relating to particular securities, the speculation being governed largely by influences which have become familiar of late, the most potent of which has been the improvement in monetary conditions, and which continued to progress toward exceptional ease. In the afternoon the whole list maintained a firm tone and the closing was strong.

MARKET INFLUENCED BY PROFIT-TAKING

World Office, Tuesday Evening, Jan. 14. There was insufficient change in the general list of quotations at the Toronto stock market to-day to warrant comment. The day's happenings outside of the exchange were not provocative of any immediate interest among local speculators. The annual statement of the Niagara Navigation Company showed a falling off in net earnings, compared with those of the previous year, but as the shares of this company are largely off the market, the day's operations gave no cognizance of the fact, otherwise than dealings in ten shares. Another verdict in favor of the Steel Company in its action against the Coal Company, left room for manipulation in the common stock of the former at Montreal, but here no attention was paid to the event. In such issues as were dealt in here, prices were steady. The market immediately is being subjected to profit-taking, and if the realizing is absorbed readily, a further improvement in prices is quite promising.

Have You Made a Will?

Making a Will is a duty recognized by all, and the next most important step to making a Will is the selection of a suitable Executor or Trustee. The advantages of a Trust Company over an individual in these capacities are many and important. A Trust Company offers absolute security, experienced management and constant supervision, and a few, if any, private individuals can afford to do this. World Office, Tuesday Evening, Jan. 14. Cobalt prices in rather a dull day, both at the Toronto exchange and on the New York curb. The outside buying is not sufficient to absorb the large volume of Cobalt stock that is being offered. If Cobalt investment is kept up, and public liquidation stayed, brokers who have a keen grasp of the market predict a gradual recovery of the floating supply of stock, owing to the small amounts which are being continually taken off the market. ### THE HIGHER CRITICISM VIGOROUSLY ASSAILED

Opening Session of the Bible League—Two Instructive Addresses Given.

"Higher criticism" came in for unmeasured denunciation at the meeting of the Bible League last night. Scarcely any good feature could be found in it by the speakers. Dr. Luther Townsend and Rev. Dyson Hague of London, Ont., but he rejoiced that the reaction had set in and the whole school of higher criticism would soon be swept into oblivion.

Rev. Dr. Sutherland took the chair and led the devotional exercises in the absence of Dr. Carman. William Phillips Hall of New York was to speak, but was delayed by messengers in his affliction. Mrs. G. E. Alexander sang very sweetly during the offertory.

Rev. Mr. Hague opened his address by German critics did not approach the Bible with due reverence, but regarded it as a playground of their own curious theories. Matthew Arnold, who could not be regarded as a friend of the Bible, supported this view. The hypothesis, however, especially of the genius professor theologian, and most others who could not be said to have faith in the Bible, the theorists and more especially the German critics, were all censured by the speaker. The higher criticism had not followed its original intention of strengthening faith.

Two or three of the higher critics had based their subjective fancies upon their own ideas, but the great majority were merely manufacturers' agents and approached the subject, moreover, from anything but a reverent or scientific point of view. It was a school of compromise. They held to the theories of the Germans, but they did not give up the Bible.

Some might ask what it mattered if they did not accept the German theories. Mr. Hague held that the church doctrine was that the Pentateuch was inspired by God, and given by Moses to the Jews according to their unaltered tradition and of the church.

Mr. Hague gave a burlesque view of the higher critical view of the several documents which the most sober scholarship of the day regards as the foundation of the Scriptures. They could see how extraordinary would be the

result if these conclusions were accepted, one of the first being that the Bible would cease to be the Word of God. It was not even reliable history, and only contained the Word of God instead of being the Word of God.

Jesus Christ knew that these books were pseudonymous records that speaker believed. He would have said that this was a crucial point.

"He who said: 'In My Father's house are many mansions, if it were not so I would have told you,' would have told if the book was not true. It was when He had risen in His divine glory that He said: 'These are the things that are written in Moses and in the prophets concerning Me.' 'We want light,' said Mr. Hague earnestly, 'but we don't want it from rationalists and agnostics.'

Prof. Luther Townsend, D.D., Boston, spoke on "Defenders of the Faith." Any departure from the primitive orthodoxy was to be combated by these defenders. Christianity was indebted to the higher criticism for many suggestions, but when it was possessed of its own mind, it should be demanded. He who had not penetrated the heart of Christianity by profound experience was unfitted to pronounce upon the question. No critic who stood outside the citadel of a devout spiritual life could be trusted. It was not surprising that a large number of Christian people were in a theological mixture so many views were ventilated. In a record of the universities and colleges of the United States, Dr. Townsend pointed out those which were opposed to the higher criticism. A resolution had recently been adopted "That the Bible, when freed from errors of translators, translators and printers, is the Word of God." (Applause.)

"Destructive criticism," Dr. Townsend remarked, "had quite an early beginning and was promulgated by a personage that has had a very bad reputation for a very long time. We mean the devil." More than half of the clergymen who were sympathizers with the new theology had made no careful investigation, but had simply followed the lead of others, and being fascinated with the phrase "drift of scholarly opinion," had jumped into the stream and were floating on their destination.

Nothing would ever be heard of the new theological bubble after it had been pricked by the scholarship of some of the conservative professors.

The reaction in Germany was notable. The influence of Wilhelm and Kuehnen was waning in Germany. The former had only one student at his house and he was cleaning his nails instead of taking notes when a visitor looked in.

The conference will be continued to-day

### FRANK LAW IN COURT.

Advertisements, Not Prospectus, Now Subject of Complaint.

Argument in the case against Frank Law, charging him with a violation of the Mining Companies' Act, in issuing misleading prospectuses of the Highland Mary Mining Co., and advertising same, was heard in the afternoon police court before Magistrate Kingsford. Judgment was reserved until Monday.

Deputy Provincial Secretary Mulvey was on hand to explain the clauses of the Act. In his opinion the complaint on behalf of the crown was not directed against the prospectus issued, but more against the advertisements.

Mr. I. J. McLaughlin, appearing for Law, said that any liability that had occurred was on the corporate body, not on the individual. He saw no evidence that the statute had been violated. The case was being watched with interest as a means to find fault with the Companies Act in regard to the prospectus of the Highland Mary, in his mind, contained everything the act demanded. All Frank Law's transactions with regard to this company were above board and appeared with regularity on the books. Law himself had said that the statute had been violated. The point made it a civil action rather than a criminal one. There was a mistake, however, when prospectus of Highland Mary Mining Co. was issued by Law & Co.; it did not comply exactly with the amendment of the Companies Act. Neither Law nor his associates contemplated any fraud in this respect.

Crown Attorney Price went into the history of the company in detail. In an effort to show that Frank Law was a real Highland Mary Co., and its promoter. He pointed out that nearly 100 sales had been made of Highland Mary stock before the prospectus had been filed with the department.

**EXTRA FUR SELLING EVENT.**

Messrs. Sellers-Gough Fur Company start an "extra price reduction" on fur this morning. This will give additionally clear out many lines in short order. That is the object of further price cuts. We're determined to make this the greatest fur-selling event in the history of this city," said Mr. Sellers.

"It is simply a matter of making room for our big purchases of raw furs which are arriving here daily. Unprecedented reductions have been made on everything in stock, and while the response has been tremendous we are still carrying thousands of dollars worth of the most beautiful furs that must positively be moved within the next few days. Everything is priced with the object of quick-selling, and those who take advantage of our position are enabled to secure the most fashionable furs at enormous reductions." The new price reductions go into effect this morning.

### Successful Afternoon Receptions:

Probably nothing contributes so much to the success of your afternoon receptions, as the kind of refreshments that are served.

"BOVRIL" Bouillon and "BOVRIL" Sandwiches are becoming quite a feature at the most fashionable receptions.

"BOVRIL" has a relish and a zest which is greatly appreciated by young and old. It contains all the taste and nourishment of beef.

North Toronto Council Hold Inaugural Meeting—General News Items.

TORONTO JUNCTION, Jan. 14.—The public school board met to-night, being the last meeting of the 1907 board. Chairman Fullerton presided, and the members were present excepting trustee C. F. Wright. The principal's annual report was given and some very interesting news was given. During the year there had been 245 pupils registered. Of these there had been 100 boys and 145 girls. The average attendance had been 124. To look after these pupils there were 43 teachers, four of whom were first-class professionals and 39 were second-class professionals. He hoped the board would continue as they had done to the present time and never engage second-class teachers.

Will Investigate This.

Chairman Fullerton had been told that the latest teacher engaged, Miss Evans, was a power for the supervisor, who could not contradict the chairman's view. This was a matter to be investigated at the earliest possible moment.

The supervisor said the attendance so far for the present year was fairly good. He had been a considerable way off owing to a lot of scarlet fever in some sections of the town. The medical health officer said so far he had not done so. The spread of the disease was caused by parents of children who had been in school, but who did not call in physicians.

Scarcity of Teachers.

The supervisor said that the scarcity of teachers was a matter for worry, and each time a teacher was ill he had much difficulty in filling the vacancy. The treasurer's report was received and adopted. The total receipts for the year amounted to \$117,728.40, as follows: Received from Treasurer Jackson on account of 1906, \$20,400; on account of 1907, \$117,328.40. The legislative grants were made up as follows: General grant, \$111; Model School, \$50; non-resident fees, \$56; School Section No. 15, Toronto, \$1,000. The total \$117,728.40. The expenditures for the year amounted to \$117,728.40, as follows: Salaries, \$70,000; rent, \$10,000; fuel, \$5,000; water, \$5,000; light, \$5,000; maintenance, \$10,000; other, \$12,728.40.

#### DOES THIS INTEREST YOU?

A prominent physician, famous for his success in the treatment of kidney and bladder diseases, attributes a great deal of his success to the following simple vegetable prescription:

One ounce Fluid Extract Dandelion;  
One ounce Compound Sarsaparilla;  
Four ounces Compound Syrup Sarsaparilla.

Mix thoroughly well, and take in teaspoonful doses after each meal and again at bedtime. Your druggist will supply the ingredients, and the mixture can be prepared at home at very little expense, acts directly on the kidneys, assisting them to filter the poisons from the blood and expelling them in the urine at the same time restoring the kidneys to healthy, normal action.

We feel that great many readers will be pleased to learn of this simple prescription, and knowing the ability of the physician whose formula it is, we do not hesitate to recommend it to any sufferer.

#### SAY VALUES ARE STEADY

The World was in error yesterday morning when it said that \$1600 was the price received for a house on Louisa-street. The actual price was \$1700. The street is in a town, while a little real estate in Toronto is being held at present, anticipate a larger demand for houses as spring just opens. Many houses are bringing just as good prices, both in sales and rent, as they did last summer. There are, however, quite a number of empty houses in every suite that should not be from the town. These latter should not be from the town.

The Swatlick Euchre Club are holding their second annual at-home in St. James' hall on Monday evening. Five hundred invitations were issued for the event. The Royal Arcadians, Masons, Shekani and Royal Arcadians, 200 new members were admitted to membership.

Mr. and Mrs. Jack Piggott entertained some fifty guests at their home on Ontario-street.

Assessments of Commission Forman reported to the board of control yesterday afternoon. The land assessment, as a whole, is on a par with that which would be made by the city should annexation be carried out. The building assessments, especially on factories, are stated to be conservative. The city might increase the assessment of real property 10 or 15 per cent.

Skating every afternoon and evening at Ravina Park. Band in attendance.

Boys, if you want to make money, sell The World. Lots of money is being made by bright boys selling The World every morning and Saturday evening at the World's branch office, 22 Dundas-street, for particulars.

### Grand Trunk Cuts Expenses.

MONTREAL, Jan. 14.—According to a statement issued by the Grand Trunk Company yesterday, the railway has been obliged to reduce by a considerable number the total of the men working in the car departments at Point St. Charles, Ottawa, London and Fort Gratiot. Just how many have been or will be in future laid off is not yet known, but that the total will be pretty big is assured. In addition to this, the company has reduced the number of working hours per week to forty-seven.

### 15,000 Will Quit Work.

MANCHESTER, Jan. 14.—All effort at intervention to bring about a settlement of the dispute between the cotton mill owners and their employees, which threatens to result in the locking out of 15,000 men, has come to naught.

The Chambers enquiry was yesterday adjourned until to-morrow. Mrs. Meyers was present in the court yesterday.
