MURPHY FIRST IN CABINET CHANGES

Will be Sworn in To-morrow as Successor of Hon. R. W. Scott—Railway Commission Appointments.

OTTAWA, Sept. 14.—(Special).—The cabinet changes foretold a fortnight ago by The World and which were generally sneered at by Liberal papers as "pipe dreams," have begun to materialize.

Hon. R. W. Scott has resigned as secretary of state and Charles Murphy, K.C., of Ottawa, a leading Irish Catholic representative, has been notified that he will be sworn in as his successor on Wednesday.

Mr. Scott has only gone out after the appointment of his son, Major D'Arcy Scott, to the railway commis-

The others who have been slated for removal are Sir Richard Cartwright, Sir Frederick Borden and Hon. L. P. Brodeur. The first named will go first. Hon. A. B. Aylesworth may go to the polls with the expectation of holding a seat for the Liberal party, but it is understood from advices which have reached Ottawa, that his malady precludes the possibility of his continuance in parliament.

The appointment of D'Arcy Scott, Hon. Thomas Greenway and W. A. Gailher, M.P., to the railway commis- sion, which, it is learned, will be con- firmed on Wednesday, has not been very kindly received in the capital. They are generally regarded as pos- sessed very few qualifications for this important position.

The commission, as now constituted, is simply a case of "Judge Mabee and the rest," as it was before "Judge Kil- lam and the others."

A curious situation has arisen in connection with Russell County. It was announced to-day that Mr. Mur- phy would be the Liberal candidate in Russell. George McLaughlin, the con- vention's candidate, has not been ap- prized of this, nor have the county Liberal officials. Consequently it is not to be wondered at that Mr. McLaugh- lin's antipathy to an arrangement in which he had no voice, is a present- ment.

Among those who were here to urge the necessity of the appointment of Charles Murphy as secretary of state were Peter Ryan and M. J. Hickey of Toronto, who, it is understood, de- clared the Irish Catholic vote of On- tario would go solidly against the gov- ernment if it were to make any such ap- pointment. The personal friends of Hon. Charles Devlin are naturally disap- pointed, but it is said they are not disposed to make any serious trouble.

Sir Wilfrid Laurier left for Niagara Falls. He was looking in the very best of health.

FOREST FIRES STILL SPREAD
Late Despatches From the North and West Indicate Great Damage Being Done.

A special despatch from North Bay says that bush fires are very bad in that vicinity.

At Callander the sawmills of J. B. Smith & Co., Darling & Sons, and the Temagamit Lumber Co. shut down so that workmen might fight the forest fires threatening the town and mills. Powsassan is surrounded by fire and the forests surrounding Sudbury are in flames, the blaze approaching to within 100 yards of the C. P. R. sta-

Borden in Brief

If we preach purity and practice corruption we shall be worthy of all the scorn that can be poured upon us.

The whole policy of the government (in the past two years) was to shut off investigation and prevent publicity.

Sir Wilfrid Laurier promised purity of administration. He has abandoned the public exchequer to the plundering and pilfering of unscrupulous party friends and has permitted the public domain to become the prey of his strongest partisans.

Criminals have been appointed to positions in the public service—men engaged in the most nefarious electoral crimes have been appointed to positions of public trust.

During 10 years of Liberal rule the expenditure has been \$232,000,000 greater than in 10 years of Conservative rule.

Seventy-five members of parliament have been appointed to positions of emolument or to the senate.

The avowed policy of the Liberal party has been outraged and falsified in the most astonishing manner by the present administration.

I have had the unique satisfaction of seeing the government of the day forced by public opinion to carry into effect a very substantial portion of the policy which I advocated a year ago.

What great public undertaking has the government not bungled?

R. L. BORDEN OPENS CAMPAIGN 5000 CHEER HIM ON AT HALIFAX

Conservative Leader Makes a Severe Arraignment of Liberal Government.

HALIFAX, N.S., Sept. 14.—(Special).—Looking down on a sea of faces, which numbered five thousand, R. L. Borden, leader of the Conservative party in Canada, came into his own to-night at Halifax.

He spoke at considerable length on the broken pledges of the Liberal administration, and on his own Conservative platform. Clean elections, pure government and Canada for Canadians was the theme of his speech, which was a masterful exposition of the Conservative policy.

Roblin's condemnation of the administration of public affairs as well as all principles of public policy.

He condemned the government for the following reasons: For having violated their promises; for having demoralized the public service of the country; for their extravagance and waste of public funds; for alienating the public domain to political friends; for carelessness and indifference in the administration of public affairs, inefficiency and incompetence, seem to reign in every department; for having brought the name of Canada into discredit, as witness the Yukon administration; for lowering the public life of Canada.

He followed in an eloquent address, which was well received.

At the outset Mr. Borden referred to his own nomination in Halifax, stating that he had accepted it on one condition, namely that the campaign must be a clean one, adding: "I do not fear defeat in a clean campaign, but I prefer overwhelming defeat to victory won by improper means. I stand upon my platform of a year ago. Fight the ballot thief and the briber. Fight also any influences within our own party which favor corrupt methods. Rely on the justice of our cause and upon our frank exposure to the people of our opponents' evil record."

Mr. Borden denounced the wrongdo- ing in Colchester, and declared that those responsible should be punished.

COLONEL INTENDS TO ENTERTAIN LAVISHLY

And Dominion Power Com- pany's New President is Willing to Contri- bute Handsomely to the Cost.

HAMILTON, Sept. 14.—(Special).—John R. Moodie, honorary colonel of the Ninety-First Regiment, and treasurer of the Dominion Power and Transmission Company, has been selected as Col. J. M. Gibson's successor as president of the big electric company.

About all that Col. Moodie wished in connection with the office was the honor of being called by the name of the president, and he did not place much value on the salary of \$6000 a year that Col. Gibson has been drawing as president.

Col. Gibson explained to his fellow-directors that in accepting the position of lieutenant-governor he was sacrificing a large part of his revenue from the company, and he requested that he should be allowed to continue to draw \$4000 a year of the president's salary, and that the new president's salary was that Col. Gibson was drawing as president.

The selection of Col. Moodie means that the present policy of the company will be continued, and that W. C. Hawking, secretary of the company, will be succeeded by Col. Gibson.

It is said that he even went further than suggested by Col. Gibson, and arranged to give up the whole of the president's salary to Col. Gibson.

The reason Col. Gibson gave for desiring to continue to draw the president's salary was that he was planning to spend \$20,000 a year while occupying the government house in Toronto, or twice the amount of salary that goes with that position.

2 MEN KILLED BY EXPLOSION

Boiler Blows Up in Cider Mill—Noon Hour Recess Saved Many Others From Injury.

HUBER'S CORNERS, Sept. 14.—(Special).—By the explosion of a boiler in Huber's cider mill at noon to-day two men lost their lives, while the building was completely wrecked.

The names of the killed are Damien Huber, one of the owners, a married man, and William Attie of Newton, Ont., married.

The force of the explosion was so great as to level the building to the ground, while the bodies of the two men were blown into a nearby field.

No cause can be assigned for the accident, the rest of the employes having left the mill some time before, when everything was apparently all right. Huber's Corners is a small village near Linwood in Waterloo County.

HON. R. W. SCOTT'S LONG CAREER

HON. R. W. SCOTT is one of the old- called to the bar in 1848; elected mayor of Ottawa in 1852; returned to the legis- lature for Ottawa in 1857 and in 1867; in 1871 elected speaker of the assembly, and later chosen commissioner of crown lands under Premiers Blake and Mowat.

In 1878 he became a member of the Mac- kenzie administration, and in January, 1874, was appointed secretary of state and registrar-general of Canada; in 1874 was called to the senate; retired from government on defeat of government in 1878, and was reappointed secretary of state on Laurier's election in 1896.

GREY COMPETITION HERE
Either This City or Montreal to Be Favored Next Spring.

OTTAWA, Sept. 14.—(Special).—The Earl Grey musical and dramatic com- petitions which since their inception a couple of years ago have been held in Ottawa, will be held next year either in Montreal or Toronto. The first competi- tion was held in the month of January and the second in February. For a variety of reasons the next series of contests will in all probability be held two or three months later in the year, probably at the end of March or April.

PREFER ELI ROOT RATHER THAN HUGHES

Such is the Apparent Sentiment at New York Re- publican State Con- vention Now in Session.

SARATOGA, N.Y., Sept. 14.—Eli Root, secretary of state of the United States, was the central figure in the first session of the Republican state convention which met in the great con- vention hall in this village soon after 3 p.m. to-day.

The convention elected temporary chairman, and adjourned until to-morrow afternoon at 2:30 p.m.

It is no less than truth to say that the welcome given Secretary Root and the demonstrations of approval which heaped upon him, were such as to sur- pass in enthusiasm, if not in dura- tion those which were accorded upon the mention of President Roosevelt, Governor Hughes, or the presidential nominee, Wm. H. Taft himself.

The great body of delegates and al- ternates, numbering more than 3000 persons and the people in the galleries, which were well filled, but at no time crowded, heard the speech with close attention and evident approval. It dealt almost exclusively with national matters, but began with a tribute to the work of Governor Hughes and the state administration in general, to which the convention responded with applause and cheers, lacking not so much in apparent volume or duration as in unanimity of participation.

In fact, the cheering which greeted the name of Governor Hughes, started by the bulk of the New York county delegates, was joined in only by scattered up-state delegations and small groups of individuals here and there; silent, taking no part in the demon- stration which lasted less than sixty seconds. Indeed, the greatest portion of the cheering came from the gallery.

The decorations in the convention hall are noticeably scant and there was while the front was being carried were lined with alternating pictures of Taft and Sherman, there is no picture in the history of the history of the asso- ciation.

Mr. Root will continue to preside over the convention. Many Anti- Hughes "allies" have still hope of pre- vailing on him to yield to their im- portunities to run for governor.

BORDEN TO TAKE HAND IN THE C.P.R. STRIKE?
Leader of the Opposition May be Asked to Try and Bring Oppos- ing Parties Together.

MONTREAL, Sept. 14.—(Special).—It is said here by some of the members of the union of striking C. P. R. machinists that a movement is on foot to ask R. L. Borden to use his influence with Sir Thomas Shaughnessy to have fair treatment given to the men.

All along the machinists have asked only for a square deal and they are willing if Sir Thomas will promise them fair treatment to have their grievances arbitrated by a satisfactory tribunal. Politicians think it would do Mr. Borden no harm if he could persuade Sir Thomas to do the fair thing for the striking machinists.

C.M.A. MEMBERS WOULD IMPRESS

Want to Show Politicians That They Are an Industrial Power in This Country.

MONTREAL, Sept. 14.—(Special).—The thirty-second annual meeting of the Canadian Manufacturers' Association is being held in the city this week. Delegates from different parts of the Dominion began to register this afternoon at the Windsor Hotel, where all the business meetings of the conven- tion will be held.

To-day, however, nothing is being done in the way of business beyond the holding of two sectional committee meetings in relation to the woolen and the pulp and paper industries. These sections were sitting with closed doors and will report to the general meeting.

G. M. Murray, the secretary, said that the indications were that this would be the most largely attended convention in the history of the asso- ciation.

The manufacturers of Canada, he added, are beginning to realize what an important part they play in mould- ing the industrial policy of the Domini- on, and on the eve of a general elec- tion they are naturally keen to make some kind of a demonstration.

"To the big majority of our mem- bers it makes no difference which po- litical party is in power so long as the fact is recognized that the manu- facturing interests of this country must be conserved," he remarked.

HIS NOT THE HAUNTED HOUSE
There Are No Ghostly Influences About Mr. Maynard's Home.

Mark Maynard, building contractor, who resides at the extreme north end of Pape-avenue, denies most positively that there is any ghostly influence at work in his house, and in this he is borne out by his neighbors.

Mr. Maynard says that hundreds of people have insisted that his is the home referred to as having a door which, thru the interference of a dis- tressed spirit, cannot be closed.

As Mr. Maynard has been a resi- dent of his own very attractive prop- erty for the past three years, it should satisfy those who have called that a mistake has been made, as the haun- ted house, so-called, has been occupied by its present tenants, according to The World's information, for less than a year.

And all the doors in his house he can show to open and close without the slightest hindrance.

In any event, The World is glad to clear Mr. Maynard's home of any sus- picion of being spook-infested.

### A PROPOSAL TO BORROW AND TIME TO CONSIDER

In the Meantime No Appointment Will Be Made—Presentation to Mr. Unsworth.

HAMILTON, Sept. 14.—(Special.)—The city council this evening took no action on the question of the appointment of a new city engineer, the special committee on the subject had a star chamber session this afternoon, and had City Engineer Barrow before them. The members say they proposed to him that he should take a position of consulting engineer for a short time and then resign. They gave him a few days in which to give his answer. The aldermen repudiated any part in connection with the action of the street railway company in operating cars early Sunday morning. Mayor Stewart found fault because the harbor committee had spent \$4200 on fixing up the city dock, when the estimate was only \$300. The street sprinkling-rate was fixed at seven-tenths of a mill. Wood, Grundy & Co., Toronto, who bid \$100,000 for 1000 percent bonds, were awarded the issue. The salary of City Clerk Kent, who suffered a loss of \$400 a year ago, when he lost the position of secretary of the board of education, was restored to \$4310.

**Leaders a Candidate.**  
The Independent Labor Party this evening, at an enthusiastic meeting nominated S. L. Leaders as its candidate in East Hamilton for the house of commons. C. I. Aitchison, C. G. Bird and H. J. Hulford were nominated, but all withdrew in favor of Mr. Leaders, whose opponent was Samuel Barker, M.P., Conservative, and James Dixon, Liberal.

**Rev. J. K. Unsworth, the retiring pastor of the First Congregational Church, was this evening presented by the congregation with a gold watch and a purse of gold, and his wife with a sterling silver case. The watch was made by the presentation.**  
E. Galvin resigned his position as a member of the board of education, and his resignation was accepted with regrets.

**Executive of the Trades and Labor Council met this evening and passed a resolution condemning the street railway and other bylaws which will be voted upon Wednesday.**  
Robert Simpson, 145 Queen, Mackenzie street, who injured his back while swimming in the Toronto Bay, was brought up by the boat to-night and returned to his home.

**A. L. Burke has issued a writ against the People's Brewing Company, the concern who proposes to start a new brewery. He claims \$5000 damages, and is seeking to have the election as directors of Messrs. Launders, Harry Carpenter, Lee, Hill and Yates declared illegal.**  
F. W. Evans, Canada, while being treated for his duties in the city hospital, requested the nurse to leave the room and close the door. He then splashed a dresser against the door, secured a razor and cut his throat from ear to ear.

**John Maskey, Michael Coughlin, Donald Braham, William Connolly, the Dacey and Michael Wright, were each fined \$5 by the police magistrate this morning for gambling on the Lord's Day.**  
Rachel Schofield, who was found guilty of being drunk, was fined \$20 because she swore that she had not taken a drink.

**Thomas Lanning, one of the eccentric characters of the city, died from pneumonia at the city hospital this morning.**  
The Hamilton Gaslight Co. shareholders have been notified that they will not receive the dividend usually paid on Sept. 1. It is said that the natural gas competition is responsible for this state of affairs.

**The Ontario Normal School will open tomorrow, and it is expected that 200 pupils will be enrolled.**  
Will Nunnally King.  
The Ottawa government is trying to find a seat for Mackenzie King, and thru its influence his name will be placed before the convention along with ev-Ald. J. M. Eastwood, James Dixon and James Chisholm.  
Mrs. South, widow of John T. South, died at St. Vincent's Convent, Calcutta.  
Rev. Father J. J. Crofton has not yet entered upon his duties at St. Mary's Cathedral, altho transferred from Hespler some time ago.  
There are now 42 names on the "Indian" list Inspector Barrill is posting in the hotels, and several names are being added daily to it.  
Elliott and McBrayne, the law firm, will dissolve partnership.  
Police Magistrate Jeffs says that Della Clayton will not have to serve her three months in jail if she leaves the city when she recovers from her wound. She is now partly paralyzed.  
Charles J. Evans, inland revenue officer, Ottawa, and his family, who have been renewing old times, have returned home, reporting a very enjoyable two weeks.

### CREMATED WIFE'S BODY TELLS SUSPICIOUS STORY

Husband of Glengarry Woman Arrested in Far West for Alleged Murder in Alaska.

CORNWALL, Ont., Sept. 14.—(Special.)—Word received from Seattle gives an account of what looks like foul work on the part of Lee H. Johnston, husband of Belle Gilchrist, a former resident of Maxville, Glengarry County.  
The couple were married three years ago, and left for Nome, Alaska, where Johnston was a large mine owner. Not long after reaching there, Johnston claims his wife committed suicide, saying she was no companion for him. She left all her property to him. Her disappearance was explained by her husband, who said she had gone to Seattle to read.  
Relatives became suspicious and Jos. Warren of the department of justice, and George B. Gringsby, district attorney for Nome, looked into the matter. Their search resulted in Johnston being arrested and charged with the murder of his wife. Johnston claims she left a note asking him to keep the matter of her self-drowning quiet and requesting him to dispose of her body secretly. Johnston has confessed to dismembering the body of his wife and then cremating it. The police think they have a clue to the truth about Johnston.  
The deceased has two brothers, Duncan and William Gilchrist, who live at St. Elmo, Glengarry.

### TORN BY WILD BEASTS

**History of a Great Discovery.**  
The old Roman heroes who were torn by wild beasts at their Rome, the Greek charioteers, and the gladiators who made fighting a profession, all knew the virtues of Zam-Buk. The old heroes are contained in Zam-Buk for skin injuries and diseases. They would apply it right their secret herb, balm, and salve. It would again be ready for combat. Their ideal of a balm or salve was a preparation which combined power with purity and that ideal is realized in Zam-Buk.  
Ordinary ointments, salves and embrocations are generally composed of rancid animal fats and mineral oils. Zam-Buk, on the contrary, is a healing balm, composed of highly refined castor oil, and contains certain rich medicinal herbs, and every one using Zam-Buk may rely on its healing power.  
When the little one runs in from play with a smarting dirt-dred scrape on hand or knee, simply wash the part, smear it with Zam-Buk, and signing if necessary. Zam-Buk will do the rest.  
When father returns from work with a cut hand or other injury, the handy box of Zam-Buk again meets the emergency; and the housewife or mother continually finds it a real friend in need for the burnt scalds, scrapes and bruises sustained by general household duties. For eczema, ulcers, itchy, blisters, abscesses, scalp sores and all skin diseases, act like a charm. It eases the pain and stops the bleeding of piles, and cures this painful ailment quickly and surely. All drug stores and stores sell at 50c a box, or from Zam-Buk Co., Toronto, for price, 3 boxes for one dollar twenty-five.

### NO REGISTRATION

**Not Required in Ottawa—Excursion to Pembroke.**  
OTTAWA, Sept. 14.—There will be no registration of voters for the federal election, the list compiled and used for the recent provincial will be used. The election act provides that when a federal election comes within a year after a provincial election, the voters' lists prepared for the latter shall be used in the former.  
The Conservatives of this district are making ready to run a monster excursion to Pembroke on Monday next to attend the meeting to be addressed by R. L. Borden and the provincial premiers. A special train will leave Ottawa in the morning and stop at all stations on way.  
The Conservatives of Wright county are experiencing some difficulty in getting a candidate to contest the constituency for the federal house. A. F. Labelle has been requested to stand but he has not given any definite answer as yet. The secretary of Wright County Conservative Association has gone to Montreal to consult with the Quebec executive.

I have been a resident of Vancouver for 17 years, and I have made four passages in the last sixteen months. ### PRINCIPAL SHOULD ASSIST TECHNICAL SCHOOL PLAN

City Council Refer Back the Board of Education's Scheme—Sea Wall Tender Ratified.

Complete and crushing was the defeat yesterday, when, by a vote of 18 to 3, the city council carried Ald. Church's motion to refer back to the board of control the proposed purchase of the Borden-street site. The vote was: Ald. Church, McGhie, Chisholm, J. J. Graham, Stewart, Adams, McMurrich, Sanderson, R. H. Graham, Hales, Whytock, Foster, Kester, Bredin and McBride—18.  
Ald. Church referred Controller Hocken, Ald. Church, McGhie, Chisholm, J. J. Graham, Stewart, Adams, McMurrich, Sanderson, R. H. Graham, Hales, Whytock, Foster, Kester, Bredin and McBride—18.  
Controller Spence's amendment to have the school board supply information as to the building and the assessment committee report on the value of the site, was defeated on the same vote, except that Ald. Bredin sided with it.  
Ald. Church said he was surprised at the action of some of the trustees who had "hopped over." The ratepayers were so heavily burdened with school taxation that they would be sure to expend so much money on a technical school. As there would be no profit from all over Canada, the ratepayers should contribute. His opinion was that the board of control had been chloroformed.  
Controller Hocken thought council should give the money asked, and place the responsibility upon the board of education, which was in closer touch with the need of the situation. He suggested that the school board should supply detailed information as to the kind of building, and moved that the assessment committee report upon the value of the proposed site, and as to whether or not he would recommend the exercise of the options secured by the school board. The board is required to submit their plans and estimates.  
Ald. Church held that council's procedure forbade the hearing of a deputation during committee of the whole, and that the board should collect its own taxes. The board should collect its own taxes. The board should collect its own taxes.

### WHEN ONTARIO WENT DRY FOR SEVEN WEEKS

"Old Frobs" and the Drought—C. P. R. and Laurier Were Put Wise.

There was "no sign of rain" when The World talked dry spell with the seer of the weather last night at the Ontario Agricultural College. The expert measure of rainfalls and force of winds was not prepared to give the present drought the dignity of a safeguard against it. It was necessary to be the oldest inhabitant to surpass it in duration. It takes, however, a leap backward for 32 years to reach the longest dry spell on record at the observatory. That was in 1876. Ontario then had a drought which was prolonged from the first of August until the 15th of September, a period of seven weeks. The present dry spell has continued for four weeks, except for a slight shower on Aug. 19, and an extremely light sprinkling of rain on Sept. 1.  
An Ottawa man says that as a deputation to the specifications at Ottawa and the management of the C. P. R. some years ago had expert advice that a period of seasons in which drought would be a widespread feature, might be looked for. The C. P. R. was sufficiently inspired to push on the great trunk line, and to construct concrete sidewalks thereon is a very warm issue with the residents. Deputations to Ottawa and the management of the C. P. R. The obstructionists said that these improvements were needed, and that most of the residents were poor workmen and couldn't afford the expense. As 21 of the 37 ratepayers are against the improvements they were allowed to stand over.

### PIG BURIED 50 DAYS

When Taken Out of Straw Stack in Alive and Healthy.

CHATHAM, Sept. 14.—(Special.)—A pig which was buried for 50 days without food or drink in a straw stack on Frank Wilson's farm, Creek-road, Harwich, was unearthed, alive and healthy to-day. The curious part of it is that the hog gained five pounds in weight during the time it was buried.  
They'll Kill the Child.  
ST. THOMAS, Sept. 14.—(Special.)—St. Thomas Liberal Club is running a Laurier excursion to the Falls to-morrow. Five hundred are expected to go.

### BRAIN WEARINESS AND FATIGUE.

All fagged out, ideas flow slowly, as nervous snap and energy gone. The buoyancy and vigor that have been lost that one also. A doctor would say you are run down, enervated, neither strong enough to do your work, nor have the appetite and improve assimilation and digestion, so that lots of pure strong blood will be turned to nourish the broken down system. Ferronze will drive away the tired feeling, restore your spirits and energy, revive your ambition and strength for work. No tonic or re-builder like Ferronze—try it.  
Price 50c per box, or six boxes for \$2.50, at druggists or Folsom & Co., Kingston, Ont.

ARCHBISHOP TURNS SOD

Toronto Cathedral School to Have a New Building Near Weston.

His Grace Archbishop Sweetman yesterday afternoon turned the sod of the excavation for the new building of the "Toronto Cathedral School," which is to be erected on the banks of the Humber River, about half a mile beyond Weston.

A large number of those interested in the school were present at the ceremony. After a short service of prayer and the turning of the sod the archbishop briefly addressed the gathering. He pointed out the important educational work done by St. Alban's Cathedral School in the past, and the greater scope the institution would have in its new situation. Rev. Canon McNab and Rev. Mr. Jones, rector of Weston, also spoke, and Mr. M. E. Mathews responded briefly. The property selected for the school is an ideal one. It comprises twenty-two acres, and includes a splendid cricket field and stretch of river front. By a coincidence it is the same site that forty-three years ago was selected for the erection of what is now Port Hope School.

TRAIN OFF THE TRACK.

KINGSTON, Sept. 14.—(Special.)—A Bay of Quinte Railway train ran off the track at Yarker to-day. No one was injured. The train was sent out from Kingston to carry the passengers.

MEN WANTED INCREASE.

WINDSOR, Sept. 14.—(Special.)—The Canadian here deny that there has been a reduction in wages from 20 to 25 cents an hour forced upon the longshoremen. The company had been paying 20 cents an hour but the men had been asking an increase to thirty.

MIXED DOUBLES FINAL... Miss Moyes and Mr. Baird Best St. Matthews Pair After Dropping St. The Ontario lawn tennis championships are nearing completion, the mixed doubles and ladies' handicap being finished yesterday. In the mixed doubles, the combination of Miss Moyes and Mr. Baird proved too strong for the St. Matthews' pair, they winning in straight sets. Miss Summerhayes played a splendid game, but her partner, Mr. Baird, was too strong for her. Miss Graham succeeded in defeating Miss Fairbairn in the ladies' handicap, winning the handsome cup presented by Mr. Wagner of Buffalo. Summary: Miss Fairbairn defeated Miss Baird, 3-1, 4-1. Miss Moyes and Baird defeated Miss Summerhayes and McEachern, 5-1, 6-4.

Off-Hand Rifle Scores. At the semi-annual match of the Canadian Rifle Association, held at York Mills, W. Latimer of Toronto once again succeeded in proving his right to the Canadian off-hand rifle championship medal, which he has now held for three years. H. Ball Player Goes Nuts. NEW YORK, Sept. 14.—A special to The Times from Philadelphia says: Sherwood McGeer, star left fielder of the Philadelphia Athletics, last night was attacked with acute indignation. The attack caused him to temporarily lose his mental balance. He burst into a fit of rage at his wife, who was sitting at his bedside, and then struck her. He was taken to a hospital, where he was examined by a physician, who found that he was suffering from a severe case of melancholia. VanZant, a member of the club, was made the recipient of a very handsome diamond ring. The presentation, referred to in the excellent showing the club had made during the past season, and spoke very highly of the indefatigable efforts of Captain Shea to make this a banner year for the Philadelphia Athletics. VanZant was made a member for all their kindnesses to him, and promised as good a showing next year.

SOUTH AFRICA FEDERATION

Next month will be important and may be historic in the history of South Africa. In accordance with arrangements sanctioned by the governments of Cape Colony, Natal, the Orange River State and the Transvaal, a convention will be held for the purpose of ascertaining whether an agreement can be reached for the federation of these self-governing communities.

In anticipation of the conference the Hon. R. H. Brand of Johannesburg was commissioned to procure information regarding the working of federal institutions within and without the British Empire.

As to unrestricted reciprocity with the United States, the Liberal leaders recently assailed Conservative governments from 1878 to 1896, by reason of their failure to obtain better trade relations with the United States.

For two years the opposition fought hard in the face of obstructive tactics to bring many such matters to light in the public accounts committee.

During the session of 1907, Mr. Borden said he moved for a thorough and searching investigation into the marine department by a parliamentary committee, but Sir Wil-

frid and the principle that carries this proposition has been fully recognized both in the United Kingdom and the United States.

The Financial Post's correspondent makes a point about the refusal of the City of Toronto to buy out the Electric Light Company on the basis of its earning powers and refers to the action of the British Government when acquiring the electric telegraph lines.

BORDEN OPENS CAMPAIGN

with the full legal penalties. "If we preach purity and practise corruption, we will be worthy of all the scorn that can be poured upon us," he said.

Coming to the issues of the campaign and the record of the government, he outlined the declaration of principles of the Liberal party in 1893.

Turning to the third plank, "Purity of Administration," the record of corruption was so long and so startling that the whole evening might be occupied in enumerating the scandals brought to light during the past three years.

For two years the opposition fought hard in the face of obstructive tactics to bring many such matters to light in the public accounts committee.

The party press, subsidized during the past 12 years to the extent of nearly \$6,000,000, strained the resources of the English language in denunciation of the members of the opposition.

The commissioners also strongly criticized the department of militia, pointing out that in less than five years the expenditure had sprung from \$3,500,000 to \$6,500,000 without any corresponding increase in efficiency.

POLITICAL INTELLIGENCE

The story in The World that Secretary of State Scott will retire from the government and that Charles Murphy, K.C. will be called to fill the vacancy, has been confirmed.

It is said that Hon. A. B. Aylesworth is returning from Vienna after his hearing on the "McCarthy" case. There is no definite information on the subject.

The Globe says election day is almost sure to be October 23 or October 24. The Star says October 27. The date will be announced on Wednesday after a cabinet meeting.

Victoria Liberals will hold a convention at Lindsay on the 19th.

J. P. Downey, M.L.A., and E. A. Lancaster, M.P., will speak at Niagara Falls on Wednesday.

It is stated that Hon. T. Mayne Daly has consented to run in Brandon against Hon. Clifford Sifton.

J. Finlay, M.P., J. W. Bryans of Havelock and John Lang of Keene, are in the running for the Liberal nomination in East Peterboro to-day.

Hon. Frank Oliver has left for Alberta and will not return to Ottawa till after the elections.

It is announced that Dr. W. D. C. Cowan of Regina has decided to run as an independent Conservative in opposition to J. K. McInnes, the party nominee and W. E. Martin, Liberal.

Dr. Cowan was the unsuccessful nominee at the convention and moved to make the McInnes nomination unanimous, and he has since supported the latter on the platform.

Hon. G. E. Foster has arranged to address the following meetings: Wexford, September 17, accompanied by J. P. Downey, M.L.A., and J. P. Lalor, M.P.; St. Catharines, September 21; Owen Sound, September 22; and Peterboro, September 23.

What of the independence of parliament for which Sir Wilfrid Laurier and his friends declaimed in 1897? Before the present session of parliament was opened, a member of parliament who had demanded consideration of the independence of parliament, had been appointed as a lieutenant-governor of Ontario.

Mr. Borden briefly enumerated the details of some of the largest timber deals, and then proceeded to discuss the Liberal planks 7 and 8, dealing with the franchise Act.

Plank No. 9 called for the reformation of the present constitution of the body which was inconsistent with the federal principle and in other respects defective.

dress expressive of their appreciation of his services in connection with the Orange order.

"A solid Simcoe for Borden" is the cry of the Collingwood Enterprise Messenger. In the past "Billy" Bennett had 873 to the good four years ago an increase of 89 over 1900, while in the south opposition to Hauserman Lennox is merely nominal, as the riding has a straight Conservative record since confederation, with three acclamations, and the 1904 majority was 1050.

The North is the third and last of the Simcoes. Leighton McCarthy, a native of the Collingwood Enterprise, won in 1900 by 588 as a "McCarthyite," receiving nearly the full Conservative support. Soon after this he received the Liberal nomination, and was defeated by only 41 over Major Currie, Conservative, and after a recount. Now he has withdrawn, and in his place, Daniel Wilson of Collingwood is trying to hold his own against Major Currie, who is once more the candidate of a united Conservative party.

The political campaign in Ontario opens today when Sir Wilfrid Laurier will address a meeting in Queen Victoria Park, Niagara Falls. The prime minister will arrive at the lower bridge in his private car at 11 a.m., and will proceed to the meeting.

Sir Wilfrid goes to Montreal on Tuesday night for the C. M. A. banquet and will return to Ontario for his meeting at St. Catharines on Saturday. He will rest in London over Sunday and on Monday, the 21st, will speak at Etobicoke. He again returns to London, where he will rest over Tuesday and on Wednesday he will be at Chatham, Friday at North Bay, then the prime minister will come to Toronto on Sunday. The last meeting of the tour will be at Jackson's Point on Monday the 28th, tho it is announced that he will speak later on at Cornwall.

Sir Wilfrid will be accompanied by Hon. G. P. Genuan if the latter's health permits. Mr. Borden opened the campaign last night at Halifax and until election day will speak nearly every night. He will be at St. John's, N. B., tonight, Fredericton on Wednesday, Quebec on Thursday, Sherbrooke on Friday and at Montreal on Saturday.

The following week he will come into Ontario, opening at Pembroke on Monday the 22nd, then he speaks at London and the following night he will be in Massey Hall, Toronto. Arrangements for further meetings have not been decided.

The spectacular feature of Mr. Borden's tour will be the appearance on the same platform of the Conservative Premier, Robert Borden, of Manitoba and Haasen of New Brunswick, with him last night along with Hon. W. J. Haasen, Premier of Ontario, expected to return to Ottawa for the Pembroke meeting, and Premier McBride is expected to be there also.

livery. The Liberals thundered against the proposal, and the postmaster-general opposed it, yet on Aug. 28, Mr. Lemieux said that, "In a few days I expect to have the pleasure of announcing that my department will make delivery of mail in the country districts as well as in the cities."

Proceeding. Mr. Borden observed that if the young men were to be kept on the farm the convenience of communication and transportation and the comforts of life which modern conditions make available should as far as possible be brought within the reach of every farmer. The wage-earning class must not be driven by unequal competition to standards of existence which would result in the deterioration and degradation of our laboring population. The Halifax platform had regard to these considerations. It was an adaptation to conditions of to-day of the great National Policy upon which Sir John Macdonald and his colleagues swept the country thirty years ago.

A GREAT MEETING Such is the Editorial Opinion of the Halifax Herald.

HALIFAX, Sept. 14.—(Special.)—The Herald (Con.) will comment editorially on the meeting at the Borden meeting as follows:

"Last night's meeting was an epoch-making demonstration. It was the official opening by the Conservative chief, Mr. Borden, of the Conservative campaign for clean government in Canada."

"A vast audience of representative men and women of the city and province were assembled to hear the message of the leader and his lieutenants, and the strength of their words was worthy of the occasion, of the great historic party which they represent, and of Canada."

"The event was memorable and impressive. Four years ago it would have been impossible for Mr. Borden to assemble his followers on the platform of a provincial government. Those governments, with the single exception of Manitoba, were then fighting under the banner of Sir Wilfrid Laurier. Last night the Conservative chief had with him the premier of Manitoba, premier of New Brunswick, provincial secretary of Ontario, minister of agriculture of New Brunswick, and but for insurmountable official engagements, would also have had the premiers of Ontario and British Columbia."

"Three principal qualities in the addresses impressed the vast audience, and will carry conviction to the people of Nova Scotia. There was broad and patriotic statesmanship, there was the strength which comes of sincerity. There was the ring of confidence that is born of knowledge. It was in every sense a great meeting, great in its expansion, great in its exposure of weaknesses and excesses, great in its demonstration of Conservative principles and policy, great in its galaxy of prominent Conservative leaders, great as sounding the knell of corrupt government, and the ushering in of clean men of the stature of statesmen."

Sultan's First Appearance in Public

Perhaps the most astonishing recent change in Turkey is that which is represented by the spectacle of the sultan taking a drive. Until the threatened advance of two army corps upon Istanbul forced Abdul Hamid to revive the constitution of 1876 the commander of the faithful never had dared to show himself outside the precincts of Yildiz kiosk, except for the Friday drive to the Selamlik in the Hamidieh mosque, which is practically within the grounds of the palace. By thus showing himself freely to his people Abdul Hamid has done a good stroke of business for himself, because the Turk is a patient beast of burden, absolutely loyal to his padishah, and only asking not to be ridden to death by corrupt pashas and palace favorites. Hence the public appearances of the sultan have been the occasion of a series of outbursts of perfectly sincere loyalty.

DR. WILLIAM NATTRESS SUGGESTS TO PLEURISY

Fatal Illness Was Contracted at the Recent Quebec Tercentenary Camp.

The illness of Lieut.-Col. Dr. William Nattress had a fatal termination yesterday afternoon, shortly before 5 o'clock, at the residence, 42 Carlton-street. The deceased was a native of Woodbridge, Ont., and was in his 64th year. He was in rather poor health when an chief medical officer at the Western Ontario command of the permanent Army Medical Corps, he left for the tercentenary celebrations at Quebec. During the wet spell there Dr. Nattress was seized with pleurisy and had to undergo an operation for empyema. He rallied sufficiently to be brought home, but continued seriously ill. Dr. Edmund E. King and Dr. J. T. Clarke, the attending physicians, were called in to see him yesterday morning for consultation, but it was then seen that the end was rapidly approaching.

The funeral will take place on Wednesday at 1.30 p.m. to St. John's Cemetery, Weston, under the direction of Undertaker Millard.

ALD. MCBRIDE INQUISTIVE

And Asks For Some Information About the Power Bylaw.

A letter to the mayor from Ald. McBride was read at the city council meeting yesterday. It asked the following questions: "Why was the bylaw which the people passed not followed in the contract by the city? To what extent will the actual cost of light and power be increased by the peak load or load factor? Is it a fact that the distribution within the city (over and above what is well known to Hydro-Electric Commission) to cost us \$20 per horse-power per annum? Is there to be one scale of rates for all classes, or discrimination between large and small users? What rates will be actually charged to consumers for light and power?"

Ald. McBride added that he had received a reply from the mayor, but that it was unsatisfactory as it contained no information at all.

The mayor retorted that it would not be possible to give information until the city knew what the plant would cost.

Ald. McBride argued that the contract with the government, signed by the city was not along the lines of understanding upon which the citizens voted the money. The city had to bear the expense of any power lost in transmission from Niagara Falls to this town was not understood when the bylaw was passed. Several municipalities, including Hamilton, had drawn out. The city had no right to spend the money until it knew what the cost of the power would be. The mayor retorted that this could not be determined until the plans were ready. He ventured the assertion that it would be \$18.10 per horse-power or less.

Controller Harrison expressed willingness to have the board of control consider the letter, and this was decided upon unanimously.

ASQUITH BLUNDERED IN FORBIDDING HOST

So Says London Times—Premier's Action Spoken of as Insult to Millions of Catholics.

LONDON, Sept. 14.—It is evident that Catholics, because of the refusal to permit the host to be carried in the procession in the cathedral, consider that they have been badly treated. Father Sprankling, administrator of St. George's Catholic Cathedral, in this city, at the masses yesterday referred to Premier Asquith's action as one that would do more to posterity as an insult to millions of Catholics.

Cardinal Vannutelli, in an interview after the procession, said: "It has been an admirable affirmation of faith and sympathy which will not easily be forgotten by those who witnessed it. The demonstrations of sympathy came spontaneously and were well accepted by all non-Catholics, and their devotion to the cause of the 'Blue Streak.' Magistrate Kingsford had reserved judgment last week, when the case came up by Robinson, but the decision handed out by the magistrate yesterday, however, stated that the commissioners had permitted a speed limit for boats, bay waters, and that that rate had been fixed at 7 miles an hour. Robinson had exceeded this limit and was found guilty of infringing on the by-law, so was fined \$20 and costs. J. D. Montgomery, counsel for Robinson, gave notice of appeal.

### READING THE FEATURE AT NEW YORK MARKET

Speculation Subsidies, But Wall St. is Still Strong—Local Market Continues Dull.

World Office, Monday Evening, Sept. 14. The listed issues at the Toronto Exchange were pretty much sidetracked to-day. There was a fair volume of business, but it was not believed that this represented actual dealings. Speculative securities held their position largely because of the small amount of realising and the supporting interests were therefore encumbered with offerings. The mining exchanges have absorbed all the speculative local interest and this in a measure accounts for the apathy for the listed securities. An attempt was made to-day to arouse enthusiasm in regard to the Mackays, but it was found difficult to get any local following as these shares remained generally steady.

Wall Street Features.—Northwestern still cutting expenses to maintain net earnings. Traffic on the Canal since beginning of season 4,500,000 tons, compared with over 13,000,000 tons in 1907 and 1906. Light demand for stocks in the loan crowd. Rumored that the Union Pacific will surrender its holdings of S. P. in return for concession of Central Pacific control. Considerable reopening of steel mills in Southern States. Twenty-five roads for fourth week August show average gross decrease 16.39 per cent. Prospects for cheap money this fall in some measure depend on whether currency sent south is used to hold or move cotton.

Bank statement shows nearly \$22,000,000 increase in surplus and an aggregate loss of cash of \$3,000,000. M. K. and T. surplus after preferred dividend equal to 4.10 per cent. on common stock.

WASHINGTON.—Attorney General Bonaparte to-day ordered an appeal to be taken to the supreme court of the U. S. from recent decision of the circuit court of appeals in Philadelphia, on declaring the commodity clause of the Hepburn Act unconstitutional. Special Counsel L. C. Wilmer is to prepare the brief. It will be presented to the supreme court in the October term.

TERRENTON, N. J.—Vice-Chancellor Howell filed an opinion dismissing the application made by Fred Bassett, to join in the U. S. Canal Pipe and Foundry Co. from paying a dividend of 1.34 per cent. to its preferred stockholders. The dividend was for the first quarter of the company's fiscal year ended May 31 last. The amount required to satisfy the dividend was \$218,750, while the balance sheet of the company on May 31 showed a total credit of profit and loss applied to dividend only \$18,000.

Joseph says: There has been profit-taking on an expensive scale. People who bought stocks last October and on the February break this year when they were selling at prices which meant a yield of anywhere from 7-12 per cent. in St. Paul to 10 per cent. in Union Pacific and 12 per cent. in National Loan have been liquidating. This does not mean that many issues are not still very cheap, so buy conservatively. Take on some Pacifics, E. & O., Atchafalaya, St. Paul, Reading, re-selling on spurts. Northern Pacific is very good. Buy K. T. Average Steels on any further dips.

Special bullish operations, particularly in low-priced rails, are indicated by latest stock market developments. Industrialists may still exhibit a reactionary tone. General reports are very bullish on Reading. Southern Pacific should be bought on any reaction. Consolidated Gas should be bought for turns on reactions. Locomotive continues reactionary. Professionals sell Distillers on rallies. Lead still seems reactionary, despite rallies.—Financial Bureau.

There was very heavy profit-taking on the opening bulge in Reading. This selling was very well taken, and especially in view of the successful bearish efforts elsewhere in the market. We continue bullish on this stock and believe that the party which is working for higher prices in it will find little difficulty in hitting it half a dozen points further. First week of September earnings as returned by half dozen roads this morning show varying results. So system for the

week of the month. The bull interests are in full control. J. R. Holts and Co. wired R. B. Holden Reading was about strongest stock on the list, and the character of the buying impressed us that this stock will advance a good deal further. The Maine election to-day and the republican state convention to-morrow were matters that were discussed but will probably not have much stock market value. We expect to see a further bull operation in the Harriman and coal stocks, and for the present would confine operations to the buying side of these issues on weak places for turns.

20 KING STREET EAST TORONTO.

First week reported increased gross earnings of 19 per cent., as compared with a loss of 4 per cent. in gross earnings since the first of July. Grand Trunk earnings for the week and for the longer period were 15 to 16 per cent. below a year ago. Central of Georgia showed a gain of only 12 per cent. for the first week as compared with 19 per cent. for the longer period.—Town Topics.

The market of the immediate future promises active fluctuations and will probably successfully taken advantage of by the nimble trader. The fact should be kept active in mind, however, that the price-range is high and caution cannot be too strongly urged, particularly encouraging influence is the continued demand for bonds and the fact that with the scarcity of the exclusively high grades interest is now being shown in the best of the second grade issues. Henry Clews.

The stock market continues to show underlying strength, with regular healthy reactions in the advance. It looks as the prices would be advanced with the usual recessions, for some time to come, attention being directed to the first high-priced specialties. When these have reached their high level we think they will be held there, and the lower priced securities then advanced while the higher prices are being distributed. Some time later on, of course, we shall have a decided reaction from this bull market, but when this will be, and whether the low levels thus reached will be lower than prevailing prices at present is a question.—J. S. Bache & Co.

On Wall Street. Charles Head & Co. to R. R. Bondard. Nearly all the trading interest on the floor was concentrated in Reading, with the trading element swinging large blocks on both the buying and selling side. Most of the room had an idea that manipulation was the most effective factor forcing the price up to 138, again lifting its high record for the year. A feature of the trading in Reading was the heavy buying of that stock by the houses often closely affiliated with D. G. Reid. The Consolidated Stock Exchange has been somewhat of a factor in movements on the New York Stock Exchange and a part of the selling of Distillers to-day, it is said, originated on the Consolidated Exchange where a bearish feeling on that stock prevailed. There were important price movements outside of the advance in Reading and the fact being that the market was a waiting one to-day, according to most opinions, and the drought of the market would appear to be about the only development which would cause hesitation at a time when other influences are being construed favorable notwithstanding the fact that public sentiment is yet listless and indifferent to market opportunities.

The strength of Reading is quite conspicuous with recent developments and the Harriman issues were again placed in a strong light this morning by the apparent change of front on the part of a prominent and influential morning newspaper in its attitude towards these interests and the shares representing them.

Ennis & Stoopan wired to J. L. Mitchell. The market developed irregularly, with bears attacking various stocks and making headway in a few of the lower priced industrials but concentrated buying of some of the railroad issues was the real feature of the session. It is predicted that the drought of the market will shortly be broken. Railroad reports for first week of September made slightly less uniformly favorable construction favorable received last week. The Distillers meeting is to be held probably during last

For Half a Century Canada's Leading Furrier

The word "exclusive" has a wider meaning when applied to our business than that we merely handle nothing but furs. We're exclusive in the honorable history of our house extending over fifty years. We are exclusive in the exclusive quality of the goods we handle.

For over half a century our battle cry has been "from trapper to wearer." It is our cry and our policy to-day. Our exclusive policy of purchasing the pelts we mould into garments direct from the "hunter on the hill"; and we who pick out the individual fur skins know those little points of excellence that constitute their worth.

Look here! If a man of no experience set up in business yesterday and called himself an exclusive dealer in diamonds would you give him your patronage? Not much. You'd say, "Why, what does he know about diamonds?" It's the same thing exactly with furs. You can be humbugged with deceptive furs more easily than with fake diamonds.

It is because of our experience and a reputation extending over fifty years that we claim superiority over any other fur institution in Canada.

We have many imitators—our only competition is our past record.

our shores and then each individual community is obliged to assume the burden of providing food and shelter as well as accommodation in asylums and hospitals.

"Upon this record of maladministration and inefficiency our opponents," continued Mr. Borden, "do not meet the people with much confidence, and unless public opinion is utterly dead their plaintive appeals for a further mandate will meet with a chilling response. Canada believes it is time for a change."

Augury of Victory.

In conclusion, the Conservative leader referred to the presence of chiefs from other provinces, and to the more recent Conservative victories in the provinces, adding:

### EARLS COURT NOT QUITE READY TO COME IN YET

Meeting Discusses the Question Pro and Con—Scarboro Council Meet—News of County.

WEST TORONTO, Sept. 14.—While driving along Dundas-street near Bloor to-day at noon, Thomas Wright, a butcher and livyman of Streetsville, met with a serious accident. Mr. Wright was proceeding to the city with a load of hides when one of the front wheels of the wagon came off, throwing him forward over the dashboard. His head struck the pavement, inflicting several severe scalp wounds, and the wheels passed over his ankle, causing a compound fracture. The horses became frightened and dashed forward, with Wright, in spite of his injuries, still holding on to the lines. The horses were caught by some men who were passing, and Mr. Wright was taken to 108 East Annet-street, where a relation of his named Mrs. Guinness resides. Dr. A. W. McClure of Dundas-street is in attendance.

C.P.R. engine No. 1284, while in the local round house undergoing repairs, got up steam about 8 o'clock last night. The throttle was defective and the engine set forth of its own accord out of the building and into the pit of the turntable before it could be stopped. The cowcatcher and driving wheels sank completely out of sight, and the engine was forced to get out again, but the task was not accomplished until noon to-day.

Messrs. Webb and Scott, cycle manufacturers and repairers, who recently opened an establishment in Toronto, have been in this city Saturday and to-day looking for a site for location here. The property rented by them in Toronto has been sold.

The funeral of William McTaggart, who was found dead near the Old Port on Friday morning, took place this afternoon from Speers' undertaking parlors to Humboldt Cemetery. Trustee John Paterson presided at the meeting of the Collegiate Institute board to-night in the absence of Chairman Ellis. The report of Principal Colbeck showed the total enrollment in the school on the second Monday in September to have been 232, as compared with 276 on the same day last year. In the six lowest classes in the school, overcrowding usually occurs, but so far the average attendance in these forms is 41. All the classes in the school are better organized this year than last.

A resolution was passed accepting the plan of the Collegiate Institute grounds as prepared by Messrs. Howard Ellis and F. J. Johnson. The plan will be forwarded to Mr. Wolverson, landscape gardener at Grimsby, for his report upon the same. Current accounts were passed, amounting to nearly \$500. Some of the principal items were: Standard Fuel Company, \$210.96; Robt. Paterson, \$123.32; Steinburger Hendry Co., \$28.54; Toronto Junction Lumber Company, \$28.89; R. J. Bruce, \$37.74; D. D. McDonald, \$52.30; McCallister and Goodchild, \$24.88; William Briggs, \$60.47. A special meeting of the property committee of the Collegiate Institute board will be held on Thursday evening, to consider the plans for improvements to the school grounds.

### EARLS COURT.

Big Meeting Evinces No Disposition to Unite With the City.

EARLS COURT, Sept. 14.—At the Ratepayers' Association meeting to-night it was found necessary to elect a new treasurer and Edwin Pearson was chosen for the balance of the term. The absorbing question was that of uniting the district with the city. President Robinson related the interview with Mayor Oliver stating that the city was prepared to make as big an addition as possible so as to give the annexation matter a rest for a few years. Should Dovercourt go to the city and Earls Court remain part of the township it would be impossible to carry the school, as this year's school taxes were 12.3 mills on the dollar, and if the Bull estate and the Canada Foundry were cut off, it would be impossible to maintain the school. Barrister Royce was opposed to annexation, stating that the city is at its wits' end for money, and said if the city wanted to make improvements

### ments let it do so on its own accord.

If annexed Earls Court would be subject to the city's building and plumbing restrictions.

W. G. Carter and John Burns spoke strongly against annexation, the latter counseling them not to be in a hurry for annexation until the owners of lots are out of debt.

Mr. Correll, president of the Ratepayers' Association of Dovercourt, said that the township taxes were higher than the taxes on his property in the city.

A resolution was passed to the effect that Earls Court will fight annexation of any part of school section No. 13 north of Davenport-road.

After the Ratepayers' Association meeting was over the ratepayers of the school section were held as a writ has been issued in the name of Samuel Young, contractor for the building of the annex to the two schools for \$1,185. The trustees claim penalty for nine weeks on Dufferin-street school and ten weeks on Bartlett school for \$25 per week, a total of \$475.

Solicitor Royce thought that the case should be brought to court as the board has a clear case.

### SCHOMBERG.

Wednesday Will Be a Red Letter Day in History of the Village.

SCHOMBERG, Sept. 14.—(Special).—The opening of the new market takes place on Wednesday morning, September 16th, and will be followed by a carnival of sports and a field day generally. There will be a five-mile race for a valuable silver cup, 100 yards race, and many other athletic events.

### MARKHAM.

Looks Like This Year's Fair Would Beat All Records.

MARKHAM, Sept. 14.—(Special).—The 66th annual exhibition of the Markham Agricultural Society will be held on the fair grounds here on October 7, 8 and 9. The prize list is the largest and most generous ever offered and indications point to a record show.

The official program is a good one and consists of James S. Malcolm, president, P. H. Reesor, first vice-president, J. M. Cornish, second vice-president, H. S. Adam, treasurer, and A. Ward Milne, secretary.

The honorary directors are Capt. T. G. Wallace, H. T. Smith, Alex McCowan, M.L.A., George H. Gooderham, M.L.A., Dr. McLean, M.P., J. W. Curry, K.C., and Ed. Kirk. With a good board of directors and careful, economical, yet with progressive management, Markham fair this year will, it is confidently hoped, surpass its own magnificent record.

The cement foundation for the new post office is complete.

### SCARBORO TOWNSHIP COUNCIL.

Members Put Thru a Lot of Business, More or Less Important.

WOBBURN, Sept. 14.—The regular monthly meeting of the council was held here to-day, Reeve Annis presiding and Deputy Reeve Paterson and Councillors Law, Green and Ormerod all present.

Requests from every public school section were received and the amount together with the assessed value and rate are appended.

The bonds of George Green, James Green and John Green were accepted in \$700 each for the collection of taxes for Scarboro Township for 1908.

A communication was received from James Tredway of Highland Creek, Ontario, requesting a resolution to be forwarded, to honorable minister of interior re the deportation of an English immigrant named Hicks, his wife and child back to England. Resolution adopted.

These amounts were ordered paid: R. Law and W. Ross, for work, \$108; A. Callender, \$25; Leitch Lumber Co., \$30; J. Pearce, for gravel, \$3.60; J. Skelton, gravel, \$4.70; Markham Road account, \$85.25; W. Skott, work, \$22.50; Harrington Bros., \$39.50; T. Laidlaw, \$14.95; Hart & Riddell, \$7.04; Toronto General Hospital, for patients, \$63.30. A number of routine matters were disposed of.

Council will meet on Monday, Oct. 12.

**FOAMING DELICIOUSNESS**

**Holliday's "East Kent" Ale**

Is not only deliciously refreshing, but it is, above all things, characterized by absolute pureness

An eminent analyst says of "East Kent" that it is "perfectly pure, containing only the necessary ingredients in first-class ale," and also adds: "Its appetizing and strength-giving qualities render it exceedingly useful for medicinal purposes."

"EAST KENT" has been brewed in Guelf in the good old-fashioned English way by two generations of the Holliday family. They brew it as it should be brewed. You will agree with this if you once try it. At all first-class liquor stores and hotels.
