ALLIES HASTEN NORTH TO WIN VARDAR DEFILE International Army Gains Further Successes on Front of Salonica.

MARCH DOWN CERNA Serbians Extend Front Towards Babuna Pass—British Take Village.

Special Cable to The Toronto World. London, Nov. 17.—The allied offensive in Macedonia continues "with full success," a French communication of tonight says. Instead of making Monastir their objective, the allies appear to be striking for Krivolak and the banks of the Cerna River, east of Monastir. They made considerable progress towards Grunishite on the eastern bank of this river, while one of their divisions has carried a crest to the north of Iven. The Serbians have also repulsed counter-attacks of the enemy in this area.

On the western flank of this Iven-Yarashok line the French and Serbians are fighting a fierce engagement with Yarashok as their objective and the piercing of this line in which some progress has already been made is expected to open the road to advance on Constantinople by this route and so they are keeping a large force confronting the British army.

Winnipeg to Have Inquiry Into High Cost of Living Winnipeg, Nov. 17.—P. A. Mr. Macdonald was unable to say when the probe would start, but intimated that it would be delayed as little as possible.

HON. JAS. S. DUFF IS DEAD SON'S DEATH HASTENS END

Provincial Minister of Agriculture Expires Suddenly at Alliston From Heart Disease. Hon. James S. Duff, provincial minister of agriculture, died suddenly at Alliston late yesterday afternoon. Death was caused by the heart disease complicated with kidney trouble which has afflicted him for the last year.

Final burial arrangements have not yet been made, but the late minister will be interred near his farm home at Cookstown. His colleagues in the cabinet will attend in a body. He leaves one son and two daughters, one in the west and the other at home. He is survived also by his widow.

Next day, business took him to the neighboring town of Alliston. While on the street he felt faint, and sought the house of a friend, who seeing his condition, went at once for a doctor. Before they returned, Mr. Duff was dead.

At about a year ago the minister was forced to go away for several weeks by the disease which finally caused his death. He was able to see to the affairs of his department during the summer. About six weeks ago he suffered another breakdown from the same cause. On the very day on which he returned to the parliament buildings, he received the news that his son had fallen in action. He returned only a day or two ago.

The late Mr. Duff was born in Cookstown, of Scotch ancestry, on June 20, 1858. He was educated in the local public school and in Col-

Accident Delays U-Boat's Leaving. Federal Inquiry Begun Into Mishap Which Cost Five Lives. Submarine Damaged. Three Plates Stove in and Stern Twisted to Starboard.

New London, Conn., Nov. 17.—The collision which caused the merchant submarine Deutschland to abandon return voyage to Germany, almost at its outset early today when the convoying tug T. A. Scott, Jr., was sunk with a crew of five men was the subject of federal investigation this afternoon.

The United States inspectors of steam vessels, headed by Captain W. E. Withey, heard, thru witnesses, if the conditions under which the submarine, slipping out of the harbor in the darkness so that she might submerge in neutral waters before daybreak, ran down the tug which was acting as her protector, off Race Rock, just outside the harbor. This testimony came from Captain Paul Koenig, of the Deutschland, from F. W. Krapohl, his chief officer, and from Hans Kliesch, his chief engineer. It was given in secret, but it became known thru statements outside the

Paris, Wednesday, November 15, delayed—Aristide Briand, the French premier, Herbert H. Asquith, prime minister of Great Britain, David Lloyd George, British minister of war, and other representatives of the entente allied governments today held a conference. Later the British officials and Paolo Carcano, the Italian minister of the treasury, were the guests of President Poincaré.

At the close of the conference Mr. Briand and Mr. Asquith sent the following joint telegram to Boris V. Sturmer, the Russian premier: "We have heard with the liveliest satisfaction of the declaration published November 14, in the Russian press, by which the imperial government, taking note of the fresh violation of the law of nations and of international conventions, committed by Germany and Austria-Hungary, protest against their pretension of creating a new state out of territory momentarily occupied by them and of raising an army among the population of those regions."

Russia's Firm Purpose. "We rejoice to see that, following the machinations of our enemies, and throwing clear light on the illusory character of their promises, Russia, having since the beginning of the war given the peoples inhabiting all Polish lands, assurances conformable to their secular hopes, now solemnly renounces the unchangeable decision announced more than two years ago in the name of his majesty, the emperor, to realize their autonomy."

We are deeply gratified by the generous initiative taken by the government of his majesty, the emperor of Russia, in favor of a people to whom we are bound by ancient sympathies, and who reuniting, will constitute a primordial element in the future stability of Europe. We are happy to associate ourselves with the views which the imperial government intends to realize for the benefit of the noble Polish people."

BELGIANS TO BE ROUNDED UP ON GIGANTIC SCALE

Three Hundred Thousand Will Be Taken Into Slavery.

HEAVY FINE IMPOSED. Council of Tournai Made to Pay for Its Protest.

London, Nov. 17.—Thirty thousand Belgians already have been deported to Germany, according to information received here thru official channels. Reports from the same sources say that the German plan is to take some 300,000, judged from the order issued in a number of cities for all males over 17 to report for inspection.

The municipal council of Tournai has formally declined to accede to the German demand, the reports say, protesting that hitherto it had acquiesced to all the German orders. Gen. Hoepfer thereupon imposed a fine of 200,000 marks, it is added, for the refusal of the council to furnish a list of male inhabitants, with a further fine of 20,000 marks daily as long as the council refused to give the list.

Hurred From Mons. A circumstantial report from the Mons district says that the entire male population over 17 was summoned to report at German headquarters at six o'clock on the morning of Oct. 22. The priests, professors, teachers, local officials, members of the food authorities and the physically defective were exempted, but it is added, 1500 men, comprising 20 per cent of the eligible males, both employed and unemployed, were selected and hurriedly packed on cattle trucks and started for Germany. Being ignorant of the purpose of the summons, the men had assembled with their children for breakfast and without food and relatives who hurried to the station with food and clothing were refused access to the men, the report adds.

Tournai's Attitude. The resolution of the municipal council at Tournai concerning the request by the German authorities for a list of workmen says the council decides to preserve its negative attitude, and adds the following: "The city of Tournai is prepared to submit without assistance to all the exigencies authorized by the laws and customs of war. It sincerely cannot be doubted, as it has shown in its composition and has evoked an active hostility during the period of over two years that it has had to endure, the present occupation, to bid the 'prisoners' and live with them; the city has clearly shown that it is not intimidated by an undue spirit of bravado."

But at the same time the municipal council could not, further, be conscious that natural law and international law which is derived from it, forbids them to do so.

Pledge Railed On. In his proclamation of Sept. 2, 1914, the Governor-General of Belgium made this statement: "I am not asking you to renounce your patriotic feeling. The city of Tournai remains confident in this statement, which must be considered as expressing the feeling of the imperial majesty, the German Emperor, in whose name the governor-general was speaking. Consequently in following the call of honor as patriots the city remains faithful to a primary duty of which a higher German officer cannot fail to realize the nobleness."

The members of the municipal council are confident that the loyalty and frankness of this attitude will help to avoid all misunderstandings between themselves and the German army."

Insistent Reply. The above resolution was dated Oct. 20 last. Under date of Oct. 22, Major-Gen. Hoepfer and Commandant Bapen replied as follows: "The fact that the municipality allows itself by the decision of the town council to oppose the orders of the military authorities in occupied countries, constitutes an act of arrogance without precedence, and is an absolute misunderstanding of the situation arising from the state of war."

The military authorities commands and the municipality has to obey. If it fails to do this, it will have to support the heavy consequences, which I have already pointed out in my previous explanation.

The Leopard Woman By Stewart Edward White From Miss Marjory Mac-Murphy's Reviews of New Books

WHEN a lady with a jewel on her forehead and clad in silk garments is found directing a caravan across the heart of Africa, one naturally looks for romance. "The Leopard Woman" is both romantic and thrilling. It would be wrong for a reviewer to explain the exact nature of the lady's connection with Mr. Stewart Edward White's story. That can be discovered from the story itself. It is sufficient to recommend the book to all good novel readers who enjoy a thrilling romance. (Price \$1.25.)

Exquisite Imported Blouses Half-price

A splendid array of *M*odels showing practically every fashionab e feature in elaborate and simple designs.

THE majority have served as models, hence the immense reductions, and hence also the remarkably smart and very fascinating designs and the wonderful variety. There are magnificent blouses that might quite well serve as the tops of semi-evening gowns—lovely models of gold lace and net and amber velvet, silver lace and rose velvet, cloth of silver and lace with old blue velvet, and so on. Then there are airy fairy concoctions of Georgette and radium, or Valenciennes and fine French laces; there are exquisite blouses of embroidered Georgette, effective combinations of plaid or fancy silks and Georgette, as well as plainer blouses of crepe de chine and washing silk.

Some of the more elaborate designs are trimmed with fur with metallic embroidery, etc., and they show charming effects in the manipulation of hemstitching, fagoting, draw thread work, cording, embroidered dots and woe tucks, while pretty buttons are a feature of nearly all the new collars—cape, fichu, jabot, upstanding, "chimney" collars that are such a feature of the new modes, distinguish practically all, and the sleeves and cuffs also show much that is new. The colors, too, are perfectly charming, and black, navy, white, and flesh color are well represented. Half-price, ranging from \$2.50 to \$15.00.

Santa Claus is Now Established in His Fairy Palace in the Golden City, Toyland

On Monday he will receive his many young friends from 9 to 11 a.m., and from 2 to 4 in the afternoon
MAIN FLOOR, FURNITURE BUILDING

THE T. EATON CO LIMITED

From a Woman's Standpoint.

"Do the angels throw down snowflakes at us when we're happy?" inquires the Small Person of Six, who is standing at the window contemplating the first white flurries of the season. "Like everybody else, she also peeped at Aunt Marion when she got happy, and married Uncle Billy!"

Here "Perhaps they do," is your reply, with that sense of mental stupor which seems one in the presence of the infant philosopher. "Are you very happy, Peggy?"

"Oh, yes, and so are Mary and Constance. Mary is almost sure she is going to get a new head for her doll that fell out of its carriage on the sidewalk, because her mother told her the other day to dig up the shoe box and unbury her, and when Constance was sleeping with me the night before last we were positive we heard Santa Claus getting the letters we left for him at the sitting-room grate. They weren't there in the morning."

As she proceeds to dilate upon the rosy hopes of herself and her young companions, you forget the lady of four countenances who had only this morning impressed upon you that "happiness" has been dropped from our vocabulary. Watching the light dancing in this child's eyes, you realize that, after all, half the world is young. And as you look out over the top of the saucy blue bow on Peggy's hair, and see the big flakes powdering the trees, and watching the roofs, Fanny cheers your vision and warms your soul.

You see the small boy ambling along from school with an inner grin radiating through his freckles. He is thinking of the bicycle of which he has good reason to believe he will become the possessor when the dawn breaks on December 26th.

You see, too, the scrap of a maiden laboring hard with a tiny broom to get the playroom in order—a maiden who has petitioned Santa Claus for everything which in her short experience of life seems to come within the realm of bliss, from a string of pink beads to a doll's piano. And with due regard for her frown or untidiness, she is displaying unwonted zeal in sweeping her premises clean. In sure confidence that her petitions will be heard, she is the most radiant little girl you could hope to behold.

You see the older girl, who was nine on her last birthday, who has never allowed herself to forget that in the long ago it was said that some time when she was nine she should have a bracelet watch. As she sits cuddled up on the sofa, knitting a sock, and in imagination feels the timepiece already clasping her wrist, her expression is a poem on sublime content.

And, again, you see a wee fair-haired kiddy peacefully asleep in his little white cot, one hand clutching a woolly lamb, the other thrown over his head with an abandon that would thrill the soul of an artist. Suddenly he stirs a seraphic smile passes over his rosy face, and he mutters as he wriggles over "Trains, Daddy, trains" and Daddy explains that for a week past Santa Claus and toy trains have possessed all his sleeping and waking thoughts.

Thanks to the Spirit of Christmas, the Blue Bird still hops on the nursery window sill. Let us hang up the holly and mistletoe, and laugh, and sing carols as we've always done. For who would shadow the happiness of a child?

BIG LOAN TO RELIEVE THE JEWS OF EUROPE

It Will Be One of Largest Known and Without Interest.

New York, Nov. 17.—Plans to provide a gigantic loan described as "one of the largest in the history of the world, Europe definitely beyond the reach of suffering and war, were announced here tonight by Dr. W. B. B. Woodcock, who returned recently from a tour of investigation abroad in the United States. The proposal already has the endorsement of the most prominent Jews in New York City. Dr. W. B. B. Woodcock, who returned recently from a tour of investigation abroad in the United States.

RECORD PRICE FOR CHEESE

Cornwall, Nov. 17.—The remarkable price of 25 cents per pound was paid for the Cornwall Cheese Board today for the 1916 colored cheese boards. This establishes a new record for Cornwall cheese, the best previous price being 23 1/8 cents, secured a week ago. The date in 1915 the price was 10 1/2 cents.

KETTLEBY BARNS DESTROYED

The barn and outbuildings belonging to Frank Irons, on the 5th concession, King Township, near Kettleby, together with the contents, were burned to the ground a day or two ago, but the dwelling was saved. The loss will be in the neighborhood of \$5000, on which there is said to be small insurance.

and referring to the taxation of the International Nickel Company, he said that the company under the law was bound to pay a tax on the province three per cent of its net profits. Those profits last year were at least \$150,000, but the company paid out \$450,000. On the contrary it paid out \$100,000 and it has been paying out \$40,000 for years past. You may ask how they could avoid paying their share of taxation. They escaped paying it by illegal agreements made and entered into between the Ontario government and the International Nickel Company. The first agreement which was to run for five years, was made by Hon. Frank McCormick, minister of finance, lands and mines. When his successor as minister, Hon. W. H. Hearst, renewed the agreement for another five years, it appears that W. H. Hearst, who is now prime minister, was reluctant to make the renewal, but he yielded to the pressure brought upon him. It was only when the ministers of the crown, with their ears to the ground in the southwest Toronto election, became terrified by the fear that their seats would be made to pay their fair share of the taxation and to make the legislative retroactive. There was ever a more humiliating spectacle than the death bed confession of Hon. Howard Ferguson? If he and his colleagues had done their duty and collected the money due on the past five years, there would be no necessity for retroactive legislation, said Mr. Rowell.

ROMANS PREVENT FOE FORCES' JUNCTION

Bloodily Repulse Attempt to Join Hands With Kimpolung Army.

London, Nov. 17.—The Roumanian retirement some kilometers south of "Tirovulli," says a Reuter despatch from Bucharest, "is due to the continual reinforcement of the enemy, and above all, to the superiority of the enemy artillery. On the left bank of the Ait, the enemy tried by crossing a mountain range to join hands with the forces operating on the Campolung side, where the German attacks were bloodily repulsed."

HON. I. B. LUCAS
BETWEEN FIRES

Seems Attorney-General Gets
Blame for Whatever He
Does.
FRATERNAL SOCIETIES
Censured for Certain Action
and Then Told to Re-
peat It.

What is the attorney-general to do?
He is accused by the Liberals, at least
by The Globe, of injustice with regard
to the action taken in the case of the
Ancient Order of United Workmen, and
then, when that "campaign of innu-
endo," as he termed it, has been given
a few weeks to simmer down and be
forgotten, he is pestered to do some-
thing, presumably the same thing, with
all other fraternal societies. "It is an-
other case of the devil and the deep
sea." This is the way in which the
attorney-general summed up the situa-
tion yesterday.
Mr. Lucas explained that by the pro-
visions of the act passed at the last
session of the legislature, all fraternal
societies are required to send in a
statement as to their actuarial solvency
on or before January 1 of next
year. This statement must be sent to
every member and be inserted in the
society's charter. It is further provided
that the companies will then be given
three years in which to show whether
they are able to hold their own or not.
If so, well and good. If not, the gov-
ernment will take action—presumably
to rescind their charters and so pre-
vent them from securing new members.
Averse to Club.
They did not want to use the club
of legislation against these companies
if they could find a way to guide them
into actuarial solvency, said the attor-
ney-general, who showed a resolution
which that day had reached him from
a fraternal society in a provincial town
complaining in the bitterest terms that
the agitation against the fraternal
companies was inaugurated by the big
line companies, and calling upon the
attorney-general to prosecute those
parties for criminal offence.
"You see how it is," said Mr. Lucas,
"if you do anything in this matter, you
are told that you are aiding the big
corporations to crush the poor man's
society; and if you do not do it, you
are told that you must act and protect
the poor man."

TEACHERS FORM
NEW ASSOCIATION

Under Constitution Similar
to That in Force in Nine-
teen-Eleven.
THE PREMIER SPEAKS
Denounces Eligibles Who Will
Not Take Place in Em-
pire's Cause.

While the majority of the women
teachers present at convocation hall
yesterday at the annual meeting of
the Toronto Teachers' Institute, knitted
socks for soldiers, Premier Hearst de-
nounced in scathing terms men who
could, but would not take their place
in the battle line. These he put in
a class of men who lagged behind.
"It is a class of men who are too
selfish, too indifferent, too cowardly
to fight in the greatest battle for free-
dom the world has ever seen," said
the premier. "Men who desire to en-
joy the freedom, the protection of life
and property the British flag affords
at some other man's expense; men
who are anxious and willing to enjoy
life under the Union Jack, but who
leave other men to fight and die that
that flag may continue to float the
signal of liberty. Men who are con-
tent to rest warm, comfortable, and
well fed at home while their fellow
men are hungry and thirsty and wet
and cold in the front trenches, in the
far-off battlefields, and still have to
fight on without relief because no
more reserves are left to take their
places."
Hon. Mr. Hearst divided the man-
hood of the country into five divisions,
these too young to fight, those with
"old" colors and those too old or not
physically fit, those assisting the coun-
try more in their present occupations,
and fifthly, men who lag behind.
Canada Looks to Youth
The ranks of the soldiers would be
sadly depleted by the war and the
old men and experts would soon be
passing away so it was to the youth
of the country that the man of the
great Canada of the future would be
drawn from. The teachers, next to
the boys, had the greatest opportunity
of training the boys and girls of the
province for a greater and larger ser-
vice, and the nation de-
pended just as much on the women
as on the men, whether they had the
vote or not.
In these heroic times it was a great
opportunity to teach the children to
follow the example set by their fathers
and brothers in Europe and one,
he said, should not be missed.
Referring to his visit to the front,
the premier told of the bravery and fortitude
displayed by the Canadians, many
of whom a few months before had
been school and college boys.
To fire the young with patriotic en-
thusiasm and to instill lessons of de-
votion was the great mission of the
teacher, said the premier. They should
be taught that death itself should not
be feared, that a noble death is a better
achievement than a dishonour and disgrace.

SPLENDID BOOKS FOR
CHILDREN ON VIEW

Admirable Selection at Children's
Department of College
Street Library.
Mothers and fathers, together with
doting aunts who would otherwise
lurch on a maze of doubt and diffi-
culty in selecting books to fill the
stockings at Christmas time, will find
all their cares brushed away by tak-
ing a look through the delightful and
admirably selected exhibit now on view
in the children's department of the
College Street Library.
The selection is ravishingly beauti-
ful from an artistic standpoint, so
much thought having been expended
on the bindings and illustrations. The
type, too, is exceptional, and the
stories—well the stories are just
the thing that boys and girls revel in,
reaching back to the fairy-tales of
Grimm and Mother Goose and coming
down to the very present story of the
great war.
"The Black Arrow," by Stevenson,
is one of the most popular books of
the day. It is beautifully illustrated.
Lamb's Shakespearean tales are dress-
ed up even more attractively than on
former occasions. "Pinocchio," by
Collodi, "A Boy Scout With the Rus-
sians," by John Finnemore, "Jungle
Crums," by Verral and scores of
others are all to hand, each with its
tempting blandishments.
There are bird stories and books
that treat of bees. There are stories
of horses and stories of the Canadian
woods. Those who delight in browsing
among the ancients may find quaint
old volumes that have been renovated,
amongst them the first edition of "Lit-
tle Red Riding Hood."

Increment Taxation

Ald. Ball has brought in his plan for levying an increment tax on real estate the value of which has been enhanced by the growth of the community in which it is situated.

There are two excellent reasons for the levy of an increment tax apart from the obvious justice of the plan. One reason is that the person taxed gains the extra value that has come to his property.

The assessment Act provides that all real estate be assessed at actual value. If this provision were carried out there could be no increment tax, as the amount would come out of the sum which changes hands.

Ald. Ball chooses as an example of the operation of the increment tax the case of the Detroit man with the German name, who asks \$250,000 for fifty feet of real estate on Hayter street.

Are You Helping to Martyr Belgium? Belgium, the violation of whose integrity by Germany was the cause of the great European war, may yet embroil other nations than the European.

MYSTERY BUILDING UP TO COUNCIL

Boards of Control and Works Pass It With Slight Amendment.

ASSESSMENT DEBATED

City Architect Recommends Change in Height of Buildings Bylaw.

With one or two minor amendments the board of works and board of control yesterday granted in their entirety the concessions asked by the principal behind H. H. Williams in his negotiations for the new 15 storey 43,000-sq-ft department store to be erected on the mystery block at the corner of College and Yonge streets.

Opposition to the requests of the concern arose, principally from their assessment demands. They ask a permanent assessment of 10 cents per cubic foot. After two years' debate, Alderman Plewman moved that the cubic foot assessment rate be determined by the assessment commission.

Mr. Williams: "We paid high prices for that property. We cannot carry it now for years at seven per cent, and then re-sell to you at the original price."

During the course of the discussion, Mr. Williams said: "I thought we had the negotiations so arranged that there could be no argument. I believed that you would grab that money. Maybe we have come to the wrong place. I represent men interested in the same block as you."

U. OF T. AT SALONICA

Editor World: The public have recently been given the impression that it was a mistake to send No. 4 Canadian General Hospital (University of Toronto) to Salonica.

Anyone who knows what the hospital has done and realizes how much it has contributed to a proper development of the imperial spirit, regrets that such statements should go abroad.

It must be remembered that this hospital was equipped by the friends of the university in a way that made it possible to do scientific work in a thorough manner. How well it has succeeded will soon become a matter of history—in fact already well known to the imperial authorities.

The point to be made here is this: that no one associated with the organization or development of the unit regretted the fact that it has been used chiefly for the treatment of others than Canadians.

Stirring Stories to Be Told At Big Prohibition Rally

The Mass Meeting in Massey Hall Sunday afternoon, will be addressed by a number of men who have exciting stories to tell. Among them are those who were leaders in the contest that during the past year won total provincial prohibition for British Columbia, Alberta, Saskatchewan, Manitoba, New Brunswick, and Nova Scotia. There will also be those connected with the hard fighting done in Ontario, Quebec and Prince Edward Island. The manager of the Michigan campaign will speak, and Col. Williams, of recruiting same, will be heard from. A preliminary musical service led by the Imperial Concert Band, will begin at 8:45. There will be an offering taken for Dominion prohibition work. Gold Medalist Willie Bennett, the boy soprano, will render solos.

WEEKLY ATHLETICS AT WEST END Y. M. C. A.

In the West End Y.M.C.A. Volley Ball League this week Mason Wilson's team again annexed two games from that of George Chisholm's team, thus increasing their lead. The two games played by Thos. Giles and Harvie Adam were divided, each team winning one. The league standing to date: Won. Lost. Mason Wilson 9 1 Harvie Adam 4 6 Thos. Giles 4 6 George Chisholm 3 7

Interest in the indoor athletic events is rapidly increasing. The standing of the teams is so close and the competition that of the keenest that the success of indoor athletics is assured. In class "A" championship only 28 points separate the first and last teams, and every team captain is working hard to win the Brockley Trophy. The team standing is as follows: Class A. Class B. D. Kettlewell 1832 1774 H. Adam 1348 1686 M. Wilson 1832 1710 G. Chisholm 1824 1481 In the individual championship for the Barry medals H. Adam leads with 394 points, closely followed by Chisholm with 393 and Kettlewell 321. This week's event, the 220-yard potato race, went to G. J. Thomson, an entirely new man, who had a handicap of seven seconds, doing the furlong in 84 seconds flat. J. G. J. Thomson (handicap, 7 seconds), 57 1/2 seconds. W. B. Schults (handicap, 5 seconds), 57 1/2 seconds. Actual performance—Mason Wilson, 60 1/2 seconds; George Chisholm, 60 1/2 seconds.

JOHNNY DUNDEE HAS IT ALL FIGURED OUT

Johnny Dundee explains his failure to score more knockouts as follows: "I try to be doing something every minute I'm in there. I try to be on the jump, doing something all the time, so that, if a fan takes his eyes off the bout for one single second, he's going to miss something. "It's true that my speed prevents me in a way from being a great knockout man. But they say I'm the fastest man in the world, and even if I didn't believe in the action theory, I don't see how I could afford to sacrifice it for a knockout wallop. I know I'd rather see a man hitting a hundred stinging punches than one remaining set for ten rounds and then putting over a big one. I think the average man does, too. "And, besides, I don't hit such a light punch. I'm no Dutch Brand when it comes to punching. I haven't knocked any good men out, but how many of these good men have knocked me out? Why can't I punch as good as they?"

BREAKING INTO BASEBALL CAREER OF EDWARD WALSH

For a quarter of a century it has been the custom for Downington to forget that there was coal to be dug when the Fourth of July rolled around.

There was a reason for gaiety; a reason that brought smiles to lean Welsh faces and broad German and lively Irish ones alike. On that day the baseball team from Westchester traveled to Downington to play the athletic lads of that place, and the ringing crack of bat against ball momentarily banished the habitual monotony of their lives.

So it was natural that when the announcement came that Westchester was to be chosen to pitch, Edward Walsh did not pitch—and he worked so effectively that his opponents failed to secure more than a couple of scratchy hits off his delivery.

nearly every case where a man has become famous in the big leagues an element of luck gave him his opportunity to break in. Walsh could have pitched as well as well as did on that Fourth of July, 1902, and had nothing come of it.

So Ed wrote, "Terms accepted," and his hand was developed. Up in Meriden Walsh twirled great ball, from the start and Mr. Danaher has been in the field for some time.

"SMALL SECTOR" LOST

Berlin Persists in Distorting Facts of Anglo-French Offensive.

Berlin, Nov. 17.—Concerning the recent fighting in France, the military critic of the Overseas News Agency writes:

"The attacks on the Ancre and near Pressoire prove that the entente has decided indefinitely from the original plan to break thru the German front on the Peronne-Bapaume sector. After 126 heavy and bloody days of battle, which caused over 600,000 casualties to the Anglo-French, they are not yet masters of this small sector on the Somme.

"The Anglo-French were compelled to push back the German positions by force and to flanks in order to avoid the risk of getting into a most dangerous position in case of a German counter-offensive.

Under Heavy Fire.

"On the Ancre the German position formed an angle. Near St. Pierre Division it was already half encircled. Despite the permanent pressure against the Beaumont-Beaucourt leg, situated north of the Ancre, and the Thiepval-Courcelles position, the Anglo-French had been unable to push back the defenders from this position, although the German trenches and their approaches were far away, and obscured by the mist of smoke. The German batteries had for weeks been under the flanking fire of the British batteries. The tenacious resistance finally forced the enemy to concentrate a superior force of men and artillery in order to re-take it.

Termed Local Success.

"Finally, after the gas had blown over, a mass attack was started on the left side of the Ancre. The principal thrust against the heights of the Serre and the Serre-Mally's roller bitter hand-to-hand fighting. At least seven British divisions were engaged in the attack, and the advance of five divisions on the post between Beaumont and Beaucourt. After tenacious hand-to-hand fighting in pieces of trenches, grass-holes and the ruins of the razed village of Beaumont, Beaumont and St. Pierre Division British succeeded in conquering this position which had been destroyed completely in a few days of drumfire. But near Grandcourt (northwest of Courcelles) the Germans brought the attack to a standstill.

Weakened by Anaemia Doctors Gave No Hope

Said She Was Threatened With Consumption, and Gave Her Three Weeks to Live.

Anaemia is indicated by thin, watery blood. The gums and eyelids grow pale, there is great weakness and fatigue and digestion fails. Since Dr. Chase's Nerve Food forms new, rich blood, it is naturally the most suitable as a treatment for anaemia. This letter proves its efficacy in the most severe cases.

Don't Put Your Car In Cold Storage

RAIN, sleet and snow lurk at the horizon. Any morning as you drive downtown in your motor car, your wheels may flounder along a pavement slippery with mud and slush.

Treacherous steering for a nervous driver, not sure of what is under him.

But don't banish the good old car to the garage loft yet. Consider that the difference between safe and hazardous motoring is not cars but tires.

And turn to those tires of triple treaded safety—Goodrich Black Safety Tread Tires.

Note the design of the tread—five straight fingers and the cross-tie. Its simple, common sense argument tells in a look how it grips through mud or slush.

Rain or shine, it puts fair weather under your car.

Don't deny yourself the joy of summer motoring because it is winter. Make your car an all-the-year car by equipping it with—

FOOD TICKETS NOT YET NECESSARY IN BRITAIN

Adoption of German System Not Likely, Says London Times.

FOOD PRICES SOARING

Increase of Seventy-Eight Per Cent. Since the War Began.

London, Nov. 17.—Under the heading "No food tickets yet" the Times editorially states that the question of granting food tickets is not regarded as likely to arise immediately.

In connection with the government's decision to appoint a food dictator and institute a form of war bread, other drastic measures to control food staples...

"Taking the country as a whole, the increase in the retail cost of food at the beginning of the war until Nov. 17 is 78 per cent."

The rise in potatoes is based upon the relative importance of the various articles of working class expenditure. As relates to food only it may be reduced to 72 per cent.

"If the increase on the duties upon sugar be deducted, a large proportion of the increase will be found due to the rise in the price of potatoes, the average retail price on Nov. 17 being 2 3/4 pence per seven pounds, compared to 4 1/2 pence a year ago, and 3 3/4 pence on the corresponding date of 1914."

"The price of flour has increased 7 per cent. during the month. The average price is 5 1/4 pence a quart. The price of flour has advanced 6 per cent. of bread 4 per cent. bacon 2 per cent. Eggs are dearer than they were a month earlier by 10 per cent., and fish by 12 per cent. Butter and cheese have risen 4 per cent., bacon 2 per cent."

"Retail food prices Nov. 17, 1916, compared with similar prices in 1915, showed an average increase of 77 per cent. Potatoes are more than double; granulated sugar is dearer by 39 per cent. During the year increase in prices of flour, bread, milk, butter, cheese, fish, bacon, meat, and margarine."

"The percentage increase on butchers' meat compared with those of July, 1915, show from 54 per cent. on British to 115 per cent. on foreign. On frozen steaks of mutton, of other articles the retail prices are more than double."

"The average price of potatoes, potatoes, and flour are 76 per cent. above the level. It may be estimated that the average increase in the cost of living in the working classes since July, 1914, taking food, rent, clothing, fuel, light, and miscellaneous expenditures, is 65 per cent., disregarding increased taxation."

POTATO PRICES DROP IN NEW BRUNSWICK

Falling Off Is From Fifty to Seventy-Five Cents Per Barrel.

St. John, N.B., Nov. 17.—Potatoes have gone up for the consumer as the brightest spot in the country market list yesterday, when a falling off of 50 to 75 cents a barrel was reported over the price of last week.

The markets all need to be well supplied, and this is believed to be responsible for the slump.

There is a general feeling among city dealers that the price is down to stay down. There are still plenty of potatoes in the province, and the sudden severe slump will tend to further deter shipments until spring.

Some potatoes brought to the city by boat were frozen in the warehouses last night. Firms in the eastern part of the province which send to Ontario and Montreal markets are getting \$2.50 a barrel, but since the recent slump have held potatoes.

"A number of potatoes of excellent quality have been coming across the Straits in large quantities, but the closing of the straits between Summerside and Point DuChene will soon shut off this supply."

FOE AIMS TO MAKE WASTE OF BELGIUM

(Continued From Page 1) and Belgian industry. Instead they have exacted forty million francs a month from Belgium...

They have drained Belgium dry and stripped her bare, and we know this by the deliberate calculation to create maximum amount of unemployment in order that when the proper moment arrived their slave raids might begin.

Relief Comes From Allies. "Further, the Germans justify their action on the ground that the unemployment themselves created had become so bad as to overstrain the resources of the poor relief. This is the most important thing even Germany has said since the war began.

It is kind of the Germans to be so anxious to overstrain our resources, but it is fair to ask what right the Germans have to make the charity of the world an excuse for enslaving those who receive it. The Belgians are going to Germany on no ordinary work. They are to be caught up and crushed in the great new German machine for mobilization of labor.

MANY WAR WIDOWS WILL IMMIGRATE

Salvation Army Has Scheme to Assist Women to Canada.

GOVERNMENT TO AID

General Booth Wants Fund of Million Dollars for Purpose.

London, Nov. 12.—A scheme which has been under consideration for some time by the Salvation Army is now complete for transferring British widows with their families to the overseas Dominions, and to increase facilities for the migration of other women desiring to go to Dominions when the war is over, and to absorb all demand for female labor is exhausted.

In a recent issue of the "War Cry" General Booth intimates that a fund of one million dollars should be raised, and \$360,000, has already been subscribed. The public trustee has agreed to act as treasurer of the fund, and the sum asked for should secure the settlement of five thousand widows and ten thousand children. The work, which requires careful and gradual preparation on this side as well as in the Dominion for the proper settlement of the families, would be conducted over a period of five years.

Close co-operation between the Salvation Army and the Dominion Government is already assured, several of the states have already come forward with offers of active support, and special representatives are being despatched to the colonies at once. General Booth points out that under the scheme, worthy widows living in oppressive or unsatisfactory environments, can be transferred, free of cost to themselves, to progressive overseas communities where there is more elbow room for the energetic and enterprising and where she will be fortified while remaking her way in the knowledge that she has the weight of the Salvation Army at her back.

He sums up the army's undertaking on behalf of the women as follows: "The army will not advise anyone to emigrate or become responsible for the migration of any one who may not conform with the standards of civilization it has set up through its long experience with migration. "The army will provide for the reception and secure positions in given localities prior to sailing for them, it may select for overseas settlement under this scheme. "The army undertakes the supervision, by its own officers or responsible persons, of the families migrated for four years, or until such time as the progress of the new settlers indicates that such guardianship can be dispensed with. "In the event of failure to succeed in her new environment after four years' trial, a contingency regarded as remote and exceptional, the army will bring back the widow to this country. "General Booth claims that the responsibilities thus voluntarily undertaken on behalf of the women reach farther, and are more comprehensive than anything required by state regulation or anything that might be attempted by any other organization.

IF BACK HURTS

BEGIN ON SALTS

Flush Your Kidneys Occasionally If You Eat Meat Regularly.

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat forms uric acid which clogs the kidney pores so they sluggishly filter or strain only part of the waste and poisons from the blood, then you get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, constipation, dizziness, sleeplessness, bladder disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts, or if the urine is cloudy, offensive, full of sediment, irregular in passage or attended by a sensation of scalding, get treated by four ounces of Jad Salts from any reliable pharmacy and take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with bicarbonate and has been used for generations to flush clogged kidneys and stimulate them to activity, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder disorders.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink which is regular meat eaters should take now and then to keep the kidneys clean and the blood pure, thereby avoiding serious kidney complications.

THE BLESSING OF A HEALTHY BODY

Has Not Had an Hour's Sickness Since Taking "Fruit-a-tives."

MR. MARRIOTT. 73 Lees Ave., Ottawa, Ont., August 9, 1915.

"I think it my duty to tell you that 'Fruit-a-tives' has done for me. Three years ago, I began to feel run-down and tired and suffered very much from Liver and Kidney Trouble. Having read of 'Fruit-a-tives,' I thought I would try them. The result was surprising. During the 3 1/2 years past, I have taken them regularly and would not change for anything. I have not had an hour's sickness since I commenced using 'Fruit-a-tives' and I know now what I haven't known for a good many years—that is, the blessing of a healthy body and clear thinking brain."

NEUTRAL ZONE ON BORDER OF GREECE

Gen. Roques Notifies Greek Government of Gen. Sarraïl's Action.

PREMIER ACQUIESCES

Step Taken to Protect Immediate Rear of Entente Powers.

London, Nov. 17.—Gen. Roques, the French minister of war, has informed the Greek Government that Gen. Sarraïl has sent troops to maintain a neutral zone along the frontier of Old Greece, according to a despatch to The Times from Athens. The despatch says that Premier Lambros acquiesced in principle to this step. It adds that the allies only propose to use a section of the Greek railroad for a supply service to Salonica. Details of demands made upon King Constantine of Greece by Gen. Roques as proofs of the monarch's friendliness toward the entente, are also given in a letter's despatch from Athens. According to this despatch Gen. Roques has given a memorandum regarding the demands to Premier Lambros to whom he was referred by King Constantine. It is stated that the memorandum calls for use of Greek railroads by the allies, the surrender of a number of suppositions, the expulsion of a number of supposed German agents and the occupation of a specified neutral zone by French troops.

The foregoing apparently means that the Greek forces are to be kept out of Greece Macedonia and south of a neutral zone running westward from a point about fifty miles south of Salonica. Thus Gen. Sarraïl's forces in Macedonia will no longer be menaced by a Greek army in their immediate rear.

RUSSIA'S STAND FIRM FOR FIGHT TO FINISH

Quietness Put on Rumors Originating in Enemy Countries.

Petrograd, Nov. 17.—The minister of foreign affairs has sent a telegram to all Russian representatives in all countries declaring Russia's firm determination not to make a separate peace under any circumstances, according to the semi-official news agency. The text of the telegram is as follows: "Petrograd, Nov. 16, 1916: Reports spread about recently by the press of certain countries of pretended secret negotiations between Russia and Germany and the signing of a separate peace are futile and make no impression on the Russian Government. The signing and the imperial government desires to declare in the most categorical manner that these absurd rumors can only find source in enemy countries. "Russia will maintain intact the intimate union which binds her to her valiant allies and, far from thinking of the conclusion of a separate peace, will fight by their side the common enemy without the slightest faltering until the hour of final victory. Nothing that our enemies can do will shake in any degree the irrevocable decision of Russia."

"You are charged to give the largest publicity to the preceding, and to bring the contents of this determination to the knowledge of the government to which you are accredited."

TAKE OVER COAL MINES.

Lord Rhonda Suggests Action by Government.

London, Nov. 17.—Suggestions that the government take over operation of British coal mines producing coal for the navy were made today by Lord Rhonda, one of England's principal coal mine owners. Recently it was predicted that Rhonda's merger of several mines put out a step in a plan he had mapped out for nationalization of mines. Lord Rhonda was formerly D. A. Thomas. He came to Canada soon after the outbreak of the war to begin the organization of Canada's resources, especially for the manufacture of munitions.

SAYS HOT WATER WASHES POISONS FROM THE LIVER

Everyone should drink hot water with phosphate in it, before breakfast.

To feel as fine as the proverbial fiddle, we must keep the liver washed clean, almost every morning, to prevent its sponge-like pores from clogging with indigestible material, sour bile and poisonous toxins, says a noted physician.

If you get headaches, it's your liver. If you catch cold easily, it's your liver. If you wake up with a bad taste, furred tongue, nasty breath or stomach becomes rancid, it's your liver. Sallow skin, muddy complexion, watery eyes all denote liver uncleanness. Your liver is the most important also the most abused and neglected organ of the body. Few know its function or how to release the jammed-up body waste, bile and toxins. Most folks resort to violent cathartics, which is a dangerous salivating chemical which can only be used occasionally because it accumulates in the tissues, also attacks the bones. Every man and woman, sick or well, should drink each morning before breakfast, a glass of hot water with a teaspoonful of the common phosphate in it, to wash from the liver and bowels the previous day's indigestible material, the poisons, sour bile and toxins; thus cleansing, sweetening and freshening the entire system, and before putting more food into the stomach.

Limestone phosphate does not restrict the diet like calomel, because it can not salivate, or it is harmless and you can eat anything afterwards. It is inexpensive, almost tasteless, and any pharmacist will sell you a quarter pound, which is sufficient for a demonstration of how hot water and limestone phosphate cleans, stimulates and freshens the liver, keeping you feeling fit day in and day out.

BOARD WILL INQUIRE INTO MEDICAL TANGLE Sir George Perley Takes Step to End Hot Controversy. London, Nov. 17.—Sir George Perley, minister of overseas service, has taken an important step regarding the report upon the Canadian Medical Services by Col. Bruce of Toronto, and the reply thereto by General Carleton Jones, director of medical services. Sir George has referred both documents to a board of enquiry. Surgeon-General Sir William Baptye, who will act as president, was selected at Sir Geo. Perley's request by the director-general of the Imperial Medical Corps. Other members are Colonel E. C. Ashton, G.O.C., Shorncliffe; General G. F. Fotheringham, Toronto, A.D.M.S., Canadian S.-cond Division; Colonel A. E. Ross of Kingston, A.D.M.S., First Division; Lieut. Col. J. M. Elder, Montreal, First Canadian Hospital, Boulogne. This board has been requested to assemble immediately and report with the utmost despatch and is specially requested to hear evidence from Col. Bruce and General Jones.

ARMED OFFENSIVE TO END WITH WAR Battle of Somme Will Last Great Deal Longer, Says Frederick Palmer.

FIERCER FIGHT AHEAD Fighting Next Year Will Be Much More Expensive in Lives.

New York, Nov. 17.—Frederick Palmer, the war correspondent designated by the British war office to represent the entire press of the United States, returned today on the Holland-American line steamship Nieuw Amsterdam for a rest before going back to the front.

It is Mr. Palmer's opinion that the allied offensive against the Germans in the battle of the Somme will end only when the war itself ends, that it will be continued for two, perhaps three years. He was told by the staff of the allies that they had no expectation of breaking the German line this year.

He said that aeronautic activity in England is such that he has seen as many as fifty airships fly across the channel in one day to replace the great losses of air machines at the front. Every day, he added, at least thirty-five machines cross. He made the journey himself in an aerial ship known as the "Channel Bus," which flies back and forth daily.

Greater Than Verdun. "There is only one historical comparison for the Somme battle—Verdun," said Mr. Palmer. "It has long since passed Verdun in intensity of fighting. So far as the fighting has gone, it has been engaged, in losses in killed and wounded and in volume of artillery. In the Somme sector 4000 British troops and German troops have been in action on the same day. Within one period of twenty-four hours there have been at least 150,000 casualties, counting those at the front. So far as this engagement at least 1,600,000 men have been hit. Next summer the British are prepared to lose 1,000,000 men, if necessary. They will have twice their present gun power.

Health Inspectors Have Lively Debate Unable to Come to a Decision on Matter of Overlapping.

Overlapping of provincial and civic health inspectors was again discussed at length when yesterday a conference was held between Dr. W. S. McCallum, provincial health officer, and representatives of the city council and the board of education.

NORWAY HOUSE SHORTAGE. Christiania, Oct. 30.—The shortage of available dwellings—houses, with still more serious prospects for the winter season, is a serious problem in Norway. In certain districts city authorities have resorted to extreme measures to provide shelter for those unable to find houses. The city council of Bergen has begun to expropriate unoccupied houses, but the number of these is inadequate. The aldermen of Trondheim have requested authorization to expropriate not only vacant houses, but also clubrooms and similar localities. The Christiania authorities are considering the expropriation and use of dwellings in the city and even places devoted to religious gatherings.

NO AGREEMENT REACHED IN McINTYRE MERGER Meeting of Directors After Discussing Knotty Problem, Adjourns for Week.

Directors of the McIntyre group of properties concerned in the much discussed merger met yesterday, but appeared to have been able to arrive at no decision. The meeting was lengthy and at the close Col. A. M. Hay, president of the McIntyre group, stated that the merger had been discussed and an adjournment had been made for a week.

The last time a meeting of this nature was held an arrangement satisfactory to all parties concerned was not discovered. The obstacle, it is understood, being the basis of valuation for the incorporation of the Junior property. This difficulty, presumably, will not be overcome at yesterday's meeting.

The shares of the three properties concerned, McIntyre, Junior and McIntyre Extension all made advances on the Standard Stock Exchange yesterday in anticipation of the expected amalgamation announcement.

NEW MANAGER OF DAVIDSON ARRIVED Word received from Porcupine last night that Mr. F. G. Stevens, the new general manager of the Davidson Gold Mines, Ltd., had arrived in the camp, taking over the control of operations at the mine. An aggressive development program, in line with the plans outlined at a recent meeting of the directors is to be carried on, the idea being to develop the property on the 100, 200 and 300-foot levels to the greatest possible extent in the near future.

ON VACUUM GAS. Nor is only the most profitable asset of this company, says H. B. Willis in his market letter. It is the incorporation name implies, gas is another product, and here again Vacuum Gas & Oil, on its leases near Tillburg, is striking it rich. The company has a capacity of 750,000 cubic feet daily has been brought in, and this product sold to the Medina Gas Company at an advance price. The company, it is expected, will be brought in early next week, while contracts are being let to drill several other wells in this vicinity.

Run on Specialties AT TORONTO EXCHANGE

Some Older Issues Neglected and Weak, While Attention is Paid to Others.
Yesterday was again given over to specialties on the Toronto Stock Exchange. The older issues were practically ignored and in the cases of Toronto Railway and Brazilian, actual weakness was present.

We Will Look After Your Financial Affairs

At Simpson's Christmas Show Today

Mother Goose Will Entertain the Children as Usual

She is going to appear on the village green in front of her house, and many of the rhymes that children know will be acted by quaint, mechanical figures in real stage style today from 8.30 until 10.30 a.m., and also later in the day if the crowd will not be too large. Tom, Tom, the Piper's Son; Old King Cole and other favorite characters from the Mother Goose book will appear today in the Mother Goose village.
