New Serial "The Midnight Man" to be Started Tomorrow Night - It Shows What Clean Living And Grit Will Do

THRILLING! THE MIDNIGHT MAN

The new Universal serial photo drama, "The Midnight Man," the first episode of which will be seen at the Opera House on Friday evening of this week...

always keeping in the pink of physical condition makes these difficult feats seem like little incidents in the day's work to him. James J. Corbett's career has been a remarkable one. Born in San Francisco and educated at the Sacred Heart School, he entered the employ of the Nevada Bank in Prisco as a messenger...

LOCAL NEWS

A fire in Kennedy's garage, Douglas avenue, was the cause of an alarm from box 125 shortly after 11 o'clock last evening. Little damage was done.

Captain C. W. Bennett of No. 7 Detachment, C.A.P.C. and paymaster of the district depot and other miscellaneous units of this district, has been transferred to Quebec on conducting duties.

The Garrison Sergeants' Mess held a meeting last evening in their mess room at the armory. Sergeant Major Ellis, the president, was in the chair and business of this district, has been transferred to Quebec on conducting duties.

Instead of having their usual weekly meeting the North End W. C. T. U. yesterday afternoon held a rummage sale in Union Hall. The sale proved very successful and netted quite a large sum which will be used in aid of the Wright Street Memorial Home for Children.

H. A. Chisholm of Montreal, arrived in the city yesterday afternoon and will remain here for a few days interviewing local manufacturers and dealers respecting trade with Cuba. He has recently been appointed trade commissioner at Havana and is on his way to New York where he will take steamer for the south. Mr. Chisholm served overseas with the 8th battalion and was later a colonel on staff. He called at the rooms of the board of trade yesterday afternoon in connection with the work before him.

At a meeting of the Kings County Sub-district Board of Health it was learned that 8,000 children were vaccinated throughout the county; the sum of \$114 was received in license fees from milk dealers and slaughter houses, yet there are some who have not complied. A. E. Pearson, secretary of the board, was appointed solicitor. E. G. Titus said regarding the milk situation, that it was hard for the dealers to comply with all the regulations of the board. An inspection of all cows is to be made and a score card similar to that used in St. John, was adopted for the use of inspectors.

The DeMotts Chapter of the I.O.O.F. devoted much of its meeting yesterday afternoon to disposing of matters of routine business but it also made the preliminary arrangements for holding its annual ball early in January. No definite date was decided on nor was the place chosen. The regent, Mrs. Geo. K. McLeod, presided at the meeting, which was held in the chapter rooms, and was well attended. The report of the treasurer showed the finances to be satisfactory. Applications from new members were received and accepted. The chapter voted the amount of money which is its share of the salary of the Victorian Order nurse for the quarter ending March 31. Reports given showed that the members had been most generous and energetic in getting together, packing and shipping several Christmas boxes and many Christmas stockings for the refugees in France.

130 MILLION HENS SHY.

London, Eng., Dec. 3.—As a result of the war there are 130 million fewer hens in Europe than existed in 1913. Great areas are war swept. In 1913 60 per cent of imported eggs came into the United Kingdom from Russia, Germany, and Austria-Hungary, and 61.8 per cent of poultry was imported from Russia and Austria-Hungary. These countries have ceased to produce nearly enough for their own needs, much less surplus for export. The poultry population of Belgium has decreased by 80 per cent, of Holland by 75 per cent, of Denmark and France by

POLICEMEN DISMISSED FOR LEAVING POSTS.

Jersey City, N. J., Dec. 3.—Eleven policemen, including John P. McDermott, president of the Patrolmen's Union and three firemen, including Peter J. Mahoney, president of the unionized Uniformed Firemen's Association, and James Connell, its treasurer, have been dismissed from the city's service by order of Director of Public Safety, O'Brien. Although all the men were said to have been engaged in union activities in their respective departments, it was said that the dismissals were for infraction of rules of the departments by leaving their posts of duty, of which they recently were found guilty.

WOMAN ROAD MENDERS.

London, Eng., Dec. 3.—Four women, wearing blue overalls and caps and heavy boots, tar-sprayed Davies street,

Oxford street, W., recently. One was in charge of the sprayer which poured the hot tar on to the roadway, and another spread it evenly over the surface with a squeegee. The other two were busy with brooms, sweeping the small bits over the tar.

They were all thickly coated in tar, but that did not seem to worry them; they were working quickly and efficiently. "They do the work as well as any man," said the foreman in charge of the job. They are employees of Westminster City Council.

## More Hams and Bacon

Offered by  
**Hygienic Packing Co.**

Foreign Government's Failure to Absorb  
Its Full Order Plays Into Local Hands

Only a few months ago the people of St. John had an opportunity to procure crack-up mild sugar cured hams, picnic hams and choice spiced bacon at prices way below prevailing market price. This through our buying in heavy quantities.

We are again able to place before you about 100 tons of the choicest hams and bacon which we were in a position to buy through the failure of a foreign government to take the full amount contracted for.

Selling direct from the packers we cut middleman's profits and deliver to your home at big saving.

They go on sale Friday morning, and as the rush will be great, we'd recommend quick call on your part.

**Means a Saving of 10 to 15c. a Pound**

Goods promptly delivered. Hams are from 12 to 16 lbs. and this cold weather will keep months. Telephone Main 4144.

## There is DANGER IN TENDER GUMS

To preserve healthy teeth the ordinary toothpaste is in fact, a dangerous enemy. You must first care for the gums, on which tooth health depends. How many people think of this? Yet four out of five people over forty suffer from gum-decay, or Pyorrhea (Rigor Dentis).

At first the gums become tender, perceptible, but in time receding gums will surely loosen your teeth, and then only a dentist can save them. The tender, bleeding gums of Pyorrhea also act as so many doorways for disease germs to enter the system—into joints or tonsils—causing other ailments.

Forhan's (Over the Gum) prevents Pyorrhea, if used in time and used consistently. This means that it prevents gum-inflammation, gum-tenderness, gum-bleeding. So, automatically, Forhan's prevents tooth loosening. Brush your teeth with it. It scientifically cleans the teeth—keeps them white and clean.

If your chinlidge has already set in, start using Forhan's and consult a dentist immediately for treatment. We send 60c tubes. All Druggists.

## Forhan's FOR THE GUMS

An open fire.  
A good book.  
A pipe.  
And a generous supply of "B" Brand Cider.

In other words, a PERFECT evening.

**LONDON'S PROPOSED NATIONAL THEATRE**

There has been a good deal of acid comment in London regarding the lack of any public announcement of the completion of the affairs of the Shakespeare Memorial National Theatre. This was partly supplied by a statement made the other day by Lord Lytton, the chairman of the general committee. He said that the movement was originally started to build and endow a National Repertory Theatre in London as soon as funds could be obtained for the purpose. In October, 1918, a site was secured on the Bedford estate in Gower street, but preparations for a big campaign to raise funds in the following year were interrupted by the war. In 1916 it was decided to offer the site to the Y. M. C. A. for the erection thereon of a Shakespeare Hut, where a series of interesting Shakespearean performances were given to the troops. They had come through the war with their capital intact, and the balance sheets were available for examination. Recently they conceived the idea of building up a company of play-

ers and a summer festival was arranged at Stratford-on-Avon with the co-operation of the committee there. They felt justified in guaranteeing £20,000 towards the expenses of the company. The experiment was a great success, but it was an essential part of the idea that the festival should be followed later in the year by a tour throughout the country. They hoped that the players would become the first company of the National Repertory Theatre. It would be very desirable for the troupe to have its headquarters at a theatre in London, but they had not felt justified in spending their funds in the somewhat speculative venture of hiring a London theatre. They hoped, however, said Lord Lytton, to carry out provincial tours. It was intended to arrange a season at the beginning of next year in Manchester, a festival at Stratford in April, and a tour during the summer. To this purpose they proposed to devote an income of £20,000, which they would receive from their decision to lease the Gower street site to the Y. M. C. A. for a further period of three years at a rent of £2,000 a year. They were as determined as ever

ultimately to realize their object of erecting a memorial theatre in London so soon as they could get sufficient funds from the public.

### BROKE LAW FOR AN ILL BABY

Sentence Suspended on Man Who Opened Store on Sunday

New York, Dec. 4.—Leon Leibach, proprietor of a grocery store at 880 Jennings street, The Bronx, was arraigned before Magistrate Robert C. Ten Eyck in Morrisania court charged with violating the Sabbath law. The complainant was Walter Bishop, a patrolman. According to the testimony given before the magistrate, Leibach was eating his breakfast on Sunday morning when a woman came to his home. She told him that one of her babies was ill and that she needed some sugar immediately. Leibach said that the woman's story so impressed him that he decided to open his store long enough to accommodate her. The patrolman appeared and arrested Leibach. The woman secured a half pound of sugar, however, and hurried away. The magistrate suspended sentence, saying that, while there was little doubt in his mind that Leibach was guilty of violating the Sabbath law, under the circumstances he was justified in what he did.

### COSTS DRIVER \$2 TO FIND HALF DOLLAR.

New York, Dec. 4.—"That's a hot one, judge. It costs me \$1.50 to pick up 50 cents," said Albert Johnson, express-wagon driver of No. 210 West 63rd street to Magistrate House in traffic court, after the latter had fined him \$2 on a charge of obstructing traffic at Broadway and 91st street. "Your honor," said Johnson, "I plead guilty to obstructing traffic, with an explanation. I was driving along Broadway and when at 91st street I saw something shiny in the street. It was a 50-cent piece. So I stopped and picked the half dollar up." "I'm sorry," said the magistrate, "but I'll have to fine you \$2."

#### Name Her Best Girl Swimmer in The United States

New York, Dec. 4.—Miss Ethel S. Bleibrey of the New York Women's S. A., a schoolgirl of seventeen, has been declared America's greatest girl swimmer of 1919 by a vote of the prominent coaches in the country.

The distinction was claimed locally for one of two other mermaids so there was sought the opinion of able instructors in seventeen cities where water sports for women are most popular. Thirteen responded and eleven named Miss Bleibrey. The two others, in San Francisco and Los Angeles, selected their own California champion, Mrs. Frances Schroth of San Francisco.

It is worthy of note that in nearly all cases Miss Charlotte Boyle, a teammate of Miss Bleibrey's, was mentioned as a dangerously close rival for leadership to the latter, whose sensational performances at the back stroke were the one mark of superiority over Miss Boyle. In free style swimming there was virtually no choice between them.

The views of the selecting judges are reflected collectively in the following letter from Matt Mann, the former Brooklyn expert, now attached to both the Detroit A. C. and Duluth B. C.:

"Miss Bleibrey's performances stamp her as the best girl swimmer that ever lived. With special training there is no doubt she can break any existing record at either free style or back-stroke swimming. The ability she has shown to step to the mark at any time and compete successfully in any event shows that she is absolutely the peer.

"I think very highly of the skill of Miss Charlotte Boyle, and believe Miss Bleibrey's sensational success is due in large measure to her, but she has done nothing at the back stroke so far, and this must be counted against her. I place her a very close second."

Miss Bleibrey scored more points than any fair contestant in the National swimming championships of this year. She ran up a total of twenty-one. Miss Boyle leads on the official list, with twenty-two points, but only seventeen were garnered in actual swimming; the other five stand for a victory in the plunge for distance.

Miss Bleibrey's best performances at free style swimming include fifty yards in 0:29.4-3; 100 yards in 1:09.2-3; 200 yards in 2:24.4-5; 300 yards in 4:15; 400 yards in 6:18.4-4; and at the back stroke, fifty yards in 2:17.5-5. All these times are official, although technicalities prevented some of those representing records from being accepted.

California points to Mrs. Schroth's respective marks of 220 yards in 2:54.3-5; 300 yards in 7:19 and 10 yards back-stroke in 1:27 to prove her leadership, but they fail to call attention to conditions. These three accepted records were made in a twenty-one yard pool, with absolutely smooth water and numerous windward material advantages, while Miss Bleibrey's corresponding feats were accomplished in open water, 110-yard courses.

The turns alone mean a gain of approximately one second per turn. That

Miss Bleibrey's best performances at free style swimming include fifty yards in 0:29.4-3; 100 yards in 1:09.2-3; 200 yards in 2:24.4-5; 300 yards in 4:15; 400 yards in 6:18.4-4; and at the back stroke, fifty yards in 2:17.5-5. All these times are official, although technicalities prevented some of those representing records from being accepted.

California points to Mrs. Schroth's respective marks of 220 yards in 2:54.3-5; 300 yards in 7:19 and 10 yards back-stroke in 1:27 to prove her leadership, but they fail to call attention to conditions. These three accepted records were made in a twenty-one yard pool, with absolutely smooth water and numerous windward material advantages, while Miss Bleibrey's corresponding feats were accomplished in open water, 110-yard courses.

The turns alone mean a gain of approximately one second per turn. That

record at other free style or back-stroke swimming. The ability she has shown to step to the mark at any time and compete successfully in any event shows that she is absolutely the peer.

"I think very highly of the skill of Miss Charlotte Boyle, and believe Miss Bleibrey's sensational success is due in large measure to her, but she has done nothing at the back stroke so far, and this must be counted against her. I place her a very close second."

Miss Bleibrey scored more points than any fair contestant in the National swimming championships of this year. She ran up a total of twenty-one. Miss Boyle leads on the official list, with twenty-two points, but only seventeen were garnered in actual swimming; the other five stand for a victory in the plunge for distance.

Miss Bleibrey's best performances at free style swimming include fifty yards in 0:29.4-3; 100 yards in 1:09.2-3; 200 yards in 2:24.4-5; 300 yards in 4:15; 400 yards in 6:18.4-4; and at the back stroke, fifty yards in 2:17.5-5. "SULTAN" THE EDUCATED PONY

Tonight will be your last chance to see "Sultan", the educated pony, in one of the most marvelous exhibitions ever seen on a local stage. This pony seems to be almost human and can do anything but talk. Don't fail to see him at the Opera House tonight. In addition, look and Le Wand Sisters will render a special programme of musical selections, which should prove a great treat to all music lovers. The entire programme is well balanced and one of the best presented for some time. Two performances, at 7:30 and 9 o'clock.

"THE FOLLIES" A DELIGHTFUL AND SPECTACULAR SHOW

Imperial Packed Last Night For Opening Performance - All The Numbers Heavily Approved

The through which filled the Imperial Theatre last evening from orchestra to roof was a fitting tribute to the talent displayed by the young ladies and gentlemen who, under the auspices of the Municipal Chapter, I. O. D. E., presented a tastefully arranged extravaganza called "The Follies". The programme consisted of one bright, catchy number after another, replete with excellent music, delightful humor, graceful dancing and a harmonious and richly spectacular arrangement of costumes and scenery. The production was an unequalled success from all standpoints, and reflects credit not only on the participants, but also on those responsible for the arrangement and production of the various acts which went to make up a most entertaining show.

SUFFERED DAY AND NIGHT

The Tortures of Dyspepsia Relieved by "Fruit-a-tives"

"I was a terrible sufferer from Dyspepsia and Constipation for years. I had pain after eating, belching gas, constant headaches and did not sleep well at night. Finally, a friend told me to try 'Fruit-a-tives.' In a week, the Constipation was corrected and soon I was free of pain, headaches and that miserable feeling that accompanies Dyspepsia. I continued to take this splendid fruit medicine and now I am well, strong and vigorous." ROBERT NEWTON. Doc. a box, 6 for \$2.50, trial size 25c. JOHNSON WANTS THE MONEY GIVEN TO THE ST. DUNSTAN'S HOSTEL

London, Dec. 4. - William E. Johnson, the American anti-saloon organizer, for the Evening News opened a testimonial because of injuries received in a recent "ragging" by students, has demanded that the money be sent to St. Dunstan's Hostel for the Blind. Mr. Johnson, whose eye was removed 90 per cent, ago, is progressing satisfactorily.

A "LIMIT" BALL

London, Eng., Dec. 4. - What is the average length of the first-class golfer's drive under normal conditions and with the modern ball? It is contended that the present small, heavy ball goes so far from a full drive as to throw the other parts of the game out of proportion. This the rules committee proposes to alter by instituting a minimum size of ball.

Protest Rejected.

Beckett and Carpenter.

London, Dec. 3. - Joe Beckett and Georges Carpenter will meet in a twenty-round bout at the National Sporting Club tomorrow night to decide the question of who is the champion heavyweight fighter of Europe. Carpenter, a Frenchman, at present holds the title. The fight is due to begin at 9.15 o'clock. Incidentally the outcome of the fight may bring forward an opponent for Jack Dempsey, the American heavyweight, in a contest for the heavyweight championship of the world. Beckett, who is the champion of England, will have an advantage of fourteen pounds in weight over Carpenter, scaling at about 154 pounds. Also his reach is two inches longer than that of his French opponent. Otherwise the contestants will be virtually equal as regards age, height and measurements.

FUEL SITUATION MORE SERIOUS

Many Industries May Close Down During Winter

Ottawa, Dec. 3.—The fuel situation in Canada was never as grave as at any time during the war as it is at the present moment, declared C. A. Magrath, Dominion fuel controller, in an appeal to the public for fuel conservation.

Magrath draws attention to the fact that he could call upon the government to pass regulations limiting the use of fuel as was done during the war.

He believes, however, that an appeal to the public setting forth the gravity of the situation will result in the fullest possible response, and he, therefore, resorts to this means.

The statement given out by him this morning follows: "While I have made two appeals to the public to conserve fuel in every possible way in view of the existing coal strike in the United States, I will admit that I believed that the situation would be settled before this. Finally I concluded to wait for three days in the present month and see if the miners would accept the increase of fourteen per cent offered, and effective from the first instant. There is no prospect that the miners returning to work and the public of central Canada depending upon supplies from the United States may as well face the facts.

While I have received practically no soft coal during the month of November and are now being allotted 150 cars per day, whereas had no strike occurred we probably would have imported during the months of November and December at least two million tons. Even should the miners return to work in a few days we have lost so much tonnage that the situation now serious, will become quite critical. It never was as grave at any time during the war as it is at the present moment, and there is but one thing that I believe will result in the fullest response, and that is to restrict the use of coal in every possible way. I could call upon the government to pass regulations limiting the use of fuel as was done during the war, but I believe it is only by making this appeal, and that the public will respond to the fullest extent. I assume for instance that all the coal that has already disappeared. If not let the use of coal for such purposes cease immediately and that the amount of coal that is to be used should be reduced to a minimum. I repeat the situation never was more grave. I have confidence that I have not overstated the facts and there will be a prompt response. From present appearances all that can be expected is to meet the domestic needs and keep the public utilities and public institutions supplied with fuel. It is quite evident, however, that many industries may have to close down before we are well into the winter."

How Fat Actress Was Made Slim

Many stage people now depend entirely upon Marmola Prescription Tablets for reducing and getting fat. One clever actress tells that she reduced two to four pounds a week by using this form of the famous Marmola Prescription and now, by taking Marmola Tablets several times a year, keeps her weight just right. All druggists sell Marmola Prescription Tablets at \$1. for a large case. Or you can get them by sending price order to the Marmola Co., 364 Woodward Ave., Detroit, Mich. If you have not tried them do so. They are harmless and effective.

MADE NO PLEDGE

London, Dec. 3.—Premier Lloyd George gave no pledge of any kind to the American representatives at the Peace Conference that in consideration of the question of Irish self-government not being dealt with by the conference, the British government, would, as soon as possible after the signing of the Peace Treaty, settle the Irish question on a Home Rule basis.

This denial of the statement attributed to Lloyd George was made by Andrew Bonar Law, the government spokesman in the House of Commons in reply to a question in the House today.

New York, Dec. 3.—Families of anarchists are to be deported from the Soviet Russia, according to a telegram received today by Harry Weinberger, counsel for Alexander Berkman and Emma Goldman, from Anthony Canetti, commissioner-general of immigration.

"If you represent any alien ordered deported to Russia, who has a family, file your application for family to accompany such alien and the same will be given consideration," the message said. "The government will deport to Soviet Russia at the earliest practicable date."

Weinberger, who has been ordered to deliver Berkman and Goldman at Ellis Island by Friday noon, said that his two clients and some three score other radicals might stay at the island indefinitely unless the United States recognized Soviet Russia soon. It is his opinion that this country can deport no one to Soviet Russia without such recognition.

Weinberger's renewed request for stay of the surrender of Berkman and Goldman till Monday was refused today by the department of labor and he said they would be surrendered at the time ordered.

STREET CAR SERVICE TO BE RESUMED AFTER A LONG STOP

Toledo, Dec. 3.—Street car service which was discontinued here a month ago, when the people approved an ordinance passed by the council ordering the company off the streets, is expected to be resumed within a few days. The council today amended the order ordinance to give the Toledo Railway & Light Company the right to use the streets at a fare of six cents with two cents for transfers.

Captain H. P. Shore, who was quartermaster of the New Brunswick Military Hospital, has been appointed as officer in charge of stores at the D. S. C. R. with headquarters in Fredericton.

IS THE 'FLU' A NEW DISEASE?

Reappearance of Epidemic Leads to Discussion on Subject

The reappearance of "flu" at many points brings up the old question as to whether it is a disease or a new form of some very common ailment. The general consensus of medical opinion is that it is a germ disease of a virulent type which first attacks the membranes of the nose and throat and then spreads to some vital organ where it develops very quickly and does fearful work.

The symptoms of "flu" are about the same as those of a cold in the head, and for that reason it is now possible to mistake it for a cold and go without attention. Treatment should be started as soon as the first symptoms appear, and the nose starts running or the sufferer starts sneezing. Let these conditions run for 24 hours and acute trouble is liable to develop, possibly resulting in an attack of pleurisy, pneumonia, or kindred ailments.

If Grip Fix is taken when the cold is starting, relief may be expected in a single night. Even if the cold has reached the Grippe stage, 48 hours treatment is usually effective. Grip Fix contains nothing but the drugs your physician would order, a full list of which is given on every box. It comes in capsule form, and in a night will relieve the closed up condition of the head, overcome the fever, allay the muscular soreness and tone up the system.

Be prepared. Have Grip Fix in the house. Be sure you get the original Grip Fix. It's on sale at all druggists at 85c. per box.

That Flag Case

Rutland, Vt., Dec. 3.—Testimony regarding an alleged insult to the American flag by Miss Annie McLane, a Canadian nurse at the Rutland hospital, was heard today by an aldermanic committee appointed to investigate the incident for which an annual appropriation is made by the city. Miss Josephine Niles, a nurse, testified that when she showed Miss McLane a poster bearing a picture in which the American flag was shown, Miss McLane remarked that that would be a pretty picture if it were not for that dirty red, white and blue flag.

After Miss McLane had refused to make an apology, which the witness demanded, Miss Niles said she asked several other nurses to take the Canadian young woman's room with an American flag and insisted that she salute it.

POLICE COURT.

The case of William Webber was again taken up in the police court yesterday afternoon when the charge of having in his possession ingredients and compounds for the manufacture of liquor, was brought against him. Inspector McAlain, one of the liquor inspectors who made the seizure, was called to the stand and told of finding the liquor and all the apparatus in the defendant's cellar in Orange street.

Bottles of whiskey, brandy, sloe gin and Demerara rum were produced as evidence, as were also a cooking machine, sealing machine, a bottle of burned sugar, a demijohn of alcohol, wooden taps, funnels, rubber tubes and several other items. The inspector testified that there were also five hogsheads of whiskey, rum and alcohol at the government house, Prince William street and numerous bottles of various kinds of liquors.

The magistrate said that what was in the government rooms could not be brought as evidence unless it was brought before the court.

William M. Ryan, counsel for the prosecution, said that there was a very large stock of liquor at the government house and they could not very well bring it all to court, but if the magistrate it necessary they would do so. His honor decided that he and the clerk of the court would go down to the rooms and mark the goods down there.

The magistrate decided to postpone the case, although Inspector McAlain had not finished his evidence, until the results of the analysis had been returned and he had gone over the stock in the government rooms. The case was postponed until 2 o'clock Monday afternoon. Edmund S. Ritchie appeared for the defendant.

GERMAN SLAP AT UNITED STATES

Berlin, Dec. 4.—The Tagliche Rundschau in an editorial referring to the American senate's attitude on the peace treaty, says: "The United States, after accomplishing Germany's defeat, produced the greatest confusion of nationalities and boundaries in Europe through the enactment to undo the mischief and is quitting the game and turning from Europe politically as though it were a pesthouse."

RECENT WEDDINGS

McGeerage-Kaighl. Many friends in St. John will learn with interest of the marriage at Fort William, Nov. 22 last, of George Francis McGeerage, formerly of West Hill, and Gertrude Kaighl of Bristol (Eng.). The ceremony took place in St. Patrick's church and was attended by several friends who were remembered by the bride and groom.

On Wednesday, Nov. 26, the Baptist church at Penobscot was the scene of a very interesting event when Margaret L. Graves of Elgin, Albert county, and J. Herbert Morey, of Penobscot, were united in marriage. Rev. A. Perry, pastor of the Penobscot group of churches, performed the ceremony, which was witnessed by about twenty-five friends of the bride and groom. Mr. and Mrs. Morey will reside at Penobscot, where Mr. Morey is engaged as a lumberman and farmer.

Parish Sees Advent of National Garment

Paris, Dec. 3.—"The national costume" for men, manufactured by the government to combat the increasing price of clothing, made its appearance on the Paris boulevards on December 1, as promised by the authorities. The suit is not such as to draw the attention of promenaders either by its elegance or its shabbiness, and but for a little strip of linen inside the coat, it would never know that the suit had anything different from the ordinary garment of the so-called fashionable tailoring houses.

Wearers of the suits, however, seemed proud to exhibit amendment to the suit, and friends and strangers in the cafes and theatre lobbies. There is one thing alone which which makes the garment different from others and that is the price, as the suits sell for 110 francs. Andre Dreyfus, president of the national costume committee, is reported to have bought one on December 1, when they appeared on the market.

At the present rate of exchange the price of the national costume is 110 francs, the equivalent of about \$11 in American money.

BONE DRY BILL FOR ONTARIO

(Toronto Star.)

One of the outstanding measures to be introduced at the forthcoming session of the Ontario Legislature will probably be a bill giving the province an opportunity to go "bone dry." It is believed Premier Drury will take advantage of the session to introduce a Temperance Act, and submit a motion asking the Dominion government to prohibit the importation and manufacture for sale in Ontario of liquor.

VOCATIONAL CLASSES

(Fredericton Gleaser.)

Fletcher Peacock, director of vocational education, has returned from the province of Ontario, where he attended meetings at Loggieville, Bathurst and Newcastle in the interests of vocational work in the province. He was in Loggieville on Wednesday night, at Bathurst on Thursday, and at Newcastle on Friday. Each of these four occasions he started some form of vocational work in winter and Newcastle has passed a grant of \$500 to commence.

Last Tuesday night the school was opened at Chatham with 99 enrolled in the classes, and Thursday night there were 105 in attendance at the classes. Little Branch, about seven miles from Loggieville, is going to open classes in the winter. The number of pupils attending school in the province are being increased under similar conditions.

WARNING THE COLONEL.

On the 23rd inst. the commanding officer of the United States Army, who recently returned to St. John, tells a good one on the colonel of the militia. A raw recruit was placed on guard by the sergeant and instructed in the rudiments of his duty, which instructed did not, however, seem to sink in very deeply. The sergeant, in search of the commanding officer, passed the sentry on three or four occasions and asked that worthy if he had seen the colonel, receiving a rather dubious negative reply.

"Don't you know that I am the colonel of this unit?" the commanding officer thundered.

"No," replied the sentry, "but if you are the colonel you'd better look out, you're going to catch hell. The sergeant's been around looking for you for the last half hour."

Jewel Rebekah Lodge, No. 6, entered into the Oddfellows' hall, west St. John, last evening. A programme of musical numbers was carried out after which the assembly adjourned to the hall where refreshments were served and a programme of dances carried out.

The Martello Home Was Opened Today

Party From Moncton Arr Among First Occupants

The new institution, which is to be conducted as an extension of the Infant Orphan's Home, will start with a staff of three, as follows: Matron, Mrs. Land; assistant matron, Miss Towler; cook, Mrs. Logan. The committee has had many applications for accommodations and it is expected that the home will soon be filled. L. A. Palmer, grand master, Bathurst; J. W. S. Babiker, Loggieville; J. W. McFarlane, Nahawassick; H. T. Brewer and E. H. Clarkson, Fredericton, were present at a joint meeting of the Orange Lodges and Executive Committee members of the executive here, yesterday, concerning the activities in connection with the opening of the new institution. They visited the Martello Hotel and were favorably impressed with the arrangements there and the accommodations available for children.

RECENT DEATHS

John H. Whitrow. Chlpan, Dec. 1.—The many friends of John H. Whitrow, of Salmon Creek, were shocked to hear of his sudden death, which occurred in the lumber camp of Wason Bros., Gasperans, on Saturday, November 29. He had been employed as cook for Wason Bros. and was in his usual health when the men of the camp in the morning. On their return to the camp he was found in his berth, having succumbed to a sudden attack of heart failure. Mr. Whitrow was sixty-two years of age. When a young man he went to St. Francis, where he was employed as carpenter, but eighteen years ago returned to his old home at Salmon Creek, where he had since resided. He is survived by his wife, Mrs. R. S. Baird, of Salmon Creek; Mr. W. O. Barton, The Range, and Mrs. W. O. Barton, Fredericton. Interment was made on Tuesday, November 25, at the Mt. Pleasant cemetery. Services were conducted by Rev. A. Ferguson, assisted by Rev. Mr. Price, of Chlpan.

Marie S. Woodside. At St. Catharines (Ont.) on November 29, Marie S. Woodside, widow of Mr. R. T. Woodside, and grandmother of Mrs. R. T. Woodside, died of heart failure. She was well known in the city and had been a visitor at the home of her grandparents. Mr. Woodside, it will be remembered, died very suddenly on December 1, when he was in the city. He held the very responsible position of manager of the Canada Consolidated Cotton Mill Company.

Miss Mary E. Donnelly. Rexton, Dec. 2.—The death occurred at Rexton, N. B., of Miss Mary E. Donnelly, on Sunday, November 30, of forty-one years. She had been an invalid for several years. She is survived by her parents and several brothers and sisters. Her husband, who died of pneumonia, was a man of splendid character and made friends among all with whom he became acquainted. He was buried in his late home in Rexton on Monday morning. The funeral was held at 10 o'clock on Tuesday. Interment was made in the adjoining cemetery.

Funeral of Conductor Nickerson

The funeral of Conductor J. S. Nickerson, whose death occurred in St. John on Monday, was held yesterday afternoon in the Oddfellows' hall. Services were conducted by Rev. E. H. Cochrane, pastor of the Highfield Baptist church, Moncton, assisted by Rev. W. Weddall, Methodist, of Shediac. The Methodist choir of Shediac assisted in the services. The pallbearers were three sons, Robert, George and Fred, and Alex. Stronach, J. I. Coates and E. A. Fryers. Interment was made in Greenwood cemetery, Shediac.

Additions to N. H. S. Collection. Three very old-fashioned pistols have been loaned to the Natural History Society for an indefinite period by S. H. W. Ingraham, of West St. John. One of them bears the date 1796, and was carried by one of Mr. Ingraham's ancestors, Sergt. Benjamin Ingraham, in the revolutionary war against the Americans. Another is a pistol which once belonged to the notorious criminal, Henry More Smith, taken from him when he was hanged in the house of John Ingraham, Queensbury. The three firearms are valuable additions to the collection in the rooms of the N. H. S.

Hotel Bu Liers Sued by Woman

Plaintiff Says She Was Duped in Buying \$3,000 in Stock of Commonwealth Company

(New York Times.) Charges of misrepresentation in the sale of stock in the Commonwealth Hotel, to be built by popular subscription in the block bounded by Broadway and Seventh avenue, Fifty-sixth and Fifty-seventh streets, were made in a suit filed in the supreme court yesterday by Miss Harriet S. Swan, of 181 East Thirty-fifth street, against the Commonwealth Hotel Construction Corporation to recover \$3,000 paid for thirty shares of stock.

Miss Swan alleged that on March 20, an agent of the company named Winter called on her at her home and urged her to buy a share of the stock under the "Founders' Membership" agreement. By this, she asserted, she was to get the share for \$100 and was to receive special privileges and advantages.

It is alleged that Winter called the next day and said only a few "founder" shares remained and that he knew of many persons who would pay \$500 each for them. He said, Miss Swan asserts, that if she would pay the \$80 balance of her share, she would make at least \$250, and probably \$400. She did so, and bought additional shares, she says, on April 7 and 17, on his promise that she would get her money back, with the assured profit, in "two or three days."

Miss Swan alleges the agent, made similar representations between May 1 and May 22, and that as the result she bought twenty shares, expecting to sell them at \$500 each. On May 27 Winter called on her and told her that she had only ten "founder" shares left; that Sears, Roebuck & Co. of Chicago would take them and give him a check for \$1,000 on if he could sell them all to Sears, Roebuck & Co. and she would make \$12,000 profit.

The complaint alleges that the representations were false and that Winter's "Founders' Membership" agreement provided that no more than five shares of "founder" shares would be sold to any one person. She asks the return of her \$3,000 because of the alleged fraudulent representations.

The papers were served on William J. Hoggson, president of the corporation, at 18 East Forty-first street. It was said that if the representations were made as alleged it were without the company's knowledge and consent.

Chas. H. Turney. Hopewell Hill, N. B., Dec. 3.—(Special)—Charles H. Turney, a former resident of Swan Creek, St. John, died at his home here on Monday, November 23, of pneumonia. He was living in this place for the past year, died at his home here this evening after quite a long illness. He was seventy-three years of age, enjoyed excellent health until about a year ago when he suffered a severe stroke, since which time he had been an invalid.

He was a man of splendid character and made friends among all with whom he became acquainted. He was buried in his late home in Hopewell Hill on Monday morning. The funeral was held at 10 o'clock on Tuesday. Interment was made in the adjoining cemetery.

Mrs. Joseph Allain.

Rexton, Dec. 2.—The death occurred at Rexton, N. B., of Mrs. Joseph Allain at the age of forty-one years. Mrs. Allain was the daughter of the late Reuben J. Richard, of Richibucto Cape, and leaves, besides several brothers and sisters, her husband and several small children. Death was due to pneumonia. The funeral took place on Monday morning at the Rexton Baptist church, where high mass of requiem was celebrated by Rev. Alpheus Knudsen. Interment was made in the adjoining cemetery.

John Shepard.

John Shepard, founder of the firm of Shepard, Norwell Company, Boston, is reported to have been received by his son, John Shepard, Jr., in a telegram on Monday morning.

Mr. Shepard, who was eighty-five years old, died en route to his home in California, having left Boston last Saturday. He apparently fell asleep, was the only further information given in the telegram. Mr. Shepard returned from California several years ago, but always took an active interest in the affairs of the Shepard stores and in national, state and city government in the United States.

FRANCE STIRRED BY PROSPECT OF A REAL DUEL

Paris, Dec. 3.—The theatrical world is stirred by the prospect of a duel between Alphonse Franck, manager of the Gymnase Theatre, and Ernest Charles, a dramatic critic. Franck objected to an article written by Charles and despatched to him, as his second, Joseph Renaud, author and distinguished swordman, and M. Fontanes, manager of the Chatelet Theatre. Charles selected two authors to represent him, Henry Kistemackers and Paul Marguerite. Both Franck and Charles profess to be in deadly earnest and declare that the duel will not be a stage scene.

SAYS WE OUGHT TO GIVE UP HAND-SHAKE

Cincinnati, O., Dec. 3.—"The handshake is an unsanitary form of greeting. Let's discontinue it," is the advice issued the other day by Health Officer William H. Peters. "I have decided personally to discontinue it. The salute is just as cordial. 'Some of my friends may have thought me rather unfriendly lately when I refused to shake hands with them. I hope they will understand that I mean nothing but their protection and my own."

The hand unconsciously touches a thousand things a day where bacterial contact is not only possible, but probable. It touches the handrail on the street car getting on and off. It touches papers and packages, the clothes, the shoes. How many persons would think of washing their hands after each such contact? "The safe and sanitary way of greeting, therefore, is the salute."

BAR'S BEVERAGE HAIR TONICS AND PROPRIETARY MEDICINES.

Washington, Dec. 4.—Prohibition Commissioner Kramer has served notice on manufacturers of proprietary medicines, barbers' supplies and other alcoholic preparations that they must prepare their products so that they may not be used as beverages after Jan. 16, when constitutional prohibition becomes effective. "Hair tonics that are hair tonics in name only" must be made "undrinkable," Mr. Kramer said. Representatives of the manufacturers promised him hearty support in his fight for the law's enforcement.

The commissioner said that it was not his purpose to destroy any legitimate industry, but that "a lot of preparations whose principal ingredient is alcohol" must be rendered unfit for drinking purposes.

Jewel Lodge Entertains.

A pleasant time was had last evening at an entertainment given by Jewel Rebekah Lodge, No. 7, in Oddfellows' Hall, west side of the city. The members of the lodge attended. A dance by little Miss Angeline Gregory and a sketch by twelve young women were well received as well as an address by Grand Master Chase, district deputy. Refreshments were served and dancing enjoyed.

Visiting members of the executive of the Grand Orange Lodge and the Protestant Orphanage Committee yesterday inspected the Martello orphanage in West St. John. They were well satisfied with the work done at the institution.

STIMULATING PRODUCTION OF MEXICAN SILVER

Mexico City, Nov. 19.—(A. P. Correspondence)—Luis Cabrera, secretary of the treasury, commenting recently on the high price of silver and the temporary shortage of silver coins here, asserted that the republic was really benefited by such a condition, as Mexico is a prodigious producer of silver and numerous mines that have been closed for some time are re-opening under the stimulus of current prices. It is stated that approximately 62,000,000 ounces of silver will be produced in Mexico this year.

TO TUNNEL FROM MEDITERRANEAN TO THE DEAD SEA

Norwegian Engineer's Project to Provide Water and Power For Palestine

Christiania, Dec. 3.—A Norwegian engineer has devised a plan to provide water and electric power for Palestine at an initial cost of \$40,000,000. Albert Hjorth, of this city, proposes to utilize the variation of the level between the Mediterranean and the Dead Sea, and, by means of a tunnel for water, to provide electric power to be used for pumping stations, irrigation and general purposes.

Mr. Hjorth proposes to dig a tunnel thirty-seven miles long from the Mediterranean to the Dead Sea, passing under Jerusalem. This tunnel would carry water from the Mediterranean to the western slopes of the lower end of the Jordan Valley. Thence the water would pass through pipes to power plants, and the power would be transformed into electricity, to be distributed as light and power through the country.

Mr. Hjorth's plans have met with great sympathy among leading scientific authorities and practical engineers in Norway. It is proposed to send out a Norwegian technic-scientific expedition which, with the anticipated support of the governments of the great powers interested, will proceed to Palestine and make a year's thorough investigation of all the conditions relative to the realization of this project—topographical, hydrological, technical, geological, hygienic, etc.

JAPAN'S MORAL INCULCATION

One of the most interesting of Japanese public documents is "The Imperial Rescript on Education." It is regarded as an embodiment of Japanese morals, and on all national holidays it is read aloud in the schools throughout the empire. All school boys and girls are compelled to learn the text by heart. The following translation is held to have a certain authorization: Know Ye, Our Subjects: Our imperial ancestors have founded our empire on a basis broad and everlasting, and have deeply and firmly implanted virtue; our subjects, ever united in loyalty and filial piety, have from generation to generation illustrated the beauty thereof. This is the glory of the fundamental character of our empire, and herein also lies the source of our education. Ye, our subjects, be filled to your parents affectionate to your brothers and sisters; as husbands and wives be harmonious, as friends true; bear yourself in modesty and moderation; extend your benevolence to all; pursue learning and cultivate arts, and thereby develop intellectual faculties and perfect moral powers; furthermore advance public good and promote common interests; always respect the Constitution and observe the laws; thus guard and maintain the propriety of our imperial throne coeval with heaven and earth. So shall ye be not only our good and faithful subjects, but render illustrious the best traditions of your forefathers. The way here set forth is indeed the teaching bequeathed by our imperial ancestors, to be observed alike by their descendants and the subjects, infallible for all ages and true in all places. It is our wish to lay it to heart in all reverence, uncommon with you, our subjects, that we may all thus attain to the same virtue. The 30th day of the 10th month of the 22nd year of Meiji. (1899.) **STEAMBOAT PASSENGERS.**  
A special train left this afternoon for Halifax with passengers for the Metagama. Quite a number of passengers came in from western points today, the Montreal having to come in two sections. The first of these was an hour and thirty minutes late, the second an hour and fifty minutes. The Boston train was half an hour late and No. 14 was held for it.

**TWO NEW POLICEMEN.**  
Two additional policemen have been appointed on the staff of the C. N. R. at the Union depot, William Ross and Cecil McLean. The latter has been a member of the city police force for some time both before going overseas and after returning. Mr. Ross has been overseas for some years and held sergeant-major's rank with the divisional unit, later serving with a headquarters unit. Both he and Policeman McLean should make capable men for the positions.

**ANOTHER APPOINTMENT.**  
Another instance in which an outside officer has been appointed to this district was noted today in a despatch from Fredericton in which Captain H. P. Shore had been appointed quartermaster in charge of D. S. C. R. stores. He has been serving with the Canadian Artillery and has resided in Ottawa. While he is reckoned as a capable officer, there are many who served from Brunswick overseas as quartermasters who feel competent to fill the position, and who do not understand why, in view of protests made, another appointment of one outside the province should be made to this department.

**FIVE YEARS FOR JOHN MELANSON**

Sentenced Today For Shooting Policeman Stinson in Fairville—Thibedeau Free

Judge Armstrong this morning gave judgment in the case of the King vs. John Melanson and Louis Thibedeau, charged with the shooting of Policeman Wm. Stinson with the intent to resist lawful arrest. Under speedy trial Melanson pleaded guilty and was sentenced to five years in penitentiary with hard labor. Thibedeau was not under arrest and did not incite or encourage the shooting but in fact ran away before it; he was therefore found not guilty. Albert B. Dionne acted as official interpreter.

His honor also gave judgment in the case of the United Automobiles & Tire Co. vs. Murray S. Wright, an action to recover \$32.60 for tires sold by the plaintiff to the defendant. It was stated that the plaintiff took an order from the defendant in October, delivery to be made in April; that the defendant cancelled the order in January. The plaintiff denied his right to so. Judgment was given for the defendant. J. D. P. Lewin was for the plaintiff and G. H. V. Belyea, K. C., for the defendant.

**ST. MATTHEW'S Y. P. S. ENJOY BURNS NIGHT**

Literary Programme Given And Words of The Great Scottish Poet Studied

The programme of St. Matthew's Y. P. Society last evening was of a literary nature. The poet studied was Robert Burns, Scotland's greatest poet. Three papers were read and illustrated by a dozen lantern slides. Miss Jean Scott discussed the life of the poet, laying special emphasis upon the Burns country and the circumstances which greatly influenced him in the execution of his great task as a poet. Miss Helen Turner read a short paper "Burns as a Song Writer." "It is Burns' songs which give his life its lofty place," she said. "His fellow countryman, Carlyle hailed him as the first of all song writers. With what tenderness he sings. There is a piercing wail in his sorrow, the purest rapture in his joy."

Miss Jennie Kein read a paper calling special attention to the great poems of Burns and the poetical gems found in his writings. She said we were all familiar with the verses he had written about his Highland Mary. No lines could be more beautiful than those in which he records their last interview.

Of the lines on the Battle of Bannockburn, "Scots Wha Hae," Carlyle said "that to the end of time the very Scotchman must ever be stirred by this war ode." The Lament for Glencairn was one of the finest of elegies. Many great poets had in such strains celebrated the beloved dead.

A synopsis of The Cottar's Saturday Night, probably the best known of his poems, was given, and Tom O' Shanter, which the poet considered his "standard performance in the poetical line." All remember the rollicking merriment of the first scene. The chase recorded is one of the most exciting that ever was penned.

Where in our language, it was asked, does the spirit of patriotism find simpler and yet nobler expression than in the last two stanzas of "The Cottar's Saturday Night?"

"O Scotland! My dear, my native soil, For whom my warmest wish to Heaven is sent! Long may thy hardy sons of rustic toil Be blest with peace, and peace and sweet content. And O may heaven their simple lives prevent From luxury's contagion, weak and vain, And stand a wall of fire around Their much loved isle."

Miss Olive Rankin sang "Flow Gently Sweet Afton" in a most pleasing manner. A large number were in attendance.

**HERE ON WAY TO CUBA TO ASSIST CANADIAN TRADE**

H. A. Chisholm, Colonel in the War, New Commissioner

No Long Term Credits There, Nearly All Cash Business—No Reason Why Maritime Provinces' Business Should Not Increase

Prospects for development of trade between Canada and Cuba appear particularly encouraging to the newly appointed trade commissioner at Havana, H. A. Chisholm, who is now in the city from Montreal, stopping at the Royal. He will remain here a day or so longer before going to other maritime provinces and then to New York, from where he expects to sail on Dec. 31 for the south to take up his new duties. Mr. Chisholm is a returned man who served with the 8th Battalion from Toronto and later in star work, coming back with colonel's rank.

"We need certain things from the people down there," he said yesterday, "and they need certain things from us. There is every reason why trade should flourish between us. We are doing quite a healthy business with Cuba but there are good chances for this being increased even again. An American protective tariff which prevails on most articles of commerce except certain agricultural implements, coal and coke, newspaper and perhaps a few other articles. Last year exports to Cuba totalled about \$5,000,000 against \$10,000,000 before the war.

"It is interesting to note that there are no long term credits in connection with this Cuban trade," Mr. Chisholm continued. "It is cash business almost entirely, whereas those dealers and manufacturers who are doing business with European centres are usually called upon to give long-term credits. The people down there seem anxious to get our flour even paying 75 and 80 cents a barrel more for it than we do. They like Canadian oats for their horses also and some good sized shipments have been made this year. In the maritime provinces, of course, fish and potatoes form the two leading articles of export to Cuba at present but there is no reason why other staples should not find an equally ready market."

**WORD HERE OF TROUBLE AT SEA**

Schooner Therault, Says Halifax Call, Admit, Two of Crew Sick, Two Have Legs Broken

J. C. Chesley received a telephone call from Halifax this morning informing him that word had reached there that the schooner Therault, out from Weymouth, is adrift in latitude 42.10 longitude 64.40 W. Two members of her crew are sick and two others are incapacitated with broken legs. The vessel is also said to be short of provisions and lacking badly. She is flying a signal for help and has a sail set endeavoring to make Sable Island. Mr. Chesley sent word to Yarmouth and asked that a vessel be sent to her assistance. It is not known where the vessel was bound. It is felt that the accident and sickness must be the result of encountering heavy seas and stormy weather.

**TWO ALLEGED ST. JOHN MCN GUESTS OF MON. TON POLICE**

John Elliott of St. John, is held in connection on a serious charge preferred by a boy. Elliott denies the charge but admits that he had been drinking. The case was to come up again this morning, and he has engaged counsel.

William Hayes, who said he was born in St. John fifty years ago, spent Monday night in the Moncton police cells and was invited in the morning to leave town. In answer to interrogations at headquarters he said he is most of his life in the United States, but lately had been working with a construction outfit near Springfield Junction, N. S. Explaining the presence of a bad looking discoloration over his left eye, the wanderer said he had partaken of "a drop too much whiskey, which he procured in Springfield and fell, striking his head against a door step."

**The Joy of a Home!**

One of the most significant compliments that can be paid to man, woman or child is that he or she is fond of home.

Fondness of home indicates an interest in those things that are elevating and refining. The real joy of living centres in the home. It is the shrine of affection—the haven of rest from the turmoil of the day—the sacred circle in which the choicest memories of life are given root—the theatre of hospitality where precious friendships are developed and enjoyed.

And love of home depends in a large measure on the attractiveness of home itself—not necessarily on its elegance, but on that subtle, inexpressible environment which breathes welcome, comfort and good cheer, and which is made possible in even the humblest home by the application of good taste and correct judgment.

This store ever seeks the opportunity to co-operate with home lovers in creating within their homes—be they modest or pretentious—that atmosphere which contributes to love of home and to the joy of living.

This co-operation is a part of the service rendered to every patron. It adds nothing to the cost of any home furnishings you may select here.

D'ANNUNZIO TO LEAVE FIUME

Italian Regulars to Occupy City, Says Rome Report

Negotiations Between London and Paris Said to Have Brought This About - General Strike Was to be Ended Last Night.

London, Dec. 4.—Italian regulars will occupy Fiume and the territory included in the treaty of London, signed in 1917, by representatives of Great Britain, France, Italy and Russia, according to Rome despatches to the Exchange Telegraph Company.

Captain D'Annunzio's volunteers will withdraw from Fiume, it is said, under the terms of an agreement reached as a result of negotiations between London and Paris.

In the chamber of deputies yesterday the Socialist deputy, Treves, announced that the general union of labor leaders of the Socialist party and the parliamentary Socialist faction had decided that the general strike should terminate everywhere at midnight on Wednesday.

Advices from Milan yesterday, dated said the situation here growing out of the strike was grave.

London, Dec. 4.—An agreement which it is hoped will solve the Adriatic question has been prepared in Paris by the British, French and American peace representatives for submission to Italy, according to private despatches today.

Premier Clemenceau and American Delegate Folk are declared already to have signed the agreement, and it is understood Great Britain is prepared to sign, upon which the agreement will be handed over to the Italian plenipotentiaries in Paris.

The nature of the proposals is not stated, but they are said to have been framed with a view to satisfying the Italian people.

CITY HALL TALK ON HOUSING MATTERS.

Members of the St. John Housing Commission were heard by the mayor and commissioners this morning in an appeal to the city to undertake the expense of providing water and sewerage to Douglas court, where it is planned to erect twenty dwellings.

Commissioner Bullock, the chairman of the commission; Adam P. MacIntyre and C. H. Inches presided at the argument. Mr. Bullock said that there would be an expenditure of \$80,000 on the houses and as the commission was making a scheme, the city should provide the two services without cost to the property owners.

Mr. MacIntyre said he did not look upon the water and sewerage extension upon this street differently from any other street in the city. It had been done on other streets for a profit, but for the housing accommodation of the city, the revenue would amply repay the expense.

Commissioner Fisher said that according to the conditions of the town planning commission in new streets the property owners were to pay the cost of sewerage.

Mr. MacIntyre said that he considered the sewerage system to be a part of the water system.

Mr. Inches was of the opinion that each case should be taken on its merits and the matter not taken as a speculative or money making scheme. As the work was being done for the betterment of the city, the city, the work should be done by the city.

Commissioner Thornton said that in Moncton all expenses were charged up to the property, including water and sewerage. He said there were properties in the North End which might be available for the housing commission.

Commissioner Bullock said that the commission was not prepared to spend money on a venture where purchasers would be difficult to find. He said there would be six or six applications for the proposed houses in Douglas court.

Commissioner Fisher said that the first progress estimate of \$22,500 had been received by the housing board from the government today.

The matter will be brought up again at a subsequent meeting.

Says U. S. Wants to Annex The West Indies

T. B. MacAulay so Declares in Address to Members of Montreal Board of Trade

Montreal, Dec. 4.—The United States aims not merely at business control of the West Indies, but hopes to annex them politically, said T. B. MacAulay, president of the Canadian West India Society, to the members of the board of trade here today in the course of an address on the subject.

Mr. MacAulay pointed out how, by exchanging products, the West Indies and Canada could reproduce the ideal trading conditions to be found in the United States. This internal exchange in trade here today in the course of an address on the subject.

Mr. MacAulay gave in detail a description of the development work that could be done in the West Indies by Canadian enterprise.

LIBERALS OPPOSE MANNING DOHERTY

Both The Old Parties Will Line Up Against The Farmers—Interesting Political Situation

(Special to Times.)  
Ottawa, Dec. 4.—The Unionist government and the Liberal party have both decided to fight the new agrarian party along the line. So long as the farmers were satisfied with merely securing certain representation the old parties were not worrying, but now that their leaders have definitely decided to throw themselves into the political arena the idea of obtaining control of the dominion parliament there will no longer be a policy of compromise.

Mr. Dewar in his speech in Ottawa last night announced that Hon. Manning W. Doherty, the new minister of agriculture in the Drury cabinet, would be opposed no matter where he ran.

The situation was discussed at the Liberal gathering here this week. Elected Mr. Mackenzie King was first chosen leader he had announced that he would be made to the farmers and agrarians. For this reason he refused to run against the farmers' candidate in the recent federal by-elections and changed the minds of the Liberals.

While they have made no official announcement, it is understood that it was decided at the Ottawa gathering to form no coalition with any party. Wherever a Liberal candidate can be found he will be put in the field, no matter whether he is fighting unionist, farmer or labor, and no matter whether it means three-cornered fights in every riding in Canada. They have decided this necessary or go out of existence as a party.

While there has been no caucus on the subject, apparently the Unionist cabinet members have come to about the same conclusion. They are fighting the Ontario precedent of the F. O. O. in the north Ontario by-election, and apparently do not propose to lie down to the farmers. While it is admitted in Unionist circles that their stock is low in the country at the present time, leaders of the party are of the impression that there will be a swing back to the government before the next election. They are of the opinion there will be a repetition of the situation in England. Six months ago the Lloyd George government seemed doomed to defeat, but there has been a reaction in its favor and it is carrying most of the by-elections. At the next session of parliament the Unionist party will decide on its permanent policy.

Mr. Robert Borden last session gave the members at a caucus a draft platform form for a revision of the tariff on scientific lines, but provides for a continuation of the tariff as opposed to both the farmers and the labor party, who are calling for free trade.

It is very possible that there will be provision for imperial preference. The question of imperial relations will be to the fore. The Unionist party leaders believe that with a fight on economic lines and on the ground of sound sense, Canada, among the lines of the American appeal of President Wilson, they will have a good chance at the polls by the time the next contest is due.

AT THE Y. M. C. L.  
Joseph McNamara, physical instructor of the Y. M. C. L., is planning a series of events in the gymnasium for Friday afternoon, open to all members of the school boys' class. There will be a potato race, running high jump, sack race, relay race, pull-ups, dips, etc. A series will be held for boys of thirteen years and under, boys of sixteen years and under, and open events. Special relays will be run as follows: Cathedral vs. St. Peter's, St. John the Baptist vs. Holy Trinity. The boys will also have a sword drill, which promises to create interest. There is no admission fee. The boys will also give a sword dance exhibition.

BAD ACCIDENT IN MONCTON

Roof Collapses Killing One—Another Injured

Moncton, Dec. 3.—Yvon Leger, of Memramook, was killed and Arthur LeBlanc, of St. John, injured late this afternoon at Humphrey's Mills. A roof collapsed while men were working at the removal of concrete forms. A steam pipe was broken by the falling debris and the men were injured.

Mr. Fisher said that after consultation with the engineers he was of the opinion that the water and sewerage work was not quite completed, would not be ready for paving next year. He thought there should be a year elapse in which to allow the cuts to settle.

This did not meet with the approval of Commissioners Jones and Bullock. Mr. Fisher did not think that Marsh road should be paved until the work on the street was completed. In addition, there was a lack of competition and therefore prices would be high for the road to be put in shape temporarily at small expense.

He said that an expenditure of about \$800,000 besides the work done by the contractors would be required to complete the road to be put in shape temporarily at small expense.

HAIL, HAIL, THE GANG'S ALL HERE

Must Work Together to Solve World Problems, Says Drayton

Speaks in New York

Canada's Finance Minister Points to Present Unsatisfactory State of Trade Between the Two Countries.

New York, Dec. 4.—Addressing the thirtieth annual convention of the Association of Life Insurance Presidents today, Sir Henry Drayton, minister of finance for Canada, spoke of reconstruction problems.

"The great underlying principle of reconstruction as it applies to us generally," he said, "is rather that reconstruction which will make for a better and improved state of society, as such a reconstruction which while preserving the right of initiative and proper incentive for effort, will at the same time to the fullest extent possible afford opportunity for everybody."

Sir Henry urged the fullest production of the greatest amount of useful work and the practice of economy and thrift everywhere.

Referring to trade between Canada and the United States, Sir Henry said that during the fiscal year, ending March 31, 1918, Canadian imports from the United States amounted to 65 per cent of the whole. But during the fiscal year ending March 31, 1919, the percentage had grown to 81.26. On the other hand, the percentage of purchases made by the United States in Canada in comparison with total Canadian exports, not only has not increased in a like ratio, but had declined, as the percentage of Canadian exports to the United States in comparison with total Canadian exports for the year ending March 31, 1918, was 29.27 and for the year ending March 31, 1919, only amounted to 27.66.

"The problems of the North American continent," Sir Henry concluded, "will have to be worked out by our respective countries to an ever-increasing degree the problems of the world will be solved by your great republic and the confederated nations of the British Empire. With a history, with laws, with customs, traditions and aspirations so largely common, the essential combined efforts for civilization and humanity ought to be and will be an undivided and harmonious and effective."

The Strike Diverted Fourteen Steamers

And Took More Than Half Million Dollars to Other Ports, Say Shipping Men—Work Resumed Today—Corsican Coming Here

\$300,000 PAVING PLANS FOR 1920

On top of the good news that the Freight Handlers' Union last night voted to go back to work at the old scale of forty-seven cents an hour and place their demands for an increase in the hands of a conciliation board, comes the news that the C. P. O. S. liner Corsican, which sailed from Liverpool a few days ago and which was ordered to go to Halifax, has been instructed to change her course for St. John.

In nine o'clock this morning crews of freight handlers, numbering from one hundred to one hundred and fifty and the employees of the grain elevators, returned to work. The men stopped work on the 28th of November, when their agreement ran out, and since that time the port has been practically idle.

This morning the embargo was lifted and all kinds of freight will be again in motion coming here for shipment to all parts of the world.

Shipping men commenting on the reason for the men to work said that they are only doing now what was their privilege to do at the very first. They say that the men were not to be paid for the time they were out of work, and that the men were not to be paid for the time they were out of work.

The C. P. O. S. men, who were sent to Halifax to handle the passengers on the C. P. O. S. liner, Metagama and Grampian will return to the city Saturday to be ready to handle the passengers on the Corsican, which is due on December 7.

The Freight Handlers' Union have named Fred A. Campbell as their representative on the conciliation board. The C. P. O. S. have not as yet named their representative.

IS FINED \$80

In the police court this morning no prisoners were arraigned before the magistrate as there were no arrests made last night. At noon Charles Ritchie, charged with assaulting City Constable William Saunders, was fined \$80 or ten months in jail. The magistrate said that there were entirely too much of this sort of thing being done, especially in the North End, and he intended to deal harshly with all such offenders. He said the constables were under orders from the courts and should be treated with respect.

BRITISH EMPIRE AND THE STATES

Must Work Together to Solve World Problems, Says Drayton

Speaks in New York

Canada's Finance Minister Points to Present Unsatisfactory State of Trade Between the Two Countries.

New York, Dec. 4.—Addressing the thirtieth annual convention of the Association of Life Insurance Presidents today, Sir Henry Drayton, minister of finance for Canada, spoke of reconstruction problems.

"The great underlying principle of reconstruction as it applies to us generally," he said, "is rather that reconstruction which will make for a better and improved state of society, as such a reconstruction which while preserving the right of initiative and proper incentive for effort, will at the same time to the fullest extent possible afford opportunity for everybody."

Sir Henry urged the fullest production of the greatest amount of useful work and the practice of economy and thrift everywhere.

Referring to trade between Canada and the United States, Sir Henry said that during the fiscal year, ending March 31, 1918, Canadian imports from the United States amounted to 65 per cent of the whole. But during the fiscal year ending March 31, 1919, the percentage had grown to 81.26. On the other hand, the percentage of purchases made by the United States in Canada in comparison with total Canadian exports, not only has not increased in a like ratio, but had declined, as the percentage of Canadian exports to the United States in comparison with total Canadian exports for the year ending March 31, 1918, was 29.27 and for the year ending March 31, 1919, only amounted to 27.66.

"The problems of the North American continent," Sir Henry concluded, "will have to be worked out by our respective countries to an ever-increasing degree the problems of the world will be solved by your great republic and the confederated nations of the British Empire. With a history, with laws, with customs, traditions and aspirations so largely common, the essential combined efforts for civilization and humanity ought to be and will be an undivided and harmonious and effective."

LIFE STORY OF HENRY C. FRICK

Millionaire Manufacturer Who Died on Dec. 2

Through Times of Severe Strife—Once Was Shot by Alexander Berkman, New York Anarchist—One Failure That Cost Him a Million

The life story of Henry Clay Frick, whose death occurred in New York on Dec. 2, is one of deep interest. His career has formed one of the most fascinating chapters in the romance of industry in the United States. At 10, a boy on a farm, in a family of only ordinary means, he was, at 60, a man of so many millions that his fortune, like those of Carnegie and Rockefeller, was largely a matter of guesswork even to himself. It has been said he was worth more than \$104,000,000, perhaps as much as \$200,000,000.

Mr. Frick built up the greatest coke business in the world, and acquired such vast interests in steel that he was also one of the principal magnates in that industry, and in rounding out his career he became known as one of the world's greatest collectors of master paintings. Mr. Frick was born Dec. 18, 1848, at West Overton, Penn. This village was named after the maternal grandfather of Mr. Frick, Abram Overholt, whose original family name was Oberholzer, and who settled in Western Pennsylvania when that region was regarded as the frontier of civilization. As the settlements along the Allegheny and Monongahela grew, and Pittsburgh emerged from its swaddling clothes, Mr. Overholt became the leading miller and distiller of Western Pennsylvania.

In Pittsburgh as their agent. The coke industry was in its infancy. The iron masters of Pittsburgh were just beginning to appreciate the value of coke for their furnaces. Young Frick had an opportunity to acquire a limited interest in a plant near Bradford, and out of the profits of this he acquired other holdings. He later joined a company to build a railroad to penetrate the Conneville coke region, and in 1871, the year this road was opened, Mr. Frick organized the corporation of Frick & Co., which bought coal land and coke ovens in the Conneville region. That was the basis of the Frick fortune. The undivided attention of the rising financier was given to coke until 1882.

Mr. Frick entered the Carnegie Steel Company he decided to make it the most powerful concern in the steel world. Two of his immediate ventures netted the Carnegie concern many millions of dollars with scarcely any investment. Up to this time the switching charges between the various Carnegie plants had been very profitable to the railroads and expensive to the Carnegie company. Mr. Frick built the Union railroad to weld the scattered Carnegie plants closed together. This eliminated the switching charges and saved enormous sums for the Carnegie company.

Thirteen days after the attack Mr. Frick walked to his office unattended and assumed the direction of the great strike, which continued until Nov. 21 of that year. Mr. Frick was unmoved by the violence of the strikers and the distress of the families of the strikers. He won and never begrudged the price of victory.

Mr. Frick also maintained a beautiful summer home at Frick's Crossing, Mass. He was one of the largest owners of Pennsylvania railroad stock, was one of that company's directors, and its dominating factor. He was also a power in Reading, Baltimore & Ohio, Norfolk & Western, and other railroads.

Applied After Shaving Dr. Chase's Ointment Keeps the Skin Soft and Smooth

Almost every man who shaves suffers, at one time or another, from irritation of the skin. In many cases this develops into a form of eczema and becomes very annoying and difficult to overcome. Some have the misfortune to contract barber's itch, which is similar to eczema. Because Dr. Chase's Ointment has conquered eczema it is the most effective treatment available for these skin troubles. But the best way, after all, is to avoid skin disease by keeping the skin in a soft, healthful condition, and this can best be done by applying Dr. Chase's Ointment after shaving.

### SEA OFFICERS FEAR RULE BY SAILORS

Form Association to Protect Themselves From Attacks by Seamen's Unions

(New York Times.)  
To protect themselves against unions among the crews and to preserve discipline at sea, the officers, engineers, doctors, and pursers of the Atlantic liners have formed an association at Liverpool, Southampton and London, which is spreading to all British ports. Officers of ships in New York said yesterday they had had to take this action because of the attitude of the steamship lines in yielding to demands made by the men, without regard to the views of officers or the maintenance of discipline.

In several instances recently unions of seamen, firemen and stewards have complained to the companies against certain officers and have obtained their removal under conditions which the officers contend were unfair to the men removed. One case cited was that of E. C. Moore, formerly purser on the Cunarder Aquitania, and now on the Imperator.

It was asserted that after paying off the crew in Southampton from 9 o'clock in the morning until 2 in the afternoon he stopped for luncheon. Several men from the steward's department went to the office to be paid. Moore, it was said, told them he would attend to them after luncheon, as they were late. The stewards' union lodged a complaint against him and he was relieved.  
Dr. Samuel French, one of the best known ship surgeons in the Atlantic trade, was on the White Star liner Baltic at sea when a steward went to his cabin at 8.30 o'clock in the morning and asked for medicine. The doctor was taking a bath and asked the man to return in half an hour. Instead, the man went to the delegates of his union and a complaint was made against the surgeon for hurrying the steward's feelings. Dr. French said the surgeons had to join an association to protect themselves.  
Captain David, of the White Star liner Regina, arriving in New York after being all night on the bridge, went to the saloon for breakfast. The steward on duty told him it had been arranged for him to eat in his cabin. The captain, it is said, replied: "While I am master of this ship, I will eat breakfast where I please." This shocked the steward so much that he reported the incident to the union delegate on board, and when the Regina returned to Liverpool the organization wrote to the White Star line, complaining of the captain's action. Sailors have complained of the sharp manner in which officers have given orders on deck, and the officers, it is asserted, have been removed as a result of these complaints. The officers contend that orders must be given quickly at sea, and that men are better treated on board ship than they are ashore. The purpose of the association is to band the officers together so that when one of their number is removed at the behest of the union men under them, without a strong reason, other officers on board will leave if the owners yield to the demand without a good reason.  
A senior officer of a liner in this port said yesterday that slackness in discipline on board the ships had increased to such an extent that they feared for their control of the men in the event of a great disaster. Firemen, they said, will not attend lifeboat drills at sea unless they feel like it, and engineers find it almost impossible to make them keep up steam.

who is now in New York, has declared himself in favor of the officers' association as a step needed to maintain discipline. American steamship officers, engineers, pursers and doctors are expected to join, as the discipline on American vessels is said to be no better than on British ships. Shipping Board vessels which have to pick up nondescript crews and inexperienced officers frequently have to hoist signals for the police boat when they reach French and British ports.

Edward H. Burnett of Orange came into possession of an old rolloper desk which had belonged to a relative in Sunderland, and sold it to a second-hand dealer. Before delivering it he looked it over and in various nooks and corners he found \$22, mostly in gold coin.

COLD TEA AT \$12 PER QUART IN BIDDEFORD

City's Thirsty Jolted on Thanksgiving Day — One Victim Paid \$100 For Drink and a Keg of Water.

Cold tea at \$12 a quart was bought by a number of thirsty ones in Biddeford, Me., as an adjunct to their Thanksgiving dinner. Early in the week a peddler who let it be known that he had a "small supply of real liquor" had no difficulty in disposing of four-ounce bottles at \$1.50 apiece. Individuals who have been in the habit of taking a nipper just before they sat down to their Thanksgiving dinner thought it a rare opportunity to get an appetizer, even if the cost was high.

Most of the customers put their bottles of appetizer away in the cupboard until Thanksgiving. Others could not wait and opened their bottle of "hard stuff" the same day with the result that they found out earlier that they had been bucked. Those who did not sample their purchase before the holiday were just as nearly heart broken when they found that it contained nothing but tea.

While a search has been made for the dispenser of the beverage he has not been located.

Water \$100 a Keg.

This is not the first time the thirst of Biddeford have been victimized. A smartly dressed man arrived in the city recently and dropped into bowling alleys and poolrooms, where he made friends. When the time was ripe he represented to a young man that he had a five-gallon keg of fine old Kentucky whiskey he would sell at a bargain. The liquor, he said, he had put away for his personal use when the bone-dry law went into effect, but being in need of money he would sell the liquor for \$100.

The salesman took the victim to a shed where the contraband liquor was hidden.

There was a tap to the keg, and a "sample" was readily drawn, which convinced the man that the liquor was of the brand represented, and he came across with the \$100. Later in the day he asked an acquaintance to sample the stuff, but when he turned the faucet there was no flow of liquor. Breaking in the head he found nothing but water.

Around the spigot was a small tin can which had contained a couple of drinks of liquor, which was the salesman's drink.

"Jacky" Had Many Travels.

Large quantities of Jamaica ginger are said to have been taken to Biddeford for the holiday trade. One story that is going the rounds relates to a ten-gross consignment planted in a tenement house in the residential section, where it could be obtained quickly for customers. The young men who bought the Jamaica ginger paid \$750 for it, but expected to retail it at \$2 for a small bottle. Three men, who learned the location of the "plant," went to the house, it is said, and represented themselves to be deputy sheriffs.

The occupants of the tenement, who was not one of the owners of the stock, wilted when the bogus officials appeared and allowed them to transfer it to an automobile without a protest.

They carried the "jacky" to another part of the city and then went down town to look up a market for the stuff, so the story goes. They offered it for

COULDN'T GO ON WITH HIS WORK

Pace Was Run-down and Worn Out But Tanlac Soon Builds Him up.

"I was in about as bad condition as any one ever gets to be when I began taking Tanlac, but after taking only four bottles I have gained fourteen pounds and am a well man again," said William R. Pace, who resides at 39 Bauer street, Halifax, Canada, recently.

Mr. Pace served three years and nine months with the Seventy-second Battalion, Canadian Expeditionary Forces, in France, and is well and favorably known in Halifax, where he has lived all his life. Continuing, he said:

"Just about five months after I returned from overseas I was stricken with a severe cold, which left me in a very weakened and run-down condition. I had scarcely any appetite to speak of and would go for days and days without eating a thing solid, and when I did eat I suffered a great deal of pain in my legs, and arms and across my back all the time. I felt tired and worn out and lost weight until I fell off from 187 pounds to 120 pounds, and became so weak I finally had to quit work. I could get but little sleep and would get up in the morning feeling completely worn out.

"I had been taking every kind of medicine I could hear of but none of them did me a particle of good, and I had become very much discouraged. I decided to try it, and I began to improve almost as soon as I started taking it. I am on my fifth bottle now and have a splendid appetite, can eat a good, hearty meal and enjoy it, and that tired, worn out feeling is all gone and those dull pains have entirely left me. I am regaining my lost strength and weight every day and am back at work feeling like a new person. I can sleep well at night and get up in the morning feeling bright and cheerful. I have found Tanlac to be a remarkable medicine, and am glad to say a good word for it."

Tanlac is sold in St. John by Ross Drug Company and F. W. Munro under the personal direction of a special Tanlac representative.—(Adv.)

\$1.50 a bottle, a cut in the market price of fifty cents, and took many orders. The following day, when they returned for the goods, they were told that the ten gross of Jamaica had been carried away by two men the night before. Investigation disclosed that they were the real owners of the fluid who had quickly gotten on the trail of the market-believers and recovered the "jacky."

\$325,000 Jewel Lost at Sea.

London, Dec. 4.—Scotland Yard detectives are hoping that a solution may soon be provided of the mysterious disappearance of \$325,000 worth of jewels which were lost at sea between Tilbury and Colombo.

The jewels were despatched by Kinn Brothers, of Morley House, Holborn Viaduct, to a member of the firm in Colombo. They included some unusually fine stones intended for the eastern market. On the voyage they disappeared, and so far the mystery has baffled all attempts at elucidation.

STEPMOTHER BECOMES BRIDE OF SOLDIER SON

Seranton, Pa., Dec. 4.—Marriage License Clerk Tillie Griffiths had the most unusual experience of his career when James Calguire, 28, applied for a license to wed his step-mother, Josephine Calguire, 28.

Clerk Griffiths never having heard of such a proceeding, called in the county solicitor and consulted him before he granted the license. There was no legal act to prevent such a marriage, the solicitor decided, and the license was granted.

Calguire's father, it developed during the quizzing, the couple were put through married Josephine Estiao, a nineteen-year-old girl, five years ago. He was 27 years the senior of his second wife, Calguire died last February while his oldest son, James, was in France with the American army.

Upon the son's return a short time ago he found his step-mother with four small children. He fell in love with her and she agreed to become his wife.

PROFITABLE ARREST.

Philadelphia, Dec. 4.—Being arrested was a profitable venture for Louis Baymack, a former soldier, for three gold wound stripes on his sleeve. Baymack, who lives in Wilkes-Barre, was arrested while selling toys on Market street without a peddler's license. He was released by Magistrate Pennock after promising not to sell in uniform and that he would get a license. Sympathetic spectators in the court bought out his stock of toys when he reached the corridor.

TO A PROSPECTIVE COOK.

Curly Locks, Curly Locks, will thou be ours? Thou shalt not wash dishes, nor yet weed the flowers, But stand in the kitchen and cook a fine meal, And ride every night in an automobile.

Curly Locks, Curly Locks, come to us soon! Thou needst not rise until mid-afternoon! Thou mayst be Croatian, Armenian or Greek; Thy gaudion shall be what thou askest per week.

Curly Locks, Curly Locks, give us a try! Thou shalt not wash windows nor iron my pants. O, come to the cozies of seven-room bowers.

Curly Locks, Curly Locks, will thou be ours?

Sickness Cure or Sickness Prevention

When Pasteur proved the relation of germs to infectious disease, he marked a big advance in the development of medical science which reigns today—the Idea of Sickness Prevention. As a result, many plagues and epidemics that were the bane of former ages no longer terrify the world, and science has now developed an effective agent against the condition which is the first cause of over 90% of all human disease—constipation.

That effective agent is Nujol. Nujol by relieving constipation prevents the absorption of poisons which otherwise would be taken into the blood stream and undermine the whole system. Leading medical authorities agree that pills, salts, castor oil, etc., simply force and weaken the system. But Nujol is entirely different.

Nujol prevents constipation by softening the food waste and encouraging the intestinal muscles to act naturally. Nujol helps nature establish easy, thorough bowel evacuation at regular intervals—the healthiest habit in the world. Get a bottle now, your druggist today.

For reliable health booklet—"Thirty Feet of Danger"—free, write Nujol Laboratories, Standard Oil Co. (New Jersey), 50 Broadway, N.Y.

Warning: Nujol is sold only in sealed bottles bearing the Nujol Trade Mark as shown here. Copies of product represented in the "30 Feet of Danger" may suffer from substitution.

POWER IN ALBERTA

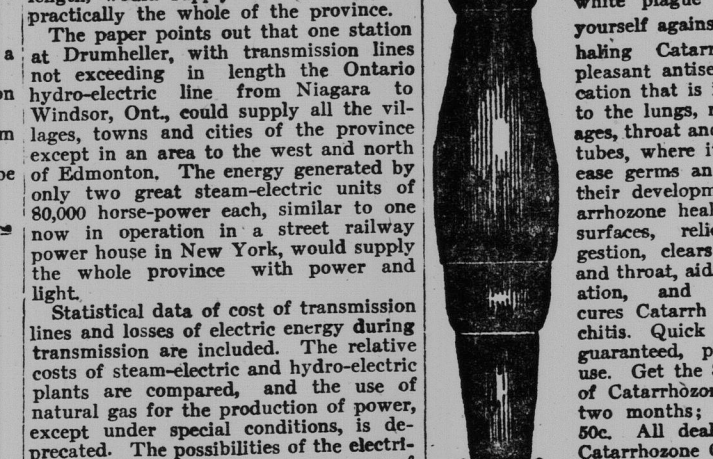

(Commission of Conservation, Ottawa.) Industrial progress is representative of the power supply; where an abundance of power is available, at a competitive cost, there will manufacturing development in certain of our provinces. Water-power is predominant, while in others, coal is the more important. Such is the case in Alberta, as is exemplified in pamphlet just issued by the Commission of Conservation, in which the subject of Power in Alberta is treated by Mr. J. S. White, the assistant to the chairman of the commission. The original paper was prepared for the Alberta Industrial Congress, in Calgary, in August last, but the subject, being of such vast importance, and its effect so widespread, Mr. White was induced to amplify his paper and have it issued in pamphlet form. It is the Alberta Industrial Congress much consideration was given to the question of the production of power on a wholesale scale. This paper demonstrates that, by establishing super-power stations at the principal coal-mining centres, all the power required in the province can be generated from coal which, at present, is being wasted or left in the mine. It is suggested that super-power stations at Lethbridge, Drumheller and vicinity of Edmonton, with transmission lines of in general, not more than 10 miles in length, would supply electric energy to practically the whole of the province.

The paper points out that one station at Drumheller, with transmission lines not exceeding in length the Ontario hydro-electric line from Niagara to Windsor, Ont., could supply all the power required in an area to the west and north of Edmonton. The energy generated by only two great steam-electric units of 80,000 horse-power each, similar to one now in operation at a street railway power house in New York, would supply the whole province with power and light.

Statistical data of cost of transmission lines and losses of electric energy during transmission are included. The relative costs of steam-electric and hydro-electric plants are compared, and the use of natural gas for the production of power, except under special conditions, is deprecated. The possibilities of the electric-tying of railways, the occurrence of petroleum and the fixation of nitrogen are briefly discussed.

Remove That Dirty Film

All Statements Approved by High Dental Authorities

Free A 10-Day Tube of Pepsodent, to show you how to end film. See below.

Look in the Glass

Look at your teeth in the glass. Then brush them in this new way for ten days and look again.

There is a film on your teeth—a slimy film. It clings to the teeth, enters crevices and stays. The tooth brush does not end it. The ordinary tooth paste does not dissolve it. So it stays between the teeth and elsewhere and may do a ceaseless damage.

That film is what discolors—not the teeth. It is the basis of tartar. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay.

Millions of germs breed in it. They, with tartar, are the chief cause of pyorrhea. Thus most tooth troubles are now traced to film.

Dental science, after years of searching, has found a way to combat it. Able authorities have proved it by many careful tests. Now the method is embodied in a dentifrice called Pepsodent, and leading dentists everywhere are urging its daily use.

A 10-Day Tube is now supplied to everyone who asks. Test it and see what it means to you.

A Week Will Tell

The results of Pepsodent will be a revelation. A week will show you that there is a way to whiter and safer teeth. For your sake and your children's sake, make this test and see.

Pepsodent is based on pepsin, the digestant of albumin. The film is albuminous matter. The object of Pepsodent is to dissolve it, then to day by day combat it.

But pepsin must be activated. The usual method is an acid harmful to the teeth. So pepsin long seemed barred. Science has now overcome this trouble by discovering a harmless activating method. It is that method which makes possible this efficient film combatant.

You can prove the effects, and quickly. Send the coupon for a 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the slimy film. See how the teeth whiten—how they glisten—as the fixed film disappears.

Compare the results with your old methods. Learn what clean teeth mean. Then let your own mirror tell you what is best. This test is most important to you. Make it at once. Cut out the coupon now.

**Dejected Man Takes Life Where Wife Did**

**John Woods Kills Himself After Funeral of Wife, Who Also Committed Suicide**

West Toronto, Dec. 3.—Grief-stricken as a result of the tragic death of his wife, John Woods, whose home was at 112 Gilmour avenue, West Toronto, took his own life under circumstances of a most distressing character.

Mr. Woods, who is spoken highly of by his acquaintances, was about forty years of age, and for some years was the principal of a school near Bolton, Lancashire, where, during the war, his wife also engaged as a school teacher. Under the strain of her school duties, Mrs. Woods' health appears to have broken down, and, resigning his position, her husband brought her to Canada soon after the signing of the armistice in the hope that the sea voyage, the change of climate, and the fact that she would be near her mother and other members of her family, who reside in Keele street, would prove beneficial to her.

Mr. Woods procured work as a checker in the West Toronto yards of the C. P. R., but afterwards found more congenial employment at the Dominion Rubber Works, New Toronto.

In May last, Woods and his wife took apartments at 112 Gilmour avenue, where, as the Star was told yesterday, they lived on the most affectionate terms. Mrs. Woods was described as a "lovely woman," to whom her husband appeared to be most devoted, and when on Tues-

day of last week she disappeared from her home no reason could be assigned for her so doing, and her husband became much distressed in consequence.

**Identified Wife's Body.**

On the day of her disappearance he reported the matter to the police at No. 9 division, and when the body of a woman was found in Grenadier Pond last Thursday he identified it as that of his wife, and from that time until Saturday, when the funeral took place, the husband displayed signs of abject dejection. In arranging for his wife's grave he also purchased another piece of land for a grave adjoining, and on Saturday morning, when urged by his landlady to partake of breakfast, he declined to do so.

The funeral of Mrs. Woods took place on Saturday afternoon, and immediately after the interment Mr. Woods returned to his rooms, but left a few minutes later, having in his possession an oblong paper.

A few minutes later the lady of the house had occasion to go into her bedroom, and found a key lying on the dresser.

**Two Letters Found.**

Instinctively she feared something was wrong. She suspected that the key had been left there to enable her to open Mr. Woods' writing-case to which it belonged. This she hastily did, and was confronted with two letters. One of these was addressed to Woods' mother in England, and explained that he had taken his life at the spot where his poor wife's body had been found, as he could not live without her; that he had intended ending his life sooner, but he decided to defer it until after his wife's funeral.

The other letter was unaddressed and made provision for the disposition of his

**A Simple Way to Reduce Wrinkles**

Remember that wrinkles and bagginess of cheek or chin are due to the muscular tissue losing its strength and shrinking. The skin is then too large in area to fit such tissue smoothly. It wrinkles or sags.

To remedy this condition, there's nothing so effective, so quick acting, as a simple wash lotion easily made at home. Just get an ounce of pure powdered sassafras from your druggist and a half pint of witch hazel, mix the two and bathe your face in the liquid. This at once tightens the skin and solidifies the underlying tissue—which, of course, smooths out the lines and draws in the sagging skin. It also stimulates capillary circulation, bringing natural color to faded cheeks.

**Cuticura Is What You Need For Your Hair and Scalp**

Dandruff kills the hair. Cuticura kills dandruff. Try this treatment. Before retiring rub Cuticura Ointment into parts all over the scalp. Next morning shampoo with Cuticura Soap and hot water. Rinse with tepid water. Dandruff usually disappears, hair stops falling and becomes thick, live and healthy.

Soap 25c, Ointment 25c and 50c. Sold throughout the Dominion. Canadian Depot: Lynam's Limited, 35, Peel St., Montreal.

**Police Looking For "Generous" Hubby**

St. Catharines, Ont., Dec. 4.—"Yes, I will take it, and I'll carry it right over to her and just make her smile once more," said a stranger who gave his name as G. A. Ladue, in a local fur store. The stranger said that his wife was ill in the Welland Hospital here, and that she had set her heart on a neutral beaver coat she had seen in the store window. Then, in a seeming burst of generosity, he impulsively pulled a check book from his pocket and wrote out a check for the value of the coat, \$235, a few moments later he walked out with the coat.

He hasn't been seen since, and there is no woman of the name at the Welland Hospital, nor has there been. Neither has anybody by the name of Ladue an account with the Royal Bank here, as the merchant was informed when he presented the check for payment. Ladue is described as thirty years old, slightly built, smooth shaven, with full face. He has brown eyes and wears a green soft hat and dark suit. Chief Greene learned yesterday that a man answering his description passed bogus checks on Hamilton merchants.

**Cured His RUPTURE**

I was badly ruptured while lifting a trunk several years ago. Doctors said my only hope of cure was an operation. Trusses did me no good. Finally I got hold of something that quickly and completely cured me. Years have passed and the rupture has never returned, although I am doing hard work as a carpenter. There was no operation, no lost time, no trouble. I have nothing to sell, but will give full information about how you may find a complete cure without operation, if you write to me, Eugene M. Pullen, Carpenter, 85 F. Marcellus avenue, Manassas, N. J. Better cut out this notice and show it to any others who are ruptured—you may save a life or at least stop the misery of rupture and the worry and danger of an operation.

**TORONTO'S GREAT BUILDING RECORD.**

With only one more month to complete the year, the Toronto city architect's department reports a grand total so far of permits issued for buildings valued at \$17,778,311, this being an advance of \$9,854,981 over the total for the eleven months of 1918. It is expected that the total will be well in advance of \$10,000,000 over that of last year when the final figures are totalled up. Already there is speculation over the prospect for next year, the figure most favored being about \$25,000,000. This was the high-level reached in 1911.

Thousands of Dollars Worth of Timely Furnishings For Men and Boys—and Footwear For Ladies—to be Moved!

Yes, literally, thousands of dollars' worth of the most timely and seasonable merchandise will be left to the mercy of the thrifty buyers of St. John. Never have we been more disregardful of original cost than we have in marking the goods sent to go in this sale.

A glance at the lists below will tell its own story—will serve as the magic wand to accomplish the purpose of the sale—to clear out the lines that must go for stock demanding the space now occupied by these goods. Only one way to do this, and that is to enlist the assistance of the public, and we have done this.

You will find goods here that will be just the thing for Christmas Presents also—thus the sale will be of double advantage to you.

**Here are the Offerings--You Can't Afford to Miss One of Them**

Read over every item mentioned. There isn't one of them that is not in every-day demand. Not one of them but you will have to buy some time, and if not at this sale, certainly at a higher price when these goods move.

**Rain or Shine**

Let neither rain or snow keep you away from this sale. No weather condition should interfere with the saving of money on these needfuls for man, woman or child.

**Remember the Place**

Don't forget the place, and be on hand early to take the most advantage of the offerings. Early choosing is best, and you will have a wider stock to choose from.

**Curtiss Aeronola**  
The Last Word in Talking Machines.

You are Invited to Hear the Most Perfect Talking Machine Yet Produced.

Your Nearest Music Store Will Welcome the Chance to Entertain You.

You love music. When you have an hour of leisure, your mind craves the solace of beautiful singing, or the sweet, pathetic cadence of the violin. You feel the need of a PERFECT TALKING MACHINE, and though you've heard dozens of different talking machines, you are still looking for one which is entirely satisfactory.

By trying a record on the Aeronola, you will see how the full power, sweetness and purity of tone are brought out as no other talking machine can do it. No matter how many talking machines you try, you will unflinchingly come back to the Aeronola for real satisfaction.

Aeronola Cabinets are beautifully made and finished in your choice of woods—mahogany, walnut and fumed oak. You should buy one NOW to be doubly assured of getting one before the Christmas rush. It is natural to "put off," but don't. Go to a music store and hear an Aeronola NOW.

If your dealer does not sell Aeronolas, write us and we will tell you the nearest dealer, who will gladly show you one.

Illustrated Literature and Prices on Request.

LEASED LINE INTERESTS  
GET REPRESENTATION ON  
B. & M. DIRECTORATE

Boston, Dec. 3.—Leased line interests taken into the Boston & Maine railroad under the recent re-organization were given representation on the new board

of directors elected at an adjourned meeting of stockholders today. The new directors include Richard Billings, Woodstock (Vt.), former president of the Connecticut River Railroad; Benjamin A. Kimball, Concord (N. H.), formerly head of the Concord & Montreal

rail; George Von L. Meyer, Hamilton, representing the Boston & Lowell railroad; George R. Wallace, Fitchburg, who was president of the Fitchburg railroad; and Walter M. Parker, of Manchester (N. H.), a Concord & Montreal stockholder.

Boston Landing For Airplanes Planned

Site on the Strandway Regarded Suited to Aerial Mail Service.

(Boston Globe.)

To obtain the approval of the city and its co-operation with the federal authorities in constructing a municipal project an airplane landing field and aerial mail terminus at the Strandway, South Boston, a conference will be held tomorrow morning at City Hall, attended by Mayor Petrus, E. M. Jordan, superintendent of the western division of the United States Aerial Mail Service, who has come to inspect the proposed site, the city's representatives of the Boston Chamber of Commerce, City Planning Board and the Public Works Department.

Post office officials and officers of the air service of the war department have for some time been urging a landing field at Boston. The Strandway location has been judged to be the best available ground near Boston, and aviation experts say it is far superior to projects elsewhere in any other large city.

There are no high buildings or other obstacles nearby to interfere with air navigation, and it is accessible to both land and sea planes. It is only 15 minutes by automobile to the central post office. In size it is more than adequate for the purposes intended.

Approved by the Chamber.

The committee on post office and postal facilities of the chamber of commerce has made a thorough study of the Strandway site and finds it entirely practical, and on its recommendation the directors of the chamber have approved the location. Henry S. Lyons, chairman of the committee, pointed out three distinct values of the municipal landing field. As a terminus for aerial mail service, as a military and recreational base, as a means of promoting the airplane industry in Greater Boston.

"Boston has definite assurance of being placed on the 'aerial mail map,'" says Mr. Lyons, "when a suitable landing field is established. The post office department is eager to extend the aerial service to Boston. Congress is expected to provide an appropriation, and the lack of a suitable landing field is the only obstacle to this development."

"A landing field in Boston would be of great value to military planes and for the training of reserve officers. The development of aviation presents great possibilities likewise for the use of airplanes for pleasure trips. In fact the entire future of aviation holds possibilities of other uses, and a landing field here would encourage the promotion of the airplane. Commercial phases.

"The commercial phases of the question have also been considered. The airplane industry is in its infancy, but New England is in a position to secure a large amount of this business. A number of New England firms are interested in the making of aircraft materials. For the proper development of this industry in Boston and New England, an airplane landing field is one of the fundamental requirements.

"Aerial mail is no longer an experiment. It has proved an extremely practical service, keeping well ahead of the development of the airplane itself. The reliability of the airplane has been demonstrated."

Two postal air routes have been suggested for Boston. One, from Boston to Cleveland, with a possible stop at Albany, would save from 18 to 24 hours in the delivery of mail between New England points and the west. A north-south air trunk line between Boston and Atlanta is also discussed, saving from 16 to 24 hours.

The total cost to the city would be about \$125,000, which would include grading and putting on a firm top coating. Maintenance, exclusive of airplanes, would be at the expense of the city. Incidental matters regarding the project would be covered by an agreement between the federal government and the city.

ROOSEVELT BABY BAPTIZED.

Lieut. Col. Roosevelt's Fourth Son Christened Quentin, After Uncle.

Oyster Bay, L. I., Dec. 3.—The fourth child of Lieut. Col. and Mrs. Theodore Roosevelt was baptized in Christ Episcopal Church. The ceremony was celebrated by the Rev. Dr. Talmadge. The infant was baptized Quentin Roosevelt, after his uncle, the late Lieutenant Quentin Roosevelt, an American aviator, who was killed in action in France.

Miss Flora Whitney served as godmother, and held the baby during the ceremony. The godfathers were William Whitney, Schieffelin Coles, Jr., and Kenneth P. Buhl. Among those who attended the christening were: Mrs. Alexander, grandmother of the child; Colonel and Mrs. Derby, an Captain Kermit Roosevelt. Booklets containing a poem, "The Star of Gold," in tribute to those who gave their lives for the nation in the great war, were distributed to the guests.

The baby was born on the day of Lieut. Col. Roosevelt's election to the legislature.

Baltimore Defies Sunday Blue Law

Stores Transact Business as Usual, With Arrests Between Customers

Baltimore, Dec. 2.—The order of the grand jury, the foreman of which is a former Presbyterian preacher, the Rev. Dr. Chalmers, for enforcement of the Baltimore Sunday blue laws of 1728, was more honored in the breach than in the observance.

More than a hundred proprietors or employees were arrested for working on Sunday, and five or six hundred more will be summoned on the charge of selling on Sunday.

The attempt to enforce the law as it was enforced nearly 200 years ago was a ludicrous farce. Newsboys sold their papers, bootblacks performed their usual Sunday polishing, and the hundreds of corner stores that dispense soda fountains, confections, candies and cigars did a bigger business than ever, with the exception of a few timid women proprietors, who sold soda, but drew the line at cigars and candy.

Legal complications will surely result from the attempt to enforce the obnoxious laws. The attorney who is representing the ice cream dealers told the police early in the day that his people would go right ahead delivering goods as soon as they were free, and they did. Numerous drivers of ice cream trucks were arrested, released on bail, and resumed their deliveries. Justice Johnson at the central police court refused to entertain a second charge against offenders, once arraigned.

Every automobile garage closed in observance of the edict that no gasoline or other automobile supplies should be sold on Sunday. There was a good deal of early travel, however, and most automobilists seemed to have taken the precaution to lay in a supply yesterday.

William S. Busick, assistant manager of the Caswell and New Howard Hotels,

DANIEL IN THE LION'S DEN

—News of the World, London.

was arrested for permitting the barber shop to be open. The barbers were also arrested for working on Sunday.

Benjamin Jaffe, president of the Retail Confectioners and Cigar Dealers' Association, made the charge that Chief of Police Carter had "double-crossed" his association by informing him that no arrests would be made, but only names of offenders would be taken. Chief Carter denied the charge.

"I stated," said the chief, "that I would not cause arrests of retail dealers. I did not want to cause unnecessary trouble that might involve embarrassment to women and children. I shall keep up the crusade against drivers until I have them off the streets."

The state attorney's office says it is going to dodge the blue law issue entirely. Deputy State's Attorney Frederick Burton and Assistant State's Attorney Lindsay Spencer, in the absence of State's Attorney Harry W. Rice, outlined their policy. Mr. Spencer said:

"The position of this office would permit, if possible circumstances would permit,

to prosecute all such violations to the limit with the hope that the public would be aroused to suffer no longer and make every effort to amend these laws, but we probably will not prosecute any of the cases that come up as a result of violations of these laws, for our dockets are crowded at the present time, and if there are any great number of these cases they will be set over for the January term."

The new Republican state's attorney takes office in January. A movement is already on foot to have the legislature that meets in January repeal the law, but previous efforts in this direction have failed.

Rescue Seven From Burning To Death

Revere, Dec. 3.—Quick work by Patrolman John P. Starkey of the Revere police department and George Sutherland of 126 Revere street at 2:30 a. m. saved Mr. and Mrs. Antonio Russo and their five children from being burned to death.

Sutherland saw smoke issuing from the Russo house, which is a two-story wooden structure with a cement store in front, at 428 Revere street. He hurriedly telephoned to the central fire station and then started for the Russo house. On the way he met Patrolman Starkey and they both tried to rouse the Russo family, and not getting any response, forced their way into the house.

The house was now filled with smoke and the two men had a hard time getting into the rooms. They found Mr. and Mrs. Russo nearly overcome, but able to get into the street. Going into the rooms where the children were, Patrolman Starkey and Sutherland found them practically unconscious. They brought the children out safely and the latter were taken to a neighbor's house.

All will recover. The children are James and Lucy Russo, twins, four, Louise seven, Louis eleven and Fanny thirteen. The fire department responded promptly and although the smoke was very thick soon had the fire under control. The fire started in the cellar from some unknown cause.

Unblurrable Windcreens

London, Dec. 4.—Among the wonderful inventions to be seen at the Shipping, Engineering and Machinery Exhibition at Olympia are devices for securing speed, safety and comfort on sea voyages. There are models of luxury in berths, and an elaborate stateroom, with leaded window-panes.

Novelities are shown in electric steering-gear, and the double-reduction gear turbine, one of the greatest advances ever made in marine engineering, is displayed both by models and in the form of full-sized plant.

An extremely ingenious device is the "Clear View" screen, suitable for locomotives, motor cars and aircraft, as well as ships, which secures an unobscured lookout by means of a circular window rotated by a tiny electro-motor, the result being that rain spray and snow are prevented from forming on the glass.

To Win Canada's Great War Trade

(Montreal Herald.)

Brigadier-General C. H. Mitchell, C. M. G., D. S. O., gave an interesting talk at the weekly luncheon of the Canadian Club at the Windsor Hotel today on "Staff Work in the War."

General Mitchell went over with the Canadian forces early in the war and after distinguished service with the troops of the dominion was drafted into the imperial staff as an intelligence officer. He was one of the men who accompanied General Plumer to Italy at the time when the British and French forces were sent to the relief of the Italians on the Piave.

After dwelling at length upon the organization and work of the army staff and particularly the intelligence section, General Mitchell paid a great tribute to the imperial staff officers, from whom, he said, the Canadians learned everything that they knew about army organization. He said the imperial staff officers were thoroughly trained, untiring in their devotion and thorough gentlemen

through and through and, if he said nothing else in his address, he did wish to emphasize this tribute.

In conclusion he said that the many splendid young men who had come back to Canada with the training of staff officers had a magnificent experience which would be invaluable to Canada in the trade war on which we are entering. The same qualities which went toward the successful operating and administering of a large army on active service, were precisely the qualities that were needed for leaders in the war of trade and commerce—using the word "war" not exactly in the military sense, but as meaning a competitive struggle.

Court Season.

London, Dec. 4.—Next year it is understood that the court season will resume its pre-war appearance, and that the opening function will be an evening court for the reception of the ladies of the diplomatic and official circles. Though evening courts for the general circle are also likely to be re-established, it is understood that the afternoon garden parties at Buckingham Palace, which were so popular this summer, will be re-tained.
