MITCHELL FOR THE MAYORALTY

Anti-Tammany Candidate in New York Chosen

NOW IS PORT COLLECTOR

Fusionists, After Nine Ballots, Choose Him From Among Three—District Attorney One of the Others—Gaynor Expected to Run Again

(Canadian Press)

New York, Aug. 1.—Republicans, Progressives and Independents, as representing a fusion committee of 107 members, agreed early today upon the nomination of John Purroy Mitchell, collector of customs of New York, as a candidate for mayor.

The regular democratic candidate, or that to be backed by Mayor Hall, has not yet been named but Mayor Gaynor is understood to be a candidate for nomination for another term.

The agreement of the fusionists to put Mitchell forward as their candidate, was not reached until after an all night struggle during which the committee took nine ballots, on the first of which Mitchell led by slight margins over District Attorney Charles B. Whitman and President George McAneny of Manhattan.

The fusionists were the only three candidates considered and the contest among their adherents was stubborn.

Mitchell led slightly on every ballot, and on the final vote won the necessary majority among the eighty-eight members then present to nominate. He received forty-five votes, Whitman received forty-five, the McAneny forces breaking up and dividing their strength between the two leaders.

The nomination of Mitchell, carries the renomination of William as district attorney and McAneny as president of the Borough of Manhattan, and W. A. Prendergast as president of the board of aldermen.

Mitchell, president of the board of aldermen on the democratic ticket at the last election, was recently appointed by President Wilson as collector of customs at this port.

The platform adopted by the fusion committee has municipal economy as its corner stone. Other issues are home rule, with revision of the city charter, police reform, and a social programme which includes public health, reduction of food costs by the establishment of terminal markets in each borough, establishment of a municipal department of recreation, limitation of the height of new buildings and the extension of trade and vocational training in the public schools.

Well Satisfied With Progress on Refinery

The Montreal men who arrived here yesterday on business connected with the construction of the new sugar refinery spent part of this morning at the site inspecting the work which has already been accomplished. They expressed themselves well satisfied with the progress made.

F. H. Atson, president of the Atlantic Sugar Refineries, Ltd., will return to Montreal this evening. F. G. M. Coy, contractor for the reconstruction, will leave tomorrow evening.

Whiskey Smuggled in in Cuts of Beef

Toronto, August 1.—The introduction of whiskey into the forbidden districts of Northern Ontario in pieces of beef, has been discovered by Chief Rogers, of the provincial police, and several prosecutions have been undertaken.

It was known that a woman in the Precipice district was getting whiskey, and after the authorities had been puzzled for some time, an examination of beef going in was made and deep cuts were noticed. Exploration developed the fact that, cunningly hidden away under each of the cuts was a hot water bottle filled with whiskey, each bottle containing about two quarts of the liquid which the woman mixed with water and sold at fancy prices.

Rate War on Ocean

Companies Are in Quarrel Over Division of the Steerage Passenger Business

(Canadian Press)

New York, Aug. 1.—A cable from London says: The quarrel which has arisen between the Hamburg-American and the Nord-Deutscher Lloyd lines over the division of steerage traffic will, it is feared, extend to other lines, with the almost certain prospect that the North Atlantic conference will break up, entailing a real rate war.

Will Not Recognize Government of Huerta

President of United States Declared Unalterably Opposed to Suggested Course

Washington, Aug. 1.—President Wilson made it clear yesterday to those who discussed the Mexican situation with him that he had not been swayed in the least by the arguments of Ambassador Henry Lane Wilson, in favor of the recognition of the Huerta government in Mexico.

The president is formulating a policy which he told his callers involves nothing that is not entirely friendly to Mexico. He has not yet announced what his programme will be, but he is emphatically and unalterably opposed to the recognition under any circumstances, of the government set up by Huerta, through the events in which President Madero and Vice-President Suarez met tragic deaths.

The president thinks the prospect of peace is growing stronger daily, and regards the problem as by no means insoluble. He believes that the Mexican themselves may be able soon to bring about peace.

New York, Aug. 1.—On the manifest of the steamship Mexico of the Ward Line which sailed yesterday for Vera Cruz, Mexico, were 150 crates of rifles and military governor of the state of Vera Cruz. It was explained at the office of the customs that the crates contained 6000 rounds of ammunition.

The crates were shipped from Washington. They were sent in a large consignment of rifles and cartridges, about two weeks ago in like manner, and under a similar permit. All our shipments have been in violation of the present Mexican government.

IN THE BALKANS

Greek Army Headquarters, Advancing

Livorno, Macedonia, Aug. 1.—The advance of the Greeks, which has reached Plomnik, sixty kilometers north of Livorno, soon will remove the headquarters nearer the front.

The king will not regret leaving the little one-story house that serves as his headquarters. Two sentries alone guard the house from the others. The king's room is reached by a rickety staircase, and furnished in an ordinary camp bed, mosquito netless, and an enameled tin toilet set is placed on a stool and covered with a newspaper, while the white wood table on which the king's papers rest, has a newspaper tablecloth. Hair brushes bearing the crown and the letter "K" alone tell it is the king's bedroom.

On the table are six watches, a framed photograph of the queen, a broken glass, a Bible and two silver inkpots. Furniture as a luxury is not used. The rocking chair is broken and the window panes are replaced with newspapers, which are used also as a carpet, while fly paper hangs on a string from the ceiling.

The princes are no better off than the king. The crown prince and Prince Andrew share the house of the king's aide-de-camp, but Prince Alexander, Nicholas and Christopher prefer a tent.

CITY ENGAGES MR. HOLGATE ON MATTER OF THE NORTH WHARF

H. Holgate of Montreal, who is in the city on business connected with the construction of the sugar refinery, for which he is consulting engineer, has been engaged by the city as consulting engineer in connection with the reconstruction of the North Market wharf. He had a long consultation with City Engineer Murdoch this morning and suggested some changes in the original plans. On his return to Montreal he will prepare a new set of plans and will forward them to St. John for approval.

Mrs. Walter's father is a member of Barnato Bros., diamond merchants, and a director in the DeBeers and other diamond mining companies of South Africa. He is reputed to be wealthy.

Miss Isabel Bliss of Fredericton High School, daughter of Fred St. John Bliss, had the highest marks, with Leo Kelly, another Fredericton student, second. David C. Willett of St. John was fifth. Those who passed in the first division were:

Isabel St. John Bliss, Fredericton; Leo Kelly, Fredericton; Walter L. Seely, Woodstock; Jean McLaughlin, Moncton; David C. Willett, St. John; Burnett Gault, Fredericton; Frank Kierstead, Sussex; Walter R. Flett, Fredericton; George C. Machum, Fredericton; Fred A. Willett, St. John.

Commodore Stewart of Chatham was installed chief patriarch of Wapitook Encampment of Oddfellows here last night.

A ticket collector will be put on the Canada Eastern branch on next Monday. Fred Yeomans, formerly of Marysville who has been running on the main line, will be transferred to the branch.

Judge McKeown held an adjourned sitting of the divorce court today and heard argument of counsel in the Moncton case of Leaman vs. Leaman. His Honor is apparently not satisfied with the evidence submitted and called upon counsel for the plaintiff to cite authorities to show that divorce can be granted on admission of wife being by the husband.

The same point was raised in the case of Hawthorne vs. Hawthorne. In the absence of Austin Allen of Moncton, Dr. Phinney argued the case for the plaintiff and cited authorities and precedents to show that divorce can be granted on admission of wife being by the husband.

Mr. St. John, a well-known guide of the city, will leave this evening for Ontario and will guide a party of Americans on a trip down the Mississippi river.

NO BODIES HAD BEEN RECOVERED UP TO 3 O'CLOCK

Commissioner McLellan and Men Experienced With Grapples At Loch Lomond Today

Commissioner McLellan left St. John early this morning with a party of a dozen men to assist in the search for bodies of the three women who were drowned in Loch Lomond in Wednesday's tragedy. The search party was equipped with three automobiles, special equipment was taken to help in the work.

The men who went out are all experienced in this work. It is believed that the bodies will be recovered by three o'clock this afternoon their efforts were still fruitless.

Miss Georgie Paterson, one of the survivors of Wednesday's sad drowning accident, who has been seriously ill, took a turn the worse this morning. It is hoped, however, that as soon as the effect of the shock wears off she will be in a measure to improve.

MR. HAMPTON'S CASE

Edwards F. Hampton informs the Times that in the case between him and Messrs. Logan and McGuire in the police court on Wednesday he did not agree to move a boat in the position complained of, nor acknowledge that he was wrong in any particular. On the contrary he maintained and is taking legal action on his own account to prove it. So far as moving a boat in front of the scene of the tragedy, he has not weakened. There was never a net or net net so, there was never a net or net net so, there was never a net or net net so.

I. C. R. MEET TO HOLD BIG DAY MEETING

Officials Expected Today and Saturday—Further News of Last Night's Gathering in Railway Town

(Special To Times)

Moncton, N. B., Aug. 1.—Preparations are being made for a big meeting of railway men here on Sunday. Officials are expected today and tomorrow and the men are coming from all over the system. It is expected there will be some interesting developments.

Preparations are being made for a great demonstration on Labor Day and committees on sports, parade, etc., have already been organized. True labor unions will come here to celebrate.

The mass meeting of the C. B. R. E. last evening was very encouraging for the men. Five hundred were present. An invitation was issued to all I. C. R. employees and representatives of every class of labor were present and addressed the meeting, all stating they were in sympathy with the men in their fight to get what they consider their just rights.

Mr. B. McPherson, grand organizer, was chairman, and A. R. Mosher, grand president, was on the platform. Mr. Mosher spoke at some length, asking all those eligible to belong to the C. B. R. E. to join and stick by the order. He reiterated statements already published that if he did not hear from the officials in reasonable time a strike would be called.

Mr. McPherson said that Mr. Brady would storm in committee while Gutter would talk with his silver tongue, but both were trying to injure all labor unions. Before the meeting ended, in response to a request, every body present arose to show sympathy with the men. The meeting broke up with three cheers for Messrs. Mosher and McPherson.

Mr. Gutter is back from Halifax but will not talk.

PREPARING TO CRUSH THE HOPES OF CASTRO

Governors Stand by President in Revolution in Venezuela

Caracas, Aug. 1.—In consequence of the outbreak of the revolution in Venezuela and the invasion of the country by forces under the leadership of former President Cipriano Castro, the federal council has constitutionally authorized President Juan Vicente Gomez to assume dictatorial powers until the movement is crushed.

President Gomez on Wednesday night sent the following telegram to the governors of all the Venezuelan states: "General Cipriano Castro, impelled by ambition and the craving for power, has provoked a revolution in this republic by ordering his partisans to arm themselves against the constitutional government."

"I trust you will fall your duty." The governors promised unqualified support of the government. Some requested the dispatch of additional arms and ammunition.

A CLOSE CALL

Moncton, Ind., Aug. 1.—A miraculous escape from death and injury took place early today, when the tender of the New York Central limited, No. 2, a fast east-bound train, jumped the track on the middle of a 200 foot bridge five miles west of Moncton.

The train ran a third of a mile, then four pullman cars left the track. Although two steel bridge girders were struck through the floor of one of the pullmans, not a single passenger or trainman was injured.

IN CHINA

London, Aug. 1.—Discussing a report that Japanese support is being given to the rebellion, the Times Peking correspondent says that little value is to be attached to the official denials of a report issued in Peking and Tokio. Undoubtedly, the correspondent adds, Japanese sympathy is with the south and the rebels.

Hong Kong, Aug. 1.—General Lung, commander of the government forces in the province of Kwang-Si, proceeding against the secessionists has occupied the city of Shi-Li-Hing on the west river and captured the gunboat Tai-Kong, which was in the hands of the rebels. Communication with Shams-Hui has been cut and troops stopped. Troops have been hurried to oppose the advance of General Lung's force, but the city of Canton is panic stricken. There is an immense exodus from the city and all business has been suspended.

Watermelon and Chicken Fail To Tempt Negro Hunger Striker

Berlin, Ont., Aug. 1.—Joseph Wood, a negro, who was sentenced here to six months for vagrancy, is on a hunger strike in the county jail. Even when Jailer Cook offered him chicken and a watermelon, the prisoner stubbornly resisted this choice menu.

If he persists in starving himself the authorities will use forcible methods to make him eat. His strike has lasted for more than two days, but as he is of strong constitution, he has not weakened. There was never a net or net net so, there was never a net or net net so, there was never a net or net net so.

IS ARRESTED AT GRAVE OF FRIEND

New York Gangsters Fail in Attempt to Rescue

AN OLD MURDER CHARGE

(Canadian Press)

New York, Aug. 1.—While John Henry Moore was scattering a handful of dirt over the grave of a friend, a gangster whom a policeman shot and killed in a street fight on last Saturday, five detectives stepped from among the mourners in Calvary Cemetery yesterday and arrested him on a murder indictment found against him in 1911.

A dozen gangsters dashed over the grave and attempted to release Moore. The detectives drew revolvers and, holding the mourners at bay, retreated to the line of funeral coaches where they entered a cab, taking Moore with them, and ordering the driver to whip up his horses.

Joseph Larkin was shot and stabbed to death by the so-called Gopher gang in a tangle in a dance hall twenty months ago. Moore, who is twenty-two years old, is accused in the indictment of being one of Larkin's assailants.

This vessel is of 3,716,703 superficial feet and is taking away 1,877 standards or 8,716,703 superficial feet and would have carried more than 2,000 standards had the depth of water on the bar permitted a deeper draft.

This cargo was loaded by the J. B. Snowball Company. The previous record from the Miramichi was held by the S. S. Spilby which carried 1,802 standards from F. E. Neale in 1911.

DECLARES MONEY RELIEF IS IMMEDIATE NECESSITY FOR SOUTHERN COTTON MEN

Washington, Aug. 1.—Senator Tillman, in a public statement declared that unless congress provided relief within thirty days southern cotton planters would be "robbed of a hundred million dollars or more" on account of the inability of southern bankers to get money from New York "pirates". He urged that some kind of resolution be passed immediately to afford temporary relief, and that the house banking and currency committee "stop the business conditions in the United States, and I am willing to leave it to his good judgment as to what collateral relief is required," said the senator.

AGAIN FATALITY IN MOTOR CYCLE RACE

Watertown, N. Y., Aug. 1.—Two persons were killed last night in an accident during a motor cycle race held in connection with "Old Home Week" in the village of Russell. The dead are Luther Gilbert, aged 23, motor cycle rider, and Irvin Bartholomew, 40 years old, a spectator.

The race was run through the main street of the village. Gilbert and Bartholomew were speeding along the street at about 30 miles an hour, when Gilbert's machine struck a cross walk and hurled him thirty feet along the road, killing him instantly. Bartholomew, who was watching the race, rushed into the road to drag the fallen cyclist and was struck by Sharpstein's machine.

Rev. Mr. Singer's Meeting in "Ward" Was Held Under Difficulties

Surrounded by four constables and four plainclothesmen, Rev. Henry Singer held a Christian missionary meeting on Sunday night at Kensington avenue and St. Patrick street, Toronto, the corner at which he was stoned two weeks ago by residents of Kensington avenue. The police expected difficulty on account of articles that appeared a week ago in certain Jewish newspapers of the city, but barring a continuous blast of gramophone music, there was no rioting. From the time Mr. Singer began to speak until 9:30 o'clock, when he finished his meeting the police were never called upon to interfere. The Jewish residents of the street, however, did not leave everything to Mr. Singer for just after he began his meeting they started one about a hundred yards up the street. The Jewish meeting grew and grew until at nine o'clock more than 800 people were in the circle. Mr. Singer had an audience of about 50.

The evangelist's meeting was made a sort of joke from a religious point of view by a gramophone that was set up in a window in a store at the northwest corner of St. Patrick street and Kensington avenue. The automatic dispenser of music had been placed in position by

SEARCH FOR DROWNED CONTINUED ALL NIGHT

The search for the bodies of the women who were drowned in Loch Lomond on Wednesday was continued by a large party all day yesterday and two boats proceeded with the search during the night. Members of the Log Cabin Fishing Club are giving valuable assistance. Mayor Frink and Commissioner McLellan visited the scene of the tragedy last evening and promised to send a dozen men from the city to help with the work. As Mr. Noble, one of the survivors, was not able to indicate the place where the accident occurred very exactly, the grappling operations are being conducted over a large section of the lake.

DECLINE IN SHIPBUILDING.

The decline in shipbuilding during the five-year period between 1904 and 1909, according to statistics compiled by the census bureau, is clearly brought out by the fact that for all classes of vessels of five tons and over there was a decrease, with the exception of motor boats, which formed a small part of the total number reported. The decline in the iron and steel branch of the industry is no doubt due to the decrease in government work done in private shipyards. The increase in the number of small boats constructed is perhaps the most noteworthy fact. Motor boats of more than five tons increased 189.9 per cent, in gross tonnage from 1904 to 1909. The number of small power boats of less than five tons launched by private establishments in the shipbuilding industry was 6,877 in 1909, as against 1,697 in 1904, an increase for the decade of 408.4 per cent. Practically all the boats of this tonnage are fitted with internal-combustion engines—American machinery.

JEWEL THEFT HAS GROWN TO \$225,000

Another Big Robbery at Narragansett Pier

MRS. JOHN H. HANAN'S GEMS

Her Loss Estimated at \$150,000. Mrs. Rumsey's Was \$75,000—Taken From Bureau While Maid Was Out For Few Minutes

Narragansett Pier, R. I., Aug. 1.—The best detective genius available is matching wits with the expert crooks who took \$225,000 worth of gems almost from under the noses of the owners in the last few days at the summer colony.

Rival agencies with international reputations as thief getters, engaged by the victims, Mrs. Charles Cary Rumsey and Mrs. John H. Hanan, have brought all their resources into play. Every pier on Narragansett Bay is being watched, in the belief that thieves operating as gentlemen are still sauntering about the fashionable hotels, looking for an opportunity to leave town without exciting suspicion.

Mrs. Hanan's jewels, estimated at \$150,000 in value, were taken from her room in the absence of a maid for not more than twenty minutes on Friday evening. The gems lost by Mrs. Rumsey were removed from her sleeping room while she was absent Saturday evening or Sunday.

It is believed that the old gang which ported so greatly here in the summer of 1911 is again at work, and the police realize that if this is the case, they are pitted against expert cunning.

Attention is again turned toward the reported "fence" in Boston long believed to be patronized by these thieves, but never located. It is not expected that the members of the gang, if, as supposed, several men are working together, will attempt to dispose of their booty for the present.

Mrs. Hanan's Loss

The value of the jewels stolen from Mrs. Hanan, the summer residence of Mr. and Mrs. John H. Hanan, is roughly set at \$150,000.

Reports that the Hanans had been robbed were denied until Mrs. Hanan told the story of her loss. Mr. Hanan is seriously ill and is still in ignorance of what has occurred. An unwillingness to disturb him influenced Mrs. Hanan to withhold the facts at first.

The principal articles taken were:

- A diamond necklace.
- A diamond bracelet.
- A diamond crusted watch.
- A set of star sapphires surrounded by diamonds.
- A diamond pendant.
- A diamond brooch.
- A pair of diamond earrings.
- A pair of black diamond earrings surrounded by white diamonds.

Alphiumum watch set with diamonds. Several other articles of lesser value were taken, but Mrs. Hanan could not recall just what they were. A peculiar feature of the robbery was that some particularly valuable gems were left in the bureau drawer from which the others were taken. They could hardly have been overlooked and this suggests that the job was a hurried one.

Mrs. Hanan would not place any value on the lost jewels, but the estimate was made by a lapidary from a casual description of the property. Mrs. Hanan is accustomed to wear very little jewelry and would not ordinarily have had so much at Shore Acres. It was brought over from New York at a time when she had expected to give her annual reception to Gov. and Mrs. Pothier. The illness of Mr. Hanan made it necessary to cancel the reception.

The jewelry was taken from Mrs. Hanan's bureau a few minutes after she had left the house to attend a reception at St. Peter-by-the-Sea. The loss was discovered within thirty minutes.

Five detectives, two from each of two widely known agencies in New York, and one from Providence are here. "I wear very little jewelry," said Mrs. Hanan, "and what I had here I brought from New York some time ago, when I planned to give a reception and ball for Governor and Mrs. Pothier. I left several pieces of the top of the bureau for my maid to put away, which she did. When I left the house the maid went immediately to a fresh water spring, not far from the house, to bring some water to my room. When she returned to the room, perhaps twenty minutes later, she found the drawer of the bureau open and some of the jewelry gone. Several other pieces had not been taken.

"The girl notified me by telephone and I immediately returned to the house."

"BETTER NAKED" SAYS PREACHER OF WOMEN

Editor of Southern Christian Advocate Believes Suggestive Attire Will Call Down God's Wrath.

Better the women should go entirely naked than dress in the suggestive fashion now popular, is the proposal made by the Rev. Stephen A. Nettles, editor of the Southern Christian Advocate, in an editorial on Sensuality in Women's Dress.

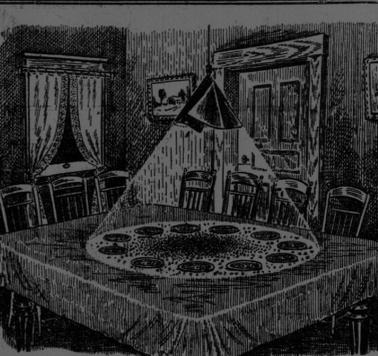

Mr. Nettles declared that unless there is a change "God's withering destruction will be brought on our country."

"It seems," Mr. Nettles says, "that many women love to display their form. It has gone so far that in some cities laws have been passed forbidding the appearance of women upon the streets in certain styles of dress."

"Really, we believe it would be far better morally for the women to follow the custom of many African tribes who are robed in nothing more than beads, than to wear the suggestive dresses which are now adorning their bodies with."

"We believe that one of the sources of this degeneracy of modesty in our women is found in the bathing customs and costumes."

"Let the press and the pulpit and the councils and the state legislatures and the truly modest women of our land do all in their power to avert the destruction being called down upon our country by these devilish customs and costumes."

The above shows how Wilson's Fly Pads will kill all the flies in your dining-room or store at night.

RECENT WEDDINGS

A quiet wedding took place last evening at the home of the bride, Lorneville, when Rev. Wm. W. Malcolm united in marriage Miss Jessie Calder Galbraith, daughter of Mr. and Mrs. Thomas Galbraith, of Lorneville, and Ernest Currier Boutillier, of Somerville (Mass.). The couple were unattended and the ceremony was performed in the presence of only immediate relatives of the contracting parties. After a dainty wedding supper was served, the bride and groom drove to the city, and will leave today for their future home in Somerville. Many kindly remembrances were received.

Twenty-five percent of the children of both sexes between the ages of seven and twelve attending the schools in the province of Yekaterinodar, Russia, have been pronounced victims of chronic alcoholism.

The Evening Times and Star

ST. JOHN, N. B., AUGUST 1, 1915. The St. John Evening Times is printed at 21 and 23 Chatham Street every evening (Sundays excepted) by the St. John Times Printing and Publishing Co., Ltd., a company incorporated under the Joint Stock Companies Act.

BORDEN AND THE I. C. R. Conservative newspapers have been trying to make it appear that there was no serious trouble in regard to the management of the Intercolonial Railway, and that there would be no protest from Conservative members of parliament against the manner in which the freight rates have been increased, and all feeling aroused among the employes as well as the patrons of the road by their methods. The fact is, however, that several Conservative members are now in Ottawa to give Mr. Borden and Mr. Cochrane an expression of views that can hardly be palatable, at least to the minister of railways.

absurd contention. Australia is constructing a navy because she does not believe in a policy of centralization. Canada, with Mr. Borden's hearty approval, adopted in 1909 the same policy as Australia, and would today be carrying it out but for the alliance between Mr. Borden and the Nationalists of the province of Quebec. The Standard may as well look the facts in the face and cheerfully admit what it is useless to deny.

The building record in St. John continues to be very satisfactory and a conclusive evidence of substantial progress. Machinery has arrived at Sussex to bore for oil and gas. We shall soon know whether the confidence of the people that oil and gas exist there is well founded or not.

Are the authorities in St. John taking advantage of the cabinet meeting in Ottawa, to press for additional facilities which must be provided at this port before January if the port is not to suffer a serious loss of business? The Moncton Transcript advises the business men of that city to telegraph and rush orders for supplies which they have given. Apparently the Transcript believes from what it learns in railway circles that business on the Intercolonial is likely to be tied up.

Who will take the initiative to provide a more satisfactory service on the St. John River in summer, for the great number of citizens who would gladly have their children spend a part of the summer months along the lower reaches of the river, if it were possible for the head of the family to get in and out of town morning and evening at a convenient hour? The announcement that President Wilson of the United States will not recognize the Huerta government in Mexico complicates matters a good deal, since the Huerta government appears to be in power in Mexico, and to be as powerful as any faction that may be arrayed against it. The situation is certainly a very interesting one.

THE AUTOMOBILE The members of the Automobile Association will on Saturday repair the highway between St. John and Hampton. In Halifax the Automobile Association has done considerable repair work on roads out of that city. While thus in New Brunswick and Nova Scotia the owners of automobiles give more practical proof of their desire for good roads than the owners of horses and carriages have shown, the farmers of Prince Edward Island continue most vigorously to protest against the use of the automobile in that province. Since permission has been given, however, to use the motor car in the immediate neighborhood of Charlottetown three days each week, it is fair to assume that despite the adverse vote of the people when the question was submitted to them recently, the use of the machine will gradually extend over a wider area until all the people realize, as they do in every other province and country, that the automobile is a convenience the people cannot afford to be without.

THE BORDEN POLICY The St. John Standard yesterday in the course of an article on the naval question, said that the Borden proposals are not inconsistent with the development of a Canadian unit of the British fleet, should the Canadian people desire at any time in the future to establish it. This is merely an attempt to deceive the people. There is, not, nor has there been any emergency calling for an emergency policy. Mr. Borden when he introduced his Dreadnought proposals had evidently made up his mind to support the policy of centralization which the Admiralty advocated in 1902, but rejected in 1909. Here is what the Saturday Review said about Mr. Borden and his policy, in an article in which it criticized the attitude of Mr. Arthur Hawkes. We quote: "There is an article in The Nineteenth Century by Mr. Arthur Hawkes, of Toronto, which hardly makes pleasant reading, because whilst its loyalty to the Empire is unchallengeable, it lends support to the idea of the Little Canadian Navy, as opposed to the policy embodied in Mr. Borden's direct contribution to Imperial defence. Mr. Hawkes forgets that Mr. Borden adopted the policy embodied in the bill which the Senate refused to pass only after long and anxious investigation and consultation with the Admiralty. Mr. Borden has taken an Imperial line because he saw that a Canadian navy would be a mere naval futility. If Canada's idea of nationhood within the Empire is not entirely compatible with Mr. Borden's naval propositions the sooner she and Mr. Hawkes study the matter from the larger point of view the better."

Thus the Saturday Review credits Mr. Borden with having adopted a centralizing policy of contribution "because he saw that a Canadian navy would be a mere naval futility." If Mr. Borden has since changed his mind he certainly has not made the fact clear to the people of this country. The Standard attempts to show that the position of Canada differs from that of Australia, and that there are reasons for an Australian navy which do not apply in the case of Canada. This is an

A SONG FOR AUGUST (Thoms A. Daly in August Canada Monthly) Here's the year on the wane, There are signs in the sky, In the woods, on the plain, That its noon has gone by, But the harvest to gain, And the cool nights are nigh, When the year's on the wane. Here's the year on the wane, There's a hawk in the blue; In the wheat a red stain, Where the poppy peeps through. But there's bread in the grain, And there's warmth of love, too, When the year's on the wane.

LIGHTER VEIN "Then you have explained to your finance that you will bring no dowry?" "Certainly." "What did he say to that?" "He swore that it was a matter of indifference to him." "And how has he conducted himself since?" "I don't know. He has never come back."

Sec. Bryan was listening with an inscrutable smile to the praises of a financial magnate, and a senator was slinging at a dinner. "He's the architect of his own fortune," said the senator, "entirely the architect of his own fortune." "Well," said Secretary Bryan, "it's a lucky thing for him, but I don't believe it didn't come round while the operation was going on."

"Well, my dear," said Mr. Wiggins on the night of election day, "did you vote this morning?" "I did, indeed!" replied Mrs. Wiggins. "I not only voted, but I wrote out my reasons for voting as I did on the back of the ballot and signed my name. You men may feel the need of a secret ballot, but I do not intend to have anybody know how I voted or why."—Magazine of Fun.

NEW BRUNSWICKERS HIGH IN HONORS

Close of The Summer School of Science

SUCCESSFUL MEETINGS

List of the Winners of Scholarships and Prize Winners—Miss Olivia Maxwell of St. Stephen Wins a \$50 Scholarship

The Summer School of Science, which has been held at Halifax during the last three weeks has just completed the most enjoyable and successful of its twenty-seven sessions.

The closing meeting was held on the evening of Tuesday, July 29, in the Technical College, the assembly room of which was crowded with students and friends, who greatly enjoyed the brilliant addresses and the distribution of scholarships and diplomas.

Among the speakers of the evening were Hon. E. H. Armstrong, of the Nova Scotia government; Controller Harris, representing the city of Halifax; Rev. Doctor Bond and Rev. A. B. Colver of the clergy; Doctor McKay, chief superintendent of education; Principal Sexton of the Technical College; and members of the Summer School of Science staff. The honors of the evening were shared by Miss Olivia Maxwell of St. Stephen, N. B., and Hubert Vickery of Yarmouth, N. S., each carrying off a \$50 scholarship. In winning the remaining scholarships New Brunswick students were somewhat in the lead.

Miss Purvey of Yarmouth headed the list in the number of scholarships obtained by any one student, taking the Lindsay scholarship, the scholarship for agriculture in Yarmouth and the prize in English.

Four New Brunswick students carried off two prizes each, as beside the scholarships for highest average they obtained scholarships for special subjects. Miss Ebbett of York Co., and Miss Burgess of Queens, were ties for the first prize in botany, with Miss Young taking the other botany prize. HOW I MADE MY HAIR GROW

Woman With Marvellously Beautiful Hair Gives Simple Home Prescription Which She Used With Most Remarkable Results

I was greatly troubled with dandruff and falling hair. I tried many advertised hair preparations and various prescriptions, but they all signally failed; many of them made my hair greasy so it was impossible to comb it or to tie up properly. I think that many of the things I tried were positively injurious and from my own experience I cannot too strongly caution you against using preparations containing wood alcohol and other poisonous substances. I believe they injure the roots of the hair. After any long list of failures, I finally found a simple prescription which I can unhesitatingly state is beyond doubt the most wonderful thing for the hair I have ever seen. Many of my friends have also used it, and obtained wonderful effects therefrom. It not only is a powerful stimulant to the growth of the hair and for restoring gray hair to its natural color, but it is equally good for removing dandruff, giving the hair life and brilliancy, etc. and for the purpose of keeping the scalp in first-class condition. It also makes the hair easier to comb and arrange in nice form. I have a friend who used it two months and during that time it has not only stopped the falling of his hair and wonderfully increased its growth, but has practically restored all of his hair to its natural color. You can obtain the ingredients for making this wonderful preparation from almost any druggist. The prescription is as follows:

Bay Rum, 8 oz. Menthol Crystals, 1/2 drachm; Lavender Compound, 2 oz. If you like it perfumed add a few drops of Ys-Kalon Perfume, which mixes perfectly with the other ingredients. This, however, is not necessary. Apply night and morning; rub thoroughly into the scalp.

BREWSTER'S MILLIONS OPERA HOUSE, AUG. 7, 8, 9

There is nothing new to say about "Brewster's Millions," Millions have read George McCutcheon's whimsical story of frenzied finance which has made the most blasé laugh. There is little to say about the play. The triumph of stagercraft is attained in the wonderful third act on board the yacht rocking in the gale in mid-ocean. The company in support of Lewis Nilson is a strong one.

George Koors, fifty four years old, who escaped from the Tennessee State Penitentiary in Frankfort twenty-one years ago after serving ten years of a life sentence, has voluntarily surrendered himself and has asked to be allowed to complete his sentence. He says that his decision to return was made on the loss of a coin.

St. John's, Nfld., July 31—Yesterday was the big day of the Orange convention. The grand black chapter completed its work during the forenoon and elected officers for next year.

In the afternoon the Orange convention opened in grand session and a mammoth parade was held through the city, about 1,200 taking part with five bands. The procession visited the government house, tendered assurances of loyalty to the governor, who made an appropriate speech in reply. The parade then made the rounds of the city through thousands of spectators, white sympathizers on the hills on the south side of the harbor fired volleys of musketry and cannon.

After the procession, a large number of leading delegates, including local Grand Master Squires, Attorney-General Morrison, Mayor Hocken, of Toronto; Col. Armstrong, of St. John; Dean Saunders, of Montreal; Canon Fish, of Toronto, and all the ladies of the party, attended the Catholic exchange picnic, which was proceeding at the same time, arranged by local lodges brought the affair to a close.

TEACHERS GET MORE PAY

Sussex Teachers - There will be an increase of \$500 made in the salaries of the Sussex teaching staff next year. For some time it has been getting harder and harder to hold good teachers at the salaries that have prevailed in former years. The west has been taking many of the best eastern teachers and have been boosting salaries in a way that has brought dismay to the trustees of many a district in the maritime provinces. It has become necessary to make an addition here, particularly in view of the fact that Sussex is now possessed of a splendid staff. The increases are general and in the aggregate reach the sum named.

FISHING INDUSTRY

DEMANDING INQUIRY. Mr. H. S. Clements, M. P., Wants the Asiatic Excluded, or at All Events Rendered Less Mosopolitic (Victoria Colonist).

H. S. Clements, M. P., who arrived in the city yesterday to interview the Hon. J. D. Hazen, minister of marine and fisheries, is taking up a strong attitude upon the question of Asiatic fishing in the province of British Columbia, and intends during the next few days to impress upon the minister the desirability, in the interest of the white population of the province, of having the granting of licenses to Asiatics stopped permanently.

"I want total exclusion in this matter," he said, in conversation with a Colonist representative, "and if I cannot have it I want the next best thing to it and that is the stopping of the issuance of further licenses to Asiatics for fishing in the province. And, for that matter, I intend to urge that the department should investigate the licenses at present held, because I am convinced that in a great many cases they are being held and operated illegitimately - that is to say, they are being operated in the names of white people.

"Now, the fishing industry in the province of British Columbia is one of the greatest assets the country has. As such it affords an opportunity for white labor which is not surpassed by any other industry, and I think it is unfair that it should be exploited by the Asiatic to the detriment of the white population. It is bad enough that Asiatics should monopolize the fishing, but, to my way of thinking, it is a great deal worse that they should be doing so under false pretences, as I am advised they are in a great many cases.

"It is my intention to bring this matter before the minister of marine and fisheries, and to ask him to have it thoroughly investigated. I do not know what the government's attitude may be in regard to this matter, but I approach it from the point of view of member of parliament for Comox-Alton, and in that capacity, my contention stands that the exploitation of the fishing industry by the Asiatic element should be allowed to go on, but should be, at all events, curtailed as far as possible consistent with the straight honest business of the Metzeiger Mfg. Co., Quincy, Ill., Dept. 8-4.

"Apart from this and some minor questions, the fishing industry of the coast, which in that vicinity he will honor to represent is in a splendid condition. The catches are well up to the average, and the returns are also on a par with the best. On Monday next the Hon. J. D. Hazen will leave Victoria and visit Prince Rupert, from which point I propose to conduct him over the various fishing stations on the coast. While in that vicinity he will also make a call at the canneries and have a look at the conditions existing there. While little may be heard of the cannery business in these parts, it is safe to say that it is forging ahead at a tremendous rate, and I am sure that the minister will be amazed at the sight in store for him."

Governor Tenor of Pennsylvania was so engrossed in a ball game on Saturday that he forgot until some time after the game that it was the last of the thirty days in which he had to sign bills in the house, and a half before midnight he signed 523 bills, most of them carrying appropriations which he cut down. THINGS WORTH KNOWING TO THOSE INTERESTED IN THE DRINK GORE

One year ago we opened a Neal Institute treating the drink habit at 46 Crown street, St. John (N. B.), to demonstrate to the public that we had a treatment that would cure all desire and craving for alcohol in three days time. Some few call it a "fake" while others tried it with the remarkable result we cured several scores of men and women. St. John was only one of our sixty branches that we have established throughout Canada, U. S. A., and foreign countries. After running it at a big expense for one year we closed our eastern branch as well as several other places where there was a danger of it becoming known that certain prominent people had taken the drink treatment. For the same reason we established a large central hospital at the Capital City, Ottawa some two years ago, where we have every convenience, thoroughly trained male nurses and graduate female nurses for women. Our twenty-two private rooms with electric fans, bath and every modern convenience guarantees to the outside patient comfort and secrecy while taking treatment. While the ride may seem rather long when starting, it is well for the patient to know that it is not necessary for the patient to arrive here perfectly sober, inasmuch as we never cut a patient straight off from liquor. Another feature that adds to taking treatment away from home is the fact that a good long ride after completing the Neal treatment acts as a tonic, the fresh air, change of scenery and the knowledge that when one returns nobody will be a bit the wiser. Remember our fee or charge is \$125 out of which we allow you transportation both ways with the understanding that we guarantee to

BANGOR VS. ST. JOHN HERE TODAY AND TOMORROW

Rodgers the new pitcher for the Greeks who was given a trial at Bangor came to Mr. Leonard highly recommended and as he was receiving Charles and Tarbell for today and tomorrow's games here the manager wanted to give him a fair trial. The result was that he was sent home last night. Nothing but the best will do for the Marathons from this out.

Bangor players say Rodgers had something on the ball all right but he is exceptional pitcher, as the league fight now is very close and from this out the public will witness base ball of the highest class. All the teams are strengthening and the race promises now and for the next five weeks to be most interesting. There is a possibility that a double header may be played here tomorrow with Bangor, but an announcement with reference to this will be made later. It is to be hoped that the Marathons win these two games and hold the leadership.

NOT A VANISHING RACE

Doesn't Yet Appear That the Indian is on His Last Legs

A curious feature of the circumstances attending the erection of a heroic statue of an Indian in bronze on Staten Island is the tendency to regard this memorial as a tribute to a vanishing race. Why vanishing?

That the Indian race should have shown signs of departing under the conditions, when the white man was possessing himself by violence of the land, the red man and carrying the vestiges of civilization into the red new camps, was not surprising. The weaker race went to the wall and the stronger one prevailed by a process that threatened to exterminate.

Time changed all this, however, and in these days of peace and governmental solicitude for the well-being of the Indian, there would seem to be no reason for assuming that, sooner or later, the aboriginal American type must be extinguished, unless on his last legs and that it is proper to begin making provision for honoring him as the "dear departed." The Indian has not departed by any means, nor does he afford evidence of being in any special hurry to depart.

It is more probable that for many a generation to come survivors of the aboriginal tribes will enjoy the privilege of visiting the spot where that six-foot bronze figure is to tower aloft and meditating with amused wonderment on the disposition of their white brethren to assume that their race could be, under present-day conditions, so easily and swiftly wiped out. Pittsburgh Chronicle-Telegraph.

FOOD SOARS IN SOUTH AFRICA

Johannesburg, July 31.—Food prices are soaring in Johannesburg. A combination of the suspension over the difficulties between the railroad men and the miners, on one side, and the government on the other side, will work hardship to the inhabitants.

So high are the prices of foodstuffs that the poorer classes are barely able to obtain the necessities of life. Unless the dispute is quickly settled, further hardships will be entailed, owing to the closing down of the mines and other industries.

The government still remains firm in its determination not to grant the demands of the labor leaders.

LEAVES CUSTOMS AFTER MANY YEARS

Presentation Made to James E. Whittaker Upon His Superannuation

Yesterday James E. Whittaker, who has been a member of the Customs House staff for the last thirty years and lately has been senior appraiser retired on superannuation. As a mark of their high regard representatives of the department met in Mr. Whittaker's house at the corner of Carlton and Dorchester streets last evening and presented to him a silver tea set and an illuminated address.

The address was read by Collector Dunn, who on behalf of the Customs House staff expressed deep regret at Mr. Whittaker's retirement and extended the best wishes for his future good fortune. Mr. Whittaker replied suitably.

In addition to the collector there were present: W. Wilkins, Keith Barber, H. B. Allingham, Charles Tiley, J. B. Daly and Thomas Finley.

After refreshments had been served and a most delightful evening enjoyed by all the gathering broke up about midnight.

LYRIC THEATRE TO CLOSE

TONIGHT FOR THREE DAYS

This evening's performance will mark the last to be held at the Lyric Theatre until it re-opens after being closed for three days, on next Thursday, August 7.

Decorators, painters, carpenters and electricians will weave a web of newness over the now cosy theatre during the time of its being closed, so that when the doors are again thrown open to the public on next Thursday, amusement-seekers will find in the Lyric a convenient and modern theatre, prettily dressed in a becoming coat of pale green, so restful to the eye, relieved by a darker tint in decoration, with up-to-date opera chairs, curved backs and seats, which will add much to the comfort of the patron; new electrical fixtures, and an entire new set of stage scenery, including the scenery for the new production.

The installing of the new Princess street exit at the Lyric some time ago has proved a valuable addition, making retreat from the theatre more easy and comfortable, while the ventilation system, as it is at the present, is not excelled by any amusement house in the city.

Each visitor is at all times well looked after by a courteous staff of attendants, while the programmes of pictures and vaudeville, presented in the past have made the Lyric a by word for good clean amusement. Particulars of the attractions booked for the re-opening will be given in the newspapers the first of the week. They include two excellent feature, and Thursday night being reserved for a visit to the New Lyric, will be found well worth while.

SAYS MANY IDLE IN BRITISH COLUMBIA

(Fredericton Gleaner.) That thousands of men are idle and that the industrial outlook of the west is appalling is the explanation given by Allen DeLong, who arrived from British Columbia yesterday, for his return to Fredericton after several years spent in the west.

Mr. DeLong is a single Sawyer by trade, and he has been in the west for the last three years. Just now the financial tension is being felt in the west much more than in the east, probably owing to the fact that western people are finding much difficulty to meet the payments as they come due on their real estate investments.

Ten thousand men are idle in British Columbia, Mr. DeLong says, and soup kitchens have been opened in some of the cities in order to prevent riots. The situation is getting more serious every day, and unless there is some relief before the winter months it is difficult to say what the outcome will be. Mr. DeLong looks for a large number of former eastern people to return from the west during the next few months.

THE PERISSA A. COLWELL. Capt. P. H. Colwell has received a cable stating that the schooner "Perissa A. Colwell" arrived in Havana from the Canary Islands on July 29.

BASEBALL
Why Game Was Transferred

In reference to a report that Fredrickton may protest Tuesday's game here between St. John and St. Croix on the ground that the game was being transferred to St. John without the consent of the other members of the league, Frank Leonard, manager of the Greeks, was interviewed in Bangor by the Commercial. He said that the transfer was really a business proposition and nothing else.

"They are not drawing very well down to Calais and St. Stephen," said Manager Leonard, "and there were four games scheduled there this week, Monday and Tuesday with St. John and Friday and Saturday with Fredrickton. That is too much for them. The attendance is not large enough to warrant that number, so we thought it relieved the burden of two games it would be a help to the St. Croix club. It was to play in that event leaving in the expense in making the jump. It was only a business proposition, but you can't get Fredrickton team to look at anything in a business light."

It was not a question of advantage. St. Croix is the best road team in the whole league, and plays better away from home than at home.

"We'd be tickled to death to have Fredrickton or Bangor relieve St. Croix by transferring games, and we won't ask for a vote of the league on it at the time. It's a question of money with that team, and the way that they are drawing they can do better away from home."

Married Men Won

The benedictus of the East End League won out after a very one-sided contest from their younger and unattached brethren last evening. The final score was 11 to 0. George Dupliss of the married contingent was the star of the evening shining over a large section of territory. Case and Golding were the batter for the winners, McDonald and Nixon for the losers.

THREE GENERATIONS

Kept Healthy By **Dr. Morse's Indian Root Pills**

Over fifty years ago people began to find out the effectiveness of Dr. Morse's Indian Root Pills in correcting constipation and toning up the system.

Since then the popularity of this reliable old family medicine has grown steadily, and the increase in sales during the past year was the greatest in the whole half century.

As long as livers get sluggish, bowels constipated or kidneys inactive, just so will Dr. Morse's Indian Root Pills cure these conditions and banish their distressing effects for those who are wise enough to use them.

Sick headaches, coated tongues, indigestion, biliousness, dyspepsia, rheumatism and similar disorders are almost invariably caused by impurities which should be removed from the system by the bowels, the kidneys and the pores of the skin. By toning up these organs so that they can do their work properly, Dr. Morse's Indian Root Pills cure, or prevent altogether, a large proportion of the common everyday ailments which keep so many people miserable.

A woman of the North End who was reported by Policeman Briggs for lighting a fire in her yard seemed very much incensed at the policeman's action and called him a "fine squarer." On promising not to commit a like offence again she was allowed to go without paying a fine.

HERBERT B. HALL IS HOME ON VISIT

One of The Pioneers of Lloydminster — Farmers Look For Bumper Crop

Herbert B. Hall, son of Stephen S. Hall of Hall & Fairweather, is renewing old acquaintances in the city. Mr. Hall, accompanied by his daughter, is home from the west where he has been for the last eight years. Speaking to a Times representative this morning Mr. Hall said he had just come home for a few weeks to visit his father, who celebrated his eighty-seventh birthday a short time ago. He also intends paying a visit to Gagetown where he was formerly engaged in farming. Mr. Hall owns a large retail store in Lloydminster, Sask., and was one of the pioneers of that place. When he built his house and store there eight years ago his nearest neighbor was a mile away and he is now in the centre of a fair sized town. Mr. Hall says that the farmers are looking for a bumper crop in the west this year which will make business conditions much better than they have been. He also expressed his entire pleasure with the growth of St. John since he last saw it.

TROUBLE OVER MATTER OF SPRING IN NORTH END

Neighbors at Odds and the Dispute Gets Into Police Court

A quarrel among North End families was aired in the police court this morning. It appears that there is a spring in the Shamrock grounds used by people living near by and in order to reach it conveniently it is necessary for the families to cross the property of a man named London. London resented this apparently because it was done with bad grace, and forbade any further trespassing on his property. His orders were not respected by his neighbors and the other night when some further provocation was offered London undertook to tell his neighbors generally and a man named Quigley, in particular, "who" he said "played the tin fute in the Salvation Army," just what he thought of them.

His language was forcible and he is apparently blessed with stout lungs for his tirade was said to have lasted between the hours of ten and twelve. His neighbors took unkindly to his complaints and tried to dissuade him but not being able to do so called the police. The police came, London stopped, the police went and he started in again, so his neighbors already not very kindly disposed towards him had him brought before the magistrate.

GOOD MAN, BUT VISITS TO CITY—BAD FOR HIM

Paul Wedge's Employer on Farm Gives Evidence in Police Court

George Anthony gave evidence this morning in the police court in the case of Paul Wedge who was arrested on Tuesday on charge of stealing \$80 from Mr. Anthony's farm where he was employed. Mr. Anthony said that Wedge had been a fine man to have working, but had been an early riser and for four years had served him faithfully. The only fault he had to find with him was that he always went to the city when he was paid and spent his money in liquor.
