The Evening Chit-Chat

By RUTH CAMELON

If all the wise and clever sayings, all the successful solutions of vexed problems, all the admirable literary productions and brilliant plans and ideas which come to us in that beautiful borderland time between waking and sleeping...

Personally, I am inclined to the latter rather pessimistic hypothesis, but I know many people who hold the former.

Now what on earth does all this mean? I can hear some practical person exclaiming, "There must have been something the matter with Ruth when she wrote that."

Cherish up, my friend, it may not please you, but I know there will be some foolish dreamer like myself, who will know what I'm trying to say.

Lord Monson on Visit To States—Czar Takes Honor From—Mr. Blanc—Germany, Austria and Italy

(Copyright, 1912, by the Brewster Company)

Lord Monson, who is to arrive in America today from England for a few weeks visit, married the widow of Lawrence Curzon of New York, a daughter of General Roy Stone, U.S.A., Lord Monson is the head of a very ancient family, ever since the reign of James I. has been closely identified with the royal household.

He has achieved it by signing a document which has hitherto formed part of Russia in Asia, shall from henceforth form part and parcel of Russia in Europe. In one word, he has pushed the border line separating his dominions in Europe from those in Asia, so far eastward as to include in his European provinces Mount Elbrus, near the Black Sea, which has an altitude of 18,000 feet, that is to say, 2,700 feet higher than Mont Blanc.

The Kaiser and The Italians

Already the Italian press is beginning to sash Emperor William for himself there, and which after her death was sold by her daughters to the Kaiser. The Italians see in this another slight to their reigning house and to their country by their German ally; all the more, since Pola is the great naval arsenal and stronghold from which Austria is seeking to dominate the Adriatic, and from which it was between Italy and Austria breaks out, the first blow would be struck by the latter against the former.

Moreover, Archduke Francis Ferdinand, who is one of the most distinguished of his undisciplined hostility to everything Italian, is spending this month with his family in the neighborhood of Pola, and will be on hand to welcome the Kaiser there, when he passes through Pola from Berlin to Corfu within the next ten days.

The Italians are wrong in taking offense, for the emperor's reason for his coming to Italy is not to war with Turkey, and he wishes, in view of the large German commercial interests involved in Turkey to refrain from doing anything that

Europe; a supremacy which it had enjoyed for centuries. It may be asked how powerful a monarch has been able to accomplish this without consulting and obtaining the consent of the other nations of Europe. Yes, the manner in which he has done it is very simple.

He has achieved it by signing a document which has hitherto formed part of Russia in Asia, shall from henceforth form part and parcel of Russia in Europe. In one word, he has pushed the border line separating his dominions in Europe from those in Asia, so far eastward as to include in his European provinces Mount Elbrus, near the Black Sea, which has an altitude of 18,000 feet, that is to say, 2,700 feet higher than Mont Blanc.

offense to that very large element of his subjects who are opposed to horse-racing; and, last, but not least, because he believes that the defeat of the colors of any member of his family on the race track would be calculated to impair the prestige of the reigning house and might in time lead to a sort of Austro-Hungarian Portsmouth of political excitement, lead to regrettable popular manifestations.

The consequence is that the crown prince, with a very wry face, has been obliged to cancel all his provisional purchases of a string of at least a dozen very likely race-horses, and whatever racing he does in future will have to be, as in the past, done in conjunction with brother military officers.

THE LEGISLATURE

A careful examination of the speeches delivered at the opening of the legislature yesterday fails to discover any important or unexpected announcements of government policy.

Of greater interest than the speeches of government champions are the contents of one of the reports brought down. The Standard informs us that the public works report shows an expenditure last year on ordinary bridges of \$20,128.00, compared with \$162,224.25 in the previous year.

It is charged, as an excuse for the enormously increased expenditure in this department, that the former government had allowed bridges to fall into decay. This story is not borne out by the facts.

USE THE SCHOOL BUILDINGS. The Women's Canadian Club are to be congratulated on their decision to do some pioneer work in making the school buildings of St. John of greater value.

A TURBULENT REPUBLIC. The Times a few days ago told of the state of affairs in Ecuador, where a series of assassinations and burnings had accompanied a revolution.

Winter, having taken so strong a grip upon us, is reluctant to let go. The province of Nova Scotia proposes to derive more revenue from banks, insurance, and loan companies, trust, telegraph and express companies.

They are making New Brunswick history at Fredericton today. Men from all parts of the province are there to discuss a forward movement for the province.

THE STORM OVER PLAY IN LONDON

The Secret Woman Dull And Sordid and Dialogue Open To Criticism

ENGLISH THEATRICALS

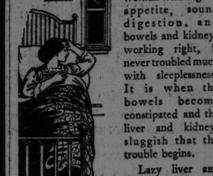

New Leo Fall Opera Promises to Be a Money Winner—Pincro and The Play That Was Hissed—Some New Writers

(Times Special Correspondence.) London, Feb. 27.—The storm which has lately been raging round the head of the unlovely censor shows no signs of abatement. Fortunately for himself he has practically every West End manager at his back, prepared to uphold him through thick and thin. I am bound to say, also, that his opponents have done themselves no good by countenancing the production of Eden Philpott's play, "The Secret Woman," performed at the Kingsway two days ago.

Talk of New Plays

Pincro himself, as you have been notified, had been in serious trouble over the reception given by a number of malcontents to his new play "The Mindful Painter's Girl." On that subject I found him particularly reasonable. "No author," he said, "likes to be hissed, but after all, we've got to take the rough with the smooth. Still, if I have incurred the displeasure of the public, let them empty the vials of their wrath upon me, not upon the artists who have been loyally trying to do their best."

You'll Sleep More Soundly If You Keep Healthy With Dr. Morse's Indian Root Pills

The man or woman with a good appetite, sound digestion, and bowels and kidneys working right, is never troubled much with sleeplessness. Or the inactive kidneys allow the blood to become loaded with uric acid, which causes rheumatism, with all its sleep-destroying torments.

INITIAL SHOWING OF SPRING HATS IN THE MILLINERY SALON

Young Men's Suits For Spring

In this display the young man has been particularly well looked after and it is doubtful if a more representative showing of smart spring models can be found in Canada. Coats are a trifle longer than the ordinary, most of them with semi-fitting backs and vents. Two and three buttons, long lapels, peaked, half peaked and rounded styles.

MONTREAL AND THE I. C. R

The Board of Trade's Move to Have Railway Under Control of Immigration

Montreal, March 8.—Following up its representations to the late government and to the present minister of railways and canals in connection with its desire that the I. C. R. should be placed under the jurisdiction of the board of railway commissioners, the council of the board of trade has sent a memorandum to the senate in order to bring the whole matter before parliament for full discussion with the facts as they affect Montreal clearly stated.

BACK TO NEW BRUNSWICK

The 1917 Club Has Cards Out Booming The Movement

One of the most striking features of the advertising put out by the 1917 club to attract attention to the back-to-New-Brunswick-for-a-week movement is a new series of window cards measuring about twenty by fifteen inches which will be displayed around the city and province to stimulate the sending in of the names and addresses of absent New Brunswickers. These cards will be seen for the first time at the Immigration Conference in Fredericton to-day where they will decorate the walls of the convention hall. Each card bears a snappy phrase and each ends with the slogan of the movement and the date. Some of the cards read as follows:

LONDON PANIC OVER SUFFRAGETTES' ACTIONS REFLECTED IN COURT

Strict Orders Relative to Admission To Royal Palace—Hard to Buy a Hammer

London, March 8.—The panic into which London has been thrown by the activity of the suffragettes, is reflected in the usual instructions issued for last night's court, that ladies would not be admitted to the palace unless they presented their invitation cards, and also in the announcement that both houses of parliament will be closed to the public today. A woman speaker at a militant suffrage demonstration last night, said that if any woman desired to judge the panic the action of the suffragettes had caused, let her go to the nearest store and try to buy a hammer.

TOOK FOUR POINTS

The A. O. H. captured four points last night from the St. Michael's in the intersociety league on St. Peter's Y. M. A. st. legs in a lively and interesting match. Those rolling for the winners were McIntyre, Howard, McGovern, McGowan, and Kelly, while the Saints were composed of Murphy, Duffy, Morrissey, Martin and Cleary. The C. M. B. A. branch 483 will roll with the St. Josephs this evening.

THE PROGRESS OF THE BOOM IN ST. JOHN

Real estate men have admitted that they have been surprised by the amount of money already offering for investment in land, as this is generally supposed to be a difficult time to sell real estate. As a general thing the real estate market does not become active until further along in the spring when the snow is off the ground. For some reason that seems to be the time when people's thoughts turn most noticeably towards acquiring land and securing homes. Local conditions, however, are accountable for the haste to invest here. Although the activity has been phenomenal the real estate men say that it will be vastly greater as the season progresses and buying commences in earnest. Another feature of the market which they are predicting is greater activity in real estate operations in the central part of the city.

C. P. R. VISITORS

William Stitt, general passenger agent and George Ham, chief publicity agent of the C. P. R. arrived in the city yesterday on their way to the Immigration Congress at Fredericton.

Speaking to a reporter Mr. Stitt said the fact of their coming was evidence that the C. P. R. was interested in New Brunswick; in fact, he said, the company was willing to do as much for this province as for any part of the west, if not a little more. Apart from any advantages the province possessed in itself the company recognized the fact that the thousands who came to Canada, whether they were going to the west or the east, during the winter months landed at St. John and formed their first and often lasting impressions of the new country during their stay in St. John and their passage through the province. Everything which helped St. John or New Brunswick to make them appear more prosperous and contented helped the C. P. R., and for this reason the company was willing to reciprocate. Mr. Stitt spoke of the movement for a "Back to New Brunswick" week, and urged that particular attention be given to secure former residents who are now in the New England States, rather than seek to build up the province by bringing back settlers at the expense of the other provinces of Canada. Mr. Ham said he was very glad to see that the people of St. John had begun to regard their own city of some importance. So far as he could see there had been no change in the attitude of other cities towards St. John because his visit had always been looked upon as having very bright prospects, and all that was needed was for someone to start something. "Your real estate boom is only natural," he said, "and if your people will do things it ought to last for ever. I am glad to see you have wakened up over immigration. The C. P. R. has been ready for some time to help you out, and I have been down here several times but could never get very far. I hope it will be different this time."

NEW COMPANIES

J. H. Doody, John O'Regan and Henry Dolan, of St. John; Ed. Carter, of Erie, Pa., and W. J. Emerson, of Boston, are applying for incorporation as the Canada Brush Company, Ltd., to manufacture brushes and brooms and to carry on a general wholesale and retail business; head office in St. John; capital \$60,000. John D. Palmer, C. Ford, Chestnut, Fred B. Edgcombe and A. R. Slipp of Fredericton and J. Howard Richards, of Boiestown, apply for a charter constituting the applicants and others who may become shareholders. The firm is to be known as the New Brunswick Land and head office at Springhill and capital stock \$24,000. F. S. Todd, Louise E. Young and Mary M. Young, Woodstock; J. B. Young of Buctoche and H. W. Rodgers, of Northampton, Carleton county apply for incorporation under the firm name of Carleton County St. John River Valley Land Company, Limited; head office at Woodstock; capital stock, \$24,000.

A WATCH THAT TELLS THE TIME IN THE DARK

A distinct novelty in regard to timepieces which has recently appeared upon the British market is the Bravington "radium" watch, the peculiar feature of which is that throughout it is possible for the time in the dark. Residents in the country, travelers in foreign climes, and those who dwell in towns and cities are fully cognizant of the trouble incident to ascertaining the hour of the night in darkness. The watch is a simple affair, which in itself is an exasperating difficulty, and one which is not always successfully overcome. Hitherto the only method of ascertaining the time under such conditions has been by means of a repeater, but these watches are very expensive. The new watch, however, is distinctly one for the masses, being only nominal in price, and it has the distinct advantage of being a much simpler and easier means of conveying the desired information than the repeater. The watch is a neat little piece of work, two inches in diameter, and very thin and light, so that it fulfills the requirements of a small, light accessory to the pocket. The dial is illuminated, not in a general manner, but by means of round dots composed of a material which emits a phosphorescent glow in the dark, and placed above the indicators of the hour, the hands being likewise covered with this material. The twelfth hour is indicated by two dots, one above and the other below the Roman numeral, so that it is impossible to read the time erroneously. When the watch is examined the hour-dots, one-sixteenth of an inch in diameter, stand out brilliantly, together with the hands; consequently the time can be ascertained at a glance. The illuminating material is said to be of a permanent character, is not affected by dampness, and retains its luminosity under all conditions. In fact, it may be stated that the watch will tell the time in the dark so long as its mechanism keeps going. If desired, the watch can be obtained fitted with an alarm, placed inside, which can be set to ring at any time like the ordinary alarm clock. In this case the watch is about twice as thick and heavy as the one already described. FREDERICTON GIRL'S GOOD FORTUNE. Miss Nellie E. O'Donnell formerly of Fredericton, but now of Boston, has been left \$5,000 in the will of P. M. Stines, a wealthy rancher who died recently in Oklahoma City. Miss O'Donnell met him at an ice carnival in Cleveland three years ago. She intends to return to her former home in Fredericton.

WAS TROUBLED WITH Headache AND Constipation.

After Suffering For Two Years Was Cured By BURDOCK BLOOD BITTERS.

Headache of whatever nature is nearly always symptomatic of other diseased conditions, rather than a disease itself, but in most cases a disordered stomach, constipation, or bad circulation is the chief source of the difficulty. Burdock Blood Bitters removes the cause of the trouble through its cleansing, strengthening and tonic action on the stomach, liver, bowels and blood. Mr. Wm. Redmond, Carleton Place, P. E. I., writes: "I have been troubled with headache and constipation for about two years. After trying every doctor I knew, a friend advised me to try Burdock Blood Bitters. I found myself, after using one bottle, getting much better, and after using three bottles I was completely cured. "After then I was on a visit, and found my cousin very sick, and the doctor told her there was something wrong with her head. I told her to use Burdock Blood Bitters and she was cured in a short time. I can safely recommend it to all." Manufactured only by The T. M. Barr Co., Limited, Toronto, Ont.

PROPOSED SCHOOL FOR 'DENTAL NURSES'

Harvard Dental College May Establish One—Training Would Be a Boon

A school for "dental nurses" is the latest innovation which will be established in connection with Harvard College if the legislative bill providing for nurses of this kind meets with favor at the state house, according to a statement made by Dr. Eugene H. Smith, dean of the Harvard dental school. The proposed school will be established with the Harvard dental college, Dean Smith says. Doctor Smith says that the "dental nurse" would prove a boon to the people of this state for the work she might do to aid preventive dentistry alone, particularly in connection with children. The proposed bill will permit "dental nurses" to assist dentists much as the medical nurse assists the physician. In speaking of the service which the dental nurse could be, Dean Smith said: "The trouble is that dentists do not see children until they are ten, twelve, or fifteen years old. Their mouths have been uncare for. The first teeth have come and gone. The second teeth are going fast. They are allowed to decay and then are often extracted. The nerves of the

J. P. CONDON GETS IT

The Semi-Ready Store on King Street, St. John. John P. Condon, of Halifax, has secured the Semi-Ready store to be opened in the Dunlap-Cooke premises on King street at the end of the month. Mr. Condon was visiting in New Glasgow when he heard of the new store, and he promptly wired to Montreal and telephoned to St. John. He knew Semi-Ready, for he had managed a store in Sydney, where they sold Semi-Ready tailoring, and he had long wanted to get into a big city where there would be an opening for a high-class tailoring shop of the modern school. Mr. Condon is what the Montreal Herald man calls a "St. John booster," for he believes that the city will have a population of 100,000 before the Grand Trunk Pacific is finished. "I have travelled much in Canada during the past two years," he said, "and everybody is looking towards St. John. On every train and in every city they are talking of the city as the great all-year-round open gateway to Canada. From the maritime provinces we have been sending our best young men to help build up and develop western Canada. I think the time has come when we can win back our expatriates." Mr. Condon will take up his residence in St. John. He will superintend the fitting up of the new store, and he hopes to have it ready for a public opening on the last Saturday in March, in plenty of time for the Easter trade. "I am going to make it the best men's shop in the east," he said, "and every garment in the store will be a genuine Semi-Ready."

NOVA SCOTIA PUTS ON SOME NEW TAXES

Halifax, March 7.—A government measure was introduced in the Nova Scotia legislature this afternoon which will mean something to the banks, financial institutions, insurance, telegraph and telephone companies. The bill is entitled "An Act to Supplement the Revenues of the Crown in the Province of Nova Scotia." Under its provisions every bank doing business in Nova Scotia, and having a capital of \$500,000, and having an office in Halifax, shall pay an annual tax of \$1,000, and an additional \$100 for each agency within the province. Less than \$500,000, the tax shall be \$200 in Halifax and \$100 on each agency outside this city. All insurance companies shall pay a tax of one per cent on the gross premiums taken in Nova Scotia. Loan companies shall pay sixty-five cents for every \$1,000 of paid up capital. But in no case shall the tax be less than \$65. Trust companies shall pay forty cents for every \$1,000 of funds used or employed in Nova Scotia. Telegraph companies shall pay one-tenth of one per cent on the total amount invested in lines or works connected therewith in the province, and telephone companies shall pay one-tenth of one per cent on their paid up capital, and a similar tax is levied on all gas and electric lighting or power companies. Express companies operating in Nova Scotia shall pay a tax of \$200 for each 100 miles, or fraction thereof. A clause provided that in cases where the government may consider the tax inequitable it may be waived.

HAIR HEALTH

YORK L. O. L. ANNIVERSARY

York L. O. L. No. 3 celebrated its 79th anniversary last evening in its rooms, Orange hall, Germain street. Members of the lodge and their friends were present. George Oldford, master of the lodge, presided and gave the opening address. Those who delivered speeches during the evening were: Rev. Dr. Hutchinson, Rev. W. R. Robinson, Past Grand Masters Hipwell, Armstrong, D. McArthur and Sullivan; Past County Master Campbell, and Grand Secretary Neil J. Morrison. Mrs. Young and John and William Blizard added much to the pleasure of the evening with their musical selections.

NURSE WINS CASE

Judgment was given by Judge Forbes in the county court yesterday afternoon in the case of Fitzpatrick vs. McInerney, finding in favor of the plaintiff for the amount of \$180. Mrs. Alice F. Fitzpatrick was suing H. O. McInerney who is executor for the estate of James Minehan, claiming eighteen weeks' pay at \$15 a week for services rendered as nurse for the last illness of Mr. Minehan. She was allowed \$180 a week for eighteen weeks, less \$20 which Judge Forbes held should have been credited by her. J. M. Trueman represented Mr. McInerney, R. F. Raymond appeared for Mrs. Fitzpatrick and D. Mullin, K. C., was present on behalf of the beneficiaries under the will.

**FIGHT THE BROWN TAIL**

George F. O'Halloran, deputy minister of agriculture, has issued a circular giving notice of the regulations prepared in view of the alarming increase of the brown tail moth, which provide rigid penalties in case of failure to report and to take preventive measures.

The regulation under "The Destructive Insect and Pest Act" follows: "Any inspector entering any land nursery or other premises where there is reason to believe that any of the insects, pests or diseases hereinafter specified are or may be present, shall give instructions for the treatment or destruction of any tree, bush, crop or other vegetation or vegetable matter or the containers thereof, which may be found or suspected to be infested with any of the insects, pests or diseases hereinafter specified, and such instructions shall be carried out by the owner or lessee of the infested or suspected vegetation, vegetable matter or containers thereof, and such remedial treatment shall be carried out and continued until the insect, pest or disease shall be deemed by the inspector to be exterminated."

**Notice to Fat Women**

Presumably you know, ladies, that the proper caper nowadays is lines. Curves are passe. You have got to take off your fat. This must be done in one of three ways. By dieting, by exercise, or by means of Marmola Prescription Tablets. The two former will keep you busy for months and punish you pretty severely; the latter will cost you 75 cents at the druggist's. The tablets will not make any alteration in your diet necessary, and yet in all probability, before you have used up one case, you will be losing from twelve to sixteen ounces of fat a day. Which method do you like the best?

If you fancy this pleasant method of getting off the fat, see your druggist instantly, or else write the Marmola Company, 1179 Farmer Building, Detroit, Mich., to send you a case by mail. These cases contain so generous a quantity of tablets that child treatment is very economical. It is also, quite harmless for the tablets are made exactly in accordance with the famous Marmola Prescription.

**E. D. C. MINSTRELS MADE HIT**

The Every Day Club minstrels made a hit at Carleton city hall last evening. The hall was nearly filled and the audience heartily enjoyed the programme and applauded the performers. The songs and jokes of the minstrels were well presented and there was life and snap to the whole affair. In addition to the minstrel and the specialties by members of the circle, there was a half hour of music and very bright comedy by Punter and Wilson, a funny sketch by Gordon and Owens, and singing by Charles Cromwell, and roller skate dancing by G. Duplisa.

Before the closing sketch was put on, Thomas Stack told the audience that the Every Day Club minstrels were just beginning, some of them entirely new to the stage, but they expected to come again soon, with a larger circle. His remarks were heartily applauded.

**THE CHURCH UNION VOTE**

Unless the returns which are to come in are more favorable to church union than the vote in 172 Presbyterian churches in Canada which have been reported, the organic union of the Methodist, Presbyterian and Congregational churches is likely to be delayed by the want of a sufficient

majority in the Presbyterian congregations. Out of 800 congregations nearly one quarter have been reported, showing a total vote of 10,482 of which 8,902 favored union and 2,180 were against, a majority of 6,122, a proportion of 3.80 members to one. When the foregoing figures were quoted to Judge Forbes, who is a member of the inter-denominational committee which pre-

pared the basis of union, he said that he still felt confident that the result would show at least a five to one victory. The churches which had reported were mostly in the cities and in Ontario where there was a feeling against union due to the fear that local conditions would be disturbed. In the west and in Cape Breton the vote in favor of union would be overwhelming and Judge Forbes predicted that full returns would show the desired majority.

flatulency, heartburn, dizziness, sick headache, dyspepsia, burning sensation, breath fermentation and the other ailments attendant upon a disordered stomach. Stuart's Dyspepsia Tablets are composed of pepsin and other natural elements that help out the gastric juices of the stomach. They are Nature's digestives, the same kind the stomach uses when it is in good health. Stuart's Dyspepsia Tablets do not merely aid digestion—they actually digest the food themselves. All the hard work is thus taken out of the stomach and it gets a chance to rest and recuperate. The undigested food which formerly produced nauseating gases in the stomach becomes thoroughly digested and as a result provides new brain and nerve cells to replace natural waste always going on. Stuart's Dyspepsia Tablets act quickly, safely and naturally, just like Nature herself. They are an essential part of the stock of every drug store and are sold at 50c a box. You can get a trial package of them free by writing to F. A. Stuart Co., 120 Stuart Building, Marshall, Mich.

MARRIED IN ST. DAVID'S

An interesting marriage was performed in St. David's church yesterday evening by Rev. William W. Malcolm, of Lunenburg. The event was not on the programme of a social being held in the school room of the church, nor had the happy pair planned on holding a reception after the ceremony. It was during the progress of a tea under the auspices of the Boys' Mission Band of the church, that the prospective bride and groom called, in search of a clergyman to marry them. Rev. William W. Malcolm, a Nova Scotia minister, has been supplying until the arrival of the new pastor, but as he is not licensed to perform marriage in New Brunswick, he was unable to act. As luck would have it, however, Rev. William W. Malcolm, a St. David's boy, who is now pastor of the Presbyterian church at Lunenburg was present and met the vision of the vestry. The marriage license was produced and gave the names of the applicants as William Vincent and Bertha Cooper, of the place of residence as St. John.

After placing himself that everything was in order, Rev. Mr. Malcolm performed the ceremony in the presence of a witness who accompanied them. Rev. Mr. Malcolm and some members of the mission band. They had been requested previously by the band members and friends to have the ceremony take place in the presence of the assembly in the school room, but this they declined to do. The bride and groom, however, willingly came out in the school room afterwards, and as they passed down the aisle, were showered with confetti hurriedly supplied from torn pieces of tissue paper. A large bouquet of tulips was taken from one of the tables and presented to Mr. and Mrs. Vincent by a member of the mission band, with many good wishes. Mrs. Vincent is a native of Newfoundland and has been in the city but a short time.

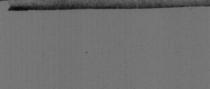

MIRAMICHI COAL.—The recent boring operations in the river at Newcastle have resulted in finding coal deposits but it has not been ascertained yet what the thickness of the seam will turn out to be. THE FIRST SESSION OF THE LEGISLATURE

Maiden Speeches of Baxter and Cuppill—Some Business Transacted

Fredericton, March 7.—The opening of the provincial legislature was of an unusually brilliant character. There were more people present than have attended in many years, attracted no doubt by the many new faces that were prominent in this notable event.

The change in the federal government at Ottawa, too, induced many of its friends to visit Fredericton on this occasion. A special train from the commercial capital brought beside the military contingents of citizens who took advantage of excursion rates and such attractions as curling contests between St. Andrew's and Fredericton clubs, to visit the capital. The new government and listen to speeches by the new premier, Flemming, and the new opposition leader, Copp. They had an opportunity not only to hear eloquent speeches from those gentlemen this afternoon, but at the same time to see the Recorder Baxter acquitted himself in his maiden effort in the legislature in moving the reply to the speech, and to note the youthfulness of the young member from Charlotte, Cuppill, who took his seat for the first time.

There was nothing of a controversial or exciting nature in his honor's address and Mr. Baxter contented himself in the main with brief references to the main paragraphs. He was given a cordial reception by the house and was, with the exception of the recipient of the usual congratulations from both the leaders. His speech gave Mr. Copp but little opportunity for attack. In his criticism, Mr. Copp was moderate, but during his speech he pointed out many of the weak points of the administration. Premier Flemming, on the contrary, made a speech that would have done him credit upon the hustings in a campaign. He did not scruple to take all the credit for anything that has been done to further the construction of the Valley Railway, glossing over the strenuous effort put forth by Messrs. Fugley and Carvell to ensure through line from St. John to Grand Falls. He made an important admission, however, when he said that the route had only been approved by the minister of railways from a point near St. John to Andover, and further that he was not sure whether the subsidy contract between the federal government and the Gould Company has been signed.

It seems to be quite certain that the agreement with the federal government calls for operation by the Intercolonial from St. John to Grand Falls, and that the contract between the company and government calls for completion and Woodstock by the fall of 1913, while the southern sections are not to be completed for two years later. No explanation was forthcoming why the Central-Andover section and that of the Intercolonial with connection with the Transcontinental could not also be completed before 1913.

Premier Flemming had his usual speech on the subject of the new agricultural policy with regard to the province. He did not give Mr. Copp's statement that the very apple exhibitions that were such a credit to the province and were maintained by the province as a suitable place for fruit production, were being possibly by the agricultural department of the former government, and the interest they had developed in the raising of apples by establishment of illustration orchards.

Among other features of the debate was Mr. Copp's reply to Mr. Baxter, who shared the former management of the Central Railway, that there had been an investigation report and that this government had not cared or dared to take such action as would place any mistakes that they alleged had been made upon the shoulders of the proper parties. Until they tried that they were in no position to talk about it.

The galleries contained many from all over the province who came to attend the immigration conference tomorrow and they listened attentively to Mr. Copp's plea that some effort should be made first to keep the sons and daughters of New Brunswick at home before the outsiders from other provinces were asked to take their places. Premier Flemming was unwilling to adjourn the house tomorrow afternoon to enable the members to attend the immigration conference and the debate will be continued at 3 o'clock.

Hon. Mr. McLeod presented the return of the by-elections in Chatham and St. John city and county, and Mr. Baxter, of St. John city and county, Mr. Perley, of Sunbury, and Mr. Cuppill, of Charlotte county, were introduced.

REPORT ON PUBLIC WORKS IN PROVINCE

The annual report of Hon. John Morley, chief commissioner of public works, was presented to the provincial legislature yesterday. He reports that the total appropriations by the legislature for the year 1911 were \$23,800, including public buildings owned by the province, subsidies for steam navigation, construction and repair of wharves and bridges, and maintenance of highways. The greater part of these grants, he reports, was expended on roads and bridges. The total expenditure for bridges in 1910 was \$162,231.34 and in 1911 \$238,128.95, an increase of \$75,897.61. The road expenditure for 1910 were \$97,822.32 and in 1911, \$103,119.09, an increase of \$5,296.77. The total increase for roads and bridges for the year 1911 was \$79,102.18. There was a deficit of \$36,000 in the whole year's transactions. The over expenditure for roads and bridges together \$111 was \$81,248.45.

EAT WHAT YOU LIKE

And What Agrees With You, but Do Not Eat Too Much

Digestion Will Be Good If You Regulate the System With

DR. CHASE'S KIDNEY-LIVER PILLS

Overeating is the great cause of liver troubles, biliousness and constipation. The digestive system becomes clogged with poisonous waste matter, the liver fails and then follow kidney disorders of the most painful and fatal form, such as rheumatism. The beginning is almost invariably with the liver and should be overcome by the prompt use of Dr. Chase's Kidney-Liver Pills before serious disease is developed. An occasional dose of Dr. Chase's Kidney-Liver Pills when the liver fails and the bowels constipated will keep the whole digestive system in healthy working order.

Hundreds of thousands of people have found this out by their own experience and the thousands of letters which are constantly coming in to Dr. Chase's Kidney-Liver Pills. Merit alone can account for their enormous sales.

PATIENTS IN PROVINCIAL HOSPITAL, LANCASTER, WERE 543 ON OCT. 31

Information Culled From Annual Report of Doctor Anglin to the Legislature

The annual report of Dr. J. V. Anglin, superintendent of the Provincial Hospital for Nervous Diseases, was presented to the legislature yesterday. Some of the information contained in the report is as follows: On November 11, 1910, there were 543 patients in the hospital; there were 540 on Oct. 31, 1911. The total number under treatment during the year was 600, exceeding the previous year by sixteen. There were admitted during the year 148 cases, seven of which were discharged, one eloped, and fifty-four died. Six patients were absent on trial at the beginning of the year, and ten at the end of the year. The cases admitted were not all new ones, as forty-two had previously been admitted to the hospital. The patients were admitted from all parts of the province, but the largest number came from the Maritime provinces. The expenditure on account of maintenance was \$104,049.29; from patients supported by municipalities, \$10,252.10. For admission fees there was paid in \$2,740 for sundry articles sold, especially from the farm, \$1,728.26.

MORNING LOCALS

The special train carrying the Artillery Band and other St. John people who attended the immigration conference yesterday reached the city at two o'clock this morning. The boys of St. Matthew's Church were entertained by the Heaton Avenue troop at a dinner and concert in the Odd Fellows' Hall last night. Sports Master Hamroy presided. A very enjoyable evening was had. The members of the Boys' Mission Band of St. David's Church held a high tea last evening and it was very enjoyable. The boys were assisted by ladies of the year previous. The management of Messrs. R. C. Cruikshank and R. C. Campbell. After tea a good programme was given in the Chatham and St. John city and county, and Mr. Baxter, of St. John city and county, Mr. Perley, of Sunbury, and Mr. Cuppill, of Charlotte county, were introduced.

Hon. Mr. Flemming submitted a copy of agreement with J. Douglas Clark, that under present arrangement \$300 was paid the Montreal Acadien, and asked if the government had taken into consideration the publication of the debates in L'Evening, which had a large circulation among the French people of the province, with many of whom it was their only way of keeping in touch with what was going on. Hon. Mr. Flemming said he was in full sympathy with giving fullest information to the French people.

Hon. Mr. Flemming moved that Hon. Messrs. Flemming, Grimmer and Morrissey, and Messrs. Copp and Tweedale be a committee to nominate all standing committees.

TORIES BECOME MIUM ON MANITOBA BILL

Effort to Rush it Through the House in Fear of Effect of Delay—Tariff up in Senate

Ottawa, March 7.—In a feverish effort to shake the door on the Manitoba school question before the big storm of protest breaks from the various disappointed elements in even greater force, the government tonight passed round the word that silence from the ministerial benches was more expedient than talk, and members were told to prepare for an all-night sitting with a view to putting the bill through before daylight.

The Bourassa indignation meeting is announced for Saturday and the more the delay the more the government is frightened of further delay. When the house resumed this evening, discussion of the bill in committee was confined exclusively to the Liberal side. Hon. Dr. Pugsley's amendment to withhold the operation of the act until a conference of provincial premiers had approved the financial terms granted to Manitoba, was debated at considerable length. Mr. Duggan and Hon. Mr. Emmerson led the protest from the standpoint of the maritime provinces, while Dr. Mulvey, of the Liberal, pointed out that Manitoba's previous declaration that the Conservative government would grant the province better territorial terms than Sir Wilfrid was prepared to give, had been belied by the facts, the more so incidentally, the Manitoba member also noted that, in his opinion, the additional annual cash subsidy of half a million for the transfer of 8,000,000 acres of swamp lands to the federal domain, was defeated in committee by a majority of 39.

An amendment by Hugh Guthrie against the payment of \$2,000,000 arrears to Manitoba was taken up and the house settled down to an all-night sitting. On the tariff, the senate today discussed at considerable length the bill creating a tariff commission. Hon. Mr. Loughheed stated there had been so much said in the other house about the bill that his explanation would be brief. The bill proposed to authorize the government to create a board of competent men to obtain information as to the need for a tariff there could be no possible doubt, Canada was developing and required public works which involved the expenditure of large sums of money and which most conveniently was obtained from the customs houses. There might be differences of opinion as to revenue tariff or protective tariff, but both of the latter connected to the maintenance of a tariff of some sort.

If there were any movement for abolition of the tariff it would have come to a head during the time of the late government. However, both for the purpose of obtaining the promises of industry and life, some sort of a tariff was essential for Canada. It was desirable, therefore, to have the tariff of some sort. In the past, Canada had been largely influenced by pressure from one source or another. It was desirable to have the tariff of some sort, but that would not be possible. However, it was desirable to deal with it so far from the influence of outside parties. Therefore, it was proposed to create an independent commission, whose duty it would be to make a report to the minister of finance. If there were to be tariff walls it was desirable to have them built on a firm basis for the sale. That was what the government proposed to do with the assistance of this commission.

AUTO EXPERT IN PERIL

The great automobile industry which is the marvel of the twentieth century has been developed at a terrific cost of human life. The well-known automobile engineer of New York City, C. M. Archer, had a terrible experience which he relates in a letter as follows: "As a result of overwork in my profession my health became very poor and I became very weak and nervous. Then I began to take Vinol and now I am strong and well again. "Vinol has certainly worked a miracle in my case. It is the greatest body builder I have ever seen and nothing equals it. You may publish this for the benefit of every man and woman who wants to restore his way back to health and strength." There are many overworked men and women in this town who ought to take Vinol right now and recover their health and strength while they can. Do not delay another day. We guarantee Vinol to do you good and give back your money if it does not. Watson's—100 King street.

THE SARDINE FACTORY

St. Andrew's Deacon.—The contract for the erection of the large factory buildings covering the Point Chamcook site has been awarded to Mr. Hartman of Montreal and the work will be pushed forward with vigor. The company may be in a position to take fish about the first of August.

A WEAK, ACHING BACK CAUSED HER MUCH MISERY

Could Not Work and Had No Ambition For Anything. Those who have never been troubled with kidney trouble do not know the suffering and misery which those afflicted undergo. Weak, lame or aching back comes from the kidneys, and when the kidneys are out of order the whole system becomes deranged. Doan's Kidney Pills are a specific for all kidney troubles. Mrs. W. R. Hodge, Belding, Sask., writes:—"A few lines highly recommended your Doan's Kidney Pills. For this last year I have been troubled very much with a weak, lame or aching back, and a weak, aching back, which caused me much misery, for I could not work and had no ambition for anything. My kidneys were very badly out of order, and I kept me from sleeping at nights, I tried many kinds of pills and medicines but it seemed pair of ever being well and strong again, when a kind neighbor advised me to try Doan's Kidney Pills, which I did, and am thankful for the relief I obtained from them, for now I am never troubled with a weak, aching back or any other ailment, and always say Doan's Kidney Pills for mine, and can highly recommend them to any one who is troubled with kidney trouble." Price 50 cents per box, or 3 boxes for \$1.25, at all druggists, or mailed direct to The T. Millburn Co., Limited, Toronto, Ont.

MORNING NEWS OVER THE WIRE

At the instance of Miss Mabel P. French a bill has passed the British Columbia legislature permitting the admission of women to the bar as attorneys. French will be the first to take advantage of the new regulation. Mrs. James Campbell, a bride of only a few months, visited the cradle in a neighbor's home in Gloucester, N. S., was fatally burned yesterday. Her clothes caught fire from the fireplace. Mrs. Peter P. Hodge of Robertsonville, N. B., not far from Bathurst, gave birth to triplets on March 1—three boys.

LOCAL LABOR MEN'S STAND ON LEGISLATION

The Trades and Labor Council last night appointed a committee to present their views when the bill providing for government by commission is taken up by the legislature. They will urge the provision abolishing the property qualification for office, and a new section limiting the amount a candidate shall be allowed to spend for campaign purposes.

NEW YORK AS A SEAPORT

New York does three-quarters of the port business of the United States even under the long-standing handicap of the "three-cent differential"—the extra three cents per hundredweight imposed upon New York city freight rates by all railroads. This, of course, diverts a great deal of traffic to Boston and Philadelphia, which is expected to return to New York City the differential shall be removed, as seems not improbable. Nevertheless, the metropolis is still by far the greatest port in the country, thanks to its natural advantages in spite of a long neglect of those advantages and a blind adherence to many old methods. The smoke of one-thousand-foot steamship is already on the horizon, and there is not one pier in New York capable of accommodating her.

GEORGIAN BAY CANAL BILL PASSED BY COMMITTEE

Ottawa, March 8.—The common railway committee yesterday passed the Georgian Bay Canal Company's bill which has been amended to remove the portions objected to by Ontario and Quebec. The canal rates are under control of the railway commission.

SHRINERS NIGHT

The performance of The Great John Caron, given by the Myrtle-Harder Stock Co. in the Opera House last night was attended by the members of the local Mystic Shrine. During the evening they presented bouquets to the lady members of the order. All the players wore the colors of the Shrine. The house was decorated with flags for the occasion.

"Oh, How Itched!"

What long nerve-racking days of contorture—what sleepless nights of terrible agony—itch—itch—itch, constant and insistent, until it seemed that I must tear off my very skin—then. Instant relief—my skin cooled, soothed and healed! The very first drops of D. D. D. Prescription for Eczema stopped that awful itching instantly; yes, the very moment D. D. D. touched the burning skin the torture ceased. D. D. D. has been known for years as the only absolutely reliable eczema remedy that it washes away the disease germ and leaves the skin as clear and healthy as that of a child. If you will come to our store, we have had the agency for this remedy for many years that we can tell you all about it. D. D. D. Prescription and how it cures eczema. Baseball

Good Pitchers Worth \$30,000.

Napoleon Lajoie of Cleveland, turned baseball philosopher and discussed some of the difficulties of a baseball manager. From his long experience as a manager and player he knows whereof he speaks.

"Lots of people thought Barney Dreyfus was crazy when he paid \$25,000 for Marty O'Toole as a pitcher," remarked Lajoie. "I don't know whether Barney paid that much in cash or not, but if Marty comes through for Pittsburgh it was money well spent. If I were a club owner and had a pitcher offered me that I absolutely know would be a star in the big league, I don't think I would hesitate at paying \$50,000. It would be money well spent, but I don't think many club owners will agree with me."

"But they spend the money just the same in the effort without getting the star pitcher. When I came to Cleveland Somers and Kilgoff had Addie Joss. He had cost them nothing and he proved to be one of the best pitchers and ball players the game ever knew, but after they got Joss they invested a good deal more than \$50,000 in pitchers without getting another man the equal of Joss until Greg was bought. See my argument? The average club owner will think nothing of paying anywhere from \$2,000 to \$5,000 apiece for pitching recruits who he hopes will make good. Nine times out of ten the money is thrown away, while the tenth time he may get only a fair pitcher."

"My contention is that if the opportunity is presented a club owner should not hesitate about paying the price for a star. He'll not only save money by not having to buy so many second-rounders, but he will also make it up at the gate."

President Johnson of the American baseball league at Chicago makes the following announcement of releases and contracts:

By Chicago—To Milwaukee, Joe Hoivik (optional); to Wichita, J. Butler; to Kansas City, H. H. Gearty; to St. Paul, C. H. Callahan and John Nelson; to San Francisco, Baker and Corban (optional).

NINE ARE CHARGED IN COURT

King Square Corner Loafing Case is Taken Up

EVIDENCE OF INTEREST

Policeman McCollom is Prosecuting — Business Men on Stand and Defendants are Also Heard — Witness Would Not Take Oath on Bible

"Breeze's corner is getting to be one of the dirtiest corners in the city and a stop must be put to all this corner loafing here at once. Why, women have told me that they are almost afraid to walk along the north side of King Square simply because there are so many loafers hanging around there."

Thus spoke Magistrate Ritchie in dealing with the case of nine men charged with being habitual loafers on the north side of King Square. The men reported were James Riley, William Sylvester, James Alexander, Patrick McCollough, Samuel Jones, Charles Baird, James Fleming, Harry Carr, Stanley Addison, Benjamin Fish, William Morrison and Leo Blizard. The case of the latter four was taken up separately as they were reported later than the others.

In the first five all but Samuel Jones and Harry Carr appeared. Dr. D. B. Berryman reported that Jones was too sick to attend and asked that he be excused this morning. No excuse was given for Carr being absent. The other five pleaded not guilty. J. A. Barry appeared for the defendants.

Policeman McCollom was the first witness called. He swore that all were in the habit of loafing around the square. On Saturday and Monday last he saw most of them there. People passing along the street had complained to him about the loafers, and business men on the square had also brought the matter to his attention. The corner was a very busy one, James Ryan, who conducts a store on the corner of Charlotte street and King Square was one who had complained to him. At the present time he could not mention any other names.

In answer to Mr. Barry the witness said it was not because there were women going in and out of Mr. Ryan's store that the complaint had been made. On Saturday and Monday last he saw nearly all of the five men there. Men standing around the door had a tendency to hurt his business, and also interfered considerably with passers by.

James Dracoll, proprietor of the Hotel Edward said he had seen men hanging around the square for the last fifteen years. He had frequently seen Ritchie and Alexander, but could not say definitely as to the other men. Yesterday was the only day the square was swamped with men hanging around there in his opinion. He knew that Alexander and Fleming were drivers of vehicles. "What kind of vehicles would you call them?" said His Honor. "Well," said the witness, "the common everyday term used is 'flurry wagons' or 'burry wagons.' I thought so, said His Honor, and the incident ended.

Would Not Take Oath on Bible The next witness called was a man named Ford who created quite a little excitement by telling the court that he would not take the oath on the Bible. "Believe in God but not in the Bible," he said, "and the only way I will take the oath is by raising my right hand." His Honor refused to allow the man to be sworn in this way and he was set aside. Mr. Barry contended that the man should be allowed to be sworn, but the court ruled differently.

James Alexander, one of the men reported took the stand. He said he had resided in St. John fifty-four years and had never been reported for loafing here. He had a license to drive a team from the King Square. He had not been requested to move away from the square by Policeman McCollom on Monday last. The witness asked the policeman whether he was on Wednesday morning last between nine and ten o'clock in the morning, but the court would not allow the question as it did not bear on the case.

James Fleming said that he was talking business to a man in the street on Monday last when Policeman McCollom came up and requested him to move along. He had done so. He had a license to drive a team, and was never reported for loafing before.

Charles Baird said that he had walked along the square several times but did not loaf around there. "I am going on seventy-three years of age and have never been reported on any such charge before and I want to know why I am haled to court as a loafer?" He also said that he had not been ordered from the square on Monday last.

Patrick McCollough said he was often up around the square looking for work, but he did not consider himself a loafer. Mr. Barry for the defence asked that the case be adjourned for witnesses. The matter was therefore adjourned until Monday morning at ten o'clock. His Honor said that each of the men would have to put up a deposit of \$8 for their appearance in court then.

The Other Four The case against the other four was then taken up. One of them, Stephen Addison did not appear. Policeman McCollom and James Ryan gave evidence similar to that given in the first case. Blizard said that he was a teamster and that he did not loaf around the square. In answer to a question from Fish, McCollom replied that he was a nuisance around the square and that numerous people had complained to him about him begging money. "Did you not make a remark on the streets yesterday," said Fish, "that I was a nuisance?" "I don't remember making the remark," said McCollom, "but if it did it was pretty near true."

"You can say that now," said Fish, "but if you did not have the buttons on your coat you would not. You cops are very officious when you want to. Why don't you move some of the constables away from in front

of the city market where they usually congregate, or some of those people who loiter around City Hall and the Post Office. "That will do," said His Honor, "you have got quite a reputation here already." "Yes," retorted Fish, "and his very little justice I do get whenever I come." William Morrison told the court that he had nothing to say except that he was not guilty of the charge. Fish was asked if he had any questions to ask Mr. Ryan, and replied "Not a thing." This brought forth the remark from the court "That is the wisest thing you could do." The defendant came back with the reply "Thanks, very kindly, Your Honor, for the information." This case was also adjourned until Monday. None of the men would put up the \$8 deposit and they were all taken below. The court room was crowded with spectators and great interest was taken in the case. Judgment in the case of Meyer Whitman, charged with having liquor for sale on his premises in Mill street without license was adjourned until Monday afternoon at two o'clock.
