

VOLUME 48

VICTORIA, B. C., FRIDAY, NOVEMBER 5, 1909.

NO. 91

### TUPPER SUPPORTS THE LIBERAL TICKET

#### "It Is My Intention," he says, "To Vote Liberal"—Revolts Against "Wild and Unconsidered" Railway Policy.

(From Thursday's Daily.)  
(Vancouver Province, November 4th.)  
Characterizing the bargain between the McBride Government and the Canadian Northern Railway Company as "wild and unconsidered," Sir Charles Hibbert Tupper to-day declared that it was his intention to vote the entire Liberal ticket provided the Liberal party is as wholly opposed to the railway policy of the government as he is. This statement by Sir Charles followed an inquiry addressed to him as to the truth of a report persistently circulated in Liberal circles in Vancouver that it was his intention to be an Independent Conservative candidate either in Vancouver or Richmond.

### TELLS STORY OF CIVIC GROWTH

#### INCREASED BUSINESS OF ELECTRIC COMPANY Now Employing Staff of Three Hundred and Fifty Men in All Departments.

(From Thursday's Daily.)  
That Victoria is growing very rapidly is reflected in the affairs of the local branch of the B. C. Electric Railway & Lighting Company and subsidiary concerns. A. T. Goward, in an interview with a Times representative this morning, conveyed the cheering information that the business of the company was increasing so rapidly that it was taxing all their facilities to cope with the situation.

### MAN CONFESSES DOUBLE MURDER

#### CREATES SENSATION IN PARIS COURT Declares Mme. Steinhil Had Nothing to Do With Tragedy.

(Times Leased Wire.)  
Paris, Nov. 4.—A man who gave the name of Lefebvre rose in court to-day during the trial of Mme. Steinhil, and electrified the assemblage by confessing that he murdered Steinhil and Mme. Joy.

### LEADER OF GREEK REVOLT ARRESTED

#### Naval Officer Believes He Can Justify Recent Mutiny.

(Times Leased Wire.)  
Athens, Nov. 4.—Lieutenant Tipaldos, who led the naval revolt against King George last week, was captured to-day by government troops on the Kephissos road. He was accompanied by Lieutenant Dimoulis.

### MURDER SUSPECT UNDER ARREST

#### ACCUSED OF KILLING THREE PERSONS ON RANCH Prisoner Declares He Is Innocent and Can Prove Alibi.

(Times Leased Wire.)  
Winnipeg, Man., Nov. 4.—John Meehl, a Hungarian farm laborer, is under arrest to-day, accused of murdering his employer, George Thoburn, Mrs. Thoburn and the latter's mother on the Thoburn homestead near Quella Lake.

### AIRSHIP SQUADRON SURPRISES GARRISON

#### German Dirigible Balloons Make Sham Attack on Fortress.

(Special to the Times.)  
Cologne, Nov. 4.—The German airship squadron, consisting of the dirigibles Parsival II, Zeppelin II, and the military airship No. 11, executed a sham attack upon the fortress Ehrenbreitstein. Leaving here soon after midnight the squadron flew up the Rhine to Coblenz, surprised the garrison there and then swooped down upon the fortress on the opposite side of the river.

### VICTORIA'S LIBERAL

government with the railway company as wild and unconsidered, and I think perhaps the government takes that view of it also, owing to the little time which they allow the people to consider it."

"It is rumored, Sir Charles, that you may take the platform in opposition to the government; is there any truth in that?"

"That is a matter I have not considered," replied Sir Charles without hesitation.

"It is my intention, however, to vote Liberal," he continued, after a momentary pause, "and I shall vote the whole Liberal ticket. I am not a Liberal, but when one fails to agree with a policy supported by certain candidates one can only express disapproval by voting for those who are in opposition to that policy. I shall vote Liberal provided the Liberals are opposed to the railway policy, though I do not yet know how far they are committed."

### INVITES JAPAN TO ENTER COMPACT

#### PROPOSAL OF U. S. SECRETARY OF STATE

(From Thursday's Daily.)  
Washington, D. C., Nov. 4.—Much discussion has been occasioned in official circles here to-day by the speech of Secretary of State Knox last night, in which he invited Japan to enter a compact making practically compulsory peaceful settlement of all differences that may arise with the United States.

### MAN CONFESSES DOUBLE MURDER

Paris, Nov. 4.—A man who gave the name of Lefebvre rose in court to-day during the trial of Mme. Steinhil, and electrified the assemblage by confessing that he murdered Steinhil and Mme. Joy.

### MURDER SUSPECT UNDER ARREST

Winnipeg, Man., Nov. 4.—John Meehl, a Hungarian farm laborer, is under arrest to-day, accused of murdering his employer, George Thoburn, Mrs. Thoburn and the latter's mother on the Thoburn homestead near Quella Lake.

### AIRSHIP SQUADRON SURPRISES GARRISON

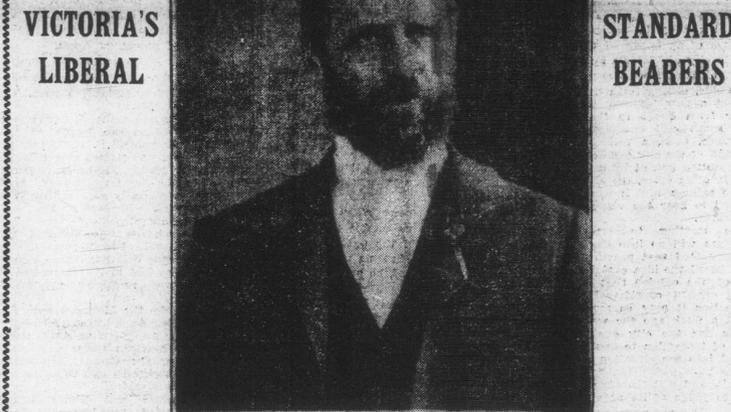

Cologne, Nov. 4.—The German airship squadron, consisting of the dirigibles Parsival II, Zeppelin II, and the military airship No. 11, executed a sham attack upon the fortress Ehrenbreitstein. Leaving here soon after midnight the squadron flew up the Rhine to Coblenz, surprised the garrison there and then swooped down upon the fortress on the opposite side of the river.

### GEOLOGICAL SPECIMENS

Ottawa, Nov. 4.—Wilson Foster of the Yukon, has presented ten thousand geological specimens from Northern Canada to the Geological museum. They include gold, topaz, and opal taken from the crops and gizzards of partridge, grouse and other gallinaceous birds in the north.

### WINNING TICKET HAS BEEN NOMINATED

#### Liberals Hold Enthusiastic Convention Last Evening—Leader of Opposition and Three Strong Supporters Named to Carry Victoria.

(From Thursday's Daily.)  
**JOHN OLIVER.**  
**RICHARD L. DRURY.**  
**WILLIAM K. HOUSTON.**  
**HENRY A. MUNN.**

The above ticket was chosen by the Liberals of Victoria last night at a most enthusiastic convention held in Broad street hall. The large hall was crowded with electors, who were all animated by a spirit of the utmost confidence. That there is an excellent chance to redeem the city was the sense of the gathering and the candidate chosen, it was felt, are the men to achieve that.

THE CLOUD ON THE TORY HORIZON

IT HAS THE FACE OF GEO. E. FOSTER

And Behind it the Figure of Premier McBride—Mr. Roblin's Apprehension.

Ottawa, Nov. 3.—Premier Roblin, of Manitoba, declares that he sees a cloud larger than a man's hand on the Conservative horizon, and he hopes it will disappear before it becomes anything more serious than a danger signal.

The nature of that cloud, and what it portends for the Conservative party is causing considerable speculation among the political specialists here. The observation by Mr. Roblin is not surprising in view of the fact that he has been expressing his apprehension at the moment when Hon. Geo. E. Foster is being acclaimed by the Tory cohorts of Winnipeg. It is doubly significant.

On the top of this coincidence, there sounds the trumpet call of R. L. Richardson, of the Winnipeg Tribune, who demands that Mr. Foster lead an insurrection of the Conservatives against Mr. Borden, on account of his attitude toward the subject of naval defence.

Fate seems to be driving Mr. Foster into a familiar role. He played it with poor success in the tragedy preceding the general election of 1896, and because of the unpopularity of the part, it was considered improbable that he would attempt it again.

The Conservative party in the Toronto Telegram and World and the Winnipeg Tribune, together with the unquestionable lukewarmness of the relations between Leader Borden and the western Conservatives, are factors which would exercise considerable influence on a man of Mr. Foster's temperament.

He knows that Mr. Borden could not make him a cabinet minister, if the Conservatives were returned to power, and the logic of a child can supply his alternative course. To serve in a Conservative government in any other capacity than as a minister would be unendurable to one of his prominence and experience, so his only chance would be to serve under a man in whose cabinet he could find a place, falling the leadership itself.

There is to be a national convention of the Conservative party next year. As soon as the announcement was made the waters became disturbed. Mr. McBride obtains a dissolution and goes to the country, although his last election was only two years and a half ago.

SUNLIGHT SOAP

The finest fabric is not too delicate to be safely washed with Sunlight Soap. When other soaps have injured your linens and faded the coloured things, remember the word Sunlight.

DONATIONS MADE TO THE ORPHANS' HOME

Monthly Meeting of Women's Committee Receives Grati-fying Report.

The monthly meeting of the ladies' committee of the British Columbia Protestant Orphanage was held at the home on Monday.

The ladies passed a hearty vote of thanks to the numerous donors of harvest thanksgiving gifts, which were greatly appreciated, special mention being made of the children's gifts from St. George's school by Mrs. Suttie and Miss Fenwick, which are a great source of pleasure and encouragement to those in charge.

A letter was read from Mrs. McLellan, a resident of the orphanage, who had not reached the home in full, but four pounds deficit. Bills were paid amounting to \$23.50.

The report of the visiting committee was as follows: Madam President and Ladies of the Committee: We beg to report the excellent health of the inmates of the home during the month of October.

The donations for October were as follows: Mr. Tony Silven, 60 lbs. honey, 12 lbs. butter, Mr. O. L. Charlton, 12 boxes of polish; St. Mark's church, Salt Spring, per Rev. J. Wilson, 4 boxes fruit, 2 sacks vegetables; Mrs. Fred Pemberton, corn, cauliflower, onions, pumpkins, citrons; Mrs. McNab, Harvest Homes, per Rev. E. G. Miller, fruit and vegetables; Mrs. Robt. Croft, hats, clothing and cloth; Mrs. Wm. Scowcroft, carpet and chairs; Mrs. Mary Foster, Bear Turf, Pearl Bick, Alan MacLean, Emily Hanington, David Williams, Ronald Dewar, Mattie Dewar, Winifred Gardner, Kathleen Fraser, Charles Fraser, Donald MacLean, Gladys Garesche, Clara Bick, Irene McLean, toys, dolls, books and clothing, candy, cocoa, tea, butter, rolled oats, sugar, confectionery, biscuits, marmalade, apples, pears, 125 cash; Gwenie Hughes, apples; Times and Colonist, daily papers; S. P. C. A., Currying, 10 lbs. of jam; Mrs. M. Hynds, homemade candy; Miss M. Laycock, candy; Miss A. R. Robertson, cash \$2; Mrs. Dalley, clothing; Major and Mrs. Dupont, \$10 for chrysanthemum show.

NEW SOOKE LAKE SCHEME

ALDERMEN TO LOOK INTO MATTER TO-MORROW

Proposal is Made to Bring Water to City at a Moderate Cost.

(From Wednesday's Daily.) What may prove to be a very important meeting of the special committee of the City Council has been called for to-morrow evening.

Government organs insist that the premier's promise must be accepted unquestioningly, and that his undertaking to take up the contract is not as represented amply safeguards the province.

BLOW TO LEADERS OF TAMMANY HALL

Murphy's Plans to Carry Democratic Ticket in New York Fail.

New York, Nov. 3.—The domination of Tammany Hall by Charles Francis Murphy and Daniel Cahalan is believed to be at an end following the routing of the Tammany ticket at the election yesterday, with the exception of Justice William J. Gaynor, who was elected mayor.

In political circles, this is considered the worst kind of defeat that could have come to Murphy and Cahalan in their leadership of the Tammany forces. Personally, Murphy and Cahalan detest Gaynor. They forced his nomination on the Democratic ticket because they believed that his personal popularity would elect the whole ticket.

TO GUARD AGAINST AERIAL INVASION

United States Officers to Shoot at Airships with Cannon.

Washington, D. C., Nov. 3.—To devise some means of defence against aerial invasion, the bureau of ordnance of the war department, it is learned, is about to begin a series of experiments in shooting at aircraft with a cannon.

SOME PROMISES—AND HOW THEY WERE KEPT

(From Wednesday's Daily.) Although the agreement with Mr. Mann is dumb on the subject of a first mortgage for the province on the line subsidized in British Columbia, the premier declares that the ultimate contract will contain a first mortgage, and if it does not he will resign.

Why does Mr. McBride rush a general election with two and a half years of his term unexpired if he will be in a position to lay a completed contract of such an attractive character before the legislature?

Government organs insist that the premier's promise must be accepted unquestioningly, and that his undertaking to take up the contract is not as represented amply safeguards the province.

ELECTION RESULTS IN UNITED STATES

Democrat Mayor of New York, But Republicans Will Spend Money.

New York, Nov. 3.—Following is a summary of the municipal and state elections held in the United States yesterday: In New York the Tammany candidate, Judge William T. Gaynor, was elected by 73,016 over O. T. Bannard, Republican, who in turn ran well ahead of Hearst, but it was the practical extent of the Tammany victory. The fusionists won control of the board of estimate, which has the expenditure of municipal funds.

In Salt Lake the Mormons were defeated in their fight for control of the city by the American or anti-church party. Of fourteen towns and cities in the state, six elected Republican mayors, five citizens and three Democratic.

CHINESE BOY STEALS FIFTY DOLLAR BILL

Worked in House of Police Commissioner—Pleads Guilty.

A Chinese boy aged twelve years and named Ah Gun, pleaded guilty in the police court to stealing \$50 from the residence of George Fraser, police commissioner, of Fort Street, Victoria. He was remanded for inquiry and for sentence until to-morrow.

DEATH OF FORMER JUDGE

Philadelphia, Nov. 3.—Wm. Butler, formerly United States judge for the eastern district of Pennsylvania, died at his home at Westchester yesterday, aged 87 years.

WRIGHT'S FEAT

College Point, Md., Nov. 3.—Taking his aeroplane in the air with a twelve mile an hour wind without the assistance of the starting weights was the feature of Wilbur Wright's flight on the government aviator field yesterday.

Charles M. Fickert, district attorney-elect, who was charged by Francis J. Heney with being the candidate of Patrick Calhoun, was asked to-day whether he will discharge Detective William J. Burns, the famous graft sleuth; what he will do with the case of Patrick Calhoun, now pending; and which one of the graft cases he will take up first when he assumes office on January 1st. He replied: "These are questions that I cannot answer at this time. I shall have to go into the affairs of my office thoroughly before stating my course definitely."

TO GUARD AGAINST AERIAL INVASION

United States Officers to Shoot at Airships with Cannon.

Twice-a-Week Times

Published every Tuesday and Friday by THE TIMES PRINTING & PUBLISHING CO., LIMITED. JOHNS WELSON, Managing Director.

THE LIBERAL CANDIDATES.

(From Thursday's Daily.) The Times is not giving expression to a mere conventional political opinion in the strictly party sense when it says that the convention of the Liberal party held last evening for the purpose of nominating candidates to contest the city on behalf of clean, honest, safe, sound, and yet progressive government, was one of the largest, most orderly and most harmonious that has ever been held in Victoria.

The candidates nominated are all well-known to the people of Victoria. They do not require any introduction to the electors. Not one of them is a native son in the strict sense of the term, but they have all been born of the true Western spirit.

There were others at the Liberal convention last evening, whose names were mentioned as candidates but who gracefully bowed to the will of the majority, who will yet be heard from in the public life of the province.

Political philosophers tell us that the essence of good citizenship, as of everything else worth while in this world, is service. The unsuccessful aspirants for nomination last evening pledged themselves heartily and sincerely to do all in their power to insure the success of the Liberal candidates at the polls on election day.

We can tell the Liberals of the city of Victoria, and all who while not professing Liberals stand on principle for eradicating the taint that has fallen upon the administration of affairs in British Columbia, that a tide of public opinion is beginning to manifest itself which augurs ill for the McBride government, and that if they play their part well that government will be swept from power on the 25th inst.

STRONG CANDIDATES.

One of the most notable features of the campaign as far as it has gone, and the most hopeful from the point of view of the Liberals, is the excellence of the candidates who have been selected to contest the various constituencies in the opposition interests. We have already remarked on the strength of the ticket in the city of Vancouver. There is undoubtedly a

CANCER Old sores, hard to cure, bleed, etc. Send for our new medicine, which removes the disease without pain and without injury to the healthy tissue. Testimonials from all parts of Canada. tremendous Liberal renaissance in this important part of the province. Conservatives as well as Liberals feel that the day of reckoning is approaching for the Green-McBride administration. It is doubtful if the Liberals of Victoria could have made a wiser choice than they have done in placing Messrs. Oliver, Drury, Houston and Mann in nomination. John Jardine can have no difficulty in disposing of Harry Heineken in Esquimalt. H. C. Brewster has a comparatively easy road to travel in Alberni, although he is taking no chances. Thomas Brydon, a man of sterling character and unimpeachable integrity, well known in Victoria and possessing the confidence of all who know him, was also selected last night to contest the constituency of Saanich against D. M. Eberts. In a sense Mr. Brydon is a man of the old school. That is to say, he is precisely the anti-thesis of his opponent in every respect. He will descend to no trickery nor contumacious anything politically he would condemn privately in order to win. It is said the voters' lists have been loaded against him, and that already plenty of money is making its appearance from mysterious sources in the constituency. But the suburban and rural electoral is of a particularly sturdy moral type, on the whole. He has an inherent abhorrence of charlatanism in any form. We therefore doubt whether the promise of a railway to the Mainland will this time elect Mr. D. M. Eberts.

NOT MISREPRESENTED.

Speaking of the English Bluff portion of the McBride government's railway policy, the Times last night said: Our contemporary (the Colonist) "itself admitted that the policy was a fake when it naively admitted a day or two ago that the thought of ferry connection with the Island had never entered Mr. Mann's mind until he came down to Victoria to sign that memorandum of Premier McBride and to receive from Premier McBride a memorandum of provincial obligations in return." This statement the Colonist says to-day is a misrepresentation, and then, after apologising for introducing a personal element into the controversy (with the usual transparent design of magnifying a personality of which it entertains a very exalted opinion) our contemporary resignedly unbooms itself of the harrowing reflection that misrepresentation cannot be prevented. It is only necessary to quote our contemporary's own words, printed on Tuesday, November 2, to prove that in making the statement it did the Times did not misrepresent the position of the McBride Colonist can say from its own knowledge of Mr. Mann's intentions that they did not originally include construction on Vancouver Island. The weakness of our epistolical neighbor lies in the fact that it pours forth words, usually meaningless and lacking point or relevance in such torrent that it forgets to-day what it said yesterday. In its anxiety to lead the public to believe that it is on terms of intimate relationship with the great magnates of the transportation world in this case it let the Tory cat out of the bag, and now it would fain drag the bag over its own head. But the confession was not necessary to convince any one in Victoria that the original intention of the Canadian Northern Railway Company did not contemplate railway construction upon Vancouver Island. Every one who has considered the situation as it is now and has been at previous provincial general elections, who remembers two previous contracts with Mackenzie & Mann and what resulted from them, knew that Mr. Mann had never contemplated, and knows that he does not now contemplate, railway construction on Vancouver Island. Premier McBride, remembering how the people of Victoria had been humbugged in the past by men of his peculiar political principles, conceived the idea of bamboozling them again. He doubtless thinks past experience has been forgotten and that before it is again necessary to make an appeal which will keep him in now that he is in, the English Bluff bluff will be entirely forgotten or remembered only as an astute move in the game of politics as played by men of his loose views respecting statesmanship and government.

KETTLE VALLEY RAILWAY.

There is a story in connection with the Kettle Valley Railway, which has been subsidized by the government as part of its railway policy. As the Midway & Vernon line the road was subsidized by both the Dominion and the provincial governments some years ago. Its construction was admitted to be essential to the industrial and commercial development of the country through which it was projected. A construction company was formed. This corporation had made all arrangements to go on with the work, and had actually spent a considerable amount on preliminary construction on the strength of the Dominion and provincial subsidies. This Midway & Vernon Construction Company had arranged for the capital necessary to push the line to completion, the courts having decided that the provincial subsidy (whose validity had been contested) were in force and ought to be

paid, when the then Finance Minister, visiting in Montreal, announced in financial circles that the claim would be contested. It was manifestly useless for a private company to enter the courts against a government with the resources of the province behind it. The capitalists became alarmed and withdrew from the undertaking. A considerable number of people in the Okanagan Valley lost heavily as a result. The charter of the railway lost its value and passed into the hands of a great corporation doing business in Canada. The McBride government renews the subsidy as part of its railway policy, as we have already said. Attorney-General Bowser told an audience in the interior the other day that the government recognized the claim of the original Midway & Vernon Construction Company to be reimbursed for its expenditures—that it had arranged as a condition of the new company receiving a subsidy of five thousand dollars a mile that the members of the original company should be so reimbursed. Now the subsidy for the Kettle Valley Railway Company is the only complete feature of the government's railway policy. It has been printed, and there is not a word in it about the Midway & Vernon Construction Company being paid back the amount of its expenditures. The Attorney-General knows this, but he probably thought the people of the interior had not seen the "contract" and did not know it. Mr. Bowser's periods of mendacity usually manifest themselves just on the evening previous to polling day. He is evidently more reckless than ever. But the government which practically ruined some of the members of the Midway & Vernon Construction Company should make some suitable atonement for the injury it wantonly inflicted upon that company.

CREDIT OF THE PROVINCE AT STAKE.

Out from the deep fog of assertion and contradiction which has been created by the announcement of the McBride railway policy, certain facts stand forth clear and unmistakable. We know that, practically, the government will borrow twenty-one million dollars and loan it to the Canadian Northern Railway Company. Having borrowed the money, the government will pay it out to the contractors for the road upon what is technically known as "progress estimates." Upon this sum of twenty-one million dollars the government will guarantee to the bondholders interest at the rate of four per cent. per annum. Therefore the liabilities of the province will be increased when the deal is completed to the extent of twenty-one millions, representing the principal sum, and also to the extent of eight hundred and forty thousand dollars, representing the annual interest charge. No one, we think, will venture to impugn the correctness of this presentation of the case.

The security of the province against liability for this loan, we are told, will be a first mortgage upon the roadbed to be constructed, a "covenant" covering the surplus earnings of the whole of the Canadian Northern system, and an assurance that in no case has the company called upon other provinces giving guarantees to meet their obligations. The intentions of the Premier in respect of the foregoing guarantees may be quite sincere, but the plain fact is that Mr. Mann has not committed his company to them on paper. The only party to the agreement that is committed to anything definite is the Premier. Mr. McBride has not only put himself in the hands of Mr. Mann, the promoter, he has pledged his future as a public man to the people of British Columbia that the policy outlined in the published agreement shall be carried out in its entirety. If it is not, or cannot be, he will resign. We have not a great deal of faith in the virtue of political resignation as practiced by the Premier, and we think the great majority of the people of British Columbia share our views in the matter. He has been in places almost as tight as the corner in which Mr. Mann has got him at the present time, and he has generally contrived to squirm out of them. The Canadian Northern mortgage carried away with him a document which commits Mr. McBride irrevocably, and the province just as irrevocably while he is at the head of its government, to any terms he (Mr. Mann) may choose to dictate in the matter of assistance to the railway. We have shown that the government cannot be given a first mortgage upon the line if it is to be constructed in accordance with the highest standards of railway construction as now established. The province can only be given a first mortgage provided the road can be built for thirty-five thousand dollars a mile, the amount of the provincial loan. If that can be done, another loan might be issued for the purpose of equipping the line with rolling stock. But Mr. Mann says the road will cost at least fifty thousand a mile to build, and some authorities familiar with all the phases of railway building in British Columbia doubt if it can be constructed at that figure. If, therefore, the province gets a first mortgage, the additional amount necessary (whose validity had been contested) would have to be raised on a second mortgage, and everyone knows that an

additional loan could not be raised under such conditions. The only other alternative under which the extension to the coast could be carried out would be through assistance from the Dominion government. Nothing has been said by Mr. Mann or any one else about the consummation of the deal being conditional upon a grant from the federal government, while Mr. McBride maintains that his arrangement with Mr. Mann assures the construction and operation of the road not only to the coast proper but beyond the coast to Barkley Sound.

From the foregoing outline of the facts the public will understand how complicated and unsatisfactory the situation is. It is quite apparent that the facts are not set out in the one-sided agreement that has been published. If the other side of the memorandum were made public—the side held by Mr. Mann—we are convinced a great light would be thrown upon the case, light which is necessary before intelligent judgment can be passed by the electors of the province. Not a single voter should be asked to commit himself to such an enormous liability—a liability which the province must be prepared to meet—without being put in possession of the facts as to his obligations as contained in the undertaking given Mr. D. D. Mann by Premier McBride.

E. A. CREASE LIBERAL CANDIDATE IN NELSON.

Conservatives Split Over the Selection of Harry Wright.

Nelson, B. C., Nov. 4.—The Liberal convention last night unanimously elected E. A. Crease to contest Nelson city at the forthcoming election. Mr. Crease, who is police magistrate of Nelson, was called to British Columbia bar in 1897, shortly afterwards coming to Nelson, when he was appointed stipendiary and police magistrate. He recently resigned the former but retained latter position.

The audience was well attended and very enthusiastic. Mr. Crease said he would run a clean campaign, whatever the other party did, and carry the Liberal colors to victory. Dr. Hall, M. P., and Hon. W. C. Wells also addressed the meeting, reviewing the McBride government's work and dissecting the railway policy.

Referring to the Canadian Northern agreement, Mr. Hall stated that McBride's statement that competitive rates would be established was a falsehood, as there was a set rate all over the Dominion, controlled by the railroad commission. If McBride repeats the statement in Nelson to-morrow night he will take the point up with him.

Referring to Mr. Oliver, he said he is a Conservative, but the politician who ever sat in the House. He helped McBride to retain office as long as he has done by seeing that bills were in order, instead of in a slovenly mess as was just presented in the House.

The Conservatives are hopelessly split to-day over the selection of Harry Wright last night. The Lennie faction will have nothing to do with him, and the majority of those who are Conservative Liberals are confident of winning, and in Judge Crease have a man respected by all.

At Revelstoke, B. C., Nov. 4.—Despite laboring efforts of the opera house owner to wash the legend off the outside wall, "Vote for Lindmark" is the message of the opposition candidate's recent successful municipal election fight, which the eyes of all who attended the McBride meeting last night in favor of Lindmark's Conservative opponent, Thomas Taylor. The irony of the situation was increased by the fact that the opera house owner is a strong Taylor man. Taylor's last majority was about 140, and since then the timber foothills, in the course of erection across the Columbia river, 4 1/2 yards south of the iron bridge, with cement piers carrying the railway over the stream, speaks of Taylor's efforts as minister of works.

BRACKMAN-KER MILL DAMAGED

UPPER STORY IS DESTROYED BY FIRE

Firemen and Superintendent of Mill Sustain Injuries.

A fire which threatened destruction to \$75,000 worth of stock and property broke out yesterday afternoon between 2:30 and 3 o'clock in the Brackman-Ker mill at the outer wharf, but through the agency of the local fire brigade was confined to the top floor in which it started and resulted in damage to the extent of but about \$15,000 to \$20,000.

The loss is confined in the roof and upper floor of the mill, the loss of a little shafting and machinery, about two tons of premium crockery and a small amount of stock. A quantity of stock stored on other floors of the building is damaged by water.

The fire started on the top story, and was first noticed by H. A. White, the miller, who saw smoke, which quickly increased in volume. He and other employees gave the alarm and ran down stairs, where eleven employees gathered to fight the fire. Their efforts were unsuccessful and a call was sent into the central fire station.

Three men were hurt during the fire, two firemen and R. Marwick, superintendent of the mill. Mr. Marwick received a scalp wound, being struck by falling debris. The wound bled freely,

SCENE AT FIRE.

but was not serious. Fireman Alex. Munro was cut on the head, and Fireman Thomas Scott, while fighting the fire from the top floor fell through the burnt floor and injured his side. He was taken out and conveyed to the Royal Jubilee hospital, but his injuries will not keep him there any great length of time.

The work of the fire brigade has received loud praise from C. W. Rhodes, local manager of the company, and from the majority of those who gathered to see the conflagration. The fire was fought from inside the building, and from the top floor on which it raged, and within half an hour what was a roaring mass of flame was subdued and every spark extinguished.

Fire Chief Davis responded to the alarm with the full apparatus, and immediately stationed men on ladders outside the building while he went inside to estimate the danger. The men were taken inside up the stairs to the top floor, where three streams were brought into play. Three times the firemen tried to gain access to the top floor, however, before they were successful, being driven back each time by the heat and smoke. When the fire finally burst through the roof, carry-

CONFLAGRATION UNDER CONTROL.

ing the flames upward, the entrance to the actual fire was made, and to the astonishment of those watching from the outside streams of water were seen coming through the flames which quickly died down.

Thirty men were working from the central station with one line of hose from the chemical works adjoining the burning mill, two lines from the mill hydrants and two streams from the car terminus from the engine. A pressure averaging from sixty to eight pounds was obtained and proved sufficient for the purpose.

away in Vancouver, but was wired to immediately and is now on his return. He will reach here this afternoon. The loss is covered by insurance, and as soon as the wreckage is cleared away the repairs will be proceeded with immediately and new machinery installed. The company's mills at Calgary and Strathcona have been communicated with to ship supplies to Victoria for the meeting of the demand of the local customers until the mill is in operation again. The hay and feed business will not be interfered with at all, as the bulk of that stock was stored in a building separate from the mill, which the fire did not reach.

While the fire was raging water was kept playing on a dredge between the building and the chemical works, and also on portions of the chemical works nearest the fire. At times the wind rose and carried the flames towards the works, but the building was never in danger.

The speed with which the fire was extinguished once the brigade got at it from inside the building was commented on by the bystanders who had expected fifteen minutes before to see the building a total wreck.

VICTORIA CITIZEN VISITS CHILLIWACK

Boom on Mainland Is Fostered by Optimistic Spirit of Residents.

Arthur S. Barton, of the firm of Pemberton & Sons, of this city, has just returned from a combined pleasure and business trip to Chilliwack. While

there he enjoyed several days shooting, getting good bags of pheasants and snipe.

Speaking of the business prospects in that part of the country, Mr. Barton says that Chilliwack and New Westminster are both booming. Around the former town the country is surveyed into city lots for miles, in view of the advent of the B. C. electric line. Property is changing hands, and there is a general movement. The people both there and at Westminster are all optimistic and are booming the places for all they are worth. People coming West are seized and very soon become carried away with the optimism of the place.

It is Mr. Barton's opinion that there must be a corresponding move here. The last boom that struck Victoria followed a similar movement on the mainland, and he thinks it is about due here now.

MAY VISIT CANADA.

London, Eng., Nov. 4.—A proposal is afoot for a party of London teachers to spend their summer holidays in Canada, thus returning the visit of Canadian teachers to England in 1908.

DEEP WATERWAYS.

New Orleans, Nov. 3.—The closing session of the lakes-to-the-gulf deep waterways convention was marked by enthusiastic expressions of faith in an attainment of 14 feet through the valley, further pledges of support of the movement and additional estimates of benefit.

—Wm. Wainwright, second vice-president of the Grand Trunk Pacific railway company, said to the Times this afternoon that the Colonist had misreported him to some extent on the question of his views respecting the construction of the railway in this province. His position was that the company would be glad to get any kind of labor. It had never asked for yellow labor from any government.

VERDICT OF MURDER

IN CASE OF ANDREA

Coroner's Jury Support Theory That Italian Was Shot.

(From Thursday's Daily.) This morning the inquest into the circumstances surrounding the death of Salvatore Andrea was continued. There was little evidence to be heard. The circumstances connected with the finding of the body were given as published at the time.

The coroner's jury, after considering the evidence, brought in a verdict that Andrea came to his death by being murdered by some person or persons unknown.

The provincial police are still seeking information as to the whereabouts of the Italians for whom a reward is offered and who have not yet been found.

LAST TOUCHES TO THE CITY LISTS

Revision Has Been Completed and Then the Printer Gets Them.

When the list of voters for Victoria city is ready for the printers, in preparation for election day, there will be in the neighborhood of eight thousand names on it.

The revision of the list was completed late Tuesday afternoon by Harvey Combe, registrar of voters. Between 750 and 800 names have been struck off to the satisfaction of the representatives of both parties.

To-day the list is being checked over and re-numbered and will then be sent over to the King's printer. As most of the list is kept set up his work will only be the removal of the names struck off and the setting up of the new names added at this revision. The list will be ready in ample time for the election.

The Esquimalt list will go over at the same time.

—It is reported that the property formerly constituting the Loewen home on Victoria Arm, near the Gorge, has been sold. The purchasers are Stella Carroll, with whom are associated some other interests. The new owner, it is reported, will add to the building and make it a wayside house. Dr. Willoughby bought the property a few years ago, and has now disposed of it for \$17,750.

—Monday night is to be a great occasion with the Men's Club of the Metropolitan Methodist church. A banquet will be spread and the entertainment will be of a varied character. The Ploverlight mandolin and guitar orchestra will play selections during the dinner and there will be literary selections given. After dinner a general discussion will take place on the subjects arising out of the lecture given by Dr. Matthews, of Seattle, when he spoke here. A large number of men have already signified their intention of being present on that occasion.

—The funeral of the late Mrs. L. G. McQuade took place this morning at 9 o'clock from the family residence, 855 Vancouver street, and at 9:30 o'clock at the Roman Catholic cathedral, where requiem high mass was conducted by the Rev. Father Erabant. The choir was also in attendance. Services at the graveside were conducted by the Rev. Father Latere. There was a large attendance of old time friends of the deceased and many beautiful floral tributes were present. The following acted as pallbearers: W. G. Cameron, T. Lubbe, J. Kingham, A. Monteith, A. Campbell and D. E. Campbell.

During Rainy Weather The system is generally weak; most folks need some good tonic to increase vitality. BOWES' Ferrated Emulsion of Cod Liver Oil Has made a good name for itself throughout the Island. It imparts sounder health, better digestion and more vigorous activity. CLEAR MORE LAND IN ALBERNI VALLEY

Four Hundred Acres to Be Made Available for Settlement in Near Future.

In a report of an interview with H. E. Beasley, superintendent of the E. & N. Railway Company, appearing in yesterday's Times, reference was made to the likelihood that greater progress would now be made in the clearing of land on Vancouver Island for settlers.

A contract for the clearing of the land has just been awarded to Carmichael & Moorhead, a Port Alberni firm, and their instructions are to start operations immediately. It is the intention of the railway company, so stated Mr. Marpole, to divide the land into about 40 acre tracts, of which half will be cleared and stumped, and the balance left in its virgin state, so that the settler may remove the heavy timber at his leisure.

WEEKLY WEATHER REPORT.

Victoria Meteorological Office, 27th Oct. to 2nd Nov., 1909. Victoria—Total amount of bright sunshine was 6 hours and 6 minutes; rain, 2.06 inches; highest temperature, 53 on 1st; lowest, 37 on 20th.

AMUR WAS INJURED ON SUNKEN ROCK

Tenders Being Called for Her Repairs—Beatrice Taking Run.

(From Thursday's Daily.) Steamer Amur, of the C.P.R. fleet, returned to this port last evening, having come direct from the Queen Charlottes without passengers or freight after running on a sunken rock and injuring her bottom. She is to-day being hauled out on the ways of the Victoria Machinery Depot, and tenders are being called for her repair.

It was early in the morning when the steamer Amur, on her way from Cumshawa Inlet to Skidegate, and was five miles from shore, opposite Spit Point, passing through water charted as having a depth of six or seven fathoms. Suddenly she grated on something and bumped again and again, and was off before the engines could be stopped.

The steamer having a double bottom, there was no danger of her sinking, but one of her propeller blades having been lost and another partly broken off, she was somewhat delayed in coming home.

SHIPPING TIES FROM QUEEN CHARLOTTE

(From Thursday's Daily.) News received from the Queen Charlotte Islands by the steamer Amur, which arrived last night, says that great numbers of ties are being cut at the Queen Charlotte mill for the Grand Trunk Railway Company.

The steam trawler Kingsway has already made two large catches of fish for the Pacific Coast Fisheries station. A contract has been made with John Wallace, owner of the Arrandale cannery, to take all the edible fish caught by the trawler for the next two months.

STEEL IMPROVEMENTS.

New Westminster, Nov. 3.—Alderman Henley as chairman of the board of works submitted a report dealing with a number of requests from various parts of the city for improvements at the last meeting of the city council.

The majority of the improvements to be made are in the central and western sections of the city. Efforts will be made to have the property owners agree to the construction of a cement sidewalk on the whole of Front street and on a portion of Tenth street.

FAVORS INCREASED CONTRIBUTION TO NAVY

Natal's Delegate Speaks on Imperial Defence Conference.

Pietmaritzburg, Natal, Nov. 4.—Colonel Greene, Natal's delegate to the Imperial defence conference, speaking on behalf of the government in the house, deprecated the desire for the publication of the proceedings of the conference. He denied that three South African delegates betrayed a tendency towards secession and he eulogized the Imperial spirit in New Zealand and other dominions and declared South Africa's contribution to the navy inadequate.

The motion for the publication of the report was then withdrawn.

HAMILTON IRON WORKS WILL BE ENLARGED

Company to Build New Plant at Cost of Over Million Dollars.

Hamilton, Ont., Nov. 4.—The Hamilton Steel & Iron Company yesterday handed out a statement that Montreal and Toronto capitalists have bought large blocks of the stocks, and that Messrs. E. F. Osler, M.P., and W. T. Matthews had joined to the board of directors. Rumors that the C.P.R. had control of the stocks are denied absolutely.

LOSES LIFE IN SMOKY RIVER.

Ottawa, Nov. 4.—News has reached here that Victor Montpetit, aged 34 years, son of Andrew Montpetit, a well-known Montreal writer, was drowned at Smoky River, Alberta, on September 1st. He was a member of a government topographical survey.

TO SUPPRESS ROWDYISM AMONG STUDENTS

President Falconer, of Toronto University, Suggests Line of Action.

London, Nov. 4.—A meeting unique in the annals of the University of Toronto was held in convocation hall yesterday when some 2,000 male students gathered in response to a call issued by President Falconer. The disgraced rowdyism of the grand lodge controls all the faculty societies, giving an absolute assurance that they by every means in their power will discourage and actively suppress rowdyism among the student body.

LOST FOR DAYS ON CALIFORNIA DESERT

Prospector Found in Pitiful Condition by Members of Rescue Party.

Los Angeles, Cal., Nov. 4.—Exhausted, his feet and hands torn by cactus spines and sharp rocks, and his mind still showing the terror of his long days on the California Nevada desert without food or water, Albert Balha, a former Los Angeles resident, is recuperating at Lee, Cal., near the Nevada line.

Balha left San Francisco, where he has a wife and child, several weeks ago. In company with his partner, Jack Lamplade, he left Lee, Nevada, October 20th, intending to follow the Lee Consolidated Trail to the Echo-Lee mining district.

The small supply of water the men carried became exhausted and within a week Balha was in a delirious condition. Lamplade then, for four days and alone managed to make his way to Lee, California.

A searching party under the leadership of Hugh Leonard, noted desert scout, was dispatched to take up Balha's trail.

Leonard told the story of the rescue of the wanderer and their return to this camp.

"When we found Balha," he said, "he was crawling about on his hands and knees and trying to catch a little green lizard. He was laughing to himself and talking to the lizard. At last we were able to draw his attention away from the reptile. When he saw us he laughed. It was the most awful sound I expect to hear. He told us he had been eating lizards."

Physicians who are attending him state he will recover.

INSURGENTS VICTORIOUS.

San Domingo Government Forces Suffer Defeat.

Cape Haitien, Nov. 4.—Dispatches reaching here state that government troops had an encounter with the insurgents near Guayubin, recently in which they lost five killed and eleven wounded. The government forces were dispersed, the insurgents remaining masters of the situation. They re-entrenched Guayubin, which was one of the towns they seized a few weeks ago. All the frontier is in arms. It is difficult to get news through, as a strict censorship is being observed.

SHEAF-GRAIN FROM SOUTHERN ALBERTA

Will Be Exhibited in Dominion Agencies in Europe and United States.

Calgary, Nov. 4.—Southern Alberta has again been signally honored by the Dominion government. For two years in succession the government immigration authorities have found that the best samples of sheaf-grain obtainable were to be secured in the district tributary to Calgary. Five carloads of sheaf-grain secured near here, and consisting of 4,250 sheaves of Banner oats and 750 of Preston wheat, were forwarded this week to Winnipeg, where the grain will be put in shape for exhibition at various government agencies in Europe and the United States.

Five sheaves of oats gave a bushel of grain, and last year this land gave a yield of 125 bushels of oats to the acre. The crop of this year has not been threshed yet. Reports of heavy yields averaging 48 bushels of wheat, the crops being raised in the vicinity of Bassano, in the Bow valley, showing that the eastern and central section of the irrigation block will ultimately have a greater diversity of crops than any other section of western Canada. Settlers there have this year again been highly successful in raising water-melons, citron, cucumbers, tomatoes, corn, etc.

GRAND CAMP OF ARCTIC BROTHERHOOD

Tables Resolution Calling for Territorial Form of Government for Alaska.

Seattle, Wash., Nov. 3.—A resolution demanding of congress a territorial form of government for Alaska, was adopted yesterday afternoon tabled by the Grand camp of the Arctic Brotherhood, after having referred it to a committee.

The opponents of the resolution urged that a territorial form of government was inexpedient at this time, and that with the recent expression of President Taft, who favors a commission to formulate local laws, any present demand would be futile. It was also urged that the question dealt with in the proposed amendment to the constitution, taken from the grand lodge the power to create honorary members. Much criticism recently was indulged in by the several subordinate camps in Alaska because of the action of the grand camp in conferring honorary membership upon President Taft, who on the occasion of his visit to Seattle, declared in a speech that the citizens of Alaska were not capable of self-government.

One of the questions to be taken up by the grand camp this afternoon is the proposed amendment to the constitution, taken from the grand lodge the power to create honorary members. Much criticism recently was indulged in by the several subordinate camps in Alaska because of the action of the grand camp in conferring honorary membership upon President Taft, who on the occasion of his visit to Seattle, declared in a speech that the citizens of Alaska were not capable of self-government.

HONDURAS MUST NOT INVADENICARAGUA

United States and Mexico Are Closely Watching Events in Central America.

Port Cortez, Spanish Honduras, Oct. 23, via New Orleans, Nov. 4.—"Hands off Nicaragua," is said to be the gist of several cable messages that are reported to have been received recently by President Davila, of Honduras, from the state department at Washington, telling him that the United States and Mexico are closely watching the conduct of the Honduran government in regard to the Nicaraguan revolution.

The cables are said to have been received shortly after the recent meeting between Presidents Taft and Diaz at El Paso.

COMMITTS SUICIDE.

Man Who Killed Brother-in-Law Ends His Own Life.

San Francisco, Cal., Nov. 4.—William A. Stein who shot and killed his brother-in-law, Ed Livermore, property man of the Pacific coast, recently in regard to the Nicaraguan revolution. The cables are said to have been received shortly after the recent meeting between Presidents Taft and Diaz at El Paso.

FIVE INJURED IN EXPLOSION.

Windsor, Ont., Nov. 4.—Five men were injured in a dynamite explosion yesterday that shook Amhurstburg and vicinity as if by an earthquake. The explosion occurred off Boys' Island just as the big steel drill boat destroyer was steaming by. The boat was badly damaged. Her crew narrowly escaped.

PILES

Dr. Chase's Ointment is a certain cure for hemorrhoids, itching, burning, itching, bleeding, and protruding piles. See testimonials in the Press and get your money back if not satisfied. Sole Dealers: EDMANSON, BATES & CO., TORONTO. DR. OHASE'S OINTMENT.

Y. M. C. A. DIRECTORS HEAR MONTH'S REPORTS

Gratifying Conditions Prevailed in All Departments During October.

(From Thursday's Daily.) The regular monthly meeting of the board of directors of the Y. M. C. A. was held last evening in the association rooms, the following being present: C. A. Fields, W. M. Mitchell, A. B. Fraser, W. Scowcroft, E. W. Whittington and A. J. Brace, general secretary. In the absence of R. B. McMicking, the president, Mr. Fraser occupied the chair. A great deal of business was discussed before the meeting adjourned.

The committee which made all arrangements for the Bryan lecture give a most gratifying report in regards the lecture. After all bills had been paid they reported having \$165 as clear profit. A hearty vote of thanks was tendered Mrs. David Spencer, Moss street, who gave a reception to Mr. Bryan at her home during his visit here. The committee was thanked and discharged.

The general secretary, A. J. Brace, reported that the second payment on the new building was due and that 1,300 letters had been sent out informing all subscribers. It was also learned that \$5,000 of the second payment had already been paid. If this payment comes in as readily as the first the new building will be started within two months. Employment had been found for 20 men during the past month and 16 had been found longings.

W. C. Findlay, physical instructor, stated in his report that 730 men had attended the gymnasium classes during the past month. Medical examinations are being conducted by Dr. Babby once a week, and Dr. Wasson is taking a class on first aid to the injured. An indoor athletic test is being conducted by the physical department and it is proving quite an interesting addition to the gymnasium exercises. The religious work committee's report showed that a very interesting conference on religious work had been held with C. W. Bishop, college secretary for Western Canada. In the report it was also stated that the Sunday afternoon men's meetings were being held with marked success. A series of local option talks have been arranged and some of the best speakers on this subject have been secured.

With reference to the social committee's report it was found that the opening social of the association held recently was a great success. It had been arranged by the committee to have one of its members present each evening to welcome everyone to the association.

The membership committee's report was received with enthusiasm. It stated that 37 new members had been admitted to the association during the month. Twenty-four of these were for the men's department while the remainder were for the boys' department. A most pleasing report was received from the boys' work committee, in which it was stated that the boys' department was now well organized under the cabinet system. A basketball league and harriers' club have been formed which will prove of great interest to the boys. A membership contest has been commenced in this department with a view of getting 75 new members into the association.

The last report heard was that of the literary committee. The members of it have decided to form a mock city council this year instead of the mock parliament held last year. An oratory contest will mark the opening of the council on December 1st, the subject to be spoke on being, "The Future of Victoria." Gold and silver medals will be given the winners. D. W. Higgins, who last year acted as speaker in the mock parliament, will help organize the council.

T. Piper, chairman of the games committee, stated that he had underway a chess tournament, the opening game to be played on Saturday evening next. The contest is open to all members of the Y. M. C. A. Medals have been kindly donated by J. Jardine, M. P. P., and J. C. McIntosh, and will be presented to the winners.

NEW YORK ASSEMBLY.

Author of "Raines Who Met Defeat, Republicanism Who Met Defeat.

Albany, N. Y., Nov. 4.—The next state assembly will be composed of 102 Republicans and 48 Democrats, making a gain of two for the Republicans. The most sensational feature of the election in this connection was the defeat of State Senator John Raines. He was the author of the famous "Raines hotel law."

His defeat was brought about on a charge made by Herbert Parsons, chairman of the Republican committee of New York county, that Raines aided Tammany in return for Tammany's aid given to Speaker Cannon in the fight on the rules in the last congressional session. It was alleged that Raines fixed up a deal between Tammany and Cannon.

THREE WOMEN ON BOARD OF EDUCATION

Mayor of New York Grants Request of Suffrage Organization.

New York, Nov. 4.—As one of the few important official acts which fall to Mayor George B. McClellan before his administration closes on December 31st, he appointed yesterday three women to the board of education, and thereby conceded one of the principal demands of the woman's suffrage organization.

It is the first time in more than a quarter of a century that women have gained representation on the board of education, and the news was heralded through women's suffrage ranks and welcomed as a victory.

In 1881 Mayor William R. Grace first recognized women's right to be represented on the board of education, and

Fit-Reform Custom Tailoring

The question often arises, "what is the difference between Fit-Reform suits, and suits made to order by the custom tailor?"

The answer is, the Fit-Reform suit is ready for you to try on, and is so constructed that if any alterations are required, they can be made with ease and accuracy.

The custom tailor, on the other hand, bastes the garment together. You have trial after trial, you see it unfinished, and when it is finished, if it is not to your liking, you are morally bound to take it. You ordered it specially—you saw the cloth but not the fit. Neither please you when finished.

Not so with same labor that custom garment Fit-Reform Suit with the exception of a Fit-Overcoat are trained to make individual parts only, thus they become experts. It is by these labor saving means and the purchase of cloths and trimmings direct from the mills, that Fit-Reform Suits and Overcoats are today so much superior in style, fit and value to any other garments which may be obtained in Canada, whether before or after alterations have been made.

Buy your Suit and Overcoat this fall from those who were first in Canada to give hand tailored garments, and which are giving so much satisfaction.

See that the Fit-Reform Trademark is in the pocket, and that you are in a Fit-Reform agency.

appointed two members. Mayor McClellan went one better than the precedent, and named three women, each of whom represents a different religious faith. They are Mrs. Herbert D. Robbins, Miss Olivia Leventry, a daughter of State Supreme Court Justice Leventry, both of New York City, and Mrs. Alfred S. Post, of Flushing, L. I.

INVESTIGATING TELEPHONE. Ottawa, Nov. 3.—It is probable that the railway commission will open the telephone rates inquiry conducted before Judge Killam, who died before decision was given. Commissioners Bennett and Mills are the only members of the present body who were present when the inquiry was conducted.

HEAL that OBSTINATE SORE! CUTS and bruises are often very obstinate in refusing to heal. The edges of the wound remain inflamed and sore, and there is a daily danger of disease-germs settling on the raw flesh and giving rise to serious complications. Thus, neglect or improper treatment of an injury, be it a cut, burn, scald, or even a simple scratch, is a menace to life. In cases where wounds refuse to heal quickly, nothing but Zam-Buk will suffice if the skin is to be made to grow naturally and perfectly once again. Zam-Buk rubs gently over a wound has the remarkable effect, not only of reducing the wound proof against disease-germs, but of growing new skin-tissues. Thus Zam-Buk heals wounds in a perfectly natural manner, and the possibilities of eczema and other torrowing skin-diseases are entirely prevented. Possessing rare medicinal properties, Zam-Buk accomplishes what ordinary ointments and salves never can, and its ever-ready character, constant reliability, and absolute purity, render it distinct from all other preparations. If you dress your cuts and sores with Zam-Buk you will never be troubled with "the wound that would not heal." Of all Druggists and Stores at 50 cents a box, or three for \$1.55. FREE. Send this coupon (with 1c stamp to cover return postage) to the Zam-Buk Co., Colborne Street, Toronto, and a free trial box will be mailed at once. Here you find Zam-Buk Soap!

CONTRACT WORK PROVES FAILURE

TENDERS TOO HIGH FOR OAK BAY PEOPLE

Water Mains Will Be Laid by Day Labor—Routine Business.

The proposal to lay water mains in the municipality of Oak Bay by contract has fallen through owing to the fact that the tenders submitted for the work were too high. When tenders were invited Engineer Fowler was also instructed to submit a figure for the half of the municipality. His tender was found to be the lowest so the work will be done by day labor. The work will be started at once and all available men will be set to work digging the trenches. The pipes are on the ground, so there can be no reasonable delay in having the new water-pipes connected with the city mains.

A hurry up order has just gone forth from the clerk's office in connection with all the works of local improvement in the municipality. A number of by-laws have been passed and the debentures sold, but the works are not yet complete. There was some delay earlier in the season in getting the rock crusher and other machinery in working order. Now, however, there are plenty of men available and all that offer are being put to work with the result that the roads and sidewalks will very soon be all made. Ordinary repair work is being set aside for a short time in order to allow of this being done. At the regular meeting of the council last night several requests for repairs to streets were so disposed of.

There were present at the meeting Reeve Henderson and Councillors Newton, Noble, McGregor and Oliver, and two councillors having a long distance to come were doubtless kept away by the inclemency of the weather.

A rather interesting diversion from the ordinary hum drum routine of business was created when Mr. Townsend, a local milkman, arraigned the council for having left a gate open so that his cows had strayed. A few days ago the same cows were strayed on the highway and had been impounded by the constable. He asked that these fees be returned, and then wanted to know what was to be done about the cows which were at that time at large and might be run down by a street car. When it was shown that these cows were now in milk the council refused to take any steps at night, although they gave permission for the constable to help search for them in the morning.

The report of the streets committee showed that neither Dr. Jones, nor Messrs. McCallum or Sampson had taken any steps in connection with the residences recently erected by them. The architects are being notified that this must be done at once. The same report showed that the work on the Linkless roads was ordered to proceed, that a 4-inch water main was granted on Monterey Avenue North; that William Avenue residents objected to the continued presence of the rock crusher in the vicinity; that Captain Poles was granted an increase of ten dollars a month to his salary.

The matter of some of the residents having sewerage flowing into surface drains was reported and an order passed that this should at once be discontinued. Residents in the neighborhood of Hampshire road will also be ordered to abate a nuisance.

A. C. McCallum asked for permission to construct boulevards in front of his new house. This was granted, but with no permission to fence the same permanently.

Councillor McGregor, on behalf of the Linkless subdivision, asked the council for permission to clear the right-of-way, which was granted.

The council then adjourned.

MRS. L. G. McQUADE DIED LAST NIGHT

Well Known Resident of This City Has Passed Away.

There passed away last evening at the family residence, 855 Commercial street, Mrs. Mary McQuade, wife of L. G. McQuade. The late Mrs. McQuade had been ailing for a number of years, but a few days ago she was taken much worse and succumbed last evening.

Deceased was the daughter of the late Mrs. W. G. Norris, born in Bowmanville, Ont., 55 years ago, and in 1833 arrived in this city with the members of the father's family. Since that time Mrs. McQuade has resided in this city, and was well known throughout Victoria.

She is survived by her husband, two brothers, John T. and Frederick Norris, one sister, Mrs. C. F. Todd, two sons and one daughter.

KILLS FELLOW CONVICT. San Quentin, Cal., Nov. 2.—Frederick Cook, a "hifter" in the San Quentin, yesterday afternoon with an iron bar will be given a preliminary examination before Justice of the Peace W. J. Mayer was killed in self-defense. The two convicts were working in a secluded part of the new prison building when the murder took place, and it was not witnessed by others.

The Friendly Help Society met in the Market hall on Tuesday and transacted much business.

R. L. BORDEN ON IMPERIAL DEFENCE

Says Canada Cannot Hold Aloof in Time of Danger.

Toronto, Nov. 2.—R. L. Borden, leader of the Dominion opposition, addressed a largely attended meeting of the centre and south Conservative clubs last night on the question of "Imperial Defence."

After referring to the blessing the British flag has been to mankind all over the world, and to the ruin which would come to every part of the Empire should its naval supremacy be lost, Mr. Borden said in part: "The integrity of the Empire can best be preserved by co-operation in defence and trade. Speaking only of the former, Canada cannot escape this first responsibility of nationhood, nor does she seek to escape it. It is said that she is in no danger of attack, and therefore no preparation or co-operation is necessary. So long as we remain the British Empire, so long as we are the Empire's flag, Canada cannot hold aloof in time of danger. The vast bulk of our foreign commerce is ocean-borne, and as our produce increases so also will our commerce increase and develop. Is it not worth some reasonable measure of protection? Is the Empire liable to attack? Regard the ominous signs of the times. Read the solemn utterances of the ablest statesmen of Britain, and tell me whether you honestly believe that the Mother Country could safely dismantle her fleets and disband her armies. Can we honestly share and enjoy all these blessings, the privileges and the benefits of British citizenship, and shun or evade its high responsibilities? Such a belief would be inconceivable. The will of the people must prevail, but I believe that it will affirm what parliament with unanimous voice has declared, that the responsibility of co-operation in naval defence must be taken.

The resolution proposed by the Prime Minister was modified at our instance in several important respects, of which I need only name one. In its original form it declared against any money contribution to the Imperial defence for naval defence. Its modification permits and indeed authorizes in time of need, what one might call an emergency money contribution. This modification we deemed necessary because, under present conditions, the need for immediate aid that Canada could bring to the naval defence of the Empire in time of serious peril would be of this nature. Whether any such peril is imminent, we know not, but we feel that it is our duty to be prepared for it. We are not prepared to dismiss it without any argument whatever."

As for the suggestion that Canada might remain at peace with an enemy of the Empire, Mr. Borden said that absurdly could not go further. Mr. Borden referred to the argument advanced in certain quarters that the instance in a Canadian navy would open the door to extravagance and corruption in the handling of the people's money. He admitted that there had been wanton and wild waste of public money, but he said that the remedy is not to be found in any abnegation or abandonment of the duty of government, otherwise we should hand over to Great Britain all our great spending departments for better administration.

DECIDES PEARY REACHED NORTH POLE

Geographical Society's Finding is Separate From Cook Controversy.

Washington, D. C., Nov. 2.—That Commander Robert E. Peary reached the North Pole is the unanimous decision of the committee of the National Geographical Society appointed to investigate the explorer's claims.

The report is being drawn up to-day and will be submitted to the full committee on research to-morrow. At that time it will be formally adopted by the society and published. Immediately after the receipt of the official announcement of the society's finding, Peary will start on a lecture tour.

To Oppose Dr. Young. Atlin, B. C., Nov. 2.—Thomas Kearns, Spruce Creek mines, was nominated by the Liberal party of Atlin at a meeting held Saturday night to depose Hon. Dr. Young, the government candidate in the provincial election.

Mr. Kearns is very popular along the creeks and well liked in Atlin, and his victory over the provincial secretary is expected.

NARROW ESCAPE. Ottawa, Nov. 2.—A Grand Trunk brakeman, John McLaren, narrowly escaped being shot through the chest as a Parry Sound train approached Ottawa on Saturday evening. A man fired a .22 rifle shot through the rear car, grazing McLaren's chest and passing up the aisle to the wall of the smoker. It is thought the action was deliberate. The police are investigating.

VALUABLE PROPERTY. Winnipeg, Nov. 2.—William Hunter, Victoria, former Winnipeg grocer, reaped yesterday \$37,000 for twenty-two feet on Portage avenue.

TWO PRISONERS CREMATED. El Paso, Texas, Nov. 2.—Two prisoners in jail at Lordsburg, N. M., were cremated last night when that structure was destroyed by fire.

DESERTED BELLEVILLE GIRL. Belleville, Nov. 2.—People in this city who have seen the published picture of Frederick Gebhardt, self-confessed wife murderer and bigamist, claim he is the man who, in an American city married Miss Frost, of this city and deserted her after getting her money. The pair were here after the marriage.

NEW QUEBEC BRIDGE. Ottawa, Nov. 2.—The expert engineers appointed by the government to prepare new plans for the Quebec bridge have reported to the minister of railways that it is feasible to span the Lawrence at the site of the old structure with a bridge either of suspension or cantilever design.

LIBERALS NAME CANDIDATES

CONVENTION HELD AT VANCOUVER

F. C. Wade Makes Slashing Attack on McBride Government.

Vancouver, Nov. 2.—"Oliver expects every man to do his duty." Not a man in the great gathering which crammed every inch of space in the O'Brien hall at the Liberal convention last evening but vowed as he looked at this motto hanging in great letters above the platform, that Oliver should not expect in vain. Never before has Vancouver Liberalism been launched upon the final stage of an election campaign with such happy augury as was the case last night, when five notable Liberals were nominated to carry the standard of the party into the Tory camps and win their way into the provincial Legislature at Victoria. Never before has the Liberal ticket been so strong as the following: F. C. Wade, J. H. Senkler, George E. Macdonald, J. Stables, Alderman J. Campbell.

Never before have "the Solid Five" been in such danger. Never before have Vancouver Liberals sunk all their differences and in a convention assembled nominated their men without a word, or even a murmur of dissent, and given them such a unanimous and enthusiastic send-off as no one present is likely to forget.

Even those who have been quietly working for many months past to organize the Liberal ranks of the city were taken by surprise. Not only was every chair in the O'Brien hall occupied, but every inch of standing room as well, and some of those present had performed a feat of endurance by waiting without the open door. At times such a tempest of enthusiasm swept through the hall as nearly carried the speakers off their feet, metaphorically speaking.

Every man was on his mettle, the movers and seconders of the nominations, as well as the candidates themselves, but stirring as all the speakers were, the palm of the evening must go to Mr. F. C. Wade, who engaged in such a destructive criticism of the McBride government and delivered such a slashing attack upon them as will not be forgotten by those who listened to it.

Mr. Wade declared that a great fraud had been perpetrated on the electorate of the province by proclaiming an election the 15th of October and distributing the Canadian Northern agreement throughout the province at the end of the month, within four weeks of election day. How could they analyze such an agreement in that time?

"Agreement! We are told it is not an agreement at all. It is simply the basis of an agreement to be chopped and changed as Dan Mann may desire," said Mr. Wade.

"We are to be saddled at this short notice with a liability of \$21,000,000 in principal, and adding interest at 4 per cent. for 30 years, \$45,000,000 in all. Yet in three or four weeks in a country like this, with scattered settlements, isolated by mountain ranges, locked from end to end like one huge fortress, the electors are asked to pronounce on this agreement. Was ever a greater indignity perpetrated on any community?"

He then turned his attention to the News-Advertiser, saying that some time ago he had read an editorial asking whether it was wise to parallel a railway in existence, and whether it was wise to undertake such a liability. They had been promised a continuance of such articles, but he had looked for them in vain, though in the issue of October 30th, the News-Advertiser had said it would not discuss the agreement seriatim, nor must the electors for a moment imagine that this was the only issue before them. So that at this early stage the News-Advertiser was trying to draw a red herring, or rather to deodorize the bad smell the agreement had left behind it.

He reviewed next Mr. Tatlow's position. He had been praised for his careful financing and building up the financial strength of the province, but had been told that its credit must be thrust back into a worse position than it was when he first found it. It would mean with the provincial debt a liability of \$60,000,000 against 300,000 people. How would their credit stand under such a strain? He (Mr. Wade) had no desire to engage in public life, but when it was attempted to take the province by the throat with such a bargain, he felt it was his duty to come out of his shell and fight it where he could.

He characterized Mr. McBride's position as one of cowardice, and in face of the defection from the McBride government, the defection of Mr. Wilson, Mr. Tatlow, Mr. Fulton and Mr. Garden—he did not mention Mr. Green, of course—but in face of this, it would dastardly on their parts to let this opportunity pass of meeting and routing the foe.

Will Settle Controversy as to Whether Cook Reached the Summit.

Fairbanks, Alaska, Nov. 2.—A party of five Alaskans, all familiar with Mount McKinley, has been organized to climb the peak this winter and put an end to the controversy as to whether Dr. Cook reached the summit. The party will start November 15th. The expedition is being financed here.

ALASKANS DECIDE TO CLIMB MOUNT MCKINLEY

WRECK VICTIMS. Bodies of Seventeen Persons Interred at Yarmouth, N. S.

Yarmouth, N. S., Nov. 2.—Seventeen of the bodies of those lost in the wreck of the Hestia were buried yesterday, and another will be buried to-day. The name of the man found at Port Maitland on Saturday morning was James Walsh. Another body, which has been identified as that of Alex. Dumigan, came ashore at Buller Wells Point Sunday.

Federal services yesterday were conducted by Rev. Dr. Hill, pastor St. John's Presbyterian church. The body of Capt. Newman was the only one taken to the church. The others were placed in two graves in Mountain cemetery, one of which contained the bodies of thirteen of the dead. Capt. Newman, First Officer McNair, Chief Engineer Munn and Third Engineer Best were buried together in a private lot. Among those at the funeral were Mayor Kelly, members of the town council, U. S. Consul Fleming and others. The hymns sung were "The Sands of Time Are Sinking," "Brief Life is Our Portion," and "Abide With Me."

Rev. Dr. Hill delivered a powerful and touching address.

DESERTED BELLEVILLE GIRL. Belleville, Nov. 2.—People in this city who have seen the published picture of Frederick Gebhardt, self-confessed wife murderer and bigamist, claim he is the man who, in an American city married Miss Frost, of this city and deserted her after getting her money. The pair were here after the marriage.

NEW QUEBEC BRIDGE. Ottawa, Nov. 2.—The expert engineers appointed by the government to prepare new plans for the Quebec bridge have reported to the minister of railways that it is feasible to span the Lawrence at the site of the old structure with a bridge either of suspension or cantilever design.

NANAIMO PILOTS KEPT VERY BUSY

GREAT DEMAND FOR ISLAND COAL

Growth of Trade on Coast Responsible for Coal Shortage.

The Nanaimo pilots have been very busy of late. During the grain season there is generally a busy time, as many ships pass up to Ladysmith, Nanaimo and Comox to fill their bunkers. The growth of the coal export business during the past year or two has resulted in keeping the pilots who guide the ships to and from the coal ports working night and day. An average of more than one ship a day has been taken up for several weeks, and the pilots are wondering when they will be able to catch up in the matter of sleep.

Still the pilots are not as busy as they might have been if there had been plenty of coal for all the vessels that wanted it. Some have had to wait days and even weeks before they could be supplied, and at every coal port, including Boat Harbor, there are always vessels waiting for fuel. The recent accident at the Extension mines helped to accentuate the situation. Vancouver Island has the coal, but some of the mines are not yet sufficiently developed to allow of a large number of men working in them. By next year it is hoped that the Squahamish mines will be running, and then the northern steamers may be able to take their supplies at this point and relieve the congestion further south.

Vancouver Island ports are not the only ones that are being kept busy. New from Portland states that twenty-eight foreign vessels and 17 coasters are in port, representing the greatest tonnage assembled in the harbor for a number of years. At the rate the fleet is increasing it will not be long until every preceding record is broken, for the arrivals are more numerous than the departures. At least this has been the case during the past week.

The offshore vessels alone are of 58,355 tons net register, and the fleet is capable of handling 100,000 tons. Of the 20 windmills and eight steamships. A few of these are here to take out lumber cargoes. But the exclusive grain-carriers have capacity for stowing care of 75,000 tons of wheat, equivalent to 2,500,000 bushels. Each is under charter for this purpose with the exception of six sailers.

With so many ships in the river loading and discharging cargoes, the berths at the docks are at a premium. The necessity for mooring buoys or anchorage grounds at some point in the harbor is being strongly advocated. Many of the new arrivals are forced to drop anchor in the stream until berths can be provided for them. Some of the exporters believe the problem would be solved by placing a row of dolphins at a convenient point below the steel bridge on the east side of the river. In that vicinity there is a big tract of vacant water frontage, which it is explained, might as well be utilized by the owners until they get ready to build it on.

The numerous craft manna to keep the port of Portland townboats busy occupied practically every hour of the day, and big part of the night. The grain and lumber vessels are frequently in berth about one dock out of another, discharging and completing their cargoes. To handle the river demands it has been necessary for the superintending of the tugs to engage "super-boats."

So, so far a splendid service has been afforded, according to the captains of the ocean-going fleet. It is seldom that they have been accommodated with a tug for shifting the ships soon after making their applications. The only drawback, apparently, is the limited number of berths at the docks.

MOTHER AND FOUR CHILDREN PERISH

Mother Loses Life While Trying to Save Her Little Ones.

Pittsburg, Pa., Nov. 2.—Mrs. William Marlow, wife of a coal miner, and four children, were burned to death early to-day in a fire which destroyed her home in Penn township, near here.

The woman, aged 37 years, and their niece, aged 13, were taken. The head of George Hood, 70 years of age, was almost severed.

WOMAN AND FOUR CHILDREN PERISH

FIREMAN OF "ROCKET" DIES IN IOWA

Was Chosen by Stephenson to Work on His Locomotive.

Des Moines, Iowa, Nov. 2.—Constantly grieving over the death of his wife, which occurred at Westfield, the death of Edward Entwistle, fireman on the Rocket, the first locomotive ever built by George Stephenson, which ran between Manchester and Liverpool, Entwistle was 24 years of age. He was born in England and at the age of 16 was chosen by Stephenson to be his fireman on the famous engine.

The pair were here after the marriage.

NEW QUEBEC BRIDGE. Ottawa, Nov. 2.—The expert engineers appointed by the government to prepare new plans for the Quebec bridge have reported to the minister of railways that it is feasible to span the Lawrence at the site of the old structure with a bridge either of suspension or cantilever design.

BOY SLAYS COMPANION WHILE AT PLAY

Eight-year-old Lad Uses Gun With Fatal Effects.

(Times Leased Wire.) Seattle, Wash., Nov. 2.—Sammie Stewart, eight years old, is to-day inconsolable and weeps continually because of the death of his playmate, Freddie Bestman, aged five, whom he killed yesterday while the lads were engaged in playing "Wild West."

Placing the muzzle of a heavy repeating rifle within a foot of his companion's face, young Stewart pulled the trigger and the boy fell with a great hole through his chin and throat. The tragedy occurred at the Stewart home on Brandon avenue.

While the Stewarts and Bestmans have not been on a friendly footing, it is denied that the understandings extended to the children. Yesterday the Stewarts went driving, leaving their son at home. Sammie invited Freddie Bestman and another boy to play in the house. A Winchester rifle stood in a closet and Sammie Stewart says they were playing "Buffalo Bill," and he was endeavoring to show the other boys how the gun worked when it was discharged.

NEW YORK'S GOVERNOR MAY CONTROL PARTY

C. E. Hughes Will Be Candidate for Next Presidential Nomination.

New York, Nov. 2.—Governor Charles E. Hughes is in a position to secure and hold the Republican organization of this state so that it will solidly behind him in the next national convention. For the first time since he became a prominent figure in the politics of the state, he will be able to take over the leadership of the party organization if he appoints a practical politician, loyal to him, to succeed State Comptroller Gaus, who died Sunday, while on a hunting trip in Canada, about the passage of his direct primary measure next January.

Ever since he assumed the office the "machine leaders" of the Republican party have been against Hughes on most of his proposed and every one of his gains has been won after a hard struggle.

The governor's friends say that he will be a candidate for the presidential nomination again in 1912. To make a strong showing in the convention he will have to have the state organization behind him.

MERCANTILE WILL. Ottawa, Nov. 2.—The will of the late T. Lindsay, former manager of the T. Lindsay company, which controlled a departmental store here, has been filed for probate. The estate is valued at \$134,000, all of which is left to the widow and children.

SOME POSERS FROM MR. PATERSON. (From Tuesday's Daily.)

To the Editor of the Times: In replying to the objections I raised to the McBride railway policy in an interview with you yesterday the Colonist is stating that if the province guaranteed the Canadian Northern bonds in this province and obtained a first mortgage in return, that the Canadian Northern could not raise the remainder of the amount necessary to build their line, having no collateral to offer.

To meet my objection it is pointed out by the Colonist that first mortgages have been given to some of the prairie province governments by the Canadian Northern in return for the guaranteeing of (in one instance) only \$20,000 a mile and the deduction is made that if it was possible to finance the road there after giving a first mortgage in return for \$20,000 a mile there will be possible to do so here on a guarantee of \$35,000 a mile.

It should not be necessary for me to remind your readers that the circumstances are as far apart as the poles. On the prairies the Canadian Northern can build approximately for \$13,000 a mile. A guarantee of that amount, plus other aid, sometimes in the form of a Dominion cash subsidy, sometimes of municipal aid, and sometimes of land subsidies, makes it an easy matter to build the entire road for the aggregate of subventions obtained. The Canadian Northern can then without any embarrassment grant a first mortgage to the provinces.

In British Columbia the situation is entirely different. There are portions of the Fraser river section which will cost not \$13,000 but \$100,000 a mile. The average cost of this road is set by Mr. Mann himself at \$66,000 a mile if they build on four-tenths of one per cent. grade. The question which the electors have to decide is how he is going to raise the difference between \$35,000 and \$66,000 a mile if he grants the province a first mortgage. I fancy Mr. Mann, who is a practical railway construction man, will not dismiss any question so airily or as easily as has the editor of the Colonist. Until he does answer it the electors will have to accept Mr. McBride's promise that he will obtain a first mortgage, with great reservation. It is, in fact, a promise he cannot implement, and if ever the suggestion was offered to Mr. Mann it will be noticed he has omitted committing himself to it. In other words there is not a line about first mortgage in the agreement, and it is on the agreement that Mr. McBride is seeking the favorable decision of the electors.

As to the suggestion that I should accept Mr. McBride's word against the official document, I have only to say that in common with a good many other people in British Columbia I have not forgotten Mr. McBride's first official act as premier of British Columbia and the circumstances attending it. A man who so flagrantly broke his promise to his own parliamentary supporters cannot complain if the electors refuse to believe that he will be any more scrupulous in keeping his promises to them.

T. W. PATERSON.

COAL COMPANY IS EXONERATED

JURY'S FINDING ON EXTENSION DISASTER

Cave is Held to Have Been Cause of the Explosion.

Ladysmith, Nov. 2.—The coroner's jury, which sat in connection with the Extension mine disaster, early this morning completed its duties, returning a verdict that the men met their death from an explosion caused by a cave, which liberated dust and gas. The coal company and the officials of the company were fully exonerated from all blame in connection with it.

The jury sat until about 2.30 this morning before reaching a verdict. The jury's finding in the case contradicts the theory of a blow-out shot. The jury retired about 2 o'clock this afternoon and did not agree a verdict until after twelve hours.

PROPOSED NEW OFFICERS. Montreal, Nov. 2.—At the next session of parliament the C.P.R. Co. will apply for an act providing, among other things, that the directors be empowered to enact by-laws for the election or appointment of two more vice-presidents of the company. At the company's office it was stated that the new offices so created might not be filled at once. There are at present four vice-presidents of the railway.

FOOTBALL FATALITY AT WEST POINT

Harvard Trainer Says He Advised Withdrawal of Byrne From Game.

Boston, Nov. 2.—According to William Donovan, of Harvard, who was at West Point eleven, would have been won in the Harvard-army game had it not been for the withdrawal of Byrne from the game before the final whistle. Donovan says that he had advised Byrne to withdraw from the game before the final whistle. He believed him to be physically unfit to play. Donovan said: "I talked with Head Linesman Evans about Byrne and told him that the man ought to be taken out. He agreed, but what could he do? Two days after that Byrne received the injury which made it necessary to stop the game."

"I doubt if any athletic trainer or football trainer at any college or university or high school would have allowed Byrne to remain in the game as long as he was allowed to."

"In the play just before the fatal one Byrne was noticeably in very bad shape. He stayed on the ground when the other players had reached their feet, and it was a minute or so before he staggered into the line-up."

MERCANTILE WILL. Ottawa, Nov. 2.—The will of the late T. Lindsay, former manager of the T. Lindsay company, which controlled a departmental store here, has been filed for probate. The estate is valued at \$134,000, all of which is left to the widow and children.

POLICE ARRAIGNED BY PRISONER PROSECUTING ATTORNEY IS ALSO SCARED

Man Accused of Burglary Conducts Own Case in Seattle Court.

Seattle, Wash., Nov. 3.—Despite his impassioned plea for liberty and the scholarly presentation of his case, Peter Miller, the most remarkable man who has ever faced a burglary charge in this county, to-day stands convicted of the crime of housebreaking.

Miller, who has conducted his own defence, concluded his argument yesterday afternoon with one of the most bitter arraignments of the prosecuting attorney and chief detectives ever heard in a court room.

Of Captain of Detectives Tennant, Miller said: "I have seen that face before, gentlemen. In Paris, in the gallery of the Louvre, there is the face of Diogenes of Syracuse, the tyrant, whose cruelty makes all history shudder, and that face, gentlemen, is the face of Captain Tennant."

"The prosecution has done me the honor to admit that I have brains. My forefathers fought at Lexington, and for generations my forebears have been clean-thinking people, an observer, a student of human nature, he was a continual surprise."

Further on, Miller said: "I am proud to admit the accumulated intelligence and hereditary attainments, if I have brains, why in the name of God should I risk my liberty by stealing a quantity of paltry junk from an unoccupied residence?"

The jury returned a verdict of guilty of second degree burglary. Miller announced his intention to file a motion for a new trial.

WANTED AT REGINA. Hamilton, Ont., Nov. 3.—Sergeant Cowan, of the Royal Northwest Mounted Police, arrived yesterday to take Fred J. Veal back to Regina, where he is wanted on a charge of obtaining loans from a number of Saskatchewan people by representing to them that he had to go to Hamilton to attend the funeral of a relative who had left him some money.

NANAIMO RAVINE IS TO BE FILLED Citizens Agreeable to Arrangements Being Made With Coal Company.

Man Accused of Assisting Couple to Escape is Shot Through Heart.

Nanaimo, Nov. 2.—At a well attended meeting of the Citizens League recently many matters of importance to the city were discussed, but probably the one of most interest at least at the present time was the report of the committee appointed at a previous meeting of the league to interview General Manager Stockett relative to the filling in of the Ravine.

We, your committee appointed to interview Mr. Stockett of the Western Fuel Co., in reference to filling in Commercial ravine, wish to report as follows: Mr. Stockett, having been interviewed, has expressed his willingness to enter into arrangements with the city to fill in the ravine up to a level with Commercial street, free of charge, provided the city will take care of and construct the necessary drainage, and hold his company exempt from damages while so doing.

The material used will be of such a nature that it will be free from any danger of fire. We would therefore recommend that this question be referred now to the city council with a strong recommendation asking them to take such steps as are necessary to bring this agreement entered into and at the earliest possible date.

THE BARTON MURDER. Hamilton, Nov. 3.—Although some of the people who saw the Barton murderer profess to see a resemblance in the pictures of Otto Mueller, charged with the murder of New York, and the provincial authorities on the strength of this have begun an investigation, the theory was pretty well explicated yesterday when an official description of Mueller was received.

CONSPIRACY CASE IN NOVA SCOTIA Taking of Evidence at Halifax is Proceeding Very Slowly. Halifax, N. S., Nov. 3.—It looks as if the coal operators' conspiracy trial will be as long drawn out as the strike at Glace Bay and Springhill. Many objections have been thrashed out at each session seems to bring with it its own problems, and the taking of evidence is very slow.

WOMAN BARRED FROM JURY IN CALIFORNIA Called for Duty, But is Not Permitted to Serve. Los Angeles, Cal., Nov. 3.—Declaring that there is no law in California providing for the acceptance of women for jury duty, Judge Benjamin Bledsoe, of San Bernardino, sitting for Judge Harvey in the Los Angeles county superior court, excused from further duty Mrs. Johanna Engleman, of Santa Monica.

REPORTED DEFEAT OF REVOLUTIONISTS Story of Flight of the President of Nicaragua is Denied. New Orleans, La., Nov. 2.—A special dispatch from Bluefields to-day says that Managua, the capital of Nicaragua, is in the hands of the provisional government and that Zelaya, the deposed president of the republic, is fleeing for his life.

INSPECTOR ASSUMES DUTIES. Vancouver, Nov. 2.—D. M. Robertson, of Tyneshead, the new Dominion fruit inspector, assumed his duties to-day. Mr. Robertson has a life-long experience of fruits and fruit trees, the last eighteen years of which has been spent in British Columbia.

PHOENIX HOTEL LICENSES. Phoenix, Nov. 2.—The important matter discussed by the aldermen at the last meeting of the city council was the proposed raising of the license of city hotels. On motion of Aldermen Hillier and Deane the clerk was instructed to draw up a by-law amending the present annual license fee of hotels \$550 each, such hotels to consist of not less than thirty furnished rooms for guests.

BOY INJURED. Nelson, Nov. 2.—While climbing the rocky side of the gorge of Cottonwood creek, little Jack Thompson, the ten-year-old son of Joseph P. Thompson, of Nelson, was struck on the back of the head by a boulder that had been dislodged by his schoolmates, and fell unconscious. He was taken to the Home hospital, and now lies in a serious condition.

INCENDIARIES BURN HORSES. Kiev, Russia, Nov. 3.—One hundred and eight horses belonging to the stud of Count Tyshevitch, one of the finest in Russia, perished by fire. The fire is said to have been of incendiary origin.

NAVAL DEFENCE OF THE EMPIRE English Manufacturer Suggests That Contributions Be Pooled.

PETITIONS POUR INTO OTTAWA URGE CLEMENCY FOR MRS. ROBINSON

Windspe, Nov. 3.—"To pool the contributions of the British Empire and provide one all-powerful fleet of unassailable supremacy, would seem to me the most effective means of naval defence."

Thus spoke Henry Davis, manufacturer, of Derby, England, who has been attending the Imperial Congress of Chambers of Commerce. "Improvements in naval architecture are so constantly occurring that in my opinion it is only by centralization that Britain can succeed in keeping ahead. As a striking illustration of the rapid strides naval science is making, I may say that of the warships assembled in the Thames this summer for the great demonstration, not one was present at the great display off Portsmouth on the occasion of the King's coronation."

"Now the question is, could small colonial navies keep up such a pace? Would it not be better to place the money where there are the greatest experts in the world to spend it? A Canadian navy and an Australian navy are doubtless essentials of the future, but in the present time of danger, for the purpose of turning a stiff corner, I, as a Briton, would like to see all combine to pay and maintain one mighty fleet. Any aspiring country, however, would soon realize the futility of competing against such odds."

CHINESE ELOPEMENT RESULTS IN MURDER Man Accused of Assisting Couple to Escape is Shot Through Heart. San Francisco, Cal., Nov. 3.—Firing five 33 calibre bullets into his heart a member of the Yick Tong last night instantly killed Yee Fong, a Chinese merchant of Oakland alley in this city.

PETITIONS POUR INTO OTTAWA URGE CLEMENCY FOR MRS. ROBINSON

Woman Will Probably Be Given Term of Years in Penitentiary.

Ottawa, Nov. 3.—Thousands of post cards, letters and petitions have been received by the minister of justice and governor-general from British Columbia praying for executive clemency in the case of Mrs. Robinson, under sentence of death at Sudbury for the murder of the infants of her husband and her minor daughters. About two hundred thousand petitioners in all parts of Canada already have been heard from.

The case will be dealt with by the cabinet council this week. It has been already decided that the woman will not hang, but it is doubtful if the government will grant a full pardon, it is probable the sentence will be commuted to a limited period of years in the penitentiary.

REWARD OFFERED FOR ANDREA'S MURDERER Police Searching for Two Italians Thought to Be in Hiding.

WOMEN FIGHT FOR ADMISSION TO COURT Try to Force Way Into Hall of Justice to Hear Trial of Mme. Steinhilf.

A reward of one thousand dollars has been offered by the provincial government for information leading to the arrest and conviction of the murderer of Salvatore Andrea, the Italian, whose body was found a week ago Sunday near the Leach river trail at Goldstream.

Despite the inquiries of the provincial police being made into the matter absolutely no light has been thrown on the death of Andrea. The Italian, Domini, who was arrested at Cobble Hill the day the body was found, has been released as there was nothing to be got out of him. Throughout the time he was held in jail he persistently denied having any knowledge of the murdered man, and all the questioning failed to throw any light on the matter.

WOMEN FIGHT FOR ADMISSION TO COURT Try to Force Way Into Hall of Justice to Hear Trial of Mme. Steinhilf.

TRACK LAID PAST NANOOSE RAPID PROGRESS ON E. & N. ALBERNI BRANCH

Paris, Nov. 3.—Thousands of people surrounded the Palais de Justice to-day, clamoring for the hundred seats from which the public might witness the trial of Mme. Marguerite Steinhilf, "the red widow," whose trial began at noon to-day. The woman is charged with murdering her artist husband and mother-in-law. As early as midnight last night hundreds of people had gathered, and formed a waiting line. By dawn this gathering had been augmented by thousands of others and the police had the greatest difficulty in handling the mob and several times it attempted to storm the courtroom.

The announcement that the women would not be admitted to the trial almost caused a panic. They hurried themselves at the gendarmes in an effort to gain admission to the hall of justice by force and the officers were compelled to use their clubs to restore order. The court officials have been besieged with applications for tickets for wives of government officials, society leaders and religious actresses. In every instance these requests have been denied.

INSPECTOR ASSUMES DUTIES. Vancouver, Nov. 2.—D. M. Robertson, of Tyneshead, the new Dominion fruit inspector, assumed his duties to-day. Mr. Robertson has a life-long experience of fruits and fruit trees, the last eighteen years of which has been spent in British Columbia.

PHOENIX HOTEL LICENSES. Phoenix, Nov. 2.—The important matter discussed by the aldermen at the last meeting of the city council was the proposed raising of the license of city hotels. On motion of Aldermen Hillier and Deane the clerk was instructed to draw up a by-law amending the present annual license fee of hotels \$550 each, such hotels to consist of not less than thirty furnished rooms for guests.

BOY INJURED. Nelson, Nov. 2.—While climbing the rocky side of the gorge of Cottonwood creek, little Jack Thompson, the ten-year-old son of Joseph P. Thompson, of Nelson, was struck on the back of the head by a boulder that had been dislodged by his schoolmates, and fell unconscious. He was taken to the Home hospital, and now lies in a serious condition.

INCENDIARIES BURN HORSES. Kiev, Russia, Nov. 3.—One hundred and eight horses belonging to the stud of Count Tyshevitch, one of the finest in Russia, perished by fire. The fire is said to have been of incendiary origin.

TRACK LAID PAST NANOOSE RAPID PROGRESS ON E. & N. ALBERNI BRANCH

First Order for Freight From Resident of Parksville is Received.

Despite unfavorable weather conditions excellent progress is being made in the construction of the branch of the Esquimalt & Nanaimo railway of Alberni. H. E. Beasley, superintendent of the E. & N., received word Wednesday that track-laying had been laid to a point a considerable distance beyond Nanoose. Nanoose, it may be mentioned, is nine miles from the other side of Wellington. It is anticipated that in the course of a week or two the track will reach Parksville, which will be the junction point when the main line has been extended to Comox.

As indicating the necessity for the early completion of the transportation facilities which the new road will supply to that district, Mr. Beasley mentioned that only to-day he had received a telephone message from a party in the vicinity of Parksville, who asked how soon would it be possible to deliver a carload of lumber. Mr. Beasley promised to take the matter up, and as soon as the tracks will permit the lumber will be shipped.

CONSPIRACY CASE IN NOVA SCOTIA Taking of Evidence at Halifax is Proceeding Very Slowly. Halifax, N. S., Nov. 3.—It looks as if the coal operators' conspiracy trial will be as long drawn out as the strike at Glace Bay and Springhill.

WOMAN BARRED FROM JURY IN CALIFORNIA Called for Duty, But is Not Permitted to Serve. Los Angeles, Cal., Nov. 3.—Declaring that there is no law in California providing for the acceptance of women for jury duty, Judge Benjamin Bledsoe, of San Bernardino, sitting for Judge Harvey in the Los Angeles county superior court, excused from further duty Mrs. Johanna Engleman, of Santa Monica.

DRS. KENNEDY & KENNEDY SUCCESSORS TO Drs. Kennedy & Kergan... NERVOUS DEBILITY... BLOOD POISONS... OUR NEW METHOD TREATMENT...

JOHN JARDINE IS THE CHOICE UNANIMOUSLY CHOSEN TO CONTEST ESQUIMALT

Wonderful Enthusiasm Characterized Convention Held in Colwood Monday.

John Jardine was Monday again selected to run for Esquimalt in the Liberal interest at the nominating convention held at the Colwood school house.

The nomination was unanimous and voted on by delegates from every district in the province.

The nomination was moved by J. C. McIntosh, Esquimalt, and seconded by Albert Wales, of Colwood.

Mr. Jardine, called on by the chairman, said: "In the course of my experience as one who has taken interest in the country for twenty-five years."

"I remember Dr. King meeting me in the corridor of the House and saying: 'John, what do you think of this?'

Mr. Jardine then related to the convention the incident of the opposition using compulsion to turn the government building into a bedroom last session.

"When the Attorney-General saw us packing our beds into the House on our backs," he said, "the benches were made for us."

"Now, gentlemen, we are confronted with a railway policy and I advise every elector to weigh the McBride railway policy most carefully.

Mr. Jardine then related to the convention the incident of the opposition using compulsion to turn the government building into a bedroom last session.

"They have tackled on the Mainland proposition the Berkeley Sound railway without referring to the syndicate that owns the charter.

Mr. Jardine then compared the McBride proposition with the Dominion subsidies offered for railway building.

"You will all remember in the first session of the last parliament that \$30,000 was set aside for this district outside of bridge construction work.

"The estimates amounted to \$13,500. I was sent for. The chief commissioner had Mr. Peatt's statement there. He said: 'What do you think of that?'

"The estimates amounted to \$13,500. I was sent for. The chief commissioner had Mr. Peatt's statement there. He said: 'What do you think of that?'

"The estimates amounted to \$13,500. I was sent for. The chief commissioner had Mr. Peatt's statement there. He said: 'What do you think of that?'

preciate \$25,000. I accepted but stipulated that \$13,500 was to be spent in Colwood district from the four-mile house. We were also to have a steam derrick and rock crusher and work done on Lampton and Head streets.

"It is the same with the licensing system. The man in charge is nothing but a buffet. If there is any crime committed you have to go to Mr. Hussey, and if it is a good henchman of the Conservative party you have to go to the attorney-general and there you'll find the tracks are covered up.

STATEMENT BY WM. WAINWRIGHT

GRAND TRUNK PACIFIC AND B. C. BRANCH LINES

Ready to Treat With Government on Question of Early Construction.

Speaking of the proposed government railway policy, W. Wainwright, vice-president of the Grand Trunk Pacific railway, now in the city, stated that whilst the terminus of the line and its ocean port will be Prince Rupert, it is only natural they should look to offering additional facilities by branches into Southern British Columbia.

"I have no doubt at all that John Oliver will lead the Liberals to victory and his constituents are in accord with his running for the capital.

LABOR LEADERS MUST GO TO JAIL

SENTENCE AFFIRMED BY COURT OF APPEALS

Gompers, Mitchell and Morrison Guilty of Violating Injunction.

Washington, D. C., Nov. 2.—The Court of Appeals of the District of Columbia to-day affirmed the jail sentence of Samuel Gompers, president of the American Federation of Labor; John Mitchell, former president of the United Mine Workers; and Frank Morrison, secretary of the American Federation of Labor, convicted of contempt on a charge of violating an injunction prohibiting the name of the Buck Stove & Range Company as "unfair."

COURT HOUSE CONDEMNED

FALLS TO DEATH

Toronto, Nov. 2.—Duncan Stewart fell from a house on Beaconsfield street, on which he was working yesterday, sustaining injuries which caused death.

STATEMENT BY WM. WAINWRIGHT

GRAND TRUNK PACIFIC AND B. C. BRANCH LINES

Ready to Treat With Government on Question of Early Construction.

Speaking of the proposed government railway policy, W. Wainwright, vice-president of the Grand Trunk Pacific railway, now in the city, stated that whilst the terminus of the line and its ocean port will be Prince Rupert, it is only natural they should look to offering additional facilities by branches into Southern British Columbia.

"I have no doubt at all that John Oliver will lead the Liberals to victory and his constituents are in accord with his running for the capital.

WINK PACIFIC C. BRANCH LINES

Great With Govern. Question of Early Instruction.

The proposed govern. policy, W. Wainwright, of the Grand Trunk, is now in the city, to list the terminus of the line, but it will be Prince Rupert, which is the natural port for the additional facilities by Southern British Colum.

This company has 104 miles of line, eastward to Prince Rupert, almost completed. Additional 200 miles is in prospect. At the same time, the Government has been entered into the prairie section, which is one hundred and twenty miles long, west of Edmonton.

The question of labor in mind that time is the contract between the Government and the company is not sufficient to carry to complete the work without saying something must be done to give an extension of time must be granted. Some of the recent remarks of the Government are not intended as an offer of importing yellow fever, pointing out that the Government could be held above what are now the Grand Trunk Pacific not completed with the time named in the contract. Advantage of such transportation facilities would do this mean to the Government.

What does it mean to the Government? The Grand Trunk is the pioneer line of the province, reaching at the front in Ontario and Quebec, twelve ports on the coast and Lake Huron, and means as against an alternative. From 71 of the population of Ontario on Grand Trunk lines far more extensive than in Ontario, at all large cities, in all large cities, in all large cities, in all large cities.

Right advises to get in at possible and commendable policy in this respect to not simply make a name, which may never be assistance be made in that it will comment on the construction of the road, but by such interests as in the necessary funds same. It must not be any endorsement of the government only provides of the money necessary to build roads in an up-to-date and therefore consider necessary over and above by means of the Government.

Right draw attention to a attorney-general in his where he is reported that the Canadian North had this advantage reach its destination province on a four-foot line, whereas the Grand would have a one foot line, and in reversed the Government well known that the Pacific railway, from Prince Rupert is a four-foot line, save an entire line, save an entire line, save an entire line, save an entire line.
