Hon. Mr. Blake Elected. Liberals, both in England and the defeat of the Liberal party and the falsehood.

A Remonstrance. An advertisement, published yesterday, emanating from the Department of Railways and Canals, calling for tenders for snow-plows and cars of different kinds, indicates a change of railway policy which can hardly be deemed an improvement. The Government have provided expensive buildings and machinery for the express eriment have provided expensive buildings and machinery for the express purpose of manufacturing such articles, but for reasons which the public will not deem sufficient, they determine to leave their machinery idle and purchase what they need from outside parties. We believe the excuse given for this is that cars, etc., built in the Moncton shows have cost too much, but there is view of the lumber market there than shops have cost too much, but there is no way to get rid of the fact that if such has been the case, it has been the fault of the management and not of the policy. The shops are provided with all the best facilities for car making, and there is no reason on earth, apart from inefficiency in the Mechanical department, why such articles cannot be made here more cheaply than else-where in Canada. And we think it is fairly a matter for complaint that the Government, instead of removing the well understood cause of an acknowledgwell understood cause of an acknowledged wrong, shall perpetuate the cause and seek in another way—a way of doubtful propriety under the circumstances—to protect public interests. For the inefficiency of the Mechanical department, which has wrought great injury to Moncton, we have no doubt to thank Mr. Brydges; but we should hardle expect the present Minister of hardly expect the present Minister of Railways to acknowledge his inability

Derby Misrepresented.

DERBY, Nov. 15th '79. To the Editor of the Miramirhi Advance. SIR. - I was much surprised to read in the Christian Visitor a letter from Rev. T. M. Munro entitled "Persecution," which I consider a great injustice to the people of Derby and the Trustees of the school to as follows:which he alludes.

no regular services held in Derby, which statement is not correct, as there are and have been, for the last twenty-five or thirty years, four churches in the parish follows: no regular services held in Derby, which with good congregations supplied by Ministers and regular attendants. of Schools, have effectually closed the door against them, which I presume was no easy job, as they actually, on one occasion, broke the lock of the school house door and Mr. Munro made his way in and preached, leaving the door without a lock. During the time between the breaking of the lock and the procuring of another, some articles of clothing belonging to one of the neighbours were stolen from \$44,214,977 76 the school house, causing the loser to complain to the Trustees in reference to the way in which they were fulfilling their duty by having the school without a lock. The Baptist people were then notified to replace the lock and they did so, the Secretary of the Trustees witholding the price of the lock from the boy who was employed by the trustees for the small sum of \$2.50 per year to lock the \$10,000 BRITISH SILVER CULINARY UTENSILS

Book of Ages "Rock of Ages, eleft for me,"
Thoughtlessly the maiden sung,
fell the words unconsciously
From her giclish, guileless tongne,
Sang as itstle children sing;
Sang as sing the birds in June;
Fell the words like light leaves dow
On the current of the tune"Rock of Ages cleft for me,
Let me hide myself in thee."
Felt her seal no need to hide;
Sweet the song as song could be,
And she had no thought bende.
All the words unheedingly
Fell from lips instouched by care,
Dreaming not they each might be
On some other lips a prayer—
"Rock of Ages, cleft for me,
Let me hide myself in thee."

"Rock of Ages, cleft for me,"
"Twas a woman sung them now;
Sung them alow and wearily—
Wan hand on her aching brow,
Ro e the song as storm-to-sed hird
Beats with weary wing the air;
Every note with sorrow stirred,
Every syllable a prayer—
"Rock of Ages, cleft for me,
Let me hide myself in thee."

"Rock of Ages, cleft for me,"
Lips grown aged sung the hymn,
Trustingly and tenderly;
Voice grown weak and eyes grown dim"Let me hide myself in thee."
Trembling though the voice and low,
Ran the sweet strain peacefully
Like a river in its flow.
Nung as only they can sing
Who life's thorny paths have pressed;
Sung as only they can sing
Who behold the promised rest—
"Bock of Ages, cleft for me,
Let me hide myself in thee."

Rock of Ages, cleft for me,"
Sung above a coffin lid;
Underneath all restfully,
All life's joy and sorrow hid.
Never more, O storm-tossed soul,
Never more from billows' roll
Wilt thou ever need to hide!
Could the sightless, sunken eyes.
Closed beneath the soft white hair;
Could the mute and stiffened lips

Sole Agents for Maritime Provinces

TO THE FARMERS OF MIRAMICHI. We have been Manufacturing IRON FRAME MOWERS

For the last four years, and are now offering to the BEST MOWER, combining greater excellence of mechanical simplicity together with greater durability and entire reliability for all the requirements of the filed, than any other Mayer extant. —In construction they are similar to the celebrated Walter A. Wood's fron Frame Mower, and the Richardson Buckeye, both American Machines. Of the former there are over 200,000 were manufactured and sold last acason, by the Wood Company of United States. We have over 500 of our manufacture now in use, every one of which (no exceptions) stands as a monument of the grand and unprecedented success of home manufacture and our enterprise. A list of our Agents in this section of the Province will be found appended, and farmers are requested to ask information of them relative to our Mowers in use in their respective localities, which will establish beyond doubt their anquestionable superority over any other mower to be had in our market.

The facility of procuring all parts or pieces within a nominal length of time must show beyond the shadow of a doubt the claims such an enterprise has upon the farmers of the Maritime Provinces.

For the coming harvest of 1877 we will manufacture LARGLY in excess of our sumforms of the statement of the statem and Boilers, Mill and other Ma-
