POPULAR COUPLE WILL WED TOMORROW

The marriage takes place tomorrow morning at Trinity church, at the early hour of seven o'clock, of Harley W. Gross, bookkeeper to Haley Bros. & Co., to Louise C., daughter of John A. and Mrs. Chesley, of 61 St. James street. Both the bride and bridegroom are very popular young people, the latter being a captain in the army service corps. The ceremony will be performed by Rev. Canon Richardson, and immediately after Mr. and Mrs. Gross will leave by the Prince Rupert en route for the Annapolis Valley, where the honeymoon will be spent. The bride, who will be unattended, will be married in a tailor-made traveling dress of brown check Panama cloth, with hat to match. She will carry a bouquet of pink carnations. A large number of handsome and useful presents have been received by the happy young couple. Mr. and Mrs. Gross will reside at 59 St. James' street on their return from their honeymoon.

ECLIPSE EXPEDITION SUCCESSFUL

LONDON, Sept. 1.—Prof. Wm. Joseph Huxsey of the Lick observatory expedition cables to the Associated Press from Assouan, Egypt, that the expedition executed its eclipse programme as planned. The elongates were in the form of streamers of the fish tail type with marked rays from the sun spot zones, especially from the southeast limb. North Polar streamers distinctly recurred. Prominences were pronounced especially those near the North Pole. The motion of the shadow bands was determined.

SHORT LIVED STRIKE IN MONTREAL.

(Special to the Star.) MONTREAL, Sept. 1.—Two hundred laborers employed by the Dominion Transport Company demanded \$1.75 per day in place of \$1.50 as at present. Being refused the men went on strike and were told to go to the office and be paid off. This has not been done and it is believed they will return to work this afternoon.

RAINCOATS AND FALL OVERCOATS.

With September comes the chill of the cool September evenings, and a top coat is a necessity. A new Raincoat is a very desirable coat for either wet or cool weather, and they are stylish and dressy, too. We would like to show you our stock of Raincoats and Fall Overcoats. You'll find both the style and the price very attractive.

Raincoats \$6.00 to \$16.50. Fall Overcoats at \$7.50, \$8.75 and \$10.

SAFE WITH \$20,000 STOLEN; NO CLUE.

Thirteen People in House, But None Heard a Sound.

Thieves Carried It Down a Second Story Past Open Bedroom Doors—It Weighed 400 Pounds.

STAMFORD, Conn., Aug. 31.—Without disturbing any of the thirteen occupants of the house or arousing the three dogs kept on the grounds, burglars gained entrance early yesterday morning to Nirvana, the summer nest of Mrs. J. Russell Bonner, at Alexander's Point, near Stamford, and carried off an iron safe weighing four hundred pounds and containing jewelry valued at \$20,000.

Included in the articles taken were a pearl necklace valued at \$2,000, several unset emeralds of high price, and rings, earrings, three gold watches and \$150 in money. Many of the gems were given to Mrs. Bonner by her husband, and some of them are old family heirlooms, as precious to their associations as for their intrinsic worth.

To effect entrance the burglars removed a pane of glass from a door leading into the library, which faces the sound on the south. Once inside they had to pass through the library and cross a broad hall to a stairway leading to the second floor, where are the living rooms of the family. The safe was kept in a large closet on this floor, opening on another broad hall which runs east and west along the entire floor. Mrs. Bonner's room and those of the other members of the family also open on this hall. Bonner said yesterday that during the night she had slept untroubled and for a time had left her bed to lie on a couch. Her door was ajar nearly all night, and so was that of Mr. Willis, across the hall, but neither heard the slightest suspicious noise.

It is this peculiarity of the case that is puzzling the detectives. The stairway is unoccupied, and after reaching its top the burglars had to walk about forty feet through the hall, which is closed except by an expert. The thieves must have passed by hundreds upon hundreds of dollars' worth of silverware and bric-a-brac without pausing to examine it.

Moreover, the safe, although a compact affair, was heavy and could not be carried by at least four men to carry it, and many having been required to get it upstairs originally. It is modern and has a lock that could not be opened except by an expert. The thieves must have passed by hundreds upon hundreds of dollars' worth of silverware and bric-a-brac without pausing to examine it.

LARGE MILL BURNED.

Wood Factory at Riverside, Albert Co., Destroyed With All Its Contents—Loss About \$6,000.

(Special to the Star.) HOPWELL HILL, Sept. 1.—The large wood-working establishment of Captain Edmund Kinney, at Riverside, including planing mill, blacksmith shop, drying house, etc., and thousands of feet of lumber near the mill totally destroyed by fire between one and two o'clock this morning.

The origin of the fire is known, but it is supposed to have caught from the engine room. The fire was first noticed by J. Alex. Fullerton, who lives near, but not until the fire had gained considerable headway, and although the alarm was sounded, before help arrived the entire building was a mass of flames.

Two double vans, for use of the mill, were used to carry the lumber to the mill, and in fact nothing connected with the building was saved.

It is difficult to estimate the full loss, probably at least \$5,000 or \$6,000, with no insurance. Several buildings in the vicinity of the fire were in great danger, and it was only by the greatest efforts that the residences of J. Alex. Fullerton and Harry Walton were saved.

CAPITAL STOCKS INCREASED.

Dunn Pork Packing Company Preparing to Reach Out After More Business Next Year.

The stock holders of the F. B. Dunn Pork Packing Co., held an important meeting yesterday that was largely attended by stock holders from all parts of the province. Aside from considerable routine business, matters of very particular interest were discussed. The resignation of C. B. Lockhart from the directorate was accepted and Timothy Collins elected in his place.

The company has been doing business at a loss for the past two years but have decided to continue and in fact will make a more aggressive bid for business than in previous years, as it has been received here that Charles Townsend, pitcher of the Tristram College baseball team is dead at Sunbury, Pa. Townsend was hit on the head by a pitched ball while playing a game against the Mt. Carmel Club and his skull was fractured.

STONES AND DYNAMITE FOR JAPANESE ENVOYS.

They Expect a Stormy Reception at Home for Surrendering—Japan and Russia May Make Trade Alliance.

PORTSMOUTH, N. H., Sept. 1.—It is expected that the text of the peace treaty will be completed by tomorrow night or Sunday.

The full summary of the actual text will then be cabled to Tokio and St. Petersburg for the approval of the respective governments and by Tuesday or Wednesday at the latest Mr. Witte and Baron Komura expect to receive authority to affix their signatures. The subsequent exchange of ratifications by the two governments will be simply a formality. Mr. Donelson and Mr. Martineau will meet again this afternoon. The conditions of the armistice, or rather complete suspension of hostilities making the conclusion of the war, will be arranged, except for minor details, by the plenipotentiaries here.

The signing of the "Treaty of Portsmouth" will be as quiet and unostentatious as possible. Both sides desire to avoid any spectacular features. Both realize that, for different reasons, the treaty will not be popular in their respective countries. In Japan especially there is expected to be a great popular "fire know" said a member of the Japanese mission today, "that we are going home to stones and perhaps dynamite."

ARMISTICE ARRANGED. PORTSMOUTH, N. H., Sept. 1.—The formal cessation of hostilities to be arranged between Russia and Japan, inasmuch as it is temporary, pending the final exchange of ratifications, it will not provide for the ultimate release of the Russian and Japanese prisoners of war. An article covering the subject will be included in the treaty.

PORTSMOUTH, N. H., Aug. 31.—"It is the hope of the Japanese government to form an alliance so long as the new treaty just signed between Great Britain and Japan is in force," is a statement which has been made here in view of the action of the envoys in deciding to insert in the treaty a clause which shall extend to both nations preferential treatment, known as the "most favored nation" clause. This is to stand until a further understanding can be reached between Japan and Russia. In a commercial treaty which is to be negotiated between them soon after the dissolution of the present conference.

Other nations have been and still are apprehensive that Japan may form an alliance with Russia whereby the two recent foes will have exclusive privi-

THREE YEARS FOR LEWIS.

Young Colored Lad Who Worked Film Game Sentenced to Reformatory by Judge Ritchie.

William Lewis, a colored lad and the son of the well-known Harris Harding which went to Cartwright, Labrador, sentenced by his honor, Judge Ritchie, to three years in the reformatory.

The boy was arrested yesterday afternoon by Sergeant Campbell and Officer McNamee for stealing money from a shop on Erie street and from another on City Road. Entering the shop of Mrs. Bowes, on the corner of Lewis and Hanover streets, he laid down a quarter on the counter and asked to have it changed. When the lady proprietor had changed the money he took it up along with his own quarter and hustled out of the store and down the street, chucking to himself over the clever trick he had devised. Finding the plan worked so well, he continued his frenzied finance in other places.

When brought into court this morning he was asked as to his age, and answered that he was fifteen and that Labor Day was his birthday. He said that he was quite willing that the magistrate should try his case. When Harris Harding himself was asked the same question he replied, "Just as you like, sir, Willie's a bad boy." He said he had been stealing the quarters from Mrs. Bowes and from Mrs. McParlane, but said that he intended giving them back. He denied, however, similar offenses against Mrs. Crawford and Mrs. O'Brien.

After a short consultation between father and son Henry Harding asked to be allowed to speak, and said that he was quite hopeful had stolen his watch about two weeks ago and sold it at the Boston second-hand store. The magistrate said that matter should be looked into, and told Policeman Ross to go and bring up the proprietor. The proprietor was away. Officer Ross reported, but at the store they said that the watch was not sold to them and that Detective Killen had been looking into the matter yesterday.

KILLED BY PITCHED BALL.

MORRISTOWN, Pa., Sept. 1.—Word has been received here that Charles Townsend, pitcher of the Tristram College baseball team is dead at Sunbury, Pa. Townsend was hit on the head by a pitched ball while playing a game against the Mt. Carmel Club and his skull was fractured.

NEW YORK SHEET METAL WORKERS HAVE STRUCK.

NEW YORK, Sept. 1.—A strike of the sheet metal workers in this district was called last night by the Amalgamated Sheet Metal Workers' Union. About 1,500 members attended the meeting and the call for the strike was almost unanimous. The strike will affect about 150 buildings which are in course of construction and about 200 shops in which the metal workers are employed.

The men demand an advance of fifty cents a day. They claim that about a year ago they entered into an agreement whereby they were to receive the raise last January, but they did not get the promised increase, however, and three months ago they notified the employers that if the advance was not forthcoming there would be a strike.

IRISH CATHOLICS URGED TO BE LOYAL.

Archbishop of Tuam Lectures Will Give Good Service on Paradise Row School Teachers.

says Orangemen Are Not True Loyalists—If the King Turned Catholic They'd Kick His Crown Into the Boerne.

DUBLIN, Sept. 1.—Speaking at a meeting of national school teachers at Tuam, the Rev. Dr. Healy, Roman Catholic archbishop of Tuam, referred to the recent disloyal demonstration at the teachers' dinner at Sligo. He advised teachers to conduct their legitimate agitation with prudence and circumspection and not allow the behaviour of a few irresponsible persons to bring discredit on their cause. The inhabitants of the west of Ireland always had been genuine loyalists in spite of much foolish talk, but the Orangemen of Belfast were not genuine loyalists at all. They only prated about loyalty to the king, but when their loyalty was tested it was a humbug.

Their western forefathers were loyal to Charles I.—perhaps more than he deserved—because he was the king. They were loyal in their day to James II.—unworthy as he was—because he was the king, whilst the ancestors of those distant loyalists sold their king, a king of their own blood and drove his children into exile. They in the west were loyal to King Edward. They were loyal to King Edward. They were loyal to King Edward. They were loyal to King Edward.

He hoped that no Irish teacher or Irishman would ever fail to pay due honor to the name of the king, and that he was called upon to do so by loyalists, who had no real loyalty, and by hypocrites, who made their boasted loyalty a pretence to preserve an odious political ascendancy.

INAUGURATION CEREMONY OF NEW PROVINCES.

(Special to the Star.) EDMONTON, Sept. 1.—Inauguration ceremonies are proceeding with full swing. Every building on the main street is covered with flags and festoons of electric lights are decorating all the principal buildings.

The proceedings today opened with a grand parade of citizens and school children, at which thousands turned out and great enthusiasm was manifested. At the exhibition grounds the procession broke up and a review took place of mounted police by the governor general.

On the return to City Hall his excellency was received by the mayor, who read a civic address. At noon the new lieutenant governor, Hon. G. H. V. Bulyea, was sworn in by the governor general.

The afternoon was devoted to athletic exhibition and a polo match. The festivities closed tonight with a citizens' ball at Thistle rink.

MORE TRACKS FOR STREET RAILWAY.

Will Give Good Service on Paradise Row

If It Can Double Track City Road and Lay Line on King Square—Indiantown Sliding.

A sub-committee of the board of works met at a delegation from the Street Railway Co. at the City hall this morning and for an hour or so discussed matters principally concerning the Paradise Row-Brussels street route. There were present Ald. Pickett, Holders, Sproul, Macrae and Director Cushing, representing the city, and for the Street Railway Company James Manchester, R. B. Emerson, H. H. McLean, H. A. Brown, H. M. Hopper and W. Z. Earle.

The first matter considered was the sliding at the foot of Indiantown hill. After some discussion it was decided that the recommendation of the director, so that cars can be held there to await the arrival of steamers and not interfere with the regular traffic. A delegation of citizens were held in reference to the Paradise Row-Brussels street situation. They complained of a poor service on that line. The street railway officials guaranteed a five minutes' service, two cars each way, if they were granted permission to double track City Road and relay the rails they had to take up along King Square from Charlotte street to Sydney street, joining the Union street line. They also undertake to place electric signals on the Paradise Row line, which will do away with all present inconveniences.

The outside parties suggested that the company double track a part of the whole of the route. The director was asked to look into the matter, as to be able to report at the meeting of the board of works being held this afternoon.

Doyle and Devine arrested for fighting on British street, were this morning fined \$20 or two months.

THE GENIAL FLAME.
Succinct, Easy on Open Fireplaces and Gifted Firewoods.
(W. P., in New York Sun.)
One thing in the Portsmouth conference appealed to the dullest; that is their open hearth fires in the face of a driving northeast rainstorm. From weatherbeaten tramps to driftwood cottagers on a cliff dwelling, income seven figures long, all sorts and conditions of men feel the instant power of an open fire against Jupiter's inclemencies. It is a spell, besides, whose power is in society's back lanes and nature's waste places than in the sumptuous, artificial makeup of glassed brick and red oak and post oak are of plebeian inferiority. There is this noteworthy singularity of dogwood fires where you burn dogwood all by itself, that their subsequent ashes are very like a bed of the finest boiled flour, but imponderably lighter.

DRY MAINE?
The August term of the Supreme Court reconvened Tuesday forenoon at 11.30 o'clock on the arrival of Justice Savage from his home in Auburn where he has been since the grand jury began its sessions a week ago. Nothing was done during the forenoon with the exception of calling the roll of the traverse jurors and hearing the report of the grand jury which brought in a long list of indictments said by County Attorney Patten to be in the neighborhood of 250. The indictments were not made public. Judge Savage ordered capias issued in each case. The number of cases reported by the grand jury is larger than has ever been reported previously. Of this number it is supposed that over 200 are for violation of the prohibitory law.—Bangor Commercial.

A small, grey dog rushed headlong into the garden of a London house, and the maid, who happened to be standing there, closed the gate. When the dog saw she was safe from her pursuers—the huge bull terrier—she fell over in a dead faint. The other servants, who came out to help to bring the little animal to, laughed at the assertion, but a veterinary surgeon, who finally joined the group, said there was nothing preposterous about it. "Of course she fainted," he said. "Many animals faint. Cats and dogs, and even more stupid animals, give way in moments of fear and exhaustion. In the case of horses the prostration is generally attributed to sunstroke, but quite often the result of atmospheric excesses. Fowls faint, too, and the birds of the air."

ST. JOHN STAR.

ST. JOHN, N. B., SEPTEMBER 1, 1905

HALIFAX AND THE MILITARY.

In defense of Halifax against the
criticisms of an American correspon-
dent who declares he found the streets
of that city (when he succeeded in find-
ing them) dark and paveless; its busi-
ness men dark (mentally) and listless,
the Echo offers the plea that Halifax has
been greatly handicapped heretofore by
the presence of the British garrison
which has had, it declares, the most
enervating and paralyzing influence
imaginable upon the life and progress
of the community. Now that the sol-
diers are about to depart the Echo feels
able to promise better things in the
near future.

Presumably the reference is made to
the "society" influence of the British
officers in the Nova Scotian capital and
undoubtedly is based on good grounds.
For generations the social life of Hal-
ifax has been dominated by this class
which has been toadied to and imitated
until the city has more per capita
embellishment than any other on the
continent.

To be a man of leisure and means
with hands unsoiled by work and a
name unsmirched by connection with
trade is the ambition of the gilded
youth and to marry such an one oc-
casionally a real officer who can
claim relationship with a title is the
dream of the women. Caste lines
are drawn as tightly as in the most
aristocratic community in England. A
gentleman is a man who does not work
at all. Those who labor delicately in
the professions and in the higher
branches of business, such as banking,
may associate with such on sufferance.
But between the bank clerk and
tradesman or merchant there is a
great gulf fixed.

What an atmosphere for the develop-
ment of energy and that of business
enterprise which must characterize any
prosperous community in this demo-
cratic country! Is it any wonder that
Halifax impresses visitors as slow
and sleepy, that it has failed to make
the most of its splendid opportunities?

Without doubt the withdrawal of the
British garrison and warships will be
a financial loss to Halifax, for a time
at least. The imperial government has
spent every year a great amount of
money there. But if that with-
drawal frees Halifax from these false
and foolish ideas which seem to possess
many of its people, if those people are
awakened to the fact that in this cen-
tury and country it's what a man does
that counts, not what he doesn't do
or what his grandfather did, the rain
will so far overbalance the loss that
the city will look back to the day when
the closing influence was removed as
a day to be celebrated.

Will somebody please step up with
an estimate of what this Loch Lomond
extension is going to cost before it is
done. We are in for it now and must
put it through. But the taxpayers
have a right to know now about how
much they must pay in the end instead
of being shocked every week or so by
the announcement of something more
which must be done, involving more
thousands of dollars, before the water
works will be brought up to a proper
standard. Tell us the worst.

When the Norwegian government de-
clared its intention to withdraw from
the Norway-Sweden union King Oscar
said Sweden would consent if the Nor-
wegian people endorsed the action of
their representatives. A referendum
vote was taken which was overwhelm-
ingly in favor of secession. Now it
appears that the voting was so man-
aged that when printed "yes" ballots
abounded in proportion to every tenth
a man who wanted to cast a "nay"
vote had to write his own ballot and
thus vote openly and at considerable
personal risk. The belief that Nor-
way is drifting toward a republican
form of government seems well found-
ed. Tammany itself couldn't have
managed it much better than that.

While war in any form is a painful
and heartrending thing there are, in
some instances, compensations. For in-
stance, the citizens of St. John would
view with comparative equanimity the
realization of the threatened conflict
between the Carleton Electric Company
and the St. John Street Railway Com-
pany.

They are making a great fuss over
the creation of the new western pro-
cess considering that the change from
territorial conditions is only a nominal
one at best. Autonomy they have not
except in unimportant affairs. The ad-
ministration of their public lands is
managed by the Ottawa machine and
the teaching of their children is direct-
ed by Quebec.

The circulation of the Star during
the past three months far exceeds any
previous quarter since its inaugura-
tion. Year by year, month by month,
this paper has increased in circulation
and in advertising patronage. To ob-
tain this increase the management
has not found it necessary to give
away papers or advertising space or
to do anything except to publish as in-
teresting and newsworthy a paper as
possible. Its efforts in this direction will
be continued with increasing energy.

A LITTLE WAY.
A little way to walk with you, my
own—
Only a little way,
Then one of us must weep and walk
alone
Until God's day.

A little way! It is so sweet to live
Together, that I know
Life would not have one withered rose
to give
If one of us should go.

And if these lips should ever learn to
smile,
With thy heart far from mine,
I would be for joy that in a little while
They would be kissed by thine!
—Frank L. Stanton.

**EIGHT LEAGUE BALL PLAYERS
INJURED IN COLLISION.**

KANSAS CITY, Sept. 1.—Eight mem-
bers of the Louisville base ball club of
the American league were injured yester-
day, when a trolley car ran into a
wagonette in which the club was being
driven from the ball park to the hotel.
The most seriously injured was Ed
Kenna, pitcher, whose hurts are: Left
arm fractured, right contraction of the
brain, right hand fractured, nose broken,
knee and eye injured.
Kenna was caught in the fender of the
car. He was sent to a hospital.
Fred C. Clay and Roy Brasher, sec-
ond baseman, will be ten days in hospi-
tal, as they will be unable to play ball
for some time. Both suffered contus-
ions, cuts and bruises.

**TWELVE YEAR OLD INDIAN LAD
ARRESTED FOR MURDER OF GIRL.**

(Special to the Star.)
VICTORIA, B. C., Sept. 1.—Word has
been received from Hallsopola, that
while a ten-year-old girl and a twelve-
year-old Indian boy were playing a
game of tag on the beach, the latter
shot the girl through the body, killing
her instantly. The boy will be tried for
murder before the Indian agent.

CANADIAN BOXER WON.

SAN FRANCISCO, Sept. 1.—With a
full right swing dash to the jaw,
"Tommy" Burns, of Canada, last night
knocked out "Dave" Barry, of San
Francisco, in the twentieth round.
The first fourteen rounds were tame
and the crowd continually called upon
the men to fight. In the fifteen round
Burns caught Barry with a right to
the jaw which sent him down for a
count. He arose groggy, but managed
to last out the round.
In the last round Burns landed sev-
eral hard right swings, finally knock-
ing Barry out. The men were weigh-
ed in at 168 pounds.

YOU NEED THE OTHER.
Ozone is a germ killer and a valua-
ble remedy, but to get the best re-
sults from it you must have a con-
tinuous supply of it. "Solution of
Ozone" (the coupon kind) is the purest
and best form in which Ozone is sold.
Every bottle of this remedy contains
a coupon which entitles you to a pack-
age of "Celery Kings," the well known
remedy, free.

In buying this solution you get about
twelve as much Ozone for your money
as by buying other brands, in addition
to getting a package of "Celery Kings"
for nothing. You thus save money in
two ways, besides getting Ozone in its
purest and most concentrated form.
Ask your druggist for "Solution of
Ozone" (the coupon kind), and if he
does not keep it you can get it from
the Public Drug Company, Bridge-
port, Ont., by writing for it.

MRS. TAGGART AGAIN.
WOOSTER, Ohio, Sept. 1.—In her
testimony in her husband's suit for
divorce Mrs. Grace Taggart said
yesterday that she was not a devout
church worker. At Fort Thomas she
attended church occasionally. Though
she did not consider the services a
bore, she never went to services during
her stay in the Philippines—the weath-
er was too warm. At the fort every-
body did as he pleased with regard
to Sunday worship. In the Philippines
everybody did likewise.

Under cross-examination she continu-
ed to deny all allegations of indiscre-
tion on her part.

James Lowell, M. D., has recently
purchased the Jewett farm at South
Bay, together with the mill site on the
property. It is rumored that Mr. Low-
ell and other prominent lumbermen
have some intention of erecting a saw
mill on the site of the old Sutton mill
there, destroyed some years ago by fire.

When about a year ago Rev. David
Long, pastor of Victoria street Baptist
church, was urged to reconsider his
decision to remove to the west, it was
understood that he might not remain
here longer than throughout the pres-
ent autumn. However, it is not prob-
able that he will go west this fall.

Hair Vigor. Losing your
hair? And doing nothing to stop
it? Don't you know that Ayer's
Hair Vigor promptly checks fall-
ing hair? It certainly does. And
it restores color, also.

LOCAL NEWS.

At the last meeting of the St. John
District, O. D. I. it was decided to hold
a church service on Sunday afternoon,
September 17th, in the Exmouth street
evening church. Services will com-
mence at three o'clock, when Rev. C.
W. Hamilton, the pastor of the church,
has kindly consented to preach a spe-
cial sermon to the Orange order in this
vicinity.

Mr. MacGregor, marine superintendent
for the D. A. R., was in the city yester-
day on an official visit of inspection.
The principal matter considered was
travel by the D. A. R. steamers from
the United States to the maritime pro-
vinces was fully as good this season
as last. A very fine class of tourists
have been brought from New York on
the Prince Arthur, which makes week-
ly trips.

Dr. Montisambert, director general
of public health, arrived in the city
yesterday on his regular tour of in-
spection. He has already visited on
this trip, Halifax, Sydney, Louisbourg
and Charlottetown. After leaving St.
John he will proceed to Tracadie, Chat-
ham, Rimouski, and Grosse Ile. At
the various stations where he has al-
ready visited Dr. Montisambert said
he had found everything in a satisfac-
tory condition.

The street railway magnates had
another session yesterday morning, at
which the principal matter considered
was a paper read by J. M. Smith, con-
troller of the Toronto Street Railway.
The subject dealt with in the paper
was the advisability of adopting a
uniform system of accounting, so that
accurate comparisons could be made
between the various companies. Other
matters of general interest were talked
over. The next meeting of the asso-
ciation will be held at London, Ont.

In the afternoon the visitors were
taken over to Seaside Park by repre-
sentatives of the St. John Railway Co.,
and the majority of them left in the
evening for their homes, having had a
pleasant and profitable sojourn in the
city.

No successor to Ira B. Myers, the
last American consul in this city, has
yet been appointed. Mr. Myers is in
Boston at present, having his eyes
treated, and intends leaving early next
month with Mrs. Myers for California,
where he will in future reside. Mr.
Jewett, vice-consul, who is now in
charge, says he has received no noti-
fication of any steps in regard to the
appointment.

A well-dressed and well-mannered
young man from Amherst has been here
for the last few days on a search for
his mother, whom he feared had run
away with some other man. He has sev-
eral sisters and brothers, he said, and
his father is broken hearted. Yester-
day she was located at Digby and the
name of the man given. The father
and son will probably go together to
that place.

John P. Linkletter, arrested on the
charge of arson, was tried by Judge
Ford yesterday on the specific trial act. He
pleaded guilty to the charge and was
sentenced to two years in the reform-
atory. C. H. Fenton appeared for the
prosecution and D. Mullin, K. C., for
the defendant.

The factory inspector will be chosen
at the regular meeting of the board
to be held on Tuesday evening next
in Fredericton. Eight applications
for the position have been received.

From a Medical Standpoint
Golden Eagle Flour possesses quali-
ties that demand earnest consideration.
Indigestion and kindred disorders of
the digestive organs are largely the
result of using the white flours of to-
day, from all of which the germ is ex-
cluded.

The regulative action of Golden Eagle
on the system, and the ease with which
it is digested, should induce you to
avail yourself of the benefit which you
and your family would derive from its
use.
It is meant to be eaten at every meal
in the day and on every day in the
year, so that its curative effects are
continuously with you.

All notices of Births, Marriages and
Deaths must be endorsed on the

W. TREMAINE CARD
An express parcel which attracted
considerable attention in the Ameri-
can Express Co.'s office yesterday was
a hard hat, somewhat the worse for
travel, literally covered with express
tags. It has been on a month's jour-
ney, and has visited many of the best
cities in the States and in Canada,
and is now sojourning in this city after
a trip which began from Daquet's, Cal-
ifornia, and is likely to continue for
another month.

Halle, Levin, and Reynolds, Halifax, 250 each; Thos. Ames, Amherst, and Wm. Gillen, St. John, \$500 each. It was decided to arrange in regard to the appointment of district doctors in Sydney and Fredericton, and also a change of boundary and sub-medical districts between Chaudiere and St. Roale. Considerable discussion took place in regard to contracts entered into with the district doctors' association, and the matter of special and hospital treatment was fully discussed. The committee decided to recommend to the president that for the present the association will not be responsible for hospital treatment except in cases of accident. The following members, whose membership had lapsed, were reinstated: Josiah Langille, Truro; L. O. Hanley, Stellarton; Jos. Myers, Halifax; O. Langelle, River du Loup; Jas. Fraser, Stellarton; John McFadden, Shediac. A number of proposed amendments to the constitution were approved and will be submitted at the annual meeting. The report of the division committee was also received. In the absence of President Pottinger, J. J. Wallace, vice-president, occupied the chair.

ARE YOU TIRED OF PAYING BLUNDER TAXES?

Many a business man pays as much money for the luxury of advertising as a steam yacht or private touring car would cost.

"Blunder Taxes" cannot be evaded—whatever else waits, these must be paid. If a business man gets into the habit of making the same blunders more than once, the taxes will soon amount to confiscation.

"Blunder Taxes" are levied with amazing frequency upon store advertisers. Among the blunders which are assessed "all value" in advertising are these:

Selection of poor mediums;

Using too little space in good mediums;

Devoting less attention to preparing the daily store-advertisement than to the storing of some empty boxes in the basement;

Stopping the ad. altogether for one or more days now and then;

Figuring the advertising appropriation on the basis of what you can "afford" after all other expenses are provided for.

Use of "programmes," schemes, circulars, posters, fence-signs, placards and jimcracks, under the impression that you are securing real publicity, and that somehow, somewhere, someone will be influenced by some of these things to come to your store and buy something.

YOUR "BLUNDER-TAX" BILL GROWS SMALLER AND SMALLER AS YOUR USE OF "ST. JOHN STAR" PUBLICITY GROWS BIGGER AND BIGGER.

A GREAT CONCERN.

The Vitagraph Company of America, one of whose companies appears at the Opera House for our solid week, commencing Monday, Sept. 4, will inaugurate on Monday, Wednesday and Saturday, the largest moving picture concern in the world. They have their own private photographic plant, and all their pictures are taken in their own gallery and by their photographers.

The Vitagraph pictures are not sold until they are old subjects; consequently, in attending the Vitagraph concert you are assured of seeing all new and novel subjects. The Vitagraph is at once the most elaborate and perfect machine in existence—after lengthy and costly experiments the Vitagraph Company has succeeded in eliminating all the flicker and vibration so annoying in the common machines. Their statement is borne out by the fact that the Vitagraph is the machine used by all the prominent theatres throughout the country and abroad. In sending their companies on the road, the Vitagraph Company feel assured that a fine exhibition will be appreciated by the public and will be patronized in preference to the many abominable "flicker-scopes," which hurt the eyes and feelings of the people at the same time.

WOMEN

THE IDEAL SLIMMER CORSET

BY MISS MANHATTAN.

NEW YORK, June 11.

Lines that have been tabooed by women for three or four years are again making themselves conspicuous in fashionable feminine figures. Straight fronts are a little less straight, waists assume a decided French curve, and the low bust is no longer low, but has raised itself so that the effect is almost of the old-fashioned figure. This change in the feminine outline is due, so it is said, to the innate fondness of women for trim, slender waists, and even the average woman had to increase the size of her waist measure considerably when she wore one of the modern corsets.

able to lace themselves in as they did several years ago. She went so far as to state that it would be quite impossible for women to ever get their waists back to their former size, no matter how hard they struggled with the laces. Flat, bony and muscular would have fortified themselves during their days of freedom, and slender waists would be a thing of the past. In some cases this may be true, but there are a good many slender women who are willing to make the effort, some having already done so, to get back the tiny waist of which they were so proud once upon a time. The higher bust is a result of the return of the small-waisted corset, and is partly due to the introduction of 180 styles. Full skirts are ridiculous with

posterior-plump figures. There must be a decided curve in at the waist in order to give the proper effect, and when bodies are gathered and shirred over long, drooping shoulders, and then brought in snugly to the figure below the bust, they must fit over a corset that is modeled on different lines from that of the popular straight front. Many of the newest gowns are supplied with very wide bows, which look extremely bad and bulky if they are fitted so that they are perpendicular in the front and very nearly so at the sides. So the slender woman decided to go back to the lines that were fashionable a few years ago, but not to attempt the squeezing that was never pretty or attractive.

The Exaggerated Straight Front and Low Bust

THE IDEAL SLIMMER CORSET

WE ARE COMING BACK TO THEM

A CORVE AT THE WAIST IS DEMANDED BY FASHION

that increase can be taken away and the waist will look even smaller than it did before her shoulders broadened.

There is very little to be said against the revised style so long as the lungs and abdomen are not compressed, too, for the figure can be pulled in just at the waist line without producing any serious effects. It was utterly impossible to lace under the straight front laces. No matter how eagerly and assiduously a woman worked to decrease the size of her waist with a straight front corset she was never successful. In the first place the corsets were cut large at that point, and then the moment the laces were brought together an attempt to lessen the waist measure the corset began to ride up in an extremely uncomfortable fashion. When kept in its proper place the laces could be pulled in just so much, but not a

fraction of an inch more. The waist had to be left as the corset designer intended it to be, and this did not altogether suit some women.

Periodically we expect to have changes in the clothing of the fair sex, as well as in their general outline, and as the straight front, with its large waist and low bust, has had a long and successful reign, it is only an anticipated condition that something newer will be brought forward to take the place of the old and tried. This much can be said in favor of the small-waisted corset: it gives a trimmer appearance to the slender figure than that of the stout woman, yet, but they probably make a great effort to cinch themselves into smaller corsets, and then we must look for the reappearance of large abdomens and protruding busts.

Some corsetiers affirmed that it would be utterly impossible to accomplish a smaller circumference and not ruin the figure, which had cost them and madam so much trouble to secure, and besides they disliked the thoughts of altering the feminine form divine when clad in all its apparel. One and all demurred at the idea of giving even a slight curve to the waist, but when fashionable women first suggested, then stoutly insisted, there was nothing left for the corsetiere to do but acquiesce and make the best of what she considered a bad situation. They deplored, most of all, the lacing of the bust, for they conceived immediately the hard feeling it would create among stout women, and as most of their customers are of that build it meant increased trouble for them. The thin woman finally won out in the waist of her corset she has achieved a very marked one, at the same time gradually raising the front of her corset until the one that is favored by her kind now is light in front, much like the old-fashioned affairs that were long ago discarded. As a matter of fact there is a world of difference between the old corsets and the new when they are carefully examined, for the modern woman has been so well educated mentally and physically that she would not spoil the good work accomplished by years of girth and athletic exercises for a good deal.

There is one great advantage in the attempt to decrease the size of the waist which makes the task easier than would seem possible at first. All the corset makers who have had the devoted themselves of the fashion have tended to crowd their waists and diaphragms, and have had a comparatively small waist looks greatly increased above. With narrow shoulders and high bust by no means easy to pull the waist in till it looked slender. A woman who two or three years ago wore a 23 inch belt gradually let it to 25 or 26, then her shoulders and chest were increasing in the same proportion. Now that fashion demands a little less mid-circumference, a part of

those of the Aleutian Islands off the coast of Alaska. Both of these styles are growing very rare and in a few years it is thought there will be very few to be had at any price. It would be difficult to find two weaves of baskets more widely different than those of the Kikkitats and Aleutians. The former are a sturdy weave, perfectly water tight, and on account of their firmness are much in demand for waste paper baskets. On a light ground there is usually some design arranged in diagonal lines or perhaps there will be a series of arrows with the tips pointing upward and the rows converging at the top. Stripes and decorations are done in dark brown grass. The sides of these baskets grow wider as they near the top and in the later ones a fancy binding of heavy grass loops adds much to their decorative charm. Old Kikkitat baskets were straight around the upper edge and from use as well as age these have assumed a rich brown tint that is wonderfully attractive to one who knows something about Indian baskets. A great many Eastern people are picking up baskets of various weaves to decorate their dens and studios with next winter. It is far more interesting and satisfactory to secure them directly from the Indians themselves when it is possible and those who have the good fortune that have been used a good deal of course the layers of dirt and grime found in these have to be cleaned off and for this purpose collectors recommend a good bath and scrubbing with naphthalene soap with soap and water, and when the basket has dried it is given a rubbing with boiled oil.

Aleutian baskets are made of a wonderfully fine grass that is as delicate in look. For this reason this variety of basket is never secured for its ornamental purposes. The foundation color is a deep yellow and there is generally a wide border of irregular design around the sides done in bright colors such as red, blue and white. The sides of the baskets are made of vegetable dyes. The baskets look lacy and delicate, quite the opposite of the firmly woven Kikkitat, but if one has the chance to get a specimen of each it would be a wise acquisition.

As aids to those who desire to copy these baskets, books of directions are published. Club beginners follow these rules, usually at first until they get the knack of weaving and shaping and then they branch out with patterns of their own. Apache plaques and war baskets are stunning for den and studio decoration, and as these are scarce, too, it is considered a great piece of luck to run across one that has been woven and used by the Indians.

For summer houses nothing more decorative and useful could be found than a lot of these Indian baskets. Flowers look beautiful in them and these can be hung on the walls, set on the piazzas or tables and add much to the low they are treated with care. A good shape and color of the pillows and mats made of grasses and woven by the natives over there are much sought after. These are not very expensive and are so comfortable and come in different sizes and colors that they are used for many purposes. They are used for sitting on, for covering the floor, for covering the walls, and for covering the roof of garden or summer house. They are also used for what a stunning roof garden or summer house. Among the commoner baskets that collectors are seeking are those made by the Kikkitat tribe of the coast and

Indian Basket Notes.

Rafia weaving is keeping the fingers of many of our smartest women busy just now and the works of art that are turned out by some of these adepts at plaiting puzzle even the experts on such matters. In the Western States clubs have been formed for the sole purpose of learning the various weaves of grass for which different Indian tribes are noted and side by side with the genuine rectangles woven by like dark fingers will be duplicated done by young women who reproduce every detail of pattern and shape.

For the summer months basket clubs are far more popular with certain circles than bridge and euchre gatherings, and instead of studying the best plays to make with cards those who do not care to do the actual weaving but like to learn something about Indian basket language spend the time reading up on it. These young women know the exact value of a Kikkitat or a Fraser River basket the instant they set eyes on one, and the bargains that are pulled off between these learned persons and some of their handiwork—for a few are still ignorant of the fictitious value put upon their handiwork—would make a basket collector envious. It must be said, however, that there are very few Indians left who are not eager to ask double what they should for their baskets. So great is the demand for these baskets by Eastern travelers, who are willing to pay almost any price for a fine specimen that the inhabitants of the Indian basket regions are beginning to interfere.

Rafia Hats.

This season's raffia hats are being woven in a newer and prettier style than they were last year. The grass is knotted in an open fancy pattern, and afterwards slipped into turbans or broad-brimmed plaques. Field flowers, such as daisies, bachelor buttons, ragwort, asters and poppies, are very effective for trimmings on raffia hats. The bright shades are so well set off by the deep yellow of the raffia that the hats are very attractive. These are woven over books for small occasions, and look very smart and charming for parties. It is a curious fact that a great many of these old hats originate in the West, and eventually make their way to the cities of the East. Raffia hats, bend hats, Nantuckit purses and lots of other quaint notions first gained popularity on the Pacific Coast.

At 12c—Something new and pretty, in a good variety of colors. These Flannelettes at this price are the regular 12c. qualities.

At 15c—In blues, browns, grays, pink, red, black and white, and green. The patterns are out of the ordinary and such as are only found in the more expensive Flannelettes.

FLANNELETTE WAISTS—At 50c—A pretty and serviceable waist at this price. Made from good quality of Flannelette, in red and white, blue and white and black and white.

At 75c—These are without doubt the best value we have ever shown in Flannelette Waists. The colors, patterns and materials are all of the best quality. Made in newest styles, prettily tucked. All sizes from 22 to 42.

POLICE COURT.

Colored Society Involved in Assault Case—Magistrate Doesn't Know How Many Drinks Make a Drunk.

The man arrested by Officer Collins at noon yesterday because he attempted to go to Halifax without a ticket, appeared before the magistrate this morning and said that his name was Vance. He was released on promising to get his value at once and leave the town via the Marsh Road. The magistrate said there was plenty of work to be found in the country.

Fred Secord, arrested last night on Sheffield street by Policemen Rose and Scott, and charged with using abusive and threatening language to Policemen Ross, and also with being a habitual frequenter of houses of ill-fame, pleaded guilty to the first charge, and was sentenced to 20 or two months. Asking whether he was drunk at the time, he seemed very doubtful, and turning on the magistrate, inquired, "How many drinks does it take to get drunk, your honor?"

The magistrate, however, pleaded ignorance, and said he was not authorized on this question, but remarked that he had no doubt there were some present in court who were authorities on the subject.

Harry Close, or Harry Gloss as he was generally called, was also brought before the magistrate this morning, being given in charge by Vera Hoyt for assaulting and beating her in her mother's house. All the parties in this case are of a dusky hue and seemed to be frightened immensely.

The first witness was Miss Vera Hoyt, who said she wasn't speaking to Mr. Gloss, but that he had come up to her and addressed her, and that she had answered, "Go way, Harry Gloss. I don't want to have anything to do with you," and that a little later he hit her in the mouth twice.

Gloss, called, said that she hit him first. Mrs. Annie Burns, on the stand, said that the prisoner hit her also and knocked her hair down. Mr. Gloss arose from the bench to deny the charge, but was advised to keep quiet.

As the witness was leaving the stand Gloss spoke to her, and turning to the judge she called out, "He is calling me a big idiot, your honor." The prisoner was fined 20 or two months.

Another drunk pleaded that he was working on the water works, "if you had been working on water," said the magistrate, "you would not have got drunk."

Whitman Lunnergan, charged with assaulting Constable French in the performance of his duty at the prisoner's residence, St. James street, Carleton, was told that he was liable to 20 or two months in jail, but was let off with 20 or two months. The prisoner, on the stand, said that he did not assault French, but only put his hand on his shoulder and told him to get off the premises. He pleaded that he was not in a position to pay his taxes, as he has had a good deal of trouble and his children have been sick with the diphtheria.

NEW STEAMER FOR BAY. \$5.00. New Boat Building at Shelburne to Run This Fall Between Bear River and St. John.

Early this fall there is likely to be another new small steamer running to Bay of Fundy ports. It would seem to be one of the tendencies in the shipping business at the present time that small steamers of the same description as the Beaver, the Westport and the Centreville, should gradually replace sailing vessels in the coast trade.

The last addition to the fleet is being built at Shelburne, N. S., and will be launched next week and towed to Yarmouth and put on shortly on the route between this city and Bear River. Clementsport and other Annapolis Basin ports. The owners of the new vessel are Messrs. Clarke of Bear River.

Agents for the new boat were in the city yesterday, and made arrangements for looking after this end of the business. Her berth will be at the head of South Market wharf. The schooner at present on this route is the Citizen, Capt. Woodworth.

FORMER ST. JOHN WOMAN DEAD. Sad news of the death of Mrs. John Higginbottom reached town this morning from her mother's residence, Upper Sheffield, N. B., where she had been visiting.

Mrs. Higginbottom was the eldest daughter of the late Albert Venning of St. John, and is survived by her husband, who at present is on a business trip to B. I., and two sons and one daughter, who reside at London, Ont. Death came suddenly from apoplexy.

Mr. Higginbottom is the travelling auditor of the Grand Trunk railway.

ANOTHER RECORD! The average daily circulation of the STAR during the three months ending August 31, was 6,229, exceeding all records for similar periods in the papers history. A daily average of 4,042 papers were sold on the streets by newsboys. This does not include the papers sold by agents or delivered to regular subscribers.

Miss J. MacLaughlin has returned from her trip to New York and Philadelphia.

Defects in Children's Eyes

Should be suspected when there is an aversion to study. The normal child delights in school work, but when handicapped by poor vision soon loses interest in work which he does not fully understand.

A little attention now may save your child the reputation of being dull and backward, and may make his school-work a pleasure.
