IRISH NATIONALISTS ARRIVE IN BOSTON

Delegates From the Big Convention Warmly Welcomed.

They Tell Why 'Birrell's Bill' Was Killed—Lord Lieutenant Would Have Been the Whole Show

BOSTON, Mass., June 14.—Thomas B. Fitzpatrick, John O'Donoghue and Dr. J. J. Timmins, delegates of the United Irish League to the Dublin National Convention which considered and killed the Birrell Irish Council bill, returned from Ireland today on the Cymric. The returning delegates were met by a large number of representative Irish-Americans, who went down the harbor on a tug to welcome them. When the steamer docked hundreds of others cheered the trio as they disembarked.

Mr. Fitzpatrick, who spoke for the delegates, stated that the Birrell bill had been killed for two principal reasons: The power given the Lord Lieutenant was too arbitrary and the veto power too great, while his power of appointment having the naming of 24 out of 106 delegates to the council with the chairman of every committee, gave him practically absolute power to make the proposed council anti-National.

MIMIC NAVAL WAR IS NOW IN FULL SWING

Two of the Enemy's Boats Attempted to Land But Were Met and Captured.

NEW YORK, June 14.—Although favored by the sheltering blanket of fog which made off-shore observation exceedingly difficult, the "enemy" today failed in its first attempt to put a landing party ashore in New York. Two of the enemy's boats were picked up by the lookout at Fort Wadsworth and the alarm was sent down the landing force. When the boats attempted to put their men ashore they were met by an overwhelming force from the seventh regiment and after a short, sharp struggle were taken prisoners.

The ill-fated attack was all a part of the war game which has been in progress for several days and will continue until early tomorrow. Up to the present time the defense force seems to have proven that the city is safe from attack either by land or water.

A naval force which sought to "capture" the city's defenses last night met a fate similar to that of today's landing party.

BANNERMAN'S RESOLUTION TO SUBDUDE THE LORDS

LONDON, June 14.—The following is the text of the resolution on the subject of the House of Lords which Campbell-Bannerman will move in the House of Commons, June 21:

"That in order to give effect to the will of the people as expressed by their elected representatives it is necessary that the power of the other house to alter or reject bills passed by this house should be so restricted by law as to secure that within the limits of a single parliament the final decision of the House of Commons shall prevail."

FIRE DOES DAMAGE OF \$250,000 IN ALTOONA

ALTOONA, Pa., June 15.—Fire discovered in the Eleventh Avenue Opera House at midnight did over \$250,000 damage before the fire department had the flames under control at 2 o'clock this morning. The basement and first and second floors of the Opera House building were occupied by the Imperial Dry Goods Co., the leading department concern in this section of the state. The upper part of the building was used for theatre purposes until a few weeks ago.

A SLIGHT MISTAKE.

Chitto Harjo was pleading in Washington for the Indian's right to roam in nomad fashion like their fathers. "They tell us to trust to fortune," Chitto Harjo said, "and then we'll get our rights. But we are tired of trusting to fortune. Fortune has used us Indians as it used the pale face instructors at the Indian school in 1887."

Chitto Harjo smiled and went on: "This instructor found a horse shoe and got good fortune, but it under her pillow along with her false teeth. In the morning in the hurry of dressing, she substituted the shoe for the teeth and did not discover her mistake till her fiancé husband asked her in tones of horror at breakfast what was the matter with her mouth."

NOT SERIOUS ENOUGH FOR DIPLOMATIC ACTION.

TOKYO, June 15.—It has been learned that Foreign Minister Hayashi, at a conference on the American question held yesterday by the Elder Statesmen and Ministers, announced that the last incident reported in connection with the attacks upon Japanese residents in California, was not grave enough to warrant diplomatic action. The views of both governments are fully in accord and the trust is expressed that the Federal government at Washington will furnish a speedy solution of the question at issue.

THE FUNERAL OF THE LATE FRANCIS D. HUNTER TAKES PLACE FROM THE DEPOT AT 1:45 O'CLOCK THIS AFTERNOON.

Rev. Mr. Camp officiates and interment will be in Fernhill.

CHINESE MINERS TO BE SENT HOME

Botha Announces That Natives Will Replace Them.

British Mining Magnates However Fear That It Will Be Difficult to Secure Enough Kafirs.

PRETORIA, Transvaal, June 15.—Premier Botha announced in Parliament yesterday that the government intended to send home all the Chinese miners whose contracts expired. Sixteen thousand will go this year. In their places the government proposes to secure native workmen.

LONDON, June 15.—The mining magnates here believe that the withdrawal of Chinese labor from the Transvaal will prove disastrous to business. They say it is impossible to find enough Kafirs willing to work to replace the coolies.

SAYS BOTHA HAD DEAL WITH BRITISH CABINET

LONDON, June 15.—Under the title, "A Gigantic Scandal," the National Review this month contains an amazing explanation of the evident friendship between General Botha and the members of the home government.

The National Review declares that a bargain was made between General Botha and the government, by which he agreed to repatriate the Chinese coolies now in South Africa in return for a promise that the government would guarantee a Transvaal loan of £5,000,000. The following are extracts from the article:

"On his arrival in England, General Botha was approached by the Colonial Office and asked whether he would not, in return for Symplicitant and past favors, pledge himself to the repatriation of the Chinese coolies as their indentures expired. He replied he could not make any undertaking of the kind.

"When this answer filtered out and became known to the Liberal rank and file, a large number of members of Parliament, supporters of the ministry, expressed their indignation, stating that they would vote against the government if the license of the Chinese coolies were signed by the ministers, finding themselves in a tight place, not being willing to face their own deluded and angry supporters, being unable to coerce General Botha, had a happy thought.

"The Transvaal was talking of raising a loan of five millions, the government to save him 1 per cent, equal to £500,000 a year, on condition that the £500,000 Chinese whose licenses expire this summer should be sent back to China. This is the shady bargain which under pressure of a party revolt has just been concluded, and in which the good name of Great Britain is disastrously involved.

"Every one who read the announcement of the guarantee loan rubbed his eyes at the statement of imperial help, our wealthiest and least indebted South African colony, and until the true story became known, the whole transaction was a mystery."

GIRL LIES ASLEEP FOR TWELVE MONTHS

PARIS, June 15.—Marie Dubin, a 16-year-old girl, has been in a state of coma since June 1 of last year in the village of Recouves in the Aveyron Department.

She lies in her bed, apparently asleep with a smile on her face. Her breathing is hardly perceptible, but her pulse makes fifty-five beats to the minute. Early last spring she was affected with gastric troubles and ceased to take food. A few days later she fell asleep and has not opened her eyes since.

Several doctors are studying the case.

GROKER IS NOT SICK.

DUBLIN, June 15.—Richard Croker was not accessible last night, but the physician who has been in attendance upon him says there is no foundation for the rumor of his illness and inquiries made in other directions tend to confirm the statement of this doctor.

SHOPPING.

Shopping is a form of cruelty indulged in by married ladies toward their husbands. It is inapt in young girls, reaches an active condition in brides and arrives at its most virulent stage before the tenth and the twenty-fifth year of married life. A small, delicate, slight, nervous, sensitive woman who would faint away at an empty mouse trap will go through the shopping district in from two to seven hours and come out refreshed and satisfied with a full stomach. If her husband's credit is good, while that gentleman at the end of forty-five minutes has to be carried home on a stretcher, some women are born shoppers, others achieve it, but not one of them has a threat upon her. Shopping is extensively practiced on week days, beginning on Monday with a rush and ending on Saturday in time for the opera. It promotes industry. Without it married men would have time to rest.—Delinquent.

FRENCH ECONOMY.

France in her system of finance and in her whole system of economy affords an example to be followed by all nations. The government conducts a vast banking institution, whereby every possessor has his savings bank deposited—its "caisse d'epargne." Here any one may make a deposit as low as 1 franc (20 cents) which deposit is recorded in one's "livret de la caisse d'epargne" (savings bank book). A convenient feature of this system tending to make saving easy is that one may make his deposits in any post-office anywhere in France and may withdraw any part or all his savings at any postoffice, without regard to where the deposits have been made. I have never had a servant in France who did not have a "livret de la caisse d'epargne," and yet the girl or woman, if she had no family of her own to support, almost invariably contributed to the support of her father's family. I have had one middle aged "femme de chambre" or whose face each day I could read pretty well how the bourse was going.—Flora McDonald Thompson in Harper's Bazaar.

A MILLION LIVES SAVED BY CHARITY

Is the Report From the Chinese Relief Stations.

Supplies Forwarded to the Famined Districts Were Badly Needed—The Relief Work a Trying Ordeal

NEW YORK, June 15.—A cablegram from Chinkiang dated June 13, received by the Christian Herald from its representative who accompanied the relief steamship United States army transport Buford to China and superintended the distribution of the cargo, says:

"All Buford cargo now dispatched by vans inland, and by junk up canal. Fleet of fifty-four junk fully loaded. Missionaries almost exhausted, canal trip shows that reports of famine were not exaggerated. Relief afforded by all sources has saved one million lives."

STRANGE COINCIDENCE IN ROYAL BABY'S BIRTH

May Now Enter Cambridge and Oxford With Consent of the Holy See

MADRID, June 15.—One of the most extraordinary coincidences—or, rather, series of coincidences—that has happened of late years, is reported from the Spanish town of Estella. Here on the 19th of May and at 11 o'clock (the same day and hour as the birth of the Prince of Asturias), a woman named Victoria gave birth to a male child, who was inscribed in the civil register by one Don Alfonso Ugarte on the same day and at the same hour as the heir to the Spanish throne.

The child was christened on May 18 (also the same day) as the christening of the baby prince, and the sponsors were a man and woman of the neighborhood named respectively Don Pio (Pio) Fernandez and Donna Cristina Lauren. It will be remembered that the sponsors to the Prince of Asturias were Queen Maria Cristina and Monsignor Corroborate Orchard. This is especially true it is said of telegrams containing money and other documents mentioned by Orchard in reply to Mr. Richardson's questions, and for several days counsel for the state and the detectives have been at work on this feature of the case. It is understood that court will adjourn after one session today until Monday afternoon.

CROWDED PASSENGER STEAMER STRUCK A ROCK

HOLYHEAD, Wales, June 15.—The Irish Express Steamer Anglia, with more than 500 passengers on board, struck a submerged rock in the thick fog this morning. The passengers were greatly alarmed, but the officers maintained order, distributed the life belts and prepared the boats for lowering. After half an hour the captain of the Anglia succeeded in getting her off under her own steam, and landed the passengers. The bows of the Anglia were stove in above and below the waterline, but her watertight compartments saved her.

MINISTER CHARGED WITH COUNTERFEITING

But He Says He Only Wanted to Make Medals for the Sunday School Scholars

SPRINGFIELD, Ill., June 15.—A federal grand jury last night returned an indictment against the Rev. James R. K. Kaye, formerly pastor of the First Presbyterian church of Lincoln, Ill., and now editor of the Herald published at Oak Park, a suburb of Chicago, where he now lives charging him with making counterfeit money. Medals for the manufacture of counterfeit dimes, quarters and half dollars were found in the basement of the hall which Mr. Kaye occupied, while pastor of the First Presbyterian church of Lincoln. When arrested he confessed to making the medals but explained that he was only experimenting with them to see if he could manufacture medals to be presented to the children of the Sunday school, as rewards for getting new pupils.

FURNISHED ROOMS TO LET AT 20 HORSEFIELD STREET.

PROVING HAYWOOD PAID THE MURDERERS

Evidence in Support of Orchard Is Coming Today.

Steve Adams Under Arrest—He Had Got Money From Haywood—Other Developments

BONSE, Idaho, June 15.—The prosecution in the case of William D. Haywood, charged with the murder of Frank Stenenberg, is stretching through the multitude of incidents in the story told by Harry Orchard in relation to an alleged conspiracy that involved the slaughter of more than a score of men and culminated in the assassination of a former governor of Idaho, who had in the latter years of his life opposed the methods of the Western Federation of Miners. Orchard's confession laid the foundations. The chapters run through three or four states, but in California, Colorado and Idaho the chief interest lies. The California incident and incidents in the story mean murder begun with bombs.

The Orchard story of the Vindicator Mine has been verified by men working in the mine at the time. For the first time the connection of Haywood with the cases of murder alleged by Orchard was testified to by other witnesses yesterday, when the arrest of Steve Adams at Ogden was confirmed. The evidence was that Adams telegraphed to Haywood for money, Orchard had said that prior to his going to California he had sent Steve to San Francisco to kill Bradley, but that Steve had got into some trouble at Ogden and he told him that Haywood had sent him money by telegraph. The first witness on the stand today is the cashier of the First National Bank of Denver.

Haywood did some of his banking business there, and is well known to the officers of the bank and this documentary evidence is believed to be some of the most important that the state has to offer.

The Postal and the Western Union Telegraph Companies have been ordered to produce their records and it is believed that as a result of the evidence brought out in the cross examination some of the telegrams that passed between Haywood or Pettibone and Orchard or Adams will be produced.

The state claims to have been taken by surprise by the results of the cross examination, and say that the testimony brought out by Mr. Richardson has afforded a remarkable opportunity to corroborate Orchard. This is especially true it is said of telegrams containing money and other documents mentioned by Orchard in reply to Mr. Richardson's questions, and for several days counsel for the state and the detectives have been at work on this feature of the case. It is understood that court will adjourn after one session today until Monday afternoon.

TOLDED TO GO HOME AND BEAT THE STAR BOARDER

Man Charged With Deserting His Wife Gets Sound Advice from the Judge

NEW YORK, June 15.—The World says: Because of the advice given yesterday by Magistrate Conroy to his husband, to go home, take the star boarder out in a lot and thrash him," Long Island City is holding its ear to the ground. The man was hauled to court by his wife, charged with abandonment and ill-treatment. He told a story about a star boarder and when Magistrate Conroy suggested a thrashing, he said: "I can't, he's bigger than I am."

"Take a club and then come back and let me know how you make out." The man left the court with fire in his eyes.

NORWICH DECIDES AGAINST FRANCHISE FOR WOMEN.

CHRISTINI, June 14.—The Norwegian Parliament today rejected by 72 to 47 votes the bill providing suffrage for women, but adopted by a vote of 98 to 25 a bill granting the franchise on the same condition as in the case of municipal elections, namely, that women themselves, or their husbands, in order to be entitled to vote, must have paid taxes for a year.

THE FUNERAL OF THE LATE MISS SARAH STANLEY TAKES PLACE AT 3:30 THIS AFTERNOON FROM HER LATE HOME ON ALBERT STREET.

The Salvation Army conduct the funeral service and interment is in Cedar Hill.

The lists of English authors and their works give the titles of over 800 poems and essays on "Solitude."

TOURING AUTO TO BE SOLD AT AUCTION

Its Career Here Has Not Been Very Profitable.

Was Purchased to Take Parties Around the City But Met With a Series of Accidents

The large touring automobile which was purchased by several hotel proprietors last year is to be sold at public auction today. The hotel men feeling the demand for a vehicle in which tourists could be taken to the principal points of interest in and about the city, purchased the car from Percy Chestnut, who then carried on an automobile agency here. A chauffeur and conductor were engaged and the car started at the new business. The tourist travel was then heavy and the car did a good trade. Fifty cents was the charge, and the shareholders expected that the investment would be a good one. In two or three days, however, the car did not seem to be in good condition and it was taken to a garage where it received a thorough overhauling, but accidents would happen and at last the car was taken off the route for good. The car is now being auctioned and it is probable that it will be sold at figures considerably below that paid by the hotel men.

Among those who hold shares in the car were Messrs. Raymond & Doherty, Royal Hotel; D. W. McCormick, Victoria Hotel; Charles Campbell, Dufferin Hotel; W. Allan Black, Clifton House and A. O. Skinner.

The tourists must be content to see the sights of St. John this year on the backroads drawn by horses.

TROLLEY CAR RAN INTO AN AUTOMOBILE.

One Woman Fatally Injured and Several Other Persons Slightly Hurt.

TAUNTON, Mass., June 14.—A trolley car of the East Taunton Street Railway Company struck an automobile at the corner of Summer street tonight, throwing out all the occupants of the automobile, one of whom, Mrs. Nana Strange was probably injured fatally. The other persons in the automobile Noah Strange, who was guiding the machine, his daughter, Mrs. Andrew Cooper, of Providence, R. I., and his granddaughter, Miss Helen Cook, of Berkeley, escaped with less serious injuries, although all were severely shaken, and Mrs. Cooper suffered an injury to her back and Miss Cook received a scalp wound which required some surgical stitches. Mrs. Strange was removed to the Morgan Hospital, where it was learned that her skull had been fractured, and that she also sustained internal injuries.

The collision was a rear-end one, and occurred just as the automobile after climbing a steep grade, swung in front of the electric car to turn into Summer street.

FOUND THE BODIES OF THE DROWNED SEAMEN

NORFOLK, Va., June 14.—After many hours of weary dragging of the waters of Hampton Roads in a systematic search by the navy for the bodies of the eleven victims of the sinking of the battleship Minnesota's launch on Monday night, a grappling party tonight located the launch and the bodies of the men in eight fathoms of water off the Riprap. All day long the search has been kept up in the vicinity of the course likely to have been taken by the party on its return from Discovery Pier, at the exposition grounds to the warship lying at anchor in the Roads. The news of the discovery was quickly communicated among the officers and men of the fleet.

The mystery of the vessel, if any, which caused the sinking, is still unsolved. During the day there were expressions of sympathy received from representatives of foreign governments who mourned with the American navy the loss of the six midshipmen and the five seamen drowned.

MINISTER CHARGED WITH COUNTERFEITING

But He Says He Only Wanted to Make Medals for the Sunday School Scholars

SPRINGFIELD, Ill., June 15.—A federal grand jury last night returned an indictment against the Rev. James R. K. Kaye, formerly pastor of the First Presbyterian church of Lincoln, Ill., and now editor of the Herald published at Oak Park, a suburb of Chicago, where he now lives charging him with making counterfeit money. Medals for the manufacture of counterfeit dimes, quarters and half dollars were found in the basement of the hall which Mr. Kaye occupied, while pastor of the First Presbyterian church of Lincoln. When arrested he confessed to making the medals but explained that he was only experimenting with them to see if he could manufacture medals to be presented to the children of the Sunday school, as rewards for getting new pupils.

The local barbers have decided to raise the price of haircutting to 25c. after July 1st.
No broken points, no saw edges, burst buttonholes or such on collars laundered by Ungar, Waterloo St., Phone 58.
Preventative being better than cure be wise and avoid the tendency to over-acidity by drinking Nebodega Water, St. Church street.
I. C. R. suburban folders will be on distribution at I. C. R. ticket office, King street, today.
Don't be discouraged if you have been unsuccessful in getting proper glasses. Consult D. Boyaner, the optician. He guarantees satisfaction.
Pineapples, 10c each; bananas, from 10c. per doz. 3 doz. for 25c., up at The Two Barkers, 100 Princess St. and 111 Brunswick St.

It is understood that the Macadam Metal Co. has disposed of its American rights to a company of which J. D. Chipman of St. Stephen is the local agent. The largest payment has already been made.
W. C. Bowden, E. W. Titus, Mrs. G. A. H. Miller, Miss Drake, Bayard Stillwell and others will take part in the sacred concert, vocal and instrumental, in the Every Day Club Hall tomorrow evening.
A large variety of new summer wash suits or shirt waist suits and dainty white muslin dresses will be put on sale at F. W. Daniel & Company's, Charlotte street, tonight and Monday. Also new "Gibson" sailor hats just received. See advertisement on page 5.
The remains of the late Francis D. Hunter will be brought to this city for interment, and the funeral will take place this afternoon from the I. C. R. station on the arrival of the Maritime express at 1:45 o'clock. Coaches will leave the head of King street at 1:30 for the Union station.
The death took place yesterday of Miss Susan Wright at the home of her sister, Mrs. Chas. Campbell, Newburg street, of a cerebral hemorrhage, she was 72 years of age and was the daughter of the late John Wright of Quispamsis. Miss Wright is survived by three sisters and one brother.
The abdoen which controls the tides in the Courtenay Bay as it enters Marsh Creek, is out of order and a flood is feared. The mayor communicates with Hon. C. H. Zambelli who replied that he would make immediate inquiries into the matter.
The committee appointed to take charge of the arrangements for the coming gathering of Foresters in this city, have just met and appointed sub-committees to have charge of the various arrangements. About 200 delegates are expected from outside but twenty-two during their stay in the city make their own arrangements about lodging. On the afternoon of July 2nd however, an excursion up river will be held, with tea at Water's Landing, for the visitors. Arrangements will be made for about 400 to be present.
A telegram received by A. H. Hamilton, K. C., yesterday, advised that there had been a preliminary hearing of the application made by Mr. Hamilton on behalf of St. John and other stockholders in New Jersey, who seek the control of the Kimberly-Montana mines and wish to have the present management ousted. The rival interests submitted a large number of affidavits in answer to those presented by Mr. Hamilton, and as a result of the conflicting testimony the court appointed a commissioner to go to Chicago and take all the necessary evidence.

WEDDINGS.
STIRLING-DAY.

AN INDIAN RULER WAS ASSASSINATED
CALCUTTA, June 15.—The mystery has not yet been solved of the murder of the Maharaja Bahadur, of Bomba in the Baghalpore district of Bengal. He was mysteriously assassinated at a village camp ten miles from Madhupara. He was walking into his tent when he was fired at with explosive pistols at close quarters. Before he died, however, he had just time to scribble a few words on a piece of paper nominating his youngest grandson as his heir.
Immediately after hearing of the murder the district magistrate proceeded to the scene. His investigations have resulted in the arrest of two of the personal followers of the Maharaja.

High Grade Sewing Machines
for over 25 years and have not had to change the mechanical principle of the machine during that time.
Why?

Hail To The Brides!
Our best wishes to all June Brides, not only that the honeymoon may be a happy and joyous one, but when that's past and they are settling down to home cares and responsibilities. We're paving the way to happiness and comfort for many an expectant bride this month, because we've had a part in furnishing up so many little nests all ready for the home coming. There are others and we would like to count you, Miss Bride-To-Be, on our list.

MAY BE A LABEL, BUT NOBODY KNOWS

French Actor Publicly Called an Officer a
Pignouf, and the Meaning of the
Word Has Not Been Made Clear

PARIS, June 15.—What is a pignouf? No ordinary dictionary defines the figurative meaning of the word, and the dictionary of the French Academy which will doubtless fully explain the term, is still at letter C. In the meantime M. Rolland, an actor, has called M. Simirotti a pignouf. In fact he twice called him a pignouf. Suddenly in the middle of the opera "Vingthuit Jours de Clarette" he stopped singing and shouted to M. Simirotti in the stalls, "You are nothing but a pignouf!" Afterwards, during an interval he rushed about the wings, crying, "Where is he, the pignouf? Where is he? Where is he that I may chuck him out!" This tragic scene happened at a theatre in Constantinople during the tour of a French company. But the affair was of such gravity that it had come to Paris. It was first reported before the French Consular Tribunal at Constantinople sitting as a police court. M. Rolland was indicted for having addressed a public insult to M. Simirotti. He said that the latter had persistently attacked him in a Constantinople paper. Hence his resentment and his opinion that M. Simirotti is a pignouf. It was decided against M. Rolland that he had not abused his right of newspaper criticism. But on the other hand there was some technical difficulty in upholding the charge against the defendant of having publicly insulted the critic, as it seems doubtful whether a theatre is a public place. Anyhow the Consular Tribunal compromised by sentencing M. Rolland only to the fine of one dollar and giving him the benefit of the First Offender's Act.

But M. Rolland, anything but satisfied, appealed to the Court of Cassation in France, the highest court in the country. Is M. Simirotti or is he not a pignouf? Also what is a pignouf? Counsel argued that a pignouf simply means in a literal sense a pretence cobbler. What it means figuratively seems to be a man indicted for a personal opinion as dictionaries are silent on this point. Could M. Simirotti be deemed malleted because he had been cited a pretence cobbler? Unfortunately the Court of Cassation whose verdict in this matter must have been conclusive, has not decided on the very point which it seems difficult to Constantino into two hostile camps, the Rollandians and the Greens of the days of Justinian. With irritating scrupulousness the Court of Cassation refrained from discussing the pignouf problem at all, but has merely rejected the appeal on the bare technical ground in law that it has no appellate jurisdiction over findings of consular tribunals. So no one either in Paris or Constantinople as yet even knows what a pignouf is.

BURGLAR AS GIRL IS EXCELLENT SERVANT

Young Criminal Masquerades as Housemaid and Gives Her Mistress Satisfaction

VIENNA, June 15.—Police yesterday entered the confectionery establishment of M. Lukacs, Budapest, and arrested the housemaid, Rosa, for burglary. The police accused Rosa of being Alexander Nemety, a young man of 19, who was wanted for a series of ingenious thefts, and the prisoner at once admitted the identity. Nemety explained that he was tired of hiding from the police, and that he dressed himself in girl's clothes and took service with M. Lukacs on the strength of a servant's references which he had stolen for the purpose. He acquitted himself excellently as a housemaid, and might not have been detected if he had not slipped out in his own clothes to revisit his old haunts and been traced back to the house. Mme. Lukacs told the police that she considered Rosa the best servant she ever had, as she was strong and willing and never wasted time with the tradesmen.

WAR-TIME RECALLED

Suit Regarding Hay Shipped to South Africa.

Hay Dealers Take Action Against Department to Secure Indemnification for Hay Not Taken by Government.

MONTREAL, June 14.—Before the early autumn term a suit of a number of hay dealers who claim an aggregate of \$30,000 for hay shipped by them to South Africa through the agency of the Department of Agriculture, Rouley and Lusier, of St. Madeleine, in the county of St. Hyacinthe, are going ahead with a test case of \$20,000, and seventeen other claimants will follow the decision in this case. The claimants declare that the Department of Agriculture induced them to secure new presses at very large cost early in the war, and that they continued to ship hay by way of St. John, N. B.; that the demand caused a rise in price, which forced the claimants to pay more than the market price ruling at first; that the Government failed to take all the hay which the claimants had been instructed to buy, and that the claimants are entitled to indemnification for the balance. Mr. Mitchell, solicitor for the Government, pleads that the shippers bought costly presses because it suited them and that the Government is not responsible in any way. As to the amount purchased, the Government declares that by disregarding the orders of the Government officials in charge the shippers caused such destruction at St. John that it was impossible to ship the hay intended.

DR. FALCONER ACCEPTS TORONTO PRESIDENCY

Was Cordially Received and Given Every Assurance of Hearty Support.

TORONTO, Ont., June 14.—The presidency of the University of Toronto was formally offered to Dr. Robert A. Falconer by the board of governors, and by him formally accepted, at a special meeting of the governors this afternoon. The meeting was convened at the residence of the chairman, Dr. John Hoskin, who entertained at luncheon the board of governors, the dean of faculties, the chancellor of Victoria, provost of Trinity, the premier, provincial treasurer and deputy minister of education, who all joined in the reception given to the new president of the university.

There was no lack of cordiality in the reception of Dr. Falconer, and every assurance was given of the loyalty and support on the part of all interested in the provincial university. In accepting the appointment, Dr. Falconer assured the board of governors that he would devote to the discharge of the duties of his office his full strength, and would seek to make good the confidence reposed in him not only by the board in their formal appointment, but also by the members of the faculty, who have to a degree beyond his expectations welcomed him to the university. His present plan, he said, is to study the situation and outline of the work before him, and to do nothing in the way of reorganization until he has mastered for himself the essential features.

In resigning the office of President, Dr. Maurice Hutton expressed his cordial appreciation of the constitution and support which he had received from the governors and for his colleagues on the staff, spoke words of cordial welcome to the new president. The services of Dr. Hutton were regarded by the governors of such value to the university, that a committee consisting of the chancellor, Dr. John Hoskin, and Dr. E. Walker, was appointed to give their appreciation suitable expression.

The chair of Professor of Anatomy in the department of medicine, made vacant by the death of Dr. Primrose, was filled by the appointment of Professor J. Finlay MacMurrich, of the University of Michigan, Ann Arbor.

PROSPEROUS TIMES HERE TO REMAIN

Signs Point to a Continuance of Present Conditions

Despite Poor Condition of Money Market, Gloomy Outlook as to Crops and Industrial Unrest.

WASHINGTON, June 14.—Despite the poor condition of the money market, the gloomy outlook as to the crops, and the feeling of unrest in industrial and commercial centres, government officials declare that all signs point to a continuance of the prosperous times that have marked the expected recovery of the United States since 1917. The national treasury is filled to overflowing, receipts from all sources are increasing at all points, and national banks are prospering as never before, and Uncle Sam is doing a hand of office business at the stamp windows of the 70,000 or more post-offices throughout the country. Recent reports show that the crops, with the possible exception of cotton, are not as hard hit as they appeared to be a week or so ago, and with a break in the present unreasonable weather, another bumper may be registered by the Secretary of Agriculture for the year 1917. Only a short time ago Washington felt a bit concerned over the business and commercial outlook. The fluctuations in the stock market were watched with great interest, and the prediction was made that if the idea once got firmly rooted in the minds of the people that the Administration really contemplated turning the business might go to smash, at least for a time, classing news has recently been given out, and the tension has been relieved.

"Things are looking up," said a member of the Cabinet whose duty it is to keep in touch with the business affairs. "Our prosperity is built on a solid foundation. There is no reason in the world why it should not continue uninterrupted for a long time to come."

The Government has on hand in the national treasury box at the close of business tonight an available cash balance of \$280,011,224. A year ago today the cash balance was a little more than \$175,000,000. The surplus in the treasury amounted to \$1,800,978. The surplus for the fiscal year, which will end June 30, within all probability approximate \$75,000,000. Last year's surplus was more than \$74,000,000. Receipts for the year from all sources up to date make a total of \$622,834,225, as compared with \$528,000,000 for the corresponding period for the last fiscal year.

IMPOSSIBLE.

Mrs. Tittle—"That photograph of my wife always goes to some other chap's studio to have her photographs taken."

Mrs. Tattle—"Of course; she never could 'look pleasant' when her husband was about."

ST. JOHN, N. B., SATURDAY, JUNE 15, 1907.

SOMETHING OF THE MEN WHO WOULD LEAD THE FASHIONS

Short Sketches of the Famous Paris Artists Who Supply the Fashionable World with Costumes.

PARIS, June 15—Anything which concerns the kings of fashion interests the Parisian public and one might almost say the entire world. If the world is not governed by the Rue de la Paix it is, at least, led by it. The Paquin, the Worths, the Doucets, the Beers, the Grunwaldts, the Davids, the Lafforters and the Hedierns dictate to the ladies and the latter of course are not without their influence upon the world. Paris has had many kings of fashion and arbiters of taste from Phigat, who imposed his fantasies: Worth who abolished the corset and Madame Rivoli, who held her ground against all rivals in the days of the Third Empire and finally Vanhousen the Malouin Adairly which had till then been supreme.

Among the most formidable rivals of Paquin are the sons and the grandsons of the famous old Worth, M. Beer, who still stubbornly holds out in the southern right hand corner of the Place Vendôme against Messrs. Bechoff and David who have established their stronghold in the northern left-hand corner of the same square; Doucett and Chevill, who are entrenched in the remaining available space round Napoleon's brass column and finally M. Hediern, the patriarch among the high priests of the temple of fashion who has grown grey in the handling of chiffons. M. Doucett is as discreet as the third Napoleon and has been as successful as the first. There is, of course, no St. Helena awaiting him and he will probably to his dying day remain in possession of his native haunt at the top of the Rue de la Paix. He refuses, moreover, to be made the subject of publicity outside the circle of his fair clients, and when asked about the history of his house put it all in the sentence: "My house was founded in 1815 and that is its standing still."

SCHOOL GIRLS AGREED TO DIE TOGETHER

One Had Been Punished for Reading Prohibited Books—They Jumped Out of the Window.

ST. PETERSBURG, June 15—A painful sensation has been caused by an extraordinary case of suicide at the Smolny Convent School, an aristocratic institution under the direct patronage of the Dowager Empress. It is stated that the victim, a girl of fourteen had been punished for reading a social-economic pamphlet and that the punishment consisted in her being made to stand in the courtyard for several hours. She accordingly announced to her companions her intention to commit suicide, whereupon another schoolgirl of the same age volunteered to share her fate. The two girls proceeded to their dormitory and watched by their fellow-pupils as they prepared their heads and leaped out of the window. Both were terribly injured, the fall and one died after twelve hours of agony. The other, however, is expected to recover.

SCHOOL GIRLS AGREED TO DIE TOGETHER

One Had Been Punished for Reading Prohibited Books—They Jumped Out of the Window.

WALTER WEILMAN'S BALLOON HAS BEEN ENTIRELY REBUILT FOR THE VOYAGE.

The Chicago Would-be Arctic Explorer Tells of What Has Been Done During the Spring in His Preparations for Reaching the Pole.

CHRISTIANIA, June 15—The greatest interest is being taken throughout Norway in the airship experiments of Walter Weilmann, the American, who is contemplating an airship dash to the North Pole, a la Jules Verne. According to the latest plans of Mr. Weilmann during the first week of July there will be trials of the airship until it is demonstrated that the latter is ready for the voyage. The start for the Pole will be made on the first favorable opportunity afterwards, probably between July 20 and August 10, but if necessary Mr. Weilmann is prepared to start as late as August 25. The members of the expedition besides aiding and assisting the expedition are: Walter Weilmann, Major Hearsey, (executive officer and pilot), and M. Gaston Hervey, the aeronautical engineer, and the only Frenchman on the staff. About thirty men comprise the expedition, namely, the crew, the mechanics and the men for handling the balloon, car, gear, etc., at Tromsø and at Spitzbergen.

There was no question of last year's expedition having been a failure. An enormous amount of work had to be done at Spitzbergen—work which was found to be too much for one man. This year on arriving at Spitzbergen there is little work to be done in the matter of erecting buildings. We have constructed an entirely new airship with which we hope to accomplish the journey from Spitzbergen to the Pole and back. One of the most important changes we have made is the enlargement of the balloon. This has been made 18 feet longer and 18 inches in diameter, giving it a total lifting force of 19,000 pounds. The balloon is 184 feet long and 18 inches in diameter. The greatest diameter of the balloon is 184 feet. The next important change in our last year's equipment is that we have built an entire new car and mechanical equipment, all of that used having been discarded. The new motor consists of a framework of steel tubing 115 feet long and 10 feet high and 8 feet broad. This is suspended close under the balloon at a distance of three feet from the top of the car. The car is 18 inches in diameter and 115 feet in length with a capacity of holding 1,000 gallons of petrol. The car is built in a double-deck structure, for it is not only a safe reservoir for our petrol but it also serves as a platform for the structure of the ship. This tank is divided into fourteen compartments to prevent the danger of explosion and the petrol can be pumped from any section of this tank so as to trim the ship. The water is contained in a tightly-stretched silk, the two sides forming a horizontal plane, all constructed for giving stability to the ship in the air. At the stern of the vessel is a rudder 160 feet long and weighing 1,000 pounds. This is supported by a bicycle wheel, which despite its size is only 100 pounds in weight. On the contrary there were often willing to pawn their jewels to keep him from want. His name is now in jail.

DINNER IN SEVEN STYLES. A PAIR OF SWINDLERS ARRESTED IN ENGLAND

Cosmopolitan Feeding Settles a Curious Wager in London. They Had Carried on a Sensational Traffic in Infants.

LONDON, June 14—A rather curious bet between an Englishman and an American has just been settled. The Englishman made a wager that he would give in London seven dinners, to be of several different countries on as many nights. The continuous feed began with a real English meal, with turtle soup, neat, broiled before a fire and good English cheese. On the next night a French dinner in true Parisian style was given, and this was followed by a German repast, with kalbsbraten and Kaiserschmorn. Then an Italian dinner was given, with minestrone, frito misto and macaroni. A Russian dinner preceded by a zakuska and followed by sturgeon, and this was followed by a real old-fashioned American dinner of oysters, Maryland chicken, stuffed peppers and sweet corn. Finally an Indian dinner was given, with a variety of "fine cooked" dishes, with sturgeon, several curries and a variety of other dishes.

NAN PATTERSON LEADS HER OLD LIFE AGAIN

Former Florodora Actress, Thrice Tried for Murder, Has Gay Time in Pittsburg.

PITTSBURG, June 14—Nan Patterson, former Florodora actress, thrice tried for the murder of Cassius Young, the New York bookmaker, is again in the limelight here, even though it was announced that she was going to California to join her husband, Leon G. Martin, formerly a clerk at the Duquesne Hotel and employee of the place say that Martin was much attached to his wife, and practically lived for her alone. His conduct seems to imply as much, for when she was released from the Tombs and after she had one hour, his wife he courted her and again married her. Until about a month ago Martin and his wife had been living at the Duquesne. Previous to that time they had apartments in Wilkesburg, but this arrangement was given up when reports of her presence in the city drove her to her home in Washington until the publicity blew over. This was during the Thaw trial, when newspapers were after stories on impressions and emotions and interviews with every one who had even been a resident of the famous New York prison.

THE HUDSON BAY FLEET STARTS ON ITS LONG TRIP

Little Schooners Engaged in the Fur Carrying Trade, Having Spent the Winter in Britain, Are Now on the Voyage to Canada's Inland Sea.

LONDON, June 15—Leaving the British coast this week is a little fleet of which the like is to be found in no other part of the world. It is composed of the ships of the Hudson's Bay Company, which, according to custom, are hibernated in London. But now that the warm and pleasant weather is here this little fleet of sailors is off on the annual summer cruise. One by one the ships have dropped down the Thames laden with stores. Later in the year they will come back, some of them with furs, the spoil of the trappers of the far North West.

Very gradually do these ships wake up from their winter torpor in the docks of London. Only a few weeks ago a stranger copying the Pelican, the Discovery and the Stork might have asked, "What ancient craft are these?" To all appearances the boats had passed the sphere of usefulness. But word went forth that the ships must get ready for yet another commission. The Stork and the Pelican were towed away for examination and hull-painting in dry dock and shortly afterwards the Discovery followed suit. Then the three were hauled back to their berths and a general overhaul began.

Unbroken isolation is the fate of voyagers by these Hudson Bay fur traders. Now that they are leaving the British coast it is probable that nothing more will be heard of them until the autumn when they return laden with stores. They may by chance speak a ship on the Atlantic but their course is too far to the north for to afford much of an opportunity for that sort of a thing. There is no reporting their arrival at the chief trading station, Charlton Island in Hudson's Bay. They will quietly proceed to unload their miscellaneous outward cargo and then take on the far more valuable freight which they bring home. The story of the Stork in the winter of 1904-1905 is of itself typical of what may happen in those lonely seas. Captain Ford, who is now commanding the Discovery, left Charlton Island in the Stork in September, 1904, for London, having on board many thousands of dollars worth of furs. By Christmas nothing had been heard of the vessel and it was recognized that the only hope of her safety lay in the possibility that she might have been blown to Winnipeg. It was proved to be the case, but it was not until the end of February, 1905, that a message was got through to Winnipeg, whence a cable was sent to London which at once dispelled the alarm of underwriters.

Mr. and Mrs. D. L. Finlay, of New York, who are at the Ritz, have just finished a two months motoring tour through France and Italy. Under the influence of Mr. George Starr, the well known American entrepreneur and specialist who has been appointed manager, the Crystal Palace is entering a new era. It is not going to be exactly Americanized, the place," said Mr. Starr in an interview. "But I am going to introduce the novelties and attractions from America, Paris and Berlin. There is no place in the world that lends itself to sensational displays like the Palace and I intend to make such attractions pay and play a big part. I guess I've got a real triller up my sleeve which will create a genuine sensation. We have no such place in America as the Crystal Palace. Festivals and high class concerts will be ever foremost in our programme and the 'Elijah' concert will shortly be held when 3,000 voices will take part. Nothing like that has ever been produced in America."

BRITAIN TO SHARE TRADE ADVANTAGES

United States Unwilling to Make Discrimination.

British Foreign Secretary Announces That Negotiations Are Now Going On.

LONDON, June 14—Foreign Secretary informed the House of Commons today that the United States had offered to share with Great Britain the basis for discrimination against any other State, and was willing to apply them to Great Britain, if she so desired.

The secretary added that he was communicating with the Board of Trade with the view of making the necessary arrangements. Sir Edward Grey later announced that negotiations with the United States, the nature of which he was unable to disclose, were proceeding under the section third of the Dingley Act.

Replying to questions on the subject, the secretary said he hoped to secure for Great Britain the same advantages as Germany had derived.

Their arrest was due to Mrs. Kitchen of Great Grimsby, who came forward and complained of having been swindled out of \$55 in connection with the fourteen day old son of her daughter.

At the Liverpool Police Headquarters it was found that Smith was Leo Selwyn, who has performed at several vaudeville halls and obtained some notoriety as the gentleman handkerchief prince and jailbreaker. He boasted that he would be free in a couple of hours but he did not succeed in liberating himself nor has he yet escaped from "Walton." The great publicity which has been given to his case, and which has been carried on this business is said to have been of some benefit to him in that he has been able to account for his success. They are suspected of having gone to the length of returning infants to their mothers in all manner of ways while in many cases youngsters have been handed over to foster parents, placed in workhouses, or left about the streets in a most cruel fashion.

ST. PETERSBURG, June 14—What technically was a mutiny, closely resembling the mutiny of the Preobrajenski Regiment just before the dissolution of the Duma last year, has occurred in the ranks of the Life Hussars, better known as the "Red Hussars," at "Zarskoje-Selo."

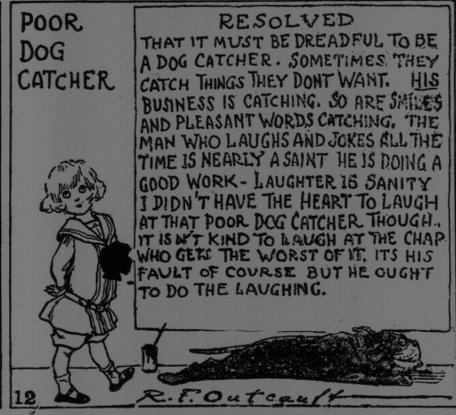

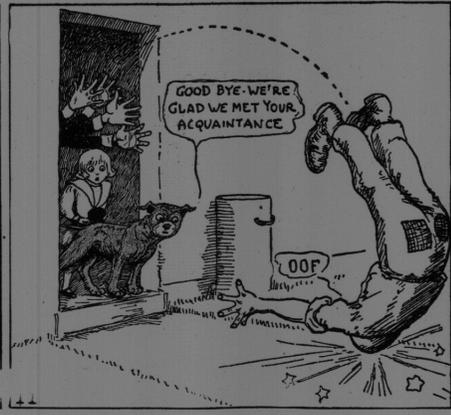

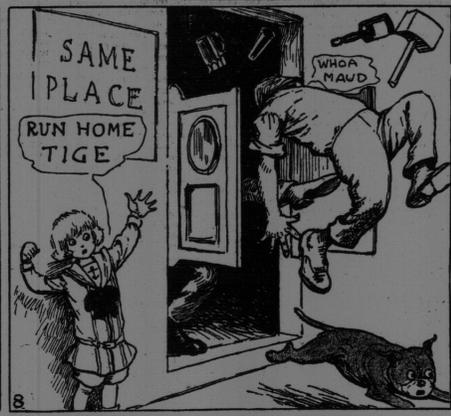

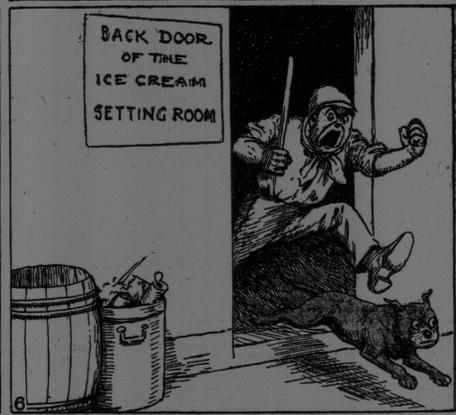

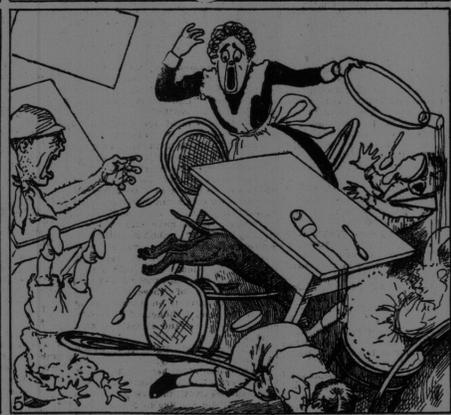

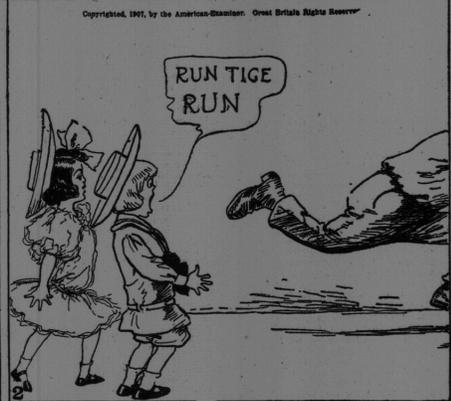

The existence of serious dissatisfaction came to light when Colonel Molostov, command the regiment, ordered the punishment of several soldiers, but the other soldiers refused to inflict it. They also refused to shoot the usual salutes carrying the regimental colors. All the officers have been arrested and the regiment will probably be transferred to Mestiel, where the Japanese prisoners lived, and where the Preobrajenski Regiment was sent last year by the way of punishment. A series of court-martial will follow in due course.

From personal investigations I conclude that the mutiny was not provoked by direct political agitation, but was the result of the loosening of all the ties of discipline due to the present low-drawn crisis. The soldiers are vaguely dissatisfied, but they don't know exactly what they want. Hence anarchy is more probable than a swift, clear-cut military revolution. The officers are even dissatisfied. It is thought they occur in the regiments most closely connected with the Czar. The Hussars are even dissatisfied. It is thought they occur in the regiments most closely connected with the Czar. The Hussars are even dissatisfied. It is thought they occur in the regiments most closely connected with the Czar.

MC 2034

THE ST. JOHN STAR

BUSTER BROWN AND TIGE

THE STAR, ST. JOHN N. B., SATURDAY, JUNE 15, 1907.

THE EFFECT OF DYNAMITE ON FISH LIFE.

In a report of the department of marine and fisheries, fishery branch, Prof. A. P. Knight, M. A., M. D., of Queen's University, Kingston, Ont., details exhaustively on the effects of dynamite explosions on fish life.

LAKE ONTARIO EXPERIMENTS.

The first experiments were made in Kingston harbor, in water about 18 feet deep. Two cartridges were used, the detonation striking our boat like a huge sledge hammer. It stirred up a great deal of mud, and discolored the water to a radius of six or eight feet, gradually widening to 30 or 40 feet.

POST-MORTEM EXAMINATION.

Post-mortem examination of a large number of these fish all showed similar effects: great capillary hemorrhage from branches of the mesenteric arteries, congestion of the liver and spleen, and invariably rupture of the swim bladder.

VARIATIONS IN DESTRUCTIVENESS.

The first explosion and its results were typical of all the work done last summer. Of course the results were not constant, for obvious reasons. The destructiveness of the explosive varied according to easily recognizable conditions.

That the destructiveness varies with the weight of dynamite used, with the depth of the water, (c) with the number of fish present in the neighborhood of the explosion, (d) with their distance away, and (e) with the kind of fish.

The depth of the water was another important condition affecting the destructiveness of dynamite. Explosions were effected at depths varying from 1 1/2 to 200 feet.

feet below the surface, sent up a narrow column about 60 or 70 feet high. In neither case were fish killed, though some must have been present. At 10 or 12 feet below the surface, the explosion lifted a broad cone or mound of water 6 or 8 feet high.

It is difficult to say whether in No. 1, 2, and 3 there were no fish present, or the pressure was insufficient to kill them.

No. 6 illustrates another variation in the effects of a dynamite explosion. In this instance not a single fish came up where the explosion occurred.

Stated mathematically, the energy of the exploding dynamite varies directly with the amount exploded, and diminishes with the distance away, according to an undetermined law.

CAUSE OF DEATH.

As already indicated, the immediate cause of death is rupture of the swim bladder, and internal hemorrhage. The rupture is evidently due to pressure. When an explosion occurs, there is a sudden liberation of gas tending to produce compression of the water at the site of the explosion.

slayer of the innocents, and with this end in view selected a small bay, nearly west of Grassy Island, and there, set off the largest blast of dynamite which was used during the season—ten cartridges. The noise was loud enough to have awakened the spectral inhabitants of the old French island.

SINKING FISH.

Very early in the investigation it became evident that besides those fish which came to the surface and floated, a number were merely stunned, and subsequently escaped, or were killed outright and sank to the bottom.

After rowing along the path of these floating fish for half an hour, we returned to the weir, and awaited the falling of the tide. The tide in this harbor goes out so far that the floors of many of the weirs are left almost dry.

Such was the substance of the man's story. It remained for us to see how far our experience would confirm his. At the outset, let it be said that although there were six men on board the Vulcan, two being experienced fishermen, and all watching eagerly for results, it was generally agreed that it was impossible (by merely watching the surface) to form an opinion as to the number which floated.

blow on the bottom of the boat, the skin had been cut, could be raised from the surface of the bone, leaving it as smooth and clean as a piece of polished ivory. Here again, the cause of the dislocation of these structures was pressure. The fish is veritably flattened between the compression of the water and the explosion.

At any rate, a young seaman whose acquaintance I made through Mr. C. H. Whitman at Canno, claimed to have used dynamite at Grand Manan during June and most of July, 1901. He said that whereas only half a dozen vessels had used dynamite in 1900, there were about 90 using it in 1901.

When the shrimps are all eaten up of what depth the cartridge sank before exploding. Hundreds of pollock were killed by one explosion. He was of the opinion that from one-half to one-third of the fish sank and were lost.

Such was the substance of the man's story. It remained for us to see how far our experience would confirm his. At the outset, let it be said that although there were six men on board the Vulcan, two being experienced fishermen, and all watching eagerly for results, it was generally agreed that it was impossible (by merely watching the surface) to form an opinion as to the number which floated.

CAUSE OF FLOATING.

Nearly all the fish floated belly up; the sunfish lay more upon their side; lake trout on their back, but with the tail end deep in the water and head above it. Rupture of the swim bladder and escape of its gas ventrally so as to displace the centre of gravity, was probably the cause of the fish floating on their back.

WOULD IT PAY.

An attempt was made to see whether a large catch of fish could be obtained in the open sea by means of dynamite. The fishermen at Grand Manan were said to have made it pay during the summer of 1900, and better still in 1901.

When the shrimps are all eaten up of what depth the cartridge sank before exploding. Hundreds of pollock were killed by one explosion. He was of the opinion that from one-half to one-third of the fish sank and were lost.

Such was the substance of the man's story. It remained for us to see how far our experience would confirm his. At the outset, let it be said that although there were six men on board the Vulcan, two being experienced fishermen, and all watching eagerly for results, it was generally agreed that it was impossible (by merely watching the surface) to form an opinion as to the number which floated.

far our experience would confirm his. At the outset, let it be said that although there were six men on board the Vulcan, two being experienced fishermen, and all watching eagerly for results, it was generally agreed that it was impossible (by merely watching the surface) to form an opinion as to the number which floated.

KILLING OF SEAL.

An interesting result was obtained at St. John, N. B., at the instance of the fishermen. They often lose many salmon, through the depredations of seals or seal. These animals regularly frequent weirs and kill numbers of the imprisoned fish.

CONCLUSIONS.

1. A serious result was clearly brought out in many of the experiments. Large numbers of immature fish were killed. Not one-third of those which came to the surface in fresh water could be sold the market.

Such was the substance of the man's story. It remained for us to see how far our experience would confirm his. At the outset, let it be said that although there were six men on board the Vulcan, two being experienced fishermen, and all watching eagerly for results, it was generally agreed that it was impossible (by merely watching the surface) to form an opinion as to the number which floated.

Diets Corsets. Modified upon scientific principles a series of corsets of grace and elegance is completed in every pair of D. & A. Corsets. You can buy a "D. & A." at various intermediate prices ranging from \$1.00 to \$5.00. Are Fashionable Models.

GOT DAMAGES FROM THE OLD GIRL WHO WOODED HIM

Lady Clark, Aged Sixty, Wanted to Marry a Boy—He Declined, and She Said Unkind Things About Him. LONDON, June 15.—The Duke de Pleneuf has at last been awarded \$1,250 by the courts for slander and libel by Lady Rose Horton Clarke.

CONCLUSIONS.

1. A serious result was clearly brought out in many of the experiments. Large numbers of immature fish were killed. Not one-third of those which came to the surface in fresh water could be sold the market. Of course, immature fish are killed in other ways. Thousands of young fish perish in weirs all along our coast after every outgoing tide.

CALGARY. The World's Most Progressive City According to the Clearing House Returns. Her Increase Last Week Was 30 p. c. Higher Than Any City in America. EXPANSION OF CALGARY. To the Citizens of St. John: FROM THE CITY CLERK OF CALGARY. This is to certify that the property offered for sale by J. A. Driscoll is within the Corporation Limits of the city of Calgary, Alberta, and is high and dry, free of stone, level, and has good soil. It is situated in the vicinity of the reservoir (gravity system) and can be freely supplied with water. It lies southwest of the most fashionable residence district in Calgary. Immediately to the east Elbow Park lots have sold at \$235 each (25 feet frontage), to the north lots are held for \$150. One half mile to the northeast lots are selling for \$450 to \$700 each, owned by the Canadian Pacific Railway. It is not claimed that a large profit can be made in an immediate turn-over, but within one mile of here lots that sold three years ago at \$60 each are now worth \$900 investment value. According to present prospects of Calgary the purchasers of this property should realize a profit of 400 per cent. in two years. According to present Calgary prices the value of this property runs at \$75 per lot (25 ft. frontage). H. E. GILLIS, City Clerk. We on the 12th inst. put on the St. John market 994 lots, out of which we have 431 left. The Sale will continue for 7 days more. Office open in the evenings till 8.30. J. A. DRISCOLL, Manager. Western Land Co., Personal Owners. 105 Prince Wm. Street.

"Royal."

A Boot with character in every line, made up expressly to meet the requirements of the young man. Bubbling over with style and elegance, and so comfortable that to wear them makes life worth living. Patent Colt, Gun Metal Calf and Russian Tan in High Laced Boots and Oxford Ties. \$4, \$4.50 and \$5 a Pair.

WATERBURY & RISING, King St. Union St.

Cheap Hosiery and Gloves! Plain Black Cotton Hose from 10c pair up. Lace Front Hose, 25c pair; Tan Colored Hose, 17c pair; 25c pair for Long Lace Gloves in white and grey.

A. B. WETMORE, 59 Garden St. SELECTIONS BY Mr. Harry McClaskey.

"I'll Sing Thee Songs of Araby," from Lalla Rookh. "Heidelberg Stein Song," from Prince of Posen. "Soots Wha Nae," familiar favorite. As sung by the eminent St. John Tenor at the Artillery Band Concert early in the week. Many others by same singer.

These are in COLUMBIA RECORDS, the superior tone of which makes the reproduction really beautiful.

Maritime Phonograph Co'y. Wholesale and Retail. 32 Dock Street.

VERY HARSH CRITICISM OF THE PEOPLE OF BERLIN

The City Described as an Overgrown Village Where the People Are Dowdy — German Commercial Expansion in Morocco.

BERLIN, June 15.—Dr. Ernest Hans Neufeld, writing in his new weekly review, the "Belegler," declares that Berlin in spite of its position as the capital of a great empire, and notwithstanding the great number of intellectual leaders, artists, authors and merchants included among its inhabitants, is really nothing more than a large village. The writer comes to this conclusion after a careful study of London, New York and Paris, which he undertook for the purpose of being able to compare these three cities with the German capital. He criticises the manners and customs of the Berliners with merciless severity, and cites a number of examples to illustrate their primitive simplicity in many respects. Having occasion to confer on business with a great German manufacturer who employs several thousand hands, the writer found that this industrial leader wore no collar, tie, cuffs, but enveloped himself in a coarse woollen garment instead of a shirt. He was wearing the cheapest possible kind of boots and he was smoking a half penny cigar. On the following day the writer paid a visit to a great German scientist and found that the celebrated scholar had an unwashed neck, unclean hands, the manners of a hoodlum and a voice like the howl of the Baskervilles. Investigating the various features of eight life in Berlin the writer found that Germans of good social standing whom he met at different pleasure resorts showed an unaccountable desire to introduce themselves to him after one or two minutes' acquaintance, never forgetting to communicate to him their names, titles and dignities in full. Going into society the writer found that the Berlin ladies were as a rule dressed like kitchen maids on a rainy winter Sunday, and that apart from their appalling habits of dress they were hopelessly unintelligent and uninteresting. Turning his investigations among other classes of Berlin population the writer found that shopkeepers, waiters and workmen were as a rule far less polite than their like in London, Paris and New York. These and many other conclusions led the writer to declare

some successful contracts will, it is expected, at once be given out for the construction of more vessels. The Kaiser will participate in the manoeuvres of the "High Sea Fleet" in the North Sea, in the first week of September. Unusually comprehensive preparation are afoot. Herr Hauser, of Oberdorf, in Wurttemberg, the well known inventor has designed an improved mechanism for his repeating rifle. The new repeater works automatically; as soon as a shot is fired, the gun loads itself from the cartridge chamber. Herr Hauser claims that his new rifle is bound to be utilized by all modern armies and there is certainly every probability of its being adopted by the German army.

HIS WIFE, THE LITTLE EMPEROR OF RUSSIA

ST. PETERSBURG, June 15.—This snapshot of the little Czarvitch of Russia, only son of the Czar and Czarina, and heir to the throne of Russia, was taken aboard the imperial yacht Standard by the mother of the little prince. It shows the Czar's son to be a healthy and intelligent looking little chap, the expression of whose face seems to prove that he has inherited some of the melancholy temperament of his father.

ST. JOHN BOY FROM CALGARY

J. A. Driscoll Sailing Lots in That Progressive Western City

J. A. Driscoll is a former St. John boy who comes from the throbbing city of Calgary in Alberta to his friends here with a bonafide land-selling proposition that looks particularly good. He has opened an office in the R. E. T. Fringle store, Prince William street, and since his arrival has been doing a brisk business. Calgary is a city with which a great many St. John people are familiar. Pretty nearly everybody knows of its phenomenal advancement, and a large number of New Brunswick families have some members located there. The two most progressive cities out west, according to bank clearings and other statistics, are Vancouver and Calgary, the latter showing a greater percentage of advancement by a good wide margin; indeed its total increase is thirty points higher than that of any city in America. Mr. Driscoll in offering his Calgary lots does so under a written guarantee from the City Clerk of Calgary, Mr. H. E. Gillis. He has other valuable real estate.

CHINESE REBELS LOOT CHRISTIAN MISSIONS

Movement to Overthrow Present Government is Growing in Two Provinces

HONG KONG, June 15.—The revolutionary movement in the provinces of Kiangsi and Kwangtung has assumed serious dimensions. The rebels have destroyed various European missions in the vicinity of Kienchow, but the German and British missionaries are safe at Swatow. Although the revolutionaries have issued a proclamation forbidding other intention of harming Europeans, it is feared that the movement may assume later a distinctly anti-foreign character. The Viceroy Sun has sent 1,200 native soldiers to Swatow to reinforce the local garrison and the police. Two Chinese gunboats are also being dispatched, and the authorities at Swatow have been ordered to disarm all suspicious persons. Representatives of the European power have warned the Chinese officials of the necessity of protecting foreigners. The rebels declare that they will kill all government officials and destroy all official property.

BOY INSISTS ON SEEING HIS ARM AMPUTATED

Says the "Interesting Sight" Repaid Him for All the Pain He Suffered.

VIENNA, June 15.—Josef Tusek, a 14-year-old schoolboy, was presented yesterday with a watch by the well-known surgeon, Professor Baron von Eiselenberg, for remarkable courage during an operation. The boy's arm had to be amputated but he refused to have an anesthetic as he declared he wanted to watch the operation. He was so insistent, and promised so solemnly not to mind the pain, that a professor let him have his way. He did not shrink or utter a sound during the course of the amputation, which he watched with the greatest attention, and at the end stated that the interesting sight was well worth the pain.

ANOTHER ROYAL COUPLE WHO HAVE A BRAND NEW SON

BERLIN, June 15.—Almost on the same day when an heir was born to King Alfonso of Spain, the son of Alfonso's sister, Princess Ferdinand Maria, of Bavaria, was christened at Munich. The Princess, who was born November 12, 1882, married in January, 1896, and is here shown with her husband, and holding in her arms her son and heir. The photograph shows how strongly she resembles her brother, the King of Spain.

GREAT DISPLAY SUMMER WASH SUITS

The prettiest and most economical Shirt Waist Suits we have had the good fortune to show. They come in Linens, Chambrays, Fancy Zephyrs and other pretty wash materials. Also the daintiest White Muslin Dresses you will find anywhere for the money. Servicable Lustre Suits at special prices.

- Lustre Suits at \$5.95. In light and dark grey. Very neat tucked waist, yoke style and pleated skirt. Brilliant Suit, \$6.65. Excellent quality. Out-of-door or house dress. Navy, green or black. Very full waist with folds fastening in front; flaring skirt with tucks or small pleats. Linen Suit at \$3.98. Very servicable. Neatly made with tucks and folds. 7-gore skirt, full flare colors—navy, sky, green, grey and linen. Dimity Suit, \$2.98. Complete and pretty light colored wash suit for very small price. White ground with polka dots. 7-gore full skirt and tuck waist. Chambray Suit, \$4.95. Very pretty suit, trimmed with embroidery and insertion. Very neatly made waist and full flare skirt. Come in light self colors as well as stripes in navy and grey. Fine Muslin Dresses, \$8.50. Dainty white spotted muslin dresses; pretty little blouse with Dutch neck trimmed with bands of embroidery and val. insertion. Skirt with deep 20-inch organdy flounce and broad band of val. insertion and embroidery at head of flounce. Misses' "Peter Pan" Suit, \$2.00. A jaunty Suit for girls of 12, 14 and 16 years. Just as pretty as if it cost you \$5.00 to have made. Comes in light colors with collar, cuffs and tie in contrasting shades. New Gibson Sailor Hats. Have just received a lot of the most popular Sailor Hat of the season. Has Gibson broad rim at back, narrow in front. Light shades.

F. W. Daniel & Co., London House, Charlotte St.

SOFT HATS!

For Summer Wear there is nothing as cool and easy on the head as a Soft Hat, and you'll get more satisfaction from one of MAGEE'S HATS than any other. They are brim full of good stock; besides, you'll be sure of having what is Correct for Style and Best for Quality. PEARL color hats are used a great deal as they do not draw heat. We've a big variety of styles, also in black and fawn colors. \$1.50 to \$5.00 D. MAGEE'S SONS, 63 King Street.

SCOTLAND'S OLDEST CITIZEN IS A DEVOUT CHRISTIAN.

Archibald MacCrimmon, Aged 108, Has His Record Read in Kirk—Steel Combine Has Advanced Prices Five Shillings per Ton.

GLASGOW, June 15.—When the other evening the Free Church of Scotland, otherwise the "Wee Free," resumed their general assembly in Edinburgh, members were cheered by an announcement that a vest of Scotland minister was able to make. This was nothing less than that one of the members of the Church was a centenarian, and had communicated for the first time when he was 107 years of age. The veteran who is believed to be the oldest Scotchman alive, is named Archibald MacCrimmon, of Saltoro, in the island of Syke. The Rev. John Macleod, of Glasgow, told the assembly that during a big portion of his life MacCrimmon had not been religiously inclined, but nothing more could be said against him than that during the long winter evenings in the misty isle of Syke, working as a tailor, he had gathered round him in his workshop, the youth of the district and told them great stories of the evil deeds of Black Donald, an Inverness character who was credited with having been engaged in exploits which the Church in the Highlands could not countenance. MacCrimmon, however, had repented of his shortcomings and there was great jubilation that the old man had cast in his lot with the faithful remnant even though it was at the 108th year of his age. It was also mentioned by Mr. Macleod that he had seen some twenty-nine years ago in Syke, Donald Macquoen, a Free Church catechist in the island who died at the age of 109. These instances of longevity showed that Syke was a very healthy place indeed. There was great cheer of ministers there and he strongly recommended the island to brethren of the cloth who wished to live long and remain strong and healthy.

Apparently because some people in the Highlands of Scotland put for the first time legislation propositions for the Taxation of Land Values in Scotland is to be the medium of determining whether urban land can be efficiently and equitably valued apart from the subjects of it. Mr. Henry Campbell-Bannerman is authorized by the statement that the solution of the urban problem can be found in a measure for the separate valuation of land apart from the buildings and improvements with a view to the rearrangement of the rating system in urban areas. Mr. Winston Churchill himself thinks that reform means only "one bold stroke" in that case the Land Valuation Bill introduced into the House of Commons by the Lord Advocate must be regarded as a measure which does not work so harmoniously as many statesmen are accustomed to assume. Speaking of the subject of steel the Glasgow Herald says editorially:— "The fact that the Association of Scotch Steelmakers—commonly though not correctly called the Steel Combine—have just raised the minimum prices of manufactured steel by five shillings per ton is a sign of the times. It is now apparent that shipbuilders cannot make any attractive offers to ship owners who may be contemplating additions to their fleets. And perhaps those with vessels in commission, for which they have difficulty in finding remunerative employment may be inclined to think that this is a good thing—for them. But it is not a good thing for our leading steel industries. The advances in steel, however, is justified by the high price to which pig iron has once more returned. Last year it was the complaint of steel and iron manufacturers that they could not obtain for their finished products prices to compensate their employment for the high rates they had to pay for their raw material; while smelters on their part contended that the high level to which pig iron was raised last year was mainly due to the abnormal American and the increased German demand. The American demand was supposed to be entirely due to the large American consumption, but recent figures have shown that it was also to a considerable extent due to the increased exports of iron and steel manufactures from the United States.

Stomach trouble is a bane upon any person—it takes the enjoyment out of nearly every one of life's events. Herma's Dyspepsia Cure, however, is a positive cure. It aids in digesting your food, no matter how it used to hurt you. Sold by all good druggists at 35c and \$1.00 bottle.

PROBATE COURT: CITY AND COUNTY OF ST. JOHN. To the Sheriff of the City and County of Saint John, or any Constable of the said City and County—Greeting: Whereas the Administrators cum testamento annexo of the estate of Francis G. Jordan, deceased, have filed in this Court a final account of their administration of the said deceased's estate and have prayed for the distribution of the said estate; You are therefore required to cite the Heirs, next of kin, Debtors and Legatees of the deceased and all of the Creditors and all other persons interested in his said estate to appear before me at a Court of Probate to be held in and for the City and County of Saint John, at the Probate Court room, in the Pugsley building, in the City of Saint John, on Monday the eighth day of July next, at eleven o'clock in the forenoon, then and there to attend the distribution of the said estate as prayed for and as by Law required. Given under my hand and the Seal of the said Probate Court, this twenty-fifth day of March, A. D. 1907. (Sgd) CHARLES N. SKINNER, Judge of Probate. (Sgd) CHARLES J. MILLIGAN, Registrar of Probate. BUSTIN & FRENCH, Printers. 15-5

THE STAR, ST. JOHN, N. B. SATURDAY, JUNE 15, 1907.

LORD'S DAY ACT
EMBRACES YUKON
Orders Sent to Mounted Police
to Enforce It.

OTTAWA, June 14.—Instructions have been forwarded to Major Wood, commanding the Royal Northwest Mounted Police in the Yukon, to enforce the Lord's Day Act in that territory. The letter of Mr. E. L. McCombe, deputy minister of justice, is as follows:—
The Act, chap. 113, R.S. 1906, came into force throughout Canada, March 31, 1907 (section 4), and it therefore applies to the Yukon Territory. For the purpose of proceedings in the territory the "Attorney-General for the province," within the meaning of section 17 of the Act, is the Attorney-General of Canada. It is, of course, the duty of the officers of the law to enforce the law in the territory.
The receipt of this official communication at Dawson has created consternation among the miners. Section 17 of the Act states that no prosecution or action can be instituted without the leave of the Attorney-General of the province in which the alleged violation has taken place.
The people of the Yukon Territory were congratulating themselves that as there is no Attorney-General for the Yukon they would be exempt from the provisions of the measure. On this point, however, the Interpretation Act governs. Section 17 states that every Act, unless the context otherwise requires, "provides" includes the Northwest Territory, the District of Keewatin, and the Yukon Territory, so that the Attorney-General for Canada, that is the Minister of Justice, will be responsible for the administration of the Lord's Day Act in the Yukon.
Strong protests are to be sent to Ottawa to exempt the Yukon from the measure, owing to the shortness of the season. Acting Commissioner Lithgow declares that the operation of the Act will be particularly harmful to the country, as it will compel miners to leave every Sunday and allow water to go to waste at a time when it is most needed, and when possibly later on none would be available.

NEW REGULATIONS OF VALUE AND INTEREST
TO AMERICAN RESIDENTS AND VISITORS

As a result of instructions received from Washington, Judge Whitlock, the American consul here, has compiled the following information, which will be of great interest and service to all American citizens residing here, or to come to the city as visitors:
Registration of American Citizens
A register will be kept at this office, in which will be registered all American citizens residing in this consular district, and all resident Americans are hereby invited to cause their names to be entered therein. This register shall show the full name of the person registered, the place of his birth, the date of his last domicile in the United States, the date of his arrival in the foreign country where he is residing, and his place of residence therein; the reasons for his foreign residence, whether or not he is married, and the name of his wife, her place of birth and residence, and if he has children, the name, date and place of birth and residence of each. The nature of the proof to establish his citizenship should also appear, and his signature must be inscribed in the register. No fee will be charged for registration, nor for any service rendered in connection therewith, nor for certificates of registration. This order shall go into effect July 1, 1907.
Children of Citizens Born Abroad
All children born outside of the limits and jurisdiction of the United States whose fathers were at the time of their birth citizens thereof, are citizens of the United States; but the rights of citizenship do not descend to children whose fathers never resided in the United States. All children who are in accordance with this paragraph, citizens of the United States, and who continue to reside outside of the United States, are required in order to receive the protection of the United States government, upon reaching the age of eighteen years, to record at an American consulate the intention of becoming residents and remain citizens, and upon reaching their majority are further required to take the oath of allegiance to the United States.
Life of a Citizen
Any white woman or woman of African blood or descent or Indian woman married to a citizen of the United States, is a citizen thereof; and any

MILITIA NOTES
FOR CITY AND ELSEWHERE

The 62nd Fusiliers have been drilling busily and under the able instruction of Color-Sergeant Instructor Langille. The drills are fast rounding into shape. On Wednesday evening at a parade of the left half battalion, Adjutant Magee reminded the men that but sixteen drills intervened between that day and inspection, and every company should turn out as strong as possible on every drill night.
The drills of next week are called for Monday and Wednesday evenings, when the whole regiment will turn out. On Friday evening the N. C. O.'s will meet at headquarters on Charlotte street, at a lecture on outdoor duties. Last evening Sergt. Langille put a few of the officers through the sword exercise. The "showing drill" or "drill" in the giving of orders, that was to be given the non-coms. did not materialize.
It has been rumored that the Fusiliers' inspection would form part of the reception to be tendered Earl Grey. However, nothing definite is known about the matter.
No. VIII, field ambulance corps is now recruited to full strength and will devote the coming week to preparing for camp. There will be company drill in uniform on Monday night. On Tuesday evening uniforms are to be returned. All members are requested to note this. On Thursday night there will also be drill without uniform.
Last Monday evening the corps was inspected by Lt. Col. G. Hunter Ogilvie, R. C. H. A., C. S. A. The field ambulance paraded on Hazen avenue and was put through various company movements by the major. The field ambulance paraded on Hazen avenue and continued the drill. At its close the inspecting officer addressed the men on their efficiency but also offering some criticism. The members of the inspection examinations for promotion were held in the morning, and as a result six privates were given the rank of corporals.
The signalling section and the army service corps are rapidly rounding up their shape for the twelve days at Sussex. The service corps has completed recruiting and will put in a couple of days drill next week Monday and Friday will be the nights.
H. Company of the R. C. R., Lieut. Colonel Chittie commanding, will leave on Saturday, June 22nd, for Camp Sussex, and on July 6th will proceed to Petawawa, Ont., to go into camp with the other units of the permanent force. It is generally understood that H. Company will not return to the city until the end of the year. It is not unlikely that one of the Halifax companies will be sent here in September—Frederick Herald.

A FINE ART
Good Tailoring is really a fine art. It requires skill, taste and the ability to reproduce correct styles with faultless accuracy. There are as many fine points in a good garment as in an artist's masterpiece. The designers, cutters and tailors who produce 20th Century Brand Clothes are all artists in their business—the very cream of the craft. And each is a specialist. He does one thing and he does it as well as it can be done. Good things are produced that way, and they can be produced in no other way. It will be a pleasure to show you some of these fine garments. We are Sole Agents. Suits, \$10 to \$25. 2-Piece Suits, \$10 to \$18. Wash Vests, \$1 to \$3.75. A. GILMOUR, 68 KING ST., Custom Tailoring; Ready-To-Wear Clothing.

PREMIER McBRIDE
IS MUCH PLEASSED
Will Return to Canada After Second
Reading of Bill, Which Was Read
First Time Yesterday.

LONDON, June 14.—Winston Churchill, in introducing in the Commons the bill amending the British North America act regarding federal subsidies to the provinces, made a somewhat exceptional detailed statement as he said, out of respect for the large Canadian interest concerned. He said the other provinces are not admitted that British Columbia had an exceptional claim upon the federal treasury. The British parliament did not know of the relative interests of the various provinces, to judge on which side the merits of the claim lie, but he would be very sorry if it were thought that the action of His Majesty's government meant that they had decided to establish as a precedent that whenever there is a difference upon the constitutional amendment between the federal government and the provinces, His Majesty's government would always be prepared, if necessary to accept the federal as against the provincial point of view. Such a deduction would be of too sweeping a character. The question of the British parliament had asked itself was, did the constitutional amendments now demand and command the support of a great majority of the people of Canada? About that there could be no doubt. Five millions of the people of Canada were represented in the support of the measure as against 170,000 population of British Columbia. The imperial government therefore decided to introduce the bill. The prime minister of Quebec, also Sir Wilfrid Laurier and Sir Fielding, had all made a personal application to the colonial secretary. On the other hand, Hon. R. McBride, prime minister of British Columbia, had with great frankness and much force, urged the views and grievances of his province. The British Columbia members were unable to adopt his arguments entirely, but favored to make legislation agreeable to him by not introducing into it the words, "final and unalterable," which had been proposed to introduce and which would have prejudiced British Columbia's chance of making some other friendly arrangement in the future with the Dominion and the other provinces. He concluded by reading a letter from Fielding, explaining the desirability of the passage of the bill at the earliest possible moment. Churchill then went to the bar of the house and brought in the bill, which was formally read the first time, and Charles, at home, is expected next week, after which McBride will return to British Columbia. He expresses himself well pleased.

No. 11.—Mixed from Moncton (daily) 6.00

NEW TIME TABLE ON
H. & S. RAILWAY
SHOWS IMPROVEMENT

ROSEMONT HILL, June 14.—The new time table of the Salisbury and Hillboro railway, which goes into effect next Monday, June 17th, inaugurates a considerable change in the running of trains which will afford additional transportation facilities that should be a great improvement over the old system. The changes include arrangements which will allow passengers to go to Moncton and return a considerable time and return on second train between Hillboro and Salisbury. The regular train No. 1 will leave Albert at 6.30 a. m., reaching Salisbury at 11.30 p. m. and leaving the latter place at 6 o'clock, arriving at Albert at 6.45. Passengers leaving Albert at 10.30 can be in Moncton at 1.55 p. m., where they can remain an hour and twenty minutes and connect at Salisbury with the down train for Albert. Between Albert and Hillboro this train will be a mixed one, as heretofore, but from Hillboro will be run as an express. The regular train will run between Hillboro and Salisbury and will be an accommodation train, leaving Hillboro at 6.30 a. m. and arriving at Salisbury at 8.05; the accommodation leaves Salisbury at 10.30, reaching Hillboro on the return at 12.05.

SOLOMON'S WISDOM
USED IN DOG CASE

CHICAGO, Ill., June 14.—Recollection of a famous dog case handed down by Chief Judge Solomon of the Supreme Court of Israel, some thousands of years ago, enabled Municipal Judge Oscar M. Torison to administer justice in an undeniably just and adequate manner today.
A dog that behaved pleasantly but indiscriminately to the name of Pete, Bill, Alfonso, Buster or anything else, was called by the name of the dog, and at first it made Judge Torison's head ache.
Pete, or Bill, had the mango, but that did not detract from his value in the estimation of two families. Mrs. Alexander Watson had him; Mrs. Jeremiah Polson claimed him. There was one set of expert witnesses willing to stake their lives on the assertion that Mrs. Watson rightfully possessed him and another willing to risk their hope of salvation on the statement that Mrs. Polson had raised him from a puppy.
When the Watson experts spoke to the dog as Bill he became demonstrative in affectionate responses. When the Polson contingent addressed him as Pete he made a complete change of front and was riotously friendly with the opposition. When the deputy bailiff called him Buster he sat up and shook hands, and when the judge spoke to him as Alfonso, he tried to kiss the court.
Then Solomon's decision in the case of the baby claimed by the two women occurred to the judge. The court took a severe look at Bill and remarked:—"He has the mango. The court rule in this case that Bill, Pete, or whatever his name is, shall be taken by the dog catcher and killed."
"Well, of course," said Mrs. Watson, "no one wants a dog that's dangerous, and if Pete's that kind of a dog I'm sure Your Honor knows best what ought to be done by him."
Mrs. Polson began to weep quietly. "Don't kill him, Judge," she said. "I'd rather you give him to any one else than have him killed. Bill's a good dog. Don't kill him."
"Judgment entered in favor of the plaintiff," said the judge. "Court is adjourned."

FIRE INQUIRY STILL
DRAGGING ON

Harry Ervin Thinks There Should Be More Equipment and Men—Will Resume Weary Ordeal Monday
The fire investigation was continued yesterday afternoon. Harry Ervin, chief of the city witness corps, had about forty or fifty cars and were well equipped in that respect. Eight respirators had been given the company by the fire underwriters. The company paid rent for its rooms, but received a small grant from the city and underwriters. More respirators would be very acceptable.
Witness thought it would be impracticable to put down hose protectors at the beginning of a fire. Apparatus going over full hose does not injure it. At almost every fire in the city difficulty has been encountered from wires. More money and men were needed by the department. There was not sufficient room for the existing apparatus. He had seen a life net in Halifax, but did not think it had ever been used. There was not room on any apparatus for a net to be carried. Had there been fire escapes on Macaulay's building the two ladies could have got out themselves.
The court then rose.

SOUGHT MOTHER FIVE YEARS.

BROCKVILLE, Ont., June 14.—After a search of nearly five years, Jas. Paszerik, a Hungarian, in the city of Brockville, has found his mother, and although she is demoted, she fully recognized her boy when they met at the St. Lawrence State Hospital.
Mrs. Paszerik left her home in Hungary 21 years ago. Her husband had died leaving her with three children, Joseph being the eldest. She sailed for America alone. Shortly after landing in New York she became insane and was committed under her maiden name, Marie Wallie. Five years ago her son sought for this country. He began a search for his mother, and recently learning that a woman under his mother's maiden name was an inmate of the St. Lawrence State Hospital. At first Marie Wallie did not recognize him, but as he talked to her in her native tongue and recounted scenes and incidents of their past life in their home in Hungary, the mother seemed to remember, and after a little recognition, her Paszerik has secured his mother's discharge.

OFFICERS ORDERED TO ATTEND
AND ANSWER QUESTIONS

TORONTO, June 14.—For refusing to answer questions as to the disposition of funds motion was made at Oswood Hall today to commit Richard Russell, treasurer, and Samuel Cox financial secretary, of the Amalgamated Sheet Metal Workers' Association. The motion was made on behalf of the Metal Roofing Company, which has a judgment against the union for seven thousand five hundred dollars, for injuring the plaintiffs' business during the recent strike. Judge Cloutier orders that the officers attend for examination and answer the questions put.

County Court Chambers

The adjourned sitting of the County Court opened yesterday afternoon at two o'clock in Chambers before Judge Forbes. The cases of Clark v. Monahan, Troke Bros. v. Patterson, and Martin v. Josselyn, were set down for July 9th in Chambers.
On motion of the clerk, naturalization papers were granted to W. J. Irons, Abram M. Heider, Joseph J. Ashbins and Albert G. Hermonson. The case of the Page Wire Fence Co., Ltd., of Toronto v. Francis E. McMann, a civil action, which was set down for hearing at two o'clock yesterday afternoon, from the adjourned sitting of the County Court, was settled in the morning. Powell & Harrison for the plaintiff company, and A. A. Wilson, K. C., for defendant.
A lady's belt found yesterday afternoon by Officer Lucas on Union street awaits its owner at central station.

Hungarian Locates Her in Hospital at
Brockville.

BROCKVILLE, Ont., June 14.—After a search of nearly five years, Jas. Paszerik, a Hungarian, in the city of Brockville, has found his mother, and although she is demoted, she fully recognized her boy when they met at the St. Lawrence State Hospital.
Mrs. Paszerik left her home in Hungary 21 years ago. Her husband had died leaving her with three children, Joseph being the eldest. She sailed for America alone. Shortly after landing in New York she became insane and was committed under her maiden name, Marie Wallie. Five years ago her son sought for this country. He began a search for his mother, and recently learning that a woman under his mother's maiden name was an inmate of the St. Lawrence State Hospital. At first Marie Wallie did not recognize him, but as he talked to her in her native tongue and recounted scenes and incidents of their past life in their home in Hungary, the mother seemed to remember, and after a little recognition, her Paszerik has secured his mother's discharge.

Coat Shirt
Just slip it on like a coat—not a tangle to the bosom.
Fits snugly over the shoulders.
Comfortably roomy under the arms.
Correctly proportioned sleeves—generous length.
Dress and business styles, white and colored.
Made to look well, wear well, fit well.
S. J. Makers, Berlin, Canada.

WOMAN WHO MARRIES A FOREIGNER

An American woman who marries a foreigner takes the nationality of her husband. At the termination of the marital relation by death or absolute divorce, she may resume her American citizenship by registering as an American citizen before a United States Consul after the termination of the marital relation.
Foreigners
An American woman who marries a foreigner takes the nationality of her husband. At the termination of the marital relation by death or absolute divorce, she may resume her American citizenship by registering as an American citizen before a United States Consul after the termination of the marital relation.
Children of Naturalized Citizens
The naturalization or resumption of American citizenship of the Parents confers American citizenship upon the minor children and his place of citizenship shall begin at the time such minor children begin to reside permanently in the United States.
Expatriation
No American citizen shall be deemed to have expatriated himself when he has been naturalized in any foreign state in conformity with its laws, or when he has taken an oath of allegiance to any foreign state. When any naturalized citizen shall have resided for two years in the foreign state from which he came or for five years in any other foreign state, it shall be presumed that he has ceased to be an American citizen and his place of general abode shall be deemed his place of residence during the said years; provided, that such presumption may be overcome on the presentation of satisfactory evidence to a diplomatic or consular officer of the United States under such rules and regulations as the department of state may prescribe.
Oath of Allegiance
Every child born without the United States of American parents and resident abroad is required, in order to conserve his American citizenship, to take the oath of allegiance to the United States before an American consul upon attaining his majority.

YARMOUTH, N. S., June 14.—Archie Low Wood, from Portland; sch Calabria, from New York; S.S. Boston, from Boston; S.S. Latour, from Barrington; S.S. Senlac, from St. John; George Orton, from Wauson; from North Sydney; Cleared, S.S. Boston, for Boston; S.S. Senlac, for Halifax; S.S. Latour, for Barrington.

DEATHS

MRS. CHARLOTTE COUPE
A cable message received by Robert E. Coupe announced the death of his surviving sister, Miss Charlotte (Townsend) Coupe, who had many friends in St. John, and who had here some years ago. She was the youngest daughter of the late Major R. Coupe, 1st Battalion 16th Regiment.
MRS. MARY McDADE.
The death of Mrs. Mary McDeade took place at noon Thursday at her home, No. 255 Brunswick street. She was the wife of Wm. McDeade, and is survived by three sons—John and William of Barresville, and Charles at home; also two daughters—Mrs. Donnelly at Barresville and Miss Teresa, at home.
MELVILLE DRAPER.
Miss Mary Draper of 43 Horsfield street, received the sad news that her brother, Melville, had died in British Columbia. There had been no word that he was ill, and it is supposed his death was accidental, but no particulars were received. Mr. Draper was thirty-seven years old.
JOHN FEENEY.
John Feeney, for many years a resident of Johnville, Charlton Co., after an illness of three weeks, passed quietly away on Monday, June 3rd, in the 78th year of his age. Deceased was a native of Londonderry, Ireland, coming to St. John in his early youth, where he lived some fifteen years, after which he removed with his wife and family, and was one of the early settlers of South Johnville, where he has since made his home. The funeral took place on Wednesday morning, high mass of requiem being celebrated by Rev. Fr. Bradley, after which burial took place in St. John the Evangelist cemetery.
ROBERT AMOS.
SACKVILLE, June 14.—The death of Robert Amos of North Shore, Bedford, occurred on Sunday last. His death was unexpected, as he had been in declining health for some months.
JOS. LANNIGAN.
BATHURST, N. B.—Death occurred last evening at his home here, of Joseph Lannigan, an old and respected citizen after a short illness. Mr. Lannigan was born at Bathurst, was eight years old and leaves a wife and two daughters, Sister M. Joseph of the Convent of Mercy, Dover, N. H., and Mary Francis, of Bathurst, and four sons, Joseph F., of Ottawa; Patrick J., of Quebec; Mark A., of I. C. R.; Campbellton, and Bert M., manager of G. N. W. Tel. Co., Bathurst.

LAST OF THE CONEY ISLAND PICTURES

Before the Coney Island pictures are withdrawn at the Nickel, those who have not enjoyed a trip to this great resort in reality should avail themselves of the opportunity of seeing the varied phases of amusement and showman life to be seen there. It's really a holl day outing one enjoys while sitting back comfortably in the theatre chairs and the life and action thrown into the pictures by the escapades of the giddy girls from the boarding school is an especially good feature. The other pictures—An Exciting Honeycomb and Between Two Fires make fun of all kinds. Mr. Austin sings, Cheer Up Mary, to illustrated accompaniment, in fine voice.
AS HE WISHED.
"May I call you 'Mabel'?" he asked at their second meeting, pretending to be badly mistaken. "If you wish to; but my name is Gertrude."

ST. STEPHEN, JUNE 14.—The death of A. J. Fraser occurred this morning after a lengthy illness. He was born here 42 years ago. For some time he was employed with Smith and Murray, dry goods merchants. Later he went to Grand Manan and took charge of his father's business. He is survived by his widow, four sons and one daughter. The sons are John M., Arthur M., Frank W., and Frederick A., and the daughter Miss Eva Cleste Fraser.

LOCAL NEWS.

Howard Logan, a boy, has been reported to the police for beating another boy on Adelaide street. The case will be delayed this morning.

Registrar Jones reports that during the week sixteen marriages were recorded. There were eleven births, six of the infants being females.

The schooner Dorothy M. Porter, which was ashore at Vineyard Haven and was damaged, sailed from that port yesterday for St. John.

The Lake Manitoba is due at Quebec early Sunday morning. The Montreal on Sunday afternoon. The Empress of Britain sailed from Liverpool at 5 p. m. yesterday.

L. W. Pond, the well known lumber man states that he has 1,500,000 feet logs at Crockett's Mill, above Fort Kent, on the river. He has had eight and a half million sent down already.

Thirteen deaths occurred in the city during the past week, resulting from the following causes: Bronchitis, 2; pneumonia, 2; accident, 1; inanition, 1; peritonitis, 1; nephritis, 1; uraemia, 1; consumption, 1; senile decay, 1; cancer of stomach, 1; broncho-pneumonia, 1.

No deaths have occurred in the city since January from diphtheria. There are at present only a few cases of this disease in the city. From December to January it was feared that an epidemic of diphtheria would set in as many cases were reported at the board of health every day.

The infant son of Rev. J. C. B. Appel, pastor of Douglas Avenue Christian Church, was successfully operated upon in New York on Sunday last, and in a week or ten days the little one and his parents will return to their home on Cedar street, Indiantown. Dr. W. F. Roberts of North End, assisted in the operation, which was performed by an eminent metropolitan specialist.

As the playground committee of the Women's Council will enlarge the scope of the supervised playgrounds this summer, the expense will necessarily be greater than last year. Indeed the extent of their work is so great that it is felt that the city should contribute to this helpful and valuable work. The Star will be glad to receive and acknowledge any subscriptions to the fund.

Eastport correspondent of the Bangor commercial—Boatmen along shore are varying the monotony of fish taking by the salvage of laths sent down from the vessel bound from St. John for New York went ashore near Musquash, N. B., earlier in the week. The laths are nearly all brought ashore where they meet with ready sale at prices which make the salvage of them very profitable to the boatmen, several of whom have added materially to their earnings for the week in this manner.

Close upon 2,000 yards of exquisite summer silks will be sold at our remarkably low price in M. R. A.'s Silk Room on Monday, but not until then. None of the bargain material will be shown this afternoon or tonight. However, at 8:30 Monday when the sale commences no less than five or six lots will be offered, introducing new colors, new patterns and standard textures. Read the ad in this issue.

As previously announced, a number of new K. C.'s have recently been appointed by the government. In the supreme court at Fredericton yesterday two of those on the list, Col. Marsh and Dr. A. W. Macrae presented their K. C. commissions and in the presence of Mr. Phinney, K. C., were called within the bar. It is of interest to note that these lawyers were in the senior and junior of the new appointees. Colonel Marsh has been a barrister since 1853, and Dr. Macrae since 1859.

There were four prisoners on the police court docket this morning. Three drunks were fined the usual amount and John Brown charged with stealing from Jacob Meyer's second hand store, Mill street, was remanded to jail. It took only 32 seconds to dispose of the docket and get into the other business of the court. The magistrate remarked that court should open at 8:30 o'clock on Saturday morning, but that there was delay this morning.

PLANS FOR THE FOURTH OF JULY AT EASTPORT

Band From St. John Will Attend—A Big Programme is Being Arranged.

EASTPORT, Me., June 14.—A telegram was received Thursday from the secretary of the navy announcing that upon request of Senator Hale the cruisers Des Moines and Tacoma had been ordered to this port for the big Fourth of July celebration and the announcement was heard with pleasure by all. Ex-Mayor Albert Greenleaf has been untiring in his efforts to have warships assigned to this section for the celebration and he is to be congratulated upon his success. In addition to the war vessels the celebration committee hopes to have several companies of state militia here, also the famous 62nd Fusilier band of St. John. Other features of the day's celebration will be balloon ascensions, power boat races and a hose race between Eastport and Lubec fire departments. In addition to the programme previously announced, it is more than probable that the war vessels will arrive here a day or two before the celebration and it is proposed to entertain the officers of the ships at a banquet and ball. The cruisers are vessels of 2,300 tons, 220 feet long and carry crews of 21 men and 30 officers. It is expected that their presence in the harbor will be sufficient to draw big crowds from all parts of the country and Eastport people are looking forward to the entertainment of the biggest throng in the history of the city.

EVIDENCE AGAINST WILSON IN STOVE STEALING CASE

Policeman Tell of Finding in His House a Stove Which Has Been Identified by Manager Irwin.

The case against Frederick Wilson for receiving McClary stove from Wm. Mahoney, knowing the same to be stolen, was taken up this morning in the police court at nine o'clock. An order was sent into jail to have Wm. Mahoney brought into court as a witness for the prosecution. Mahoney is now under sentence of two years for stealing from the McClary Co., and the jailer would not hand over the prisoner unless he received an order from the sheriff. The trial was commenced then with Sergeant Kilpatrick as witness and he gave evidence of calling at Wilson's house, corner of City Road and Delhi street, on May 9th, and asking if he knew anything about a stolen stove. Wilson said he knew nothing about it. From what Policeman Hamm had told him, witness paid another visit to the Wilson house on the 13th, and in a pantry off the kitchen he found the stolen stove. Mrs. Wilson produced a receipt from Wm. Mahoney for \$15 paid for a range.

Policeman Hamm took the stand and said that from information he received he went with Sergeant Kilpatrick to Wilson's house and found the stolen range. He took it to the Central Police Station.

George S. Bishop, bookkeeper and cashier for the McClary Mfg. Co., testified that there was no record of a sale of such a stove found in Wilson's house to him or to Mahoney.

Mr. Irwin, manager of the McClary Mfg. Co., told of a stove being missed on May 1st, and on visiting the warehouse he found a small piece of cast iron that had been broken off the back of the stolen stove. He identified the stove in the police station, and the small piece of iron found in the warehouse corresponded with a break in the stove taken from the Wilson house by the police.

The case was adjourned until Monday morning at nine o'clock.

NOT MUCH OF A BEACH AT WESTFIELD BEACH

But the First Sunday School Picnic of the Season is Being Held There Today.

The first Sunday school picnic of the season, is being held at Westfield Beach today. The scholars and teachers of Brussels street Baptist church Sunday school are holding their annual outing at that place. The picnic grounds have been put in the best of condition. New tables have been put in the lunch house, and the grounds have been cleaned.

Westfield Beach is to be the popular place for summer Sunday school picnics this summer. From this out every Saturday will see the scholars and teachers of the city schools enjoying themselves there. The Sunday schools of German street Baptist church, Trinity church, St. Mary's church and St. Andrew's church have engaged the grounds. The annual outing of St. David's Sunday school will be held at Westfield Beach this year. Just at present, however, there is not much of a beach. The river came up so high and remained up so long that the shore is hardly in a good condition. The water is now falling rapidly and in a few days the beach will be as good as ever. The folk up river today are Baptists, so the water will not interfere with the pleasure.

NEW TRAINS FOR THE ST. JOHN-BOSTON ROUTE

Some time ago the Star announced that the C. P. R., Boston & Maine and Maine Central were to unite in providing an improved train service between St. John and Boston. It is now learned that arrangements have been completed and that four new trains which will be used exclusively for this run, and which will be named "The St. John-Boston Line" are being built in Dayton, Ohio. It is not known just how soon the cars will be completed and put on the route, but it is expected that some of them will be ready for this summer's rush. The new cars include first class and smoking cars. The sleeping cars will, as usual be operated by the Pullman Company.

MAINE RESIDENCE STRUCK BY LIGHTNING

ISLAND FALLS, Me., June 14.—Lightning late today struck the barn and shed connected with the 2 1/2 story wooden building formerly known as the Hills house, but recently used as a Menomont house by four families and started a fire which spread with such rapidity that the entire set of buildings were destroyed. There were eight or ten persons in the house when the bolt struck but none of them were injured. Most of the furniture was saved. The total loss was estimated at \$3,500. The place was owned by John E. Webster, proprietor of the Exchange Hotel.

PHILADELPHIA, June 15.—The University of Pennsylvania cricket team left here last night for New York and will sail today for England where it will play fifteen games with some of the best cricket elevens in Great Britain.

MEASLES ARE VERY PREVALENT THIS SEASON

Many Cases Reported to the Board of Health—Young and Old Alike Suffer.

At the board of health office reports are coming in every day of cases of measles. This disease has been very prevalent in the city for weeks and as yet it shows no signs of dying out. Several deaths have occurred which were reported as having been caused by the measles, but in every case, pneumonia, or some other illness had set in after the measles and had been the cause of the death. Usually the measles are not often serious in the cases of children but when an older person is stricken with the disease serious consequences often follow. The epidemic is not confined to the city as many cases are reported at points along the line.

Tooth Extracted Without Pain, 15c.
