The Proprietor can, with the greatest confidence, recommend his "Champion Plate Polish" as an article superior to anything of the kind ever offered to the public. One trial of it will ensure constant use: and as it saves so much time and labour, besides producing a very lasting polish, Housekeepers will find it worth their while to use "Atkinson's Champion Plate Polish," for cleaning and polishing all kinds of silver and plated goods.

This article is done up in fancy boxes, of different colours, at seventeen cents each.

GOLD 7-30 LOAN.

A profitable and secure Investment. THE Northern Pacific Railroad Companyoffer to the public an investment security which combines the ready negotiability, the conveni ence, and the high credit of a first-class Rail-road Bond, with the solidity and safety of a Real Estate Mortgage on Land worth at least

twice the amount loaned.

Traffic. As officially reported, the gross earnings of the present Pacific Railroad (Union and Central) for 1871, the second year of through business, (December earnings estimated) reach Seventeen Millions and a Quarter. Of this, 65 per cent. is from Local business, and, it is stated. fully 55 per cent., or nearly Nine and a Half Millions, are net over operating expens An equal traffic on the Northern Pacific Road will pay a dividend of more than 9½ per cent. on its total cost. With its great and unquestion

advantages in distance, grades, climate and tributary fertile country, the Northern Pacific is assured of a vast and profitable business from 100 BARRELS very extra quality OAT the outset, with a large increase for the future.

The Value of Land Grants. The average price at which the twenty-six leading Land-grant Railroads have thus far sold their lands, is \$7.04 per acre—the highest average of any grant being \$13 98, and the lowest \$3.07. With few exception, the average selling price has steadily creased from year to year. The lands of the Northern Pacific Road are admitted, by all who have seen them. to be better and more salable

have seen them, to be better and more satable than those of most other grants, but, sold at the general average of \$7.04 per acre, they will yield more than \$161,000 per mile of road—more than three times the possible cost of construction and equipment; or, at the lowest average of any grant (\$3 07), they will produce more than \$70, 000 per mile. These facts regarding Pacific Railroad earning, and the market value of Railroad Lands, as shown by actual sales to settlers, show the three-fold security of North-

ern Pacific R ilroad Bonds.

Construction. The road is now completed across Minnesota, (255 miles); work is progres-sing westward through Dakota, and 65 miles are under construction on the Pacific coast. In cluding purchased lines, the Northern Pacific Company now has under its management 575 miles of finished track. Contracts are let for the construction of 635 miles more, to be finished

before the close of 1872. bonds of this company, which, after full investigation, we strongly recommend as a reliable and unusually profitable investment, and which now stand among the solid and favorite securities of the country, have the following leading features;

1. They are exempt from United States tax:

the Principal and Interest are parable in gold. the Principal and Interest are payable in goldthe principal in 30 years, and the interest semiannually at the rate of 73-10 per cent. per annum, Denominations, from \$100 to \$ 0,000.

2. The bonds are a first and only Mertgag

2. The bonds are a first and only merigage on the Road, its Equipments and Earnings, and also on a Land Grant which on the completion of the Road will average 23,000 acres to each mile of track.

3. They are at all times receivable at 10 per cent premium (110) in payment or explanate. The Prizes include a Marble Group, the Wood Nymph, for which a premium of £600 was awarded, and the right to select a valuable work of Att from one of the Public Exhibition of Busts, Vases, and Tazzas.

Persons intending to subscribe will please leave their money immediately with H. CHUBB & CO., feb 22 31

Honorary Secretaries.

3. They are at all times receivable at 10 per cent, premium (1,10), in payment or exchange for the Company's Land at market prices, a provision which practically gives the holder the power of forcelosure at will.

4. The proceeds of all sales of Land are required to be devoted by the Trustees of the bondhold rs, (Messrs, Jay Cooke and J. Edgar Thompson), as a Sinking Fund to the payabox.

and cancellation of the first mortgage bonds, or temporarily to the payments of interest thereon if neces ary.

Exchanging 5 20s. In view of the ability and fixed policy of the Government to call in its 5-20s and substitute a low-interest bond,—

\$140,000,000 having been called in for cancellation since September 1st—many holders of 5-20s are exchanging them for Northern Pa-cifics, thus adding to their principal the present premium on Government Bonds, and increasing heir yearly interest income nearly one third, All marketable stocks and bonds will be received at current prices in exchange for Northern Pacific Seven-Thirties without ex-

pense to the investor.

THE LEGISLATURE.

TO-DAY'S PROCEEDINGS. (Special Telegram to the Daily Tribune.)

FREDERICTON, March 2nd. Willis, Chairman of Committee on Debates, recommended the adoption of Day's tender, that ten thousand copies be printed at two thousand two hundred dollars, and six hundred dollars for reporting; also, that two thousand copies of French debates he printed

also, that two thousand copies of French debates be printed.

Napier thought it was a high handed proceeding, such a meagre allowance to the French. Since the Government have saddled a German Emigration delegate on the country, he wanted German and Norwegian Debates.

Lindsay thought the money for Commissioners of Emigration and publishing Debates would be better spent in making roads for the people in the country. He was sorry we hadn't the census returns.

Otty said, as the Secretary said yesterday, the money would not have to come out of the bye-roads, we ought to have the Debates.

the Debates.

Hatheway said the remark came with a bad grace from a King's County member, as that County stands in a different light to any other County in the Province; it owes the Province eight or ten thousand dollars for monies advanced; that for contracts in progress for public works the Province owes fifty-six thousand dollars, all to be paid in 1872; that St. John members are pressing for five thousand dollars for the Marsh Road, and only twenty-nine thousand dollars is available for the next year.

Hibbard said that we should not be afraid of the Dominion in having debates. We should insist on our claims; they dare not resist them. If this Union is to hold together one Province will have to deal honestly with another.

King said he couldn't understand why the same House which last year passed

King said he couldn't understand why the same House which last year passed three formal votes against the Debates should want them now. He thinks the Debates are an injury by only a few getting them. We have an enterprising and highly intelligent Press. Debates pander to a desire which some members have of making a show by set speeches.

Wedderburn favored the Debates. He was sure the Better Terms question would assume a non-party aspect in the Dominion Parliament. At this time the country is anxious to hear the very words of members reported.

Donald favored Debates for the laboring man. Some said they had to wait a week for the debates; it pays to wait a week for the truth. We had the Debates before

now.

The discussion is lively and seems favorable to having the Debates published.

Pugsley and Burbidge, two young lawyers, made an offer to publish summarized yers, made an offer to publish summarized telegrams in the papers, but the Committee did not recommend their offer.

Alward introduced a Bill relating to Parchment for the use of the Legislature.

Wedderburn, a Bill to secure to wives and children the benefit of assurances on the lives of their husbands and parents.

Also, a Bill to continue from session to session Bills introduced but not disposed of

Donald, a Bill to indemnify owners of meadow lands in certain cases.

THE ALABAMA CONTROVERSY remain unsettled. Not that there is a way party here, or that any one, save a few on-combatants, desires to put on his war paint against England. The American feeling is one of curious indifference, based, no doubt, on the assumption that England for her own protection must stop privateering. Deprived of a merchant marine, the patient Yankee stolidly contemplates the future with the philosophical sentiment, "Thank Heaven, I have nothing to lose by a war, but Heaven help the rich!" claims, and the talk of American arrogance and American assumption is simply nonsense. That they have put in their strongest plea is but an evidence of legal tac quite excusable, if not even laudable. The complaint against Great Britain for her "want of sympathy" is, however, a tritle member from Colchester had spoken earn-estly and warmly on this subject, and in a manner which did credit to his head and more sentimental than a claim for damages his heart. LONDON, March 3. The reply of the American Government to Granville's note is expected to reach London a week from Tuesday. The Observer says should England renounce the treaty of Washington, the the right hitherto claimed for American Seamen to fish in Canadian waters and on

that point would meet no opposition from The Emperor Francis Joseph issued a decree, declining to recognize the old Catholic Bishops or opponents of the Dogma of Infallibility as part of Roman Catholic hierarchy of Austria.

It is reported that pegotiations for a Commercial Treaty between France and Italy have been interrupted by Prussia. Cabinet differences are anticipated on the question of the adjournment of the Assembly, in regard to Catholic petitions, in reference to diplomatic representation in France, and concerning the bill to further restrict the liberty of the Press.

"A series of charming Essays. . . . Each chapter branches out into innumerable topics of a sesondary and collateral nature, giving to the work a boundless diversity, enriched with stores of ethical as well as of spiritual wisdom, evincing at once acute observation of social life and of human character, and containing the nollest lessons for practical guidance. Our author's style is remarkable for its free, unconstrained flow, almost collequial at times, but invariably signalized by elegance, force, adaptation to the subject, and not seldom by originality of thought in combination with terseness and beauty of expression. . There is about it a freshness, as well as a fullness of practical teaching, rarely to be met with in ordinary Biblical commentaries."—Londonderry Standard, Feb. 15, 1871.

"This is a remarkably thoughtful, solid book! Mr. Bennet is evidently at home in Metaphysics and Ethics, and he is a shrewd observer of human nature in its ordinary manifestations; consequently he ranges over the lessons of the Preacher with a power of illustration which shews his mastery of the subject. The style is close and direct, and yet so lucid, that any reader may understand every sentence in the volume.

It will, we doubt not, take its place, as it ought to do, among our household expositions of this treatise of observation and Jewish wisdom"—The Presbyterian (Philadelphia), May 20, 1871. THE Co Partnership heretofore existing between the subscribers, under the style of mutual consent.

"The Wisdom of the King is well worth careful reading. Indeed you cannot read much of it at once. There is a constant play of fancy about the thoughts, and often the very words, that is admirably suited to the Scripture book, of which this is an exposition, but which demands such constant attention on the reader's part that he gets tired, for he does not know where it is to end. The style is compact, lucid, often sparkling and epigrammatic, the sentences cut sharply, but with a poetic fullness of original illustration that redeems them from all hardness."—Halifux Monthly Record, (Church of Scotland). purposes, being Dempsey & Hughes.
