New Jersey to be heard from.

The bitterest electoral contest in the history of the Province of New Brunswick came to an end last night, when it was found that the Robinson government's majority of 26 had been turned into a minority of sixteen or twenty-two according to the two possible classifications of the independent contingent from Gloucester Co. Hon. Mr. Jones of Carleton Co. Solicitor General, was left at home, there being elected three Oppositionists in that section.

Hon. E. H. Allen, provincial secretary, and the other government candidates in York shared the same fate.

Hon. D. J. Purdy of St. John, member of Executive Council without portfolio, and his comrades from St. John city are regarded to private life, as are Hon. L. P. Farris and Mr. Carpenter of Queens.

The next House will have to choose a new speaker, as Hon.

C. J. Osman of Albert is among the slain. His colleague S. S. Ryan, will also be out of the House for a season.

The Government failed to make any inroad upon the Conservatives of Charlotte; and Messrs. Hazen and Glazier retain their seats in Sunbury.

The Opposition ticket appear to have carried all three seats in Kings.

Of the late Executive Council only Messrs. Robinson, Sweeney, and LaBillois are re-elected.

The attempt to run the election on Dominion party lines appear to have worked nicely in the Conservative counties, Mr. Hazen's tickets being completely successful in Queens, Kings, Charlotte, York, Sunbury and Albert. But of the Liberal counties, Northumberland, Kent and Charlotte went opposition. So Mr. Hazen will evidently lead a Coalition government, while the Opposition will henceforth be straight Liberal.

Of the 46 members of the new House, only 23 have sat in the Legislature before.

As we go to press the following are reported elected:—

OPPOSITION.

Albert—Dickson, Prescott.

Carleton—J. K. Flemming, and B. F. Smith, M. P. P., Donald Monroe.

Charlotte—Geo. Clark, Grimmer and Hart, M. P. P's; Dr. Taylor.

Kent—Bourque, Landry, Sheridan.

Kings—Murray, Jones, Scoville.

Northumberland—Allain; Mor-

rissey, and Morrison, M. P. P's; MacLachlan.

St. John City—Maxwell, M. P. P.; Hatheway, Wilson, McInerney Sunbury—Hazen and Glazier, M. P. P's.

York—MacLeod, Young, Robinson, Pinder, ex-M. P. P.

Queens—Woods, Slipp, GOVERNMENT.

Madawaska—Clair and Martin, M. P. P's.

Restigouche—LaBillois and Currie, M. P. P's.

St. John Co.—McKeown and Lowell, M. P. P's.

Westmorland—Robinson, Copp Sweeney and Legere, M. P. P's.

Victoria—Tweedale and Burgess, M. P. P's

INDEPENDENT.

Gloucester—Sormany, Legere, Byrne.

The Opposition candidates in

Gloucester, Sunday, lost their deposits, and the Conservatives who stood in the Government's interests were snowed under. The vote in detail was as follows:—

SIX BABES AT A BIRTH.

Two Pair of Triplets Born to Ohio Couple—Two Expected to Live

Steubenville, Feb. 28.—Six perfectly formed children were born here today to Mr. and Mrs. George Campbell. Three of the infants died within an hour after birth. One boy and girl will live, it is said. Three were boys. Mrs. Campbell weighs less than a hundred pounds. The combined weight of the infants was twenty-three pounds. Physicians declare the case to be one of the most remarkable known. Campbell is a mill worker, and has four brothers. To the family of 10 of these twins have been born, and each of the other brothers is father of triplets.

Campbell's first wife died after becoming the mother of triplets.

## IN MEMORIAM.

Lines on the death of the young man who died in one of the lumber camps on the Kedgewick, Saturday, February 22nd 1908.  
BY GERTRUDE E. SULLIVAN.  
The golden sun had just begun  
The daily journey to his goal,  
When Death's angel made his appearance  
And took from us George Cole.

A man of fine appearance  
And universal fame,  
Wherever he became known  
Every one loved him the same.

His mother's pride and treasure,  
His father's hope and joy;  
But, alas! it was the will of God,  
Sorrow should change this joy.

He died just in the bloom of youth,  
Ere sorrow left its trace  
Upon those manly shoulders,  
Upon that noble face.

Though many miles away from home,  
And in a foreign land,  
Death came softly up to him  
And took him by the hand.

It was so hard to give him up,  
On that bright February day;  
Loving hearts were waiting his return  
So many miles away.

And now those kind and loving hearts  
With agony are torn;  
Yet it was best that he should be  
Called Upon that Saturday morn.

His pain has all been suffered,  
His sorrow all is past;  
His short, sweet life has all been spent  
And death has come at last.

How good his life, although so short,  
How full of truth and right!  
To all at work a noble guide,  
And everywhere a light.

And now that home is ever changed,  
It has no vacant chair;  
How they will yearn in days to come  
For him who is not there.

But they can hope to meet him,  
Where it is always day,  
Where pain can never enter  
And where tears are wiped away.

Remember that when the stomach nerves fail or weaken, Dyspepsia or indigestion must always follow. But, strengthen these same weak inside nerves with Dr. Shoop's Restorative, and then see how quickly health will again return. Weak Heart and Kidney nerves can also be strengthened with the Restorative, where Heart pains, palpitation, or Kidney weakness is found. Don't drug the stomach, nor stimulate the Heart or Kidneys. That is wrong. Go to the cause of these ailments. Strengthen these weak inside nerves with Dr. Shoop's Restorative and get well. A simple, single test will surely tell. All Dealers.

**A FUNNY STORY IN A SUFFRAGETTE MEETING.**  
London, Feb. 28.—There is a humorist among the 'suffragettes.' This lady was making an address the other evening, and she brought down the house with the following argument:—'I have no vote, but my groom has. I have a great respect for that man in the stables, but I am sure if I were to go to him and say, "John, will you exercise the franchise?" he would reply, "Please, mum, which horse do that?"'

Picking dry coughs will quickly loosen when using Dr. Shoop's Cough Cure. And it is so thoroughly harmless, that Dr. Shoop tells mothers to use nothing else, even for very young babies. The whole some green leaves and tender stems of a long healing mountain shrub give the curative properties to Dr. Shoop's Cough Cure. It calms the cough, and heals the sensitive membranes. No opium, no chloroform, nothing harsh used to injure or suppress. Demand Dr. Shoop's. Take no other. All Dealers.

**SIDETRACKED EXPRESS CAR.**  
On account of a broken wheel the express car on No. 34 was sidetracked here Wednesday morning and the train proceeded to its destination without any express goods. A. M. Patterson, route agent of the Canadian Express Company was in town yesterday. In speaking to the Graphic he expressed the opinion that the I. C. R. authorities might have seen their way clear in this instance, as they had in previous ones, to either transfer the express parcels to the baggage car here or to have placed them in a box car so that they could have gone on. He stated that the car was almost full of express goods for St. John, Halifax and other eastern points and he regarded the delay as unnecessary.

\$100.00 paid by Dr. Shoop for any recent case of Grippe or acute Cold that a 25 cent box of Preventives will not break. How is this for an offer? The doctor's supreme confidence in these Little Cough Cures Tablets—Preventives—is certainly complete. It's a \$100 against 25 cents—pretty big odds. And Preventives, remember, contain no quinine, no laxative, nothing harsh used to tickle, or suppress. Pneumonia would never appear if early colds were always broken. Safe and sure for feverish children. 48 Preventives 25c. All Dealers.

More proof that Lydia E. Pinkham's Vegetable Compound cures sick women.

Miss M. R. Morin, 355 Ontario St., Montreal, writes to Mrs. Pinkham: I was in very poor health and doctored for months, receiving very little benefit. I had lost all ambition, was nervous, and subject to dizzy spells and painful periods each month.

A friend suggested Lydia E. Pinkham's Vegetable Compound as the proper medicine for me. I procured a bottle of this remedy and began taking, and before it was finished, I felt so much better that I continued its use and gave it a thorough test, with the result I am to-day well and a much healthier girl than I was three years ago. I have no more painful periods, dizziness or nervous troubles.

## FACTS FOR SICK WOMEN.

For thirty years Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills, and has positively cured thousands of women who have been troubled with displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling, flatulency, indigestion, dizziness, nervous prostration. Why don't you try it?  
Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health. Address, Lynn, Mass.

**DIDN'T WANT A BUFFALO.**  
An Englishman went to a Campbellton livery stable a day or two ago for a team to take him up country a short distance. After learning the wants of the man from England the livery stable proprietor turned to his stableman and told that worthy to get out a rig, and put in a good buffalo. The Englishman looked up in alarm. "Oh, I say," he began, "I'd rather not have a buffalo. I've been in this country only a short time and I've been used to horses at home."

**COLLISION ON I. C. R.**  
A rear end collision on the I. C. R. occurred last evening at Coal Branch when a social freight train in charge of Conductor Warman and Driver Chase, Stewart, ran into the freight special in charge of Conductor Sweetboy and Driver Willard Ruxton, and smashed the van considerably, also striking it with sufficient force as to place the forward end of it on top of the flat car loaded with rails. No damage except to the van was done. The main line was blocked four hours, although traffic was continued by all trains passing through the siding.—Moncton Times.

**MONTHLY REPORT.**  
Secretary Paver of the I. C. R. Employees' Relief and Insurance Association has submitted his report for the month ended February 25th, showing that in that month there were six deaths, with a total insurance of \$2,000. The deaths were as follows: J. P. Clark, Moncton, and D. Langlois, Lewis, \$500 each; William Grant and McKinnon, New Glasgow, George Connell, Campbellton, Z. Filtean, Lewis, all \$250 each. In addition to the above deaths, J. E. O'Brien, Halifax, and Pierre Jones, St. Romaine, members of the Temporary Employees' accident fund were killed by accident. The fees and levies for the month are, Class A, \$1.60; Class B, \$1.00, and Class C, seventy cents.

**THOMAS A. EDISON ILL.**  
NEW YORK, Thursday.—Thos. A. Edison was operated on for tonsillitis at the Eye, Ear and Throat hospital here Sunday when he has been a patient since Sunday when an abscess which had formed in the middle of his ear was opened. Dr. Arthur B. Ouel, who performed the operation says that the condition of the inventor is favorable and an early recovery is probable.

## A Doctor's Statement

Baie St. Paul, C.C., Que.

## SPOKE OF LOYALTY OF THE FRENCH CLERGY.

Archbishop Langevin Made Strong Statements in Sermon Preached at Winnipeg.

Winnipeg, Feb. 28.—Strong statements were made by Archbishop Langevin in a sermon here last Sunday evening.

In replying to the address which was presented to him, the Archbishop referred to the loyalty of the French clergy in upholding the prestige of the Catholic Church at a time when it was being assailed by schisms which were most damaging. He referred to the fight of the clergy in France against "that greedy vulture Free Masonry which had obtained such a hold in England."

He believed it had chosen an ill-time to ignore the Pope when monarchs, including the King of England, were planning to visit His Holiness. They must uphold the Church with the most fervent loyalty and he felt that if Quebec 300,000 immigrants to Manitoba instead of to the United States this province might have been French Catholic.

Referring to the Cercle Sacre Coeur he said its members might play a game of cards if they felt like it. Those who opposed such games were the ones who had crucified the Saviour—they considered it a grievous sin to eat without first washing their hands.

**TAKEN TO HOSPITAL.**  
Senator Lovitt Said to be Suffering From Cancer.

OTTAWA, Thursday.—Senator Lovitt, of Yarmouth, N. S., was today taken to the hospital to undergo an operation. It is said that he is suffering from cancer.

## FISHERIES JURISDICTION.

(Morning Graphic.)  
The Federal Government has made a good move in the appointment of a commissioner to confer with the various provinces on the subject of fisheries jurisdiction. The divided control of the fisheries between the federal government and provincial government, which has existed since the judgment of the Judicial Committee in 1888, is not at all in the interests of this important Canadian industry, and some way must be found of clearing up the hopeless confusion into which it has been plunged by the pronouncement of the Lordships of the Privy Council. But why was this not done at the conference of federal and provincial ministers in Ottawa a year ago? The whole matter could have been easily adjusted when the Dominion cabinet was adding three million dollars a year to the provincial subsidies. The property right of the provinces in the fisheries which was conceded them by the Privy Council is not one from which they can ever derive a cent of profit. The whole fisheries service has been from the outset a source of expenditure rather than revenue, and the returns for the last year show that the Dominion Government paid out \$632,685 for fisheries protection, and received in return but \$59,440 from the license, fines and all other sources of revenue. Nevertheless, it is a safe guess that as matters stand the Dominion will have to pay a good round sum for the cessation of rights which it could presumably have had for nothing one year ago. The Maritime Provinces have already made their terms known. They want a division amongst them of the Halifax award of four million dollars, the interest on which is not being distributed annually among the Atlantic coast fishermen in the form of a bounty. The province of Quebec has been, for some years, administering the fisheries of the St. Lawrence River and other inland waters, the Dominion, those of the Gulf. From the very nature of things, trouble has occurred by the officers of the provincial government, carrying out regulations which were framed at Ottawa. Ontario has organized her own system of fisheries control, with a large staff of fisheries officers, and will want a substantial consideration before parting with the patronage this involves. In British Columbia the Dominion Government expended last year \$175,000 on fisheries protection and the maintenance of fish hatcheries and received in license fees only \$50,000, and this deficit will be considerably enlarged a year from now when the new fisheries protection cruiser goes into commission on the Pacific coast. Yet the province is talking of organizing her own system of fisheries control, and will have to be brought out if the confusion and difficulties of dual control are to be avoided.

**CANADA TO BAR ALL UNDESIRABLES.**  
Immigrants Will Be Subject to Exclusion if Not Provided With a Certificate.  
Ottawa, Feb. 28.—An immigration regulation will be issued shortly providing that after April 15th next any person coming to Canada on an assisted passage and drawn from any charitable or similar institution, being sent by public funds, will be subject to exclusion if he is not provided with a certificate from the Canadian Immigration Department in London that he will make a suitable settler. This is done because it is found that in Toronto and other large cities these parties are becoming a public charge.

## Suffered 20 Years

"Fruit-a-tives" Cured in 2 Months

St. Raphael, Ont.  
For over twenty years I suffered from Chronic Constipation of the bowels, and I could get no medicine to cure me. I tried doctors and every known purgative, or laxative, medicine known but I was no better. Sometimes, if I did not take medicine, I would go four or five days, without any action of the bowels. During all this time I was weak and suffered from indigestion constantly.

About a year ago a friend advised me to try "Fruit-a-tives" as they had helped her. I began taking "Fruit-a-tives" and from the outset I began to feel better, and inside of a month the pains were almost gone and the Constipation relieved. In two months I was perfectly well again, no pains, no constipation, and my complexion had lost all that sallow appearance.

(Sgd) MARY A. McDONELL.  
"Fruit-a-tives"—or Fruit Liver Tablets—are the only remedy known to science that actually cure Constipation. They do this by making the liver healthy and active—thus causing more bile to flow into the bowels.

Bell Company Negotiating With Saskatchewan and Alberta.  
MONTREAL, Thursday.—Theodore M. Vail, president of the American Telephone Company, was elected a director of the Bell Telephone Company in the place of the late F. P. Fisk. At the annual meeting held today President C. F. Sise announced that the company was negotiating with Alberta and Saskatchewan for sale of the plant to those governments as was done with Manitoba. Mr. Sise stated that the Bell Company had no particular desire to sell but it was better to do this than to enter into competition with the government.

## THE INDEPENDENCE LEAGUE

In another column will be seen the political platform of William Randolph Hearst's Independence League, which after being tested in several campaigns in New York, Massachusetts, Chicago and California, is now declared a national organization. Compared with the avowed principles of the Republicans, and even of the Democratic party, Hearst's party is revolutionary and a decided improvement.

Several planks of the new platform will be very popular, viz. The election of United States senators and judges by the people; the application of the principle of the referendum to national, state and municipal government, by which principle no important measure can become law until the whole electorate have had the opportunity of voting upon it if a vote is called for; government ownership of telegraph lines and other public utilities; the eight hour working day; employers' liability law, the stamping out of child labor and the employers' blacklist; and trial by jury for persons charged with contempt of court.

There is nothing new in the platform, but, considering that in a late election its supporters polled a million votes in the adjoining states of New York and Massachusetts, it will cut a wide swath in the next presidential campaign, and may even win in 1912. Its principles are a compromise between those of the two old parties and the Socialists. Believing that the masses are disgusted with the Republicans and Democrats, because both these parties are ruled by the moneyed men, and that they are not yet prepared for the full Socialist program, which would abolish the wage system and nationalize the trusts, Hearst thinks that the time is ripe for him to ride into power on the crest of the ominous wave of popular discontent, which he himself has done so much to create and organize. He is one of the most remarkable men in North American history, and his heroic efforts to sweep back the ocean with a broom instead of laying broad and firm the foundations of a dyke able to restrain it, will be watched with interest. The election of Hearst, and the inevitable failure of his compromise platform to relieve the people of the burdens of which they so justly complain, might be the best thing that could happen the United States just now. He would either be compelled to retire from power in acknowledged failure, thus leaving the ground cleared for the experiments of a party of more logical principles, or he would have to revise his own platform to bring it into line with popular demands. In either case the public could not fail to be the gainers.

The special meeting at the S. A. Hall Friday evening was very interesting. The program included solos by Miss Annie Stewart, Mrs. Geo. Johnson, Miss Mary Beckwith and Capt. Warren and a trio by Misses Annie Adair, Rhoda Stewart and Bessie Ashford.

Some young men of this town, who each expected to have a proposal or two on by this time, are beginning to suspect that this leap year talk is a fake.

## THE INTERNATIONAL (Morning Graphic.)

The St. John Telegraph in reporting a recent speech of Robt. Maxwell's says:—"In discussing the International Railway Mr. Maxwell pointed out that when Mr. Pugsley as attorney-general made the statement that Engineer Schrieber had said the road would cost \$27,000 a mile, the engineer's estimate referred to only the first thirty miles. He contended that the guarantee of \$5,000 a mile on the whole road, which included eighty miles not even surveyed, was obtained from the legislature by fraud."

Mr. Maxwell apparently doesn't understand what he is talking about. A few days ago he declared that the International was costing only \$4000 a mile. As a matter of fact the rails and ties alone cost \$4,500 a mile.

Now he asserts that Mr. Schrieber reported that the road would cost \$27,000 a mile for the first thirty miles. Mr. Maxwell is telling a deliberate falsehood. The engineer's estimate was not only for the first thirty miles but for the whole road, 110 miles in length. If Mr. Maxwell had desired to tell the truth he could have obtained it at Ottawa where the plans of the whole 110 miles of the road are on file.

Maxwell also declares that the whole line has not been surveyed. This is another untruth. As a matter of fact Mr. Malcolm has had no less than three surveys made from Campbellton to St. Leonards.

Mr. Malcolm is at a loss to understand why Mr. Maxwell should so persistently prevaricate about the International and attempt to belittle the project in the eyes of the public and invites that gentleman to take a trip over the road so that he may see for himself and be in a position to talk intelligently and truthfully about it.

## That Hockey Fizzle.

MONTCTON, February 20—

The hockey game which fizzled out at Fredericton last night caused considerable excitement here. Mr. Walter Davidson, the enterprising picture show man, has pictures and results of the fiasco thrown on the white sheet on the square opposite the Minto. Over a thousand people were there and made the night hilarious with yells and hoots at the funny pictures and their disapproval was manifested in no uncertain sound when the word came that Cushing was arrested on the old score, and arrested only for the purpose of capturing the game for the Capitals.

It is stated that a large amount of grain will be shipped west from here.

## FOR SAKE OF SWEET CHARITY

New York Society Women Posing As Living Pictures

GORGEOUS SPECTACLE

Proceeds To Go To Help The Poor Whites of Virginia

NEW YORK, Saturday.—For the sake of sweet charity, Mrs. John Jacob Astor will pose in a tableaux at the Plaza hotel this evening. For the same philanthropic reason Mrs. Clarence Mackay will drape herself in filmy white and stand upon a pedestal as a living picture, as will Miss Nora Langhorne, one of the famed beauties of Virginia, and other women in New York's most exclusive society. The Duchess of Sutherland is also expected to participate. It is expected that the event will be the most gorgeous society function given in the name of charity for a good many years. Thousands of dollars have been spent by the participants for costumes and the scene of the entertainment has been decorated in a lavish style. The proceeds will be given to the 'poor whites' of the Virginia mountains. It is believed that nearly \$10,000 will be realized from the entertainment.

The program consists of nine pictures, four dances and a pantomime, in which Mrs. Waldorf Astor will play Pierrette in 'Le Revillon de Pierrette.' The chief interest will revolve about Mrs. Astor, and it was she who suggested the old French legend as the groundwork about which to build the tableaux vivants in which about fifteen society women will pose.

The story of the pantomime concerns the dream of an artist and his model. The artist is desperately poor and lives in an attic. He is fairly starving but engrossed in painting a portrait of Pierrette a sprightly model, whom he loves, Pierrette enters the attic in the gown of white, with powdered hair, patches on her cheeks and black pompons on her slippers. This is the part which Mrs. Astor will play.

Pierrette rouses the artist from his depression by the gift of a hamper of supper of cheese, cheap red wine, and bread. The two pretend their food is champagne and partridge, and, after feasting, they fall asleep and dream of the masterpiece the artist is to paint. Then a dark change takes place and an illuminated frame is introduced. In this frame Mrs. Astor's friends will pose as paintings from the great masters. Gainsborough, Rubens, Ghirlandajo, Botticelli, Rembrandt, Reynolds, Romney, and Nattier will be represented.

The scope of the entertainment will be wide, and although most of the pictures will be celebrated works of art there will be modern creations like the 'Gibson Girl,' and one of the dances will be of a national character and will include a Greek dance, a Spanish bolero, a French dance, and the famous 'Merry Widow' waltz.

## END THE OBSTRUCTION

(Morning Graphic.)

The session of Parliament has now reached that stage where it is the duty of ministers to take notice of the deliberate determination of the Opposition to block the granting of supplies with the idea of making party capital out of the manufacture of so-called departmental scandals, and to decide how best the business of the country can be advanced without giving the Opposition more leeway than is necessary, says the Galt Reformer. Already there are three notices of amendments to the motion to go into supply, and the 'Busy B's' are actively engaged in manufacturing others. Why should not the Government make an endeavor to push its legislative measures through just as soon as they can be discussed with due regard to their importance. The bills to increase the membership of the Railway Commission, to increase the powers of that body by placing under its control the telegraphs and telephones of the country, to provide for a system of old age pensions, and to amend the election law are understood to be in an advanced stage of preparation. In our opinion, it would be good policy to press them for the consideration of the House, and leave the granting of supply to a later stage. It may be said that the needs of the country will require the passage of a supply bill by March 31, but that could be easily overcome by the securing of an interim vote, and the bulk of the discussion upon the estimates could be left over until the legislative business of the session was well in hand. If the Opposition choose to then obstruct, the country would know where to place the responsibility.

## PRESIDENT TO HUNT GAME IN CANADA

DETROIT, Mich., Friday.—A Detroit News special from Sault Ste. The invitation was tendered to the President by W. F. Knox and George P. McCallum, of this city, and the President is reported as saying that he would endeavor to arrange for the trip."

## RESOLUTION CONDOLENCE

At a special meeting of Court Indiantown, I. O. F., No. 4194, held at Renous Bridge, Jan. 10th, 1908 the following resolution was adopted.

Whereas it has pleased Almighty God to remove by death, our esteemed Brother, Isaac Scofield.

Resolved that while we bow with submission to the Divine Will, the members of this Court take the opportunity of tendering to the family of the deceased their sincere sympathy in this their hour of affliction.

As the years pass away sorrow and mourning come to one and another; but let us rejoice that there is a Happy World in which sorrow and mourning is not known, and God shall wipe away all tears.

Resolved that this resolution be entered in the minutes, copy sent to the Father of Brother Scofield and to the local papers for publication.

## I. C. R. EMPLOYEES' R. & I. SOCIETY

Held Regular Semi-Annual Meeting In Moncton On Thursday.

### MUCH BUSINESS

#### Resolution Concerning The Death Of Late Edward Allingham

MONCTON, Friday.—The regular semi-annual meeting of the General Executive Committee of the I. C. R. Employees' Relief and Insurance Association was held at Moncton yesterday. Mr. D. Pottinger, the President being in the chair.

The representatives present from the different parts of the line of railway were as follows:—

Halifax—F. J. Druhan, W. H. Pirrie, G. Taylor.

Truro—C. W. Archibald, T. W. Johnson, T. W. Hennessey, R. Cullen.

Stellarton and New Glasgow—A. R. Gray, K. Stewart, H. D. McKenzie, J. T. McQueen.

Moncton—Miles Wilson, C. B. Clarke, A. P. Tait, J. B. McLaren.

St. John—Wm. McAdoo, Alex. Duncan, L. R. Ross.

Sydney—A. S. Prowse.

Campbellton—E. B. Price, J. A. Stevens.

Claims for total disability allowance from the following named retired members of the Association were ordered to be assessed and paid:—

Joseph Gagnon, St. Flavie, \$1000.00.

F. L. Tweddell, Lewis, \$1000.00.

Brougham Freeze, Petitcodiac, \$500.

Israel Bernard, Canaan, \$500.00.

Claims for total disability allowance received from Joseph Cameron of Moncton and James A. Anderson of Apohaqui, were considered and the Standing Committee was authorized to enquire further, and if satisfied that the claims should be paid, was instructed to assess and pay them.

Reference was made to the sudden death of the late Edward Allingham, who for so many years was a representative on this committee from the St. John district. The following resolution was adopted by a standing vote:—

WHEREAS—The members of this General Executive Committee of the Intercolonial Railway Employees' Relief and Insurance Association now in session, have heard with deep regret of the demise of Mr. Edward Allingham, who for a number of years past has been one of the representatives from the St. John District of this committee.

AND WHEREAS—This committee desires to place on record its appreciation of the great interest and the untiring efforts of the deceased in matters pertaining to the Association and its members, during the time he sat at this board, and the great loss which this committee has sustained by his removal.

THEREFORE RESOLVED that we express to the widow and to the family of the deceased our sympathy in this their hour of bereavement, and to assure them that the work of the deceased in the interest of his fellow employees and the Insurance Association will not soon be forgotten.

The secretary was instructed to forward a copy of the above resolution to the widow of the deceased at St. John.

As the income of the Sick and Accident Fund of the Association will permit of special and hospital benefit being paid for, the question of making some other arrangement whereby members would be entitled to hospital treatment free of charge was taken up and fully discussed. It was suggested that each employee be requested to contribute a small amount each year to the fund of the hospital, the same as is done in some other places, and that in return for the same, if a member of the Association requires hospital treatment, it be given to him free of charge. No definite action was taken, but the matter will probably be brought up at a future meeting of the committee for further consideration.

The request made by the annual meeting of members to the Railway Department that in view of the large increase in the number of employees and of the subsequent increase in the amount required to pay claims due to the annual contribution made by the Department to the funds of the association should be increased, was taken up and it was reported that no action had yet been taken by the department in regard to the matter.

A strong resolution was adopted by the meeting calling the attention of the department to the bargain which had been entered into by it with the employees of the railway at the time the Accident Insurance Association first went into effect, and the department's subsequent recognition of that bargain and requesting the department to live up to the understanding which was made at that time.

Considerable other business of a routine nature was also transacted. After a very pleasant meeting the committee adjourned.

## HAD TO PAY THE HEAD TAX

Canadian Officials Held Up For Tax At San Francisco

(Ottawa Free Press.)

As Mr. Joseph Pope, Canada's Under-Secretary of State, sat and talked in his office this morning there was nothing to indicate that there was any probability of strained diplomatic relations ensuing between the Dominion and the United States as a result of his being held up for the head tax across the line.

Mr. Pope laughingly told the Free Press the circumstances of the curious incident of the hold-up of which himself, his secretary, and Madame Lemieux were at one time the unwilling, but the subsequently cheerful, victims.

When Hon. Rodolphe Lemieux returned from his mission to Japan, he came through by the C. P. R. route, being anxious to arrive in Ottawa as early as possible. Mr. Pope, his secretary, and Madame Lemieux, however, took the southern route via San Francisco, and were informed by the United States officials in Yokohama that they would not be allowed to land in America without paying the head tax of \$4.00 each. Mr. Pope at first objected, pointing out the illegality of the demand, but rather than wait and fight the matter, he enriched Uncle Sam's exchequer to the extent of \$12.15. He does not believe the United States officials thoroughly understood the situation, but the fact remains that they did not, or would not, realize that their laws expressly exempt persons travelling to Canada via the United States from the tax.

There is a humorous aspect to the situation. Mr. Pope, with Hon. Mr. Lemieux, had been to Japan on a diplomatic mission with a view to restricting immigration to Canada, and then on his return the Under-Secretary finds a restriction placed upon himself. Mr. Pope and the other members of his party were, to all intents and purposes, bonded through to Canada, so that the restriction did not apply. They were, strictly and legally speaking, 'aliens in transit,' whom the United States laws also exempt from the head tax, and then again they were 'resident Canadians,' who enjoy a similar immunity.

'Will the Canadian Government make any representations to Washington on the matter?' Mr. Pope was asked.

'I do not think so,' rejoined the Under-Secretary, with a laugh.

### BATHURST NEWS

BATHURST, Friday.—We beg to submit the following changes and additions to the list of costumes at the carnival on Wednesday:—

Miss Lillie McLean, Mother Bunch.

Miss Lou Meahan, Pierette.

Miss Nellie Elhatton, Starlight.

Miss Marion Hinton, Evangeline.

Besides above there are active divisions at Bass River, Richibucto, Miller, Douglastown and Black Brook. Those at Chatham, Nelson and Tabusintac are dormant.

Though its division is dormant, Chatham is effectively enforcing the C. T. Act.

Gospel temperance meetings are being held monthly in Newcastle by the W. C. T. U. with good results.

The balance to credit of the District Division is \$4.31.

The Treasurer's report which was also adopted showed receipts since last meeting of \$3.00, and expenditure of \$2.75; balance on hand \$4.31.

Jas. Falconer, T. A. Clarke, Mrs. H. Ingram, Newcastle; H. W. B. Smith, Grangeville; and R. H. Jessamin, Douglastown, were appointed a committee to purchase a banner for Harcourt Division as a reward for largest membership.

Next meeting of district division will be at Richibucto in April.

The following were chosen officers for ensuing year:—

D. W. P.—Rev. R. H. Stavert, Harcourt.

D. W. A.—Jas. Thompson, Bass River.

D. R. S.—H. H. Stuart, Newcastle, re-elected.

D. W. P.—T. A. Clarke, Newcastle. Treas.—H. W. B. Smith.

Con.—R. W. Beers, Richibucto. Chap.—Wm. McLeod, Bay du Vin.

S. Y. P. W.—Mrs. Wm. Anderson, Burnt Church re-elected.

The D. W. P. then appointed the following standing committees:—

Credentialed—H. H. Stuart, O. E. Holsen, H. H. Bailey.

Finance and Audit—Jas. Falconer, Mrs. Ambrose Williston, R. H. Jessamin.

Program—Miss Marion Wathen, J. I. Blakney, Mrs. Robt. Grogan, T. A. Clarke, re-elected.

A successful public meeting was held in the evening at which a good program of speeches, recitations, and music was rendered.

### NEW YORK TUNNEL OPENED

Great Crowd Go Underground From New York to New Jersey.

NEW YORK, Saturday.—Bearing eight hundred distinguished guests, including Governor Chas. E. Hughes and Governor John F. Fort and their staffs, an official train of eight cars, marking the formal opening of the \$60,000,000 tunnel and submarine system linking New York and New Jersey, rolled out of the Manhattan terminal at twenty minutes to four o'clock this afternoon, and two minutes after President Roosevelt at the White House had flashed the starting signal. About ten thousand persons witnessed the start. As the train passed under the red, white and blue lighted signal marking the dividing line between New York and New Jersey the two governors arose and clasped hands, while the railway officials, who, with State Executives, occupied the first car, shouted mutual congratulations. On the crowded train was but one woman, Miss Grace Bigelow, who accompanied her father, John Bigelow, the publisher and former Ambassador to Great Britain. In spite of his 99th year, Mr. Bigelow appeared to hugely enjoy the occasion. He had a seat, as did Miss Bigelow, but many others were less fortunate. Men of millions, and traction promoters themselves, swung from the straps as the train slipped down at the centre of the river. Among the number was E. H. Harriman, who clung to a strap, and Cornelius Vanderbilt, who kept a firm grip on a strap.

Fort and their staffs, an official train of eight cars, marking the formal opening of the \$60,000,000 tunnel and submarine system linking New York and New Jersey, rolled out of the Manhattan terminal at twenty minutes to four o'clock this afternoon, and two minutes after President Roosevelt at the White House had flashed the starting signal. About ten thousand persons witnessed the start. As the train passed under the red, white and blue lighted signal marking the dividing line between New York and New Jersey the two governors arose and clasped hands, while the railway officials, who, with State Executives, occupied the first car, shouted mutual congratulations. On the crowded train was but one woman, Miss Grace Bigelow, who accompanied her father, John Bigelow, the publisher and former Ambassador to Great Britain. In spite of his 99th year, Mr. Bigelow appeared to hugely enjoy the occasion. He had a seat, as did Miss Bigelow, but many others were less fortunate. Men of millions, and traction promoters themselves, swung from the straps as the train slipped down at the centre of the river. Among the number was E. H. Harriman, who clung to a strap, and Cornelius Vanderbilt, who kept a firm grip on a strap.

## Spent Eighteen Dollars

"Gentlemen—I have pleasure in stating that I have used \$18.00 worth of Psychine, and as a result was cured of very serious throat and lung trouble. My case was a most difficult one, and the doctors had practically said that I could not get well. I tried Psychine, and it did me so much good that I continued its use until I had taken \$18.00 worth, with the result that I am now a new man physically. I have gained thirty-five pounds.  
"It is with the greatest confidence that I recommend Psychine to all who are afflicted with throat or lung trouble.  
Yours truly, C. A. PINKHAM.

**SYNOPSIS OF CANADIAN NORTH-WEST.**  
Homestead Regulations.  
Any even numbered section of Dominion Lands in Manitoba, Saskatchewan and Alberta, excepting 8 and 26, not reserved, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

Application for entry must be made in person by the applicant at a Dominion Lands Agency or Sub agency for the district in which the land is situated. Entry by proxy may, however, be made at an Agency on certain conditions by the father, mother, son, daughter, brother or sister of an intending homesteader.  
The homesteader is required to perform the homestead duties under one of the following plans:  
(1). At least six months' residence upon and cultivation of the land in each year for three years.  
(2). A homesteader may, if he so desires, perform the required residence duties by living on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of the homestead, or upon a homestead entered for by him in the vicinity, such homesteader may perform his own residence duties by living with the father (or) mother.  
(4). The term "vicinity" in the two preceding paragraphs is defined as meaning not more than nine miles in a direct line, exclusive of the width of road allowances crossed in the measurement.  
(5). A homesteader intending to perform his residence duties in accordance with the above while living with parents or on farming land owned by himself must notify the Agent for the district of such intention.  
Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.  
W. W. CORY,  
Deputy of the Minister of the Interior.

**He Remembered.**  
Old Commodore Vanderbilt was always very democratic in spirit. Sitting on the porch of a fashionable hotel at a fashionable resort on one occasion, it is related that the commodore saw a lady approaching with whom he was acquainted. His wife and daughter, who recognized her, could scarcely contain their anger when he arose and politely addressed her.  
"Don't you know," asked the daughter after she had gone, "that horrid woman used to sell poultry to us?"  
"Yes," responded the old millionaire, "and I remember when your mother sold root beer and I peddled oysters in New Jersey."

**The Old Way and the New.**  
The young lady from Boston was explaining. "Take an egg," she said, "and make a perforation in the base and a corresponding one in the apex. Then you apply the lips to the aperture and by forcibly inhaling the breath the shell is entirely discharged of its contents."  
An old lady who was listening exclaimed:  
"It beats all how folks do things nowadays. When I was a gal they made a hole in each end and sucked."

**What the Poet Says.**  
"After their honeymoon to Niagara falls they came back and settled on the old farm."

## SOUP AT \$35 A PLATE

Starts at \$10 a Head and Pansies and Jelly at \$250.

Public interest has recently been excited by a remarkable dinner party given in London at which twenty-four people sat down and which cost \$15,000. Some high class chefs who know the deepest mysteries of their business are inclined to say that this was really nothing after all.

The most expensive soup that can be served is Chinese bird's nest soup, which can hardly be done at less than \$35 for a moderate plate of it for each guest.

When the fish course is reached in the menu the most expensive item possible in the newest cuisine, made from sturgeon and not from common sturgeon. There are only one or two London restaurants at which this rare delicacy may be obtained, and the charge for it is \$10 per head.

Mullet roe, another rare dish, costs more than its weight in silver, while those who do not wish to advance their table naturally fly to the more frequently served dish, Caribbean pompano, which has to be brought to London on ice from Galveston or Pensacola and which costs \$5 to \$10 a pound.

A game pie, made of the little birds called ruffs—small things with long legs and a ruff of feathers behind their necks, belonging to the sandpiper family—is about the most expensive thing possible in this direction and cannot be done for less than \$50 to \$75, while if the ruffs are unusually scarce the charge for the pie may easily run up to \$100.

Donatable larks come next. They are fairly common on the tables of epicures, but it costs quite \$7.50 to serve a single dish of them.

There are not so many possibilities for gigantic expenditure when the joints come on the table, giraffe steak or bison ribs at anything from \$2.50 to \$5 a head being about the best.

As for sweets, the thoughts of a millionaire host who wanted to beat the record and show his business would naturally fly to a jelly of peanut buds and ginger, which would be sent in his little pots from China at a charge of \$250 a pot, one table-spoonful in each.

Forced strawberries in the middle of winter are most expensive to buy and may run to anything from \$5 to \$25 a head.

A great delicacy at one time was the double cocoanut, or coco-de-mer, which is only grown on two small islands of the Seychelles and which was last sold at \$200. It is, however, so extremely rare now that an enactment has been passed forbidding its exportation under any circumstances—London Story.

## INVISIBLE SNAKES.

A Den of Reptiles That Eluded the Ordinary Passenger's Eye.

The fact that snakes are rarely seen even when they are abundant was impressed upon the mind of the writer one day while waiting for a train at a small station in New Jersey. A nearby culvert, where a small stream flowed under the junction of the railway and a well traveled public road, seemed a favorable place for them. The stone wall, laid up without mortar, which supported the approach to the bridge had a southern exposure. The chinks afforded ample hiding place, and the reedy borders of the stream promised good hunting for the species which live upon small fish, frogs, toads and earthworms.

The flagman, who for several years had passed ten hours a day at his leisurely occupation there, denied that there were snakes in the vicinity. "No more than there be in Ireland, an' it's not me as would be tendin' this crossin' if there was," he asserted. But a few minutes' search in the gutters and grass revealed four specimens which he was acquainted with. His wife and daughter, who recognized her, could scarcely contain their anger when he arose and politely addressed her.  
"Don't you know," asked the daughter after she had gone, "that horrid woman used to sell poultry to us?"  
"Yes," responded the old millionaire, "and I remember when your mother sold root beer and I peddled oysters in New Jersey."

**The Spleen as Food.**  
In France and Italy a person who eats the spleen, what we call in French "ratte." I have eaten it myself. Generally from a pig it weighs about eight ounces, and it is situated on the right side of the pig, touching the liver. A spleen from a cow or bull weighs about two pounds, but is a little more spongy than the pig's spleen, which is the best. If some one should eat the ration we would after a while pay 75 cents a portion in first class restaurants, especially if some person of rank should start the habit.—Chef Van.

## THE RATTLER.

Rarely Sounds Its Note of Warning Until Attacks.

Contrary to the general belief, the rattler rarely gives its characteristic note of warning until actually attacked. In fact, the sharp, vibrant ring of its terminal appendage is probably designed more to assist this very sluggish serpent to obtain its food than to sound defiance or warning. In the first place, serpents possess but the most rudimentary traces of auditory apparatus and are practically deaf, the deficiency in the sense of hearing being compensated for by an extreme sensitiveness of feeling which makes them aware of the approach of moving objects by the vibration of the ground.

Hunters, treading cautiously upon a soft carpet of moss or leaves to avoid alarming game, will often step close to or over a rattler without disturbing it or receiving warning, and while many snakes are seen and killed by them it is probable that a far greater number are passed by unnoticed. All snakes are timid and would rather run than fight, and the rattler is not inviting certain destruction by advertising its whereabouts in the brush.—Francis Metcalfe in Outing Magazine.

## CAUGHT THE THIEF.

An Incident Which Illustrates Japanese Detective Methods.

Recently in the village of Tahara-mura, Japan, all the male inhabitants above the age of fifteen years were assembled in front of the local Shinto shrine at the call of the village chief. A thief had been making depredations in the local tobacco plantations, and the chief sought to discover him. Outlines of the feet of all the villagers were taken on sheets of paper, and then these were compared with the tracks left by the thief in the tobacco fields. Nothing resulted from this experiment. The next day the inhabitants were called together again. A great hole was dug in the ground, and a raging charcoal fire was built in it. All persons present were ordered to walk through the fire barefooted, it being declared that no person would be burned except the guilty one. All advanced to undergo the ordeal except one, Shukichi Shibata, a man of evil reputation. He declined to trust his feet to the red-hot coals. Accordingly he was arrested and soon confessed his guilt.

## FICTION AND FACT.

The Message in the Story Book and the Real Life.

In a magazine:  
"I don't like you any more."  
Harold Hoplife looked up at the quaint figure—a boy of six, with a mouth smeared with huckleberry pie.  
Harold was glum.  
"I don't like you any more."  
"Why?"  
"Cause you made sister cry."  
"Ethel cry? I didn't—I couldn't—make her cry."  
"Well, she's crying now when you said nothing when you walked away. Why didn't you say by-by and kiss her when you're going away? I always do."  
"I will! Right now!"  
And Harold hastened back to make up the lovers' quarrel.

In real life:  
"Say, sister gave me a piece of pie to come down and see if you'd gone and if you hadn't to try to get you back past where she was sitting on the porch getting ready to be crying."  
"Oh!"

**The American Author.**  
The chief thing in the average American novel is the amazing vitality of the author. He writes always at the top of his voice. His strenuousness is incessant. The reader can almost see the swollen veins on his forehead, the tight drawn mouth and flashing eye. It is do it or die. And he never knows where to stop. With his feverish anxiety to make points he does not seem to realize when he has achieved his purpose and frequently flounders off ineffectively. He has ideas. He has vast quantities of material. He has a command of language, a fatal fluency that frequently leads to his downfall, for he lacks a sense of values. He lacks self restraint. He is full of tricks and artfulness, but he is not an artist.—London Saturday Review.

**Well Preserved.**  
"I told Miss Knox today," said he, "that the only word that properly described you was 'peach.'"

## EXPECTED TOO MUCH.

The Hotel Clerk Thought the Guest Got His Money's Worth.

"A friend of mine has gained considerable notoriety among the boys," said a drummer, "on account of his antipathy for many of the inhabitants to be found in the hotels of many of the small country towns. Many a time he has been known to leave his bed in the middle of the night to search for more comfortable and agreeable quarters. Recently he landed at a small town. I happened to be there that night, and when I saw him enter I immediately scented trouble. That place was known for the droves of rats which swarmed about the premises, and if there was anything my friend abhorred it was a rat. Well, he got his room. I was sitting in the lobby reading about an hour after he had retired when suddenly I was startled by a sudden racket on the upper floor. It was followed a few seconds later by my friend, his clothes under his arm, making a hurried exit from his room. Running up to the hotel clerk, he expostulated excitedly against the rats.

"They ran all over the bed and all over the floor. Finally I tried to shoo them out. I turned on the light, and there were two big ones in the center of the floor fighting like tigers."  
"Well, what do you want for 50 cents?" calmly asked the clerk, "a bull-fight?"—Exchange.

## THE PIANO'S SOUL.

It is Imparted to the Instrument by the "Scale."

"Every piano factory," said a piano manufacturer, "employs what we piano men call a 'scale.' It would be too long for me to explain to you all about it, but in piano making the 'scale' is the man who after all else has been done imparts to the piano its soul.  
"I cannot tell you how they do it. They do not know themselves, and no man can teach another. It is born, like all art. The 'scales' are very few and hard to get, and we pay them handsomely wages. But they are as difficult to manage as the great tenors of grand opera and as sensitive as women. Like all artists, they are forever squabbling among themselves about little things, and, as you may guess, jealousy is their besetting evil.  
"But I have not yet explained what the 'scale' does. When a piano is all strung and tuned and ready to leave the factory, the 'scale' sits down to it all alone and screws it to pitch. His ear is so true, his hand so fine and his sense of the reasons for sound is so delicate and exquisite that when he has finished his work that which was a mere box containing strings has become a voice that can sing if you know how to make it sing. The 'scale' has given it a soul—a part of his own soul."

**Didn't Please the Critic.**  
When Verdi was putting the last touches to "Il Trovatore" he was visited in his study by a privileged friend. The friend was one of the ablest living musicians and critics. He was permitted to look at the score and run over the "avril chorus" on the pianoforte. "What do you think of that?" asked the master. "Trash!" said the connoisseur. Verdi rubbed his hands and chuckled. "Now, look at this and this," he said. "Rubbish!" said the other, rolling a cigarette. The composer rose and embraced him with a burst of joy. "What do you mean?" asked the critic. "My dear friend," cried Verdi, "I have been making a popular opera. In it I resolved to please everybody except the purists, the great judges, the classicists, like you. Had I pleased you I should have pleased no one else. What you say assures me of success. In three months 'Il Trovatore' will be sung and roared and whistled and barrel-organs all over Italy."

## Vapo-Cresolene

Established 1879

Whooping Cough, Croup, Bronchitis, Cough, Grip, Asthma, Diphtheria

Cresolene is a boon to Asthmatics

Does it not seem more effective to breathe in a remedy to cure disease of the breathing organs than to take the remedy into the stomach? It cures because the air rendered strongly antiseptic is carried over the diseased surface with every breath, giving prolonged and constant treatment. It is invaluable to mothers with small children.

Those of a consumptive tendency find immediate relief from coughs or inflamed conditions of the throat.

## TORTURING SKIN DISEASE Afflicted this bright little girl

Mrs. F. Miner, of 311 Suffolk Street, Guelph, Ont., says: "A year since, while living in Oshawa, Ont., my little daughter Lorinda, six years of age contracted a skin disease on the upper part of her body. This first broke out like tiny water blisters, afterwards taking the form of dry scales. These would disappear for a short time and then reappear worse than ever. The clothes coming in contact with the skin set up such a severe irritation that it was impossible to keep her from scratching. We tried various preparations yet obtained no good results until we began using Zam-Buk. With each application the irritation and soreness was greatly relieved, and the child rested easier. This continued until the eruptions and scales fast disappeared and in a short space of time the skin was completely cleared from the disease. It is now some months since we used Zam-Buk, and as there are no signs of any more eruptions breaking out on her body, we believe Zam-Buk has worked a complete cure."

**Zam-Buk** Cures all skin diseases, such as eczema, psoriasis, dandruff, itching, etc. It is a powerful antiseptic and disinfectant. It is the only preparation that will cure all skin diseases. It is the only preparation that will cure all skin diseases. It is the only preparation that will cure all skin diseases.

## TERRIBLE PLIGHT OF SAILORS.

Days Alone In An Open Boat  
With Only One  
Oar.

ONE DIED.

Three Are Rescued And  
Tell An Awful  
Story.

SEATTLE, Wn., Thursday.—A dispatch to the Post-Intelligencer from Neah Bay says: The crew of the little six-ton sloop Teckla, lying at anchor here, was startled last night, by a feeble hail from a steel lifeboat drawing up slowly in the light breeze. In the boat were the forms of four men—three living and one dead—survivors of the American ship Emily Reed, wrecked off the mouth of the Nehalem river, on the coast of Oregon, 200 miles from Neah Bay.

The men in the boat were First Mate Fred Zube, Seaman Ewald Abildstad, Seaman Arthur Jakunke, ship's cook, name unknown. The dead man was the ship's cook.

The three survivors were in a frightful condition. Their tongues were swollen from thirst, so that at first they could scarcely speak. They had no food since last Sunday night, nor water since they left the wreck.

Mr. Zube said: "Almost the instant the Reed struck the beach she began to break up. In a twinkling of an eye one of the lifeboats was smashed by a big wave, and the decks were so deep in the boiling water that there was no chance to get aft where the captain and his wife with some of the other members of the crew were stationed. We jumped into the remaining lifeboat and cut the lashings. Before we had completed this job a big sea broke over the wreck and carried us clear of the decks.

"A strong current swept up toward the stern of the wreck, where we could see Capt. Kessel and the rest of the ship's crew clinging to the roof of the aft house. We yelled to them to throw us a line as we went under the stern, and some one threw one but it fell short of our boat. My arm had been broken where the wreckage from the galley dropped on us, and there was only one good oar, as the other was broken and the spare oars washed away. We did our best to get back to the wreck, but the set of the undertow carried us away.

"We tried to head for Tillamook Head, but we had no compass to steer by. When morning broke I found we were standing far out to sea. I thought I best to keep the boat well out, but it fell into the path of a steamship. With this hope I set the course northward along the coast.

"The second night out we saw lights but it was too dark to venture in. There was neither food nor water and we suffered terribly from thirst during Saturday. Towards evening the cook decided he could stand it no longer and took a drink of sea water. He soon became delirious.

"At about 2 o'clock Sunday morning we saw a big steamer. She stopped near us, and we all believed we would be saved. But the vessel got under way again and left us. The cook gave up the fight then. He laid down in the bottom of the boat and in a few minutes he was dead.

"About 2 o'clock Sunday morning we made out Tatoosh Island. We were all too tired to manage the boat very well, but along towards Sunday afternoon I got her headed back towards Neah Bay. Sunday seemed the worst day we were out. I kept seeing all sorts of vessels passing back and forth, but none of them would answer our calls. We were generally too far off to be made out plainly."

## THE GARTER.

Insignia of the Most Coveted of All English Orders.

Although the most coveted of English orders, the origin of the Garter is really a mystery.

Conflicting authorities assign the foundation of the order either to the 23d of April, St. George's day, 1344, or to the same festival five years later, while the popular anecdote associated with it is that at a court ceremony a lady—either the queen, the Countess of Salisbury or the Countess of Kent—happened to drop her garter, which was picked up by King Edward III., who, observing a disposition to laugh among the bystanders, exclaimed in his royal displeasure, "Honi soit qui mal y pense" (disgraced be who thinks ill of it).

The reigning monarch is, of course, ex officio the sovereign of the Order of the Garter.

At first the garter was made of light blue silk, but that which is now given is made of dark blue velvet. It is worn on the left leg a little below the knee.

The Order of the Garter as an order of chivalry has a very deep religious significance. It is, or should be, attended by religious ceremonies of a very precise and ornate character, and it was reported in Victoria's reign that a certain nobleman hesitated as to accepting the honor on account of its having been conferred on an oriental potentate.

## CAME TO STAY.

Return of the Prodigal With Money and a Large Check.

Old home week had come, and the returned sons and grandsons were gathered together. One after another they rose and told with pardonable pride their achievements in the great world, impressing their importance on the stay at home. At length Mr. Jameson spoke:

"I went away from here twenty years ago a poor young man, with only one solitary dollar in my pocket. I walked the four miles from my father's farm to the station, and there I begged a ride to Boston on a freight car. Last night I drove into town behind a spirited pair of horses, and my purse—guess how much my purse holds in money today, besides a large check, and Mr. Jameson looked about him with a smile.

"Fifty dollars!"  
"Seventy-five!"  
"A hundred!" shouted the boys, filled with admiration.  
"No," said Mr. Jameson, drawing a large, fat purse from his pocket when the clamor had subsided, "none of you has guessed right. When I had paid the 25 cents to Oxy Bogg for my refreshing drive in the coach I had, besides my trunk check (which I retained for financial reasons), exactly 4 cents. I have come back, my friends, to stay. Any little jobs of sawing and splitting will be gratefully received."

## MEXICAN CARRIERS.

The Cargadores Can Carry Enormous Loads on Their Shoulders.

Just as one finds the rickshaw everywhere in India, so one finds the cargador in Mexico. He is a beast of burden. In general he is a comparatively small man, with broad shoulders and stout arms and legs. To look at him one would not think he would be able to carry heavy burdens. But the weight he can carry is surprising. You have a trunk you can scarcely move, for instance. You send for a cargador. He gets it upon his back, high up on the shoulders, and he marches off with it as easily as though it were a plaything. A life dedicated to carrying heavy burdens has made this work easy for him. A slightly built Mexican will carry over 500 pounds on his shoulders for short distances.

## NEW POLITICAL PARTY FOR U. S. A.

W. R. Hearst's Independence  
League Becomes a National  
Organization.

ADVANCED PRINCIPLES.

A Revolutionary Platform That  
Should Cut Into The Two  
Old Parties' Ranks.

CHICAGO, Thursday.—The object of the Independence League, Hearst's new national party, are to conserve for the citizens of the United States the rights and liberties won for them by the founders of this government, says the platform, and, to perpetuate the principles and policies upon which the nation's greatness has been built.

Cardinal Principles Enunciated.

The cardinal policies enunciated in the declaration are:  
Direct nominations by the people of all candidates of office. This, it is declared, will eliminate bossism in politics.

Legislation against corrupt practices at elections, including the prohibition of the use of money except for hall rent, literature, etc.

The election of United States senators and judges by the people.

An income tax.  
The application of the principle of the referendum to national, state and municipal government, no franchise grant to be given unless approved by the people.

The right of the people to recall public officials from public service.

The extension of the principle of public ownership of public utilities to the national field as fast as the government demonstrates its ability to operate them. The immediate government ownership of the telegraph lines is advocated.

Overcapitalization of corporation is denounced as being as harmful as the dishonesty of individuals.

Emergency currency shall be issued only by the government.

Eight Hour Day; Better Wages.  
An eight hour day for workmen. Better wages for public employees. An employees' liability law.

The stamping out of child labor by the national government.

Trial by jury for persons charged with contempt of court.

Law making blacklisting illegal.

An interstate commerce code to enforce the rulings of the interstate commerce commission.

State and national incorporation laws and the application of the prison penalties of anti-trust laws.

The revision of the tariff, not by the friends of the tariff but by the friends of the people.

A ship subsidy for the development of commerce.

Improved waterways and the ship canal from Chicago to the Gulf.

National postal savings banks.

The platform declares that trusts are beneficial whenever the people participate in their advantages. Otherwise the trusts should be regarded as monopolies restraining trade.

Hearst Makes Address.

Mr. Hearst delivered a short address to the conference at its opening declaring that the first purpose of the league's platform is to "restore the power of government to the people, to make their will supreme in the control of public officials after they have been elected."

Mr. Hearst asserted that it should be the task of the league to correct some of the evils of high finance and to frame constructive legislation which will encourage all legitimate business enterprises. He said:

"I plead for a new national party devoted to the old American ideals. I plead for a permanent party wholly and harmoniously committed to the principles of Washington, Jefferson, Jackson and Lincoln."

"I define a party as a collection of individuals devoted to certain definite principles and active in politics to promote these principles, and I declare that according to that definition there is no national party in the United States today."

"Let us inaugurate a party that is founded on fundamental American principles that will be a national party in the true sense of the word, and let us call it the national party if you wish."

## THE DEADLY HOUSE FLY.

Worst Known Disseminator of Disease Germs.

The common house fly is one of the greatest enemies of man. He is one of the worst disseminators of disease known. In spreading evil he so far surpasses the mosquito as to render the needle-beaked insect a negligible quantity by comparison. He thrives where the mosquito would die of inanition. He is omnipresent, and the amount of danger that he can spread over a city absolutely staggers the imagination. With one kick of a hind leg, for instance, he can distribute among men, women and children one hundred thousand disease-laden germs.

Medical men have long known that typhoid and other intestinal diseases are due to a germ which arises from fecal matter, but they have been at a loss to know how these germs have been disseminated. New York health officials claim to have solved the puzzle. They have traced the crime home to the house fly, have caught him with the goods on.

This is how the fly was unmasked. Under the direction of Dr. Daniel D. Jackson, fly-traps were placed this summer on 1000 piers, under piers one block from the city hall, and around the waterfront in the various boroughs. Inspectors were detailed to gather the captive flies, which were taken to the laboratory, and daily records made of their numbers and the material on the body, mouth and legs of the insects examined. To prove by experiment, captured flies were thoroughly cleaned and then allowed to walk over infected material. They were again examined and the material which they carried was analyzed. In one instance, a fly captured on South street this summer was found to be carrying 100,000 fecal bacteria, showing the affinity to dangerous germs of this active medium of dissemination.

Dr. Jackson, who made most of the experiments, declares solemnly that the fly is responsible for 5,000 of the 7,000 deaths annually in New York from typhoid and other intestinal diseases.

## DEAD FOOD FOR SNAKES.

Successful Attempts to Cultivate Reptiles In the Zoo.

"Can the snakes in the zoo be civilized?" It is a vital problem, especially to the ravens and vultures that swallow their food while it is alive and kicking. Dr. Chalmers Mitchell, the secretary of the Zoological Society, London, and Mr. R. I. Pocock, the superintendent of the gardens, have been raising the question of the reptilian palate by a series of interesting experiments, says The Daily News.

These experiments were made in the reptile house at feeding time. After carefully noting the way in which the reptiles ate and the manner in which they approached their prey, they came to the conclusion that all the snakes would swallow warm, freshly-killed food, and that small animals and birds, which are generally the favorite diet of captive snakes, were not frightened when put into the cage. Even the great python, which thought nothing in the old days of swallowing a live goat, a couple of rabbits and several pigeons, was satisfied with the same menu when served "dead."

One of the results of these experiments is that a motion will be brought forward at the next meeting of the society recommending the council to discontinue the feeding of the snakes with live animals. There are still one or two fastidious reptiles in the zoo that will not take their food dead, but the civilizing influence of the snake being brought to bear upon them. It is contended by those who wish to see the live diet continued that a python or a boa constrictor can kill its prey more humanely than most people who visit the reptile are capable of—that it is killed more neatly and with greater suddenness. There are others who contend that dead food is not a natural diet. In spite of this, Dr. Hornaday of New York was successful in inducing venomous snakes to swallow freshly-killed food.

## Fox-Hunting Curates.

To The London Times a correspondent writes: "Once when a duke of Grafton was thrown into a ditch by a young curate, who had been closely competing with him for pride of place, shouted, 'Lie still, your grace,' and cleared him and his hunter and the fence at a bound. So pleased was the duke with the performance that he declared he would give the young divine his first vacant living, and not long afterward carried out the promise, vowing that if the curate had stopped to pull him out of the ditch he would never have mentioned him. 'Sporting persons' are still to be found in almost every county to-day who can hold their own in the first flight when hounds run hard, and some of the keenest fox hunters in all times have been supplied from the ranks of the clergy. Even the warning against their 'hawkyng, huntynge and danyng', in the reign of Henry VI., appears to have had very little effect."

"It is difficult, indeed, to understand why riding to hounds should be considered an unclerical practice, for if skill with bat and ball is commendable in a curate it seems somewhat illogical to condemn the love of field sports in a vicar, and men of the stamp of Rev. Jack Russell or Rev. Charles Kingsley, were not the worse clergymen for being ardent fox hunters. But reverend masters of hounds are becoming scarce."

## Dodging the Rules.

After being conducted through an old church by the vergers a visitor was so pleased with the official's courtesy and information that he insisted on giving him half a crown. The man shook his head sadly. "Thank you, sir," he said, "but it's quite against the rules."

"I am sorry for that," said the visitor, about to return the half crown to his pocket.  
"But," added the vergers, "if I were to find a coin lying on the floor it would not be against the rules for me to pick it up!"

## THE AUTOMOBILE

## DISEASE.

Thousands Die From Inhaling  
The Fumes Of The  
Gasoline

NEW YORK, Sat.—The gasoline driven automobile has added a new disease to the woes of civilization—a disease which may cut ten years off the life of the person afflicted. I may call it automobile disease, and have discovered that not only in New York in streets frequented by such motor cars, but in Paris, London and Berlin it also exists.

Dr. Henry C. Becker, a prominent physician of No. 113 West One Hundred and Fourth street, made this statement last night after conducting tests for nearly a year on patients affected with the new malady, which affects the throat and lungs, causing congestion and decay, and giving a working area for the bacilli of consumption, pneumonia, grip and other diseases peculiar to the respiration.

"About a year ago," said the doctor, "an officer whom I later found to be a member of the traffic on the squad stationed on Fifth Avenue, at a point where the gasoline fumes from cars often choked him, came to me complaining of chronic sore throat. His case baffled me. Examination showed it was no ordinary disease, and I conducted an investigation. I found that one week after the bluecoat had been transferred to a district not haunted by motor cars he got well."

"Other similar cases came to my attention, and I communicated with physicians in European cities. The international investigation proved that my tentative theory was right."

Some device should be used to absorb the fumes from these machines, as they endanger probably thousands of lives daily, especially those of the traffic squad policemen."

## MONCTON DETECTIVE

## TOO OFFICIOUS,

MONCTON, Saturday. — Mr. Nelson L. Rand, Divisional Master Mechanic of the I. C. R. was the victim of a brutal assault on Main street this afternoon, when he was struck down by Geo. Skeffington, formerly head of the I. C. R. Detective Department. Skeffington for days past has made himself conspicuous by dogging and annoying prominent citizens, and this culminated this afternoon in the un-called for and brutal assault upon Mr. Rand.

Mr. Rand was walking down Main street, between Bonaroad and Archibald shortly before two o'clock this afternoon when Detective Skeffington walking along from the rear, Mr. Rand says, deliberately went out of his way to bump into him. Mr. Rand remarked, "That's the third time you have bumped into me, and I don't want you to do it again."

No sooner were the words out of Mr. Rand's mouth than Skeffington wheeled and struck the unsuspecting victim a terrific blow in the face, felling him to the sidewalk. Mr. Rand was dazed for the moment, and was barely able to stagger to his feet. As he did so, he called out to Skeffington who was continuing on down the street, "I'll have you in the penitentiary for that." Skeffington responded, "I didn't hit you," and repeated this over twice.

Mr. Rand made his way home, and Dr. L. N. Bourque was summoned. It was found that Mr. Rand had sustained a severe cut over his left eye, the lid being almost entirely severed, while there was another slight cut above the eye, and an extensive bruise which extended all over the cheek.

Dr. L. N. Bourque expressed the opinion that the injury could scarcely be caused by the naked fist, but that there must have been some hard substance purposely held in the assailant's hand to cause so serious an injury. It is believed that had the blow been struck at a slightly different angle, and landed on Mr. Rand's temple, it would have resulted fatally.

Skeffington was arrested this afternoon by Chief of Police Rideout and lodged in the lockup. Bail was refused, and he was remanded until Monday morning.

## JUSTICE KILLAM

## IS DEAD.

Chairman Of The Government  
Railway Commission Passed  
Away On Sunday

OTTAWA, Sunday.—Justice Killam of the Supreme Court and chairman of the Government Railway commission died this morning after a brief illness. He had suffered from pneumonia. His heart became affected and resulted in his demise. A week ago Saturday he was at his office. Heavy work is said to have aided his collapse. The body will be sent at noon tomorrow to Winnipeg for interment.

It is easy for a man to fool himself just now he thinks he would not be in this election and in the end he will find out that he is a fool.

## THE LEAP YEAR

## CALICO BALL.

Sixty Couples Trip the Light  
Fantastic Keeping up the Old

## WOMAN'S MISSION-

## ARY SOCIETY.

An Interesting Programme For  
The First Friday In  
March

Watchword—"Unto Him who loved us." Subject of Prayer—"Our Homes and Institutions." Subject of Study—Chapter V, "Gloria Christi," 1st part.

1—Hymn. Scripture Reading responsively, Luke X 25-37. Prayer.  
2—Regular Business.  
3—Hymn.  
4—Watch-Tower.  
5—Ten minute paper on "The Leper Problem," by Mrs. T. A. Clarke.  
6—Reading, "Story of Mary Reid."  
7—Reading, "A household remedy for a dread disease."  
8—Five minute paper on "The need of Orphanages and the care of children," by Mrs. Rice.  
9—Hymn.

The following are the Heralds on the Watch-Tower from whom we expect to hear some news from their respective fields:—Mrs. Price—Japan; Mrs. E. A. McLean—Chinese and Japanese in B. C.; Mrs. Rice—French Canada; Mrs. T. A. Clarke—China; Mrs. Gifford—The Galicians in Alberta.

The President is going to ask the first fourteen questions in the "Quiz" at the back of the new Annual Report. These Reports are at the place of meeting, so any who wish one before Friday may get it there at any time.

In the Days of Toryism. When the conservatives were in power the clerks and other employees in the I. C. R. were returning officers, and poll clerks and even went out lecturing for the tory party, but now if a liberal clerk or other employee says a word in behalf of the local government he is ridiculed by the conservative press and sympathizers and even the Minister of Railways will allow himself to be fooled by these purveyors of lies. The tory claim purveyors in this election and in the end they will find out that they are fools.

## Social Personal.

Miss Fleigher has returned after a visit to Chatham.

## MCCULLAM-ARCHIBALD.

A very happy event took place on Wednesday evening last, at the residence of Mr. and Mrs. James McCullam, Mitchell street, when their son Stafford, was united in marriage with Miss Bessie, daughter of Mr. and Mrs. Archibald, of Millerton. The ceremony took place at nine p. m. Rev. H. C. Rice tying the nuptial knot. The couple were supported by Mr. and Mrs. Thomas Murphy. Miss Jean A. McKay was the only maid of honor. After a delightful supper, the large number of guests separated and left for their homes. The bride received very many presents both useful and ornamental testifying to the couple's popularity.

## FRATERNAL VISIT.

About twenty members of Caledonia Division No. 128, S. of T. came up from Douglastown Thursday night to visit the Newcastle brethren. A very pleasant evening was spent. After regular business was over a special programme was carried out, very agreeably broken in the middle by the passing of refreshments. Speeches were made by Messrs. J. D. MacNutt, Ald. T. A. Clarke, H. H. Stung, Wm. Moore and Sterling Wood; instrumental solos by Miss Rennie McQuarrie, Lillian Williamson and Hilda Pass; solos by Harrison Gough, Misses Evelyn Williamson, Lorna Geikie and others; Recitations and readings by Misses S. Smallwood, Ella O'Donnell, Annie Corbett, Helen Gray, Messrs. Geo. Cassie, Hector McQuarrie and others. The meeting broke up late in the evening, every one voting that fraternal visits are a success.
