That the Grampian did not suffer the fate of the Titanic with considerable loss of life is believed to have been due to the decision of the captain to strike the iceberg bow-on instead of taking a glancing blow on the side. The berg, which was very large, was encountered 45 miles off Cape Race in the early stronger. evening. When it was sighted through the fog it was too late to clear it, although the ship was proceeding slowly.

The course was changed, and the Grampian struck the ice mountain squarely headon. The entire forepart of the ship was smashed in above the waterline, the heing driven back nearly 10 feet. The vessel was undamaged below the waterline, however, as the portion of the berg which she struck proved to he an overhanging shelf.

ST. MARYS. July 9.—At the regular meeting of the town council Mayor Dale sprung a surprise by stating that he had received a check payable to the town of St. Marys, of \$268.91, from the hydro power commission at Toronto, as being an over-paid account. The hydro auditors went over the accounts of the water, light and power commission of St. Marys from 1912 to 1917, and instead of the town water system being indebted several thousand dollars, as had been often stated to the public and town council, the check revealed a surprise.

The council has proclaimed the first Monday in August civic holiday. Plans Monday in August civic holiday. Plans Monday in August civic holiday. Plans of the underdrain at the flats show the drain to run under the Thames mill dam were received. The G. T. R. bridge department sent word to the council that the overhead bridge will be completed as soon as possible. The personal bond of H. A. Dinsmore, the new tax collector, was accepted, \$5,000 being the amount. The new entrance to the fair grounds will be helped through by the council grading Ann street.

GRANTON, July 9.—Before leaving Granton for Teeswater, a large number of the friends of Rev. F. G. and Mrs. Robinson gathered at the home of George Westman, the oldest member of the Granton Methodist Church, to bid Mr. and Mrs. Robinson and their daughter, Miss Fern Robinson, farewell. Mrs. Melville Westman read a beautifully worded address and Miss Olive Cook, organist and choir leader of the church, presented Miss Robinson with a solid gold wrist watch. The address spoke in high terms of Miss Robinson, and was signed on behalf of the congregation by Olive Cook, D. C. Crawford and George Westman.

C. W. McRoberts spoke a few words, stating that Miss Robinson would be greatly missed in Granton Methodist Church. GRANTON PRESENTATION.

ambition, courage and real vital energy into a tired, run-down and shattered nervous system.

Here is a test worth trying. The next time you feel tired, blue, or when your nerves are fairly crying out, take a Ferro-Peptine nerve tablet. Then wait for just ten minutes, and note results. Ferro-Peptine seems to go straight to the nerve cells and starts work the minute it reaches them. It brings a ten-minute change from that awful dull, weak, lazy, don't-give-a-hang feeling, to brightness, strength, clear-headedness and courage. It calms and strengthens the nerves of people who get the "jumps" and fldgets, and gives them poise, power and tremendous reserve energy. Ferro-Peptine Tablets are absolutely harmless, contain no dope or habit-forming drugs, and are always safe, easy, pleasant and efficient. Two proposals looking to examination in Parliament of federalism or something akin to it have been made recently. The House of Commons on June 4, after a debate of two days, adopted a resolution favoring the appointment of a parliamentary committee to examine and report upon the creation of subordinate legislatures. A second suggestion along this line, was The Irish home rule act passed May 25, 1914, never became effective. It was put on the statute books, but it was suspended during the war by an

But fire is the difficulty. We recommended that a number of the more important Germans who are alleged to be guilty of atrocities be tried for their offences before the tribunal we recommended. That also is not being done, for international law provides that where offences were committed other than the ordinary acts of war that the guilty parties shall be responsible to the country whose citizens sustained injury, and damage and that is what is intended in the treaty. Mr. Massey thought that the South Sea Island decision would work out in a satisfactory manner, and that New Zealand would be able to administer the islands.

Samoa, itself, is one of the most important keys to the Pacific and simply cannot be held by any other power than the British.

Mr. Massey did not expect another war in this generation at least. He did not want to judge the Germans harshly, but he was afraid that they were still infected by the military germ. As for France, the other great powers could not afford to allow her to be exposed to a German menace.

"The signing of the treaty," he said, "will go a certain length in allaying the labor unrest. But the good sense of the British public will go much further, for they must see that the only remedy for the troubles from which we are suffering is industry and our production, which is not up to normal, must be increased. And at the present time and for some years past Mr. Dewart has been the only man in the Liberal opposition that the present Hearst administration has had reason to fear.

On the nickel issue alone Mr. Dewart, although, as in the liquor bureau "investigation" of a few weeks ago, fighting single-handed, and "repudiated" by the finding of the commission, and made it certain that Canadian nickel which was reaching Germany should be controlled, and that the American company which was making and lenormous thing out of this tremendously valuable natural resource should pay a fair shared its wealth to the country. Mr. Dewart proved his mettle at the expense of the metal monopoly, and he made many enemies. But the people as a whole were not included. Those who commended to throw slones were those Toronto dictators who would have permitted the export of nickel to continue, and to reach Germany at a moment when it was perhaps the most vital necessity in contention with the war. Mr. Dewart saked in connection with the war. Mr. Dewart saked i of a few weeks ago, fighting single-handed, and the kaiser in London. This element, that prayed

Mr. Dewart also launched an attack upon the financial dealings of the officers appointed to administer the liquor law. Mr. Ayearst was shown to have been the custodian of a joint account into which detectives paid their fees. He accepted 'loans' from this account, and it was stated in evidence that he was to have received a third. The commission exonerated him. His chief assistant was suspended for his acceptance of a portion of the money paid by the Government to "spotters." The last has not been heard of the case of Mr. Ayearst if the temper of Mr. Dewart in the matter may be judged. He may be expected to reopen the matter and bring further fortex to light a result of the far-flung chain of colonies, colonies, colonies, that endure and grow and fight for right and discort for mie.' These have been the most notable attacks conducted by the member for Northwest Toronto. But during the session recently closed he was the most active man in the Legislature, and punctuated the debate with comments that sailed home with a sting for the "sloppy" and crude work of

the Government leaders.

He has shown his wide-awakeness in the public interest in the last few days in connection with the appointment of enumerators for the city of Toronto to prepare lists for the forthcoming liquor referendum. Mr. Dewart has proven considered to the one who can perform a murder as diabolical as any of the million murders of men, women and children of which the kaiser is as guilty as hell!

What Is Fascination of Picnics?

What is the peculiar fascination of picnics? That is a question which many people in the city should be ready for today, as there were at least twenty large plenies held at Port Stanley and Springbank yesterday. It cannot be that the ride on the electric cars is an enjoyment. Usually they are so crowded that it de on the electric cars is an enjoyment. Usuany they are so clowded that impossible to ride with any degree of comfort whatever. It cannot be the is impossible to ride with any degree of comfort whatever. It cannot be the food which is eaten. Much better can be procured with home conveniences. Surely it is not the races and games which the present day's tight skirts and imactivity render but a farce! A superabundance of fresh air may have something to do with it, but then people don't usually go off in large and jolly companies merely for the henefit of their health.

What is, then, the reason that during the summer months every organizawhat is, then, the reason that during the summer months every organization, or society or group of people must migrate for a whole day to the country? The answer seems to be this: Deep down in every civilized soul there still remains a spark of the primitive. Hundreds of years have failed to blot out of the memory of man the feeling that he was once a savage. The call of the wild still faintly sounds within him. And when the delightful days of spring and summer come there is sure to be a time when he cannot resist that call, and

Large picnics are but the simplest means of giving him the opportunity which he craves. Persons in authority sense the restlessness of those associated with them, and the picnic happens as a sort of exhaust, without which the whole organization might blow up and burst. Of course, in a great many instances, picnics have become annual affairs, and no one troubles to figure out why they happen. But just let them be missed for a way on the course and they happen. happen. But just let them be missed for a year or two, and then the reason

And so men and women, still a tiny mite savage at heart, leave their comfortable homes and well-prepared meals, to jam into crowded cars, drink sicklylooking lemonade and munch dry sandwiches plentifully besprinkled with sand, because they enjoy it. And they chase each other wildly over the green, simply because they enjoy it. And they chase each other when over the green, stumbling and tearing their clothes, and streaming with perspiration, to win a bag of pop-corn which they don't want to eat. What a farce it all seems, and yet how utterly delicious!—ROSALYNDE.

What a lot of camouflage there is about all this sort of thing. Are women really fooled by it, or do they just pretend that they are Drudgery? Why, the world's built Drudgery? Why, the world's built up on drudgery!
What would happen to the women of the race if the men should suddenly decide to stop drugging and lead the Beautiful Life as a matter of plain duty to their family?

Newman Scores Both Runs.

Lefty' Newman, the London first sacker, enjoys the unique distinction of being the only London player to score a run in the two games here with the Acces. He brought both London courters in yesterday. In the third in the got on by virtue of a base of second. Pittenger beat out a hit of the pitched with a nice of second. Stewart filed out, our Fernley, London's shirld base and Newman cane all the way home, just beating Gleich's throw. In the eighth inning Newman opened with a nice triple to deep right-centre. Stewart sent Gleich back to the fence to get his fly, and Newman easily scored, Gleich being too far out to peg.

Saginaw only got one man as far as shird. This happened in the first frame, when Pike beat out a hit to peg.

Flint here today for a double-header, weather permitting. Pierce's aggregation are coming here from Hamilton, where they have just had an awful time the Tigers, losing three games in with the Tigers, losing three games in wo days. They're diving hard, and the recumsehs are due to push them furbar downward.

Hamilton has a chance to oust them of first place this week. Only two her downward.

The Hams have signed up "Hick" Ferrell, who deserted the Bay City club. Bay City has apparently waived all claim to him, and Shaughnessy was quick to grab him. Ferrell has a good arm, but they say his head isn't worth much

Yim, the Chinese ball player, has been released by the Bay City club. The new Bay City manager is making a clean sweep and shaking up the team a lot. He has signed up a new shortstop named Shaw. Grodick, formerly with London, is playing right field in Yim's place.

Lotshaw gets a home run every day at Brantford. Guess he wishes every ball park in the league had a short right field fence. He put one into the river yesterday, and the splash was so great the umps nearly called the game on account of rain

Bills, who pitched against London yesterday, was cast off by Knotty Lee. Bills looks like a fair pitcher. The Tecumsehs were not taking many liber-Saginaw had first chance at Clarke Pittenger, but Wetzel turned the chance down. "Buzz" mentioned the fact yes.

Newman twisted his ankle when he stepned on the wish less than the stepned on the wish less than stepped on the plate with London's first run yesterday. He limped during the remainder of the pastime, and when he hit his triple in the eighth he hopped part way to third base on one foot. The hit might have guess for a homer otherwise. The injury is not serious.

BEAVERS AND WOLVES PLAY LONG AND HARD

KITCHENER, July 9 .- The Kitchener Beavers and the Bay City Wolves played baseball for four hours and thirty-five minutes this afternoon, with ten minutes' intermission between the two games. The Beavers won the first by 6 to 3, the visitors scoring only 7 hits off Chaple. Wheeler was hit in bunches by the Beavers, who kept safe distance from their opponents in scoring runs. The second game was called at the end of the ninth on account of darkness. Both teams started off with new pitchers, Kitchener trying out O'Rourke, who lasted for five innings and was replaced by Ross, and the Wolves tried out Campbell, who only lasted part of the first inning, and Cook relieved him. Bay City came from behind and tied the score in their half of the sixth, and gained a lead of one he two games. The Beavers won the of the sixth, and gained a lead of run in the seventh. Kitchener t up again. No runs were scored by either team in two extra innings. Scores of the games;

He leads the league for triples. He clouts them nicely when he connects. His work in the outfield is as good as the league on offer.
