Technical and Bibliographic Notes / Notes techniques et bibliographiques

The Institute has attempted to obtain the best original copy available for filming. Features of this copy which may be bibliographically unique, which may alter any of the images in the reproduction, or which may significantly change the usual method of filming, are checked below.

L'Institut a microfilmé le meilleur exemplaire qu'il lui a été possible de se procurer. Les détails de cet exemplaire qui sont peut-être uniques du point de vue bibliographique, qui peuvent modifier une image reproduite, ou qui peuvent exiger une modification dans la méthode normale de filmage sont indiqués ci-dessous.

The copy filmed here has been reproduced thanks to the generosity of:

Metropolitan Toronto Reference Library
Baldwin Room

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol → (meaning "CONTINUED"), or the symbol ∇ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Metropolitan Toronto Reference Library
Baldwin Room

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole → signifie "A SUIVRE", le symbole ∇ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

STANDARD WORKS OF REFERENCE.

The Imperial Dictionary of the English Language.

By John Ogilvie, LL.D. New edition, carefully revised and greatly augmented. Edited by Charles Annandale, M.A., and illustrated by upwards of three thousand engravings printed in the text. The Dictionary is printed on excellent paper in clear, distinct type, and published in four volumes Imperial 8vo. Cloth, \$22.50; Sheep, \$30.00; Half Russia, \$35.00.

This new edition of the IMPERIAL DICTIONARY in four volumes—a work which has been accepted in Great Britain for more than a quarter of a century as a standard lexicon of the English language, and as one of the most extensively useful for the purposes of general reference and every-day requirement—has been in preparation for more than *Ten Years*. So greatly has the vocabulary been augmented, and so extensive and important are the changes resulting from the revision, that the IMPERIAL DICTIONARY, as now issued, may justly claim to be considered a *new work*, the words or separate entries comprised in it being about 130,000.

Webster's Dictionary of the English Language.

Thoroughly revised and greatly enlarged and improved by Goodrich and Porter. With an appendix of useful tables, to which is added a supplement of nearly five thousand new words with their definitions, etc. Also a NEW PRONOUNCING BIOGRAPHICAL DICTIONARY, containing nearly ten thousand names of noted persons in ancient and modern times, giving their nationality, their occupation, and the dates of their birth and death. New edition, sheep, \$12.00.

Willing & Williamson, 7 and 9 King St. East, Toronto.

Worcester's Dictionary of the English Language:

New edition, unabridged, with supplement, containing over 12,500 new words and entries, and a vocabulary of synonymes of words in general use. New edition, sheep, \$10.00.

Skeat's Etymological Dictionary of the English Language. Unabridged. Small, 4to, 800 pages. Cloth, \$2.75.

This marvellously cheap edition of the great scholarly work of Professor Skeat has been prepared for the American and Canadian market by the Oxford Clarendon Press. It contains exactly the same matter as the edition which has been appearing in parts during the past five years, and which sells in its complete form at \$12.50, the difference being that this is printed in a slightly smaller type on thinner paper, making the book a really more compact and desirable one for reference.

A New Latin Dictionary.

Founded on the translation of Freund's Latin-German Lexicon. Edited by E. A. Andrews, LL.D. Revised, enlarged, and in great part re-written by Charlton T. Lewis, Ph. D., and Charles Short, LL.D. Sheep, \$10.00.

A Greek-English Lexicon.

Compiled by Henry George Liddell, D.D., and Robert Scott, D.D. Seventh edition, revised and augmented throughout with the co-operation of Prof. Drisler. Sheep, \$12.00.

Haydn's Dictionary of Dates.

Revised for American readers. New edition. Cloth, \$6.75.

Lippincott's Gazetteer of the World.

An entirely New and Revised Edition. A complete Pronouncing Gazetteer or Geographical Dictionary of the World. Containing notices of over 125,000 places, with recent and authentic information respecting the Countries, Islands, Rivers, Mountains, Cities, Towns, etc., in every portion of the Globe. Thoroughly reconstructed and greatly enlarged. One volume. Imperial octavo. Embracing 2478 pages. Bound in Library Sheep, \$12.00; Half Russia, \$14.00.

Soule's Synonymes.

A Dictionary of English Synonymes and Synonymous or Parallel Expressions, designed as a practical guide to aptness and variety of expression. 12mo, 450 pages. Cloth, \$2.25.

"The main design of this Dictionary is to provide a ready means of assistance when one is at a loss for a word or an expression that best suits a particular turn of thought or mood of the mind, or that may obviate an ungraceful repetition. Even practical and skilful writers are sometimes embarrassed in the endeavour to make a sentence more clear, simple, terse or rhythmical, by the substitution of one form of dictation for another. It is presumed that they, as well as novices in composition, will find the present work useful in overcoming difficulties of this sort."

The Johnson Revolving Book Case, WITH INDEPENDENT ADJUSTABLE SHELVES.

This Book Case, though designed for every person who owns and reads books, is especially useful to Lawyers, Physicians, Clergymen, Teachers, and all who have occasion to handle reference books.

All classes of readers, and students are aware of the importance of reference books, and that their value depends upon the frequency of employing them, and that the frequency of employing them depends largely upon the convenience of getting at and handling them. Hence such books should always be close to the hand of the reader.

The apparatus is made to hold one, two, three, or four tiers of books. It is so well represented by the illustration that a further description is unnecessary, save to suggest some of its merits:—

1. Being made entirely of iron, it can never shrink, warp, crack, nor get out of order.
2. Though made of iron, it is not heavy, yet it is capacious and strong.
3. It is constructed in such a manner that it can never wear out.
4. It occupies less space than any other book case. In fact, it is the most compact book case in the world, as it contains more books for its size than any other device. It is minimum in size, and maximum in capacity.
5. It rotates with such perfect freedom, that it is easier to bring the Dictionary into proper position by revolving the case (full of books) than by turning the Dictionary on the case.
6. It is highly finished, beautifully decorated, and an ornament in any room, office, library, or parlour.
7. Each shelf is made of one piece of metal, and by means of two set-screws, is securely fastened to a revolving iron cylinder, which is centered and supported (from the top) on an iron post set into the base—the cylinder surrounding and rotating around the post its entire length.
8. Each shelf is independent of all the rest, and each shelf (when more than one tier of books is provided for) is adjustable up and down on the cylinder, to adapt the several apartments to books of any height.
9. As a revolving book case with independent adjustable shelves, it has no equal.
10. It is the cheapest book case made.
11. It supplies, in the best possible manner, a want long felt by extensive readers and professional men; the demand for it has already become very extensive, though it has been in the market but a short time.

N. B.

The following pages were issued a few years ago as Willing & Williamson's Educational Reference Catalogue, a complete list of the current literature of England, the United States, and Canada, appertaining to education. Time has, of course, made many changes in editions as well as in prices, but the Catalogue will still be found very valuable for reference by the teaching profession, who will, however, note that in reissuing it we do not undertake to be governed by the prices, which can be considered approximate only. Some of the Books are now cheaper, some more expensive, while others are entirely out of print, and many are repeated in the new list to which this is appended.

NEW BUSINESS PENCIL.

PRICE 65c. or POST FREE 75c.

Open, 4 1/2 inches.

Closed for Pocket, 3 1/2 inches.

MADE of best quality of hard rubber and fine gold plate mounting. No springs or complicated mechanical movements are used. It is simple and strong in construction, and very handsome in appearance. Being only 3 1/2 inches long when closed, can be carried in the vest pocket, where it is much less liable to be lost than if carried in the side pocket, where larger pencils can only be carried.

EVERY PENCIL WARRANTED.

A. T. CROSS "Perfect" Stylographic Pens.

Cut, showing style of our No. 461 Pen. Price, plain, \$2.50. Gold Mounted, \$3.00.

The best and only perfect fountain pen, simple and easily kept in order. As certain of operation as, and infinitely more valuable than, a lead pencil.

Its principal distinctive features being:—1st. Its new shape and outline, with double the ink-carrying capacity of the ordinary style; 2nd. Its new spring and needle attachment, composed exclusively of gold and rubber, by which all action of acid inks is resisted, making the internal mechanism practically indestructible; 3d. Its new reverse case, or enlarged "Point-Cap," which is not easily lost or mislaid, like the small Cap of the older style Pens—the whole embodying the very latest modern improvements which tend to the successful production of a "Perfect" stylographic, or fountain pen.

(Point Cap.)

Cut, showing style of the new Library Pen, No. 463. Natural size. Price \$4.00.

Pronounced by experts to be the very best Stylographic Pen yet produced, and is now sold by the leading stationers in New York and Boston as the best pen procurable in the market.

In sending pens by mail, customers will bear in mind that we do not guarantee safe delivery, although every precaution will be exercised that secure packing and proper directions may secure against loss or damage.

N.B.—Each pen is packed up in a handsome new style of box, which contains, besides the ink filler and brass cleansing needle, a full and complete list of directions for the use and care of the **A. T. Cross Pen**.
