He took for his subject "The Battle of Life" by Dickens, and after a few introductory remarks of the novelist, gave a most interesting talk. The history applied, significant to the appreciation of those present for his most interesting talk.

**ANOTHER STRANGE CASE OF FALLING OFF TRAIN**

WOODSTOCK, Dec. 2.—The police here were notified yesterday that a drunken man was being brought to town by a C. P. R. freight. They met the train and had handed over to them a man believed to be E. N. Meadows, M. D., of North Dakota, whom the crew of a freight had seen lying in a creek about two miles east of Ingersoll. They stopped the train and went to what they supposed the lifeless body, but the man was alive, so that he was handed over to the police here. He was wet through, and not sober enough to tell who he was but had a sleep in the cells and was dressed in dry clothes.

Chief Killing found his name and address in papers in his pocket. Later he said he came here from Thamesford and left for the village by C. P. R. at 11 o'clock. He evidently fell from the train, and as in the case of H. L. Rice of St. Marys, a few days ago, struck the decline, rolled to the bottom, and was unhurt. Mr. Rice left the hospital for his home.

**GUELPH MAN BADLY HURT BY FALL FROM TRAIN**

GUELPH, Dec. 2.—W. D. Williamson, former Commissioner of Public Works of this city, is lying at his home on Suffolk street, suffering from the result of an accident which occurred at Acton on Saturday, which might have resulted in his death. Mr. Williamson spent the day in Toronto, and was coming home on the night train. The train is a fast one and does not stop at all stations and when she pulled out of Georgetown the brakeman called out Guelph as the next stop. However, the train slackened up at Acton and Mr. Williamson thinking it was going to stop, and that he had reached Guelph, attempted to get off, with the result that he was thrown heavily to the ground between the tracks out. He is suffering a great deal from shock, but otherwise is doing as well as can be expected.

**MEXICAN REBELS ARE PROVING THE WINNERS**

Mexico City Will be Taken Within a Month, Says Leader—Federals Desert City—Latest News of Mexican Situation.

JUAREZ, Mex., Dec. 2.—Hasty preparations were under way to-day in the rebel ranks for the occupation of Chihuahua, the capital of Chihuahua state, which is reported to have been evacuated by the federals because of threatened starvation of its 35,000 population.

Pointing out that of the important federal strongholds in the north only Monterrey and Guaymas remained, General Francisco Villa, the rebel leader, said Chihuahua would be made the base of aggressive activities southward. Just when forces will be sent to pursue General Salvador Mercado, Huerta's military governor, who is reported to be fleeing to the United States' border at Ojinaga, with 2000 famished soldiers, and Generals Orozco and Salazar, said to have taken to the mountains, Villa declined to say definitely, but said the rebel advance toward Mexico City would continue briskly.

"We will be shooting at the ramparts of Mexico City within a month," said Villa. "We are confident that when the people in the capital realized that we have captured almost all of the north and are in sight of the city's gates, they will voice their feelings which they are now afraid to do, and will clamor for the downfall of the usurper. A mob in the capital can oust Huerta in a day."

With 3000 rebels and sixteen field pieces, advanced as far as Caribia, 90 miles south of Juarez on the way to Chihuahua, Villa will remain here to communicate with General Carranza before he personally proceeds south. At Chihuahua he expected to join General Chao and other rebel leaders and with a combined force of

With the City Police

Magistrate Livingstone was thanked volubly by a son of "Ould Erin" for allowing him to go. He was one of a large number of drunks who were let off, this being their first appearance.

John Aadi, a Greek, was charged with trespass, and he pleaded that he did not remember the offence. He was seen last night running away from some chicken coops when he was disturbed. He was caught and handed over to the police. His story did not avail, and he was fined three dollars.

Presenting a rather better appearance and being better-groomed than at their last appearance, two American youths, Jack Carter and William Hall were again in the dock. They have been living cheaply this last week, these two, at the city's expense. Their stories had been investigated and found to be incorrect. They were still very reticent and very little information was gathered as to their movements or intentions.

John Butler was found to be wearing a coat yesterday which was stolen on Friday from the Y. M. C. A. during the recent conference held there. Frank W. Nicholls of Chatham street complained of the loss and gave a description of the missing garment. P. C. Cobden was the man with a keen eye, which resulted in the return of the overcoat.

Butler was arraigned at the court and pleaded not guilty and alleged that he has owned the coat for some time. The case was then adjourned until Friday for investigation.

INDIA FEELING TENSE

VANCOUVER, B.C., Dec. 2.—There has arrived in the city, H. A. Matier, who has spent a considerable number of years in India and therefore is interested in the problem that now confronts the government arising from the judgment of Chief Justice Hunter in letting down the bars that formerly excluded Hindus from this province. He states that the feeling in India is at present very tense and that there is a probability of sensational developments in future.

### ATTEMPT TO STEAL FRENCH LANGUAGE

**What Ottawa Man Sees in St. Andrew's Day Speech of Bishop Fallon.**

OTTAWA, Dec. 2.—Mr. Samuel Genest, chairman of the Ottawa separate school board, to-day made a reply to Bishop Fallon of London. He made one of his usual protests against what he looks on as attempts to deprive French Canadian people of their language.  
Speaking of Bishop Fallon's address delivered to St. Andrew's Society at London when he declared himself to be an ardent imperialist, Mr. Genest stated that he had no wish to get into controversy with the bishop on the policy of imperialism, but recalled that when parish priest in Buffalo, Bishop Fallon had delivered a lecture before St. Patrick's Literary Society here, on St. Patrick's Day, in which he had denounced the efforts of the British Government from top and bottom, saying that for hundreds of years they had been little short of iniquities; now, however, he declared himself to be an ardent imperialist.  
Mr. Genest failed to see how the two statements could be reconciled.  
"The attempt to deprive the French Canadian people of the right to speak their own language," said Mr. Genest, "had a tendency to weaken the hold of British rule on the race."  
"Does that mean that you would favor annexation with the United States?" he was asked.  
"Well, no, not exactly that, but I might as well say right now, that if we are to lose our language we would not be in the least particular as to whether we spoke English or (Celtic) Gaelic. We would be more or less indifferent in the event of our losing our language."

### SERVICES HELD AT ALEXANDRA CHURCH

Evangelistic Services Were Commenced Last Evening.

The first of the evangelistic services held in Alexandra church was most successful. The church was filled and interest prevailed in every phase of the service. The Rev. McCintock expressed his appreciation in so many responses to the invitation to be present, and prospects are encouraging for splendid services. The Rev. D. C. McGregor also referred to the large number present, which went to prove the congregation were in sympathy with their pastor. Rev. Mr. McGregor gave a delightful and persuasive address on "The Vision of Isaiah" last night. His vision of Isaiah is that sin was until he saw God, and 3rd. Isaiah's vision of the world and the need. Professor Johnson of Hamilton, conducted the singing, which was entered heartily into by the congregation. Mr. Johnson also sang a solo "He saved a poor sinner like me." The choir were present and will be throughout all services. The Sacrament of Baptism was observed during the service. The Rev. McGregor baptized the infant daughter Grace Lois, of the Rev. D. ### TRYING TO SMOKE OUT DESPERADO IN MINE

BINGHAM, Utah, Dec. 2.—One hundred pounds of sulphur an hour has been burning in the Minnie Mine since 2.30 yesterday afternoon in an attempt either to kill or smoke out Ralph Lopez, the Mexican bandit, who has killed five men since he became a fugitive twelve days ago, after murdering one of his countrymen. Sheriff Andrew Smith said to-day that he would not allow his men to take any more risks of being shot, and that he would not open the mine for another search for Lopez for 48 hours from the time the fires were started. If this plan is carried out the bulkheads which now bar the passage into the mine will not be removed until Wednesday afternoon. Until that time the sulphur fumes will continue to be forced into the mine. There is but little doubt but that Lopez still is in the mine where he has been hiding since last Friday night. Sheriff Smith said he believed the bandit was dead, but would make sure by keeping up his fires of sulphur for another day. A hundred dead bodies remained on guard throughout the night but no sound came from the mine. The last word from the fugitive was heard yesterday when he called faintly for his former comrade and partner, Julius Corralo. Twice he called "Julio" in a voice that indicated pulmonary trouble, but when he was answered "some time later" there was no response from within, and it is the belief that the deadly fumes have accomplished their purpose. Only such work as has been necessary has been carried on here in the last few days, and business affairs are generally at a standstill so intense has become the interest in the man hunt. The streets and hills in the vicinity of the mine which holds the murderer are filled with men anxious to lend whatever assistance they can to capture Lopez. His own countrymen have turned against him, and threats were made that Lopez would never reach prison alive, even though he escapes death in the mine and surrenders.

**AT ST. JOHN'S CHURCH.**  
The services in St. John's Anglican church were conducted by the rector, Rev. C. W. Saunders, both morning and evening, and were well attended. It was Advent Sunday this morning of a special nature. In the morning the text was taken from the Gospel of St. John: 1:9-12. The evening discourse was most interesting and instructive from the words, "Thy Kingdom Come." Great stress was laid on the hastening of the Kingdom, and the opportunity of seeing it was in our power to do so. Jesus Christ the great Teacher left us an example of prayer: "When ye pray, say, Thy Kingdom come." The speaker referred to the preparation we make when we expect guests to arrive, and the necessity of preparing for the greatest of all, The Son of God and the privilege of sending the gospel to heathen lands. At even song an Advent anthem was well rendered by the choir. There will be special services during Advent to which all are invited.

### MOVING PICTURES IN HAMILTON SCHOOLS

Will be Used First Time in Canada to Assist Pupils in Geography.

HAMILTON, Dec. 2.—Following an order passed by the Hamilton Separate School Board at their meeting last night a series of motion picture films will be required for use in connection with geography instruction in the schools under the board's jurisdiction.  
The board recently purchased a motion picture machine to aid in making school courses more adaptable to the minds of young children. It was thought that the impression made by living pictures would be more lasting than the best of textbooks could produce.  
The children enrolled in the separate schools of Hamilton are the first in Canada to learn through this new method. When the order of the board goes into force they will be afforded the opportunity of seeing the life of the countries of the world pictured at life size. The woodcuts of the old geographies will be discarded for film reels and the names of places will mean more than ever they did before.  
It is expected that if this venture proves successful the motion picture method will be extended to other sources.  
Winston Churchill, First Lord of the British Admiralty, piloted an aeroplane for 40 miles.

# PREMIER BORDEN LEARNS RUSSIAN

### Acquires Smattering of the Language From Bath Attendant.

HOT SPRINGS, Dec. 2.—It seems that Robert L. Borden, the Canadian Premier, who spent a holiday at the Homestead, took an opportunity to pick up a smattering of the Russian language.

He discovered on the first day that his bath attendant was a Russian, and began asking him for the equivalent of simple English words. At the end of the first treatment he had learned about twenty.

To the surprise of the Russian he recited these perfectly upon his appearance next morning, and asked for more. These lessons continued for half an hour daily for three weeks, and when Mr. Borden went given on Saturday to see President Wilson he could have greeted the Russian Ambassador in his native tongue if he had run across him.

Mr. Borden is quoted as saying that in the same way he had picked up Japanese from a butler and a little Chinese from a Chinese cook while travelling in the woods in the North of Canada.

# REGRETS HIS CRITICISM OF HERBERT SAMUEL

### Sir Rodmond Roblin Learns That British P.M.G. Was Misquoted.

WINNIPEG, Dec. 2.—By special request of Postmaster-General Samuel the following cable was sent from London to Winnipeg yesterday:

"My attention has been called to the criticism in Winnipeg of myself for stating that in Winnipeg there were ten thousand children who did not go to school. I never made any such statement, nor even suggested that of any other figure."

Commenting on the above, Premier Roblin said that if the British Minister were incorrectly reported—and it would be an unprecedented thing for any English statesman to meddle in the domestic affairs of the overseas dominions—he desired to withdraw every statement he had made regarding Mr. Samuel, and regretted very much that he should have ever believed a gentleman holding his position could have made such a statement. Sir Rodmond hopes his apology will receive as much publicity as did his criticism.

## POLICEWOMEN SUGGESTED FOR GUELPH LOCAL STAFF

GUELPH, Dec. 2.—Sheriff Allan, president of the Humane and Child Welfare Society, has drawn the attention of the city council to the need in Guelph of a policewoman to be added to the present police staff. He wrote Mayor Carter, stating that, if appointed a woman would be able to do a great deal more than a man could possibly do by getting into touch with the mothers and children and would be a preventive officer, whereas the present staff seem to think they are doing their duty in punishing the offenders. The letter stated further that the society would like to have a by-law passed regarding dance halls, which should be supervised and placed under license.

## ANOTHER STRIKE

PATERSON, N. J., Dec. 2.—The prospect of another strike of workers faced the silk mills of Paterson yesterday. The crisis took place at 5 o'clock, the hour set by 6,000 ribbon weavers for effecting their plan to change the working day from 10 to 9 hours without reduction in wages. Heretofore the workers have quit at 6 o'clock, beginning yesterday. Seventy-five per cent. of the ribbon weavers were announced were pledged to carry out the change. Employers oppose the move.

The fastest mile was the third, in four minutes forty-seven seconds, the slowest the seventh, five minutes 57 seconds.

# Winston Churchill Qualifies For Air Pilot's Certificate

### Made a Flight in a Strong Wind and Manipulated the Levers for an Hour.

LONDON, Dec. 2.—Winston S. Churchill, First Lord of the Admiralty, is qualifying for an air pilot's certificate. He made a flight yesterday in a strong wind, accompanied by a military aviator, and manipulated the levers for almost an hour, covering a distance of about 40 miles. Since Churchill took his first flight in an aeroplane, recently he has been enthusiastic about the art of flying, which he said, is the most delightful recreation. He was up several times in naval aeroplanes and hydro-aeroplanes as a passenger. It was learned yesterday that these trips were mainly undertaken with a view to seeing how the air craft is managed, supplementary to the lessons he was receiving on terra firma. He took control of the levers for the first time on Saturday and spent the forenoon flying at the Royal Aero Club grounds. He donned the aviator's leather suit yesterday and took his seat in a dual biplane with Captain Lushington of the Naval Corps. Captain Lushington started the machine and when it was at a height of 500 hundred feet Mr. Churchill assumed the management. As the wind was very strong great speed could not be attained, but the First Lord handled the machine well for more than forty minutes at fifty miles an hour. Capt. Lushington then took over the control and brought the biplane to the ground.

Persons who watched the flight said Mr. Churchill displayed excellent skill and great coolness. He kept the machine at a perfect angle throughout the flight.

## Parliamentary Committee To Probe Cost of Living

### Feeling at Ottawa is That Work Could be Handled More Expeditiously Than by a Commission.

OTTAWA, Dec. 2.—A Parliamentary committee rather than a Government commission to enquire into the high cost of living is the present probability. In spite of all apparently authorized statements to the contrary, although there has been no Cabinet decision yet, and therefore anything is still possible, the present feeling is not over-whelmingly in favor of the commission idea, your correspondent learns. The question is one on which

## COMPLETE STORY IN ONE VOLUME

### Covering Over Four Hundred Years of Activity in Isthmus of Panama.

Since the eyes of the entire world are now focused on that little narrow neck of land which connects the two Americas, the natives of that part of the globe are beginning to wonder, if anybody has ever before known of their existence. Willis J. Abbot, the author of the new book on Panama and the canal, takes his readers back to the year 1500, at which time it is said the first Europeans landed in Panama. He describes the people of the Isthmus, telling of their customs, and dress; their home life, and special activities; their sports and pastimes. Interwoven with these beautiful word pictures are hundreds of photographic reproductions which accurately portray the scenes in the text. Many of these pictures were taken far from the path of the tourist, and show the almost uncivilized natives who live in the jungle, and who are quite unknown outside of their own little world because of the great difficulty in reaching them. Such illustrations are rare and are to be found only in this book. Beautiful large color plates also abound throughout the book, and these are reproduced in splendid full page form, with color studies. No book of a similar character contains such a wealth of magnificent color.

There is a world-wide interest in Panama at the present time, and information on the subject will be welcomed by all who wish to keep abreast of the times. Realizing this situation, The Courier offers "Panama and the Canal in Pictures and Prose" on the popular plan explained in the certificate which is printed daily elsewhere in these columns. Look for it to-day and clip it without delay.

Mother (to park policeman): "My little boy wants to see the monkeys. Can you direct us to the apary?"

The inward effects of humors are worse than the outward. They endanger the whole system. How's Sargent's Compound? All humors, cures all the inward and outward effects. It is the great alternative and tonic whose merit has been everywhere established.

## AMERICAN SUFFRAGISTS

They Meet in 45th Annual Convention at Washington, D.C.  
WASHINGTON, Dec. 2.—The 45th annual convention of the National American Woman Suffrage Association got fully under way here on Monday with Dr. Anna Soward Shaw presiding over an assembly of nearly 1,000 delegates from all states of the union. The gavel fell in the women's congressional at the same time. Vice-President Marshall and Speaker Clark were calling to order on Capitol Hill, a congress which the suffragists expected to do much for their cause.

A constitutional amendment extending the ballot to women throughout the nation is the goal for which a week of meetings, speeches and hearings before committees of congress will work. Addresses of welcome and reports of officers and committees take up the time of the first session to-day.

LABOR TO HAVE ROOM.  
SAN FRANCISCO, Dec. 2.—Samuel Gompers, president of the American Federation of Labor, accepted yesterday on behalf of the Federation the offer of a building on the site of the Panama-Pacific Exposition for a labor exhibit in 1915. The building will house the exhibit of the 100 international unions, affiliated with the Federation.

# PARLIAMENT OPENS JANUARY 8 OR 15

### Definite Announcement Is to be Made Within a Few Days.

OTTAWA, Dec. 2.—The first Cabinet Council since the return of Premier Borden was held yesterday afternoon.

There was a general discussion of the sessional program. The various subjects of legislation which have been previously indicated, together with the main estimates, are well advanced. By the end of the month preparation of Government legislation will have been practically completed, and for the first time in many years Parliament will meet with its work ready for it and with no reasonable excuse for delay.

The formal announcement of the date upon which Parliament will open will be made in the course of a few days. As previously stated, it will likely be on January 8 or 15. The session is expected to last from four to five months.

Please be prompt, as the cat is fired by the hour."

## CHALLENGES HIM

WINNIPEG, Dec. 2.—After last night's match Eugene Tremblay issued a challenge to Walter Miller to meet him in another match at 145 lbs. weight and under, bare-knuckled. "That was the only hold that Miller could work on me and it was his greater strength that afforded him this. With a man of my size I am never the least scared of a toe-hold as I can get away from it, but Miller was too strong to bear with this hold. I would like to meet him in Winnipeg again," said the stocky little Frenchman.

# SCREAMED WITH THE TERRIBLE PAIN

### "Fruit-a-lives" Completely Cured Distressing Kidney Trouble.

St. Anthon's, Ont., April 1st, 1913.  
"In 1911, I was laid up with Kidney Trouble and I was unable to get out of my chair. Had tried many kidney remedies without satisfactory results. The pain was excruciating and my screams could be heard on the street. One day a friend from Ottawa came to see me, and when he found me in such poor health, said he would send me a sample of "Fruit-a-lives", which he did and I commenced taking them. The results were so apparent with the first few doses that I continued to take "Fruit-a-lives" and was completely restored to my normal state of health. I would strongly advise anyone suffering with Kidney Trouble to take "Fruit-a-lives" and cure themselves." CHARLES CALVERT, 252 York St. a dealer for Fruit-a-lives, Limited, Ottawa.

## A TRYING PERFORMANCE

William G. Rockefeller, is president of the National Beagle Club, and an authority on dogs no less than on finance. Discussing the training of dogs at a recent club meeting, Mr. Rockefeller said: "Yes, training is an art. The simplest appearing canine performance, properly speaking, a difficult thing. It looks easy, but it is hard and thus"—Mr. Rockefeller smiled—"thus it is like the man at the photographer's."

"This man sitting for his portrait, said impatiently to the artist: "Well, have I got now the pleasant expression you desire?"

"Yes, thank you," said the photographer, "that will do nicely."

## TO POLITE TO RESCUE.

A mother was giving her child, a boy of seven years, some Bible instruction. She was telling him the story of Adam's fall. Having narrated the tale of the apple and what mischief it did, the mother asked, "Now, don't you think Adam did very wrong to eat that apple?"

The little fellow thought a moment, and then answered, "Mamma, would it have been polite to refuse the apple when the lady offered it to him?"

# BRANTFORD WANTS GLEBE LANDS SOLD

### Should be Made Accessible for Residential and Factory Sites.

OTTAWA, Dec. 2.—W. F. Cockshutt, M.P., headed a deputation which arrived here yesterday from Brantford asking that the Glebe lands east of the city be marketed and made accessible for residential and factory sites. The deputation included Mr. Brewster, K.C., M.P.P., and J. J. Spence, chairman of the Brantford Finance Committee, and they brought with them letters from the Board of Trade in support of their mission. The request was placed before Hon. Dr. Roche, Minister of the Interior, and the questions considered from the standpoint of the city and of the Indians whose interests are affected. The lands were surrendered by the Six Nations Indians in 1828 and again in 1845 to the New England Company which has carried on a Christianizing and missionary work among the Indians for nearly a century. The result of the deputation's visit will probably be an arrangement satisfactory to all the interests concerned.

Mr. Cockshutt also arranged with the Public Works Department for improvements to the public building at Brantford.

A mother was giving her child, a boy of seven years, some Bible instruction. She was telling him the story of Adam's fall. Having narrated the tale of the apple and what mischief it did, the mother asked, "Now, don't you think Adam did very wrong to eat that apple?"
