**THE STORY IN THE LONE INN.**

CHAPTER VII

She held out her arm toward the door, and kept it in that position until he was gone, angrily and haughtily. And for an hour after that, she passed to and fro, up and down the room, without stopping once, with eyes so full of dark, bitter gloom, that you would hardly have known her for the gay, laughing fairy of Fontelle Hall.

The sound of pleasant voices and gay laughter greeted the ears of Disbrowe an hour or so later, when he ascended to the parlor for the evening meal, and fell on his angry heart like vinegar upon ether. All the family were assembled there. Mr. De Vere sat in his armchair beside a couch, on which reclined the boy Jacinto, with whom he was gaily chattering. Somewhat paler and thinner than he had seen him last was Jacinto, but as handsome as ever, and looking wonderfully interesting, with his arm in a sling. "Oh, the heartiness beside him sat Jacquetta, laughing as merrily as though care or anger were to her words without meaning. Frank was leaning over the back of the couch, enjoying the fun, and Lady Augusta—the very image of a marble Niobe—sat near, with her pale face bent on her hand.

Disbrowe at once advanced to where the boy lay, and hurriedly began some words of thanks for what he termed his "brave conduct" and "generous heroism" in risking his life for a stranger, until the boy's full face flushed with embarrassment, and he shrank away, as if in avoidance of the subject. Jacquetta saw his natural confusion and came to his relief.

"There, there, Cousin Alfred, that will do; he'll imagine the rest, and it will spare your eloquence and your bathos. Here comes Tribula with the tea urn; so come, Master Jacinto, and sit here beside me; and if you are as hungry as I am, you will do justice to those delicious rice waffles and oyster patties I see there."

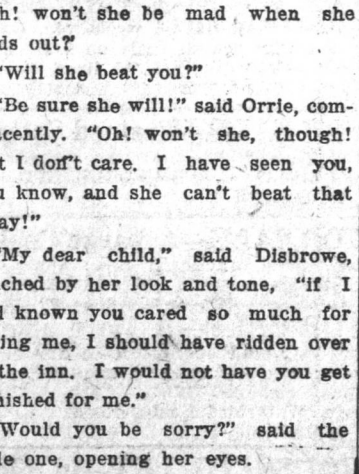

Disbrowe bowed coldly, and took his place. All the evening Jacquetta

utmost surprise, "If Miss Jack ain't a-cryin'!"

Jacquetta stooped down impulsively touched her lips to those that had so lately kissed Disbrowe, with the involuntary cry:

"Oh, Orrie! love me too! Dear little Orrie, love me, too!"

Orrie gave her one of her impulsive hugs and kisses, scanning her curiously meanwhile, and then she asked:

"But you were cryin', weren't you? What made you cry?"

"Me Nonsense, Orrie! I wasn't cryin'!" said Jacquetta with a gay laugh.

"Oh, I thought you were," said Orrie, apparently relieved. "I hate to see people cry. Oh, there's Frank! I must go and see him," said the elf springing from Disbrowe's arms, and running over to Frank.

Looking down at the same moment, Jacquetta caught the dark, bright, handsome eyes of Disbrowe fixed full upon her, and colored to the temples. With an impatient gesture, she turned away, and seated herself on a low ottoman, at Jacinto's feet.

Orrie had sprung into Frank's arms, and was clinging to him in her cat-like fashion, while Frank's countenance maintained an expression of haughty dignity.

"No, you needn't kiss me, Miss Howlet. And you had better get down off my knee, and go back to that big monster over there."

Instantly Orrie was off his knee; her black eyes flashing, and her small fist clinched.

"He ain't a monster, you great big story-teller, you! You're a monster yourself!"

"Why, Augusta," said Jacquetta, suddenly, "what do you see so wonderful about the child? You have been looking at her so intently for the last five minutes."

"Don't you see it?" said Augusta, with a look of transient interest in her heavy eyes.

"See what?"

"The resemblance to—"

"I see it! I noticed it from the first!" said Jacquetta eagerly.

"To whom?" said Mr. De Vere, while a slight paleness overspread the face of Jacquetta.

"To Jacquetta," replied both together.

"To Jacquetta? Bless my soul!" said Mr. De Vere. "Come here, little girl, until I see you."

Orrie walked over with imperturbable composure, and stood gravely before him. Mr. De Vere put his finger under her chin, tipped up her face, and looked at her, while the bright, blackeyes met his, unflinchingly.

"Pooh! She doesn't look like Jack!" said Mr. De Vere, contemptuously. "She has black eyes and black hair."

"While I am gray-eyed and red-haired!" broke in Jacquetta, with a laugh.

"The likeness is not much in feature as in expression," said Augusta. "I did not notice it until Frank angered her, and then the look was exactly the same."

"So it was," said Frank. "Come to think of it, she did look like Jack that time, in one of her tantrums."

"I have observed it, too!" said Disbrowe. "It is one of those accidental likenesses we sometimes see in strangers and that puzzle us so. I have known similar cases several times."

"It appears Miss Orrie is not the only one I look like, according to you, Captain Disbrowe!" laughed Jacquetta, "since I'm a miniature edition of Captain Nick Tempest, too. Now I can understand how I look like him; but I confess I am at a loss to trace a resemblance between myself and this dark little fairy here."

Honolulu. (A.P.)—Many evidences of human habitation were discovered on the new uninhabited island of Nihoa, part of the Hawaiian Bird Island reservation, 250 miles northwest of the main archipelago, by a scientific party which visited the reservation aboard the U.S.S. Tanager under the auspices of the Bishop Museum here, according to statements made on the return of the party to Honolulu.

Acres of garden terraces, house sites, implements scattered about the island, bluff shelters, infant burial places, skeletons and temple ruins were uncovered by the scientists.

They would tend to prove that the Nihoa residents bore some relationship to the inhabitants of the Hawaiian islands proper, according to Kenneth C. Emory, archeologist of the Bishop Museum. The temples bore a resemblance to the ancient Hawaiian heiaus, or worshipping places, especially in the dry masonry work and in the fact that some of the surfaces were paved with pebbles.

Conditions on Nihoa are favorable to human habitation, he continued. The soil is good and sufficient rain falls to permit of the cultivation of sweet potatoes, yams or sugar cane. Some of the relics found in the house

(A.P.)—Many evidences of human habitation were discovered on the new uninhabited island of Nihoa, part of the Hawaiian Bird Island reservation, 250 miles northwest of the main archipelago, by a scientific party which visited the reservation aboard the U.S.S. Tanager under the auspices of the Bishop Museum here, according to statements made on the return of the party to Honolulu.

Acres of garden terraces, house sites, implements scattered about the island, bluff shelters, infant burial places, skeletons and temple ruins were uncovered by the scientists.

They would tend to prove that the Nihoa residents bore some relationship to the inhabitants of the Hawaiian islands proper, according to Kenneth C. Emory, archeologist of the Bishop Museum. The temples bore a resemblance to the ancient Hawaiian heiaus, or worshipping places, especially in the dry masonry work and in the fact that some of the surfaces were paved with pebbles.

Conditions on Nihoa are favorable to human habitation, he continued. The soil is good and sufficient rain falls to permit of the cultivation of sweet potatoes, yams or sugar cane. Some of the relics found in the house

**One Cure for all Disease**

What is disease? Is it possible that all diseases are really one, and that one antidote might be discovered to cure every ill?

That is the startling theory of Mr. J. E. R. McDonagh, F.R.C.S., discussed in "The World To-day" by Mr. J. Johnston Abraham, the famous surgeon. Mr. Johnston Abraham believes that this theory may be the beginning of a new creative crisis in modern medicine.

"Disease," he writes, "if Mr. McDonagh's thesis is accepted, is simply a successful attempt on the part of the invading organism to rob the protective particles in the blood of their free electricity; and recovery from disease is a reversal of this process, due to the protective particles finally getting the upper hand of the invading organism by recapturing this electricity."

"It will thus be seen that the idea underlying this revolutionary doctrine is based on the electron theory—the

theory which has already altered modern ideas of physics, chemistry and electricity.

In Mr. McDonagh's view, the body possesses a general protective substance which resists generally. The basis of cure would be in every case of organic illness the strengthening of this substance; and, given certain poisonous conditions, the antidote most suitable for increasing the coarser denser power of the protective particles could be worked out by chemists.

This antidote would be a cure-all, would put reinforcements into the system to fight the germs of all diseases.

## Britain Will Use Every Effort to Maintain World Peace.

Many Killed and Injured in Clash Between Strikers and Workers in Honolulu-- Serious Rioting in Kilkerrin, Galway.

### BRITAIN AND FRANCE CLOSER THAN THOUGHT.

GENEVA, Sept. 11.

Representatives of the little States have been informed that Great Britain will not only stand ready to extend economic penalties against any aggressor states, but will also subscribe to a general agreement to afford naval assistance to maintain world peace. It was stated on good authority here to-day. This assurance has created a favorable impression among the smaller European states and has strengthened the idea already prevalent in League of Nations quarters that England and France are closer than some people think to a settlement of the problem of security which the French insist must accompany any acceptance of compulsory arbitration.

### LABOUR CLASH IN HAWAIIANS.

HONOLULU, Sept. 11.

Twenty persons dead, unnumbered others lying in hospitals, officers under orders to shoot strikers as they approached, distracted widows with children tracking from jails to hospitals and morgues in search of missing strikers, was the aftermath to-day of a clash between cane strikers and workers Tuesday at Hanapepe, Island of Kauai. The dead included 16 Filipinos and four policemen. The list was increased from 19, when another

other Filipino died last night. The situation seemed under control yesterday, while the funerals of many of the victims were being held, and to-day only a few Filipinos could be seen in the vicinity of the outbreak. They were not recognized as strikers, however, as all the strikers who were not killed in the fighting Tuesday were in hiding, in hospitals or in jail. The outbreak was said to be the most terrific industrial clash in the history of the territory.

### POLICE AND PEOPLE CLASH IN COUNTY GALWAY.

BELFAST, Sept. 11.

A violent clash between the civic guard and population of Kilkerrin, County Galway, resulting from an attempt of the guard to quiet a riot is reported from Galway town, which is now in the hands of soldiers who are patrolling the place and maintaining order. The trouble started when a mob resisted the civic guard and chased the police into their barracks.

### THREE DAYS ADRIPT IN A DORY.

BOSTON, Mass., Sept. 11.

Two Newfoundland fishermen who were rescued at sea last Sunday at the hour when memorial services were in progress for them at their home port of Grand Bank, Nfld., were brought here to-day by the liner Davisan, from Liverpool. The men, John

Tibbo and Dennis Drake, were taken in charge by the British Consul and were to leave for their homes late to-day on the steamer Digby. Drifting in a dory three days in a dense fog, the fishermen kept their meagre supply of food in reserve and took nothing but a little water for sustenance. They refrained from rowing in order to husband their strength. On the night of the third day the fog lifted and they sighted the Portuguese fishing schooner Senhora Dugut. The schooner was becalmed and the men overtook it by rowing. They spent twelve days on the Portuguese craft before the Davisan took them off last Sunday.

### FLIERS WILL CONTINUE TO-MORROW.

WASHINGTON, D.C., Sept. 11.

With all three planes of the United States Army world flight squadron now at Bolling Field, the fliers settled down to-day for another two days' layover in the National capital. The fliers are now scheduled to leave Bolling Field, Saturday morning, about eight o'clock, for Dayton, Ohio, where they will probably remain over Sunday.

### NOW KNOWN BY NUMBERS.

CHICAGO, Ill., Sept. 11.

Their liberty forfeited for the remainder of their lives, Richard Loeb and Nathan F. Leopold, Jr., waited in Cook County jail to-day for completion of the penitentiary commitment papers. Saved from death on the gallows by only their immature years, they will be rushed to Joliet State prison immediately on receipt by the Sheriff of the documents necessary for their proper delivery at the penal institution. There numbers, replacing their names and rigid discipline their heretofore care free and luxurious nineteen years, the youthful intellectuals will face an eternity of manual labor in exploitation of their crimes. Throughout the night four automobiles carrying rifle squads cruised slowly about the old criminal court building and adjoining County jail, while stationed at intervals along the four blocks of the streets bordering the connected buildings were uniformed policemen and in front of the cell housing Loeb and Leopold, a heavily armed guard relieved one another of the groups of four all night.

### C. L. B. Cadets

The attendance barometer this week at Headquarters is rising. One hundred and ninety all ranks were on duty and real busy too in all departments. Excitement is running high on account of the kind invitation extended by the Vice-Admiral Sir Frederick Fitzgerald to visit the biggest battleship afloat, H.M.S. Hood, on Tuesday next. All ranks are keen to accept the honour of being permitted to visit such a giant of the seas. Lads will report on Sunday after

the Church parade to St. Michael's Church whether they are going to Topsail, so arrangements can be made, as if a large number are going some will be detailed to visit H.M.S. Repulse. Lads will parade at noon sharp at the railway station Tuesday and either have their dinner before leaving or carry a lunch to eat en route. Lads will also carry a parcel of lunch with their names on and a mug. These will be left in Topsail, as on the return from visiting the fleet the officers are arranging to provide hot tea at the old camp grounds. Captain Horsley will be in charge of the parade and many of the officers are going along, including Battalion Chaplain Rev. J. Brinton. Free transportation has been arranged by railway and the ships' boats will convey the C.L.B. The boats leave in Topsail at 2 p.m. and return at 5 o'clock. All ranks will arrange for their own food supply, the Quartermaster only supplying hot tea at 5.30 p.m. This courtesy of the navy is very much appreciated. A conference of the staff last night finalized the arrangements. Lt.-Col. W. F. Rendell, Brigade Major Williams, Captains A. Morris, P. B. Rendell, S. Horsley, F. Darden, H. C. Hayward, Lieuts. W. R. Moty, Eric Jerrett were on duty, with Captain Geo. House and Lieut. Reeves in mufti, and Regt. Sergt. Major John Andrews. All ranks parade Sunday next at 2.30 p.m. in order to attend Divine Service at St. Michael's.

Grand Falls reports one Church Parade held in August. Regular parades have been started again in September, and Major Windler, M.C., is arranging a live fall and winter program. Trinity East, under Captain Fitzgerald, is progressing splendidly. The strength is now 40 and an average attendance of 32. We congratulate Corporal Thomas Rex, Lance Corporal Graham Day and Acting Lance Corporal Cecil Randall on their promotions. The O. C. mentions Lieut. W. Bannister in his despatches to Headquarters as having done yeoman service for the Company during the absence on leave of Lieuts Ploughman and Rendell.

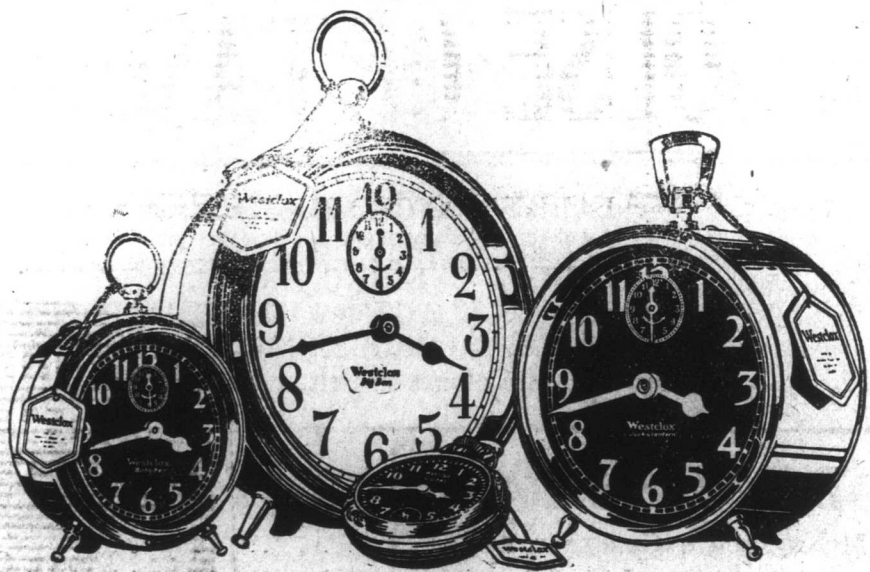

Overseas news by mail in a letter dated 31st July from Nairobi tells us our old friend, Colonel W. H. Franklin, D.S.O., now H. B. Majesty's Trade Commissioner for East Africa, is much better in health and has just returned from a long tour of ex-German East Africa, Tanganyika Territory. This area is about seven times as large as the British Isles. Colonel Franklin is keenly interested in his duties and is glad to hear the Newfoundland Regiment C.L.B. is carrying on so splendidly.

Major Williams is glad to have a copy of the special paper issued by the C.L.B. South African Regiments, their headquarters being Church House, Cape Town. The Church Girl's Brigade is being organized and is making good progress. We congratulate our South African Comrades on their enthusiasm and Thursday night Ptes. Richard and Harold Mosdell, sixteen year old twins, visited H.Q. and applied for transfer to Field College Company, which was granted. These lads are fine specimens of boyhood and were born at Port aux Basques, and are continuing their studies at Bishop Field College where we wish them every success.

### One Friend Tells Another

The fame of a successful remedy is often spread far and wide by women telling one another of its merits, as is evidenced by a letter written by Mrs. Wm. Ridsdale of Mt. Forest, Ont. She writes: "I was weak, miserable and in pain. A friend told me what Lydia E. Pinkham's Vegetable Compound had done for her. I tried it and am now well and strong. There is nothing equal to it for women's troubles. There are women everywhere who have been benefited by Lydia E. Pinkham's Vegetable Compound and gladly tell their friends and neighbors about it."

## Westclox

They tell good time

AFTER you have bought a good alarm clock to call you in the morning you will want a good, inexpensive watch to tell the time during the day.

Glo-Ben not only shows you the time when it is light

but during the hours of darkness as well. The dial is as black as night but the numerals and hands are coated with a radium-luminous compound that glows in the dark like a cat's eye and makes time telling easy.

Labradorite

Always we have prided ourselves on the quality of our Labradorite and refused to place on sale stones that did not do credit to the peculiar beauty that is its chief charm. We have now received the first samples of our new stock and they fulfil in every way our ideas of what Labradorite should really be like when made into jewellery.

Specially selected and extra well polished stones made into an assortment of Pendants—Bean, Oval and Square shape are the chief items in our new selection.

FURNISHED BY JOHNSON AND WARD, BOARD OF TRADE BUILDING, WATER ST.

(From Financial Times, Aug. 29, 1924) BELGO'S EARNINGS ARE ABOUT 22% ON COMMON.

MONTREAL.—Despite the fact that the mill is running at only about 85 per cent. of capacity, Belgo-Canadian Paper Company is earning at the rate of about 22 per cent. on its common shares. This information comes from a reliable source. The company completed twelve months under the new regime at the end of June, and is understood to have earned about 18 per cent. on the common in that period. This was after provision for bond interest, depreciation, and sinking fund. Belgo will not issue any statement until the close of the present calendar year, when it is planned to bring out an eighteen months' earnings statement.

PORT ALFRED MILL SOON TO MAKE NEWS.

May Break Ground in Spring for New Mill—Directorate is Now Lined Up.

MONTREAL.—Port Alfred Pulp and Paper Corporation has its new directors lined up, and it provides an interesting group of business men. The new president is R. O. Sweeney, a leading pulp and paper engineer, who will devote most of his time to making a success of the Port Alfred Co. The vice-president is J. H. Gundy, of the investment banking firm of Wood, Gundy and Co. It is understood that Messrs Sweeney and Gundy hold a controlling interest in the company. Other directors include Arthur Cross, managing director; J. W. Ross, C. E. Taschereau, E. A. Macnutt and Eugene Bergeron. Messrs. Cross and Ross are connected with the accountancy firm of P. S. Ross and Sons; Mr. Taschereau is a brother of Premier L. A. Taschereau of Quebec; Mr. Macnutt is treasurer of the Sun Life, and will look after that company's large interest in the new organization; Mr. Bergeron is manager of the Port Alfred mill. The company is now operating on a satisfactory basis as regards earnings, and is selling its production in the United States and Canada, having found new customers to replace the English clients to whom sulphite pulp was supplied by the former company, the Bay Sulphite Company.

Ground will likely be broken in the spring for the first unit of the new-print mill. It is planned at first to manufacture 100 tons of newsprint a day, and as market conditions warrant, the mill will gradually be increased until a daily production of 400 tons of paper is reached.

The outlook for the mill from a paper-producing standpoint is especially favorable because of the fact that cheap power can be had from the Duke-Price development.

Poignant Russian Tragedy Recalled by Exile's Death

HARBIN, China, Aug. 1 (A.P.)—An old man died recently in a small village of eastern Siberia whose name evokes among Russians memories of a tragedy, the poignancy of which is unsurpassed in the annals of that wild and gloomy land. St. Petersburg was the scene and the time the late eighties. The principal actor was a young officer of one of the most brilliant regiments of the Czar's guard. He was accomplished and highly connected and a general favorite, but the life led by him and a majority of his comrades proved too fast for the resources of a diminished and badly managed estate. The young officer turned to the money lenders who preyed upon men of his kind. One was found who was willing to advance money against his promissory notes, and who never failed to respond until the total debt had reached many thousands of rubles. Finally the chance of a wealthy marriage gave promise of release for the young man from his financial troubles. He informed the money lender of his good luck and obtained more money.

The money lender told the young officer that he planned a fine wedding present for the occasion of his marriage. Misinterpreting the man's meaning and taking it to be a threat that the notes would be presented for payment or protest, the young officer foresaw himself ruined and resolved upon desperate measures. The money lender was found dead in his own house a few days later, and the crime was traced to the borrower. The police discovered among the old man's effects a package neatly tied with ribbon containing all of the other's notes. An inscription showed that this was to have been the wedding gift. Evidence of the young officer's guilt was clear and he was exiled to Siberia. Old residents of Siberia tell many stories of his remorse-stricken life, which has just ended in poverty and misery.

Water-Absorbing Metal

A form of bronze that is so spongy as to soak up water is described in Popular Mechanics (Chicago, July). We read in this magazine: "Imagine a substance so hard that it will turn a lathe tool, and yet so porous that it will soak up oil like a sponge, and you have a fair idea of a brand-new metal that has been perfected in the laboratories of the General Motors corporation and will soon be found in many installations that have heretofore lent themselves only with difficulty to efficient lubrication. In composition it is a copper-tin bronze in which graphite has been incorporated. Thousands of tiny pores, uniformly distributed throughout the structure of the metal, give it the absorptive qualities of a blotter. The quantity of oil the metal will absorb amounts to 25 per cent. of its own mass, and a peculiar feature is that the oil does not drain out again but is held no matter how dry the surface may be wiped. The metal is designed for bearings in the generators and starting motors of automobiles, in laundry machinery, where the leak of alkaline water makes lubrication a difficult problem, as well as in installations where thorough lubrication is required on account of heavy loads and high speeds, or both."

Hollanders for Canada

WINNIPEG, Man., Aug. 29.—Many farmers' sons and farm laborers of Holland with thorough agricultural training will come to Canada as settlers, if the party of Dutch editors at present touring the Dominion give a favorable report to their government on conditions in Canada.

This was the opinion advanced by M. J. Brusse, one of the party during his stop in Winnipeg. Emigration from Holland, he said, was on the increase and would continue to grow. However, Canada could not expect to receive annually great numbers of immigrants from Holland because that country was not overpopulated with agriculturalists, although the industrial field was overcrowded. There was no intention of burdening Canada with artisans, Mr. Brusse declared. Settlers sent over would be desirable farmers, who understood agriculture in all its phases. Many sons of farmers in Holland found it impossible to obtain land in their native country with the inevitable result that they sought other continents in which to settle. In the past a large number of these young men had migrated to the United States, but if Canadian conditions were favorable, they would not receive much persuasion to try farming here.

## In the Realms of Sport

### LAST NIGHT'S FOOTBALL

Only a small gathering of spectators turned out at St. George's Field last night to witness the Guards and Cadet battle for the Tie Cup. The game, which was very good on the whole, ended in a victory for the Champion Guards team by a score of 3 goals to nil. Both teams entered the field minus their regular goalkeepers. However the positions were filled by J. Rose, for the Guards, and T. Delahunty, for the Cadets, both having admirably. Mr. H. Phelan, the appointed referee, set the game going at 6.45, with the Cadets defending the eastern goal. The game had scarcely started when the ball became greasy and difficult to control, while the grass was very wet, which made it very difficult for the players to get about. Nevertheless both teams were playing fairly well, under the conditions, and saw the ball transfer quite evenly divided. The Guards forwards commenced to press matters after ten minutes of play and, with the ball confined to the Cadet territory, a foul kick was awarded the champions and, from a scrimmage in front of goal, Rooney availed of a good opening and scored No. 1. The Cadets then made a determined attack on the western goal, but Charlie Quick, who was playing a good game in the back division, always managed to punt the ball east. About five minutes later the ball was again confined to the Cadet end of the field, and by a pretty pass on the part of Dick Quick to Macklin, the latter player beat Delahunty with an easy shot. From then on until half time there was no change in the play. On one occasion the Cadet forwards got inside the Guards backs, when Rose saved a ground shot from Callahan.

### Second Half.

Upon ends being changed the Cadets made a determined attack on the opposing goal, but all attempts to score were frustrated. Play quickly changed to the other end of the field, and the Guards, getting on the inside, had three good opportunities to score. Play then transferred to midfield and finally ended up in the Guards quarters, where Flynn and the two Callahans sent in a few well directed shots, only to be cleared by the backs or the goalkeeper. A moment later Walter Callahan placed a pretty shot which grazed the crossbar. The Cadets kept up the attack, and were soon rewarded with a penalty kick. Callahan placed the ball nicely, only to be saved by the goalie. Much excitement then prevailed and saw both teams working strenuously all over the field. During the remaining minutes of play both goals were in danger, but no further scoring resulted. The final whistle then sounded leaving the Guards the victors by 2 goals to nil.

The winners of the Saints-Feldians game to-night, will play the winners of the C.L.B.-Guards game, for the championship.

### FIRPO AND WILLS BATTLE 12 ROUNDS—NO DECISION.

A representative of the Evening Telegram had the pleasure of listening in on the radio set of Mr. J. J. Collins at his home, No. 9 Parade Street last night, and heard the broadcasting of an account of the fight between Harry Wills, the negro, and Louis Angel Firpo, the Argentine, aspirants for the Heavyweight Championship of the World. Although atmospheric conditions were by no means perfect for good receiving, several of the rounds were distinctly heard right from the ringside. The sounding of the gong could be clearly heard, as well as the yells and shouts of the 65,000 people in attendance. The bout took place at Boyle's thirty acres in Jersey City. A preliminary to the main bout was fought between Mallory and Jim Johnson, light-heavyweights. The fight went six rounds with Mallory the aggressor.

**NO DECISION GIVEN IN MAIN BOUT**  
The fight between Firpo and Wills went twelve rounds without a decision. Wills, who the newspapers claim "won by a mile," had the best of the fight in the 1st, 2nd, 6th and 7th rounds, with the 3rd, 4th and 5th rounds pretty even. In the 8th, 9th, 10th and 11th rounds it was all Firpo, but the negro staged a big comeback in the last round and had it all over his opponent. Firpo went down for the count of five in the second. He got up half dazed and his head was hanging over the ropes when the bell rang. Firpo landed very few clean blows in the fight. Wills was the aggressor, and landed terrific rights and lefts on his opponent's stomach and ribs. Both men resorted to clinching and holding on almost throughout the entire fight. In the 10th round Firpo protested that Wills was holding on, but the Referee claimed that he was holding equally as much as the negro and ordered him to fight. In the 11th round Firpo's right arm got tired.

Firpo entered the ring weighing 217 lbs. and Harry Wills 224½. As far as can be understood no decision was given as to who really won the fight. Practically at the last minute before the fight until United States Judge refused to issue a warrant for the arrest of Firpo under the White Slave Law, it appeared the court was being used to prevent the fight which was legal under New Jersey State laws. Reformers threatened the arrest of either boxer if knockout occurred owing to violation of boxing laws by making it a prize fight. Wills showed superiority right through, and a number of times apparently could have knocked Firpo, but he was kidding wild and it could easily be seen that each fighter feared to knockout his opponent. Firpo hit Wills only two good blows in the twelve rounds. The blow that knocked Firpo in the second round for the count of five was claimed a foul. Firpo rocked on heels but was not followed up by Wills. What the result would have been no one could surmise, but what would have happened without the threat of arrest remains to be seen.

### Imperial Settlement Fiasco

It now appears that the Imperial Settlement League, to which I referred in an article last week under the heading of "the illegitimate offspring of a previous organization of the same name." The original League was founded last year under the presidency of the Earl of Glasgow. At a meeting held on January 17, 1924, it was resolved, on the motion of the Earl of Glasgow, that the League should be wound up. This was done, and all the debts of the League were paid. Among the members of the executive who signed the winding-up minutes were Lieut-Col. J. Maitland Edwards, Capt. P. F. T. Hanley, and Mr. Raymond Oliver, who was hon. legal adviser.

The old body was dissolved because it was agreed that it could not do any practically useful work. Nevertheless, the moment it disappeared its name was assumed by a new and distinct Imperial Settlement League of which Captain Stanley became the secretary. Lieut-Colonel G. Maitland Edwards was advertised as chairman of the Council, and Mr. Raymond Oliver as hon. legal adviser. Capt. D. D. Sheehan joined the new League as vice-chairman, and with Capt. Stanley he has been actively concerned in the very objectionable scheme whereby ex-officers and others were given salaried appointments on condition that they lent the League sums of £100 or upwards.

As I stated last week, in reply to a complaint by an ex-officer with a claim against the League for £145, Lieut-Colonel G. Maitland Edwards, who is abroad, has written that he personally knows nothing about the business. He has recently resigned, and the same course has been taken by a galaxy of others. M.P.'s and Generals whose names have adorned the circulars of the League. With one accord they have washed their hands of the affair, being seemingly insensible of any responsibility to the investor-employee who parted with his money largely on the strength of their names.

In an attempt to justify its existence the Stanley-Sheehan League announced that it had made arrangements for the accommodation of country children visiting the British Empire Exhibition. From a report in the Daily Mail of July 31, it appears that the accommodation which the League provided for the children consisted of two cowsheds and two sport pavilions at Sudbury, and that in consequence of a statement by the medical officer as to the disgracefully insanitary and overcrowded condition of this "hostel" the Wembley Council have made a closing order. This last scandal ought surely to terminate the discreditable career of the Imperial Settlement League.—Truth.

### Japan's Debt is Five Billion Yen

Tokio, Aug. 11 (A.P.)—Japan's national debt totals 4,980,000,000 yen (\$2,249,000,000), according to an announcement by the department of finance. This figure does not include short term indebtedness, such as the temporary exchequer bonds and rice bonds, which, if included, would bring the total to more than 5,000,000,000 yen.

### Wee Catherine Prays and Daddy Recovers

Philadelphia, Aug. 20.—Four-year-old Catherine Buckley is sure her prayers are responsible for the remarkable recovery of her father from a six weeks' siege of pleurisy.

On Saturday morning she heard the doctor report there was almost no hope for her father.

"I'm going to church to pray for daddy," she announced, and scampered to St. Stephen's Church, a block away.

But Catherine couldn't get in. The doorknobs were above her head. So she knelt on the stone steps, clasped her hands and prayed.

A crowd gathered. Some one told Mrs. Buckley, and Catherine was taken home. To-day the doctor pronounced Mr. Buckley almost completely cured.

### British Flyers Decline Honors

Tokio, Aug. 10 (A.P.)—The Japanese government's offer of decorations for Major A. Stuart MacLaren, leader of the British flight around the world, and his companions was courteously declined by the British officers on the ground that they have not completed their mission and do not deserve the honor, it is learned on good authority.

### Canada and the Navy

Quebec Chronicle: English Canadians, although they are bound by blood ties to the rest of the Empire, are certainly not anxious to build up a navy, only to have it knocked to pieces in foreign wars. But many of them have sufficient pride in Canada to dislike seeing her placed in the position of depending for her territorial integrity upon the navies of Great Britain and the United States. In addition to this, most of them are honestly convinced that existing provisions for naval defence are absolutely inadequate to Canada's own independent needs.

### Other Ships

The new Cathedral of Liverpool, which was consecrated on July 19, is said to be the first erected in England in 900 years. One feature of the consecration service was an "Allocation to the Free Churchmen," meaning the members of the Protestant communions outside the Church of England.

"Brethren," the bishop said, "I bid you welcome, you who sail in other ships when forth we go to cast the net of everlasting love. . . . May He who has fulfilled His gracious promise to us in the beauty of this place, grant also unto us to see the fulfilment of His promise that we shall all grow into visible oneness in the fulness of Him in whom we are even now one spiritual temple not made with hands, eternal in the heavens."

This is certainly a very gracious reference, and contains the spirit of true unity.—Wesleyan.

### Lemon Growing in Manitoba

WINNIPEG, Man.—A lemon which weighed twelve ounces, gave one-half pint of juice and made the ordinary California product seem like a midget in comparison was grown this year by J. J. Henderson of Minotia, Man.

The tree on which the prize fruit was grown has been bearing for ten years. Usually the lemons are bigger and of better quality than the imported varieties, and this year the plant broke all its previous records.

### Admiral Ferguson Enters Hospital

Montreal, Que., Sept. 5.—Admiral Ferguson, commander of the British North Atlantic Squadron, was yesterday brought from Quebec on the cruiser Capetown and admitted to the Royal Victoria Hospital. The authorities there announced he was to undergo a slight operation and that his condition is not serious.

Hostility to Anglo-Russian Treaty

Recently reference was made in the foreign message to the strong opposition which the MacDonald Government would meet when the Anglo-Soviet Treaty was presented to Parliament for ratification, and it was suggested that as the Liberals had openly denounced the Treaty as a sham, there was every possibility that it would bring about the biggest, if not the final crisis of the Party.

Even in the Labour Party itself there are indications of considerable irritation against the Reds. Such men as James Sexton, Will Thorne and C. T. Cramp have bluntly stated that they will not tolerate the underhand tactics attempted by Moscow to introduce their peculiar ideas into the British Labour Union, and Mr. Ramsay MacDonald has found it necessary to issue a warning to the same effect to the Soviet envoys in London.

The London journals which are not hostile to the Treaty are sceptical of its essential provisions ever coming into practical operation. Others are vehement in denouncing both the Treaty and the manner in which it was negotiated. The Nation says:

"In offering to guarantee a loan to Russia as part of a diplomatic bargain, the Government is establishing a precedent and dangerous precedent. How can we resist, if this Treaty is ratified, the French claim that the British Government should also guarantee the international loan which is to set the Dawes Report in operation? If this Treaty had been signed a few weeks earlier, would the intervention of the bankers in the 'sanctions' controversy have produced the effect it did in bringing the diplomatists to a sense of international 'realism'?"

From the New Spectator the following is taken:

"By all means let a Soviet loan be floated in London. But let it be floated in the ordinary way, with no more than the benevolent assistance of the Treasury. If the Russians can convince us that they will regard the loan as a loan, and not as a gift, and that they really intend, and will be able, to repay it in course of time, then they can get the money on the same terms as are granted by the City to other foreign borrowers. If they cannot, then there is something wrong, and we had much better keep our money in our pockets. The burdens which the British taxpayer has to bear—on behalf of France and Italy and Russia—are already quite heavy enough."

Satisfy the City. "It is the business of the Russians, if they want money, to satisfy the City. If they can do that the prospects of trade with Russia will be brighter than they have ever been since the war; but if they cannot or will not offer adequate security, if they refuse, that is to say, to accept, for this purpose at least, the ordinary standards of international commerce, then, loan or no loan, there is very little chance of the development of successful trade between the two countries. We should be throwing our money into the sea."

Russia's debt to Britain is in the neighbourhood of \$5,000,000,000, and considerable British property in Russia has been seized by the Bolsheviks. Unfortunately there is little to indicate that the Russia of to-day, has any inclination to acknowledge the debts of honour which it repudiated in 1917, and it is hardly to be expected that the British taxpayer feels inclined to "lend" Russia money when

there is nothing to indicate that it will be returned, or even that it will not be used to spread the Bolshevik ideas in India, Egypt, and South Africa.

Youth Faces Manslaughter Charge

STANLEY IVANY, 5 1/2 YEARS OLD, ENGLISH HARBOR, VICTIM.

Arising out of the death of an eight and a half year old youth of English Harbor, T.B., Robert J. Penny, a 14 year old boy of the same place, will have to face a charge of manslaughter before the Northern Circuit of the Supreme Court. It is alleged that the youth Stanley Ivany died as a result of being beaten with a dogfish on August 7th last. As far as can be learned the boy Ivany had been sent on a message by his mother, and was returning home when he was set upon by Penny and his brother Cyril, aged 9 years. About an hour after the occurrence Ivany was found lying on the roadside by a woman resident of Champneys, who was bringing home her cows. His leg appeared to be injured, and she brought him home where he was placed in bed. After two days his condition became alarming, and Dr. St. Clair of Trinity was sent for. Information of the leg had set in and on August 11st the little fellow died of pneumonia. It is charged that death was directly caused by the beating he received with the dogfish at the hands of the older boy Penny. The Crown has not decided what action will be taken in reference to the younger Penny. Circuit Court will be held at Trinity about the latter end of September, and it is understood that Mr. C. J. Fox will have charge of the Crown case. Detective Constable J. Walsh, who was detailed to investigate the matter, returned yesterday.

Canadian Press Strike

A message received yesterday by the Hon. J. R. Bennett, Colonial Secretary, from Manager Herkel, of the Canadian Press Association, states the Canadian Press operators went out on strike at one p.m., and that the C.P.R. operators had refused to handle any messages for the daily papers. From enquiries made to-day it was learned that the Western Union operators are not affected by the strike. The public messages published in to-day's issue were sent out by that route instead of by the Commercial through which they generally come. It is unknown what causes have led to the strike.

Emergency Hospital Equipment

The Equipment Committee of the Emergency Hospital for Sick Babies are very grateful for the instant response to their appeal for articles for the hospital, and would like to thank the following for things lent and given and for service:—Mrs. Conroy, Mrs. W. Wedding Bells

EVERARD—WALSH. The Oratory of the Presentation Convent, Cathedral Square, was the scene of a very pretty wedding on Wednesday afternoon, the 3rd inst., at 3.30 o'clock, when Mr. W. J. Walsh, son of Mr. and Mrs. Lawrence Walsh, and Miss Mary Everard, daughter of Mrs. and the late James Everard, were united in the holy bonds of matrimony. The ceremony was performed by Rev. Dr. Carter in the presence of a large number of friends and relatives of the contracting parties. The bride, who was beautifully gowned in a dress of georgette and wore a veil with wreath and carrying a bouquet of white carnations and ferns, was given away by her brother, James Everard. On entering the church the wedding march was rendered by Sister M. Josephine. The bride was attended by Miss Madeline Walsh, sister of the groom, who wore a dress of pink satin with pink carnations and ferns. Miss Stella Rumsey was flower girl and looked charming in a dress of white georgette and carried a bouquet of sweet peas and ferns, whilst Master Stan Walsh acted as page. The duties of groomsmen were ably performed by Mr. E. J. Everard, brother of the bride. After the ceremony the wedding party drove around Bowring Park, returning to the residence of the groom's parents, Lime Street, where a reception was held and the usual toasts duly honored. At 8 p.m. Mr. and Mrs. W. J. Walsh left by motor for Torbay where the honeymoon will be spent. The groom's present to the bride was a set of pearls, and to the flower girl and page a Labradorite stone and silver ring respectively. To the bridesmaid a set of pearls and to the best man a silver ring. The presents received were both numerous and costly and included a cheque from Mr. G. T. Wills and Mr. and Mrs. R. Priddy.

Laying of Foundation Stone

And Procession of Blessed Sacrament. On Sunday, Sept. 14, 1924, the foundation stone of the new Convent School, Petries, Bay of Islands, will be laid by his Lordship Bishop Renouf, at 4 p.m. The annual procession of the Blessed Sacrament through the grounds will take place on the same day, weather permitting.—Western Star.

Express Passengers.

The following passengers landed at Port aux Basques this morning from s.s. Kyle, at 8.40, and are now on the express due in the city to-morrow afternoon: J. L. Wilson, C. McVaughan, H. Pickering, F. Johnson, J. Dwyer, C. Samson, J. Gardy, W. Peterson, H. Thomson, F. Chapman, W. Harvey, T. Newell, Miss H. LeFlamme, Miss Butt, J. and Mrs. Choplin, Rev. J. Mullin, M. LeGrosse, R. Smyth, W. Shears, E. Surham, M. McKenzie, Capt. D. Martin, A. Waterman, Mrs. Moulton, Miss Nottall, W. Howell, Dr. Morgan, Miss Morgan, Miss Crumert, F. Robinson, J. Powell.

Coal Contract Awarded

At a recent meeting of the Board of Works, the yearly contracts for hard and soft coal were awarded. The lowest tender in both cases was accepted, and the firm of A. H. Murray & Co., Ltd., has the supplying of the Government institutions for the next twelve months.

Game Postponed

The football match between the Saints and Feldians, set down for tonight, has been postponed.

S. S. Nordhavet has entered at Corner Brook with a cargo coal from Baltimore. sept12,11

Wren Lost on Labrador

CREW AND FREIGHT LANDED AT DAVIS INLET.

A message received this morning from Mackovick, by Mr. D. Neal, of G. Neal, Ltd., reports the loss of s.s. Wren near Lopside Island, Labrador, on Saturday last. The message is as follows: "S.S. Wren went ashore on reef on Saturday, Sept. 6th, one mile N.W. Lopside Island. The ship with her bottom gone is a total wreck. Crew and freight landed at Davis Inlet. Everything possible got ashore. Signed, S. R. Winsor."

The Wren, formerly a North Sea trawler, was purchased by the late Geo. Neal, in Nova Scotia, in 1918. For the following two years she plied on the Trinity Bay service. In 1919 she was placed on the Northern Labrador service. The next year she went on revenue service subsequently taking up the Fortune Bay route. She was taken off this service in July and later was sent to Labrador making connections with s.s. Melgite. It is understood that her hull was covered by insurance.

Summoned a Four Year Old Boy for Breaking Glass

A case of proceeding being quashed with dispatch occurred this morning in Judge Morris Chambers when an elderly spinster had a youth charged with breaking a pane of glass in her home. When the charge was read the mother of the boy presented the "criminal," a chubby faced lad who had been staring with wide open eyes at the assembled witnesses. "How old is he?" asked Judge Morris. "Nearly four years," replied the mother.

His Honour: "This is the most contemptible proceeding I have ever known. The case is dismissed."

Fire at Smith's Brickyard

ENGINE AND MACHINERY DESTROYED. The Deputy Minister of Justice is in receipt of a message from Mr. J. Seivour, Jr., which is as follows:—"Smith's factory at Snook's Harbor was destroyed by fire yesterday morning. Both engine and machinery were rendered useless. The loss is partly covered by insurance. Origin of the fire unknown."

Quarrelsome Women

Judging by the large number of the female sex who daily have recourse to the Magistrates' Court, the time has arrived when a special day or place will have to be set apart for these cases. Quarrels in the hall when the women have to await their turn are not infrequent. This morning a woman whose son had been summoned for non-support of his wife, raised such a commotion amongst the witnesses that the Sergeant in charge had to order her removal. The services of a constable had to be requisitioned to keep order.

Shipping

Schr. Astrisaa 27 days from Oporto salt laden has arrived to A. S. Rendell & Co. Schr. Clarine has arrived at Trinity from Labrador hauling for 400 qts. codfish.

Baird's Athletic Association

HELD ENJOYABLE OUTING.

The Athletic Association of Messrs. Jas. Baird, Ltd., held their first outing at Donovan's on Wednesday afternoon. Upwards of 200 people left the Station by special train at 2.45 p.m., and upon arriving at Steele's Crossing the party assembled and proceeded to a field near Donovan's, where a sports programme was conducted under the supervision of Mr. Ches Quick. The events, which were keenly contested, proved thoroughly enjoyable, and resulted as follows:—100 yards (Indies)—1st Miss Stirling; 2nd Miss Butler. Quarter Mile (Boys)—1st V. Heale; 2nd H. Rose. Ladies' Walking Match—1st Miss Murphy; 2nd Miss Butler. Lady and Gent Race—Won by Miss Wiseman and Mr. Adams. Dept. Relay Race—Won by Showroom—Messrs. Shields, Murphy and Malone. Three Legged Race—Won by H. Pike and E. Merralls. Veterans Race (ages 40 to 80)—1st P. Berrigan; 2nd T. Whelan. Blind Fold Race—1st E. McNeill; 2nd R. Butterworth. Half Mile—1st S. McNeil; 2nd H. Pike. Football Skies—Won by Gents' Fishing Dept. A special prize, donated by Mr. C.B. Carter, for the ladies, was keenly contested for and the honors went to Miss Butler. After the sports programme had concluded the party proceeded to Donovan's hostelry, where supper was served by Mrs. Hughes in her well known manner. Following the excellent repast, Mr. C. B. Carter, President of the Association, asked all to rise and drink the health of His Majesty the King, Mr. C. Quick, on behalf of the Association, asked Mrs. Hugh Baird to present the handsome trophy, donated by the Association, to the winning tug of war team. Mr. W.R. Mott, on behalf of the team, accepted the trophy amidst the plaudits of the gathering. Speeches were made by Hon. President, Mr. David Baird; President, C. B. Carter, and Vice-President, A. K. Lumsden, and the oldest employee of the firm, Mr. P. J. Berrigan.

Time to Speed up the Service

With the establishment of wireless and the extension of the wire system and other changes in connection with our telegraphs it was hoped that our means of communication had been brought to a fair degree of satisfaction. But our experience of late shows that it far from satisfactory at present. In fact for press service, when rapid transmission is required, it is of little use, and not infrequently it takes as long to transmit a telegram as it would a letter. During the recent aerial flight we had made arrangements for bulletins at the arrival on this side. Yet a wireless from Battle Harbor, sent on Tuesday and should have reached us that evening, was only received on Thursday, and another sent from Hawks Bay on Tuesday afternoon did not reach us until the following day. In these transactions we had to pay out money for worthless service.—Western Star.

**Episcopal Visit to St. Vincent's**

We have received the following message from St. Vincent's, Placentia:

ST. VINCENT'S, Sept. 11. Special to Evening Telegram. His Grace the Archbishop accompanied by Rev. Fr. O'Driscoll of St. Mary's visited St. Vincent's today. They were received by the Pastor, Rev. G. W. Batcock, and after visiting the schools, selected a site for the new building. The settlement was decorated with bunting in honor of the Episcopal visit.

CORRESPONDENT.

**10-DAYS MESSAGES.**

**WINE LIQUOR SEIZURE AT RING-SIDE.**

JERSEY CITY, N.J., Sept. 11. Prohibition agents scored the first knockdown at Boyles thirty acres late today. As the gates for the Firpo-Wills encounter opened sixty men led by G. Q. Merrick, Divisional Chief for New York and New Jersey, seized several hundred cases of whiskey, five hundred gallons of beer and made a number of arrests. One of the seizures was a speakeasy making for the Jersey shore in the vicinity of the arena. About were 250 cases of whiskey which were seized. Merrick declared that the liquor was intended for sale to the fight fans in the big bowl at Boyles thirty acres to-night.

**FIGHTING IN CHINA.**

SHANGHAI, Sept. 11. Desperate attempts of Kiangsu General to check the advance of Chekiang troops upon Iking, a town about 100 miles to the westward of Shanghai near Tai Lake took the bulk of the interest in China's civil war away from the nearby battlefronts. The nearest sectors were not wholly without action, however. Observers were turned to light from Kwangtu in the railway sector and were told of a sizeable attack on the night by Kiangsu forces which the Chekiang soldiers defending Shanghai repulsed. Fighting in the Luhe sector northwest of the city was reported by observers to be without special features. The Chekiang army started a counter attack in Kwangtu sector to-day, trying once more to effect the capture of Ashing. The west Tai Lake front Chekiang troops were reported by their headquarters at Lunghwa to have made progress through the hilly country south of this.

**GREAT BRITAIN'S NAVAL BOMB.**

Geneva, Sept. 11. Great Britain dramatically dropped a naval bomb into the Geneva Conference today and the new Anglo-French Entente was appraised by many as approaching the character of an out and out alliance when Sir Cecil Hurst, the eminent jurist and British delegate, declared Great Britain's address to accept compulsory arbitration, provided that would not be brought into court because of some act of her navy performed in attempting to maintain or restore peace. This declaration has set Geneva thinking a good deal more than anything since Premier MacDonald and Herriot committed themselves in principle to the settlement of any and all disputes by obligatory arbitration by some world tribunal or tribunals.

**Schooner Picked up by Arrowmore**

FIELD SCHOONER GEORGE W. EYRE TOWED TO ST. PIERRE BY C. G. S. ARRANMORE.

After being buffeted about in a raging wind and a heavy sea for several days the Newfoundland schooner George W. Eyre, in command of Captain Rhenardt, was picked up in a crippled condition near Fortune Bay, Newfoundland Sept. 1st and towed to St. Pierre by the Canadian Government steamer Arranmore, Capt. Rhude.

Leaving North Sydney on the day of the big storm with a cargo of coal for St. Pierre, the Eyre had not gone far before she was overtaken by the storm and buffeted around in the heavy seas which quickly rose after the storm broke. Through the manner in which she was navigated she managed to weather the gale for several hours, but was finally rendered helpless by having a portion of her sails carried away by the wind. She arrived off Fortune in a crippled condition and was picked up by the Arranmore and towed to her destination at the French Colony.

The Arranmore has since returned to North Sydney after having completed her trip to Fortune Bay and Placentia Bay where she had been rescuing four buoys which went astray from their moorings at the entrance of the St. Lawrence River several weeks ago. These four buoys were picked up as well as several others which had broke loose since. After replenishing her bunkers at North Sydney, the Arranmore will return to Halifax.

Pearline for easy washing. — July 17.

June 10, 1924, a.1

### Connecting up the North and South

(Western Star.)

We are pleased to learn that the long-felt need for a connecting link between Main River, St. George's, is about to be supplied. We understand the big railway bridge is to be planked, making it passable for pedestrians and a driveway provided for vehicles. The Main River has made communication between St. George's and Port au Port Peninsula impossible in the past, and the planking of the railway bridge will be a great advantage to traffic. The Gut which the bridge spans is deep and the current is very strong. Inside is a bay that extends for about eight miles to S.W. and Bottom Brooks. By means of the reconstructed bridge travel by road will now be possible from St. George's to Port au Port.

### St. Bon's Athletes Tendered Dinner

A large and enthusiastic gathering of athletes from St. Bon's College were present at the Aula Maxima, last night, as the guests of the Brothers to a dinner and entertainment, in honor of the season's activities in the athletic arena, and particularly to celebrate the greatest success of the year, the lifting of the Hayward Trophy, at the A.A.A. Championship Sports.

The Brothers had prepared an excellent spread, and an impromptu toast list, which followed, was thoroughly enjoyed by all. Rev. Bro. J. E. Ryan, President of the College, occupied the chair and amongst those seated around the festive board were Rev. Fathers P. J. Kennedy, and McGettigan, Mr. H. J. Wyatt, President of the M.G.C.A. Mr. A. H. Thomas, Manager of the M.G.C.A. Track Team, Mr. Harvey Skirving, of the C.L.B., and representatives of the Press, as guests, and included in the number were a large number of ex-pupils of the College. The spacious room was tastefully decorated for the occasion, the colors of the College predominating, while a splendid array of silver cups, won in many a hard fight was evidence of their prowess on the field. After the excellent menu had been done full justice to by all, the toast list followed. President Ryan, in a very happy speech, thanked one and all for their presence. He congratulated the St. Bon's Track Team on their recent achievement. Without making any invidious distinction where all had done so well, he felt justified in particularly congratulating the great work of Jack Gannin, Wm. Thorburn and Gerald Halley, in the running events, L. Henley, the Hammer Thrower, and Dick Fraser, for breaking his previous record; while special mention was also made of the St. Bon's Rowing Team, which had done so well at the Haig Regatta. In this connection hearty congratulations were tendered Mr. Phil. Brown, the coxswain, who was present. Rev. Bro. Ryan also took occasion to congratulate J. G. Higgins, on his excellent work as manager of the track team and also Mr. Stan Cullen for his assistance to the team. He felt very sorry that Mr. Cullen was unable to be present. Rev. Bro. Ryan was a great believer in games and athletic training as it went hand in hand with religious, educational and industrial development. Mr. J. G. Higgins, on behalf of the Track Team, made an eloquent speech. He thanked Bro. Ryan for his kind remarks and referred to the good work of all the Brothers.

The toast of opposing teams was proposed by Mr. J. M. Green and responded to by Messrs. A. H. Thomas, H. J. Wyatt and H. Skirving. Rev. Bro. J. E. Ryan proposed the health of Rev. Bro. Kennedy and McGettigan, to which the Rev. gentlemen made eloquent replies. The toast of the Press was proposed by Mr. C. J. Cahill, M.H.A., and responded to by the representatives. Toasts to absent members and Nid. Record Holders were proposed by Messrs. C. D. Muir and J. M. Green, respectively, and heartily drunk, whilst that of the chairman and Christian Brothers was proposed by J. G. Higgins and enthusiastically received. The toasts and responses were ex-

### Forests Depleted by Insect Pests

TORONTO, Ont.—"Forests in Canada have been damaged by insects to the extent of hundreds of millions of dollars of value during the past 15 years," said J. M. Swaine, associate Dominion entomologist, in his address to the agriculture section of the British Association. Blame for this undermining of timber reserves can be assigned geographically to definite insects, as follows: the spruce budworm in Quebec and New Brunswick; the western pine bark-beetle in the pines of British Columbia; the spruce bark-beetle in spruce of Quebec, Manitoba and Saskatchewan; the larch sawfly from eastern Canada to

northern Alberta; and the white pine weevil in eastern Canada.

"The control of extensive epidemics of forest insects can be effected by direct methods in the case of outbreaks caused by bark-beetles and wood borers," the speaker stated.

"But there is no satisfactory method at present of controlling defoliating insects in large forest areas.

Distribution of poisoned dust from airplanes may prove an effective remedy for this menace to forests.

Entomologists and botanists, as technical and practical forces will have to co-operate if the losses to timber as a result of the roads of insects is to be held down, Mr. Swaine said.

**SHOPKEEPERS, AHOY!**  
**Look at the handwriting on the wall**  
**Don't drive your customers**  
**Into your competitor's store**

“People are getting fed up with Substitute Soaps; they want Sunlight Soap. If you won't sell Them Sunlight, they will get it From your competitor.”

**EVERY INTELLIGENT PERSON WANTS SUNLIGHT SOAP.**

SUNLIGHT SOAP, sold under a Five-Thousand-Dollar-Guarantee of Purity, is made by Lever Bros., Soap-makers to His Majesty King George. It's the best there is.

When your customers are satisfied to pay good money for soap, give them SUNLIGHT, the best Soap, and keep them satisfied; keep them coming to your shop. A customer in your shop is worth two in the street.

It is a fact that shopkeepers who sell SUNLIGHT do more business than those who waste their time trying to sell unknown soaps.

**BUY SUNLIGHT--AND SELL MORE SOAP--'ATS BUSINESS.**

**Breaking Up The Home!**

You can hardly blame this man for what he is doing, as he is evidently suffering from an attack of Indigestion. It would be much cheaper for him to purchase a bottle of some good Stomach Mixture.

**Stafford's Prescription A**

would certainly help this man, and any other who would feel like doing the same thing. The usual symptoms of Indigestion or Nervous Dyspepsia are as follows: Uncomfortable feeling about Stomach after eating, Headache, Nausea, Acid and Bitter Eructations, Langour and Depression of spirits, Irritability of Temper, Tenderness over Pit of Stomach, Bad Taste, Loss of Appetite, Constipation, etc. If you have any of the above symptoms try a Bottle of STAFFORD'S PRESCRIPTION A, and we are certain it will cure you. You can purchase a trial bottle for

30 Cents—5 cents extra for postage.  
 or large bottle (about three times as large) for 60 Cents—10 cents extra for postage.

**SIDE TALKS.**

By Ruth Cameron.

**THE JUST IN-LAWS.**

My friend, Jean F., is getting a divorce from her husband. Not his usual in that is there? But here is the unusual detail in the sadly usual little domestic drama. While she is getting the divorce Jean is staying with her husband's mother and sister who are very fond of her. They are sorry that she does not feel that she can put up with Robert any longer but they cannot blame her. They have known Robert longer than she has, they know how selfish he is in the pursuit of his own pleasure, how utterly undependable in his promises, how ruthless in his tempers. And they have known Jean long enough to know how patient she is, how faithful, how unselfish, how sunny of disposition. And so when after the last miserable episode in which he haunted and humiliated her, Jean felt that she wanted to be free they asked her to come and stay with them that the world might know they were standing by her.

**An Honor To Them.**

All honor to them, I say. I never heard of one of these rare cases where the in-laws stand by the one who is not related to them because they feel that he or she has justice on his side, without a glow of pride and approval. Pride in a fellow being who can put justice above family loyalty. I suppose one of the reasons why mothers-in-law are apt to cause trouble is that most of them are always ready to spring to the defense of their own without the slightest consideration of whether their own are right or not. This naturally causes a bitter resentment to the in-law, which continues long after these twain have made up their own differences. One mother-in-law who had made

**Two Kinds Of Standing By.**

It is splendid for people to stand by their own through thick and thin, if they stand by at their own cost to help against injustice; and not to justify where there is no justice and where the rights of others are involved. I think a wave of sympathy went through the country for the parents of those degenerate youths in Chicago when people realized that they were not using their wealth in an effort to free their sons from the consequences of their acts. Anyway one likes to think it was some sense of justice and the rights of society which made them willing that their children should be shut up where they could do no more harm.

A gay little hat of brilliantly striped silk is worn with a scarf of plain colored crepe banded with the striped silk.

A plecto capette and sounce at the bottom give airy grace to a dance frock of mauve chiffon with a flower at hip and shoulder.

**Lizard Taken From a Man's Stomach**

Winnipeg, Man., Aug. 29.—Believe it or not, but surgeons in Winnipeg recently removed a lizard from the stomach of a man who until a year ago was manager of one of the local banks.

For more than twenty years, the parasite is said to have lived in the man's stomach, sapping his vitality and during the past year threatened his life.

Medical men familiar with the case claim the lizard developed from an egg which entered the stomach during a visit to the "ole swimmin' hole" in boyhood days. It had kept him this all his life.

Various examinations and operations had been performed, but it was not until an illness this summer that the parasite was discovered. It was removed by an operation and since that time the patient has made remarkable physical recovery and has grown fat.

From boyhood, the patient is reported to have had a ravenous appetite and afflicted also with terrific thirst. "He drank more water than anyone I ever knew," his father said in speaking of the unusual case.

**BEFORE THE DAWN.**

The darkest hour, O weeper, is just before the dawn; the agony grows deeper, and then, behold, it's gone; the bright sun comes up smiling, the prospects are be-guiling, the fragrant breeze is pling rose petals on the lawn. How often I have muttered, "All mortal things are snared; the house of hope is shuttered and closed up for repairs; there's no relief before me, grim bogies come and sore me, each hour new troubles bore me, and biff me unawares." And just when things were tougher than any gent could thole, and I, ordained to suffer, had midnight in my soul, I found my woes dispersing; the fates I had been cursing, the grouch I had been nursing, were straightway in the hole. When I look back at sorrows that once beset my ways, and made me dread to-morrow and swear at yesterday, I wonder why I brooded, and thought my life denuded of hope when they intruded—I wonder, in amazement, the passing years have brought me dim eyes and toothless gums, but they at least have taught me that morning always comes; and when the light has threaded through cloudbanks thin and shredded, the Dead Sea Fruits we dreaded we find are merry plums.

### Transportation to the Ships

Editor Evening Telegram  
Dear Sir.—To accommodate the hundreds of citizens who are anxious to visit the battleship "Hood," why does not one of the Tug Companies detail off a tug for the purpose of transporting people from Topsail wharf to the ship, and advertise such in the daily papers? Some people have been fortunate enough to go by the "Hugh D." and "Pawnee," but it seems that those tugs were there more by accident than design, and it is a very slim chance for people to travel to Topsail and trust to luck to get over on a tug. The motor boats are all very well in a calm sea, but Conception Bay is not the most pleasant place to be if there is any kind of a sea running. There will be numbers of people going to Topsail on Sunday, hoping to get to the ships, and a great favor would be conferred if a tug were in use to take them back and forth. One hopes such will be done, and an advertisement to that effect, with the fares to be charged, put in Saturday's papers.

Yours faithfully,

St. John's, Sept. 11th, 1924.

### "Fighting Blood" Tremendous Success

FAMOUS SERIES FROM COLLIERIES WEEKLY OPENS AT NICKEL.

The spirit of youth on the screen. That's a nutshell description of one of the most entertaining motion pictures seen on local screens in some time—one of the "Fighting Blood" series now showing at the Nickel Theatre.

Produced by F. B. O. from the sparkling Collier's Weekly stories by H. C. Witwer, America's foremost humorist, the film tells a humanly humorous, interesting and thoroughly entertaining story of the struggles of a youthful soda fountain clerk who strives to attain fame fortune and love through success in the prize ring. Mr. Witwer's humor itself is irresistible, but conveyed via the screen by the characters chosen, it becomes absolutely marvelous.

Their quality of youthfulness and the appeal to the venturesome spirit in all of us, be we nine or ninety, makes the "Fighting Blood" pictures just a bit different from anything else shown on the screen. One just can't help taking seriously and being hugely entertained by the affairs of young Gale Galen, as played by George O'Hara; beautiful Judy Wilcox, as played by Clara Horton; Rival "Rags" Dempster, as played by Arthur Rankin, and all of the other likeable characters, the counterpart of any one of whom one might expect to meet any day in any American town.

Another attraction well worthy of recognition is the big feature "The Lion's Mouse" starring Wyndham Standing and Marguerite Marsh. The film is brimful of action from start to finish with a beautiful romance closely entwined.

### Prospero's Outward Passengers

The Prospero sailed for the Cook's Hr. Service 10 o'clock yesterday morning. She took a large freight and the following passengers:—Capt. Winsor, Magistrate Milfin; Messrs. Richards, Morgan, Banfield, Jardine, Baggis, Boone, Clarke, Small, Lodge, Bursey, White, Bourne; Mesdames Dyke, Cuff and 3 children, Young, Freeman, Kean, Christian, Batten and child; Misses Winsor, Anstey, Saunders, Sainsbury, Garland, Peyton, Boons, Cullon, Hutchings, Vilani, Parsons, White, Paige, Christian. In Steerage:—Messrs. Ford, Cooper, Yates, Rendell, Dooley, Combs, Button, Olford, Squires, Reid (3), Doherty, Curtis, Croke and 2 children, Hewell, Farthing, Dwyer, Ralph, Ivany, Morris; Mesdames Reid, Carter, Mullett, and Duffy.

### Cosmopolitan to Present "Under the Red Robe"

Film Has Noted Cast, Headed by Robert B. Mantell, John Charles Thomas and Alma Rubens.

The Cosmopolitan Corporation announces that it will present at the Nickel Theatre the greatest achievement in its history to date—a sumptuous screen version of "Under the Red Robe," from Stanley Weyman's famous romance bearing the same title.

The new picture presents a remarkable cast of actors notable on stage or screen, chosen also as being the best representatives of their art to interpret the celebrated personages of history who are the leading characters in this drama. Visualizing the most vivid period in the reign of Louis XIII of France.

The statement is made that "Under the Red Robe" represents the most careful regard for historical accuracy in all of the important features of settings and costumes. The picture was nine months in the making, and the total cost is upwards of \$1,500,000—an outlay which, probably has not been exceeded in the production of any

historical film, except that of "Yoland," the Cosmopolitan production just completed.

All of the famous examples of the architecture of the period represented in the sets used are faithfully reproduced. The Palais Royal at Paris, formerly the palace of the great Cardinal under Louis XIII, is an instance; also the interior of the Louvre. The reproduced castles of the famous historical personages appearing in the picture—as the Castle de Cochetoret in the south of France—represent the result of much research, and afford a striking contrast to the architecture of the French capital at that time.

The cast is headed by Robert B. Mantell, John Charles Thomas and Alma Rubens. Mr. Mantell has the role of Cardinal Richelieu while Mr. Thomas appears as the heroic G. de Berault. Miss Rubens will be seen as Renee. Others in an especially notable company include Genevieve Hammer, William H. Powell, Rose Coghill, Ian MacLaren, Mary McLaren, Otto Kruger, Evelyn Goenell, Gustav von Seyffertitz, Charles Judels, Andrew Dillon and many others.

## Just Folks.

By EDGAR A GUEST

BEING RIGHT.  
More than once in a while  
For the sake of a friend  
Or a trial to the end  
He stopped by the way  
And with never a sigh  
He gave up the day  
And let riches go by.

Not always for self  
Did he labor and think  
Not always for self  
With its musical clink;  
Now and then for the sake  
Of another he'd stay  
And let all he could make  
For himself dance away.

There were cynics who sneered  
There were those, with a smirk  
Who said this appeared  
Like neglecting his work.  
And to let money go  
Which was waiting on hand,  
For a friend, high or low,  
They could not understand.

"Oh, a man's not a man."  
Once he whispered to me  
"Unless some times he can  
Look about him and see  
Something more than the sign  
Of the dollar in sight  
And will do something fine  
For the sake of being right."

## What Water Power Means to Canada

The advantages of water power may be briefly summarized thus:

1. It is a native raw material and industry.
2. It is a non-depletable and inexhaustible source of power and heat.
3. It offers proved certainty as to practical application and financial success.
4. It is the source of power requiring the minimum of labor and therefore giving the maximum security against labor troubles.
5. It gives the maximum relief to transportation.
6. With a few local exceptions it is by far the cheapest power available.

The value of water power lies in its cheapness, not in a high selling value. For instance with wheat, pulp, lumber, etc., the higher the price the greater the "value of the product" and the greater the value to the country on account of large export trade, but with water power the lower the price the greater is the assistance to a few cost of production in all other lines of manufacture, for both home consumption and export, and therefore the greater the benefit to the country.

A reasonable estimate of the national value of water power is that it is at least the cost of coal to produce the same amount of power if the water power had not been developed.

This, as before shown, is \$250,000,000 per annum, practically all of which would have to be sent abroad annually if we had no water power—pro-rata for 1920 it will be nearly \$500,000,000. The coal consumption per capita is nearly 30 per cent. less in Canada than in the U.S.A., due mainly to the greater use of water power in industries.

But for the water power developed, Ontario and Quebec (the acute fuel area) would now require about twice their coal supply.

The real fuel problem of Canada is the supply of coal to Ontario and Quebec. It has been shown that but for water power development these provinces would now be using nearly twice the present amount of coal, and to this great extent the difficulty is already diminished. The more water power is developed the less coal will be required, but no matter how much water power is developed the total fuel required will tend to increase.

As a substitute for fuel power, water possesses no uncertain factors—it is inexhaustible, it is universally acceptable wherever available and as a financial investment its soundness has been proved beyond question.

## Not a Fly-by-Night Product

Pearline is no new product on the market, but a tried and proven commodity of great value and service. Fifteen, twenty years ago Pearline was helping the women of St. John's to do easier washing, and at that time Pearline was practically the only washing powder used. For some years it has been unobtainable locally, but it is here again now and already getting back its old time popularity. Pearline is without doubt the most efficient washing powder. For perfect cleansing be sure to use Pearline. At your grocer's—D

## RICHARD HUDNUT

THREE FLOWERS FACE POWDER  
The Face Powder that is Different  
Having the Particularly Desirable  
Quality of Adhesiveness and Incor-  
porated with the Distinctive and  
Appealing odor of Three Flowers  
In All Popular Shades

A very few faces are able to stand the severity of the felt and velvet shaps modeled after coachman hats. This is a season when not only do accessories match, but the ensemble is apt to be all shades of the same color.

A delightful wrap-around coat of black cashmere is lined with the gayest of woolen plaids, which shows in the wide collar and revers. In spite of the straight silhouette this is a season for flares. They generally start above the knees and slant outward to the bottom of the skirt. A frock of printed chiffon is widely banded at the bottom with velvet, so that, worn under a beaver-trimmed velvet coat, it makes a perfect ensemble.

## Admiral Scheer on Jutland

Admiral Scheer, who commanded the German fleet at the Battle of Jutland, has given a very frank expression of his views on the battle to a correspondent of the Daily Express:—

He was completely surprised, he says, by the appearance of the British fleet. This surprise was brought about by the successful screening work of Beatty, of whom he speaks in terms of warmest praise.

Admiral Scheer described how he suddenly saw the entire British Fleet before him. Visibility was poor, and the enemy ships could be seen, but as the merest silhouettes, stabbing the sea haze with flashes of fire as they came into action.

"The British gunnery," said Admiral Scheer, "was very good, and the position of the German Fleet was desperate. As a result of Beatty's skilful manoeuvres the British Fleet extended in a kind of semi-circle round us, interposing between us and our base."

It was a position in which only the utmost promptitude and energy on the part of the Germans could save them from annihilation. In these circumstances Admiral Scheer gave the signal for the "turn all together" of the German Fleet, a manoeuvre unprecedented in war, which was magnificently executed.

"This manoeuvre, which saved the German Fleet," said Admiral Scheer very distinctly, "would not have been possible but for the hesitating (zig-zag) fashion in which Lord Jellicoe brought his fleet into action, and the manner in which the British Fleet turned away before the fierce offensive by torpedo craft by which we covered our retirement."

Admiral Scheer, describing the further progress of the action, claimed that having extricated his fleet from its desperate position by the "turn all together," and formed a new line, he made a second offensive stroke against the British van. This phase of the action, he claimed, is slurred over in the British official reports, and although hinted at in the Blue-book is suppressed in the diagrams.

The results of the second offensive by the German battle-cruisers and torpedo-craft were, however, important. Jellicoe, for the second time turned away, and as Beatty with his squadron was pressing on, a gap opened between him and Jellicoe. A similar gap had opened between Jellicoe and Evan Thomas, who had fallen behind with the Fifth Battle Squadron. Thus at the close of the action the British Fleet had fallen into three disconnected groups.

Speaking of the failure to renew the action on the following day, Admiral Scheer said very emphatically that if Jellicoe had wished to bring the German Fleet to action he could have done so.

At 5 a.m. the German ships were off Horns Reef when part of the British Fleet were sighted by a Zeppelin in a position from which they could still have interposed between the Germans and their base.

Admiral Scheer made interesting and valuable comments on the manner in which Jellicoe handled the Grand Fleet.

A fundamental initial fault on Jellicoe's part, he said, was his failure to make an early deployment. After making all due allowance for errors in calculation from the Lion, and contradictory reports, Jellicoe must have known that the German Fleet was to be found within a certain quadrant. He should have prepared accordingly.

"The second blunder," continued the admiral, "was the deployment to port instead of to starboard. Had Jellicoe deployed to starboard he would have brought his fleet at once into decisive action, and the 'turn all together' which saved the German Fleet could not have been as much as attempted.

"The third blunder was the turn away from the German torpedo attack instead of towards it. This turn away enabled the German Fleet to accomplish its intricate and dangerous manoeuvre almost unmolested. It slipped out by the skin of its teeth, but almost scathless, from the very jaws of the steel trap that were closing around it.

"Had Jellicoe turned 'towards' instead of 'away' the risks to his own fleet would not have been greater, while the German withdrawal would have been infinitely more dangerous, and must have been carried out under heavy loss."

At this stage the correspondent asked pointedly: "Do you think, Admiral Scheer, that if Beatty had commanded the Grand Fleet instead of Jellicoe the results of the battle would have been different?"

Admiral Scheer hesitated, and then said: "Well, I can best answer that question by saying that when in Germany we heard that Beatty had taken over the command of the Grand Fleet we felt that we must prepare for a much more aggressive attitude on the part of the British should it come to an action."

"There was no touch of Nelson, no fierce overwhelming impulse to grapple with and destroy the enemy." Commenting on the failure to renew the action on the day following, Admiral Scheer said significantly, "It would have been worth Jellicoe's

while to have lost half his own ships if he could have utterly destroyed our fleet in doing so."—Review of Reviews.

## FOR DISCRIMINATING LADIES

Three Flowers toilet preparations have won the approval of many fastidious persons. The distinctiveness of the odor—its charming fragrance—the refined "tone" these are the qualities that have made the name Three Flowers synonymous with all that is aristocratic and cultured in the toilet goods world.

It has been said that it is a mark of refinement to use Three Flowers toilet goods. Most druggists and department stores are now prepared to show Three Flowers goods.

**Municipal Council**

**WEEKLY MEETING.**

The weekly meeting of the Council was held yesterday afternoon. Mayor Cook presided and Councillors Martin, Outerbridge, Wilcombe, Collier, Ryan and Dowden were present. After the minutes of his last meeting were read and confirmed, the following matters received attention. A communication was read from the Secretary of the Newfoundland Board of Fire Underwriters, calling attention to the fact that a building on Water Street West had recently been recovered from fire, and inquiring as to whether or not such a recovery was contrary to the City Charter. They were of opinion that permit for the use of shingles should have been issued, and the owner of the building instructed to use material of an inflammable nature.

Under Section 377 of the Act, respecting material to be used in reconstructing, it is provided that in the reconstruction of any building already erected the use of shingles may be permitted within a period not exceeding ten years after the passing of the Act. This, however, would not apply to buildings in the Fire Zone, from Temperance to Job Streets where all buildings must be constructed of unflammable material.

Mr. Joe Piercey applied for the position of caretaker of the Fish Market; he having performed the duties temporarily during the illness of the late caretaker. He is to again temporarily engage to look after the market for the balance of the season.

Messrs. Bowden, Sellars and Pochy, residents of Blatch Street, presented by them for the placement of a light on their thoroughfare. The matter will be given attention by the Lighting Committee.

An application was read from J. A. G. Ryan, for the position of caretaker of the Western End of Windward Lake. Application was ordered.

E. F. Tarahan, Agent for the Dominion Nursery Company, Montreal, submitted prices for supplying of trees, etc., for Bannerman and St. Peter's Parks. This will be considered by the Park Committee.

Messrs. Job Brothers & Company notified the Council of their intention to place a concrete sidewalk on the western side of Job's Lane, the present sidewalk being in very bad condition, and asked if the event of their performing the work, the Council would be prepared to contribute towards the cost of the same. Consideration was deferred.

The City Engineer submitted his report of the work performed by the Waterworks, Sewerage and Gas Departments, and stated that the reconstruction of the Gull Pond Dam was progressing favourably and will be completed in a short time. The old dam, which was built some thirty years ago, and which was a wooden structure, was so decayed that at any moment it was likely to collapse and a general water shortage in the City would have resulted; but the Engineer, with the aid of the men employed, have erected a dam, which, being strengthened with concrete, will ensure greater safety in the future.

In connection with the Sewerage Department it was ordered that the Gas Street sewer be extended, as to facilitate flushing and give proper ventilation to same.

The following plans were passed, to the approval of the City Engineer, at whose office the necessary permits may be obtained:—  
 Dwellings—J. Dannison, Mayor Ave.  
 Dwellings—D. Dwyer—M. C. Morgan, Leslie Street.

The application of S. Noseworthy to build dwelling on Leslie Street, this was deferred until such time as he submits ground plan of the same.

The Sanitary Supervisor submitted a weekly report, which dealt primarily with the cleaning of city streets, gutters, etc., grassing and mowing of drains and sprinkling of streets. He stated that upwards of thousands of loads of garbage had been carted to the various city dumps during the week.

The Medical Officer of Health reported six new cases of Scarlet Fever, three of Typhoid for the past week. At the present time there are 10 patients; Scarlet Fever, 26 patients; Typhoid, 11 patients.

The City Clerk tabulated comparative financial statements for August 31st, the years 1923, 1924, and also included the Board that within the few days many writs had been issued with a view to collection of outstanding taxes.

Since the first day of September, the number of people have taken advantage of the ten per cent discount allowed for prompt payment of taxes. In this connection it may be noted that no discount will be allowed after the 15th inst., as will be seen by the notices published in the daily papers every day since the 1st inst.

Orders were ordered to be called for the erection of a new wooden structure at the Sanitary Stables, St. Peter's Avenue.

Following the granting of requests for the various Departments regarding accounts, the meeting adjourned.
