Horticultural Show

The annual Spring Show of the Guelph Horticultural Society took place in the Drill Shed on Tuesday. The display in the several classes was not so large nor so good as we have seen at previous Exhibitions. This is due to a number of reasons, and partly because there were not so many exhibitors as in former years. There was, however, a very excellent assortment of flowers, though it was not so rich as regards variety. Mr. Horman was almost the only exhibitor of green house plants. In the class of ordinary window plants, Messrs. Tansley, Sunley and Mann were the most prominent exhibitors, and showed some beautiful plants. There was a very good show of roses and sweetwillas. There was a very small show of cut flowers, and far less than what we have seen in Guelph. Mrs. Hogge and Mrs. Sorby were the first prize takers for their pretty bouquets, and Mr. Wm. Thompson of Puslinch, got the first for his nice collection of native flowers. Strawberries were poor as compared with those shown in previous years. Messrs. Sunley and Ainley were the only prize takers in this class. Other fruits were very fair, especially the currants and cherries. There were some very fine apples of last year's growth shown. Potatoes were also excellent, especially those shown by Messrs. Pallister and Baker. Mr. Tizard had some very large cucumbers. The other vegetables were about the average. Messrs. Benham and Roper took the first for the wall growths. As usual Mr. Benham was first for his hot herbs. In the evening there was a large attendance of our citizens, with a fair sprinkling of the military. The fine band of the 29th regt. were present, and played excellent music. The Judges were Capt. Smith, London, Mr. Alex. Glass, Guelph, and Mr. Adam Dunn, Galt. The following is the PRIZE LIST.

BY TELEGRAPH TO THE MERCURY

Sensible Decision by the Orangemen. The London "Standard" and Reciprocity. Affairs in France. International Postal Congress. Depredations by the Indians. London, July 8.—The Morning Standard, in reviewing the proposed reciprocity treaty between the United States and Canada, says if adopted it will establish separate North American Zolverein in regard to all essential articles of trade between the States and the Dominion, excluding England from Canadian markets to take a foreign and less favored nation. The Canadian frontier will be virtually obliterated, and the absorption of the British North American Provinces by the United States will become only a question of time. London, July 8.—The Times Paris special correspondent writes that the English and Left Centres have agreed upon an order of the day declaring that the Assembly is determined to defend MacMahon's powers from every attack of their opponents. The Cabinet still has a majority of fifty in the Assembly, but the Bonapartists and a portion of the Moderate Right, who are able to turn the scale, are wavering. If the Government is defeated, the dissolution of the Assembly is inevitable. New York, July 8th. Thos. Dodd, a vagrant, died from the effect of foul air in Jefferson market Prison, where he was committed last week. This is the second death within a week in the same place from the same cause. Dr. Harris reports to the Board of Health that at no time since 1868 has the rate of mortality been so low and the condition of the public health so good as at present. Thomas Kemp, of New Brunswick, N.J., who threw his three children into the canal on Monday, drowning one, and attempted to drown himself, died to-day of disease of the heart. Police Commissioners Charlick and Gardner have resigned in order to prevent Mayor Havemeyer's embarrassment. Trinidad, Colorado, July 7th. Bands of Comanche and Apache Indians are depredating thirty to sixty miles south east of here on the Cimarron. They have killed two Americans, three Mexicans, and taken one Mexican woman prisoner. They attacked a Mexican train yesterday, and fought all day, but were driven off ultimately. Up to this time they have stolen 400 head of horses. Men and ammunition are being sent forward. New York, July 7.—The Grand Lodge of Orangemen decided not to parade on the 12th inst., but will have a sermon by the Rev. Dr. Tye, on Sunday the 12th, and have a picnic next day. Henry Lewis, arrested in Hamilton for running a train off the track in Ohio last year, is to be extradited. Mr. Alfred Boultbee, M. P. P., has taken into partnership Mr. William Wadsworth. This new legal firm will practice in Toronto. Mr. William Brown, Editor of the Bruce Herald, met with an accident at the station on Dominion Day, by which his arm was broken. W. Hinds Smith, delegate from Manchester, England, to the Y. M. C. A. convention at Dayton, visits Hamilton on Friday. A Postal Congress will be held in Borneo on September 15th. Fifteen States will be represented. Delegates from France and Denmark are already appointed. Mrs. Mary Peirson, an elderly woman, living for some years at No. 15 Barton street, Hamilton, was found dead in her bed on Monday morning. Cause, whiskey. The latest intelligence from London states that the argument in the Guildford case was expected to open on the 3rd inst., and to continue one week. The Canadian advocates are only allowed to plead in the costume of English barristers. J. W. Lanoumeir, Inspector of Public Asylums for Ontario, was married at St. James' Cathedral, Toronto, on Tuesday morning to Mrs. Riout. There were six bridesmaids and the assemblage was a fashionable one. It is stated that the Rev. John Gemley, of Toronto, the agent of the Upper Canada Bible Society, will shortly leave the Wesleyan domination, and be ordained a minister of the Church of England by the Bishop of Huron. From all parts of the States come glowing accounts of the advanced state of cereals, fruits and roots of all kinds. Even Louisiana, that has suffered so severely from flood and famine, expects to harvest a larger rice and sugar crop than was gathered last year. A slave who had escaped from the King of Ashantee, arrived at Cape Coast Castle in the last part of May. He reports that King Koffee is sacrificing as many human beings as ever, and that he was forced to run away in order to save his life. J. D. Moore & Co., the soap manufacturers of Toronto, have made a proposition to the committee for erecting an illuminated clock in St. James' Cathedral spire, as follows: They will procure such a clock at a cost of three thousand dollars, and have it placed in position, on the simple condition that the name of the firm shall appear on each dial in the same size as the numerals, no mention whatever to be made of their business. Chief Commis. of the St. Catharines police force, has issued an order to the constables as follows: "Any Constable giving any information whatever of any reporter of the Daily News is liable to be summarily dismissed from the force." Poor sipleiton! he will suffer in the end, and not the News.

THE BRIGADE CAMP. July 8.

The usual routine of duties were gone through yesterday at the camp. The remaining companies of the 30th were at the butts, and to-day the rifle practice will be finished by taking out all the casuals, who have not hitherto been out. The returns will be made up as soon thereafter as possible. Brigade drill took place as usual in the afternoon. The heavy thunder storm overtook the men as they were returning. He was by some means thrown down, and the wheel of one of the gun carriages passed over his leg. To-day there is general roll call preparatory to the payment of the men by Paymaster Levy. The Battery marched out to-day and passed through town, eliciting many encomiums from the spectators on the fine appearance of the men. To-night the members of the Town Council, members of Parliament, &c., dine with the staff officers and officers of the 30th. Our readers will not fail to recollect that the inspection by Col. Taylor takes place on Thursday at 2 o'clock. It will be a fine sight, and will be sure to attract a large crowd of spectators. Watertown Tournament. The following letter has been received from Mr. Tinker, scorer for the Maple Leaf Club by a friend in town:— Watertown, N.Y., July 6, 1874. DEAR SIR,—Enclosed please find score of morning's game. We are now sure of second money. We played our last and a-half innings against the team of the Nassaus. We had then been playing half an hour in the rain, so when Keel thought that the chances were against us he had the game called, which he could not have done after the rain had been falling five minutes. Keel offered to play the game through in the rain, providing they would play, but they would not promise, so George Wisely had the game called before the fifth inning was completed, and the umpire, Mr. Loughlin, of the Flyways, declared it no game. To-day we waxed it to them hot and strong, and they, as the pet Brooklyn club, feel correspondingly sick. The Eastons and the Chelsea play this afternoon, and we play the winners for the first prize. The Eastons are still first favorites, but how they will be this evening or to-morrow remains to be seen. I will telegraph the result as usual immediately the game is over. In the meantime, I remain, Yours truly, MATTHEW TINKER. MAPLE LEAF

GOVERNMENT.—Last night a crowd gathered on Cork Street to witness a mare go through a number of tricks. She was attached to a sulky, and was so sulky that she would not draw that sulky out of Cork Street. It was evident that Professor Pratt would have found a fit and proper subject in that sulky mare. We have seen a good many sulky animals, but we don't remember ever having seen an animal so sulky as that mare when she was attached to that sulky. There was no charge made for admission to that exhibition, but there were a good many charges made by that mare on the crowd during the continuance of the performance. All quiet on Cork Street this morning, the show having closed sometime during the night, as all rightly-conducted shows should.

The Committee of the Council are busy making arrangements to-day. They have ordered a sufficient supply of strawberries for the festival on Thursday evening, to which every member of the Brigade—officers and men—will be invited. This is much better than the first proposal, as the men, who are as much deserving recognition as their officers for their loyal services, will also have the assistance and co-operation of the ladies in town for making the necessary preparations and attending to the tables in the evening. We are sure that such will be given with the greatest alacrity, and would recommend that the members of the Council should enter into a committee at once, to carry out the arrangements.

Left hand writing.—A left-hand writer in the Scientific American gives some reasons why it is better to write as he does. The hand is right is always in plain sight, and so is the paper to be written on. There is, consequently, no inducement to stoop forward or to turn the head, so as to throw the eyes out of focus. It is a common fault with those who write with the left eye, to have a shorter range than the right. It is overworked and compelled to adapt itself to nearer vision. In writing with the left hand these evils are avoided. An upright posture is the easiest, and the eyes are equally distant from the paper.

Treatment of immigrants.—A correspondent who accompanied a party of immigrants from England, speaks in terms of the greatest satisfaction of the treatment received en route, and of the way they fare at Toronto. He expresses himself as follows: "Here, while our people remained over a day to wash and clean up before being placed in the country, they were supplied with the best of beef, bread, tea, &c., leaving nothing in this, or indeed in anything else, to be desired or complained of. England the report is circulated that the emigrants, on their arrival in Toronto, are treated like pigs. If this be true, then pigs in Canada are both lodged and fed vastly better than Englishmen are at home."

Freemen's gathering in Hamilton.—The Hamilton Fire Brigade have made extensive arrangements for a grand fête in that city on the 6th of August, when delegates to the number of 2,000 will be present from the States and Canada. Among the brigades represented we find Galt, Berlin, Brantford, Paris, Ingersoll, and Ayr. No mention is made of Guelph.

Commenting on the recent charge of spurious coining in Owen Sound, the Advertiser remarks:—"Apart altogether from the present case, rumour (which in this case does not) has long declared the fact that there are a number of counterfeit coins in circulation. It is stated that for the last twenty years this town has been more or less the centre of counterfeit coin, that people who lived here so long ago were engaged in this illegal practice, and that it has continued down to the present time."

REMOVAL.

G. B. FRASER

Has removed directly opposite his old stand, where he has opened with a brand new stock at much lower prices than could be bought earlier in the season.

G. B. Fraser is too modest to advertise that he is selling much cheaper than those who make a great blow. Still facts are stubborn chiefs, and a discerning public pronounce Fraser's to be the cheap store to deal in.

G. B. Fraser gives his old friends a cordial invitation, and invites all who wish to save money to call and see his new stock.

SUICIDE IN MITCHELL.—A person named Masterman, from Temperanceville, county of York, committed suicide on Tuesday morning by taking poison, supposed to be strychnine.

A BLOODY ENCOUNTER.—About two o'clock on Monday morning a ruffian attempted to break into the hotel of Mr. B. Drake, of London, but was felled by a blow on the left temple, which was nearly fatal. The burglar gave his name as Patrick Maloney, and said he came from Braintree. He is about 25 years of age.

MANUFACTURE OF COCOA.—We will now give an account of the process adopted by Messrs. James Epps & Co., manufacturers of dietetic articles, at their works in the Euston Road, London. See article in Cassell's Household Guide.

THE GREAT WESTERN WORKS.—The London Free Press says:—It is understood that arrangements are in progress to open the new and important Works of the Great Western at this city on or about the 15th of September. Their extent is such that fully five hundred men can be employed in and about them, though from the depressed condition of the railway interest just now so large a number will not find occupation there.

THE NIX PLUS ULTRA.—Everybody likes to see a well dressed head of hair, but no lady or gentleman can dress their hair with perfect satisfaction without the use of Bearine. Its perfume is exquisite: it gives to the hair a glossy rich appearance. Sold by all druggists.

THE STORM IN CLINTON.—About two miles from Clinton, the roof of a building was blown off and several trees blown down by the storm on Tuesday. A splinter from the debris struck and killed a horse belonging to Mr. Moon, who was driving past.
