Refinement

is just as possible in storekeeping as in the home. Polite clerks and polite ways of doing things make the store increasingly popular with ladies and gentlemen of refined tastes.

To-Morrow

the store will be closed all day. You hardly need reminding. Thanksgiving puts a stop to the million wheels of trade, and brings good cheer to salespeople as well as shoppers.

- Clothing
-Shoes
-Hats
-Jackets
-Satchels
-Linens
-Groceries

there's time enough between now and six o'clock to-night. All goods delivered promptly, and unusually quick service throughout the store all day.

Such Selling

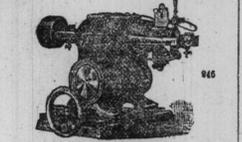

in Dress Goods as we have never known. The pendulum of trade is swinging away from ready-made costumes, and women are planning and fixing as much now as they ever did. That calls for more piece goods, and luckily we bought more. You can imagine the kind of business we're doing with such values as these at our disposal:

A FAST ATLANTIC SERVICE IN SIGHT.

Mr. Chamberlain's decision to grant an Imperial subsidy to a fast Atlantic line to Canada will be hailed with gratification by everybody in Canada, irrespective of party.

The Dominion Government has had the immense sum of \$750,000 per annum dangling for some time past as a bait to any enterprising capitalist who would embark on the scheme under the auspices of Mr. Huddart. An additional \$375,000 will tempt men to come into the scheme who may not be inclined to sail under the flag of Mr. Huddart, who has been thought too light a weight for the project by many of Canada's best friends in England.

We are on the brink of a new era, and we foresee as a first outcome of the new arrangement a chance of colonizing our Northwest much more systematically than we had expected. It is appropriate to this most important news and shows Mr. Chamberlain to be the right man in the right place.

There is no water here. The profits of the company during the four years, 1892, '93, '94, '95, ending Feb. 23 in each year, were, as ascertained by a chartered accountant from an examination of the books and accounts, \$1,770,389, the annual average being \$442,595, which represents a share of 9.69 per cent on the fixed capital of \$4,615,605. Does such a return justify the reckless charges of excess profits alleged to be extorted by means of wicked combines? Is it not rather a proof of judicious and beneficial combination under one general management of the ten factories distributed over Nova Scotia, New Brunswick, Quebec and Ontario, by means of which the different classes of cotton manufacture are more systematically conducted, and with greater economy than under ten different managements? The report shows further that the whole of these profits have not been paid over to the stockholders of the company in the way of dividends, but only \$360,647, had been so apportioned. In the four years, being an average of a share under 6.40 per cent per annum on the paid-up capital of \$3,855,600. From the highly colored lectures of profits presented by The Globe and leaders of the Grit party, a great rush for the stock of such successful companies might naturally be expected, even at a high premium. Instead of this, the Government by reason of an issue for the appearance of which on the political horizon the Government is in no wise responsible. This issue they look upon as an exercise on the Government's policy, and they have no objection to believe the Government as long as there is a possibility of the exercise being got rid of by compromise or by a settlement which does not violate the principle of provincial rights. The Liberal Government should be supported up to the very time it is called on to introduce some practical legislation on the school question, and when that comes it is ever done, the Government in every way they can, short of actually supporting coercive legislation towards Manitoba. In the bye-election of last year, the Liberal Government, the Liberal Conservatives of the riding believe in the principle of non-interference. They believe in a point and help the Government in every way they can, short of actually supporting coercive legislation towards Manitoba. THE CANADIAN COTTON LORDS AND COMBINES.

The very full and clear report of the position and operations of the Dominion Cotton Mills Company, which is now being widely circulated through the company's advertisement for offers for a proposed issue of debentures, is full of valuable information illustrative of the working of the National Policy. For many years back, every Grit newspaper and politician has been indulging in violent tirades against the leading manufacturers of Canada, endeavoring to induce the people to view them as selfish monopolists forming a combination to extort prices for their products; and of these manufacturers the Cotton Lords have been the special objects of denunciation. The report above alluded to furnishes a conclusive refutation of every one of these charges, and a complete vindication of the fair and honorable dealings of the company with the people.

TAKING THE REINS.

Mr. Chamberlain visited the Colonial Office on his return from the Continent, and subsequently had a consultation with Lord Salisbury DAILY PAPER, November 2, 1895.

WHERE BLOOMERS BLOOM.

The annual Chrysanthemum Show at the Pavilion, Esplanade, was opened by the Lieutenant-Governor yesterday at 3 p.m. The display this year is the largest yet made in Toronto, and the Pavilion has been turned into a bower of genuine loveliness. There has been no artificial, rectangular arrangement of the ground floor, but the spectator wanders in among a mass of daintily gossamer tables of flowers, showing the various varieties, while the pillars are surrounded by banks of flowers, and the festoons and cyclamens in the foreground. Beyond the multitude of semi-sensuous Oriental flowers, the eye is attracted by the simple and plain leaves. The lovely wild vine of Alabama hangs from every rafter, and the spiced leaves of the tropics. The fragrance of the show is a triumph, if only for the artistic inspiration with which it is permeated.

There are countless chrysanthemums—big, drooping masses of flame and lovely clouds of white and rose-color. The Japanese varieties are the largest and loveliest of the show, and the most interesting. The most inspiring, since it is formal in shape can be achieved. Their beauty of form and color, and in some instances the fragile blooms make perfect globes or perfect cones.

The atmosphere of poetry, where nature's emotions are expressed in gorgeous colors and forms, and the names of the varieties. Brown, Jones, Robinson and even Smith have been immortalized.

Teeth Painers on strike. Buffalo, Nov. 19.—There is a big strike on among the dental students of the University, and Dr. Allen, who has charge of the tooth extracting department, which culminated in a demand for Dr. Allen's resignation, but it seems the Dean had reckoned without his host, and the students simply won't work for Dr. Allen's successor.

Massy-Harris Co. Across the Line. Niagara Falls, N.Y., Nov. 19.—The report that the Massy-Harris Company of Canada would locate in this city is confirmed by the statement that the company has purchased for \$30,000 a tract of land on the McKoon adjacent to the city of Niagara Falls, Ontario. The present plan contemplates the erection at once of 50 houses for the operatives and their families. Cleveland has been after this concern for some time.

Stock Market Flat. London, Nov. 19.—The stock markets were flat to-day with virtually no recovery at the close. The depressing influences were the Arab rising in Turkey and further forced liquidations here and in Paris.

MacKerel Fishery a Failure. Gloucester, Mass., Nov. 19.—Only four more vessels of the macKerel fleet remain to arrive, and the fishery of 1895 goes on record as a failure. The catch will not exceed 25,000 barrels against 50,000 last year.

Dyspepsia and Indigestion—C. W. Snow & Co., Syracuse, N.Y., write: "Please send us ten gross of pills. We are selling more of them than ever before. They have a great reputation for curing Dyspepsia and Indigestion." Mr. J. A. Smith, Linden, N.Y., writes: "Parnele's Pills are an excellent medicine for dyspepsia and indigestion, with severe headache, but these pills have cured her."

Personal. Mr. Thomas Wasson, College of Physicians and Surgeons, has been appointed Dominion policeman by Chief of Police Sherwood. Mr. J. A. Klein, a well-known newspaper man of this city, leaves to-day for a month's visit to Detroit, Chicago, St. Louis and other American points.

Yesterday afternoon Secretary Pearson of the Consumers' Gas Company visited the Dominion Electric Commission in connection with the reduction in the price of gas.

THE LIVE STOCK SHIPMENTS.

A Great Increase This Year as Compared With 1894—A Murderer's Sanity in Doubt.

Montreal, Nov. 19.—The records of Messrs. Pope and Morgan, the Government cattle inspectors, show that during the present season, up to Nov. 18, there have gone to European ports from Montreal, 197,497 sheep, 83,941 heads of cattle and 12,564 horses, a marked increase as compared with last year. In 1894 there were 139,730 sheep exported, an increase for this year of 57,767. Last season the returns show that there were 8,538 head of cattle shipped abroad, an increase for this year of 7306. The number of horses exported is over double what it was in 1894. Last year 662 were shipped, showing an increase of 694 head for this year.

The funeral of the late Robert L. Gault took place this afternoon and was very largely attended by the leading commercial and business men of the city.

Azrae Gauthier, the slayer of Celina Consigny in July last, was placed on trial today at the Court of Queen's Bench. The accused tried the insane dodge so successfully that Judge Wurland, upon a jury to be empanelled that would decide if Gault was really fit to be placed on trial for his life.

SEA FIRE AT BRADFORD.

The Patrons' Mill Destroyed, Involving a Loss of \$40,000. Bradford, Ont., Nov. 19.—This morning at 1 o'clock a fire broke out in the mill of the Patrons' Mill, and in a few minutes the mill was consumed. The loss will be about \$40,000, with insurance of \$15,000 in the Atlas, Royal and Commercial Union Insurance Companies.

FAST ATLANTIC SERVICE.

MR. CHAMBERLAIN'S DECISION TO GRANT AN IMPERIAL SUBSIDY TO A FAST ATLANTIC LINE TO CANADA WILL BE HAILED WITH GRATIFICATION BY EVERYBODY IN CANADA, IRRESPECTIVE OF PARTY.

The Pacific Cable Project Taking Shape—Mr. Chamberlain Agrees to a Commission—Agricultural Depression Discussed by the National Conservative Association—Matters in Turkey.

London, Nov. 19.—The report circulated yesterday that the Imperial Government had decided to co-operate with the Dominion of Canada in establishing a fast trans-Atlantic steamship service is confirmed to-day by Sir Charles Tupper, Canadian High Commissioner.

THE PACIFIC CABLE.

The Project Taking Definite Shape—Mr. Chamberlain Agrees to a Commission. London, Nov. 19.—All of the colonial agents in London except the representatives of West and Southern Australia had a conference with Mr. Joseph Chamberlain, Secretary of State for the Colonies, at the Colonial Office to-day, with the result that Mr. Chamberlain agreed to appoint a commission to arrange the details of the construction of the proposed Pacific cable. The Imperial Government, Australia and Canada will each appoint two delegates upon the commission which will proceed with its work as soon as possible.

The representatives of the Cape Colony, Natal, were also present at the meeting, and Mr. Chamberlain remarked that the presence of representatives of colonies having no concern in the project in its present form was an evidence of solidarity and sympathy. He expressed the opinion that the project showed a fair prospect of remunerative return upon the capital required.

It was arranged that the Colonial Government should nominate a committee to the commission, whom the Imperial Government will confirm, as the commission will consider and report upon the whole subject in all its aspects. The conference endorsed the resolutions adopted by the intercolonial conference held at Ottawa in 1894 in favor of commercial reciprocity between the United Kingdom and its colonies.

A DUTY ON WHEAT.

Suggested for Relief of the Agricultural Depression in Britain. London, Nov. 19.—The annual conference of the National Conservative Association was held at Brighton to-day, with the Duke of Norfolk, President, presiding. Mr. Chamberlain was elected president for the ensuing year.

Mr. James Rankin, M.P. for the Leominster division of Herefordshire, in moving a resolution for the benefit of agriculture, which he denominated a "duty on wheat," suggested the imposition of a duty on wheat, barley, oats and flax, so as to relieve land from the burdens of local taxation, and also to benefit the production of the Government loans to persons purchasing farms.

The other speakers who followed Mr. Rankin supported his resolution.

MR. MORLEY WILL HAVE A SEAT.

Edinburgh, Nov. 19.—The Evening News announces that Mr. John Morley, Chief Secretary for Ireland in the late Rosebery Cabinet, who was defeated for re-election to Parliament for Newcastle-upon-Tyne in the last general election, will accept the nomination for the seat for Montrose, the incumbent of which, Mr. John Blair, has resigned. Mr. Morley's return is assured, as the Montrose constituency has a Liberal majority of 1000 or more.

THE SULTAN'S TROUBLES.

Appeal to the Pope for Intervention—Russia in Accord. London, Nov. 19.—The latest advice received from Constantinople says that the Sultan continues to be greatly alarmed over the state of affairs in Asia Minor, which his daughter, the Princess, reached a point beyond his control. He spent the entire night of Nov. 16 in the Yildiz Palace, personally dictating to the operator despatches conveying instructions to the provincial governors in Asia Minor, commanding them to spare no effort to restore order, and his anxiety to escape from the toils in which he has entwined himself has in the last few days been displayed in many other ways.

Movements of Warships. Constantinople, Nov. 19.—A British warship has been ordered to Alexandria, where the U.S. cruiser "Albatross" is daily expected to arrive. A French warship has been ordered to proceed to Beyrout.

The Ex-M.P.'s Little Daughter Frightened Off the Burglar, But Not Before They Had Made a Meal. Windsor, Nov. 19.—The little daughter of the late ex-M.P., frightened away burglars from her father's house last night by arousing her mother and the marauders tried to enter their bedroom. As it was they got away with a solid silver set, consisting of two gold watches, which Mr. White says was worth \$100, \$30 in cash and 15 bottles of wine. They took all his clothing into his private office and the parlor. Everything of any value in it was taken. Entrance was gained by removing a pane of glass from the parlor window. Mr. White says he must have been chloroformed.

Two little boys, the daughters of Charles and Samuel Shuel, two brothers, residing in the Shuel settlement, 15 miles back of the city, were riding home on a load of corn, when the horses took fright and bolted, overturning the wagon and throwing the girls out on the road. One of them had her thigh broken and the other her skull fractured.

The Correct Way to Run. Many people are fond of noisy exercises who lack of time or money prohibit them from the best kind of exercise. Those who cannot go wheeling may comfort themselves with the thought that the days of antiquity walking was held among the most healthful as well as the most graceful. The same may be said of the modern understanding how to walk properly, and certainly among women it is a lost art.

Accidents. It has been noticed, walk in a manner which is not from those who are not where the country is level. The mountaineer's body is best somewhat forward, so that he can drag one foot after the other, like a weary soldier after a long march. His walk is long and slow, and it is easy to see that he can readily leave an ordinary walk in this fashion for long distances without fatigue. "It is because, as is perfectly known to all persons in the business, the columns of the 'Independent' like its financial column, are clothed in editorial garb or clothed in more easily discerned dress of business notices, are purchasable and purchasable by the column or line, and all the other companies of the country are liberal purchasers of these columns for purposes of strife. It is to the contrary interest of the 'Independent' to keep up that strife as long as it can.

INSURANCE.

True Inwardness of the Independent's Attack Upon the Mutual Reserve.

From the New York Financial Review. It is now no new thing for a reputable institution to be assailed by the "Independent," a weekly publication which makes a trade of religion for the purposes of revenue.

"It is because, as is perfectly known to all persons in the business, the columns of the 'Independent' like its financial column, are clothed in editorial garb or clothed in more easily discerned dress of business notices, are purchasable and purchasable by the column or line, and all the other companies of the country are liberal purchasers of these columns for purposes of strife.

"Not only has the rate of assessment been increased about 50 per cent. on an average, but the ages of certificate holders have been advanced in the above extract, which asserts that the rates have been advanced and ages of certificate holders increased.

Assuming that by the words "regular life insurance companies" is meant the Mutual Reserve Fund Life Association, the assertion constitutes another falsehood. No man's insurance in this association has cost him more than the regular insurance for the same years and amounts would have cost him in an ordinary insurance company.

Any policy-holder entering at age 52, 12 years ago, has now an assessment of 63 and is assessed as of that age. On \$7000 annual cost, he is assessed \$267.25, which is a good way from being "near" the rate of \$2000.

"The statement is false from beginning to end. Not one dollar ever has been or ever can be used for the payment of expenses.

MONTHLY MEETING OF THE BOARD OF THE HOUSE OF INDUSTRY.

Condition of the House, its inmates and finances - An important report for the Board of the House of Industry.

Rev. A. J. Broughall presided at yesterday's meeting of the Board of the House of Industry. Among other reports presented was that of the Casual Poor Committee, which states that from Oct. 14 to Nov. 17, 188 persons had applied for temporary shelter and 683 lodgings had been given.

A tramp who underestimates. Rev. Mr. Baldwin seconded by Rev. Dr. Fotts, in order to deal with the abuse of the casual shelter arrangement, whereby tramps from all over the country landed in Toronto.

Major Kennedy, as treasurer, presented the financial report since March last, during which period the disbursements amounted to \$14,083, leaving a deficit of \$400.

Mr. John Ballie, seconded by Mr. William Carty, moved a resolution which was carried that the distribution of soup and other outdoor charity be not commenced until Dec. 1.

The Ladies' Relief Grant. Rev. A. H. Baldwin then brought up a discussion upon the November 1895 affiliation of the Ladies' Relief Society with the House of Industry Board.

IN THE CIVIL COURTS.

Chancellor Boyd Called Upon to Straighten Out the Hobbses' Other Important Suits.

At the Civil Assize Court yesterday the case of Macdonald v. Dawson was non-suited by Chancellor Boyd. The circumstances of the case are rather peculiar. In 1902 Mrs. Henderson, of Huntingdon, Quebec, died leaving \$500 to her nephew, R. H. Hobbs, and the executor located the supposed legatees at Oil Springs and after some correspondence with Dawson and Greenison, lawyers of that place, the money was forwarded by draft. It transpired that the wrong Hobbs got the money and the executor himself withdrew \$300 to the proper Hobbs, for which amount they sued the law firm. Chancellor Boyd's ruling in the Oil Springs case was that the executor had to look to the wrong Hobbs for repayment.

Dempsey v. Imperial Bank was a suit brought by Mrs. Clara Dempsey to recover \$100 which, it is alleged, was paid wrongly on a cheque. Chancellor Boyd ruled that the bank was justified in paying the cheque, and the case was non-suited.

John Cole sued Arthur Green in the Division Court for \$80, alleged damages sustained in a bicycle collision in Dundas-street on Oct. 16th. The action was dismissed without costs. Judge Morson holding that there had been negligence on both sides.

Hunter v. Lotus is a Division Court suit arising through trouble over an insurance policy, the plaintiff claiming misrepresentation. Judge Morson reserved judgment.

ENTERTAINING THE UNFORTUNATES. A concert by the Ontario College of Music at the Queen-Street Asylum.

An interesting musical entertainment was provided on Monday evening of this week by the Ontario College of Music, Homewood-avenue, for the more convalescent patients of the Asylum on Queen-street.

An audience of about 400 were assembled in the concert hall of the main building, where they listened most attentively to and showed marked appreciation of the excellent program of vocal and instrumental numbers given by the following members of the college: Misses Edith Stark, Mary Thorn, Marie Spink, Muriel White, Ruby Spink, Mrs. E. G. Cole, Harry Layton and Carl Farrington.

The principal of the college, Mr. Charles Farrington, also delighted the audience with several of his beautiful songs, and altogether this initial concert of the season proved a very enjoyable affair to the fortunate patients who were permitted to attend.

OUR 'SOCIETY' MAYORS.

THE CIVIC COMMITTEE BELIEVES IN A TWO-YEAR TERM.

The advisability of a "cabinet" formed upon a good inspection recommended for Mr. Awdie - All sorts of complaints on all forms of subjects to the Mayor and Council.

The Civic Reform Committee of the City Council yesterday afternoon discussed the proposed changes in the term for Mayor on the ground of the expenses incurred by elections.

The clause giving the Mayor power to appoint a "cabinet" was not approved by the committee. It was pointed out by a number of the aldermen that a Mayor might be elected who had no cabinet, and the Mayor in turn might appoint a cabinet, from amongst his friends, who were ignorant as himself of city government.

Ald. McMurrich favored a board of control, composed of two city ward chairmen of committees, together with the heads of the various departments and the Mayor. The committee was unanimous in favor of the clause.

The two-year term for aldermen was approved. The Mayor has received a letter from Mrs. Standish, objecting to the erection of poles on St. Vincent-street, claiming that it is in excess of the charter powers of the Telephone Company.

An Old Lady Killed. Adrian Mich, Nov. 18.-As Mrs. C. M. Williams, about 50 years of age, was crossing the track near Grunly-street, a car coming from the college struck her, throwing her with great violence to the ground. She was completely stunned and died in about three hours. Mrs. Williams was quite deaf.

The funeral of Dr. James Rea took place from his late residence, corner of Dundas-street and Beveridge-road, yesterday afternoon at 2 o'clock to Mount Pleasant Cemetery. A short service was held at the residence after which the body was removed to Chalmers' Freeburial Church, where the funeral service, proper, was conducted by the Rev. John Mutch. Many societies to which the deceased belonged, together with a large representation of medical men and private citizens, were present.

In the cortege were the members of Birmingham Lodge, Sons of England, Queen City Lodge, A.O.U.W., Court Dominion, Canadian and Foreign, a Jubilee Court, Ancient Order of Foresters, and I.O.O.F. 479. There were also representatives of the Oddfellows, Home Circle and Medical Association.

MIXED UP WITH THE LAW.

A Fine Lot of Misdeeds and How it Pays to be Caught.

Michael Hough, a young man well-known to the police, was convicted by the Magistrate yesterday of breaking into the premises of W. R. Bird, 433 Dundas-street. He was remanded for sentence until the 28th inst. at the request of the Crown.

John Chamley, 13 Williamson-street, was found guilty of breaking into the house of Christopher Curtis on the west side. He will be sentenced on the 22nd inst.

Jacobs F. Galster was charged with receiving stolen goods from the late Seward, the thief who took Alf Russell's medals from the Schiller House. The case was allowed to stand until the 22nd inst. to allow the defence to get a witness.

Robert McFayden, man, who has a record for appropriating anything that isn't nailed, was convicted of stealing coal from the G.T.R. McFayden, who is an old hand, got 30 days.

William Patterson, 46 Moore-street, was charged with setting fire to his property at Esplanade and George-streets, on Guy Fawkes' night, was remanded till the 22nd inst. The case is allowed to stand in order that settlement may be effected for the damage done. The complainants are Henry Worthing and Thomas Beck.

Alfred Smith, a messenger boy, got 30 days for stealing a letter containing \$15 belonging to the company.

Previous good character proved valuable to a girl named Nellie Armstrong, who stole some goods from W. E. McKenzie, Edward-street, while she was helping him to move. Mr. McKenzie did not wish to prosecute, and the Magistrate granted her a suspended sentence, warning her to take the narrow way in future.

William Griffin was charged with stealing \$6 from Amelia La Point, was discharged, the evidence being too conflicting for a conviction.

Richard Parker gets drunk and abuses his wife, and the Magistrate sentenced him to pay a fine of \$10 and costs or 30 days, notwithstanding the suggestion of Morality Man Archibald that Parker be remanded on his own bail to see if he would do better. The prisoner wanted till Sunday to get the money for the fine, which request the Magistrate promptly refused.

Henry Johnston and William Cleland were convicted of stealing pigeons from Arthur Bentley, were remanded till called on for sentence.

East Toronto.

Emmanuel Presbyterian Church, East Toronto, has been divided into two camps this past week over the question of the creed of its organist, Mr. Timms, who is a printer, and was declared to be also an atheist. Many of the members said that if such he would not sit at the organ, while others took the view that if he were an atheist, the church was not his place. Finally, to quiet the question, the pastor, Magistrate French and Mr. George Stephenson, charged with the organ, obtained his statement. It was found that Mr. Timms was a member of the Church of England, and that the adverse rumor had been started by the organist having signed himself a "Socialist" in the church book.

G.T.R. Conductor Benson, Brakeman Caswell and Driver Stewart of Little York have been charged with the use of the left arm and shoulder. The Brotherhood holds that Benson was not at fault, and that he should either be reinstated or given his disability claim of \$1000.

School section No. 26 of O.R.V. has applied to the Toronto Council, which meets on Monday next, to take action in the matter of looking to the handling over for school purposes of No. 2, that portion of the township now attached to East Toronto. Mr. Gibson of the City of Toronto, appointed arbitrator for the township, but East Toronto has declined to select the arbitrator.

The Union Cycle Club of East Toronto and Little York has accepted the invitation of the Toronto Tourists to take part in the "Hard Times Run" to Oakville on Thanksgiving Day. Every rider will be fitted in the most trim costume he can secure and must mount the oddest wheel. According to the rules no bills or order can be presented to meet expenses, but coppers only.

Women in the Professions.

The advance made by women in the professions is strikingly brought out by this new census paper, says The London Daily News. In the civil service the number of women officers and clerks had risen from the last census in 1871 to 846 in the last census year. In the local government of the country, too, women are much more freely employed.

There was evidently no return of women doctors in 1871; they were awaiting their degrees, or had degrees which the census did not recognize; in 1881 they were returned as 25 in number, but in 1891 there were 101 in England and Wales. Women veterinary surgeons appeared for the first time in the census of 1891. There were then two of them. Besides over 53,000 engaged in subordinate medical services.

Under the somewhat comprehensive heading of "author, editor, journalist," we find 699 women in 1891, with 452 10 years before, and 255 in 1871. Fifteen were the total number for England and Wales, but in 1891 there were 127.

In the arts the invasion of the women is most conspicuous. In 1871 there were 199 of their sex who returned themselves as painters, engravers or sculptors; in 1891 the number had risen to 2022.

For the first time in 1891 there were women architects on the census. They numbered 13.

Women musicians and music mistresses numbered over 19,000 in 1891. They were 11,000 10 years before. Instead of 225 actresses, as in 1871, there were in 1891 3958.

In the commercial class the increase of women workers is not so striking; the apparently great augmentation of commercial clerks being explained by the transfer to this class of hundreds previously described as accountants.

C.P.R. Navigation Clashes.

The Canadian Pacific Railway Company announce that their last steamer, the Manitoba, will leave Owen Sound for Fort William on Tuesday, the 20th inst., weather permitting. The last intermediate port of call are intended to leave Owen Sound as follows: The Northern Transit Co., Nov. 21st; North Shore Navigation Co., Nov. 22nd; weather permitting.

W. L. Churchill Joins the Spanish Army.

A LITTLE MORE FRAUD.

Osgoode Hall's Daily Contribution in This Line—Chief Justice Armour on.

Osgoode Hall, Nov. 19, 1895.

At the non-jury sittings before MacMahon, J., the only case heard was Hogaboom v. Watson, another case of alleged fraud. What a tale is daily unfolded at the non-jury sittings!

The plaintiffs in this action are the executors of the late George R. Hogaboom, who died after proceedings had begun. They allege that defendant, Sarah Watson, is their judgment debtor to the extent of \$5000, the judgment having been obtained by the Central Bank and assigned to Hogaboom; that Sarah had anticipated trouble, and, though worth \$15,000, fraudulently received from insurance on the life of her deceased husband, James Watson, has converted her estate into cash and, with the help of her brother and deceased father, has so manipulated matters that all the securities are now transferred into the name of her children, as if from her father, the late George Boyd. They ask for 50 shares of Consumers Gas Company, 40 shares of British America declared ex grando execution, and that a certain transfer of Canada Land and National Investment Company to her co-defendant, John Boyd, and retransfer to her in trust, are also in the same category, and for a receiver. They also want discovery as to other property. Defendant Sarah Watson says she has been examined twice, and that she has been examined twice, and that she has been examined twice.

They are tiny, sugar-coated granules; any child will readily take them. Sold by all dealers.

Judgment was reserved by the Court of Appeal in Argies v. McMath, a case still of great importance relating to landlords and tenants. The Chancellor held at the trial that in a short form lease under R.S.O. Ch. 106, "fixtures" meant gas fixtures, mirrors, brass window fixtures, shelving and office for cashiers, with its platform, in use in a drygoods store on Queen-street, and also outside awnings, all put there by the lessee for their own use and convenience in connection with such business; and that such fixtures were under such a lease to be kept in repair by the tenant during the tenancy, and having placed them there, a tenant could not remove them, because he was bound under the lease to "yield up" the premises in good repair, and it would be idle to require a tenant to keep fixtures added by himself in repair during his term, if at the end he could strip them from the premises at his will. He thought the matter deserving of legislative consideration, so as to restrict the general wording of these covenants to allow the removal of such trade or tenants' fixtures as were, before annexation to premises, separate personal chattels, and gave judgment in favor of the landlord, but without costs.

On appeal to Queen's Bench Divisional Court by plaintiff, Armour, C.J., found it impossible to agree with the Chancellor. He says that fixtures in these covenants mean those attached by lessee and he finds fixtures to be of two kinds, viz. removable and irremovable. He holds that the Ontario Legislature did not intend to deprive a tenant of fixtures like those in question in this action, which, in his opinion, are clearly "removable" fixtures. If the Legislature uses an ambiguous term that meaning should be adopted which will work the least injustice. He proceeds and demonstrates to the mind of the simplest reader, not only that the fixtures in question were properly removable by the tenant, but that the assignment by the lessee to the benefit of creditors did not operate as a forfeiture to prevent such removal within a reasonable time. He found the value of the fixtures which had been retained by the landlord to be \$507, and thought that amount should be paid to the tenants or the fixtures delivered in as good order as they were left, and that the landlord should pay the costs of the litigation. Falconbridge, J. concurred.

Almost Incredible.

With an ordinary pair of scissors one may cut a sheet of glass, a window pane, for example, as easily as card-board. We have never known of this statement to be made without its provoking an incredulous smile, for it seems an impossible thing.

However, it is altogether possible; more than that, it is very easy to do if one knows a few simple facts.

To accomplish this marvelous feat be careful to keep the scissors and the glass both entirely under water while you do the cutting. In this way you may cut the glass in straight lines or in curves as you please, and without a break or a crack.

The reason why the glass may be cut in that way is that the keeping of both it and the scissors under water, without letting the smallest part of either appear above it, deadens the vibrations caused by the cutting, and there is, consequently, no break or crack, except the cut.

If you doubt the practicability of this rather unusual experiment, make it yourself.—Philadelphia Times.

Dyspepsia or Indigestion is occasioned by the want of action in the biliary ducts, loss of vitality in the stomach to secrete the gastric juice, without which digestion cannot go on; also, being the principal cause of headache. Parnelle's Vegetable Pills, taken before going to bed, for a while, never fail to give relief, and effect a cure. Mr. Parnelle's Pills are taking the lead against ten other makes which I have in stock.

"You Don't Become a Slave to their Use!"

The above words have been truthfully spoken concerning Dr. Pierce's Pleasant Pellets by one who has had abundant opportunity to observe their more favorable action as compared with that of other pills.

Most pills and medicines in use for constipation, in the long run, "make a bad matter worse." Unlike such agents, Dr. Pierce's Pellets exert such a tonic or strengthening effect upon the membranes of the stomach and bowels, as to produce lasting benefit. Their use can, therefore, be gradually discontinued. With most pills the longer they are taken, the more dependent upon their use the patient becomes. Not so with the "Pellets." Their secondary effect is to keep the bowels open and regular, not to further constipate. Hence, their great popularity with sufferers from habitual constipation.

The Pellets cure costiveness, or constipation, biliousness, sick and bilious headache, dizziness, sour stomach, loss of appetite, coated tongue, indigestion, or dyspepsia, windy belchings, "heartburns," pain and distress after eating, and kindred derangements of the liver, stomach and bowels. One little "Pellet" is a laxative, two are mildly cathartic.

They are tiny, sugar-coated granules; any child will readily take them. Sold by all dealers.
