

## FAST dedicated lane opens at Quebec-NY border

The Canada Border Services Agenc Border Protection (CBP) announced Border Protection (CBP) announced that a Free and Secure Trade (FAST) ded Saint Benard do at the Saint-Bernard-de-Lacolle, Quebec/Champlain, NY, border crossing on April 18, 2004. FAST traffic entering Canada will continue to use the existing lane. The FAS program is a bilateral initiative between Canada and the United States designed to ensure the safety and security of Canadians and Americans, while enhancing the economic prosperity of both countries.
"The FAST program is an excellent example of how the government and private sector are working together o protect the security of Canada's economy," said Anne Mclellan, Deputy

Prime Minister and Minister of Public Security and Emergency Preparedness. "FAST is one of our 'Smart Border' initiatives. It improves security, yet moves goods faster and more efficiently across the border," said CBP Commissioner Robert C. Bonner. "Our FAST partners Robert C. Bonner. Our FAST partners secure heir supply chains so that heir shipments are not al risk for terroris They are rewarded with expedited processing for their shipments and use of a FAST designated lane."
In developing the FAST program, Canada and the United States have harmonized, to the maximum extent possible, their processes for clearance of commercial shipments at the border This promotes free and secure trade through common risk-management principles, supply chain security, industry partnership and advanced technology to improve the efficiency
of screening and clearing of commercial raffic at the Canada/U.S. border Approximately 1,300 trucks cros nto Champlain daily from Canada The hours for the Champlain designated FAST lane will coincide with the heavy traffic patterns. The CBSA was established in December 2003 to maximize the efficiency of Canada's front-line border agencies. For more information, please visit www.cbsa-asfc.gc.ca/fast/ The CBP is the agency within the U.S. Department of Homeland Security charged with the protection of U.S. borders. CBP unified customs, immigration and agriculture inspectors and the Border Patrol into one border agency for the whole country. Further information on the CBP is available at www.cbp. gov/xp/cgov/import/commercial ent orcement/ctpat/fast/us canada.

## California missions use KPMG study to boost investment

The 2004 edition of the KPMG study Competitive Alternatives: The CEO's Guide to International Business Costs was recently presented to clients and key contacts from business, academe Silico media ar Canada's missions in Silicon Valley and Los Angeles and our newest consulate in San Diego. In Sa Francisco, the event was partnered
with Leading Edge British Columbia, The Biotechnology Roundtable, the Harvard Business School Association of Northern California, the Silicon Valley Manufacturing Group and the Silicon Valley Association of Startup Entrepreneurs. Our partner in San Diego was the San Diego Regiona Chamber of Commerce. In Los Angeles, our partner was the Los Angeles Regional Technology Association, and the messages were
 ingertips-literally! Passwordprotected, private and secure he Virtual Trade Commissioner reates on on-line workspace for you to identify and investigate you to identify and investigate
rade prospects in your industry sector and target markets. Take ector and targer markeis Tanc advantage of personalized servic all over the globe.

The Virtual Trade Commissioner the ticket to succeeding in your export markets!
Experienced Canadian exporters-who know the secrets to succeeding in foreign markets-have offered tips for avoiding common export problems ...like not making personal visits. It's one of the most common mistakes exporters make.
Phone calls, faxes and e-mails are great for initial contacts and follow-up, but nothing beats meeting your business partners in person. In fact, successfully your business partners in person. In fact, successtully
 hos do for in ou Your first step should be your Virtual Trade Commissioner. Use it to learn about your target market and to request a Key Contacts Search from the local trade commissioner. Then, when you're ready to meet with potential business contacts, use your Virtual Trade Commissioner to request the Vis Information service. The trade commissioner in your target market will provide you with practic advice on timing and organizing your trip And if you notify the trade commissioner of you visit at least two weeks before your departure a personal Face-to-Face Briefing can be arranged. Your trade commissioner will meet with you to discuss the most recent developments in the market and your future needs.
Meet your international business partners.
Use your Virtual Trade Commissioner to help plan your trip and to arrange a personal briefing from one of our trade commissioners.

## Hockey night in Tallinn <br> Canada exports hockey expertise to Estonia

Two well-known Canadian hockey coaches, Dr. Vern Stenlund and Dean McIntosh, recently went to Estonia to share their expertise with that country's junior hockey programs. The Estonian Ice Hockey Federation had requested assistance from Hockey Canada to help its national under- 18 and under- 16 programs.

The event was supported by the Canada-Estonia Business Association, in partnership with the Canadian Embassy in Riga and its Office in Tallinn, Hockey Canada and the International Ice Hockey Federation.
"We're hoping to start a process of growth that will result in Estonia beating Canada one day," says Dr. Stenlund, head coach of the University of Windsor Lancers. The Estonians laugh.
"Laugh now, but it's not out of the question. Ice hockey is a passion, a religion for Canadians, and we take it very seriously," says Stenlund, a 20 -year coaching veteran. We want to give Estonians our hockey philosophy,

Dr. Vern Stenlund and Dean Mclntosh went to Estonia to share their hockey expertise. which is very much made in Canada. But we don't expect Estonians to adop it completely. Learn from the Czechs, Swedes, Finns and Russians and create a uniquely Estonian hockey philosophy." McIntosh is the Manager of Coaching for Hockey Canada, which is responsible for player instruction. coaching, registration and coaching, registration and
certification. The Estonian Hockey certification. The Estonian Hockey
Association was impressed by the Association was impressed by the coaches' work, and their presence
was highly valued by the Estonian was highly valued by the Estonian sports community. Along with practice sessions, there were discussions about
the philosophy of hockey and what that means for coaches and players. The visit raised Canada's profile among Estonians. Certainly, the demand for Canadian know-how on hockey arenas, sports facilities and equipment, and training materials ha isen, and the Trade Section of the Canadian Embassy in Riga and the Office in Tallinn are ready to help Canadian companies set up scoring pportunities in the region's markets. For more information, contact he Office of the Canadian Embassy in Tallinn, tel. (011-372) 627-3311 e-mail: marina.asari@canada.ee. w

## Profitable partnerships

The Baltic countries of Latvia, Estonia and Lithuania offer expanding opportunities for Canadian business. Despite their distance from Canada and small market size, these countries all have companies that are claiming a growing market share thanks to their Canadian partners or affiliates. Three examples demonstrate how such
business partnerships can be profitable to both sides.
Fermentas: A leader in
Lithuania's knowledge economy UAB Fermentas is a world leader in the discovery, manufacture and
marketing of more than 300 product intended for biotechnology research and is the first Lithuanian company to receive ISO certification.
Each year, Fermentas introduces an average of 10 new products. Its clients are scientists working in universities, esearch centres and biotech companies in 60 countries around the world; in fact, virtually all its production is exported
Its Canadian affiliate, established in 1996, is where the company's most important decisions regarding investments, production and new markets are made

DI3: State-of-the-art solution ncorporated in September 2001, Laser Diagnostic Instruments International inc. (LD| $)$ is a Canadian spinoff of the Estonian company LDI Ltd. Together, LDI ${ }^{3}$ and LDI Ltd. offer a comprehensive suite of in-line, in-situ, airborne, contact and remote analytical sensors-and data control and management software and services-that addres environmental, agricultural, bio medical and industrial issues. Products and services are on novel laser selectros are based photonics principles. Initially

## Canada Booth a first at Riga food fair

M
aple syrup, scallops and ice cider were among the mouth-watering Canadian products available for sampling last September at the Riga International Food Fair in Latvia. The Canada Booth, organized by the Canadian Embassy in Riga and the Canada-Latvia Business Association (CLBA), was a first for the Baltic region.

The timing was auspicious. Latvia and its sister Baltic states, Estonia and Lithuania, were set to become members of the European Union on May 1, 2004, and the region is an excellent springboard for Canadian export development to the EU, Russia and Scandinavia.
The annual Riga food fair attracts a lot of international interest, and there was extensive print and television coverage of Canadian businesses and products. The samples of quality Canadian foods made the Canada Booth one of the most popular at the fair. Contributing to the success of the booth was the personal participation of a good number of senior Canadian business people. This high level of
mulvement was the result of extensive preparations and networking in Othawa, Montreal, Toronto and more recently Vancouver by the Department working with Baltic embassies in Canada.

Sampling maple taffy at the Canada Booth
"Canadian participation at the Riga ood fair is just the beginning," accor ding to Dominique Rossetti, Counsello Commercial and Technical cooperation and Consul af the Canadian Embassy for the Baltics.
developed for defence, aerospace communications and other areas of advanced application, $\mathrm{LD} \mid{ }^{3}$ 's state-of the-art solutions today address concerns of broader environmental and industrial significance.
SIA KOMEKS: Canadian pet food a hit in Latvia
SIA KOMEKS is a Latvian company specializing in various products for household pets-food, accessories, oys and pet care items. Since 1998 thas been associated with the Canadian company Champion Petfoods Ltd. In fact Champion is now one of KOMEKS's most important international partners.

The Latvian market has discovered high-quality Champion pet food, which s much in demand with consumers. As relationships between people and household pets have evolved, increasing significance is altributed to quality nutrition for pets. Champion's products are popular because they can be adapted to particular nutritional equirements, such as allergies. The quantity of Champion pet foods mported by the company into Latvia is increasing every year.
The partnership has been so successful that KOMEKS won the right to supply Champion pet food to dogs in the service of Latvia's border guard in the service of Latvia's border guard and state police. $w$

This fair is the first of many events being considered by the CLBA in support of Canadian export development in this booming region.
Besides the agri-food sector-where new technologies and competitive machinery are in demand and generally mported-the construction and forest industries and the rapidly growing information and communication echnologies sector have been identified as key areas of opportunity. In addition to expanded Canadian participation at the Riga food fair, the CBA is looking to organize Canada Both a home contuction and infor mation technology trade shows.
Exporters and investors interested in Exporters and investors interested in
obtaining information or assistance in exploring Baltic markets may contact the Canadian Embassy in Riga (www.dfait-maeci.gc.ca/dfait/ missions/baltiks) or the Canada Latvia Business Association (e-mail clba@clba.lv). *

Sugaring-off party, Baltics style On April 11 and 12, 2004, the Embassy of Canada, in cooperation with the Canada-Latvia Business Association, organized a traditional spring maple syrup festival in Riga. The festival was held at the biggest log house in Europe-the Lido Recreational Centre, owned by Latvia's largest restaurant chain. It took place during the Easter weekend, altracting thousands of visitors. In accordanc with Canadian tradition, there were tastings of maple syrup and maple tea as well as a variety of entertainments such as step dancing and games. The children particularly enjoyed the famous French Canadian maple taffy
The Canadian sugaring-off partya first in the region-proved extremely popular with local people, showing that Latvians enjoy sweet treats as much as Canadians do. ${ }^{*}$

## International Development Days

|nternational Development Days (IDD) is an annual event put on by Canadian Manufacturers \& Exporters in collaboration with the Canadian International Development Agency. This year's event, held in Calgary from April 21 to 23, 2004, provided an opportunity for Canadian companies to explore the wide range of funding opportunitie available through multilateral development banks and other international organizations.
IDD 2004 attracted more than 425 representatives from the private sector, government and international and nongovernmental organizations. Topics
included the World Bank's re-engagement in infrastructure, outward investment, proposal writing, humanitarian and reconstruction assistance governance and the report of the UN Commission on Private Sector and Development.

The development market The development business market offers significant potential for Canadian exporters and investors interested in developing and transition economies. In 2003, over US\$58 billion in public development assistance was provided by bilateral development agencies, multilateral development banks and the United

Nations. In addition, there is mounting pressure on governments around the world to increase their international assistance and ensure effective delivery of their programs as part of the push to achieve the Millennium Development Goals. The result is more opportunities for the Canadian private sector and a wider variety of potentia customers, including bilateral donors from other countries and major international humanitarian and development NGOs.
International Trade Canada International Trade Canada (ITCan) was an exhibitor at IDD 2004 sending representatives from its regional office in Calgary, the Office of Liaison with International Financial Institutions in Washington, D.C., and the International Financing Division in Ottawa. ITCan was also part of the organizing team, suggesting topics and inviting speakers from
international institutions.
For those interested in opportunities in developing countries, the Trade Commissioner Service has a Web site Commissioner Service has a Web sted solely to the development devoted solely to the development
business market. IFInet (www.infoexport, business market. IFInet (www.infoexport,
gc.ca/ifinet) provides information on gc.ca/ifinet) provides information on
all the major multilateral development all the major multilateral development banks, bilateral development agencies and United Nations agencies. The site also provides potential investors with fact sheets on sources of project financing in over 90 developing and transition economies, as well as on the majo institutions that provide this financing.
To access the presentations given at IDD 2004, go to www.dameco.com/ idd/IDD\%20Highlights/Program2.htm
For more information on opportunities in developing countries, contact Leigh Wolfrom, Trade Commissioner, ITCan, tel.: (613) 992-0747, fax: 613 943-1 100, e-mail: leigh.wolfrom@ dfait-maeci.gc.ca. *

China aviation
cargo volume will increase 14 percent to 2.5 million tons.
The CAAC also predicts that total air traffic will grow at an average air traffic will grow at an average of The World Tourism Organization The World Tourism Organization
anticipates that China will have the anticipates that China will have the
fourth-largest number of outbound fourth-largest number of outbound
tourists and will be the world's bigge tourists and will be the world's biggest tourist destination by 2020

Xiamen airport
Meeting growing demand In order to meet increasing demands
for passenger air travel, Chinese airlines will continue to expand aircraft fleets. The central government, in conjunction with local governments, will increase airport capacities According to various forecasts, China will be the second-largest market for commercial civilian aircraft in the world by 2020 . Its current commercial fleet of slightly more than 650 aircraft will have to add another 1,600 over he next 20 years, including around 500 regional aircraft.
As of October 2003, China had 41 airports, and it plans to increase his to 237 by the end of 2010. Plans all for three national hubs (Beijing, Shanghai and Guangzhou), 6 econdary airports, more than 40 trunk line airports and over 120 regional airports, particularly in the egional airports, particularly in the .rport contruction and expansio the next seven years totals an approximately US $\$ 13$ billion. Excep or the Beijing Capital Airport and airports in Tibet (Gonggar and

- continued from page 1

Bangda), the CAAC has transferred ownership, management and peration of airports to provincial or municipal governments.
These expansions spell severa opportunities for Canadian firms.
China has a history of training pilots broad, and fleet expansion will mean that these opportunities will likely grow. Demand is also increasing for advanced training equipment such as flight simulators. The transfer of airpor administration to local governments and construction of new airports across the country will likewise lead to substantial opportunities for airport management and operation training.
Training in maintenance and aviation English, programs for flight
attendants and ground crews, and programs leading to aviation M.B.A.s, also offer great potential.
A number of Canadian institutions and firms have already had success pursuing aviation training oppor tunities in China. The Canadian Trade Commissioner Service believes that gathering a critical mass of Canadian aviation training providers to meet with key potential clients would significantly raise Chinese awareness of Canadian capabilitie in aviation, and present Canada as a credible, indeed preferred, source of aviation training.
