Technical and Bibliographic Notes/Notes techniques et bibliographiques

The Institute has attempted to obtain the best original copy available for filming. Features of this copy which may be bibliographically unique, which may alter any of the images in the reproduction, or which may significantly change the usual method of filming, are checked below.

L'Institut a microfilmé le meilleur exemplaire qu'il lui a été possible de se procurer. Les détails de cet exemplaire qui sont peut-être uniques du point de vue bibliographique, qui peuvent modifier une image reproduite, ou qui peuvent exiger une modification dans la méthode normale de filmage sont indiqués ci-dessous.

The copy filmed here has been reproduced thanks to the generosity of:

University of Saskatchewan
Saskatoon

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol \rightarrow (meaning "CONTINUED"), or the symbol ∇ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

University of Saskatchewan
Saskatoon

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole \rightarrow signifie "A SUIVRE", le symbole ∇ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

ECLIPSES FOR YEAR 1890.

In the year 1890 there will be two Eclipses of the SUN and one of the MOON.

I.—An Annular Eclipse of the SUN, June 16-17, 1890, visible as a Partial Eclipse at Greenwich.

Begins on the Earth generally, June 16, 18h, 55m, 1, Mean Time at Greenwich, in Longitude, 13° 58' W. of Greenwich, and Latitude 0° 47' N.

Central Eclipse begins generally, June 16, 20h, 1m, 8, in Longitude, 32° 30' W. of Greenwich, and Latitude 5° 8' N.

Central Eclipse at Noon, June 16, 21h, 58m, 5, in Longitude 30° 31' E. of Greenwich, and Latitude 36° 41' N.

Central Eclipse ends generally, June 16, 23h, 48m, 5, in Longitude 101° 25' E. of Greenwich, and Latitude 18° 46' N.

Ends on the Earth generally, June 17, 0h, 55m, 2, in Longitude 82° 44' E. of Greenwich, and Latitude 14° 27' N.

II.—A Partial Eclipse of the MOON November 25-26, 1890, invisible at Greenwich.

The first contact with the Shadow occurs at 14° from the Northernmost point of the Moon's limb towards the West.

The last contact at 19° towards the West; in each case, for *direct* image.

III.—A Total Eclipse of the SUN, December 11, 1890, invisible at Greenwich.

Begins on the Earth generally, Dec. 11, 12h, 28m, 4, Mean Time at Greenwich, in Longitude 77° 46' E. of Greenwich, and Latitude 8° 19' S.

Central Eclipse begins generally, December 11, 13h, 32m, 9, in Longitude 56° 58' E. of Greenwich, and Latitude 18° 42' S.

Central Eclipse at Noon, December 11, 15h, 15m, 0, in Longitude 129° 42' E. of Greenwich, and Latitude 53° 58' S.

Central Eclipse ends generally, December 11, 16h, 38m, 1, in Longitude 142° 48' W. of Greenwich, and Latitude 36° 33' S.

Ends on the Earth generally, December 11, 17h, 42' 7, in Longitude 165° 0' W. of Greenwich, and Latitude 26° 31' S.

NOTE. The tide table in the calendar pages may be rendered applicable to various other places on the coast by simply adding or subtracting, as the case may be, the difference between the times of high water on the full and change of the Moon at St. John's, and the time of the full tide at any other harbor; for example, to find the time of high water at any of the principal harbors of Conception Bay, add 45 minutes to the time at which it will be high water at St. John's; for Piacentia Bay add 2 hours; for St. Pierre, 1h, 50m; for Ferolle, on the North-West Coast, 4 hours, &c. [See table LVII of Norie's Epitome.]

A Table

This table whole being of the Sun and Earth, and with kind of weather Moon into any seldom or never.

These observations refer principally to the summer, though they affect spring and autumn nearly in the same ratio.

4.—The price of this calculation occupies from ten in the afternoon to two in the morning.

5.—The moon's changes, first quarter, full, and last quarter, happening during six of the afternoon hours—i.e. from four to ten, may be followed by fair weather; but this is mostly dependent upon the wind, as is noted in table.

NEWFOUNDLAND ALMANAC.

A Table for Telling the Weather Through all the Lunations of each Year, for ever.

This table is the result of many years actual observation; the whole being constructed on a due consideration of the attraction of the Sun and Moon in their several positions respecting the Earth, and will, by simple inspection, show the observer what kind of weather will most probably follow the entrance of the Moon into any of its quarters, and that so near the truth as to be seldom or never found to fail.

MOON.	TIME OF CHANGE.	IN SUMMER.	IN WINTER.
If the New Moon, the First Quarter, the Full Moon, or the Last Quarter, happens	Between midnight and 2 } in the morning.	Fair.	Hard frost unless the wind be south or west.
	" 2 and 4 morning	Cold, with frequent showers.	Snow, and stormy.
	" 4 and 6 morning	Rain.	Rain.
	" 6 and 8 morning	Wind and rain.	Stormy.
	" 8 and 10 morning	Changeable.	Cold rain if wind be west.
	" 10 and 12 morning	Frequent showers.	Snow, if east.
	At 12 o'clock, noon, and 2 P.M.	Very rainy.	Snow or rain.
	Between 2 and 4 P.M.	Changeable.	Fair and mild.
	" 4 and 6 P.M.	Fair.	Fair.
	" 6 and 8 P.M.	Fair if wind N.W.	Fair and frosty if wind N. or N.E.
" 8 and 10 P.M.	Rainy if S. or S.W.	Rain or snow, if S. or S.E.	
" 10 and midnight	Ditto.	Ditto.	
" 10 and midnight	Fair.	Fair and frosty.	

OBSERVATIONS.—1 The nearer the times of the Moon's change, first quarter, full and last quarter, are to midnight, the fairer will the weather be during the seven days following.

2.—The space of this calculation occupies from ten at night till two next morning.

3.—The nearer to midday or noon the phases of the moon happen, the more foul or wet weather may be expected during the next seven days.

4.—The space of this calculation occupies from ten in the forenoon to two in the afternoon.—These observations refer principally to the summer, though they affect spring and autumn nearly in the same ratio.

5.—The moon's changes, first quarter, full, and last quarter, happening during six or the afternoon hours—i.e., from four to ten, to be followed by fair weather's case this is mostly dependent upon the wind, as is noted in table.

Signalman : Francis Scott.

Assistant Signalman : Michael Cantwell.

DESCRIPTION OF SIGNALS IN USE AT THE BLOCK HOUSE, SIGNAL HILL, ST. JOHN'S, NEWFOUNDLAND.

Balls and Flags, hoisted in different positions on the Yard Arm, show the numbers of sail that are signalled either North or South, viz. :

One Sail in sight—Ball close up to yard.

Two Sail in sight—Ball midway between yard and parapet of Block House.

Three Sail in sight—Yellow Pennant close up to yard.

Four Sail in sight Yellow Pennant midway between yard and parapet of Block House.

Five Sail in sight Same as four, with addition of a Ball placed immediately above Pennant.

Six Sail in sight—Same as three, with addition of a Ball placed immediately beneath Pennant.

Seven Sail in sight Same as four, with addition of a Ball placed immediately beneath Pennant.

Eight Sail in sight—Yellow Pennant at yard arm ; Ball midway between yard and parapet of Block House.

Nine Sail in sight Ball at yard arm ; Yellow Pennant midway between yard and parapet of Block House.

Ten Sail in sight—Both Yellow Pennant and Ball close up to yard, the Ball above Pennant.

A Blue Pennant at the Mast-head denotes a Barque.

A Blue-White-Red Pennant at the Mast-head denotes a Barquentine.

A Red Pennant at the Mast-head denotes a Brig.

A White-Red Pennant at the Mast-head denotes a Brigantine.

A White-Blue Pennant at the Mast-head denotes a Topsail Schooner.

A White Pennant at the Mast-head denotes a Schooner.

A St. George's Cross at the Mast-head of the Middle pole, denotes a Steamer in sight from the Block House ; but when it is hoisted on the South pole, it denotes that the Steamer is South of Cape Spear.

When any National flag is hoisted above the St. George's Cross, it denotes that a Man-of-War Steamer, belonging to such Nation as indicated by flag, is approaching the harbor.

A Blue Pennant and Blue Burgee, when hoisted together, shows that a Sail has passed the Narrows, going either North or South.

When a Merchant's House flag is hoisted on the South Pole, it denotes that a Vessel belonging to said Merchant is South of Cape Spear ; and when hoisted on the North Pole, it shows that said Vessel is in sight of the Block House.

When a Square White flag with a Red Ball in the centre is hoisted, either on the South or Centre Pole, denotes that a Steam-tug is required.

The International Code of Signals are also in use at the Block House, and the recognized House Signals of the different Merchants.

The attention of Mariners is particularly called to the extreme *uncertainty* there is in the range of sounds. A signal that may not be heard under certain conditions of the atmosphere more than one or two miles, will under others reach twenty or more miles.

Light Dues.—Twenty-four cents per ton on all vessels entering any port or harbor in the colony, except coasting, sealing or fishing vessels; but not to be levied more than once in one year. Sealing and coasting vessels—twelve cents per ton on registered vessels of 40 tons and upwards; three dollars and forty-six cents on vessels less than 40 tons. No vessel to pay over One Hundred and Fifteen Dollars.

Gallantry Head, Island of St. Peter's.—A White Flash Light. Elevation above high water, sixty-four metres (204 English feet). Distance at which the light is visible—18 miles. The light is hidden at the northward by the high land of St. Peter's—Lat. $46^{\circ} 45' 30''$; Long. $50^{\circ} 9' 9''$.

The Fog Horn off Gallantry Head, now located north of Hunter's Island, (Ile aux Chasseurs), at a distance of about 50 yards from the shore, will sound whenever fog or snow makes it necessary. The sound will last for six seconds, with an interval of one minute between each blast.

Light at the south entrance of St. Peter's.—Since the 1st October, 1862, the entrance of the harbor of St. Peter's, called South Channel, has been marked by two small fixed lights, one of which is a White Light, illuminating three-fourths of the horizon, and placed on the battery, and the other a red light, on the plain at the north of the town. The white light has an elevation of 11 metres, and is visible six miles. The red light is elevated 19 metres, visible three miles. The line connecting these two lights indicates the middle Channel.

The position of the red light has also been so determined, that as soon as it is seen on the left of Cape Aigle, vessels coming from Colombier, in beating into the North-east entrance, will have nothing to fear from the shoals of Cape Rouge.

Light on the Southwest Point of the Island of Dogs, called Pointe a Leconte.—From the 1st August, 1874, a light has been exhibited on the Southwest Point of the Island of Dogs at the place called Point a Leconte, at 400 metres

(37 English feet) above the level of the sea. It will be seen in clear weather seven miles. The extent of the light is circumscribed in a sector of 160° , presenting two cones of light; one white of 40° , will light the passage of the Southeast, so as to permit vessels, which maintain position within this cone to avoid at the right the shoal Bataille, and to the left the rock of Cape Noir, and the rock Bertrand. The second cone is red, of 130° . It should be avoided by vessels entering by the Southeast passage, and will enable them, when they have quitted the white cone, to come to anchor in the roadstead, or in the Barachois, in following the line of the white light from Point aux Cannons, and of the red light from the interior of the city.

Rates of Postage.

Postage on letters addressed to the United States, the Dominion of Canada, the United Kingdom and Foreign Europe is as follows:—

For letters under $\frac{1}{2}$ -oz., five cents, and five cents for every additional $\frac{1}{2}$ -oz.

For Bermuda, West Indies, Brazil, Peru and Uruguay, eight cents under $\frac{1}{2}$ -oz. letters, and eight cents for every additional $\frac{1}{2}$ -oz.

For East Indies and China, Japan and Java, ten cents per $\frac{1}{2}$ -oz. rate.

For Australian Colonies and South Africa, twelve cents per $\frac{1}{2}$ -oz. Newspapers, three cents.

Local newspapers to United States, the Dominion, West Indies, Foreign Europe and to England, one cent per 2 ozs., or a half-cent each if under one ounce.

Inland Postage.

For letters per $\frac{1}{2}$ -oz. or fraction thereof.....	3 cents.
For city delivery, per $\frac{1}{2}$ -oz. or fraction.....	1 cent.
Circulars.....	1 cent.
Post cards.....	1 cent.

For book-packets, pamphlets, magazines and periodicals under two ounces, one cent; must not exceed three pounds in weight.

Foreign newspapers remailed for transmission to the Outports free, provided they are under four ounces.

Newspapers over four ounces in weight are charged as books.

Local newspapers free to any place in the colony.

Postage on letters for French Islands—St. Pierre and Miquelon—five cents per half-ounce rate, and registration five cents.

Inland Parcel Postage.

Parcels closed at the ends and sides, but not sealed or closed with gum, may be posted at any post office in Newfoundland for conveyance to any other post office in the Island at a rate of one cent for two ounces or fraction thereof, subject to the following conditions:—

1. No letter or letters shall be concealed in such parcels.
2. The parcel shall not contain any explosive substances, glass, liquid, or other matter likely to injure the ordinary contents of the mail, under penalty of forfeiture of the parcel.
3. The weight of the parcel must not exceed five lb., nor the size exceed two feet in length or breadth, or one foot in thickness. It must be so put up that the contents may be examined, to prevent letters or other communications being enclosed.
4. The parcel may be registered on payment of a fee of three cents, in addition to the postage.
5. If the name and address of the sender be written on the parcel, it will, if delivery should fail from any cause, be returned unopened to the sender, on payment of an additional rate of 8 cents per lb. for the return conveyance.

Foreign Parcel Postage.

UNITED KINGDOM.—On every parcel not exceeding two lbs. in weight, 36 cents—this being the minimum charge; weight over two lbs., 18 cents per lb. or fraction thereof. Parcels not to exceed three feet six inches in length, or, in length and girth measured together six feet, the girth being measured around the thickest part. Limit of weight, 11 lbs.

CANADA.—British Columbia, 30 cents per lb; all other parts of the Dominion, 25 cents per lb.; not to exceed four lbs. in weight, or more than two feet by one foot in measurement. A Customs' declaration will be furnished at the Post Office, and must be filled up by the sender and attached to all parcels for United Kingdom or Canada.

Commercial papers, invoices, &c., are chargeable with five cents for the first rate of two ounces or fraction thereof, and one cent per two ounces, or any fraction thereof over the first two ounces.

Books, trade patterns or samples, and all printed papers other than newspapers, are forwarded to the United Kingdom, United States and Dominion of Canada at the rate of two cents for two ounces, or fraction thereof.

All parcels containing books, patterns, newspapers or printed matter of any kind, must be so put up that the contents may be easily withdrawn for examination; if sealed, such packets become liable to letter rate, and will be charged accordingly.

Unpaid books for the United Kingdom, or other countries, will not be forwarded.

Letters for officers serving in Her Majesty's service

abroad are chargeable with the ordinary rates of postage. For soldiers or seamen in Her Majesty's service, two cents per half ounce; over that weight, charged full rates.

The attention of the public is called to the fact that the General Postal Union Treaty positively prohibits the transmission in the mails of gold or silver money, jewels or precious articles, or any other articles whatever liable to Customs' duties. Therefore, correspondence originating in Newfoundland and addressed to any of the countries of the Postal Union, whether ordinary or registered, should not contain these interdicted articles.

Registration.

Local.....	3 cents.

SYSTEM.

1. Money Orders are made out in forms supplied for the use of the Money Order Offices.

2. Persons applying for Money Orders are recommended to use printed "Application Forms," printed for that purpose.

3. Place of payment of a Money Order may be changed in accordance with instructions provided therefor.

4. Alteration of payee's name may be effected by issue of a new order and payment of commission thereon.

5. Applicants for Money Orders are expected to observe due care in the examination of the same, relative to filling and stamping; defect in Orders, when presented for payment, may cause difficulty and delay, for which the paying office is not to be held accountable.

6. Postmasters should be particularly careful to obtain from the person who presents a Money Order, whether the rightful owner or not, full information as to the Christian name, surname and address of the party who originally obtained it, unless such party be a firm, when the name of the firm will suffice. *The only exception to this rule is, when an Order is presented through the Bank, in which case it will suffice that the Order, being properly signed, be also crossed with the Banker's name.*

7. As, however, *after once paying a Money Order by whomsoever presented, the office will not be liable to any further claim,* the public are strictly cautioned,—

1st. To take all means to prevent the loss of the money-order.

2nd. To be careful, on taking out an order, to state correctly the Christian as well as the surname of the person in whose favor it is drawn.

8. Although, at the end of twelve months from that in which it was issued, a money-order, if still unpaid, becomes legally void; nevertheless, when a good reason can be given for the delay in presenting it, an application for payment, to the Postmaster General, is entertained.

9. Postmasters should recommend the use of Money Orders for the transmission of money, in preference to such transmission otherwise.

Foreign Countries.

Money-orders are issued in Newfoundland on the following foreign countries and British possessions:—

Foreign Countries—Belgium, Denmark, Danish West Indies, Dutch East Indies, Egypt, France, German Empire, Gibraltar, Holland, Iceland, Italy, Japan, Norway, Portugal, Sweden, Switzerland, Tangier (Morocco).

British India—Including the Agencies of the Indian Post Office at Aden, Bagdad, Bunder, Abas, Bushire, Busrah, Gurdur, Jask, Linge, Muscat and Zanzibar.

British Colonies—Australia—New South Wales, Queensland, South Australia, Tasmania, Victoria, Western Australia and New Zealand.

Other Colonies—Bermuda, Ceylon, Falkland Islands, Hong Kong, including the Agencies of the Hong Kong Post Office at Amoy, Canton, Foo Chow, Hankow, Holhow, Ningpo, Shanghai, Swatow, and Straits Settlements.

South and West Africa—Cape Colony, Gambia, Gold Coast, Lagos, Mauritius, Natal, St. Helena, Seychelles and Sierra Leone.

West Indies—Antigua, Bahamas, Barbados, British Guiana, Dominica, Grenada, Honduras (British), Jamaica, Montserrat, Nevis, St. Kitts, St. Lucia, St. Vincent, Tobago, Trinidad, Turks Island, Cyprus and North Borneo.

When dro

lic, by careful attention to the following recommendations:—

Post all letters and newspapers, &c., as early as practicable, especially when sent in large bundles.

When a number of newspapers are addressed to the same office, put them up in one parcel.

When a number of circulars are posted, tie them up in a bundle, with the address all in one direction.

Address letters, papers, &c., in a legible and complete manner, always giving the name of the Post Office; and if there be more than one Post Office of that name, the name of the district in which situated. In case of letters going abroad, the name of the country, as well as of the town and city, should be given in full. Letters, for example, intended for London, Canada West, if simply addressed "London," would be forwarded to London, England, and thus be delayed.

Letters, papers or parcels for outports should have the name of the district, the Post or Way Office, distinctly written as part of the address. For instance, letters for Bonne Bay, French Shore, are sometimes sent to Bonne Bay, Fortune Bay district, being simply directed Bonne Bay. There are several settlements named Broad Cove, Little Bay, English Harbor, Black Head, Bauline, Caplin Cove, Deer Island, Flat Islands, Fortune, Fox Cove, Freshwater, Island Cove, Long Harbor, Burgeo, New Harbor, Salmon Cove, Seal Cove, Ship Cove, and, unless properly directed, are liable to go to the wrong office for delivery. The loss and inconvenience arising from imperfect directions, is caused by the carelessness of the sender, and no blame can attach to the Post Office. Other places, besides those named, have settlements with corresponding appellation, hence the necessity of being particular in addressing all letters, &c.

See that every letter, newspaper or other packet sent by post is securely folded and sealed. Every such packet has to be several times handled; and even when in the mail-bag, is exposed to pressure and friction. Unless, therefore, the article be light and pliant, it should be enclosed in strong paper, linen, parchment, or other material which will not readily tear or break.

Fasten the covers of newspapers firmly, so as to prevent them from slipping out.

Fully pay postage on newspapers, otherwise you lose both papers and stamps, as such are not forwarded.

When dropping a letter or newspaper into a letter-box,

always see that the packet falls into the box, and does not stick in its passage.

Never seal letters for the East and West Indies, and other hot climates, with wax. Such a practice is attended with much inconvenience, and frequently with serious injury, in consequence of the melting of the wax and the adhesion of the letters to each other. In all such cases use wafers or gum, and advise your correspondents, in the country referred to, to do the same.

Never send money or other articles of value through the Post Office, except either by means of a money order or in a registered letter. "Any person who sends money or jewelry in an unregistered letter, not only runs the risk of losing his property, but exposes to temptation every one through whose hands his letter passes, and may be the means of ultimately bringing some clerk or letter-carrier to moral ruin." Carefully secure every letter or packet containing money or value, first with gum and afterwards with good sealing wax, on which mark the clear impression of a seal. This only applies to local correspondence, the forwarding of such articles to other countries being prohibited.

On posting a registered letter or packet, always obtain a receipt for the same at the office where posted.

When letters or newspapers are delayed and missing, at once communicate the fact to the Postmaster of the division in which is situated the Post Office at which the delayed or missing letters were posted. In case of a missing letter enclosing value, state the exact contents, the exact address, and the office at which posted; the name of the person by whom posted, and the name of the person by whom received at the office. In the case of a delayed letter or paper, send the cover or wrapper in an entire state, in order that the place of delay may be ascertained by an examination of the postmarks.

Trouble and loss occasionally arise out of the carelessness or dishonesty of parties employed in the Post Office service; yet instances are not wanting in which it has been shown to the satisfaction, even of the complainants, that the fault at first attributed to the Post Office, in truth rested in other quarters. Theft by private hands, although very difficult of proof, has frequently been brought to light, and it is greatly to be desired that those who suffer loss should in the first instance, and while the circumstances are fresh, endeavor to ascertain with the utmost precision all particulars respecting the despatch or receipt of the lost letters or papers, and lose no time in communicating the information to the Postmaster. Indeed, generally speaking, it is only

by careful inquiry into minute details that the offender can be detected, whether he be a servant of the department or not.

The Post Office is a department which admits of constant improvement and expansion. The public by sending to the Postmaster General clear and correct information respecting faulty arrangements, may materially benefit the service. It must be remembered, however, that changes in machinery so extensive and intricate as that of the Post Office, must be made cautiously and with much previous consideration.

Time is generally required to carry out any material change in postal arrangements; for even when decided upon old contracts, requiring notice of termination, may have to be got rid of, and tenders for new contracts invited by public advertisements, before the decision can take effect.

New Post Offices are established by the department wherever it is ascertained that a sufficient number of inhabitants can be accommodated, and a sufficient amount of postal revenue collected to warrant such a measure. When a new Post Office is required, a petition should be addressed to the Postmaster General, signed by as many of the inhabitants as can conveniently subscribe the same. The petition should state the name of the settlement and district in which it is desired the office should be established; the distance from the neighboring offices; whether at the site of the proposed Post Office there is a village; the number of mills, stores, taverns and houses thereat; the extent of the settlement to be served, and the probable cost of the mail, together with any other facts that may form any ground for the accommodation applied for.

Commissioners of Pilots.

Office : *Commercial Building, Duckworth Street.*

Chairman : John Goodridge ;

Hon. P. Cleary, Henry J. Stabb.
 Hon. A. W. Harvey, George Shea.

RATES

For pilotage of vessels in and out of St. John's shall be as follows when such vessels are hailed, spoken or boarded by a licensed pilot to the southward or eastward of Cape Spear, or to the northward of Sugar Loaf ; and *five-sixths* of the said rates when hailed, spoken or boarded inside of Cape Spear, or to the southward of Sugar Loaf, and before

entering the Narrows. Any vessel returning to said port, through stress of weather, or any vessel which shall have proceeded from the said port to any other port in this Island on the same voyage, is not compelled to take a pilot on her said return or on her second departure. Provided that, when in consequence of stormy weather extreme danger would arise to any boat going outside the Narrows, the Commissioners may award pilotage to any pilot who may have offered his services inside the Narrows, and been rejected :—

BOARD OF EXAMINERS,

FOR GRANTING CERTIFICATES TO MASTERS AND MATES.

Staff-Commander Robinson, R.N., Examiner-in-Chief. Assistant examiner: Edward English, late master in the Mercantile Marine. F. J. Doyle, preparer of candidates. St. John's.

EXAMINATIONS OF MASTERS & MATES.

QUALIFICATIONS FOR CERTIFICATES OF COMPETENCY FOR A FOREIGN-GOING SHIP.

EXAMINATION IN COLORS.—All candidates for certificates of competency must pass the examination in colors.

AN ONLY OR FIRST MATE.—An only mate must be nineteen years of age, and must have served five years at sea.

A first mate must be nineteen years of age, and must have served five years at sea, of which one year must have been as second or only mate. He must also prove that he has served at least one year in a square-rigged sailing vessel.

IN NAVIGATION, &c.—He must write a legible hand, and will be required to give, in writing, definitions of various astronomical and other terms used in navigation. He must have a competent knowledge of the first five rules of arithmetic, and the use of logarithms. He must be able to work a day's work complete, correcting the courses for deviation, leeway and variation. He will be required to find the latitude by meridian, altitude of the sun, and the difference of longitude from a given departure by parallel sailing; also to find the course and distance from one position to another by Mercator's method. He will be required to find the time of high water at a given port, to observe and calculate the amplitude of the sun, and to find the error of the ship's compass therefrom, and also the deviation, the variation being given. He must be able to find the daily rate of the chronometer from error observed, and to find the longitude from altitude of the

sun by its adjustment horizon, examining

sun by the usual methods. He must understand the use of the sextant with its adjustment, and be able to observe with it, find the index error by the horizon, and read off and on the arc. He must also pass a satisfactory examination in the International code of signals.

In addition to the qualifications of second mate, above stated, he must be able to find the true bearing of the sun, and error of the ship's compass from an observed azimuth of the sun, both from an altitude and also from the "Time Azimuth Tables," and with the variation given compute the deviation; to find the latitude from a single altitude of the sun off the meridian, and to be able to use and adjust the sextant, and find the index error by the sun; and also to ascertain the true bearing of the sun, and the ship's position by Summer's method by projection. He must also be conversant with the use of Mercator's chart, and be able to find on either a "true" or "Magnetic" chart the course to steer, and the distance from one given position to another, and find the ship's position on the chart from cross-bearings of two objects; from two bearings of the same object; the course and distance between the bearings being given; and also the distance of ship from the object at the time of taking the second bearing. He must also understand how to keep a ship's log-book, and answer certain questions relating to cyclones or revolving storms.

IN SEAMANSHIP, &c.—He must give satisfactory answers as to the standing and running rigging of ships; as to bending, unbending, setting, reefing, taking in, and furling sail; as to sending masts and yards up and down, &c., &c.; as to the management of a ship when under canvas, and as to dunnaging and stowing cargo, &c. He must have a thorough knowledge of the rule of the road as regards both steamers and sailing vessels, their regulation lights, and fog and sound signals; and to be able to describe the signals of distress, and the signals to be made by ships wanting a pilot, and the liabilities and penalties incurred by the misuse of these signals. He must be able to mark and use the lead and log-line. He must also understand the use and management of the rocket apparatus in the event of his vessel being stranded, and other questions of a like nature appertaining to the duties of the second mate of a ship.

In addition to the above qualifications, a more extensive knowledge of seamanship will be required as to shifting large spars, rigging shears, taking lower masts in and out, how to moor and unmoor a ship, and to keep a clear anchor, to carry out an anchor, how to manage a ship in stormy weather, how to cast a ship on a lee shore, how to secure masts in the event of an accident to the bowsprit, and how to rig purchases for getting heavy weights, anchors, machinery, &c., in and out. He must give satisfactory answers to the ventilation of holds and the stowage of explosives. He must also know how to rig a sea anchor, and what means to apply to keep a vessel disabled or unmanageable out of the trough of the sea and lessen her lee drift; how to get the cast of deep sea lead in heavy weather; and answer any question appertaining to the duties of an only or first mate which the examiner may think necessary to put to him.

In addition to the above, he will be required to describe the effect of the screw race on the rudder, and the effect produced on the direction of the head of the ship by going (ahead) (astern) with a (right) (left) handed screw when the rudder is (ported) or (starboarded). How to turn a steamship short round. He must also understand the use and action of the sluices, and of the water ballast tanks, and the engine-room telegraph, and questions of a like nature.

A master must be 21 years of age, and have been 6 years at sea, of which one year must have been as first or only mate in a foreign-going ship and one year as second or only mate. He must also prove that he has served at least one year in a square-rigged sailing vessel in the capacity of either apprentice, seaman, mate or master.

IN NAVIGATION.—In addition to the qualifications required for a second, only and first mate, he must be able to compute the latitude from the meridian altitude of a star, to find the magnetic bearing from equidistant compass bearings of any fixed object when at sea, and compute the deviation therefrom. He must construct a deviation curve upon a "Napier's" diagram, which will be furnished by the examiner, and understand the practical application of the same, and give written answers to certain practical

questions on the effects of the ship's iron upon the compass, the method of determining the deviation, and compensating the same by magnets and soft iron. He will be required to find the course to steer by compass in order to counteract the effect of a given current, and find the distance the ship will make good towards a given point in a certain time, and to work out practically the correction to apply to soundings, taken at a given time and place to compare with the depth marked on the chart. He will also be required to answer certain questions relating to cyclones or revolving storms.

IN SEAMANSHIP.—In addition to the qualifications required of an only or first mate, he must be able to construct jury-rudders for both wooden and iron vessels and also rafts. He will be examined as to his resources for the preservation of the ship's crew in the event of wreck; as to the management of ships in heavy weather, and as to rescuing the crew of a disabled ship; as to steps to be taken when a ship is on her beam ends or in any danger or difficulty, or if disabled or unmanageable and on a lee shore, heaving a keel out, &c. He must explain the mode of procedure when placing ship in dry dock, directing repairs, and if putting into port in distress with damage to cargo and ship. He must possess a sufficient knowledge of what he is required to do by law, as to entry and discharge, and the management of his crew, and as to penalties, and entries to be made in the official log, and a knowledge of the measures for preventing and checking the outbreak of scurvy on board ship, and the law as to load line marks, and the entries and reports to be made respecting them. He will be questioned as to his knowledge of invoices, charter party, bills of lading, Lloyd's agent, and as to the nature of bottomry, also bills of exchange, surveys, averages, &c., and must answer any other questions of a like nature which the Examiner may consider necessary to touch upon.

He will also be required to give satisfactory answers as to his knowledge of the management of steam ships in heavy weather. How to utilize steam appliances in the event of fire, and the best arrangements for towing vessels under various circumstances; as to the methods of constructing jury-rudders suitable for a screw steamship, and other questions of a like nature appertaining to the management of a steamship.

A candidate possessing a certificate "for fore-and-aft rigged vessels only," and desiring to obtain an ordinary certificate of the same grade, must prove that he has served at sea at least one year in a square-rigged sailing vessel, and will be re-examined both in navigation and seamanship.

FAILURE.—In all cases of failure the candidate must be examined *de novo*.

If a candidate fails in seamanship he will not be re-examined until after a lapse of six months.

If he fails three times in navigation he will not be re-examined until after a lapse of three months from the date of the last failure.

If a candidate has failed in his examination, but the subjects in which he has failed are not included in the subjects required for a certificate of a lower grade, he may, if he desires it, receive a certificate of such lower grade.

No part, however, of the fee he has paid will be returned to him.

Any candidate who may be guilty of insolence to the examiner, or of other misconduct, will render himself liable to the postponement of his examination, or if he has passed, to the detention of his certificate for such period as the Governor in Council may think fit to direct.
