Sir Wilfrid's

Senate Reading Room
Jan. 12—14512
SENATE P. O.

When the deputation of the Vegetable Growers' Association and the Fruit Growers' Association visited Sir Wilfrid Laurier at Ottawa on the announcement of the reciprocity agreement, they told him that it would ruin the market gardeners and fruit growers of Canada. Sir Wilfrid's reply was that Canada was a large country; that it was impossible to legislate to suit everybody, and that they must be willing to sacrifice to the common good.

"If Sir Wilfrid will show us that it is to the common good, there would be some strength in his argument, but he has utterly failed to do so," said Thomas Delworth, president of the Vegetable Growers' Association, in an interview with The World. Mr. Delworth is a well-known market gardener, living in the Weston district, and he is thoroughly familiar with all sides of the reciprocity argument. He is a lifelong Liberal, but cannot swallow reciprocity. He said he only knew one Liberal market gardener, an old party man, in the district, who would support the new policy.

Mr. Delworth, as the spokesman of the deputation, got up an exhaustive amount of information concerning the market gardening interests of the United States, and he and his colleagues were able to show Sir Wilfrid that reciprocity would be nothing short of disastrous for them.

"It will be of immense value to the American growers and a serious blow to us," he said. "The question of the price for our products is almost altogether one of the date at which they are put on the market. The first on the market gets the fancy prices. You might say that our business is very much like the departmental stores. They sell their goods at a fair price in the beginning of the season, and later on they clear out the balance of the stock at a sacrifice. That is where the working man gets the advantage.

"We get good prices for our early stuff from people who can afford to pay, and that is where our profit comes from. Later on we can supply the bulk of the crop at cheap rates to the workingman's family. It is only a question then of making a profit over the cost of handling. We can supply cheap to the workingman, because we get a good price for our first week's product. Under reciprocity we will be debarred from that early profit, and neither the well-to-do consumer nor the workingman will benefit.

"Take asparagus, for example. Under the tariff the consumer waits till it is ripe with us in June. With reciprocity the American grower can ship weeks ahead of us. The result will be that we will have to start in a glutted market. We lose the special profit of our early market, and have to compete with the late as well. What business could succeed starting in that way? What chance would we have trying to compete with the American grower?"

"And with regard to their early market—it is no use to us. They have had their early market before we are ready to ship. Not having had this advantage on their early market, which they had had on ours, we could not afford to ship at cheap rates later. As we could not get our profit on the special early market, we would have to get it from the market in general. But we have to compete with them on their own market, and would have no show at all.

"They forestall us in every crop we raise," continued Mr. Delworth. "Take potatoes, for instance. They could swamp us from Maine. Norfolk, Virginia, shipped a million barrels of potatoes last season, and they shipped four weeks earlier than we could. They control the market, and would get the new potato prices. By the time ours came in, people have had new potatoes for a month, and there is nothing special in it for us.

"Sir Wilfrid Laurier says we would control the market by reason of the superior quality of our goods.

"That is not a statement of fact. Their goods are quite as good as ours. The argument of poor quality goods, picked unripe and before being mature, works both ways. How could we meet them with a handicap of two or three weeks and upwards?"

"Take onions. In 1908 there were 200,000 bushels of onions shipped from the United States. From 1904 till 1908 there were 150,000 bushels. These are figures of the United States Bureau of Statistics. Texas alone has shipped out 200,000 carloads of onions. All the states produce immense quantities. Ohio is one of the chief.

"Can't we grow carrots, parsnips, beets and late vegetables?" they ask. There is no advantage. The home market is the best. They grow them in the States quite as cheap, and the freight would be the controlling element either way. The trade papers show that prices are so much alike there is nothing in this.

"Some people say to me: 'I don't think your argument is sound; we never tire of fresh vegetables.'

"Yes! but you tire of a specific kind of vegetable. You like asparagus when it comes in after the winter, but you don't want asparagus week after week every day and nothing else. Your wife brings along another vegetable, and another later on, and there is a successive demand for the new kinds. But under reciprocity the United States grower would get the cream of the early market. Not only would the market be glutted, but the demand would be supplied.

"There is nothing for us in the carriers' market in the States. The Market Gardeners' Journal, Louisville, Kentucky, gives a letter from a tomato grower, stating prices at from \$7.50 to \$9.00 a ton. These prices are from 25c to 25c a bushel. Ours are from 25c to 30c.

"The home market is the valuable market. And the nearer you are to the customer the better. You know what the customer wants, the line of goods that pleases him, and the closer together the producer and consumer the more satisfactory it is. I brought two loads of goods into the city yesterday, and I am going home to-day with the money in my pocket. That is better than any commission business in the United States. I hate to vote against the party I belong to, but I don't want to see the country ruined."

Mr. Delworth said that the circular issued by Mr. Spence, the Toronto commission merchant, stated the facts of the situation. He believed the market gardeners almost without exception were against reciprocity.

RECIPROCITY PRESENT ISSUE.

A pamphlet is being prepared by the Evangelical Alliance of the No Temere decree, and after the elections will be sent broadcast over the Dominion and shortly afterwards a protest meeting will be held, probably in Massey Hall, where Protestants will be given opportunity to voice their antagonism to the measure.

SIR WILLIAM A GLOBE TROTTER.

There is a well-defined rumor at the station to the effect that Sir William Mackenzie, who left Tuesday night for Vancouver, is going to extend his tour 'round the world. Among other places it is said he will visit China, India and Australia, and it is expected that he will spend some time in England before returning home.

AN AWFUL MISTAKE

MR. TAFT: Great Heavens! I proposed and was accepted—but it was the maid and not the mistress.

NO WEDDING BELLS RING CASH AND CUPID GLASH

Corning, N.Y., Man Found Buffalo Widow Too Fond of Life's Vanities.

A little romance was rudely interrupted at the Niagara Navigation Co.'s wharf yesterday.

George Eddy of Corning, N. Y., believed that matrimony was desirable, and for some time back has carried on a correspondence with a widow, Mrs. Dowell of Buffalo, with that object in view. Early in the week the pair, who are both about 50 years of age, met in Buffalo and decided to get married. The bride-to-be was a Roman Catholic, and the priest who was asked to perform the ceremony asked for the bride's baptismal certificate. This could only be obtained from her birthplace, Malton, Ont., so the couple set out for Malton and came by way of Toronto. While here they boarded in Mutual-street, took in the exhibition, and the prospective groom lavished presents on his intended bride. He found to his sorrow, however, that his sweetheart had extravagant tastes, and he took this to heart, to such an extent that he decided to jump the job.

He paid his own bill at the boarding-house and then hurried away to catch the boat for Niagara. But, alas! His intended arrived before the boat left and complained to P. C. Shelton (225) that she had been deserted.

The stalwart guardian of the peace immediately took the affair in hand. The woman wanted her ticket and her transportation papers; the man wanted his diamond ring back. The policeman acted as conciliator and suggested, later insisting on, a fair exchange.

"You give up her ticket and papers or you won't get on that boat. You may dump things here when you get reciprocity, but you can't do it now," he said.

The man then produced the required ticket and papers, but the little romance had ended in irreparable disaster.

A BAD BARGAIN

Markets of U. S. Would Be Open Without Reciprocity, Says Bourassa.

STE. ROSE, Que., Sept. 6.—Hocking, which marked Mr. Bourassa's meeting at Hull and Buckingham, continued today when he came here to address the electors of Laval in the interests of J. E. Leonard, opposition candidate, but, as in former cases, his witty remarks and caustic comments soon silenced the interrupters and the greater portion of his speech was listened to with interest and attention.

He said: "I am accused of not being practical; but I am practical enough to know that in dealing with Americans the best method is to get all you can for as little as it is necessary to give; and I firmly believe that within two years the markets of the United States would have been open to Canada with reciprocity, and without our having to reduce duties a single cent."

Prof. Tracy for Europe.

For a year's sojourn in the old country, Professor F. Tracy, Ph.D., of the University of Toronto, with his family, sailed on the Laurentic from Quebec this week. After spending some time in Weston-Super-Mare, Torquay, Oxford and London, they will go to the continent. The trip is occasioned by the failing health of Professor Tracy.

Trade Depression in the United States

CHATHAM, Ont., Sept. 6.—(Special.)—James Avery, formerly Superintendent of the Gray Carriage Co. of this city, and who some time ago left that institution to take a position as superintendent of the Racine Carriage Works of Racine, Wis., passed thru this city recently on his way to Toronto and Brantford in quest of a new position. While here he called on many of his old friends. Mr. Avery left Racine because the American Carriage Company at that place, with which he was identified as superintendent, is closed down most of the time on account of dull times. The company, it is said, is stocked up with material for which there are not enough of orders. Mr. Avery has come back to Canada for a position, as there did not appear to be a very lively business for carriage makers in the States, no large positions offering themselves. Mr. Avery is down as a first-class man in his line.

The T. H. Taylor Company are in receipt of the following letter which should interest Kent farmers who are now seriously considering the reciprocity question:

Saginaw, Sept. 1, 1911.

Dear Sirs,—We are in receipt of your favor of the 31st. We are paying 78 cents for No. 1 wheat or mixed wheat. If there is any more information you desire please let us know and we will be glad to furnish it.

Yours very truly,
SAGINAW MILLING CO.,
Per J. M. Coup.

The price paid in Chatham for mixed wheat and white wheat is 80 cents per bushel, just two cents in advance of the American price quoted in the above letter.

CROWDED HALL CHEERS A. E. KEMP IN RIVERDALE

Four Hundred Electors Stirred to Enthusiasm by Strong Arrangement of Reciprocity.

Armstrong's Hall, Pope-avenue, was crowded last night by an enthusiastic audience of 400, including a number of ladies at the meeting in support of the candidature of A. E. Kemp, Jos. Johnston presided and among those on the platform were Hon. Dr. Paine, J. R. Whiteside, M.L.A., A. A. Gil-mour, Joe. E. Thompson, Geo. H. Briggs, Thos. Gearing, R. H. Greer, Hon. A. E. Morin, M. Hurst, Geo. Creighton, W. J. Saunderson, R. Bethune, W. T. Stewart, Rev. E. Anderson, R. H. Stewart, Wm. Fitzgerald, and Mark Irish.

Mr. Greer, president Ward One Conservative Association, said there was only one end to reciprocity and that was closer connection with the United States. For that reason the association was resolutely against reciprocity. Reciprocity, if adopted, would be the rock upon which Canada would founder. The way to vote in the ensuing election of Toronto against reciprocity was to cast a ballot for A. E. Kemp. (Applause.)

A. E. Kemp, the Conservative standard bearer, was given an ovation. His expressed great pleasure at the large attendance. The electors had four candidates to select from. The Liberal candidate, Mr. Pearson, was formerly for unrestricted reciprocity, but now he was only for partial reciprocity.

The Newmarket Canal and the Quebec bridge were examples of the reciprocity.

DECREASE IN SHIPPING

Toronto Harbor Returns Are, However, Not Unsatisfactory.

Up to Aug. 31, the figures of Harbor-master Postlethwaite show that the waterfront shipping is slightly behind that of last year. Up to that date there had been 2384 vessels arrive, while last year the figures were 2401. Last year up till Aug. 31 there was a registered tonnage of 1,187,165, and this year the official figures are 1,181,760.

It will be remembered, however, that there was a G.T.R. strike during July and August last year and this inflated the marine freight business and explains the apparent falling-off of this year's trade.

Back to India.

After spending a few weeks in Toronto, Rev. Geo. H. Brock, of Kanigiri, India, left for Boston and expects to sail for India about November 1st.

MORE BUSH POLL TACTICS ARE LAID BARE

Appeal Judges at Blind River Sustained List of 190 Names Brought in By Convicted Burglar, and Are Unable to Find Conservative Affidavits.

SAULT STE. MARIE, Ont., Sept. 6.—The efforts to defeat A. C. Boyce and W. R. Smyth, candidates for East and West Algoma, are being evidenced daily. Last week the bush polls on the Algoma Central Railway were concluded, and in many instances boys from 14 to 16 years of age struck from the lists upon strenuous objections being entered by F. J. S. Martin, Conservative counsel. The tactics being employed by Liberals are of the nature of the famous "Minnie M." trip.

The details are disgusting. Your correspondent received a report from Blind River to-night, which says: "The trio of so-called judges, Kehoe, Stone and Hewson, who are now revising the lists, on hearing appeals in unorganized portions of Algoma, have certainly made a record for themselves. It was thought that two of the men who heard the appeals at the last election, namely Judges O'Leary and McCullum, showed themselves very partisan, overruling Judge Johnston, the only one who had any semblance of decency on the bench board, but the present bunch have gone very much further and have accepted and sustained lists brought in by men of ill-repute. In one instance, about 100 names were brought in by a man now serving a term of five years for burglary.

"What can we expect in a way of justice in any matter in the hands of such men, even in those cases where their politics don't come into play, and what can they think of themselves? Messrs. Greenidge and Williams, representing the Conservatives, left court at Blind River to-day in disgust, as they saw that the bunch had decided to do all in its power to keep on Grits and keep off of Tories votes.

"It is a disgrace that men holding the honorable position of judges should place themselves in such a position.

Tried to Make Deal.

"Judge Stone in his manifest desire to help the party that gave him his job, tried to drive the counsel for Mr. Smyth into the position of making a deal whereby 29 names, sought to be put on the list by 'them on affidavits' made in conformity with the act, should go on if over 100 names advanced by Gritt holders were also allowed, although affidavits in support of the latter were entirely defective, and they swore to a residence on June 1 instead of July 18. On this manifestly unfair deal was just in the slack of the tide that I got in. If I had not managed, it then I might have missed it and drifted to Chatham to cook three full tides and two part tides to bring me over.

"I was severely stung several times by jellyfishes, and while in mid-channel, after a sick spell, I felt heart-broken. For a while I was almost delirious, but my pilots began to sing, and this gave me fresh courage to persevere."

It was 7 o'clock in the morning when the swimmer sighted Gritt Nez some-where. He was then two miles to the west-southwest. In these two miles it was a battle with the currents, but when Burgess got within the shelter of the cape he swam easily ashore. He stumbled for two or three steps, then walked steadily without assistance. He looked remarkably fresh, considering his long immersion.

YORKSHIRE MAN SWAM ENGLISH CHANNEL

William T. Burgess Duplicates Capt. Webb's Feat—Was 22 Hours 35 Minutes in Water—Buffeted by Tides and Stung by Jellyfish, He Pluckily Kept On.

DEAL, England, Sept. 6.—After a lapse of thirty-six years Captain Matthew Webb's feat of swimming the English Channel has been duplicated by William T. Burgess, a Yorkshire man by birth and a naturalized Frenchman. It was Burgess's sixteenth attempt, he having first essayed the task in 1894.

Burgess started from South Foreland, Dover, at 11:15 o'clock Tuesday morning. He landed at Le Châtelier, a little village two miles east of Cape Gris Nez at 9:50 o'clock this morning, accomplishing the passage in 22 hours and 35 minutes. A motorboat accompanied the swimmer, and it is estimated that Burgess, owing to the zigzag course he was compelled to take because of the baffling tides, covered sixty miles.

Soon after the start a dense fog settled down over the channel and no further tidings of his progress were received, until the announcement was made that he had successfully accomplished the task and landed on the French side.

Throughout the trip Burgess was favored by a calm sea, but a strong tide was running, and a severe storm was put on the swimmer to get past the Goodwin Sands. Twice he was attacked by swimmers and several times was only held to his task by the strongest will power and the encouraging words of the men in the boat. No remained on French soil less than enough to telegraph word of his success to his wife and partake of refreshments in a bathing box. Then he returned by motorboat, to rest and sleep.

Received Great Ovation.

When he landed at Deal this evening Burgess received a tremendous ovation and with difficulty made his way thru the cheering throng to a hotel. Speaking of his great achievement he said: "In the time the swimmer occupies should have been able to cross the channel twice but for the adverse currents. Against these I had a terrific fight and again came within an ace of falling. When approaching Cape Gris Nez the strong outward set of the current forced me to alter my course three times. I was held up for some time, but when I had rounded the corner I found slack water and then knew that I was assured of success.

"It was just in the slack of the tide that I got in. If I had not managed, it then I might have missed it and drifted to Chatham to cook three full tides and two part tides to bring me over.

"I was severely stung several times by jellyfishes, and while in mid-channel, after a sick spell, I felt heart-broken. For a while I was almost delirious, but my pilots began to sing, and this gave me fresh courage to persevere."

It was 7 o'clock in the morning when the swimmer sighted Gritt Nez some-where. He was then two miles to the west-southwest. In these two miles it was a battle with the currents, but when Burgess got within the shelter of the cape he swam easily ashore. He stumbled for two or three steps, then walked steadily without assistance. He looked remarkably fresh, considering his long immersion.

NOT UNDER RECIPROCITY.

MONTEAL, Sept. 6.—Figures furnished to-day by the harbor commissioners show that the opening of navigation until Aug. 1, the commissioners' elevator handled 8,338,001 bushels of wheat. During the corresponding period of last year, the wheat handled amounted to 7,922,777 bushels.

BLOOD-STREET VI-DUCT.

H. R. Frankland has been since the last municipal election and the defeat of the Blood-street viaduct, working overtime on this scheme which means so much for the entire east end and the city generally and now has a petition signed by 4,000 people, and still they come. A long, strong pull and it will come next time at right.

A Graduate of St. Margaret's.

When "What the Doctor Ordered" has its first production here at the Princess' Monday night next, Miss Anne Meredith, a graduate of the class of 1897 at St. Margaret's College, will be in the cast playing the part of Sallie Fisher in the comedy.

THE FUR SITUATION.

Visitors in Toronto to-day should take advantage of a rare good opportunity to purchase fur goods at a most reasonable price—we say reasonable price because it is forecasted the price of furs will have advanced at least thirty per cent. in the next two months. Alaska seal is stated to be not only hard to get, but most expensive, and this because of the recent international restrictions imposed on the fishery. The Dineen Company, owner of Yonge and Temperance-sts., were most fortunate in putting in a large stock of pelts early in the season. Especially there was an unusually heavy purchase of Alaska Seal made before the international day was announced. It would pay visitors to make their selections to-day, and even have the Dineen Company hold them until required.

NEW MINING ATAMPEDE.

ASHCROFT, B.C., Sept. 6.—Something like the feverish activity of the early mining days seized Ashcroft at daylight this morning when stampedeers started for the Spring House to stake claims on a silver, lead and gold ledge recently located by a prospector named Perkins, who reached town yesterday with news of his strike. It is declared the ore, which is reported to come off an eight-foot ledge, is 70 per cent. pure, and it is estimated that it runs \$300 to the ton. Spring House is in Callington County, northwest of Clinton, and about 250 miles from Ashcroft.

Joy Ride's inglorious End. Jesse Gentle, 268 Weston-road, was given a \$5000 motor car to repair by his employers, the Canada Cycle and Motor Company. He got drunk and took it away, when he was stopped by a post with which he collided. He was arrested yesterday charged with theft of the machine.

Instant Relief for Sore Feet

Sore Feet, Tender Feet and Swollen Feet Cured. Every Time. TIZ Makes Sore Feet Well No Matter What Ails Them.

Policemen all over the world use TIZ. Police men stand on their feet all day and know what sore, tender, swollen feet really mean. They use TIZ because TIZ cures their feet right up. It keeps feet in perfect condition. Read what this policeman has to say: "I was surprised and delighted with TIZ for tender feet. I hardly know how to thank you enough for it. It's superior to powders or plasters. I can keep my feet in perfect condition. Believe in my earnest gratitude for TIZ. I am a policeman and keep my feet all day."—Emmy Harrell, Australia.

You never tried anything like TIZ before for your feet? It is different from anything ever before sold. TIZ is not a powder. Powders and other foot remedies clog up the pores. TIZ draws out all poisonous exudations which bring on soreness of the feet, and is the only remedy that does. TIZ cleans out every pore and gorges the feet—your feet.

You'll never limp again or draw up your face in pain, and you'll forget about your corns, bunions and callouses. You'll feel like a new person.

TIZ is made only by Walter Luthier Dodge & Co., Windsor, Ont., and for sale at all druggists at 25 cents per box.

Farmers' Day Attendance 12,000 and More Looks Elu

If the weather had been better yesterday, it is safe to say that the exhibition would have attracted a larger crowd. However, the attendance was not so good as it was expected to be. The weather was not so good as it was expected to be. The attendance was not so good as it was expected to be.

After this preamble, broken that yesterday, 15,000 had been registered. The gates registered the three of a political nature. As it was Farmers' Day, the gates were especially well attended. The gates were especially well attended. The gates were especially well attended.

The grand star, or good. At both performances, the gates were especially well attended. The gates were especially well attended. The gates were especially well attended.

BULL SKY AND POLITICS
DON'T AID EXHIBITION

Farmers' Day Attendance Slumped
12,000 and Million Mark
Looks Elusive.

If the weather had been gracious yesterday, it is safe to say that last year's record of 108,000 attendance at the exhibition would have been duplicated. However, leaden skies and the threat of a deluge dampened the enthusiasm of many visitors, who will regret to augment the idea that will give wayward-to-day. Of course, once again Jupiter Pluvius will enter into the calculations, but Americans' Day would furnish some comforting statistics.

After this preamble, let the news be broken that yesterday's showing dropped 12,000 behind last year's, as the 111 gates registered 96,000. Probably three of a political struggle kept down the attendance.

As it was Farmers' Day, the cattle, horse, hog and other such exhibits were especially well patronized. So the stock was concerned, yesterday was probably the biggest day. But farmers were not the only ones present, for many Toronto people and many persons from the villages and cities of Ontario and the States were there.

The grand stand crowds were very good. At both performances there were good turnout. It is estimated that 15,000 were there in the afternoon and 15,000 at night.

Fire's Scrupulous Damage.
The first fire of the exhibition broke out yesterday afternoon in a tent occupied by the provincial board of health and the damage estimated at \$2000. A burning part of one of the Japanese daylight fireworks fell on the tent at 2:30 p.m.

A number of valuable photographs, which cannot be replaced, and which were borrowed from the American Society for the Conservation of Vision, were destroyed. The exhibition firemen, under Capt. Sinclair, did good work in putting out the fire.

A little excitement was caused down on the Midway yesterday morning by a steer from Wild West Pete's Show, which escaped from the arena and got out onto the Midway. Before it was stopped, it had knocked down a woman, but she was only slightly hurt. She was Mrs. Telfer of Milton. The cowboys from the show followed the animal and roped it before it had gone far.

Exhibition Notes

The Most Popular Resort on the
Exhibition Grounds

was the universal expression of the many thousands of Foresters from all parts of the world, who have already visited the L.O.F. spacious tent, and it was very gratifying and encouraging to the brothers in charge to note the large number of applications for membership that they have received since the fair opened. But it is something that they naturally expected, for where do you find a more popular order than the L.O.F., an organization that protects the orphan, protects those afflicted with tuberculosis, by giving them free sanitarium treatment, gives one of the most liberal sick benefits that are given, and protects its members with a policy which gives them the privilege of receiving 70 per cent. of their policy at any time they should become permanently and totally disabled? Should they not have the misfortune of reaching out for this benefit, they are privileged, if they so desire, at the age of seventy to draw 70 per cent. of their policy in cash. This is a true protective policy, and one that should appeal to all men and women, and when you consider that one can enjoy such a policy as this, making one of the best investments man or woman could make, and at the same time, join in the great fraternal work which is being carried on by this order, there is no excuse whatever for any man or woman to pass away and leave their family unprotected, for we must all realize that we should live for each other and share in one another's burdens. This is what is being taught through the Forester Court meetings the world over, and where can you get a better education for young men than to meet with the members and spend their evenings in learning how to make the afflicted happy and relieve the distressed? The Forester relief work is living up to the true teachings of the great Humanitarian. The order predicts that this year will be one of the most successful years in its history, due to the spirit of enthusiasm manifested by the members on the fraternal side of the order, and their soundness for investments, knowing that their rates are sufficient and ample to meet all demands and obligations. In knowing this, and with a reserve fund of nearly eighteen millions of dollars, it is quite common to hear the members rejoice and boast as to the proud position their order holds in the rank of such organizations.

The Royal Foresters' Trumpet Band, a band the order prides itself in, visited the tent yesterday, and gave an exhibition of fancy drum playing,

which was very much appreciated by the large crowd, who gathered to hear and see the band render the several selections under the leadership of Major Fred Kamey, the popular bandmaster. This afternoon, the supreme secretary gives his annual reception. A hearty invitation is tendered all members and their friends to give the tent a visit and receive a warm welcome from the genial supreme secretary, Brother H. Mathison.

The Intercolonial Railway.

Representing the eastern provinces of Canada, the display of the Intercolonial Railway is attracting rather more than the average share of attention, and the men in charge are having a busy time of it answering the interrogations of eager questioners. Sometimes it is a group of sportsmen who want to know the best localities where moose, caribou or deer may be obtained, or who the most reliable guides are. Or it may be someone desirous of obtaining information regarding a trip to Halifax, St. John or the Sydney during the late summer and fall excursions. The illuminated picture of the Ocean Limited Express attracts much attention and is the subject of much favorable comment. The pictures shown are very fine specimens of photography, and are well selected to show the attractions of the territory served by the Canadian Government Railway in Quebec, New Brunswick, Nova Scotia and Prince Edward Island. The Maritime Provinces are certainly rich in wonderful scenery and via the Intercolonial Railway is the only all-Canadian route from Montreal to Halifax, St. John and the Sydney. The display made by the I. C. R. is a most creditable one and all should pay it a visit.

Canadian Order of Foresters.

There is no more popular spot on Society Row than the tent of the Canadian Order of Foresters. Members of the order who make it a point to attend the Toronto Fair always consider this tent headquarters. As usual, Mr. W. G. Strong, the popular superintendent of organization, is in charge, and a warm welcome is extended to all Foresters and their friends. This year Mr. Strong is assisted by Organizer W. E. Robson of Toronto and Mr. A. C. Wiley, another member of the staff. During the two weeks of the exhibition many of the officers of High Court paid visits to the tent. The officers this year are as follows: J. A. Stever, High Chief Ranger, Perth, Ont.; J. A. Brodeau, High Vice-Chief Ranger, Montreal, Que.; J. P. Hoag, High Secretary, R. Elliot, High Treasurer; Dr. U. M. Stanley, Chairman of Medical Board; Alf. P. Van Someren, William Cooper, N. J. Stevenson, R. T. Kemp and A. B. Galpin, members of the visitative committee; W. L. Roberts, High Auditor; William Walker, High

Registrar and Rev. W. J. West, High Chaplain.

The Canadian Order of Foresters has made wonderful progress since its organization. It is a purely Canadian institution, and operates in every province of the Dominion. It has a membership of 30,000, and on the 1st of August its Insurance Fund amounted to \$3,467,418.98, and the Fund for payment of Sick and Funeral Benefits amounted to \$218,474.81. During the last Forester year, \$501,582.44 was paid out in death claims and \$147,234.98 in Sick and Funeral Benefits claims. The year 1910 was the most successful and satisfactory in the whole history of the order, and the first eight months of 1911 are better than the corresponding period of 1910. Members of the order visiting the exhibition will be welcomed at the tent.

Seaship.

Thousands throng about the exhibit of the Producers' Sales Co. Limited, in the manufacturers' building, where the popular Seaship oysters are daily served in delectable cocktails, and in plates. The dainty bivalves, in an airtight seaship case, are shipped direct from the oyster beds under the famous Seaship system, and the tang of the sea is still on them as they are served to you. Try an oyster cocktail.

\$100,000.00.

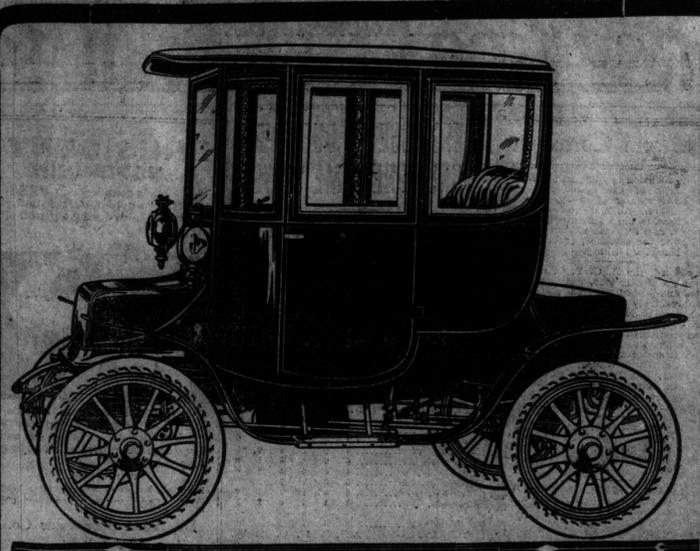

One hundred thousand dollars' worth of Toledo Computing Electric Scales have just been sold to one firm. Some of these wonderful machines are on exhibition at the Toledo Computing Scale Company's booth in the manufacturers' building. This exhibit is one of the big things at the fair. Don't miss it.

The most remarkable tire test ever made.

OCEAN TO OCEAN ON NOBBY TREADS

The Ocean to Ocean tour just finished by 12 Premier Cars, all driven by their owners and equipped with Nobby Treads, was a tire test so thorough, so reliable and so instructive as to be of the utmost value to every man in the country who is paying tire bills.

12 Premier cars left Atlantic City on June 26th and arrived in Los Angeles on August 10th.

4,700 miles were covered. 15 States were crossed. The tires saw every variety of service that it is possible to find in the United States, from the macadam of New Jersey and Pennsylvania through the sticky gumbo of Ohio and the mountain passes of Colorado.

The cars were driven over roads infinitely worse than 9 out of 10 cars ever see, and were driven by amateur drivers—not factory experts.

Contrary to the usual custom in such cases, we will make absolutely no comment on the behavior of the tires. Not because of any undue modesty on our part but because any statement we might make would appear weak when compared with the testimony given by the drivers themselves after they reached Los Angeles.

We will let the drivers tell the story—all of them are prominent men.

The Nobby Tread is the best tire for transcontinental travels I have ever used. —RAY McNAMARA, Transcontinental Pilot and Guided Tour Winner.

I never knew an automobile tire could withstand such service.—JOHN H. MURPHY, City Commissioner, New York City.

What do I think of the United States Tires? I came through on my original casing. No tires could possibly have given better service.—GEO. C. ALLEN, President Republic Trust Co., Philadelphia.

Three punctures between Brooklyn and Los Angeles and finishing on the original air in three casings is proof to me of

There is no method of making friends equal to the method of making good.

You will get the same kind of service if you use the same kind of tires on your car.

and take in the free lecture which is given every hour in the National Cash Register Company's building, situated next to the former women's building, a few steps north from the main entrance to the grand stand.

The "lecture" is almost entirely one of pictures—beautiful colored slides and most interesting motion pictures—whose varied subjects provide one of the most interesting and fascinating features of the whole exhibition.

Theosophical Society's library will be open to visitors to the exhibition daily from 2 till 5 p.m., at Room 204, 22 College-st. Lecture on Sunday evening at 7.15.

Bird's Dining Hall.

When at the exhibition eat at Bird's dining hall directly behind the grand stand. There is no waiting or delay. Seven hundred can be easily accommodated in the cool, spacious dining hall. On Labor Day over nine thousand and eight hundred ate at Bird's. All you can eat, in our motto, and a quarter pays the bill. Take your friends to Bird's and enjoy a full course meal at a popular price.

A Unique Piano Display.

The Christmas walnut grand piano, specially designed by the Nordheimer Piano Co., for the Chateau Laurier, the new Grand Trunk Pacific hotel in Ottawa, is a revelation of artistic piano finish. Thousands of visitors to the exhibition have stood and marveled at the attention with which in even the most minute details the case of this artistic piano is matched and blended.

Not only has the piano a beautiful exterior, but it has that rich, full tone which has given the Nordheimer the name of the "Quality tone piano." Visitors from all over the continent have declared that it is the most handsome drawing-room grand piano that they have yet seen. It is just another instance of the beautiful work of the well-known Nordheimer factory. "Nordheimer" now stands for all that is best and most artistic in pianos.

All the staple lines of their large stock are also shown, including a miniature Steinway grand that has attracted great attention from the visitative committee. A beautiful Verie grand upright Steinsway and the popular Nordheimer player-piano are also exciting great admiration.

The beautiful display of artistic pianos is set off by a number of gigantic ferns, making the Nordheimer exhibit the most artistically arranged in the exhibition grounds. See the exhibit when you visit the fair.

Power at Lowest Possible Cost.

Gas engines have in recent years taken a great place among the power producing machines of the world. The Campbell Gas Engine and Suction Gas Plant, which is being shown at the exhibition in machinery hall, is a machine which is ideal for its purposes. They point out the way for manufacturers to save money in fuel and in cost of operation.

The Campbell Open-Hearth Suction Gas Plant is the best machine of its type now on the market, and the gas engine is of highest quality, is strongly built and simple of operation, and is a good money-saver.

The Campbell Gas Engine and Suction Plant is the most practical machine of its kind made. The Canadian agents are Chambers and Simpson, 103 Bay-street, Toronto.

PATRICIA SUCCESSFULLY DEFENDS FISHER CUP

Seneca Well Beaten in Final Race — Defender Out sails Challenger — 15 Mile Breeze.

The Fisher Cup will stay in Toronto. Patricia, the R.C.Y.C. defender, out sailed the slippery Seneca of Rochester in the final race yesterday, and had a half-mile lead when she crossed the finishing line.

There was a ten to fourteen mile breeze and Patricia was in her glory, no sea such as the day before to bother, and she out sailed the challenger on every tack.

George Owen has had his ambition satisfied, as it was thought that it would be a long time before a boat would be designed that would be able to beat the speedy Herreshoff yacht.

Only a small fleet followed the yachts, but this small lot created a lot of noise when Patricia crossed the line.

The race, as seen from the judges' boat, electric.

The wind had shifted to the northwest, and was blowing ten miles an hour. The water had hardly a ripple on it, and the boats were making the twenty-mile course.

The Buckley Guarantee ensures Satisfaction — or a new hat free.

A hat needs a guarantee. More easily than any other article of apparel, a hat can deceive its purchaser—look right without being right.

Clothes, or shoes, or ties, you can "size up"—a hat, you can not.

For instance, almost everyone knows enough about tweeds to tell whether a suit will wear well.

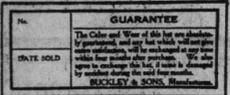

With hats it is different. Who can "size up" a hat? Who can tell whether it will wear three months, or "look seedy" after one month?

Few can tell a hat's real worth without knowing what goes into its making. None can tell exactly but the manufacturer. He knows better than anyone how long his product will wear—and if he believes in his hats he ought to

be willing to guarantee them.

Buckley Hats are guaranteed. The men that make them believe they'll wear longer than any other hat that's made—and in proof of that belief the makers attach their guarantee for four months. If you buy a Buckley hat to-day, and any time within the next four months, you find your hat losing color or showing signs of wear, take it to your dealer and he will cheerfully and unhesitatingly exchange it. The Buckley guarantee, moreover, assures you against accidents—it's so sweeping as to include even that contingency.

Union made, and of highest grade felt, it is produced in a wide variety of styles to suit all physical types and to conform to latest fashion tendencies. The price is only \$2.50.

Can McFarland Make The Weight to Meet Wolgast Next Week

CHICAGO, Sept. 6.—After six days of vigorous training, Paeky McFarland weighed himself at a Chicago gymnasium on Sunday, and tipped the beam at exactly 125 pounds. As he is matched to box ten rounds with the world's lightweight champion, Ad Wolgast, at Milwaukee, on Sept. 15, he has not more than ten days to get down to the stipulated weight, 125 pounds at 3 p.m. Yet his trainer, Emil Thier, says he will take off five pounds in that time without weakening himself in the slightest degree.

The regular annual tournament of the Maple Leaf Quilting Club will be held on their grounds, Woodbine and Queen, Sept. 7. The first draw will take place at 1:30 p.m., with Simpson Rennie, Toronto's popular sportsman, as referee. Aid, Chisholm and Joseph Russell will start the quilts flying on what promises to be a most interesting tournament. There are now entered a large number outside Toronto, including several enthusiasts from across the border. The club welcomes all interested in the game to come.

Mr. Daniel McGregor's importation of registered Clydesdale fillies and stallions were sold at Maher's Horse Exchange yesterday, and the sale was favored by a very large attendance. This shipment of quality that has never been shipped to this country, and at the prices they were sold for offered an unequalled opportunity to any interested in this class of horses to secure one of the best obtainable.

Mr. M. Holby, Manchester, Ont., one of the best judges of the Clydesdale horse, was the only one who realized this excellent buying chance, he securing no less than eight of these royally-bred fillies. Some of the sales were:

FOR RACES AT THORNCLIFFE.

Everything is in readiness at Thorncliffe Park for Saturday next. A prominent horseman, who has been a visitor in the city from across the water, reviewing the course and grounds the other day, remarked that the situation was ideal for an outdoor English in view and character. The program consists of six races, including two steeplechases, Mr. H. C. Tomlin has presented with a very fine challenge cup and the entire race program should make some keenly-contested racing. Last year, at the initial meeting, some 200 people witnessed the sport, and enjoyed it to the fullest. Motors and other vehicles may reach Thorncliffe by way of Moore Park to the second concession, and thence east thru Mr. Lee's property to the track. A special Canadian Northern Ontario train will leave Queen and Don Station at 2 p.m., returning after the last race. Badges (50c) may be obtained at Tyrrell's and the Canadian Northern Ontario Railway ticket office, King and Toronto streets, and also at the gates. The following are the officials of the day:

Judges—Francis Nelson, J. J. Dixon, D. King Smith, M. D. Stewards—A. W. Smith, D. L. McCarthy, H. J. P. Good, Timmers—J. A. G. Worts, J. Valdie, Starters—Jos. Doane, T. A. Crow.

Big Season for West Enders. At is in readiness for the gym, opening at West End Y.M.C.A., and the boys are determined to make this season the best in the history of the old building. The season's program is looked forward to with keen interest, starting in with the high school boys, whose class is called for Monday at 4 p.m., and continuing until the end of October. With this come two important events—the Newmarket-to-Toronto relay and the McBride games. This year with the boys will put on an exhibition in the gym. The basketball leagues will be started, and a series of handicap athletes will be run off, including harrier runs. Some of the special work for the boys will be swimming and life saving club, wrestling club, fencing club, first aid class, warrier club, graded apparatus work, leaders' corps. Special instructions will be given to non-swimmers.

Nothing to do but enjoy it—"C.C.M." Motor Cycle.

CLYDESDALE SALE AT THE REPOSITORY BIG SUCCESS.

The sale of Clydesdales at the Repository yesterday was a big success. The attendance was good, and a great many of Ontario's best Clydesdale men were present, as well as a lot of farmers. The galleries and ring were well filled with people, and they were rewarded by seeing some of the best Clydesdales fillies that have ever been brought into Canada. Mr. Charles A. Burns handled the sale, and really outshone himself in addition to his great ability as an auctioneer. Mr. Burns is extremely particular, and no trouble is too great to thoroughly explain the breeding and merits of every animal that passes under his hands. Every filly in the sale was sold, and there remains from the shipment but a two-year-old stallion, which is for private sale.

Joseph Russell, M.P., started the buying with the purchase of Blossom, a two-year-old filly, for \$200. Mr. Russell bought Myrtle Darling for \$70. W. F. Elliott, a farmer, secured Rose of Lockhart for \$200. J. J. Burns bought Rose of Towrie for \$200. Richard Walsh, Hastings, bought Myrtle Darling for \$70. W. F. Today's Double-Header. The championship of the Eastern League may depend upon the series which will be played at the stand between Toronto and the leading Rochester team. If the Hustlers get better than an even break the Leafs can hardly overtake them in the league race, but a clean-up for the locals will put them right in the money. The double-header will be played to-day, the first game at two o'clock. One price of admission will prevail.

Motor Boat Program. The program for to-day's motorboat races at the exhibition is: 2 p.m.—Class A, mile sprint, second heat. 3 p.m.—Class B, handicap, 5 miles. 4 p.m.—Class A, handicap, 5 miles. In the handicap the limit boats start as above, with the finish in front of the sea wall at about 3:10 and 4:10.

MURDER AT MONTREAL? MONTREAL, Sept. 6.—The body of a man, who had lain unidentified in the city from across the water, was this morning identified as that of Walter Allaire, a lumberman, who arrived here with six companions about the middle of last week. The finding of the body and the subsequent identification has led the police to place credence in the story told by a large number of witnesses that one night from the deck of his bark he saw a number of men mixed up in a drunken row, one of whom was finally thrown into the river by his companions.

WORKS DEPARTMENT REORGANIZATION. On Tuesday next Controller Church's resolution to reorganize the works department will come before the board of control. It provides for the appointment of an executive branch, with a powerful executive man at the head and C. H. Rust as consulting engineer.

Another Big Warehouse. A \$60,000 warehouse is about to be erected on the present site of the Consolidated Plate Glass Co.'s property at 73 and 75 West Wellington-street, by the E. B. Eddy Co. of Hull. The cost of the site is in the neighborhood of \$40,000. There is a frontage of 45 feet and a depth of 207 feet to Piper-street.

A Remarkable Record. BOSTON, Sept. 6.—The remarkable speed of 27 minutes 35 1/4 seconds for 33 miles over water, carrying a passenger, was made by Claude Grahame-White, the Englishman, in winning the Boston Light race in his Newport monoplane, on the closing day of the splendid Boston-Harvard aero meet to-day.

Standard of Excellence for Sabbath Schools Adopted—Work Among Foreigners.

With sixteen delegates present and written reports from Manitoba, Alberta and British Columbia, comprising the Sabbath school organization of Canada, the committee on Presbyterian Sabbath schools concluded their work yesterday in the offices of Dr. Robert G. Ross, secretary.

Reports of work from synods from Nova Scotia to British Columbia were passed upon. Among other matters considered by the committee were: Graded lessons, home department and teachers of training. A special teachers' training campaign was also planned for October.

The report of summer school held at Lake Cowiching, was so flattering that it was decided to hold one next year at the same place, and as many among the foreign population of Canada were encouraging, and colored postal cards and being sent out showing the work now being done among the Ruthenians.

A standard of excellence for Sabbath schools was adopted as follows: (1) The Sabbath school open all the year. (2) A graded roll. (3) Home department. (4) An organized bible class. (5) A teachers' training class. (6) A communicants' class at stated periods. (7) Graded instruction (the uniform lessons with supplementary work or graded schools). (8) Use of our own lesson helps and illustrated papers. (9) Missionary instruction and offerings for children's day fund.

MARVELOUS ANIMALS THESE

Famous Diving Horses Attracting Thousands to Hanlan's Point. The many thousands who have seen the wonderful diving horses at Hanlan's Point are unanimous in their opinion that it is the most marvelous exhibition of equine intelligence that has been seen for years. When they were performing at Coney Island this summer, The New York Herald said: "It remained for Capt. Paul Boynton to present to the eastern public the greatest attraction in this or any other country. J. W. Gorman's world-famous high diving horse stand unrivaled as a legitimate amusement attraction. This wonderful unique act is entirely new in this section of the country, and the two beautiful white animals, 'King and Queen' make their extraordinary dives twice daily.

"The dive is made with lowered head and feet outstretched, and it is exceeding graceful. All this is done without the exhibition of a whip and with the horses own free will." These exhibitions are given free every afternoon and evening.

At the Union Station. Enormous crowds are still in evidence at the Union Station and it is estimated that on an average 50,000 people a day will pass thru the depot this week. Yesterday afternoon two immigrant trains arrived and deposited about 200 sturdy home-seekers; the majority of the newcomers, however, preferred the west.

His Gun Exploded. MONTREAL, Sept. 6.—A man named Chartrand died yesterday at the Hotel Dieu following an operation for shot wounds in his arms. A few days ago he was out on Lake Nipissing hunting, when the gun exploded, driving the pellets into his arm. He bandaged his wounds as best he could and came down to Montreal, going immediately to Hotel Dieu.

VOICE FROM GRAND VALLEY.

J. K. Hamilton, V.S., of Grand Valley, a visitor to the exhibition, called at the World office yesterday to say: "I am opposed to reciprocity with the United States, for the reason that, when the United States turned down Sir John A. Macdonald's offer thirty years ago, Canada was forced to look elsewhere, and to develop its own markets. "We have succeeded so well that we have excited their enmity. Now they want to exploit our market and secure raw material to keep their shops going," he remarked.

MORE EVIDENCE FOR MARKET GARDENERS.
Editor World: Find enclosed a copy of letter sent out by myself to my ship- pers of fruit and vegetables. You can use it in any way you please to further the end we have in view, that is to de- feat reciprocity.

Dear Sir,—Being in the wholesale fruit and commission business in To- ronto, and having the privilege of hand- ling a portion of the products of the farmers engaged in raising fruit and vegetables in that part of Ontario bordering on Lake Ontario and Lake Erie, I am desirous of plating before my friends some of the reasons why I sought to bestir themselves, by strenuously opposing the reciprocity agreement, offered to the government of Canada by the last government of the United States, and now submitted for the endorsement of the people of Canada.

Under reciprocity our home markets would become the dumping ground for surplus products of the Americans, who always have a surplus in excess of their home demands and will be eager to sell, or ship on consignment this surplus at slaughter prices, rather than that it should go to waste.

Editor The Stratford Herald: Dear Sir,—I have read with interest several letters in your issue regarding the reciprocity pact, with the United States. Some appear to be for it, some against it. I am against it.

Overture being repulsed, the so-called judges proceeded to put on the improper names.

As a row was then precipitated and after an exchange of courtesies that would not appear well in print, counsel for Smith withdrew, leaving the enemy to their own devices.

Twenty-five affidavits handed to Judge J. H. Watson by Mr. J. A. Stewart on the 21st of the month, in support of the names Smith wished placed on the list were not forthcoming, the judges not being able to find them.

It is openly suggested that they may have got into the hands of legal talent for Mr. Rogers, who are in constant communication with the several members of the board and from time to time coached.

The list were not finished here, the court having adjourned to take the session to-morrow, and will resume at 10:30 a.m. on Friday, where no doubt they will complete their job. It is to be hoped the missing affidavits will be found by that time.

SEE HEINTZMAN & CO.'S PIANO EXHIBIT.

It will be one of the things worth while missed if, before returning home, visitors do not carefully inspect the magnificent display of grand and upright pianos, and the new player-pianos being made by Ye Olde Firme of Heintzman & Co., to be seen in the manufacturers' building at the exhibition, and also in their new palatial warehouses, 138-139-140-141-142-143-144-145-146-147-148-149-150-151-152-153-154-155-156-157-158-159-160-161-162-163-164-165-166-167-168-169-170-171-172-173-174-175-176-177-178-179-180-181-182-183-184-185-186-187-188-189-190-191-192-193-194-195-196-197-198-199-200-201-202-203-204-205-206-207-208-209-210-211-212-213-214-215-216-217-218-219-220-221-222-223-224-225-226-227-228-229-230-231-232-233-234-235-236-237-238-239-240-241-242-243-244-245-246-247-248-249-250-251-252-253-254-255-256-257-258-259-260-261-262-263-264-265-266-267-268-269-270-271-272-273-274-275-276-277-278-279-280-281-282-283-284-285-286-287-288-289-290-291-292-293-294-295-296-297-298-299-300-301-302-303-304-305-306-307-308-309-310-311-312-313-314-315-316-317-318-319-320-321-322-323-324-325-326-327-328-329-330-331-332-333-334-335-336-337-338-339-340-341-342-343-344-345-346-347-348-349-350-351-352-353-354-355-356-357-358-359-360-361-362-363-364-365-366-367-368-369-370-371-372-373-374-375-376-377-378-379-380-381-382-383-384-385-386-387-388-389-390-391-392-393-394-395-396-397-398-399-400-401-402-403-404-405-406-407-408-409-410-411-412-413-414-415-416-417-418-419-420-421-422-423-424-425-426-427-428-429-430-431-432-433-434-435-436-437-438-439-440-441-442-443-444-445-446-447-448-449-450-451-452-453-454-455-456-457-458-459-460-461-462-463-464-465-466-467-468-469-470-471-472-473-474-475-476-477-478-479-480-481-482-483-484-485-486-487-488-489-490-491-492-493-494-495-496-497-498-499-500-501-502-503-504-505-506-507-508-509-510-511-512-513-514-515-516-517-518-519-520-521-522-523-524-525-526-527-528-529-530-531-532-533-534-535-536-537-538-539-540-541-542-543-544-545-546-547-548-549-550-551-552-553-554-555-556-557-558-559-560-561-562-563-564-565-566-567-568-569-570-571-572-573-574-575-576-577-578-579-580-581-582-583-584-585-586-587-588-589-590-591-592-593-594-595-596-597-598-599-600-601-602-603-604-605-606-607-608-609-610-611-612-613-614-615-616-617-618-619-620-621-622-623-624-625-626-627-628-629-630-631-632-633-634-635-636-637-638-639-640-641-642-643-644-645-646-647-648-649-650-651-652-653-654-655-656-657-658-659-660-661-662-663-664-665-666-667-668-669-670-671-672-673-674-675-676-677-678-679-680-681-682-683-684-685-686-687-688-689-690-691-692-693-694-695-696-697-698-699-700-701-702-703-704-705-706-707-708-709-710-711-712-713-714-715-716-717-718-719-720-721-722-723-724-725-726-727-728-729-730-731-732-733-734-735-736-737-738-739-740-741-742-743-744-745-746-747-748-749-750-751-752-753-754-755-756-757-758-759-760-761-762-763-764-765-766-767-768-769-770-771-772-773-774-775-776-777-778-779-780-781-782-783-784-785-786-787-788-789-790-791-792-793-794-795-796-797-798-799-800-801-802-803-804-805-806-807-808-809-810-811-812-813-814-815-816-817-818-819-820-821-822-823-824-825-826-827-828-829-830-831-832-833-834-835-836-837-838-839-840-841-842-843-844-845-846-847-848-849-850-851-852-853-854-855-856-857-858-859-860-861-862-863-864-865-866-867-868-869-870-871-872-873-874-875-876-877-878-879-880-881-882-883-884-885-886-887-888-889-890-891-892-893-894-895-896-897-898-899-900-901-902-903-904-905-906-907-908-909-910-911-912-913-914-915-916-917-918-919-920-921-922-923-924-925-926-927-928-929-930-931-932-933-934-935-936-937-938-939-940-941-942-943-944-945-946-947-948-949-950-951-952-953-954-955-956-957-958-959-960-961-962-963-964-965-966-967-968-969-970-971-972-973-974-975-976-977-978-979-980-981-982-983-984-985-986-987-988-989-990-991-992-993-994-995-996-997-998-999-1000

LISTLESS AUDIENCE AT THE LAURIER MEETING

Between 5000 and 6000 at Collingwood Gathering, But Half Were Indifferent Listeners.

COLLINGWOOD, Sept. 6.—(Special.)—To a gathering of between 5000 and 6000 people from all sections of the counties of Simcoe and Grey, Sir Wilfrid Laurier carried his message to-day.

The town was filled with people, excitement being brought about from Barrie, Orillia, Midland, Owen Sound, and other points.

The principal street was any with flags and banners of the Liberal party, and citizens joined to do honor to the Liberal chieftain, who made his first visit to this section to-day.

Collingwood is the home of the biggest ship-building plant in Canada. The president of the company openly appealed for support for the Liberal candidate, Leighton McCarthy, but it is confidently expected that Major Currie, the late member, will largely increase the majority by which he was elected in 1908.

The Liberal leader's address inspired little enthusiasm. He spoke for an hour, but it was noticeable that the audience, consisting of both Liberals and Conservatives, showed little indifference to his plea for reciprocity.

John Birnie, K.C., was chairman. Sir Wilfrid, he said, was "the greatest statesman and most central figure in Canadian politics," and reciprocity the goal so long sought by Liberals and Conservatives.

Opportunity was knocking at the door of every farm house in Canada. The rich manufacturer, who had made millions at the expense of the masses, could well afford to say, "Let well enough alone." Mr. Birnie charged, "The Conservatives had entered into an unholy alliance with the Nationalists, who wished to erect an autonomous French state and to sever the tie which binds Canada to the mother country."

Addressers were then given by three Liberal candidates in this district: C. W. Hartman, East Grey; F. W. Hervey, North Grey; and Leighton G. McCarthy, North Simcoe.

Mr. McCarthy said he had met the statement on the address. He should not be supported. This was the invidious campaign being conducted by his opponents.

Major Hugh A. Currie read an address from the mayor and incorporation; Dr. McFaul presented an address from the Liberal Association of North Simcoe; and David Williams read one from the Collingwood Liberal association.

The Liberal chieftain, who had been invited to the gathering, was not satisfied to leave well enough alone, but was forging ahead with more ardor and enthusiasm than himself. No one could have any conception of the battle waged against him in Quebec, Ontario, and elsewhere, and he was a traitor to his race and religion. "But," the chieftain went on, "I am neither an imperialist nor an anti-imperialist, but a Canadian first, last and all the time."

Capt. Alex. McDougall, president Collingwood Shipbuilding Co., said at the last election he was accused of helping the government that helped this country. He had told the government to do certain things and he would build a ship. The audience had been given and he was there to ask the people of Collingwood to support their appreciation of the government.

By request Sir Wilfrid spoke briefly in French to a large number of his compatriots from Penetang.

FOREIGN COUNTRIES WILL HAVE BUILDING AT "EX."

President Gooderham So Announces—Hon. Mr. Duff Dwells on Farmers' Prosperity.

That a foreign country was in correspondence with the exhibition authorities with regard to putting up a building for the exhibiting of its products, was the announcement made to-day by Hon. Mr. Duff, minister of agriculture, in a speech at the annual convention of the Ontario Farmers' Association, held at the Hotel Grand Central, Toronto, to-day.

The directors of the exhibition, headed by the Hon. Mr. Gooderham, were not in a position to designate the country, but hoped that the exhibition would be a success. It is understood that the country is either the United States or Cuba.

The majority of the guests at the luncheon, were, of course, men of the soil. Mr. Gooderham was in the chair and Hon. Mr. Duff, minister of agriculture, presided.

Brings Them Together.

Hon. James S. Duff, minister of agriculture, was the chief speaker. In no other exhibition, he said, were the different industries brought so closely together as at the Canadian National Exhibition. The farmers and the manufacturers got together and realized how important each other's activities were to the growth of Canada.

The governments, both provincial and Dominion, had spent money for a number of years in being the farmers to get the proud position they now occupied and the agriculturists had availed themselves of the opportunities offered. Speaking of the exhibition Mr. Duff said that the people of Canada were behind it.

Dr. Simmons, president of the Ontario Farmers' Association, said that there were 275 farms in Ontario in the foundation of scientific agriculture among the farmers.

The Toronto exhibition, he said, was second to none in the world.

U. S. BACKED OUT OF FISHERY ARRANGEMENT

Proposed an Impossible Modification and Now Canada is Forced To Abandon Scheme.

OTTAWA, Sept. 6.—(Special).—The Dominion Government has had an unpleasant taste of American reciprocity in fishing regulations. In order to end what is declared by government officials to be an intolerable situation, the government has made up its mind to withdraw from the food fisheries treaty of 1903.

The situation is this. In April of 1908, a treaty was drawn up between Great Britain and the U.S., whereby these fishing regulations in waters contiguous to the two countries should be made uniform.

The regulations affected the object, viz., uniformity. They were not as good as the old Canadian regulations, but better than the old American.

The Canadian Government now refuses to accept this arrangement, and it is announced to-day that unless the United States will agree to abide by the spirit of the treaty, Canada will withdraw from the scheme entirely.

COMING TO MISSION CONGRESS

J. Campbell White Cables From China—Preparations Are Brisk.

In a cablegram from J. Campbell White, New York, who is now in China, to H. K. Caskey, secretary of the laymen's mission movement, he agrees to attend three conventions in the Maritime Provinces in connection with the movement.

Mr. White is accompanied by his brother, W. W. White of New York, who is planning the organization of a number of bible training schools in China and Korea.

When the "Dalhousie City" left the wharf on a 10 o'clock trip this morning she carried on board a little party of newspaper and publicity men.

The party was entertained by Mr. Selkirk, Supt. Robertson and General Freight and Passenger Agent John Paul.

After having taken lunch on board (and incidentally it might be mentioned the boat carries a really up-to-date buffet), they were met at Port Dalhousie by a special car and conducted to Port Colborne.

When they had inspected the government elevator and the new and improved Milling Company's plant the party journeyed to the Welland House.

The party was entertained by Mr. Selkirk, Supt. Robertson and General Freight and Passenger Agent John Paul.

The trip made a delightful holiday, and the party returned to Toronto with an excellent combination.

When taken he said that he did not know where he spent the money, but said that he had been in Buffalo and Chicago, from another such place he came to Toronto on Monday.

The man was identified by a photograph sent out by the Montreal police. Lewis is a married man, with one child. He was much shaken from the effects of spending the money taken.

Premier at the Prison Farm.

Sir James Whitney is to lay the cornerstone at the administration building at the Prison Farm on Sept. 25, when a large gathering of legislative members are expected to be present.

Lunch will be served at 12:30 p.m., following the ceremony, and the party will be conducted around the farm and thru the numerous buildings.

The farm yielded a fairly good crop this year and averaged fully as much per acre as any in the neighborhood.

Two hundred and twenty-five men are kept busy erecting new buildings and getting things into shape in general. There is a herd of cattle which numbers upwards of a hundred head.

Immoral Resort Raided.

A sordid story was brought to light last night with the arrest of two young women as frequenters of a house of ill-fame, which Robert Fields is charged with keeping, at 415 East Adelaide street.

The young women, one of whom is a restaurant waitress, while another helps her mother with household duties, were taken by Police Constables Maloney and Mahoney on Oct. 4. Mr. Bruce, who is next door to the general post office, is the proprietor.

These girls, with another young married woman and several young men, were questioned at the Court-street address following which the officers visited the Adelaide street apartment. There they found Fields and another man.

The police allege that Fields runs these rooms as a house of ill-fame and that he shares in the wages of shame.

Boy Ligated Dead.

In March last year John Young, 10 years old, while in bed touched an electric light bulb, when there was a flash, and a heavy voltage shot thru his body, turning his arm from hand to elbow to a crisp.

Mr. Young, his mother, and the Town of Gravenhurst, and Justice Riddell awarded her the sum of \$10,000. The town appealed, judgment was reversed, and is now pending, while the boy has since died from diphtheria.

GUILD OF ORGANISTS OPEN THEIR CONVENTION

Importance of Music in Fostering Spirit of Devotion to Motherland Emphasized.

At the evening session of the Canadian Guild of Organists, at the St. James Cathedral last night, Rev. Canon Plimpre delivered an address on the spiritual acts of organists.

W. Norman Andrews, vice-president, who was sent by the Ontario Government to England, where he attended the international convention, addressed the convention at the morning session.

Concluding, Mr. Andrews said: "I believe that we in the musical profession can do our part in the imperial chain of the world by the use of our art."

POLITICS AND WATER WAGON

Local Option Campaign Held Up by Party Activity.

"The likelihood is that at least 100 municipalities in Ontario will vote upon local option bylaws in January next," is the statement made in the report of Dr. McAvish, secretary of the Ontario Branch of the Dominion Alliance.

Dr. McAvish of Kingston, in presenting the report of the campaign committee, said there were 44 municipalities in which campaigns were possible, and it was expected at one time that contests would be brought on in the majority of these.

He found, however, that the general election is interfering seriously with the work in this connection, and it is hard to say just how many places will vote," he added.

The work of county organization has been systematically carried out, wherever practicable throughout the province. Already a majority of the counties are regularly organized, and in many cases are being planned in a number of other places to be held during the coming fall.

A special committee was appointed to deal with the question of law enforcement. Some feeling was expressed that there was need for more effective work by the provincial government in this regard.

Dr. Morgan has been recently appointed to the position of principal of the School of Cambridge and will be in charge of the school for the next year, while the school will be given to Westminster College in London.

A RIDICULOUS FABRICATION

Story Sent Out From Washington of Canadian Bitterness Against U.S.

KINGSTON, Sept. 6.—(Special).—Speaking here to-night at a British rally, Arthur Hawkes said that while the methods of some newspaper authors in England, who attacks Canada, were bad enough, they scarcely equal in interest the efforts of some of their friends on the other side.

That sort of talk was the very perfection of tommy rot. It was even worse than the warning issued to Canada by the Boston Transcript, that it would be a serious affront to the U.S. to vote down the agreement.

Nothing was heard from these people after the Boston affair, and in order when congress refused to pass the agreement last February and March. He had seen no bitterness against the U.S. in Canada for the kind of independence which Sir Wilfrid had said was absolutely necessary, and in order to maintain friendly relations with them, was an affront.

Every link in the imperial chain should be forged from British materials, traditions, principles, patriotism and British loyalty, for it is only in this way that we can hope to strengthen the ties that bind us to old England.

CHATELAIN, Sept. 6.—(Special).—A large gathering of British-born in the U. O. F. Auditorium last evening. The hall was packed to the doors and the enthusiasm throughout the evening was very marked.

Dr. Campbell Morgan says Paganism is a Rigid Myth.

Dr. Campbell Morgan delivered an address in Knox Church last evening on "The Need of Missions in South America." He stated that the missions have been laboring under great stress and strain.

A great mistake was made in the conference in Scotland, when they decided to exclude all countries that were not in the British Empire.

Dr. Morgan stated that among the great evils met with in South America were paganism and idolatry, brought about by a revolt from the Catholic church.

He spoke of the effect of the Bible on the life of a nation, and other topics applicable to the evangelical movement.

Among the gentlemen on the platform were Rev. George W. MacKay, of the Regions Mission, who stated that the business of the conference in Toronto was to decide whether the missions in South America should be controlled by the British Empire.

Dr. Morgan has been recently appointed to the position of principal of the School of Cambridge and will be in charge of the school for the next year, while the school will be given to Westminster College in London.

SEIZED AMERICAN SCHOONER.

OTTAWA, Sept. 6.—The Canadian Government has seized the Gloucester schooner Arbutus at Louisbourg. The schooner was on her way to Gloucester, Mass., and there took on a consignment of fish destined for her port of destination.

This constituted a violation of the treaty of 1818, under which the United States fishing vessels may put in at Canadian ports only for supplies, and the schooner was seized for this part of the treaty.

Fell 125 Feet; Unhurt.

CORNWALL, N. Y., Sept. 6.—Twenty thousand people gathered at a fireman's convention at Denison Park last night. The party was entertained by Mr. Selkirk, Supt. Robertson and General Freight and Passenger Agent John Paul.

The trip made a delightful holiday, and the party returned to Toronto with an excellent combination.

When taken he said that he did not know where he spent the money, but said that he had been in Buffalo and Chicago, from another such place he came to Toronto on Monday.

The man was identified by a photograph sent out by the Montreal police. Lewis is a married man, with one child. He was much shaken from the effects of spending the money taken.

Premier at the Prison Farm.

Sir James Whitney is to lay the cornerstone at the administration building at the Prison Farm on Sept. 25, when a large gathering of legislative members are expected to be present.

Lunch will be served at 12:30 p.m., following the ceremony, and the party will be conducted around the farm and thru the numerous buildings.

GENERAL SYNOD WILL NOT HOLD JOINT SESSIONS

Motion That House of Bishops and Lower House Meet Together Falls To Carry.

LONDON, Ont., Sept. 6.—The discussion on the motion made by Canon Welch at the last session of the general synod three years ago that the two bodies—the house of bishops and the lower house, meet together, occupied this evening's session of that body almost in its entirety.

The final vote, the it gave an overwhelming majority of the clergy for a straight majority of the clergy for the motion, was insufficient to meet the two-thirds requirement of each party of the house of delegates on questions touching on changes of constitution.

The afternoon session nothing was done, following the conclusion of the presentation of the primate's charge.

After three ballots Reverend Canon Powell, principal of King's College, Windsor, N.S., was selected prolocutor of the lower house in succession to Bishop Harbison, whose elevation to the house of bishops occurred since the last meeting.

Dr. Davidson, LL.D., of Montreal, was the unanimous choice for temporary chairman and he presided over the election of the head of the lower house.

The primate's address was a lengthy one. On bible teaching in public schools he said: "If this synod represents the thought of the Church of England on this subject, let it express that thought and also appoint a well-selected committee to confer with the highest councils of other churches in the synod."

CONS. MEETING POSTPONED.

The Conservative meeting that announced for St. Andrew's Hall, on Monday evening next, has been postponed until Wednesday evening. It will be under the auspices of the Ward Four Liberal-Conservative Association, and among the speakers will be Messrs. A. C. Macdonell and Edmund Bristol.

Dr. Morgan has been recently appointed to the position of principal of the School of Cambridge and will be in charge of the school for the next year, while the school will be given to Westminster College in London.

SENSATIONAL MURDER

New York Hotel Manager Shot by Patron of the Cafe.

NEW YORK, Sept. 6.—Charles Rubish, manager of an uptown hotel, was called from his seat at a cafe table with a young woman, to his death this afternoon, the murderer firing two shots into the manager's body as he opened a partition between the cafe and the saloon in answer to the summons. Thomas Crimp, behind the bar, shot his long apron and tied at the crack of the pistol. No one is charged with the crime and several hours after the shooting the police had made no arrest.

Miss Elsie Fitzgibbon, the young woman who was sitting with Rubish, was the next speaker, and she was wounded man fell and died, were detained as witnesses. The police hold two theories as to the shooting—jealousy for Miss Fitzgibbon, and revenge on the part of a gang of rowdies, members of which are said to have made threats recently against Rubish for interfering in one of their affairs.

More Rooms in Schools.

On account of the crowded condition of the city schools, Inspector Hughes at the meeting of the board of education to-night, will recommend new rooms in schools as follows: Frank J. Earl, Grey I, Leslie-street I, Kent I, Fern-avenue I, Howard I, Annette I. "The overcrowding," says the inspector, "in Earl-street and Hillcrest, is serious."

Will Not Employ Negroes.

CARDIFF, Wales, Sept. 6.—Five hundred negro seamen are destitute here and are subsisting on free meals. The increase in wages due to the strike will enable shipowners to man their ships with whites, and they refuse to employ colored seamen.

Earthquake Shocks in Germany.

COLOGNE, Germany, Sept. 6.—Two light earthquakes were felt at Aix-la-Chapelle and Gochelers this afternoon. No damage of any consequence is reported.

How Farming is Taught in Iowa.

They have an arithmetic of their own in Page County, Ia., according to a recent article in Success Magazine. It is a problem of the following kind: "If in the top of your field there is phosphorus to the weight of 2100 pounds, and a crop of corn takes off ten pounds, how many crops of corn can be grown before the soil becomes exhausted?"

"What would it cost you per acre to keep the phosphorus content of the land up to its present richness, at the present price of phosphates?"

"If a crop of clover, thru the bacteria in its roots, adds nitrate to the soil to the value of \$20 per acre, what is the real value of a clover crop, if fed to cows, and a percentage of the manure, assuming that the cow will produce a butter and it sells for 3 a pound?"

"If a hen of good laying breed will lay 200 eggs a year and a scrub hen will lay 100, and it takes the market price of seven dozen eggs to pay the hen's keep, how many hens of the new laying strain will it take to be worth a flock of 100 scrub hens, and an inventory of your farm property?"

Now when the pupils of the Page County schools began bringing "sums" of this sort, home to work on, Page County farmers began to pick up their ears. There was some sense in this. This wasn't any new-fangled useless machine. This made the boys and girls worth more on the farm, and it made 'em more contented, too, by gum!

Freight Rates Go Up.

LIVERPOOL, Sept. 6.—As a result of the recent strike the shipping companies in the Atlantic trade have decided to increase freight rates ten per cent. next week.

Wist! Also Seh!

James Pearson, Liberal candidate in East Toronto, had a private conference with a number of workers in O'Neill's Hall last night.

A New Lord & Thomas Book Clever Maneuvers—Strategy in Advertising

We have now to announce the most valuable book that we ever have issued on advertising.

It compiles the digest of countless experiences in a thousand separate lines. It cites many examples of what has been done—of what can always be done—by clever and tested maneuvers.

It tells how to do quickly, cheaply and safely what used to involve time, money and risk.

It reveals, for the first time, the new science of Strategy, to which all of our latest successes are due.

There was never a book more interesting, more helpful, to a man who has things to sell.

Our first great book was on "Reason-Why" copy. All good salesmanship-print has ever since been based on it.

Our next was on men—on the value and rarity of real genius in selling. On the need for combining ideas. Since then there has been a crying demand—an over-demand—for men of the requisite caliber. And such men are earning, on the average, twice what they received before.

Our next was "Safe Advertising." It told how to conduct, in any line, riskless experiments. How to let the thousands decide what the millions will buy. It told how to reconnoiter—how to skirmish before attack. That book has saved advertisers, in all probability, many millions of dollars.

Now comes the ripe fruit of forty years of experience, in a thousand separate lines.

Now comes a new science—the science

of Strategy—worked out into rules of procedure.

Now come new ways for getting distribution, for securing quick returns, for rapidly building trade. For doing all these things at a trifling risk, and often without investment.

It sounds almost impossible, and it *was* impossible up to a few years ago. But it since has been done—done a hundred times over. And this book, for the first time, tells how it was done.

Any man with a selling problem is welcome to this book. And every such man should have it.

It will bring to him the digested experience of men who have traveled every road to success.

It marshals known facts, and works out their deductions. And every deduction has a wide application. The ablest men will get the greatest benefit.

You will wonder, perhaps, how we came to reveal these hard-earned secrets, these proved-out plans. Our answer is this: Our object is mainly to wake men up to this Agency's efficiency. To convey to all a new conception of our powers and prowess.

Cut out this reminder; put it in your pocket. Then, when convenient, write us for the book.

THURSDAY MORNING

Foreign Demand Not Quite So Strong

Montreal Notes Falling Off in Call for Old and New Crop Spring Wheat.

MONTREAL, Sept. 6.—The foreign demand for old and new crop Manitoba spring wheat was quieter and closing prices bid were 1/2 to 5/8 cent per bushel lower than yesterday. Considerable business is being worked over the cable in American corn and hard winter wheat, consequently the demand for local grain is advancing. Owing to a further advance of 1/2 cent per bushel in prices for wheat, Winnipeg the market here was much stronger and 1/2 cent per bushel higher with "good demand." The foreign demand for wheat in bulk and prices equivalent to \$4.50 per ton here were bid for round lots and some sales were made for future shipment. A good business continues to be done in flour for local and export account. The market for dressed eggs is 2/6 per owt. higher. An active trade is passing in eggs. Cheese and butter are quiet.

Dressed hogs, abattoir, \$10.50 to \$10.75 per cwt. Beef, Platts, 20 lbs., \$14.50, tierces, 20 lbs., \$21.50. Wheat—Western, 12 1/2 to 13 1/2; eastern, 12 1/2 to 13 1/2. Butter—Choice, 26 to 26 1/2; seconds, 25 1/2 to 26.

Record Shipment Of Eastern Cattle

Biggest Day of the Year in Montreal Stock Yard—Prices Go Lower.

MONTREAL, Sept. 6.—A record shipment of eastern cattle, together with sixteen cars of northwest cattle, consigned to Mr. G. B. Loefer, made the receipts of the East End Stock Yard the largest of the year. There was a better grade of cattle on offer, but with few buyers present, cattle prices dropped from 10 to 50 per cent. Receipts of cattle, 180, consisted of 100 head of mixed northwest sold by Mr. Louis Delorme brought \$5.50 and a few steers at \$6. Eastern steers, choice, \$5.50; good, \$5.25; medium, \$5.00; \$5.00; grass bulls, for canning, \$3 to \$3.50; cows, best butchers, \$4.50 to \$4.75; good, \$4.25 to \$4.50; poor to medium, \$3.75 to \$4; camers, \$2.50 to \$3. There was a small run of milkers on offer, with only one head on the market. There was no demand, and the sales which were made were chiefly to Mr. Cardinal from Quebec, who bought a carload for shipment to Quebec customers, for some of which he paid the following prices: Eight at \$2.50 and 6 at \$2 each. Receipts of sheep estimated at 1200. Old sheep, easy, at \$5 to \$5.25; bucks and culls, \$2.75 to \$3. Receipts of hogs estimated at 2000. Market fairly active at easier prices. Select hogs, \$7.25 to \$7.50; heavy fats, \$6.50; pigs, \$5.50; and stags, \$4 per cwt., weighed off the cars. Receipts of calves estimated at 300; market steady; prices, \$3 to \$4.

Buffalo Live Stock

EAST BUFFALO, Sept. 6.—Cattle—Receipts, none here; market steady; prime steers, \$7 to \$7.25; butcher grades, \$5.50 to \$6.50. THURSDAY MORNING

Recovery is Carried Further On Covering by Short Traders

The recovery in the stock market was carried further to-day, but the movement was less vigorous than yesterday.

Joseph says: Neither the Illinois Central, nor the Pacific roads employes will go on strike.

Extension of rally in an irregular manner seems probable in the market. The tendency at present is toward rally.

The situation which prevailed in the grain market last month was shown by the output of new railroad.

The higher level of stocks established in the early trading was maintained to the day.

Following the many reports of ascending trade activity, to-day's estimate of the country's iron output in August, showed a gain of 153,000 tons.

The City of Wetsakwin, Alta. has awarded two issues of their debentures to Messrs. Aemilius Jarvis & Co., bond dealers.

There was nothing new in the day's advances to account for the improvement, and the only idea among the brokers was that of a pending alliance with Canadian railroad.

Such advances as were made were decidedly restricted in the majority of instances, being confined to fractions of a cent.

Recovery from its depression of yesterday, the share setting back to the gain of a fraction of a cent.

Other speculative issues did not move much. Half-point advances were made by Mackay preferred and Porto Rico, the latter security selling up to 1/2-1/2.

Deals in the bank shares were small, the investment buying being rather dull than usual.

Americans in London quiet and steady. Paris papers say Moroccan dispute has been settled, details to be published later.

Illinois Central shompen defer strike action pending letter sent to President Markham, asking that Federation be reinstated.

Labor trouble on Harriman lines may be settled at meeting between representatives of shompen and Harriman officials.

Atlantic and Pacific Transportation Co. of New Jersey incorporated with \$5,000,000 capital, to operate freight and mail service thru Panama Canal.

James J. Hill says it is not yet time to look for upturn in business. He finds agricultural conditions fairly good, but few fallers of the soil.

Disorder continues in various parts of Mexico, and government has finally decided to wage aggressive campaign against bandits.

Trade Union Congress at London unanimously passed resolution favoring nationalization of railways and canals.

The Lake Shore August car loading shows a decrease of 18,515 cars; Michigan Central a decrease of 16,851, and Big Four decrease of 13,681.

Latest private reports from Chicago say that traffic volume is declining on the western roads.

STREET TRUST SHOWING. NEW YORK, Sept. 6.—Unfilled tonnage on U. S. Steel books as of Aug. 31, to be made public on Saturday.
