JUDGE MABEE DIED SUDDENLY HEART FAILURE DIRECT CAUSE

Chairman of Dominion Railway Board Rallied From Two Operations, and Hopes for His Recovery Were Held Out Up to Noon, But He Collapsed at One o'Clock, and Died Two Hours Later.

ONE OF THE BIGGEST MEN IN CANADIAN PUBLIC LIFE

Right Hon. R. L. Borden, Sir James Whitney, Sir Wilfrid Laurier, and Many Others Pay Tribute to His Ability and Work.

One of the big men in Canadian public life passed away at 3.15 yesterday afternoon, when Judge Mabee, chairman of the Board of Railway Commissioners of Canada, died of collapse, due to heart failure.

Just a week ago Judge Mabee was taken ill while the railway board was in session at the city hall, and he was removed to St. Michael's Hospital, where an operation for appendicitis was performed by Dr. Bruce and Dr. Elliott. Gangrene, however, had set in, causing paralysis of the bowels, which was relieved by a second operation, performed on Friday. At that time little hope was held out for his recovery, but at midnight Sunday the doctors reported his condition somewhat improved, and the outlook was declared to be slightly more hopeful.

HIS DEATH IS A SHOCK TO THE WHOLE PROVINCE.

Sir James Whitney, when informed of the death of Judge Mabee, said:

"His death will come as a shock to the whole province. During the short time that he occupied the position of chairman of the Dominion Railway Board he proved clearly that the idea behind such a tribunal, which was quite a new one, could be worked out successfully in the interests of the people. He was an ideal man for the position, and the people of the province will undoubtedly mourn his loss."

GREATLY MOURNED AT OTTAWA LEADERS JOIN IN TRIBUTES

OTTAWA, May 6.—(Special.)—The news of the death of Judge Mabee was received in the capital with a sense of profound loss. Premier Borden and members of the cabinet joined in paying him tribute as a fearless, conscientious and able public servant, whose place in the service of the country would be difficult to fill. Seldom has the passing of a public official caused such a widespread outburst of general regret, party feeling being relegated to oblivion, and both Liberal and Conservative politicians are unanimous that the Dominion has suffered a great loss in Judge Mabee's passing.

HIS SERVICE TO CANADA WAS OF HIGHEST VALUE

Mr. Borden paid tribute to Mr. Mabee's worth in the following words:

"It was with the deepest regret that I learned of Judge Mabee's death. His service to Canada as chairman of the board of railway commissioners was of the highest value, and as he was still in the full prime and vigor of life many years of increasing usefulness lay before him when the fatal illness intervened. He possessed exceptional qualifications for the position which he filled so ably, and all who came before him recognized at once his courage, his promptness, his fairness and his devotion to duty."

Sir Wilfrid Laurier, who returned to-day from his trip to the south, did not deviate from his old precedent of not giving interviews, but when he was told by phone that Judge Mabee was dead he expressed the keenest regret.

The members of the commission and the heads of the departments will leave for Toronto on Tuesday and arrive there Wednesday morning to attend the funeral at Port Rowan—his early home.

BLOW TO INTERESTS OF CANADA'S TRANSPORTATION

Hon. George E. Foster said: "I heard this afternoon with great regret of the death of Chairman Mabee. His loss will be greatly felt in the railway commission, over which he so ably presided, and by the country and all those great transportation interests upon the difficulties and solution of which he brought to bear a ready mind, great powers of comprehension and a quick and accurate judgment. It seems hard that, in the very zenith of his usefulness, such a man should be taken from us."

Col. Sam Hughes was greatly affected when he heard of Judge Mabee's death. "We were warm personal friends," he said, "and I had political opponents. Judge Mabee was a man of strong sterling qualities of mind and heart, loving absolute fair-play with a broad spirit of equity and justice, which endeared him to, and made him respected by, all classes of citizens. The capitalists on one hand, and the common people on the other, trusted him, and knew they could expect justice and fair-play from him. I deeply regret his untimely passing. It will be difficult to fill his place."

THE DOMINION HAS MET WITH A GREAT LOSS

"The Dominion has met with a great loss," said Hon. T. W. Crothers, minister of labor. "Judge Mabee was an able and conscientious public servant, who was peculiarly well fitted for his position as chairman of the board of railway commissioners, and it will be hard to fill his place. Cut off in his prime, when so much good remained for him to do, it is, indeed, a great loss to the whole country."

Listowel Council's Tribute

LISTOWEL, May 6.—(Special.)—At a meeting of the Listowel town council this evening, a resolution was adopted expressing deep sorrow at the death of Judge Mabee, who was for many years a practicing barrister here. The memorial declared that Mr. Mabee had filled the position of chief railway commissioner with honor to himself and to the great good of the people of Canada, and that he had shown traits of commonsense as well as legal ability to an eminent degree.

TRIED TO OBTAIN MONEY FROM STUDENT

George Coulson Told Hard Luck Story and Then Impersonated a Minister Over the Telephone, Only to Be Arrested on a Charge of False Pretences.

Charged with false pretences, George Coulson, aged 34 years, of 244 Christie street, was arrested last night by Detective Archibald. The complainant was Stanley Farr, a Knox College student. According to the police Coulson visited Farr at the college yesterday and handed out a hard luck yarn to the effect that a bailiff was going to put him and his mother out of house and home, and in order to meet the requirement of the law he must have \$20 immediately. He claimed that his mother was well acquainted in her girlhood days with the mother of Farr. As a reference he gave the name of Rev. Mr. Smith of Tisdale, and mentioned the clergyman as a suitable man to whom he would send a cheque for the amount.

After telling his "down-and-out" story Coulson left, and a short time later a man phoned Farr and said that it was Rev. Mr. Smith speaking. He said that Coulson was a straight reliable man, but was in straitened circumstances thru no fault of his own. He would promise Coulson back to college to get the money from Farr.

When Coulson arrived at the college he was met by Detective Archibald, who immediately placed him in custody. This was after the student made enquiries at the police station about the man. It is alleged that Coulson has been working the game for three years, particularly in connection with an alleged butter and egg business. When he was arrested he had the names of a number of members of different societies. The police also state that some time ago Coulson entered the office of License Inspector Johnston for the purpose of obtaining \$2, and on his way out stole a watch from the stenographer's desk.

MARYLAND IS FOR ROOSEVELT

Gets Control of State Convention by Slim Margin—Clark Leads Wilson Two to One.

BALTIMORE, Md., May 7.—(Can. Press.)—Speaker Champ Clark and Theodore Roosevelt carried the Maryland primaries on the face of incomplete returns received up to 12.15 a.m. from all the counties of the state. The indicated vote was: Republicans: Roosevelt 68, Taft 62, Democrat: Clark 60, Wilson 23, Harmon 4, uncertain 23. Majority necessary to control the state convention 65.

The Chauffeur's Cap. The Dineen Company has just received a very complete assortment of the latest caps for chauffeurs and motorists. These are the newest English blocks by the best of makers, and in all the approved fabrics, leathers, etc. If you want something new in motor goods, visit Dineen's.

SOME BOSSES ARE CHUMMY WITH ROOSEVELT

President Taft, Stumping Ohio, Disclaims Having Allegiance of Entire Outfit of Machine Politicians.—Doesn't Discriminate in Attacking the Trusts, as Did Predecessors

CINCINNATI, May 6.—(Can. Press.)—Under heavy skies that frequently spit rain, President Taft campaigned thru Southern Ohio to-day. In all he made ten speeches, many of them in a heavy warm spring downpour that drove the crowds of country folk to shelter, lessened the carrying power of his voice and made his physician, Major Thomas L. Rhodes, think anxiously of Wednesday, when Mr. Taft swings north and east again for the last busy day of his present Ohio trip.

Mr. Taft began the day's work at Nelsonville and ended it at Cincinnati to-night. From the time he left Parkersburg, W. Va., and crossed the Ohio River into his home state, the president continued to tell his hearers why he broke silence and attacked Col. Theodore Roosevelt. He covered again much of the ground he went over in Massachusetts and Maryland, but occasionally brought in new subjects. Most of his audiences were attentive and at times demonstrative.

The president talked many times about the Roosevelt charge that he was consorting with the bosses. He referred to William Flynn of Pittsburgh and Walter Brown of this state as being two examples of bosses with whom Col. Roosevelt now has dealings. Both are active Roosevelt workers, the president said, and Mr. Brown is the chairman of the Republican State central committee of Ohio.

Colonel Not a Boss-Killer.

"What bosses are for me?" asked Mr. Taft late to-day at Hamden. "What bosses am I upholding?" Mr. Roosevelt says they are all for me. I could go over the list and show you a good many for him. The president has nothing to do with upholding or destroying bosses. Bosses are made by local conditions. Would you think that if Mr. Roosevelt were nominated and elected president he would not have any more bosses?" "I cannot promise you any such thing if I am elected, because I am not engaged in going about cutting off the heads of bosses. I cannot do it. It is not my function; it is the function of the people of a time to reform matters. I do not recollect in the seven years that Theodore Roosevelt was president that his path was strewn with the bodies of dead bosses that he had killed. I don't recall any of them."

Used Club Unsparringly

At Chillicothe, the president took up the question of his prosecution of the trusts. "I have prosecuted every trust and every railroad and every leading man, whether it be Dan Hanna or Mr. Gary and the head of the Steel Trust, if the evidence came to my attorney-general and indictments were found against them. I have followed the administration of Theodore Roosevelt on his policies in every respect but one, and that one was that I directed the prosecution of the steel trust and also the prosecution of the Harvester trust."

Charlotte Walker an Ideal "June." When John Fox, jr., author of "The Trail of the Loneome Pine," first saw the play, he said that Charlotte Walker in the character of June is the living embodiment of what he conceived when writing the book. Those who witnessed the play last night at the Princess all agree that June is a most lovable character.

TROOPS READY TO MOVE ON MEXICO

CHEYENNE, Wyo., May 6.—(Can. Press.)—Orders were received by the Colorado and Southern Railway to-day to seize all empty flat cars, box and stock cars, no matter to whom consigned, and send them to Fort D. A. Russell for shipping horses and equipment of the ninth cavalry, which is expecting orders to move to the Mexican border at any hour.

HALF DAY OF MOURNING AND A PUBLIC FUNERAL

That Toronto show its respect for the late Judge Mabee, who had proven himself so staunch a friend of its interests, by authorizing a public funeral and requesting that general business be suspended for half a day, is a proposal which Controller Church will make at to-day's meeting of the board of control. The controller remarked last night that Mr. Mabee had at all times exhibited a deep interest in the city's welfare, and a desire that great improvements be carried out. Only recently, speaking of Toronto, he had said that never had he seen a place where God had done so much and man so little.

LEAFS AND PESTS OPEN SEASON WITH TIE MIMICO SCHOOL REPORT IS ISSUED

Fifteen Thousand Fans Cross the Bay and See Eleven Innings Game—Mayor Geary Does the Opening Frills—Sensational Ninth-Innings Rally.

Old fans, young fans, little fans and big fans had the time of their lives yesterday when they crowded into Maple Leaf Park by the thousands to see Joe Kelley and his band of Maple Leafs perform for the first time on the home grounds this season.

Larry Schlarly's Jersey Skooters were the Leafs' opponents, and for eleven long innings did the battle rage without a verdict being handed out. It was not till the fifth that either side could get a counter, and then it was the enemy that tallied. A sensational batting rally in the ninth put the home squad on even terms. Two more innings of excitement were played and Umpire Byron called the game on account of darkness.

The opening frills were cut down considerably this year, and only consisted of a parade around the field, headed by the 48th Highlanders' Band and the mayor pitching the first ball. Aid. Alf Maguire was the batter, and Controller Tommy Church was supposed to be the receiver. Mayor Reg had something on the ball, and the chairman of the reception committee swung three times.

President McCaffery and Aid. Maguire lined up in centre field with the two teams, and Handsome Alf welcomed the players, saying some nice things about the great game.

Now to get down to what interests us most. It was a grand day when the teams got down to real work, but before half the game was over, a dense fog gathered and the fielders were lost in the mist.

One John Dalton was the hero and made himself solid with Toronto fandom by rapping for three bags in the ninth, after Elmer Steele had made

SHOT PORTER TO SAVE SELF VERDICT OF CORONER'S JURY

Arthur Ellis' Account of Duel by Roadside Accepting After Evidence Indicating That Five Shots Were Fired—Wood's Evidence Didn't Agree Closely With That of Ellis.

(By a Staff Reporter.)

MINDEN, May 6.—Relying upon the confession of Arthur A. Ellis, made at a previous sitting of the inquest, Coroner Pogue's jury found at the close of the sitting here to-night that Lewis Porter came to his death on Thursday, April 25, from a gunshot fired from a rifle in the hands of Ellis, and that Ellis shot him in self-defence. This verdict was found after a little more than an hour spent in considering the evidence. Chas. Wood, the Gull Lake farmer, told of hearing five shots on the night of the shooting. His evidence materially differed from that in Ellis' confession.

He said that just as dusk was falling on that night, he heard the reports of five shots. Two of these were heard close together, and then after an interval of about three minutes, the three followed in rapid succession. All five were heard while the witness was walking a distance of 500 yards. Ellis' story was that Porter had fired upon him and had gone away and then he had walked to a meadow to look for his cattle, and on his way back to his house had met Porter, who again opened fire upon him and that he had then fired the three shots which killed him. This, however, would go to show that

NO MENTION IS MADE OF SUPT. FERRIER, BUT IT IS SUGGESTED THAT A HUNDRED BOYS SHOULD BE DISCHARGED ON PROBATION AS SOON AS POSSIBLE.

No mention is made of Supt. Ferrier in the recommendations attached to the report of Dr. R. W. Bruce Smith and R. C. Harris, the commissioners appointed by the Ontario Government to investigate conditions at Victoria Industrial School, Mimico, following the expose of the methods of that institution in The Sunday World, the charges then made with regard to the treatment of Wilbert Spain are declared to be substantially correct.

The commissioners recommend: That the action already taken by the board of management of the Victoria Industrial School to abolish mechanical restraint, such as handcuffs, be commended.

That as large a number as possible of the inmates, probably 100, should be discharged on probation as soon as homes can be provided for them. That commitment of boys to the industrial school should be regulated in such a manner as to prevent overcrowding and to permit classification, with a view to as early parole as is practicable.

The charges made against the management and the findings thereon, as set forth in the report as follows: "Mrs. Frederick W. Spain, residing at 72 Melville-avenue, Toronto, complained that her son, Wilbert Spain, after running away from the Victoria Industrial School several times, was returned to the school on Jan. 9, and on

In Bad Repair. The commissioners find that the cottages are in bad repair, and are in the main unclean and show evidence of lack of care and management. One basement dormitory had 35 beds where, in such a room, only 16 beds should be allowed."

The charges made against the management and the findings thereon, as set forth in the report as follows: "Mrs. Frederick W. Spain, residing at 72 Melville-avenue, Toronto, complained that her son, Wilbert Spain, after running away from the Victoria Industrial School several times, was returned to the school on Jan. 9, and on

WANDERED AWAY FROM WEDDING

Baby Boy Found on Queen St. Was Taken Home by His Father, a Foreigner.

The little four-year-old boy who was picked up by the police early Sunday morning has found his "fadder." During the hilarity of a Polish wedding the lad wandered away and was taken to the children's shelter. Yesterday a man called at the shelter and claimed the lad, declaring that he lived at 235 Niagara street, from where the boy had disappeared.

Porter Accurate Shot. Dr. E. A. White of Kinnmount, who performed the autopsy, told of the three wounds, as they have been previously described. He said that Porter died from shock and internal hemorrhage. Other witnesses told of the finding of the body and described Porter as a quick and good shot with his rifle. Ellis was present at the enquiry, but did not take the stand. Mrs. Porter, widow of the dead man, said that when she was first told that her husband had been shot, she thought it had been an accident. She had never heard him make any threat against Ellis, altho he had complained of the way Ellis had treated his wife, who was Porter's sister, at the time of her death, four years ago. William Porter, the dead man's brother, said that he had been a good shot. He said that he had never heard either his brother or Ellis make any threats against the other.

EATON EMPLOYEES NOW STRIKE OFFICIALLY

Cloak and Garment Workers Decided by Ballot Last Night to Remain Away From Work, and Thus Become Entitled to Strike Pay From International Union.

By a huge majority the locked-out Eaton employes and strikers decided to continue the battle with the firm, and from to-day on the cloak and garment workers are officially on strike.

The meeting was called in the Lyric Theatre last night, when a committee, which has been in New York City, reported as to the progress in collecting funds to carry on the strike. In the report the committee stated that the New York unions were in full sympathy with the strikers. Already \$1500 has been subscribed, and more is promised. While the employes have been traveling under the locked-out banner, the married men have been getting \$5 a week and the single men \$2. Now the strikers will be paid from \$3 to \$10 a week.

GUELPH ENQUIRY PROVES FIZZLE

Aldermanic Recommendation That Whole Fire Department Resign Ends in Council Stultifying Itself.

GUELPH, May 6.—(Special.)—The fire department investigation, which began on Tuesday last and ended abruptly on Saturday night, when Chief Finch and his counsel withdrew, has proven to be the biggest kind of a fizzle.

The fire and light committee, under whose jurisdiction the fire hall is, took the matter up this afternoon and at the regular meeting of the city council, held to-night, they brought in a report stating that as the chief had refused to testify or produce witnesses, the committee were not in a position to report, and suggesting that as reorganization was needed, the chief and members of the brigade be asked to resign, taking effect on July 1, 1912, that applicants be advertised for, and the chief and members of the department be permitted to apply for re-appointment.

It was openly charged in council that some of the members of the committee were biased and a new committee to deal with the whole affair was suggested, but this was not acted upon. Wanted Judicial Inquiry. Ald. Carter introduced a resolution to the effect that the county judge be appointed to investigate affairs at the fire hall and report to the council, and another discussion took place as to the probable cost of such an investigation. It was frankly acknowledged that there was lack of harmony at the fire hall, and that the sooner action was taken the better for the city.

The amendment to refer it to the county judge was declared lost, only three aldermen voting for it, and the report was also declared lost, as the necessary two-thirds vote was not forthcoming. Alderman Mahoney, chairman of the committee, refused to vote on either occasion. The present situation remains exactly the same as before the investigation took place. The only thing remaining now is for the mayor to call a special meeting.

Toronto Cribbage League Records

A general meeting of the Toronto Cribbage League was held in the S.O.E. Buildings, when a very gratifying report was presented by the secretary, although owing to the formation of a military league the number of the clubs in the Toronto Cribbage League had not been so large as during the season of 1911, still it was hoped that there would be at least 10 or 12 clubs in the Toronto Cribbage League next season. At the meeting for election of officers and organization will take place about the middle of September, any club wishing to enter a team (12 players) should notify the secretary, Sergeant Major Price, 3 Fuller avenue, before that time. The following are the results of the season's play:

Day's Doings in YORK COUNTY

YORK TOWNSHIP COUNCIL CHAMBER. May 6.—(Special.)—The York Township Council to-day called a halt on the exploitation of the township highways, which has been going on at the instance of the Toronto Electric Light Company and allied interests in an attempt to force the early advent of the hydro-electric. The resolution was so decisive and clear-cut as to merit a word of praise.

Would Not Ask T. E. Light Co. to Cover All the Highways—Great Conservative Rally Up in North Toronto.

At the last meeting of the council the Toronto Electric Light Company made a valiant effort to get an extension of their rights on Yonge street, north from the York Mills hotel to the top of the hill, but unsuccessfully. To-day, represented by Mr. Allan, they renewed it and asked for the right to go to the top of the hill, along Mercer-avenue and on to Bayview-avenue, thence southerly to Joe Kilgour's farm. The extension was supplemented by a letter from W. H. Moore, acting chairman of the Toronto Electric Light Company, to get the township fathers to allow the latter company to extend the Dundas station on the C.N.R., which it was desired to light by electricity.

Every member of the York Township Council with one exception put his foot down squarely on the project. "This thing has gone far enough at present," said Councillor Barker, "and we will do nothing until we know where we are at with the hydro-electric." So said Councillors Syme, O'Brien, and the rest, and they have done nothing to prejudice the hydro-electric.

"If we keep on there will be only a little corner of York Township to get into," said Councillor Barker, "and despite all the Toronto Electric Light Company would like to do, nothing will take place until the hydro-electric has a chance to show its hand." A large number of requests were received for consideration of land plans, but council declined to entertain them as the season was not a special one.

The British Colonial Land & Securities Co. asked for the putting down of a sidewalk laid to S.S. No. 25. J. R. L. Starr stated that the Motion Dennis people would formulate charges and submit evidence at once.

Reflector Johnson sent a communication outlining the matter of an application to the Ontario board for annexation to the city. The outline was brief, but the property is known as the Hillwell property, and is bounded on the west by the Don Mills-road, on the east to within 500 feet of Pape-avenue, the north boundary is the southern limit of Robinson's property, and the southern boundary the city limit.

Mr. J. H. Stinson has been appointed church officer of the Victoria Presbytery, which position was left vacant by the resignation of William Macleod, who is shortly leaving for Toronto.

The monthly meeting of the Rummy Club was held at the Victoria Hotel, on the corner of St. John's and St. George's streets, last night.

The annual banquet of St. John's A. F. A. was held last night in the new hall on the corner of St. John's and St. George's streets, when an excellent program was rendered in the auditorium. The banquet was held in the new hall, which was a number of toasts were drunk.

The monthly meeting of the Rummy Club was held at the Victoria Hotel, on the corner of St. John's and St. George's streets, last night.

DEATH OF SPUR NOT DUE TO POISON

Coroner's Jury Returned a Verdict of Death From Natural Causes, Induced by Constant Use of Alcohol—Dr. Evans Wanted to Be Called to Tell His Story.

"That John Revell, alias John Spurr, came to his death from natural causes, induced by the constant use of alcohol," was the verdict of Chief Coroner Johnson, after the last and stormiest sitting of the inquest at the morgue last night. When the report of Provincial Analyst Ellis was read, declaring that no trace of any poison had been found in any of the organs submitted to him, an expression of great relief came over the faces of the prisoners, Dr. J. G. Evans and Dr. W. J. Harvey. This grew even more noticeable when Dr. G. Silverthorn, who had performed the post-mortem, declared that he, too, had found no trace of any poison, but that he had found a condition indicating some disease of the liver, a disease which was due to alcoholism and was progressive to a point where death would ensue.

Dr. Evans told "the world" at the close of the inquest that he had wanted and expected to be called, as he could clear up some points of Dr. Harvey's evidence. He resented bitterly

Lowering the Cost

REDUCED to its simplest terms, the price of an article is the cost of material, labor of manufacture, transportation, distribution, sale and delivery—plus a profit on each of these.

Let us take the case of a fountain pen to show what price is.

First, the materials must be produced—the rubber in Para—the gold in South Africa or the Yukon—iridium in Siberia.

Then all these must be transported to the factory. There the rubber is vulcanized into holders; the gold refined and stamped into points; the iridium tipped on to the gold; and so on.

The labor operations on a fountain pen run well over the hundred mark, and expensive machinery is required for almost every one of them.

Manufacturing completed, the pens are sold to jobbers and retailers—transported hundreds and thousands of miles. And profits are taken at every step, remember that.

After the wholesale distribution, the retail sale is made—delivery completed, and the pen at last put to its destined use.

Suppose you have paid \$2.50 for one of the standard well-known fountain pens. Do you begin to realize what an imposing number of things that \$2.50 has paid for? Haven't you a pretty clear idea that, if these operations were applied to the making of one single pen, it would break an oil magnate to buy it?

It is not perfectly plain that Quantity controls price by one of the simplest of natural laws!

Para rubber by the shipment—gold and iridium by pounds instead of milligrammes—labor of thousands organized and directed—transportation in car lots—and sales by the million—to every schoolboy, stenographer, business man—to everyone who writes.

It is all this gigantic expenditure, divided by the countless units of millions of sales, that makes it possible to buy a fountain pen for \$2.50. The more sales, the smaller becomes the cost of the unit.

We know that Advertising has raised Quality. We know it has standardized prices.

And now we see that Advertising increases sales, shortens the road between producer and consumer—and lowers prices.

Advice regarding your advertising problems is available through any recognized Canadian advertising agency, or through the Secretary of the Canadian Press Association, Room 503 Lumsden Building, Toronto. Enquiry involves no obligation on your part—so write if interested.

TORONTO'S MILK MUST BE PURE

Dr. Hastings Has Notified All Dealers That Care Must Be Taken—Examination of Intake Accounts Adjourned Owing to Judge Mabee's Death—Garden Suburbs.

The order to make sure that the city will receive pure, clean milk, which is the standard, the medical health officer, Dr. Hastings, has issued notices to the various milk dealers in which he insists upon the proper quality of milk being sold, and the proper precautions being taken regarding the shipment of the supply. All milk, according to the notice, must be received by the producers in sealed cans and must conform with the standards in every way or the dealer will be asked to forfeit his license.

In order to avoid any trouble in this regard, Dr. Hastings advises all dealers to make the necessary specifications in their contracts. He suggests that each producer or farmer have his cans stamped with an identification number on the seal. Dr. Hastings claims that such precautions are necessary if Toronto is to secure ideal milk. Already, he says, there has been a great improvement in the supply. Ninety months ago 49 per cent of the city's milk was found to be adulterated, while to-day there is little more than 5 per cent.

Intake Accounts. Judge Winchester's enquiry into the accounts of the intake repair work had just got underway yesterday afternoon when the news arrived of Judge Mabee's death. The enquiry was consequently adjourned till to-day. All that was accomplished yesterday was an examination into the records showing the time spent on the different sections of the works.

On hearing the news of Chairman Mabee's death, Judge Winchester expressed his deep regret. He referred to the late chairman of the railway commission as a man esteemed by all. He was a great lawyer and a great judge, he said, and the most able chairman the railway commission ever had.

Garden Suburbs. Over \$100,000 has been subscribed to the Toronto Co-partnership Garden Suburbs Association, and negotiations are now underway to purchase land for the purpose of erecting model houses. Mayor Geary stated yesterday that this

WEBSTER'S DICTIONARY COUPON

MAY 7th, 1912. SIX COUPONS OF CONSECUTIVE DATES CONSTITUTE A SET.

Cut out the above coupon, with five others of consecutive dates, and present them at this office, with the extreme bonus amount herein set opposite any style of Dictionary selected (which covers the items of the cost of packing, express from the factory, checks, clerk hire and other necessary EXPENSE items), and receive your choice of these three books!

The \$4.00 (Like illustration in the announcements from day to day.) This Dictionary is NOT published by the original publishers of Webster's Dictionary or by their successors. Bound in full Limp leather, flexible, stamped in gold on back and sides, printed on Bible paper, with red edges and corners rounded; beautiful, strong, durable. Besides the general contents as described elsewhere there are maps and over 600 subjects beautifully illustrated by three-color plates, numerous subjects by monochrome, 16 pages of valuable charts in two colors, and the late United States Census. Present at this office six consecutive Dictionary coupons and the

The \$3.00 It is exactly the same as the \$4.00 book, except in the style of binding—which is in half leather. Bound in full Limp leather, flexible, stamped in gold on back and sides, printed on Bible paper, with red edges and corners rounded; beautiful, strong, durable. Besides the general contents as described elsewhere there are maps and over 600 subjects beautifully illustrated by three-color plates, numerous subjects by monochrome, 16 pages of valuable charts in two colors, and the late United States Census. Present at this office six consecutive Dictionary coupons and the

The \$2.00 Is in plain cloth binding, stamped in gold and black; has same paper, same illustrations, but all illustrations are in black and white. Besides the general contents as described elsewhere there are maps and over 600 subjects beautifully illustrated by three-color plates, numerous subjects by monochrome, 16 pages of valuable charts in two colors, and the late United States Census. Present at this office six consecutive Dictionary coupons and the

Distribution hours from 9 a.m. to 5 p.m. daily; Saturday, 9 a.m. to 2 p.m. at The World Office, 40 Richmond Street West.

Nineteen Years the Standard Prescribed and recommended for women's ailments, a scientifically prepared remedy of proven worth. The result from its use is quick and permanent. For sale at all drug stores. 24.

Baseball Opening Game Ends In Tie 1-1, 11 Innings

Note and Comment

The opening of the local baseball season surely satisfied everyone. The day was bright, except for the fog that became thick about the seventh inning.

Jersey City had the advantage on hits, but Lush deserves credit for his work in the field. Twice the night opened up with triples, viz. in the eighth and ninth, and the final produced no loss.

The ground was in good condition, but soft, and it was easy to slip. The game was a single advantage, but only one base, except when Janvin, having started to steal, ran from first to third, and at that time would have been hit by Fitzpatrick.

The game seemed to drag right up to the ninth, perhaps because the Leafs could do nothing. They were with two in the ninth, but the men made good. Steele singled and Dalton, at three and two, tripled into the crowd, and the score was tied. Next the crowd settled down in the fog for the tenth inning.

The work of Doerscher stood out in the same. The left-handed Toronto could do nothing with the southpaw. However, Toronto had only two hits up to the ninth—doubles by Holly and Shaw. Fitzpatrick's single in the tenth might have been scored an error by Roach. He threw a slow ball over Agier's head in the eleventh.

Mighty Tim had a bad day with the willow, and so had McConnell and O'Hara, who were hit from the same side of the plate.

Third baseman Janvin, the 18-year-old boy with Jersey City, lived up to all that has been said of him. He fields as quickly as Bill Bradley, is always in position to throw and gets the ball away with a quick snap motion, generally underhand, and never loses time by the unnecessary swing. He is a triple threat, as they say, Barrows, the other youngster with the Skeeters, came off at bat, getting three hits, one a triple, also struck out twice.

Larry Schiafry, the Toronto man at the head of the leaders, is to be congratulated on the showing of his collection and whether or not they are strong enough to stay at the top remains to be seen. Old Harry Bemis, who has been with the Toronto year ago, caught a fine game for the Skeeters.

The new man in the Leafs satisfied the fancy one way or another. Like Schiafry, Kelly has his boys showing lots of speed, but Doerscher made the sharp wonder why any one named them clouters or fence-busters.

The critical fans were hardly satisfied with the work of the Leafs. They figure that the Skeeters would have been beaten by a little more speed, but they are of the opinion that they declare that Jersey City must go better to stay on top and Toronto likewise to get into the race.

There was another pitcher almost overlooked, viz. Ed Worsley, the Mayor, who delivered the first ball, also some more, three of which were aggressive smokes at the beginning of the game. He was a little more than a little better than the average pitcher, and an arrangement was made for him to pitch in the future under the guidance of President McConnell, who was here, there and everywhere, seeing to the comfort of his guests.

Aquatic Gossip The Dons at Work

The Don Rowing Club oarsmen and scullers are rounding into shape. They received a shipment of boats from Slingshot of Putney, England, consisting of one eight-oared shell, three fours, two doubles and two single shells. They also received their working boats from Ayr.

The diligent work of the Don members and the kindness of their boat makers, they will have as fine a clubhouse as any club in the city. The clubhouse will be in better shape than ever this year, and will shortly be commenced, also fitting in for the new season. The club will be in shape by the end of the week.

The I. A. A. will hold a first water canoe race from the Argonaut Rowing Club at 8.30. Every race is expected to be on hand.

Argonaut Rugby Club. The annual football meeting of the Argonaut Rugby Club will be held on Monday, May 13, at the club house. All members and friends of the club interested in the football team are requested to be present. The committee for 1912 will be elected at this meeting.

Old Country Cricketers Win. The Old Country Cricket Club played their opening match on Saturday at Ex-hibition Park. Scores: Ex-hibition, 127 for four wickets; O. C. C., 41 for five. For St. David, Tucker, 77 for O.C.C. Scott, 15.

Broadview "Y" Harriers. The first annual handicap of Broadview Y Harriers will be held next Saturday afternoon open to all senior members of Broadview Y.M.C.A. Arrangements have been made to hold weekly handicaps every Wednesday night.

West End Junior Track Team. The first weekly handicap event of the West End Junior Track Team will be held at Varsity Stadium at seven o'clock on Wednesday night. The event is 200 yards run and high jump, open to all members of the West End Boys' Club.

Wolgate to Meet Cross. NEW YORK, May 6.—Ad. Wolgate, the champion hurdler, will meet his opponent in a telegraph offer of a \$12,500 guarantee to meet each Cross in a ten-round bout at Madison Square Garden on May 20, according to an announcement made by the promoters to-night.

Baseball Records BUT NOT RECORD

Fifteen Thousand See Opening Game — Bert Maxwell to Pitch To-day—Notes of the First Battle.

The officials of the ball club refused to give out the attendance figures last night, which, however, can be pretty correctly approximated at 15,000. A year ago on opening day the official attendance was 17,500 and it looked to be about 300 less yesterday. The crowd was roped back in the centre field, but all could have been pretty nearly accommodated in the bleachers.

Big Bert Maxwell, the latest addition to the twirling staff and who came to select by Manager Schiafry to pitch to-day. This will be Maxwell's first game in a Toronto uniform.

The fans are anxious to see him in action. He comes highly recommended and should be able to handle the best of the Leafs. Schiafry will likely send Justus against the Leafs.

Janvin at third looks like a good ball player and Schiafry says he is the making of the best third baseman in minor ball.

Dicky Rudolph has a sore arm and Lester Bamont is a strained side. Both are coming round nicely and expect to take their turn in the box before long.

Noley Benny Meyer, tickled to take his first game in a Toronto uniform with his coaching. He had a hit in two innings and was robbed of another when Agier pulled down his hot one.

The fans got their money's worth—eleven innings on opening day and a tie in the tenth. The Leafs made good in the ninth and Schiafry says he is the making of the best third baseman in minor ball.

SPRING MAID AT ODDS—OBEATEN

Herron, at 7 to 1, is the Winner—Numerous Scratches Upset Dopesters at Pimlico—Lexington Results

BALTIMORE, May 6.—Numerous scratches upset the calculations of the dopesters at Pimlico to-day. In the Chesapeake steeplechase, for instance, the Kingpin and Gun Cotton had been regarded as the three to take the money, but not one came to the post and Juvence at as high as 15 to 1 showed that for a long struggle he was still set in the fifth for the talent.

Owned by Robert Davies of Toronto, was the most consistent on favorite, but he was beaten out by Herron, who events the public guessed fairly well.

FIRST RACE—Two-year-olds, selling. 1. Hissling, 104 (Turner), 9 to 10, out for four lengths. 2. Hissling, 113 (Hopkins), 9 to 1, 2 to 1 and 1 to 1.

1. Fred Levy, 107 (Ambrise), 15 to 1, 4 to 1 and 2 to 1. 2. Smash, Carousal and Uro-see also ran.

SECOND RACE—For maidens, 2-year-olds and up, purse \$600, 1 mile. 1. Juvence, 135 (Krause), 10 to 1, 4 to 1 and 2 to 1. 2. Garterman, 133 (Yourell), 15 to 1, 8 to 1 and 1 to 1.

3. Duffield, 129 (Donohue), 3 to 1, 1 to 1 and 1 to 1. 4. Jimmie Lane, Newcomer (hot rider) and Tom Cat also ran.

THIRD RACE—Three-year-olds, purse \$600, 5 furlongs. 1. Herron, 107 (Turner), 7 to 1, 2 to 1 and 1 to 1. 2. Spring Maid, 109 (Martin), 10 to 1, 5 to 1 and 2 to 1.

3. Hot Water, 109 (Estep), 7 to 1, 1 to 1 and 1 to 1. 4. Sycosses, Little Jupiter and Buskin also ran.

SIXTH RACE—For 2-year-olds and up, 1 mile. 1. Service, 116 (Forehand), 2 to 1, 1 to 1 and 1 to 1. 2. Fred Marshall, 112 (Shuttling), 10 to 1, 4 to 1 and 2 to 1. 3. Agnar, 130 (Turner), 5 to 1, 2 to 1 and 1 to 1.

4. Olio, Hedge Rose and Elvewood also ran.

SEVENTH RACE—Maiden 2-year-olds and up, 1 mile. 1. Uncas, 110 8 to 5, 3 to 1 and 2 to 1. 2. War Horn, 105 5 to 1, 2 to 1 and 1 to 1. 3. Himation, 107 2 to 1, 1 to 1 and 1 to 1.

At Lexington, May 6.—Entries for tomorrow are as follows: FIFTH RACE—Three-year-olds and up, selling, six furlongs.

1. Rose of Jeddah, 85 Chief Jackson, 97. 2. Christmas, 100. 3. Continental, 100. 4. Agnes Foreman, 107 High Flown, 107. 5. Cross Over, 109 Euclid, 109. 6. Phalaris, 109 Night Hawk, 109. 7. J. H. Barr, 111 Duquesne, 114. 8. Silk Dancer, 104. 9. Star of Danube, 104. 10. The Widow Mace, 104 Oneda, 104. 11. Time 1:25, 107. 12. Castwood, 114. 13. Lavin, 107. 14. Yorkville, 113. 15. Merode, 105. 16. Pandari, 105. 17. Round the Moon, 105. 18. Ewa Padwick, 107. 19. Time 1:25, 107. 20. Belfast, 109. 21. Jacobite, 110. 22. Bob Co, 111. 23. Time 1:25, 107. 24. Workday, 114. 25. FORTNIGHT RACE—The Camden Handicap, 100. 26. Jabot, 105. 27. Joe Morris, 108. 28. Cherry, 112. 29. Time 1:25, 107. 30. Three-year-old mile, six furlongs.

1. Starland, 102. 2. Ruth Jackson, 112. 3. Silo, 112. 4. Time 1:25, 107. 5. SIXTH RACE—Three-year-olds and up, selling, 1 1/2 miles. 1. Sirenet, 109 (Pain), \$7.50, \$5.00, \$2.50. 2. Time 1:25, 107. 3. Rose of Jeddah, 109 (McCabe), \$1. 4. Time 1:25, 107. 5. Polly D., Miss Thome, 107. 6. Time 1:25, 107. 7. Ewa Padwick, 107. 8. Time 1:25, 107. 9. SIXTH RACE—Two-year-olds, selling five furlongs. 1. Senator James, 102 (Davenport), \$7.50, \$5.00, \$2.50. 2. Pinberget, 107 (Fain), \$4.50, \$2.50, \$1.50. 3. Marston, 110 (Koerner), \$4.50. 4. Time 1:25, 107. 5. Bluebeard, Clinton and Kelly also ran.

THIRD RACE—Handicap, 1 1/2 miles. 1. Wily, 97 (Byrne), \$15.00, \$10.00, \$5.00. 2. Chamure, 106 (Koerner), \$12.50, \$8.50, \$4.50. 3. Time 1:25, 107. 4. Jack Weaver, Oriental Pearl, Duquesne, Astutis Stittwater, Bill Brennan, Marston, Western Belle, St. Orloff and Cliff also ran.

FOUND G.T.P. DATA ON HAYS' BODY

Minia Returns to Halifax With Remains of Seventeen Victims, Making the Total Recovered 205.

HALIFAX, May 6.—(Can. Press.)—The Minia's total of dead when the cable ship came in to-day showed seventeen bodies found and two buried at sea.

The first body picked up was that of C. M. Hays, and the last that of Thos. A. Mullins, one of the stewards. On Mr. Hays' body were found estimates for future construction on the Grand Trunk Pacific. Vice-President Kelly received these.

Two bodies were buried at sea—one unidentified and the other a fireman. The body of Mr. Hays was found several miles from any other.

Burial permits were issued to-day for C. M. Hays' interment at Montreal, and that of Sigward H. Moen, in Norway.

The Mackay-Bennett brought a hundred and ninety bodies, and the Minia fifteen, a total of two hundred and five. Of these 137 have been shipped abroad or buried in Halifax, leaving the remainder to be taken to Montreal.

The Montagu sailed at 5 o'clock this afternoon. She took coal for two weeks and three weeks' provisions for the crew. The White Star officials shipping men here believe that the government steamer will likely succeed in recovering a large number of bodies.

Hager, Customs Broker, McKinnon Building, 10 Jordan St., Toronto. DEMSTRER GETS IT

At a meeting of the senate of the University of Toronto yesterday, the 1881 Exhibition Research Scholarship was awarded to A. J. Dempster, M.A.

FRED W. MATTHEWS

FUNERAL DIRECTOR 235 SPADINA AVE. COL. 791 and 792 AMBULANCE SERVICE 728

NOT ONE HEBREW BODY

HALIFAX, May 6.—(Can. Press.)—The remarkable fact developed at the Titanic morgue to-night that the ten bodies taken by Hebrews from the Fairview Cemetery and removed to the Hebrew burying ground were all Christians, either Roman Catholics or Protestants.

The White Star Line had telegrams from friends regarding all of them, and the fact that they were Christians was established to the satisfaction of the local Hebrew Association.

The bodies will now be sent back to the Fairview Cemetery.

The Late Judge Mabee—A Man of Power

The first and dominant impression made by Judge Mabee as presiding officer and directing genius of the railway commission was one of power. A man of magnificent physique, with a keen intellect and a faculty for epigrammatic expression; he was master of his court, and of every question which came before it.

And it was not only in his court, and in his office, and in his home, and in his social life, that he was a man of power, but in his private life, and in his family life, and in his social life, and in his public life, and in his private life, and in his family life, and in his social life, and in his public life.

While Judge Mabee, on the bench, brushed aside technicalities and stood in little awe of precedents, he was laborious and exact in all his investigations and many of his written opinions will long remain as monuments to his industry.

His great faculty, however, was his immediate instinctive sense of right and justice. He was to some extent handicapped by the failure of parliament to establish standards and principles for the guidance of the commission and was often compelled to limit his judgments by the somewhat arbitrary rates and classifications so elaborately built up by the railways of this continent and sanctioned by the U. S. Interstate Commerce Commission.

A body also handicapped by the timidity of the national legislature. On the other hand, in the railway cases, notably in the case of the Toronto v. Iudat, he entered decrees, knowing them to be ultra vires of the railway act, being confident that parliament would ratify the same by curative legislation.

One of his last decisions was that rendered at Ottawa on April 16, which placed upon the railway companies the onus of justifying higher freight rates in the west than those prevailing in the east of Canada.

He last sat in the commission at the hearings in this city on April 23. He presided with his usual force and ability, holding court well in hand and expediting the business before him. One matter which came up was an application from a citizen in Locust Hill, who had several complaints to make about the railway company.

"This man," said an official, "has written about twenty letters making all sorts of complaints."

"Oh well," said the chairman smilingly, "he is evidently an Irishman and he is entitled to write all the letters he wants to."

It will be hard to replace Judge Mabee. When Judge Killam died many felt that the government had a hard task before it in choosing his successor, but it must be said of the Laurier Government that it measured up to the task superbly when it selected the late chairman.

It is hoped that the government will, if possible, find a chairman in the railway commission even greater than Judge Killam or Judge Mabee, and that the appointment will be made in a national spirit, without regard to merely political considerations.

At Judge Mabee there will be no division of sentiment throughout the country. He was a big man in every way, a hard worker, able and public-spirited. He adorned the bench and shed lustre upon the railway commission. The people of Canada will uncover at his bier.

Judge Mabee Died Suddenly Heart Failure Direct Cause

Let it be known that, while the news of Judge Mabee's death was quite a shock to Mr. Justice Teetzel, he could hardly credit the report, as he stated that from news received in the morning he fully expected Judge Mabee to recover.

"I have been associated with him for the past 25 years," said Judge Teetzel, "and in all that time I have found him to be fair and impartial. He was one of the best judges that ever sat on the Canadian bench, and he is a hearted and affectionate father to his children. His devotion to his mother, who died last year, was well known, and I feel that Canada has lost one of her most promising sons and the Canadian courts an able dispenser of justice."

When the news of Judge Mabee's death was learned at the intake repair work on the city hall yesterday afternoon Judge Winchester paid the following tribute to the late chairman of the Dominion Railway Commission: "I have just heard from Mr. Drayton of the sad death of Mr. Justice Mabee. There was no man more highly respected in any matter of law, and a most successful lawyer, and one of the best, if not the best, chairman of the board of railway commissioners ever had. His death was a serious loss to the whole Dominion."

MOURNED IN BERLIN

BERLIN, May 6.—This city shares in the loss Canada has sustained through the death of Justice Mabee. His decisions affecting Berlin were acceptable, and the great work he accomplished was widely known and appreciated at all times. Such is the general opinion expressed.

Career of Judge Mabee

Hon. James Pitt Mabee, K.C., late chief commissioner of the Board of Railway Commissioners for Canada, came to L. E. Loyalist stock. He was born nearly 52 years ago, on November 8, 1856, in the Town of Port Rowan, in Norfolk County, Ont. He was the eldest son of Col. Simon Pitt Mabee and Fannie Leaton.

His early education was gained at the St. Thomas high school, from which he matriculated to the University of Toronto at the age of 18. He studied law and was called to the bar at the early age of 21.

After five years' law practice in Listowel he removed to Stratford, where he put in 18 years in the practice of his profession. He was made a Q. C. in October, 1889, and a member of the Law Society in 1894. After leaving Stratford he came to Toronto where he became a member of the law firm of Gearty, Blackstock & Co., practicing for 10 months in the city.

Before his elevation to the bench in 1905, Mr. Mabee had been an ardent Liberal and a vigorous campaigner, and in 1906 contested, unsuccessfully, the constituency of North Perth for the house of commons in the Liberal interest. He was formerly president of the Stratford Liberal Club, and the North Perth Reform Association.

On November 21, 1906, he was appointed one of the judges of the High Court Bench for Ontario. King's Bench division, and immediately began to attract attention for his vigorous and straightforward way of going to the root of things. Red tape was a thing abhorrent to his nature. He got his decisions thru in record time. As an observer of his methods, one who had witnessed the proceedings of a law firm, brushed away the pettifoggeries,

and let it be known that, while the news of Judge Mabee's death was quite a shock to Mr. Justice Teetzel, he could hardly credit the report, as he stated that from news received in the morning he fully expected Judge Mabee to recover.

"I have been associated with him for the past 25 years," said Judge Teetzel, "and in all that time I have found him to be fair and impartial. He was one of the best judges that ever sat on the Canadian bench, and he is a hearted and affectionate father to his children. His devotion to his mother, who died last year, was well known, and I feel that Canada has lost one of her most promising sons and the Canadian courts an able dispenser of justice."

When the news of Judge Mabee's death was learned at the intake repair work on the city hall yesterday afternoon Judge Winchester paid the following tribute to the late chairman of the Dominion Railway Commission: "I have just heard from Mr. Drayton of the sad death of Mr. Justice Mabee. There was no man more highly respected in any matter of law, and a most successful lawyer, and one of the best, if not the best, chairman of the board of railway commissioners ever had. His death was a serious loss to the whole Dominion."

NURSES' CLUB WAS OPENED

Handsone and Commodious Quarters on Sherbourne St. Used for the First Time Last Night.

Thronged with nurses and their friends, the new club house of the Graduate Nurses' Club of Toronto had its official opening last night. The building, which is No. 295 Sherbourne-street, a few doors south of Gerrard-street.

The club house is a residence of about 15 rooms, which has been remodelled for its present purpose. It has been donated to the nurses, free of all incumbrance, by J. Ross Robertson, who formally turned it over to them last night. The building is completely furnished, the only expense which the nurses will have to face being that of maintenance.

It was accepted on behalf of the Toronto graduate nurses by Mrs. A. H. Falford, president of the club.

The building contains parlors, reading-room, dining-room, kitchen, and a bathroom. If they so desire, nurses in the city may have a room here also. Several bedrooms have also been provided.

The registry office for graduate nurses will in future be located in this building.

Toronto Graduate Nurses' Club has now a membership of about a hundred, out of which four and five hundred nurses in the city have been added. It is expected that the membership will be increased to three or four hundred nurses. Each nurse who joins takes a five-dollar share in the club.

SIKHS APPEAL TO BRITAIN

Deportation of Hindu Women and Children Results in Attempt to Override Dominion Government

VANCOUVER, May 6.—(Can. Press.)—Hindu women and children have been deported from India to set aside the order recently passed by Ottawa for the deportation of two Hindu women and their children, who have been held by the authorities to be illegally in Canada. This action was taken at a mass meeting of Sikhs at the Sikh Temple, Second-avenue west. In the opinion of the Sikhs imperial unity is threatened by the enforcement of immigration laws.

This is how they put the matter in a cable which the mass meeting ordered despatched to the secretary of state for India, London, yesterday.

"Kahla Dewara and United India League, Vancouver, implore your office to stop deportation ordered by the Dominion Government of the Sikh ladies and their children under wrong interpretation of the immigration laws. This is a gross breach of imperial unity by an attack on the Sikh homes."

HON. MR. HAZEN AT WASHINGTON

WASHINGTON, May 6.—A conference scheduled for today regarding the fisheries of United States and Canada has been postponed until tomorrow for the convenience of some of the members.

Hon. J. Douglas Hazen, the Canadian Minister of Marine and Fisheries, howland today had a preliminary talk with Chandler Anderson, counselor of the department of state.

600 Buys an Organ

The old firm of Heintzman & Co., Ltd., with their large and handsome warehouses at 182-192-197 Yonge-street are making a clearing of some thirty or more cases of the best Canadian and American pianos that have come into their hands in exchange when selling their pianos. These instruments have been marked down to about one-half the first price, and will be sold on payments of fifty cents a week. If out of town drop the firm a line for a list of these organs with prices.

MAY BE CAR STRIKE IN OTTAWA

OTTAWA, May 6.—(Can. Press.)—The conductors and motormen of the Ottawa Electric Railway this afternoon presented a demand for 20c an hour for a nine-hour day. This is five cents an hour advance and an hour per day less than now worked.

Another conference is arranged for to-morrow, and if the company does not accede to the demand of its men, a mass meeting will be called at once to debate the idea of a strike.

In Dread of Croup

The inexperienced mother is always in dread of croup. There is seldom any warning until the child awakens at midnight with the hard, metallic cough, and gasps frantically for breath.

There is no time to send for a doctor, no time to go to the drug store; even relief must be obtained at once. If you are not so fortunate as to have Dr. Chase's Erythraeum, Turpentine and Eucalypti, you are in a bad way. The cause of the croup is a vomit with a spoonful of warm liquid or by tickling the throat with the finger.

Then get Dr. Chase's Erythraeum, Turpentine and Eucalypti, and you will find it the most effective for croup, whooping cough and colds in the throat.

Mothers who make a practice of always keeping it in the house find that they can depend on it in case of emergency.

To Buffalo, New York, Montreal, Detroit and Chicago, the Only Double-Track Route.

is via the Grand Trunk Railway System. First-class equipment and excellent service as follows: To Buffalo, Buffalo, 8 a.m., 10 a.m., 11 a.m., 12 p.m., 1 p.m., 2 p.m., 3 p.m., 4 p.m., 5 p.m., 6 p.m., 7 p.m., 8 p.m., 9 p.m., 10 p.m., 11 p.m., 12 p.m.

MIMICO SCHOOL REPORT IS ISSUED

Continued From Page 1.

that day was ordered by the superintendent to be put to bed with handcuffs placed on his ankles; that he was visited on Jan. 16 by the superintendent and whipped with a strap on the bare back and legs, while still manacled; that he was compelled to wear the handcuffs on his ankles for a month and four days.

"The charge was substantiated in evidence by the mother and son, and the superintendent frankly admitted that the statements made in regard to the punishment accorded the Spain boy were substantially correct. There was no evidence to show that the punishment inflicted produced any physical injury to the lad, who, when examined, appeared bright and healthy. This was fortunate, for if there had been any manifestation of injury, the superintendent would have been more seriously involved than by any condemnation which this report must record.

No More Handcuffs

"The evidence shows that for many years handcuffs have been used as a punishment for boys running away from this school, and the evidence given on the last day of the investigation makes it clear that the class of boys for whose custodial care the institution is responsible, is one which often requires the strictest discipline. As soon as the evidence was taken the board of management directed that the use of handcuffs be at once abolished.

"The institution has, in spite of many disadvantages, done an excellent work, and cruel treatment of the boys has been the exception and not the rule."

Lack of Management

"There are about fifteen buildings, of which five are cottages, containing the dormitories, school and recreation rooms for the boys. These are not in a good state of repair and are in the main insanitary and show evidence of lack of care and management.

"The grounds are greatly in need of new sidewalks and drainage. The dormitories are altogether too crowded, and the beds so close together that the air cannot be kept pure. One basement

dormitory had 33 beds, where in such a room only 16 beds should be allowed. The dining-room was found quite unsuitable and unclean. The congregate system which permits 300 inmates to partake of their meals together in one room cannot be regarded as satisfactory.

"In our visit we found the electrical wiring in some of the buildings greatly in need of attention. The wires in the basement of this administration building are dangerous."

The board of management, the report continues, certainly wanted to have everything done right, and as Mr. Beverley Jones said, "We left the discipline entirely in the

Woman's Realm—the Household, Fashions and Society

SOCIETY

The aide de camp in waiting has issued invitations for a garden party, to be given by H. R. H. the Governor-General and Duchess of Connaught, at Benvenuto, from 3 to 7 o'clock on Monday, May 27.

Mrs. Albert Gooderham of Deaneport left for Washington to attend the International Red Cross Society convention, which is being held there this year. Mrs. Gooderham is the delegate from Canada and was accompanied by Mrs. John Bruce.

Hon. Adam Beck and Mrs. Beck, with their horses, left last night for Montreal.

Mr. Walter Sterling announces the engagement of his second daughter, Irene Mildred Sterling, to Mr. William McMillan Cookburn of Winnipeg, second son of the late J. P. and Mrs. Cookburn of Gravenhurst, Ont. The marriage will take place early in June.

Col. Sir Henry and Lady Pellatt have left for a short visit to Halifax.

Mrs. Gus Foy has returned from Atlantic City.

Mrs. Charles Gamble was the hostess at a luncheon at the Ottawa Country Club, in honor of her guest, Miss Adele Boulton. Covers were laid for eight and those present included Mrs. Edward Houston, Mrs. David Gilmour, Mrs. Harry Cassels, Mrs. Barrett Dewar, Mrs. Berie Cassels of Toronto and Miss Lucey Kingsford.

Mrs. Willie Galbraith, Sandringham, King-street, was the hostess of an enjoyable luncheon yesterday, in honor of Mrs. Dyon Hague, the other guests including Miss Edith Mackenzie, Mrs. Monroe Grier, Mrs. Charlie Hirschfeld, Mrs. William Greig, Mrs. Percy Rutherford, Mrs. Cowan, Mrs. Norman Allen and Mrs. Passmore.

Miss Adelaide Montambert of Bramford is visiting Miss Eleanor Mackenzie.

Mr. and Mrs. E. T. Young have been spending a week in Montreal.

Mr. J. H. Plummer is returning from abroad shortly.

The Baroness von Sonten and Mr. Lothar Reinhardt leave on the 14th inst. for Vienna. Mrs. Reinhardt will join them abroad in July.

Sir Edmund Osler returned on Saturday from Hot Springs, Va.

Miss Ethel Webber, Newell-st., entertained the bridge club yesterday afternoon and asked a few girls in to tea afterwards; the guests included: Mrs. Louis T. Monahan, Mrs. C. Penman, Misses Foy, Miss Olive Buchanan, Miss E. F. Bowles, Miss Eleanor Gooderham, Miss Gouinlock, Miss Nita Millman, Miss Edwards, Miss Helen Crawford, Miss Mabel Hay, Miss Beatrice Bethune, Misses Davison.

Mrs. Crawford-Brown gave a luncheon yesterday for Miss Elaine Casgrain, Montreal, who was afterwards the guest of honor at Mrs. Zoris Ryerson's tea.

Mrs. Rogers of Winnipeg is the guest of Mrs. Norman Gzowski, Russell Hill Drive.

Mrs. Harold Kingston has returned from Lima, Peru, and is visiting her sister, Mrs. Thos. H. Rea.

Sir William Mackenzie has returned from Washington.

Mrs. A. D. Cartwright expects to sail shortly via the Canada, for Vienna, where she will spend a couple of months under the wing of her mother, Lexebatsky, and will later spend some time in England, returning to Ottawa in September. Mr. Cartwright with Mrs. Hart, mother of Mrs. Cartwright, will spend the summer, accompanied by Master Robert Cartwright, at Brackley Beach, P.E.I.

Mrs. and Miss Wallbridge are now settled in their own house, 20 Madison-ave., after spending the winter in Washington.

Receptions To-Day.
Mrs. Arthur C. King, 41 Joseph-st., Davisville. Mrs. Hardy, 81 College-st., and not again.

Societies Etc.
Browning commemoration service will be held at 8 o'clock this evening in the physics building, Toronto University. Prof. Law and several others will speak.

Mrs. J. W. Beatty is giving a prize for nine holes at the Hunt Club today. And on Wednesday Mrs. R. A. Smith gives two prizes for nine and eighteen holes. Both will entertain the players at tea afterwards.

At the regular monthly meeting of the Loretto Alumnae Association to be held at 4 o'clock this afternoon, the dramatic club will present a play entitled "The Ladies Speak at Last."

IF THIS IS YOUR BIRTHDAY
Attend closely to business. It is better not to start any schemes of doubtful success. You may expect small successes in business or at home. These come today will have ability and perseverance, but will be so situated that it will take much energy to succeed. (Domestic troubles are indicated.)

The Daily Hint From Paris

Embroidered Tunic Gown

This gown is from one of the Fifth-avenue shops. The material is a heavy gauze de-soie and the undergarment has a high neck and three-quarter sleeves of white net. Showing a frill to the neck over the white net is a pleated frill of black net, held by a velvet ribbon, and double frills of black and white trim the sleeves. The bodice is of tulle and heavy silk embroidery. In self tone, are used liberally to give effect to the tulle. The corset and buttons are covered with the dress material.

WONDERFUL FEATS OF A DOG DETECTIVE

A correspondent of the London Standard, writing from Odessa, Russia, tells an interesting story of the detective work done by a dog known as "Spitz." He says that in a small Besarabian township of Floresciti, a few weeks ago, a man, his wife and three children, the eldest being twelve years old—were recently discovered murdered in their home. Falling to find a clue to the murderer or murderers, the local police telegraphed to Odessa requesting the aid of a clever dog-detective. The dog, in charge of an officer, was at once despatched to the scene of the crime. The bodies of the five victims lay, as they were found, in the adjacent bedroom; they had all been strangled with short lengths of stout cord.

Spitz made his usual evening investigation of the bodies, from under one of which that of the youngest child—he dragged forth a large colored handkerchief. This article occupied Spitz's close attention for a moment, then he enthusiastically took up the trail.

Being untraced, he rapidly crossed the back yard, jumped upon a low out-house, dragged forth a large colored handkerchief. This article occupied Spitz's close attention for a moment, then he enthusiastically took up the trail.

When the officers came up the door was forced. Spitz made straight for the room, where the occupant, a peasant, was sleeping. He sprang upon the man, who was aroused, and he was seized by his collar, when he was restrained by the detective officer. Despite the man's denial of all knowledge of the murder, he was arrested on the unerring evidence of the dog-detective. Later in the day he made a full confession. He had suspected the storekeeper of having murdered him and his family in revenge; he had not robbed his victims.

This is the ninth murder case in which the murderer or murderers have been traced and captured by the dog-detective within the last eighteen months. He has not once failed in running down the murderer, and in three cases his services were only requisitioned four days after the perpetration of the crime, and when the police searches were completely baffled. Spitz is unquestionably the most distinguished member of the Odessa detective force.

On parade days he wears a very handsome silver collar, to which are attached quite a number of small and ornate medals inscribed with records of his "official" victories.

Helitman & Co's Big Piano Sale.
Very naturally the announcement of the old firm of Helitman & Co., Ltd., 185-BE-187 Yonge-st., Toronto, that they were making quick clearing of between one hundred and one hundred and fifty square and upright pianos has created the largest kind of interest. This firm are well-known for doing things on a big scale and for their generous dealing with the public, that real bargains are expected and the people are not being disappointed. We are told that the sale of the hours for the month of April, though not considered the busiest month in the year, rank among the largest on record. Many of the pianos put out for sale have been but slightly used, some in the way of rental and others out for concert use. All, however, have been thoroughly well-preserved by the firm's skilled workmen, and are guaranteed completely sound and new. Prices have been reduced from one-third to one-half to make a quick clearing and you can see terms of the sale down and a trade each month or quarter. Out of town readers are asked to write the firm for a list of these pianos.

The Nursery

Following the talks on the feeding of children for the first three years, these general rules may be helpful.

Children at all ages should be given food only at regular meal hours. The child must be taught to chew his food properly. Plenty of time should be taken at every meal, and the necessity of thorough mastication should be impressed. To aid children who are too young to understand this, all meals should be cut very fine, and all vegetables mashed. Prepared cereals require careful mastication, hence they should not be given to little children; use grains cooked very soft.

Never force a child to eat; if little food is taken at a meal, do not make up the amount between meals, wait until the next regular hour; and above all do not give a child some indigestible article of food just because he refuses the ordinary, simple food you have provided.

Children relish plain food until you teach them to prefer highly seasoned dishes.

If a child always refuses an important food, such as milk or cereal, give him this food first at meal-time, and refuse to give him anything else until this is eaten.

It is not wise to allow a young child to choose his food even from a simple diet. Very soon he will form the habit of eating only certain things and refusing others. Keep him to the schedule you have chosen, and he will learn to eat and enjoy what you give him.

If an infant refuses his food, or takes less than usual, examine the food to see if it is right. Inspect his mouth to see if it is sore. If neither of these is the cause, do not coax him to eat, but take the food away, and give no more until the next feeding time.

In case of illness, reduce the food, and give more liquid. If there is fever, give only milk, dilute it, and take the food away, and give no more until the very warm weather, give less food, particularly less solid food, but plenty of water.

Elmer Murray

You can make richer, more fragrant, more delicious butter. One teaspoonful makes two cups. Use absolutely boiling water.

HOME HELPS

To Keep Bottled Olives.—When the contents are opened, the remainder, the left in the brine, becomes tasteless. If half an inch of olive-oil is poured on the top, the brine will keep, the olives will keep their flavor.

Marking Wash Goods.—When making linen, organdy and other wash goods, use a little metal stylus. Simply punch through perforations in the paper pattern, and by the use of the stylus, etc., are made, the holes will have disappeared. One can mark both sides at once.

A Way to Fix Birdy Candles.—A simple method of ornamenting birdy cakes with candles is to use the remainder of the wax in a candle. Dip the wax in melted, then put out and push a cork into the hole. It is the work of a moment to put the candles in their proper places on the cake, and the effect is always pretty.

Vinegar in Salad Dressing.—The secret of successful salads is that the dressing is never strong. Use the remainder of the vinegar in a bottle, for it is not only milder, but is sweetened and spicy, and adds greatly to the flavor of the dressing.

New Use for Tin Padding Pan.—Take a tin pudding pan, of eight inches deep, invert and put a hole thru centre of bottom, into which fasten one of the adjustable knobs to be found at any hardware store. Use the pan of the same diameter as your largest frying-pan and you have a covering high enough to cook the meat, good-size chicken or roast of meat, possible on a gas range, with even better result as to quality than roasting, saving both heat and time. The height of the lid acts as a steam-condenser, and done over a slow fire for two hours, a chicken and any roast, except lamb, can be cooked without a drop of water until time to make the gravy. A flat-iron kept on top of the pan will aid in keeping the steam from escaping.

DEACONESS AID SOCIETY

The officers of the Methodist Deaconess Aid Society announce their annual meeting to-day at 3 p.m., in the usual meeting place, St. Charles-avenue, and Avenue-road. Reports of the year will be presented, followed by a welcome reception. Rev. George Bishop, D.D., and Mrs. Bishop.

Bloom of Youth Now Easily Attained

From Popular Science.

You no longer need to "doctor" that sallow, freckled, black-headed, rough, blotchy, pimply and over-rubbed skin. You can remove it, instead—easily, painlessly, progressively. By a new scientific process, which, according to the latest medical authorities, can be used without assistance, the dead and dried surface skin, with all its impurities, is gently, gradually absorbed—and a radiant, youthful and beautiful complexion comes forth! Go your drugstore, get an ounce of pure, unperfumed wax, at night apply enough of this to completely cover the face; don't rub it in. Next morning remove the wax with warm water. The result after a few days is astonishing. You wonder why this secret wasn't discovered long ago.

Seasonable Recipes

Economical and nourishing dishes made from the cheaper cuts of meat: A pot roast is inexpensive, and may look very smart if it is garnished with sprouts, green peas, parboiled potatoes, turnips and parley. Potatoes are particularly appetizing with beef. The turnips are pared, sliced and shaped with a French vegetable cutter. Try cut a thin slice of salt fat pork in an iron frying pan. Wipe a four-pound piece of beef fat from the lower part of a round or fender (rump), sprinkle with salt and pepper and dredge thoroughly with flour. Brown entire surface in the pot fat. With tongs, pierce with a cold piercing fork or skewer, which allows the inner juices to escape. Place in a stew pan, and one cupful of boiling water, cover and bake in range, and let cook slowly until tender, the time required being about four hours. Vegetables, cut into small pieces, but in small quantities; there should be but one cupful when the meat is done. Add one teaspoonful of paprika, and one of onion powder, in the spoonful of flour, and stir until well blended; then pour on gradually, while cooking, one cupful of cold water, one cupful of boiling water. Bring to the boiling-point, season with salt and pepper and strain.

Ox Tail Stew.
Cut two ox tails in pieces at the joints, put in a saucepan, cover with boiling water, let boil five minutes, drain, and then wash thoroughly in cold water. Again drain, and saute in butter until the water has been added one sliced onion) until the surface is well browned. Turn into a casserole or deep earthen dish, dredge with one-fourth cupful of flour, and one-half cupful of boiling water. Bring to the boiling-point, season with salt and pepper and strain.

Remove the skin from a calf's liver, make 12 incisions in upper surface, using a small sharp knife. Take care to have the cuts made in parallel lines. Insert bits of fat bacon in cuts, sprinkle liver with salt and celery salt and push down. Fry in butter, three thin slices of bacon in a hot iron frying-pan, put in liver, and brown entire surface, turning and mixing as you cook. Remove to a casserole or deep dish, and add five slices of carrot, half an onion, two sprays of parsley, two cloves and two cups of boiling water. Cover closely and cook in a moderate oven one and one-fourth hours, basting every twenty minutes. Remove liver to hot serving-plate, reduce liquid to one-half cupful, and strain over meat. Surround with canned string beans, drained and served with water. Cover closely and cook in a moderate oven one and one-fourth hours, basting every twenty minutes. Remove liver to hot serving-plate, reduce liquid to one-half cupful, and strain over meat. Surround with canned string beans, drained and served with water. Cover closely and cook in a moderate oven one and one-fourth hours, basting every twenty minutes. Remove liver to hot serving-plate, reduce liquid to one-half cupful, and strain over meat. Surround with canned string beans, drained and served with water. Cover closely and cook in a moderate oven one and one-fourth hours, basting every twenty minutes. Remove liver to hot serving-plate, reduce liquid to one-half cupful, and strain over meat. Surround with canned string beans, drained and served with water. FARMING AND STOCK PAGE

CHICAGO TRADE EXPECTS BULLISH GOVT. REPORT

And Wheat Market Went Soaring Again in Anticipation of a Poor Showing—Crop Reports Were Calamitous—Corn and Oats Lower.

CHICAGO, May 6.—An upheaval in wheat prices to-day resulted from the bullish showing in Ohio and Missouri state crop reports and from equally alarming figures collected by the grain dealers of Illinois. The market touched new high levels for the season, \$1.18 and \$1.15 respectively for May and July, and closed with a gain of 1c to 1 1/2-c net. Corn finished 1/2c to 5/8c down, oats varying from 3/4c off to 1/2c advance and provisions strung out 7 1/2c each way from the prices current 48 hours ago.

Sentiment in the wheat pit swung so much to the bull side that selling came only from holders taking profits. Many other owners preferred to wait for the federal government report to be issued tomorrow afternoon. The condition figures in Ohio were 64 per cent., against 61 last month and 56 a year ago. In Illinois 76 per cent. of the acreage was declared to have been abandoned and the condition of the remainder 48 per cent.

Good Corn Weather

"Fine weather and reports of increased acreage, especially in Illinois, pulled down the price of corn. Liberal reports of trade were higher, July ranged from 76 5/8c to 77 3/4c, closing weak, 78c net lower, at 76 1/2c. Cash grades were offered more freely.

World's Shipments

The world's weekly shipments, with usual comparisons, follow:

United States Visible

A comparison of the visible grain supply in the United States to-day and in the corresponding dates of the past two years, is as follows:

Primaries

Wheat	To-day	Wk. ago	Yr. ago
Receipts	1,600,000	334,000	3,500,000
Shipments	620,000	420,000	1,200,000
Stocks	1,010,000	910,000	2,300,000
Shipments	610,000	610,000	610,000
Receipts	578,000	578,000	578,000
Shipments	580,000	580,000	580,000

Winnipeg Grain Markets

Wheat—Open, High, Low, Close. Prev. May 1, 1912, 105 1/2, 105 1/2, 105 1/2, 105 1/2.

ST. LAWRENCE MARKET

Receipts of farm produce were three loads of hay, 100 lbs. each, at \$3.00 to \$3.25 per ton.

Duluth Grain Market

DULUTH, May 6.—Wheat—No. 1 hard, \$1.10; No. 1 northern, \$1.13; No. 2 hard, \$1.05; No. 2 northern, \$1.08.

Chicago Markets

J. P. Bickell & Co., Standard Bank Building, reports the following prices on the Chicago Board of Trade:

Open, High, Low, Close

Wheat	May	July	Sept.
No. 1	113 1/2	115 1/2	117 1/2
No. 2	111 1/2	113 1/2	115 1/2
No. 3	109 1/2	111 1/2	113 1/2

Fruits and Vegetables

Item	Price
Apples, No. 1 bushel	\$1.00 to \$1.10
Apples, No. 2 bushel	90 to 100
Apples, No. 3 bushel	80 to 90
Apples, No. 4 bushel	70 to 80

Dairy Produce

Item	Price
Butter, farmers' daily	20 to 22
Butter, creamery	18 to 20
Butter, best	16 to 18

STEADY BUTCHERS' TRADE PRIME EXPORTERS FIRMER

A Few Picked Exporters 10c to 15c Higher—Hogs \$7.75.

Receipts of live stock at the Union yards were 121 carloads, comprising 240 cattle, 87 hogs, 41 sheep and 2 calves. A fine quality of cattle was generally good, with a few loads of extra-finest, especially in the export class.

FARM PRODUCE WHOLESALE

Item	Price
Hay, car lots, per ton	\$10.00 to \$11.00
Hay, car lots, per ton	8.00 to 9.00
Straw, car lots, per ton	1.00 to 1.20
Turnips, per bag	1.00 to 1.20

GRAIN AND PRODUCE

Local grain dealers' quotations are as follows:

Wheat

Wheat—No. 2 red, white or mixed, \$1.06 to \$1.04, outside ports.

Stocks and Feeders

We did not hear of a single transaction in either class at the market today.

Milk and Springs

The market for milk and springs was as strong as at any time in the past few days.

Sheep and Lambs

Sheep—No. 1, 120 lbs., at \$7.25; No. 2, 110 lbs., at \$7.00; No. 3, 100 lbs., at \$6.75.

Representative Sales

Corbett & Hall sold 12 carloads of cattle, 976 lbs., at \$7.25 to \$7.50.

Market Notes

The best butcher's steer was brought from the market today, weighed 1200 lbs. and sold by Dunn & LeVack to J. A. Coughlin.

Chicago Live Stock

Drastic Slump in N.Y. Market—Some Advances in Toronto

INDUSTRIALS ARE STRONG

St. Lawrence Navigation the Feature of Toronto Market—Rio and Sao Paulo at Further Decline.

Strength in the industrial issues and a continuation of the profit-taking movement in the South American fraction stocks, Rio and Sao Paulo, were the only features of the Toronto Stock Exchange yesterday. Some of the securities included in the former category recorded sharp advances and on this account the market bore all the earnings of buoyancy. From anything but a superficial view, however, it was quite apparent that the general list accomplished very little in the way of improvement.

The most outstanding feature of the trading was a big rise in St. Lawrence and Chicago Navigation, which opened two points above last week and then soared to 107, a net gain of 7 points for the day. Other strong spots were Spanish River Pulp, which crossed 80, Burt preferred and Steel Corporation. In the investment list Canada Permanent was the conspicuous leader, adding 5 points to its recent advance and closing with none on the offer under 200. Expectations of a record year for the company's business were responsible for the sustained advance.

Rio at its low price of the day stood over a point below Saturday and Sao Paulo was also under pressure, retreating to 211 and closing on offer there, with bids 1-4 and closing on front-taking sales. Rio and Sao Paulo, which were the only features of the Toronto Stock Exchange yesterday, were the only features of the Toronto Stock Exchange yesterday. Some of the securities included in the former category recorded sharp advances and on this account the market bore all the earnings of buoyancy. From anything but a superficial view, however, it was quite apparent that the general list accomplished very little in the way of improvement.

BROKER SUMS UP FINANCIAL CONDITIONS

Henry Clews, the well-known Wall Street banker, summarized the week's trading in the stock market, as follows:

More hopeful business situation. Very satisfactory foreign trade. Rising steel production. Increasing foreign earnings. Large "b" & "k" offerings. Rise in surplus reserves. Early adjournment of congress.

AGAINST: Increased profit taking. Political uncertainties. Labor troubles. Heavy new security issues. Late crop start. Tendency toward conservatism.

More frequent fluctuations, he continues, may be expected in the market during the next few weeks. The big leaders have the situation well in hand so they are likely to use their best efforts to prevent any serious break, but operations in speculative issues should henceforth be conducted with more circumspection.

MARKET WAS UNPARALLELED

Big Break in New York List Led by Steel—Wall Street in Particularly Depressed Mood.

NEW YORK, May 6.—A further level adjustment of prices to a lower range occurred in the stock market today. Last week's selling movement was resumed on a more generous scale during the morning, and for a time quoted values declined steadily. Pressure was greatest against United States Steel, that stock yielding three points before noon, while losses almost as great were recorded by other standard shares. The movement in Steel was concurrent with the formal opening of the hearing in this city of the suit of the government against that corporation, a fact which may have exercised something more than a sentimental influence.

Other factors that helped in the unsettlement included the probability of fresh political complications arising from the presidential primaries in Maryland, the orthodoxian government report from which list of an encouraging character is expected, the strike of the western railway freight handlers and the increasing loss and privation caused by the disastrous floods along the Mississippi River. To all these might be added the fact that the recent bull market has been a general one and that technical conditions as a whole favored a reversal of the inopportune movement, which at the time, had more than a medium of public support.

In the early afternoon the list manifested some improvement, most branches, with special strength in Reading, while Steel recovered little more than a part of its fall. The selling pressure relaxed and the market then appeared to be undergoing a process of assimilation. There was also some reaction to the news of the shorts, whose operations in the early period doubtless accelerated the decline. The partial rally was followed by another drive, which brought it to its lowest of the day, and Union Pacific also reflected further heavy selling. From this level the list again made some recovery, but Reading almost alone of the speculative issues succeeded in making a net gain on the day. The closing was comparatively dull and heavy. Transactions in Steel constituted over one-third of the total, which aggregated 324,000 shares.

Reading and Union Pacific helped materially to make up the total, which was the largest in some days.

London was a satisfactory market, also showing closing prices for Americans good gains in excess of losses. The bearish attitude of the English market was ascribed to various causes, including the Italo-Turkish situation and prospective important diplomatic changes.

TORONTO BROKERS MAKE ATTRACTIVE STOCK OFFERING

A. E. Ames & Co. of Toronto will tomorrow offer for sale at par \$750,000 of 7 per cent. cumulative shares of the Monarch Knitting Co. Ltd. with bonus of 15 per cent. in common shares. The Monarch Knitting Co. Ltd. has been formed to take over the business of the company of the same name which has been in operation since the year 1908. The factories are at Dunnville, St. Catharines, St. Thomas and Buffalo. Mr. F. R. Lester, M.P., J. A. Burns, both of Dunnville, Ont., have been president and general manager respectively of the old company and will take the same position in the new. Mr. A. E. Ames will be vice-president and T. A. Russell general manager of the Monarch Knitting Co. Ltd., join the board, which will also include G. H. Orme, who was vice-president of the old company. The new financing provides additional working capital of \$250,000, which it is said is ample for its requirements.

The company has been remarkably successful, its average net earnings for the last two years being only slightly under \$200,000. The business, which is the largest of its kind in the world, consists of the manufacture of knitted goods, comprising sweater coats for men, women and children, and a complete line of fancy knitted goods, such as skirts, toques, scarfs, etc. The prospectus will state that the common shares are about to be put on a dividend-paying basis.

RECKLESS RIOT OF SPECULATION OVER IN LONDON

A special London cable says; The general increase in stock exchange vitality during the last few months has been well illustrated by the fact that neither the storm occasioned by the loss of the Titanic, nor so stirring an event as the presence of the Italian fleet at entrance to the Dardanelles, had any material effect on the general firmness of stocks. Unfortunately, however, markets have been characterized by a good deal of reckless speculation in speculative issues such as Marconi Wireless shares, and a number of new West African tin company shares, in which direction the position has already become rather dangerous. For this very reason, to those who look below the surface, the present outlook is not altogether encouraging so far as public securities are concerned.

Railways Made Fair Showing During April

Railroad gross earnings continue to maintain a satisfactory increase over a year ago, the total for United States roads reporting to Dun's agency to date for the three weeks of April aggregating \$24,077,000, a gain of 5.8 per cent., as compared with the corresponding period of last year. Most of the roads making returns for the third week report gains, and while some, especially in the west and southwest, continue to show a falling off, it is not so pronounced. Checking the following table are given the gross earnings of all United States roads reporting to date for the three weeks of April:

Road	1912	1913	P.C.
Am. Ry. & E. Pac.	\$2,884,077	\$3,075,855	5.8
Gen. Serv. Ry.	2,855,869	3,192,862	5.2
Mexican L. & P.	23,143,203	24,191,248	4.9

London was a satisfactory market, also showing closing prices for Americans good gains in excess of losses. The bearish attitude of the English market was ascribed to various causes, including the Italo-Turkish situation and prospective important diplomatic changes.

Bank Clearings Across Border Increase 7 p.c.

Bank exchanges this week at all leading cities in the United States reported to Dun's, aggregate \$2,208,331,944, an increase as compared with the same week last year of 7 per cent., but a loss of 6.8 per cent., as compared with the corresponding week in 1910. However, in this week's statement it is shown that the total clearing for the third week of late, the exhibits as a whole is quite favorable. New York City reports a gain over a week for the third week of April, and while there is a falling off from the total of two years ago of 12.9 per cent., the difference is mainly due to a decrease in the stock market, average daily bank exchanges for the year to date are compared below for three years:

Year	Total
1910	\$509,275,000
1911	\$434,274,000
1912	\$478,500,000
1st quart 1913	\$479,792,000

UNCLE SAM'S NEW MONEY IS QUEER STYLE

WASHINGTON, May 6.—Several changes are probable in the paper currency of the United States, and these will be made in the near future if present plans go thru. For over two years the treasury department has had in contemplation a systematization of the designs as well as a reduction in its size.

From the standpoint of economy, it is estimated that by adopting the smaller note the government can bring about a saving of nearly a million dollars annually. The present size of paper currency is 3.04 by 7.25 inches, and it is proposed that the notes be reduced to 2.12 by 6 inches, the same size as the Philippine paper currency.

With regard to national bank notes, it is proposed to adopt a uniform design for all banks, doing away with the necessity for special engraving for each bank and thus eliminating 7,500 or more plates now in use. At present about a dozen miscellaneous designs, portraits and historic designs appear upon the various issues of currency.

It is estimated that the new design will be made in the near future if present plans go thru. For over two years the treasury department has had in contemplation a systematization of the designs as well as a reduction in its size.
