VICTORY TRIUMPH

The Most Successful Company Floated in Rossland This Year.

PROSPECTUS.

The Victory-Triumph Gold Mining Company was incorporated under the laws of the Province of British Columbia in November, 1896, with the object of acquiring and developing the Victory and Triumph claims, situated on Sophie Mountain, Big Sheep Creek, in the Rossland district.

The capital stock of the Company is One Million Shares of a par value of One Dollar each. All shares are fully paid up and non-assessable.

The Management of the Company is in the hands of conservative and experienced men. The Bylaws of the Company provide that no indebtedness shall be incurred in excess of the funds in the Treasury at any time.

The promoters of the Company before offering any stock to the public purchased the claims and have transferred them to the Trustees of the Company, so that title to the property is now absolutely vested in the Victory-Triumph Gold Mining Company.

The promoters have also had the claims surveyed and have made application for Crown Grants, which are now in process of issue.

Since the purchase of the property by the promoters permanent mine buildings have been erected and a force of men is now steadily at work under the superintendence of Jefferson Lewis, one of the Directors of the Company, and a mining man of long experience. Mr. Lewis did the first development work on the now famous Center Star mine, and also worked on the Le Roi and War Eagle during the first development work done. The promoters have personally guaranteed the payroll for some time to come.

A limited amount of stock is now being offered to the public at 10 cents a share, from which the proceeds will be applied to continue the development work now in progress. This stock is subject to raise without notice.

The property of the Company consists of the Victory claim and the Triumph claim and a triangular fraction lying between them and known as the Triumph Fraction. It comprises about 85 acres in all.

The Victory covers 26 acres of ground. It was first located in 1896 and gave its name to the mountain on which it lies and which is now famous as the location of many rich prospects.

The Triumph is a full claim of 52 acres and the Triumph Fraction contains 7 acres more or less.

The showings on the Victory and Triumph are among the most remarkable in the entire district. What is known as the "Victory ledge," regarded by experts as the best defined fissure vein in the district, runs through both claims a distance of nearly 2500 feet. The vein matter is quartz and wherever opened up carries good value in gold, silver and copper.

On the Triumph there is the "Copper ledge" which has made this claim famous throughout the district. This vein runs across the claim nearly at right angles to the "Victory ledge," which it intersects. It shows an immense surface outcrop of copper ore, from which unusually high assays in copper have been obtained and good values in gold.

On the "Victory ledge," besides a number of open cuts, all of which have disclosed good mineral, there is a working tunnel now 50 feet deep which cuts through a large body of nearly solid ore, giving values which run close to the pay limit.

A shaft is being sunk on the Triumph on the outcrop of rich copper, gold ore, and it is confidently expected that this shaft will disclose a wonderful ore deposit.

For more detailed information and description attention is directed to the reports of Frank Moberly, C.E., on the physical characteristics, and D. B. Bogle on the character of the ledges and the value and nature of the ore, which are appended.

EXTRACTS FROM MR. BOGLE'S REPORT.

On the Victory the outcrop of a great fissure vein may be traced through the entire length of the claim. It runs south-east and north-west. It has been opened up at various points on the surface and shows value at every point. The largest outcrop is towards the centre of the claim. There the vein is not less than 20 feet wide within walls. Both the foot and hanging walls are well defined, the former being porphyry and the latter trachite. The outcrop of quartz is well mineralized

throughout, showing oxide of iron, lead and copper, some iron pyrites, chalcopyrite and galena, and carrying, varying, but for surface rock, very satisfactory values in gold, silver and copper, the best returns from samples giving a value of \$19.00 a ton.

A working tunnel which at the time of my examination had been driven 40 feet along the hanging wall of the vein was started with the object of opening the vein under this big outcrop at a vertical depth of 300 feet. This tunnel encountered a body of almost solid sulphide ore at a depth of 15 feet or so. I sampled this carefully and got an average return of very nearly \$10 per ton. The ore does not carry uniform value. One seam in it assayed 34 ounces in silver, \$4.00 in gold and 4 per cent. copper per ton, another went 19 ounces in silver, \$2.50 in gold and 3 per cent. copper, while other samples went as low as 2 ounces in silver, 2 per cent. copper and a trace of gold.

The Triumph vein, known as the "Copper Ledge," runs north-west and south-east, or very nearly at right angles to the Victory ledge, which it crosses towards the south-east corner of the Triumph ground. At the time I examined the property very little work had been done on this vein. It had been traced through the entire width of the claim and stripped in two places. It had also been traced through the Portland, an adjoining claim, and opened by surface work in three places. At every point where opened the vein showed good copper ore carrying good values in gold. The outcrop is heavily copper stained shale, quartz, copper pyrites and oxide of copper.

At the point where the most work had been done on the Triumph the vein showed one of the most astonishing copper croppings ever seen. It is not less than 60 feet wide and there is no sign of a wall in that distance. How much further the vein extends could not be determined. The quartz and shale are so heavily stained with copper as to be bright green through and through. Seams of wonderfully rich copper pyrites and oxide of copper come up through the shale. From ore here as high as 25 per cent. copper and \$20 in gold per ton have been obtained. The higher gold values seem to occur in connection with the quartz rather than the copper pyrites. But the ore is so much mixed up on the surface with the shale that accurate sampling was a matter of some difficulty. It is likely to become cleaner and more solid as depth is obtained and every indication is present of a very strong body of copper ore. The value of this will be enormous provided it proves, even approximately, as rich in copper as the surface ore is. So far as making a rich mine goes the gold value in this ore might be neglected. The ore under present conditions at Trail Creek will command a substantial premium for smelting purposes on account of its high copper percentage. Some little distance to the south a trap dyke crops out which runs apparently parallel with this vein and the contact with this may form one or other of the walls, but this is only a surmise. Still further south another outcrop of ore has been found, but whether this is another vein running parallel with the Victory Ledge or with the "Copper Ledge" could not be determined.

It will be remarkable if with prudent management and skilful development work this property does not result in making a great mine, or to speak more correctly, two great mines. Both on the Victory and the Triumph the outcrop is very strong, and although sufficient development has not yet been done to justify any estimate of ore in sight, still such surface showings carrying the value they do, indicate very clearly the magnitude and riches of the deposits underneath, and warrant development work on an extensive scale.

Latest Reports from the Mine Where Active Development is in Progress.

Development work to date has shown great improvement on both the "Copper Ledge" and "Victory Vein." On the former, a shaft was started and at a depth of 4 feet the copper-stained shale gave place to clean copper ore which assayed 22 1-10 per cent. copper, and \$3.20 gold per ton. Second-class ore went over 15 per cent. copper, and third-class ore over 9 per cent.

At a depth of 8 feet the clean ore ran 30 per cent. copper and the shaft showed a body of pay ore 4 ft. wide. The shaft is now down 15 feet on this rich ore.

The Victory tunnel is now in 62 feet. The ore chute expected at 70 feet has been struck and the tunnel shows 3 feet of solid ore in the breast. The whole face is mixed ore. It carries a high copper percentage.

For the amount of work done Victory-Triumph has the largest showing of good ore in sight of any property in Trail Creek district.

The stock is certain to steadily progress as the mine improves. Only a small block of Treasury stock on at 10 cents a share. This is subject to raise without notice.

MELFORT BOULTON, 80 Jordan-St., Toronto. Outside Agents apply to Melfort Boulton.

DREYFUS TRIED TO SHOOT

A Lively Fracas in a New York Police Court.

RUSH MADE FOR THE DOORS

Roundsmen Griffin Grabbed the Gun and Prevented a Tragedy.

Even the Police Magistrate Took a Hand in

Overpowering the Desperate Man-He Threatened to Kill Mrs. Marcus' Youngest Child When He Got Out of Jail-Then the Woman Took Her Hair-Mrs. Le Blanc, Widow of the French-Canadian Sailor, Arrested for Drunkenness.

A STAGGERING WOMAN.

New York, Dec. 26.—J. Sam Dreyfus, 24 years old, attempted to shoot Mrs. Caroline Marcus in Yorkville Police Court this afternoon. Dreyfus was prevented from shooting the woman by Roundsmen Griffin. There was great excitement in the court and a rush for the doors, but nobody was hurt.

Mrs. Marcus was complainant against Dreyfus, whom she charged with assaulting her in a butcher shop on First-Avenue, on Dec. 14. The woman was testifying before Magistrate Wentworth this afternoon in Dreyfus' preliminary examination. She said that Dreyfus, who is a meat cutter in the butcher shop, hurled a bone at her, striking her in the face. Dreyfus' face hardened at this, and putting his hand to his pocket he drew a revolver and aimed it at Mrs. Marcus' head.

"You common woman, this will settle you," he exclaimed in a fury. Roundsmen Griffin was standing close beside Dreyfus, and he quickly clutched the revolver, his fingers tightly clasping over the hammer so that Dreyfus could not pull the trigger. The other court officials rushed upon the prisoner and overpowered him. Even the magistrate took a hand in the melee. Dreyfus was standing with his back to the platform. When arrested, and Magistrate Wentworth reached across the desk and clutched Dreyfus by the throat and hung on until Griffin had wrested the revolver from his hand.

When the officers searched Dreyfus they found under his white shirt a knife, two-edged, and a razor. Dreyfus was held under \$2000 bail for trial.

AN AWFUL THREAT.

During his examination Dreyfus testified to the Magistrate: "By God, I'll swear, Your Honor, that just as soon as I get out of prison, if it's ten years from now, I'll have that woman's heart's blood. When I am placed on trial I will tell the jury about the two men that this woman lives with at the Irving Hotel."

On hearing this Mrs. Marcus screamed again, and began tearing her hair. She was removed from the court room by officers again, and Dreyfus was taken down to the Yorkville prison. Dreyfus said later: "My father Isaac Dreyfus secured a job for Mrs. Marcus' husband some time ago in the United Dressed Beef Co. at 44th-street and First-Avenue. A short time afterwards her husband was caught stealing meat, and my father appeared

against him. He was sentenced to three months in the penitentiary. My father has been on intimate terms with her for the past ten years. She said she knew she could not do anything with my father for sending her husband away, and she would get square on me. On Dec. 14 she came into the shop where I worked, picked up a cleaver and was about to hit me with it. I warned it off and struck her in the face with my fist. Nothing more was done till I got a summons Thursday evening to appear in court to-day. In the meantime I bought this 38-calibre British Bull-dog to be prepared for her. I bought the knife because I thought it might be close enough to her to use it if the pistol was taken away from me."

Mrs. Marcus is a stocky woman of 35 years. She has dark hair and is fairly attractive. She was dressed in a brown skirt and waist with a heavy cloak. Her face and eyes were swollen and discolored, and she said that it was the result of the attack upon her by Dreyfus. She says she has two children and she had been ill since the assault, which was why the complaint had been postponed so long. She refused to say anything more.

Dreyfus is a short, well-built man, with dark and smooth shaven face. He was dressed in a neat business suit.

Mrs. Theophile Le Blanc Arrested on the Street in New York's Intoxications.

New York, Dec. 26.—Mrs. Theophile Leblanc, 45 years old, of No. 213 East Thirty-Third-street, was arraigned before Magistrate Kullback in Jefferson Market Court this morning charged with intoxication. She is the widow of the late Theophile Leblanc of Montreal, who died of starvation in Bellevue Hospital some time ago. Police Station found her staggering along Fifth-Avenue near Thirty-Third-street yesterday afternoon, accompanied by a man whose name was not that of a sober man. The policeman found that the man had been taken out to dinner by her and that she had paid the bill. He had pocketed the change, 90c and her keys. He said that he was taking her home. The woman seemed much out of place in the line of prisoners, her mourning weeds giving her an appearance of refinement that aroused sympathy. She was discharged.

Mrs. Leblanc was seen at her rooms this afternoon. The man who was with her last night was also there. He said that he and Mrs. Leblanc had dined last night at Moupin's, and both had drunk considerably. They went up Sixth-avenue to take a car, and she had pocketed the change, 90c and her keys. He said that he was taking her home. The woman seemed much out of place in the line of prisoners, her mourning weeds giving her an appearance of refinement that aroused sympathy. She was discharged.

Max Becker Shot and Killed His Wife and Then Put a Bullet into His Own Heart.

New York, Dec. 26.—In a sudden fit of delirium, or actuated by insane jealousy, for which there is no apparent reason, Max Becker, a waiter, 30 years old, living with his wife Emma, 30 years of age, and son Fritz, 7 years of age, in three rooms on the fourth floor of the five-story tenement house, corner of 34th-street and Second-Ave-

nue, shot and killed his wife and then shot and killed himself at 3:30 this morning. About a year ago Becker was committed to the insane asylum at Stamford, Conn., as a dangerous man, having attempted several times to kill his wife, but he was discharged as cured in six weeks. About three months ago he attempted to throw his wife out of the window of their home, and she left him, taking her boy with her. Becker then returned to the asylum of his own volition, and was received as a patient. He was discharged six weeks ago and went home. His wife, learning that he was home, went to live with him again, as he appeared to be perfectly sane. From the time of his marriage, ten years ago, Becker has been jealous of his wife, frequently accusing her of being unfaithful, but without cause. He has threatened to kill her several times, and has frequently accused her of being unfaithful, but he did not appear to be violently inclined. Several days ago the boy Fritz had an eruption upon his body and this morning Becker called in a physician. The doctor said the boy had scarlet fever and that he must be put to bed at once. At noon Mrs. Becker took the boy to bed, giving him at stated times the medicine prescribed for him. Becker then left the house, but returned at 3 o'clock. He was apparently in good humor. He had an hour later Fritz Becker ran down stairs, screaming that his papa had shot his mamma and himself. The boy's night dress was saturated with blood and there was blood on his lips.

The World and the Mayor.

Editor World: The World should receive the patronage of the citizens of Toronto and of the Dominion, because of its editorial superiority—no better anywhere—its accuracy of news, local and general, always reliable, its fairness and unprejudiced presentation of all topics of value relating to the welfare of the Dominion, the Manitoba school question, guarding the Manitoba rights, etc. While other leading newspapers had many vulnerable spots in their armor, arising from fear of being too warlike or evoking criticism by a puerile attitude, who will not say that the present reduction to the citizens of the Dominion of the World's price is a good thing. But let us look at it squarely. Some years ago, when the Toronto Standard was in the ordinary line of newspaper advertisements it was a terror to editors and a prize to them that do well. But that has a unique, it pictures to us what the inland will be a couple of years hence in such remarkable fashion that its press contemporaries eulogize it to the skies.

Now there are many points of resemblance between The World and our country, indeed, all that I have enumerated, except, perhaps, a suspicion of unreliability which certain acts of his of late have suggested. But let us look at it squarely. Some years ago, when the Toronto Standard was in the ordinary line of newspaper advertisements it was a terror to editors and a prize to them that do well. But that has a unique, it pictures to us what the inland will be a couple of years hence in such remarkable fashion that its press contemporaries eulogize it to the skies.

Whole Family Dead.

Verndale, Minn., Dec. 25.—A party of hunters two days ago discovered the badly decomposed remains of Charles Bettler and his wife and two children. The party was hunting for a fox and the remains were found in a hole in the ice. It is not known whether it is a case of foul play or freezing.

Whereas Duty is His.

Editor World: Some time ago I was placed in pairs of our city for the day, and it is a poor beast that won't honor him or what he has done. Give him a chance to show his color, and he will be found in the meantime the suspicion. But some say, again, that the honors of the Mayor's coat be shared by different

citizens. I can conceive of no more irrational and, indeed, baseless caprice than that all the complicated paraphernalia of his high office as not only to absorb all his mental faculties but his body and bones as well, and just as the artisan or man of any professional calling can only do his duty by devoting his mind and soul to his application, just in the same degree can we only do our duty as a citizen by devoting our mind and soul to the service of our Mayor, and not by changing Mayors every year or two. John W. Campbell.

BLOODSHED IN GEORGIA.

The Arrest of a Negro at Macon Arrested the Whole Population of Blacks—Sheriff shot Dead.

Macon, Ga., Dec. 25.—A special from Atlanta, Ga., says: The marshal at this place arrested a negro last night, which enraged the entire black population. Negroes gathered about the scene to rescue their comrade from the officers. Armed with guns, they rushed upon the officers, and the whites a scuffle ensued, in which the marshal and several whites were injured. Assistance was asked from neighboring towns, and soon the disturbance was quelled by arresting a number of black leaders and carrying them to Valdosta County Jail.

PROMINENT MERCHANT SHOT.

A special from Valdosta says: A terrible tragedy occurred today at Valdosta, 25 miles below here, in the killing of J. J. Brooker, a prominent merchant and cotton broker. Brooker was shot by a white man, who was attempting to arrest a negro. The town marshal was attempting to arrest the white man, but he was shot and killed. The town marshal was attempting to arrest the white man, but he was shot and killed.

COL. EGAN AND CAPT. DIXON.

The Trouble between the Officers of the 63rd Regt. Not Yet Settled.

Halifax, Dec. 26.—The trouble between Col. Egan and Capt. Dixon of the 63rd Regt. has been finally settled by the resignation of Capt. Dixon. The resignation of the latter was accepted by the Minister of Militia. The contentions made in that Capt. Dixon could not be retained after a trial by court martial. The Minister of Militia is understood to be favorably disposed toward granting this request, and it is said that if the latter does not reverse the first decision, it may be taken to the British military authorities.

Herring Fishery a Failure.

St. John's, Nfld., Dec. 25.—The winter herring fishery is a total failure all around Fortune Bay. All the American fishing schooners which were waiting there hoping to secure cargoes, have abandoned the place and sailed for Placentia Bay. This is the second season that the herring fishery has failed at Fortune Bay. The result means starvation to thousands of people because the herring trade is the only possible occupation of the residents during the winter months. The Government will have to help relieve the suffering.

Whole Family Dead.

Verndale, Minn., Dec. 25.—A party of hunters two days ago discovered the badly decomposed remains of Charles Bettler and his wife and two children. The party was hunting for a fox and the remains were found in a hole in the ice. It is not known whether it is a case of foul play or freezing.

Whereas Duty is His.

Editor World: Some time ago I was placed in pairs of our city for the day, and it is a poor beast that won't honor him or what he has done. The Toronto World AGENTS WANTED!

1897 - - THE WORLD - - 1897

THE WORLD is prepared to make a special offer to one or two active men in every municipality in Canada, who will undertake to make during the months of January and February a personal canvass of the farmers of one or more of the municipalities of the county in which they reside. Our subscription price places THE WORLD within the reach of every farmer. Our accurate market reports and reliable weather probabilities will many times repay the subscription price of the paper. THE WORLD gives no premiums or prizes, but puts its money in news and trusts to its merits for recognition. It goes to press at 4 p.m., and always contains the latest news up to the hour of publication.

Our terms to Agents are the most liberal ever offered by any paper in Canada

Agents can make more money by canvassing for THE MORNING WORLD than for any other paper published on this continent. Should the reader desire to accept the agency for one or more of the municipalities in which he resides, he should fill in the attached coupon and return to this office at once, and we will furnish our terms to agents and give him authority to act as our representative for the municipality named in coupon.

Address, Manager Circulation Department, TORONTO WORLD.

Coupon

Seventeen Buried in a Mine by an Explosion.

FIVE FATALLY WOUNDED.

Four are Still Under Ground With No Hope of Rescue.

This Calamity Happened at the Indiana Mines Near Princeton—The Mine is a New One and it is Believed it Was Not Sufficiently Guarded—Two of the Wounded Died After Being Taken Out—Fire Damp Prevented the Escapes From Getting to Work.

Princeton, Ind., Dec. 28.—A terrible mine explosion occurred in the coal mines of Maule & Son, a mile from this city, at 2:30 o'clock today. Seventeen men were in the mine at the time of the accident, and up to this hour (10 p.m.) eight have been killed, and the latter died shortly after being taken out of the mine. The survivors are—Four more are still under ground, and there is no hope for them, as the rescue cannot be attempted until the mine is cleared of fire-damp to enable the men to go out.

The dead are: Robert Maule, treasurer, and general superintendent of the Maule Co.; James Turner, Robert Fonegill, David Nolan, Charles Will, Chris. John Holmes (miner), James Iran, Carl Fonegill, light, single, of Belleville, two unknown. The injured are: W. Grills, with severe leg, single, of Belleville; Frank Curtis, seriously injured; Thomas Price, single, severely injured.

WAS A NEW MINE.

The men, after a lay-off one day for Christmas, went down to the mine to clean up the debris of a small explosion of fire damp. It is believed that the mine was not sufficiently guarded, and that the fire-damp was discovered here. It is believed that the mine was not sufficiently guarded, and that the fire-damp was discovered here. It is believed that the mine was not sufficiently guarded, and that the fire-damp was discovered here.

THE VENEZUELA SETTLEMENT.

Delegates Return From Caracas to New York and Say the Treaty Was Well Received.

New York, Dec. 28.—Senator Jose Andrade, Venezuelan Minister to the United States, and James J. Storrow of Boston, Counsel for the Venezuelan Government by the Boundary Commission, who went to Caracas a month or so ago, with the protocol of the Venezuelan agreement for the settlement of the boundary dispute between Venezuela and the United States, returned to this city today. They returned to make a definite statement as to the alleged disapproval by Venezuela of the clause in the agreement which fails to recognize the sovereignty of the country by giving it direct representation on the commission and the 50-year occupation provision. It was explained that the contents of the agreement were discussed in detail at a special session of the commission, which was held in Caracas last month. The commission is now in session in New York, and the members are based on no solid arguments, and we are surprised to see such rumors spread about the matter. The commission is now in session in New York, and the members are based on no solid arguments, and we are surprised to see such rumors spread about the matter.

Mistress and Maid

both have their part in the great savings that come from Pearlina. Suppose you're the mistress. There's the economy of it—the saving of time, etc., and the actual money that's saved by doing away with that steady wear and tear on everything which is the saving of labor; the absence of rubbing; the hardest part of the house work made easier and pleasanter.

But suppose you are mistress and maid, both in one, doing your own work. Then there is certainly twice as much reason why you should do every bit of your washing and cleaning with Pearlina.

It is believed that the mine was not sufficiently guarded, and that the fire-damp was discovered here.

LET'S DEAD.

More skinning in Cuba—Spanish Claim Victory and Capture say it.

Havana, Dec. 28.—News from Matanzas, in the Province of Pinar del Rio, gives the details of an encounter on the 26th between the Spanish force, consisting of a body of local guerrillas and volunteers. The Spanish force, starting at a place called Juncos, found an insurgent camp, from which they were driven back. The soldiers returned to the fire, whereupon the rebels fled in disorder, leaving 20 dead on the field. The arms and effects of the insurgents were captured and their camp destroyed. Eight of the dead rebels were identified, but who the others killed were is unknown to the people residing in the locality. The insurgent force sustained no loss.

KENTUCKY'S CRIME LIST.

Seven Lynchings in a Week, Supplement by About a Dozen Other Shootings and Stabbing Affairs.

Louisville, Dec. 28.—Kentucky's crime list this week is long and bloody. In addition to the seven lynchings for the week, the past 48 hours have been enlivened with the following deeds of violence.

On the Big Hill, near the Virginia line, Tom Edgerton, a negro, was shot to death.

Charles E. Walt, a prominent white man, killed Harry Foster, colored, at a dance in Boone County.

Last night a man was murdered in a Christmas row in a logging camp near Pineville.

A frail in Breathitt County four men were cut and one named Riley was mortally wounded.

Colgate riders celebrated Christmas by chopping down the cut near Mottontown, in Woodford County, the second time this year.

Bill Morrow amused himself by shooting a candle of the Christmas tree in Kanawha County. George Parker was interviewed here this afternoon as to his part in the killing of the Mighty, as to which he said Mr. Free is satisfied with it and will give him a new theatre in London, England, with it.

BURNED TO DEATH.

Mrs. George Postelwhite of Lakefield Fell in a Fire While Carrying a Lighted Lamp.

Lakefield, Ont., Dec. 28.—Mrs. George Postelwhite was burned to death here this evening. She was subject to fits and is supposed to have fallen in one of these while a lamp was in her hand and set fire to her clothing. She was burned to crisp and the room was on fire when her husband came in at 8 o'clock.

Dear Misses Had a Party.

Belleville, Ont., Dec. 28.—The pupils of the institution for the deaf and dumb received their presents yesterday morning and had a party in the evening.

Mr. Gilbert Parker was interviewed here this afternoon as to his part in the killing of the Mighty, as to which he said Mr. Free is satisfied with it and will give him a new theatre in London, England, with it.
