INTERCOLLEGIATE RUGBY UNION

Schedule of Autumn Games Drafted

Kingston, Feb. 19.—The Canadian Intercollegiate Rugby Union has been drafted with a full representation. The schedule of games for next fall is drafted, and every Saturday from Oct. 8 to Nov. 12 will be occupied by games in a series of matches.

It is decided that after three scrimmages unless a net gain of ten yards or a net loss of 20 yards were made, the ball must be handed over to the other side. It was also agreed that to be eligible to play on any team in the union the player must be a bona fide regular student, regular in attendance at classes in some faculty, and one who did not write on his examination card.

Inspected Two Theatres. The Princess and Sheno's Theatres were yesterday inspected by the members of the Fire and Light Committee, accompanied by the Fire Chief and Architect McCallum, and conferences had with the lessees in reference to the proposed alterations and improvements.

CAN MAKE MEN SOUND AND STRONG.

Detroit Specialist Discovers Something Entirely New for the Cure of Men's Diseases in Their Own Homes.

You Pay Only if Cured. Expects No Money Unless He Cures You—Method and Full Particulars Sent Free—Write For It This Very Day.

A Detroit specialist who has 14 certificates and diplomas from medical colleges and boards, has perfected a startling method of curing the diseases of men in their own homes; so that there may be no doubt in the mind of any man.

DR. S. GOLDBERG, The Possessor of 14 Diplomas and Certificates Who Wants No Money That He Does Not Earn.

UNION-LABEL WITH DRINKS. Some Hamilton Hotelkeepers Serve It and Unionists Will Boycott All Others.

Y.M.C.A. HOLDS ASSAULT-AT-ARMS

Capt. De Malcha Wins Fencing From Prof. Barton, and Wrestling Match is a Draw.

Hamilton, Feb. 19.—(Special.)—Some of the hotels here are now serving a union label with every glass of beer. At a meeting of the Trades and Labor Council this evening the members who were urged to be sure and see the label before putting their lips to a glass in any bar room.

Y.M.C.A. Assault-at-Arms. The Y.M.C.A. held an assault-at-arms in Association Hall this evening. Capt. Ivan De Malcha met Prof. D. M. Barton in a fencing contest, and won out by 8 to 7 points.

Sold Stove for Scrap Iron. Frank Hyslop, who sold his stove for scrap iron, and let his wife and children to freeze while Magistrate Jettis this morning and remanded till tomorrow.

Will Throw Snow Back. The residents of North James-street are so worked up about the way the snow has been banked against their walks that they threaten to organize and throw the snow back into the Street Railway Company's tracks.

Are Your Kidneys Diseased?

If any of your family has been troubled with Kidney or Bladder disease, make a test and satisfy yourself as to the condition of your kidneys. Doctors prescribe and use "Safe Cure" in all cases of Kidney and Bladder disease. John Moran made well after years of suffering by Warner's Safe Cure.

"I make no apology to the medical profession for the medical societies to which I have the honor to belong, in coming out openly and commendably in support of Warner's Safe Cure. I am justified in stating that there is no known remedy that can equal it in curing kidney and bladder troubles."

SAFE CURE is purely vegetable and contains no harmful drugs; it is not constipating; it is a most valuable and effective tonic; it is a stimulant to digestion and awakens the torpid liver, putting the patient into the very best receptive state for the work of the restorer of the kidneys. It repairs the tissues, soothes inflammation and irritation, stimulates the enfeebled organs and at the same time breaks them up.

Barrie Beat Collingwood. Barrie, Feb. 19.—Barrie and Collingwood met here to-night for the second time this year and Barrie again proved the best team, although they were without the services of Thomas and Hiddell, the latter being in the hospital with pneumonia.

The Chippewa. Best Nickel Cigar in Canada. At all first-class Cigar Stores. TRY ONE. Gold Seal EXPORT LAGER. Is the very finest beer made in Canada—If you try it just once you'll say so.

Chloriogol is a positive CURE for DRUNKENNESS. It can be given without the knowledge of the patient. It is a safe and permanent cure, whether the patient be a chronic drunkard or a casual drinker.

SPERMONE

Does not interfere with diet or usual occupation and fully restores lost vigor and insures permanent health. Sole proprietor, RICHARDSON'S DRUG STORE, 430 BAY ST., TORONTO.

Nervous Debility

Exhausting vital drains (the effects of early follies) thoroughly cured; Kidney and Bladder ailments, Gonorrhoea, Syphilis, Phimosis, Loss of Erection, Impotence, etc. All cases of the Genito-Urinary Organs are cured. It makes no noise, it is a pleasant to cure you. Call reference with full particulars. Medicines sent to any address. H. D. J. REESE, 205 Spadina Street, 3rd floor, Dr. J. Reese, 205 Spadina Street, 3rd floor, south of Gerrard Street.

DOVIE FEARED THE MOB. Sydney, N.S.W., Feb. 19.—"Rev. Edith" Dowie started for Melbourne to-night after receiving what he declares to be the worst treatment of his life. The Dowie meetings at the Town Hall here were compelled to suspend, and a large force of police and detectives was present to prevent disorder.

At last night's meeting Dowie declared that Sydney meetings were like a deck of cards, the more they were shuffled the dirtier they became. J. W. Williams, member of the Colonial B.M., protesting whereupon Mr. Williams, a leader of the Dowie movement, threatened Mr. Williams with arrest.

Western Assurance Co. ESTATE NOTICES. JUDICIAL SALE OF VALUABLE PROPERTY.

The Annual Meeting of Shareholders was held at the Company's Offices, Toronto, Friday, 19th February, 1904. The President, the Hon. George A. Cox, occupied the chair and the following annual report of the Directors, with accompanying Financial Statement, was read by the Secretary:

The Directors have pleasure in presenting to the Shareholders their report on the business of the year ending 31st December last. The following synopsis of the accounts submitted herewith summarizes the results of the year's transactions:

Table with 2 columns: Description and Amount. Includes 'Written off Investments to bring these to market value', 'Total Assets', 'Reserve Fund', etc.

As intimated in the last Annual Report, the property adjoining the Company's Head Office on Wellington Street has been purchased. The building has been erected and the greater part of it is now occupied for the Company's offices.

SUMMARY OF FINANCIAL STATEMENT. Table with 2 columns: Description and Amount. Includes 'Fire and Marine Premiums', 'Total Income', 'Total Expenditure', etc.

The President, in moving the adoption of the Report, said: "The Report just read, the adoption of which I beg to move, is, I think, my duty to present to you the most favorable Annual Statements that it has been my duty to present to you since I have had the honor of occupying this chair."

The Report just read, the adoption of which I beg to move, is, I think, my duty to present to you the most favorable Annual Statements that it has been my duty to present to you since I have had the honor of occupying this chair.

The business of the Marine Branch shows an upward advance balance. This is attributable partly to the running off of the risks at some unprofitable rate, but chiefly to the fact that the business of the Marine Branch shows an upward advance balance.

The Public Schools of the town are filled to their utmost capacity with pupils, nearly every room having more than the normal number of scholars on the rolls.

Preparations for the concert under the auspices of the Eastern Division of the Metropolitan Association of the C.P.R. will be held at the Metropolitan Association of the C.P.R. on Friday, 26th inst.

At last night's meeting Dowie declared that Sydney meetings were like a deck of cards, the more they were shuffled the dirtier they became.

At a meeting of the Board of Directors, held subsequently, Hon. George A. Cox was re-elected President, and Mr. J. J. Kenny, Vice-President, for the ensuing year.

BRUCE OLD BOYS.

Annual Reunion Attended by 500 and Merry Time Was Spent. The exiles from Bruce County gathered in large numbers at the Temple Building last night on the occasion of the annual reunion. About five hundred were present, including many from Walkerton and other points in the county. After a protracted, in which many old-time acquaintances were renewed, the Rev. Fred C. Duff, president of the association, opened the entertainment with a short address of welcome. Hugh Clark and Charles W. Bowman, the local members, made witty speeches, the other representatives, Messrs. Toimie and Trux, being unable to be present. Vocal solos were rendered by Mrs. J. A. Walker and Misses Elsie Blake, Nellie Moore and Grace E. McKinnon. Dr. W. E. Lundy and Millard McCammon were loudly applauded. Young Cleve Caswell gave a selection on the xylophone in very clever style, and received an encore. P. C. Thomas Ross, the official singer, entertained the proceedings with his Scotch music, and two other girls, Ellen Stewart and Cella Bryce, went through some Highland dances with the effect.

Hon. presidents, William Houston, M.A., and W. S. Johnston, Jas. H. Spence, secretary, and vice-presidents W. A. Skeans and Fred Johnston were also on the platform, and gave short speeches, but the younger element were anxious for the beginning of the ball, which opened at 10:30 and was continued until 1:30, and was most enjoyable. The catering was excellent, and a most enjoyable evening was being especially enjoyed by the members of the association to the extent of visiting their old homes in July when the hospitality to the guests will be amply repaid.

WORKING OF ALIEN LABOR LAW.

Council for Local Manufacturer Raises New Point of Law. Canada has an alien labor law, and Edward Freysing of the Freysing Cerm Manufacturing Company was tried under it yesterday morning by Magistrate Denison. Three co-defendants, David H. Beecher, John McLean and Samuel A. Oster, appeared in court, and were represented by John O'Donoghue. They testified that they had been engaged in Lancaster, Pa., to come to Toronto at a wage of \$10 a week for 40 hours, or \$9 for 35 hours. Their railway fare was advanced on condition that they contracted for a year.

S. E. Smoke appeared for Freysing and intended to move, on the part of the union men, who had given information about the case, that the court was impressed with the argument, but made an exception of Oster's case, in which it was contended that his contract had originally been made in Montreal. His case was adjourned until Feb. 26.

In the other cases, Mr. Smoke contended that the Act is a retaliatory one, only to be enforced against countries which have similar enactments against Canada, and that the United States has such an Act in force since it is ultra-territorial in its effect and till Monday.

WAR LORD OF THE U.S.

Washington, Feb. 19.—The house today began consideration of the naval appropriation bill, ten hours being allowed for general debate. During the general discussion, Mr. Fitzgerald (Dem., N.Y.), declared that the United States naval program was to provide a naval force greater than Germany. He added that he expected an official denial. He further said: "In all sections of the country the conviction, rightly or wrongly, is firm that the present occupant of the White House is apt to involve us in war with some other nation," adding that the same belief had been had with respect to the head of another great nation, "which may account for the fact that at a dinner on Lincoln's birthday at Grand Rapids, Mich., the highest compliment that Baron von Sternberg, the German Ambassador to the United States, thought that he could pay to President Roosevelt was to declare that he very greatly resembled the Emperor of Germany."

RYRIE BROS., Cor. Yonge and Adelaide, TORONTO.

BATTLE OF GRENOLFO

Japanese Said to Have Lost Many Men and One Torpedo Boat.

St. Petersburg, Feb. 19.—A Russian correspondent of the Associated Press, who witnessed the most engagement of Chemulpo on Feb. 8, has telegraphed the following account of the fight from Shanghai, where he has arrived with the survivors of the Russian ships on board the French cruiser Pascal.

A Japanese squadron consisting of six armored cruisers and eight torpedo boats arrived off Chemulpo prior to the declaration of war. Admiral Uruo, commanding the Japanese Squadron, requested the cruiser Variag and the torpedo gunboat Kozietz to put out to sea, inviting them to attack them in their anchorage. A protest was made by the captains of the Russian ships, but the Japanese cruiser Variag and the Italian cruiser Zaba. The captain of the United States gunboat, Yorktown, alone refrained from protesting.

Russians Were Heroic. The heroism displayed by the crews of both Russian warships so impressed the foreigners present that many of them wept. Believing the Russians were going to certain destruction, the Variag and Kozietz steamed past the foreign vessels, the Japanese then opened a desecrated cannon, and the shells of the Russian national anthem accompanied the Russian ships as they went into battle.

As soon as the Russian ships approached the mouth of the harbor, the Japanese opened their fire upon them. Every gun took part in the attack. At 1 o'clock in the afternoon the Variag, severely damaged, and the Kozietz returned to their anchorage.

Put Fire Out Under Fire. The Russian officers and crew behaved splendidly. Three times flames broke out on board the Variag, which was under fire, and each time they were extinguished as coolly as if the men had been at drill. The wounded men were carried below, and the members of the crew who lost their lives were replaced by others. The hoists were replaced by others. The hoists were replaced by others.

Both the Variag and the Kozietz were severely damaged, and the Variag was crippled and her hull was riddled with shot. Thirty-three men on board her were killed, including the Midshipman Count Nidod. The captain of the Variag was struck. The Kozietz suffered an injury.

Two Japanese cruisers were severely damaged and one torpedo boat was sunk. "For four hours after," the correspondent continued, "we remained in the harbor, expecting the Japanese to renew the attack. The injuries of the Variag made it impossible for her to fight any longer, and in order to prevent the Japanese from both the Variag and Kozietz were sunk and the tender Sunkari was burned. All the Russian survivors of the engagement were taken on board the foreign warships present, excepting the Variag. The Japanese Admiral demanded the surrender of these men as prisoners of war, but the foreign captains refused.

Prize for the Captain. "People here are eloquent in their praise of Captain Roudnev of the Variag, who, after inflicting all the damage possible on the enemy, sank his ship. There is no question of Russia making any reward for the Japanese admiral's attack as a breach of Korean neutrality, as Korea, being occupied by Japanese troops, has lost her neutral character."

AUDITORS REPORT.—To the President and Directors of the Sovereign Life Assurance Company of Canada, Gentlemen.—Having made a monthly audit of the Books and Accounts of the Sovereign Life Assurance Company of Canada for the month of December 31, 1903, we certify the foregoing statements of income and Expenditure, and of Assets and Liabilities, to be correct, and the Cash Balance to be correct, and the same to be in accordance with the said statement. Toronto, Feb. 15, 1904. (Signed) James P. Langley, F.C.A., Auditor.

ACTUARY'S REPORT.—I herewith beg to submit my report on the valuations of the Company's policies as at December 31, 1903. The policies number 28, and the amount assured by the policies was \$16,000, with a premium income of \$2,313.50 per \$100 per annum. The Office of the Company was used throughout as the basis of valuation, with 2 per cent. interest for profit-sharing policies and 4 per cent. for non-profit policies. The valuation of this basis amounted to \$1,132.12. The adoption of this basis as the valuation basis is a new departure in Canadian life insurance. This basis was selected because it represents the most generally used valuation basis in the world. Life Offices for twenty-five years ending the year 1902, while the Table used is that of the experience of smaller numbers of offices ending with the year 1902. It is with the older Table that the mortality experience of this Company will agree more closely with the recent past. Since the main source of profit to the policyholders and shareholders of the Company is in the excess of interest earned over the cost of the policy, the adoption of this basis will produce reserve which will certainly be as conservative and high on the whole as are made by any Canadian or American company.

CONSULTING ACTUARY'S REPORT.—I have made a general inspection of the books of account of the Company, and the statement of assets, liabilities, income and disbursements, and find the books well adapted to keep correct account of the affairs of the Company, and the results of the year's business very satisfactory. I have no objection to the continuation of the business plans which have been inaugurated by the Management, but will not place the Company in a few years on an entirely self-sustaining basis and rely upon the Stockholders for their investment.

The selection of the Om Table as a basis of computing liabilities and repulating the cost of insurance between policyholders by the leading American and Canadian companies, it will give some advantage in premium charges to those who apply for insurance in early life, and this ought naturally to work beneficially for the whole Company.

The selection of three per cent. as the rate of interest to be assumed in computing policy liabilities in the case of participating policies, and three and one-half per cent. in the case of non-participating policies, is also a judicious assumption, and when used with reference to the Om Table of Mortality will produce reserve which will certainly be as conservative and high on the whole as are made by any Canadian or American company.

The number and amount of policies written during the ten months in which the Company has been in full operation compares favorably with the amounts written in their first year by all the best and most successful of the leading American companies, and the prospect of soon reaching wholly profitable results with such an amount of business is much greater than it would be with five times the amount and as many times the amount of preliminary or organizing expense. Walter C. Wright, Consulting Actuary.

ELECTION OF OFFICERS AND DIRECTORS. A vote of thanks to the Management, Auditors, Office and Agency Staff of the Company was passed, after which the following Directors of the Company were elected for the coming year: A. H. Hoover, Hon. W. C. Edwards, William Dineen, Thos. Baker, Robert E. Menzie, Alex. F. Webster, John T. Hornbrook, Edmund E. Sheppard, John E. Guss, K. C. M.P., and Stephen Dixon. Subsequently Mr. A. H. Hoover was elected President, William Dineen Second Vice-President, and Robert E. Menzie, Treasurer.

THE LAKE MICHIGAN. The Lake Michigan, which has been hatched off the English coast, is a twin screw steamer, and was designed for freight-carrying purposes. She has a draught of 26 feet, and her depth moulded 34 feet 10 inches. She was built in England and then sent to the United States, where she left St. John on Feb. 4, and was scheduled to make her next trip on the 21st of next month.

Death From Cases Unknown. New York, Feb. 19.—An inquest in the cases of Adolphus Drucker, the English member of parliament, and owner of mines in British Columbia, who died Dec. 10, at Bellevue Hospital, was held to-night. The court directed the jury to find that the death was due to unknown causes, and that the hospital officials be relieved from any blame.

Sails on Wednesday. Ottawa, Feb. 19.—H. A. Little, who is to represent the Canadian government in the conference in London with the representatives of the United States government to assess the damages suffered by the owners of sealers seized by Russian warships, arrived here this morning. He sails on Wednesday for London, Eng.

PERSONAL MENTION. Mr. Donaldson, a member of the Manitoba legislature, was a visitor at the Parliament Buildings yesterday. R. H. Agor, for 15 years manager of the Messer-Harris Co. at Winnipeg, will resign to go south for his health. Among the Toronto passengers sailing today from New York on the Canadian liner Ivernia is Captain Crawford. This gentleman has been promoted to New-Orleans-Toronto to superintend the steel construction work on the new turbine turbine, which is being built by the well-known firm of Hawthorne, Leslie & Co., for the Toronto Harbour Board. He will be the "old" turbine turbine in America.

Killed by Bolt Head. Six private of the constabulary have been killed by a bolt head of 500 fathoms, while patrolling the east coast of the Island of Samar.

ASSURANCE COMPANY

AUTHORIZED CAPITAL \$1,000,000. FULL GOVERNMENT DEPOSIT. HEAD OFFICE TORONTO. INCORPORATED BY SPECIAL ACT OF THE PARLIAMENT OF CANADA.

FIRST ANNUAL REPORT.

The First Annual Meeting of the shareholders and participating policyholders of the Sovereign Life Assurance Company of Canada was held in the Company's offices on Monday, February 16th, 1904, at 11 o'clock a.m. The President, Mr. A. H. Hoover, took the chair, and John T. Hornbrook was appointed Secretary to the Meeting. Messrs. Thos. Allen and Geo. Edwards, F.C.A., were appointed Scrutinizers. After reading the notice convening the Meeting, the Secretary read the Annual Report and accompanying financial statements as follows:

To the Shareholders and Policyholders of the Sovereign Life Assurance Company of Canada: Your Directors have pleasure in presenting their first annual report of the business of the Company for the last ten months of the year 1903. The Company received its license January 29th, 1903, and commenced the business of assurance on March following.

Three hundred and thirty-one applications amounting to \$884,958 of new assurances were received by the Company. Of this number 307 applications for \$808,708 were accepted, while 24 applications for \$76,250 were declined because they were not up to the Company's rigid standard of selection.

The total amount of policies in force at the close of December 31, 1903, was \$745,000, and the premium income upon these policies is \$2,614,000, upon each life, and the average premium per \$1,000 of assurance is \$33.00, a greater average premium per \$1,000 than has been received by any other Canadian company, indicating the high class of business which we are writing, our premiums on all classes of assurance being practically the standard rates of other life assurance companies.

The Government standard for life assurance reserves on new business is based upon the Hm. Table of Mortality of the Institute of Actuaries of Great Britain with interest at the rate of 3 1/2 per cent. per annum. Your Directors have adopted as the standard of reserve the Om. Table of the Institute of Actuaries of Great Britain with 3 per cent. as the rate of interest in computing the reserves to be maintained in respect of profit policies, and 3 1/2 per cent. interest for non-profit policies. The reserves under this latter standard will therefore considerably exceed the reserves required by the Government standard, and exceed the standard of reserve adopted by other Canadian companies. In selecting the higher standard of reserves your Directors were influenced by two considerations. The first is, to provide the maximum of security to the policyholders of the Company, and the second, to provide for the future profits which will be distributed among our policyholders and shareholders. The main source of profits of a life assurance company is derived from the excess of interest earned by the Company on its investments over and above the rate of interest allowed for in computing its reserves, and the savings in the tabulated expectations.

Your Directors have invested the Company's Capital and income exclusively in first-class Municipal Debentures. Such Debentures afford absolute security for a long period of years at a rate of interest considerably in excess of the rate allowed for in the calculations of the Company.

Your Directors have pleasure in reporting that no death losses have occurred among the policyholders of the Company during the year. The balance of the call upon the subscribed Capital amounting to \$23,828.44 is in process of collection, and therefore is not included in the assets of the Company in the balance sheet appended.

Throughout the year a continuous audit of the income and expenditure of the Company has been made by the Auditors, and their Certificate is attached to this Report. Toronto, February 15, 1904. The President, in moving the adoption of the report, said: In moving the adoption of the Annual Report, I take the opportunity of congratulating the shareholders and policyholders upon the success which the Company has attained at the close of its initial year.

Within a period of practically ten months we have three-quarters of a million of the choicest business ever secured by any life assurance company in the Dominion of Canada. The average policy issued amounts to \$2,600 and the average premium is \$33.00. The confidence of the public in the respective plans of assurance inaugurated by the Company is demonstrated by the fact that the premium income amounts to the substantial sum of \$2,614,000, and the high average premium rate is proof in itself of the financial and business standing of our policyholders. It also represents a careful selection of influential business and professional men throughout the Dominion whose affiliation with the Sovereign Life Assurance Company will prove a tower of strength in the years to come. There never was a better list of policyholders in any company.

The representative character of those associated with the Company as policyholders is equally true of the shareholders of the Company. The Capital Stock of the Company is held by men who are prominent in business and professional life. Equally with other Canadian institutions, we expect large future results from the general prosperous conditions and rapidly increasing population of the Dominion, and have already placed the Company in a position to take advantage of the remarkable growth of the Canadian North-West. Agencies have been established in Ontario, New Brunswick, Nova Scotia, Prince Edward Island, Manitoba, Saskatchewan, Alberta, British Columbia, and Yukon Territory.

In conclusion, I desire to commend the efficiency of the Home Office staff and the loyalty and painstaking efforts of our agents in the field. It is with great pleasure that I move the adoption of the report. Mr. William Dineen, Second Vice-President, in seconding the adoption of the Report, said: I welcome the opportunity thus afforded me of expressing my own pleasure and also, I am assured, the gratification of every shareholder and policyholder at the more than satisfactory statements we have just heard. In a somewhat extended business experience, I do not think that I have ever seen a more creditable or more substantial showing made by a financial corporation in the first year of its existence, and I think that our thanks and congratulations are due to those who have brought about this result. To have attained a premium income of \$2,614,000 within a brief ten months and that a period in which all business was organized, the achievement, and more particularly so when the fact that we have secured this result not only as the fruits of good management, but also as indisputable evidence that we have fairly and deservedly earned, the confidence of business men throughout the country. As we have found, after our first ten months' experience, we have a surplus of \$1,100,000. This surplus is a most gratifying result, and it is a most gratifying result, and it is a most gratifying result.

Financial Statement, Dec. 31, 1903. INCOME. Insurance Premiums \$30,478.21 Interest 2,313.50 Organization Expenses 81,338.26 Premiums on Capital Stock 30,917.39 \$153,747.45

EXPENDITURE. License Fees, Salaries of Officials, Rent, Commissions, and other payments to Agents, and all other expenditures \$1,795,007 Organization Expenses 2,631,447 Balance Income over Expenditures 110,390.49 \$153,747.45

Balance Sheet, Dec. 31, 1903. ASSETS. Municipal Debentures, Accrued Interest, etc. \$3,250.02 Due from Police 1,736.92 Deferred Premiums 1,564.28 Advances to Agents 7,561.61 Cash in Banks and Head Office 6,209.55 \$110,494.34

LIABILITIES. Re-insurance reserve (Company's Standard) 31,522.12 All other Liabilities 193.43 Surplus of Assets over Liabilities 75,776.79 \$110,494.34

Security to Policy-Holders. Amount set apart for reinsurance reserve, \$31,522.12; Surplus of assets over liabilities, \$75,776.79; SECURITY TO POLICYHOLDERS, \$107,298.91.

AUDITORS REPORT.—To the President and Directors of the Sovereign Life Assurance Company of Canada, Gentlemen.—Having made a monthly audit of the Books and Accounts of the Sovereign Life Assurance Company of Canada for the month of December 31, 1903, we certify the foregoing statements of income and Expenditure, and of Assets and Liabilities, to be correct, and the Cash Balance to be correct, and the same to be in accordance with the said statement. Toronto, Feb. 15, 1904. (Signed) James P. Langley, F.C.A., Auditor.

ACTUARY'S REPORT.—I herewith beg to submit my report on the valuations of the Company's policies as at December 31, 1903. The policies number 28, and the amount assured by the policies was \$16,000, with a premium income of \$2,313.50 per \$100 per annum. The Office of the Company was used throughout as the basis of valuation, with 2 per cent. interest for profit-sharing policies and 4 per cent. for non-profit policies. The valuation of this basis amounted to \$1,132.12. The adoption of this basis as the valuation basis is a new departure in Canadian life insurance. This basis was selected because it represents the most generally used valuation basis in the world. Life Offices for twenty-five years ending the year 1902, while the Table used is that of the experience of smaller numbers of offices ending with the year 1902. It is with the older Table that the mortality experience of this Company will agree more closely with the recent past. Since the main source of profit to the policyholders and shareholders of the Company is in the excess of interest earned over the cost of the policy, the adoption of this basis will produce reserve which will certainly be as conservative and high on the whole as are made by any Canadian or American company.

CONSULTING ACTUARY'S REPORT.—I have made a general inspection of the books of account of the Company, and the statement of assets, liabilities, income and disbursements, and find the books well adapted to keep correct account of the affairs of the Company, and the results of the year's business very satisfactory. I have no objection to the continuation of the business plans which have been inaugurated by the Management, but will not place the Company in a few years on an entirely self-sustaining basis and rely upon the Stockholders for their investment.

The selection of the Om Table as a basis of computing liabilities and repulating the cost of insurance between policyholders by the leading American and Canadian companies, it will give some advantage in premium charges to those who apply for insurance in early life, and this ought naturally to work beneficially for the whole Company.

The selection of three per cent. as the rate of interest to be assumed in computing policy liabilities in the case of participating policies, and three and one-half per cent. in the case of non-participating policies, is also a judicious assumption, and when used with reference to the Om Table of Mortality will produce reserve which will certainly be as conservative and high on the whole as are made by any Canadian or American company.

The number and amount of policies written during the ten months in which the Company has been in full operation compares favorably with the amounts written in their first year by all the best and most successful of the leading American companies, and the prospect of soon reaching wholly profitable results with such an amount of business is much greater than it would be with five times the amount and as many times the amount of preliminary or organizing expense. Walter C. Wright, Consulting Actuary.

ELECTION OF OFFICERS AND DIRECTORS. A vote of thanks to the Management, Auditors, Office and Agency Staff of the Company was passed, after which the following Directors of the Company were elected for the coming year: A. H. Hoover, Hon. W. C. Edwards, William Dineen, Thos. Baker, Robert E. Menzie, Alex. F. Webster, John T. Hornbrook, Edmund E. Sheppard, John E. Guss, K. C. M.P., and Stephen Dixon. Subsequently Mr. A. H. Hoover was elected President, William Dineen Second Vice-President, and Robert E. Menzie, Treasurer.

THE LAKE MICHIGAN. The Lake Michigan, which has been hatched off the English coast, is a twin screw steamer, and was designed for freight-carrying purposes. She has a draught of 26 feet, and her depth moulded 34 feet 10 inches. She was built in England and then sent to the United States, where she left St. John on Feb. 4, and was scheduled to make her next trip on the 21st of next month.

Death From Cases Unknown. New York, Feb. 19.—An inquest in the cases of Adolphus Drucker, the English member of parliament, and owner of mines in British Columbia, who died Dec. 10, at Bellevue Hospital, was held to-night. The court directed the jury to find that the death was due to unknown causes, and that the hospital officials be relieved from any blame.

Sails on Wednesday. Ottawa, Feb. 19.—H. A. Little, who is to represent the Canadian government in the conference in London with the representatives of the United States government to assess the damages suffered by the owners of sealers seized by Russian warships, arrived here this morning. He sails on Wednesday for London, Eng.

PERSONAL MENTION. Mr. Donaldson, a member of the Manitoba legislature, was a visitor at the Parliament Buildings yesterday. R. H. Agor, for 15 years manager of the Messer-Harris Co. at Winnipeg, will resign to go south for his health. IMPROVED ELECTRIC BELT, ONLY \$3

THE finest Electric Belt in the world is what I offer you. My Improved Belt is superior to any other made. It is not charged in charging. It gives a stronger current of electricity than is possible with any "wireless" belt. It is guaranteed for three years. One does for eight persons. It cures Rheumatism, Weak Back, Nervousness, Dyspepsia, Losses, Debility and Neuritis. I am practically giving this splendid Belt away on trial, as the price has been put at the lowest possible figure, so that it is within the reach of everybody. Our prices are from \$3, and there is nothing at all to pay till you are cured. We send absolutely free to every person writing us our beautiful illustrated Medical Book and the best Electric Belt on trial. We offer a better article at a lower price than any other, and all writing us receive immediate and skilful treatment. In every case we undertake to send a legal guarantee to cure you or refund money.

What we offer you is this: Our Medical Treatise Book, together with our Improved Belt, on fair trial. Remember our Belt is positively guaranteed to be the strongest made, and it will cure you. Write today. It costs you nothing to try it. Address

DR. R. M. MACDONALD ELECTRIC CO., 2362 ST. CATHERINE ST., MONTREAL, QUE.

PRESENTATION TO WILLIAM SIMPSON

Famous Road Rider of the R.C.C.C. Honored by His Club Mates. There was a pleasing event in the rooms of the Royal Canadian Electrical Club last evening, when William Simpson, one of their most famous representatives on the track, and who has occupied almost every office in the gift of his club mates, was made a presentation on the occasion of retiring from the office of treasurer and financial secretary.

The gift took the form of a gold watch and chain, and a small compass attached, the latter an acknowledgment to prevent a repetition of his misadventure while deer hunting last fall, when an exciting incident of the chase, dependent on a heavy fall, bewildered him in the wilds of Muskoka.

Simpson will be well remembered as the winner of the R.Q.T. road race in 1896, and his participation in two winning Dunlop trophy trials. He is connected with the fire department alarm service.

By an Electricity and Magnetism. On Tuesday evening the International Association of Steam Engineers held an interesting and instructive lecture and practical demonstration on electricity and magnetism, by G. D. Ryrie, chief engineer of the W. A. Murray Company.

Use Lever's Dry Soap (a powder) to wash woollens and fannels,—you'll like it. 32

TOBACCO AND LIQUOR HABITS. Mr. McTaggart's Tobacco Remedy removes all desire for the weed in a few days. A vegetable medicine, and only requires a little water to take with it occasionally. Price \$2.00.

SCHOOL SAVINGS BANKS
PRESTON FAVORS IDEA

Member for South Brant Tells What
Pupils Are Doing in This
Direction.

There was very little to commend
the attention of the legislature yester-
day afternoon and the house sat
only an hour. Mr. Preston of Brant
brought up the question of the estab-
lishment of savings banks in public
schools and gave the idea a complete
examination, urging that the govern-
ment do likewise. Mr. Whitney re-
ported Mr. Preston, and the Minister
of Education went as far as to say
that perhaps the time was approach-
ing when the government would take
the matter up.

Hon. Mr. Latchford introduced a bill
amending the act respecting the grant-
ing of land to the Thunder Bay, Nap-
egon and St. Joe Railway. The bill
gives power to the government to
grant land in Thunder Bay instead of
Algoma. The lands are to be within
24 miles of the railway, instead of 18,
and they must not be situated on the
east side of the railway south of Lake
Nipigon. This prevents the company
from securing the water powers of the
Nipigon River. The time for the com-
mencement of the road is extended to
April 1, 1905, and the completion to
April 1, 1906, and the extension to
settle on the lands is extended to
10 years from April 1, 1904, instead of
10 years from April 1, 1901.

Toronto Education Board.
Hon. Mr. Harcourt introduced a bill
relating to the Toronto Board of Edu-
cation. It allows the board to meet
earlier in January than the present
act provides for, and separate school
representatives may have a voice in
everything that does not relate exclu-
sively to the other educational institu-
tions.

A bill was introduced by the Pro-
vincial Secretary amending the legisla-
tion to enter into agreement with cities
or towns for the extension of the water
supply and sewerage systems to House
of Refuge; and to issue debentures for
House of Refuge without obtaining the
consent of the ratepayers.

Mr. Le's bill to amend the Public
Schools Act provides that cities and
towns shall contribute to the salary
of county board examiners. The bill
also seeks to reduce the number
of staff inspectors from 36 to 30
and to reduce the salary of the chief
inspector from \$1,200 to \$1,000.

The time for introducing amendments to
the Municipal Act expired on Fri-
day. Mr. Duff had a bill of this na-
ture, and Hon. Mr. Gibson suggested
that its provisions be incorporated in
other municipal act amendments before
the house.

Dead Meat Industry.
The Premier informed Mr. Duff that
the government had no definite plan
in regard to giving assistance towards
the establishment of a dead meat indus-
try, by bonus, or otherwise.

To Mr. Smith (Algoma) the Commis-
sioner of Public Works said the
government had received no petitions
for grants for drainage in the Town-
ships of Balfour and Raysbrough, and
the government was not considering the
question of making any grants.

The Attorney-General told Mr. Clark
(Bruce) that the charter of the Ver-
million Gold Mining Co. in Denison Town-
ship was forfeited, but on cause being
shown the forfeiture was cancelled, and
the company is now selling the prop-
erty. The mine was never regarded as
an asset of the province.

Hon. Mr. Harcourt said, in reply to
a question by Mr. Murphy, that the
cost of cooking and domestic science
had not been discontinued at the Pro-
vincial Normal School at Ottawa, and
that there was a room there properly
equipped for the purpose.

The government would introduce a
bill relating to the revision of the
acts of certain magistrates, the At-
torney-General informed Mr. Hoyle.

In reply to Mr. Murphy, the Commis-
sioner of Public Works said the govern-
ment had granted a license to the
Deputy Minister of Fisheries in Lake
Quebec that a license had been granted
for fishing for local consumption,
and that licenses for fishing for ex-
port had been refused.

Mr. Preston of Brant asked for a
return regarding the establishment of
savings banks in schools. This system
was introduced in France in 1876,
and had spread throughout the world.
There were 700 such banks in the United
States five years ago they were
established in municipalities in
Canada, and in Toronto there were
10 of them, in which the deposits aver-
aged about \$200 each. This money
was deposited in cheques for six
per cent. He dilated upon the system,
and suggested that the government
should encourage the system, by
such as the facultation of banks in
industry, thrift and economy in the
schools. It was suggested by hon-
orable members that the system
should be given the endorsement
of the government. At the present,
the system existed on sufferance.

The Minister of Education said he
was glad to learn that the system
was being introduced in schools.

Second Readings.
Mr. Murphy moved the second read-
ing of his bill to amend the Municipal
Act. The bill provides that it will not
be necessary to advertise the places of
polling when a by-law votes on the
day other than the day of holding the
municipal elections. He also moved the
second reading of a bill to abolish the
planning system in municipal elections.
The Attorney-General moved that this
bill be discharged, and there was
no objection.

Notice of Motion.
Mr. Hendrie: What quantity of tim-
ber was cut in 1900, 1901, 1902, 1903
by the Lake Superior Power or any of
its allied or subsidiary companies on
lands in Algoma? How much does the
L. S. P. Company, or any of its allies
or subsidiary companies, owe in pay-
ment for timber dues, rentals, stumpage,
etc., for timber cut in Algoma? Has
the government any security, if so, of
what nature?

Winter Excursion.
A special excursion to Buffalo and
return, at rate of \$2.15 for the round
trip, leaving Union Station at 9:45
a.m. South Parkdale at 9:52 a.m., on
Saturday, Feb. 20, via Canadian Pacific
Railway, is attracting the attention
of the public just now. The tickets
are good for return on any regular
train until Monday, Feb. 22. As
Toronto and Buffalo run through with-
out change, passengers may feel as-
sured of good runs in both directions.
Tickets and all particulars may be
obtained at the Canadian Pacific City
Ticket Office, 4 King-street East, or
at the Union Station (north side).

WEARY, ACHING JOINTS.
The Awful Twinges of
Rheumatism Mean
Old Age in Youth.
Relief in
Six Hours.

Ointments, Salves and Lotions are
positively worthless for Rheumatism.
Get at the cause—the blood—and by
purifying that, restore the system to a
healthy condition. The Great
South American Rheumatic Cure re-
lieves in six hours and cures in one
to three days. Mucous and Articular
Rheumatism, Inflammatory Rheum-
ism, Lumbago, Neuralgia, Sciatica, and
any affections of the joints and muscles
arising from impure blood. Mr. F. E.
Wright of Toronto, Canada, writes: "I
suffered almost constantly with Neural-
gia and Rheumatism. I used several
remedies, but nothing seemed to relieve
the pain until I tried South American
Rheumatic Cure. After using a few
bottles of Rheumatic Cure and also
"Nervine Tonic," I was wholly cured."
Pain in the Region of the Kidneys.

Pain anywhere is a danger signal.
Pain in the region of the kidneys, means
that they are not working properly.
The Great South American Kidney
Cure restores these organs to a healthy
working state.

Shall Buy a Million

50c Bottles of Ligozone and Give Them to a Million Sick Ones.

We have purchased for \$100,000 the American rights to Ligozone—the product which does what medi-
cine cannot do. We thus control the only way to kill germs in the body and end a germ disease. We
want the sick to know this product, and at once. So we make this remarkable offer. We will buy a
million bottles and give them to a million sick. Will you—if you need it—let us buy one for you?

We will pay your druggist for a full-size bottle of Ligozone and give
it to you to try. Simply send us the
coupon below and we will send you the order, good at your local drug store. This is our free
gift and its acceptance places you under no obligations whatever. We make it because this
seems the quickest way to convince you—to show you—that Ligozone is and what it can do.
Then our only request will be that you tell your sick friends what it does. When we, at our
expense, have shown you a way to get well, help us tell your friends know it, too. Do this for
us. In this way we have seen one cure lead to hundreds of cures. And
that is why we make this offer.

We are spending \$500,000 to this give Ligozone away.
Through 1,500 newspapers and
magazines, we reach, with this offer, nearly every home in America. Our reason is this:
There is everywhere sickness which nothing but Ligozone can cure. In every neighborhood
there are lives which Ligozone alone can save. Our plan seems the right way—the best way—
to quickly let those sick ones know it. When those million bottles are used in a million homes
there will be few who don't know the value of Ligozone. And those million bottles—in actual
use—will do more to convince those who need this help than all the arguments—all the testi-
monials—that we could ever print.

Acts Like Oxygen
Ligozone is the result of a process
which, for more than 20 years, has
been the constant subject of scientific
and chemical research. The process
consists in generating gases, made in
large part from the best oxygen pro-
ducers. These gases are confined un-
der pressure and, by the employment
of immense apparatus and 14 days' time,
are made part of the liquid prod-
uct.

The result is a product which does
what oxygen does. Oxygen, as you
know, is the vital part of air. It is the
very source of vitality, the most
essential element of life. It is oxygen
that turns the blue blood to red in the
lungs. It is oxygen that eliminates
the waste tissue and builds up the
new. And no germ of disease can
live in the presence of an excess of
oxygen.

But oxygen is a gas, and unstable.
Ligozone is a liquid which is not
even volatile. It carries its virtues
into the stomach, into the bowels and
into the blood, to go wherever the
blood goes. It forms a vitalizing
tonic with which no other known pro-
duct can compare. It is life to the
human body. But germs are vegeta-
ble, and Ligozone—like an excess
of oxygen—is deadly to vegetable
matter. For this reason, Ligozone
destroys every germ in the body. And
no man knows another way to do it
without killing the tissues, too.

We Paid \$100,000
For the American rights to this prod-
uct. We first tested Ligozone for
two years, through physicians and

hospitals, in this country and other.
In thousands of the most difficult
cases obtainable—cases which medi-
cine could not cure—we proved that
Ligozone was infallible. Any drug that
killed germs is a poison, and it cannot be given in-
ternally. And drugs that can't kill
germs serve no purpose in a germ
disease. Those are the diseases to
which Ligozone applies and which
Ligozone alone can cure.

We Offer \$1,000
For a disease germ that Ligozone
cannot kill.
This offer is published on every
bottle of Ligozone; but nobody ever
claimed the reward and nobody ever
will. Ligozone always kills germs.
Please note what this fact means.
All that is necessary to cure a germ
disease is to kill the germs. That is
certain; and it is just as certain that
the disease will never end while those
germs exist. Ligozone taken inter-
nally goes wherever the blood goes—
into every cell of every tissue. No
germ can escape it, and none can re-
sist it. Can you not see that the re-
sults are inevitable?

Medicine Can't Cure
Your physician will tell you that
medicine is almost helpless in any
germ disease. The utmost it can do
is to act as a tonic, aiding nature to
overcome the germs. Such results
are indirect and uncertain, depending
on the patient's condition. A cure is
always doubtful and often impossible.
And the cures that do result are due
to Nature, not to medicine. A cure
can't come until those germs are
killed, and medicine never kills inside
germs.

These diseases in this list are known
to be due to germs or their toxins.
Every modern physician knows that
but germs were unknown then. More
than half these diseases have been

traced to germs within the past five
years. The germ cause of Rheuma-
tism, for instance, was not discovered
until August, 1902.

These diseases yield at once to
Ligozone. We have seen thousands
of these troubles ended in a week,
though they resisted medicine for
years. And the results are so certain
that in any disease in this list—no
matter how difficult, no matter how
incurable it seems—we will gladly
send to any patient who asks it an
absolute guarantee that Ligozone
will cure it.

Germ Diseases
The diseases in this list are known
to be due to germs or their toxins.
Every modern physician knows that
but germs were unknown then. More
than half these diseases have been

50c Bottle Free
If you need Ligozone, and have
never tried it, please send us the cou-
pon below. Do this in justice to your-
self. We will then send you an order
on your local druggist for a 50 cent
bottle free, and will pay your druggist
ourselves for it.

This offer itself should convince you
that Ligozone does as we claim. We
spend fourteen days in making each
bottle of Ligozone, using immense
apparatus and employed the best chem-
ists in Chicago. The product is very
expensive compared with the cost of
medicine. Certainly we would not buy
a bottle and give it away if there was
any doubt of results.

CUT OUT THIS COUPON
For this offer may not appear again. Fill
in the blank, and mail it to the Liquid
Ligozone Co., 428-430 Wabash Ave., Chicago.

My disease is _____
I have not tried Ligozone, but if you
will supply me a 50c bottle free I will take
it _____
300 Give full address—write plainly.

Any physician or hospital not yet using
Ligozone will be gladly supplied for a test.

Manufactured by
LONDON, E., ENGLAND.

Healthy Children make Happy Mothers.
Happy Mothers make Happy Homes.
NEAVE'S FOOD
The great thing to be aimed at therefore is to
have your children healthy, and this you can
easily secure by giving them
NEAVE'S FOOD
which is pronounced by the most eminent medical
authorities to be the best food for INFANTS, CHILDREN,
INVALIDS, and the AGED.
The "Lancet" and other eminent medical
journals: Sir CHAS. CAMERON, G.B. M.D.,
Ex-President of the Royal Society, writes: "Ireland
and other distinguished medical men all
speak highly in praise of it."
NEAVE'S FOOD
GOLD MEDAL awarded, WOMAN'S EXHIBITION, London, 1900.
Manufacturers: JOSIAH R. NEAVE & CO., FORDINGBRIDGE, ENGLAND.

**FISCAL PROBLEMS FOR
BREAKFAST.**
1.—The Two Politicians.
Two Free Fooders, Campbell and Banner-
man start making speeches at different
ends of the country on a certain day. In
the first two speeches, which are made at
intervals of 15 days, they hold identical
views; but in the third Campbell contra-
dicts Bannerman twice. In the fourth and
fifth, Bannerman disproves eight of the
points which Campbell made in his first
speech. Assuming that both are persev-
ering, and that neither succumb to gerg-
man's sore throat, how long will it be
before their opinions are once more iden-
tical?
2.—Little Primrose's Food.
Little Primrose asks his friend Dook to
come and play in his yard, and they
purchase a day on which they are to
die together. It is Dook's habit to go to
sleep at irregular intervals during his
meal, while Primrose being of the opin-
ion that his food will cost him more, insists
upon a meal composed exclusively of dry
beans. Estimate the chances of the most
proving a rousing success.
3.—Free Food Puzzle.
It is found necessary for the welfare of
the Free Food party to elect a leader every
second week, whose duty it is to reconcile
the party. Each of these leaders is drawn
from the body of the party and quarrels
with his fellow leaders. When will the
party consist entirely of leaders, and what
conclude could be the result?

Piles
To prove to you that Dr.
Chase's Ointment is the
best and most reliable
and absolute cure for
all cases of itching,
bleeding and protruding
piles, the manufacturers
guarantee it. See the
instructions in the daily
press and ask your neigh-
bors what they think of it.
You can use it and
get your money back if it
does not cure you. All
dealers or EDWARDS, BATES & Co., Toronto.

HER FATHER WAS A DRUNKARD

A Plucky Young Lady Takes on Herself to Cure Her Father of the Liquor Habit.

STORY OF HER SUCCESS.

A portion of her letter reads as follows: "My father had often promised me to stop drinking, and would do so for a time, but then returned to his old habit. One day after a terrible spree, he said to me, 'It's no use. I can't stop drinking. Our hearts seem to turn to stone, and we are doomed to try the Tasteless Samaria Prescription, which we had read about in the papers. We gave him the remedy, entirely without his knowledge, in his tea, coffee or food regularly, according to directions, and he never drank again. One package removed all his desire for liquor, and he is now a distant friend to him. His health and appetite are also wonderfully improved, and no one would know him for the same man who was once so drunk. We give it to him and we feel sure that the change is for good. Please send me one of your little books, as I want to give it to a friend."

FREE SAMPLE and pamphlet giving full particulars, testimonials and correspondence sent in plain sealed envelope. Enclose stamp for reply. Address The Samaria Remedy Co., 25 Jordan-street, Toronto, Canada.

"Also for sale at Bingham's drug store, 100 Yonge-street."

WHO'S WHO FOR 1904.

Adam and Charles Black are at the fore again with "Who's Who" for the current year. There is no need now to commend this indispensable hand-book, which has appeared uninterruptedly since 1846. In 1904 it has become more completely than ever a biographical annual, and so far as we have been able to test it the title is fully justified. The thought inevitably occurs in looking over the ever-increasing list of names required to answer the capricious query that to be absent from the pages of "Who's Who" will augur itself known instead of unknown. We observe that the tables which have hitherto formed the first part of "Who's Who" have been deleted and one issued as a separate book called "Who's Who Year Book."

The same firm are also responsible for the 24th issue of "The Englishwoman's Year Book," which appears more particularly to the gentler sex. It is described in the preface as having always been a labor of love to its editors, and we can well believe it. The volume is a perfect mine of information on all matters affecting and interesting women, whether it be professional or industrial pursuits, literature, art and music, sports, society and public and religious work of all kinds throughout England.

Hotel Rudolf, Atlantic City, N.J. The leading hotel on the New Jersey coast is the Rudolf, at Atlantic City. It is also one of the largest, having a capacity of one thousand guests. It is superbly located, directly on the famous Boardwalk, and overlooks the ocean. The rooms are single and ensuite, handsomely furnished, and connected with private bath of fresh and salt, cold and hot water. It is conducted on both the American and European plans, and special spring rates are announced by Mr. Charles R. Myers, the popular proprietor and manager of this favorite hotel. The front and the Grill and Grotto are renowned for their excellent service. Japanese, and an excellent orchestra furnishes selections at daily concerts as well as for the weekly dances. The service of the Rudolf is unexcelled and not surpassed in the metropolitan hotels. The house is installed with the latest appliances. It is open all the year round, and is the headquarters for more conventions than any other hotel on the Atlantic coast. There is no more pleasant time to visit Atlantic City for health, rest and recreation than in the month of May. Bookings for the Lenten and Spring seasons at the Rudolf are very gratifying. Booklets, rates and other information are mailed on application.

Natural History of the Oyster. Prof. Ramsay Wright will lecture this afternoon at the Chemical Building at 8 o'clock, his subject being "The Natural History of the Oyster." A paper, specially for the lecture, which will undoubtedly be one of unusual interest.

5.20 P.M. New York train leaves daily at above hour via C.P. and New York Central, arriving New York 7.50 following morning. Through sleeper to New York. Dining car via Buffalo. ed

Drove Over 90-Foot Cliff. Halifax, N.S., Feb. 19.—Patrick Walsh, lighthouse keeper Lingan, drove over a 90-foot cliff in a snowstorm Monday night. The body was found this morning by a searching party.

THE BUGLER'S CHEST

Is well expanded. He uses his lungs to their fullest capacity. In ordinary do not use much over half their lung power. The unused lung surface becomes inert, and offers a prepared ground for the attack of the germs of consumption. There is no need to warn people of the danger of the danger of consumption, but warning is constantly needed not to neglect the first symptoms of diseased lungs.

Dr. Pierce's Golden Medical Discovery cures obstinate coughs, bronchitis, bleeding lungs, and other conditions which, if neglected or uns skillfully treated, find a fatal termination in consumption. It is entirely free from opiates and narcotics. About three years ago I was taken with a cough, vomiting and spitting blood. My lungs were nearly two years apart of the time. I was sick nearly two years, and I thought it would be impossible for me to live over night at one time. I haven't spit any blood now for more than twelve months, and work as hard as I ever did. I was cured by the firm all last summer. It was Dr. Pierce's medicine that cured me. I accept no substitute for "Golden Medical Discovery." There is nothing "just as good" for disease of the stomach. The "Medical Advertiser" in paper columns, is sent free on receipt of 31 one-cent stamps to pay customs and mailing charges. Address Dr. R. V. Pierce, Buffalo, N. Y.

ASSESSMENT FOR 1904

BETTER BUILDING PLANS

Architect Points Out an Interesting Possibility—Next Boom Slated for East Toronto.

Several of the leading architects were seen by The World yesterday with reference to the building prospects for the season. The work on hand is rather under the average, although one or two large buildings are being started for East Toronto.

One gentleman said prospects were not so bright as some time ago. "Prices are high, as regards both wage and materials. A good deal depends upon the weather, and everything is pretty quiet at present. When the winter is over and the season opens up people begin to think about building. The tendency for residential houses is towards the suburbs, and will be more so as car lines are extended. The next boom will be in East Toronto. There are many houses now beyond the Hunt Club, and of the two wards of the town are taken into the city it will stimulate development in that direction. The Scarborough Railway extension is all settled and the papers signed, and this will be another good feature for the east end. Of course it is frame houses that are being built chiefly. There is a good demand for houses worth about \$2000.

"There should be a lot of rebuilding down town, but the new assessment act is likely to make a man think twice before he undertakes a remodelled room or a new warehouse. If a merchant is getting crowded in a \$50,000 store he might wish to build one worth \$200,000. But if he does he will be assessed for his income on that amount, and he will probably try to run along for awhile longer in his \$50,000 premises rather than face the taxation."

Another architect agreed that there was little doing at present. He thought there should be a large amount of reconstruction down town. He did not believe the assessment act would interfere with building. "When a man is ready to build incidental to the nature will never hinder him. I think the chances for building are good this year. For one thing there will be no strikes, and the builders and their men are on good terms and have rates all settled."

"It is too early," another replied, "to say anything yet, but prospects are good. These forecasts do not amount to much, for we cannot mention our clients' names, and the publisher take no stock in general statements. The long winter has delayed decisions about making contracts, but when the spring gets here I expect the usual amount of work."

RUSSIA'S WAR CHIEF.

General Kouropatkin, Conqueror of the Turcomans, Was Skobelev's Chief of Staff.

It is safe to say that not Russia alone, but the great globe itself, contains no man so thoroughly equipped in every branch of military knowledge as General Alexei Nikolaevich Kouropatkin, who since 1898 has been instructor of War in the Russian empire. Educated in the theory of arms at the best of the Russian military schools, trained to practice under the greatest of modern Russian warriors, General Skobelev, he made a glorious record in every important Russian war since 1896, and worked his way up from sub-lieutenant in that year to the command of the army in 1897.

Nor is this the sum total of his accomplishments. His monographs on the chief episodes of the Balkan campaign against the Serbs, his books on "Algeria" and "Kashgar," have been crowned by the Imperial Geographical Society, his essays are recognized authorities on every point of strategy, his proficiency as an instructor in the technical schools, his executive abilities have been put to the test in the most important posts in the Caspian district and in the Transcaucasus, and he has won many honors which he occupies at present, and he has won many honors which he occupies at present, and he has won many honors which he occupies at present.

Like most Russian officers, he comes from the ancient nobility. For centuries his family has played a leading part in the military government of Russia, where their ancestral estates are situated. Here he was born on March 17, 1848, at the Cadet Corps School and in the Imperial Military College in St. Petersburg, he obtained a commission as sub-lieutenant in the Turkestan Rifles. He was then only eighteen.

WHY WE HAVE THE CURE

And You Need Not Pay a Cent Until the Work is Done.

Let any man who is weak, broken down, old and decrepit in physical weakness, full of pains and aches, gloomy, despondent and cheerless—any man who wants to be stronger and younger than he feels—let him come and tell me how he feels, and if I say that I can cure him and he will show that he is honest and sincere he need not pay me a cent until I cure him.

I don't need it, and am not after it. But I am after the dollars that are now going wrong in the quest of health. Look at these poor wrecks of humanity that are spending all they earn on drugs—dope that is paralyzing their vital organs—that have spent all they have earned for years without gaining a pound of strength for the hundreds of dollars wasted.

That is the money that I am after, because for every dollar I take I can give a thousand per cent. interest. And I don't want it at all until I have cured you if you will secure me. I have cured so many cases right here that I can prove my claims to you, but if that proof is not enough I'll cure you first and then you can pay me. Is that fair?

Most of the Belts that I am selling now are to men who have been sent here by their friends whom I have cured. I think that this is the best evidence that my business is a success from the standpoint of cures as well as on the dollar side.

This Belt is Complete With Free Electric Attachment for Weak Men.

This Electric Attachment carries the current direct and cures all weaknesses of men, varicocele, etc. It develops and expands all weak nerves and checks a loss of vitality. No case of Failing Vigor, Varicocele or Debility can resist the powerful Electric Attachment. It never fails to cure. It is free with Belts for weak men.

No man should be weak, no man should suffer the loss of that vitality which renders life worth living. No man should allow himself to become less a man than nature intended him; no man should suffer when there is at hand a certain cure for his weakness.

My Electric Belt, with Special Electric Attachment (free), will restore your power. It will check all loss of vital power and affects every organ of the body. Most of the ailments from which men suffer can be traced to it.

I have cured thousands of men who have squandered the savings of years in useless doctoring. My Belt is easy to use; put it on when you go to bed; you feel the glowing heat from it (no sting or burn, as in old style belts), and you feel the nerves tingle with the new life flowing into them. You get up in the morning feeling like a two-year-old.

It cures Rheumatism, Sciatic Pains, Lumbago, Kidney Trouble. It banishes pain in a night, never to return. Most of the pains, most of the weakness of the stomach, heart, brain and nerves, from which men suffer, are due to an early loss of nature's reserve power. You need not suffer for this. You can be restored. The very element which you have lost you can get back, and you may be as happy as any man that lives.

Cures such as I mention below are some of the many thousands of just such letters I have, telling how grateful patients have been restored to health and manhood by wearing

DR. McLAUGHLIN'S ELECTRIC BELT.

Advertisement for Dr. McLaughlin's Electric Belt, including testimonials and office information. Text includes: "Weakness, Stomach Trouble and Rheumatism. Knocked Out His Pains. Stomach and Heart Trouble in a Bad Form. Nervousness, Weakness and Backache." Office hours: 9 A.M. to 6 P.M.; Wednesday and Saturday till 8.30 P.M. 130 YONGE ST., TORONTO, CAN.

THE SECRET OF PERFECT BUST FORM

HEROIC GRANITE STATUE OF EQUESTRIAN FIGURE

Selected by Committee as Memorial to Soldiers Who Died in South Africa.

The Plans and Design Committee of the Toronto South African Memorial Association met yesterday afternoon at the City Hall and discussed various suggestions as to the form the memorial should take.

At the meeting the propositions advanced were for the erection of a triumphal arch which was considered too costly, as was a fountain, on account of the expense of maintenance, and of the fact that it would be erected during the months of the year. A soldier's home was considered hardly necessary, and a wing t added to a hospital not very appropriate.

LAPPED OFF \$76,000.

Works Committee Estimates Brought Down to \$444,050.—To Extend Yonge Street Wharf.

The Board of Works held a special meeting yesterday afternoon to consider the estimates. The first item taken up was that of \$3500 for the purchase of horses to take the place of worn-out animals.

Controller Hubbard stated that the city could buy crushed stone more cheaply than the stone could be bought and crushed, in opposing the proposal to purchase a stone crusher at a cost of \$7000, but the new crusher will cost \$7000, but the new crusher will cost \$7000, but the new crusher will cost \$7000.

On the appropriation for snow clearing, Mr. Harrison asked if the Street Commissioner thought the city was in any danger from a flood. Mr. Jones said the city was now in good condition to meet any change in the weather.

Could Not Lie On Her Left Side.

WAS TROUBLED WITH PAIN IN HER HEART FOR SIX YEARS.

Expected Her Friends Would Find Her Dead.

Mrs. C. Bondreau, Campbellton, N.B., was completely cured by

MILBURN'S Heart and Nerve Pills.

She tells of her experience in the following letter: "I was troubled with a pain in my heart and weakness for six years. Most of the time I could not lie on my left side. I consulted a doctor but got no relief and was completely discouraged. I did not think I would live long and expected my friends would find me dead. A friend brought me a box of Milburn's Heart and Nerve Pills and I took them to please her, not thinking they would do me any good. I had not used half the box when I commenced to feel myself getting better and by the time I had taken two boxes I was completely cured and can recommend them to all sufferers from heart trouble."

Price 50 cts. per box or 3 for \$1.25, all dealers, or

THE T. MILBURN CO., Limited, TORONTO, ONT.

on King and Yonge-streets was struck out, as it was decided that the owners of the property should pay for the work.

The total amount of the works estimates was \$180,000, on which a total of \$7000 was made, and the estimates for the waterworks branch amounted to \$1,142,802, which went thru without objection, a number of items being referred to the Park Commissioner, the City Treasurer and the chairman of the Board of Works to ascertain the department the expenditure should properly be charged. This sum included the amount to be voted on in the waterworks bylaw.

CHEMIST'S REVENGER.

Paris, Feb. 19.—A chemist who had borne for a long time with the impudent curiosity of the hall porter, who regularly detained his letters out of curiosity and read them, conceived a very ingenious scheme of revenge which simultaneously proved the guilt of the porter and punished him for his prying.

The chemist posted, addressed to himself, a large package of papers, and sat calmly in his laboratory to await developments. These were not long in arriving. The inquisitive hall porter steamed open the packet, and to his astonishment read the following message:

"I have caught you in the act! You cannot deny your indecent curiosity. Shall I denounce you to the police, or will you confess your guilt, and you may throw this into the fire. The frightened conjurer did so, and then the chemist's revenge was complete, for no one could find the letter in the room, and there was a deafening boom from a poisonous explosion, which filled the room with poisonous fumes and flung the unhappy man on his back half dead with fright."

The paper had, of course been chemically prepared to meet any change in the weather. Ten thousand dollars was appropriated, four-fifths of which has been already spent.

On for Europe.

Mr. A. F. Webster, general agent for the Cunard Line, reports having booked tickets to sail for England the following Dominionists: Mr. A. E. Henderson, Mr. H. S. Magee, Mr. D. P. Moore, Mr. Frank W. Robertson, Mr. H. H. Davis, Mr. W. A. K. Hoyle, Mr. G. M. Nerlich, Mr. A. A. Gilroy, Mr. P. J. Newton, Mr. E. Hutchinson, Mr. N. W. Hoyle, Mr. H. D. Little.

ELECTRICITY IS LEE.

Your Chance to Obtain a Karn Electric Belt at our Special Advertising Price of \$5.00

READ OUR SPECIAL OFFER.

THE KARN BELT

At the hothouse unheard-of price of \$5.00 is the greatest Electric Belt value ever offered.

LEADING JAP GENERAL.

All of Tried Experience in Active Service.

The general who was leading the Japanese armies against Russia are men who have proven their skill and efficiency. They have seen actual service, and have fought over the ground where they now meet the Russian.

The first on the list in order of service is Field Marshal Yamagata, who is not only first in rank, but also first in the esteem of the Japanese public and in the judgment of the government. He is a veteran of many wars, having begun service in the struggle that restored the Empire to power in 1868. In the following year he visited Russia and France, studying things military. In the following year he was made Lieutenant-General, and two years later Secretary of War.

The next name on the list is that of a general who was leading the Japanese armies against Russia are men who have proven their skill and efficiency. They have seen actual service, and have fought over the ground where they now meet the Russian.

When war started with China in 1894 Yamagata was immediately promoted to the rank of the first army that invaded Manchuria. These were the wars that at the time describe the immense enterprise and which the coming of the great general was greeted by his soldiers as a Manchurian winter rapidly receding. Yamagata is such a general, the Emperor, fearful of losing altogether his active share in the development of his army. Three various official positions such as Inspector-General of the Army, Chief of Staff and Secretary of War he kept himself in close touch with all parts of the army organization.

When war started with China in 1894 Yamagata was immediately promoted to the rank of the first army that invaded Manchuria. These were the wars that at the time describe the immense enterprise and which the coming of the great general was greeted by his soldiers as a Manchurian winter rapidly receding. Yamagata is such a general, the Emperor, fearful of losing altogether his active share in the development of his army. Three various official positions such as Inspector-General of the Army, Chief of Staff and Secretary of War he kept himself in close touch with all parts of the army organization.

When war started with China in 1894 Yamagata was immediately promoted to the rank of the first army that invaded Manchuria. These were the wars that at the time describe the immense enterprise and which the coming of the great general was greeted by his soldiers as a Manchurian winter rapidly receding. Yamagata is such a general, the Emperor, fearful of losing altogether his active share in the development of his army. Three various official positions such as Inspector-General of the Army, Chief of Staff and Secretary of War he kept himself in close touch with all parts of the army organization.

After the war Yamagata was made a marquis and the new military rank of field marshal. The active interference of Yamagata, backed by France and Germany, which deprived Japan of the fruits of the victory, led the government to try to come to some understanding with the United States and the United Kingdom to preserve the independence of Korea. Yamagata, as a special ambassador for this purpose, was sent to Washington. He effected the treaty which is the basis of Japan's interest in Korea. He was promoted to the rank of field marshal in 1901, being a major-general in the navy and organized into a Supreme Council of War.

Of this Yamagata was made chief, a position which he still holds. Considering the season of the year and the fact that he is over 60 years old and rather frail, it is difficult to imagine that he will take the field in person, but in any case he occupies much the same place in this war as Von Moltke did in the Franco-Prussian conflict.

There is no one who will divide this honor and responsibility with him. Field Marshal Oyama, who is associated with him in the Council of War, has steadily risen in the military organization of Japan with Yamagata, and if the latter has been the chief, Oyama has been his right hand. Like Yamagata he began his career in the ranks of the Restoration. In 1872 he was promoted major-general and in 1875, where he spent three years studying military science. Returning in 1877, he was made Vice-Minister of War, a position which he held until his resignation by his skillful conduct of operations in the rebellion of the great Satsuma.

In 1879 he was promoted Lieutenant-General. Two years later he was promoted Major-General. In 1883 he became chief of the general staff from this time until the outbreak of the war with China, he occupied various positions in the cabinet, being a member of the Council of Ministers. In 1890 he was made full general—a rank then held only by himself and Yamagata. When war started he was given the command of the Second Army of Invasion. Being five years younger than Yamagata and more energetic he proved fully equal physically to the task that resulted in the extensive campaign of the Russo-Japanese War.

The military operations of the Russo-Japanese War were conducted with which Oyama conducted the operations with which gallantly with which he took redoubt after redoubt, until finally he was ordered to retreat. His great fortress excited the admiration of experts, naval and military. Cutting off the rear of the Chinese forces of 200,000 men, he swept the Chinese forces out of Manchuria, and with the aid of the navy captured the Chinese fleet within the bay. The war was quickly destroyed or captured. Oyama, returned from the war full of honors, was made chief of the staff and promoted to the rank of field marshal. In 1901 he was made full general—a rank then held only by himself and Yamagata. When war started he was given the command of the Second Army of Invasion. Being five years younger than Yamagata and more energetic he proved fully equal physically to the task that resulted in the extensive campaign of the Russo-Japanese War.

After Yamagata and Oyama, the most conspicuous military man in Japan is General Nogi, who succeeded Oyama in the first command of the army of invasion in the Russo-Japanese War. Like the others, he began his career in the ranks of the Restoration, in which he served as captain. The operations in which he took part were the Russo-Japanese War. In 1880, in an extensive tour of military inspection in Europe and America.

Upon his return, he was promoted Lieutenant-General and placed in command of the Fifth Division. When war started with China he was given the command of the division. He was promoted to the rank of field marshal in 1901. He was given the command of the division. He was promoted to the rank of field marshal in 1901. He was given the command of the division. He was promoted to the rank of field marshal in 1901.

With this army Yamagata crossed the Yalu River and landed Manchuria, but he was repulsed and returned to Korea. Nogi was given the command and promoted to the rank of general. In a very bold and difficult winter campaign he pushed his way across the southern part of Manchuria, defeating the Chinese before him and beating them whenever they attempted to meet him. When he reached Niuchwang, where a great battle terminated the campaign.

For his conduct in this war, General Nogi was decorated, made a count, pensioned and honored in various ways. He was the enthusiastic and recognized leader of the army. The country was divided into three military divisions, Eastern, Middle and Western, and General Nogi has and command of the Eastern Division. He is still in active command, and it is not improbable that he will take the field against Russia.

If neither of the three men who commanded armies in the war with China were to die, it would seem that the whole would naturally fall to one of the Heutenants-General, the most conspicuous in the Russo-Japanese campaign. The first of these is General Katsura, who is now in present in the rank of lieutenant-general. He was 20 years old at the time of the restoration and served as a staff officer. He was promoted to the rank of general in 1894. He was given the command of the division. He was promoted to the rank of field marshal in 1901.

He remained for several years. Upon his return he was made Lieutenant-General and appointed Director of the Army Intelligence Bureau. He was also made a member of the Council of Ministers. In 1890 he was made full general—a rank then held only by himself and Yamagata. When war started he was given the command of the Second Army of Invasion. Being five years younger than Yamagata and more energetic he proved fully equal physically to the task that resulted in the extensive campaign of the Russo-Japanese War.

Later, at a time of particular political stress, he was invited by the Emperor to form a cabinet, and he succeeded. He remained for several years. Upon his return he was made Lieutenant-General and appointed Director of the Army Intelligence Bureau. He was also made a member of the Council of Ministers. In 1890 he was made full general—a rank then held only by himself and Yamagata. When war started he was given the command of the Second Army of Invasion. Being five years younger than Yamagata and more energetic he proved fully equal physically to the task that resulted in the extensive campaign of the Russo-Japanese War.

Of all the financial institutions of Canada receiving money on deposit, only three have a paid-up Capital as great as that of the Canada Permanent Mortgage Corporation, Toronto-street, Toronto.

A deposit account with this exceptionally strong institution may be opened with one dollar. Interest compounded half-yearly.

MARKETS CONTINUE DULL BUT CHANGES ARE NARROW

Bad Foreign News Exerts Little Influence on New York—Canadians Unchanged.

World Edition, Feb. 19. Easier money conditions are being expected at Montreal and Toronto, but the reaction of war news and political events preventing any activity in the stock markets. Today's local market was practically a repetition of that for a week past. A few sales were made, but they were insignificant and betrayed no important changes. The C.R. was the heaviest feature, closing at 117, but it is remarked that this stock went down at the opening, it did not seem to be a sign of anything. Under the influence of the war news, the market was rather flat, but the C.R. was the heaviest feature, closing at 117, but it is remarked that this stock went down at the opening, it did not seem to be a sign of anything.

At Boston today Dominion Coal closed 1 1/2, asked 1 3/4, and Dominion Steel bid 1/4, asked 1/2.

No definite news yet being taken on Pennsylvania tunnel, but indications are some bids now being considered.

Further reduction in grain rates east and west reported and situation getting into shape where it will demand attention from largest officials.

Some doubts as to whether Consolidated Gas will receive all privileges expected from city administration.

Reports of an intention to combine Union Pacific, Illinois Central and Alton after a long time in Northern Securities case is handled down as far as it is concerned.

Measure introduced in Albany would without compensation and will enable company to drop transfer privileges to 50th street.

Eighteen roads, second week February, show average gross decrease of 7 per cent.

J. L. Campbell & Co.'s London cable today quoted Hudson Bay shares at 129 1/2.

Banks gained \$700,000 from sub-treasury since Friday.

Stocks received \$100,000 from the sub-treasury and sent to interior \$75,000, a gain of \$25,000.

Monday, February, Bogle and Hubbard, strong and strong arguments and other traders buying Leominster.

There was further selling of Erie on the knowledge that it was to be sold in February, but the market was rather flat, and the Erie was the heaviest feature, closing at 117, but it is remarked that this stock went down at the opening, it did not seem to be a sign of anything.

Spec line has financed its extension by sale of 20 million of new four per cent. bonds, guaranteed as to interest by Canadian Pacific, and authorized at rate of \$200,000 per week, covering over \$1,000,000 of great prospectivity and also monthly dividend.

Joseph says: "I will continue asset. Special movements are being made. The market is rather flat, and the Erie was the heaviest feature, closing at 117, but it is remarked that this stock went down at the opening, it did not seem to be a sign of anything."

The U.S. Steel Corporation will complete its third year Monday. The net profit for the 26 months will aggregate \$20,000,000. This is an average of \$760,000 per month, covering over \$1,000,000 of great prospectivity and also monthly dividend.

Expectations seem to prevail that North American Securities are to be sold. The market is rather flat, and the Erie was the heaviest feature, closing at 117, but it is remarked that this stock went down at the opening, it did not seem to be a sign of anything.

Herb, Feb. 19.—Prices on the Toronto stock market were somewhat during the first hour, but later were affected by rumor from Paris that Port Arthur had fallen.

Cable from London—British and Chinese paper, but the market was rather flat, and the Erie was the heaviest feature, closing at 117, but it is remarked that this stock went down at the opening, it did not seem to be a sign of anything.

Northern Securities has developed a decidedly strong case for the sale. The market is rather flat, and the Erie was the heaviest feature, closing at 117, but it is remarked that this stock went down at the opening, it did not seem to be a sign of anything.

In the opinion of local traders, the amount of liquidation required for the sale of the Erie is not so great as was supposed. The market is rather flat, and the Erie was the heaviest feature, closing at 117, but it is remarked that this stock went down at the opening, it did not seem to be a sign of anything.

Charles Head says: "The market is rather flat, and the Erie was the heaviest feature, closing at 117, but it is remarked that this stock went down at the opening, it did not seem to be a sign of anything."

Weekly Bank Clearings. The aggregate bank clearings in the Dominion for the past week, with the usual comparisons, are as follows:

Montreal	\$15,484,440	\$17,774,518	\$17,292,824
Toronto	12,442,137	12,808,885	13,747,928
Windsor	3,072,927	3,250,285	3,213,544
Hamilton	1,445,574	1,529,671	1,422,448
London	1,014,954	1,082,214	1,077,972
