Thirty Attacks In Five Days By French To Break German Lines

Terrific Efforts to Oust Kaiser's Army at Aisne and Oise Rivers Where Von Kluck's Position Causes Some Anxiety

Paris, March 1.—Terrific efforts are being made by the French to break the German lines in the Champagne district in order to force a retirement of the Kaiser's forces between the Aisne and Oise rivers. In the last five days, at least thirty attacks have been made by the French against the German lines between Souain and Seron, north of Perthes, Beausjour and Lesbures.

The German armies lying in the angle formed by the junction of the Aisne and Oise rivers, will continue to be a menace to Paris until they are forced to retire. These armies are only forty miles from Paris, and if General Von Kluck could pierce the French lines with a sudden movement near Soissons, he could not only drive in the direction of Paris, but could split the entire French force in two. The French War Office regards the fighting in Champagne as being of vital importance as shown by the special pains taken to enumerate small gains.

West Flanders the Belgians are continuing their activity against the extreme German right, using both infantry and artillery in their attacks. Heavy artillery fire is reported from the district northeast of Amiens and south of the Lys, as well as from the valley of the Meuse.

In the Voignes mountains, the struggle for strategic points is becoming fiercer. The Germans have been reinforced with Landsturm forces united from southern Belgium where they had been used as patrols and guards for the lines of communications.

Canadians in Hospital.
London, March 1.—Recent entrants at the Shorncliffe Hospital are Corporal John Jacques, Privates Bristowe, Rooks, Jordan, all sick and Private Snyder, wounded, of the Patricia and Corporal Devre of the Canadian Engineers, sick. The hospital authorities also expected five more last night.

Ottawa, March 1.—While the news is filtering through slowly, what has come is of a character to confirm the report of the Canadians having been in active engagements at the front. That they have at least got on the firing line is a cause of much satisfaction here.

Arrangements are about completed for the second division. When it will go cannot, of course, be indicated, but the movements suggest that it will not be long delayed. For the third contingent officers are being selected and the force is in process of enlistment.

GERMANS ADMIT LOSSES GREAT.
London, March 1.—The correspondent of the Daily Mail at Copenhagen wires: "Seven more lists of Prussian casualties are published. They contain the names of 11,618 officers and men killed, wounded or missing and bring the total of the Prussian casualties up to 1,102,212. To these must be added 150 Bavarian, 115 Saxon, 125 Wurttemberg and 19 naval lists."

Austrian Report.
Vienna, March 1.—The following official communication was issued today: "In Poland and Western Galicia there has been only artillery fighting. On the Carpathians in the region of Wyssok and also south of the Danister, fighting continues."

CHARGED WITH SENDING IN FALSE FIRE ALARM.
Fred Ross, who was arrested by Detective Killen on Saturday on a charge of ringing in a false alarm from Box 233 Wright street, was before Magistrate Ritchie in the police court this morning, and remanded to jail. Mrs. Ida B. Morrison testified that she saw him standing about on the evening in question and later saw him go over and put his hand on the box, after which the alarm sounded. He then hurried down the street, she said. The fire apparatus arrived from another direction. Chief Blake of the fire department testified about answering the call and found it a false alarm. As a result of information he received he notified the police and the arrest followed.

The defendant was detected several months ago by the late special patrolman O'Leary at a box on Smythe street when a false alarm was rung in.

FOR THE BELGIANS.
Mayor Frink has received for the Belgian fund the following contributions:—E. W. Spiney, South Knowlesville, per J. H. Barnett, Hartland, \$5; proceeds concert and pie social, Cornhill Division, number 376, per Arthur D. House, \$80.75; proceeds dance, ladies of Bath, N. B., per C. P. Furlong, \$30.20.

WEATHER BULLETIN.
Issued by authority of the Department of Marine and Fisheries, R. F. Stewart, director of meteorological service.

Moderately Cold.
Maritime—Fresh west to northwest winds, fair and moderately cold today and on Tuesday.

New England forecasts—Fair tonight and Tuesday, moderate northwest winds.

STEGLER'S WIFE NOW ARRESTED

Charge Is Assault on German Reporter

A Trap, She Declares—A New Phase of New York's Sensational Passport Fraud Case

New York, Mar. 1.—A young woman, who, according to the police, gave her name as Mrs. Annette Stegler, and is described by them as the wife of Richard P. Stegler, a prisoner in the Tombs in connection with alleged passport frauds, was arrested early today on a charge of felonious assault made by Arthur Matekiet.

The arrest was made in the Hotel Grenoble. Matekiet, who is said to be a reporter on a German newspaper, charged that the woman attacked him with a silver water bottle and also beat him with a cane.

Mrs. Annette Stegler has appeared prominently in the passport fraud charges in the defense of her husband, Richard P. Stegler. It was through her influence, she said, that Stegler gave up the idea of being a German spy and ceased him to make a confession in which he alleged that Captain Boyd, the German naval attaché, was behind his activity for the German cause.

The young woman said that she considered she had been trapped; that a woman friend of hers, Anna Hoffman, had called her up by telephone and made an appointment to meet her in the evening as she had something important to communicate.

When they met, she said, her woman friend was accompanied by two well dressed young men, who invited her in to their suite and later, she said, they went to the hotel for dinner. When Matekiet began questioning her regarding the passport fraud case a row occurred.

The young woman requested that Charles Griffith, who is counsel for Richard P. Stegler, be sent for. The police learned that during the night Matekiet several times called a German newspaper on the telephone and spoke to some person in German.

Mrs. Richard Stegler was discharged from the police station and she is expected to be released in a few days.

FORGING OF DARDANELLES SENDS WHEAT DOWN WITH A RUSH IN CHICAGO

Chicago, Ill., March 1.—Wheat prices made a sensational downward plunge today as a result of news that fifteen miles of the Dardanelles had already been forced, and that apparently the release of vast stores of Russian grain was only a question of short time, possibly not more than a fortnight.

The market standing after the news given to the fact that the Liverpool market showed an advance instead of a decline.

The rush to sell here was such that in some cases 61-3 cents of a break took place. The market for wheat in Chicago after a short illness. The market took quotations as a whole varied from 21-3 to 21-8 under Saturday night, with the market standing after the news about 81-4 lower than Saturday's final figure.

HOUSES SOLD BEFORE THEY ARE COMPLETED.
Armstrong & Bruce have sold the two new dwellings which they are erecting in Portland Place, thirty days before the completion of the buildings. The purchasers are local men who will each occupy a flat in the house they have bought.

LITTLE ONES DEAD.
Friends of Mr. and Mrs. William White of Main street, will sympathize with them in the loss of their two-year-old son, which took place on Saturday afternoon at 10 o'clock. The funeral will take place this afternoon. Burial services were conducted by Rev. J. C. B. Appel, and interment took place in the Methodist burying grounds.

The many friends of Mr. and Mrs. Michael Kelly, Pleasant Point, will regret to hear of the death of their only year-old child which took place this morning. The funeral will take place Tuesday afternoon.

PATRIOTIC FUND.
Subscriptions to the Canadian Patriotic fund from some of the employees of F. H. Estabrook & Co. are acknowledged by C. B. Allan for January and February, as follows:—H. L. McCavour, \$2.50; L. H. Hanson, \$2.75; A. J. Simmons, \$1; J. W. Simmons, \$1; J. D. Garrett, \$2.50; H. O'Dell, \$1; F. S. Dinje, \$1.15; Frank R. LeClair, \$1.05; Harold Dick, \$2.00; A. A. Carrick, \$1; A. Murphy, \$1.50; John Bewley, \$2.50; Thos. Daley, \$1; Edw. Mulahy, \$2; Murdoch Lamb, \$1; Les. Jones, \$1; Geo. Gallagher, \$1; Jos. Kelly, \$1; W. R. Miles, \$1; Leo Merritt, \$1; total \$37.45; P. B. Ellis, \$5; Mrs. F. B. Ellis, \$5, monthly.

TUG KITCHENER SAFE.
Advises received today said that the tugboat Lord Kitchener which had been reported overdue at Lunenburg, was safe in Barrington Passage, near Cape Sable.

SELLING AT AUCTION.
The stock of W. B. Fairweather, King Place Sunday afternoon at 2:30 o'clock from the residence of her sister, Mrs. H. Nobles, after which interment took place in Cedar Hill.

The funeral of Sarah Farry took place this afternoon at 2:30 o'clock from the residence of her sister, Mrs. H. Nobles, after which interment took place in Cedar Hill.

The funeral of William Lawton took place this afternoon at 2:40 o'clock from the Union depot, upon the arrival of the train from Hampton. Interment took place in Fernhill.

Australians Fighting In Egyptian Trenches

The war in the shadow of the Pyramids—Australian soldiers of the British colonial troops, lying in trenches in Egypt.

ALLIES' WARSHIPS ARE 15 MILES UP THE DARDANELLES; TREMENDOUS STIR IN NEAR EAST

London, March 1.—The flags of Great Britain and France are now flying at the entrance to the Dardanelles over Turkish forts reduced by the seapowers of the allies.

While it would appear that the allied fleets, fifteen miles from the Mediterranean, the British press warns the public not to expect the immediate fall of Constantinople, nevertheless, the operations of the British and French warships, against the sea defences of Constantinople are creating a tremendous stir in the near east, Brousa in Asiatic Turkey, has been selected by the Turks as their new capital in case it becomes necessary to evacuate Constantinople. The Germans in Turkey, it is declared, wanted the Turks to move to Adrianople, in European Turkey, but the Turks started shipping their archives to Brousa.

PLENTY OF FOOD TO LAST A YEAR STORED IN ENGLAND.
Liverpool, March 1.—Never in the history of this port has the congestion of shipping been so great nor have the Liverpool warehouses ever been so crisscrossed with foodstuffs as at present.

The large number of opinion of importers here that even should the German submarine fleet prove effective there is enough food now stored to feed the country for a year.

A Portland, Me., paper says:—There is a feeling that the greater part and perhaps all the steamships from there will manage to reach their destination and that their cargoes will be added to the wheat and provision reserve in Great Britain. Whatever a steamship sails now there comes reports that two or three British cruisers have been seen off the coast and it is assumed that they are doing patrol duty looking out for the Germans, and that as they are nearing the Dardanelles they are covered by warships, and it may be by British submarines.

The captains of the freighters do not propose to lose a steamer if they can possibly be helped, and they are confident of their ability to run from or to fight a German submarine as the case may be.

MAY AT FUNERAL OF HARRY D. DRISCOLL; A WEALTHY FLORAL TRIBUTE

A large number of sympathetic friends assembled at the funeral of Harry D. Driscoll, which took place from his late residence, in Broad street, this morning. In St. John the Baptist church requiem high mass was celebrated by Rev. W. Donahue. Interment took place in the old Catholic cemetery. Relatives acted as pall-bearers. The funeral cortege was long and impressive.

GERMAN INVASION OF RUSSIAN TERRITORY HAS PROVEN FAILURE

Czar's Men Hitting Terrific Blows at Enemy--Von Hindenburg's Men in Dire Straits in Some Regions

London, March 1.—The Daily Telegraph's correspondent wires from Petrograd:

"It seems no longer premature to assert that the German invasion of Russian soil has definitely failed. The outstanding features of the situation are that the enemy has been forced into the defensive at almost every point along the Niemen-Bohr-Narev; that the centre has been completely smashed in at Przasnysz, and that, on a sector of thirty or forty miles, he is retreating rapidly here and there in disorder.

"Several Russian regiments, which have been following up the Germans day and night, have no detailed reports concerning themselves to the laconic statement that the enemy was returning into the possession of its rightful master at eleven o'clock on Friday night, and that the booty captured it was expected, would be considerable.

RUSSIANS HIT HARD.
Petrograd, March 1.—The German invasion of Poland North of the Vistula, appears to have been completely shattered. The Russians, on the offensive along the entire front from the Niemen to the Vistula, are dealing tremendous blows to the forces of Field Marshal Von Hindenburg.

Official reports here record Russian successes in all sectors. In some the Germans have been driven back eleven miles. In the Przasnysz region, where the troops of Grand Duke Nicholas have driven a wedge into the German centre and are advancing towards the East Prussian frontier again, the Russians are capturing village after village, taking from 500 to 800 prisoners in each. As a result of the fighting of the last five days, more than 18,000 prisoners have fallen into Russian hands. Also the Germans have lost many guns.

The Russian successes in the Przasnysz district have, as was predicted, forced the retirement of the Germans before Ostrowek, according to the latest reports received here. Before Grodno the Germans are also weakening, and the Russians are making attacks upon their foes. The Grodno garrison is assisting in these operations.

The Germans encountered enormous difficulties on entering Russian territory and they seem to be in dire straits in some regions. Those taken prisoners say that several German corps have exhausted their ammunition.

ONLY TWENTY YARDS AWAY.
Petrograd, Feb. 28.—On official communication describes Russian feats in the recent fighting:

"As a German battery to the southeast of Przasnysz was impeding our offensive," says the statement, "Captain Gouffon sent several armored automobiles under fire in the direction of a hostile battery, and at a distance of twenty yards they killed all the gunners. Captain Gouffon and his men were the very moment his valor had turned the battle in our favor."

RUSSIANS ARE DRIVING TURKS.
Petrograd, March 1.—The following statement was issued last night by the general staff of the army of the Caucasus:

"Our advance forces, driving the enemy before them, have reached the river Khopatschal. There is no change in the situation on the other fronts."

THE PAINTER BU NED; THEY DRIFT TO SEA AND ARE LOST.
Strange Tale of the Deep Is Brought To New York

New York, March 1.—Six members of the crew of the Norwegian tank steamer La Habra, carrying a cargo of benzine, were lost at sea in an open boat which they launched in an effort to escape from flames which threatened their vessel, according to an unusual shipwreck story brought to this port today from Horta, Fayal, by the Holland-American freighter Zaanik.

The fire aboard the La Habra was caused by an explosion of benzine while she was on her way from Talara Bay, Peru, to London, by way of the Panama Canal. The captain ordered the crew to face the boats and stand by. He said that the chief officer and five men were in a boat towing astern, when the painter burned off, and they drifted away without oars in a heavy sea.

The fire was extinguished by giant waves which broke over the ship, and the captain took her safely into Horta on February 7, by dead reckoning, for all his navigation instruments were burned.

EVANGELICAL ALLIANCE MEMBERS DISCUSS CLOSING OF THE SALOONS.
At the monthly meeting of the Evangelical Alliance this morning, the president, Rev. Gordon Dickie in the chair and Rev. J. C. B. Appel as secretary, there was an informal discussion on the matter of temperance, with especial emphasis on the question of having the liquor saloons closed during the period of war. This matter has been under discussion in other parts of Canada. No action was taken by the local body, although it was felt that something should be done to lessen drinking.

Rev. R. C. Allan, pastor of the Reformed Presbyterian church, was introduced to the alliance and given a welcome.

An interesting paper on "The Boy Problem and the Church" was read by C. D. Howard, who was tendered a vote of thanks. His paper evoked favorable comment.

NEVER SO CONFIDENT AS TODAY, SAYS ASQUITH

London, March 1.—Speaking in the House of Commons today, Premier Asquith made the declaration that at no time had the government been more confident than today, that the allies ultimately would achieve victory.

She is a rich and rare land; Oh! she's a fresh and fair land; She is a dear and rare land; This native land of mine. No men than hers are braver; Her women's hearts ne'er waver; I'd freely die to save her; And freely die to love her. She's not a dull or cold land; Not she's a warm and bold land; Oh! she's a true and old land; This native land of mine. Could beauty ever guard her, And virtue still reward her, No foe would cross her border— No friend within it pine. Oh! she's a fresh and fair land, Oh! she's a true and rare land; Yes, she's a rare and fair land— This native land of mine. LILY LAKE The bodies of the horses drowned in Lily Lake were recovered Saturday. The portion of the lake set apart for skating is still in good condition for that pastime.

DACIA AT BREST; HER OWNER MAKES STATEMENT

Brest, March 1—The American steamer Dacia, formerly a Hamburg-American liner, which was captured last week by a French cruiser, and brought into this port, has been towed from the port, and is being towed to the Breton harbor.

OWNER LOOKING TO WASHINGTON

New York, March 1—Official notification of the French government's seizure of the steamship Dacia, formerly of the Hamburg-American line has not been received by E. N. Breitung, owner of the vessel. Mr. Breitung said today "I know our government will, if necessary, ask for reparation due to any American citizen acting within his rights. I know of no correct statement of international law, that can be invoked against the Dacia, and I purpose to demand my rights."

CONGLATIION. (Toronto News.)

I know an ardent clergyman Whose laugh is wondrous bold, He is a mine of jollity As full as he can hold. O can you tell me, gentle, why His life is sweet as honey, When, even after sixty years, He hasn't any money? And look at Boggs, who teaches school, His eyes are full of joy, He never wears a sorry scowl To scare the smallest boy, Indomitable is his soul, Magnificent is his health, How can the fool be cheerful when He hasn't any wealth?

NEWS OF THE WEST

Objections to Raising of the Protective Tariff

THAT IS FARMERS' VIEW

Suggestions to Government by Canadian Council of Agriculture—Regia Matters of Some Importance

Regina, March 1—To provide whatever increased revenue is required to meet existing conditions, out of taxes other than by raising the protective tariff, is the suggestion made to the government by the Canadian Council of Agriculture representing the organized farmers of Canada. At the conclusion of the Saskatchewan Grain Growers' Association's convention at Regina, the executives of the Grain Growers' Association of Manitoba, Saskatchewan, Alberta and other Canadian agricultural societies, which comprise the Canadian Council of Agriculture, held a meeting when the matter of the government increasing the revenue to meet the present contingencies was fully discussed. It was recommended that in order to meet the deficit in the present revenue and eventually to raise the bulk of the national revenue, the system of direct taxation be increased. This system, it was suggested, should be supplemented by a graduated tax on incomes. The stamp tax was approved as a temporary measure. The government was asked to leave free of the free list owing to the present high price of feed.

The council would not recommend the granting of the application of the railways for increased freight rates from Fort William east, which they said would result in lower prices to the grain producers. Other recommendations to the Council of Agriculture were—

That an expert commission be appointed to inquire into the chilled meat exportation.

That a recommendation be made to the government to amend the grain act by a sub-section providing that the charge for selling grain shall be subject to regulation as the board of grain commissioners deemed proper.

That the supervision and control of the weighing of grain in all eastern transfer elevators be under the direction of the commission.

A comprehensive co-operative gardening scheme is being worked out by some Regina business men, who see the present situation a great opportunity to supply garden produce in an advantageous market. This land will be subdivided into five or ten acre plots and men hired to plant and care for potatoes, beets, celery, carrots, and other hardy garden vegetables.

A series of meetings with a view to increasing the interest in the "Patriotism and Production" campaign is now being carried on in Saskatchewan with considerable success.

A real estate deal of some magnitude took place in Regina recently when Mrs. Lorenza B. Dugan purchased four lots in Oiler street at a cost of \$24,000.

A uniform policy in regard to liability insurance throughout Saskatchewan which is likely to go into effect over the whole grain growing area of western Canada was decided upon at the annual meeting of the Saskatchewan Hall Insurance Underwriters' Bureau.

ADDRESS BY CANADIAN Y. M. C. A. BOYS' SECRETARY

Taylor Statten, Canadian National Boys' secretary, occupied the pulpit in Germain street Baptist Church last night and spoke of the boy problem. He urged the churches to unite with the Y. M. C. A. to arrest the waywardness of boys between the ages of 14 to 18 years, which he called the tender age, or the time when they are most susceptible to bad influences.

He spoke of the many advantages of the Y. M. C. A. from physical, spiritual and moral standpoints and of its help to boys. He said that the work is more of a relief work and contended that it should receive sympathy and support from all churches.

More than 1,000 false weights and measures, confiscated by the Department of Weights and Measures during the last few months, afforded fuel for a bonfire on the court house lot in Pittsburgh.

WHAT CATARRH IS

It has been said that every third person is troubled with catarrh in some form. Science has shown that nasal catarrh indicates a weakened condition of the body; that the secretion of the mucous membranes are quickly affected, and local treatments in the form of snuffs and vapors do little, if any good.

To correct catarrh you should treat its cause by enriching your blood with the oil-food in Scott's Emulsion, which is a medicinal food and a building-tonic, free from harmful drugs or opiates. Try it.

SAGE TEA PUTS LIFE AND COLOR IN HAIR

Don't Stay Gray! It Darkens So Naturally That Nobody Can Tell

You can turn gray, faded hair beautifully dark and lustrous almost overnight if you'll get a 50 cent bottle of "Wyeth's Sage and Sulphur Compound" at any drug store. Millions of bottles of this old, famous Sage Tea Recipe are sold annually, says a well-known druggist here, because it darkens the hair so naturally and evenly that no one can tell it has been applied.

Those whose hair is turning gray, because coming faded, dry, scraggly and thin have a surprise awaiting them, because after one or two applications the gray hair vanishes and your locks become luxuriantly dark and beautiful—all dandruff goes, scalp itching and falling hair stops. This is the age of youth. Gray-haired unattractive folks aren't wanted around, so get busy with Wyeth's Sage and Sulphur tonight, and you'll be delighted with your dark, handsome hair and your youthful appearance within a few days.

ALL NOT WELL IN TURKISH CAPITAL

London, March 1—A Constantinople despatch to The Morning Post states that the Sultan has everything packed up ready for an immediate departure into his Asiatic domains.

There is only two months' supply of coal in the city, it is said. No white bread is obtainable, and only black Anadolion flour, 11-ground and mixed with potato meal, is available. A few English people have been arrested and sent across the Bosphorus.

Andrew Platke of Hammond, Ind., weighs 121 pounds. He hates to be reminded of the fact, so, to establish his standing among bigger men, he wagged that he could carry a sack weighing 127 pounds a distance of five miles without pausing or shifting the burden. The scales were "fixed" and, unaware of the excess weight, Platke carried 141 pounds over the route.

ACHING BONES AND SORE JOINTS CURED! ALL RHEUMATIC TENDENCIES DESTROYED!

Away Go the Crutches—Every Sufferer Made Well Quickly

Old age is usually afflicted with rheumatism. Very few past fifty escape its tortures. Many it bends and deforms. Upon the countenances of others it marks the effects of its awful suffering. Nervine will cure rheumatism. It takes the pain out of throbbing muscles and swollen joints. It unites grinded knuckles. It does this quickly and surely.

Nervine is not used internally. You just rub it on—lots of hard rubbing is required for a minute or two, and then you feel Nervine penetrating through the tissues; you feel it drawing out the congestion, feel it sink in deeper and deeper till at last it touches the core of the joint or the heart of the muscle affected.

You won't stay in pain with Nervine—no one ever does. Just try it—you will be amazed at its magical power. Over pain, a power it gets from the extracts and juices of certain rare herbs and roots it contains. It's harmless—any child can use Nervine, can rub it on for a sore throat, for a bad cold, for stiff neck, for earache. No family remedy half so useful.

The large 50 cents bottle is the most economical; trial size 25 cents. At dealers. It unites grinded knuckles. It does this quickly and surely. Nervine is not used internally. You just rub it on—lots of hard rubbing is required for a minute or two, and then you feel Nervine penetrating through the tissues; you feel it drawing out the congestion, feel it sink in deeper and deeper till at last it touches the core of the joint or the heart of the muscle affected.

There also is considerably increased activity in the pottery, glassware, transportation and woodwork industries.

RECENT WEDDINGS
Milton Steeves
On February 17, at Edgett's Landing Miss Maude E. Steeves, daughter of Mr. and Mrs. Seymour Steeves was united in marriage to Earl Milton, son of Mr. and Mrs. Beatty Milton.
McDonald-Banks
On last Thursday afternoon at the reformed Baptist parsonage, Fredericton, Lorne A. McDonald of Maryville and Miss Phoebe Agnes Banks, of Durham Bridge, were married by Rev. S. A. Baker.

The St. John Evening Times is printed at 27 and 29 Canterbury Street every evening (Sunday excepted) by the St. John Times Printing and Publishing Co. Ltd., a company incorporated under the Joint Stock Companies Act.

THE WAR NEWS

Today's news confirms the impression that the German invasion of Russian territory has resulted in failure. The Russian armies are again on the offensive along the whole line.

arms in complete readiness, with also a splendid system of strategic railways. They had been preparing for years, determined that when the proper time came they would not be lacking either in trained soldiers or in equipment.

Comparatively little news has come during the last few days from the battle front in Belgium and France. The Belgian army has been reorganized and re-equipped, and is again a formidable foe of the Germans.

The American steamer Dacia has been captured by a French cruiser and taken into the French port of Brest. The Wilhelmina has been thrown into a prize court in Britain.

THE GIVING SPIRIT

A very decided growth of the giving spirit is one of the results of the war, and one which it may be hoped will not terminate when peace is declared.

A correspondent of the New York Evening Post is unable to explain the attitude of those German-Americans who are so eager to witness a German triumph in this war.

Thus far during the great struggle, which has convulsed Europe and a portion of Asia and South Africa for seven months, the people of Canada have not had the horrors of the war brought home to them as they will from this time forward.

ARMS AND MEN

Chancellor Lloyd George said on Saturday that "while England had enrolled the largest volunteer army ever gathered in any country or in any century it ought to be larger still."

Mrs. Eliza, wife of William Stephenson of Chatham, died on Friday at the home of her parents, Mr. and Mrs. John Hutchison, of Douglastown.

MAGIC BAKING POWDER advertisement with logo and product image.

LIGHTER VEIN

Mistress (getting ready for reception)—How does my new gown look in the back, Nora?

Benevolent Individual—Yes, sir I hold that when a man makes a little extra money his first duty is to make his wife a present of a handsome dress.

"Even animals show their feeling," remarked the comedian to a friend. "Only yesterday an animal showed me gratitude. I was wandering along a stream in the country when I met a cow in great distress. Her calf was drowning. I plunged in the water and rescued the calf, and the grateful cow licked my hand."

Gloom (in restaurant, having waited fifteen minutes for his soup)—Walter, have you ever been to the zoo?

Too Tame. At a dinner dance, after the maxixe, the girls partner, a bespectacled young man, said to her: "Let's go and walk in the sunken garden."

"I don't like to go into the garden," the girl said shyly, "without a chaperon."

"Oh, we don't need a chaperon, I assure you," said the bespectacled young man.

"Then," said the young girl, "I don't want to go into the garden."

ADDRESS OF TOWN PLANNING

EXPERT ADAMS IN HALIFAX

(Halifax Echo, Thursday).

How Halifax and all the other cities and even the smaller towns of Nova Scotia could successfully adopt the system of town planning was told in a most interesting and convincing manner by Thomas Adams, expert adviser to the Dominion Commission of Conservation in his lecture on the subject last night in the Legislative Council Chamber to a large number of representative citizens.

Mr. Adams pointed out that a re-planning of what exists in Halifax might be very desirable but it would be very costly. The question was not of spending money today (except in the preparation of plans and an application to the authorities); the question was merely that of seeing that the future expenditure of money in the development of our city was so conducted as to ensure healthful conditions and sensible yet artistic buildings and streets. Changes in the re-planning of the centre of Halifax would have to be a matter of gradual process. It was for the areas that were practically undeveloped that the first plans should be made. The cost of preparing an application would not be heavy. The services of representatives of the Commission of Conservation would be available to advise in the matter.

In order that property interests might be thoroughly safeguarded it would be

Twitching of the Nerves Broken-down System

Now Entirely Cured—Never Used Any Medicine With Such Benefit as Dr. Chase's Nerve Food.

Headaches, sleeplessness and nervousness are often very disagreeable, but when your nervous system gets into such a condition that the nerves twitch and jerk, and you have peculiar nervous sensations come over you there is cause for grave alarm.

Everybody decries the thought of paralysis or locomotor ataxia. Nothing is worse than helplessness. Sometimes it is helplessness of body, and at other times the mind is affected, which is far worse.

The writer of this letter did not know what to expect, but fortunately he used Dr. Chase's Nerve Food in time to head off danger, and

writes that she was entirely cured of the old trouble. The last paragraph proves that the cure was lasting.

Mrs. John McKellar, 11 Barton street east, Hamilton, Ont., writes:—

"I was injured some years ago, and that left me with a broken-down nervous system. I could not sleep, and suffered from twitching of the nerves and disagreeable nervous sensations. I then began using Dr. Chase's Nerve Food, and can say that I never used any medicine that did me so much good; in fact, I am entirely cured of my old trouble. The Nerve Food not only strengthened the nerves, but also built up my system in every way."

Under more recent date Mrs. McKellar writes confirming her cure, and states that she has had inquiries from many people who had heard of the great benefits she obtained from Dr. Chase's Nerve Food.

Dr. Chase's Nerve Food, 50c a box, \$ for \$2.50. At all dealers.

advisable to have some court of appeal, empowered by provincial authority so to act, which would be neutral and disinterested and therefore able to give a just decision on any matters of serious nature.

The rural population of Nova Scotia decreased of late by 23,000 and the urban had increased by 56,000. Why should the city be unhealthy? Why take the people back to the land? Why not rather take the land back to them? Why not regulate so that future lines of development may be ordered and not hazardous and for the health and general good of all the people?

ANOTHER EFFORT TO SMUGGLE IN COPPER

Rotterdam Customs Officials, However, Discover Hidden Cargo

Rotterdam, March 1.—The Rotterdam customs officials and river police today discovered and frustrated a carefully planned attempt to get a copper cargo into Germany by way of the Rhine.

Last week the Rhine boat Hannah took on board under the surveillance of the customs authorities two thousand tons of phosphate from the super-phosphate factory at Permiz, and today the vessel should have started on her journey up the Rhine. Just before she was to start, however, the police and customs officials boarded the vessel and made a surprise search. They had not gone far with the work when they discovered a large quantity of copper concealed under the phosphate. In one hold alone there was three thousand pounds of copper, apparently being exported to Germany contrary to law.

The ship was therefore held up for a complete search and the copper has been seized. It is believed it was transferred from a tug to the Rhine boat last Thursday. The police are taking depositions. Several people are believed to have been connected with the affair.

CANADA'S TRADE

For the month of January, Canadian exports, for the first time in years, were practically equivalent to the imports, and the balance of trade has now almost got to the stage where it is in favor of Canada.

Total imports for the month amounted to \$80,988,881, a decrease of a little over \$10,000,000, as compared with January of last year. Total exports amounted to \$80,890,887, an increase of approximately \$1,000,000, as compared with January of last year.

For the ten months of the fiscal year the total trade in merchandise amounted to \$762,478,847, a decrease of \$171,000,000, as compared with the corresponding ten months of the previous fiscal year.

For the twelve calendar months of the year ended with January last, the total trade of Canada was \$808,094,478, as compared with \$1,118,428,820 for the preceding twelve months.

ST. JOHN'S EXTRA \$300,000 NOT FOR WAR BUT TO MEET GOVERNMENT'S EXTRAVAGANCE

Hon. Dr. Pugsley Makes Clear His Position in Criticism of Public Works Expenditure—Condemns Dilly-Dallying Over Partridge Island Breakwater Extension and Courtenay Bay Spur Before War and Neglect of More Important Breakwater Eastward from Island Resulting in Making New Wharf Practically Useless This Year—Should Not Call for Special Taxes to Keep Up Full Expenditure in Public Work.

(Daily Telegraph). Hon. William Pugsley, representative of the city of St. John in the house of commons, arrived in the city on Saturday to spend the week-end and will return again this evening to resume his parliamentary duties. When his attention was called to deliberate misrepresentations of his attitude on the matter of harbor expenditures here and other matters by the Standard in what purported to be despatches from Ottawa, Hon. Dr. Pugsley said: "The reports in the Standard only give a portion of my remarks on the budget. I was dealing particularly with the undeniability of increasing the taxes upon the people of Canada at the present time when conditions throughout the country are very unsatisfactory. The times being hard and when the whole people are making contributions to the full extent of their means various funds necessitated by the war such as the patriotic fund, the Belgian relief and the Red Cross work and other worthy objects. I stated that the government was improperly describing the increased taxation in such a way as to imply that they were seeking to impose it for the purpose of making up the difference between current revenue and expenditure. The minister of finance having stated that the whole of the \$100,000,000 to be voted for war purposes was to be borrowed from the imperial government. Saving Higher Taxes. "I endeavored to show that if the government would exercise the same prudence which the various cities and municipalities were exercising and curtail the expenditure for the coming year within reasonable limits it would not be necessary to resort to special means of taxation. It was in this connection I stated that if all the public works throughout the country were cut to one-half it would be better than the imposition of so heavy a burden of taxation upon the people. I had been asked if I was in favor of the expenditures at St. John should be reduced also to which I replied in the affirmative, stating I was in favor of the country and that I would be a coward if I were afraid to stand up in my place and say so. "Anyone who gives the subject consideration will, I think, agree that it is not the part of prudence to ignore special taxes in order to carry on public works which have hitherto been paid for out of current revenue. If the course which I advocated were adopted a very large amount of public work could still be performed both at St. John and other parts of Canada and a reasonable expenditure made on necessary public buildings and when the war is over all the public work could again be prosecuted with full vigor. "In considering whether my proposal is a reasonable one it must be borne in mind that these proposed special taxes and tariff increases are going to be levied very heavily on the people, not only because of the amount which will be actually levied but by the greatly increased cost of living which will be brought about by the changes in the tariff which is an exceedingly protective in its character. Out of the \$300,000 proposed to be raised the city of St. John will be asked to pay to the extent of \$300,000 while the increased cost of living produced by the tariff increases ranging from 25 to 100 per cent. will call upon the people of St. John to be called upon to bear will amount to several times as much. "The province of New Brunswick whose population is about one-twentieth of the whole dominion will be asked to contribute to the extent of \$1,500,000 besides bearing the additional burden caused by the high tariff on the necessities of life. Under the new tariff, the people will remember, that there is an increased duty ranging from 25 to 100 per cent. on nearly everything they eat and drink. In the case of the farmer the extra tariff is placed on all agricultural implements, carriages, and with respect to fertilizers which are needed to enrich the farms and furnish food for plant growth the duty has been increased 100 per cent. Under these circumstances I think the people will not wonder that the proposed increase of taxes is receiving the strenuous opposition of the Liberals in parliament. Labor's Small Share. "It has been said by some people in communities which are interested in public buildings and by Conservatives in the house that when times are hard that public works should be carried on as when times are good, or even at greater extent, because they have the effect of making employment for good many people. This is only partially true because by no means the whole or even the greater part of these expenditures go to the employment of labor. For instance returns now before parliament show an expenditure on St. John harbor for the year ending March 31, of \$3,000,000. It has been stated by the contractors themselves that as many as 900 men have been employed on the harbor work. If their figures are correct, of which I have no means of knowing, then in the 300 working days with an average wage of \$2 a day, the laboring men earned only \$540,000 out of a total of \$3,000,000. "Of the remainder a large amount is represented by the purchase of pine from the Southern States which the contractors were allowed to use instead of being obliged to follow the specifications prepared while I was minister, providing for the use of native timber. Another large amount is represented by cement and other materials brought here from outside, while there is also a large amount charged to interest on investment in plant and contractors' profits. "The great question, however, is whether it is desirable to go slowly in the public works throughout Canada during the war or whether it is desirable to impose these extra heavy burdens upon the people which could be avoided by pursuing what I think is the most prudent course. New Wharf Useless. "I notice," went on Dr. Pugsley, "that the Standard on Saturday also gives a report of my conversation with the minister of public works across the floor of the house with reference to the extension of the breakwater to Partridge Island, but it makes no reference to the fact, which must be well known to the Standard, that although the vote for this work has been a long time in the estimates and although it was called many months since tenders were being made, no contract has been let. "The same is true with reference to the Spur line to Courtenay Bay. If it was really intended by the government to go ahead with these two works there is no reason to suppose why they were not commenced a considerable time before war broke out. "While speaking of harbor improvements I may say there is a very important work provided for in the plans when I was minister, and which I think of much greater importance than the extension to Partridge Island. I refer to the building of a breakwater from Partridge Island to the eastward, protecting the harbor, and particularly the West Side, from southerly gales. As regards the purchase of cement, the government built the new wharf lately completed on the West Side according to the plans made while I was minister, and went to a large expense in building a temporary warehouse in order to accommodate the cement business. But although they have been more than three years in office they have neglected to purchase the cement, and as a result that their steamers could not lie at the wharf, including the one which I had built upon the north side of the West Side. "As to the assertion of the Standard," said Dr. Pugsley, "that I am an enemy of the people, I am quite content to let the work which I did toward the development of the harbor, both at Courtenay Bay and on the West Side, speak for itself. That Missing \$250,000. "Discussing the reply of Sir Richard McBride to charges made by Dr. Pugsley regarding the purchase of the two submarines for the Pacific, the latter said: "Yes, I have noticed Sir Richard's statement that he makes no reference to the making of the payment of \$1,150,000 for the two submarines in two drafts, one of \$900,000 to the Electric Boat Co., the contractors, one of \$250,000 to a Mr. Patterson, of Seattle. No explanation has been offered of this or of the \$250,000. "The suggestion of Sir Richard McBride that the Chilian government was unable to pay for these submarines when completed is too ridiculous for serious consideration. Chilian is one of the richest countries in South America, as every one knows, and has large revenues, its income from its vast fields of nitrate alone amounting to \$40,000,000 a year. Notwithstanding what has been said by Sir Richard neither I nor, I believe, any well-informed or disinterested person in British Columbia will have any doubt that the statements published in Seattle papers at the time that, after the test of the submarines was made they were rejected by the naval expert of the Chilian government, are absolutely correct. "When asked as to the possibility of an election this year, Dr. Pugsley said his own impression was that it would not be held until next year. "Those high in authority, he said, have let it be known that it would be nothing less than a crime to throw the country in the turmoil of an election at this time. James Fitzgerald, one of the oldest residents on the Miramichi, is dead, aged ninety-seven years. He was the father of twelve children, of whom seven are living, and he left forty-seven grandchildren and fifty-one great-grandchildren.

New Wilton Rugs Refined and Fascinating Designs and Colorings For Parlor, Library, Dining Room and Bedrooms. Stores Open at 9 a. m. and Close Every Day in The Week at 6 O'clock. We now have a remarkably fine exhibit of New Wilton Rugs, suitable for Parlor, Library, Dining-room and Bedrooms. They are in the most refined and fascinating designs and colorings we have ever shown. One design in particular is unique, background being in black, upon which is grouped a combination of rugs of different sizes shape and patterns. CLEANSE THE BLOOD AND AVOID DISEASE. When your blood is impure, weak, thin and debilitated, your system becomes susceptible to any or all diseases. Put your blood in good condition. Hood's Sarsaparilla acts directly and peculiarly on the blood—it purifies, enriches and revitalizes it and builds up the whole system. Hood's Sarsaparilla has stood the test of forty years. Get it today. It is sure to help you.

TO PROTECT CLAIMS. Provincial Government Passes Order in-Council to Make Licenses Necessary. As a result of representations made to the provincial government by the residents along the Bay of Fundy, in Charlotte and St. John counties, that the clam beds were being depleted by people from the United States, an order-in-council has been passed prohibiting the digging of clams on the foreshores. The order-in-council follows: "It shall be unlawful for any person or persons to dig clams on the foreshores, being the land between high and low water mark, of the county of Charlotte and any person digging clams upon such foreshores without a license to be issued by the surveyor general or without the authority of the licensee under any such license shall be liable to a penalty of not more than \$100 and not less than \$10, which penalty may be recovered under the provisions of the Summary Conviction Act by any person prosecuting for the same."

PEEVISH, CONSTIPATED CHILDREN LOVE "CALIFORNIA SYRUP OF FIGS". Harmless "Fruit Laxative" Cleanses Stomach, Liver and Bowels. Look at the tongue, mother! If coated, it is a sure sign that your little one's stomach, liver and bowels need a gentle, thorough cleansing at once. When peevish, cross, listless, pale, doesn't sleep, eat or act naturally, or is feverish, stomach sour, breath bad, has stomach ache, sore throat, diarrhoea, full of cold, give a teaspoonful of "California Fig Syrup Company." Refuse any other kind with contempt.

FINANCIAL Success of Allies' Arms

Danger of Second Invasion of Egypt Removed—Giant Warships Have Battered Down Forts at Entrance to Bardanelles

London, March 1, 2.50 a.m.—"It is officially announced," says the Morning Post Cairo correspondent, "that the Turks have evacuated the Sinai peninsula. This confirms the belief here that all danger of a second invasion of Egypt is now removed." London, Feb. 28, 10.55 p.m.—The Russian offensive operations at the present time to extend along their whole front—an indication that they have been able to bring very strong reinforcements into the field. They have successfully checked the German advance in North Poland, where the Germans are reported to be in retreat, and the recapture of Przasnysz after heavy fighting, has given them an excellent point from which to carry on further operations.

London, March 1—After completing the destruction of the outer forts at the entrance to the Dardanelles, the allied fleets of British and French warships, the greatest fleet ever seen in action, are now attacking the inner forts which have stood between Turkey and an attack by sea. At the head of the fleet is the British super-dreadnought Queen Elizabeth with eight fifteen inch guns. Others are the British battleships Irresistible, Vanguard, Cornwallis, Albion, Triumph, Majestic and Agamemnon and the French battleships Gaulois, Suffren and Charlemagne. Three men were killed on the Agamemnon by a Turkish shell.

London, March 1—The steamer Dacia which was purchased by an American German from her German owners after the outbreak of war was arrested yesterday in the English channel by a French cruiser and taken to Brest. She will be turned over to the prize court.

DR. J. D. PHINNEY DEAD Frederick, N. B., Feb. 28—J. D. Phinney, K. C., LL. D., passed away in this city this afternoon in the seventy-first year of his age. The funeral will take place Tuesday afternoon, leaving his late residence, University avenue, at 3 o'clock. Interment will be made at the Rural cemetery. The deceased is survived by one son, Dr. F. D. Phinney, of Canton, who was one of the signers of the Declaration of Independence, and a wife, Mrs. Phinney, nee Mrs. W. McLellan, of this city. One brother, Havelock Phinney, of Winnipeg, survives, also three sisters, Mrs. J. D. McMinis, Miss Bessie Phinney, of Richibucto, and Mrs. Fred. Brown, of Aspen, California.

Dr. Phinney was born in Richibucto in 1844. He graduated from U. N. B. and won the Douglas gold medal in 1864. He was afterwards president of the alumni, a member of the senate and received his degree of LL. D. from that university. He was called to the bar in 1869 and became a Q. C. in 1891. He was clerk of the county court and after probate judge for Kent county, was active in the construction of the Kent Northern Railway and represented Kent in the legislature from 1887 to 1895. In 1892 he removed to Frederick and has been one of the most prominent members of the bar there. In politics he was a Liberal and in religion a Methodist.

PARENTS RESPONSIBLE New Law in New Jersey Penalizes Them For Misdeeds of Their Children (Toronto Mail) A few years ago George Bernard Shaw wrote a long and vigorous essay on the subject, and it would be interesting to have his views on one of the new laws.

HAD DYSPEPSIA So Bad Could Not Take a Drink of Water Without Suffering.

Dyspepsia is one of the most difficult diseases of the stomach there is to cure. You eat too much. Drink too much. Use too much tobacco. You make the stomach work overtime. You make it perform more than it should be called on to do. The natural result is that it is going to rebel against the amount of work put on it. It is only a matter of a short time before dyspepsia follows.

Miss Sarah McRae, Newfield, Ont., writes: "I write to say that I have used your Burdock Blood Bitters, and have found it the best remedy I have ever used for dyspepsia. Two years ago, I had stomach trouble so bad that I could not even take a drink of water without suffering. I took six bottles of B.B.B., and have been entirely cured, and can now eat anything without any bad after effects."

Burdock Blood Bitters is an old and well tried remedy but on account of the many substitutes we would ask you to make sure that our name appears on both the label and wrapper as this preparation is manufactured only by The T. Milburn Co. Limited, Toronto, Ont.

Notice is hereby given that at the next Session of the Legislature of New Brunswick application will be made for enactment of an act to incorporate The Glen Falls Water Company, Limited, for the purpose of taking over from Honourable William Pugsley the Glen Falls water system, in the Parish of Simonds, in the City and County of Saint John, and all the reservoirs, dams, pipes and other property connected therewith with power to operate the same and with authority to construct and maintain a system of sewerage.

Dated December 26, 1914. WILLIAM G. PUGSLEY, Solicitor for applicant.

BY ORDER OF THE COMMON COUNCIL OF THE CITY OF SAINT JOHN

PUBLIC NOTICE is hereby given that a bill will be presented for enactment at the next session of the Legislature intituled "An Act in further amendment of 'The Saint John City Assessment Act 1909 and to amend the laws relating to civic franchise.'"

The object of the bill is— 1. to exempt all incomes from personal labor and occupation up to and including \$1000 per annum; also to exempt \$500 of each such income above \$1000, and not exceeding \$2000.

2. to impose a poll tax of \$2.00 and no more upon all persons whose incomes are totally exempt from taxation.

3. to exempt all household furniture from taxation, where the value does not exceed \$500.

4. to provide that the last day in which the Common Council shall have power to determine and direct what assessments shall be levied in the City of Saint John shall be the 30th inst. of the 15th day of January in each year.

5. to provide that the poll tax of \$2.00 shall give the same right to vote at civic elections which the \$3.00 poll tax now does.

HERBERT E. WARDROP, Common Clerk. 6th February, 1915.

BY ORDER OF THE COUNCIL OF THE MUNICIPALITY OF THE CITY AND COUNTY OF SAINT JOHN, Public Notice is hereby given that a Bill will be presented for enactment at the next session of the Legislature of the Province of New Brunswick, intituled, "An Act Relating to the Appointment of Commissioners of the Saint John Municipal Home."

The object of the bill is to place the power of appointment of the Commissioners of the Saint John Municipal Home in the said Council. It is intended that four of such Commissioners must reside in the Parishes of the County of Saint John and five in the City of Saint John.

Dated at the City of Saint John this eighteenth day of February, A. D. 1915. JAMES KING KEENE, County Secretary.

MARVELOUS MAGNETIC TORPEDO SPELLS DEATH FOR SUBMARINES! INVENTOR ASSERTS NEW WEAPON WILL DESTROY FLEETS OF WORLD

Magnetism of Ship's Armor Plate Invites Destruction by Drawing Torpedo to it, Says American Who Will Sell it to Warring Power

Fifty feet beneath the surface the submarine pushed on, its smooth, silent engines thrusting it relentlessly forward, its men keyed to the highest pitch of excitement, for only three miles beyond lay the grand fleet, theirs to destroy.

In despair the officer of the submarine turns his craft sharply and stops dead, hoping the torpedo will slide past unheeding the thing describes a sweeping curve and, with an unerring accuracy, then the second and more powerful explosion and one officer and fourteen men—actors in the most supreme drama the twentieth century can produce—go down in history as missing.

Allan C. Canton

Francis the officer orders a zig-zag course, but the eccentricities of the one become those of the other. Like a copper moccasin preparing to sting, the under-sea Nemesis speeds forward, and the distance between, it and its larger brother grows less.

Not only is such an incident possible, but highly probable as a determining factor in the war. And again electricity—magnetism—is proving itself the mighty element. An American, Allan A. Canton, has perfected a torpedo which he says, needs no aiming. The heavy steel hulls of the dreadnoughts themselves insure accuracy to the new demon of the deep which spells their destruction.

Magnetism is the guiding power of his torpedo, which, speeding nearly fifty miles an hour will pick out the largest battleship of a fleet and send it a mass of wreckage to the bottom. The inaccuracy has been the curse of the torpedo, Canton says, and 70 per cent of those discharged at moving targets fail to hit.

As the proximity of a steel ship alone is sufficient to guarantee a bull's eye, the new torpedo, therefore, is 100 per cent deadly.

Diagram showing shape and general appearance of Canton magnetic torpedo. In appearance it resembles very much the ordinary torpedo. It has two arms of nickel silver attached to each side, projecting at right angles, at the ends of these arms are magnetic coils. A high frequency current passes through them and the presence of any mass of metal charges the self-induction which affects the electric relays.

Diagram indicating how zig-zagging, resorted to by warships and others in trying to escape a torpedo or mine, proves useless when a magnetic torpedo is approaching or following. The magnetic torpedo, traveling 40 miles an hour, follows the submarine automatically until overtaken.

chinery adding two or three more. Its rate of speed—forty knots an hour—is almost double that of the first-line battleships and greatly in excess of that of the fastest destroyers.

In appearance it is hardly different from the ordinary torpedo now in use, except that it has two arms of nickel silver attached to each side, projecting at right angles. At the end of these arms are wire magnetic coils. Upon these magnetic coils hinges the success of the torpedo. A high-frequency current passes between them and presence of any great mass of metal changes the self-induction which affects the electric relays, and these in turn, operate the motor which controls the rudder. Thus the torpedo will steer for its target and follow it, no matter how often the target changes its course.

The gyroscope, which keeps the torpedo on an even keel and on a straight

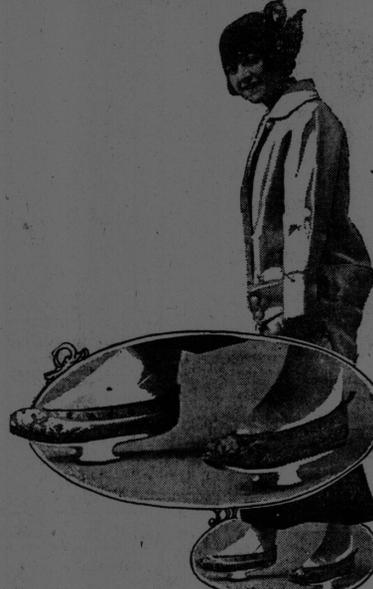

course, is effective until the torpedo comes within magnetic range of a ship. Then it is automatically cut out, and the torpedo's diving fins turn to make the machine dive deeper and strike the warship on the unarmored portion of the hull.

A warship's armor plate extends only a few feet below the water line. The torpedo carries the regulation war head with a charge of 800 or 400 pounds of wet gun cotton. Its first explosion sends it through the hull into the ship's vitals, and the second explosion tears the hull to pieces. No ship can remain afloat more than ten minutes, the writer says after being hit.

Held in leash by a cable two or three miles in length, an uncharged torpedo could be used to hunt out mines and halt over the spot until the ship caught up and destroyed them with shells!

Canton declares that the warring powers are now bidding for his invention. Germany has offered an enormous sum, he declares, but, as he is pro-British in feeling, he is likely to accept a lesser amount from England.

RAINY-DAY SHOES FROM CHINA-LAND

Rainy day shoes recently made their appearance in New York, and a darling young woman who introduced the style says they are better than goloshes and prettier. The shoes which attracted so much attention when a young woman noted for her extreme taste in dress patterned down Fifth avenue with them recently, are everyday wear for Chinese women. They are gaudy little things, but they surely do keep the feet dry.

The Going Out and The Coming In

SPRING STYLE CALENDAR INDICATES RADICAL CHANGES IN CUT, COLOR AND ARRANGEMENT OF WOMEN'S WEAR

No. 1—New wash suit with Florentine embroidery; model originated by Marshall Field & Co. No. 2—Reproduced from a Primat design—an afternoon suit in white gabardine, embroidered in white; reproduced by Marshall Field & Co. No. 3—Tailored street dress model; has plain, white satin vest; model originated by Marshall Field & Co. No. 4—Tailored street dress model; has plain, white satin vest; model originated by Marshall Field & Co. No. 5—New model in serge street dress with applique embroidery and showing the new flare skirt; model originated by Marshall Field & Co.

(By Mabel Mortimer. Chicago, Feb. 15—Styles for Spring! What will women wear in 1916? The array is imposing and interesting. Most of the styles created in America have been adopted by women of wealth. The reduced number of models filtering through from Paris are swamped in the cabinets filled with American creations, now being shown in the big New York and Chicago shops. SHOES. New showings in women's footwear plainly indicates a military trend. Brass buttons and in some cases braid are profusely used. Low shoes are of the colonial type and have short tongues. Cloth will be used on the low shoes and colors will be popular. COLORINGS. Colors will vary considerably, though the duller shades predominate, especially for street wear. White and black are popular and these shades are often combined with striking results. HATS. The small hat has won all honors so far. Smart euliers, toques and tricornes shapes are seen everywhere. Floral trimmings are popular and much braid is being used. Feather effects are quite popular. PETTICOATS. Petticoats are seen with full or circular flounces. Chiffon taffeta ruchings and pleatings used for trimmings. Colors follow the outer apparel. MATERIALS. Sport coats apparently will have a popular season most of these being of fancy designs in woolsens. Poplins, gabardines, coverts, worsteds, etc., are most popular. SLEEVES. Sleeves are full length and fit closely. Dancing frocks and evening dresses are sleeveless, though the former usually have sleeve caps. RIBBONS. Both in millinery, on dresses and trimming ribbons will be popular. The stripe and the check seem to form the bulk of the most popular designs. We have many of our new spring ribbons on display.

Styles In Braids For The Miss Who Puts Aside "Little Girl" Fashions

(By a Woman Editor.) "I'm just sixteen and I want to do my hair up. Will you tell me some pretty way to wear it?" writes Miss Sixteen-Year-Old. And from Miss Fourteen-Year-Old comes this query: "I'm fourteen now and don't think I'm too old to wear my hair in braids!" Fourteen is so much afraid of being counted among the kiddies! A serious affair is this "doing up" in braids to the girls who are slipping models the skirt is exceedingly full and wide. While the waisting is raised considerably, it is normal in many cases. GLOVES. Embroidery effects top off the latest novelties in gloves. Soft colors and half-tones are common. PARASOLS. Bright colors and brilliant designs will be in order. Curdings are in evidence. CHILDREN. The new coats are high-waisted and show a tendency to follow the styles for elders. The 1920-30 period influence is evident. COATS. Belts predominate in the stits for spring, either placed at or above the waistline. Flare effects are common. out softly around the face, the braids crossed at the nape of the neck, brought around the head and crossed smoothly on the top, great care being taken to tuck in the ends so that the coronet will look like a smooth circlet of hair. A barrette will hold the braids firmly in place at the back of the neck, and two small hairpins—not the ornamental, jeweled kind—will give the braids firmness at the sides. Of course, several small hairpins will be needed to hold the coronet in place. But Miss Sixteen is none too old to wear her hair in braids, especially if she tucks them up as shown in the upper left picture and use a pretty barrette to hold them in place in the back. This same style is very good for the girl of fourteen, but better still for the younger girl is the single braided tuck with a bow of ribbon or with those convenient little shell clasps that are sold in almost every department store for a dime. To arrange the hair as it is shown in the upper left hand picture part it in the middle, divide it in three strands, puff out the two side strands so that they make a soft frame for the face, draw them back and fold the ends to the back strand and then braid the three in a loose but firm braid, tuck the "pig-tail" up and fasten it with a barrette or three or four small hairpins. A comb or barrette, however, will add to the attractiveness of the braid.

SIDEWALK LAW

Provisions of Measure Which is to Come Before Council Tomorrow

The proposed law respecting the use of sidewalks, which will come before the common council on Tuesday afternoon, affects all manholes, hatchways, and cellar windows placed in the city sidewalks, provides the regulations under which they are allowed, and fixes a penalty for the use of the sidewalks for this purpose.

It provides that no such encroachments will be allowed without the permission of the city and that they must be constructed according to city regulations and that no opening of more than fifteen square feet will be allowed, except in the case of sidewalk prism lights, when the commissioner may use his discretion. A written application must be made for the privilege and a penalty of \$20 is fixed for every violation of the law.

The openings must have roughened covers, for safety, and must be constructed according to the directions of the road engineer. The owner and tenant of abutting property will be held liable for damages to persons or property through defects in construction or lack of repairs.

The city is given power to close any opening already existing which does not conform or is not made to conform with the new law.

The annual rentals fixed by the law are: For openings eighteen inches square or less, \$3; for larger openings \$1 extra a square foot. For sidewalk lights, twenty-five cents a square foot. The commissioner of public works may order the closing of any or all openings in the sidewalk if he deems it necessary on account of their condition or otherwise, or to frame, cover and sidewalks of vaults are to be maintained to the satisfaction of the road engineer. Provision is made for the enforcement of the act and punishment for violations.

DOCTOR MELVIN LOOKS AHEAD

The Blood Shed in This War Will Be The Cement of a New British Empire

The University Magazine for February has an interesting article from the pen of Dr. George G. Melvin, medical health officer of St. John. His subject is "The Cement of Blood." Doctor Melvin begins with the statement that "bloodshed alone is capable of amalgamating various sections of mankind that curious thing which we call nationality." Reviewing great events in the world's history from this viewpoint, Doctor Melvin deals finally with the British Empire in the present crisis, and expresses the conviction that the idea of imperial federation will at the close of this war "be moulded into conventional shape and adjusted, with all the inconveniences of the ready-made garment, to the body politic."

DISORDERLY H.U.E. CASE

Woman and Two Soldiers Arrested—Childrea Cold and Hungry

Elizabeth Reynolds, charged with keeping a disorderly house in Brunswick street, pleaded not guilty in the police court this morning. Policeman McLean testified that between six and seven o'clock on Saturday evening he entered the house with Special Patrolman McBrine and Policeman McInnis, and arrested the woman and two soldiers, John Gormley and J. Sullivan. He said all three were under the influence of liquor. Two other women were in the house, but managed to get away.

Special Patrolman McBrine corroborated these statements, and told of later going to the house and finding several small children sitting about in the cold and hungry. He said he procured food for them. One of the women who escaped, he said, was hiding behind a curtain when he entered one of the rooms. He also came across three bottles of liquor, which he confiscated.

Policeman McInnis gave an account of the condition of the house and the occupants, and said he had been sent to watch the back door to keep anyone from escaping. He said he caught the Reynolds women going out the yard and brought her back into the house. He denied that he had been in conversation with one of the women and had advised her to escape through the back door.

Michael George, owner of the property, said he visited the premises on Saturday night and found one door broken off its hinges and two windows smashed. He had ordered the occupants to get out on Monday. Other witnesses to testify were William Archibald, John Aeneas and Vera Reynolds.

TOWN PLANNING

A meeting of the town planning commission was held this morning in the mayor's office for the purpose of furthering the plans for the visit of Thomas Adams, town planning expert. It was announced that the hall of the Knights of Columbus would be available for the public meeting, and the High school assembly hall also was suggested as a desirable place. The matter was left to Mayor Frink and W. F. Burditt. Mr. Adams will arrive in the city on next Saturday, and on Monday will be the guest of the city commissioners at luncheon at noon, and address the public meeting in the evening. It may be possible for him to address the Board of Trade also while he is here.

INSPECTION BY GENERAL LESSARD

Word Received That He Will Be Here Then

UP TO FULL STRENGTH

Recruiting of Mounted Rifles and 40th Battalion Ends - New Field Battery - Lieut. W. J. Brown Gets Word of Appointment For Overseas

The final inspection of the 26th Battalion will be made this week. General Lessard, inspector-general of the Canadian forces, is expected here on Thursday, according to official information today. This will be the most detailed inspection to which the unit has been subjected. General Lessard has been through the western provinces making an exacting inspection of the overseas units, and the understanding is that his visit here will include the inspection, not only of the 26th and the Army Service Corps, No. 5 Co., but the other mounting units as well. He is one of a board of three inspecting officers appointed to pass finally upon the overseas units. Whether or not the other two officers will accompany him is not yet known.

It is not yet three weeks since orders were sent out for the recruiting of the Canadian Mounted Rifles and the 40th Battalion in the Atlantic provinces, but already both units are over strength, and further applications for enlistment have had to be rejected. Capt. J. R. Miller, who is in charge of the local recruiting offices, received instruction this morning from headquarters at Halifax, to cease taking men for both these bodies, as they were already filled.

Another Battery

Included in the instructions to Captain Miller were orders to recruit for another battery of artillery, the 28th field battery of the 7th brigade. There will be chance for enlistment in St. John with this unit, good openings being given for experienced artillerymen particularly. The men of the 40th Battalion, who have been signed here, numbering between forty and fifty, are to be drilled in this city for a time prior to being sent to Amherst. The 6th mounted infantry are still in this city, though orders are expected daily to proceed to Amherst.

Capt. W. J. Osborne has been instructed from Ottawa to take charge of the 6th Hussars, are today congratulating him upon his appointment to the 8th C. M. R. received from headquarters this morning. Lieutenant Brown was one of the first officers to volunteer for overseas services.

To Amherst This Week

Amherst News—Before another week has passed, the greater portion of the Mounted Rifles and 40th Battalion, will be under arms; mobilised in Amherst. Some twenty-five more commissioned officers of the Army Service Corps, are already in town, looking after the stores, uniforms and equipment, which keep arriving by carload. For several days they have been engaged in trucking the bulky bags and boxes to the buildings, detailed to contain the "soldiers' welfare."

SCOTT ACT CASES

Placide Richard Taxed \$156.50 - Costs \$40 For Stealing Rides on I. C. R.

Moncton, N. B., March 1—Placide Richard was today fined \$50 on a first Scott Act offence and \$100 on a second offence. Including costs he was assessed for \$156.50. Fred LeBlanc was placed on probation in a third offence case. Another first offence case against a citizen was dismissed.

ACQUITTED OF PERJURY CHARGE

Howard E. Porter was tried before Judge Forbes this morning under the Speedy Trial Act, on a charge of perjury and was acquitted. A short while ago the defendant was charged in the police court with assaulting H. S. Walsh, and on that occasion he said: "I did not strike the Chinaman," when the complainant and two other Chinese swore positively that he did. Mr. Patterson gave evidence this morning that he was present at the time, and that he did not see Porter strike the Chinese in the face, but that he thought the defendant's hands touched the hands of the Chinese. J. A. Barry appeared for the defendant, and Attorney-General Baxter for the crown, with L. P. D. Tilley, K.C., also for the prosecution.

FREDERICTON NEWS.

Fredericton, N. B., March 1—Nominations for the city civic election are being made here today. It looks as if Mayor Mitchell and all the aldermanic candidates will be returned unopposed. Under the new law one afternoon in each of the five wards will be elected for a two year term.

The funeral of Dr. J. D. Poinney will take place on Tuesday afternoon under the auspices of the Masonic order. Members of the local bar will attend in a body.

John Black, legal adviser to the Yukon government, arrived from Ottawa on Saturday to spend a few days here with his family.
