Be Sure You Get This One, Mr. Elector:

The sheer inability of the mouthpieces of the New Brunswick Power Company to steer a straightforward and truthful course is again emphasized by their latest publication; and if—by chance—a copy of the letter dated October 24 and distributed to the hands of one of those to whom it is addressed, that unfortunate "Shareholder of the New Brunswick Power Company" will be strikingly enlightened as to one, at least, of the causes for the company's unpopularity, and afforded an opportunity to SHARE in the feelings of disgust and distrust which the cheap and childish trickery of these company agents produces in the average citizen.

This document is so evidently not what it purports to be that it is not likely to fool many. It is a trick on the face of it and as such stands discredited from the start. It is a silly trick and as such an insult to the intelligence of the voters to whom it has been mailed. Insulting the intelligence of the voters to whom it has been mailed is the most distinguished accomplishment of the Power Company—they seem never to tire of displaying it.

Their delight in tantalizing and extending the public mind is only equalled by their smug satisfaction in the thought that if the mule should kick the blow will slide by their precious hides and land squarely on the defenseless head of the too confident and innocent investor. A good case—the best of cases—could not rest well and safely on such slippery ground-work—and in this case—not a good case at the best—every solid and reasonable argument is rejected in favor of the spurious, and results inevitably in total failure to produce the impression too palpably sought. In the haste with which the author plasters and embellishes with exaggeration and distortion the little truth that simply could not be avoided, may be read the misguided fear and terror with which these men regard the qualities of accuracy and plain-dealing.

The impudent comparison of the New Brunswick Power Company's plant with that of the Halifax Tramway Company's, and the flamboyant and shameless boasting of replacement values to \$7,000,000, suggests a hand trained to the writing of prospectuses for wild-cat promotions. The writer does not believe it and doesn't expect anybody who knows anything about the matter to believe it—BUT THIS SORT OF PROPAGANDA IS PREPARED FOR SUCKERS—SOME POOR FISH MAY BITE—WE ARE NOT DEALING WITH ANYTHING TANGIBLE ANYWAY—SO WHY SET A LIMIT ON IMAGINATION?—SEVEN IS A LUCKY NUMBER.

Now take this statement: "The sheer inability of the mouthpieces of the New Brunswick Power Company to steer a straightforward and truthful course is again emphasized by their latest publication; and if—by chance—a copy of the letter dated October 24 and distributed to the hands of one of those to whom it is addressed, that unfortunate "Shareholder of the New Brunswick Power Company" will be strikingly enlightened as to one, at least, of the causes for the company's unpopularity, and afforded an opportunity to SHARE in the feelings of disgust and distrust which the cheap and childish trickery of these company agents produces in the average citizen."

If this circular was really prepared for the purpose of affording comfort and unctious to the shareholders of the company, (Continued on page 4)

As Hiram Sees It

"Hiram," said the Times reporter to Mr. Hiram Hornbeam, "do you remember what the ancient silver-smiths did when their craft was in danger?" "If I remember right," said Hiram, "they went about holding their 'Great Diana of the Ephesians.'" "They did," said the reporter. "Have they any modern successors?" "They hev," said Hiram, "they hev 'em right here in St. John. They're got 'em holdin' 'em." "Great is that, there, Noo Brunswick Power Company?" "Are the people greatly impressed, do you think," asked the reporter. "As far as I kin see," said Hiram, "they aint. This here noo gospel of hydro seems to be takin' hold. 'Em I wouldn't be surprised if they experienced such a change of heart over the thirtieth of November that 'ud be a mighty oonucky day for the fellers that wants to go on offerin' up sacrifices on the altar of 'Prented Finance. No, sir, I wouldn't be a bit surprised. By Hen!"

NOTABLES IN THE BRITISH CONTEST

John Burns Reported Again Candidate for the Commons

Major John Jacob Astor, Lloyd George's Son, H. G. Wells and T. P. O'Connor Out for Election—Some Thirty Women and Three Clergymen in List.

(Canadian Press)

London, Oct. 28.—A full list of candidates for the London constituencies was published today by the Times. John Burns, famous Labor leader, who resigned from the Asquith cabinet as a protest against the war, will run as an independent in his old constituency of Battersea. Bertrand Russell, philosopher and writer on political science who was refused a British passport to go to the U. S. during the war, is a Labor candidate for Chelsea.

CHURCHILL STANDS WITH LLOYD GEORGE

Some Biting References to the Die-Hards and Thrust at McKenna.

London, Oct. 28.—Winston Churchill, in his manifesto written from a sick bed, declares himself a Liberal and free trader. He warns his constituents that the Labor party will be heavy and unyielding and that he will be defending himself against attacks on account of his policy in Mesopotamia and Palestine, he points out that Mr. Bonar Law and Lord Curzon are equally responsible for this policy, and says that should they break the promises and repudiate the obligations they have undertaken, he will be obliged to accept that policy, and it is indeed the irony of fate that the final stages of this memorable episode should be completed by men who so long fomented the quarrel between two islands.

Defending the coalition government's policy in the Near East, the former colonial secretary says: "Throughout the United States you will find only gratitude and respect for what Great Britain has done, alone and unaided by her Allies." In conclusion Mr. Churchill says: "I stand by Mr. Lloyd George. I was his friend before he was famous; was with him when all were at his feet. And now today, when the masses who fawned upon him, who praised even his errors, who climbed his shoulders, have cast him aside; when the free fanatics (meaning the Asquithian Liberals) think the time has come to pay off old scores; when McKenna, the political banker, emerges from his opulent seclusion to administer what he graciously calculates to be the final kick, I am still his friend and lieutenant."

While the Times states that John Burns will run again as an independent, the veteran Labor leader has decided not to run as an independent. The Star regards this information as one of the most interesting of all the political developments.

RAIN CHECKS FIRES

San Bernardino, Calif., Oct. 28.—A San Bernardino fire, which broke out suddenly last night, was extinguished by rain. The fire, which was burning in the San Bernardino mountains, threatening numerous resorts. The rain came down in torrents for several hours.

MORPHINE SHOTS GIVEN IN STREET IN MONTREAL

Montreal, Oct. 28.—Shots of morphine are being given right on the streets of Montreal, in many cases being made through the clothing, such as Judge of the juvenile court in Alberta, here yesterday. "I have never heard of that being done in the streets of any other city," she added. "Excellent work was being done by the dominion government in their endeavors to stamp out the traffic, she said, instancing in particular the work being done by F. W. Cowan, head of the Narcotic Division at Ottawa. Premier King, too, was deeply interested in the problem."

HONESTY ITS OWN REWARD; NONE OTHER

Port Arthur, Ont., Oct. 28.—Gus Eberard, a motorman, found a purse on last Sunday afternoon containing \$18 to \$20 in silver, a Victory bond for \$100, and a bank book showing a balance of nearly \$2,000. It was on a seat in the car. He turned in his find to the utilities office and a young lady called for the purse. "Well, I'm glad I got it, anyway," was all that she said.

WOMAN KILLS CLERGYMAN AND HERSELF

Murder and Suicide in Home of Rev. L. J. Christler in Montana.

Havre, Mont., Oct. 28.—The deaths of the Rev. Leonard Jacob Christler, widely known clergyman of Montana, and Mrs. Margaret Carleton in the Christler home yesterday were so plainly a case of murder and suicide by the woman that no inquest probably will be held, so the coroner and sheriff's office last night announced.

The pistol with which the two were killed was still clamped in Mrs. Carleton's hand and her finger was still on the trigger when she arrived in response to Mrs. Christler's call, so Dr. MacKenzie told the coroner.

NEW APPLIANCE IN HYDRO STORES UP THE HEAT

Chatham, Ont., Oct. 28.—A new system of electrical heating, known as the "heat storage system," will soon be put on the market by the local Hydro Commission. For some months experiments have been conducted with a view to utilizing the "off-peak" power and at the same time relieve the gas and coal shortage. According to statements of local officials a heating plant has been devised which in a test radiated heat from the apparatus twelve hours after the current had been turned, sending a thermometer placed alongside up to 212 degrees Fahrenheit.

ENTERTAINMENT ALLOWANCE

Provision for the Lieutenant Commanders and Lieutenants of the Canadian Navy

Ottawa, Oct. 28.—(Canadian Press)—provision for commanding officers in the Royal Canadian Navy who incur expenditures upon official entertainments beyond the ordinary scale of hospitality is provided for by an order issued yesterday providing for payment of entertainment allowance of six cents a day to lieutenant commanders and lieutenants of the R. C. N. when appointed senior naval officers at Esquimaut or Halifax or whilst senior officers in command of H. M. Canadian ships while cruising outside Canadian waters. The previous regulations authorized entertainments allowance only to officers of commander's rank and above.

Ottawa, Oct. 28.—The post office department has announced that after January 1, next, the rate of postage on letters from Canada to Cuba will be three cents for an ounce or fraction thereof.

New York Women Refuse The Ankle-Length Skirt

Federation Representing 300,000 Vote for Dresses Not Nearer Ground Than Seven Inches.

New York, Oct. 28.—The ankle length skirt was officially and permanently removed from the wardrobes of 800,000 New York women yesterday by the action of delegates to the convention of the New York City Federation of Women's Clubs, in voting unanimously to wear dresses no longer than seven inches from the ground.

The resolution sounding the death knell of the long skirt urged women everywhere to free themselves from apparel now being introduced and having edges that nearly sweep the ground and carry germ-laden dirt into the home. The club women also urged that the garments be made of sufficient material to permit freedom of all parts of the body.

FIRST WHITE MAN BRIDE-TO-BE HAS THEY HAD SEEN WILLIAM WORRIED

Rasmussen Reports on Five Eskimo Tribes Never Before Encountered.

Copenhagen, Oct. 28.—Five Eskimo tribes had never seen a white man were encountered by Knud Rasmussen, a Danish explorer, in a trip of 3,000 kilometers from Admiralty Inlet at the northern part of Baffin Island to Yathoyd Lake, Keewatin. Extremely primitive, and unable to obtain blubber, these new found Eskimos dwell in snow huts without heat.

There was every indication that they were inland tribes, which led Rasmussen, in a report made public today by the committee of the Fifth Thule expedition to Arctic North America, to endorse the theory of the Danish professor Stenby that the Eskimos were originally Indian tribes who became lost in the northern wilderness.

When Rasmussen came upon the Eskimos in his recent journey they hid their women folk and children and made ready to defend themselves until he saluted them in the Eskimo tongue. Immediately their attitude changed. The women and children tumbled out of their hiding places and the men embraced the explorer, showing their simple hospitality upon him.

DEAD AT 117

Austrian in Saskatchewan Born the Year After Trafalgar.

Saskatoon, Sask., Oct. 28.—The death of Henry Lorenz, aged 117, at Pleasant Dale, northern Saskatchewan, was reported here today. According to family records he was born in Austria on May 9, 1805, the year of the Battle of Trafalgar.

Up to a year ago Lorenz was a heavy smoker, but the increased price of the weed caused him to stop. He hid the choirs in his farm until a few days before his death.

RAILWAY FIRE

Nashville, Tenn., Oct. 28.—Fire sweeping through the main shop of the Tennessee Central Railway here last night, destroyed three adjoining buildings, covering an acre of ground, five locomotives and more than thirty box cars, together with machine valuables. The loss was estimated at more than \$400,000, when flames had been placed under control at midnight.

SAYS HUSBAND TOO STINGY, SO WOMAN SEEKS DIVORCE

Detroit, Mich., Oct. 28.—Asserting that her husband, Alexander D. Matheson, secretary-treasurer of Detroit Window Cleaning Company, is the "stingiest man in the world" his wife Mary G. Matheson, who before her marriage was a professional nurse in the Toronto General Hospital, started action for divorce. Matheson was so close, his wife asserted, that he cut short their honeymoon trip because it was "too expensive."

ASSASSINATION PLOT IN BERLIN?

Berlin, Oct. 28.—Great excitement developed in Wilhelmstrasse yesterday because of a rumor that an attempt was to be made upon the lives of several leading statesmen who have their official residences in that street.

A strong force of police searched the gardens attached to the house of President Ebert and Chancellor Wirth. Nothing was found.

Venizelos to Represent the Greeks at Conference

Prince Andrew Under Arrest on Greek Destroyer—Refugees, Suffering Fearfully, Face Starvation and Disease—No Milk for the Babies.

(Canadian Press Cable)

Constantinople, Oct. 28.—The invitation to the East peace conference to be held at Lausanne, beginning on Nov. 15, was handed to Hamid Bey, Angora representative here, last evening. He expressed regret that the conference is not to be held in a Turkish town, but said the Turks will go to Lausanne, although it will be difficult to maintain contact with the National Assembly at Angora, as the Turks possess neither morcha wireless apparatus nor fast torpedo boats.

Athens, Oct. 28.—Greece will be represented at the Lausanne conference on Near Eastern affairs by Venizelos, and the Greek ministers to London and Paris. General Masaniak will attend as the Grecian military expert.

ANDREW UNDER ARREST

Athens, Oct. 28.—Prince Andrew of Greece, brother of former King Constantine, arrived here yesterday on the destroyer Alpha and was placed in solitary confinement.

The prince was a member of the campaign in Asia Minor against the Turks, and is charged with having disobeyed orders of the general staff and with being responsible for the disaster to the Greek troops before Sarangaris.

Among other persons who have been arrested is former Premier Kalogeropoulos. The active preparations which are being made to expedite the trials against the royalists indicate the determination of the revolutionary leaders.

Angora, Oct. 28.—The Nationalist Assembly here has elected General Ismet Pasha foreign minister in place of Yusuf Kemal Bey, whose resignation was announced yesterday. Ismet Pasha, who was the Turkish Nationalist negotiator with the Allied generals at Mudania, will be a delegate at Lausanne.

SAD PLIGHT OF THE REFUGEES

Edessah, Thrace, Oct. 28.—Exhausted by their slow and weary flight toward Macedonia, vast swarms of refugees who crowd the country roads now face starvation and disease. Thousands will perish in the next few weeks, it seems certain, in spite of all the relief work being done.

Scarlet fever broke out today and cholera and typhoid threaten because of the utter lack of sanitation. There is a great need for doctors, nurses and medicines.

The babies are the worst sufferers and most of them are not a milk for most of them. In the last few days many infants have been brought to the towns without medical attention in the camps pitched along the roadsides.

Outside of this place, 20,000 refugees are encamped with the Allied generals at Mudania. Hundreds of others moving slowly toward Macedonia with their ox carts crowd at the approaches to the towns on the Maritza side. Fifty thousand of the disconsolate folk have been travelling afoot for ten days. Most of them have no food, and very little water. The rain falls with disheartening in steadiness and the cold has become bitter, bringing on many deaths.

TAMPERING WITH MONEY ORDERS

Crooks Raise Small Sums to Large—Postal Department at Ottawa Issues a Warning.

Ottawa, Oct. 28.—(Canadian Press)—Crooks have been raising money orders on such a scale as to necessitate a general warning by the federal postal department.

"The public are warned that money orders should not be cashed for unidentifiable strangers, particularly orders made payable at other places," the department advises.

In a majority of cases the frauds have been perpetrated through the crooks purchasing money orders for small sums, such as twenty-five cents, afterwards raising the amounts and obtaining payment through business firms cashing the orders. Post office department officials are conducting investigation to ascertain the exact extent of the frauds.

THE INDEPENDENCE OF THE PHILIPPINES

Manila, P. I., Oct. 28.—A resolution of representatives today asking the U. S. to recognize the right of the islands to independence. The resolution was referred to a committee.

Not things that will make it impossible, for men of like mind who believe in keeping the country steady, from pulling together in the boat and preventing it from capsizing.

Referring to the Conservatives, the premier said: "I trust their negative policy is only a phrase. A negative policy is not the way to get through your troubles."

Lloyd George laid great stress upon the necessity of activity instead of passivity in dealing with the after-the-war situation.

SLEEP-WALK PLUNGE KILLS LLOYD WARREN

Famous Architect Falls from His Apartment in Early Morning—Suicide Theory Discarded.

New York, Oct. 28.—Lloyd Warren, architect, was found dead Wednesday morning in an arched bed his bedroom at 1 West Sixty-fourth street, it is believed that he fell accidentally while opening the window of his apartment, which is on the eighth floor. Mr. Warren who was founder of the Beaux-Arts Institute of Design, and a brother of Whitney Warren, the architect, was said by fellow artists yesterday to have done more than any other man to raise the standard of architectural education in this country.

Mr. Warren, who was 52 years old and unmarried, had worked in the School of Design until 8 o'clock on Tuesday night, and before he left gave instructions for the work to be done so that he might return next day. He went home, dismissed his Japanese butler, who does not remain in the apartment at night, and then went out. He apparently returned some time later and prepared for bed, as his body was found in pajamas. No one discovered until a milkman went into the arched way at 8 o'clock in the morning.

The police were inclined to think that Mr. Warren had committed suicide, and it was entered on the blotter that he had jumped from the window. But his brother and friends scouted this suggestion, saying that he had made plans to entertain friends at dinner last night and for a meeting later in the office of Thomas Hastings, the architect.

Subject to Sleep-Walking.

What his friends believed to be the more credible explanation of his death was that in one of the spells of somnambulism to which he was subject he walked to the window, the sill of which was only eighteen inches above the floor, and toppled over it. He just happened to be impaled on the spikes of a fence between the apartment house in which he lived and the next door.

Dr. John Van Doren, who lived in the same house, was called by Mrs. Margaret Wenderman, superintendent of the building, and when he had been seen dead some time. The body was later taken to the apartment and examined by Dr. Thomas A. Gonzales, assistant medical examiner, who also talked with Whitney Warren, when he arrived a short time after being informed of his brother's death.

"He had everything in the world to live for—plenty of money, a great devotion to his art for which he was ready to make all sorts of sacrifices, and did, and I am sure he would not have deliberately killed himself," said Whitney Warren. "My brother was somewhat afflicted with somnambulism, and I know that he has set up in bed recently talking of the night in Italy, it is possible that he may have walked to the window, and fell to his death."

"The Beaux-Arts Institute, of which Mr. Warren was the creator and director, grew up around his generous sacrifices and endeavor," said Mr. Howells, "but it was not he that built it. It was the hundreds of students who asked hungrily for what he offered them. But for his help they had no one to turn to for an education and advice. He made it possible for these young men to send their work to the Beaux-Arts Institute and have it judged and criticized for nothing by their time at night at Warren's instigation, for these architects loved him and knew that he

was not asking anything of them that he was not giving himself.

Mr. Warren also organized the Art School of the A. E. F. in France after the armistice, and did it along the same lines as he had organized the institute, obtaining the best architects of France to help direct the work. He was made a member of the Legion of Honor, and last June Yale awarded him the degree of Master of Arts.

KERR'S BUSINESS COLLEGE ACQUIRED BY THE MODERN

Modern Business College Ltd. Has Taken Over St. John Business College (Kerr's) on Nov. 1.

The St. John Business College—Kerr's—will on Nov. 1 pass under the successful management of the Modern Business College Limited, corner Mill and Union streets.

The Modern College has met with wonderful success in this city and this year it is enjoying the biggest business in its history. Mr. George J. Smith, the president, has already engaged a managerial staff and purchased new equipment. The combined schools will be conducted in the same thorough manner that caused the Modern to become the largest business training institution in New Brunswick within two years after being established.

Mr. Smith states that, owing to the very large enrollment of the combined schools, it will be necessary, for the present at least, to conduct the two schools in their respective buildings. The commercial department, with A. B. Lumsden in charge, will be located in the present premises of the St. John Business College, while the stenographic department will be conducted at the corner of Mill and Union streets. On account of its thorough and practical work, the Modern College is very firmly established in this city and the management is to be commended for its progressive policies. With the acquisition of the St. John Business College and the new equipment purchased, it will be one of the largest and best equipped schools in Canada.

It will be a cause of much satisfaction to the friends and students of the St. John Business College that their fortunes have been passed into such capable hands.

BIG WATER POWER COMPANY LAUNCHED

With \$1,000,000 Capital It Acquires Sites Totalling 98,000 Horsepower.

New York, Oct. 28.—Plans for making possible the construction of the power of the streams of Northern New York State were made known in the Northern New York Utility Company of the Power Corporation of New York, backed by interests affiliated with the Northern New York Utility Company, and the Northern New York Trust Co.

The new corporation, which has a capitalization of \$1,000,000 preferred and 300,000 shares of no par value common stock and an authorization to issue \$5,000,000 in bonds, has acquired by purchase from the Regis Paper Company and the Hanna Paper Corporation, controlled by the same interests as the St. Regis Company.

The powers turned over to the Power Corporation are located at the following places: Deerfield, Herkules, Norwood, York, Norfolk and Raymondville. At Deerfield and Herkules, mills of the St. Regis Paper Company are situated, and at the other mills of the Hanna Paper Corporation, controlled by the same interests as the St. Regis Company.

Floyd L. Carlisle, in making public the details of the organization of the corporation, made it plain that it would now compete with the Northern New York Utility, Inc., in which he and his associates have the dominant interest.

"This transaction," said Mr. Carlisle, "is a part of the programme for the fullest utilization of the power of the streams of Northern New York. Its object is to make easier the building of storage reservoirs and to facilitate the distribution of surplus water power generated at paper plants. At present, power at the mills of the St. Regis and Hanna Companies is not being used for the manufacture of paper, it is idled; but under this scheme the power company will be able to distribute it commercially, thus getting the fullest use of the power. When the mechanical water power plants have been made into hydro-electric plants, there will be available a large amount of power over and above that needed for the full operation of the mills. The Power Corporation will be able to transmit this power in full when the mills are not running, or will be able at all times to market the surplus power generated even with the mills at capacity operation."

In connection with the announcement of the formation of the new power company, it became known yesterday that the 25,000 horse power of electrical energy being generated by the Northern New York Utility, Inc., at Brown's Falls is to be sold to the Utica Gas and Electric Company and will be transmitted under power lines now under construction from the power site in St. Lawrence County.

Like Grapes in September

The New Crop Comes in Blue Bird Tea

Rich clusters of Black Hamburg Grapes, their skins tight to bursting with goodness — they're never so sweet as when they come in on the crest of their season.

Tea, too.

It holds its goodness for a season, then loses it a little at a time. Last year tea is like last year grapes.

The new crop of tea has just been gathered in the gardens of India and Ceylon. And it's the most delicious for decades.

Blue Bird is the first to offer this new season tea to you. For Blue Bird being the fastest selling tea was first to dispose of the last season crop.

So every package of Blue Bird offers you the new crop of tender young tips and baby blossoms. Want a right royal cup of tea, right to your taste? Ask for

WILL SPEAK IN ST. JOHN

Dr. C. W. Saleeby, noted scientist, in the maritime provinces at the present time. The doctor is a Fellow of the Royal Society of Edinburgh, Scotland, and is a noted lecturer. He is the man who invented the steel helmet that the boys wore in France during the war. He is the author of the first book on Eugenics.

At the present time he is delivering a series of addresses on this side of the Atlantic, and he is speaking in the city of St. John on November 5. His itinerary is Sackville on November 3, St. John on November 5. He is delivering an address at the Rotary Club in the city, and then proceed to Fredericton to address the Rotarians there, and from Fredericton to Moncton, from Moncton to Sackville.

The doctor is to speak in two of the churches on that day and give an address in the Imperial Theatre in the afternoon at four o'clock. He is one of the best lecturers in the old country and has a thrilling message.

LOCAL CONTROL OF C. N. R. ANTICIPATED

Members of New Board of Directors Back After a Western Inspection Trip.

SIX members of the new board of directors of the Canadian National Railways have returned to Ottawa after a twelve days' inspection of the western part of the system. No formal report on the trip will be presented to the government. It is understood that there will be three centres of operation; Toronto will be the head of the central division, Winnipeg of the lines west of the great lakes, Moncton of the road formerly known as the Intercolonial, with Montreal as general headquarters. It is considered probable that the offices of Sir Henry Thornton, president, will be located in Ottawa, but he will determine this on his return from England.

SUSSEX PERSONALS.

MORNING NEWS OVER THE WIRES

Lord Shaughnessy, chairman of the board of directors of the C. P. R., has given emphatic denial to the rumor that he is to be the Canadian representative at Washington. Another name mentioned in this connection is Sir Charles Fitzpatrick. The name of Lord Shaughnessy has also been mentioned as Governor-General for Ireland, but this rumor is discounted in most circles. Applies raised by H. L. Morse of Berwick, N. S., won two first prizes at the Imperial fruit show being held in the Crystal Palace in London.

The French trawler Fleurus, arriving in St. John's, Nfld., from the grand banks has reported that twenty-two men with twenty-six dories were lost from a Portuguese fishing vessel during the North Atlantic gale of a week ago. If this be true it is one of the worst tragedies of the grand banks.

VICTORIA STREET W. M. S.

The W. M. S. of the Victoria street Baptist church had an interesting programme for its crusade meeting held last night in the church with a large attendance of members and friends. Mrs. G. D. Hudson, the president, was in charge, and the address of welcome was given by Mrs. Edmond Flewelling. The pageant of the ten virgins was presented; readings were given by Miss Zela Tettee and Miss Stockford; solos by Mrs. C. R. Freeman and Miss Ethel Hudson; a recitation by Miss Genevieve Hudson, and an address by the pastor, Rev. G. D. Hudson. A large sum was raised in the special collection taken.

OIL LIGHT BEATS ELECTRIC OR GAS

Burns 94% Air
A new oil lamp that gives an amazingly brilliant, soft, white light, even better than gas or electricity, has been tested by the U. S. Government and found to be superior to 10 ordinary oil lamps. It burns without odor, smoke or noise—no pumping up, is simple, clean, safe. Burns 94 per cent. coal oil and 6 per cent. common kerosene (20c oil). The inventor, Johnson, 248 Cross St., W. Montreal, is offering to send a lamp on 10 days' FREE trial, or even to give one FREE to the first user in each locality who will help him introduce it. Write him today for full particulars. Also ask him to explain how you can get the agency and without experience or money make \$200 to \$500 per month.

"Never Again!"

You've heard this expression lots of times. Possibly you've used it when learning by costly experience that attire is proved better by service than by the price ticket; especially when the attire was identical as being "cheap at the price." It was indeed—cheap and costly, too, for you. "Cheap" attire is never good enough for you.

CHILD SCALDED, DIES NEXT DAY
Montreal, Oct. 28.—From the effects of scalding, suffered when he upset a can of boiling water over himself at his grandmother's home, on Tuesday afternoon, R. Gierney, two years of age died the following day. Dr. J. E. Goudreau, who treated the victim, stated that the boy, who had been playing with his grandmother since the death of his mother some time ago, while playing in the kitchen, upset a can of boiling water that had been placed on the kitchen table. He was severely burnt about the chest and arms, but his condition did not appear critical until he had convulsions. Dr. Gierney, however, pronounced, but his efforts were unavailing, and the child died shortly after his arrival.

G. FRED FISHER'S PLATFORM

No. 1—(a) The completion and signing of the contract with the New Brunswick Electric Power Commission for Musquash Power.

THE WOMEN VOTERS.

No citizens are more deeply concerned in the matter of cheap light and power than are the women.

HERE IS THE RECORD.

The New Brunswick Power Company first sought to make the citizens believe the Musquash development could not deliver the goods.

When it became clear that the power was there and could be delivered the company changed its tune and asserted that it had a right to the first offer of the current for distribution.

When the city council declined to arbitrate, the company started the Big Noise which it is now making, to frighten the people and if possible gain a victory over them on Nov. 13.

The truth of any statement it may make may be gauged by its latest assertion that its plant could not be replaced today for \$7,000,000.

ONLY TWO WEEKS.

Only two weeks remain for active work in the majority campaign. There has been no campaign in the city's history fraught with graver issues, for it will determine whether St. John is to go forward as a result of cheap light and power, or whether it is to remain stagnant.

By the introduction of hydro Winnipeg brought down the price of the electric current from twenty cents to three and a half cents, with a rate of one cent for cooking purposes.

The free kindergartens should receive whatever financial support is needed to carry on their work.

What is this talk about the city not getting the power it contracts for from Musquash? The province of New Brunswick is behind that contract.

THE TRUTH HERE IS OBTAINED BY A QUIBBLE.

IF THE POWER COMPANY REALLY THINKS THAT THEY CAN GET ANYWHERE BY CUTTING OFF THE SUBURBS FROM THE CITY OF ST. JOHN THEY ARE BADLY MISTAKEN.

But it is not until we reach the last phrase that the silly trickery of this circular is fully disclosed. THE COMING VISIT OF D. C. W. SALEEY TO ST. JOHN IS AN EVENT OF FAR MORE THAN ORDINARY INTEREST.

The satisfaction of Capt. Walters of the Bluenose, and his crew, on having won the international schooner race, was marred by the tragic death of the captain's nephew, a member of the crew.

MAHOMET COMES BACK.

Christianity has carried the mountain to Mahomet. The differences among Christians in Europe, and the indifference of Christians in America, have allowed the crescent banner, freshly drenched with Christian blood, to cross once more from Asia to the frontiers of European civilization.

All of which would be bad enough as it stands, but the worst, in all human possibility, is yet to come. The Turk is a firebrand and his presence back in Europe, once more in the midst of the seething Balkans, is like a flaming torch thrusting about in a powder magazine.

But, France does not share the major responsibility alone. This situation, so dangerous to the peace of the whole world, would not have arisen if the American government had been loyal to its international duties.

one might feel some compunction at cruelly shattering these fond illusions—but, since it has been used for outside propaganda, we must go on.

"Your company," says the writer, "is developing current at the present time by steam practically at the price the city is asked to pay for the Musquash current."

How does this check up with Mr. Kensit's statement on page 34 of his report: "The average cost is therefore 5.8 cents per k. w. h. sold"? Is 5.8 cents practically the same as 1.2 cents? What does practically mean?

Again, we are told by Mr. Kensit that in 1920 the revenue received by the company for light and power (excluding the street railway use) was \$504,463. How can one reconcile this with the bald statement: "Your Company's entire revenue from its electric light and power customers in the City of Saint John has never exceeded \$380,000 a year?"

THE TRUTH HERE IS OBTAINED BY A QUIBBLE. IF THE POWER COMPANY REALLY THINKS THAT THEY CAN GET ANYWHERE BY CUTTING OFF THE SUBURBS FROM THE CITY OF ST. JOHN THEY ARE BADLY MISTAKEN.

But it is not until we reach the last phrase that the silly trickery of this circular is fully disclosed. ASQUITH AND CHURCHILL HEARD

Former Criticizes Coalition and New Ministry His Own Party Small, But Unshamed of Record—Churchill Makes Declaration—Talk of New Coalition With Conservative Premier.

London, Oct. 27.—The election campaign has now reached a stage where there is such a number of political speeches and pronouncements that it is becoming almost a physical impossibility for the newspapers either to report or follow them.

"We have today the unusual spectacle of two authors of coalition, Lloyd George and Bonar Law, writing rival epigrams to carve upon its tomb," declared Mr. Asquith.

His own party, Mr. Asquith described as "few in number—voles crying in the wilderness—decried in debate and overwhelmed in the division lobbies." But, he added, they fought on and challenged any other party with their record.

Mr. Churchill declares himself a Liberal and free trader but says he is willing to co-operate with progressive Unionist elements if this should be necessary to counteract what he terms the predatory and confiscatory policy of the socialist labor party.

Mr. Lloyd George today delivered addresses while on his way to Glasgow where tomorrow he will deliver a speech at the University of Glasgow.

One of the most interesting features of the situation continues to be the possibility of the election bringing forth another coalition government but under a Conservative premier.

As it is called, seems to be hinted at in most of the addresses of the Conservative and Liberal Unionist speakers and although there still is no opinion or official arrangement there is evidently a clear disposition on both sides for co-operation.

with the National Liberals. There is even a report that the Conservative and National Liberal candidates in Leeds will issue a joint manifesto.

EARLY TO BED RULE SCOTED BY STAGE FOLK

Actors Think Night Hours Their Natural Element for Work and Play.

"You might as well tell a night watchman to go to sleep at midnight as tell an actor folk ought to turn in before the sun rises."

That's the way Raymond Hitchcock sees it. It started with a comment made by Ellen Terry, Grande Dame of the English stage, to the effect that "actresses should go home to bed after they've finished their work, so as to be able to work better the next day."

All London was aroused by the famous lady's casual statement. Today it is bringing expression of outraged opinion from such people as Mr. Hitchcock, who speaks for the actor folk.

All agree and both agree that it's all wrong. There is a feeling that the post-war attitude which condemns books, condemns fappers, condemns plays, condemns dancing, condemns everything, in fact, which runs counter to the plan and run of things as our code and makes life for the actor folk in years or in outlook.

"You know it makes me sick, this business of people laying down rules for everybody to obey," observed Raymond Hitchcock. "It can't be done because morals of people has been turned out upon ordinary folk. Actors have always been considered different. With the little comment they were allowed liberties and idiosyncrasies considered peculiar to their art. It would have been enough for a member not connected with the profession to make such a devastating criticism, but to have the words come from one of the most highly ordained is regarded by the player folk as lamentable."

"After the show, he puts on his hat and goes to the theatre for home. I am taking the average man, you understand. Arrived at his house, he looks into his coat, finds the clock gone, tries the windows, winds the clock again, and yawns. Two minutes later he is fast asleep. He deserves to be, he has had his eight hours of work, followed by his allowance of pleasure. That's all he should have."

"Now consider the poor working girl on the stage. Consider me. I go to the theatre between 11:30 and 12:30. We, too, must wash and change, and after work comes the first real meal of the day. That's normal, isn't it? That's what your grandfather and grandmother do. Actors cannot have their real dinner before the theatre. Why not? That is our playground. It's the only time I can get to hear a good orchestra—I mean another good orchestra, we always have good time I can hear Paul Whiteman. Music is good for us. What was that we used to say when a kid? 'Music has to soothe the savage, to render a rock and bust a cabbage.'"

"I've never gone to bed early," she began. "When I was younger it was a desire to be seen in public places that kept me up today. It was more than that wanting human intercourse after I have finished working. The whole world is alive during the hours immediately after the theatre. I want to be part of that world."

"There are ways and ways, of course of taking part in the night life of a great city. I have a feeling that what Ellen Terry meant was not that she objected to night life, but to giving of yourself to a restaurant public, continuing to act, in a word, that is the mistake all young actors and actresses make. When I was younger I did it. I wanted to go everywhere, to be seen everywhere, to be recognized and pointed out."

WHY NOT DANCING? Do the Editor of The Times-Star: Sir—It came, no doubt, as a surprise to many of our citizens, certainly to me, to read that one of our worthy commissioners takes exception to dancing being indulged in in the Nurses' Home.

At a meeting of the finance committee of the Municipal Council held on Thursday afternoon, Warden Thornton, if correctly reported, in referring to the new Nurses' Home, said that he did not think that the taxpayers had intended that it should be used for dancing. He heard reports to the effect that dances had been held there as often as once a week. He said that he was not opposed to the nurses, having plenty of good recreation, but he thought that, if this was true, it was going too far.

FIFTEEN MINUTES OF RADIO EACH DAY

Lesson No. 140.
THE GENERATION OF CONTINUOUS WAVES.
(All Rights Reserved by United Feature Syndicate. Reproduction Prohibited.)
Continuous or undamped waves may be produced by three different methods:

- (a) The Arc Generator.
 - (b) The Vacuum Tube.
 - (c) The High Frequency Alternator.
- This article is concerned with the generation of continuous waves by the high frequency alternator of which there are several types, but the one of practical importance, used in the high powered radio transmitting stations of the United States, is the Alexanderson inductor type alternator. This type of alternator is adapted to wave lengths longer than 10,000 meters with corresponding frequencies of less than 30,000 cycles per second, these wave lengths being used primarily for trans-oceanic communication.

A section of the alternator developed by Dr. E. F. W. Alexanderson is shown in the accompanying diagram and a description, in part, of the mechanical construction has been given by Mr. Alexanderson as follows:
"The alternator is of the inductor type (that is, with stationary armature and field, but with a rotating element which causes a pulsating field to cut the armature conductors) and is provided with a novel arrangement to cut the magnetic circuit, allowing the construction of a rotor which can operate at exceedingly high speeds. In the final form of the alternator, the rotor (C) consists of a steel disc with a thin rim and much thicker hub, shaped for maximum strength (that is, with a width that progressively diminishes from the shaft out so that the outward strain on the material because of centrifugal force is the same from the shaft to outer rim). The field excitation is provided by two coils (A) located concentric with the disc and creating a magnetic field the lines of force (E) of which pass through the cast iron frame (D) the laminated armature support (B) and (E) with its teeth and the disc (C). This flux also passes through the narrow air gaps on each side of the disc rotor, and is indicated in the diagram by the dashed line with arrows.
"(B) represents the two armatures which are secured in the frame by means of a thread, in order to allow an adjustment of the air gap, the laminations carrying the armature conductors being located at (E). Instead of poles, or teeth, the disc (C) is provided with slots which are milled through

the thin rim so as to leave spokes of steel between the slots. The slots are filled with a non-magnetic material (phosphor bronze) which is riveted in place solidly, in order to stand the centrifugal force and to provide a smooth surface on the disc so as to reduce air friction. The centrifugal force on each slot filler is no less than 80 pounds at the high speed at which the machine is run."

An extremely valuable feature of this alternator is the comparative ease with which constant speed can be maintained. An alternator of this type used to provide energy for the transmission of trans-oceanic messages has a rated output of 200 kilowatts and is operated at a speed of 2170 revolutions per minute resulting in the generation of a frequency of 22,100 cycles per second and at full power delivers 600 amperes to the antenna.

The large amount of energy and the generation of alternating currents of 18,000 to 28,000 cycles per second make possible long wave lengths and a range of transmission of several thousand miles.

Alternators of this type are in operation at the present time at the powerful transmitting stations located at Rocky Point, Long Island, N. Y.; Tuckerton, N. J.; Marion, Mass., and New Brunswick, N. J., and transmit messages to various points on the European continent.

RECENT WEDDINGS

Johnson-Kelly.
A wedding of interest to many was solemnized at the Burden Baptist church, Prince William, (N. B.), on October 18, when Miss Edith Viola, youngest daughter of Mr. and Mrs. Luke Kelly, of Prince William, was united in marriage to Arthur Johnson, of Georgetown, by Rev. David Jones, of Prince William.

Among those present were the following: Mr. and Mrs. James Kelly, Mr. and Mrs. Alonso Kelly, Mrs. E. Kelly, Mr. and Mrs. R. G. Lee, Mr. and Mrs. Fenton Wood and daughters, Mr. and Mrs. Thomas Niles, of Fredericton; Mr. and Mrs. James McKinney, Mr. and Mrs. Philip McCartney, Mr. and Mrs. John Johnson and family, Mr. and Mrs. H. McKinney, Mr. and Mrs. E. R. Mullin, A. C. Page, R. N. Hasballe, of St. John.
Mr. and Mrs. Johnson are to reside in St. John.

RECENT DEATHS

E. Ernest Cox.
News was received yesterday by relatives in this city of the death of E. Ernest Cox, after a short illness, at his home in Somerville (Mass.), on Oct. 28. The late Mr. Cox, who had been a resident of Somerville for the last fifteen years, was a son of Julius and the late Jane Cox, of Morell (P. E. I.). He is survived by his wife, who was a daughter of the late J. B. and Louise Belyea, of St. John; two sisters, Mrs. Heaney, wife of Rev. Jacob Heaney, of St. Stephen, and Mrs. R. N. Cox, of Charlottetown; also two brothers, William W. and Harry H. Cox, of Morell (P. E. I.). Interment will be made today at Hampton.

Rev. Charles F. Clark.
Rev. Charles F. Clark died on Wednesday evening in Weymouth, Mass., where he and his wife had been visiting. He held numerous charges in New Brunswick and the New England States as a minister of the Baptist church. He leaves his wife, two daughters and two sons. The sons are Edward, of Providence, and James, of Weymouth.

Yonka said she didn't like Paul Vastloff when she married him, but had been forced to do so. She had not seen him before her arrival in this country. Paul denied the assault. Yonka would not live with him under any consideration, and the case was adjourned a week to give her a chance to go to work.

30 YARDS RESCUE TUNNEL

Three Men Saved by Living Chain of Rescuers.

Newcastle, Oct. 28—A remarkable piece of mining engineering was responsible for the rescue after 48 hours imprisonment of three men from the F. Pit at Washington Colliery, near Newcastle.

The three men were cut off by a fall of stone and coal two days previously. Mr. Burt, the under-manager, decided that the only way to rescue them was by cutting a small tunnel through the fall, which was many yards in thickness. Helves of men worked until the entombed men were reached.

The tunnel was only 2 feet wide on the average, and had to be cut through the solid mass of stone and coal for 30 yards. The men lay in it chain fashion, passing out from hand to hand the debris as the first man cut it away and similarly passing in the timbering necessary to prop up the sides and prevent further falls.

Two of the rescued men went to bed to recover from their ordeal, but the other went to his garden to dig vegetables for the Sunday dinner.

Unless the milk producers of Kings County who supply milk for city use receive fifty-six cents a can instead of forty cents after November 1 they will refuse to sell their milk in the city. The city consumers are paying twelve to fourteen cents a quart and the farmers maintain that the dealers are

making seven to nine cents a quart while they themselves are receiving about five cents. They claim that their cattle do not pay them at this rate. N. W. Ewleigh has reported that negotiations with dealers resulted in no agreement being reached.

FEELS THE LOSS OF THORNTON

He Introduced Fresh Policy on Great Eastern and Put Pep Into System—Away When About to Make Improvements.

(Special Correspondent to The Mail and Empire)

London, Oct. 18.—The keenest possible regret is felt in East Anglia at the capture of Sir Henry Thornton by the Canadian Government for the control of their railway system. Everybody here was startled a few years before the Great War, when Lord Claud Hamilton, the chairman of the Great Eastern Board, announced his determination to seek a general manager for that system from outside and appointed Sir Henry Thornton in the States. The services in the eastern counties being mainly for agricultural districts, but with important seaside resorts such as Cromer and Yarmouth, were distinguished for slowness except as regards the special expresses to these places, Norwich and Ipswich, it is true, were treated with some enterprise, and passengers certainly had a feeling of safety, but there was need of some go-ahead to introduce a fresh policy, and the new manager showed that he had it in him. Then he was called to organize communications in France, which he did extraordinarily well, and since the armistice he has been making improvements, though handicapped by the fact that for months overhauling and the gathering together of fresh rolling stock held him back. The increase in railway servants' pay all over Great Britain has made it practically impossible to keep the small branch lines going remuneratively under the old plan. One new idea introduced is to have only one station master for a couple of the village stations; and another is to serve stations which have a good many villages in their vicinity by motor buses. Thus the people are encouraged to travel. But our railway charges have been maintained at nearly double what they were, and it has been felt that until some substantial drop could be made increased traffic could not be hoped for. Indeed, both passenger and goods returns have declined during the past year and it is only with the prospect of some cutting of rates that better conditions are expected. Sir Henry Thornton would, it was thought, very soon have been able to take advantage of new conditions.

Fortune Building in England.
I heard this week the story of the Mayor of an English town who has been elected three years in succession because it is thought that he is the one man in the large borough who alone can successfully deal with the unemployed problem. He came into the borough in his youth as a working bricklayer. With £30 saved he went to the bank and opened an account, enabling him to build a cottage, with advances as the work proceeded. He erected, up to a certain stage, a series of cottages on a mortgage, but the cost of materials increasing, he came to a stop, as the bank was unwilling to accommodate him. On the steps he met a fellow-citizen, to whom he mentioned his position, but without appeal. This gentleman offered him a thousand pounds for six months. Thus the construction was finished, good rents obtained, and at the present time, this builder owns some three or four thousand pounds, from which he derives substantial income. In fact, he is sure of several thousands a year. His custom is to ride about on a bicycle, and when

most glaring shortages in the memoirs, The Temps concludes:
"Now that he has had his say, let this refuge of Doorn rest definitely in silence, which is so much to his own interest. His defense has served simply to confirm his guilt. It has definitely fixed the world's opinion of the intellectual and moral value of the personality of the ex-emperor. Remote from the world in the throne room with the prestige of a crown and sceptre, he could create the illusion of being somebody, a force, a symbol. Seen near at hand in the light of these pages, which for all their lies show something of his nature, one finds that he was nothing but a blockhead."
"But even so, this blockhead must never be allowed to forget that he has been condemned by the whole civilized world as the great war criminal, and that if he has not been hanged in the Tower of London as was promised him, he none the less remains dishonored and accursed."

LONG TRESSES SCARCE.
Crate for Bobbed Hair Strikes Mexico City.
Mexico City, Oct. 12.—(By mail)—Bobbed hair is now so popular in Mexico City that among young girls long tresses are considered unusual. The craze for short hair was started several months ago when a number of young women who had been attending school in the United States returned home. The idea became popular, and, overriding the old belief that only women of doubtful morals wore their hair bobbed, it was not long before the younger set of the capital adopted it unanimously.

called to a civic office the suggestion was made that he should put that away. He demurred altogether. His habit is to deal personally with applications for relief or for doles. CALLS EX-KAISER WILHELM LIAR AND BLOCKHEAD

Memoirs Confession of Guilt and Tissue of Falsehoods, Says Paris Temps—Role Too Big for Him.

Under the title "Memoirs of a Blockhead," The Paris Temps prints the following appreciation of the author of the ex-kaiser's memoirs.
"They are finished. The greatest criminal of our age who in this twentieth century found a way of adding something new to the herbarium of modern times, the German Emperor who fled like a potroon in the hour of defeat after having waged 'this' war in the cruelest and most savage manner, the Lord of Doorn, who owes it to the complicity of Holland that he has so far escaped the anger of his people before God and before mankind—for a whole month he has dined the world in a flood of ink just as for four years he drowned it in blood. To him perhaps it seems that the inkstains will wipe out the richer hue. An impetuous play actor, he wished once more to appear upon the scene and, himself the hangman, he wished to play for once the role of victim."
"If history judges him on his memoirs, it will be more severe in condemnation than even if judgment is based on what he did on his own responsibility during his reign. His confession is not only a tissue of carefully woven lies, an unconvincing collection of little tattle which does not for a moment bear analysis, but it reveals such mediocrity of spirit and such vulgarity of soul that if among the last of his followers there remained any who still believed in his personal prestige, these pages of desperate banality and childish argument must have ruined forever their conception of their former Emperor."
"It was not a war-like prince with vast dreams of conquest who ruled Germany for eight and twenty years; it was a little fellow playing a role too big for him and in whose composition foolish pride far outbalanced those qualities essential for the completion of those great schemes to which that pride aspired."
After reviewing briefly some of the

DODGE BROTHERS BUSINESS SEDAN

Exceptional interest has been aroused by the practical arrangement of the interior.

The entire rear compartment furnishings—seat, seat cushions, back cushions, seat frame, foot rest, carpet and all—can be removed from the car in a few moments.

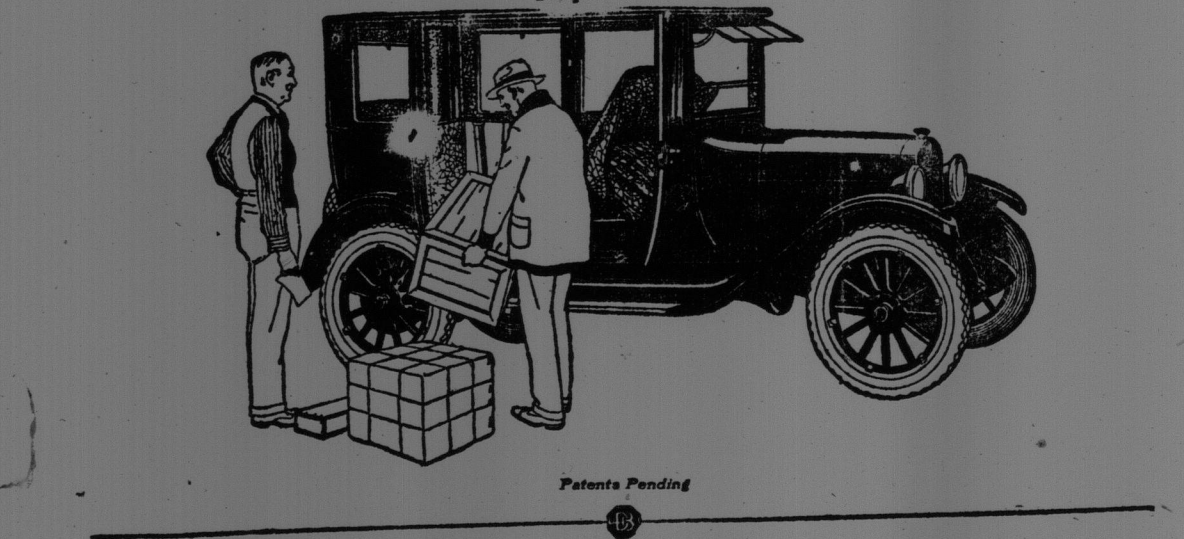

The front seat is then tilted forward, giving a gross clearance of twenty-two inches through the rear doors.

In this way, a space of sixty-four cubic feet in the rear compartment is made available for loading.

When the rear seat fixtures are back in place, the interior is complete and attractive in appearance. Its convertibility is not apparent to the eye.

Business men, farmers, salesmen, campers, tourists and everyone who has occasion, at times, to carry bulky articles or luggage, will readily appreciate the great utility of this construction.

LOCAL NEWS

HE IS LIVING HERE A. H. Chipman was incorrectly reported as having moved to Wolfville. His family is there, but for the college year only, returning to Hampton in June. In the meantime, Mr. Chipman resides in the city.

ENGAGEMENT ANNOUNCED Frederickton Gleazer—Mr. and Mrs. J. R. Macpherson announce the engagement of their only daughter, Miss Margaret Stewart Barclay Macpherson, to C. C. Thackray, son of the late William Thackray and Margaret Thackray. The marriage will take place on November 28.

BOARD OF HEALTH FIGURES There were fourteen deaths recorded in the city this week from the following causes—Enteritis, three; myocarditis, malnutrition, general debility, paralysis aglans, cancer of rectum, cancer of bowel, carcinoma of stomach, post operative exhaustion, hemorrhage from bowels, interstitial nephritis and pseudo leukaemia. Eighteen marriages were also recorded and seventeen births, eleven boys and six girls.

ST. JOHN FIRM FINED Frederickton Gleazer—A fine of \$80 and cost was imposed on a St. John firm this morning by Police Magistrate Linmiret as a result of a seizure of ale made by prohibition inspectors some time ago, when the defendant company was charged with shipping over-strength beer into York county. A plea of guilty was entered on behalf of the defendants by J. J. Winslow, K. C.

J. W. NICOLL PROMOTED. James W. Nicoll, assistant manager of Furness Withy and Company at Montreal, has been appointed manager of the Montreal office in succession to the late J. R. Binning. Mr. Nicoll was for ten years with the C. P. R. in the foreign freight department, with Mr. Binning, and left the service of that company in April, 1903, to join Furness, Withy and Company, Limited, under Mr. Binning, becoming managing freight clerk. He was promoted assistant manager about three years ago.

POLICE COURT. J. J. Doucette, Albert Arsenault and Thomas Lacey were before the court this morning charged with carrying and discharging firearms within the city limits. Frederick McManus, who was wounded by the discharge of the gun and who was in the infirmary ever since, was discharged on Thursday and appeared this morning. He said he was satisfied that the shooting was entirely accidental. The case was postponed. Two men charged with drunkenness pleaded guilty and were remanded.

BAD SCHOOL RECORD. Two juveniles were charged this morning in the police court with truancy. They were brothers and said they did not go to school because they did not like to. One of them had been absent for twenty-four days out of the term. The magistrate told him that his father was liable to a fine of \$48 and sent them inside to talk the matter over. Six other lads ordered to report this morning appeared.

CITY BOWLING LEAGUE. A meeting of the City Bowling League was held in Black's academy last evening when plans for the season were discussed. Six teams have already signified their intention of entering and it is hoped that at least two more will join. It was decided to have the official opening on November 14 and in the meanwhile those interested are putting forth their best efforts to make the league one of the strongest banded together in years.

TROJANS AWAY The Trojans football team left by train this morning for Moncton where they will meet the fast railway football team this afternoon. Manager W. R. Golding was unable to get away on the early train, but left by auto at 11 o'clock. He took along with him a couple of players and some friends. The line-up of the team will be as follows: Forwards, Hollis, McMurray, Malouin, Welsford, Angevin, Ellison, Doherty; quarters, Parry, Wilson, Lawson; halves, Garrett, MacGowan, Styles; fullback, Millidge.

IN THE MARKET Business was fairly good in the city market this morning. Very little change in prices was recorded, a reduction in poultry and an increase in eggs being the only features. At one place eggs were offered for seventy cents a dozen, although the usual run was from 45 to 55 cents. The following prices were given—beef, 20 to 30c; veal, 15 to 30c; lamb, 20 to 40c; mutton, 12 to 18c; ham, 20 to 35c; bacon, 40 to 45c; pork, 25c; chicken, 30 to 40c; fowl, 25 to 30c a pound; potatoes, 30 to 35c; green tomatoes, 30c; apples, 30 to 60c a peck; tomatoes, 10c; onions, 10c; squash, 5 to 6c; pumpkin, 8c a pound; celery, 10 to 15c; radishes, lettuce, parsley, and mint, 5c; parsnips, beets and carrots, 7c a bunch; eggs, 40 to 60c; butter 30 to 45c.

BIG MILL LIKELY DOWN FOR WEEK

The big mill at Indianton, owned by Stearn, Cutler & Company, was shut down today as a result of the loss of their turn table, which was destroyed by fire yesterday. The table is used for sorting the new cut coming out of the mill and its loss would hamper the movements of the men that it was found necessary to suspend operations and start rebuilding once again. A large crew of men are engaged today constructing a new table and also repairing the burnt run.

Speaking of the fire this morning Mr. Beattie said it would be impossible to estimate the loss for some time as a quantity of the lumber had been partly damaged and would all have to be removed. He expected it would be a week before the mill would resume operations. A hose was kept playing on the lumber piles all last night to prevent another outbreak. At six o'clock the fire broke out again, but firemen were on hand and quickly extinguished the blaze.

"Who Said Taxes?"

Let every taxpayer who has heard the cry of increased taxes read the following results obtained by municipal distribution in other cities:

Table with columns: City, Population, Domestic Rate, Surplus. Cities listed: Chatham, Kitchener, Sarnia, Windsor.

Note carefully Windsor, buying electricity at 1.44, sells for domestic lighting purposes for 3.2, pays all expenses, provides sinking fund of \$10,485.14 and still has a net profit of \$80,800.82.

Compare these records with the dire predictions of the N. B. Power Co., whose fear is not that the people of St. John may lose, but rather that the company, while claiming to produce electricity at 1.2, may not be able to exact from the citizens 15. per k.w.h. forever.

HALLOWE'EN TEAS THIS AFTERNOON

St. Vincent's Alumnae and St. Andrew's Ladies Hostesses to Many.

The Knights of Columbus hall in Coburg street presents a very attractive appearance for a Halloween tea from four to seven o'clock, under the auspices of St. Vincent's Alumnae. The tea tables have been placed along one side of the spacious assembly hall and are attractively decorated in yellow and black. Along the sides of the snowy linen have been placed witches, black cats and other Halloween emblems, while on the tables are vases of yellow chrysanthemums and silver candlesticks with yellow candles.

Refreshments, Mesdames A. P. O'Neil, D. J. Barrett, W. Duerr, E. Markey, E. J. Henneberry and Miss B. Mooney. Decorations, Misses K. Lundy and B. Gosnell. Advertising, Misses H. Ryan and E. Williams. Business, Misses Veda Waterbury and Madeline Dwyer. Fortune telling, Miss K. Cotter and Miss Taylor. Mrs. D. J. Corr and Mrs. W. C. Feavings will act as ushers.

AT ST. ANDREW'S

The Sunday school room of St. Andrew's church has undergone a complete transformation into a fairy land of Halloween in preparation for a tea and sale being held there this afternoon by the ladies of the Beneficent Society in their efforts to raise money for home missions. Everywhere are little pumpkin lanterns, black cats, yellow candles and the like.

SCOUTS INSPECTED

The Boy Scouts of the city gathered in King street east this afternoon for their annual inspection and awarding of the trophy donated by Senator W. Thibault for the smartest appearing troop in the city. The inspection was to be made by the district commissioner, Guy L. Short, assisted by V. C. Timberley, district secretary. The cup was first competed for in 1918, when it was won by No. 2, St. Paul's troop; in 1919 and 1920 it went to No. 1, Trinity, and last year there was no competition.

NEWS MATTERS IN LETTER

Death of Marquis, Diplomat of Edwardian Period

Prince of Wales Goes in for Radio—Marie Lloyd Had Fallen Upon Poor Days—Troubles of the Auction Bridge Players.

(From Our Own Correspondent) London, Oct. 22.—The Marquis de Severa, whose death has just occurred in France, was born in 1852. Really he outlived his particular social and political epoch. The "White Monk" as he was called, quite affectionately in society, perhaps because of the effect of close shaving on a stiff beard and a sallow complexion, was essentially a grand diplomat. He was a member of the co-operative movement of the Edwardian period. He had an astonishing fund of excellent stories suited for all occasions, and he told them in faultless English, with even clever dialect when necessary, to the constant joy of King Edward.

De Severa was correct in his dress and deportment, and followed King Edward's lead in all sartorial matters. He was not an old man, but he was old when the prince took to wearing men and flatter women, and it was of him that he always knew just the one ruse that could justly be called a not particularly brilliant. When King Manuel reached London as a royal exile after the revolution in Portugal, he was assiduously "nursed" in the social and political sense by the old nobleman who was a constant companion of the co-operative at the West End, took him to the House of Lords for big debates, and frequently visited him at his beautiful home in Richmond. De Severa was amongst the best auction bridge experts in really far more popularly brilliant. Prince's Broadcast Installation.

Among the enthusiasts who are going in for their own broadcast installations must now be reckoned the Prince of Wales. As a result of his experiences with the Boy Scouts last week, when the prince thoroughly enjoyed himself, and delivered addresses to his young admirers, first through the magnifying instrument, and afterwards by broadcast wireless from St. James' Palace, orders have been given to establish a wireless set at the prince's residence. It was not the prince's first experience of the magnifying, or an instrument something like it, because he had in his own possession, in San Diego, California, during his western tour, in the same way. He has had much talk on wireless, and today there are looking on him with interest in the prince's broadcasts in concerts while with the regiment. He tells me that at the prince's installation is excellent for broadcasting purposes.

Marie Lloyd.

It was a very popular superstition that Marie Lloyd, the incomparable vivacious comedienne, thrice married, who reigned alone as a star of the music hall, died at her home in Golders Green at the age of fifty-two. The fact that for thirty years she was the wife of a man who was a household word, earning £400 a week in her heyday, and who was a member of the aristocracy, a salary of 16s. a week, until a few days ago Marie's name was in this country, though perhaps somewhat less so in the States, where she had a reputation as a singer and a household word. She was a generous, impetuous soul, earning £400 a week in her heyday, and who was a member of the aristocracy, a salary of 16s. a week, until a few days ago Marie's name was in this country, though perhaps somewhat less so in the States, where she had a reputation as a singer and a household word.

There are few spectacles more tragic than the expiring efforts of the ghost of former greatness, and Marie, though one hates to admit it, furnished such. In her day she charmed us with some wonderful songs. She was even in song respects our greatest mine. But old Father Time's remorseless hour-glass measured out her days, and she died at the age of fifty-two, and only the mocking echo of former heart-while lingered.

Her Boy.

Under normal conditions, men and women in Ireland are credited with amazing longevity, and there is the apocryphal story of the woman who lived to be a hundred and ten and was finally killed by falling from an apple tree. A friend now tells me nearly as good a story for which he is prepared to vouch. Mr. Penrose, until recently the Duke of Devonshire's agent at Lismore and Castle, decided to retire a few weeks ago at the age of seventy-three. Some acquaintances asked him, in surprise:

Auction Bridge Troubles.

Most card players regard auction bridge as incontestably the best card game ever devised, and today there are far more people playing it regularly, with a higher standard of proficiency, than ever before. But it begins to look rather ominously as though auction bridge might share the common fate of other entertainments, and perish miserably of its own voracity.

At the present moment some very big mining schemes are being held up for lack of capital. I hear of efforts being made in the city not with encouraging success, to raise sufficient money to start work on what are regarded as exceedingly rich gold reefs both in South Africa and Canada.

At the Corner of the Street.

Strangely it has escaped the modern chroniclers that in the newspaper-seller's share with the cobbler a distinguished part for political philosophy. It may be empirical and dogmatic, but it frequently shrewd. I believe I know the oldest street-corner newspaper seller in London.

FOR WESTMINSTER ABBEY.

Rodman Wsanmaker to Present a Professional Cross of Ivory and Gems. New York, Oct. 28.—Mrs. Rodman Wsanmaker, who arrived at White Sulphur Springs recently, told there for the first time that Mr. Wsanmaker would present at Christmas time, to Westminster Abbey a magnificent professional cross of ivory, silver, and gemstones, which was engraved with symbols telling the history of the Abbey. The gift will be a testimony to Anglo-American friendship.

BERRAVED FATHER'S GIFT.

Nottingham, Eng., Oct. 28.—Eight homes erected in memory of the late Captain Albert Ball, V. C., D. S. O., M. C., by his father, Alderman Albert Ball, were opened at Nottingham by Lieutenant-Colonel Leslie Wilson, M. P. The following message was read from the king: "It is fitting that the houses should bear the name of one destined to live pre-eminently among the sons of Nottingham, who, in the great war, as in the days of Charles I, gave their all for king and country."

Whatever You Do Don't Neglect Your Eyes, Says Dr. Lewis, Who Tells How to Strengthen Eyesight

Are you a victim of eye strain or other eye weakness? If so, you will be glad to know that according to Dr. Lewis there is real hope for you. He says neglect causes more eye troubles and poor sight than any other one thing. Many whose eyes were failing say they had their eyes restored through the principle of Bon-Opto.

THE ROBBERY OF AN IRISH BANK

Turns Out to be Farce Comedy—Manager Caught in Ditch Saving the Cash.

Belfast, Oct. 10.—(By Mail)—The tragedy of life in the Free State has its lighter side sometimes and some of the episodes which are reported from that part of the country, where every man seems to be doing what is right in his own eyes, are distinctly comic, save to those immediately concerned. Banking, an ancient and honorable profession, has its risks. A few days ago a new manager arrived at the Little Midland

town. He had hardly settled down in his office till it was raided by a gang of Republicans under the command of a renowned leader known as "The Bully."

The gang burst into the bank and held up the cashier at the point of the revolver and while this was being done a small party of Free state police burst into the bank and held up the robbers. There was a free fight in which there was much shooting and no bloodshed.

In the turmoil, the manager crammed notes, gold and silver into a bag and bolted out of the back door of the bank and after some difficulty secreted himself in a ditch with his precious bag below him. Meanwhile the police and the townspeople who rushed to the rescue of their money had made it so hot for the robbers that they had to fly.

A hue and cry pursuit followed and in the course of it a posse of the civilians discovered the unfortunate bank manager hiding in the ditch. He was a stranger, the bag of money was sufficient evidence against him and the infuriated crowd was about

to lynch him as one of the robbers when very fortunately a newcomer in the crowd recognized him as the new bank manager and he was released from his precarious position.

"The Bully" was arrested somewhere on the outskirts of the town, and the cause he gave was that he had been at a dance the night before, otherwise he would not have been so easily captured. He managed to escape a few days later, and returning at the head of his gang, shot up the town, chased the police, bombed several houses of the people who had pursued him and his gang, and then cleared off with the blackmail he had collected from his victims.

RELIGIOUS SINGER GETS BIG SALARY

Cantor in Jewish Synagogue to Receive \$15,000 Year

New York, Oct. 28.—One of the largest salaries ever paid to any singer—if not to any church singer—will be received by Cantor Josef Rosenblatt, former Cantor of the Ohav Zedek Synagogue, Harlem, who has signed a three years' contract at \$15,000 a year with a Philadelphia Synagogue to officiate on the Day of Atonement and on two days during the Jewish New Year celebration. This means he will receive \$5,000 each time he sings. The contract does not prevent him from accepting concert engagements or singing in other synagogues.

Musical authorities who learned this expressed their amazement at such an enormous salary being paid a religious singer. Fatti, they said, sometimes received that much for one concert, but it was considered a very high salary. Caruso did not average that a night, with the exception of a few South American appearances.

Before signing the contract Cantor Rosenblatt insisted a proviso be inserted guaranteeing that men and women sit apart, in accordance with the Jewish orthodox doctrine.

TWO HUGE TIMBER WOLVES

TRAPPED NEAR THESSALON

Sault Ste Marie, Ont., Oct. 28.—Two huge timber wolves have been caught in beaver traps in the township of Grasset, back of Thessalon by Omer Tallion of Campbell's camp of the Bidwood Lumber Company. Noticing the great number of wolves there, Tallion thought he would try his luck for the bounty. He set a dozen ordinary beaver traps, suitably baited, and was rewarded on making his rounds with the capture of these two extraordinarily huge animals.

GIRL GUIDE NOTES

The companies are all very busy on Ambulance work at present, each trying to be the winner in the St. John Ambulance Association's junior competition.

In the 5th St. John, two second class badges were won last week by Florence Roberts and Winifred Woodley.

The 7th St. John reports one recruit and their Brownies are in full swing—twelve having joined the pack to date. Guides from the 5th, 6th and 7th St. John companies assisted in the Red Cross pageant at the Imperial. It is hoped that the other St. John companies will soon have their proper uniforms, so that all the public work will not have to be done by the same companies.

Officers' training classes will be held on the second Tuesday of each month, instead of weekly.

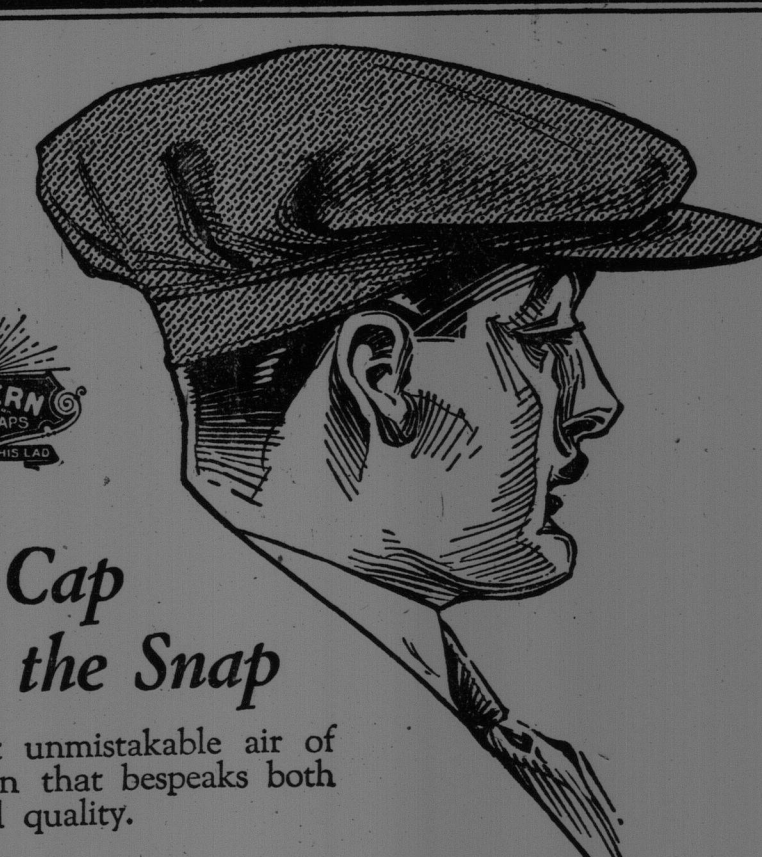

The fair being conducted by the Willis Orange Lodge No. 70, in Orange hall, Fairville, had a large crowd in attendance last night, and every game was keenly contested. Hiram Hornbeam, Hamner and their maid attended and promised to return again. The door prize was won by ticket 532; the Wednesday night prize won by ticket 730, was uncalled for.

NEED BETTER LIGHTS.
Number of Rear Plate Should Be Seen at 200 Feet.

Toronto, Oct. 28.—Representatives of the Ontario Safety League appeared before the Motor Vehicles Committee of the legislature urging that all vehicles be forced to carry lights after dusk. Uniform traffic rules for every part of the province were also recommended to the committee as well as the licensing of all drivers along the line suggested by the Ontario Motor League.

J. P. H. Wise of the Safety League stated that he personally was in favor of the spot light, but admitted that there was much to be said against it and its abuse by certain drivers.

A radical suggestion that all rear lights for motor cars be standardized was made by T. A. Stevenson of the Safety League. He stated that all rear

Garrison League

At a meeting of the bowling committee of the Garrison Athletic Club held last evening plans were made for the formation of a league, regulations drawn up on other matters dealt with. The members of the club are also planning other activities for the winter. A special matinee dance will be held next month.

GOLF.

Well Satisfied.

Chicago, Oct. 28.—America's first "Eveless Eden" for golfers has proved a success. In the face of renewed determination of the National Women's party to end discrimination against their sex, and other evidences of militant feminism, the members of the Bob o' Link Country Club at Highland Park have voted to continue keeping out the ladies.

Not only that, but they re-elected C. E. Karlstrom, sponsor of the policy to exclude women from the course and clubhouse, except on special occasions. Flinging defiance against the equal rights movement still more broadly, President Karlstrom gives eight reasons why the club had benefited by keeping women out. They are:—

1. Made the club a success from the standpoint of the "golfing" golf player. Created a real club spirit among the players.

2. Increased the membership and created an imposing waiting list of masculine golfers.

3. Eliminated dissatisfaction. Enabled the members to loaf in "free and easy" costume in hot weather.

4. Given business men a chance to play golf after office hours.

5. Reduced running expenses. Subordinated social features to golf, as proper in a "he-man's" golf club.

6. Bob o' Link experiment has been watched by golfing organizations all over the country.

SKATING.

Plan For Big Meet.

A meeting was held in the board of trade rooms yesterday afternoon at which representatives were present from the Rotary Club, Gyro Club, Maritime Skating Association, Y. M. C. A. and Y. M. C. A. and plans were talked over in event of St. John being awarded the International skating championships this year. Commissioner was also present and favored the proposed plans.

RING.

A Knock-Out.

Providence, R. I., Oct. 28.—Harry Greb, American light heavyweight champion, in the fourth round of a scheduled 12-round bout last night, landed the blow that spelled "knock-out" for Larry Williams, light heavyweight title holder of New England and challenger for the national crown.

Sid Gets Decision.

Detroit, Oct. 28.—Sid Barbarian won the newspaper decision here last night in a ten round bout with Ted Mochant, an English lightweight.

Tunney Won.

Boston, Oct. 27.—Gene Tunney, former light heavyweight champion, tonight was awarded the decision over Gus Wiggins of Indianapolis, after ten rounds of slow fighting, with the former A. E. F. champion always the aggressor. Tunney landed many stiff drives to the head and body, but Wiggins did much holding.

DECLARE BLUENOSE
TROPHY WINNER

Unanimous Decision of International Committee—Joy Mixed With Grief at Death of Member of Crew.

An unanimous verdict in favor of the Bluenose was a decision handed down by the international committee yesterday this proclaiming her successful in her defense of the north Atlantic fishing vessel championship. When the committee were disposing of protests the Canadian vessel set sail for home with her flag at half mast and unware of their decision. There was no joy on board the Bluenose for one of the most heroic members of the crew, Captain Bertie Demone, a nephew of Captain Angus Walters, fell overboard during the night and was drowned. Although death was proclaimed due to accidental drowning an inquest was called to complete the formalities of the state. Captain Walters did not return on the Bluenose, but remained to accompany the body home.

The sad news of the drowning was learned when Captain Walters, members of his crew and officials were gathered at a luncheon at the Canadian headquarters. An inquest was held yesterday afternoon and the body is expected to pass through the city en route to the late Captain's home in Lunenburg, N. S.

Mrs. G. A. Kuhring, who has been Red Cross organizer in the province has completed her work and left yesterday for her home in Toronto. At a luncheon held yesterday in her honor at the Union Club eulogistic addresses were made by R. T. Hayes, M. P. P., and C. B. Allan. A large bunch of chrysanthemums was presented to Mrs. Kuhring.

High School Loses Protest.

The executive of the Amateur Athletic Association of the University of New Brunswick at a meeting last night to consider a protest entered by the Captain of the St. John High School football team regarding a decision handed down by Referee McCloskey in a recent game between St. John and Fredericton, decided the game should stand as played. The dispute arose when two local players are alleged to have handled the ball after it had been picked up and carried out following a try. A goal was subsequently kicked and disallowed.

Team Insured.

Chicago, Oct. 28.—The entire Northwestern football team has been insured against injury by a blanket policy, Dana M. Evans, director of athletics, has announced. The terms of the policy assure the university of a fixed sum for every player injured or taken ill during the football season. They also provide a fifty per cent. additional sum for every player sent to the hospital. Compensation already have been received for five broken noses.

FANS PAY AS HIGH AS \$100 FOR TICKETS TO CHICAGO GAME

Chicago, Oct. 28.—After a conference between internal revenue agents and a representative of the University of Chicago, it was revealed that as high as \$100 was being paid by persons eager to witness the football game between Chicago and Princeton University at the Midway Grindiron today. George O. Fairweather, assistant business manager of the university, stated that he had loaned more than fifty per cent. of its authorized price the government shall receive one-half of the advance. If less than fifty per cent. of the government gets ten per cent. All the 31,000 seats at Stagg Field for today's game were sold more than three weeks ago.

British Race.

London, Oct. 27.—(Canadian Press Cable).—Lord Penrhyn's un-named colt by Swynford out of Galante won the free handicap at Newmarket Houghton today, beating out Sir Hedworth Men's Hapsburg-Churchwalk colt Karl, by three quarters of a length. Third place went to Mrs. Whitburn's ATHLETIC.

Lloyd George Fights With His Back to the Wall

Lloyd George is down but not out, seems to be the verdict of neutral observers on the resignation of Britain's Premier, whose Coalition Government has been in power through the long stormy years since the war got under way.

In defending the action of his Government at the Straits where he claimed to be a peace-maker and not a war-monger, Lloyd George states "I am told we were right in our object of keeping the Turk out of Europe, preventing a massacre at Constantinople and insuring the freedom of the Straits—all that was right, but we ought not to have used force."

One of the most interesting articles in THE LITERARY DIGEST this week, October 28th, presents journalistic opinion upon Lloyd George's resignation quoted from the English and French press.
