MORE GAINS MADE BY NATIONALISTS

Free State Troops Warmly Greeted by People

Insurgents Fail in Coup in Dublin Area—Lose 180 Men Taken Prisoner Trying to Isolate City.

(Canadian Press Cable)

Dublin, Aug. 7.—It is officially announced that the National troops have occupied Galway, Limerick, Junction, Killybeg and Killybeg. They also captured Listowel on Saturday. The troops everywhere were greeted with remarkable enthusiasm, according to the statement.

Fighting in Dublin.

Dublin, Aug. 7.—The rattle of machine guns, rifle firing and the explosion of bombs were heard in various parts of the city from midnight Saturday until dawn of Sunday, while Republicans were unsuccessfully attacking positions of the nationalist troops. The Republicans suffered losses, but the victims were removed before ambulances arrived. The nationalists took thirty prisoners.

Nationalist Victory.

Belfast, Aug. 7.—A party of Nationalists surprised a Republican flying column in the Glen mountainous parts, in county Donegal, yesterday. After machine gun fire, one irregular took off his shirt and hoisted it on his rifle. Seventeen Republicans were taken prisoner. Amongst them were M. O'Flaherty, secretary of the Donegal Technical Instruction Committee, and his brother, Sean O'Flaherty, an anti-treaty member of the Dail.

A special constable was shot dead and his companion wounded by an unknown person in Belfast yesterday.

A Failure.

Dublin, Aug. 7.—Republican forces from the southern battle zone attempted a coup in the Dublin area on Sunday night, but were frustrated by the Free State troops, according to an official statement issued from army headquarters today. The irregulars traveled by boat from Cork to Liverpool, and thence here, intending to isolate the city by destroying the bridges, roads, rail ways and other means of communication. The Free State forces captured 180 of the attackers and a large quantity of arms and other war materials.

DOCKERS' STRIKE IN LONDON HAS BEEN AVERTED

London, Aug. 7.—The prospect of a dockers' strike has been averted as a result of the decision of the national transport workers on Saturday to consent to terms reached with employers in regard to the latter's demand for a reduction of wages of two shillings a day.

The final terms have not yet been issued but it is understood that the two shillings reduction will be made in instalments extending over several months. The outlook is promising for the stabilization of wages over a long period.

GREEKS MOVE TROOPS BACK

Constantinople, Aug. 7.—General Vlahopoulos, commanding the Greek troops, has notified Brig-General Harrington, commander of the allied forces, that the Greeks have begun to withdraw from the Tchatalja line. This is in compliance with the request of General Harrington, who is endeavoring to establish a neutral zone, that the Greek and allied troops withdraw for two miles on each side of the line in order to prevent a clash.

NEGRO ESCAPES FROM REFORMATORY

Toronto, Aug. 7.—Watching his opportunity while his guards were not about yesterday, a negro named Griffiths managed to slip handcuffs and shackles, break away a bar outside the window of his cell at Burwash Reformatory, and get away.

ELECTED K. OF C. DIRECTOR.

George H. Bovin, M. P., of Granby, Que., was made a director of the Knights of Columbus at the fortieth annual convention held in Atlantic City, N. J.

QUEBEC FARMER STUNG TO DEATH BY SWARM OF BEES

Quebec, Aug. 7.—From St. Apollinaire, L'Annapolis county, comes word of the death of George Rousseau, a farmer, there as a result of having been stung by bees. He was working in his apiary when the bees attacked him and he was so severely stung that medical aid was of no avail. He leaves his wife and several children.

SOME HOPE IN COAL SITUATION

Miner's President Optimistic Over Conference

Meeting in Cleveland Today—Paths of Communications Still Said to be Open Between Railroad Heads and President Harding.

(Canadian Press)

Cleveland, Aug. 7.—Hope for early settlement of the soft coal strike was held out last night by President John L. Lewis, of the United Mine Workers of America, who declared he was optimistic as to the possible results of conferences between union leaders and operators here today.

Only operators of the central competitive field, comprising Illinois, Indiana, Ohio and Western Pennsylvania, were invited to the conference with the striking union leaders, but indications favored later invitations to operators of other coal fields, possibly resulting in enlargement of the central field as a basis for wage negotiations in the soft coal industry.

In spite of the refusal of the railroad managements to accept President Harding's request that all railway strikers be reinstated with full seniority in consideration of a calling off of the striking it is known that paths of communication between the administration and the more prominent railroad heads remain completely open.

Chicago, Aug. 7.—Leading figures in the railway shipment strike were away from Chicago today and this centre appeared to be in the doldrums while the head peace move was being formulated. B. M. Jewell, head of the railway employes department of the A. F. of L., with other strike leaders, was in Washington expecting to resume discussions with President Harding. Ben W. Hooper, chairman of the United States railroad board, was within easy call while spending a short vacation at Michigan City, Ind.

Scattered incidents of disorder marked the early part of the sixth week of the strike.

Sydney, N. S. W., Aug. 7.—Another conference between the executive of United Mine Workers, District No. 26, and officials of the Dominion Coal Co. will probably be held before August 16, which is the date set by the miners for a walkout. At a conference on Saturday at Glace Bay, the men's representatives demanded the 1921 rates and retroactive payment to the first of the year, saying that the demand for coal had improved and that coal prices had consequently advanced.

D. H. McDougall, vice-president of the British Empire Steel Corporation said that the coal company was not in a position to profit by the increased price of coal, having sold all its output some months ago at lower prices, and was prevailing. He said he wished before expressing any definite view on the company's position to consult with his colleagues.

UNEMPLOYMENT

While the harvesters' excursions which left here last week eased the employment situation somewhat, there are still a considerable number of applications coming in to the local office of the Employment Service of Canada.

To date there have been applications filed by 870 men and 114 women. Of the male applicants about thirty per cent have been placed, while forty of the female applicants have been found positions. There are still many openings for skilled laborers and tradesmen, such as brick layers, plasterers and woodmen, for which there are no qualified applicants. In the women's division there are many chances for women to go to the country as well as for general maid.

Finding employment for women seems to be a more difficult task than it is in the case of men, since people who are seeking the services of a woman are usually very desirous of picking their help, while those who are looking for male help are usually satisfied when the man sent out to the job can do the work.

TAKEN TO DORCHESTER

James Demaine, sentenced to three years in Dorchester penitentiary for breaking and entering and stealing from Brock & Paterson, was taken to Dorchester this morning by Turney Boves. There are several others in jail at the present time awaiting sentence.

DEAD IN TYPHOON AND TIDAL WAVE NOW NUMBERED AT 10,000

Hong Kong, Aug. 7.—Casualties in the typhoon and tidal wave which on last Wednesday swept the port of Swatow, 250 miles north of here, are now estimated at 10,000.

Another British steamship, in addition to two previously reported, was bound from Hong Kong to Shanghai when she met the fury of the typhoon and was wrecked. Her passengers were saved. Hong Kong, Aug. 7.—The British gunboat Magnolia, last night proceeded to Swatow to protect from pirates steamships stranded as a result of last week's typhoon. The harbor is jammed with wreckage amid which there are many bodies. Several ships were wrecked ashore.

BABE RUTH NOW OUT OF HIS 'TEENS

Scores His 20th Homer for This Season.

Eight Runs Off Jesse Barnes in an Inning in Which He Blows Up—Frederick Releases Two Players—Late Sport.

(Canadian Press)

New York, Aug. 7.—A slugging onslaught led by Wally Pipp, whose clouting has been a big factor in the team's winning drive, gave the Yankees an 11-6 victory in the first game of the series with Detroit.

Joe Bush chalked up his eighteenth win. Babe Ruth walloped out his twentieth homer and the Yankees obtained revenge for Pilette's two victories over them at the Polo Grounds recently by driving Cobb's star from the box in two innings.

Johnny Tobin's two homers, one with the bases full, and Shocker's pitching combined to defer the payroll of 10 and enabled the Browns to keep a game ahead of New York.

Jesse Barnes skyrocketed in the tenth inning and Chicago scored eight runs, winning 10 to 8, and cutting the Giants' lead over the Cardinals to two points.

The Reds hammered Grimes out of the box and beat the Dodgers in the only other National League game played. Speaker's homer tied the score in the eighth and the Indians pushed over the deciding run against Boston in the twelfth inning.

Courtesy struck out five of the Athletics in the first three innings, but then weakened and Chicago lost 5 to 1.

Frederick Team. Frederick, N. B., Aug. 7.—With the arrival of Dean and Markham, Quincy infielders, today, Earl Bates, who was secured from Joe Ford's Newburyport team about a month ago, will be released by Frederick and will go to play for other players who also released this week, including "Pans" Fraser, extra infielder, so as to keep the payroll of the local team down. Bates gets his release at his own request. He has not been in good health and has been anxious to return to his home in Quincy, to rest for a few weeks before resuming his studies at the Massachusetts Institute of Technology.

Sherbrooke Sharpshooters. Sherbrooke, Que., Aug. 7.—At their annual shoot here on Saturday the Sherbrooke Trapshooting Club successfully defended the honor of the city against the Riverside Gun Club of Montreal, by a score of 119 to 107. The scores:

Sherbrooke—J. E. McCrea, 24; C. C. Goodhue, 23; S. G. Newton, 24; S. R. Newton, 25; W. H. Southwood, 23. Total, 107.

Riverside—R. Lewis, 24; W. Clements, 21; G. W. Gentleman, 22; G. Arthur, 20; W. R. Ramsden, 20. Total, 107.

Bout Tonight. New York, Aug. 7.—Charles White of Chicago, and Bobby Barre of Philadelphia, will meet tonight in a 15 round bout at the New York Velodrome.

It had been announced that the winner would be matched with Benny Leonard, but the latter's manager declared in Chicago last night that he would not box again until after his return from Europe in October. White has posted a forfeit with the New York Athletic Commission, binding a challenge to Leonard.

New York, Aug. 7.—Miss Hilda James, English swimmer, was on her way west today to compete in a championship meet on the last three days of the week in Indianapolis. She announced she would make her final appearance before leaving for England on Labor Day, in a special contest at Brighton Beach.

Her opponents will include Gertrude Ederle, winner of the recent long distance championship race; Helen Wraight, holder of several world records; and Allen Rignin, Olympic diving champion.

ARBUCKLE PLANS A TRIP TO CHINA, JAPAN AND KOREA

Los Angeles, Aug. 7.—Reese Arbuckle, motion picture comedian, has applied to federal officials here for passports for himself and Harry Brand, his secretary, for a business trip of indefinite length to China, Japan and Korea. They plan to sail from San Francisco on August 16.

TWO MEN DIE IN BORING A WELL

Killarney, Man., Aug. 7.—Robert Deacon and Donald Ross lost their lives here on Saturday when overcome by gas in boring a well on a farm. Deacon was overcome when eight feet down and fell sixty feet to the bottom. Ross met a similar fate when attempting to rescue Deacon.

As Hiram Sees It

"Hiram," said the Times reporter to Mr. Hiram Hornbeam, "who is this story I hear about trouble between Silie Jones and Pete Gogan, in the Settlement?" "Well," said Hiram, "Silie had an old mowin' machine about forty year old and out of date that he couldn't use an' didn't think it was worth fixin'. When he was started you could hear it rattle over in the next county, an' it left more'n a half bush of grass not cut. Silie showed it to Pete one day an' ast him 'if he didn't want to buy. Pete said he'd buy it if Silie 'ud fix it up. Silie said: 'No, you fix it up yourself an' then buy.' So Pete, not havin' any more sense than the law allows, took the old junk an' started in to put it in shape. It cost him a lot of money an' work, but he got it after a while so's it 'ud cut grass as good as a new one. Then he offered Silie the price of the junk. Silie said it was as good as a new machine now, an' if Pete wanted it he'd hav' to pay the price. Pete says he orig'ed more sense than try to make any bargain with a critter like Silie Jones. They say Silie has some notion of 'goin' into the street railroad business, an' I wouldn't be surpris'd, nuther—By Hen!"

POLITICAL RUMORS

Gouin to Washington, Taschereau to Ottawa, Perron New Quebec Premier.

Quebec, Aug. 7.—A special Ottawa despatch to L'Action Catholique on Saturday stated that rumors were current in Ottawa that Sir Lomer Gouin, minister of justice, will go to Washington soon to replace Auckland Geddes as British ambassador.

Among changes mentioned is that Hon. L. A. Taschereau, premier of Quebec, will become minister of justice in Ottawa, and Hon. J. L. Perron would in turn become premier of Quebec. It was rumored that these changes are the result of the Quebec government being silent about the next provincial elections.

NORTHCLIFFE NEAR DEATH

London, Aug. 7.—Viscount Northcliffe has become weaker rapidly, and his condition is considered very grave.

WEATHER REPORT

Issued by authority of the Department of Marine and Fisheries. R. F. STEPHENS, Director of Meteorological Service.

Synopsis.—The disturbance which was over southern Alberta Saturday morning is now centered over southern Ontario and will probably move to the Gulf of St. Lawrence. Good rains have fallen in most districts of the west, southern Ontario and western Quebec and will probably be almost general over the eastern maritime provinces tonight.

Scattered Showers.

Maritime.—Fresh southerly winds, with fog today. Tuesday, strong southwest winds, partly cloudy with scattered showers.

Gulf and North Shore.—Fresh to strong easterly winds, with rain tonight and early Tuesday, followed by northerly winds with scattered showers.

In Short Metre

Mr. Bodell asks the people of St. John to give the property of the New Brunswick Power Company a value of \$3,909,000, made up as follows:

Table with 2 columns: Item, Value. Bonds: \$1,869,000; Stock, 1st pref.: 1,000,000; Stock, 2nd pref.: 350,000; City bonds: 690,000. Total: \$3,909,000.

But this is not all. If the city took over the operation of the whole plant, it would have to spend at least \$330,000 on the street railway and distribution plant, and an unknown quantity on the gas plant. Is it too much to say that including the gas plant the total outlay would need to be \$500,000? Many people name a larger figure.

Add \$500,000 to the \$3,909,000 and you have a value of \$4,409,000. But the city would not own the plant. If it desired to become the owner it would have to buy the bonds and stock of the company and redeem its own bonds at a total value fixed by itself at \$3,909,000.

Does that value exist, outside of the fertile imagination of the New Brunswick Power Company? Will the people recognize it and then pay it? What will the company's property be worth a year hence if the city goes into competition—as it has a perfect right to do? If somebody is to be hit in this controversy, is it the city of St. John—which has been so often hit by the power company and its predecessors?

Bear in mind also the run down condition of the street railway and gas plant. A million dollars, or two millions, is as good for the city of St. John as for the power company.

A HERO OF THE SEA

Mate Gives Up Chance of Life in Favor of Two Sailors.

Montreal, Aug. 7.—A thrilling story of heroism at sea was unfolded here last night when the master of the steamship Cortezuela brought his vessel into port and reported the loss of his second officer, Angus J. Glasgow. He was washed into the sea during a gale that struck the ship on August 6. Although unable to swim he refused help and ordered the surviving boat to rescue two of the Cortezuela's sailors who were also thrown into the sea. Both these were saved while the second officer was drowned in full sight of the ship.

Victor, Idaho, Aug. 7.—Mary Miles Minter, motion picture actress, was thrown into a window in the vestibule of her private railroad car by the jar of a switch engine here yesterday and received a severe cut on her left arm and numerous scratches and bruises.

Tom Moore received severe bruises about the head; Patricia Palmer received injuries to her back and possible internal injuries; and Viola Daniels was considerably bruised. All of the twenty-five in the party were badly shaken up. The actors were waiting to start their rail journey to Los Angeles after spending six weeks at Jackson Hole on vacation.

PRESS GLOOMY AS CONFERENCE OPENS

European Conditions Never Worse Since Armistice.

Thirteenth Assembly of Leaders in Allied Nations in Three Years—Diverging Views as to French Course.

(Canadian Press Cable)

London, Aug. 7.—The chief representatives of the Entente Allies today gathered around the conference table once more to discuss war reparations, Germany's financial condition and related issues. The meeting, the thirteenth within less than three years, was greeted by the morning newspapers without enthusiasm, and in some cases with almost despairing skepticism.

The Times recalls that the numerous past conferences have "never produced a solution of the problems burdening Europe," and adds: "From one point of view, conditions have grown steadily worse, and never since the conclusion of the treaty of peace have they been quite so bad at this moment. Europe is now at the mercy of forces that elude purely political calculations. It is well that the conference is meeting without pretensions, there will be more chance for common sense."

Other papers, while taking a less pessimistic view, nevertheless warn that it is useless to expect a final settlement from the conference, although they believe the conversations will have a serious importance.

Divergent views are expressed regarding the proposals Premier Poincare is said to be prepared to submit, some papers revealing a strong dislike for the French attitude, and others, the Daily Telegraph for instance, commenting on "the very mild and somewhat negative suggestions announced as sequel to France's ultimatum to Berlin."

French restraint in this matter is regarded as of good augury and, according to some reports, has appreciably lessened the tension between Paris and London. Elsewhere, France is roundly condemned for imposing any such measures upon Germany, and her action is regarded as hampering the conference.

The delegates remained in conference until a little after one o'clock, when they adjourned for the night. The announcement that the conference would reconvene at 4.30 p.m.

Today is a bank holiday in England and hundreds of excursionists and sightseers gathered in Downing street long before the conference opened. The conference as a result had the largest "gallery" of any past war meeting that has been held in London.

By a ruse the several score newspapermen who were awaiting the arrival of the experts in statecraft, were taken to the room of the premier's secretary, while unknown to them the entire personnel of the foreign delegations arrived in Downing street and entered the conference room. The incident caused much resentment among the correspondents who had been awaiting patiently to describe the preliminary scenes and exchange a few words with various plenipotentiaries.

After the delegates had been seated in the conference chamber, Mr. Lloyd George took the chair and the proceedings began. It was announced outside to the newspapermen that Sir Edward Grigg, the British premier's private secretary, would give an account of the morning session at about 1.30 o'clock.

CHURCH CALL TO NATIONS TO LAY DOWN ARMS

Copenhagen, Aug. 7.—A conference of the world's alliance for international friendship was opened at the cathedral here yesterday with a declaration of profound conviction that the only path to true reconciliation and peace among the nations lay in applying the spirit of Christ's teachings in all human relationships.

Rev. Charles E. Jefferson of New York, preaching in the cathedral, demanded that, in the name of Christ, war preparations cease and that the united church insist with passion that all the nations lay down their arms.

S. Secretary of State Hughes sent a message expressing President Harding's sympathy with the aims of the conference.

THE FOUR COURTS

(D. C. in Montreal Gazette) "The hand that rounded Peter's dome And grained the aisles of Christian Rome, Wrought in a sad sincerity: Himself from God he could not free; He builded better than he knew; The conscious stone to beauty grew."

Photographs to hand of the famous and historic Dublin Four Courts would indicate that these magnificent suites of buildings have been almost reduced to ruins, and it is questionable if they can be restored to anything like their former beauty and significance.

Magnificent Buildings. The destruction really commenced during the Easter Week Rebellion of 1916 when the palatial General post office in O'Connell street was razed, followed by the destruction of the custom house last year and finally the Four Courts Buildings, although in addition to these outstanding monuments of the architectural talent exemplified in the Irish capital, such famous and historic hotels as the Gresham, Granville, Humman, Metropole and others equally well known have been wiped out of business, temporarily.

Speaking of the custom house, this fine edifice covers a space of 875 feet by 209 in depth. The Four Courts were variously designed in the Doric with an entablature and grouped figures and statues. The dome is 125 feet high, with a statue of Commerce or Hope 16 feet high.

Zealous Four Courts. Rutkin once said:—"When we build let us think that we build (public edifices) forever. Let it not be for present delight, nor for present use alone, let it be such work as our descendants will thank us for and let us think as we lay stone on stone that a time will come when these stones will be held sacred because our hands have touched them, and that men will say as they look upon the labor and wrought substance of them, 'See! this our fathers did for us.'" Alas! that the hot-headed impetuous Irish could but have thought before putting their hands out to work havoc and put back the hands of the clock for many centuries. Speaking of the Four Courts the active members of the legal profession.

Originally the building was called the Four Courts by reason of its structure. From the central hall under the great dome opened the Court of Chancery, the Court of Queen's Bench, the Court of Common Pleas, and the Court of Exchequer. These four separate tribunals were all merged under the act of 1877. The Four Courts were the repository of the archives and deeds and all the historical legal documents of the Irish people for many generations back. All the wills that are preserved in Ireland today are there—a record alone that can never be replaced.

The record of all the law suits that have taken place also in the Emerald Isle were there as well, covering at least one hundred and twenty years, with all the documents accumulated in the various decennial returns. Formerly members of the Irish Bar robed in their private houses and either walked or drove in wig and gown to the Courts, the Central Hall therein, being the meeting place in which they interviewed solicitors and clients—the Irish barrister never having a clerk. The more prominent members of the Irish Bar had their recognized positions in the Central Hall, where they might always be found, when not travelling on circuit.

Your Partner's Widow

Would you care to be in business with her? Would you like her to have a say in formulating the policy of your concern? Isn't it possible that, in the event of the death of your partner, his share in your joint business might pass into the hands of inexperienced, unfriendly or otherwise objectionable persons? Or, suppose your death should occur first— Wouldn't it be much more satisfactory if your interest in the business could be paid to your heirs in cash, so that the money could be placed in some form of investment that would relieve your partner from possible friction with your heirs?

Write for our booklet, "Personality in Business." It tells how to provide for such contingencies.

Law libraries were scarce in the early days, and one often used to say that he argued many of his early cases from his note-book, into which he had copied the authorities often used to quote from borrowed law books.

Irish Cases Celebrated. All the great Irish cases celebrated and State Trials have taken place in the Dublin Four Courts. During the Irish Rebellion of 1916, the Four Courts were captured, but were afterwards handed back. During the recent seizure by the irregular forces of the I. R. ### TRIED TO MAKE HIS DOG TALK

One of Dr. Alexander Graham Bell's Experiments

He was a Prophet Who Lived to See Some of His Predictions Fulfilled to the Letter and Beyond.

The Boston Herald of March 5, 1922, contained the following interesting article relating to the late scientist:

Two anniversaries of great significance to Boston and Bostonians fall in March. They both have reference to the invention of the telephone, that epoch-making device that, more perhaps than any other, has served to unite the country in one organic whole.

On March 17, 1876, forty-six years ago, Dr. Alexander Graham Bell obtained the original patent on his invention. Could the importance of that event have been foreseen it would have doubtless been marked by a celebration. As it was, it passed unnoticed.

Seventy-five years ago, on the third day of March, Dr. Bell, "father of the telephone," pioneer in acoustics, inventor of the phonograph, champion of the Montessori system of child training, teacher of deaf mutes, inventor of a device to keep a house as cool in the hottest of dog days as it is in mid-October, scientist, investigator and philanthropist, was born.

The reason why the two anniversaries are of peculiar interest to Boston is because it was in this city that Dr. Bell, in 1876, constructed and used the first practical two-way telephone, the precursor of the wonderful communication through which agency human beings converse with one another regardless of geographical limits.

In that year the young Scotsman was experimenting upon a machine by which he hoped the deaf might be made to hear and the dumb taught to speak. In doing so he made a discovery which practically annihilated distance as far as sound is concerned. He discovered the principle of the telephone and thereby created one of the greatest industries in the world.

First Considered Mere Plaything. The first experimental line was set up in Brantford, Ont., and a "one way" message sent over it. But it was in Boston, in the same year, that young Bell perfected his invention and made it, for the first time, a practical instrument and a commercial possibility.

Alexander Graham Bell's mind has never ceased to project its energies into the future. The present accomplishment has always been with him, a starting place for further experiments and discoveries in the interest of science and humanity. He is a prophet who has lived to see his predictions fulfilled to the letter and beyond.

The first telephone was regarded as an impracticable plaything. Bell foresaw its marvelous future with unerring vision. He saw more. In 1905 he said to a newspaper correspondent: "I believe we shall soon have an automatic telephone service in which every subscriber by means of certain buttons and a combination of wires, will be able to call up whosoever he pleases without the annoyance of the central station."

The perfection and rapid installation of the automatic telephone system of

today, which Dr. Bell has lived to see, is a demonstration of the accuracy of the prophecy.

He foresaw the inauguration of a system whereby news and other announcements could be "broadcasted" to subscribers, exactly as they are by radio today. He believed, as early as that, in the possibility of telephoning without wires, and even went so far as to make experiments to prove it, although it is very likely that the results he obtained were caused by the earth transmitting his signals.

The other day, with the same sort of modesty, he told a group of officials of the U. S. patent office: "I rather think that you know more about the telephone today than I do." He then called attention to the more than 8,000 patents relating to telephones granted since he obtained the original patent.

Early Experiments. In connection with the observations of Dr. Bell's seventy-fifth birthday, the National Geographic Society quotes from a communication in which Dr. Bell asserts that his invention of the telephone really began with his grandfather, Alexander Bell of London, England, who died

the year our civil war ended. Of his grandfather, Dr. Bell writes: "He was an elocutionist and a corrector of defective utterance. He was the first in the family to take up the study of the mechanism of speech by explaining to his pupils the correct positions of the vocal organs in uttering the sounds that were defective."

Dr. Bell recounts the boyish experiments he made with vocal utterance, including an attempt to make a dog talk. And, on his seventy-fifth birthday, the inventor still is to be found in his laboratory, often working until three or four o'clock in the morning, experimenting with the same keen boyish zest. Continuing his boyhood reminiscences, Dr. Bell writes:—

"My father, Alexander Melville Bell of Edinburgh, Scotland, was also an elocutionist and corrector of defective utterance. "I was always much interested in his father's examinations of the mouths of his elocutionary pupils. They differed in an extraordinary degree in size and shape, and yet all these variations seemed to be quite consistent with perfect speech. I then began to wonder whether there was anything in the mouth of a dog to prevent it from speaking, and commenced to make experiments with an intelligent Skye terrier we possessed. To make a dog talk.

"By the application of suitable doses of food material the dog was soon taught to sit up on his hind legs and growl continuously while I manipulated his mouth, after a fashion when I took my hands away. I took his muzzle in my hands and opened and closed the jaws a number of times in succession, which resulted in the production of the syllables 'ma-ma-ma-ma', etc., as in the case of the talking-machine.

"The dog proved to be too small to enable me to manipulate individual parts of the tongue, but upon pushing upward between the bones of the lower jaw, near the throat, I found it possible to completely close the passageway at the back of the mouth, and a succession of puffs of this character resulted in the syllables 'ga-ga-ga-ga', etc.

"The simple growl was an approximation of the vowel 'ah', and this followed by a gradual construction and 'rounding' of the labial orifice by the hand, became converted into the diphthong 'aw', as in the word 'how' ('ah-oo'). The dog's repertoire of sounds finally consisted of the vowels 'ah' and 'oo', the diphthong 'ow' and the syllables 'ma' and 'ga'.

performance. This is the only foundation for the newspaper stories that I had once succeeded in teaching a dog to speak.

"I tall and well built, with a magnificent mass of white hair crowning his noble head, Prof. Bell is one of the most distinguished-looking men in the United States. Today despite his 75 years, he is as vigorous in mind and body as he was in the latter part of the century ago, and is keenly interested in scientific and humanitarian developments.

It takes imagination to invent, and Prof. Bell has that faculty in the highest degree. His vision, based upon his great scientific knowledge, is wider than that of the ordinary thinker, and his creative mind is always reaching out and suggesting new things. That was evident throughout the conversation.

In the course of an article describing the discovery, Prof. Bell wrote: "From 1879 to 1876 I was a resident of Salem, and came into Boston every day for my professional work. Then I would spend my summer vacations at Brantford, Can. at the home of my parents. So these three places, Salem, Boston, and Brantford, are concerned in the early days of the telephone.

"Boston is par excellence the home of the telephone, for it was here that all the apparatus was made, and where the important experiment went on. Brantford was my thinking place, where I would go and spend my summer holidays and look over the line of experiments that had been made in Boston, and plan for the future.

First Success. "And so it happened that in the summer of 1874, during my visit to my father's house in Brantford, considering myself and discussing with my father the numerous experiments I had made in Boston relative to the reproduction of musical sounds by electricity for the purpose of multiple telegraphy, the thought of the membrane telephone was suggested.

"From the summer of 1874 up until June 2, 1875, the development of the telephone was delayed by the thought that the magnetic-electric impulses would not by themselves be sufficient and would require a battery current.

"Then came the discovery that a magneto-electric current would produce by itself sonorous effects at a receiving station. In a moment all the difficulties in the way of the practical solution of the telephone disappeared, and orders were

given to construct at once the membrane telephone that was conceived in Brantford in 1874.

"When it was tried it was something in June or July, 1875. We have present records of experiment on July 1, 1875, and I remember these experiments. We had only one membrane telephone and the receiver was one of the old tuned reed instruments. It was held up to the ear. You crammed the armature against the ear to deaden its vibrations."

 Had Evidently Been in Swimming When He Took a Cramp—Men Rowing on Lake Discover Body.

Arnold Morris, nineteen-year-old son of Mr. and Mrs. John Morris of 86 Cranston avenue, was drowned in Long Lake yesterday afternoon. The young man left his home early in the afternoon and was last seen alive some time later by his sister, who is employed in Joseph Tebo's pavilion at Lily Lake. Shortly before five o'clock Walter Hall of 46 Prince Edward street and William Totten of 945 City road were rowing about on the lake when they saw a body. They hurried to the home of Alexander Peacock in Sand Point road and telephoned the police. Sergeant Detective Power and Detective Biddiscombe hurried for the scene and were met by Policemen Quinlan and Donahue. Guided by Joseph Tebo, they soon located the body and by the aid of a pole brought it to the surface. The young man had on a bathing suit, and it is thought that he must have taken a cramp while swimming. Permission to remove the body was given by Coroner Kenney and it was brought to the city and placed in O'Neill's undertaking parlors. Besides his parents he is survived by two brothers, Harry and Gordon, and five sisters, Mrs. William Barley of West St. John, Mrs. Walter Conner of Cranston avenue, and Misses Dorothy, Edna and Catherine, at home.

Rev. Alfred O'Brien, pastor of the Methodist-Episcopal church of Townsend (Mass.), who is visiting his parents, Mr. and Mrs. James O'Brien, Main wagonish road, Fairville, conducted the morning service in the Fairville Methodist church yesterday. The pastor, Rev. James Rice, occupied the pulpit in the evening.

Two automobiles, one coming in the Sand Cove road and the other proceeding towards Fairville, met last evening at the corner of the Sand Cove road in Lancaster Heights. To avoid a collision both cars turned off, one struck a hydrant and the other a concrete wall. Neither car was badly damaged.

HON. P. G. MAHONEY  
OF MELROSE DEAD

Former Minister of Public Works Had Long Been in Poor Health

Hon. P. G. Mahoney, formerly minister of public works, died at his home in Melrose on Saturday at noon. He had been seriously ill only a few days, although in poor health for some time. He was also one of the best known business men of the province and his death will be mourned by a host of friends throughout the country.

Hon. P. G. Mahoney was born on March 18, 1854, in Melrose, a little village in the Cape Tormentine district, which has since been absorbed into the town of Melrose. He was the son of a brilliant young man of Irish descent who made his mark in the professional, business and political life of the province. His father was the late Dennis Mahoney, a native of Cork, and his mother was formerly Ellen Barry. He was educated in the public schools and from a boy on the farm became one of the leading business men in New Brunswick.

His Rapid Rise

When a young man he entered the flour business in a small way. He did well and from that he developed a meat trade and for years shipped large quantities of dressed meats to the markets of the United States. He also developed a big poultry trade with New York and Boston firms. Mr. Mahoney distributed much money among the cattle and poultry raisers of eastern Westmorland in the days when money was none too plentiful.

Later on he purchased the lumber interests of several men who owned a portable sawmill. He became so successful in the lumber business on a small scale that he gradually developed into one of the largest lumber operators in this section of the province. He became owner of large tracts of lands in eastern and northern New Brunswick and in Nova Scotia. He sold out part of his northern interests several years ago. He retained considerable lumber property in this county at the time of his death. He was the owner of the

Many years ago Hon. Mr. Mahoney became a member of the Westmorland municipal council, of which for two years he was warden. In 1904 he became Conservative candidate for the legislature, but was defeated, and again in 1908 he was on the losing ticket. In the election of June, 1912, he was successful, however, with practically every Conservative candidate in the province.

After the retirement of Hon. John Morrissey, the Liberal minister of public works in the government of Hon. James A. Murray, in 1918, Mr. Mahoney was appointed to succeed him. Hon. Mr. Mahoney held office only a few months, however, as he was defeated in the by-election of May 30 that year, made necessary by the appointment, by the Hon. Dr. E. A. Smith, of this town, afterwards minister of lands and mines, and now the chairman of the New Brunswick Electric Power Commission.

Hon. Mr. Mahoney was highly esteemed throughout the province and in his elections was given many Liberal votes because of his sterling personal qualities and popularity.

Although he was of a family of eight he was the last survivor, his brothers, John and James, and his sisters, Mrs. Catherine Mahon, Mrs. Mary Kelly, Mrs. Margaret Dalton, Mrs. Joseph Holland and Mother Patrick, the latter

for years head of the St. John Industrial School and later with the Infirmary, having passed away before him.

Mr. Mahoney's wife was Miss Mary Sweeney, daughter of Jeremiah Sweeney, and sister of the late Hon. Frank J. Sweeney, of Moncton, who has on occasion more than once to oppose his brother-in-law on the ballot. Mrs. Mahoney died in 1921. Surviving are five children—two sons and three daughters. The sons are Fred B. and George, on at home. The daughters are Miss Augusta, at home, and the Misses Laura and Kathleen, student nurses in the Roosevelt Hospital, New York, who were at home on their vacation when their father passed away.

Hon. Mr. Mahoney leaves several relatives in St. John. They are: James Barry, a first cousin; W. J. Mahoney and Dr. D. P. Mahoney, nephews; Dr. J. M. Barry and J. A. Barry, the attorney, second cousins; J. A. Barry and others from St. John will attend the funeral at Melrose on Tuesday. A special train will leave Moncton with a large delegation of friends, personal and political. Mr. Mahoney died at St. John, yesterday by motor car for Melrose.

RECENT DEATHS

Mrs. Sarah Lockhart  
An old and respected citizen of this city passed away on Saturday morning when Mrs. Sarah Lockhart, widow of Moses Lockhart, died at the home of her daughter, Mrs. C. M. Kerrison, 77 Elliot street, after a long illness.

Mrs. Lockhart was widely known in the province and held in high esteem by all who knew her, through her genial and generous disposition. She was survived by two daughters, Mrs. Ray of Truro and Mrs. C. M. Kerrison of this city, and two sons, James R. Lockhart, of Palmouth (Mass.), and William T. Lockhart of Eastport (Me.); also two sisters, Mrs. John McKeel of this city and Mrs. Esther McAfee of Moncton.

Cecil F. McLean  
The death of Cecil F. McLean occurred in this city yesterday. He was formerly of Burton, Sanitary county, and is survived by three sisters and two brothers. The sisters are: Miss Ellen McLean, of Boston; Miss Alice McLean and Mrs. Samuel McKinney, of Penitentiary (B. C.). The brothers are: William McLean, of Penitentiary; and Herbert McLean, of Bridgeport (Conn.).

Michael Crowley  
The death occurred at his residence, 50 Mill street, yesterday, of Michael Crowley, leaving one brother, John Crowley, of New Jersey, and two sisters, Mrs. Ellen Riley and Miss Maude Crowley, at home. Mr. Crowley was employed with the C. N. E. as porter. The funeral will be held from his late residence on Wednesday morning at 8.30 o'clock to the Cathedral of the Immaculate Conception.

Mrs. Jeremiah Griffin.  
The death occurred at 229 Haymarket square, Aug. 5, of Margaret, wife of Jeremiah Griffin, leaving her husband, five sons, two daughters, three brothers and mother. The sons are: Gerald, Maurice, Lee, Thomas and Bernard and the daughters Misses Mary and Margaret, all at home. The brothers are Francis Degras, of Hampton, and Albert Degras, and William Young, of this city. Her mother is Mrs. Margaret Degras, of the Mater Misericordiae Home.

Charles Egbert Craddock.  
Miss Mary Naillies Murfree, widely known as an author under the pen name of Charles Egbert Craddock, died last week at her home in Murfreesboro, Tenn., at the age of seventy-two years. Born in 1850 at Grantlands, near Murfreesboro, Miss Murfree was the great-granddaughter of Col. Hardy Murfree, who served with gallantry and bravery in the Revolutionary War, and she lived most of her life in the town named after him.

As a child Miss Murfree was an indefatigable student. She was unable to take part in childish pastimes because of lameness, so she devoted herself to reading.

An alleged illicit still for the production of moonshine, was discovered on Saturday night by Excise Officer Dawes and the liquor inspectors. The still was situated fifteen miles from the city, near the French Village road, in Kings county, and had a capacity of thirty gallons of water. Stephen McQuire, who was found nearby, was arrested. When the raiding party arrived the tank was still warm from recent operations. Nearly thirty gallons of moonshine were discovered, in addition to two puncheons of molasses and eleven barrels, alleged to have held mash. The apparatus was brought to the city, along with McQuire, who will be taken to Sussex for hearing. It is thought by the local inspectors that this still is one which has been supplying local bootleggers, and which they have been looking for for months.

The M. R. A. Ltd., Art Department

is proving a great attraction to visitors in the city. When in search of a small souvenir or gift to take home—something both useful and beautiful—the stocks showing here you will find very hard to surpass.

Among the latest novelties are many pieces of attractive "Allervale" ware. There are Tea Pots, Butter Tubs, Cups and Saucers, Creams and Sugars, etc., each bearing a quaint inscription of hospitality and good cheer.

These dishes are in attractive color combinations of old ivory, blue, green and brown. They are very moderately priced.

SHOWS MONCTON'S RAPID GROWTH

Population Has Increased 66.3 Per Cent in Nine Years—What the People Do.

The recent education survey shows that Moncton has grown very rapidly in recent years. In the last nine years the population of the city has increased 66.3 per cent. In the same period the school population has grown 50.1 per cent, while the school population for the whole province has grown only 7.1 per cent.

The survey also shows how Moncton people are employed. Of the total of 6763 found in employment, and which includes Sunny Bras, Levesville, and Humphrey's the report shows that about 72 per cent are engaged in some department of transportation or in some branch of merchandising. Women and girls in employment numbered 1,628 and 40 adolescents from the ages fourteen to sixteen years were found, while there were 238 adolescents between the ages of sixteen and eighteen years. A brief summary of the industrial survey gives the following classifications:

Table with 2 columns: Classification and Number of Workers. Includes Clerical workers (1,185), Woodworkers and car builders (792), Metal workers (626), Personal service (896), Salespeople (882), Machine operators (textile) (832), Stenographers (622), Conductors and brakemen (178), Locomotive engineers and firemen (228), Shipbuilders and packers (285), Other machine operators (175), Electrical workers (110), Accountants and bookkeepers (107), Car painters (97), Stationary engineers (92), Laborers (962), Unclassified (296).

Total 6,763  
Of the women and girls employed the list is divided as follows:—  
Clerks 348  
Personal service 310  
Textile workers 294  
Saleswomen 201  
Stenographers 174  
Shoppers and packers 105  
Telephone operators 96  
Bookkeepers 84  
Managing and executive 8  
Unclassified 110

Total 1,628  
Clerical work as mentioned in the report does not include work behind the counter. This sort of work is classed under salesmanship.

The report also adds that on a normal tonnage there are 3,350 women engaged in home-making in Moncton.

RECENT WEDDINGS

Warner-Woolsey.  
The marriage of Mrs. Lloyd Woolsey, widow of Captain Bingay, 8th Battalion, First Canadian, Port Arthur, Ontario, and Rev. David Victor Warner, M. A., B. D., O. B. E., rector of St. Cyprian's church, Maisonneuve, took place in Old Trinity church, Montreal, on last Monday. The bride is a daughter of Mrs. George Palmer of Fredericton, and for the last two years has been private secretary to Rev. Canon Almond, Montreal.

FARRAR WANTS A "CASTLE"  
Boston, Aug. 7.—It is reported that Geraldine Farrar is trying to purchase the castle on the estate of the late Edward F. Scaris, at Methuen. Miss Farrar, accompanied by C. J. Foley, her concert manager, has been in Methuen for the last few days.

The castle is built like an ancient fortress, and the estate is completely surrounded by a stone wall of from twelve to fifteen feet in height. The estate comprises about 600 acres of beautiful and varied country. It is for sale, but what price is asked has not been disclosed.

It was in this castle that Mr. Scaris stored relics and curios gathered from the four corners of the world. Here, too, he used to say, the spirit of his dead wife communicated with him.

THE BISHOP'S PICNIC

Final arrangements for the Cathedral Sunday school picnic, which is to be held on the church grounds at Torray-burn tomorrow, were completed last evening in the St. Vincent de Paul rooms, Waterloo street. The chair was occupied by Rev. William Duke and the men's committee was formed to take care of the different booths and sports at

### NEW VEGETABLE ACT IN FORCE

The attention of retail merchants and dealers is drawn to a section of the recently passed root and vegetable act which is now in force. This section reads: "All potatoes, onions, artichokes, beets, carrots, parsnips and turnips offered for sale shall be sold by weight and the standard pound avoirdupois shall be the unit for the weight used." This section, however, does not apply to vegetables offered for sale with leaves attached, such as bunches of carrots, bunches of beets, etc."

### IN WALL STREET

New York, Aug. 7.—(10:30) Wall street continued to be optimistic over the coal and rail strikes today, opening prices on the New York stock exchange moving upward in relatively light dealing. Rails were again the favorites, Union Pacific leading this group with a gain of 1/2 point to 107 1/2. St. Paul, Wheeling and Lake Erie Pfd., New Haven, Southern Railway and St. Paul all bettered their Saturday closing prices. The price for the year was made slightly. New highs for the year were recorded by Brooklyn Edison Electric, Corn Products and Postum, all at fractional advances. Krage was the outstanding specialty, gaining one point.

### GERMAN DEBTS

#### Prompt Action in Alsace-Lorraine Following Poincaré's Order.

Paris, Aug. 7.—The commissary general for Alsace-Lorraine, in a decree issued in connection with French Poincaré's order safeguarding French interests with regard to debts contracted by German individuals with Frenchmen before the war, forbids the withdrawal of any bonds or securities the cashing of coupons or the removal of funds in connection with accounts or deposits in banks or financial establishments in the name of German citizens. Banks are to consider these accounts or deposits as sequestrated from the moment the decree was issued.

The measures will have greater effect in Alsace-Lorraine than in the rest of France. Of the 1,200,000,000 francs claimed to be due Frenchmen from Germans, there has been collected by the Paris liquidating office all but about 100,000,000 francs. The Strasburg liquidating office, however, which has received claims to two billion francs from Alsace-Lorraine still has eight hundred million francs to collect. It is claimed that the Germans made every effort to delay verification of the Alsace-Lorraine debts.

### JOHN O'REGAN BUYS PROPERTY

#### Purchases Valuable Orange and Princess Street Parcel for \$18,400.

John O'Regan, 78 Elliot row, this morning became the owner of one of the most valuable residential properties in the city when he bid in for \$18,400 a brick and stone property at Nos. 71 and 73 Orange street offered up at public auction by E. L. Fottis. The building was built by the late George McLeod, and was lately owned by William Webster. W. Malcolm McKay had occupied the residence. The building had been lately remodeled into a two family house, extending right through to Princess street. On the Princess street end there is a large factory occupied by the N. B. Overall Company. Quite a number of persons interested gathered at the premises this morning and bidding was very sharp. The first bid was \$11,000 and the price then advanced by easy stages until Mr. O'Regan's bid of \$18,400 brought down the auctioneer's hammer. Mr. O'Regan said today that he would not occupy his new property himself, but that he had bid it in as he owned the properties on both sides of it.

### WANT MUNICIPALITIES AT DOMINION CONFERENCE OVER UNEMPLOYMENT

Calgary, Alta., Aug. 7.—Representatives of municipalities, provincial governments and labor organizations in Western Canada gathered here to discuss unemployment as affecting the western provinces, decided to petition both Dominion and provincial governments to have invitations sent to the municipal governments of Canada to attend a Dominion-wide unemployment conference in Ottawa, on September 5 and to which representatives from the nine provinces have been invited.

### BURIED TODAY

Funeral service for the late Mrs. Margaret E. Bell was held at 29 Metcalf street on Saturday night, Rev. Dr. D. Hutchinson officiating. The body was taken to Hampton for interment yesterday morning.

The funeral of Mrs. Sarah Lockhart was held this afternoon from the residence of C. M. Kierston, 77 Elliott Row. Service was conducted at the house and later at the Mission Church of St. John Baptist by Rev. Father Ford. Interment was in Fernhill.

The funeral of Michael McGuigan was held this afternoon from 246 Duke street in the afternoon. Rev. Father Ford officiated. Interment was in the new Catholic cemetery. Magnificent wreaths were received from Haley Bros.

The funeral of Mrs. Margaret Griffin took place this morning from her late residence, 228 Haymarket Square, to the cathedral for high mass of requiem by Rev. S. Oram. Interment was in the new Catholic cemetery.

### B. C. DECIDES TO APPEAL RAILWAY RATES DECISION.

Vancouver, B. C., Aug. 7.—British Columbia will appeal the recent decision of the Board of Railway Commissioners of Canada in the railway rates equalization case. Application will be made to this morning by a hearing of the appeal by the Dominion cabinet sitting as the Canadian Privy Council, which is the sole court of appeal against the railway commission's findings.

### HON. R. J. RITCHIE HONORARY JUDGE OF THE COURT OF APPEAL

Hon. R. J. Ritchie, police magistrate and judge of the court of appeal, who has been spending several months in the British Isles and on the continent, arrived in the city this morning on the early Montreal train.

JELYEA LOSES BY THREE FEET

Paul Costello Wins from St. John Oarsman in a Thrilling Race on Schuykill.

Philadelphia, Aug. 6.—Paul Costello, of the Vesper Boat Club, won the senior championship race for single shells in the national regatta on the Schuykill Saturday afternoon in one of the closest finishes ever witnessed on the home river. Costello crossed the line victorious by no more than three scant feet. Hilton Belyea, the St. John sculler, finished second two-fifths of a second later than Costello and Louis Zoba of the First Bohemian Boat Club of New York who made the third entry in the event, followed the St. John oarsman over the line almost a minute later. The time was 7:27.1-8.

Costello's victory while not in the nature of an upset was remarkable indeed, as the Vesper oarsman showed a stamina few thought he possessed. When the two shells came down the home stretch ahead it looked as though Belyea would win on his abnormal strength. Costello, however, threw his last ounce of energy behind each pull on the long blades and flashed to the fore to stay there. Belyea never lowered his stroke but certainly it lacked the power that was moving Costello's shell.

It was not because Belyea did not row true to his form but because Costello reached out to hitherto unknown heights to grasp the victory. Costello's final drive was sensational indeed. He beat the Canadian at the latter's own game trailing at the start and when the last quarter was reached and the spurt necessary pulling hard and fast enough for a victory which although it was only accomplished by a slight margin was nevertheless decisive.

Bachelors of Philadelphia captured the senior doubles championship the first event of the day when Garrett Gilmore and William Haggood flashed over the finish line with a half length of open water showing between the stern of their boat and the bow of the Undine craft. Metropolitan finished third while Pennsylvania Barge was placed fourth and the Western R. C. of St. Louis fifth. The Bachelors' time was 7 minutes 5 seconds.

The Duluth four won the senior championship. Duluth rowed its usual high stroke from the half mark on. Bachelors gave the boys from the northwest a hard race but could not hold the terrific pace and fell a length behind coming down the home stretch. Pennsylvania Barge finished third.

Jim Ten Eyck's first Duluth crew won that club's second race of the day and furnished the most sensational finish of the whole regatta when it took the event for senior eight-oared shells in the finished second, and Toronto third.

Toronto, which had been rowing just beside and behind the Duluth crew, seemed to have even more power than either of the first two eights. The coxswain of the craft, however, failed to steer a straight course and twice nearly hit the Duluth shell. Had the Toronto boat been guided straight there are many who believe it might have conquered. Duluth's time for the event was six minutes and twenty-four seconds.

SOME QUESTIONS AND ANSWERS ON FORESTRY.

(By The Canadian Forestry Association.) Q.—How many forest fires have taken place in Canada this year? A.—Approximately 3,000. British Columbia had about 1,400 and with Central Quebec passed through the worst fire experience in many years.

Q.—For what purposes are aeroplanes and seaplanes used in forestry work? A.—In detection of fires, for which they are admirably adapted, for carrying fire fighters to the point of danger, for carrying food and other supplies to rangers, for saving time in transporting fire inspectors and managers, for the survey of limits by photography, and the rapid and accurate examination of terrain with a view to the most economical operation of timber limits. These are just a few of the day to day uses of aircraft in Ontario, Quebec, Manitoba and British Columbia. Fire rangers in B. C. and Quebec this summer have transported fire-fighting pumps within one hour where the journey by land and water formerly required from fifteen hours to two days.

Q.—Is there any court decision as to the right of a land owner to prune shade trees that are on a neighbor's property? A.—Recently a decision was given by an Old Country justice denying the right of anyone to prune or trim the branches of trees reaching from a neighboring estate over his buildings and causing, so it was alleged, unhealthy conditions. We do not know of a similar Canadian decision.

BEER INTO SEWER.

Winnipeg, Aug. 7.—Members of the morality squad poured 600 gallons of strong beer, seized in recent raids, down a sewer in front of the central police station.

A car owned by Stephen Stevens of Martinov, was badly damaged yesterday morning when one of the tires burst and the car ran off the road near Morin, turning a complete somersault. At the time of the accident the car was occupied by the daughter of the owner and two other young people, but none of the occupants received anything more than a few bruises.

Williams' HOLDER TOP SHAVING STICK With COLD Water? Sure! And billows of Lather

If you shave with cold water, the soap should be Williams'—must be if you want a quick, rich, heavy lather that softens the wiriest beard; that softens the skin at the same time and makes it supple and free from irritation. If you want your face to be smooth as a glove all day, make it Williams'.

**St. Stephen Ready to Enter a Series For Championship.**  
A letter was received yesterday from W. H. Grant, manager of the St. Stephen baseball team, in which he claims that practically all his players are local boys and that the majority of them are employed in that city. He admitted that this did not apply to the battery but said that it applied to most of the others. He expressed himself as strongly in favor of the championship series between the St. Stephen, Fredericton, Moncton and St. Peter's teams. He declared that his team would be able to make the necessary arrangements to play in such a series.

**Amateur Championship.**  
The second game for the amateur championship of the city will be played on the Queen square diamond this evening at 7:15 o'clock between Commercial and St. George's. The latter team lost the first argument by one run and believe they can even the series this evening. A close contest is expected.

**St. John Team Loses.**  
The St. John All Star baseball team lost two games to the Wanderers at Halifax on Saturday, 9 to 8 and 9 to 3. Regular game tonight.

The St. John and St. John's will meet in a regular league game tonight, which it is expected will be keenly contested.

**St. Stephen Leads.**  
St. Stephen won from Woodland on Saturday, 6-5. Lubec won from Milltown, 4-3. Great interest is now being taken in the St. Croix League as Milltown is fighting to take the leadership from St. Stephen and Lubec and Woodland are each trying to keep up of last place.

**New Courts.**  
The official opening of the Fair Vale Outing Club tennis courts was held on Saturday afternoon. The club house was gaily decorated for the occasion and there was an exceptionally large attendance at the opening. For some time the members have felt the need of the facilities for tennis and they believe that their efforts in providing them will be well compensated. Supper was served in the club house. W. H. White, the president, was in the chair. After supper he made a brief address and then the gathering adjourned to the courts where he served the first ball over the nets and E. A. Ellis, treasurer of the club, made the return, and the new tennis courts were declared officially opened.

DELEGATIONS AT CITY HALL

Wider Roadway at Haymarket Square.

Two delegations appeared at a committee meeting of the common council this morning, one representing the War Memorial and the other business men and citizens from Haymarket Square and Prince Edward street.

The second delegation consisted of Rev. O. P. Brown, H. L. McGowan, Edward Walsh, Frederick McInerney and William L. Walsh, who presented a petition signed by residents of Haymarket Square and Prince Edward street, asking that the roadway on the southern side of the square be widened and that a better lighting system be placed in Prince Edward street.

Commissioner Frink told of a survey being made there and how this project had been taken under consideration and was not considered advisable. He brought the matter to a head by moving that the engineer be instructed to bring in a report at the earliest possible moment dealing with the suggested change and the additional expenditure.

Power Company Bill. The delegation then withdrew after being assured the matter would be given every consideration. Mayor McLellan presented the following resolution, which was passed unanimously: That the order of this council on 26th July last which requires the chamberlain to credit the account of New Brunswick Power Company of \$9,854.85 against amounts due the city under an agreement for the paving of streets, so as to provide that the said amount be credited against taxes in- stead.

Tenders for opening a trench in Metcalf street were then opened. Three were submitted as follows: N. J. Lahood & Company—Rock, \$5.98, earth, 99; Jar. I. Simon—Rock, \$6.25; earth, \$1.05; Sabb & Company—Rock, \$6.90; earth, 39.

Tenders for sewer pipe were also opened as follows: T. McAvity & Sons—Nine inch, 42c; twelve inch, 57c; fifteen inch, \$1.12; eighteen inch, \$1.25; thirty-six inch, \$3.60; joints, \$1.80.

Tenders for asphalt were received from the Carrite Company and the Imperial Oil Company. The former quoted eighty-five tons at \$25.90, and the latter at \$25.07. On motion they were referred to the commissioner of public works.

Stephen Construction Company—\$2.30 a square yard for bituminous concrete pavement; \$1.85 for foundation; 20c for tile drains; \$2.75 for straight granite curbing and \$3 for circular; asphalt, \$2.30.
