Two Men Are Arrested in Calais Charge is Transporting Six Tons in Motorboat from St. Stephen - Trouble Friday Night at Milltown Bridge.

Calais, Maine, June 21—Federal officials began an investigation here yesterday of alleged sugar running from New Brunswick across the international line into this state, as a result of the arrest on Saturday night of two men charged with bringing six tons of sugar in a motor boat from St. Stephen, N. B. to this port.

According to officials, the men had not complied with United States customs regulations and had violated an embargo placed on refined sugar in Canada. An alleged attempt to run sugar across the international bridge at Milltown, N. B., on last Friday night caused some disturbance among the residents, who, it is said, have objected to the practice. The men arrested here last night, Henry Hill, owner of the boat, and Don Smith, were later released on their own recognizance.

POLICE COURT On account of the absence of the magistrate this morning there was no police court session, but this afternoon seven prisoners were before the court. John Mitchell, Thomas Flynn and John McLeod were arrested on Saturday afternoon and evening on charge of having liquor in their possession after their private dwellings. McLeod was allowed out on a \$200 deposit but appeared this afternoon and was committed to the jail. Three men and one woman, charged with drunkenness, pleaded guilty and were remanded.

NO CLASS DISTINCTION

Governor Cooldige, addressing the graduating class of Holy Cross College Wednesday, asserted that there was no class distinction in America. The governor's remarks were made at the end of orations delivered by class speakers, who chose Bolshevism as their theme. He urged the graduates to continue their education, saying: "Education tends to bring the reason out of the darkness of the past into a solid and experience of the future. Avoid the problems of the past. Avoid class distinction and look to service and selflessness, for service is the foundation of progress."

CAUCUS TUESDAY

(Canadian Press) Ottawa, June 21—A full caucus of government supporters is to be held tomorrow. There is little indication of a change in leadership or that Sir Robert Borden will retire. There is some talk of changing the name of the party in readiness for a general election should the latter come. Most of the government followers, however, do not think this year will see any change. Naval matters will also likely be a prominent place in the caucus discussion. There is very indication that the close of the present week will see the end of the business end of the session. Many believe that the house will re-assemble a week from today merely for the purpose of prorogation.

LONDON'S SEASON

London, June 21, (Canadian Associated Press)—Many journals are featuring stories about the alleged overcrowded state of London hotels. London is certainly full, but the information of the Canadian Associated Press is that with the exception of the swaggers places there is room for the less ambitious visitors, while flats are rentable for a period, are actually slumping. A well known Canadian traffic manager informs the Canadian Associated Press that real tourists are not so numerous as expected. "Freedom and liberty come not from anarchy, but from observance of ways that are right and true and just. We must learn the value of loyalty to one's country and the support of the constitutional authority."

Sarah Simpson is a very strong-minded woman

If you don't believe it, ask her husband. "No, Samuel, remember! If that man Johnson offers you anything to drink you will refuse!" Samuel sighed as he agreed to her edict. Later as they started for home, Sarah eyed her spouse with gloom in her face. "When Mr. Johnson made that peculiar sign to you," she began, "and shortly afterward you both hurried from the room, where did you go, Samuel?" "Oh—er, yes, my dear! He merely asked me to step into his study to look at some old books he brought recently. You know I have a taste for books."

Some, Samuel, and from what I heard, your taste for books—was highly gratified. You forgot to close the study door and I heard a smacking of lips and then you exclaimed: "Ah, that's the stuff!"

WOULD NOT FACE WIFE AND CHILDREN

If He Failed to Vote For Prohibition July 10th—Women Must Register by June 24th—Phone Main 4394.

One of St. John's most prominent business men, whose name is a household word, expressed himself as follows this week—"Although I have always taken a drink, and can find some fault with the present Prohibitionary Law and its enforcement, I could not vote against prohibition, July 10, and then go home and meet my wife and children—I would feel like a murderer with blood on my hands." This is the feeling of thousands. We must advance not retrograde, and the defeat of prohibition, July 10, would mean a backward step of perhaps an average life time. If the principle of prohibition is upheld July 10, the necessary amendments and better enforcement will shortly follow. Just now it is impossible to properly enforce the New Brunswick law when the Dominion law permits liquor to be imported free from Quebec.

THE DREAD PYORRHEA BEGINS WITH BLEEDING GUMS

Pyorrhoea's infecting germs cause many ills. Medical science has proven this. Diseased conditions which no longer ago doctors were unable to trace to a cause, are now known often to be the result of Pyorrhoea germs that breed in pockets about the teeth. Rheumatism, anaemia, nervous disorders and other diseases have been traced in many cases to this Pyorrhoea infection. Don't let Pyorrhoea work its wicked will on your body. Visit your dentist frequently for tooth and gum inspection. And switch your gums yourself. Pyorrhoea, which afflicts four out of five people over forty, begins with tender and bleeding gums; then the gums recede, the teeth decay, loosen and fall out, or must be extracted to rid the system of poisons generated at their base. Forhan's For the Gums will prevent Pyorrhoea—check its progress, if used in time and used consistently. Ordinary dentifrices cannot do this. Forhan's keeps the gums hard and healthy—the teeth white and clean. Start using it today. If gum-shrinkage has set in, use Forhan's according to directions and consult a dentist immediately for special treatment.

AN UGLY INCIDENT.

The law-abiding citizens of Kings County must have been shocked this morning when they read their morning paper and learned that there is in their midst a lawless element which would stir up a real feud between county and city. There have been no highwaymen in Kings county in the past, and it is a real shock to our complacency that such a crime as that near Nauwigewauk should be possible. It will be the duty of the authorities to mete out speedy justice, for such a beginning might lead to something much more serious if prompt action were not taken.

A NECESSARY EXPLANATION.

The public mind appears to be somewhat confused in regard to the question of prohibition in New Brunswick. In the first place it must be noted that there is a difference between the plebiscite in this province and the referendum to be taken in Nova Scotia, Ontario and other provinces. In those other provinces prohibition has been voted on by the people and is an accepted fact. The referendum in this case relates only to the question of importing liquor from other provinces. In New Brunswick the people have not yet voted on the question of prohibition, which is a war measure. The Dominion government strengthened that measure by passing an order-in-council forbidding the importation of liquor from other provinces. Under the Dominion order-in-council we were getting along very well; but after the war was over the Dominion government cancelled the order-in-council, and liquor has been pouring in freely from Quebec.

It is expected there will be a Unionist caucus at Ottawa this week. As to the result, all are at sea. Will Sir Robert resign? Will an effort be made to get the Union-Liberals into the Conservative ranks? Who will be the leader? These questions are asked, but no member appears able or willing to attempt an answer. There is more or less confusion and friction and divided counsels.

The National Council of Women takes up the question of liquor. As a national body it will exert a notable influence on public sentiment.

It is expected Germany will get a coalition cabinet this week. It will be a coalition, and may be able to weather the storm.

Dr. Glover has been experimenting on the cure for about two years. It is reported that after the first injection, the patients have been relieved of pain and that a further treatment has brought about wonderful improvements.

Woodstock Sentinel—A peculiar accident happened Charles Sharp of Baird Company, a few days ago. Going down cellar he stepped on a rat and pitched head first down the stairs and landed on his shoulder. The rat did not live to tell of the exploit as he was suddenly started. Mr. Sharp is nursing a very lame arm as a result of the encounter.

THE ROAD HOG.

I wonder what the road hog thinks, as he goes his way, detested by all mortal folks, and cursed by night and day. He surely hates the human race, as down the road he swings, and in his heart there is no place for kindly, friendly things. We have our little pecker carts, and we would sing and smile, if road hogs didn't break our hearts each quarter of a mile.

Domestic Happenings of Other Days

THE BEGINNING OF HALIFAX.

On June 21, 1749, Halifax was founded. Colonel Edward Cornwallis had come from England to establish a new colony on the coast. It was on June 21 that the stoop-of-war ship, the Duke of Bedford, arrived at the harbor for the first time. The name of the harbor was then called Halifax. The next day he wrote to the Duke of Bedford a description of the place that is true even yet.

Wonderful sights have been seen here. Here it was the armadas gathered for the reduction of Louisbourg. Wolfe and other great military heroes of the early days knew it well. To it came thousands of United Empire Loyalists who preferred the privations of a new land to renouncing their allegiance to Britain.

Three girls. Three school girls pass this way each day. Two of them go in the fluttery way of girls, with all that girlish buoyancy. But one goes with a dream in her eyes.

Two of them have the eyes of girls whose hair is the laughing song of curls. But the eyes of one are like wide doors opening out on misted shores.

On they will go as they go today. On they will go to life's short way. Two will have what living boys, and one will have the dream in her eyes.

Two will die as many must. And fifty dust will welcome dust. But dust has nothing to do with one. She dies as soon as her dream is done.

Lighter vein. A Good Pal. "Halloo, Rivers! You seem to have a bad cold?" "Worse! I ever had, Banks."

Tell Them Both One. As Mrs. Lushington tossed to and fro of the cure, which is in the nature of a serum which is injected into the diseased part, saying that it is still proving so far to be effective.

WHAT ONE RAT DID. Woodstock Sentinel—A peculiar accident happened Charles Sharp of Baird Company, a few days ago. Going down cellar he stepped on a rat and pitched head first down the stairs and landed on his shoulder.

TURKISH WOMEN DO NOT ALL KEEP THEIR FACES HIDDEN NOW

Constantinople, May 28—(Correspondence Associated Press)—Turkish women are no longer the shy veiled creatures who passed their time in the seclusion of the harem and were never seen by foreign men. They still cling to the veil. But the streets in Constantinople and other larger Turkish cities are filled with women who have their veils thrown back from their faces. They are highly ornamental and becoming. Most Turkish women don't want to abandon them in favor of hats. But there are many sorts of veils and the smart, black silk veils which some of the women wear are very fetching when draped artistically over their hair.

In the railway and street cars there are special seats for women, but the flimsy curtains which are supposed to screen them from the gaze of men are usually drawn back and it is not uncommon to see men standing in the compartments for women. Only very old men, however, are really enough to sit down in the same seat with a Turkish woman. Turkish women seldom go to a theatre where there are men. Special matinee and evening performances are arranged for women only.

The war has done much to break down the barrier between Turkish men and women. The women were needed so badly as nurses and relief workers that the government had to avail itself of their services. And now it is regarded as quite proper for men and women to be associated in all sorts of charitable and educational works.

Suicides in Undertaker's.

New York, June 21—William Wiseman of 388 State street, Brooklyn, was a very methodical man. When he decided to commit suicide he wrote a letter giving exact directions for the disposal of his body. Then he walked into an undertaker's establishment at 233 Lenox avenue and asked for the proprietor. John Noble, a clerk, informed him the proprietor was not in.

"Then you will take charge of this letter for him?" Wiseman requested.

As Noble turned to place the missive on a desk Wiseman slipped to the floor dead. He had taken poison while the clerk's back was turned.

RECENT WEDDINGS

Powell-West.
Carleton Observer—In centreville on last Wednesday at the home of Mr. and Mrs. G. A. West, their daughter Vera became the bride of Ernest Powell of St. John. The ceremony was performed under an arch of evergreen and roses in the presence of the relatives and a few immediate friends of the bride. Rev. J. W. Williams, brother-in-law of the bride, officiated and the happy couple left on the evening train for St. John where they will make their home.

Jasper Cameron Warwick, formerly of this city, son of Mrs. Mary Warwick, Fairville, was united in marriage recently in Brookline, Mass., to Miss Agnes Wright Stuart. Rev. William Wallace Illife performed the ceremony.

RECENT DEATHS

Many friends in the city will regret to hear of the death of Mary A. Thomas, which occurred on Sunday at her residence, 7 Charlotte street, after a lingering illness. Miss Thomas was a daughter of the late Richard and Margaret Thomas, of this city, and is survived by one brother, James P. Thomas, of the city fire department, and two sisters, Mrs. J. H. Blanchard of Bedford (Mass.), and Mrs. K. Needham, of Boston (Mass.). She was a lifelong member of the Trinity church, where the funeral service will be held.

MAY BE HOUSED IN ANCIENT HOME OF RICHARD III

London, June 1—(Correspondence Associated Press)—Students from Canada and other overseas dominions of the British Empire, studying in the University of London, also students from the United States are likely to have a home in Crosby Hall, on the Chelsea Embankment. Plans to utilize the building for that purpose are now being developed by the World Association for Adult Education.

It is proposed to construct residential quarters on the ground adjoining Crosby House for students coming from the British dominions, from India and the United States, together with a proportion from the British Isles so that interchange of view and experience may be promoted. Crosby Hall itself will be the centre of the whole institution and will serve the same purpose as are served by the halls of colleges at Oxford and Cambridge.

An appeal is being issued, supported by the leading lights in the educational world here, for £250,000 wherewith to build and equip residences for about 120 students.

Gay Times Once More in Roumania

Bucharest Seeking to Win Title of Paris of the Balkans—Return of the Era of Wine and Song.

Bucharest, May 28—(Correspondence A. P.)—If ever Roumania felt she was poorly compensated for her part in the war, the feeling must now be removed. Not in many years has the country been so prosperous. One must go back to the days of old King Carol and Carmen Sylva to find a parallel to the present conditions of material welfare among the people.

The scenes of gaiety, amigration and prosperity in Bucharest can find their counterpart only along the boulevards of Paris. The habits of the gay metropolis—the artists, sculptors, students and savants that gave it so much of its Bohemian atmosphere in days gone by—have come back. With them have come strange faces from the newly-acquired provinces and from Austria and Germany.

Few Americans to Be Presented at British Court

Only Eight Ladies of Long List Likely to Realize Ambition—Pretty Hard for Divorcee to Secure the Honor.

London, June 3—(Correspondence A. P.)—Restrictions placed upon American women who aspire to presentation at court are such that nearly all of them in London will be disappointed this year. Only eight of the many who are reported to have applied will be presented and they must have qualifications which have surprised some of the uninitiated.

If married, their husbands must previously have been presented at a levee, they must have entered the White House and if they have been divorced it must be indisputably shown that the divorcee must have been granted in her favor in open trial at which both parties were represented in court and where alimony and custody of the children have been granted to the woman. Even in such cases the demand for legal details is so minute that the king, in deference to the ideas of the queen, it is said, has let it be known that it is inadvisable for divorcees to apply at all.

Applications of Americans for court presentations must be made to the Amer-

More Prosperous Than For Years

The streets of Bucharest are crowded with fashionably dressed men and sumptuously attired women, just as in pre-war days. The stores display great stocks of patterned confections, cosmetics, perfumes, silk stockings, expensive lingerie, rich jewels and other luxuries. The fashionable restaurants and cafes are always full. The theatres are taxed to capacity.

The old era of wine and song, of laughter and levity, of powder and paint is coming back. Bucharest is trying hard not only to live up to its former reputation, but to justify its claim to be called "the Paris of the Balkans."

The sacrifices the little Latin country made during the war have been forgotten in the acquisition of the rich territories of Transylvania, Bessarabia and Bukovina. These fertile lands have brought tremendous wealth to the country. In crops, cattle, forests and mineral products they will easily triple Roumania's national wealth.

In normal times these marvelously productive countries have yielded enough to feed the whole of Europe. The wheat fields of Transylvania and Bessarabia are among the greatest in the world. The country contains also great herds of cattle and sheep.

Of Roumania's 10,000,000 hectares of cultivable land, more than 83 per cent is given over to the growing of cereals, the largest per cent of any country in the world except Russia, Serbia and the South African Union. Wheat is the largest crop. More than half the annual yield is exported.

When it is understood that 85 per cent of Roumania's population is supported by agriculture and that the present crops promise to be the greatest in history, the reason for the country's prosperity and well-being will become apparent.

RESTRICTIONS ARE MORE RIGID

Few Americans to Be Presented at British Court

Only Eight Ladies of Long List Likely to Realize Ambition—Pretty Hard for Divorcee to Secure the Honor.

London, June 3—(Correspondence A. P.)—Restrictions placed upon American women who aspire to presentation at court are such that nearly all of them in London will be disappointed this year. Only eight of the many who are reported to have applied will be presented and they must have qualifications which have surprised some of the uninitiated.

If married, their husbands must previously have been presented at a levee, they must have entered the White House and if they have been divorced it must be indisputably shown that the divorcee must have been granted in her favor in open trial at which both parties were represented in court and where alimony and custody of the children have been granted to the woman. Even in such cases the demand for legal details is so minute that the king, in deference to the ideas of the queen, it is said, has let it be known that it is inadvisable for divorcees to apply at all.

Applications of Americans for court presentations must be made to the Amer-

More Prosperous Than For Years

The streets of Bucharest are crowded with fashionably dressed men and sumptuously attired women, just as in pre-war days. The stores display great stocks of patterned confections, cosmetics, perfumes, silk stockings, expensive lingerie, rich jewels and other luxuries. The fashionable restaurants and cafes are always full. The theatres are taxed to capacity.

The old era of wine and song, of laughter and levity, of powder and paint is coming back. Bucharest is trying hard not only to live up to its former reputation, but to justify its claim to be called "the Paris of the Balkans."

The sacrifices the little Latin country made during the war have been forgotten in the acquisition of the rich territories of Transylvania, Bessarabia and Bukovina. These fertile lands have brought tremendous wealth to the country. In crops, cattle, forests and mineral products they will easily triple Roumania's national wealth.

In normal times these marvelously productive countries have yielded enough to feed the whole of Europe. The wheat fields of Transylvania and Bessarabia are among the greatest in the world. The country contains also great herds of cattle and sheep.

Of Roumania's 10,000,000 hectares of cultivable land, more than 83 per cent is given over to the growing of cereals, the largest per cent of any country in the world except Russia, Serbia and the South African Union. Wheat is the largest crop. More than half the annual yield is exported.

When it is understood that 85 per cent of Roumania's population is supported by agriculture and that the present crops promise to be the greatest in history, the reason for the country's prosperity and well-being will become apparent.

WOMAN'S DAY IN THE CHURCHES YESTERDAY

It was Woman's Sunday in many of the churches yesterday and the day gave an inspiring address on woman in accordance with the request of the National Council of Women. Still further was it Woman's Sunday in that two of the delegates to the National Council gave addresses from the pulpits of some of the churches and large congregations listened with eager interest and appreciation to the messages which the women brought. Mrs. Ralph Smith, M.P.P. for the constituency of Vancouver in the British Columbia house, spoke in the Ludlow street Baptist church in the morning and in the First Presbyterian church in the evening. In the Presbyterian church, Mrs. J. A. Morrison, Mrs. Smith said she made no apology for occupying a pulpit. The ministry was the only door now locked to women but she saw no reason why women should not be successful in all the professions to which they were admitted.

Mrs. Clyde Macdonald, of Edmonton, gave an address of much interest before a large congregation in the Methodist church last evening. The service was conducted by the pastor, Rev. J. H. Hensley, and Mrs. Macdonald, who is a practicing physician in Edmonton and who has accompanied his wife to St. John, also was present. Both Dr. and Mrs. Macdonald are Nova Scotians who are making their influence felt in the west where they have made their home.

A large number of the delegates to the annual meeting of the National Council of Women attended the morning service in Trinity church yesterday and listened with much appreciation to the inspiring sermon delivered by Rev. J. H. A. Holmes of St. John's church. After the service the delegates were shown the church plate which is of very great interest, some of it being the gift of royalty of more than a century ago. The visitors were much pleased with the attention shown them and were greatly interested in all the relics which the church contains.

ANNUAL SERVICE OF ROTHESAY COLLEGE

The annual church service of the Rothesay Collegiate School, known as the Sunday, was observed at St. John's church, Rothesay, yesterday afternoon. The cadet corps marched to the church in a body, and presented a very inspiring sight as they paraded from the school to the church. The sermon was preached by the Rev. J. H. Holmes, the rector of St. John's church, St. John. Mr. Holmes took as his subject, "The Man With a Vision." He illustrated his subject with examples of men of both the past and present days, emphasizing that it was better to have vision in preference to ambition.

WANTED IN SYDNEY

The detective department received a telegram about 4 o'clock yesterday afternoon from Chief of Police Macdonald of Sydney, notifying them that George McDonald, who is wanted in Sydney on a charge of forgery, was thought to have gone to St. John, and asking the vice to be on the lookout for him. (Another man, Sydney McCuish, who also wanted by the Sydney police. After a search of the hotels and other likely places, Detectives Biddiscombe and Donahue, at last located the two men late last evening in a local hotel and they were taken to police headquarters. A telegram was sent to the chief of police at Sydney and he probably will send an officer today to bring them to that city for trial.)

BAND CONCERT TONIGHT

The City Cornet Band will occupy the bandstand in King Square this evening from 8 to 10 o'clock, and will give the following programme of music under the direction of Frank Wadlington, bandmaster: March, The N. C. 4, F. E. Bigelow; overture, Lustspiel, Keler Bela; waltz, Frau Lina; Fan Lince; bacurale, from the Opera Tales of Hoffmann, Offenbach; cornet solo, by D. J. Gallagher, The Sea Flower; Rollins; grand operatic selection, Rigoleto, Verdi; Tone Poem, Apple Blossoms, Roberts; medley selection, Alabama Lullaby; popular selection, Le Pique; Heures; America Fantasia, Derrick's Dreamland, Bidgood; march, Namur Richards; God Save the King.

David Hipwell returned to the city yesterday from the west where he had been spending a short vacation visiting his son. Miss Mary Hipwell of Fredericton spent the week-end with her parents.

PORTLAND LODGE, SONS OF ENGLAND, ATTENDS CHURCH

The Portland Lodge, Sons of England, No. 246, attended the Fairville Methodist church yesterday morning in a body. The acting pastor, Rev. Dr. Harrison, preached a special sermon for the occasion. Dr. Harrison took as his text "Their line is gone out throughout the earth and their words to the end of the world." Dr. Harrison said that these lines might be applied to the British nation, whose influence was known over the entire world. The efforts of the British were felt, east, west, north and south. An outstanding feature which has made England great according to the words of the Bible and the greatest way the English nation had made itself strong was in the fact that it had acted the part of the good Samaritan to the rest of the world, looking after the bruised and bleeding, and protecting the smaller nations.

Dr. Harrison mentioned the great number of colonies that were identified with the British crown, and the remarkable loyalty and love that they always had shown for the Empire which had shielded and protected them, citing as a particular instance the time of the Great War, when the mother country had called for help her sons had responded from every quarter of the globe. Reference also was made to the glorious traditions of the British flag, of the traditions won on the hard fought battlefields of the past. In conclusion Dr. Harrison declared fervently that if England was to keep her soul alive she must keep it in the same way that she has kept it in the past, by protecting the weak and helpless, and obeying the word of God according to the Scriptures.

In addition to the regular anthem the choir sang "Land of Hope and Glory," and all the hymns were of a patriotic character.

COURTENAY BAY ESTIMATES BEFORE HOUSE THIS WEEK

Rupert W. Wigmore, M.P., who has just recovered from a two weeks' illness, left on the Montreal train last evening to resume his official duties in Ottawa. Mr. Wigmore said that he expected the supplementary estimates with reference to Courtenay Bay would be brought before the house before the end of the week. Alexander Gray, chief engineer of the public works department in this city, also left for Ottawa last evening armed with all the necessary information in connection with the expenditures at the winter port, which is to be placed before the house.

SUPERANNUATION IN CIVIL SERVICE

Bill Affecting 43 Employees Explained in House of Commons.

Ottawa, June 21—On Saturday in the House of Commons a bill to provide superannuation of 43 civil servants was given second reading. Sir Robert Borden introduced a bill to provide cash payment for grain delivered to country elevators. Estimates were adopted for the justice department, customs and excise and militia pensions.

Nine divorce bills were adopted in five minutes before the house adjourned at 7 p.m. The act to provide for the retirement of certain members of the public service came up for second reading. Hon. J. A. Calder made a brief statement regarding it. He said that it was well known there were certain defects in the measure now before the house which should be remedied. Some departments were over-manned, and in them were clerks of advanced years, who were absolutely without provision for retirement because they did not come under the superannuation act. The problem of taking care of these officials was a very difficult one. If some provision was not made for their retirement, the tendency of some of these clerks was to stay in the service until they were granted leave of absence. The government was anxious to find a solution of this difficulty, and ready to receive advice from the members of the house as to how it should be found. The chief provision of the measure now before the house was that the government might retire from the public service, (inside or outside) any employe whose services were not required, provided that some allowance was made to him or her on retirement. This rule would apply no matter what the age of the official, or the nature of the work being done. The allowance granted on retirement might be very small and in the form of a gratuity, or it might be an annuity.

Another provision was to the effect that the government might retire any employe more than sixty-five years of age, who was not rendering good service. The minister said that retirements under this bill were not optional. Every person retired under this bill would receive an allowance in most cases based on length of service. Regardless of age or length of service, every dismissed employe would be entitled to thirty days' notice and one month's salary, or two months' salary if notice was not given. Persons under forty-five years of age, would receive two months' salary allowance regardless of length of service. Every employe retired after twenty years or more and not less than five years service shall receive an amount equal to one month's salary for each year of service, not to exceed an amount equal to six months' salary.

ST. PAUL'S PICNIC AT GRAND BAY

The annual picnic of St. Paul's Sunday school was held on Saturday at Grand Bay and, despite the unpromising weather in the morning, a very large crowd attended. The majority of the scholars left the city on the morning train, while most of the older people arrived in the afternoon. During the day races and sports were carried on under the direction of W. C. Peters and in the evening prizes were presented to the winners. Dinner and supper were served on the grounds by a committee of ladies, of whom Miss Ethel Melick and Miss W. Upham were convenors. The picnic returned to the city on the 9:15 train, after having spent a most enjoyable day. W. E. Hewitson, the superintendent of the Sunday school, was in charge of all arrangements in the absence of the rector, the Ven. Archdeacon Crowfoot.

Renting Vacant Rooms is a Public Duty

Adequate shelter is one of the first necessities for man, woman, girl and boy. The shortage of houses makes the question of shelter a matter for urgent public consideration. Many well-to-do people are renting rooms to young men and women because they realize that by doing so they render an important service to the community.

FEARS GRAIN WILL GO TO PORTLAND, ME.

Halifax, P. E. I.—At a general meeting of the Board of Trade yesterday afternoon, President Handfield Whitman made a brief address, reviewing some of the work which had been done by the Council of the Board during the past quarter year. He touched on a number of important matters, among them the effort which has been made by delegations of the Board at Ottawa to have the essential grain elevator erected in connection with the Halifax Ocean Terminal. There had not been "much practical result" of the delegates' endeavors, said Mr. Whitman. He indicated that the position of the city with respect to the matter was dangerous. It seemed to be the opinion in Montreal that Halifax would not get the necessary elevator, but that the Portland terminal would rather be used for grain export.

but said that he wouldn't sell anything that did not properly belong in a well equipped pharmacy. "This is to be a prescription drug store, not a dispensary," Helms announced. "We will sell only prescriptions and stockroom supplies. The medical profession in general shares the opinion that a prescription pharmacy should be separated from the modern department store drug stores. For this reason I am announcing an exclusive prescription pharmacy. A complete line of pharmaceuticals, biologicals and chemicals will be stocked, as well as every sickroom need; everything necessary for an individual's care, including more than 100,000 pills, such as cotton rubber goods, gauze, tape, invalid cushions, maternity packets, antiseptics, cat, etc.

No stamps, cigars, kokaids, talcum powder, rouge or other accessories commonly handled by the ordinary drug establishment will be sold by Helms. Nor will there be a soda fountain in his store. Helms will not sell patent medicines, but will advise his customers to consult their physicians.

Cincinnati and Cleveland Retained Lead

Giants Appear on the Down Grade—Philadelphia Loses 18 Consecutive Games—Three Homers for Ruth.

New York, June 21—The ability of the Cincinnati Nationals and the Cleveland Americans to maintain a winning pace against the eastern teams in the present inter-sectional series has enabled them to retain the leadership of their leagues. Each disposed of its chief eastern rival, the Brooklyn Nationals and New York Americans, respectively, last week. Rain interfered with the schedule of both league leaders.

CIRCUS AND GROUNDS In conversation with a Times' reporter today Armstrong & Bruce said that there was a woman member of the circus and that she had secured the leasing of their grounds in Lansdowne avenue to a circus last year. They maintained that the circus had secured a lease of Shamrock grounds, but on finding it too wet had put their tents upon their property without permission and that they were unable that day to get an injunction against them.

LUDLOW STREET CHURCH Mrs. Ralph Smith, M. P. P. of Vancouver, first woman member of parliament in Canada, was the speaker at the morning service in Ludlow street Baptist church yesterday. Rev. W. R. Robinson, the pastor, in introducing Mrs. Smith, paid a very high tribute to the National Council of Women and expressed his pleasure that Ludlow street church was the first church in the province to welcome the first woman member of parliament. Mrs. Smith took as the basis of her address the 23rd Psalm. She was listened to with rapt attention by a large congregation. The pastor of the church delivered a very forceful address on the referendum at the evening service and made a strong appeal for all to support the present proctory law. He said that to go back to license would put the province back one hundred years. The comrades choir led the singing at both services. In the morning, E. Clyde Parsons sang "The King of Love" and in the evening, Ralph J. Rupert sang "The Prodigal." Both solos were especially well sung.

MONEY SOON OR STAFF MUST WALK STREETS

Commissioner Frink on Public Works Finances Statement to Delegation Paving — Four German Guns to Be Sent Here as War Trophies — Business at City Hall.

A meeting of the committee of the common council was held this morning. During a reply to a delegation representing the Canadian Building and Construction Association, local branch, Commissioner Frink said that his department would need financial help by the end of August or otherwise he would have to allow his staff to walk the streets, as there would be no money to pay them.

A delegation from the Canadian Building and Construction Institute was heard, J. A. Grant, president of the local branch, said that they had held a meeting and decided that J. T. Kane, one of the members had not been fairly dealt with regarding paving Prince William street. He spoke of the long line of claims since the tender was submitted, on February 23 until Mr. Kane's check was returned early in June. He said that Mr. Kane had sacrificed other work because he had been led to believe he would be given the contract.

Commissioner Frink gave details about the receipt of the tenders and quoted the prices submitted by the contractors. He told of a communication from Mr. Kane and also a conversation he had with him in which he said he would require twenty-five per cent more if he was to go on with his contract owing to an increase in concrete, and other material. Mr. Frink said that the road engineer submitted a report showing that the city could lay the pavement cheaper than the lowest tender as they had the material on hand. He spoke about the financial condition of his department and said that unless he received money from the council by the end of August the staff would have to go out and it would not only be the men with the pick and shovel, but also the office staff.

The delegation said that they brought up the matter only in the spirit of fair play and after thanking the council they withdrew. The delegation consisted of President, J. A. Grant, W. J. Crawford, representing the plumbers, and Mr. Kane. Commissioner Frink brought up a request from the New Brunswick Telephone Company for permission to lay a conduit in city road from Wall street to Rilkie street. He said he would not favor granting the permission as a contractor was now laying a new pavement. He said they had ample opportunity to ask for this permission before the contractor started paving and he was opposed to them starting to tear up the street again. He moved that the request be not complied with. This was seconded by Commissioner Thornton, and after a discussion was passed.

Commissioner Thornton said they should have a report of the gas pipes in Prince William street. Commissioner Frink read a letter from John Alexander saying that he had been in poor health for some time and in the advice of his physician was asking for six weeks vacation. He said he had been in the service for twenty years. He was granted full pay for his regular holidays and half pay for the remaining weeks. Street Railway. Thomas H. McCauley, manager of the N. B. Power Company, addressed the meeting regarding his application for a turn out at the corner of Charlotte street and the north side of King square. After a report had been read from Road Engineer Hatfield, Commissioner Frink moved that permission be granted under plans and specifications submitted by the road engineer. This was carried. Commissioner Bullock submitted a report regarding the purchasing and repair of the taxidermy. He said the purchase price would be \$1,500; that the contract for repairs to be done by the Union Foundry would be \$710; that work to the hull would be done by J. S. Gregory for \$2,500; that stripping would cost \$86 and rental of the blocks would be \$25 making a total of \$4,800. The estimated cost of the work was \$5,000, \$2,500 of which was to be done by the city and \$2,500 by the county. Commissioner Frink moved that he be given permission to purchase 1,200 bars of concrete for Prince William street paving work. Permission was granted. German Guns. A communication was read from the War Trophies committee, saying that they were awaiting the city four German field guns. On motion the communication was received with thanks. A discussion regarding allotment of these guns took place, but no definite action was taken. A communication was read from the Women's Hospital Aid notifying the council that they had nominated Mrs. R. Duncan Smith as a candidate for the vacancy on the hospital commission. Commissioner Thornton spoke about a protest sent in by residents of the North End regarding allowing a circus to show on the property of Armstrong & Bruce. He said he had learned that a contract had been signed to allow a circus to show on these grounds. Mayor Schofield told of receiving a communication from citizens and had answered that he had not issued any license for a circus showing there. The matter will be looked into. Mayor Schofield presented a bill for a dinner recently tendered the visiting press men and it was moved that it be paid. Mayor Schofield told of issuing an order on a steamship for the passage of a colored man to the south, who came here and was stranded. He said he felt the expense should be borne by the city. Commissioner Frink moved that the expenses incurred should be paid. This was seconded by Commissioner Thornton and passed. Commissioner Bullock recommended that John A. Adams be awarded a contract for painting sheds 1, 2, 3, 1 at Seal Point for \$2,470. On motion this was passed.
