VOL. 14.-NO. 38.

SACKVILLE, N. B., THURSDAY, JANUARY 24, 1884.

WHOLE NO. 713.

## Personal and Political.

## Farm and Household.

—Montana's cattle interests are estimated to be worth \$14,500,000.

—The London Times in a recent article speaks in very high terms of Canadian apples.

—Florida strawberries have reached New York, but they are held at five dollars a quart.

—The use of nursing bottles for children is strictly prohibited at the Paris Maternity Hospital.

—Minnesota's butter product for 1883 will nearly reach 18,000,000 pounds, worth \$5,300,000.

—More than 1,500,000 pounds of butter were shipped from Manchester, Iowa, during 1883.

—California pays a bounty of four cents each for the scalp of a squirrel captured in that State.

—The famous dairy country of Friesland exports one hundred and nineteen pounds of butter to every acre of her grass land.

—A farmer in New South Wales sheared 1,500,000 sheep last year, and this year expects to bring the number up to 2,000,000.

—A Thomaston, Conn., farmer, Mr. Coble, who keeps extensive flocks of turkeys, has a set of corn-fodder.

—Transportation and commission costs the South Florida orange raiser \$1,800 for oranges that are sold in the North for \$3,000 whole sale.

—A recent census of horses in Russia showed that there were 19,675,133 in the country, of which 14,885,051 were fit for military service.

—A Michigan poultry dealer filled an order from England for seventy-five turkeys for the Christmas market. They weighed from sixteen to twenty-six pounds each.

—Holland has recovered 90,000 acres of land from the sea by building dykes in the last 500 years, and when work on the Zuyder Zee is completed there will be 500,000 more.

—The Chicago Board of Trade is described by *The Western Rural* as "largely a speculation where millions of bushels of grain more than is raised are bought and sold."

—At the International Forestry Exhibition, which will be held this year at Edinburgh, Scotland, a model Canadian farm will be laid out on land immediately adjoining the exhibition building.

—An advertisement in some of the papers offers to sell the secret of producing "green dahlias" for one dollar. The dahlias will not be as green as the person who is duped by the advertisement.

—The Dallas Herald says that the longest line of fence in the world will be that from the Indian Territory west across the Texas Panhandle and thirty-five miles into New Mexico. It will be over 200 miles long.

—At a fat-stock show recently held at Toronto, a Shorthorn steer was shown, 947 days old, or a day over two years and seven months, whose weight was 2,110 pounds, a growth of two and one half pounds per every day since he was dropped.

—The Kansas Agricultural College lately transplanted large Scotch and Austrian pines, with about half a ton of frozen earth adhering to the roots of each. A number of years' experience there shows that trees moved in this way "almost certainly live."

—The orange groves of Mobile have been killed by the severe frost, and the growers of garden truck, have lost everything. The damage in that section is estimated at two million dollars. In southern Georgia the sugar cane has been destroyed by the freezing weather.

—A farmer is mentioned by the *Chatham Courier* who, upon first turning a horse into the field, leads him along the wire fence and brings his nose a few times in contact with the barbs. After that experience the intelligent animals keep at a safe distance, and none have been injured.

—One pound of sugar, 2 of a pound of butter, 10 eggs, 1 pound of flour, 4 pounds of raisins, 23 pounds of currants, 13 pounds of citron, nutmeg, ground mace, essence of lemon. This makes the richest cake, and one that will keep well for years if wrapped in a linen cloth and put in a stone crock.

—Mr. Charles Dudley Warner, having tasted carp in Germany, realized then "why that Government so kindly sending the young fish out of the country." He adds that "though in some respects the carp and stories about carp differ, nevertheless, in one important particular they are both alike—it is very difficult to swallow either."

—Sheep, from the facility and rapidity with which they are matured, the rapidity of their increase, and their triple use for food, raiment, and manure, are the most available means of supplying a deficiency of animal food. Nature and the art of the breeder have made the sheep the most perfect machine in existence for converting grass and grain into flesh.

## List of Parish Officers for 1884.

Westmorland.

Town Clerk—Er. Tingley.

Collector—Dixon Chapman.

Revisors—Martin Love, John J. Hanford, George Copp.

Commissioners of Bye Roads—John M. Hicks, Wilson Thompson, Gideon S. Maxwell.

Commissioners of Highways—Charles Hicks, John T. Carter, Wm. E. Barnes.

## General News.

—Work in the Minnesota lumber region is very dull. Wages range from \$5 to \$8 per week less than last year.

—The Grand Trunk Railway of Canada traffic returns for the week ending January 21, 1884, show a revenue of \$249,777, as compared with \$239,421 in the corresponding week of 1883, a decrease of \$9,644.

—It is reported that snow obtained in Scotland, Holland, and northern Germany has been subjected to careful microscopical examination, and there has resulted the detection of minute particles of volcanic dust.

—Similar results in various sections of this country might prove the source of the Java theory of the afterglows.

—A wood chopper's wife, Mrs. Hannah Barnes, started from Ashland, Wis., on December 2nd, and arrived at Milwaukee, January 8th, having walked the entire distance, 300 miles, carrying her 14-month-old baby strapped to her back. Part of the time the thermometer was 30 degrees below zero. The next day she started out again cheerfully on her long tramp to meet a sister in Milwaukee, 100 miles further on. Her funds amounted to \$2.

—A couple of young ladies at Princeton accepted a peculiar wager from a dry goods merchant of that place. The merchant agreed to give them each a silk dress if they would drive two hogs he wanted killed from his premises through the principal part of the town to his slaughter-house. The offer was made in fun, but much to his surprise, the young ladies took him at his word, and valiantly drove the hogs through the required destination. The girls were brave and easily earned their fine dresses.

—A case of trance has lately ended in Glasgow. A woman 35 years of age had lain since June last in a state of coma, motionless, with closed eyes, a pulse of about eighty per minute, natural temperature, and normal breathing. Consciousness was entirely absent until, at the end of November, she suddenly awoke, and is now recovering her wonted strength. During her long sleep she was fed daily by a stomach tube. The case is well-nigh unique on account of its duration. These trances are the puzzle of the physiologist, and simulate death so closely that patients have been in danger of burial alive.

—A Warsaw paper gives a curious story of a wager between two wealthy Polish landladies. The agreed each to isolate two hens, two ducks, and two geese from the poultry yard, and to keep them in isolation for fifteen years. Superfluous male and named female birds could be sold, but the total sale was not to exceed 10 per cent. of the whole flock at the close of the fifteen years. At the close of the term the winner was the landlady who had the larger flock was to get the smaller flock and 10,000 roubles in cash, to be distributed among charitable institutions. Upon settling the bet a short time ago, the loser had 1,800 hens, 530 ducks, 276 geese, a total of 2,606 birds. The winner had 1,084 hens, 965 ducks, and 895 geese, a total of 2,944 birds.

## LOCAL AND GENERAL NEWS.

**Advertisements this Day.**  
 For Property for Sale or Let, &c., see fourth page. "Business Cards" on first page.

**Philomena.**  
 —Mr. Vanderbilt will take a party of New Yorkers to the Montreal Carnival. —The station house, on the I. C. R. at Paines Junction, was destroyed by fire last Tuesday.

**LOCAL MATTERS.**  
**Philomena.**  
 LARGE PAPER BAGS for sale at this Office.

**Philomena.**  
 MRS. J. W. Mackey, wife of the California millionaire, has a collection of jewels valued at one million dollars. One set of sapphires alone is said to be worth \$300,000.

**Philomena.**  
 —Mrs. Lucinda Neely, of Jeffersonville, Ind., was found to be alive in her coffin after the funeral sermon had been preached and just as the undertaker was about to fasten the lid of the coffin.

**Philomena.**  
 —Ayer's Sarsaparilla, being highly concentrated, requires a smaller dose, and is more effective, dose for dose, than any other blood-purifier. It is the cheapest, because the best. Quality and not quantity should be considered.

**Philomena.**  
 —The bodies of Mrs. Belyea, Mrs. Atkinson (Mrs. Wood), and Mr. Belyea, who were recovered and forwarded to their friends at Woodville, Mr. Belyea's body had not been recovered at last accounts.

**Philomena.**  
 —The gale last Tuesday did considerable damage. The barque "Ashlow" was driven ashore in St. John Harbor and will probably become a total wreck. The Quebec express was seven hours behind time on Wednesday morning on account of the storm.

**Philomena.**  
 —A decided sensation was caused in the principal London clubs by the issue of a warrant against the Park Club for permitting the game of bacarrat to be played in the club rooms with high stakes. Eminent counsel have been employed for the defence and it is alleged that the prosecution is about to be abandoned.

**Philomena.**  
 —The verdict of the coroner's jury on the Grand Trunk disaster, at Humber, commits for trial the conductor and engineer of the special train which collided with the suburban train, and severely injured the passengers.

**Philomena.**

 —The gale last Tuesday did considerable damage. The barque "Ashlow" was driven ashore in St. John Harbor and will probably become a total wreck. The Quebec express was seven hours behind time on Wednesday morning on account of the storm.

**Philomena.**  
 —A decided sensation was caused in the principal London clubs by the issue of a warrant against the Park Club for permitting the game of bacarrat to be played in the club rooms with high stakes. Eminent counsel have been employed for the defence and it is alleged that the prosecution is about to be abandoned.

**Philomena.**  
 —The verdict of the coroner's jury on the Grand Trunk disaster, at Humber, commits for trial the conductor and engineer of the special train which collided with the suburban train, and severely injured the passengers.

**Philomena.**  
 —The bodies of Mrs. Belyea, Mrs. Atkinson (Mrs. Wood), and Mr. Belyea, who were recovered and forwarded to their friends at Woodville, Mr. Belyea's body had not been recovered at last accounts.

**Philomena.**

## Trade and Industry.

**Measures.** Blankhorn & Sons, edge tool manufacturers, of Canning, N. S., manufactured 1,200 dozen axes last year.

**Measures.** The amount of coal shipped from Cape Breton and Pictou to Montreal in 1883 was 888,412 tons, an increase of 62,445 tons over the amount shipped in 1882.

**Measures.** W. H. Moore & Co., of North Sydney, C. B., have assigned. Liabilities, \$85,000. Total assets, \$75,000. The difficulties of the firm are ascribed to severe losses by fire in 1881, which, with recent losses, have made it difficult to meet their obligations.

**Measures.** The total registered tonnage of the Maritime Provinces at the close of 1883 was as follows:—

**Measures.** Mr. F. W. Chipman, dry goods merchant, of Kentville, N. S., has assigned. Liabilities, \$55,000, of which a considerable portion is secured. Mr. Chipman claims to have assets to the value of \$70,000. The failure is ascribed to the great difficulty of collecting debts on account of the partial failure of the apple-crop, and want of a market for the large crop of potatoes raised last year.

**Measures.** From a report, published by the St. John Globe, we learn that the number of vessels now building in New Brunswick is thirty-four. Of this number 8 are ships, 2 are barques, 4 are brigantines, 19 are schooners or woodboats, and there is one tug-boat. The ships will average nearly 1,500 tons each—the largest being 1,600 tons and the smallest 1,400 tons. The largest schooner will register 300 tons.

**Measures.** The number of vessels now building or under contract in Nova Scotia is 107, aggregating 56,040 tons. The list includes 1 steamer, 1 tug-boat, 23 ships, 8 barques, 1 barquette, 1 brig, 1 brigantine and 71 schooners. A comparison with the list of vessels registered in 1883 shows a large increase of tonnage, but a considerable falling off in number, and indicates a tendency towards building large vessels.

**Measures.** For instance, two of the ships now building will register about 21,000 tons each, one is put down at 2,000 tons and three at 1,800, while the smallest will measure 1,300 tons. The barques are also large, all but two being of 1,000 tons or upward. Some of the schooners are small, as might be expected, but there is one 700 tons, another nearly as large, while half a dozen more range from 300 to 500 tons. It is quite probable that the number of vessels in course of construction will be increased during the year.

**Measures.** The following comparative statement of the shipments of coal from the collieries of Nova Scotia and Cape Breton during the years 1882 and 1883 is given by the *Telegraph and Journal*. It will be noticed that the shipments from Spring Hill are much larger than from any other mine in the Province:—

**Measures.** Spring Hill.....188,016 208,000  
 Intercolonial.....141,899 137,565  
 Acadia Mines.....122,469 135,000  
 Acadia Coal Co.....82,145 106,614  
 Acadia Coal Co.....81,184 70,889  
 Chignecto Colliery.....10,787 18,000  
 Joggins Mines.....18,000 20,000  
 River Hebert.....1,000 1,000  
 Sydney Mines.....133,623 129,000  
 Reserve Mines.....74,432 103,748  
 Chignecto Colliery.....102,927 98,000  
 Little Glace Bay.....69,019 72,871  
 Glace Mines.....65,364 69,000  
 Glace Mines.....57,447 53,000  
 Caledonia Mines.....59,286 51,400  
 Lingan.....20,000 20,000  
 Chignecto Corner.....64 12,000

**Measures.** Total for 1883.....1,808,880  
 Total for 1882.....1,250,175  
 Increase in 1883.....558,705

**Measures.** In the current number of the *Fortnightly Review* one Sir Lepel Griffin in an article headed *A Visit to Philistia* gives us his views on America and American affairs at large. He can think of no country, he says, except Russia, "in which life would not be more worth living, less sorrowful and mean and unlovely," and he declares that "Republican institutions have proved a complete failure." What this gallant knight's ideal of life may be we do not know, but we can readily conceive from the tone of the article that a given condition of social existence might fail to meet his approbation and yet be worth living by people of sense. And as to the failure of Republican institutions, it seems to us preposterous in the last degree to attach the name of failure to a system under which fifty-five millions of people live peaceably and in the enjoyment of a degree of comfort very far indeed above that attained to on the average on the other side of the water. Defects there undoubtedly are connected with the American system of government, and we have often enough pointed them out in the columns of the Post, but when judged as a whole, looked at in its relations to all classes of society, it most assuredly would be immeasurably nearer the truth to say that Republican institutions were a complete success than to stigmatize them as a failure.

**Measures.** Acquiescence in the standard time has been so far broken by but a single voice. That comes from the Mayor of Bangor, Maine, who refuses to heed the resolution of the Commerce Council on the subject of the petitions of the people of whom he is the chief official. He says that standard time is an attempt to change the laws of God, that it is "a manifest injustice to all laborers and mechanics," and that it "teaches wholesale fraud and deception."

**Measures.** The Power of Pain  
 entirely cured by Dr. J. C. Curran's Cure-All Liniment. Pains of Lumbago in the Back, Chest or Side, Rheumatism, Stiff Neck, Stiff Throat, and Flatulent Colic are cured by this Liniment.

**Measures.** Ayer's Pills cure constipation, improve the appetite, promote digestion, restore healthy action, and regulate every function. They are pleasant to take, gentle in their operation, yet thorough, searching, and powerful in subduing disease.
