WOULD NOT PAY THE SCALE WOULD NOT PAY THE SCALE Pittsburg, June 15—The mines of the Con-nel, Creighton, McFetridge and MoKean Coal company, in the neighborhood of Tarentuma, Pa., closed down today on ac-count of the refusal of the operators to pay the Pittsburg scale. Pickets have been stationed about the mines but no trouble ationed about the mines but no trouble s expected. About 1000 men are idle.

NO EFFECT ON C.P.R. STOCK When J. J. Hill first announced his Candian plans the news fell very flat as far c.P.R. stocks was concerned. And no scare has since developed. The New York American mentions a circumstance that has been very generally commented upon

when it says: "The strength of Canadian Pacific in the face of James J. Hill's ambitious plans for the invasion of Canada is considered remarkable. The stock hangs within five points of the highest price at which - - in a start ever sold."

VOL. 5 FOR LARGE TONNAGE

Big Mining Companies on Lookout for Copper Properties

B. C. Copper Company Takes Up Option on Decoro and Said to Have Option on B. L. Mine in Summit Camp

(Special to The Daily News) Pricents, June 22-With the smelter en largements under way at the several Boun largements under way at the several Boun-dary reduction works, the managers of the large mining companies are still look-ing for copper properties that give prom-ise of developing large tonnage. The an-nouncement has just been made that the British Columbia Copper company has tak-en up its option on the Demoro mine, Sum-mit camp, which is not due till the 26.h octant the names with the owning com-

instant, the papers with the owning con

instant, the papers with the owning com-pany, the Denoro Mines, Ltd., having al-ready been signed at a figure somewhat less than the option called for, payment to be made in British Columbia Copper company shares. This gives the purchas-ing company another claim adjoining their Emma mine, and which is capable of a been to the past two months

large tonnage. For the past two months

The statement is also made that the Inte statistical Copper company has taken an option on the well known B. C. mine in Summit camp. This option was held by W. T. Hunter of Greenwood, who

sold it to the B. C. Copper company. Fore-man Johnson with a crew of men has al-ready been sent to the B. C. mine to pump the property out and prepare it for

pump the property out and propare it is examination and development. The price of the bond is not given out. Probably no mine in the Boundary has had a more interesting history than the B.C. The B.C. Chartered Corporation,

Ltd., of Montreal, purchased the mine for about \$100,600, including 11 claims in all, some years ago and worked it vigorously

for a time. It was the first shipper of importance in this section when the C.P.R. was completed from the Columbia river to the Boundary, and much of the gold-

to the Boundary, and much of the gom-copper ore was sent to the Trail smelter, it being a better grade than most of the Boundary ores. Although over 100,000 tons of ore were shipped-all that was in sight - and then the mine was closed and has remained closed for soont three years. The owners declined to do any further development or to prospect thoroughly the

development or to prospect thoroughly the

large territory they owned. While definite data is not available, ow-ing to the company being a close corpora-tion, it is known that the owners got back

all of their original investment with

good profit. It is said that the mine has large bodies of ore that can now be shipped profitably, whereas in the early days,

with high freight rates and smelter

Copper company, with its extensive smelt

ing plant, was an excellent one. The mine has a complete machinery equipment, bunk houses, boarding house, office, ore bunkers, C.P.R. side tracks, etc.

RAILWAY ACT DEBATE ON SUNDAY OBSERVANCE

press companies will be brought under the jurisdiction of the Railway Comthe jurisdiction of the Railway Com-mission. The express companies have strenuously resisted this proposal, af-firming that parliament had no jurisdic-tion over express rates. The depart-ment of justice has given an opinion that the dominion and not the provin-cial government has jurisdiction in the matter and Hon. H. R. Emmerson, min-ister of railways and canals, says that the amendment to the Railway Act, giving power to the Railway Commission to regulate the charges of express comto regulate the charges of express com-panies shall be put through. The new clause proposed by Mr. Emmerson deal-ing with the subject was agreed to by the special committee today. As worded it will apply to all express companies in Canada

by Canadian merchants in getting goods into Japan upon the most favorable terms to which they were entitled to

The Sunday Observance bill was again under discussion today. Clause 16, which permits provincial acts respecting railways to remain in force was adopted. Ralph Smith strongly supported the clause which gives persons working on Sunday one day of rest out of seven. He quoted a statement by the head of the Grand Trunk railway men's organi-zation that every member of the organi-zation that every member of the organi-zation had to work seven days a week, every week in the year. W. A. Galliher contended that the provision was impracticable as far as smelters are concerned because the com-panies could not get experienced men who would be available to take the place of men who were getting 24 hours rest once a week.

toba Grain Act. Yukon supply was then taken up.

THE WEEKLY NEWS

Protected by Military and Police Roughs Plundered House, and Stores of Jews

Berlin, June 22 .- An inhabitant of Bialystok, Russia, who was present during the entire massacres there, and who has arrived in Berlin, has given the German Hebrews' Aid society the following account of the recent events

there: "June 14.-was the fortieth anniverthere: "June 14.--was the fortieth anniver-say of the compulsory adhesion of many Catholics to the orthodox church, and a celebration of the event was elabor-ately planned. The police and military were fully armed, apparently prepar-ing for a conflict. Though there were alarmed and sought hiding places. "On Thursday, processions of ortho-down and the runor spread that the Jaws had thrown a bomb into the crowd, and there earning a Russian priest to pleces. The difference of the proces-sion, and the runor spread that the Jaws had thrown a bomb into the crowd, and the crowd shouted: "Down with the prost began at one part of the proces-sion, and the runor spread that the Jaws had thrown a bomb into the crowd, and the crowd shouted: "Down with the prost began at one part of the proces-sion, and the runor spread that the Jaws had thrown a bomb into the crowd, and the crowd shouted: "Down with the prost began at one part of the proces-the crowd shouted: "Down with the spread the the mantes out, des-toring whatever they found within. "The military in the meanwhile be-down their houses, beaten to death. and their bodies mutilated beyond rec-umitor. "The Jawish the latter grouping within the latter grouping withing were the latter grouping withing were the shops in the vicinity were meanwhile plundered. Furniture, mirrors and planos were de-molished, and the remone was started

molished, and the remnants thrown into the streets. "The first bomb rumor was started among the members of the orthodox procession, and algost simultaneously, as if by a concerted signal, the rumor reached the Catholic procession in an-other street, that the Jews had thrown two bombs. Here there were the same terrible effects for the Jews as with the orthodox procession. two bombs. Here there were the same terrible effects for the Jews as with the orthodox procession. "Ruffians under the protection of the police and military, who hurriedly ar-rived on the scene, rushed into the Jew-ish houses, killing all who fell in their way, the soldiers in the meanwhile fir-ing into the Jewish houses on the oppo-ties side of the street

ing into the Jewish houses on the oppo-site side of the street. "After the roughs had finished plun-dering one side of the street, they began on the other, the troops then turning their rifles against the side already plundered. This process was carried out in Linden and Tikedyin streets and in the market places. Some of the officers encouraged the rioters and soldiers in their bloody work while other officers ordered them to de-sist, but they were seldom obeyed. "One officers ordered a number of murderers to leave a place, but they argued that the governor had given up the Jews and their shops for three days' plunder. General Bogajeffsky, com-mander of the garrison, politely return-ed the roughs' cheers and shouts with a military salute, and another officer con-

gratulated them upon their festival and the rioters answered with vigorous eers. "The leaders of the plunderers wer

"The leaders of the plunderers were not only policemen, but included many of the officials of the Imperial bank. Some of the Christian population, chiefly judges, expostulated with the rioters, police and soldiers, on their unchristian like work, and exhorted them to sus The excesses continued until a late hour at night, all the Jewish houses and shops in the suburb of Bojari being plundered, and demolished.

"On Thursday night Bialystok pre-eented a warlike scene, One heard in-cessant rifie firing lasting till 5 o'clock in the morning. "At about 9 o'clock the next morning

"At about 9 o'clock the next morning, Dr. Reigrotsky received a telegram from M. Branson a member of the lower house of parliament, saying that interior min-ister Stolypin the "previous night had telegraphed to the authorities to check the massacres immediately. Dr. Reig-rotsky showed the despatch to an offi-cial, who angrily answered: 'We know ourselves when to re-establish order. Do not imagine that you Jews have the Do not imagine that you Jews have the Jewish dictatorship of Bialystok.' "The excesses were resumed at 10.30

"The excesses were resumed at 10.30 by a policeman at the head of 30 roughs, who fired upon a certain house, saying: Brothers, the Jews have been shooting from this house. The roughs threw paying stones through the windows, and paving stor the topops fired volleys at the house. The pioing did not cease unit M. St. Chepkin arrived Saturday attendon." POLICE WERE TO BLAME PROVOKED PEOPLE AGAINST JEWS

BY FALSE REPORTS FINDING OF COMMITTEE RE BIALY.

STOK MASSACRES.

St. Petersburg, June 22 .- At a crowd ed meeting of the constitutional demo cratic club tonight deputy St. Chepkin reported the findings of the committee of

cratic club tonight deputy St. Chepkin reported the findings of the committee of the lower house of parliament, which went to Bialystok to investigate the facts in connection with the anti-jewish out-break there. A state of the provident of the police and military, provoked the people by the circulation of faise rumors against the Jews. The governor of Bialystok, though not directly connected, was said to have been criminally guilty of pro-longing the excesses by absence from his post. The governor wished his hands of the affair, not knowing the stitude of the officials at St. Petersburg and absented himself from the scene without siving orders. That the government was in ignor-ance concerning the excesses is not usetioned, but the local police assumed that the ministry would not pinish those who participated in the outbreak. It is the be changed and one must be chos-on from the majority in parliament or-orier and Turkey and ultimately come under the tuorship of a really unciviliz-e government." The report concludes: "The ministry mustice Russis will fail to the level of persia and Turkey and ultimately come under the tuorship of a reality unciviliz-ed government." The apprehension of an impending outbreak at Gomel was increased today by a telegram from residents of that dity to deputy Vinauer, stating that a bomb had been discovered in the house of a leader of the revolutionary league of parls.

bomo had been discovered in the nume of a leader of the revolutionary league of Paris. The discussion of interior minister Stolypin's explanations was resumed in the lower house of parliament today. The radical orators were given the floor first. A Georgian member offered on behalf of the social democrats, who have or-ganized into a regular group, a resolu-tion holding the administrative officials guilty of murder, robbery and violations of law, and demanding the prosecution as accessories of the ministry, which the resolution ficelared has been shelter-ing their agents and preventing an ex-posure of the conditions by the press. He supported his resolution in a long speech, describing the manner in which general Alikhanoff had carried fire and sword into the Caucasus and arraign-ing the administration of viceroy Vor-ontseff-Dashkoff. He did not attack minister Stolypin personally but the system for which he stood.

SLOCAN MINING NEWS.

Speculator-Boom in Fruit Lands.

Some very fine ore is being taken out at the Arlington, and the Speculator has resumed work in conjunction with it. The land-acquiring fever seems para-mount in the Slocan district now. It is said that nearly 2000 acres of land have been taken up during the past few weeks. Two ranches near Slocan were sold last week, the former owners being Messrs. Pierce and Farrell. Messrs. S. M. Brydges and T. Scanlon, of Nelson, and Wilson and Lindsay of Winnipeg, have been cruising around Solcan lake for the past week looking up and investigating fruit lands. The pretty little town of Silverton is being placed in apple-ple order for its Dominion Day celebration aud prepar-ations are being made for: a good time like unto the days of old. Miss McKinnon, postmistress at Sil-verton, has gone to the coast, whence she will visit her old home in Prince Edward Island. In her absence, Miss McDonald will have charge of the post office.

MAPLE LEAF GROUP

mising Copper Property in Franklin Camp-Work on the McKinley

(Special to The Dally .ws) and Forks, June 22 George A. McLeed, hust returned from making a personal. ction of the Maple Leaf group in klin camp. He corroborates the reort of the recent strike of versation with your corre-

conversation while out said: "There has a practically no development done on property with the exception of one the that is about 60 feet long and eight

feet wide. In this cut a solid body of sul-phile copper was encountered. Other cuts solid the trend of the ledge disclosed the same ore. There are four claims in the Maple Leaf group and the ledge is dis-tinctly traceable across two. This group is situated 1000 feet above the line of the state valley railway survey, rendering the case of the solid transportation." There has been great acrambling after this group by mining men but George A. Misleod and R. W. Warrington finally acquired the entire group. The Victoffa is the latest location of im-forting in the solid transport. The a few days ago by M. Livingstone. The one uncovered so far is similar to that of the management of the McKinley mille, in consequence of which contractor Dave the solid the property, so that the three arili will be working in a few days. feet wide. ISSUED CHEQUES ON OVERDRAWN BANK ACCOUNT.

tal to The Daily News) (Sp Cranbrook, June 22 .-- John F. Chap nan, proprietor of the Crow's Nest Stean

Man, proprietor of the Crow's Nest Steam Laundry here, yesterday elected to take speedy trial before his honor judge Wilson on a charge of obtaining money by false pretences.
G. H. Thompson, city solicitor, appeared for the prosecution, and R. W. Armstrong defended.
The evidence showed that on the 24th May last (bank holiday) Chapman got cash for a cheque for \$15, signed by himself as manager for the Crow's Nest Steam Laundry, from Lester Clapp, one of the owners of the Wentworth hotel. The following morning Chapman got as similar cheque from W. A. Rollins, the other propriator of the hotel. On that occasion Chapman stated to Mr. Rollins that if the two cheques were not paid as signed he would have them countersigned by his wife. On presentation the cheques were not paid.
Messrs, Chapp and Rollins proved the case as stated, and J. F. M. Pinkham, manager of the Imperial bank, proved that the reason why the cheques wate not paid was because they had not been signed by Mrs. Chapman as they should have been.

hot paid was because they and not been signed by Mrs. Chapman as they should have been. Chapman, in answer to Mr. Arm-strong, stated that he had, as sole own-er of the laundry, an account with the Imperial bank. He produced the bank both which showed a number of over

drafts. The bank, he shot and the outily as a sold sent of about \$1000 worth of debiss due to him in the course of business. He was certain, when he issued the cheques, that they would be paid. Under cross-examination by Mr. Thompson he admitted that he kenw the cheques were irregular when he is-sued them as they had not been signed by his wife. It was after the transac-tion of the 24th of May that the assign-ment had been made of his debts to the bank.

ment had been made of his debts to the bank. It was admitted that immediately pre-vious to the hearing of the case the amount obtained from Meesrs. Clapp and Rollins had been refunded. Its honor observed that the whole question turned on the matter of fradu-lent intent. Chapman would be more careful in future, as having been once bitten he would be twice shy. He found that the overdrafts from time to time far exceeded the amount of the che-ques concerning which the proceedings arose. He adopted the view that there had been no fradulent intent and dis-charged the accused.

erision to Commence Active Mining Op-erations Arrived at After Meeting of Shateholders Held in Sandon

The Last Chance mine near Sandon, which has been closed down since the middle of last December, is to be start-ed up at once and development work on a systematic scale is to be vigorously

pushed. This satisfactory course was decided upon at the meeting of the shareholders of the company held at Sandon, and at which Higgerstaff Wilson, of Victoria president of the company; T. L. Green-ough, of Missoula, Montana; Blake Wil-son, and M. S. Davys, of this city, and Louis Pratt, official liquidator, were present.

The Last Chance Mining The Last Chance Mining compan in process of liquidation and reorgan (ion, Mr. Pratt being appointed liquidation) for by the court some time ago. It take some months possibly to reorgize the concern but in the meantime mine will be developed vigorously. Pratt will go to Victoria shortly make a formal application to the co-for leave to go on with the work on property, but no difficulty is anticip in obtaining the leave asked for. W. H Stimmen a medidation of the source of th

V. DYNES Dated at Nelson, B.C., May 22, 1906.

Dated at Nelson, B.C., May 22, 1906. NOTICE is hereby given that sixty days after date I ingat to apply to the Chief Commissioner of Lands and Works at Victoria to purchase 80 acres of land com-mencing at a post planted on the easi bank of the lower Arrow lake, at a point known as Rock Slide, and marked "J.B.A. S.W. corner," running south 40 chains; thence east 20 chains; thence north 40 chaing; thence west 20 chains to place of commencement. J. B. ANNABLE. A. A BURTON, Agent. Located May 19th, 1906.

NOTICE is hereby given that 60 days after date I intend to apply to the Hon, the Chief Commissioner of Lands and Works for permission to purchase the following described lands in West Kootenay Dis-trict, east shore of Upper Arrow Lake, Commencing at a post marked "J. D. Cop-lan's S.W. corner," at the N.W. corner

of L \$63 and about 1 1-2 miles north of Nakusp, thence east 80 chains, more or less; thence west 80 chains, more or less; thence west 80 chains, more or less to the lake shore; thence in a general southerly direction along the lake shore 80 chains more or less to point of commencement

ontaining 640 acres, more or less. Dated this 27nd day of May, 1903, J. D. COPLAN, RALPH SLYE, AGENT.

Sixty days after date I intend to apply to the Chief Commissioner of Lands and Works, Victoria, to purchase 80 acres of and commencing at A post planted on the west side of Lower Arrow kake, about one mile south of the lower Narrows, thence morth 20 chains; thence west 40 chains; thence south 20 chains, more or less, to the lake shore, thence east along the lake shore to place of biginning. HANNAH ANNABLE J. E. ANNABLE, Agent, Located May 23, 1906.

Located May 23, 1906. NOTICE is hereby given that 60 days after date 1 intend to apply to the Hon the Chief Commissioner of Lands and Works for permission to purchase the following described lands in West Kootenay Dis-trict: Commencing at a post marked "N. W. corner C. L. Stuve's land," west side Lower Arrow lake, about 16 or 17 miles west of Robson, thence 80 chains south, thence 40 chains west along lake shore to point of commencement, 329 acres more or less. C. L. STUVE, WM. BURGH, Agent Nelson, B.C., May 16, 1906

Nelson, B.C., May 16, 1906 Sixty days after date 1 intend to apply to the Hon the Chief Commissioner of Lands and Works for permission to pur-chase the following described lands: S'art-ing at a post marked "J. R. difting Northeast corner post," on the south bank of 6-Mile creek, about two miles from Kootenay lake; thence 40 chains wai; thence 40 chains south, more or less; inclues 40 chains east; thence 40 chains Weit; thence or less to point of commencement. Dated this Zind day of Marci, 196. J. R. McBAIN. W. T. BUGGINS, Agent.

NOTICE is hereby given that sixty days after date I intend to apply to the Hon. the Chief Commissioner of Lands and Works, Victoria, B.C., for permission to purchase the following described lands: after date 1 intention of apply to the data and the cheft Commissioner of Lands, and works, Victoria, B.C., for permission to unchase the following described lands:

the cheft Commissioner of Lands, and works, Victoria, B.C., for permission to the west bank of the Columble river, about one mile below Euron (it, and running thence north 40 chains; thence west 40 chains; thence south 40 chains; thence west 40 chains; thence east 80 chains;

J. A. McDOUGALD, Locator.
 J. A. BURTON, Agent.
 J. A. CRYDERMAN.
 J. E. ANNAHLE, Agent.

A. N. WOLVERTON, Agent. NOTICE is hereby given that 0 days after date. I intend to apply to the Hon-the Chief Commission to purchase the fol-lowing described lands: Commencing at 5 post situated south of Lot 1235 G.I. Koot-smay, and on the seast side of the Nelson and Forth Sheppard railway track, and Bedver creck and marked "Jakita poet Sid-ney N. Ross, northwest corner," thenee east one half mile; thence south one mile; thence west one half mile to the line of the N. & F. S. railway land grant, thence and N. & F. S. railway track to point of beginning, containing 320 acres more bated May 23, 1906. SIDNEY N. ROSS.

SIDNEY N. ROSS. NOTICE is hereby given that 60 days after date I intend to apply to the Hon. the Chief Commissioner of Lands and Works for permission to purchase the following described lands in West Kootenay Dis-trict, west side of Upper Arrow Lake, about opposite Nakusp: Commencing at a post marked "William Maxwell's N.W. corner," thence south 60 chains: there a post marked "William Maxwell's A." corner," thence south 60 chains; thence east 20 chains; thence south 40 chains; thence east 20 chains; thence south 40 chains; thence east 20 chains; thence south 20 chains; thence east 60 chains. more or less to the shore of Arrow lake, thence following said shore in a general northerly and westerly direction 160 chains more or less to point of commencement; 640 acress more or less. May 29, 1906. W.M. MAXWELL.

RALPH SLYE, AGENT.

RALPH SLYE, AGENT. NOTICE is hereby given that sixty days after date I intend to apply to the Chiel Commissioner of Lands and Works at Victoria to purchase 100 acres of land de-soribed as follows: Commencing at a post lake, at James Bates' northwest corner, and manked " J.I.C., S.W. corner" and running north 30 chains; thence west 40 chains to point of commencement. I ACROSSE AT CRANBROOK

FULLER ACCOUNT OF MONDAY'S GLORIOUS VICTORY.

LETHBRIDGE PLAYED ALL THEY KNEW BUT LACKED COMBINE

(Special Correspondence) Cranbrook, June 18 .- The Cranbroo ickhandlers simply didn't do a thing to the Lethbridge boys this afternoon in the second of the pennant series of lacrosse games. Cranbrook recently de-feated Frank by the narrow margin of two goals to one. In today's game they won by a baker's dozen to one with the last goal disallowed by the referee, Bert Black, of Fernie. Big as the majority n favor of Cranbrook was, it gives no idea of the actual merits of the game. Lethbridge played well, very well, inleed, but they met better men, better training, better combination. In this latter particular they were lamentably deficient and failed, time and again, to bring off combinations that were as child's play to the Cranbrook lads. They were badly defeated. There is probably no greater living

authority on lacrosse than Billy Rollins, who on a memorable occasion played both goal and point for the Shamiocks in a terrible struggle against the Muskogee "Hell-Benders." Mr. Rollins was pleased to give his carefully delivered opinion that the victory might, without hyperbole, be described as a corker. That very succintly sums up the matter—it was a corker.

The following was the line up: Lethbride Cranbrook J. Miller goal..... Fras

McLeanpoint.. Clar MathesonCover..... Williamson 3rd..... Staples1st def..... O'Donne W. Miller 3rd home..... Cowan2nd...... Robso .1st..... Stewar DeBeck Skeit Pattonoutside..... Lethbridge and Jas. Bates for Cran

The game opened very quickly, fast exchanges and somewhat rough check ing being the main features. A combin d play shifted the attack from the Cranbrook to the Lethbridge end. Por teous shot across to DeBeck who scored number one for the home team. A minte after the same play by the sam players missed the net by inches. Rough play was then in evidence and Skeith, who was playing a hard game for Lethbridge, was sent to the fence for two minutes. Then Gow got hurt and found it necessary to retire for a few minutes He resumed after a short rest, and judg ing by the game he played subsequently the injury could not have been serious A strong seige was laid to the home one in which Betten and to the home goal in which Patton got a nasty cut of goal in which Fatton got a market of the check. Soon after Patton's hurt was attended to DeBeck caught from W. Miller who threw to Patton who scored. At the end of the first period of twenty minutes Mathews scored the third goal for Cranbrook. Thereafter the goal get-tice became almost monotonous. After

ting became almost monotonous. After the tenth goal had been driven home by Cowan for the home side, Gow shot Doctor Stewart who registered the only goal for Lethbridge. It was a pretty play. There was no hope for the visit-ors, however, and the game ended 13 to in favor of Cranbrook The game was quite largely attended 1 in favor of Cranbr

and the gate receipts must have beer more than respectable. The Cranbrook lacrosse club is in a winning vein, are fairly in the way of winning th pennant.

YMIR GOLD MINES Manager Hand's Cable and Mail Reports

to the London Directors In a circular to the shareholders the secretary states: The ore bins being not full it is necessary to start the mill and the manager cabled that this would be done on the 6th inst. Mr. Gilman Brown has again visited the mine and reports by cable that "1000 ft level raise has every appearance of becoming a good body of ore. The average height is 35 feet as as developed; have not yet developed along strike." Since the date of this cable 22 feet of drifting has been done east and west on the strike of the vein, the man ager in his last weekly cabled report stat ing that it is opening up a "fine boo ore." In a recent letter he states: body of Vein is certainly a very fine one, fully δ feet wide, and it may be much wider, as we are not breaking into the foot, and so do not know its width yet. The blast today noon made the ore body appear bet-ter than ever. It is safe to say that the ore from the raise that we have taken of and are now mining, will much more than pay for the cost of the raise." With ref-erence to the new vein, Gilman Brown cables as follows: "I have every hope the the result of the present work will be sat isfactory in the course of the next 30 days. this connection the latest advices from r. Hand report that rich pieces of floa have already been encountered in driv-be this crosscut, which convinces him hat there is a vein in the immediate vicin , carying good values. On the recom endation of Mr. Hand an option has been ared on some claims adjoining the Ymin group to the southwest the value of which e advised could be tested quickly and at mall cost. Gilman Brown cables with egard to these claims that the "prospects e decidedly encouraging." The ores can treated with great advantage at the mill, and if the developments con to show values equal to those al dy reported, the property should afford further important source of supply for npany's 80 stamp mill .- The Color d Mining News.

YMIR NEWS NOTES

Death of Andrew Burgen-Road Work Now Under Way-Hotel Changes (Special to The Daily News)

June 18-Andrew Burgen, aged 52; erday at the Ymir general hoswhere he had been for some time going treatment for a number of ns. The immediate cause of his was liver trouble. The deceased, as a native of Sweden, leaves a and family at Duluth. Last year he loyed by the Porto Rico Lumber any and the employees of the mill

P. J. Glearer is a delegate from Ymir Masonic lodge to the Masonic grand lodge at Victoria and during his absence con-stable Fraser will attend to his office of

will look after the burial of their lat

deputy mining recorder. Ernest Blanchard whose lease on the Northern hotel at Salmo, expired on Saturday, left last night for Pilot Bay where father and himself are running the ot Bay hotel. What liquors were left in the Northern hotel were purchased by the Japs, who held high jinks Saturday

evening at their camp. J. G. Dewar will be in charge of th work on the Second Relief road from th east fork to the Relief mine. So far thi season no government work has been don in this section. Manager Waldie of the Yellowstone and Queen mines has had force of men at work making the Yellow stone road passable and to date has ex pended \$1200. This road is a trunk road and not only benefits the Queen mine bu also many other properties such a Ore Hill, Kootenay Belle, Mother such as the Devlin's claims, and the government i certainly entitled to share in this wor as the mines mentioned are all shipped and contribute liberally to the governmen revenues.

Wm. Gray of Salmo, the purchaser from Gillies Bros., of St. Albert. Alta., of the Northern hotel at Salmo, is planning ex tensive improvements to his property. He will move the Salmo hotel beside the Northern and make a first class buildin out of the two.

OF INTEREST TO MINERS

This week is continued the article commenced last week on Iron. As we drew particular attention to the iro in last week's introduction, and have further mentioned the subject at the end of the mineral limonite in to day's issue we will not go further into the matter.

Attention should be drawn though t the correspondence notes, in the reply given to H. T. today that some delay has een caused by attention not being fully paid to the instructions so frequently given. In sending on samples for ex-amination the fullest possible particulars should be given, such as the district from which the sample came; th different wall rocks, and where any par ticular question is required to be an swered it should be directly asked, an not left in a vague sort of a way. Sho an assay be required the full amount of the fees must be forwarded with the sample, as The Daily News does not run an assay office, but simple places the samples for assaying with a competent assaver. If the foregoing instructions are fol-

lowed a prompt and .e.dy reply will b given to every communication received IRON

Native iron, magnetite and siderite having been given last week, under the chief minerals of this metal, we now come to the most important of the iron producing minerals HEMATITE. Hematite besides being the most important of the iron produc-ing ores, is the most abundant ore in ing ores, is the most addition of the internation of the international state of the international stat iron. It often contains titanium al magnesium as impurities, owing to which it gradually changes into ilmenite or titaniferous iron. Hematite has a metallic luster sometimes splendent, and often earthy. Its color varies from a dark steel gray to an iron black; when it is earthy its color is red. Its streak varies from a cherry red to a reddish varies from a cherry red to a reddism brown. It is usually opaque but when in very thin crystals it has a fine blood red color and is transparent. Its frac-ture is uneven. Occasionally hematite is slightly magnetic, due probably to a small amount of magnetite, or some par-tic description presitially decomposed pyrrhotite being pres-

ent. There are a number of separate varieatite characterized as follows: ties of hen Specular hematite or specular iron, with a lustre that is always metallic or splendent, from whence it obtains its name.

Micaceous hematite, when the structhis variety of specular iron is nearly always soft and greasy to the touch of

the fingers. Compact columnar hematite, or fibrous, is found in long radiatory masses has either a metallic or semi-metalli lustre, and a color varying from a red-brown to an iron black. This mineral is sometimes called red hematite, some imes kidney ore on account of its shape. Red ocher, otherwise called reddle to uddle, is hematite in its earthy form. It is red in color and has a similar colored streak. Usually it contains mor or less clay. Clay ironstone is a hard brownish Clay ironsone is a nematite; some black or reddish brown hematite; some times it has a semi-metallic luster but more often than not it is un-metallic more often than not it is un-metallic

It is a mixture of the oxide of iron with clay and sand, sometimes containing other impurities as well. Martite is another form of hematite sually occurring in 8 or 12 sided prisms In color it is iron black with a reddist brown streak. Usually it is slightly magnetic, and owing to this feature is

supposed to have been formed from the oxidization of magnetite. LIMONITE or brown hematite is very LIMONITE or brown hematite is very similar in many respects to ordinary hematite. The greatest difference being that it contains 14.5 per cent of water and only about 60 per cent iron when pure. It is one of the most abundant iron minerals found, and is often con-founded with hematite in some of its

forms, and can sometimes only be dis-tinguished from it by an analysis being made. It varies from hematite in the facts: that it is never found in a crystalline form; it has a brown color (of various shades); its streak is always a yellowish brown, it is never as hard; and upon being heated gives up its

Limonite is usually found massive or compact, having a fibrous structure, oc-casionally it is found earthy. It has a silky luster, often submetallic, though now and again it is dull and earthy.

THE WEEKLY NEWS, NELSON, B. C. SATURDAY, JUNE 23, 1906 19 12

Submetallic in luster. Ocherous or earthy, brownish yellow or boher-yellow, often impure from the presence of clay or sand, occasionally cose and finely powdered earthy varie-ies. Bog iron ore. An earthly brown-blac

hematite obtained from marshy often containing petrified wood, leaves Brown clay ironstone is similar in

composition to hematite clay ironstone (see above), from which it is distin-guished by its brown, instead of red, streak. The foregoing iron minerals are those from which practically all the iron of commerce is obtained. The sulphides of commerce is obtained. The singulars in iron to which we now come are impor-tant, not so much for the iron they con-tain, but on account of the sulphur, gold, silver, etc., that is present in them. In this province they are the chief sources of the gold in quartz mining, the iron is very useful for fluxing, and the sulphus for matting in smelting the various ores In other parts of the world these sul phides are used in the manufacture of sulphuric acid; the pyrites being burned and the sulphurous fumes being coled and the sulphurous fumes being col-lected and eventually turned into sul-phuric acid. Occasionally the resulting oxide of iron, obtained by this process is smelted for its iron contents. PYRITE or iron pyrites occurs both crystalline and massive, sometimes in fine graulations, and in many other forms and combinations. It has a pale forms and combinations. It has a pale brass yellow color with a greenish black or brownish black streak. Its luster is metallic from glistening to splendent. It is quite hard and will strike fire with

steel. It is brittle and has an uneve fracture. Nickel and cobalt often re-place part of the iron present in pyrite. Gold is frequently present in this min-erly, being distributed invisibly through Iron pyrites are distinguished from

copper pyrites by the greater hardness of this mineral, as it can be easily scratched with a knife. It is also paler In color than the copper mineral. Marcasite or cube iron is pyrite when it is crystallized in the form or cubes. It very rarely contains any gold or sil

PYRKnurlTE, or magnetic iron py rites like magnetite is a combination of ferrous and ferric iron salts, only in this instance the mineral is a sulphide of iron. Usually this mineral occurs ma iron. Usually this mineral occurs mas-sive, though occasionally it is found ery-stalline. It has an uneven fracture; is brittle, has a metallic luster. Its color varies from a bronze yellow to a cooper red, and it speedily tarnishes upon exposure to the atmosphere. Its streak is always a dark grayish black. It can readily be detected from other sulphides of iron and copper by its magnetic pro

cent. ARSENOPYRITE or arsenical pyrites

In British Columbia the mineral is one

I MeN Kaslo-The rock you sub for examination is ay srently an oxide of zinc; probably the orange yellow var-lety of zincite mentioned in these collety of zincite mentioned in these of umns a few weeks ago. Regarding your queries, we believe it is customary when a silver assay only is asked for to weigh any gold that is present in with the silver, the whole being returned as silver. Should gold and silver results be desired the two are separated. With re-gards to platinum or osmo-iridum they would be included in the gold values, unless a separate assay was paid for. The rare metals mentioned are found in such small quantities that no allowance would be made for them at the smelters, so the best way has been found to include them best way has been found to include them with the gold, or rather not to separate them out, leaving the latter to the re-finers to do. We believe the smelters are only allowed for them, if present at all, upon the basis of their being gold. Of course, should you find any apprec-iable quantity of either platinum or osmo-iridum in your ore a ready mar-ket can be obtained for one or both. W., Nelson-The small sample you sent us is apparently a hematite. This we find to be magnetic, which is prob-ably due to the fact that the original we find to be magnetic, which is prob-ably due to the fact that the original mineral was either a magnitic or a pyrrhotite and that decomposing has not proceeded far enough to eliminate all its proceeded far enough to eliminate all its magnetic properties. We believe that there is an appreciable amount of sul-phur present in the sample and that it will most likely be found to turn into pyrhotite when depth is gained. A. T., Ymir .- There are no tions of any tellurides present in your tions of any tellurides present in your No. 1 sample. No. 2 is a combination of zinc blende, pyrrhotite and galena in a blue quartz. No. 3 pyrrhotite (see to-day's article on this mineral). N. W., Kamloops-We have enquired into the matter shout which you write into the matter about which you write, and you will be written to personally about it. A. V., Moyle.—Asks for a definition of "slimes." Slimes is that portion of the

A. V., Moyle.—Asks for a dealmater of "slimes." Slimes is that portion of the crushed ore that mixed with water is so unpalpable (or fine) that it floats away. At times slimes contain quite a considerable amount of gold, sliver, and water. Limonite is usually found massive or compact, having a fibrous structure, oc-casionally it is found earthy. It has a silky luster, often submetallie, though now and again it is duil and earthy. Like hematite, limonite has several different varieties the chief of which are: Brown hematite which includes all the compact forms and are either silky or

SANDON IS LIVENING UP

RUTH MILL WILL SHORT !! I BE OPERATION. AGAIN. LAST CHANCE FUTURE PLANS TO

BE DECIDED THIS WEEK. (Special to The Daily News)

Sandon, June 19.-Mining mattern around Sandon are a god deal brighter than they were six weeks ago. Jame Cronin arrived in here a few days ago cronin arrived in here a few days ago and has made arrangements for work-ing the Eureka with a small force of five men. This promising property is on Sandon creek and opposite the Slocan Star, having the same ledge. It is own-ed by some of the same people who own the Centre Star and War Eagle of Rossland.

Powers pack train is now busy packing down three cars of high grade galena from the Red Fox to McGuigan siding. Messrs. Gething and Henderson have been working this all winter and have done fairly well. The Ruby Silver, an adjoining pro-perty, has also a car ready for ship-ment

The Ruth people are getting ready start up their mill at Sandon. They are shipping 400 tons of zinc ore, which has been at the mill for the past two

years to their zinc reduction works at Kaslo for magnetic treatment. The Hope, one of this company's properties, is also shipping three cars of good grade galena. They will work about 20 men. The Grey Copper is again working with a small force, Mr. Whittier, the with a small force, Mr. Whittier, the owner, is working about four men himself, and has leased one tunnel to three other parties. At Three Forks the Monitor is work-

ing loading ore for the company's mil at Rosebery, which should be ready to start soon. They have been delayed not being able to get amchinery. The Payne is working about 30 me

and running the mill two shifts. Walk-er Smith is also sinking the shaft in No. 8 tunnel. They recently shipped two cars of galena and 120 tons of zinc. The Batchelor lessees have just finish-ed shipping three cars of ore and are ed shipping three cars of ore and are still taking out ore, the upper work-ing looking well. The lower tunnel is being pushed ahead as fast as possible which will determine to a great extent the size of the ore chute. Mr. Petty the owner, arrived last week from Yakima. The meeting of the Last Chance com-pany will be held at the company's of-fice at Sandon this week when it will be decided what steps the company intend to take towards further development of the property.

There is quite a scarcity of good min-ers around Sandon just now. It was so quiet some months ago that they all left.

HUNTING VACANT LANDS OVER 40,000 ACRES ALONG THE K

& S. LINE. RESULT OF OLD LAND GRANT FOR CONSTRUCTION.

A situation is developing along the line of the Kaslo and Slocan railway that runs between Kaslo and Sandon that promises sensational developments be-fore the summer is over. The K. & S. road obtained a land grant from the provincial government of some 190,000 acres when the road was to be selected in alternate blocks along the mute covered by the line, but the read twists and turns so much over its short run that when the lands were are mapped out, they included pretty nearly for an apped out, they included pretty nearly (Special Correspondence)
Promising Mineral District Tributary to Cranbrook-Another "Beauty Spot" (Special Correspondence)
Cranbrook, June 18-Donald McKay, government road inspector, states that as soon as the waters of the St. Mary's river are low enough his men will put in the bridges on the east and north forks, which were low to the government, it is said, that part of their grant had already been taken up, and it was estimated that about 42,000 acres had either been pre-impted or staked as mineral lands. Apparently the company's statement was granted the company to make up for the lands so staked.
As is very well known many lands the route covered by the line, but the read twists and turns so much over its ed by the line, but the

As is very well known many lands originally pre-empted are dropped and revert to the crown and the same thing happens in the case of mineral lands

happens in the case of mineral lands which are not crown granted and which, when abandoned revert to the govern-ment. It is now stated that a large sec-tion of the 42,000 acres allowed out of the land grant to the K. & S. has been abandoned and, of course, is open to relocation or pre-emption as wild lands of the crown. The latest story from Sandon is that quite a number of per-sons are endeavoring to search out some of the lands in question and make appliof the lands in question and make application for them. Probably in the long run some good lands may be got hold f and a title to them finally perfected.

ROSSLAND SHIPMENTS

Will Materially Increase Before the End of the Year.

Rossland, June 16 .- The mines of the Rossland, June 16.—The mines of the camp have now well passed the 150,000 ton mark in the first five and a half months of the year. The mines are go-ing ahead steadily and producing at the rate of 6000 to 7000 tons a week. All of the larger mines have good sized reser-vies of ore in sight, and with several of the smaller mines as prospective ship-pers, the outlook is that there will be a material increase in the weekly shipmaterial increase in the weekly ship-ments before the end of the year.

ON CARPENTER CREEK.

The North Fork of Carpenter creek in receiving a god deal of attention from leasers, says the Sandon Mining Stand-ard. Kelso and Barbour are taking out some fine ore from the Jo Jo; George Clark is developing the McAllister group

Since little or nothing is known by out-siders of the mineral resources of this most exquisitely beautiful valley, it may be well to state that it abounds in gold-copper and galena ores. About 1884 there was something of a stampede into the St. Mary's country from the Pilot Bay local-ity. Not a few of the men who were then working in the Hendryx smelter at that place threy up their jobs and hiked over the pass to try for the mineral wealth, news of which the trappers, who up to that time had had the valley to them-selves, had brought out. One of the tales soncerned a huge copper showing near a stream they called Copper creek. Amongst others who took the adventure was Rose, who afterwards was hanged at Nelson for the murder of Cole at Nakusp. His name MAHARA MINSTRELS One of the novelites in minstrelsy this behaves an and the leading feature with the Mahara minstrels is the appearance in the first part of four handsomely costumed and y vocalists. The quartette of ladies are graduates of the famous Dunavin ministeal college where all high class col-ored musicians are educated. It is ack-nowledged that the singing features of this organization compare favroably with the finest operatic companies on the stage and surpasses in excellence of harmony all so called ministrel vocalists. It has al-to excel in the singing features and these ladies alded by 22 male volces in grand chorus certainly proves that the manage-ment has struck the key note of success. Mahara's challenge band and orchestra will give a street parade at noon Monday. MAHARA MINSTRELS who allerwards was hanged at Neison for the murder of Cole at Nakusp. His name is handed down to us in the name still given the pass over which he found his way to the then new finds. It is said that given the pass over which. It is said that he found the big copper showing of which such wonderful stories were told. For some reason he lost the locations which were staked by Sam Lovatt and others under the name of the Bracebridge group. What the value of the property is was nev-er demonstrated, though there can be no mistake that the showing on the surface is unusually large. The surface ore is frozen in a hard, dry schist, with no ap-pearance whatever of wall or contact. Had Rose got the drop on Lovatt as he once tried to, there is little doubt that he will give a street parade at noon

Pyrhotite in combination with copper pyrites or arsenical iron often contains gold and silver in appreciable quantities, viz., the Rossland district in B. C. with VIZ., the Hossiand district in B. C. with copper pyrites present; and the Porto Rico and Second Relief mines in the Nelson mining district where arsenical pyrites is in combination with it. Nickel and cohait are also frequently present in this mineral; the great nickel mines at Sudbury, Ontario, contain great quanti-ties of this mineral in which the nickel values present vary from 2 to 15 pe

Addition of the second second

of the most important gold bearing min-erals; in other parts it is an important ore for carrying cobalt and nickel as well as being one of the most important sources of arsenic known. CORRESPONDENCE

BATCHISLOR AND COLONIAL Sandon, June 16.—Work is progressing favorābly on the new tunnei at the Bat-chelor. Sixteen men are at work de-veloping and stoping out ore. A big body of ore has ben struck on the Colonial. The size of the vein as-sures another big shipping mine for Sandon in the near future.

MINE TO BE OPERATED

EUREKA-RICHMOND GROUP IN THE SLOCAN STARTS UP. SILVER LEAD PROPOSITION WILL

BE ACTIVELY DEVELOPED.

Another Slocan property, from which much is hoped for has started up work, and before very long some good news may be looked for as to discoveries

made. Manager James Cronin, of the Consoli-dated Mining & Smelting company, went up to Sandon on Friday last, got some men together and yesterday put a force men together and yesterday put a force of five men at work on the Eureka-Rich-mond group of claims near Sandon. The claims adjoin the holdings of the

of the Slocan Star people, and were for-merly owned by the War Eagle commerly owned by the war hagle com-pany, coming into the Consolidated com-pany at the time of the general trans-fer. Crown grants have been obtained on all the claims but up to the present

in all the claims but up to the present only exploratory work has been done. Now, regular development will be com-menced and continuously kept up, the present force being increased whenever necessary. Beyond saying that there were good showings on the claims and that the property was a silver-lead one, Mr. Cronin would promise nothing for the future. The claims lie in a good coun-try, however, and are reasonably certain to turn out well. Presumably the steady, good average prices for lead and silver, have induced the Consolidated company to commence operations in earnest. The question of shipments will be delayed until it is seen what development re-veals.

eals. Mr. Cronin was in the city yesterday and leaves for Moyle this morning to look over the St. Eugene. Incidentally the usually genial man-

Incidentally the usually genial man-ager was so angry yesterday that even his watch stopped, at least, that is the way he put it. After a good deal of coaring Mr. Cronin revealled the cause of his trouble, and it being wholly a matter of principle, he was sympathized with and a sacred promise given that his grievance would not appear in print, at all events at present, but it struck the reporter that in all human probab-ility "the other fellow" would require heaps of sympathy a little later.

RESOURCES OF ST. MARY'S VALLEY mising Mineral District Tributary to

years. There is a trail into the valley over the summit of the Furcell range at Rose's pass for those who wish to make this trip from the Crawford bay or Pilot Bay side, but and fallen timber. For practical purposes it is now nearly impassable and whatever parties have gone into the head of the valley since 1904, at any rate, have had to avail themselves of the route via Cran-brook and Marysville. Since little or nothing is known by out-siders of the mineral resources of this

<text><text><text><text><text>

anly rate, of the work now being done is to attract attention to a district which de-serves more notice than it has been re-ceiving for many years. The general for-mation seems to be a puzzle to some men who think they know all about mining and mineralogy. Schists and diorites are the prevalling country rocks. Those who say that ore cannot live in schist can here find a thousand examples to the contrary. The ore is in the schist, usually in a quartz gangue, but they argue that it will not The ore is in the schist, usually in a quartz gangue, but they argue that it will not continue at depth, though no one has got what could be called depth on any of the claims there. Gold-copper ore, much like that in the Rossland camp. Is the most common mineral found, though there are several fine showings of galena. In one place it occurs right beside the copper pyrite.

pyrite. In point of scenery the writer can safely say that nothing he has seen in British Columbia can be compared with the beau-ties of the upper part of the St. Mary's

FERNIE WILL CELEBRATE DOMINION DAY FESTIVITIES AT

THE COAL CITY.

INSPECTION OF THE KOOTENAY RIFLES BY LORD AYLMER

General to The Daily News) General to The Daily News) Fornie, June 20.—Arrangements have been completed for the grand Dominion hay celebration under the auspices of and if the weather conditions are at all favorable the affair will be one of the favorable the affair will be one of the tempted here. The recreation grounds are undoubti-and are now in perfect condition for the long program of sports and amusements

and are now in perfect condition for the long program of sports and anusement.a 'prepared for the occasion, while the per-sonnel of the committee in charge is in itself a sufficient guarantee that 'nothing will be left undone that could add to the enjoyment and comfort of-those in attendance.

nothing will be left undone that could add to the enjoyment and comfort of-those in attendance. The citizens of Fernie are apparently determined not to be behind other towns in the Kootenayys in the matter of manly sports, and the new gun club is the lat-est aggregation of enthusiastic, sports-men who will endeavor to maintain the reputation of the coal town. They have secured conveniently situated grounds on Peliatt avenue, and will hold their first shoot on Saturday June 23. The club already has a membership of 35 and have entered the competition for the Dominion Cartridge company's medal. The following is the list of officers: Hon, president, G. G. S. Lindsey, K. C.; president, E. Wrigglesworth; vice-president, J. S. T. Alexander; secretary-treasurer, A. Klauer; field captain, Geo. L. Pearson; committee, J. B. Twiney, L. Atkinson, J. Carrick, J. T. Spalding. That the military are popular in Fer-nie was evidenced by the large crowds that turned out last evening to view the inspection of Nos. 4 and 2 companies of the Kootenay Rifles on the recreation grounds.

the Kootenay Rifles on the recreation grounds. Inspector general lord Aylmer, accom-panied by colonel J. G. Holmes, D.O.C., and majon Eaton, A.D.C., arrived on the C. P. R. express at 6.30 pm from Cranbrook, and at 8 o'clock inspected the local companies. The weather was all that could be desired and the men, who were in review order, presented a smart and soldierly appearance and turned out in full force. Upon the ar-rival of lord Aylmer spon the parade

rival of lord Aylmer upon the p grounds he was received with the and a ne was received with the eral salute, and he then proc arefully inspect the men, their accourtements, after which the ding officer, captain McEvoy, pu rill and ba all lion in attack, drift and patterion in attack, all of which evolutions were performed most creditably. Upon the conclusion of the inspection lord Ayimer addressed the officens and men, congratulating them upon the large parade size, the fine physique and tidiness of the men, the with which they ed the different movements and ca-sed his surprise and pleasure at the

ed in so short a time and co remarks by saying how pleased he to obsreve the number of medals decorations worn by members of the l talion. The parade slate was as follow No. 1 compared to the state was as follow

decorations worn by many was as follows: No. 1 company—Four officers, 39 non-commissioned officers and men. No. 2 company—Two officers and 37 non-com. officers and men. After the return of the companies to the armories, lord Aylmer and staff, and the officers of the hattalion were en-tertained by captain and Mrs. McEvoy at their beautiful residence in the park. Sergeani-major Varty, the efficient drill instructor of the Kootenay Riffes, was the proud wearer of no less than seven medals, having served with the British forces in several campaigns. A quiet wedding took place in the Baptist church on Monday evening at 7.30 when Mr. H. T. Manley, engineer in charge at the Coal Creek mines, was united in marriage to Miss Kate A. Wilson, of Fernis. Rev Mr. Kempton performed the ceremony. A reception

performed the ceremony. A rec was afterwards held at the home o and Mrs. Kimpton. Mr. and Mrs. the same evening for Seattle and coast cities. On their return they will reside in Fernie.

SCHOOL TRUSTEES MEET.

Conditions Upon Which Non-Residents Can Attend City Schools. A special meeting of the board of school trustees was held hast evening in the office of Dr. Arthur. After a lengthy discussion it was de-In the office of Dr. Artun. After a lengthy discussion it was de-cided to allow pupils residing outside the city limits to attend the city schools on payment of a fee equal to the cost fer pupil to the city. The matter of accommodation was thoroughly thrashed out and was finally laid over to be taken up again at the August meeting.

August meeting. Forty-two new pupils will enter the public schools in August according to the reports from the teachers and trus-

tees. Dr. Arthur reported that 21 property holders in Addition A. had given him a petition which they desired forwarded to the education department asking for a grant for a school of their own or a grant to the city of Nelson to permit their children to attend the city schools. Those present last evening were chair-man Emory, Dr. Hall, Dr. Arthur, F. W. Swannell and principal A. Sullivan of the public schools.

FOOL'S FATAL FOLLY

FOOL'S FALLE FORM Philadelphia, June 20-The careleansess of one man in stepping on the side of a launch in which there was a party of six and tipping it until the boat capsized, re-sulted in the drowning of four men late this afternoon in the Delaware river, near here. The other occupants of the boat narrowly escaped death.

THE WEEKLY NEWS, NELSON. SATURDAY, B.C. JUNE 23, 1906

our typical figures, while the Go of Liberty, and the Puritan maid, roup admirably. As the various As the various nationalities came in furn upon the stage after the march was over, their reception by the audience was hearty in each case; Canada and Scot-hand, the latter headed by piper Gunn, were very warmly greeted, but it was to the Irish ladies that the crowd paid their chief homage, while the Japanese maidens, with their tripping little steps, pleased the fancy of the majority. It was a brave show, all of it, from start to finish, and made a spectacle to be remembered lo-cally for all time. After the children had gone yery grace-fully through their flower drill, finding much favor with the gudience, there was a pause in the program whilst "Ici on Parle Francais" was produced in the annex theatre with the following caste: Mr. Spriggins, J. M. Eaves; major Re-guins Rattan, F. D. Arundei; Victor Du-bols, H. S. Bodmer; Mrs. Spriggins, Mrs. Colin Cummins; Anbelina, Miss Elena Fernau; Mrs. Regulus Rattan, Miss Elena

Fernau; Anna Maria, maid of all work

Fernau; Ans. Reguns latita, mail of all work, Miss Beatrice Skinner. As on the previous night the theatre was jammed to the doors, many being unable to get in, and in consequence by special request last night's dramatic performance will be given this afternoon at 5 o'clock. The remainder of the stage program was then run off in fairly good time. There were selections from the band, songs by Miss Hanson in Swedish costume, Mr. Messellin and Mr. Crawford; and Mr. Ar-undel sang "By the Shores of the Medi-terranean," ably assisted by a chorus in costume. The popular sextette from Flora-dora was splendidly rendered and an en-core insisted on, the artists being Mrs. Melville Parry and the Misses B Skinner, C. Blakemore, N. Annable, I. Hanson, G. Blakemore and Messrs Arundel, Craw-ford, Gillum, Johnstone, Benedict and Walker.

Walker. The French minuet again most artisti The French minute again most attain cally danced, and the crowning piece of the evening, the tambourine dance, led by Mrs. Melville Parry, and assisted by a cos-tumed chorus, completed the most excellent program. All the booths did a rearing business

during the evening and in many cases special lines were sold out early in the night. At the Turkish booth in addition to the ladies mentioned yesterday. Miss Thompson, daughter of the late sir John Thompson, former prime minister of Can-ada, and a sister of Mrs. Wragge of this ada, and a sister of any wrage of the city, formed one of the very interesting oriental group in costume. Among the prizes won yesterday at Ye Village Shope, in the English booth, were order for dozen photographs, J. Blomberg; sack flour, Miss Robertson; layer cake, Dr. Jam Can; half a ton of coal, N: Oliver

Dr. Jam Can; naif a ton of coal, N: Onver. The Highland dolls at the Scotch booth were won by Mrs. William Waldle. No dinner will be served today at the Irish booth. Instances of peculiarly lucky and entirely applicable drawings at the various lot-teries yesterday were numerous. Eli Sut-cliffe won a safety razor and two well known local physicians each won a cake known local physicians each won a cak

known local physicians each won't cake of soft soap. "Dearest Mamma" will be presented at the theatre in the annex at 5 o'clock this afternoon and at 3:30 this evening as well. Kirmess will be open this afternoon from 3 o'clock until the close of the evening performance. Everyone will go tonight to see the last of it all. It will be at its best. The followed The following program

punctually: \$:00 p.m.-Grand march. \$:15 p.m.-Band. \$:25 p.m.-Flower drill; band.

8:25 p.m.-Flower drill; band. 8:25 p.m.-Flower drill; band. 8:35 p.m.-Soctch dance. 9:20 p.m.-Sextette from Floradora 9:20 p.m.-Song, selected, Mr. Mason 9:30 p.m.-Song, selected, Mr. Arundel. 9:35 p.m.-French minuet. 10:15 p.m.-Tambourine dance; song, Mrs Melville Parry, assisted by chorus. The hardest worker in an army of indus trious people, has been Mrs. McCulloch who is mainly responsible for organizing and carrying to such a successful issue an and carrying to such a successful issue a entertainment that has never been equalled in Nelson. Words fail to describe the lady's energy and tireless work and praise of her was in everybody's mouth

COUNTY COURT SITTINGS

Small List of Cases For Monday-Applicants for Naturalization. A session of the county court will be held Monday morning by his honor judge Forin. There are few cases on the list to be disposed of. There will be no jury trials this sittings. The list includes: adjourned cases, Joseph Genelle vs. Bella Devlin: new cases. W. B. Clayton vs. F. L. Buggins, \$50; Andrew Sostead vs. McLeod Mining Syndicate, \$904; John W. Gibson vs. Can adian Matal company, a disputed wage account for \$128.50, part of which has now been paid into court, the defendants contesting the balance; Wilson, White-ity & Co. vs. C. P. R., \$125, for the kill-ing of a horse. There are six applicants for naturali-ticizens. Applicants are: T. G. Proter, M. R. McQuarrie and A. H. Tuttle, Unit-ed States citizens; C. Angotti and M. Capriglione, Italians, and F. J. Jansen, a Dane. A session of the county court will

together and in the latter fresh eggs and chickens dressed up in Welsh style, are obtainable, while at the side of the Engobtainable, while at the side of the Eng-lish booth, "Aunt Sally" and other old English pastimes can be indulged in. The Old Village Store forms part of the booth add a rushing business was done yester-lay in flowers and toothsome sweets. Those in charge are: English, Mesdames Cum-mins, Davys, Applewhaite, Goepel, Ren-wick, Astley and Kelly; Misses Broadwood; Welsh Masdames Cummins Heathcole Weish, Mesdames Cummins, Heathcote, Lennie, Misses Gigot, Renwick and Cum-mins; Village Shop, Mesdames Buchan.

Cummins, Misses Fernau, Wood-Taylor. The Scotch booth was frantically Scotch, bewildering to an innocent Canadian re-perter who visited the spot yesterday af-ternoon. Naturally the kirk was repre-sented, but the bagpipes were in evidence too. and you could buy heather or butter Scotch with, equal ease. Scones, short-bread and a host of Scotch "makeups" found a ready sale. The booth is taken care of by Mesdames Ferguson, Robertson, Misses Whitney, Campbell and McCand-lish. A real Irish shanty with everything in

keeping, including three little pigs, is on view at the Irish booth in the northwest corner of the hall, and an Irish dinner was served to many guests at a long table set first of the dances came on, the sex- in the hall in front of the booth. Real

WEEK'S Changes at Greenwood Smelter Account for **Reduced Tonnage**

When Improvements Underway are Completed Boundary's Output Will be Largely Increased

The most interesting mining news during the week just over, came from the Boundary country, where unusual

the Boundary country, where unusual activity is evident. For the first time this year the Brit-ish Columbia Copper company does not appear in the shipping list or in the smelter receipts for the week, but this is owing entirely to the closing down of the company's smelter at Greenwood pre-paratory to greatly enlarging the plant, the work on which has already com-menced and will be rushed to comple-tion probably within the next three months, when the shipments for the bal-ance of the year will easily more than make up for the present silent period. Development work at the company's mines is being continued vigorously meanwhile, and there will be no decrease in the payroll pending the improvements and enlargements.

and enlargements. The railway construction work in the Boundary has created a labor shortage, it being impossible to get sufficient men to do the work called for, and both mines and smalters in the district feel the

to do the work called for, and both mines and smellers in the district feel the scarcity of labor, as well as the rail-road contractors. Efforts are being made to obtain men from outside sources, and if these are successful the labor situa-tion will settle itself guickly. A New York syndicate has taken a bond on some 20 well known properties, including the Marshal, Monte and Forty groups, all located just to the north of Phoenix and adjoining the properties owned and worked by the Dominion Cop-per company and the Granby Consoli-dated. J. L. Martin, of Phoenix, who nego-

The municipal estimates for the year 1966, as presented at the last meeting of the council were \$56,082.50. Mayor Frank Hutton is energetically maying in the metter of having the govy moving in the matter of having moving in the matter of naving the gov-ernment extend the wagon road from its present terminus to upper Franklin town-site, a further distance of two miles. It is estimated that the further extension will cost aproximately \$5000. It has been learned that the government will likely entertain mayor Hutton's proposition.

days, June 23 and 30, and July 7 and 14. H. T. Rainbow of Kimberley was in the city last night on his way home from at-tending the W.F. of M.'s 14th convention in Denver, to which he was a delegate. Ernest Mills of Grand Forks was re-elected on the executive from B.C. and P. R. Macdonald mayor of Rossland, was elect-ed a delegate to attend the convention of the industrial Workers of the World, of which the W.F. of M. is now the min-ing department, at Chicago next fall. The Denver convention was wholly in sympathy with Moyer, Haywood and Petibone, whose inoceance of the crimes charged to them, they are fully persuaded. The convention which lasted 16 days, was harmonious throughout all its deltherations and proved a highly successful gathering. 'QUAKES IN CUBA

QUAKES IN CUBA

Santiago, Cuba, June 22 — Two earth-quake shocks, half an hour apart, the first occurring at 2 o'clock this morning, slight-ly damaged bulldings in this city and smashed crockery and drug stocks. Sev-eral persons were slightly injured by fall-ing articles. The first shock lasted 15 seconds and the second was shorter though
