

# Closure Tentative; May Work Out Well Claims Dean Bailey

## KENNEDY ALSO PULITZER-PRIZE WINNING AUTHOR

The story circulating the campus that the library stacks would be closed to students in the evenings was confirmed by Doctor Bailey, Dean of Arts. In an interview with Doctor Bailey on Friday afternoon, it was revealed that this step on the part of the university authorities came as a measure to cut down the ever increasing amount of book thefts in the library. Dr. Bailey also pointed out that this preventive measure was merely a temporary one, and various systems would be tried in an effort to remedy the situation.

The question of the closing of the university library stacks was also raised at the last SRC meeting, and acting president Bill Ray said that he would ap-

proach President Mackay on behalf of the SRC. President Mackay gave the same reason as Doctor Bailey for the early closing of the stacks. Doctor Mackay also pointed out that the University of New Brunswick was the only university in Canada that still used the system of open stacks. The Brunswickan was given to understand that the SRC and the university authorities were still attempting a system satisfactory to both parties.

In the interview with Doctor Bailey, it was pointed out to the Brunswickan that a number of systems used in other libraries would be tried at the University of New Brunswick. The first of these is to be a system of stack runners. This is a very popular

system and employed in many other Canadian universities. It was pointed out that this would be done in the nature of an experiment, and that such a system would not necessarily be permanent.

The exact number of books missing was not disclosed since as was pointed out, a search for the books takes a considerable amount of time. Doctor Bailey also pointed out that a search for the books would be expensive to the university, since additional library personnel would have to be engaged. The unfortunate part of the book thefts is also that some of the books may have been old editions that are difficult to replace, and in

(Continued on page 3, col 3)

FREDERICTON—A Pulitzer-Prize winner author and hero of the Second World War arrived in Fredericton Monday to accept an honorary degree from New Brunswick's provincial university.

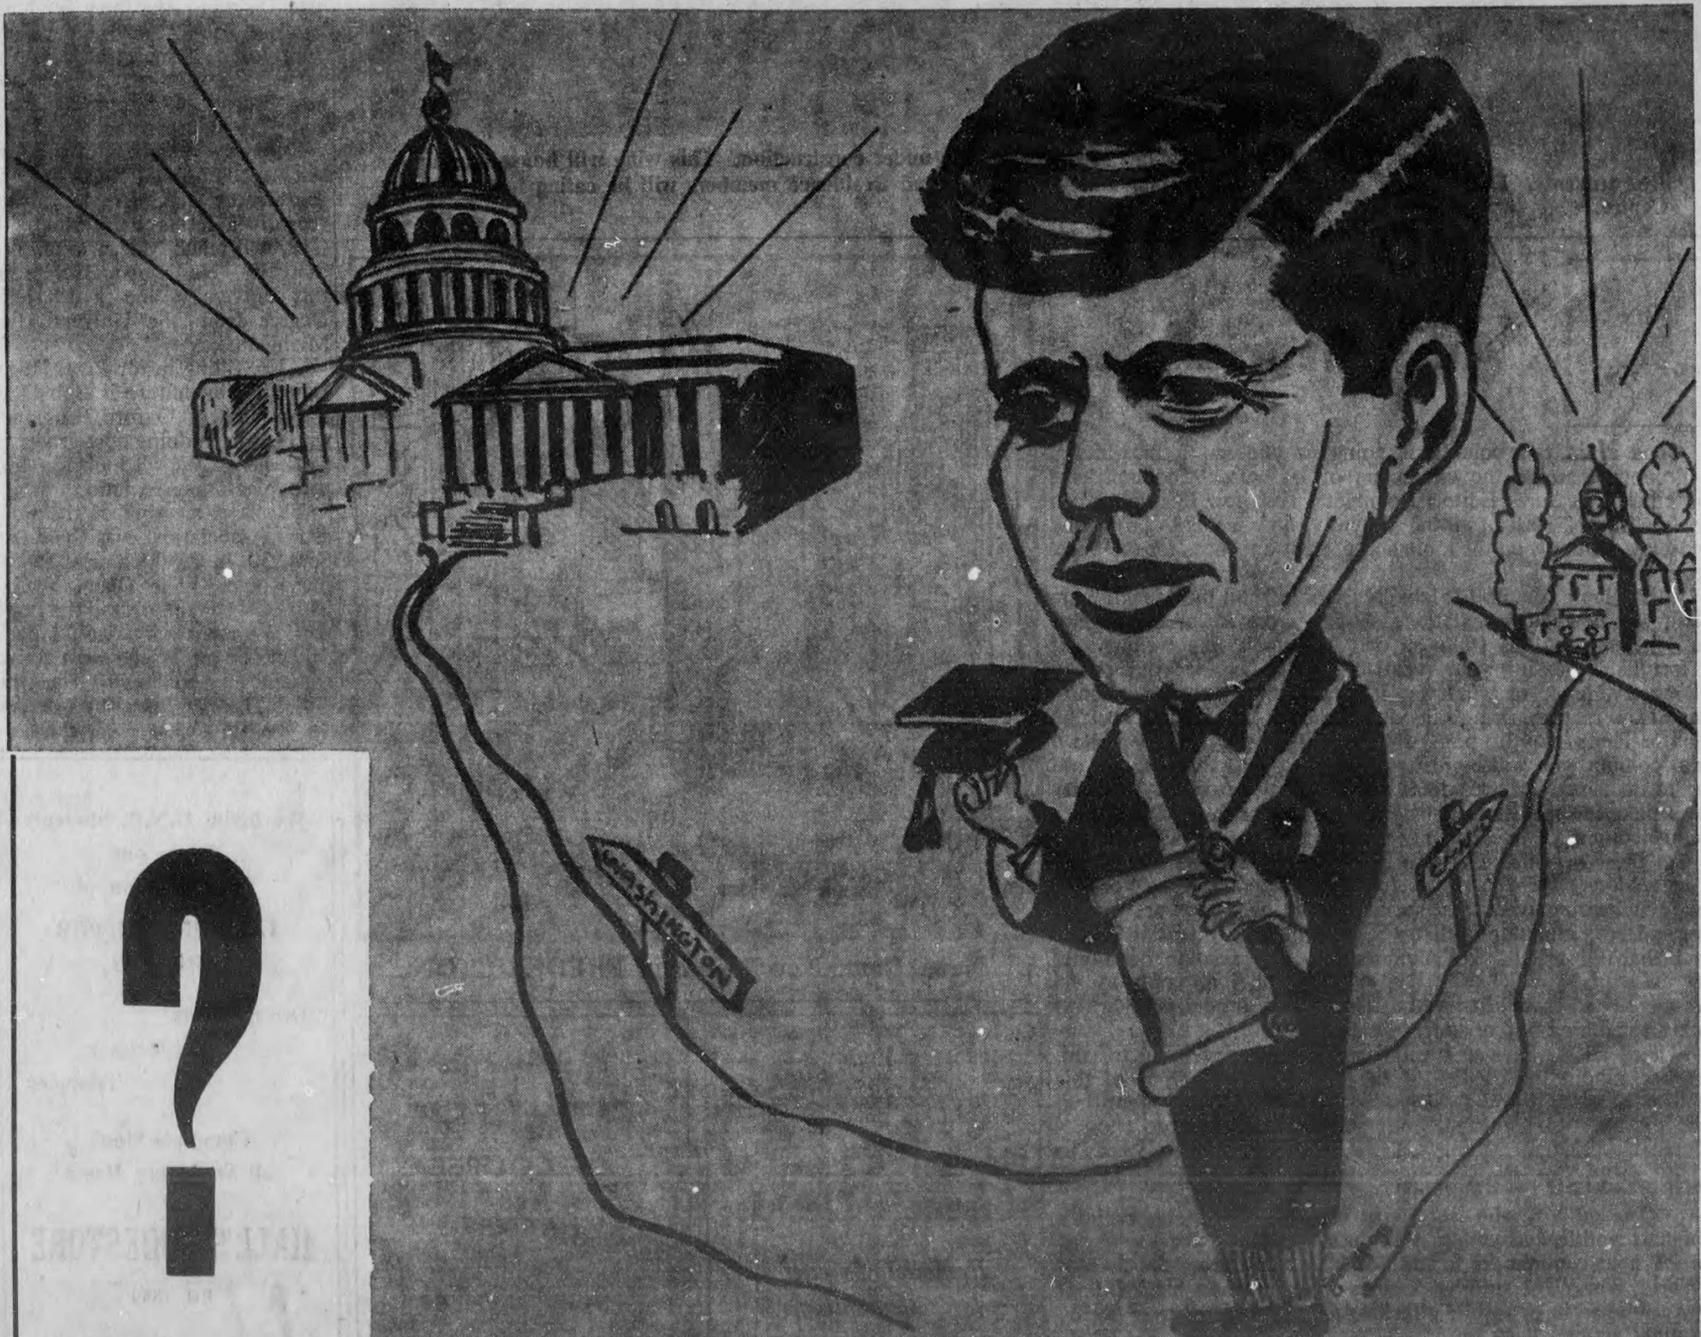

The Honourable John F. Kennedy, United States Senator from Massachusetts, who receives the Doctor of Laws degree at the University of New Brunswick's Convocation here Tuesday, received the coveted award for his book *Profiles in Courage* — the "outstanding work in the field of biography" in 1956.

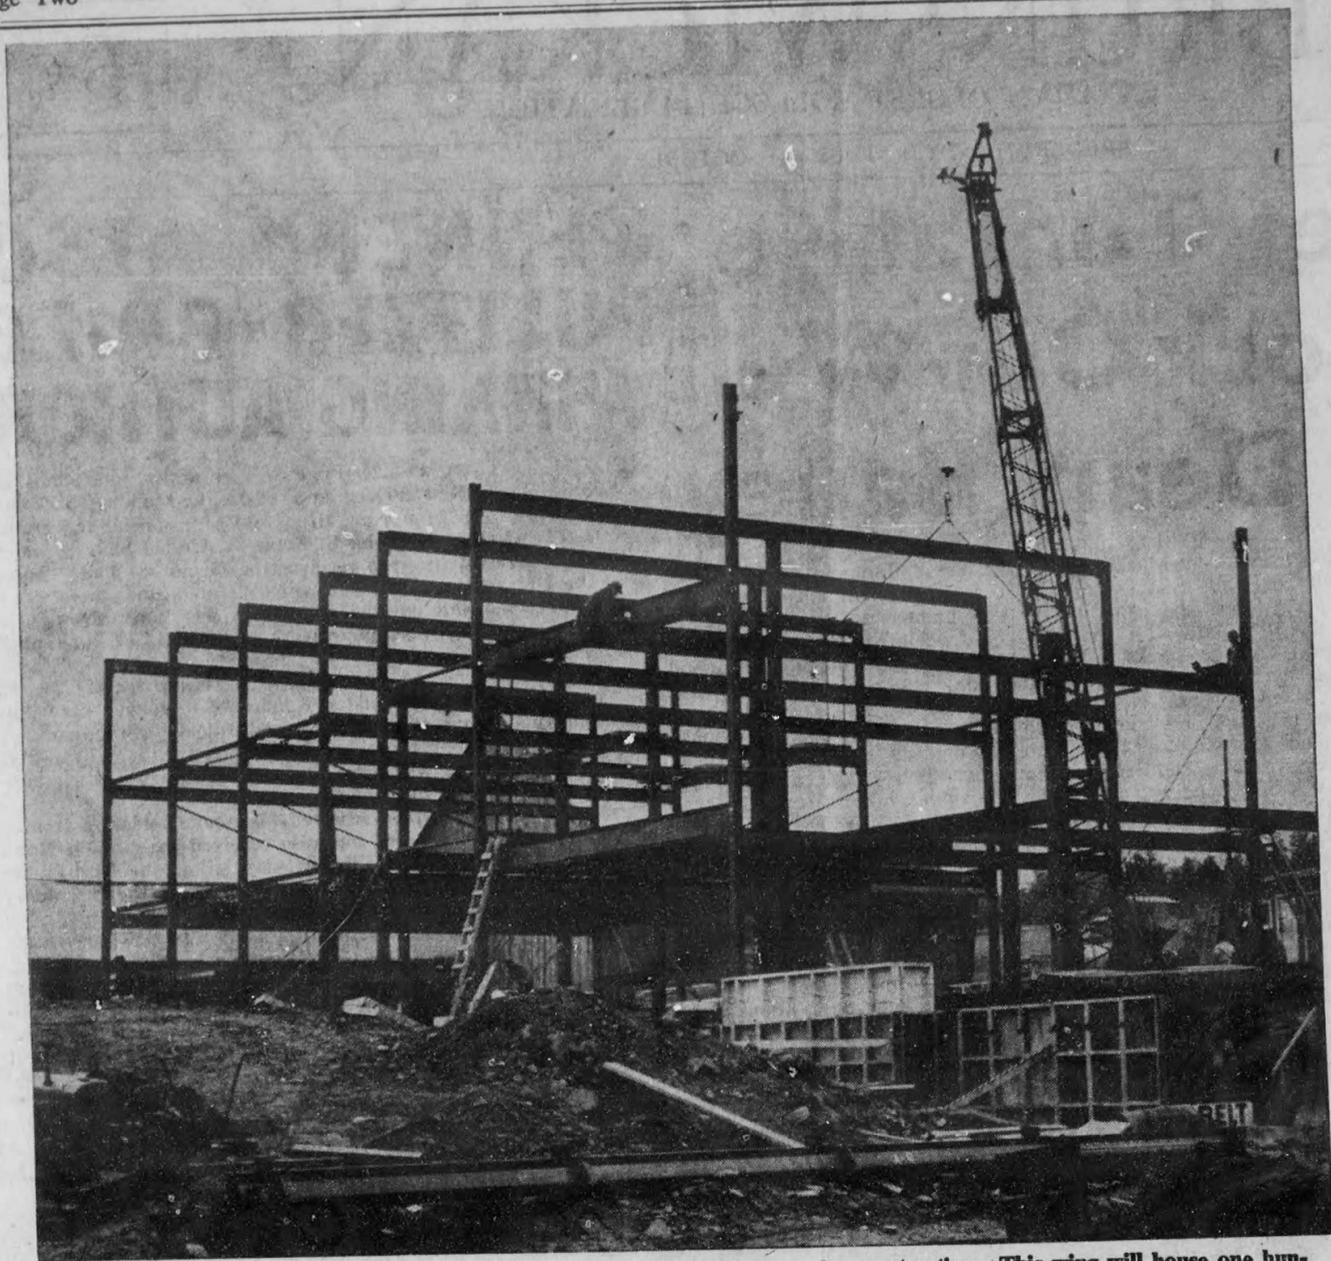

The book, which has been on the best-seller list for over a year, was written during Senator Kennedy's prolonged convalescence following an operation in 1954, and it deals with the courage of elected government representatives who pit their own best judgement against the wishes of their own colleagues, their constituents, or the weight of public opinion.

*Profiles in Courage* received high commendation from a wide variety of reviewers, and also received the Notable Book Award of the American Library Association, the Christopher Book Award for 1956, the Book Award of the Secondary Education Board, and other literary honours.

Of the book, one prominent critic said: "In these days, any study of political independence and courage is to be welcomed. But that a United States Senator, a young man of independent means with a gallant and thoughtful background, should have produced this study is as remarkable as it is helpful. It is a splendid flag that Senator Kennedy has nailed to his mast. May he keep it there."

**NEW HOME** - First of four blocks of the New Men's Residence under construction. This wing will house one hundred students. Dining facilities will not be completed for some time and Residence members will be eating in the Student Centre.

## SLABS 'N EDGINGS

by SAUNDERS & McDOUGALL

This year "Slabs & Edgings" is under dual authorship. This arrangement, we hope, will improve the material in the column. (If it doesn't, each of us is at least assured of one friend on the campus.) Our aim is to write a column that will interest the campus in general and the faculty of forestry in particular.

Peaceful Fredericton is peaceful no longer. The students, those of us who survived the exams, and the train trip in from the Junction, are back. Some even managed to register on time, despite the university calendar.

Some changes are evident around the town. It appears that the "Narrow Bridge to Devon", (of Red 'n Black, '57, fame) will before long have some help in its old age. A modern bridge is under construction. It will carry the Trans-Canada Highway. It is possible that future freshmen will come to know many intimate details about this structure, particularly such information as its length in weiners, and suchlike. Hopefully, this new bridge will reach the other side before our swaying patriarch falls into the river.

It's gratifying to welcome so large a class of freshmen foresters, particularly when they have already shown their interest in forestry affairs through their attendance at the first meeting of the Forestry Association. This year the representation of foresters among the new students has risen from 12 to 14 per cent, with some 40 new faces in the ranks. In addition, at least one new European country, namely Italy, was represented.

Two new members of the forestry teaching staff also deserve a welcome. A. L. van Slyke, recently a research forester with CIP, will teach Mensuration and Statistics. He holds a BScF from this university and a Master's Degree from the University of Michigan.

Also, filling in for Prof. H. D. Long in Silviculture is Bob Day, a graduate of Oxford, England, who has been doing post-graduate work here. We all look forward to a pleasant association.

The first meeting of the Forestry Association was held on Sept. 30, in the Memorial Reading Room. The Dean, Dr. J. Miles Gibson, expressed the hope that the association would continue to be one of the most active student organizations Up the Hill. The new executive, under

## An Editorial . . .

Once again this column is going to undergo a face-lifting. It will now combine the characters of last week's column plus some kind of Features Editorial content. Just how this will affect it nobody knows, least of all us. Anyway, now seems to be a good time to lay our cards on the table and present our ideas for the page.

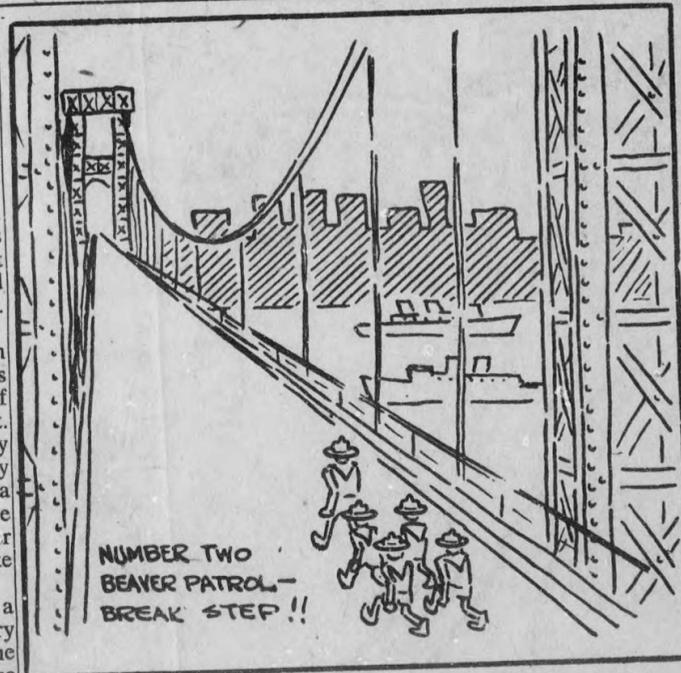

This column, the new "Slabs 'N Edgings" and the Maggie Jean column will be regular insertions. Apart from them, the page is open for contributions from anyone who feels like writing. If you feel like releasing your creative talents, here is your outlet. Be it poetry, prose or whatever, if it will divert, amuse or edify Brunswickan readers, bring it along. The dead-line for the Tuesday edition is Thursday 6:00 p.m. Incidentally, if you wish to write a regular column, you will be just as welcome. One thing, if you are going to do a regular one, don't make it too "insular". In other words, make it appeal to as many people as possible. Don't write a faculty column of interest only to that faculty.

For those organizations who have "weeks" the following are a few suggestions which may be helpful. In your week — Forestry Week, Engineering Week and so on — this page is yours for the asking. All we stipulate is that we know of your intention to use it and that all articles be submitted by the regular dead-line, typewritten, 66 spaces to the line. This applies not only to the above-mentioned faculty weeks but also to any organization which is doing something out of the ordinary.

That's all we have to say this week. The rest is up to you. Don't beef about the quality of the paper in general or of this page in particular; if you think you can make it more interesting, do so.

### KENNEDY ALSO — Continued

The author, who has had a meteoric rise to his nation's highest political assembly, was decorated twice for service as a PT boat commander in the South Pacific during the Second World War. He suffered serious injuries when his PT boat was rammed in two while attacking a Japanese destroyer during a night action.

**THANKS!**

Fredericton, N.B.  
September 30, 1957.

Mr. Ian Collins,  
World University Service,  
University of New Brunswick.  
Dear Mr. Collins:  
The Hungarian students wish me to convey to the World University Service our sincere thanks for the assistance which has been given us at the University of New Brunswick.  
Would you also please convey by way of the students representative council our thanks to the student body of the university from whom we understand, the appreciated assistance originated. We shall hope to justify your generosity by becoming worthwhile members of the student body.

Yours very truly,  
Aurel Venzsel.

**No Nite Books Now**

It has come to our attention that students will be unable to borrow books from the library in the evenings. It appears that books are being stolen from the stacks and in an effort to combat this, the administration has forbidden use of the stacks in the evening.

It is deplorable that there are students among us who stoop to stealing books. It is all the more deplorable that their nefarious activities should result in a blanket "verboten" for all of us.

We are sure that the university can come to a more equitable solution. A college library plays an important part in student life. We cannot afford to be without its facilities.

UNB has employed a very liberal policy as regards use of the library. In other universities, students are not allowed in the stacks. Perhaps such a policy should be instituted here. Indeed, if the university persists in their present policy some arrangements of this nature will have to be made. University authorities should make allowance for the employment of more helpers in the library who will get the books for students.

We suggest that some action be taken on this as soon as possible.

**LET'S GROW UP**

Those responsible for the Student Centre have been showing concern in late days about abuse of the facilities. Cigarets, ashes, papers and bottles have been left strewn around in the lounge. Careless students leave footmarks and stains on the furniture and floor. To quote a sage: "Where were they born . . . in a barn?"

The Memorial Students centre was the gift of the Associated Alumni to the students of UNB. No one will admit that it is not a popular place. In order to continue enjoying these facilities we will have to treat them with the care we would exercise in our own homes.

We hope that Jack Murray, Manager of the Student Centre and Secretary of the Associated Alumni takes severe action if any culprits are caught. They roundly deserve it. If we learn of any person who has been caught destroying property, we will take great care to make his name widely known.

**We Have Our Part Too**

Students are feeling the squeeze this year. Faculties, already overcrowded last year, are absolutely congested now. The timetable, which we understand caused quite a bit of trouble this year, is somewhat of a mess. In fact a number of students we know are using the timetable as a basis for their courses and not their interest.

All this is quite uncomfortable, but completely understandable. The university is coping with the largest enrolment in history. The ambitious building program is a help, but it too will be out of date in a couple of years.

All we would ask students to do is be patient. The university is doing all they can and we should do all in our power to cooperate.

**HATS OFF**

Bill Goodfellow, started immediate preparations for forestry week, appointing Bill Collins to head the committee. It was decided to manage the refreshment concession on the Mount Allison train this year.

The UNB intercollegiate men's golf team will travel to Sackville to compete in the Maritime Intercollegiate Golf Tournament on Monday, Oct. 14.

**farewell, freshman**

CUP—President Smith has left us to become a freshman among the world's national spokesmen. His appointment as Secretary of State for External Affairs climaxes a career which began on a Cape Breton Island farm 60 years ago.

Dr. Smith should prove a credit to Canada in his new job. He has served his country well during more than 30 years in education.

He fought for quality and opposed mass education in our universities. He squeezed cash from governments as universities strived to meet demands placed on them by progressive society. He became Canadian education's leading figure.

His appointment is an honor for the University. Many are sad that he must leave.

Dr. Smith dealt with the influx of veterans during the post-war years and the desperate need for more room. Last year he boosted faculty salaries. During 12 years as president he tightened academic standards at the university.

During his last year the University expanded its land to Spadina Ave. and began planning for an enrolment of up to 25,000 students.

Now Dr. Smith leaves us to ourselves. It was time for him to go. His promotion leaves the way open for a president young enough to stay with the University while it grows to a giant.

Goodbye, Sid: good luck in Ottawa. You led us well, but we're glad to see you move aside.

—Toronto Varsity

**CLOSURE TENTATIVE —**

Continued

some cases impossible to replace. Much work and expense also goes into the tracing of the editions and it is sometimes two to three years before the books can be found, if they can be found at all.

The system of stacks runners that is to be used is a very effective one. The student seeking a particular book goes to the catalogue and records the book he desires on provided forms. This is then taken to the desk and the runner is dispatched into the stacks. The book is brought out and signed out by the student. Since this system is merely an experiment, there is no set date as to how long the system will be in operation. However, it is hoped that it will be satisfactory and the number of books thefts can be cut to a minimum.

# RED BOMBERS TAKE TOMMIES 32-7

## UNB SOCCER SQUAD VICTORIOUS

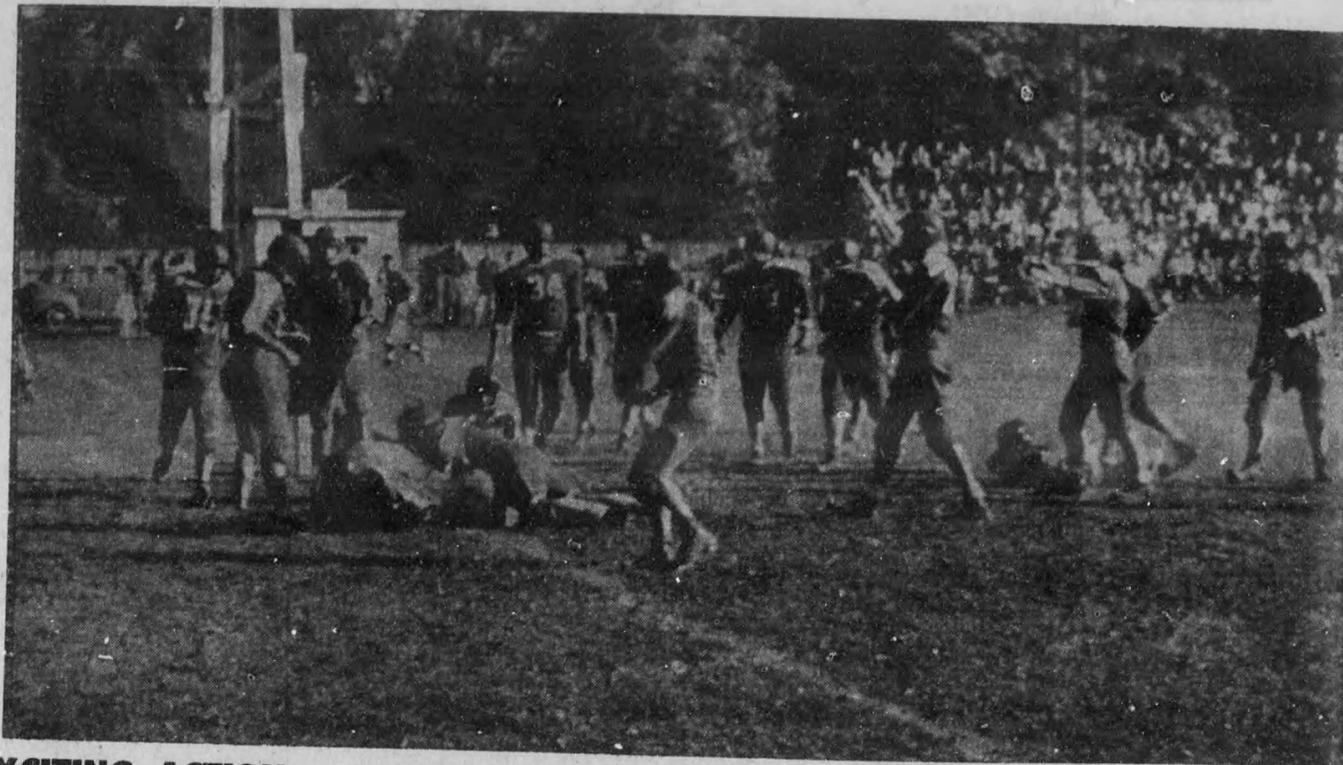

The U.N.B. Varsity soccer team opened the season at Moncton Kiwanis Park last Saturday by downing Moncton Rovers 6-2 in the quarter final round for the Sumner Trophy, emblematic of N.B. Senior Soccer.

This is the first season U.N.B. has entered in this competition. For many seasons they have been playing the winners in this competition, beating them and getting no recognition for it. The other teams in contention for the trophy are: Moncton Rovers, Moncton Albions, Saint John Drydock, Minto and Mount Allison. In other games Saturday, Mt A. was defeated in Minto by a score of 3-2 and in the game between Moncton Albions and Saint John Drydock no result is available. The winner of the Drydock-Albion contest will meet U.N.B. in the second round next Saturday. Minto gets a bye into the finals.

In the U.N.B.-Rovers game the scoring got underway very rapidly as Stan McGrath kicked in a rebound from a corner kick at about the two minute mark of the first half. It took U.N.B. quite a while to even the score. They outplayed Moncton by a wide margin and missed many sure goals by just a few inches. With the half drawing rapidly to a close, Mike Fulop, one of the new Hungarian students "up the hill" this year, evened it up. Shortly after, Dave Cooke made it 2-1.

In the second half Dave Cooke scored twice to get a hat-trick for his efforts. Dave played an outstanding game at inside right. Enrico Franco scored both the fifth and sixth goals while Jerry McGrath finished off the scoring for Moncton.

In the game Saturday U.N.B. had holdovers: Sid Morrell, Bill Russell, Cyril Page, Dave Cooke, and Enrico Franco along with

## EXCITING ACTION

on the UNB field last Saturday, when UNB Red Bombers defeated the Saint Thomas Tommies 32 - 7.  
Photo Credit — VanLoon

St. Thomas found the UNB Red Bombers too much to handle Saturday as they were swamped 32-7 and became number two on the Bombers' list.

Under ideal conditions for football the Red Bombers once again overshadowed their opponents throughout the game. They held the edge in almost every department and stopped everything St Thomas handed out. The game was fast and exciting with many hard blocks and tackles handed out by each team. The defensive team for UNB was a stonewall as St Thomas tried repeatedly to crack through. Unable to do anything on the ground they took to the air in the third quarter. STC attempted 13 passes completing 6 for a total of 93 yards in the air. On the ground the Tommies picked up 167 yards rushing.

UNB was little more air-minded

ed this game attempting 10 passes as compared with only two in their last game. 4 were completed for 40 yards. Two of these were end zone passes that resulted in touchdowns. Once again their strong running attack led the way chalking up 210 yards on the ground. The offensive line who opened the holes deserve a lot of credit for this impressive yardage.

Ed McLellan opened the scoring taking a Madorin hand-off after Pete faked to two other halves going through the line and scooting around the left end for a 15 yard touchdown. The convert was missed and no further scoring occurred in the first quarter.

UNB struck pay dirt again early in the second quarter with Sonny Clarke finishing off a 60 yard march. Mike O'Connor booted the extra point. Arthur

and Perry moved the ball downfield to the 15 yard line. Madorin took to the air throwing a pass into the arms of right end O'Connor, in the end zone. The half ended with UNB leading 16-0.

St Thomas finally hit the score sheet as Brian Jones took a handoff from Terry Gulliver. A strange sight in today's Canadian Football occurred when Butch Ryan, former Fredericton H.S. rugby star dropkicked the convert. The Red Bombers added two insurance markers in the fourth quarter. Jim Ross who played well offensively crashed through from the 15 yard line and Sonny Clarke added his second touchdown taking an end zone pass from quarterback Pete Madorin.

The Red Bombers suffered severely from penalties being nailed for 90 yards and STC for 15. The main offense was illegal

interference as the officials closely watched the blocking. A 25 yard penalty for unnecessary roughness was handed out against UNB.

The defensive line for UNB was outstanding. Don Goss, Ken Maxwell, Tom Doyle, Stan William, and Jack Davis broke up numerous St Thomas plays. They hit hard and charged fast. Clarke was the scoring leader with 12 points, O'Connor 7, McLellan 6, and Ross 6. The other point was credited to Madorin who kicked a rouge.

Although Bill Perry did not figure in the scoring he was an offensive star carrying the ball 11 times and setting up several touchdowns. Ken Maxwell did a capable job of kicking, outdistancing his St Thomas counterpart by a 10 yard average.

## Fashion for the Young and Young at Heart

There's a touch of the Ivy League to the Rand Button down collar. Here you have a soft casual looking style that is built for comfort, yet a style that always looks neat. The button down points never curl and the spread shape adds a little extra style.

"For Those Who Prefer Quality"

FREDERICTON, N.B.  
(BOTH SIDES OF THEATRE)

the newcomers: Joseph Szammer, Mike Fulop, Gordon Stirling, Art MacKay, James Young, John Drew, and Imre Nemeth. Not with the team for the first game but who will probably be playing in the future are: Lorne Baker, Leon Taylor, and Dick DaCosta. Taylor and DaCosta were named as starters in Saturdays game but were unable to attend.

Although the boys had only three practices under their belts and were lacking in conditioning they gave a good showing for themselves and with more practices and games coming up, they should be strong competitors for the Maritime Intercollegiate Championship which Mount Allison has won for the past two years. U.N.B. meets Mt. A. on the swamp on Oct. 19 and is back at College Field on the 26th. It appears that the boys are stronger this year and Coach Jim Burryman has had 27 hopefuls trying out for the eleven positions. This year there are boys from England, Scotland, Greece, Germany, Jamaica, Brazil, Granada, and from all parts of Canada including Winnipeg, Ottawa, Minto, St. Stephen, Fredericton, and Amherst.

## UNB Wins Cross Country

The UNB Cross Country team won their first meet of the new season, defeating Minto on their home territory by two points. UNB placed first, third, sixth,

eighth, ninth, and tenth. Bill Webster was the winner by a slim margin with a time of 10.50 for the two mile race.

and students wishing to enter class teams in either candle pins, five pins or duck pins are asked to register at the athletic office immediately.
